FROM HILO TO PAAUILO

PROSPECTUS FOR NEW HAWAII RAILROAD WILL SOON BE ISSUED.

Within the next few days a prospectus will be issued of the new railroad which it is proposed to build on the northeast coast of Hawaii and Hilo.

In speaking of the matter this morning Mr. Dillingham stated that he was not quite ready to make a detailed statement of the plans for building the road, but that he felt fairly sure that the new project will be carried out.

Preliminary surveys have been made for the new line, and the cost approximated from these. With the putting out of the prospectus will go a bond issue sufficient to float the project.

The course of the line is through a series of sugar plantations which is a part of the richest district of Hawaii.

SMALL FARMS

SAN FRANCISCO, June 9.—Asked what appeared to him to be the greatest need for the prosperity of Hawaii, Ernest F. Acheson, Congressman from Pennsylvania, declared without hesitation, "The American farmer."

(Associated Press Cable to The Star.) ASCOT, England, June 19.—Lally, with Jockey Hewitt, the Australian up, wins the royal plate.

FREAR THE MAN

LOOKS LIKE THE CHIEF JUSTICE WILL BE THE NEXT GOVERNOR. TALK IN HIS FAVOR.

Chief Justice Frear is said now to be man to succeed Governor Carter. There is a very strong undercurrent of talk on this score and practically no other name is considered.

It is thought that in event of Frear leaving the Supreme Bench, Associate Justice Hartwell would become chief justice and A. A. Wilder would of course, be ranking associate.

BIG FOURTH THIS YEAR

GENERAL MEETING HELD THIS MORNING AND COMMITTEE APPOINTED.

Honolulu is assured of a big Fourth of July celebration this year—one of the great big, old-fashioned kind that used to make the average modern American who happened to be sojourning here at the time, open his eyes in amazement.

The meeting was presided over by Acting Governor A. L. C. Atkinson, and the following gentlemen were present: P. C. Jones, J. P. Cooke, W. O. Smith, Judge Kingsbury, Dr. C. B. Cooper, Jack Low, Major J. W. Rife, Col. J. W. Jones, General Edward Davis, W. W. Hall, J. O. Lutted, A. J. Campbell, George B. McClellan, Delegate Kuhlo, Col. Sam Parker, J. W. Pratt and William Henry.

Everybody seems to be pleased thus far with the experiment of bringing in the Spanish settlers, including the immigrants themselves. Walter F. Dillingham, of the Immigration Board, stated this morning that the reports from the planters as well as from the new settlers have almost without exception been very satisfactory.

In a communication from the principal of the Royal School which was read by Judge Kingsbury, an offer was made to furnish for the day a supply of "young orators." This offer was not acted upon.

The following compose the sub-committees on Fourth of July celebration: Finance Committee: J. P. Cooke, chairman; G. P. Wilder.

Parade and Salute: General Edward Davis, Major R. C. Van Vleet, Colonel Samuel Johnson, Major J. W. Pratt.

LINGERING COUGHS. The longer a cold hangs on, the more it weakens the system. Do not run the risk of an attack of pneumonia by neglecting it.

BOARD READY FOR NEW IMMIGRANTS

STEAMSHIP KUMERIC EXPECTED ABOUT THE 23RD, WITH 1050 PORTUGUESE TO WORK ON PLANTATIONS—FEDERAL OFFICIAL ACCOMPANIES PARTY TO STUDY SYSTEM—SPANIARDS VERY SATISFIED.

The Board of Immigration has about perfected plans for the handling of the ship load of Portuguese settlers who are coming on the S. S. Kumeric, and are due to arrive here between the 23rd and the 25th.

With the arrival of the Sierra on Friday, will come E. R. Stackable, the Immigration Board's able representative who for the past eight or nine months has been abroad, in the interests of immigration for the Territory, and through whom both the Spanish immigrants of the Helelopolis and the present lot of Portuguese coming on the Kumeric, were recruited.

Everybody seems to be pleased thus far with the experiment of bringing in the Spanish settlers, including the immigrants themselves. Walter F. Dillingham, of the Immigration Board, stated this morning that the reports from the planters as well as from the new settlers have almost without exception been very satisfactory.

### Charity, Its Evils And Blessings

Some time ago it was announced that the two well-known humanitarians, Mr. and Mrs. Phelps-Stokes—had given up charity work and had determined to direct all their future efforts upon the cause of poverty and not upon the effects, to seek out the economic reasons of poverty and crime and show the remedy. Correctly they ceased to be reformers and became revolutionists.

Charity is much abused word. It is derived from Old French "charite," through the Latin "caritas," meaning "love for." In common use it is applied to grants and gifts of money or its equivalent to needy. This is pecuniary charity. Men who have studied well into the subject have shown us that there is no need for this kind of eleemosynary action, because the world produces enough of the necessities and luxuries of life to supply every man and woman with an equivalent of \$2500 a year, working four hours a day. Since there is so much suffering due to poverty, the trouble lies in the distribution and not in the production of the world's wealth.

The ethics of pecuniary charity are harmful. The recipient of eleemosynary gifts is lured into and encouraged in indolent habits and shiftless manners. Persons who can live by appealing to the sympathy of others will continue to pursue that policy. Persons who really deserve pecuniary charity should have no need of it. If they do, they are victims, victims of an unjust social system.

It seems that scientific methods have been applied to almost everything today except to the very thing which needs it most—society. How is it that chemistry has advanced with such strides? How is it that physics enables us to propel vehicles without the aid of animal force? How is it that astronomy can predict an eclipse or name the elements of the planets with absolute certainty? It is all due to the scientific methods. Is it not time to apply scientific methods to the regulation of society itself, or have we not yet become civilized enough so to do?

The second form of charity—the true charity—is the highest ideal man can strive for. It is paramount only to truth itself. It is love for our neighbors in the fullest sense of the word. What we give to our lives, whether energy, influence, encouragement, and that which satisfies us ultimately; that is charity. This is personal charity. Let us have more of it. Mr. and Mrs. Phelps-Stokes can reach no higher goal than the absolute abandonment of pecuniary charity and the dedication of their lives to personal charity.

### The Drift Toward Tariff Revision

What is variously acclaimed in the Independent press as "the most notable utterance on the subject of tariff revision that has yet appeared" and "the severest jolt that has yet been administered to the stand-patters" comes from no less unexpected a source than the National Association of Manufacturers. This body, says The Literary Digest, consists of some three thousand of the leading manufacturers of the country, men supposed to be, for the most part, direct beneficiaries of the tariff. Nevertheless at its recent annual convention in New York the Association adopted a resolution favoring revision of the existing tariff at the earliest opportunity, recommending the appointment of a non-partisan and national commission to consider revision proposals in a business-like manner, and urging the negotiation of reciprocity treaties in the mean time. Prior to the convention the entire membership of the Association had been sounded by letter on the subject of revision. The report of the committee which took this mail vote is quoted as follows in the New York Journal of Commerce:

"Of those members who have replied to our inquiries upon this subject, out of a total of 1,800 members, 350, or 20 per cent are radically opposed to revision; 8 per cent are opposed to it at this time on grounds of expediency, less it unsettle business, etc.; 55 per cent favor revision—most of them a radical kind, but one-fifth of them wanting only partial revision; 17 per cent are indifferent or uninformed, or not entitled to vote. Those decidedly wanting revision now or in the near future, are, therefore, twice those who are either decidedly opposed to revision or opposed to it for the time being. Taken by industries, out of 77 different industries tabulated, 56 vote for revision, casting a total of 1,510 votes; 16 industries vote against revision, casting a total of 102 votes; 5 industries are each tied in their votes, casting a total of 28 votes.

"When the most powerful organization of manufacturers in the United States," remarks the Louisville Courier-Journal (Dem.), "turns against the device invented, ostensibly, to protect American manufacturers, the hypocrisy of the protectionists is exposed." But it is unnecessary to indicate the tenor of the Democratic press comment. The really remarkable feature of the incident is the attitude of the Republican papers. These, with scarcely an exception, indorse the manufacturers' demand for revision, at the same time differentiating themselves from the Democratic revisionists by reaffirming their allegiance to the principle of protection. Secretary Taft has declared for revision, in the face of the Tariff League's threat to "eliminate" as a Republican candidate any man who would lay hands upon the Dingley schedules—a threat which leads the Washington Post (Ind.) to remark: "If the American Protective Tariff League should succeed in making tariff revision the paramount issue in the Republican National Convention of 1908, it may make the nomination of William H. Taft for President a certainty." Other independent papers claim to discover Mr. Taft's chief advantage over his rivals in the fact that he is the only avowed revisionist among the Republican candidates. And the Brooklyn Times (Rep.) warns its party that "if the Republicans refuse to listen to the demand for a reasonable revision of the tariff in the interest of protection they may count upon a revulsion of sentiment that will give the power, as in 1892, into the hands of the free-trade Democrats.

The New York Tribune may be cited as another of the many Republican papers which admit that the time has come for some readjustment of the tariff. "When revision comes," says the New York Evening Mail (Rep.), "it will be undertaken as a business question—to meet changed conditions at home, to satisfy the grievances of our best customers abroad." It does not deny, however, that such conditions and such grievances already exist.

### Tales Worth Telling

THE MOLLYCODDLE QUESTION.  
Harper's Weekly tried to help a correspondent to an understanding of the significance of the word "mollycoddle," recently popularized by the President. It gave the ordinary dictionary definition. Perhaps a more vivid conception of the idea sought to be conveyed by the President's word, observes the Weekly in its current issue, will be imparted "if we define a mollycoddle, in language once attributed to an Assistant Secretary of the Navy, as 'a person with a chocolate-cclair backbone.'"

THE LIE AND MR. DOOLEY.  
"A lie may be as simple as th' thruth. Th' fact iv th' matter is that th' rate thruth is niver simple. What we call thruth an' pass around fr'm hand to hand is on'y a kind iv a currency that we use fr' convenience. There are a good many counterfeiters an' a lot iv th' counterfeiters mus' be in circulation. I haven't anny question that I take in many iv thim over me Intellechool bar ivry day, an' pass out not a few. Some iv th' counterfeiters has as much precious metal in thim as th' rate goods, on'y they don't bear th' government stamp."

A SUBSTITUTE.  
Being very close-fitted, Mason had never allowed himself the costly habit of smoking. He always felt himself a loser when any one treated to cigars. But on one occasion, when the party he was with entered a stationery and cigar store, he made up his mind to have his share of the treat.  
"Won't you have a smoke this time?" asked the leader.  
"No, thank you," replied Mason; "but if you don't mind, I believe I'll take a pencil."

THE BACHELOR'S SCRIPT.  
Life's little ironies generally wear petticoats.  
Politics is a masculine game, but the first boss was a woman.  
The woman who is no spring chicken will usually lay for you.  
Love laughs at locksmiths, but the goldsmith is a serious matter.  
The husband's day: eight hours for sleep, eight hours for work, and eight hours for explanations.

AMBIGUOUS.  
At the death of a much-loved pastor some years ago, the vestry of a prominent New York church resolved to place a tablet to his memory in the vestibule of the church. In due time the tablet appeared in its place, where it still remains. It has caused not a few smiles; for, after reciting a list of the former pastor's virtues and labors, it closes with the quotation: "Now the people of God have rest."

BOTH OUT AND IN.  
The Needy One. "I say, old man, could you lend me a dollar for a day or two?"  
The Other One. "My dear fellow, the dollar I lend is out at present, and I've several names down for it when it comes back."

THE EARLY BIRD.  
Blahop Brewster, of Connecticut, is noted for his funny stories, and his latest is said to be about an old reprobate who decided to repent, and announced to every one that whatever wrong he had done should be mae right. So a man whom he had cheated out of a large sum of money went around at midnight to demand it.  
"But what did you come at this hour for, and wake me up? Why not wait till tomorrow?" said the old sinner, crossly.  
"I came now," replied the man, "to avoid the rush."

BETTER RESULTS PROMISED.  
Having found that their manufactured panic failed to discredit President Roosevelt with the public, the high financiers are taking a more promising tack. They are indorsing him.—Philadelphia North American.

WING SHOTS.  
The people have had just a taste of 2 cents a mile, enough to get up an appetite.  
Booker Washington has rented a farm of 100 acres, with a fine old mansion, which ought to prove that education of the negro pays.

The bribe givers in San Francisco are going to organize a trust. If they had done that sooner, they might be in less danger of jail.  
King Charles of Portugal, is going to invite his duma to come back. On closer inspection, he finds his hand is not strong enough to play on the principle of bridge whist.

#### CASE UNEXPECTEDLY SETTLED.

The eminent case of Maria Gaspar, vs. Mary Low, et al, came to a sudden termination late yesterday afternoon, when a certain unexpired lease was discovered. It was apparent from this lease that the plaintiff was not the proper person to have instituted the suit. A directed verdict for defendant was returned. The land in dispute was then divided amicably by the various parties to the suit. Withington and Greenwell represented the plaintiff and J. A. Magoon, the defendants.

## SHOOTERS NAMED FOR MAUI MATCH

SIX MEMBERS FOR HAWAIIAN GUN CLUB TEAM WHO WILL CONTEST AT TRAPS FOR HONORS.

The Hawaiian Gun Club held a meeting last evening at which the big shooting match with a Maui team which is to be held next Sunday by wireless, was the principal matter discussed. J. W. Harvey was appointed team captain, and he will have entire charge of the arrangements. Six members of the team of eight were also chosen last night, and the other two will likely be chosen at a meeting on Wednesday evening after the regular weekly championship cup shoot, which will be made the means of determining some fine points regarding a number of about equally available marksmen.

The six appointed last night are J. W. Harvey, K. B. Porter, D. L. Austin, I. Spalding, J. A. Robb and Lieut. W. E. Roberts. Besides the two additional members to be appointed Wednesday night, two reserves will also be named for emergency.

The personnel of the Maui team has not yet been learned, but it is expected by the boat tomorrow. As has been before stated, the match is unique, for the reason that each club will conduct its own shooting under like conditions, and the results exchanged by wireless. Unfortunately owing to the fact that the wireless offices are not open on Sunday it will probably be necessary to wait until Monday in order to know which team wins. The match is likely to be shot for at 4:30 o'clock Sunday afternoon.

#### TENNIS FINALS PLAYED.

The finals of the tennis tournament played on the Pacific Tennis Club yesterday afternoon resulted in the defeat of W. Roth and Miss Paty by R. Cooke and Miss Horner after three sets had been played, all of which were close. The scores were 6-4, 4-6 and 6-2.

## BETTENCOURT WINS THE CHAMPIONSHIP

BY 880-YARD RACE RUN YESTERDAY WITH LEANDRO, HE BREAKS TIE.

In order to decide a tie for the school championship in the annual field day events of St. Louis College held last Saturday at the Boys' Field under the auspices of the St. Louis College Alumni Association, the 880-yard run was again run yesterday afternoon by J. Bettencourt and Frank Leandro, and was won by the former. Time 2:27 2-5.

In winning this event Bettencourt scores a total of 13 points, and thus wins the all round championship of the school, and carries off the cup of the Alumni Association, as well as the gold medal offered by J. Phillips, of Oha.

#### LACROSSE TEAM COMING.

The proposed trip of the Canadian lacrosse team to Australia is now practically assured. John C. Miller of Montreal, who is engineering the tour, has secured fifteen around the world tickets via Australia, and the team will start next month. They will visit all the principal cities in Australia and Europe returning home from England with the team now touring in that country.

The following notices have been posted at the Country Club relative to the important golf events arranged for next month:

#### McINERNEY CUP.

The first annual match play tournament (handicap) for this cup will commence as from July 1st, 1907. Entries close at E. O. Hall & Son, Ltd., on June 29th. Entrance fee 50c.

By order of Grounds Committee: F. H. Armstrong, chairman; D. W. Anderson, secretary.

#### MEDAL PLAY COMPETITION.

(Handicap.) A competition will be held on July 4th, 1907. Two Prizes. Entrance fee, 50c. Draws at 10 a. m. and 2:30 p. m., prompt. Members wishing to compete must be present at one of the above named hours.

By order of Grounds Committee: F. H. Armstrong, chairman; D. W. Anderson, secretary.

#### CAR SICKNESS.

Your disagreeable feeling when traveling, such as headache, car-sickness, sea-sickness, or nervousness, are all due to agitated nerves. Quick relief is invariably obtained by taking Dr. Miles' Anti-Pain Pills. They claim and refresh the weary nerves, and relieve you from all misery and pain. 25 doses, 25 cents. Never sold in bulk.

## McFADDEN IS TOUGH CUSTOMER IN RING

LAD WHO CLEANED UP HONOLULU SAID TO BE FIGHTER WHO CAN STICK LONG TIME.

SAN FRANCISCO, June 10.—Jack McFadden, the corral top pugilist, who figured in the Eureka bloomer with Johnny Murphy, is back in town, and lost no time in getting a match. Jack was very much disgusted because he didn't get a chance to fight Murphy in a twenty-round bout, as he feels that he has it on all of the featherweights when it comes to going over a longer route. McFadden is to meet Tom Woods Friday night before the Colonial Club at Dreamland Pavilion, and as Woods beat such a fast and clever scrapper as Frankie Edwards he will have no easy task in winning. Like his brother, "Kid" McFadden, Jack is as game as a pebble and makes his run coming down the home stretch. He simply ate up the punishment that the hard-hitting Johnny Murphy handed out to him in their recent four-round setto, and the longer it went the stronger he got. He says he is just itching to get another chance at Murphy, and, like the latter, wants the contest to be more than four rounds, so if he detects Woods Billy Roche may be tempted to put them on at Colma in the near future in connection with another ten-round go.

While McFadden was in Honolulu he was quite a big gun, dividing his time between fighting fires and polishing off aspiring Hawaiian pugs. He got a fat job in the fire department and became a fight promoter, and incidentally matched himself with some of the champs in the Banana Land, eventually earning the title of champion. Out at the Hayes Valley Club he is daisy plugging away in order to be right on edge for Woods, as he is not taking his round-round ring argument with the North Beach lad lightly.

## BOAT CLUBS PLAN SPORTS FOR FOURTH

PROGRAM ARRANGED FOR AQUATIC SPORTS TO BE HELD AT HOTEL BATHS.

The water aquatic events which will be held at the Hotel Baths on the evening of July 4th, by the teams of the Healan and Myrtle Boat Clubs, is rapidly assuming definite form. A meeting of the committee of both clubs met last evening at the Elks club rooms with a representative of the Baths, and a program of the various events was arranged. Those present were George Crozier, F. F. Bechert, and C. W. Gervin, for the Myrtles, P. Jarrett, Sam Walker and D. L. Conkling for the Healans, and Jess Woods for the Baths.

The meet will take the place of the Pearl Harbor races which for the past several years have been one of the principal Fourth of July features, but which have this year been discontinued.

The program as arranged, contemplates the following events, subject to changes. Some handsome individual prizes are to be given the winners of the races, and cups will be provided for the teams winning the polo game and relay races:

- Mermals.
- Fifty-yard race.
- Boys' race (maiden).
- Seventy-five-yard race.
- High and fancy diving.
- Plunge for distance.
- One hundred-yard handicap.
- Swimming under water.
- Two hundred and twenty-yard handicap.
- Relay race.
- Water polo match.
- Burlesque, by the Diamond Head Club.

BARK MOHICAN AND BARKENTINE WINKELMAN IN COLLISION AT SAN FRANCISCO.

SAN FRANCISCO, June 8.—The bark Mohican dragged her anchor yesterday and crashed into the barkentine Mary Winkelman. Both vessels were lying off Meigs wharf when a north-west squall struck the Mohican with such force that it was torn away from the moorings and sent crashing against the Winkelman. For a time the two vessels were so mixed up that the on-lookers thought they never would be straightened out. A passing tug went

to the rescue and after a lot of pulling and hauling succeeded in clearing the entanglement and towing the Mohican back to its former anchorage. The Winkelman suffered the loss of its headgear, its jibboom was damaged and its topgallant mast was carried away above the royal yard. The Mohican escaped with a slight chafing.

#### HIGH SCHOOL RECEPTION.

There will be a reception on Wednesday

AN AMERICAN RAILROAD KING, GEO. J. GOULD.

day evening, June 19th at the High School building tendered to the Class of 1907 by the Alumni Association.

Although many invitations are out, perhaps some of the former students have been over-looked as the old class rolls of the school are lost. All of the alumni of the High School are nevertheless specially invited to attend.

#### PASS BLAME ALONG.

Sam Kanoho and Aika, arrested for fishing with dynamite near the Ka-

kaako rifle range, state that they secured their dynamite from Charles Costa of the road department stables and that they gave him some of the fish caught.

#### IS RADERMACHER DEAD?

L. R. Radermacher, who disappeared here some months ago, is supposed to have met a violent death by his own or other hands. Chief of Detectives Taylor hears from Los Angeles that Radermacher has not turned up there nor has he been heard of or heard from in that city. He was last

seen in Honolulu at the Occidental Hotel.

#### BELIEVES IN FORTIFYING.

In a letter to Acting Governor Atkinson, Congressman P. P. Campbell of Kansas, who was one of the recent visitors to the islands with the Congressional party, says that he regards Honolulu and Hilo as important outposts of the mainland and they should be fortified. The Pacific squadron should, he thinks, be stationed at Honolulu, in a suitable harbor.

**ISLANDS RUINED BY TIDAL WAVE**

DEVASTATION AND LOSS OF LIFE ON FOUR OF THE CAROLINE GROUP.

SAN FRANCISCO, June 8.—The first details of the terrible havoc wrought by a typhoon and tidal wave in the Caroline islands in the latter part of March were brought here yesterday by Rev. G. H. Jagnow, a missionary who arrived on the steamer Coptic, accompanied by his wife. He was stationed in the Carolines at the time, but was not an eye-witness of the storm and its devastating effect.  
A few days before Easter Sunday a great typhoon swooped down upon the four islands known as the Olear group and completely wrecked the fruitful isles. A tidal wave that followed not only swept over the land but left it practically buried under a blanket of sand from the ocean's bed. This wave rendered 1500 people homeless and 250 men, women and children were drowned on one island alone. Twenty-five persons were lost on another one of the small islands. The typhoon lasted three days.

The oldest inhabitants of the Olear group say that a storm of such severity was never before experienced in the islands. All the trees and shrubbery were either uprooted or buried in the sand. When the tidal wave occurred and swept over the land hundreds of the natives were saved by swimming about until the waters receded. These Caroline natives are famous swimmers, and are able to keep themselves up in the water for many hours.  
The German authorities sent a steamer with supplies for the homeless natives, who were invited to go to other parts of the group. All refused to leave Olear, although even the bread fruit supply had been cut off. With the generous supplies furnished by the Germans, the natives expect to subsist until they can produce a crop of their own.

**NAT GOODWIN TURNS REAL GOLD MINER**

FILES INCORPORATION PAPERS FOR \$100,000 COMPANY TO OPERATE AROUND WONDER, NEV.

SAN FRANCISCO, June 11.—Nat Goodwin's transformation from an actor into a mining promoter took definite form yesterday when he filed the articles of incorporation of the Nevada Mines Selection Company, Inc. His petition was placed on file in the county clerk's office and a certified copy of the articles will be sent to Wonder, Nevada, where his principal place of business is to be located.  
The scope of the corporation, as evidenced by the petition, embraces many ventures besides the exploitation of mining properties. The company intends among other things, to deal in real estate, gold and coal prospects, locate all wells and oil lands and carry on the business of printing magazines, newspapers and journals. Its capital stock is \$100,000 of which \$1,000 has been subscribed.  
The following directors have taken the amount of stock set opposite their names: Nat C Goodwin, \$490; Harry Pollok, \$490; George O. Weeden, \$10; John C. Williams, \$5; Herbert Choyinski, \$5.

**MORMON CHURCH FOR POLYGAMY**

ELDER ROBERTS SAYS IT HAS NOT SURRENDERED ANY OF ITS BELIEFS.

SALT LAKE (Utah), June 9.—A sensational feature of the controversy which has been waged between the ministers of the evangelical church and the Mormon priesthood was the address delivered in the Tabernacle today by Rev. Brigham H. Roberts, once excluded from Congress because of his polygamous practices. He spoke in reply to an open letter published by the Ministerial Association. Roberts frankly declared that the church had surrendered not one iota of its belief in the principle of polygamy, but countenanced no polygamous marriages while they were forbidden by law. Of himself, he said:  
"I stand exactly where I did ten years ago, namely that though the church proclaimed against the continuation of this relationship, though the State proclaimed against it, neither the church nor the State may absolve the moral obligations I am under or release me from that moral duty."  
Roberts characterized the ministers as belonging to a third sex, neither male nor female, and said they were better qualified for pink teas than statesmanship. All of the high off-

icals of the church, including President Smith, were, present and tacitly indorsed the address of Roberts as an utterance of the church body.

**STRAUS' COMING**

WASHINGTON, June 10.—The Japanese agitation may lead Secretary Straus of the department of commerce and labor to visit San Francisco soon for the purpose of gathering information at first hand as to just what the attitude of the Pacific coast is toward the Japanese, how they are treated and what basis there may be for the complaints lodged by Japan that its citizens are not safe in California. Secretary Straus is debating the question whether he had not better extend his journey to Honolulu in order to study the effect of immigration on the questions. If he can find time to do so, he will visit Hawaii.

**Be Not Deceived**

There is only one cleanable Refrigerator and therefore GERM PROOF, and that is the Gurney Refrigerator handled by us.  
No other make has ever stood the test and by means of the removable ice chamber as well as removable shelves, drain pipes, traps, etc., we have solved the problem.  
Assail us where you will you cannot help but admit our claim. All other makes fall when it comes to keeping the ice chamber pure, sweet, clean and germ proof, but

**THE GURNEY**

Listen not to idle talk and arguments put forth in favor of cleanable provision compartment. All refrigerators have this feature. You cannot deny that unless ALL COMPARTMENTS can be kept absolutely pure and wholesome that a refrigerator is germ-proof. Go from the provision chamber to the receptacle for the ice and it is here where all other makes fail. There's the weakness that cannot be overcome by them.  
The Gurney with its removal Ice Chamber feature has supplied the great want and therefore
