Secretary Taft--Los Angeles Will Hold A Worlds
Fair, 1909-10.

The sub-committee of the Republican Exec. Com of Maui met at the office of Judge A. N. Kepoikai, the presiding chairman. Those present were Judge A. N. Kepoikai, chairman; J. N. K. Keola, secretary; Judge McKay representing Wailuku district, J. J. Newcombe of Lahaina, Edgar Morton, upper Makawao, and T. M. Church, lower Makawao districts. The object of the meeting was to consider the time and place for the nominations, primaries and Republican Convention. Saturday, May 6th, was decided upon for the precinct clubs to meet and receive the nominations for delegates to be elected at the precinct election one week later, May 13. These delegates will be called together in the county convention to be held at Wailuku on Saturday afternoon, May 20. Immediately after the County Convention, which will place in nomination the county officers to be elected June 20, the precinct delegates will meet to appoint their district officers.

Calls number one and two are published in this issue. J. M. Hihii, endorsed by the Precinct Club as jailer, at Lahaina received the further endorsement of the sub-committee of the executive committee.

Extra Session May First

Honolulu April 22.—Governor Carter this morning announced decisively that the extra session of the Legislature will open on May 1. The Governor will probably leave for the Coast in the Alameda June 8 and meet Secretary of War Taft in San Francisco. He will then return with the Taft party in the steamship Manchuria, which leaves San Francisco July 8.

With regard to the nomination of three new Commissioners of Public Instruction to take the place of C. L. Hopkins, Mrs. Elizabeth Van Cleve Hall and J. S. B. Pratt, whose appointments the Senate yesterday refused to ratify, the Governor stated that it was necessary for him to take speedy action. He intended to confer with Superintendent of Public Instruction Davis about the matter. A number of names had been suggested to him, but he had not come to any decision yet.

Secretary Rodgers Resigns.

Honolulu April 24.—Dr. Rodgers' resignation as secretary to the Board of Education was presented to the board this morning and E. W. Estep was appointed to fill the vacancy. The doctor's resignation was accepted to take effect June 30, and Estep will begin to serve on July 1. The new secretary has been connected with the school department as a teacher, for about 18 years on Hawaii and Oahu.

He is also an attorney at law and has had business experience.

Dr. Peterson Superintendent.

Honolulu April 19.—Dr. Peterson was selected by the Board of Health yesterday afternoon as Superintendent of the Oahu Insane Asylum to succeed the late Dr. H. C. Sloggett. Dr. Peterson has long been connected with public health matters and is regarded as a competent man to administer the affairs of the institution.

Labor Commissioner's Mission

Honolulu, April 25.—Labor Commissioner Neill will leave today for Maui where he will investigate the plantation labor system for the United States government. Mr. Neill, before his appointment as commissioner, was professor of economics in the Catholic University at Washington. He is an agreeable man, a personal friend

of the President and he takes a deep interest in the problems of the Territory.

Speaking of his mission to a reporter of a San Francisco paper, Mr. Neill said:

"While I naturally have the greatest confidence in the work being done in Honolulu by my assistant, Mr. Clark, I feel that it would not be quite right for me to base my future report to the President on a report of another, especially when it will concern conditions 2000 miles away and of great importance to the people of the United States. As a government official I do not deem it proper, at this early date, to make any forecast as to what action may be taken by Congress at its coming meeting, but I feel confident there will be much legislation regarding labor, and I know that the President is deeply interested in the question and will naturally want all the information that may be obtained."

Today she evaded her guard, striking one of them in the face with a heavy bunch of keys. She climbed to the roof of the hotel, and was starting to attempt to reach the ground by a guide wire when she was captured by an attendant after a hard struggle. When brought into court this afternoon Mrs. Craven presented a pitiful sight, pleading with the Board not to send her to the insane hospital.

SATURDAY, APRIL 29, 1905

The Star of April 22, publishes a plate photo of Mrs. Harrison Gray Fisk the actress, but the description reads of John D. Rockefeller's palatial car known as the "Billion Dollar Express."

What is the matter with the Maui Athletic Association that they are so dilatory in organizing a base ball league. Take a little of the same enthusiasm as Lahaina has just shown and good results are bound to follow.

Governor Carter is in favor of putting the roads around the various islands in such shape as to permit of automobile touring. No doubt that is an excellent idea so far as Oahu is concerned, but the residents of Maui will be more than satisfied with roads safe for a "common peoples" touring car, to navigate.

When Spreckels left Hawaii in revolutionary days he is said to have made the remark that he would not return to Hawaii till the grass grew in the streets. Road Supervisor Johnson is out killing grass.—Bulletin.

Just tell him it is Hilo grass and let it go at that. He will understand after a visit to the Crescent City.

This Legislature came in like a missionary and is going out like a cannibal.—Advertiser. Suppose we try the Democratic kind next time. That brand can be depended upon to remain one thing or the other.—Independent.

Bourbonism in the islands is generally the other, Deacon, although you are a high proof enough.

With the completion of the new Keanae-Kailua and Keanae-Peahi road, West Maui will have a scenic road which for grandeur and beauty will equal if not surpass the much lauded pali road of Oahu. Coming from Keanae to Wahine Pe gulch the view is magnificent; in many places the cliff is very precipitous, ranging from 200 to 1000 feet steep, and is substantially walled where at least it is dangerous to man or beast.

Considerable credit is due to Hugh Howell, who was the man behind the instrument, and to Wilson & Duggan for the careful and thorough manner of constructing the road. Much of the natural, wild beauty of the scenery still remains and should afford landscape artists many a day's thoughtful study.

The sentiment which Japan holds towards Uncle Sam, is best shown as expressed by Baron Kaneho at a banquet tendered the officers and delegates of the Military Order of Foreign Wars, when he said:—

"When you sent Commodore Perry fifty years ago, you introduced us to the world and to Western civilization. Since you introduced us to Western civilization we have reorganized our army and made the Emperor the head of it. We teach our soldiers never to fight with our neighbors, and you, gentlemen, can rest assured that we will not declare war with a foreign power unless it is forced upon us. As long as the Philippines are near us we welcome you as our neighbors, and we always come to you as your protegee."

Inasmuch as it appears to be the policy of the Administration to entuse new and younger blood in the Department of Public Instruction the suggestion has been made that the Board of Commissions be enlarged to include a representative from each island, or better still create an Advisory Board to consist of the Superintendent, the Commissioners and a representative from each island, who shall serve without pay. The representatives from the islands to be recognized men of standing in the business community. The object in having men of business ability to serve would be that their practical idea would lend much to the efficiency of the department in putting it on a solid systematic basis.

The Board of Trade of Hilo is having samples of Olona fiber prepared for the purpose of submitting the same to experts and manufacturers, with a view of finding a market for the product, which is growing wild on the mountain slopes of Hawaii. Olona is equal to the best Manila hemp, and its durability is unexcelled by any other known rope fiber. Specimens of olona fishline used years ago by native fishermen attest to its durability and strong qualities. Something like a year and a half ago samples of Olona were specially prepared and sent to the Department of Agriculture at Washington and by them distributed to various rope factories who made a test of the same, but as there was no machinery in use which would develop it satisfactory the report was far from satisfactory. The manufacturers claim that to properly handle this fiber and make it of commercial value, would require the building of special machinery which of its self would make rope or twine manufactured from Olona a rather expensive proposition, especially as there are so many more known fibres growing for which machinery is built, they would not encourage the shipment of Olona.

Annual Meeting of H. C. & S. Co.

San Francisco, April 13.—The annual meeting of this company was held yesterday and annual reports covering the operations of the calendar year 1904 were submitted. President Baldwin's report showed the affairs of the corporation to be in excellent shape and more satisfactory than for any previous year in its history. In brief he said the year 1904 was a prosperous one, although in some respects not quite as good as 1903. The price of sugar was better than in 1903, but the crop fell below expectations owing to the damage caused by the leaf-hopper. The crops of 1903-1904 from 4414 acres was 29,620 tons of sugar, while the yield in 1904-1905 from 4830 acres will be 35,500 tons. The company now operates five pumping stations for irrigation purpose, and has an abundant supply of water. The net returns for the crop of 1903-1904 was \$2,274,481.55. In response to inquiries as to the present status of the company's affairs, the president stated that the corporation had \$121,000 cash on hand and that 11,600 tons of sugar afloat, the value of which, plus the cash on hand, aggregated \$1,100,000. All told, the crop, now partially gathered, will amount to 35,500 tons. Including the sugar heretofore accounted for and the 11,600 tons yet to come in. This makes the total visible cash resources \$2,500,000. Reports as to the condition of the growing crop are favorable.

Japan Places Internal Loan.

London, April 18.—The correspondent at Tokio of the Standard says that a fifth domestic loan of \$50,000,000 has been satisfactorily arranged on the same terms as the fourth domestic loan.

There will be a game of baseball on Sunday April 30th, 1905, at 2:30 p. m. between the Junior Stars and the Waikapus. A fee of 10c. will be charged to see the game, it is worth seeing. This will be one of the best games. All are invited. Come One Come All. Dont fail.

Nevadan Loses Propeller.

Honolulu, April 25.—The American Hawaiian liner Nevadan is likely to be behind schedule time in reaching this port on account of an accident where she lost her port propeller. She left San Francisco on the 8th of April for Seattle and Tacoma, leaving the latter port on her way to San Francisco and this port on the 12th. When the steamer was about thirty miles south of Cape Flattery the big port screw broke off and went to the bottom. Captain Greene turned his ship around and with one propeller made his way to Seattle where repairs will be made.

Japan's Gratitude To United States. NEW YORK, April 12.—Declaring that it was the United States, that gave to Japan the guns, the smokeless powder, the telephones and telegraph with which victory on the battlefield had been won, Baron Kaneko of Japan aroused great enthusiasm at the banquet tendered tonight by the New York commandery to the general officers and delegates attending the fourth biennial convention of the military Order of Foreign Wars. "When you sent Commodore Perry fifty years ago," said Commander Kaneko, "you introduced us to the world and to Western civilization. Since you introduced us to Western civilization we have reorganized our army and made the Emperor the head of it. We teach our soldiers never to fight with our neighbors, and you, gentlemen, can rest assured that we will not declare war with a foreign power unless it is forced upon us. As long as the Philippines are near us we welcome you as our neighbors, and we always come to you as your proteges."

Death of James H. Thomas. Hilo, April 20.—James H. Thomas, for many years engaged on plantations throughout the Territory, died of heart disease at the Hilo Hospital early yesterday morning April 19. His last employment was with Olau Sugar Co. Deceased had been ill for several months but at intervals was able to go about town. During the past month his condition has grown more serious and on Monday Doctor Holland was consulted. He advised that he be taken to the hospital, the Government providing accommodations for such cases. The suggestion was acted upon and Mr. Thomas was removed to that institution on Tuesday morning. Combined with his heart ailment there was a lung affection. Deceased was at one time a Mason and Knight of Pythias. He leaves a large family in straitened circumstances.

A Teutonic Warning. A subscriber in Shanghai sends us a copy of Die Zukunft for January 7, 1905—a journal published in Berlin—and marks the following passage from an article entitled "Port Nikolaus," which we translate: If the war proceeds, the race consciousness of the neutrals may become stronger than their hatred of Russia. It should be remembered in London that the president of the Japanese House of Peers at the time of the mobilization, wrote as follows: "The sacred duty is incumbent upon us as the leading state of Asiatic progress to stretch a helping hand to China, India, Corea, to all the Asiatics who have confidence in us, and who are capable of civilization. As their most powerful friend, we desire them all to be free from the yoke which Europe has placed upon them, and that they may thereby prove to the world that the Orient is capable of measuring swords with the Occident on any field of battle." A year has elapsed since then, and to one remembers the haughty words which came straight from the heart of the yellow warrior nation. Joy over the disaster to the Muscovite is to loud. Yellow peril? Such nonsense. It is a good thing for Europe that the insular, inert, and completely corrupt Russians are "having it rubbed in." The more they get the better. Those who talk like this must actually fancy that Japan can annihilate Russia, or hope that victory will moderate the insolence of Japanese prestige. Both the belief and the hope are false. Russia has as much food for the cannon as she will need. Her finances are sound, in spite of all the prayers of the press to the contrary. And Japan, if she reaches her aim in the first encounter, will never rest until she has driven the blonde barbarians from the East, and until, in spite of the opposition of the Manchu dynasty, she has shaken China from her slumbers and has taken unto herself the trade of that enormous region.—Argonaut.

Wants Taft to Visit Australia. MANILA, April 12.—Governor-General Northcote of the commonwealth of Australia will, it is understood, invite Secretary of War Taft and party to visit Australia during the party's forthcoming visit to the Philippines. The commonwealth of Australia will defray the entire expense, it is said. The American Chamber of Commerce of Manila is preparing to entertain Secretary Taft and party on an extensive scale during their stay in Manila.

Joe Jefferson at Death's Door. West Palm Beach, Fla., April 18.—The condition of Joseph Jefferson, the veteran actor, has undergone a change for the worse, and the outlook for his recovery is not so hopeful. Physicians have been in constant attendance at his bedside, and report him as very weak. The members of his family who are not already with him have been telegraphed to come. At midnight he rallied somewhat. Dr. Potter, his physician, and some members of his family have retired. It is thought he will at least live through the night.

No More Numbered Ballots. "No," said Secretary Atkinson this morning, when asked if there were to be numbers on the ballots in the coming county election. "You can quote me as emphatically as you want as saying there will not be any numbers on the ballots. The election law will be followed to the letter in every respect and that is all there is about it." This may mean a good deal of confusion and misunderstanding at the polls. The law does not provide for the various instructions issued for the benefit of precinct officers and voters last time, any more than it provides for numbers, and it is predicted that there will be numerous mistakes among the ignorant voters. It is also claimed that the lack of numbers on the ballots opens the door for fraudulent use of fake ballots, but in view of the contest begun in the courts over the numbering of ballots last time, there will be no more numbering until the law is changed.

Important Point Raised in Senate. Honolulu, April 21.—The most interesting feature of today's Senate Session was the sustaining of the Governor's veto of the liquor bill. Hewitt brought up a very interesting and possibly very vital point. When the Governor's veto of the bill was received Clerk Savidge discovered that the veto message referred to the bill under a different title from the one the bill bore which was given to the Governor by the Legislature. Yesterday, when the matter was brought up, the mistake was regarded as a harmless clerical error and the veto message was handed to a committee to get corrected, which was done. Today Hewitt held that the bill which the Governor vetoed was not the liquor bill but a mere nothing at all, phantom with no real existence. In the meantime the real liquor bill had consequently been in the Governor's hands over ten days without being acted on and was accordingly law. The question caused some consternation, but the senate finally decided that it was for the courts to determine the matter and went on with action on the veto.

Terry McGovern a Wreck. Hot Springs (Ark.), April 12.—With his mind deranged and completely broken down in health, Terry McGovern, the former lightweight champion of the world, will be sent from here to-day to a private sanatorium in the hope of regaining his health. He is under the constant guard of a male nurse.

Mr. Chas. Hoey has made a special feature at the Crown Theatre, Fort Worth, Texas, of Arthur J. Lamb and S. R. Henry's new ballad "When The Harvest Moon Is Shining On The River." It is also being featured with great success by the "Messenger Boy" Trio.

Miss Edith Yerrington, one of the stars in the cast of "Smiling Island" (a comic opera now enjoying an extended run in Chicago), is featuring three of Jas. W. Stern & Co.'s songs, with contribute in a great degree to the general success of the production. The songs comprise "Black-eyed Susan," a clever number by Cole & Johnson; "Any Old Tree," a song satire hit by Dick Temple; and "Dingle Dongle Dell" the latest successful effort by Clare Kummer, composer of "Egypt."

A paper published in Florida, in announcing a forthcoming wedding, says that "the bride-elect is a queenly looking girl of a superb physiognomy.—New York Tribune.

Mix it Yourself and You know its Good.

"KINLOCH HOUSE PAINT"

BECAUSE "Kinloch" is not a ready-mixed paint, and in buying it you pay a fair price for the Concentrated and Pure Paint alone, and the market price for Raw Linseed Oil, and know **what you are getting** instead of paying the ready-mixed paint price for the canned "oil" that constitutes half its bulk, when the market price for the pure oil is only about one-third that you have to pay for the canned oil in the ready-mixed.

BECAUSE A 14 year-old boy can mix the "Kinloch" and the oil; Simply stir them together, gallon for gallon, no more, no less, and nothing else; and you have an absolutely pure linseed oil paint ready for the brush. All the necessary driers, turpentine, etc. (everything except the raw oil) are already ground into the Kinloch Paint.

BECAUSE "Pure Linseed Oil is the whole Life and Durability of any Paint"—the practical painter's commonest axiom—and when you buy "Kinloch" and get the Raw Oil separately, you thus remove almost the soul source of paint adulteration, and secure your own absolute knowledge and guarantee of the basis upon which all paint durability is founded.

The Wire In War.
 Twenty years ago one's youth al-
 ways saw the battle through the eyes
 of the galloping aide-de camp. One
 followed him from that little clump of
 trees which marked the general's
 headquarters out into the field, down
 the little valley, into the white, roll-
 ing smoke beyond which lay the
 battle between the — corps and
 the — division of the enemy. Im-
 agination had a few lapses, possibly
 during the journey, and then leaped
 on, and one was with the commander
 of the — corps in the thick of the
 fight, and above the roar of musketry
 — the dull, silent boom of the field-
 pieces—one heard the sound of a gal-
 loping horse. One always looked up
 and saw the foam-flecked steed plung-
 ing wildly on, and the aid-de-camp,
 begrimed, bloody, grim, waving the
 orders above his bared head. It was
 fine, even in a wood cut.
 But one regrets to observe that
 the present conflict between Russia
 and Japan is unmarked by any of
 these valorous deeds. So far as is
 known no aid-de-camp have fallen
 dead at Oyama's feet with their
 messages barely delivered. The gal-
 loping horse of the wounded messen-
 ger has been omitted. Instead, Mar-
 shall Oyama pokes his finger into a
 bell button and calls an orderly.
 "Le good enough to ring up War 655
 and tell Colonel Fujiyama that he is
 to keep on fighting, for General Hi-
 roshima's brigade is coming. Ring
 up March 3467 and tell General Hiro-
 shima that he must relieve Colonel
 Fujiyama at 9:43, and I shall expect
 the Russians to begin to retreat at
 10:07." Having delivered this order,
 Field Marshall Oyama will pick up a
 knee telephone and listen to the
 reports of all his commanders within
 the range of one hundred miles.
 It is the wire that rules destinies
 nowadays. In olden times discreet
 ancestors, disliking to be continually

asked questions for which the answer
 was not known, stated with the ut-
 most dogmatism that curiosity in one
 instance resulted in the decease of a
 cat. But in this hour when we know
 of Kuropatkin's defeat as soon as
 does his Czar, we have added to the
 adage of our fathers the comforting
 assurance that information brought
 the cat to life again. The only ques-
 tions left unanswerable are those
 pertaining to humanity. There is no
 wire in the human heart. But the
 old, loved, adored aid-de-camp knew
 the way there.—S. F. Argonaut.

Federal Secret Service
 Washington, April 19.—Chief
 Wilkie has started for Honolulu
 where he will establish a branch of
 the United States secret service.
 John Elbert Wilkie, chief of the
 United States Secret Service, was
 born in Elgin, Ill., April 27, 1860.
 He graduated from Chicago High
 School. He began newspaper work
 on the Chicago Times in September,
 1877, and was twice abroad as its
 representative. In 1881 he joined
 the local force of the Chicago
 Tribune and was successively re-
 porter, assistant city editor, city
 editor and commercial editor until
 1893. In that year he went to
 London and engaged in banking and
 steamship business. In 1896 the re-
 turned to the United States and
 resumed special work on the Chicago
 newspapers making a specialty of
 criminal investigations. He was
 selected by Secretary Gage as chief
 of the United States Secret Service
 in February 1898 and organized a
 special emergency force of men to
 checkmate the Spanish spies during
 the Spanish-American war. He
 succeeded in driving from this
 country the chief Spanish emissaries
 and arrested their best spies. He
 married April 27, 1882, Miss Janet
 Ormsbee.

Rubber Cultivation in Ceylon
 There have been attempts, mostly
 experimental, during the last twenty-
 five years or more, to cultivate rub-
 ber in Ceylon. One thousand nine
 hundred plants of Para rubber (He-
 vea brasiliensis) were imported in
 1886 in Wardian cases, 90 per cent.
 of which arrived safely. They were
 to be nursed in the local government
 gardens for transmission to Assam,
 Burma, and other hot, damp prov-
 inces of India. The Hevea and Cas-
 tilloa, were the first to receive at-
 tention for local purposes, while the
 Ceara secured the attention of coffee
 planters for a time, owing presuma-
 bly to its rapid growth at Henerat-
 godo Gardens, 17 miles from Colombo
 —elevation: 64 feet above sea level.
 This growth amounted to 2 feet per
 month, and planting experience
 seems to indicate that it would grow
 almost anywhere in Ceylon up to
 3,000 feet elevation. Doctor Trien,
 the late director of the Royal Bot-
 anical Gardens at Peradeniya, re-
 ported in 1883, re Ceara, as follows:
 "While it is found that the yield of
 individual trees varies extremely,
 none of the experimenters are satis-
 fied that the small quantity obtainable
 by present methods is sufficient to
 make the cultivation profitable at
 existing prices of rubber."
 The price of rubber at that period,
 in London, was equal to 45 cents per
 pound.
 In a report a year later (1884) he
 hazarded an opinion that "trees of
 an older growth and larger size
 might yield more milk," and adds
 that "one of the original trees at
 Peradeniya nearly 8 years old and
 about 14 inches in diameter has late-
 ly been cut down in making a new
 path; this tree had been thoroughly
 drained of milk in 1882, but now, on
 repeating the operation, nearly 1 1/2
 cents' worth of rubber was obtained
 by the destruction of a tree which
 had not been tapped for two years.

Plans to Enlarge Oahu College.
 Honolulu April 20.—The trustees
 of Oahu College have some large
 building plans in contemplation,
 plans which will require \$150,000 to
 carry out, and already \$70,000 of the
 amount has been pledged, \$20,000 by
 one man and \$50,000 by another.
 P. C. Jones, one of the trustees,
 who made this announcement at the
 Bingham Memorial dedication yester-
 day afternoon, says he does not
 think there will be any difficulty in
 securing the whole amount required.
 The plans in contemplation include
 the tearing down of all the dormitory
 buildings except the red brick one,
 and the removal of the President's
 residence to about mauka of Charles
 R. Bishop hall. Then two dormi-
 tories, one for boys and one for girls,
 are to be built nearby connected
 with colonnades, with a dining room
 in between.
 This will open up all the space
 now occupied by the present dormi-
 tory buildings and permit of re-
 arrangement of drives and walks,
 and a plan for the progressive de-
 velopment of building operations.
Mont Pelee Again Active
 Paris, April 17.—A despatch to
 the Matin from Fort de France,
 island of Martinique, says Mount Pe-
 lee is again active. It is discharging
 molten lava, flashes of light are
 seen issuing from the crater and
 rumblings are heard underg round
 in the vicinity of the mountain.
 New Missionary—"Can you tell me
 what has become of my predecessor?
 Cannibal Chief—"He made a trip into
 the interior."—Washington Life.
 "I wish Willie Saphed would hurry up
 his proposal." "But you ain't going to
 accept him." "I know it. I want him
 to propose so I can get rid of him.—

LEONARD CLEANABLE REFRIGERATOR

Keeps Food Fresh and Clear.

If you want a real good Refrigerator—one that has been tested and not found wanting, we do not hesitate to recommend the "Leonard Cleanable Refrigerator."

Refrigerators that are damp and allow food to become mouldy give lodgement to germs.

A microbe hasn't a chance to live in a "Leonard." It is dry, safe and reliable because it is made on the most scientific principles of refrigeration. It has tight walls, porcelain lined, air-tight doors, and its perfect air circulation will not permit the different varieties of food to taste of each other.

When you see it you will instantly recognize its superiority over other refrigerators.
