CAUSES AND CURE OF BALDNESS DISCUSSED.

Dissertation on Care of the Poll-Hard Hats and Too Much Water Are Had.

There are few abnormalities of which less seems to be known than baldness. Medical men in general neglect the subject, and the world is full of bald-headed barbers. Therefore, the following extracts from a paper, written by a physician for physicians, will be read with interest—at least by baldheaded men. It was read before the Colorado Medical Society recently by J. M. Blaine, MD, who has devoted much study to the subject. He says:

Alopecia prematura is that form of baldness which occurs prior to middle life, and may be either idiopathic or symptomatic. The period in life at which premature baldness occurs is usually between the ages of twenty-five and thirty-five. If an individual can safely pass this critical period and retain his hair intact, the chances are very favorable for him to pass on to old age without any appreciable thinning, or until the age of alopecia senilis (or senile baldness).

The individual hairs, as they fall out, are replaced by others of a finer calibre, which survive for a time and then give way to others still finer, until there is nothing left but fine lanugo hairs, and when they disappear the scalp is left bare, shining, and atrophied. The causes which lead to idiopathic alopecia prematura are predisposing and exciting. According to Pincus, there are only two predisposing causes: Heredity and disease of the scalp, such as eczema or impetigo.

Among modern authorities there are many causes assigned. The principal ones are: The wearing of stiff and ill-ventilated hats, causing compression of the blood-vessels supplying the scalp, the daily habit of applying water to the scalp, which combines with the sebaceous matter to form an emulsion, and clogs the hair follicles, causing atrophy of the hair-glands.

I can not attach the importance that some do to the habit of wearing stiff hats as being a causative factor, but the habit of applying water to the scalp so frequently should not be encouraged.

Whether we believe the theory of Darwin as to our anthropoid ancestry or the account given by Moses, the fact remains the same that nature provided the original man with hair on his head and there can be no reason for the hair falling sooner than other parts of the body, except as a result of bad and unnatural hygiene.

Heredity, which is the predisposing cause, I regard as the result of succeeding generations practicing the same bad hygiene. Some ten or twelve years ago I began a series of investigations as to the chief exciting cause of premature baldness, and subsequent observations and researches have only served to confirm my conclusions, made at that time, that the most frequent cause of premature baldness was the drawing away of nourishment from the scalp by the frequent use of the razor on the face.

Dr. Blaine has a new and striking theory to account for premature baldness:

It is a fact so well known as scarcely to need repetition here, that the frequent use of the razor stimulates the growth of the beard to its utmost limit, whereas if it is allowed to grow uncollected, the growth becomes less and less

each week, until, at the end of six months or a year, the growth is practically imperceptible. My conclusion, therefore, is: That the constant drain made on the system to supply this rapid growth of the beard draws on the supply that should go to nourish the hair on the head, and, as a result of a lack of nutrition, the hair-glands atrophy and then the scalp becomes bound down. This theory, I think, is reasonable, when we consider the relations existing between the blood and nerve-supply of the scalp and face. The blood supply of the scalp and face is obtained from the external carotid artery. The facial artery branches off near the angle of the jaw, while the vessel finally terminates in the anterior and posterior temporal arteries, which supply the region represented by the aponeurosis of the occipito-frontalis muscle. The nerve-supply of this muscle is obtained from the facial nerve.

If a counter-irritant, applied to one part of the body, will relieve a pain or an inflammation of another part which is in sympathy with it, it is certainly not going too far to believe that a constant counter-irritation kept up on the face will, in time, draw away from the scalp a part of its nourishment, and the hair-glands, being the last to receive their supply, are naturally the first to suffer. Clinically, this theory can, I think, be demonstrated beyond a doubt.

The doctor gives some striking facts to sustain his theory:

Idiopathic premature baldness is almost, if not altogether, unknown among women. The reason generally assigned is that their head-gear is lighter and better ventilated, and they do not have the hair clipped so often as men, or use so much water on it. The real reason for this difference, I maintain, is the fact that nature did not provide women with a beard, hence the counter-irritation of shaving is unnecessary and the hair of the head is allowed its normal amount of nourishment.

All savage nations who practice epilation, or plucking the beard, through succeeding generations have come to be practically a beardless race, and among all these idiopathic premature baldness is unknown. Dr. Holder, formerly physician to the Crow Indians, in Montana, in speaking of the diseases among Indians, says: "Baldheads are unknown, even though syphilitic alopecia prevails. Peculiarities of hair are to be noted — its absence on the bodies, its scant growth on men's faces, its luxuriant growth on their heads." The inhabitants of the islands of the Pacific Ocean are practically a beardless race, and their heads are well covered. The Chinese are almost beardless, but never bald.

Dr. Blaine points out that the races which shave the face are the most afflicted with baldness:— I think it may be stated as a fact, without much fear of contradiction, that the Anglo-Saxon race is pre-eminently the one where baldness is most common. There must be a reason for all this, and I believe that it is on account of our devotion to fashion and a desire to make our faces handsome at the expense of our heads. I do not wish to be understood as saying that shaving will produce baldness in every individual; I am only speaking of those who have predisposition to baldness. There are many whom nature has so abundantly supplied with hair that no amount of abuse will lessen its growth. Again, you must not confound symptomatic and idiopathic baldness, for many men who do not shave lose their hair as a result of disease.

He gives the following general directions for the treatment of baldness: If a patient present himself before much loss of hair has taken place, I always advise him, as a

THE TUG ELEU CAME BACK

AFTER ANOTHER LONG AND FRUITLESS VOYAGE.

Saw no Schooner, Smugglers or Opium and Brought Only a Disgusted Lot of Customs Officers.

The tug Eleu with commander Macaulay and a lot of sea-sick customs officers on board docked at the tug's usual berth, Waikiki of the Mail wharf, at 4 o'clock this morning. Some of the boys who came off tired and sick from their two days' cruise complained of bad accommodations and that they had to shovel coal during the voyage.

There is little doubt that the strange schooner which the Eleu was sent after was the Lena, mentioned exclusively in Saturday's BULLETIN, as she seems to have disappeared from the Coast entirely. A San Francisco paper of November 19th notes the return to that city of the revenue cutter Perry from a cruise along the coast which lasted four days. The object of her cruise was a secret, but it was stated that she was on the lookout for a northern schooner, the nature of whose business the Government desires to learn. There can be no doubt that it was the same schooner which had sailed from Vancouver under the name of the Lena a few days before and which the Los Angeles and San Diego authorities had been warned to look out for. The schooner evidently sailed for these islands direct and of course would not be seen by the U. S. revenue cutter.

From information received by the BULLETIN on Saturday evening it may be stated without fear of contradiction that when the schooner reaches these islands she will be known as the Henrietta and that the amount of opium she has on board very closely approximates one ton, or very nearly 20,000 pounds, which will make a very nice haul for the Custom House people—when they get it.

The schooner has probably arrived, deposited her valuable cargo in some safe and secure spot and will reappear on the Pacific Coast in the same trim and under the same name as when she left Vancouver. What she did or where she went in the meantime will not be of as much interest to Uncle Sam as to Collector Castle. Deputy Collector General McStocker, in answer to a BULLETIN reporter, stated that the tug had gone out to catch ulua, and had returned with one specimen of that fish on board.

A private letter received from Kauai states that a strange schooner was seen coasting around at several points, and that the tugboat was seen in search of the stranger. The question is suggested, why the officials of Kauai couldn't do anything to catch a smuggling craft seen cruising about that island.

Last Night's Earthquake.

Two shocks of earthquake last night made many people jump out of bed in a hurry. The first took place at 11:05 p. m. and was hardly perceptible. The second and heavier one occurred at 11:10 and lasted about fifteen seconds. It was more in the nature of a continuous tremor than the usual oscillating motion. It was severe enough to awaken most of those who were asleep and to cause considerably rattling among crockery. Many clocks were stopped and light articles knocked over, but no other damage is reported. The shocks were felt all over the island, but appear to have been heaviest in the lower part of the city.

POLICE COURT NEWS.

Cordes and His Informers Again Turned Down.

The first business transacted by Judge Perry this morning was the disposition of the cases of eight drunks who apparently felt the need of a "bracer" after the effects of their Saturday night's debauch. Six of them were natives, one Portuguese and one white man. They all got off with the usual fine of \$2 and costs.

Alice Nakea and William Mana, two truants, pleaded guilty and sentence was suspended on promise of better behavior.

The libel charge against Okita which has been hanging fire for several weeks was called up today and a nolle pros. entered. W. S. Edings was engaged to assist the prosecution and S. K. Kane for the defense.

Police Officer Cordes and his informers met with another Waterloo today in the case of Keawe, arrested for selling swipes on November 22d. The testimony showed that Cordes put up his usual job of furnishing money to his informers to purchase liquor of parties whom he suspected. This time he gave Kiki and Maiala twenty-five cents and a tin can to purchase swipes. The informers swore that they obtained the stuff at Keawe's house in the neighborhood at Engine House No. 5, while Cordes was in waiting at the gate to receive it as usual. When the can was brought out all hands took a drink and a small portion of the stuff was bottled up and analysed. This time Cordes had taken the precaution to secure a warrant of arrest in advance of the commission of the crime, which is one of the many queer proceedings of which that officer seems capable of. For the defense Keawe denied positively that he had made or sold the liquor or that he was in the habit of doing so. He swore that he was at home with his wife and child, having been sick for two weeks previous to his arrest. Judge Perry evidently believed he was telling the truth for he found him not guilty of the charge to the intense chagrin of the arresting officer.

AT THE CIRCUS.

Hundreds of Children Turned Away on Saturday Afternoon.

Long before 3 o'clock on Saturday afternoon every seat in the circus tent was occupied by children of all sizes and ages with a fair sprinkling of parents and guardians. And they enjoyed themselves to their hearts' content. Who does not remember the impressions of the first circus he or she ever attended? It is one of the few early ones that remain indelible through after life. And with most of the children who were present last Saturday it was their first circus. And everything pleased them and was a source of wonder as it was to their father and mothers years ago.

Fully fifteen minutes before the time announced for the matinee to commence every seat was occupied and men had to be stationed outside to inform late comers that they could not possibly get in. And besides this many people kept their children away knowing that the circus would be crowded. In view of the many children who were disappointed on Saturday it has been suggested that Mr. Wirth give an extra matinee on Wednesday.

The big tent was again crowded to its utmost at the evening performance and the program seemed to please everyone, judging from the frequent applause. One of the Bennington's boys more than got the worth of his money, besides with the help of the clown treating the audience to an act not down on the program. Nigel Jackson won the prize for the best amateur rider and will probably soon essay some bare-back feats. The performance was up to its usual excellence and will be repeated tonight at 8.

IN THE HIGHER COURT.

VARIOUS MATTERS FROM THE CLERK'S FILES.

Answer Filed in the Suit of Bishop's Bank Against the Gibson Estate.

Volney V. Ashford, by his attorneys, Paul Neumann and Charles Creighton, has filed an answer of general denial to the complaint of Almira M. Kahananui, and given notice that for part of his defense he will rely on the statute of frauds.

Defendants in the suit of Bishop's Bank against the Gibson Estate, by their solicitor, Paul Neumann, make answer admitting all the allegations except one setting forth that there is imminent danger that the live stock will be sold or removed without accounting therefor. This is specifically denied, and the attorney for plaintiffs, W. A. Kinney, stipulates that this answer shall be deemed sufficient without its being signed by the defendants, also waives verification of the answer by defendants.

Cecil Brown, guardian of W. C. Lane, has petitioned for leave to sell real estate of the ward. It is the rice lands at Koolauloa which Mr. Lane agreed to sell to Senator Hocking of Maui for \$10,000. Among the reasons given for the sale of the land, it is said that the ward desires to have his son, James C. Lane, treated by a specialist in San Francisco, for the cure of injuries received from a violent blow on the head about a year ago.

The executors of the will of C. O. Berger have filed their account with a petition for discharge. Receipts are \$47,252.29 and payments \$47,316.72. The trial balance of testator's books shows a credit to profit and loss account of \$16,131.19.

Judge Magoon ordered a default entered against Chu Sam of Kailua, under proceedings for bankruptcy brought by Theo. H. Davies & Co., and the hearing was continued until tomorrow.

F. A. Schaefer, guardian of the minor children of Hermann Holstein, deceased, has filed his final account, showing receipts of \$980.42 and payments of \$381, leaving a balance of \$599.42.

CHINESE LIQUOR SHOP.

License Under Limitations—No Drinking on Premises.

An application from the firm of Wing Wo Chan Company for license to start a liquor retail store has been decided by the Government in favor of the applicant. The license has been issued to the personal name of T. Kat Poo, but, although the saloon license fee of one thousand dollars is paid, the store to be opened under it will not be a saloon. Conditions are inserted in the license that no sale of less than a bottle or more than a gallon of liquor can be made, and only the Chinese liquor known as samshu, or rice wine, is to be kept for sale. This celestial beverage is not kept by retail liquor stores, otherwise, it is learned, the Government would not have granted this special license. As, also, this one makes the limit in number the Government has set on retail liquor licenses, there is little probability of any more saloons being started in Honolulu for a while.

Two Chinese gamblers were fined \$10 and costs and three others let off.

GLORY OF THE JEW.

Grand Vindication of His Race by a Jewish Statesman.

When we regard the position that members of the Jewish race have come to hold in the life of the civilized world and yet note the savage anti-semitic spirit that prevails in Europe, the following magnificent passage in a speech delivered by Sir Julian Salomons (the well-known lawyer) in the Legislative Council of New South Wales becomes deeply interesting, says the Japan Advertiser:

"I am a Jew, I was born it. I belong to that race from which the revered founder of the Christian religion sprang. And were it that all people were as free from serious crime as the Hebrew people you might close up many of your prisons. Many of the crimes that startle one into fear and trembling are not crimes of the Jews. Their faults--of which I am not ignorant--are not greater than those of other people in connection with trade and traffic, and have sprung from the action of other nations towards them. Only within my time have the learned and liberal professions been opened to Jews. For ages they were forced into the lowest callings, and were denied an outlet. Unthinking bigots believed that they were carrying out the will of God in torturing, in burning, in maltreating, and in imprisoning the people to whom I belong. It is in recent times they were set free. It is in my lifetime that the first Jew was ever admitted to the Bar. They were shut out because they would not take the oath, as they did not believe in it. But since the time that they have been allowed to take degrees at the Universities, to be admitted to all the learned professions, I appeal to everyone who knows them whether some of the most distinguished men on the Bench, at the Bar, in the arts and sciences, in music, and in everything else, have not sprung from this people? And forgive me saying this: I ask everyone, when in the hour of mourning or tribulation, bowed down by a grief that no worldly prosperity can assuage--to whose writings do you all turn for consolation and sympathy? To the writings of the Jews. And I should be a poltroon coward, as well as fool, if I were not proud to belong to a race that has given the writings of Isaiah to the world; the psalms of David, and the many beautiful thoughts upon which the civilization and consolation and the happiness of the world depend. I do not mean that I myself am united to one body of theologians or to another. My daughter is married to an honorable man and an admirable Christian, and not to a Jew; and everyone who knows me knows that they might as well tell me to judge a man by the coat he wears as to try to sway me by the particular form of belief he has. I do not by this mean any aspersion on Christianity, for it is Christianity that the world can only look for the regeneration of mankind. It struck off the shackles of the slave, has mitigated the horrors of war, and is working to the end that all the religions will strike off their 'is, us,' and put their heads together to bring consolation to the poor, and to the unfortunate, and strength to us all in the 'hour of tribulation.'"

The latter have been specially selected from the best manufacturers in Philadelphia.

Accommodating Hotel.

The following gem of an advertisement for a hotel appears in a Kobe paper:

For the information of the crowds who intend visiting this resort we desire to say that it is the most accommodating house on this mundane sphere. Cats, dogs, monkeys and parrots are allowed without any extra charge; cows are kept so all pets may have fresh cream at all hours of the day.

Guests need not wipe their feet when they come in, they can get postage-stamps at the office free; bring snakes, horned toads, lizards and other such animals into the house, and the manager will skin and prepare them free of charge.

If you don't pay your bills every week it makes no matter, for we are related to Rothschild. We furnish a piano, corkscrew and sewing-machine to every guest.

For ladies who want to wash and cook in their rooms we offer our best suites. Plenty of hot-water bags and medicine, from Niwo to Tansan. Our chambermaids are selected for their beauty. You can take all the glass and silver to your room and the cooks will serve you with any kind of liniment or poultice day or night.

You can do, in fact, anything you want to, but not more than six gentlemen are allowed to sleep on the dining table at once.

Any one breaking the rules of this house can receive massage treatment with a club by leaving notice at this office.

Arthur Harrison, Prop. 151-1f

DECEMBER 7, 1895.

In every account of weddings, receptions, anniversaries and dear knows what there is always a description of the floral decorations but never a word about the pots that hold the plants and flowers. There are two reasons for this: One, because the pots are usually such common-place affairs that they are not worth mentioning; the other is because they escape the reporter's eye.

Heretofore there has been only one place in Honolulu where genuine majolica vases for plants could be bought. Now, there are two. Ours is the other one, and we think it is the best because the stock is larger and the assortment more varied. Today is a good time to come down and make your selection.

There used to be only two or three places where you could buy a decorated chamber set and the ones they sold were indifferent as to quality or style; they contained a certain number of pieces and they managed to pretty well cover a wash stand. Ours were selected first for their usefulness and next for their beauty. You never saw their equal in this country and you may never again—the odd shape will strike your fancy and the price, \$5 to \$12, will settle it so far as you are concerned. There's nothing cheap about them except the price. If you were in the States you would pay twenty dollars for them and never murmur. We don't want the earth but we want your trade.

In the same room with the chamber sets you will notice a lot of whatnot ornaments for holding flowers. Most anyone would appreciate one of them as a gift at this season, because they are pretty and useful, and you will enjoy giving one of them away because they are inexpensive. The assortment is larger than you imagine. If you prefer giving away cut glass and do not feel that you can spend much money buy a piece of English cut glass. It costs about half what the Dorringer American does, but it is genuine.

We have the Dorringer too.

MRS. AUG. DARROW.

WELLS, RICHARDSON & Co., Montrose, Pa., Sept. 25, 1894. Gentlemen:—I was very much run down, had no appetite at all, was very nervous, had no sleep right or day; to sum it all up, I WAS PERFECTLY WRETCHED. But thanks to Paine's Celery Compound I can now eat and sleep and work just as well as I could before I was taken sick. When I commenced taking the Compound I weighed 130 pounds; I now weigh 155 pounds and do all the work for my family of five. I have recommended the Compound to three families already and they are very much pleased with it. I am now taking my fifth bottle, and would RECOMMEND IT TO ALL WHO ARE SUFFERING WITH STOMACH TROUBLE OR NERVOUS TROUBLE. Yours respectfully, MRS. AUG. DARROW.

DEPARTMENT OF FINANCE, HONOLULU, Dec. 9, 1895. Under Article 35, Section 1 of the Constitution, it is required that each member of the Cabinet shall make an annual report of the transactions within his Department, during the year ending December 31st.

The Minister of Finance takes this occasion to request all those having claims against the Government of a monetary nature, to present them to this office, through the proper Departments, not later than 12 o'clock noon on TUESDAY, January 14th, 1896, after which date the books of this Department will be closed.

All persons having moneys on account of the Government are requested to make their returns promptly, in order that there may be no delay in closing the accounts for the year ending December 31st, 1895.

S. M. DAMON, Minister of Finance.

The Evening Bulletin,

DANIEL LOGAN, Editor.

MONDAY - - - DEC. 9, 1895.

HARD RULE.

Teachers in Honolulu have received a circular signed by the president of the Board of Education, which runs as follows:

In future no teacher is to be absent for any cause without immediate notification of the Board. In case of sickness the office of the Board is to be notified an hour before school opens and a substitute will be sent. The substitute will be paid by the Board for two days; after that time, should the sickness be prolonged, the teacher will pay two-thirds of his or her salary to the substitute.

This seems an exceedingly harsh rule. The Board of Education is displaying more strictness toward teachers than the public requires at its hands. If it exercises discipline in any case where a teacher is absent without good cause, then the Board will do all that it should be expected to do. Suppose a teacher is fighting against an attack of sickness, and pluckily opens school only to find that it is impossible to carry on the work for the day? He violates the rule of the Board and has a black mark put against him. It may be said, though, that the rule is to be used with discretion. In answer to this the BULLETIN would say that where a teacher has excuses to offer for not complying with the rule an investigation would be necessary to enable the Board to act with discretion. Therefore, why not wait for cases of delinquency till they happen and deal with each as they deserve, instead of sending such an offensive circular to teachers who never shirk their work as well as to any who may have given occasion for receiving a warning?

Then, again, the treatment offered to teachers who may be laid up more than two days appears to be altogether too severe, especially where such maladies as fever and grip are prevalent. Schools everywhere have to take their chances of teachers being taken ill, but for all of that which happens in this country the Board has no occasion to dock the pay of the unfortunate teachers. There has been no public demand for having teachers thus treated like contract coolies, and the Board will consult its own good name by rescinding the obnoxious order.

OBSERVATIONS.

Some of our streets would do with much less watering than they receive. Cannot the dust be laid without making mud?

With cold storage about to be established, Honolulu ought to have both better and cheaper food supplies in various lines.

President Cleveland's message will be received by today's mail. It will be eagerly scanned for any

reference to the main Hawaiian question and to the cable scheme.

Opium may be landed with comparative ease, perhaps, on the uninhabited island of Kaheolawe, but it is certainly not consumed there. How does it get into the market?

It is stated by a Sydney paper that important documents bearing on the proposed Pacific cable have been forwarded to Sydney by the Canadian Government. The British cable scheme appears to be very much alive.

It is learned by the Australian mail that the Portuguese troops have defeated the rebels in Goa with great slaughter. It will be remembered that the Portuguese Government declined the assistance of British troops for suppressing the rebellion.

Victoria, Australia, would appear to be advancing toward state socialism. Its parliament has just determined to appoint a board to fix rates of pay for work done by men, women and children in specified trades.

Bahri Pasha, Governor of Van, who was dismissed at the instance of the British Ambassador, has been decorated by the Sultan of Turkey. The French Government has left no room for such double-dealing in the case of the Governor of Diarbekir, where disastrous fighting had occurred, as it has demanded his execution and sent a squadron to see the job done.

When the steamer Valetta, from London for Australia, was at Aden a few weeks ago, a very painful tragedy took place. Two Somali boys, while diving for silver coins thrown overboard by the passengers, were seized by sharks and literally torn to pieces. Sharks occasionally come into Honolulu harbor, but no case is known of their attacking swimmers, and native boys dive for coins thrown from steamers without a thought of any danger from sharks.

The resignation of Alatau T. Atkinson, Inspector-General of Schools, on account of bad health, is a matter of regret. He came to the office as a practical educator eight years ago, and much of the progress since made in educational matters is due to his sound ideas and enthusiasm in his work. Henry S. Townsend, principal of Lahainaluna, takes the office of Inspector-General thus vacated, and, from his long experience as a teacher and his earnest studies of improved systems of education, he is expected to make a good record.

Anglican Church Matters.

The committee appointed by Bishop Willis to investigate and report on certain matters connected with the Anglican Church in Hawaii in accordance with a resolution passed at the recent session of the Synod consists of Revs. S. H. Davis, L. Byrde and W. Horsfall, and Messrs. Edward Stiles and H. von Holt.

King Bros. have over 20,000 feet of picture mouldings from which they are making frames at Frisco prices.

The Bark Aldergrove. There is much anxiety in shipping and mercantile circles about the British bark Aldergrove, which is overdue at this port. She is consigned to T. H. Davies & Co. and is now 168 days out from Liverpool. She has on board a large quantity of goods for local merchants, intended for the holiday trade, and they are very anxious to see her arrive. The Aldergrove should she arrive safely will have made one of the longest passages on record. She has not been given up as lost by any means, but those interested in her would be glad to know what has happened. The bark Routenbeck which was here a few months ago was 160 days making the same trip.

The Japanese Acrobats. Good houses at both matinee and evening performances greeted the Japanese acrobats on Saturday, there being considerable change in the program as previously announced. Tonight another trapeze performer will appear in place of the one who was hurt, and his performances are said to be marvelous. Every precaution has been taken against accidents. Tuesday, Wednesday and Thursday evenings are reserved for white people but that is no reason why they should not attend at other performances if they wish. New attractions are promised by Manager Evans in the near future.

'THE FREE AD' AND THE SUPERIORITY OF THE TRIBUNE WHEELS OVER THE STEARNS.

In our last advertisement in this column we called attention of the public to the Stearns wheels which are now being sold in this city. We stated without fear of contradiction that they were back numbers, manufactured in 1894 and shipped to the Pacific Coast as up to date wheels when they are not. We reiterate that assertion more forcibly in this ad. It has not been denied and cannot be, and we again caution buyers not to be deceived with antiquated machines which are represented as containing all the latest improvements.

An ad of the Stearns agency in an afternoon paper, praising the Tribune wheel and giving it a good send-off, refers to a letter written by H. F. Terrill, the well-known scorcher, concerning the Tribune wheel. In spite of their assertion to the contrary, we deny that the agents of the Stearns wheel have seen or read the private letter of Harry F. Terrill in the Tribune rider here (meaning Tommy King) but as there is nothing secret about it we print the whole of it relating to bicycles below. If the Stearns agents can get any satisfaction out of it they are more than welcome. Mr. Terrill says: "I am riding a Stearn, 16 lbs. Say, Tom, the Tribune wheel has an awful good reputation through the East. I did not think much of it before I came East. It is considered one of the best mechanically constructed wheels in the world."

The balance of the letter refers to private matters but the Stearns agents may peruse the whole of it at any time. The explanation of Terrill's riding a Stearns wheel lies in the fact that he is under contract with the manufacturers to do so, consequently he cannot ride a Tribune although it is evident he would if he had the choice.

In our last advertisement we asked any intending purchaser to take one of the Stearns wheels to any first-class mechanic and have him take it apart and compare it with the corresponding features of the Tribune wheel. We knew that an honest opinion would be that the Tribune is by far the better wheel and hence made the challenge. We renew that challenge and intend to keep it before the public. It has not been accepted and it will not be.

We expect those Tribune Tandems on the Australia and if they arrive they will probably be seen in the New Year's races.

Don't purchase a bicycle of any kind without first examining the Tribune.

HENRY KAIA'S FUNERAL.

It Took Place Yesterday With Military Honors.

A large concourse of friends and relatives of the late Henry Kaia participated in his funeral ceremonies at Nuanu cemetery yesterday afternoon, Rev. J. Waiau conducting the services. The funeral procession started from the residence of the deceased and was large and imposing. It consisted of a squad of police, the Hawaiian Band, drum corps, Company G, bearers with pallbearers Major Jones, Captain Camara, Captain Smith, Lieutenant Kenake, Lieutenant Matthews, Lieutenant Jacobson, Colonel McLean; Majors McLeod and Potter; Captains Broome, Cooper, Murray and White; Lieutenants Evanson, Wolter, Matthews, Rowell, Fetter, Fritz Rowald, Coyne and Towse; Orderly Thos. King, representatives of the Foresters and members of the Y. H. I. were also in line. At the conclusion of the religious services the usual military salute was accorded.

prophylactic measure, to stop shaving. This, in a vast majority of cases, is sufficient to arrest the further progress of the disease. If the disease is further advanced and atrophy of the hair-glands has commenced, in addition to the above advice I prescribe tonics, both internally and locally, together with the application of massage and electricity. In the first stages of the disease, mild applications are all that are required, but if the disease is more advanced, active stimulation is necessary. In all cases of baldness, whether idiopathic or symptomatic, the use of water should be forbidden, except when it is necessary to shampoo the head for purposes of cleanliness. Dr. Blaine gives some more specific directions for treatment, including frictions with saponis viridis and alcohol. His directions— which, however, should only be followed under the care of a physician—are strikingly similar to those of the famous Von Herba, the great dermatologist of Vienna, who incidentally paid some slight attention to baldness. Dr. Blaine closes by saying: "Seventy-five per cent. of the cases of premature baldness, where the prognosis is not unfavorable, can be cured, if the intelligent cooperation of the patient can be secured.—Argonaut.

Chinese in a Dilemma.

When the Japanese had got possession of Liaotung, we remarked that the arrangements they were making were just the same as they would be if they intended to keep permanent possession of the territory they ultimately several months afterwards had ceded to them by Li Hung Chang, in the Treaty of Peace. The probable permanency of the Japanese occupation seems to have taken possession of the minds of the local resident Chinese, who proceeded to become naturalized Japanese subjects. The retrocession of the Peninsula to its former possessors has brought into being an awkward situation, the Chinese Government refusing to regard these persons as prisoners of war. In order that they may be beyond the reach of punishment, which they dread will be inflicted by the Chinese, it is proposed by the Japanese to transport the newly naturalized persons to Hokkaido; there are about 4,000 in all, and to give them each a grant of land. -Japan Mail.

Mme. Yale' Hair Tonic.

LADIES AND GENTLEMEN: It affords me great pleasure to call the attention of the public to my Yale's Hair Tonic, which is the first and only remedy known to chemistry which positively turns gray hair back to its original color without dye. I personally indorse its action and give the public my solemn guarantee that it has been tested in every conceivable way, and has proved itself the only Hair Specific. It stops hair-falling immediately and creates a luxuriant growth. Contains no injurious ingredient. It is not sticky or greasy; on the contrary, it makes the hair soft, youthful, fluffy, keeps it in curl and removes dandruff. For gentlemen and ladies with hair a little gray, streaked gray, entirely gray and with BALD HEADS, it is specially recommended. All druggists. Price \$1; also Yale's Skin Food, \$1.50; Yale's Complexion Cream, \$1; Yale's Face Powder, 50c; Yale's Beauty Soap, 25c. Mme. NEWS ALONG THE FRONT.

STEAMER LEHUA TAKES THE DISABLED MOKOLOI'S ROUTE.

Items from the Sunday Fleet--Hawaii to Hamakua--Tug Elou Returns--Longshore News.

The brig Lurline left Hilo at the same time as the Kinu last week. The tug Elou returned empty-handed from her recent cruise at 4 o'clock this morning. The steamer Kaala leaves on Wednesday morning for Wailua and way ports. The steamer Hawaii with about 250 tons of general merchandise left for Hamakua at noon today. The steamer Lehua took the route of the disabled Mokoloi, for Molokai and Lanai this afternoon. The steamer Claudine with Mail produce and live stock, and a large list of passengers, came in yesterday morning. The steamer Mikahala brought 1255 sacks of sugar, 916 bags of paddy and 9 cabin and 35 deck passengers from the Garden Isle yesterday. Deputy-Collector McStocker is dumb as a double-headed, steel-headed, oyster on the Elou's movements. He promises to throw out "after the Opera's cover". The steamers leaving tomorrow are the Kaula for Kahuku and Punaluu, the Kinu for Hilo, the Claudine for Kahului, the Mikahala for leeward Kanai, and the Walaialele for Hamakua and way ports. The clipper ships Cromdale and Arctic Stream lately completed the voyage from London to Sydney, with only two hours and a half of difference in time. They started within a few minutes of each other, and the finish was almost as close as a dead heat. The Cromdale was the winner. The vessels were in sight of each other on three different occasions.

TO ALL WHO USE PAINT:

The undersigned, L. C. Ables and H. P. Walton, purchased from Charles J. Wagner, the inventor of Peerless Preserving Paint, the exclusive right to manufacture, use and sell the PEERLESS PRESERVING PAINT in the Hawaiian Islands. Patent for Peerless Preserving Paint. On the 26th day of September, 1895, the Republic of Hawaii granted to L. C. Ables and H. P. Walton, a patent No. 110, granting them the exclusive right to make, use and vend PEERLESS PRESERVING PAINT throughout the Hawaiian Islands. Trade Mark for Peerless Preserving Paint. The Republic of Hawaii has also granted to L. C. Ables and H. P. Walton the exclusive use of the words PEERLESS PRESERVING PAINT as a trade mark throughout the Republic of Hawaii for the term of 20 years. Imitation. Certain parties in San Francisco have recently been sending to Honolulu under the name of PEERLESS PRESERVING PAINT a spurious article not only inferior to the genuine paint, but one which is positively injurious to any metal to which it may be applied. Beware of Fraud. We hereby warn all persons against being defrauded into using any but the genuine PEERLESS PRESERVING PAINT, which can be obtained only of Ables and Walton. Warning Against Infringement. We also hereby warn all persons against buying, selling or using any article under the name of PEERLESS PRESERVING PAINT, except that sold by us, as such buying, selling or using will be a direct infringement of our patent and trade mark, and a violation of our rights, subjecting the persons buying, selling or using such paint to a claim for damages by us in accordance with the Hawaiian Law. L. C. ABLES, H. P. WALTON. Honolulu, Oct. 19, 1895.
