

ANARCHISTS ESCAPED HERE

PECULIAR ESCAPE OF THREE RUSSIAN PRISONERS FROM THE TRANSPORT SHERMAN—NOT ALLOWED TO LAND IN AMERICA. THEY WERE BEING RETURNED TO THE ORIENT AS STOWAWAYS AND GOT AWAY YESTERDAY.

There are three Russians alleged anarchists in town, escapes from the transport Sherman, who are said to have been not allowed to land in America on account of their undesirable character. Their escape from the transport Sherman was under very peculiar circumstances, and is a good deal of a mystery.

The three men got out of the brig yesterday in some unknown manner and got ashore, and the steamer left without them. They had been carried all the way from the Orient to San Francisco, to Seattle and back here, the intention being to take them back to

Japan where they had stowed away, but in some way or other, with the assistance of some outsider, they got away here.

That they were regarded as important prisoners is shown by the fact the officer responsible for them made a personal offer of a hundred dollars for their recapture. Just before the transport sailed. It is also said that the national authorities on the Mainland had information regarding them and that President Roosevelt was in part responsible for instructions that they be not allowed to land at San Francisco, but instead be returned to the Orient.

Sailors Kick On The Food

DEPOSITIONS AND EXHIBITS ARE PILING UP IN THE SEAMEN'S CASES.

They sailed the sea for many a day, then came ashore in a rush.—The ship was stout and so they say. Were the maggots in their rice.

They sailed by night 'neath a tropic moon.—They deserted here in a trice.—They sang to the court in doleful tune; Of the weevils in their rice.

They braved the doldrums without fear. The thunder clouds they flouted, They left like quilters,—deserted here—Because their Murphies sprouted.

And so they tracked to the district court.—They call their treacle salty.—With many a howl their lawyer fought. To prove the coffee faulty.

They brought to court a mustard pot.—They bet their bottom nickles That e'en the salt was gone to rot. And rotten were the pickles.

United States Commissioner Mallin has a bottle of pickles on his desk and a can of mustard. The contents of both are alleged to be rotten. The commissioner is still taking testimony in the damage suit against the ship Hawaiian Isles and the bark Wilscott, and the mustard and pickles are a part of the results. They are exhibits

Fusion Is Assured

WHAT COL. CURTIS P. IAUKEA SAYS ABOUT POLITICAL CONDITIONS ON THE BIG ISLAND.

"Fusion between the Democrats and Home Rulers is an assured condition on the island of Hawaii," said Col. Curtis P. Iaukea yesterday. "I returned last Saturday from a three weeks tour of the Big Islands. During that trip I visited every district in the island and in every district is the sentiment in favor of fusion predominating. The sentiment of the people on that island, and especially the Home Rulers, was that they would not allow the Honolulu people to dictate to them in the matter and that they would conduct their own affairs.

"I have been given to understand that the delegates to the coming Home Rule Territorial convention which meets in July, are to be instructed to favor fusion with the Democrats. Efforts have been made by prominent Home Rulers on this island, to persuade the Home Rulers on Hawaii not to fuse but the indications are that these efforts will be fruitless. There is the utmost feeling of cordiality among the Democrats and Home Rulers of Hawaii. In some places they have joined the game precinct club and have divided the offices, a Democrat being president for instance and a Home Ruler vice president. The prospects are very bright, so far as the big island is concerned.

"I did not advise the people to support Kubio for renomination. Fusion in that respect was not a matter that I was concerned with. I was asked by Hawaiian Democrats to go to Hawaii to make a tour of the island in the interest of fusion and the general proposition of fusion as regards the delegate was not the object of my trip. That is a matter that will be discussed by the territorial conventions. I told them that I was not to be a candidate for delegate.

BAND BOYS AT CAMP M'KINLEY

ALL THE MEMBERS OF THE BAND ARE QUARTERED AT THE CAMP CANTEN OF CAMP M'KINLEY.

All of the band boys are quartered at Camp McKinley awaiting the sailing of the S. S. Korea tomorrow. They have been there since yesterday noon.

The boys are quartered in the Camp Canteen about half of which building is given over to their use. Each member of the band has a cot to himself and is provided with a mosquito net. At the canteen one can buy soft drinks and the like, while their sustenance is furnished them. Joe Cohen made arrangements with Major Van Vliet for quartering the boys here while waiting for their steamer. The boys who are married have been given more private quarters. The boys amuse themselves by giving concerts and the like.

COURT AIDS SAILING SHIP

JUDGE DERBY DECIDES TO TRY ASSAULT CASE IMMEDIATELY NOT TO DETAIN DIRIGO.

Jim Davis the second mate of the ship Dirigo was arrested this afternoon on warrant charging him with assault and battery. The warrant was issued on complaint of James Thomas a negro sailor on the vessel.

Judge Derby decided to take up the case immediately as the vessel was ready for sea and if the case were not held until tomorrow, an unnecessary delay in her departure would occur. It is expected that she will be able to get away for Delaware Breakwater this afternoon.

The boys will be brought in tomorrow morning as the Korea sails at noon.

BEST TO ERR ON THE SIDE OF MERCY

ACTING GOVERNOR ATKINSON ON THE KOREAN COMMUTATIONS—EVIDENCE SHOWS THE TWO SAVED FROM HANGING LESS GUILTY THAN THE REST AND THE EXECUTIVE FEELS THAT THE RECORD STILL SHOWS MUCH SEVERITY.

"It was better to err if at all on the side of mercy," said Acting Governor Atkinson today in discussing his action with regard to the Koreans whose sentences he commuted. "I can only say that I used my best judgment. The evidence in the case certainly shows much less guilt on the part of the two men commuted. One of them actually used violence to stop the crime at one time,—he took a stick away from a man who was using it to beat the victim, and broke it up.

"It is a serious matter to have the responsibility for human lives, and though criticisms may be passed, I am satisfied with what I did. As I have said, it is best to feel that there was too much leniency rather than that we took lives unjustly, and after all there is not much sign of leniency in administration of the law when we hang three men and give two others fifteen years hard labor for the murder of one."

MURDERERS' ROW FILLS UP AGAIN

TWO KOREANS TAKEN FROM THE DEATH WATCH TO HARD LABOR GANGS AND THEIR PLACES ARE IMMEDIATELY FILLED BY TWO OTHER MEN UNDER DEATH SENTENCE, BROUGHT FROM HAWAII THIS MORNING.

After a month under the death watch Koreans number 5 and 6 were removed from their gloomy murderers' cells this morning and they saw the light of day again, as fifteen year term convicts. High Sheriff Henry had them dressed in the garb of long term men and put to work this morning. They vacated their cells just in time, for Murders' Row was overcrowded and two more men under death sentence arrived by the Mauna Loa this morning. The Row is full again and the death watches pace to and fro guarding eight condemned men, four of whose dates of execution have already been fixed.

"The two reprieved men received the news of their commutation calmly," said the high sheriff this morning. "They seemed to think fifteen years a long time. As far as I am concerned I feel that the action of the executive

was right. It seems that the records from Hilo and the letter of defendant's counsel operated to give a wrong impression of the case. A study of the complete transcript placed the matter in a different light."

The gallows will be erected in the yard of the prison early tomorrow morning, for the execution of the three Koreans remaining under death sentence. The warrants provide for their execution at any time between the hours of eight and five, and the high sheriff intends to proceed with the matter after eight o'clock. The men will be allowed such religious attendance as they desire.

The two murderers to arrive this morning are Okumoto and Lorenzo Colon, Japanese and Porto Rican, convicted at the recent term of the Kailua circuit court. The death warrants in their cases have not yet been signed.

THE PRECINCTS

Acting Governor Atkinson says that the precinct matter is to be taken up by him again and it is not at all settled that there will be no changes in the precinct boundaries. "I stated to the County Committee that I had not acted in the matter," said the executive, "and that statement is true. It is a fact that the office force has been at work upon new maps, under general instructions to go ahead with such preparations, but I have not yet personally gone over their plans. It was therefore not just for the County committee to criticize me as if I had already acted."

In the window of M. McNerny's establishment on the corner of Fort and Merchant streets is a group picture of the members of the National Republican committee. Among them is A. G. M. Robertson.

TO DELAY DIRIGO

It is likely that the ship Dirigo will not depart on time this afternoon for Delaware Breakwater. A warrant was sworn out just before she was to be towed out, against the second mate charging him with assault and battery. One of the sailors swore to the complaint.

TANTALUS LANDS.

A) application for the purchase of a piece of vacant land on Tantalus has led to the consideration of a new departure in the disposition of lands of this class. The land in question consists of 4.86 acres, between the lands of Schmidt and Peterson, and not far from the Cooper, Davis and Brown places. Land Commissioner Pratt favors 21 year leases in small lots for residence purposes, believing that at the end of 21 years the government will probably want the lands for a park.

MAIL DUE TOMORROW.

Mail is expected from San Francisco by the S. S. Doric tomorrow afternoon. She is on route to the Orient.

A GOOD SUGGESTION.

Mr. C. B. Wainwright of Lemon City, Fla., U. S. A., has written the manufacturers that much better results are obtained from the use of Chamberlain's Colic, Cholera and Diarrhoea Remedy in cases of pain in the stomach, colic and cholera morbus by taking it in water as hot as can be drunk. That when taken in this way the effect is double in rapidity. "It seems to get at the right spot instantly," he says. For sale at all dealers. Benson, Smith & Co., agents for Hawaii.

ANDREW WELCH WAS DAMAGED

WELL KNOWN VESSEL WAS INJURED BY THE COLLAPSING FREIGHT SHED.

The bark Andrew Welch, Captain Drew, arrived from San Francisco Sunday evening but stood off the harbor until yesterday when she came inside. She was 18 days coming down and had an uneventful passage. She brought about 1,500 tons of freight, including a large shipment of rails for this port. She will load sugar immediately and return to San Francisco.

Captain Drew was in San Francisco during the catastrophe. He broke into the office of Welch and Company the agents of the vessel and saved some of his effects and some of the property of the concern. Three fine pictures were among the articles saved by him. But later they were probably destroyed as the fire advanced far beyond the particular point on California street where they had been left.

The Andrew Welch was injured by the earthquake. The shed at Union street wharf No. 2, where she was lying on April 18, collapsed and some of the shed fell on the vessel, smashing part of the rigging. No one was injured. The hull of the vessel was not damaged.

IMPEACHMENT OF KEKAUOHA

WILL BE HEARD BY THE BOARD OF SUPERVISORS SITTING AS A COURT TONIGHT.

The impeachment proceedings against Deputy Sheriff George K. Kekauoha of Koolau will be heard by the board of supervisors sitting as an impeachment board tonight at 7:30 o'clock.

It has been some time since the formal charges against Kekauoha were presented to the board. County Attorney Douthett has been busy during that time work up the evidence against the accused official. Three charges have been preferred against Kekauoha. The first accuses him, in brief, of offering to "square" the prosecution of one Akina charged with unlawful sexual intercourse with a girl under 14 years of age, for \$250. The second charge is based upon the experience of Wade Warren Thayer the attorney, and in effect, is that Kekauoha obstructed justice in a certain case of Leong Wah Kee. It is alleged further, that Kekauoha deliberately took the shotgun away from Leong's store, telling the Chinese that he had no right to have the weapon. The third charge is that of incompetency in office in connection with the holding of an inquest and the arrest and custody of a Japanese alleged to have murdered a countryman at Kahuku some weeks ago.

The first charge will, in all likelihood, be heard first. The witnesses have to come from the country and it is desired to have them finish their evidence as soon as possible in order that they will not be detained unnecessarily in the city.

The impeachment proceedings are for the purpose of removing Kekauoha from office. The following are the witnesses for whom subpoenas have been issued. The subpoenas are being served today.

Sheriff A. M. Brown, Chester A. Doyle, Joe Leal, Leong Wah Kee, Akina, Eunike, Kakaikumu, I. B. Nainoa, Solomon Katokeu, Wade Warren Thayer, N. Fernandez.

ADMINISTRATOR NEGLECTFUL

The Supreme Court gave a decision yesterday criticizing the accounts of J. H. Coney as guardian of Isaac Kalu, and surcharging him with \$567.58. The court finds the guardian to have been derelict and passes some severe comments on the conduct of the estate.

There were two decisions on the subject, one in the guardianship matter and the other relating to the estate of Isaac Kalu, deceased. In the latter the sum surcharged is \$970.99. The administrator's fees are reduced, for neglect of duties.

WEEKLY WEATHER BULLETIN

For the Week Ending May 19, 1906.

GENERAL SUMMARY.

During the past week the weather has been generally partly cloudy, and has continued warm in all portions of the Group, daily temperatures averaging only slightly higher than those of the preceding week. The days have been fairly sunny, but on account of the frequent night rains minimum temperatures have remained comparatively low.

Though in windward districts moderately heavy rains have fallen, the precipitation of the past week, as compared with that of the previous week, has averaged considerably less in Hawaii and Maui where only light scattering showers have fallen in the lower levels of leeward districts. The rainfall in Oahu and Kauai shows a slight increase and has been quite evenly distributed over the latter island. In certain sections of leeward districts throughout the Group, and in central Maui, drought conditions are developing, but as yet the supply of ditch water for irrigation purposes is generally sufficient, and pumping operations have been resumed only in central Maui.

The following table shows the weekly averages of temperature and rainfall for the principal islands and for the Group:

	Temp.	Rainfall.
Hawaii	71 deg.	0.95 in.
Maui	74 deg.	0.37 in.
Oahu	74 deg.	0.30 in.
Kauai	75 deg.	0.46 in.
Entire Group	73 deg.	0.65 in.

ENGLISH CHRISTIANITY IN AMERICA

THE ADDRESS OF BISHOP RESTARICK AT THE MEETING AT ST. ANDREW'S IN THE INTEREST OF "THE MISSIONARY THANK OFFERING" BY THE MEN OF THE CHURCH IN GRATITUDE FOR 300 YEARS OF ENGLISH CHRISTIANITY.

The following is the address of Bishop Restarick at St. Andrew's Cathedral Sunday evening at the meeting in the interest of "The Missionary Thank Offering" to be presented at the General Convention in Richmond by the men of the church in gratitude for three hundred years of English Christianity. The theme of the address was "The Relation of the Anglican Church to American Life and Institutions."

When America was discovered, English Christianity meant the religion of Jesus Christ as presented in England by the Church of England. When the Rev. Mr. Pritchard, Chaplain of the Golden Hind under Drake, landed near San Francisco in 1579, he represented English Christianity in the one Church in which, however, the seeds of separation were already sown by Continental Calvinists.

How momentous to the future of the new found Continent was the result of the Spanish Armada. Think of what would have happened if England had been crushed. North America already given by the Pope under his assumed power to the King of Spain, would not have been settled by the churchmen in Virginia or the Puritan in New England, and there would have been nothing to prevent the history of what is now the United States being similar to that of Central America, Venezuela or Cuba.

Do you not think that the hand of God was in all that most pleased? How all these wars and practical enterprises were governed for good is wonderful to

BISHOP RESTARICK.

contemplate. The power of Spain broken, the English with the roving spirit of their ancestors sought their fortunes in the New World.

After vain and costly attempts at settlement, in 1607 a band of Churchmen with a Devout Priest, landed at Jamestown. I have been at that spot and have stood by the ruins of the old Church on the banks of the James. What thoughts that scene aroused of the struggle which led to the possibility of its settlement by men of Anglo-Saxon stock.

So the Church of England was founded in America. It came with its English Bible, its Book of Common Prayer and its traditions, its Apostolic order and its freedom under law.

Then in the North, came in 1620, the Puritans. They said, as they left England, (sent by the help of an English Bishop), that all they had of religion they had sucked from the breasts of their dear Mother, the Church of England. It was strange how soon they seemed to think with some men of a certain savage tribe that to show their independence they must thrash their Mother. But they had too that great gift of the English Church, the English Bible: Their laws, their liberties came from the Church for it was the Archbishop of Canterbury who had led the Barons of England to wrest from King John the Magna Charta, the first words of which were the Church of England is and shall be free. It was in the Church of England, in the Visions of Piers Plowman, in the defiance of Rome by Grossete, Bishop of Lincoln and many others as years went on, until Wicliff and later Dean Colet and other brave men who had in their veins the blood of free Anglo-Saxons cried out against corruption and oppression.

But we can not dwell on the stirring events of the settlement of the Colonies nor how men North and South, who all came under Charter not only to occupy the land, but to preach the Gospel to the Indians, seen were meeting the savages with swords instead of sermons and bullets instead of Bibles until the Indians troubled them no more.

It has been assumed by some that the ideas of liberty which resulted in the Revolution arose among the Puritans and sprang from the Town Meetings of New England. A careful stu-

Carl Smith And His Clients

It seems only fair, after all, to credit Carl Smith with having saved the necks of two of his five Korean clients. It seems hardly likely that the influential interest which was aroused in their behalf, could have been aroused, had it not been for the letter he wrote to the Acting Governor in response to one to him inquiring if he had anything to urge why the sentence of the court should not be carried out.

Up to this time the only voice raised in their behalf was that of Rev. J. W. Wadman, who was only able to urge in their behalf those general sentiments of humanity which shrink from the execution of five for the murder of one, the ignorance of these men of our laws and customs, the great store they placed by their passports which had been stolen, the argument that their action, extra-legal as it was, and criminal under our laws, appeared to them not at all so, and the feeling among the five, and among other Koreans, expressed to him, that the five were not all equally guilty. Rev. Wadman could make no showing, at that time, of unconvincing evidence or that whether or not all were equally guilty, that any of them were not deservedly guilty of the sentence. There was nothing in any plea that Mr. Wadman could make at that time that challenged examination of the verdict or the evidence on which it was based.

But when it was announced that Carl Smith, the attorney appointed to defend these Koreans had in response to a request from the Governor or Attorney General, as to whether he had anything to urge in favor of his clients, replied, declining to say or do anything to interfere with the execution of the death penalty, it jarred on sensibilities accustomed to feel that the relation of attorney and client was too close, too intimate, too sacred, to be viewed in any such cold blooded or dispassionate light as this; that an attorney owed something more than mere perfunctory services to clients, and especially when those clients were, aliens, ignorant, helpless, without knowledge of their rights or influence to secure or protect them. There was something that struck the community as strange in this attitude of an attorney. It had never seen such an attitude in an attorney for clients able to pay for services—and the feeling was strong that every consideration, and more, which would bind a paid attorney to the interests of his clients, ought because of their very helplessness, to bind him to the interests of clients unable to pay.

As strong an effect as these considerations had on the general public they would naturally have a stronger effect on lawyers, tenacious of their duties and privileges. It touched their professional pride, and there is every reason to believe that it was because of this that so many and such influential men were moved to take an interest in the matter, and to ask themselves the question, Have these men had a fair trial? and to examine the evidence carefully, to see whether they have or not.

If this is so, then it is quite possible that Attorney Carl Smith, either by subtle indirection, or by the unexpected turn of affairs, has probably done more for at least two of his clients, than the most insistent and obstinate fight in their behalf could have done. In any event, it seems certain that he has saved the necks of three of his original six clients.

Atkinson And The Precincts

The Advertiser this morning has the following: "It all grew out of a misunderstanding. It seems that both afternoon papers have lately had a good deal to say about what was doing and what was proposed to be done in the matter of changing precinct boundaries, and conveyed the impression while not saying so that all this was the work of the Acting Governor, as a matter of fact the Acting Governor has done nothing."

Last Friday the following appeared in the Advertiser and its correctness could have been verified by anyone who wanted to go to the Executive Chambers to do so:

"A radical rearrangement of precincts, agreeing substantially with the plan prepared by Chairman Robertson of the Republican Territorial Committee, will be given effect in Acting Governor Atkinson's election proclamation."

The fact is that the election proclamation was nearly finished with the precinct changes in it when the County Committee complained. Several days' work have been done in Atkinson's office on new maps and the Department of Survey has been called upon for new maps on which to show the new precinct lines. How easy it always seems to be for a public man to "sidestep" criticism by saying the newspapers report his doings wrongly!

Stoessel And Port Arthur

If it should prove true that General Stoessel has been condemned to death by a military court for his surrender of Port Arthur to the Japanese, this severity is probably the work of reactionaries who are ready to visit on any convenient victim their anger and bitterness at the course of events which seem likely to relegate them to obscurity in the march of progress. If it were any other country than Russia, this might not be a fair inference, for in any other country than Russia, the verdict of the court would carry with it the probability that it was based on evidence and law.

Nevertheless, there is a great deal in what is known of the circumstances to justify such a verdict and sentence. Neither the world at large, nor military men were unanimous in approving Stoessel's surrender of Port Arthur. It is true that General Nogi to whom he surrendered; heaped all kinds of compliments on him for his brave, vigorous, and able defense of Port Arthur, and in Japan he was the recipient of similar compliments and all the courtesies it was possible for the Japanese to shower on him. In America and Europe there was a good deal to the same effect. But from the beginning there was an undercurrent of feeling and expression that he had neither made the vigorous or able defense that he might have made, nor that he had held out nearly as long as he might have done, even in the face of final inevitable destruction and capture of Port Arthur. This undercurrent of feeling became stronger and stronger as more of the circumstances became known, though of course, the Japanese closed every avenue of information on the subject which it was possible for them to close. It was not their interest to let it be known that the capture of Port Arthur, so vital to them, was hastened by a less stubborn or less long drawn-out defense than the principles of warfare demanded of Stoessel. Not that such knowledge would reflect either on the ability or courage of the siege and assaults, but it would give courage to further resistance in other directions. Nor were they anxious, if they had profited by Stoessel's surrender before he was really compelled to, that he should suffer in reputation by any infor-

information they might give to the world. So far as Japan was concerned, it was to her interests both in her belligerent and her chivalric aspect that the opinion should prevail that Stoessel was a brave and able officer who had held out long as there was ammunition left or yielded only when overwhelmed.

But war is a grim business, and the conduct of commanders can only be judged by the grim principles on which it is based. Under the conditions that existed, it was Stoessel's duty to defend as vigorously and as obstinately as it was possible. Neither humanity to his troops or his wounded had any legitimate consideration. Though the eventual capture of the place may have been inevitable, it was his duty to compel the Japanese to take it by assault and siege that should last as long as there was ammunition left for a man to use it.

It was the almost universal complaint of Russian officers passing through here after the surrender, and of Russian officers, correspondents and others elsewhere, that Stoessel had neither defended as vigorously nor as obstinately as he should; that there were both ammunition, and men to use it, left in the beleaguered fortress, when it was surrendered. There was at the time considerable expression of opinion that if the Court Martial which was inevitable to inquire into the circumstances of the surrender, was guided by probity and the principles of military duty and action, Stoessel would not come out of the ordeal laurel crowned.

Acting Governor Atkinson says he has not changed the precincts and further that he has "done nothing" in the matter at all and has not even had the matter before him. The new precinct boundaries as published in The Star are those which were, and still are, on maps printed in his office, by his subordinates. If he has "done nothing" it is time he did something, even if it is only to find out what his own office force is engaged in doing.

A leaflet to be circulated broadcast by the Evangelical Association is headed: "For God, Home and Hawaii! Not Local Option and High License." That ought to be a strong combination.

The Acting Governor says the Republican Committee ought not to have

called him down for rearranging the precincts, when, he says, he hasn't rearranged the precincts. He ought to do just what the Committee called him down for doing; in fact he has already gone far with the work of doing it, and he ought to stand by it.

Three men whom the Social Science Club says did not have a fair trial, are to be hanged tomorrow. Another one whom it says is shown by the evidence to be perfectly innocent, has started in on a fifteen-year sentence of imprisonment at hard labor. None of the four will need the passports, now, the theft of which was the original cause of the crime.

The improvement club enthusiasm seems to be at ebb tide now.

In the Kansas representation in the Senate, there will be one vacant chair. Senator Burton ought to be very careful about having any dentistry done. He knows what happened to Senator Mitchell who did, when he was in much the same predicament that the Kansas Senator is now.

Korean Number 6 according to the unanimous vote of the Social Science Club, is by the record "clearly shown to be innocent," but he gets fifteen years. He might devote them all to trying to understand his own case and never reach a conclusion, for there isn't any that is not involved in absurdity.

Says Her Daughter Robbed Her

NATIVE WOMAN CLAIMS TO HAVE BEEN CHEATED OUT OF HER LANDS.

That her daughter and the latter's husband deliberately defrauded her of all her lands by betraying her into signing them away, by false representations, is the charge made by Mrs. Honolulu Kaopua, in a suit filed by Kinoy, McClanahan and Derby and W. S. Edmonds against Kemeleia Holt and her husband, George H. Holt. Mrs. Kaopua says that she was deceived into signing a deed conveying all her Hamakua lands, consisting of 20 acres under the impression that she was merely assigning her dower rights in other lands.

Mrs. Kaopua is the widow of one J. W. R. Kaopua. Her complaint sets forth that Mrs. Holt is her daughter and that last February the plaintiff came from her Hawaii home to live with the daughter in Honolulu. While thus visiting the mother consented to relinquish her dower rights in Hawaii lands, in favor of her daughter and in due time a document was presented to her for signature, to carry out the generous purpose. Mrs. Kaopua charges that this document was fraudulently inserted in this document a conveyance of a fee simple title to all her lands in Hamakua. In consideration of her love and affection for her daughter, she says she signed the supposed assignment of dower, only to discover later on that she had been taken advantage of and betrayed by reason of her confidence in the affection and veracity of the young woman and her husband.

The plaintiff charges that by the acts in question she has been robbed of her lands. She asks that the defendants, Mr. and Mrs. Holt, be required to deed the property back to her and to come into court and state whether or not they have placed any incumbrances on it.

Judge Robinson signed a temporary injunction restraining the defendants from mortgaging or in any way disposing of the property, pending a settlement of the case.

MAUNA LOA HAD WRECKED CREW

STEAMER BROUGHT CAPTAIN IN-GAARD AND SURVIVORS FROM THE SCHOONER OLGA.

The steamer Mauna Loa arrived this morning from Maui and Hawaii ports, after an uneventful passage. She brought a small sized crowd of passengers but had a large assortment of freight. Among the passengers was Col. Sam Norris of Kau.

O. T. Shipman arrived from Kau, as did J. H. Makino and F. H. Hayselden Jr.

J. A. Magoon returned from Kona, as did W. A. Wall and F. J. Linderman.

D. H. Case county attorney of Maui county arrived from Lahaina. J. D. Holt arrived from Maui. Captain Ingaard, second mate, cook and three sailors from the wrecked schooner Olga, returned. They were taken off the vessel by the Mauna Loa last Tuesday night, carried to Kailua where they waited until the return of the Mauna Loa.

The following comprised the freight brought by the vessel: 2000 bags sugar; 318 bags coffee; 502 bags saw; 18 bags charcoal; 14 bags ginger; 14 bags peanuts; 84 bags taro; 2 cases peas; 13 cases oranges; 13 barrels pears; 31 barrels oranges; 63 bunches bananas; 9 bundles hides; 1 cow; 1 horse; 22 hogs; 30 head cattle, 18 packages sundries.

SAILORS KICK THE THE FOOD

(Continued from page one.)

In evidence, to show that bad food was served on the Willscott. The depositions taken are already very voluminous and more are coming. In the Hawaiian Isles case there are two suits for damages for alleged cruelty at sea, while in the Willscott case the sailors are after wages and damages for bad food.

The testimony regarding the food is very conflicting. The libellants have testified to sour hash, bad pickles, coffee undrinkable, mush with maggots in it, and all sorts of troubles, while witnesses for the libellee declare on the other hand that the food was as good as is to be expected aboard a vessel. There is also a contest as to whether the bottle of alleged rotten pickles and the can of alleged bad mustard really came from the vessel. They are in evidence as exhibits, however, and Commissioner Mallory is keeping them, to be opened later for the benefit of the trial court.

New Maps Of All Precincts

OTHER ISLANDS' CHANGES COMPLETED AND SURVEY OFFICE GIVEN OAHU PLANS.

The Republican county committee met last night and withdrew its resolutions criticizing the acting governor for changing Oahu precincts. At the interview with the committee in the morning the acting governor denied having changed the precincts or done anything at all in the matter. Under these circumstances the committee acknowledged itself in error in disapproving the action of the governor, and last night a special meeting was called to reconsider. The resolutions of disapproval were withdrawn, and a resolution was adopted favoring leaving the precincts as they are.

The plans for changing the precincts were all drawn up in the office of the acting governor and secretary last week. They were complete and finally adopted as far as Hawaii, Maui and Kauai are concerned, and final drafts of the new precinct maps were sent out. The Oahu plans were practically adopted and maps were being made. A rough map of the Fifth district was completed and the boundary lines of the new precincts of the Fourth were drawn up, all being as published in The Star of last Saturday. With this material Henry Davis, who is a special clerk in the secretary's office assisting in election matters went to the survey office and left an order for a new map of Oahu, for the governor and secretary's office, to show the new precincts. Acting Governor and Secretary Atkinson is quoted this morning as saying that he has done nothing whatever towards changing the precincts.

EIGHTY-FOURTH SESSION IS PAU

EVANGELICAN ASSOCIATION COMPLETED ITS LABORS TODAY AND DELEGATES LEAVE.

The Hawaiian Evangelical Association brought to a close this morning the eighty-fourth annual conference. A short business session was held this morning and the meeting was then adjourned to be held again some time next year.

Nearly all of the delegates from the other islands will return home to their homes today. Many left this morning on the Kinua and more will leave this evening on the Likelike.

The recent session of the Association was very successful. Reports from various sources show that never before was there so much interest taken and so much accomplished as has been during the past year.

Before leaving each and all of the delegates were given a sealed envelope containing a copy of Senator Dieke's local option bill with a complete explanation of it. These envelopes will be opened after the delegates arrived home and then will be used in each community as appears best to the delegate.

ALAMEDA SAILED SATURDAY.

The local agents received advices yesterday that the S. S. Alameda had sailed at 2 p. m. on Saturday from San Francisco for Honolulu. She is due here next Friday morning.

WORRYING ABOUT BARK S. C. ALLEN A CASE OF CROW

VESSEL IS OUT NEARLY 30 DAYS FROM HONOLULU BOUND FOR SAN FRANCISCO.

Considerable apprehension is beginning to be felt over the fate of the bark S. C. Allen. She sailed from this port April 14 and is now out 33 days. This is an unusually long passage. This is an average sailor and ought, under ordinary circumstances to have arrived within thirty days. The little schooner yacht La Paloma went up in 28 days and the Allen should have made as good a passage as the other vessel. The Allen has a cargo of sugar.

ANOTHER IMPROVEMENT CLUB.

The Improvement club for the whole of School street met at the home of Postmaster Pratt last evening for organization. A committee composed of Senator Dieke, Judge Perry and R. W. Cathcart was appointed to draw up by-laws and a constitution and they were instructed to call the next meeting of the club when ever they were ready to report.

BAR BANQUET

The annual banquet of the Hawaiian Bar Association will take place on June 2. E. E. Thompson, W. H. Hemenway and W. T. Rawlins have been appointed a committee of arrangements. Judge S. B. Kingsbury will be the principal speaker.

The convocation of the Episcopal Church will meet again this evening at 7:45 p. m. in the Sunday school room of St. Andrew's Cathedral.

RECORD OF MANILA MICROSEISMOGRAPH

IT TOOK ABOUT TWENTY MINUTES FOR THE TREMOR TO TRAVEL THAT GREAT DISTANCE

The following is the official description of the record of the San Francisco earthquake made by the seismograph at Manila:

At 9h. 22m. 42s. last night the Vienna microseismograph began to register by a very distant earthquake (undoubtedly the one felt in San Francisco) the disturbance began in Manila corresponds to about 5:30 a. m. in San Francisco. According to the most recent investigations on the average velocity of earthquake waves, about 29 minutes would be taken by the undulations to travel from San Francisco to Manila and consequently the earthquake must have occurred at about 5 a. m. in San Francisco (this is only a probable estimate). The two horizontal components were traced out perfectly, the movements of the ENE-WSW component acquiring an amplitude of 4 millimeters and those of the NNW-SSE component a little more than one millimeter. The vertical movements were scarcely perceptible.

The preliminary vibrations of the first and second grade degree lasted 41 minutes and 32 seconds, which is a duration proportional to the great distance between Manila and San Francisco. The oscillations of greatest amplitude lasted 30 minutes, and 16 seconds, and the total duration of the disturbance, including the slow final oscillations was 3 hours and 10 seconds.

Both the duration of the disturbance and the amplitude of the recorded movements indicate an earthquake of great intensity.

LIBRARY OF LAW THROWN OPEN

USE OF BOOKS IN UNIVERSITY LIBRARY OFFERED TO ATTORNEYS BY PRESIDENT WHEELER

BERKELEY, May 5.—President Wheeler of the States University has made the following offer to the legal fraternity whose law libraries were lost in the San Francisco fire.

"To the Members of the Legal Profession of San Francisco, Oakland, Alameda and Berkeley—Dear Sirs: The University of California calls attention to the existence, in its general library, at Berkeley, of a well selected law library connected with the Department of Law, of about 6,000 volumes, which it gladly and freely offers for the use of all attorneys desiring the accommodation.

"The law library contains most of the modern English reports, the English Reprint, many of the old English reports, in addition to the Report, the entire Reporter system, a number of the leading State reports, including California, and notes on California Reports, Oregon, Washington, Montana, Massachusetts, Illinois, New Jersey, Michigan, part of New York, Vermont, Ohio, Pennsylvania and Nevada; the United States Supreme Court Reports, Federal Reports, Lawyers' Reports Annotated, American Decisions, American State Reports, American and English Encyclopedia of Law, Century Edition of the American Digest and Encyclopedia of Pleading and Practice, United States Statutes and Statutes of California, in addition to treatises on Civil and Foreign Law. There is also a large number of modern editions of leading text books and the leading law periodicals.

"The library will be open the entire seven days of the week, as well as in the evenings, as a special accommodation for attorneys desiring to use the law library."

SPORTS

WHAT THE AMERICANS DID AT ATHENS

TWO HUNDRED THOUSAND SPECTATORS WATCHED THE CLOSE OF THE OLYMPIC GAMES—AMERICANS FIRST WITH 157 POINTS, ENGLAND, COUNTING IRELAND, SCOTLAND, AUSTRALIA AND CANADA SECOND WITH 36 POINTS—GREECE WAS THIRD.

ATHENS, May 2.—With the Marathon race, run before an assemblage that totaled 200,000 persons, the Olympic games of 1906 in the stadium here came to an end yesterday. It was a day of exciting happenings, aptly crowned by one of the keenest contests ever so long a distance of ground that can well be imagined. The result of the competitions held here since April 23 has been to give the athletes from the United States the first place for points scored.

America won the championship with a total of 75½ points. England, counting Ireland, Scotland, Australia and Canada, had 36; Sweden, 26; Greece, 27½; Hungary, 14; Austria, 12; Germany, 7 2-3; Finland 6; France 5 1-2; Italy, 2, and Belgium 1.

It was a source of great disappointment to the athletes from the United States that their entrants failed to carry off the highest honors in the Marathon run. The race fell to an American however, for Herring, from Hamilton, Canada, was the first to finish. The time was 2 hours 51 minutes 23 2-5 seconds. Swarnberg of Sweden was nearly eight minutes behind the Canadian, and William G. Frank of the Irish-American Athletic Club was third, in 3 hours 45 4-5 seconds. None of the Greek competitors, of who much had been expected by the Athenians, succeeded in making a dangerous impression.

The eighty-three athletes who started in the race had been over night at Marathon, where they slept. The start was at 5 o'clock in the afternoon. All along the road hot-wet Marathon and the stadium there were masses of spectators who called encouragement to the Greeks who were in the race. More than 150,000 were along the roads and in the stadium were something less than 70,000 persons. The scene when the leader came over the brow of the hill that overlooks the stadium was tremendous. The entire assemblage keyed up to the appearance by the continuous roar of shouting from without that came stronger and stronger as the first man topped up the ascent on the other side, arose together and joined their applause with that of those who had waited to give the warning note. Then the cries stopped at once and the stadium was absolutely silent. A shuddering intake of the breath seemed to catch all the spectators and there was a sort of hush of disappointment that swept across the crowd.

The leader was not a Greek. Across the besotted running shirt of the first man who came over the divide was the maple leaf of Canada. Then there was a long wait, and by the time another figure had crossed the sky line the race was over and done. Herring loped down the decline and dashed around the stadium to the finish. He was in good condition, despite the fact that for the last few miles on the road he had been almost unconscious with fatigue. The approach of the finish heartened him up and he felt the vigor that belongs to the winner. Frank labored home, spent but game in third place, and the United States had at least one place in the run. Forsyth was tenth. Fowler was exhausted after running twenty miles, and returned in a carriage. Spring gave up after going fifteen miles. His right knee was injured.

To crown the games the athletes of the red, white and blue took three more fights. Paul Pilgrim of the New York A. C. showed that he was one of the best men on the team by defeating not only Lieut. Halswell in the 800 meters but the great Lightbody as well. Halswell in fact was not much of a factor. Crabbe, the English crack, who was considered to be at home at this distance, never really cut any figure. He was fourth. Pilgrim gave Lightbody a neck-and-neck fight from the very start, both men racing all the distance. They pulled away from the British soldier, who hung on a few yards in the rear trying hard, but never able to make up the distance. In the stretch, about ten yards from the tape, Pilgrim, who was fresher from his efforts in the 400 meters on Monday than Lightbody was from the 1,500 meters, proved to be the better man. He came away and won by two yards. Lightbody was four yards before Halsworth. The time was 2 minutes 1 1-5 seconds, not particularly fast.

Robert Leavitt of Williams College won the 110 meter hurdle final, with Friend of the University of Chicago unplaced. Leavitt beat the Englishman, Henley, a yard. Duncker the German, was a close third. The time was 16 1-5 seconds.

Ray Ewry of the New York A. C. did no more than had been expected when he won the standing high jump. Robertson and Sheridan of the Irish-American A. C. helped here by tying for the second place with M. Dufont of Belgium.

Sheridan was unable to strike the pose in the Greek style of throwing the discus and was unplaced.

There was a protest against Bonhag in the walking race which he won a few days ago, the assertion being made that he had not walked according to the rules. The committee tied on the protest the vote being two to two, but King George of Greece cast the deciding vote for Bonhag. It was announced that the international games for Rome in 1908 had been abandoned,

ENGLISH CHRISTIANITY IN AMERICA

(Continued from Page Three).

every Commander-in-Chief of the army and usually admiral of the navy. The Chief Justices of the United States from Marshall to Fuller have nearly always been Churchmen. In cabinets they have been in force, in fact in the great War cabinet of Lincoln five out of seven were communicants of the Episcopal Church. The Senate has also had its full quota of Churchmen as Webster, Clay, David Davis, Seward, Stanton, Chase, Edmunds, and a host of others. The thought and temper and ideals of Churchmen could not have but left their impress on what they have done in the upbuilding of American institutions. It was Henry Clay who said that the stability of our government depends upon the perpetuation of two institutions, "One of these, and the most important of the two," said Mr. Clay, "is the Episcopal Church, and the other is the Supreme Court of the United States."

In society at large the influence of the Church has always been immense and altogether out of proportion to its numerical strength. Take a few examples:
1.—The idea of religion incorporated into the Church system is that religious life is a birth and growth. The idea among the mass of Protestant Americans was that religion consisted of a feeling, and they strove to induce by oratory and cadence, a psychic convulsion. The holding fast to the truths that religion was not a feeling but a development and growth by grace, the process going on through life, drew upon the Church the fierce denunciations of sects. The Episcopal Church had no religion they believed and said. The teaching of the Church won out because it is true, and because true, natural, and it prevails today among intelligent people. The day of the noisy revival has gone and few regret it.

Again there prevailed among all protestant denominations until the Lutherans came the idea that all amusements had in them the nature of sin. Even to play ball, says Washington, Gladden was questionable to me as a boy. To dance was a mortal sin and to play cards was an evidence of a lost soul. The same idea of the Church now generally prevails and people are not afraid that going to a play will bring damnation to the soul. People are ceasing to make sins of things which are not sinful in themselves, but leave to individual consciences decisions on such matters.

Again, the Church year with its rich and helpful teachings was denounced as a relic of popery so that only a few despised Churchmen and foreigners as they came kept Christmas and Easter. Now the Christian year by the force of its own fitness and usefulness is winning and in a degree has won the day.

Again the very word church was abandoned and the word meeting house was substituted for it. It was thought that the meeting house must be severely plain for the ornamentation of it would be in the nature of sin. But

EARTHQUAKE RECORD IN SCOTLAND

SEISMOGRAPH AT PAISLEY RECORDED THE TREMBLOR THAT WROUGHT THE DAMAGE.

The Star is indebted to John H. Bole of McBryde Sugar Company for a copy of the Glasgow News of April 21 containing an account of the record of the San Francisco earthquake on the seismograph at Paisley. The account is as follows, accompanied by an illustration of the seismograph markings:
This illustration is from the record, taken on the Milne seismograph at Paisley Observatory. The record is taken by means of photography, a slit in a rectangular plate at the end of a horizontal pendulum, causing a beam of light to fall on a sensitized film. When the pendulum is steady, the center markings and the inner edges of the black border come out as straight lines but when the instrument is agitated by an earth movement, not only is the center line wavy, showing by its varying degrees of deflection the intensity and duration of the shocks, but the inner edges of the border become ragged in an exactly equal ratio. The measurements on the border are the markings for the hours. It will thus be seen that the pendulum oscillated right across the plate at the most violent shock. The preliminary tremors reached Paisley at 1:23 p. m. on the 18th, and the main shock which is shown by the black mark right across the film, occurred at 1:54 and lasted for over three minutes. The vibration of the pendulum continued till 5:27 p. m.

CHURCHMEN IN CONVOCAATION

CONVOCAATION TOOK UP THE REGULAR BUSINESS OF THE SESSION LAST EVENING.

The afternoon session of the convocation of the Episcopal Church was given over to the discussion of school matters. Many of the Bishop's workers took part in the discussion which was instructive and interesting throughout.

Last evening the business session of the convocation was opened. Thirty-two delegates responded to the roll call. Those present were:

Bishop Restarick, Rev. Canon Mackintosh, Rev. Canon Ault, Rev. John Osborne, Rev. Frank Fitz, Rev. W. H. Fenton-Smith, Rev. S. H. Davis, Rev. Kong Yin Tai, Rev. Albert L. Hall, Rev. Canon A. B. Weymouth, Rev. Woo Yee Bew, Rev. W. E. Potwine, Rev. D. Douglas Wallace, Rev. Cecil Tompkins, H. M. Von Holt, T. C. Davies, Henry E. Highton, L. G. Blackman, J. H. Boyd, Gen. E. Davis, E. G. Keen, William Thompson, H. Melk Harrison, Yap See Young, Chang Kim, Robert H. Potwine, Daniel G. Ching Ng, W. A. Greenwell, Thomas Sharp, Henry Smith, Judge W. L. Stanley and E. Stiles. Rev. Carlos S. Lindsay, not being canonically resident, was invited to a seat on the floor.

For the coming year Rev. W. E. Potwine was re-elected secretary. William Thompson was named as his assistant. The following standing committees were then named by the Bishop:

Committee on the State of the church—Rev. Canon Mackintosh, Rev. W. H. Fenton-Smith, General Davis and T. Clive Davies.

Committee on Finance—Rev. W. H. Fenton-Smith, H. McK. Harrison and H. M. Von Holt.

Committee on Elections—Rev. Frank Fitz and R. H. Potwine.

Committee on Unfinished Business—Rev. A. L. Hall and J. H. Boyd.

Committee on Legislation and Privilege—Rev. John Osborne, Rev. D. D. Wallace, Judge H. E. Highton and Chancellor W. L. Stanley.

Committee of the Sea House—Rev. John Osborne, L. Tenney Peck and H. M. von Holt.

The committee on legislation reported that there were no amendments to be made to the constitution or bylaws and that there was nothing to report.

A report of the work among the Chinese at Koolau was made by the Rev. Shim Yin Chiu. He had reached a number of the Chinese through their desire to learn the news of the world which he interpreted for them from newspapers. At present there were twenty-four waiting for baptism. His school was held in a room 10 by 14 and he was laboring under much difficulty. The bishop stated that there was a fund of \$1000 available for the building of a school there but no land was available at present.

The program of the convocation for today is: 11 a. m.—Celebration of the Holy Communion. Preacher, Rev. D. D. Wallace, Luncheon at St. Clement's Parish House and business meeting to convene at 1:30 p. m.

TEMPERANCE PEOPLE AT A BANQUET

TEMPERANCE WORKERS OF THE TOWN MEET AT A BANQUET AND DISCUSS THE FIGHT.

A temperance banquet was given yesterday to the most prominent of the temperance workers of the Territory in the Y. M. C. A. rooms. About thirty were at the table.

Rev. J. W. Wadman acted as toast master and called on several of those present to speak among those responding were: Ed. Towse, who spoke on the work of the Civic Federation; High Sheriff Henry who spoke on doing work at the primaries; John M. Martin who spoke on the influence of the Anti-Saloon League; Rev. S. L. Dusha; Rev. S. M. Hill; Theodore Richards, W. D. Westervelt and G. D. Edwards.

A vote of thanks was given to the young ladies who waited on the table. A fellowship letter was given to Theodore Richards to take east with him which expressed the confidence of the league in him. This letter will aid him in getting in touch with the Anti-Saloon people on the mainland.

MUST GET CERTIFICATES.

The Department of Education is sending out to teachers a circular letter setting forth the plan for the forthcoming examinations for certificates of those who have been teaching without certificates. It is to be the policy of the department to have all teachers certified and the Superintendent already has the names of 122 who, for one reason or another, are now teaching without certificates, or without the proper kind of certificates.

DR. SCUDDER MAKES HIS ANNUAL REPORT

SPEAKS OF THE GREAT PROGRESS MADE BY THE ASSOCIATION DURING PAST YEAR.

On Sunday Dr. Doremus Scudder delivered his annual report as secretary of the Board of the Hawaiian Evangelical Association and reviewed the work accomplished during the past year.

Dr. Scudder first spoke of the reverses of the Board the most serious of which was the closing of a Chinese Kindergarten. The board is also in debt to the extent of \$3570.93.

The doctor spoke of the great progress made by "The Friend" stating that its circulation was growing not only in these islands but also on the mainland.

Triumphs and new undertakings by the board were spoken of. The work among the Chinese was especially pleasing. There could be no doubt but that new life had been taken on by the different churches.

The work on the other islands has increased and the teaching of the English language has progressed rapidly.

A tribute was paid to a number of the workers of the Association and the work outlined for the ensuing year. There can be no doubt but that during the next year the Association will make great strides both in membership and in finances.

TEMPERANCE WORK WAS DISCUSSED

EVANGELICAL ASSOCIATION DISCUSSED THE LIQUOR QUESTION IN ALL OF ITS ASPECTS.

The Evangelical Association gave over yesterday to a discussion of the temperance work. Senator Dickey addressed the meeting and gave the outline of the temperance work for the coming year.

As outlined by Senator Dickey, the Civic Federation and the Anti-Saloon League endorsed last year's local option law that was not passed by the legislature. People of the town through the churches and individual endeavor would be asked to support the law in the coming election. The temperance people will be in favor of high license during the coming year provided they can be made to see that such a law will reduce the number of saloons. The Federation and the League will both be in favor of the local option law.

After Senator Dickey had finished speaking the Association passed a resolution by a hearty vote supporting the work as outlined by the senator. They also requested that a certain person be named to visit the different churches of the islands and give addresses at different times on the liquor question.

One man from each island was appointed as a committee to work with the Anti-Saloon League. These men are also to work on the agitation committees. The men appointed were: Hawaii, Rev. S. Dusha; Maui, Rev. J. Kallio; Oahu, Supervisor Archer, and Kauai, W. H. Rice, Sr.

Rev. McIlvray from Siam addressed the meeting. He has been a missionary there for forty-eight years and told of the work.

Routine work of the Association was then taken up. Dr. Scudder is still having trouble with the Maui delegates but will straighten things out today.

MARRIED.

BAKER-AUSTIN—At the home of the bride's mother, Mrs. S. L. Austin, Honolulu, T. H., May 21, 1906, Rev. Albert Sherburne Baker, M. D., and Miss Harriet Austin, Rev. O. H. Gulick, uncle of the bride, and Dr. Doremus Scudder officiating.

The wedding march was played by Mrs. A. Francis Judd, and a trio sung by Mrs. Weirich, Miss Charlotte Hall and Miss Gertrude Hall.

The home was beautifully decorated with white ribbons and carnations. The ushers were Messrs. John Fleming, Clifton Tracy, Mr. Rowland and John Warren. The bridesmaids were Miss Kate Kelly and Miss B. Gertrude Hall.

A reception was held after the ceremony at which a large number of friends were present. The young couple will reside in Kealahou, Hawaii.

TOO THE HINT.

It was midnight by the mission clock Cull he lingered. She had thrown out hints by the dozen, but he refused to notice them. She grew desperate. "Archibald," she yawned finally, "don't you know there is something about you that reminds me of President Roosevelt?"

"I am glad to hear it," he chuckled. "Now what is it about me that reminds you of President Roosevelt?" "Why, you are a 'big stick'."

Without another word he called for his coat and cane and departed.

Counterfeit Cases Are All Ended

ALL THE DEFENDANTS PLEAD GUILTY TO CONSPIRACY TO PASS LOGUS BILLS.

Pleas of guilty have been entered by both Duffy and Moore in the counterfeiting cases, and both were sentenced by Judge Dole to two months' imprisonment, the court taking into consideration the fact that they have already been about eight months in jail. This finally closes the cases arising here during a stay of the transport Sherman last year. A counterfeit ten dollar bill was offered for passage at a local bank and just before the transport sailed District Attorney Beckham and Marshal Henry made a descent on the boat and arrested several employees as witnesses or defendants. When the vessel arrived at San Francisco, Duffy, Moore and Rooney were taken into custody by cable orders from here, and all have now pleaded guilty.

Moore and Duffy were under indictment on two charges of conspiracy to pass a counterfeit and one charge of passing. The latter charges were not pressed and have been nolle prossed. Rooney pleaded guilty of conspiracy at the start while the other two were on trial. Duffy was acquitted by dissection of the coin and by Moore's case here was a disagreement, on the trial for conspiracy. The indictment for passing was next in order and it involves a minimum penalty of five years in prison. The defendants pleaded guilty of the lesser charge and the other one was nolle prossed.

The three men were all extradited from San Francisco.

WILL BE NO CATSPA W COURT

WHAT JUDGE SAYS OF MATTER OF ISSUING COMPLAINTS AGAINST PEOPLE LEAVING.

Judge S. H. Derby of the District Court announced this afternoon that he would be very careful about issuing complaints against men who were about to depart from the Territory, if there were anything about the charges that would indicate that the matter belonged more properly to a civil than to a criminal action. The occasion for this decision was the case of S. Mori who wanted a warrant issued for Midzaki on a charge of obtaining under false pretense. The defendant is about to depart on the S. S. Korea and if he were arrested on a criminal charge it would probably result in his having to raise the boat and delay his departure. The court said this afternoon that before he would issue the complaint he would require a statement of the facts, in writing, by the attorney of the complainant. "While there is no desire on the part of this court," said Judge Derby, "to refuse to issue all proper complaints, the court does look promise to be used where the cases more properly belong to the civil court. The court has, of course, to issue a warrant, where a statement of the charges are made in writing, but I propose to exercise special care in cases where people are going away from the Territory, in order that no injustice be done to either side."

WAILUKU GETTING CEMENT SIDEWALKS

PROPERTY OWNERS PAY HALF THE COST AND THE COUNTY THE OTHER HALF OF IT.

Dan Case, County Attorney of Maui County, arrived by the Mauna Loa this morning to attend to some land registration business in the Land Court.

"Wailuku is progressing and improving very steadily," he says. "We are now getting first class, six foot cement sidewalks on the principal streets. These sidewalks are built half at County expense, and half at the expense of the property owners. The way it is done is this: If all the property owners of a given line of frontage want a sidewalk, they petition the County Board, asking for a sidewalk they want, and offering to pay half the cost for the sidewalk and the curbing, not to exceed a certain price, which of course is reasonable price. Then the County Board takes the matter up, and directs the County Attorney to make the necessary contract and the County Engineer to go ahead with the work."

"Of course, the County Board will not do this work in places. It will not join with property owners for a single lot in a block or anything like that. Where it joins in building a sidewalk it wants that sidewalk to be continuous for a long enough distance to make it of some practical use. Under this system, property owners do not petition for useless improvements, for they have to pay for a part of the improvement themselves. The payments by property owners are made monthly so that it will not be burdensome."

"In this way, we have now good sidewalks on many of the principal streets, extending from the post office, and soon

MARINE EXCHANGE RESUMES BUSINESS

LOCAL BRANCH BEGINS TO RECEIVE CABLE NEWS OF SHIPPING.

The local branch of the San Francisco Marine Exchange began receiving cable reports this afternoon. This is the first cable service that the local branch has received since the great catastrophe on April 18.

The local shipping interests have been put to great trouble to secure reliable shipping information during the temporary suspension of the Marine Exchange service and the resumption of business will be the cause of the greatest satisfaction. The cable news will continue to come daily as in the past.

The cable today told of the arrival of the bark W. B. Flint at San Francisco from Makaweli in 20 days, the arrival of the schooner O. M. Kellogg at Seattle from Hana in 23 days, the arrival of the ship Erskine M. Phelps at Delaware Breakwater on May 15, 105 days from Honolulu and the departure of the schooner Spokane for Honolulu from Port Ludlow today.
