## PUU KA PELE PARK PROSPECTS

A deputation from the Chamber of Commerce, consisting of E. H. W. Broadbent, W. F. Sanborn and J. M. Lydgate, waited on the Board of Supervisors, at their meeting on Wednesday afternoon in the interest of Puu Ka Pele park.

At their request, Mr. Moragne explained his proposition for the water supply for the park by bringing it from Kokee by means of a 3 1/2 inch boiler-tube pipe, which could be got cheap on the Coast. It would require about 13,000 feet of main pipe, and would involve a tunnel through one of the ridges to get it out of the source ravine into the open. This tunnel would probably be about a thousand feet long. From the head of the park down to the lower end there would be a big grade, and a very much smaller pipe would do. He figured that this main pipe, including freight, laying, distributing tank, etc., could be put in for about \$6,000. It would have a head of about 100 feet, and would deliver, he thought, about 15,000 gallons a day. By going higher up on the supply stream, of course, a greater head could be secured, and that would mean a larger supply, within certain limits.

The committee recommended the adoption of this plan and requested the Board to make the necessary appropriation of \$6,000 for this purpose, order the pipe at once, and authorize Mr. Moragne to go ahead with the enterprise, to the end that we might have water on the park this coming Summer.

With a guaranteed water supply, there was every reason to believe that money would be forthcoming for a community camp there.

After some further inquiries as to the nature of the pipe, the manner of laying, etc., the Board passed the appropriation, and gave the county engineer, Mr. Moragne, the necessary instructions in regard to calling for bids according to specifications to be drawn by him.

### The Puu Ka Pele Road

The Chamber of Commerce committee called attention to the section of the Loan Act relative to the road to the park. Fortunately there were no strings on it; no specifications as to just how the \$30,000 was to be spent. Manifestly the best way to spend it was to get the most possible good road out of the money. Being a loan fund, presumably it would be in the hands of the public works department and they would have absolute control of it. But it was to be hoped that they might be guided by our local experience, and by our wishes in the matter. Mr. Wishard said that the expenditure of the money would be absolutely in their hands, but that they would undoubtedly consult with our engineer and would probably put the whole matter into his hands.

### Management and Control of Park

The committee inquired as to how the park should be administered. Manifestly some comprehensive plan would have to be adopted,—somebody would have to be given authority to handle and settle the hundred and one matters in regard to the development, upkeep and conduct of the park. How would it be done?

The Board suggested that the plan adopted for the conduct of the Mahelona Hospital worked out very well, and some similar one might be adopted for the park. There were five trustees, one from each district, responsible men, and the whole matter was turned over to them; they solved all the problems, made all the ordinances, hired all the people, conducted the whole business as they thought best, subject only to the general approval of the Board. The Board of Supervisors had no time and no desire to go into the details of such enterprises. The Puu Ka Pele park should be handled in much the same way. There should be a board of trustees, or park commissioners, who would serve without pay, and who would have complete control of the enterprise, subject of course, to the ordinances, rules, and regulations of the Board of Agriculture and Forestry and the Board of Health.

Mr. Wishard suggested the parks committee be requested to formulate some such plan for the conduct of the Puu Ka Pele park, and submit the same to the Board at its next meet-

## YOUNG PEOPLE'S CHRISTIAN RALLY

Programs for the convention to be held at Lihue next Saturday and Sunday are out and promise a great feast in more senses than one. Commencing Saturday morning at 10 o'clock there will be meetings for boy scouts, girls' reserves, older boys and young women. These meetings will be conducted simultaneously, after which a patriotic mass meeting will be held on Lihue ball ground. This meeting will be addressed by Hon. Geo. P. Cooke on the general theme of Christian Patriotism.

Luncheon will then be served to all the delegates and at 2 P. M. athletic sports will occupy the entire afternoon of Saturday. The prize events will be a 50-yard dash, 12 lb shot put, standing broad jump, high jump and a 4-men-team relay race of 100 yards each. Miscellaneous sports for recreation and amusement will be added.

At 7 P. M. the delegates, committeemen and their friends to the limit of the capacity will sit down to a banquet in the armory. The visiting speakers at the banquet will be Mr. R. H. Trent, President A. L. Dean, of the College of Hawaii, and Rev. A. W. Palmer. The first two speakers will cover themes on Christian principles and character, and Dr. Palmer will give an illustrated lecture on Siberia. A Hawaiian male quartet and special orchestra will supply the musical numbers.

Sunday will be filled with devotional and inspirational meetings, commencing at 9 A. M. with group meetings for the delegates. The theme of these group meetings will be "Meeting the Master." A meeting for returned soldiers will be led by Rev. Ralph W. Bayless. The older boys will have Mr. Trent to address them and the younger lads will hear Rev. Norman C. Schenck. The young women and girls will listen to talks by Miss Hill of the Honolulu Sunday Schools and Miss Soule of the Kauai Y. W. C. A. At 10 A. M. a mass meeting will be addressed by Mr. Schenck on the "Importance of Bible Study," and Brigadier Waite, of the Salvation Army on "The Transforming Power of the Gospel."

At the regular church hour special services will be held in all the churches. The preachers at the several churches will be as follows: Hawaiian, Brigadier Waite; Lihue Union, Rev. R. W. Bayless and Dr. Palmer; Japanese, Rev. T. Okumura; Filipino, Rev. D. H. Klinefelter; Korean, Sec. J. O. Warner.

In the afternoon at 3:30 a vesper service will be held in the grove at the Union Church and Dr. Klinefelter, Superintendent of the Methodist Mission, will speak on the "Call to Christian Service."

The convention will close with a mass meeting in the Tip Top with special music and a sermon by Dr. Palmer.

More than 150 delegates have been reported to date and it is probable the total will be nearly double that number, besides the general attendance.

## Beware of Kapaia Hill

The plantation truck and trailer taking out the laborers in the early morning recently, skidded on the road down into Kapaia, and swinging in toward the bank, turned over in the ditch, sending the 50 or 60 laborers, bag and baggage, sprawling onto the road. Fortunately, beyond a few minor scratches and bruises, they weren't hurt much. One man, however, had one rib broken. After the first flush of consternation was over they looked on the affair as an interesting experience, and on themselves as heroes of the hour.

When the Kapaia hill is wet it is a treacherous place, and even the utmost care will not prevent skidding. And that they might have the benefit of any legal advice that they might need, he suggested they be allowed \$50 for such expense. It was so ordered.

The parks committee, in accepting this responsibility, felt that it would be well, if possible, to report this matter to the Chamber of Commerce for its confirmation and approval.

## THE LARGEST IN THE WORLD

Waialeale was first established as a rain gauge station a dozen years or so ago. Because of extreme inaccessibility it could not be read every day, nor every week, so a sort of tank rain gauge was installed there to be read occasionally as might seem to be necessary. No one knew how much it rained there, but surely one that would register fifty inches would be large enough. It was soon found, however, that this was entirely inadequate, that it would almost overflow in a night. This was replaced by one of 150 inches capacity, and this overflowed prematurely if you didn't watch it carefully, so one of 300 inches was installed. Even this proved inadequate for the requirements of such phenomenal conditions of rainfall and isolation.

So now a monster rain gauge, the "largest in the world" has just been installed that will measure up to 900 inches, and that will do the business for a whole year if necessary, all by itself. It is a copper tank gauge, 60 inches high and 27 inches in diameter, weighing empty, 45 pounds, and full, 945.

Anyone who knows anything of our mountain conditions, and the exceeding difficulty of travel and transportation in them, can imagine the job it was to get that unwieldy, heavy tank up there. It was lashed to a long pole and carried on the shoulders of men. It took them four days to get it there—they started from Waimea on Monday and reached the top on Thursday, after the most herculean efforts and discouragements.

Now Hardy, the water man, can sleep in peace nights, and listen to the patter of the rain on the roof without worrying about that Waialeale rain gauge lest it may overflow before he can get there.

Hardy deserves a great deal of credit at the hands of science and the general public, for it is entirely due to him that we have that phenomenal station. He established it, and he is the only man with the "sand" and energy to keep it up.

## A Farewell Ovation

E. O. Thurtell, resigning electrician of the Lihue Plantation, received a veritable ovation from the employes of his department on Wednesday afternoon at the Waihiha power house, far mauka.

As the power house employes could not leave their duties there, which are absolutely continuous, to come down to Lihue, the rest, including Mr. and Mrs. Thurtell and their daughter, went up there, and amid these picturesque and unfamiliar surroundings a very interesting and affecting testimonial of their regard and respect for their master was enacted. There was a veritable banquet of the finest kind in the course of which a beautiful gold watch was tendered to him, with most heartfelt expressions of an affection and respect which outran words and melted into tears, the final outcome being that the speaker broke down and sobbed like a child, and every one else was affected the same way.

Mr. Thurtell's very happy disposition and his generous kindly heart, as well as his uniform courtesy and patience have made him host of friends among all classes, and there will be a general regret when he leaves, which will be in a few days.

They expect to go direct to the Coast as soon as they can get passage.

## REV. PALMER WILL SPEAK TO MOKIHANA CLUB

There will be a meeting of the Mokihana Club Monday evening, Jan. 19, at which Rev. A. W. Palmer will give his illustrated lecture on Siberia. Members of the club, their husbands and friends are invited.

## TO ARRIVE

The "Hyades" left San Francisco on the 8th, and the West Segovia left Seattle on the 6th. Both vessels will probably arrive at Port Allen about the 20th.

Makaweli plantation has found their first camp play ground so successful that they started yesterday constructing playground number two. The first was built at Camp 2 and the new one will be at Camp 5.

## Personals

Mrs. A. S. Wilcox returned to Kauai last Friday and went to her Hanalei home. She was accompanied by Mrs. Deverill.

Manager Cropp, of Koloa, returned by the Kinau this morning. Mrs. Cropp with her children, remained to visit with her parents.

W. Seabury, expert consulting engineer for American Factors, is on the Island in the interest of their places.

Mr. and Mrs. Eby, Sr., have recently come to Kauai from the Coast on a visit to their son, Harry Eby, head luna of McBryde.

Miss White and Miss Ball, teaching last year at Hanamaulu, have been transferred at their own request to Lihue.

Mrs. Alice T. Wong member of the teaching staff of the Kapaia school, was confined to her home last week with a severe attack of the flu. Her place is being temporarily filled by Mrs. Adeline Rodrigues.

Mr. and Mrs. Fred Carter gave a farewell dinner party in honor of Mr. Thurtell to which a dozen or so of his special friends were invited. It was a very congenial and enjoyable affair.

A new teacher, Miss Hansen, has arrived from the Coast to take charge of the English department in the high school. Miss Edith Rice has been filling in very acceptably pending the arrival of some one to take the position permanently.

J. A. Hogg, manager of the Kauai short business visit to Honolulu in Garage Company, is leaving this afternoon for a business visit to Honolulu.

Mr. Steele, representative of the Michelin Tire Company, was on Kauai last week in the interest of his company. While here he was the guest of Mr. and Mrs. Hogg, who took their guest to many places of interest on the Island.

## Shower for Miss Eskew

On Saturday last a delightful linen shower was given Miss "Billie" Eskew, who is to become the bride of Mr. Elmer Hale upon her return to the states, by Mrs. A. Q. Marcellino, assisted by Miss Garlinger, at the former's home. The house was beautifully decorated with cut flowers and shrubs.

The affair was in the nature of a tea and was a complete surprise to the young lady. After a guessing game in which all took part, prizes were given. Everyone, however, cut cards for the consolation prize, which, it was arranged, should go to Miss Eskew. She was presented with a large burlap sack, filled with many beautiful and useful gifts, in token of the many friends she has made during her short stay here.

After the last of the packages were opened, dainty refreshments were served.

## DISTRICT COURT FIGURES

Judge Hjorth, of the Lihue district court, furnishes the following interesting figures in regard to court returns in the way of forfeitures, fines and costs, in the district courts of Kauai for 1919:

|         |            |
|---------|------------|
| Waimea  | \$3,773.40 |
| Koloa   | 2,293.95   |
| Lihue   | 4,439.75   |
| Kawahau | 3,297.00   |
| Hanalei | 747.00     |

\$14,551.10

It would seem to be a profitable business. It would also seem to be a growing business as the following figures for Lihue will show:

|      |          |
|------|----------|
| 1916 | 1,133.20 |
| 1917 | 2,324.25 |
| 1918 | 3,859.25 |
| 1919 | 4,439.75 |

This does not necessarily mean an abnormal growth of crime, but rather an increased activity and success in the punishment of it. A live deputy sheriff, and an efficient district court.

## NEW ACCESSORY MAN

H. W. Ako is the latest to enter the automobile accessory field on Kauai. Mr. Ako has established offices in the Tip Top building, Lihue, and will represent the von Hamm-Young Co., on this Island.

Ako is a live wire and will make himself felt in the community before he is here very long.

## THEY ORGANIZE FOR BETTER THINGS

By J. O. Warner

On Friday of last week the principals of Kauai public schools met in conference at Makaweli and effected an organization to be known as the "Principals' Association" of Kauai public schools. Besides twelve of the principals, the supervising principal, the newly appointed commissioner, and an athletic committee, appointed at the annual meeting, were present. Mr. Brodie presided and first called for the report of the special committee on athletics. This committee, consisting of Mr. Damkroger, Miss Myhand and Mr. Warner, submitted a detailed report which was adopted without change except that instead of the general recommendations of directors and officers suggested in the report, the committee was asked at once to make final nominations.

Mr. Warner was then given permission to report on the progress of the boy scout movement on Kauai and offered welcome suggestions for the cooperation of the principals in it.

(Continued on page 4)

## Children Perform

All those who were fortunate enough to attend the entertainment given by the children of the Hanamaulu school last Saturday evening, in the Lihue Social Hall, were unanimous in declaring that the affair was a great success as far as the entertainment itself was concerned. It was one of the prettiest and best carried out children's entertainments ever given in Kauai and it was a great pity that owing to other attractions so few attended.

The Hanamaulu orchestra helped out wonderfully with accompaniments in the old plantation songs and dances, Japanese drill, soldiers' camp songs, etc.

The little play entitled "The Land of Nod," was really beautiful from start to finish. The King, Isami Morita, with the help of his henchman, Jack O'Dreams and the Sand Man, Tadao Sumida and Itaru Kida, entertained six little "sleepy heads" with dancing by his sprites and dream princes and princesses. Mother Goose, too, helped with many of her characters, as well as "My Lady Fortune," with her wheel. The little goblins, Denichi Sumida and Yoronichi Nishikawa won repeated applause. The children all did splendidly and the costumes, lovely leis and pretty children made a picture long to be remembered.

## The Bank of Kauai Assured

The local bank and trust company proposition referred to in these columns a few weeks ago, is now an assured fact. Messrs Truslow and Patterson acting for the People's Bank of Hilo, promoters of the enterprise, are on the ground, making final arrangements for the inauguration of the same, and, with smiling faces, they report themselves as entirely satisfied with the way things have gone. The stock has been subscribed for eagerly, and very widely, among a great many small holders, which augurs well for the success of the institution.

It will be a bona fide home concern, owned and controlled on the Island and in the interests of the Island.

An advantageous site has been secured at Kapaia, where building will begin at once, and in about three months it is expected, the new bank and trust company will be ready for business.

## CHARLIE KEPHART IS HERE

Chas. M. Kephart, of the Pond Co., arrived this morning, bringing a Maxwell truck. Mr. Kephart brought a mechanic with him this time, to look over cars the company have delivered on Kauai, and to make minor repairs. He will have a five and a seven passenger Chalmers down Friday morning for demonstration purposes.

Mrs. Isenberg and Miss Brewer will arrive in Honolulu, returning from New Zealand, on the 19th, and will be in Lihue a few days later.

## MAKE SURE OF OUR FINEST PARK

At the recent meeting of the Kauai Chamber of Commerce the matter of providing for the annual premiums on the endowment insurance on the life of W. D. McBryde in the interest of the upkeep of Kukuioolono Park, after the demise of the donor, came up for consideration and was referred to the parks committee for investigation and suggestion.

The committee saw Mr. McBryde the other day and secured from him an outline explanation of the matter, which sheds much light on it, and will assuredly commend it to public interest and favor.

Anxious to secure to the public the Kukuioolono park, which has been his pride and dream for many years, and to make provision for its care and development, Mr. McBryde, on the advice of interested friends, has deeded the property over to a body of trustees, five in number, who in the event of his death, are to handle and administer the same. Following this, and acting on competent advice, he took out an endowment policy on his own life for the sum of \$60,000 in six different policies of \$10,000 each, the entire proceeds from which at his death to pass into the hands of the board of trustees for the benefit of the park, for upkeep and development. Neither Mr. McBryde nor his heirs will receive any benefit from this endowment insurance, either now, or at the time of its maturity.

There is at present no income, other than that furnished by Mr. McBryde himself for the care and upkeep of the park. While he will continue to care for the park entirely at his own expense so long as he is able, he cannot provide for its future development otherwise than by means of this insurance plan; and spending every cent that he can afford, as well as giving it much time and attention; he simply cannot provide for the annual premiums on the insurance—that must be done by the beneficiaries, viz: the public. They will amount, he thinks, to about \$4,000 a year, an amount however that will be somewhat reduced as dividends on the insurance accrue.

It is a much more valuable property than is generally realized. Naturally people suppose it is the park alone as at present developed, but it is far more than this, being in fact the whole tract within the outside circular road, some 350 acres in extent. At the time the deed of gift was executed it was valued, on the basis of \$100 an acre for the land, and actual cost for the buildings, etc., at \$60,000, but it is worth far more than that now, since land values as well as buildings, etc., have doubled.

Much of this surplus land is now planted to pines on a rental basis from which some \$1500 or \$1800 income is derived, which goes to the benefit of the park. The plan probably will be to extend the park gradually, by the development of this outlying tract, but mean time it will furnish a revenue for the care and upkeep of the same.

Public spirited friends who have realized the benefit and value of the park to the public have for two years met the premiums on the insurance policies, but these are now in arrears and there is great danger lest they become delinquent and this splendid gift be lost to the public for all time. It would be wonderfulstetainetani It is a splendid opportunity that should not be lost.

## LIHUE UNION CHURCH

The people of this community have a special opportunity to hear one of Hawaii's best speakers next Sunday morning when Dr. Palmer speaks in the Union Church. Whether you are a church member or not, you are very cordially invited to attend this church service.

REV. R. W. BAYLESS,

Pastor.

The Kauai Fruit and Land Company is abreast of the times, and ahead of a great many larger concerns, with a day nursery or creche for the care of the small children, while their parents are at work in the fields or the factory. It is in the open square in front of the cannery and is admirably fitted for its purpose.

**THE GARDEN ISLAND**

Issued Every Tuesday

KENNETH C. HOPPER - Managing Editor  
TUESDAY - JAN. 13

**THE OPPORTUNITY OF A LIFETIME**

The endowment insurance plan which has been carefully worked out for the purpose of furnishing a permanent fund for the upkeep of the Kukuiohono Park is one which merits the hearty support of all generous minded people on Kauai.

Here is a beautiful park, of great natural, as well as artificial, charm, the outcome of long years of intelligent care and devotion, to be had without money and without price, simply for the taking. We are embarked on a wise and generous policy of public parks, which shall secure to the people in the future, at the least possible cost, these important factors of recreation and enjoyment. To this end we are asking the land department to set aside, here and there, bits of land for this purpose—but this is raw land, absolutely unimproved — only park possibilities. The actual parks are still to be created at great expense of time, money and effort. Here is a park ready made, the like of which could not be produced in less than a decade, and at a cost of tens of thousands of dollars.

Now, the only condition attached to this gift is that we will make provision for its upkeep. And we will have to do that with any and every park enterprise that we undertake. We are asked to meet the annual premium payments on the endowment insurance that will provide a fund of \$60,000 for the upkeep and development of the park—a fund that will come back to us, like bread thrown upon the waters, as a many fold return.

It is a wonderful opportunity such as does not come often to any community, and assuredly one not to be neglected. We commend it most urgently to the attention of the men and women of public spirit and means in our midst.

**A CURE FOR HIGH PRICES**

President Wilson in his recent message to Congress recommends that all goods destined for inter-

state commerce should, in every case, where their form or package makes it possible, be plainly marked with the price at which they left the hands of the producer.

Unquestionably this would go far towards curing the evil of extravagant high prices, and of equalizing the benefits of prosperity. The middleman and the profiteer can make an abnormal profit on the goods they handle because they juggle the prices in the dark. Complain of the fearful price you are paying for bacon, or coffee, or flour, or brown cotton, and the middleman will tell you that everything has gone up out of sight, and that these prices are the best that he can do. He is sorry for you—but it can't be helped; "it is the result of the war, you know!"

And as he mollifies you he looks as frank and innocent and kindly as a Christmas angel, and for lack of any definite knowledge to the contrary, you have to believe him—with mental reservations—and you pay the price.

If you knew that he was making a profit of a hundred per cent, and he knew that you knew, he would hesitate to make it—at any rate he would squirm and look sheepish and apologetic, and you would tell him what you thought of him, and perhaps shame him into a lower price.

In all ages and in all conditions of life evil has prospered under cover of the darkness. To remove the cover and let in the light has done more than anything else to remove the evil.

Nothing, we believe, would minister more effectively to the solution of the very menacing problem of high prices, than calling them out into the open and turning the light on them. And what an interesting and instructive study it would be to trace the devious way by which the final price to the consumer had been boosted until the absolute cost of production became a negligible quantity—just a nest egg for a starter.

We would not charge this rapacity to the storekeeper, in our midst, who sells directly to the consumer. He, too, is very often a victim of the middleman farther back in the line, but somewhere along the line there is a rapacious raise and it would be a satisfaction to know just where it is.

## Kauai Filipinos Disagree With Manlipit's Labor Policy

We are all familiar now with the existing society of the Filipinos recently founded by Rev. Nicolas Dizon, whose object was to unite, uplift and protect the Filipino people in Hawaii. In Kauai, we have also a branch of this society, now being headed by the undersigned. It has for its objects to unite and cope with the numberless troubles and problems of which the race is concerned.

The Filipinos of Kauai are now considered in the hands of the officers of this society. We can make a snap right in a minute, and with it, we could bring all the Filipinos all over Kauai and have them back us.

It is now an existing and deliberate enmity all over the world, the Bolshevik movement. Men rise up and try to intimidate others thru Bolshevik influence. All over the United States the tongue and fangs of these rattlesnake parasites throughout, i. e. the I. W. W. and Bolshevik are being propagated. Innocent and patriotic governmental officers who try to defend the Constitution of the United States of America sometimes receive fatal shot as result. And yet, we thank the Almighty above, because in Hawaii there is no such movement or such a rattlesnake, altho there are those who declare they sympathize with them, but who could not do otherwise because they think they could not apply effectively their fangs.

A month ago there started a movement really in line with Bolshevik plans and ideas. The movement has for its purpose and accomplishment the demand for increase of wages. It was true it was the demand of the Filipino laborers to ask that their wages be increased in order to cope with the high cost of living.

This justified demand of the Filipino laborers on Kauai can really be proven and to show to the public eye its unquestioned truth and incorruptible evidence, the planters should now make it a study and learn this conception and imagination of the writer whether it be justified or unjustified.

The labor question in Hawaii is now the midst of the battlefield and needs to be solved rightly in some way. It has got to be met some way that the laborers' conditions may be bettered. Really it is a problem that should not escape our common sense, as benevolent and reasonable men. If we are the sons of the Almighty, we should be considerate and relieve the labor situation.

We are not in sympathy, of course, with the Bolshevik movement or the Reds, or the I. W. W., but we believe this demand of the laborers to a true and justified desire, and we are now asking again thru pleas and request, and after request, another reconsideration of this justified demand of our brothers. We do not consider it any better way if we wish to ask for these demands than to submit it in a form of pleas thru advertisement rather than to resort to it to any of the ways of the I. W. W., or the Reds. And so we could declare that we at Kauai as a whole do not consent or agree with Manlipit policy as to the way he should like to have the Planters solve the problem. But we believe it is true to rely upon the conscience of the managers and planters and have them reconsider a little wider and be more considerate and benevolent toward their fellow workers who are the laborers in the midst of the sunshine and rain.

Therefore, we conclude and trust after all fights that the planters may reform upon what they have already decided.

Submitted,  
VICENTE BOISER.

### NEW CHEMIST FOR MAKAWELI

Mr. Carlos Ezeta, until recently with Benson, Smith & Company, of Honolulu, arrived last week to take over the duties of chemist at Makaweli.

Mr. Ezeta, before coming to Honolulu, was a resident of Salvador, where he has had extensive experience in his work.

## Kauai School Principals

### Organize

(Continued from page 1)

ganizing troops and securing scout-masters.

A constitution committee for the principals' association was then appointed consisting of H. S. Simpson, Mrs. Charlotte Lai and Miss Carrie Thompson. On motion it was decided to hold the next meeting at Lihue on a date to be arranged later.

Following these items of business, various questions pertaining to school administration and student welfare were proposed and ardently discussed. In the main there was little dissension on the subjects presented, indicating the sympathetic and united policy of the Kauai educators. Mr. McCluskey spoke on the preparation of pupils in the grades for advanced instruction leading up to high school. He also spoke of the necessity for better housing facilities for Kauai High School students. Miss Elsie Wilcox corroborated the sentiments expressed by Mr. McCluskey.

Mr. Raymond, of Kapaa school commended the demonstration of physical education at Makawell school just preceding the meeting. He told of similar work being done at Kapaa and said it was important in such work to insist on every teacher participating in the conduct of physical drill. He also suggested the need for more helpful literature for the teachers, particularly the subject matter of the Educational Review. He also plead for clarity of printed instructions to teachers coming from the Territorial Department. This led to a general discussion of the subject of reporting pupils by racial descent and nationality.

The principals were generally agreed that "nationality" in the sense meant in their reports refers continually to racial descent and not to "citizenship," which is a different matter. Resentment was expressed at the names and phrases too frequently used by public speakers and the press in referring to pupils by implication as being other than American citizens. Striking instances of this abuse were given and it was finally decided to appoint a committee to draft letters from time to time in courteous form that should be sent to the local newspapers requesting their unqualified support in correcting this tendency. The task of Americanization in these islands is greatly increased by the careless habit of prominent citizens in apparently evading the fact that island-born children of whatever race are American citizens by every right. The principals also seemed to place sincere confidence in the loyalty of these incipient Americans.

Mr. Brodie presented a chart of interesting statistics designed to show the gradual diminution of numbers of pupils approaching the eighth grade and inquiring for the reasons why comparatively few of those who enter school attain the eighth grade. Opinion was divided as to the value of the data presented in reaching a just conclusion, but Mr. Brodie's suggestions opened up an important subject for further study.

By motion, Miss Hundley, Miss Wilcox and Mr. Creevey were elected members of the principals' association.

Mr. Bush called attention to a serious error of the department in the last examination questions in which two of the questions could only apply to work remaining to be covered in the second term. His objection was unanimously sustained.

In general, however, the principals expressed themselves as inclined to forgive mistakes probably due to the adjustments necessary to a new administration of the department, and indicated their loyalty to the newly appointed head.

Immediately following adjournment Miss Thompson, with the assistance of the Makawell teachers, graciously served tea to the visitors in their new cottage.

After a delay of two weeks, due to the visit of the Asahis from Honolulu, the first game of a three game series to decide the 1919 championship of the Kawaihau Athletic Association, was staged here last Sunday with the Asahis, champions of the second series, triumphant over the Stars, first series champions, by the close score of six to five.

Although errors were mainly responsible for a majority of the runs scored by both teams, it was one of the most exciting games ever played on the Kapaa diamond. Nogami and Masunaga of the Asahis presented three runs to the Stars, while Betten-court did the Asahis a favor by returning a couple. In the first inning, the Asahis scored when the pitcher balked with runners on second and third. The Stars evened the count and went ahead in the third by annexing a brace, but their opponents tied it up in the fourth and fifth. The Stars scored twice again in the 7th, but the Asahis showed their reserve power by again tying the score. With the ninth frame half gone, and the score still tied, it looked like the fans would be given an excuse to be late for dinner, but the Asahis, with none out, scored the winning tally aided by J. Rapozo's bad muff of a pop fly to second base, and a three bagger. J. Rodriguez starred at short for the losers, getting three hits in four attempts and making no errors. Muranaka, right fielder of the Asahis was the hero of the game, getting a single, a double and a triple in four times at bat. His triple in the last half of the ninth scored the winning run from first base.

**SCORE BY INNINGS**

|        |   |   |   |   |   |   |   |   |   |       |
|--------|---|---|---|---|---|---|---|---|---|-------|
| Asahis | 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | Total |
| Asahis | 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 24    |
| Stars  | 1 | 0 | 1 | 1 | 0 | 2 | 0 | 1 | 6 | 13    |
| Runs   | 1 | 0 | 1 | 1 | 0 | 2 | 0 | 1 | 6 |       |

The Honolulu soccer team has just returned from an invasion of Hilo, where they trounced the best team in the Rainy City, and brought back the C. C. Kennedy cup.

It now remains for Kauai to invade Honolulu and bring the cup to the Garden Island.

A few years ago Kauai had a league that put up high-class soccer, and there is no reason why it can not be done again. A number of the former players are still on the island, and there is a lot of new material on hand.

It should be an easy matter to organize a four-team league. Lihue has the material for a first-class team. Makaweli should also be able to put up a good team. F. Mahn, of Waimea, is an exceptionally good player, and should be able to organize a team in that town. There should also be enough young men at McBryde to make a team there, and Kealia and Kapaa should be able to make a team between them.

Get busy, fellows, organize your teams and send in your names to the "Garden Island," and this paper will see that each team gets a ball.

The idea will be to play a series of games, then pick an all-Kauai team from the league. This team will go

to Honolulu and play the holders of the C. C. Kennedy cup.

A silver cup is already in sight for the league series.

K. Masunaga, centerfielder of the local Asahis team and at present assistant postmaster at Kealia, is reported to be seriously considering an offer tendered him by the Honolulu Asahis of a free trip to Japan and return. As the contemplated journey will not be made until June, and the plans of the Honolulu boys are only tentative, he will have plenty of time to make up his mind if the trip is finally decided upon. The offer was originally tendered to M. Teunehiro, shortstop of the same team, who declined for business reasons.

### MAKAWELI JUNIOR LEAGUE

The school boys at Makaweli are getting their fill of baseball as well as the grown ups. On Sunday, Dec. 28th, New Camp and Camp 1 won from Makaweli and Camp 6 by a score of 23 to 14.

### VOLLEY BALL LEAGUE AT MAKAWELI STARTS SUNDAY

The schedule to decide the volley ball championship of Makaweli plantation will start next Sunday. The winner will be awarded the Davies & Co. silver cup.

The following teams are entered: Makaweli, Camps 2, 4, 5, 7, 7 and 9. Camps 7, 8, and 9 will be matched to decide the winner for that side of the plantation, and Makaweli, Camps 2, 4 and 5 will do the same for the other side; the two winners then meeting to decide the championship.

### MAKAWELI WINS FROM LIHUE HI

Makaweli plantation volley ball team proved the superior over Lihue High in a fast game of basket ball at Makaweli on New Year's day. The high school team was no match for the plantation team in experience or weight and the end of the game found them at the small end of the score of 7 to 19.

### PLANTATION ENTERTAINS CHAMPION BALL TOSSERS

Players on the Makaweli ball team were the guests of the plantation last Friday evening at a regular "high jinks" and feed.

All the members of the team were present as well as the captains of the losing teams, and the much abused umpires.

Mr. Damkroger was in charge of the program and put the boys through some very interesting and exciting stunts. An indoor football game between "Waimea" and "Makaweli" proved to be the most exciting event of the evening and ended in a victory for Makaweli.

### MAKAWELI GRABS OFF PLANTATION CHAMPIONSHIP

The fourth game of the Makaweli plantation baseball championship series decided who was to gain possession of the Reach cup, by Camp 4 going down in defeat before Makaweli.

Makaweli won the first and second games of the series by a close shave, just nosing out Camp 4 each time. Then Camp 4 showed her real speed and gave Makaweli a good beating.

Last Sunday Makaweli determined to end the series, put Furtado on the mound and Pereira back of the bat, and it sure was "curtains" for Camp 4. When the dust of battle had blown over and home runs and others were tallied up it was found that Makaweli had nine and Camp 4, three.

There was an exciting game of ball at Puhi last Sunday between the Hanamaulu and Grove Farm teams. The former winning 11 to 10. Next Sunday's game will be at Lihue park with Sheriff Rice as umpire.

### RAINFALL

**RAINFALL FOR 1919**

| Kekaha        | 0.62 |

### MILLING ON THE NEW CROP

Kekaha has been grinding for a couple of months already—beginning early in December—and has over two thousand tons made.

Makaweli began milling December 22, and is now well under way.

McBryde began a week ago. Koloa began Dec. 20.

Lihue began with the Hanamaulu mill ten days ago. The Lihue mill will be delayed some weeks yet. Continuous night and day work will go forward at Hanamaulu.

Kealia mill is in process of reconstruction, much the same as Lihue, and the date of grinding is not fixed yet.

Kilauea has been milling since about the middle of December and has made a good start on the new crop.

### IN THE CIRCUIT COURT OF THE FIFTH CIRCUIT, TERRITORY OF HAWAII

At Chambers In Divorce  
BERTHA SOMMERS, Libelant; vs. FREDERICK SOMMERS, Libelee.

**LIBEL FOR DIVORCE**  
Order and Notice of Pendency of Libel for Divorce.

Upon reading and filing the Libelant's motion, with affidavit attached thereto, to the effect that the address and/or residence of the said Libelee is not known and that Libelant has been unable to ascertain the same after reasonable search and inquiry for more than six months after the filing of the libel herein;

IT IS ORDERED that notice be given to the Libelee above named to appear at my chambers in the Court Room of this Court, in the County Building in Lihue, Kauai County, Territory of Hawaii, on FRIDAY, the 19th day of MARCH, A. D. 1920 at the hour of 9:00 A.M. on the said day, and show cause, if any he has, why the prayer of the Libelant for a decree of divorce may not be granted.

IT IS FURTHER ORDERED that notice hereof and of the pendency of the libel herein be published in the "Garden Island," a newspaper printed and published in Lihue aforesaid, at least once a week for six successive weeks.

Dated, Lihue, Kauai, January 8, 1920.  
(SEAL) (Sgd.) Wm. C. ACHI, JR., Judge, Fifth Circuit Court, Territory of Hawaii.

Attest:  
(Sgd.) JOSEPH ANDRE SOUSA, Clerk, Fifth Circuit Court.  
C. S. DOLE, Attorney for Libelant.  
Jan. 13, 20, 27; Feb. 3, 10, 17.

### TENDERS BUILDING MATERIALS

The Board of Supervisors of the County of Kauai will receive bids up to ten o'clock a. m. of Jan. 24th, 1920, for furnishing all building materials to be used in the construction of a four-bedroom teachers' cottage at Lihue.

Blank forms embodying a full list of materials will be furnished on application to the undersigned.

J. H. MORAGNE, County Road Supervisor.

### TENDERS ASPHALTUM

The Board of Supervisors of the County of Kauai will receive bids up to ten o'clock of Feb. 4th, 1920, for furnishing 1000 barrels of grade "C" asphaltum in single headed barrels, to be delivered ex ships tackle at Port Allen, Kauai, by or before May 1st 1920.

J. H. MORAGNE, County Road Supervisor.

### TENDERS FOR BUILDING COTTAGE

The Board of Supervisors will receive bids up to ten o'clock a. m. of Feb. 4th, 1920, for furnishing all labor in connection with the construction of a four-bedroom teachers' cottage at Lihue, Kauai.

Plans and specifications will be furnished on application (accompanied by \$5.00) to the undersigned.

Each bid must be accompanied by a certified check covering five per cent of the amount bid.

J. H. MORAGNE, County Road Supervisor.

On account of the Young People's Convention being held at the Tip Top next Sunday evening, W. A. Fernandez announces there will be no movies on that evening.

Miss Schildt who was a teacher last year in the Lihue school and who went to the Coast in the vacation, has returned to the Islands and is now teaching with Mrs. Burke at Ewa, on Oahu.

#### A NOTE OF THANKS

Miss Cassarfan, district nurse for some time at Lihue, left for Honolulu a few days ago, after undergoing an operation at the hospital. On her departure she requested us to convey to her friends and the general public of Lihue, her grateful appreciation for the many kindnesses which she received here. She will always cherish the very kindest feelings and the very pleasant memories in regard to her stay on Kauai. She hopes to undertake the same kind of work on Maui.
