Pure Blood

is the source of good health.

Ayer's Sarsaparilla

Makes pure blood, strengthens the nerves, sharpens the appetite, removes that tired feeling, and makes life worth living. Thousands of people have testified to the healing virtue of Ayer's Sarsaparilla. Their letters come in every post. There's no attempt at theory. They all assert the great fact, "Ayer's Sarsaparilla cured me."

Weak, Weary Women

who have been bed ridden, vexed with a scrofulous taint, emaciated, afflicted with diseases common to their sex, write gratefully of a perfect cure. If you wish to profit by their experience, and become healthy and strong, take the great strength giver and blood-purifier

AYER'S Sarsaparilla

Beware of imitations. The name—Ayer's Sarsaparilla—is prominent on the wrapper and blown in the glass of each bottle.

EMPEROR DOWAGER DEAD.
Mother of Emperor of Japan—Flags at Halfmast.
Consular flags at halfmast downtown this morning caused general inquiry as to the occasion for the melancholy sign. It was found to be the death of the Empress Dowager of Japan, mother of the present Emperor, members of the consular corps having received a note under date of the 22nd inst. from Mr. Shimamura, H. I. J. M.'s Diplomatic Agent and Consul General, in the following terms:
"Sir,—It is my painful duty to inform you that I received today from H. I. J. M.'s Government telegraphic information of the demise of Her Imperial Majesty the Empress Dowager, Asako, which deeply lamented event occurred on Monday the 11th inst., at the Imperial Palace, Tokio, Japan.
"In consequence of this sad information the national flag will be hoisted at halfmast at this Consulate General for fifteen days."

NO HOTEL FOR WAIKIKI.

Under the Restrictions Placed on the License the Project Will Not Pay.

A representative of the BULLETIN called on Mr. W. C. Peacock this morning and was informed by him that the project to convert the Peacock premises at Waikiki into a hotel and bathing resort had been definitely abandoned. This decision on Mr. Peacock's part will be generally regretted by the public, but it would seem that since the Government refuses to recede from the restrictions placed on the liquor license no other course was open.

Speaking of the matter this morning Mr. Peacock said: "The architect's estimate of the cost of erecting the necessary new buildings was very close to \$20,000. A further outlay of \$10,000 would be required to furnish the hotel in the style we had intended. These items with the cost of the property as it now stands would foot up about \$50,000. Careful consideration has led us to the conclusion that a hotel run on the plan proposed by the government would not begin to pay expenses. The bathing privileges and the sales of liquor to bathers would have furnished the main source of profit to the hotel, and the scheme is simply paralyzed. The great majority of bathers will not patronize a place where liquor cannot be supplied to them after a bath. A great many people stay too long in the water when the bathing is as nice as it is at Waikiki and they require some kind of stimulant afterward. Not being able to get it at the new hotel they would not go there a second time. Of course, we could go ahead under a restricted license and serve meals as they do in a New York now—a cracker and a piece of cheese—to bathers but we don't believe in doing business in an underhanded way. The project is ended, for the present at any rate, as we could not think of asking people to subscribe toward the stock of an enterprise that our experience tells us would be doomed to failure from the start."

JUDICIARY JOTTINGS.

New Divorce Suit and Injunction-Probate Cases.

Jennie Kauwala vs. David Kauwala is the last divorce case in the digest of calendar for the February term elsewhere. The libelee has been enjoined from molesting, threatening or otherwise interfering with the libellant, until the final disposition of the cause. Argument in Magoon, administrator, vs. Ahmi is proceeding before Judge Carter.

Judge Perry has appointed J. E. Grossman of Oloa, Hawaii, administrator of the estate of J. H. Distelrath, also ordered that a fee of \$15 be allowed the commissioner to take evidence abroad. W. R. Castle for petitioner. Judge Perry has granted executors' motion for discharge in the matter of the estate of John T. Waterhouse, Senior. Hartwell for petitioners.

John M. Dowsett has been appointed trustee of the estate of the late Capt. H. W. Mist, R. N., in place of the two executors in England under the will, one of them dead and the other resigned, to act with Mrs. Mist, executrix and trustee.

The BULLETIN's weather sharp says the weather is unsettled in spite of present indications. The aneroid barometer went down as low as 29.80 this morning. He predicts a heavy northeast blow within the next 48 hours. His previous prophecies have been remarkably correct.

Mr. Mahu, head luna of the Lihue plantation, Kauai, went with a party to view the ground of the Oahu Sugar Company's plantation this afternoon. August Ahrens, manager elect of the Oahu Sugar Co., will live in C. A. Brown's house, at least until a manager's residence will be built.

ADDITIONAL RESTRICTIONS

PLACED ON IMMIGRATION TO THE UNITED STATES

Exclude All Persons Over Sixteen Years of Age Who Cannot Read and Write in Some Language.

Among the bills passed by the Congress of the United States at its present session is one providing additional restrictions to immigration. The bill, which is a substitute for the House bill passed on the 20th of May last, in addition to those classes excluded under existing laws, excludes all persons over 16 years of age who cannot read and write the language of their native country or some other language, but it does not exclude the wife, child, parent or grand-parent of an admissible immigrant notwithstanding their inability to read and write. The bill does not apply to Cuban refugees during the existing troubles in Cuba.

Following is the full text of the bill: "That section 1 of the act of March 3, 1891, in amendment of the immigration and contract labor acts, be and is hereby amended by adding to the classes of aliens thereby barred from admission to the United States the following: All persons over 16 years of age who cannot read and write the language of their native country or some other language, but an admissible immigrant over such age of 16 may bring in with him or send for his wife or parent or grandparent or minor child or grandchild, notwithstanding their inability to read and write.

"For the purpose of testing the ability of the immigrant to read and write, as required by the foregoing section, the inspection officers shall be furnished with copies of the constitution of the United States, printed on numbered uniform pasteboard slips, each containing five lines of such constitution printed in various languages in double leaded small pica type.

"Those slips shall be kept in boxes made for that purpose and so constructed as to conceal the slips from view, each box to contain slips of but one language, and the immigrant may designate the language in which he prefers the test shall be made. Each immigrant shall be required to draw one of said slips from the box and read, and afterward write out in full view of the immigration officers the five lines printed thereon. Each slip shall be returned to the box immediately after the test is finished and the contents of the box shall be shaken up by the inspection officer before another drawing is made. No immigrant failing to read and write out the slip thus drawn by him shall be admitted, but he shall be returned to the country from which he came at the expense of the steamship or railroad company which brought him, as now provided in the law. The inspection officers shall keep in a box at all times a full number of said printed pasteboard slips, and in the case of each excluded immigrant shall keep a certified memorandum of the number of the slip which the said immigrant failed to read or copy out in writing.

"The act shall not apply to persons arriving in the United States from any port or place in Cuba during the continuance of the present disorders, provided that such persons shall have been residents of that country. That this act shall take effect three months after its passage."

Rattlesnakes, Butterflies, and ... ?

Washington Irving said, he supposed a certain hill was called "Rattlesnake Hill" because it abounded in—butterflies. The "rule of contrary" governs other names. Some bottles are, supposedly, labeled "Sarsaparilla" because they are full of... well, we don't know what they are full of, but we know it's not sarsaparilla; except, perhaps, enough for a flavor. There's only one make of sarsaparilla that can be relied on to be all it claims. It's Ayer's. It has no secret to keep. Its formula is open to all physicians. This formula was examined by the Medical Committee at the World's Fair with the result that while every other make of sarsaparilla was excluded from the Fair, Ayer's Sarsaparilla was admitted and honored by awards. It was admitted because it was the best sarsaparilla. It received the medal as the best. No other sarsaparilla has been so tested or so honored. Good motto for the family as well as the Fair: Admit the best, exclude the rest.

Any doubt about it? Send for the "Curebook." It kills doubts and cures doubters. Address: J. C. Ayer Co., Lowell, Mass.

1895 Rambler, \$75.00

Trusting that you may be interested in cycling, we take the liberty of stating to you a few facts about our wheels:

We need not trouble you with needless description of the World Famed "RAMBLER" Bicycle, which by its easy running, appearance, strength and lasting qualities has won for the makers a name world renowned.

The "RAMBLERS" are equipped with the great G.&J. Detachable Tire, which since its introduction to Honolulu has proved, by the numbers in use, the most successful and necessary adjustment to a bicycle.

We take great pleasure in recommending to our friends the "RAMBLER" and trust that in furnishing one to any person they will never have occasion to regret. Our terms are such that a bicycle is no longer a luxury but a necessity in actual saving of time and money. We would ask you to but call and get our figures.

1896 Rambler, \$95.00

As is customary nearing the close of each year, the makers in order to get ready for the ensuing year, offer the present 1896 wheels at reduced prices. We are now prepared to give our customers the benefit of these reductions as long as our stock holds out. For those wishing an up to date wheel of the highest grade, one which we can guarantee to the fullest extent, we would offer the "RAMBLER." As to improvements for the coming season we would say we anticipate none. Such changes which may be made will, as has been the past two years, be changes immaterial to the improvement of the wheel in general.

Kindly give this some thought or call your friends' attention to it and oblige.

Yours truly,

UP TO DATE PIANOS.

EXPENSIVE FANCIES WHICH THE WEALTHY AFFECT.

Cases Are Now Designed to Order and Harmonize With Their Surroundings. Average Buyers and Musicians Prefer the Old Fashioned Woods.

There was a time when a piano was a piano, and that was the end of it. The case was of rosewood or mahogany. It had serpentine molding around it, or else it didn't. It had carved legs or angular ones. You could pay your money and take your choice. But the time came when people had more money and more choice too. They had white and gold music rooms, in which the old rosewood standly seemed so out of harmony that even its music wasn't appreciated. Then they began gilding the cases and making them of curly maple and other light woods. Finally a piano began to be regarded not only as a musical instrument, but as a piece of furniture, to be as carefully fitted into its surroundings as a chair or a table or hangings.

But this wasn't all. There were possibilities in a piano which chairs and tables did not possess—possibilities of decoration, the most artistic and costly.

HIGHLY CARVED PIANO CASE.

In Europe great artists did not seem to devote their talents to the decoration of a piano case any more than they would have refused to fresco the walls of a music room. A few of America's money kings went to Europe for their piano cases, had them brought to New York and then put American mechanism, the piano proper, inside of them. The imported exterior was better than anything that could be had on this side of the water, just as the American interior was unequalled in Europe.

Although there are not many people who are willing to spend even so much as \$25,000 on a piano, there has, nevertheless, been a wonderful change in the way Americans buy pianos. Special cases—that is, cases designed to order and with reference to the room in which a piano is to stand—are the rule now and not the exception among people of wealth. There is scarcely a house belonging to New York's Four Hundred which does not contain a piano in a specially designed case. So great has become the demand for these elaborate and artistic cases that the best New York manufacturers employ designers trained in Europe in order to do the work here which formerly had to be sent abroad.

Quite naturally the rage for empire furnishings brought about an epidemic of pianos in that style, but they are varied by Chippendale and colonial and white enameled ones. The warehouses contain many pianos which, although not designed to order, are yet destined to fit into particular surroundings.

Musicians, it appears, do not spend their money on elaborate cases. They select a good toned instrument, and the plain rosewood or mahogany case is good enough for them. The curly maple has quite lost its popularity, by the way. If one wants a light wood, he can be accommodated in a white mahogany. There is nothing, however, for the average buyer to compare with the old fashioned

EMPIRE PIANO STOOL.

ioned woods, while for the exceptional buyer there are special designers ready to make him a case which no one can duplicate. The foregoing is from the New York Sun, which recently illustrated a highly carved piano case and examples of expensive piano stools.

There is butter and there is butter but there is no butter that arrives in Honolulu so sweet and fresh as the Mikilua and Waianae Butter. Its rapid transit by rail direct from the dairy to the Palama Grocery's large ice box so conveniently situated opposite the railway depot enables us to handle it to the best advantage. No wonder we are doing such a large butter business, when we are selling this fine butter at 35c. per lb. Palama Grocery, opposite Railway Depot, King street. Telephone 755.

"Makakake" sounds, to the man with but a superficial knowledge of the language, essentially Hawaiian, but it is not. Divide it into syllables as you would a cracker puzzle and try the phonetic spelling and you have "make a cake." It is composed of corn, wheat, oats and rye and is by long odds the best preparation for pancakes and muffins extant. This is one of the newest food articles in this market and we are, so far, the only persons selling it.

Fifty varieties of crackers seem like a good many for one house to carry but that is what we have from the Standard Cracker Co., and they are in 2lb. packages. You cannot get a better cracker if you search the cracker markets of the world.

Brilliant shine means just what it says and it is indisputably the best metal polish in the market. Put up in three sizes, it is convenient for the purse and handling. It will put a polish on brass or nickel that rivals a mirror.

Layer cake is a portion of the diet of the gods when properly made; at other times it is repelled. The most delicious mixture to put between the layers is Maple Sugar Cream. It is made of Vermont maple sugar, is whipped light and sold by us in one pound tins.

For the culinary department Apple Butter from the middle United States makes delicious tarts and pies or may be used as jam. We sell it in two and five pound tins.

FASHIONABLE FANCIES.

Variety in Shoulder Capes—Tiaras With Lace, Jet and Chiffon. The short cape of satin or tulle is the legitimate sport of fashion this season. It is of a brevity that allows the slenderness of the waist to be visible, and it widens the shoulders in spite of drooping sleeves. When it is made in black, it glitters with jet and is adorned with black gauze platings or ruffles and knots of satin or ribbon. When the domain of color is entered, there is no limit to the elaboration. There are openwork arrangements

SATIN COSTUME. Over bright silk linings, applications of lace, beads and embroidery and innumerable constructions, more or less complicated in plaited or ruffled gauze and chiffon. The collars of capes match them in extravagance. The larger number of these on fine capes are lined with an application of white guipure.

Lace is greatly favored at present. White, ecru and yellow varieties are all employed, and black Valenciennes is a new and highly desirable development for summer gowns of muslin and mullin. If the goods themselves can be dyed a fast black, there is no reason why so valuable a wash lace should not be treated in the same way, and this year's fine dimity costumes prove that it has been done satisfactorily. This fact receives additional importance from the other fact that black and white continues to be very fashionable this summer and is by no means confined to half mourning wardrobes.

A sketch is given of a costume of black satin adorned with spangled motifs in steel blue. The bodice is plain, save for the spangled adornment. The blouse bodies is gathered at the yoke and belt. The yoke itself droops over the shoulders and is trimmed with spangles and outlined with spangled galloon. Epaulotes of galloon terminate in pampilles of jet. The crepe collar is of white satin. The balloon sleeves, extending only to the elbow, are trimmed with spangles. JUDIC CHOLLET

A Simple White Soup.

Three large potatoes, 2 turnips, a parsnip and 2 white onions, all to be boiled together until tender enough to rub through a colander. To the puree obtained from these add a seasoning of pepper, celery salt and pinch of mace, a teaspoonful of fine white bread crumbs and 1 1/2 pints of boiling milk. Stir over the fire until this boils, and, if too thick, add a little boiling water.

Veal Balls.

Two ounces of beef suet, 2 ounces of veal, the yolks of a raw and a boiled egg, a small onion, pepper, salt, mace, nutmeg and lemon peel to the taste. Beat them all well together. Fry and serve in gravy.

Information for Tourists.

A passenger by the last Colonial steamer was met on the dock by a Milesian American friend, who resides in Honolulu. As the pair walked to have the newcomer's gripsack scrawled over with chalk marks by the Customs Inspector at the gate the stranger remarked to his friend "Do you 'ave much rain 'ere?" RAINIER me boy, gallons of it, just come up to the Anchor Saloon where they keep it always, clear and cool. We'll just be in time for lunch too and that's the only place in town where they serve it up in proper style with a glass of RAINIER BEER to equilibrialize the solids—They want!

BET ON IT EVERY TIME.

You can wager your last dollar on Seattle Beer with the absolute assurance that you will win. No beer is superior to it for purity, for flavor, or as a tonic. Seattle Beer is pure, as it represents the best production of master brewers—and being made by superior brains and honest labor should be used by all who believe in using the best. CUBA.

Although the Spanish authorities in Cuba have no restriction upon their transmission of intelligence to the outside world, and although it is of the utmost importance to the Government of Spain that it should receive cheering news of the campaign against the rebels, nearly all the war reports for the past month have announced victories for the insurgents. Some of the reported victories, such as the taking of Santa Clara by storm, are of the highest importance. General Gomez is in the same connection reported to be moving upon Havana with 18,000 men hardened in battle to the bravery of veterans. All that comes from the Spanish side, in this time, is a report that General Weyler is going to make a grand finishing stroke, or that he has gone out to find General Gomez. Even when the recent news from the seat of war is suitably discounted, as the outside world is compelled from experience to do, the probabilities support the conclusion that the insurgents are gaining substantial ground right along. Something decisive may be expected before long from Havana or its close vicinity. The situation is one that justifies to the fullest extent the conservative attitude of the United States administration. No stage has yet been reached where outside interference would not have been grossly premature.

Speaking of tuberculosis, an exchange reports an address of a member of the faculty of a medical college, in which it was declared that meat eaters were far more liable to this disease than vegetarians. "Highly bred cattle, the large milk givers," this physician said, "were peculiarly liable to this disease. Neither was it easy to detect this disease and often a man's whole herd was found to be infected. Of course they must then be all destroyed. Equally, of course, the government should recompense the owner at least in part to encourage him and all other owners to observe the strictest care in the matter."

It is not an occasion for unmixed regret that the chosen hundred of our military marksmen have been defeated, by a moderate margin, in the contest with the choice hundred of the much larger California National Guard. The result will stimulate the ambition of Hawaiian shooters to keep in the front with the flower of all the world. It will also be useful in checking the development of conceit for everything local, which has in more than one subject been a canker upon the face of excellence. Chauvinism would be rather out of place as a popular cult in Hawaii at the present juncture.

Under the new law restrictive of immigration to the United States, none more than sixteen years of age will be admitted who cannot read and write, in the language of his native country, five lines of the United States constitution. This ought to effectively bar the illiterate, but what about educated scamps? Some of the worst anarchists are polished scoundrels.

If the Hagey cure for alcoholism, etc., is a permanent one in most cases, as is claimed and there has appeared no evidence to the contrary, the establishment of the local Institute where it is administered on a permanent basis

ought to be hailed as an enterprise of genuine philanthropy.

One of the best strokes of newspaper chic of the season has been made by the Montreal Witness. It is a "Panorama of the Past Year" covering two full pages, composed of well-drawn cartoons of the leading events of 1896 at home and abroad. The work is worthy of Furness.

While elegant mansions and cosy villas are rapidly covering suburban hillsides and plains, many odd lots upon the principal old streets are having erected on them cheap tenements and rude huckster shops. Why is this so?

With John Sherman as Secretary of State, there will be no fireworks in American diplomacy. This is not saying, however, that the rights of the nation and of its citizens in foreign parts will not be well protected.

THE HAGEY INSTITUTE.

Not Responsible for the Condition of Dailey the Painter.

EDITOR BULLETIN:—We understand that one Dailey, a painter by trade, has represented that he has taken the Hagey cure for alcoholism at our Institute and we have just learned that said Dailey is drunk and that remarks are being made about his return to his former habits.

He has never received treatment at our hands. He has been about our rooms mingling with the men and has been present at our club meetings and in every way treated as a gentleman. We are forced to make this statement to correct any impression that might be made through his representations.

THE HAGEY INSTITUTE.

German Sugar Notes.

The members of the Reichstag who will represent the sugar interests do not intend to endanger what they have got by asking for more. They will oppose any reduction in the bounty grants or alteration in the arrangement for 1896-97, and they have a majority of the Reichstag with them.

The export of German raw sugar to the United States assumed enormous proportions in the past year. From January to November last the totals were 2,397,191 double (or meter) hundred-weight, as against 473,154 in 1895 and 675,057 in 1894. The raw sugar exports to England during these periods fell off largely.

Island Butter.

There is butter and there is butter but there is no butter that arrives in Honolulu so sweet and fresh as the Mikilua and Waianae Butter. Its rapid transit by rail direct from the dairy to the Palama Grocery's large ice box so conveniently situated opposite the railway depot enables us to handle it to the best advantage. No wonder we are doing such a large butter business, when we are selling this fine butter at 35c. per lb. Palama Grocery, opposite Railway Depot, King street. Telephone 755.

French Sugar Planters.

The French sugar planters in Martinique and Guadaloupe are in as bad a plight as those in the British colonies. They have memorialized the French Government to the effect that the French colonial sugar industry is on the verge of utter ruin, and demand that against the home bounty system they shall be allowed a grant of 5 francs on every 100 kilograms they export, whether to France or foreign countries. The English Commissioners have sailed for Demerara on the steamer Don.

An Accident.

While John Apio was turning into Alaa road Saturday with his family his buggy ran into a rut and capsized. His infant son was quite seriously injured. The road at this point is nearly always in a bad condition and should be looked after by the Road Supervisor.

THE MEETING POSTPONED.

Something More about the Projected Bicycle Track at Kewalo.

The meeting called for this evening at the Chamber of Commerce rooms by those interested in the scheme to build a bicycle track, etc., at Kewalo has been postponed until Wednesday evening at the same time and place.

The purchase of a piece of ground for building a bicycle track, erecting a club house and grand stand is the project under consideration and is to be definitely settled at the meeting. The total cost of this undertaking will be about \$8000 and the promoters will endeavor to form a stock company and make the shares low enough to allow wheelmen in general to possess at least one share of stock each. The balance can be raised among the merchants and general public. If this project goes through it will give Honolulu a fine track, three laps to the mile, in the middle of which will be an artificial lake; the grand stand, club houses, etc., being built on the outer edge. The whole to be fenced in and a popular admission fee charged. Under the proposed arrangements it is thought more than likely that the stock will pay dividends. Everyone interested in bicycling is invited to attend the meeting on Wednesday night at the Chamber of Commerce Rooms at 7:30. Quite a number of prominent citizens have promised to be present and financial assistance from many of the merchants is offered.

The Artograph is a valuable aid to anyone wishing to learn to sketch from nature without an instructor. Price \$8.00. King Bros. have them for sale.

Timely Topics

We have an immense consignment of new goods on the way which will make quite a sensation when we expose them for sale. In the meantime, we desire to call your attention to a few little articles which are indispensable in all well-regulated households.

The GEM ICE SHAVER is just what you want. After you have used it once you will realize how much ice you might have saved in the days gone by, not including the wear and tear of your temper. The Gem Ice Shaver is handy, cheap, economical and labor saving. Get one.

FISH SCALERS. — Many housekeepers object to preparing fish for the table, because of the bother of scaling them. We have a handy little instrument for the purpose which does the work quickly without scattering the scales all over the house. They are cheap. Get one.

FRENCH SLICERS — These are light carvers, sharp and flexible as Chinese razors, just the thing for choice undercuts and tenderloin steaks. We have them in several styles.

CARVERS — We have them in sets, all styles, ivory, bone, wood and metal handles at prices ranging from \$4 to \$15.

BREAD KNIVES — All kinds in ivory, wood or metal handles, including the celebrated Clauss bread knife.

Silver Plated Spoons and forks in great variety.

Most of the above you can put in one of our metal fork and spoon baskets, which must be seen to be appreciated. They are cheap, durable and indispensable.

In spite of assertions to the contrary no successor to Captain Kane on the police force has yet been appointed. If any appointment is made it will likely be on the first of the month.

There was very little business before the police court this morning. Four drunks were fined, one forfeited \$6 bail money, and a Japanese hackdriver was fined \$2 for leaving his horse untied.

C. B. Reynolds, executive officer of the Board of Health, who went to Waikuku on official business, did not get through with it in time to connect with the Claudine, and is expected by the Mauna Loa tomorrow.

The balance of the Pratt premises at Waikiki offered for sale by W. S. Luce, auctioneer, is selling rapidly. Intending purchasers are advised to make immediate application ere it is too late, for it is the last and only chance to obtain seaside lots.

Minister Hatch had nothing of present moment to communicate from Washington respecting Hawaiian affairs, but the indications were that the Hawaiian question would come up in some definite form soon after McKinley's inauguration on March 4.

Frequent light rains such as we are having every day or two has a great effect upon the grass and you can almost see it grow. The green lawns of Honolulu are in strange contrast with the white, snow-robed gardens of Vancouver at this time of year, but to have the lawn in Honolulu always beautiful it must be attended to. LAWN MOWERS, GARDEN HOSE, RAKES and HOES, SHEARS and SPRINKLERS, Are among the things needed in every dwelling where there is a suspicion of a lawn around it. If the quality of such things is good they will not have to be renewed as often as when cheap ones are bought. We import our stock of garden tools from manufacturers in England whose reputation for quality of goods produced extends to the four corners of the earth and the price is right.

LILY HAIR OIL The Marvelous Hair Remedy which prevents HAIR FALLING OUT. FOR SALE BY C. W. MACFARLANE, Sole Agent, Honolulu. Neat pamphlet free on application. P. O. Box 292, Telephone 26. Honolulu, April 21, 1896. Mr. C. W. MACFARLANE:—It affords me pleasure to recommend, to any one whose hair is falling out, the use of DR. POTTIE'S LILY HAIR OIL. My hair was coming out at such a rate as led me to believe that I would soon become bald. After using the oil to five weeks this ceased entirely; none whatever is now falling out. I consider it the best and only worthy remedy for this trouble and also recommend it as a stimulant to new growth. Yours truly, J. B. DANIELS.

There are all kinds of knives for all kinds of business, but for cutting bread nothing has ever been devised that will equal a Christy. Made of aluminum steel, of the same quality as the best saw. Unlike the Clauss, the Christy bread knife has a wooden handle and it has other advantages. We have a patent trouser creaser that surpasses even a flat iron for keeping the trousers free from "knees" and wrinkles. Nothing bulky about them and they will hang out of the way in any closet. Seventy-five cents a pair. Aluminum lime and lemon squeezers are new as to material, but not in shape; their superiority is in their cleanliness. Aluminum collapsible water cups are light and convenient for the pocket. Many fine tables are ruined by careless people laying lighted cigars on the edges. The Pendegast cigar holder and ash receiver obviates the damage at very little cost. They are detachable and will fit on any table. "Little Beauty" night lamp, to hang up or stand, is an article you have often seen advertised in the magazines. We handle them in Honolulu and they don't cost much.

ONE OF SYDNEY SMITH'S JOKES.

The Son Was a Sport, but the Father Took Him Down.

The famous Sydney Smith had a son who was interested in horses, dogs and sport. He was a talkative young man and an agreeable companion for those who had tastes similar to his own, but he was out of place at his father's table when distinguished prelates and dignitaries of the church were present.

One night there was to be a dinner to which the bishop of London and other clergymen of high rank had been invited. The son begged to have the privilege of a place at the table, remarking that he seldom was favored with the chance of making the acquaintance of the great clergy.

His father in reply said that the company would not be interested in stories about horses, dogs, racing and such matters, and that he feared his son would be unable to adapt his conversation to their tastes. The young man promised not to talk, but to listen, and was given permission to be present at the dinner.

He was as good as his word until the company were nearly through dinner, when there was an awkward pause in which no one seemed ready to start a fresh subject. In this crisis the son abruptly turned to the bishop and astonished the company by asking:

"Is your lordship able to tell me what was the condition of Nebuchadnezzar when he came off the grass?"

Sydney Smith, sitting at the head of the table, was horrified by this familiar application of sporting phrases to an incident of religious history, and quickly changed the subject, after remarking grimly to the bishop:

"I have always told my friends that my son possessed what might properly be called a stable mind."

The company laughed over the pun, and the young man, after turning red in the face, relapsed into silence, and made no further attempt to adapt his special knowledge of horses and racing stock to the entertainment of clerical society. The scene between father and son on the following evening is not recorded, but the father evidently enjoyed the joke, and frequently told the incident to his intimate friends.—Youth's Companion.

Terrible Threat.

"Ladies and gentlemen," said the gifted tragedian Mr. Palmocks, coming forward to the footlights and speaking in a voice that rose high above the din, "if there is any more hissing, howling or cat calling, or anything more thrown on the stage from the galleries during the further progress of the performance this evening, as sure as I stand here I shall relate half a dozen or more of Dr. Chauncey M. Depew's freshest and best anecdotes!"

A shudder passed through the audience, and in the midst of a profound, unearthly silence the gifted tragedian proceeded with his lines.—Chicago Tribune

TAILOR MADE FASHIONS.

Some Popular Materials—A Beautiful Thin Traveling Dress For Summer.

The coat of summer tailor made gowns that are made in the skirt and coat style—all are not—left entirely open in front or is held together by one or two buttons only. The vest worn beneath it may be tight fitting and made of plique, or it may be full, of linen, mousseline de soie, silk or namook. If a Louis Quinze effect is desired, the coat must be a little longer in front than it is at the back, with large revers, wide at the top and tapering to the lower

TRAVELING COSTUME.

edge of the coat. The godets of the basque must be rather pronounced, and it should be short at the sides, not falling below the hips. These coats are lined in front with the goods of which they are composed and are adorned with stitching and fine pearl buttons only.

When tailor made bodices are tight fitting, they are lined with satinette, like any other corset, the seams being carefully finished and boned. If they are half fitting or are to be worn over a silk or cotton waist that allows them to be removed at pleasure, so the lining will be likely to be seen, they are lined throughout with surah, satin mervilleux or silk serge. In this case the seams of the outside and the seams of the lining are sewed separately and pressed open with a warm iron, and the seams of the lining are then sewed against the seams of the outside, thus making a fair and smooth interior to the garment.

Serge, light chevrons, clairettes and thin cloths, besides the plainer canvases, are employed for tailor gowns for warm weather. Alpaca and mohair are also used and are very light and cool unless they are too heavily lined.

An illustration is given of a traveling costume of thin cloth in a light sable tone. The skirt is quite plain. The jacket has a plastron effect in the front, which is loose. A close row of small pearl buttons fastens the plastron at each side. The collar is of velvet. The felt hat, which matches the gown in color, is much like the derby in shape and is finished with a plain ribbon band.

How the Mohammedan Year Corresponds With Ours.

The Mohammedan year, as a lunar year, is shorter than ours by 10 days, 21 hours and 14 2/5 seconds. This renders an exact transfer of Mohammedan dates into dates of our own calendar a very difficult task. One calculation, which is easy and almost accurate, is to deduct 3 per cent from the given Mohammedan year and to add 622 to the sum thus obtained—e. g., our year 1862 A. D. corresponded to 1279 of the Hegira. If from this we deduct 3 per cent, or about 39, and add 622 to the result, we have the number 1862.

How to Make Chili Sauce.

Pare 24 large ripe tomatoes and chop with 3 peppers and 3 small onions. Add 4 cups vinegar, 4 tablespoonfuls sugar and 2 of salt. Boil an hour and bottle.

An Appropriate Emblem.

The American buffalo exemplifies to the fullest extent the elements of hearty rugged strength in animal life, and the Buffalo Brewery Co. have made a peculiarly appropriate selection of a trademark in choosing this animal to represent its productions, in that the tonic and refreshing properties of the Buffalo Beer promote health and invigorate the system, producing a similar condition of hardy strength in the human frame. The Royal, Cosmopolitan and Pacific saloons are the media of distribution for this famous brew to an appreciative public, and the interchangeable check is the passport at any of these favorite resorts. Drink "Buffalo" only.

Over thirty thousand bags of sugar were discharged from island steamers today.

A deserter from the bark White Rose was captured by the waterfront police on Saturday.

The Wainaleale and James Makee put sugar into the Martha Davis in the stream today.

The bark J C Gladie has moved to Fort street wharf to discharge a few hundred tons of coal.

The steamer Kaula discharged H Hackfeld & Co's sugar at Sorrenson's for the ship H B Hyde.

The S S Warrimoo should be in port Wednesday from the Colonies on her way to British Columbia.

The James Makee leaves at 4 this afternoon for Kapaa, and the Keauhoo the same time for Makaweli.

The Keauhoo put No I Kahuku sugar into the barkentine W H Dimond today for M S Griubbaum & Co.

Tomorrow, high tide large 11:54 p. m.; high tide small 9:25 a. m.; low tide large 3:15 p. m.; low tide small 5:25 a. m.

The can buoy which was dragged out of position on Saturday by the Coptic was returned to its right place today.

The steamer Mikahala brought Kaula sugar yesterday for W G Irwin & Co and H Hackfeld & Co. The bark Ceylon went alongside this morning to receive an insalment.

On Saturday the brigantine W G Irwin sailed for San Francisco with 8743 bags sugar, shipped by Wm G Irwin & Co and H Hackfeld & Co. The cargo was valued at \$33,350.

The S F Examiner of Jan 16 says: The new steel steamer that for the past three months has been under construction at the Union Iron Works for the Wilder Steamship Company of Honolulu will be launched on Monday at 10 a. m. The steamer is intended for the interisland trade and when completed she will be the handsomest one of the fleet of eight vessels in the company's service. She is 175 feet long, 50 feet beam and 15 feet depth of hold. She will have a displacement of 700 tons and her engines are calculated to develop 450 horse power. She will be known as the Helene.

A strong southerly breeze sprang up on Saturday afternoon, which gave the S S Coptic considerable difficulty in leaving port. At 4 p. m. the big liner started to haul her bow out by a line tied to the can buoy off the light-house, but instead of the steamship moving out, the buoy and its anchor were dragged half way across the harbor. The line was again run out and instead around the foundation of the dwelling house of the light-house keeper, and with the assistance of the tug Eleu the Coptic was swung out from the wharf. Before she was altogether clear, though, the stern struck the wharf, carrying away two or three piles, one of which caught between the blades of the propeller. The big piece of timber soon floated clear, however, and the liner steamed out.

Joining Ships By Phone

The kite has become a means to the transmission of the human voice from one warship to another while the fleet is in active service. It is the strangest adjunct the telephone has yet enjoyed, but it is none the less valuable. Just what it can be done has been demonstrated by Commander R. G. O. Tupper of the royal navy at Portsmouth, England, according to late newspaper reports from that country. The kite used by Commander Tupper in the experiments he made was of the regulation sort, except that it was minus a tail. It was six feet long and three feet wide at the broadest point. In place of the tail the kite carried two lines, one of which was retained on board the Daring, the instructional torpedo boat destroyer, from which the experiments were conducted. With the aid of the wind and these two lines, it was found that the kite was so easily managed that it was no trick at all to drop letters or even a hawser into another ship, and in this way establish communication.

Following this experiment came one with a wire. The end of the wire which the kite bore away from the ship was dropped upon the deck of H. M. S. Dauntless, where it was secured by the electrician of the ship and attached to a telephone apparatus in waiting. The other end, which had remained aboard the Daring, was also attached to a telephone, and as soon as this task was completed the two ships were in perfect communication. The kite remained suspended, secured by the two lines, for more than four hours, during which time communication between the Daring and the Dauntless was uninterrupted. When the kite was pulled in it was not because there was any necessity for it, but for the reason that it was desired to disconnect the instruments and take in the wire.

This achievement is what electricians of the navy of both England and the United States have long held to be possible. They have declared that there was no reason why communication of this sort should not be established between ships when at sea and only a few hundred feet apart if the weather were at all pleasant. Of course, in a gale anything of this sort would be impracticable.

The experiment made also showed that it is possible to arrange for a new system of signals from one ship to another that would be greatly superior to any flag system which could be conceived. If the telephone wire can be arranged in this manner there is no reason why telegraphic communication cannot be made in a similar fashion. In this case an operator aboard the flagship could carry on a conversation with his fellow operator aboard one of the fleet without difficulty. The admiral's orders could be easily transmitted from time to time, and often avoid, what is now considered necessary, boat service.—Exchange.

A few days ago two "malibinis" met another of their kind on the corner of Fort and Beretania streets. The lone one accosted the other two in Hawaiian—or what was intended for Hawaiian. The two were immediately seized with a desire to make a break for some refuge, thinking they had come upon a South Sea island cannibal or a homicidal maniac. The fact was their worthy friend tried to surprise them by speaking in the native tongue, but only succeeded in frightening them near to death by the mangled Hawaiian phrases he threw at them.

The attendance at the Makee Island band concert yesterday afternoon was larger than usual, and if anything the music was better. The four solos rendered were much enjoyed.
