

By Authority

The attention of the public is called to Section 7A and Section 7b Chapter 29 of the Session Laws of 1884, which are as follows:

SECTION 7A—It shall be the duty of every person to report immediately to the nearest Executive Inspector or Inspecting Officer, any animal or about his own premises or the premises of another, which he shall have reason to believe to be affected with any infectious or contagious disease or distemper, under a penalty of not less than five nor more than one hundred dollars for each offense.

SECTION 7B—Said Inspecting Officers shall have the power to enter upon any premises where they have reason to believe there is any animal affected with any infectious or contagious disease or distemper of a nature dangerous to the live stock of the country, and to cause any such animal to be placed in quarantine for such time as said officers may deem necessary; and shall have the power, with the approval of the majority of said Board, to cause any such animal to be destroyed.

W. T. MONSARRAT, Executive Inspector. J. H. BROWN, PAUL R. ISENBERG, JR., Inspectors. Honolulu, Aug. 21, 1890.

Regulation No. 1.

In accordance with an Act "Relating to the Suppression of Plant Diseases, Blights and Insect Pests," approved on the 16th day of July, 1890, the shipping, sending or taking of any plants, slips or cuttings from the Island of Oahu to any of the other Islands of this Kingdom is hereby prohibited until further notice.

Exempt from this regulation are plants from foreign countries landed at the port of Honolulu in transit, provided that up to the time of reshipment they have not left the wharf of Honolulu and have been duly examined.

A. JAEGER, C. P. LAUKA, E. W. JORDAN, Commissioners of Agriculture. Approved August 5, 1890. C. N. SPENCER, Minister of the Interior.

THURSDAY, AUGUST 28, 1890.

YESTERDAY the House killed the section of the Oahu Railroad Bill guaranteeing 5 per cent interest on the bonds, by a vote of 34 to 15. This will probably effectually avert the danger of any further extension of the Oahu Railroad, during the coming biennial period.

THE SKINNER & CO. PETITION.

Messrs. Skinner & Co. have petitioned the Legislature for the payment of a number of thousands of dollars which they claim is due them on a contract for bringing Portuguese immigrants into this country three or four years ago. The late Minister of the Interior refused to pay the amount on the ground that the contract had not been carried out. The petitioner had already brought suit in the Supreme Court, but the case had not come to a hearing, and it is stated that it has been discontinued.

It is too clear for argument that the Legislature is no place for such claims. If ever a body was unfitted by its whole composition and organization for passing upon any matter whatever with discretion and impartiality—a Legislature is.

The attempt of Skinner & Co. to "change the venue" and get their claims passed upon by a partisan instead of a judicial body, tends at the outset to discredit their good faith. As Rep. Brown stated very forcibly in the House, the place to pass on every such matter is a Court of Law or Equity. When the highest judicial authority of the Kingdom has declared that a petitioner is without legal remedy, it is time enough for him to go to the Legislature.

The power which the Legislature undoubtedly has to satisfy claims which have no legal basis is a dangerous one, and should be very sparingly used. It is easily susceptible of great abuse. Exceptional legislation is always an evil, though sometimes—in rare cases—a necessary one.

The House has laid the petition in question on the table, and we believe the members will very judiciously leave Messrs. Skinner & Co. to seek a remedy in the Courts.

THE DESERTION BILL.

Yesterday the inevitable bill to restore the old law of desertion succeeded in getting itself passed to engrossment, by the solid vote of the native members. The old law permitted a husband to punish a recalcitrant wife who persisted in deserting him, by shutting her up in prison. This obvious and tempting method of taming one's spouse into tractability it is which the present bill seeks to restore.

We are far from condemning this law absolutely. It makes the condition of the wife one of virtual slavery, to be sure, but what of that? Has it not always been such? We should not forget that laws and political institutions have merely a relative value. Their worth depends on their adaptability to conditions, and the law is perhaps as well suited as any other to a semi-barbarous people.

We decline, however, to put the low estimate upon native Hawaiians which seems to prevail among the native members. We think better of the race than they and think their bill a bad one. At any rate, this country professes to be one of the civilized nations of the earth—and it must be governed by civilized laws.

Probably the bill will be rejected on its third reading.

BON VOYAGE.

Quite a large number of passengers leave on the Australia on Friday, some to return, while others are bound home for good.

Col. and Mrs. Claus Spreckels and Miss Spreckels, on arrival in San Francisco, will remain there for the present. They have enjoyed their two months' visit in the Islands.

Mr. and Mrs. John A. Buck return to their home in San Francisco after a two months' visit in "the Paradise of the Pacific." Mr. Buck has been around and visited the various plantations in which he is interested.

Hon. Wm. G. Irwin will join Mrs. Irwin in San Francisco and together they will enjoy a vacation in the Eastern States, which will last about four months.

Mr. and Mrs. G. P. Wilder are going to San Francisco to visit among friends for about three months. Miss Carrie McLaine, who has been visiting Mrs. Wilder, returns home.

Mr. John H. Soper will attend to considerable business during a seven weeks' stay in the States.

Master W. H. Cornwell, Jr., leaves to attend college in San Francisco.

Dr. M. E. Grossman is to be absent about four months, and Dame Rumor says he will not return alone.

Hon. H. A. and Mrs. Widemann hope to benefit by a change of air. They remain over a steamer.

Rev. Herbert H. Gowen goes direct to England to enjoy a well-earned vacation of six months.

THE CORNWELL DINNER.

Yesterday evening Mrs. H. Cornwell gave a dinner party at her residence, Judd street, in honor of Col. and Mrs. Claus Spreckels and Miss Spreckels. A delicious menu was enjoyed amid beautiful table decorations. The affair was delightful in every respect, the guests being charmingly entertained by the hostess. Those who sat down in addition to Mrs. Cornwell and her three guests were: Hon. W. G. Irwin, Hon. Paul and Mrs. Neumann, Mr. and Mrs. John A. Buck, Hon. E. C. Macfarlane, Mr. and Mrs. A. Hoffmann, Miss Hoffmann, Col. G. W. Walbridge, Mr. Widdifield, Capt. F. McCurley, U. S. N., Hon. W. H. Cornwell, Mrs. S. Parker, Miss Bird-sall and Mr. P. R. Isenberg.

Public Moonlight Concert.

The Band will play this evening at Thomas Square, commencing at 7:30 o'clock. Following is the programme:

- 1. March—Coronation. Meyerbeer. 2. Overture—Morning, Noon and Night. Suppe. 3. Duet—Il Trovatore. Verdi. 4. Selection—Mignon. Thomas. 5. One, Two, Three, Four, Maui Girl. Wai Aniani. 6. Medley—German Marches. Seidenplanz. 7. Waltz—Welcome. Waldteufel. 8. Polka—Red and Black. Coote. Hawaii Ponoi.

THE LEGISLATIVE ASSEMBLY.

Sixty-fifth Day. WEDNESDAY, Aug. 27.

The House met at 10 A. M. Prayer by Chaplain. Minutes of the preceding day read and approved.

Rep. Marques, for the Foreign Affairs Committee, reported in regard to the bill introduced by Rep. Kalua, to encourage tobacco culture; that the bill is unconstitutional and in violation of our treaty relations, and that it would be useless to have it printed. The report was adopted.

Noble Muller, for the commerce committee, reported recommending that the petition that no more laborers be introduced, be laid on the table as the introduction of a moderate number of laborers is desirable. The committee recommended that the item for immigration be considered with the Appropriation Bill. The report was adopted.

Noble Muller reported for the commerce committee, recommending that the petition for assistance to telephone lines on Hawaii be laid on the table.

Minister Brown moved the report be adopted.

Rep. Rickard moved it be considered with the Appropriation Bill. Carried.

Rep. Brown presented the report of the special committee on \$6,000 for Kapiolani Park. The committee find that much has been done and the money well expended, but that there is a lack of water and that many of the trees planted die on that account. They recommended that a well be dug and that the pipe which the Government is replacing with larger on the Waikiki line, can probably be practically placed by the Park Association. They find that a carriage road round the point of Diamond Head is feasible and they recommend that \$13,000 be appropriated for the Park with the proviso that \$2500 be expended for the road by the Park Commissioners.

The report, which was signed by all the committee, was laid on the table to be considered with the Appropriation Bill.

Rep. Lucas, for the special committee on the central fire station and fire engine for the plains, reports as follows: That the present central fire station is in a dilapidated condition, that whatever government property is stored there, the new station will be fireproof. The committee recommend that the item pass as in the bill. The committee further recommended that the sum of \$5,000 be passed for a fire engine for the plains, and that part of Honolulu is thickly covered with residences which are insufficiently protected, owing to their distance from the central fire station. The item is intended to provide for the purchase of an engine and the erection of a suitable building therefor.

The report was laid on the table to be considered with the Appropriation Bill.

Rep. Kapuni, for the committee on Bill 140, entitled an Act to Continue the Subsidy to the Oceanic Steamship Company, reports that the committee have communicated with the agents and find that the company is in a position to accept the bill, and that the amount as is inserted in the Appropriation Bill, and will bind themselves not to ask for more; that they are also willing to make any possible mail arrangement which will be more convenient for the community. The committee recommend the addition of a proviso to Section 3, setting forth that no more subsidy shall be paid than is placed in the Appropriation Bill.

Minister Brown moved adoption of the report.

Rep. Knudsen moved consideration with the bill. Carried.

Rep. Waipulani moved to reconsider the vote on the report on the Peter Lee road. The House laid the report on the table. I objected to the report yesterday because I thought the Inter-Island Company controlled the road. I find, on examining the documents, that whatever rights the company had, they have released, so I wish to rectify my mistake.

Rep. Kosa had not been present when it was considered yesterday. The fact was that the Inter-Island Company had advanced money to Peter Lee. The committee all agreed that the Government ought to own the road, even though the Volcano road from Hilo were completed, as no doubt it will be (Noble Widemann has a great doubt on that point.) (Calls of no, no doubt at all; the doubt is in Noble Widemann's mind.) Before Peter Lee's road was built travel-ler's could not go from there to the Volcano without the company's consent, and it alone. He ought not to be expected to maintain this road for the use of the public though he would do so if he could afford it.

Noble Widemann—When I heard the report yesterday I thought that there was something peculiar about this. A petition from the builder of the road, stating that he had spent \$10,000 on this road and never charged anything for the using of it. What right did he have to ask us to be asked to pay for a road to which we get a right of way for only five years? We ought to have the right of way for good; that is the only sensible conclusion which can be drawn from the facts.

Rep. Nawai stated that matter has already been considered. The Minister was to obtain the right of way perpetually or not by the road.

Rep. Brown said the fee was the Crown Land Commissioners. They could not make a deed, because it was leased for twenty years; he believed to the Hawaiian Agricultural Company. The Government would be out before it got through with the job, for the don't see why the Government should buy the road anyway. (Rep. Rosa—Read the report.) I heard the report and know just as much about it as I did before.

Rep. Rosa was surprised to hear such sentiments from an attorney. We appropriate thousands for road damages. The Minister of the Interior has to see that he gets a title before he pays the money. The committee consider that it had nothing to do with Peter Lee's title. That is a matter for the Minister. He must satisfy himself that Peter Lee has the right which he claims, viz: fifteen years exclusive right. The committee found that it was the unanimous opinion of everyone who knew the road, that the Government ought to own it. I do not say what amount ought to be appropriated, but I think the Government ought to own that road.

Noble Widemann didn't think there was any resemblance between this case and that of ordinary road damages. All that is offered here is the fifteen year's right.

The report was removed from the table, accepted and laid on the table to be considered with the Appropriation Bill.

Rep. Kalua, for the Judiciary Committee, reports on Bills 21 and 22, both

relating to the same subject, relating to the desertion of married people. The committee find that the bills are not clear, and have prepared a new bill embracing the objects of both, and they recommend its passage.

The bill was read by title.

The bill was read under suspension of the rules a second time by title.

Rep. Kalua stated that the bill sought to repeal the present law, which provided no way to compel the woman to return and live with her husband. I move the bill pass as amended.

Noble Widemann moved the bill be indefinitely postponed. If I should marry and my wife should desert me, I would say go and stay and God bless you. I fought the old section of the Penal Code, and I am called upon in my old age to fight it again. I do not believe that love and affection can be begotten by the police magistrate and the jail.

Without love and affection marriage can not well exist. There are very few people who can live together after they have commenced to dislike each other. As I have said the Police Court and the prison are not places where love is revived.

Rep. Kapahaole favored the motion to engross the bill.

Rep. Apiki favored engrossing the bill. The bill was passed to engrossment to the rules a second time by title.

Noble Phillips moved the petition of Skinner & Co. be taken from the table and considered by the House. It was a matter which ought to be considered by Messrs. Skinner & Co. understood that along as the number of children did not average more than two children under 12 years to each family, the Hawaiian Government would be satisfied. Circumstances made it impossible to receive more than one child under 12, as there was a large demand for laborers to go to Brazil and very favorable terms were offered.

Minister Brown thought the hon. member was out of order in making a motion to re-consider as he had voted in the minority.

Noble Widemann combated this view. He thought the motion was in order. The table not being a motion to re-consider.

Rep. Kapahaole thought the speakers were all out of order—as it was 12 o'clock.

The House took a recess.

Afternoon Session.

The House re-assembled at 1:35.

Noble Phillips, continuing, said that when the immigrants arrived the then Minister of the Interior objected, but afterwards waived the objection, and the immigrants accepted the land in the plantations; a draft was drawn which was paid, leaving a balance of about \$10,000 due Skinner & Co. This the late Minister of the Interior refused to pay.

Rep. Brown—I think the best place for that petition is where it is—on the table. If the contract has not been carried out and a Ministry comes in with the idea of strictly enforcing the contract, those who have not fulfilled their contract ought not to come in here and petition on a claim which has not been passed upon by any Court of law. The suit, I hear, has been withdrawn, do not know where the matter is. I do not wish to have the matter tested in a Court of law. In the case of the Bowler claims, the claimant only comes here after his claim has been thrown out by a Court. That is the right way to make the law, to make a place to seek redress unless the remedies of the Courts of Law and Equity of this Kingdom have been tried and have failed.

Noble Widemann—Courts are courts, and lawyers are lawyers. No one knows that better than the last speaker. The case is here, however. I know nothing of it, but if it is anything like the case of the late Kalakaua, I say the sooner we take it up the better.

Rep. Bush agreed with Rep. Brown that we should not act as judges. Our business is to make law. The parties have the opportunity to obtain in the Courts of law, and they ought to have had no opportunity to pass on this claim, and bringing it here is only to lengthen our labors unnecessarily.

The previous question was moved and carried.

The motion to take the petition from the table was lost.

Rep. Kalua gave notice of an Act relating to the unassigned lands.

Noble Phillips moved for an Act to authorize the construction of railways for agricultural purposes over lands of persons not benefited thereby.

The House proceeded to the Order of the Day. Consideration of the Oahu Railway Bill.

The previous question was moved and carried.

The eyes and noses were called. The motion, to indefinitely postpone was lost by the following vote: Ayes—Muller, Pua, Hind, Kahookano, Waipulani, White, Kalua—7. Noes—Cummins, G. Brown, Spencer, Widemann, Berger, Macfarlane, McCarthy, Phillips, Crabbe, Kaupane, J. M. Horner, Burchard, Marsden, Baldwin, Cornwell, Walbridge, Anderson, von Tempisky, Kanoa, R. W. Wilcox, Cummings, Marquis, Lucas, R. W. Wilcox, Ross, Bush, Kaahi, Nawai, Baker, A. well, Walbridge, Anderson, von Tempisky, G. N. Wilcox, Kanoa, Isenberg, Cummings, R. W. Wilcox, Bush, Nawai, Baker, Rickard, Kahookano, Waipulani, Apiki, Pua, White, Kaneohe, Kalua, Halstead, Kamai, A. S. Wilcox—34.

Noes—Peterson, Widemann, McCarthy, Phillips, Crabbe, Kaupane, J. M. Horner, C. Brown, Marquis, Lucas, A. S. Wilcox, A. Horner, Knudsen, Rice—15.

A motion to adjourn was made and lost, 21 to 21. President voting, no.

Noble Muller moved to reconsider the vote on section 2. Lost.

Section 3 giving the company a subsidy of \$500 per year for five years was read.

claim this is not asking too much. I am willing to accept any amendment from the other side. I have been accused of lobbying against this bill. What lobbying I have done has been against the indefinite postponement of the bill. I have been accused on the floor of this House of not being true to the platform of the party. I am in favor of aid to railroads to every reasonable extent and have done nothing to injure this or any legitimate enterprise. I feel that I am obliged to deny the statements which have been made against me. I wish the tactics of the friends of the bill had been less questionable. I have favored the full discussion of the bill. The friends of the bill have gone so far as to promise a member that he will be given all the surveying on the road. They have gone to contemptible lengths in attempting to carry the bill. I am willing to make it five miles per year or even three. They must give some evidence that they will finish the line.

Noble Widemann—The bill now seems fairly on the way of its passage and we must make good a bill of it as we can, and I shall not call any honest amendment a rider, although I do not altogether approve the amendment of the hon. Noble. I see its drift and the drift is good. After they have got the rails here they can easily build twenty miles more except around Makapu Point. I move the amendment be made to fit what I have said, and then pass.

Rep. Bush moved the section pass as in the bill without amendment. The present contract is only to build a road to Ewa, and the time was three years. This bill gives them five years to build and equip the rest. The whole road will have to be built in five years more to secure them the benefit of the exclusive franchise. The road can only be built under the Act of 1888. The old law of 1880 has nothing to do with the Oahu R. Co. The Act further prevents them from making a sale to any foreign company. I think the Act protects the Government adequately.

Noble Cornwell offered to amend by making it three miles yearly instead of ten. (Noble Macfarlane accepted it.)

Rep. Lucas thought that would not work. He would amend by requiring the company to lay three miles yearly, after the first year. The company ought to be exempt the first year.

Rep. Brown said the whole tracks in all the districts would have to be laid anyway in five years. I shall stick to the bill.

Rep. Lucas said that it would be better to pass the section just as it was.

Noble Macfarlane could not sympathize with the members who were changing back and forth.

Noble Widemann said the amendment would do no good. The company was limited.

The President stated that neither the Secretary nor himself could tell what the amendments were.

Rep. Bush favored passage as in the bill, the amendments were so mixed up.

The previous question was moved and carried.

Noble Macfarlane read his amendment in its final form.

The amendment was lost.

The section passed as in the bill.

Rep. Bush moved the House adjourn; lost.

Section 2, guaranteeing 5 per cent interest on the bonds at \$8,000 per mile for twenty years.

Rep. Kalua moved that sections 2, 3, 4, 5, 6 and 7 be indefinitely postponed. I move the previous question. Carried.

The eyes and noses were called.

Rep. Brown raised the point of order that only section 2 could be disposed of as the bill was being considered section by section.

Rep. Kalua appealed.

Noble Macfarlane wished the member from Waikua to withdraw his motion.

Rep. Kalua declined.

The decision of the Chair was sustained.

Rep. Kalua claimed that his motion of the previous question dropped with his other motion.

Noble J. M. Horner—If we don't render assistance enough to build the road we don't render any at all. If we build we have: 1. The road. 2. Rise in the property along that road. Is that all? No. We have in addition the money circulating in the community (which is now locked up), brought into activity to build residences and make prosperity. The road will make constant business and furnish constant employment. Think of that point alone. There is one thing more. We have appropriated \$1,500,000 and we must borrow all that. But these railroad bonds we have not got to pay. The money we borrow and benefit the country. Much that we have appropriated went bring in anything. Think of these things till to-morrow morning. I move we adjourn.

The motion to adjourn was lost.

Noble Macfarlane asked if the previous question was in force. Was this the kind of tactics to employ? (Voices—It was your own side. Rep. Kalua moved.)

Noble Widemann moved to adjourn; lost.

Section 2 was indefinitely postponed by the following vote: Ayes—Cummins, G. Brown, Spencer, Berger, Macfarlane, Muller, Pua, Hind, Burchard, Marsden, Baldwin, Cornwell, Walbridge, Anderson, von Tempisky, G. N. Wilcox, Cummings, R. W. Wilcox, Bush, Nawai, Baker, Rickard, Kahookano, Waipulani, Apiki, Pua, White, Kaneohe, Kalua, Halstead, Kamai, A. S. Wilcox—34.

Noes—Peterson, Widemann, McCarthy, Phillips, Crabbe, Kaupane, J. M. Horner, C. Brown, Marquis, Lucas, A. S. Wilcox, A. Horner, Knudsen, Rice—15.

A motion to adjourn was made and lost, 21 to 21. President voting, no.

as only as much would fall due in one year.

Noble Isenberg said the road could not be built in a year, it would take probably five years and only one-fifth would be payable each year.

Rep. Brown said in regard to the statements made by Rep. White that the company did not own one acre of land on the other side except at Kahuku and then the plantation had its own track. This railroad will make a great deal of work for mechanics and native Hawaiians. It would be a great benefit to the natives of Koolau. It will give an opening for small lands over there and would be a great benefit. The bugbear had been the guarantee of interest. He was not sorry that the House had rejected that section, he had been very doubtful about it himself.

Noble Widemann—I am sorry the last speaker did not say what he has before, on section 2. That was the life of the bill. That gone, the bill is now as dead as a door nail. Nothing can be done except to give a big subsidy, \$2,500 a mile won't do any good. The money would have to be borrowed at 8 or 9 per cent, and they won't get it even at that. The bill is killed unless I give \$5,000 or \$5,000 per mile subsidy, and I am not ready for that.

Rep. Bush favored passage of the section. The enterprise ought to be encouraged. Mr. Dillingham was an energetic man and the Legislature ought to extend a helping hand to his enterprise as it had to others.

Reps. R. W. Wilcox and Kapahaole also spoke.

The House adjourned at 4:25 without coming to a vote.

A Successful Concert.

The band concert at Waikiki Villa last evening was a success in every way. It was the initial one at that place, but will certainly not be the last—at least it ought not to be.

Proposed Consolidation.

Preliminary negotiations have taken place between Col. Clans Spreckels, on behalf of the stockholders of the Hawaiian Commercial and Sugar Company, and the stockholders of the Paia and Haiku plantations, with a view to a consolidation of these plantations into one large estate.

LOCAL AND GENERAL.

Don't forget the Arion picnic on Saturday. There will be a dancing party at the hotel this evening.

Cornwell, Jr., Miss O'Keefe, and about thirty in the steerage.

Presentations. The following letter is self-explanatory: Rev. H. H. Gowen.

Mr. Deane says: I have been requested to forward the accompanying book, "Indigenous Flowers of the Hawaiian Islands," as a small token of the esteem in which you are held by the different members of Christ's church here in Hawaii.

I am instructed to inform you that this is not the gift of any one or two persons, but at least forty members of the congregations who worship in St. Andrew's Cathedral and also at Wailuku on the Island of Maui.

Another Robbery. At half-past one o'clock this morning a Chinaman was discovered in the house of Mr. W. E. H. Deverill, Nuuanu Valley. The burglar, when he found that he was detected, made for a window with Mr. Deverill after him. The Chinaman got clear while Mr. D. fell into a hammock. The Chinaman carried off a watch and a cash box, and took to his heels by way of Judd street. The cash in the box made quite a jingling noise as he ran along. He left his hat in the house. The police were notified and one was quickly on the spot. Mrs. Deverill says she would know the man again.

Police Court. WEDNESDAY, AUGUST 27. Two drunks contributed \$12 to the treasury.

Tin Te was fined \$50 and sentenced to thirty days' imprisonment at hard labor for having opium unlawfully in possession.

A nolle proes. was entered against three white men charged with burglary and housebreaking.

BUMPS AND JINKS.

A day or two after the last interview our reporter met Bumps and Jinks again sitting down outside the Government Building discussing politics. As he seated himself Jinks said: "I say Bumps, you said you would explain to me about the 'Constitutional Convention.' what is it about?"

Ab, the 'Constitutional Convention,' well you see there is some people that doesn't like the new Constitution, its too strict for them. The best part of the National Deform party, natives and foreigners, doesn't think so, but some of the others do. The way it was afore, the Legislature could be packed mostly with Government officers, and offices could be given and promised to others, and the King and the Ministers would just run things to suit themselves. Under the new Constitution this can't be did. And some wishes to have it the old way.

And formerly the King appointed all the Nobles—now they is elected by the people what's got property. And all hands elects representatives. They's divided even, and all hands has a show.

And formerly the King had his own way about a lot of things whether the Ministers liked it or not. An' if they didn't like it, he jest paid 'em off and discharged them. Now they's responsible and stay in until the people through the Legislature discharges them.

An' there's some other things of the same sort some of 'em doesn't like."

"But, Bumps, I thought there was something in their papers that provided how changes is to be made in the articles, how is that?"

"That's so, Jinks, an' if anybody wishes changes made they must bring it up before the Legislature and if the most of them thinks it all right they says so, and then the next time they comes together they decide the matter."

"Well, what do they wants an 'Invention' for? Doesn't the sensible fellers think that's all right?"

"Yes, Jinks, they does. But some of them is afraid their folks won't like it. So they makes excuses, an' says they can't help it; they's committed."

"Why, Bumps, that's queer. Doesn't they propose to do what they thinks is right? Didn't they kiss the book and say they'd do right anyhow?"

"I heard a feller say that the books and history says that that doesn't pay; that even Job, after he didn't go to Ninevah and had been in the whale's belly three days, said he would a durn-sight rather be right to-day than consistent with yesterday, and he started for Ninevah by the first train."

"No, no; you are all off. 'twant Job that had the watch below with the whale. That was Jonah. And it wasn't neither of 'em what said that. It was Roscoe Conkling when he that he was going to die."

"Some folks has a powerful sense of dooty seize 'em when they wishes to do something they is really ashamed of."

"An' when a feller knows better, but thinks he will gain something by it, it's mighty handy to hide behind somebody else, or trot out some obligation, or somehow make out he can't help it."

"But it's dreadful mean. Now, there was old Adam, he knew better, but made himself believe it was his dooty to hisselt and others to take the water melon, and then tried to sneek out and throw the blame on the old woman."

"Wall, wall, Bumps, I swar I wouldn't do that; that's what you meant the other day when you said they might learn something from the Primer, and that Spencer, the Internal man, would stand up straight an' scratch his back?"

"Now, look 'er here, Jinks, I didn't say nothing about any body scratching his back. I sed he would stand up straight when it came to the scratch—when he has to act. Of course he will, and the Primer, too—he knows too much to run the old ship plumb on ter the reef for anybody."

"But, I say, Bumps, is there many of them in the House as will vote for the 'Invention'?" How about that feller from Hi—low—the one whose arms goes like a windmill, and talks like a cyclone in the China sea, an' some of the others like him?"

"Well, Jinks, they means well, but they gets excited an' people talks to them and they says lots of things. But they really isn't so bad as they makes themselves out ter be. When a whale is in a flurry, you know how she takes on. An' you know how a ship is headed off her course sometimes in a spell of bad weather; but jest keep her steady an' hang on and she comes out all right."

"All right, Bumps, I hopes they will come out all right. This is a mighty queer world on shore. Give me the sea, where they's a square deal an' a feller has a show."

Whereupon the friends bade each other good night and parted.
