

# BESIEGED IN THE OFFICE OF MAGOON

## WILD RESOLUTION TO BE SMOTHERED

(Associated Press Cable to The Star.)

CARSON, Nevada, February 4.—The sensational resolution which excited the criticism of the President, classing Japanese as a menace to civilization and referring to them as parasites on the world, has been referred by the Senate to the Judiciary Committee where it is expected that it will be smothered.

## EXTREME MEASURES MEET DEFEAT

SACRAMENTO, February 4.—Anti-Japanese bills and bills seeking to prohibit aliens from becoming directors in corporations existing under the law of this state, and bills segregating undesirable classes in communities were today defeated in the Assembly.

## JAPANESE SCHOOL QUESTION AGAIN

SACRAMENTO, February 4.—Motions to reconsider measures compelling Japanese to attend separate schools have been passed in the Assembly.

## BUFFALO AT FRODO

SAN FRANCISCO, February 4.—U. S. S. cruiser Buffalo arrived here today from Honolulu.

## TORPEDOES ARRIVE

SAN FRANCISCO, February 4.—The torpedo boat destroyer flotilla of the Pacific fleet arrived here today.

LOS ANGELES, February 4.—"Lucky" Baldwin, yesterday reported dying, shows marked improvement today.

SACRAMENTO, February 4.—The anti-race track gambling bill has passed the Senate and goes to the Governor for his signature today.

WASHINGTON, D. C., February 4.—President Roosevelt's secretary, Loeb, will, upon the retirement of this administration, become Collector of Customs for the port of New York.

## INVESTORS WANT TO COME HERE

The following is Secretary Wood's sent to the Railroad Editors of some report to the Promotion Committee one hundred and fifty leading papers, for the current week, distributing the remaining copies Chairman and Members of the Hawaii among railway and steamship men Promotion Committee.

Gentlemen:—By the "Mongolia," We have reason to expect much sailing January 30th, we forwarded from the visit of Messrs. Calvin and some four thousand pieces of first Bancroft. These gentlemen will be class matter by mail, as well as a large number of folders and marked newspapers. By the "Moana" sailing yesterday, we mailed several hundred marked copies of our daily papers referring to the visit of those prominent railway officials, Mr. E. K. Calvin and Mr. W. H. Bancroft. These we

(Continued on Page Four.)

## Over Head Of Mayor

BOARD PASSES ORDINANCES—THE BISHOP ESTATE MAKES COMPLAINTS—SHORT MEETING.

A thirty minute session of the City and County Board of Supervisors this morning, starting at 10 o'clock, witnessed the final passage over the head of His Honor, the Mayor, of two ordinances and a resolution.

The first ordinance passed notwithstanding the disapproval of Mayor Fern was that which abolished all offices and employments which were authorized or established by the preceding administration, the County of Oahu.

The second ordinance which matured in spite of the Mayor's veto was that which empowers standing committees appointed by the Board to engage or discharge employes at will, and the resolution which obtained over the Mayor's opposition was that which approves all prior acts of this existing board.

In each case Aylett made the motion for reconsideration and in each case Aylett made the motion for passage notwithstanding the disapproval of the Mayor, the Mayor himself put the motions to the Board and they carried with six ayes and McClellan's lone negative.

Two communications were received from F. S. Dodge, superintendent of the Bishop Estate.

The first notified the Board that the tenancy of the County of Oahu to certain Kakaako lots had expired on the last day of last year and that the understanding as to grading had not been fulfilled by the County, and that the Bishop Estate was willing to allow the City and County four months for the removal of surplus material above the official grade of surrounding property, Waikiki of Cotton-Neill's iron works premises, said material to be used in grading Kakaako streets makai of Halekauwila street, preferably Foundry and Coral streets.

The second Dodge communication drew attention to the unsatisfactory condition of the lower end of the Kawahao storm drain makai of Ala Moana.

Under the old agreement, says Dodge, made with the trustees of the Bishop Estate, right of way across the estate lands was granted on condition that a concrete retaining wall should be built along the Waikiki side of the storm drainage ditch, the same to have been completed by February 6 of last year. A year has passed and nothing has been done.

Both Dodge matters were referred to the roads committee of the Board.

Quinn remarked that he had noticed an item in a newspaper to the effect that parks were evidently neglected as to the care of grass. He explained that water had been scarce and apparatus was defective, but these conditions were being remedied.

Quinn also remarked that the Bishop estate seemed mighty particular about some things and not so careful about others, and stated that it would be well to insist that the estate come up to requirements in regard to curbing certain roads.

Adjournment was taken until 7:30 next Tuesday evening.

### THOROUGHLY TESTED.

Chamberlain's Cough Remedy has been examined by eminent analytical chemists who certified that it contained no narcotics. It is not only a safe and harmless medicine but the best in use for coughs, colds and croup. For sale by all dealers, Benson, Smith & Co., agents for Hawaii.

Best cup of coffee in the city at New England Bakery.

### K. YAMAMOTO.

Wholesale Merchant on Hotel street has received the largest consignment of Japanese goods which he is disposing of at very reasonable prices. Mr. K. Yamamoto is always the first man to import the first crop of goods from Japan, and we can promise the best of treatment from this popular merchant.

## ADVISED TO SHOOT

Attorney J. A. Magoon this afternoon authorized the following statement:

"Dr. Atcherley is being held by me in my building. I have instructed him that if he be served with a warrant or other due process of law to submit without resistance or word of protest. But that if anyone attempt to take him, to kidnap him, without such process, he shall shoot and shall shoot to kill.

"To the community I would say that Dr. Atcherley is one of the most harmless men in Honolulu. He has no desire or inclination to do other than is prescribed by the law. When before the police court he did not seek release by writ of habeas corpus, as he could have done, but patiently stood a tedious trial of several days duration in order that the public, as well

## FINISH THE DAM IN 4 MONTHS

CAMPBELL WILL ASK NO FURTHER APPROPRIATION AND HOPES FOR QUICK COMPLETION.

The Nuanani dam can be completed in four months of staving, according to Superintendent of Public Works Marston Campbell and, what is perhaps more important in avoidance of pillikia no further appropriation is needed.

Some of the members of the legislature have been visiting the site of the dam and have interviewed Campbell about it. The general result of the investigations appears to be very satisfactory, and much confidence is placed in the completion of the work. Various "charges" similar to those raised by Patterson over a year ago have been revived recently, and they were quietly investigated by men who will have to take the matter up in the legislature.

Campbell, it is stated, will not ask any further appropriation for the dam, but expects to finish it with the sum already set aside.

## FEDERAL ARRESTS

Marshal Hendry last night arrested a Chinese named Ong Yong at Wahiawa for harboring a woman for immoral purposes. Also he brought in a Japanese woman named Umeno Shigematsu, an inmate of Yong's house. She is less than three months in this country, hence if convicted is liable to deportation.

U. S. Commissioner George A. Davis is holding an examination of the accused persons this afternoon.

The Japanese liner Chiyo Maru, from San Francisco, got in touch with the Kahuku wireless station this morning. She reported fairly good weather, all well on board and that she would arrive here at 12 o'clock noon tomorrow. The Alameda has no wireless apparatus but will likely show up early tomorrow morning from San Francisco.

February 6, Tag Day, will interest everybody.

Culman's watches are of lasting regularity, made perfect by machines of precision.

## ATTORNEY HOLDS DR. ATCHERLEY

## Habeas Corpus Appeal Taken

MAGOON BUILDING PLACED UNDER GUARD THIS AFTERNOON, WHILE DR. ATCHERLEY REMAINS IN THE OFFICE OF HIS ATTORNEY—ATTORNEY GENERAL SEEKS TO HAVE THE DOCTOR PLACED IN ASYLUM.

Dr. John Atcherley is a prisoner this afternoon in the offices of his attorney, J. A. Magoon.

In the corridor of the building is a big Hawaiian guard of the Insane asylum force, waiting to nab him when he comes out.

On the sidewalk outside stands Detective Jack Kalakiela ready to take a hand in case there should be resistance by Atcherley or his friends.

Attorney Magoon has his client locked in a room at the Ewa-mauka end of his building, corner Merchant and Alakea streets. The prisoner has been there since about 10 o'clock this morning.

That briefly relates the situation in the newer turn of the Atcherley case as it has developed today.

The bomb in the matter came from the office of the Attorney-General early this morning. From that office notice was sent to Dr. Peterson, superintendent of the Insane Asylum, that an insane person, to wit, Dr. John Atcherley, who had been regularly committed to the asylum for the insane, was at large in Honolulu, and advises that he be forthwith taken into custody.

In response to this order Dr. Peterson set forth and located Atcherley in the offices of Mr. Magoon. He refused to surrender, upon advice of his counsel; and as Mr. Magoon was obliged to go to court, he locked the Doctor up, as above stated.

Dr. Peterson, still determined to carry out his instructions, left a guard at the building with orders to seize Atcherley as soon as he should come out. Peterson himself then went to the police station and asked for assistance. He did not say he feared trouble, but the extra help was wanted as a safe-guard. A regular police guard was kept there for a while and then Kalakiela himself took charge.

When seen early this afternoon Mr. Magoon seemed greatly annoyed and heatedly declared: "This is one of the greatest outrages ever perpetrated or sought to be perpetrated in any community. Dr. Atcherley has been released by the court after due process of law, and the move of the Attorney-General is revolutionary, despotic. I never heard of such an outrage in any

civilized community. Yes, Dr. Atcherley is here. I do not know how long he will remain in that office. I am at this moment waiting to see what move his lawyers will next take. Until then I cannot act."

The move of the Attorney-General was a little different from what had been looked for. It was felt certain that the department would, following the release of the patient pending appeal, take some steps to assure the public of his inability to do harm to anyone. A peace bond or guarantee of responsible people to take and keep him in hand was thought of, but the drastic move of the Attorney-General did not apparently, enter into the calculations of anyone.

Dr. Atcherley has been at large since his release by Judge Robinson last week. Two days ago Mrs. Atcherley tried to purchase ammunition at a hardware store. She explained that it was to be used to protect the doctor from kidnappers. This incident had much to do in convincing the authorities that Atcherley should be taken in hand.

At 1:30 this afternoon guards were placed on all sides of the Magoon building and at the front, street door. When this was done Mr. Magoon came down to the street and warned Officer Madeiros, who was on duty there, to leave. Madeiros refused, saying he had been placed there by the sheriff. "All right," Mr. Magoon replied, "if you get hurt it will be your own lookout."

Deputy Attorney General E. W. Sutton this morning filed with the clerk of the Supreme Court the record of appeal from the order of Judge Robinson, under a writ of habeas corpus prosecuted by J. Alfred Magoon for petitioner, releasing Dr. John H. Atcherley from the custody of Dr. Peterson, superintendent of the Insane Asylum.

It is probable that the case will (Continued on Page Eight.)

## Why Use Shoe Trees

The forms, or trees, keep the shoes free from wrinkles, and prevent them from "curling up."

They keep the shoes in perfect shape and lengthen their wear. The additional wear that trees give the shoes more than covers their cost.

They are indestructible, and will last for years.

**MONEY ADVANCED TO ROAD WORKERS**

If the Supreme Court should decide, when the case gets to that high bench, that Road Overseer Tom Cummins and his men are not entitled to pay, then Tom Cummins and some others will be out hundreds of dollars, for Tom and certain others have, in the goodness of their hearts, been advancing money to laborers on the roads under the belief that their employment will be sustained.

Since City and County work has been done and since but one set of men have actually done that work and since there is no tangible opposition to the plea and shoveling men on the road, no matter what dispute there is in regard to lunas and other bosses, the impression, at least among those advancing money, is that the mere laborer will eventually get his cash.

# A Multi-Millionaire

**M**INE just a short distance west of us is the "Idaho-Maryland," where they have struck wonderfully rich ore of late. They have been taking out fortunes all the way down for that matter, but in their deeper levels they have run into real bonanza stuff. It is estimated that this mine, of whose milling plant the accompanying photograph is a view, has produced upwards of \$20,000,000.00 in gold bullion. The "Idaho-Maryland" is located on the same contact formation as our property and is one of the oldest mines in the district, just as the "Mayflower" is one of the youngest, with all the glory of a great future ahead of it. Yes, when the Mine is right, and the Men connected with it are also right, there is no investment under the sun which is so sure and profitable as gold mining. A few dollars invested in a good gold foundry may produce thousands, and start a poor man on the route to riches, and all the money lost in a lifetime may be recouped by just ONE such investment. And gold mining, conducted on modern scientific principles, is not the speculative industry it is so often imagined to be by many people. It's a safer business than

most businesses, as a matter of fact. Its success is not imperiled by the hazards attaching to most other enterprises. Gold is the only commodity which does not need to chase a market or fear competition, because it is the standard of value all the world over. And there are no bad debts to carry in the gold mining business—Uncle Sam takes all the product and pays cash every time for every ounce.

Under the co-operative organization of the "Mayflower" you are presented today with an OPPORTUNITY to purchase stock, at a nominal price, in what we are profoundly convinced will become one of the leading and great producing gold mines in the Nevada City, California, district. We believe that the Stock will be a heavy dividend payer in the near coming future. We advise that this is a chance to buy it which you can not afford to pass up. We urge that you be alive to your best interest and acquire a holding immediately. We offer to sell you stock today at 25 Cents and until midnight, February 28th—after that, 35 Cents please. Better place your order right away. BUY "MAYFLOWER" STOCK. BUY IT NOW!

## THE ATCHERLEY SIDE

EDITOR STAR: As a reply to the various false statements against my husband "Dr. John Atcherley" which has repeatedly been printed in the late issues of the Advertiser, I wish to offer your readers the real facts of the case. It has charged Dr. Atcherley as being:

First. A morphine, cocaine and opium fiend—and by taking or using the above drugs,—he went like a madman after midnight to shoot at Dr. Wayson's house—caring neither whom and whence the bullets would strike. (Advertiser January 11th, 1909).

Second. It has proposed that Dr. Atcherley was a dangerous man to the community and therefore should be committed to the Insane asylum as certified by Dr. Sinclair and Dr. Emerson. That the certificate by the above physicians was an act of friendship and brotherly feeling for their fellow physician. (Advertiser January 13th, 1909).

Third. That Dr. Atcherley was not insane—for shame—he ought to serve so many years in prison and not be shoved in the insane asylum. (Advertiser January 28, 1909)

First Charge. Evidence in the hearing of Atcherley case before the district magistrate shows that there is not a word of truth in the doctor being a "drug habituate" as charged by (Dr. Wayson, the instigator) Dr. Emerson and Dr. Sinclair accompanied by a college brother, Dr. Collins who is a member of the medical firm of "Dr. Sinclair & Collins," Honolulu. Evidence will show that my husband does not use morphine and has not used it since 1901. Evidence will show that my husband is suffering and has been suffering with "Middle Ear disease" ever since a child—and for this ailment, was obliged to accept the call of his brother-in-law Dr. Miner in 1892, to come out here and look after his practice while the latter had to go to England.

Evidence will show that my husband since arriving here in the islands 1892, has had to treat himself for this disease by using morphine to deaden the pain—produce sleep and reduce the inflammation.

Evidence will show that Dr. Wayson tried to treat my husband in 1897 for this ear-trouble. He (Dr. Wayson) substituted the drug of duboisine in place of morphine and almost sent Dr. Atcherley either to the same refractory ward of the insane asylum where he spent a night last Wednesday January 27, 1909, or to the next world. Had Dr. Atcherley been a layman and ignorant of what was best for himself, Dr. Peterson might have had the pleasure of having him as one of his patients for the past 10 years, instead of a father of five children. Evidence will show that Dr. Atcherley paid two sums of money to Dr. Wayson for his attendance on the former—\$100 for the supposed treatment of the ear and \$400 for the supposed treatment of an ab-

arrested once before for violence by the authorities, and this second time, he was committed to the Insane asylum; finally he had to withdraw and say that he was mistaken. I can sympathize with Sinclair for he had to make the best of it to make his charge good. He was let in by Dr. Wayson and Emerson and then his aloha for Brinckerhoff the leper expert (who goes to the Kalia Receiving Station with cotton wool stuffed up in his ears and nostrils and long rubber gloves—and high rubber boots, who insists on seeing leper patients out in the open air, all for fear of contagion) if you cannot write out your theory you can act it instead.

Evidence will show Dr. Collins on his oath admits that the above are medicinal doses of cocaine and opium and is also a "treatment for Neuritis—middle ear disease." On cross examination, Dr. Atcherley found that this brother physician had tricked him by saying "What did you shoot Wayson for?" at the same time the other two men—Sinclair and Emerson talked of shooting out of Wayson's house, causing former to reply these words: "It was his only means of retaliation and draw police attention."

When cross-examined by Dr. Atcherley Emerson retracted his false statements and even then he succeeded in getting the judge and the newspaper reporters to believe that Dr. Atcherley was taking the drugs for pleasure and not as treatment for neuritis "that 1-2 grain of cocaine followed by 5 or 6 grains of opium when necessary every four or six hours" was a very large dose of the drugs and this was a fiend's dose—therefore it was this habit that caused Dr. Atcherley to be insane—kind of insanity (Paranoia). When asked by Dr. Atcherley what the medicinal dose of cocaine and opium was in the U. S. Pharmacopoeia. He guiltily showed his ignorance by saying "I do not know." I should think any first year's student would have known.

Evidence will show that Sheriff Jarrett with the aid and advice of Dr. Emerson failed to railroad Dr. Atcherley into the insane asylum on January 10th. These gentlemen had called Dr. Collins and another medical man in to examine the doctor and was to pass on a certificate of insanity at once without the magistrate or any kind of judge being present when attorney E. M. Watson at my call came to our rescue and put a stop to their monkey business. Evidence will show that Dr. Sinclair on his oath admits that the above are medicinal doses of cocaine and opium and is a treatment for neuritis. (Dr. Sinclair is a member of Brinckerhoff's staff and therefore must do what he can for his place). Dr. Sinclair states that Dr. Atcherley was insane—a Paranoia kind, because he talked big of his "causation of leprosy." When challenged by latter, to state what was wrong or to criticize the paper if he could—he could not. When asked by latter's attorney, J. A. Magoon, if he could quote any cases of Paranoia that he has ever treated or read which was similar to the case of Dr. Atcherley. Sinclair said he had plenty. He had a book brought from his carriage, he searched almost half an hour, then read out a case who was

**IS EVERYTHING IN THIS "POLITICS?"**

Governor-General Smith's criticism of the local government of Manila is nothing worse than there was reason to expect. Home Rule was given the Filipinos for political effect in the United States, and its failure comes as a matter of course.—Advertiser.

If criticism proved failure, heaven help most American legislatures, Congress and the President. However, it is not true that failure of Filipino self-government has come as a matter of course, nor that Home Rule was only given for political effect. If the latter is true the late President McKinley was a timeserving hypocrite in most of the things he wrote and said about the Philippines, Roosevelt is another and Taft has followed them with Congress and the country applauding. The writings of the three statesmen named team with nobly-worded expressions in favor of giving the Filipinos all the Home Rule practicable, with a view to leading them to fitness for self-government. This was the basis of McKinley's appeal to Taft to take the Philippine governorship, and the basis of Taft's acceptance, of his whole administration and his present policy. That policy is today the boast of all Americans,—basis of their claim before all the world to have set a higher standard than was ever set before in the administration of a dependency. In his last regular message to the present Congress, a month ago, President Roosevelt said:

Real progress toward self-government is being made in the Philippine Islands. The gathering of a Philippine legislative body and Philippine assembly marks a process absolutely new in Asia, not only as regards Asiatic colonies of European powers but as regards Asiatic possessions of other Asiatic powers; and, indeed, always excepting the striking and wonderful example afforded by the great Empire of Japan, it opens an entirely new departure when compared with anything which has happened among Asiatic powers which are their own masters. Hitherto this Philippine legislature has acted with moderation and self-restraint, and has seemed in practical fashion to realize the eternal truth that there must always be government, and that the only way in which any body of individuals can escape the necessity of being governed by outsiders is to show that they are able to restrain themselves, to keep down wrongdoing and disorder. The Filipino people, through their officials, are therefore making real steps in the direction of self-government. I hope and believe that these steps mark the beginning of a course which will continue till the Filipinos become fit to decide for themselves whether they desire to be an independent nation. \* \* \* All we can do is to give them the opportunity to develop the capacity for self-government. \* \* \* We must be wise and generous; we must help the Filipinos to master the difficult art of self-control, which is simply another name for self-government. But we can not give them self-government save in the sense of governing them so that gradually they may, if they are able, learn to govern themselves. Under the present system of just laws and sympathetic administration, we have every reason to believe that they are gradually acquiring the character which lies at the basis of self-government, and for which, if it is lacking, no system of laws, no paper constitution, will in any wise serve as a substitute. Our people in the Philippines have achieved what may legitimately be called a marvelous success in giving to them a government which marks on the part of those in authority both the necessary understanding of the people and the necessary purpose to serve them disinterestedly and in good faith. I trust that within a generation the time will arrive when the Philippines can decide for themselves whether it is well for them to become independent or to continue under the protection of a strong and disinterested power, able to guarantee to the islands order at home and protection from foreign invasion. But no one can prophesy the exact date when it will be wise to consider independence as a fixed and definite policy. It would be worse than folly to try to set down such a date in advance, for it must depend upon the way in which the Philippine people themselves develop the power of self-mastery.

This is not politics. It was not politics when McKinley first dreamed it. It was and is the highest statesmanship. It is true that it has had its political effect at home,—it deprived the rampant Bryan of an "issue," but it had been thought out by McKinley before Bryan began to rave. If the policy were dictated by politics, it would only show so much the more strongly what is the "American system," for a political necessity of giving the Filipinos Home Rule could only arise because American sentiment at home would tolerate no other plan.

Some of those who know Taft best say that he feels that his fame is safe to rest upon the work he did in the Philippines as first governor, that of pacifying and winning the people and leading them to the beginnings of self-government. When he left Manila he promised to come back and open the first Philippine legislature, and he traveled all the way from Washington and did so, making an address fully in line with the idealism of McKinley and the above quoted optimism of Roosevelt. Taft would probably be astonished if he thought that many of the people of little Hawaii,—to which in the matter of free suffrage the McKinley administration applied the same policy,—regarded all these procedures of State as having no higher motive than "political effect at home."

Will The Star tell us what the "new local government," which was "established just a month ago," has done to earn the extra \$1000 per month it is costing and what it is likely to do which is of more value to the public than what the old local government gave?—Advertiser.

Will the Advertiser tell us how it knows what the new system of government is going to cost, or how in fairness it can make an assumption based on the first month of a period of twenty-four? The fact is that the Advertiser's opposition is directed just about as much to the last form of government as to the present. It wants as little local

self-government as possible and opposes a county act just as much as a city and county act.

Anyway, neither The Star nor the new local government created the establishment. Yet, with an efficient mayor in harmony with an honest majority of supervisors it is likely that additional expense would be true economy. Under the old local government there was no functional authority to see that all the services were well performed. Under the new, notwithstanding all laments that the mayorality is not an honorary office filled by "a business man," it might be very hard to find anyone actively engaged in business of his own who could give the time necessary for efficient administration of the constantly increasing affairs of the city and county.

There is a local automobile club which might well take up the matter of violations of speed laws. For the protection of the careful and law-abiding owners of machines against threatened too drastic regulations, owners generally should aid in enforcement of the reasonable rules that exist now.

**INVESTORS WANT TO COME HERE**

(Continued from Page One.)

drick, second Vice President, will cause much additional comment and serve to still further attract attention to Hawaii.

The "Tenyo Maru," due to sail February 8th or 9th, will also carry a very heavy mail; over three thousand pieces of first class matter, besides folders and marked copies of our daily papers. These reach every state in the Union as well as every Province of Canada.

Each mail to hand brings an increasing number of letters from people of small means, say, with from \$3,000.00 to \$10,000.00, who are planning to come to Hawaii to see what the chances are here. We are also getting more communications from the class of people whose incomes have built up and made Southern California prosperous, a class of residents the Promotion Committee is diligently and systematically seeking to interest in the Islands.

pany writes asking to be furnished with our advertising matter and express a desire to enter into friendly relations with the Hawaii Promotion Committee offering to reciprocate in every way possible.

A letter from the Weister Company of Seattle, dealers in stereopticons, etc., state that their illustrated lectures on Hawaii are in use all over the Northwest. They ask for additional matter in order to revise their lectures. We are sending a set of fish plates, suggesting that they have several colored lantern slides of these made up to add to their lecture.

We are now running the colored fish slides at our daily lecture in Los Angeles with good effect.

Respectfully submitted,  
H. P. WOOD,  
Secretary.

**KNOCKED DOWN AND ROBBED**

While the present season of travel is most satisfactory, I believe it is safe to predict that the season for 1908-1910 will see an increase of, at least, twenty-five, if not, fully fifty per cent in the number of visitors. We may also expect a satisfactory year through travel.

It is difficult to appraise the value of the advertising we are receiving by the Pearl Harbor developments and the establishment on the Island of Oahu of a large Military Post. No city, the world over, is more thoroughly before the public today than Honolulu.

J. E. Rodgers, the well known roof-paint contractor, was knocked down at the corner of King street and Kamehameha 4th road Tuesday night and robbed of \$35 in gold coin. He is positive that his assailant were soldiers from Fort Shafter.

Rodgers had been in the saloon of Isaac Cockett, near by, with the soldiers and James Crane. When he left the place to catch a car at the corner he was accompanied by the soldiers, who appeared to be friendly. Rodgers is not clear as to just how all happened, but he was laid out by a blow on the forehead. The next he remembers is being picked up by John Cropley, a hack driver, and conveyed to his home. He then found that his money was missing.

The corner of King and Kamehameha 4th road has long had a bad reputation. It is the hanging out place of the toughest hoodlums of the Kalia neighborhood, and several times there have been ugly doings about the corner. This is the first time, however, that soldiers have been connected with any case of serious outlawry.

By March 10th, our distribution of folders at Colombo will be under way. I believe this campaign will result in our securing a larger number of stop overs from the constantly increasing trans-pacific travel.

A letter from St. Joseph, Mo., to hand by last mail, states that the writer is making up a party to visit Hawaii and asks to be supplied with additional advertising matter.

By last mail, we received the copy for the special red plate overprint of Hammond and Co.'s Map of the World on Equivalent Projections. I looked over the copy carefully and after noting a few additions and corrections, was able to return the map by the "Monrovia." We may expect completed copies of this valuable travel map by the middle of March.

The editor of the "California Magazine" writes that they have just added five new but well known men to their staff and are preparing to push their valuable publication with vigor. We are asked to furnish a number of articles on Hawaii which will be published without cost.

A gentleman writes from Hankow, China, asking to be supplied with our pamphlets which he will undertake to place to Hawaii's advantage.
