## THE GOVERNMENT JOINT

### MORE REGULATIONS FOR THE DIS- TRIBUTION OF OPIUM.

Regulations for Government Hospi-  
tals—Alcohol for Government Phy-  
sicians and Other Matters.

At the meeting of the Board of  
Health yesterday a report from  
the Insane Asylum for the quarter  
ending June 30 was read and filed.

President Smith called up the  
matter of health certificates for the  
girls in the public schools. Mrs.  
Dr. Hildebrand had acted as ex-  
amining physician last year and  
was prepared to continue the work.  
Owing to the large increase in the  
number of pupils the lady thought  
she was entitled to an increase of  
pay. The Board decided that no-  
thing could be done in the way of  
an increase until the new approp-  
riation became available and a  
motion prevailed that the doctor's  
services be secured for this school  
year on the old terms.

Another protest from the Wood-  
lawn dairy against killing tuber-  
culous cattle was received and  
filed.

The usual letters from assistant  
superintendent Hutchinson at the  
Leper Settlement were read and  
on motion the petition of Halalani  
to visit his wife at the Settlement  
was denied.

Mr. Smith next brought up the  
matter of the government opium  
joint, as the city dispensary is  
now facetiously called by some of  
the doctors on the Board, by stat-  
ing that District Magistrate Wil-  
cox had called on him in relation  
to a recent opium conviction. When  
arrested the greater part of a  
tin of opium together with a  
small horn thereof had been  
found in the Chinaman's posses-  
sion. On his trial he had pro-  
duced a certificate from the City  
Physician showing that he was  
entitled to use 20 grains of the  
drug daily. The magistrate had  
convicted the defendant in spite  
of the certificate and had fined  
him \$100 which had been paid.  
The object of Judge Wilcox's  
visit had been to ascertain if some  
means could not be found to put  
a stop to the issuing of these cer-  
tificates. He had subsequently  
seen Dr. Howard about it and all  
certificates issued by him had  
been called in. Dr. Howard had  
suggested that each patient re-  
ceiving opium should furnish  
three photographs of himself at  
his own expense, one for the Mar-  
shal, one for the record  
book at the dispensary and one  
to be attached to the permit itself.  
In answer to questions Dr.  
Howard stated that he never  
made any charge to anyone for  
opium furnished but that he had  
in two instances furnished opium  
to messengers of those entitled to  
use it. He acknowledged the  
present system of giving out  
opium was defective and liable to  
abuse.

Dr. Wood said there was one  
way to settle the whole matter and  
that was to stop the distribution  
of opium entirely.

Dr. Day said that any abuse of  
the present system should re-  
sult in the forfeiture of the certi-  
cate and on that understanding a  
resolution was passed adopting  
Dr. Howard's suggestion of the  
three photographs.

During the discussion it was  
developed that two very wealthy  
Chinese were being daily furnish-  
ed with opium at Government ex-  
pense.

Dr. Howard then addressed the  
Board on the subject of alcohol,  
that he had been asked to bring  
up by the drug contractors. Under  
the law druggists were allowed to  
take from the custom house 150  
gallons of alcohol each for manu-  
facturing and general use at a  
duty of \$2 per gallon. All drawn  
out in excess of that had to pay  
the full duty of \$7.50 per gallon.  
As the consumption of alcohol by  
the government physicians

throughout the islands amounted  
to some 50 gallons per year, the  
firm holding the contract to sup-  
ply the Board of Health was  
placed at a disadvantage, and to  
fill their contract had to pay duty  
on alcohol at \$7.50 per gallon,  
whereas they had figured at the  
\$2 rate not thinking govern-  
ment physicians would call for  
such a large quantity.

The Attorney-General—It un-  
doubtedly does work a hardship  
on the contractor but in this case  
it can't be helped. How would it  
do for the Board of Health to im-  
port alcohol by the barrel, have it  
drawn off into gallon demijohns  
in the customs and delivered only  
on permits issued by the Board.  
There is no sense in our paying  
\$7.50 duty, which only goes from  
one department into another.

Mr. Lansing—It would not do.  
I object to any such proposition  
as the Board of Health purchas-  
ing alcohol or anything else. What  
do merchants pay taxes and  
licenses for? The government  
should import nothing.

Dr. Emerson—President Grant  
said that the best way to kill an  
obnoxious law was to enforce it  
strictly. I believe in enforcing  
this alcohol law to the very letter.

Dr. Wood—When the govern-  
ment imposes such an unjust law  
as the one pertaining to alcohol,  
such a miserable excuse for a  
law which does not even protect  
the liquor dealers whose commit-  
tee engineered it through the  
legislature, or anyone else, it  
should suffer the penalty and  
should be made to pay the same  
license it exacts from others.

Mr. Smith—Fifty gallons of  
alcohol at \$7.50 per gallon duty  
means nearly \$400. It seems to  
me that the government should  
save this.

Dr. Wood—It now costs the  
government \$9.00 per gallon for  
alcohol and it ought to. It serves  
them right for passing a law in  
the interests of liquor men. The  
Queen's hospital and several  
other institutions get their alcohol  
free of duty but I hope the gov-  
ernment will have to continue  
paying \$9 per gallon until the law  
is repealed.

The matter was then allowed to  
drop.

Dr. Howard was authorized to  
purchase 50 pounds of corrosive  
sublimite instead of 100, the same  
to be kept intact in case of an-  
other epidemic.

Dr. Wood submitted a set of  
rules to govern hospitals, which  
were ordered typewritten and  
furnished to members before next  
meeting.

A communication from Dr.  
Moore in reference to the Hilo  
slaughterhouse was referred to  
Sheriff Andrews for consultation  
with Dr. Moore.

President Smith brought up the  
difficulty experienced by Agent  
Reynolds in getting to and from  
the Leper Settlement and the  
great loss of time caused by the  
refusal of the company to land  
him at the Settlement and then  
call for him afterward. He in-  
timated that it might be advisable  
before continuing the subsidy  
paid the Mokoli for the next  
biennial period to tack on a  
proviso that the steamer should  
be compelled to make one trip per  
month to suit the convenience of  
the Board.

Dr. Day reported on the matter  
of a circular letter to government  
physicians asking for their biennial  
reports. He thought the old  
form filled every requirement and  
on motion the Secretary was au-  
thorized to send them out.

Attention was called to the fact  
that the subsidy of the Waimea  
hospital depended upon the fil-  
ing of satisfactory quarterly re-  
ports. This had been neglected  
and the Secretary was authorized  
to demand of the hospital au-  
thorities the back quarterly re-  
ports and a biennial report.

## THE SPECIAL SESSION

### FULL TEXT OF THE PRESIDENT'S MESSAGE TO THE SENATE.

Discussion of the Treaty to be in  
Public—Senate Adjourns Out of Re-  
spect to the Late Godfrey Rhodes.

Senators Northrup of Hawaii  
and Horner of Maui were first to  
make their appearance in the  
Senate chamber this morning,  
quickly followed by Senator Rice  
and Secretary Clay. One by one  
the other Senators came along and  
passed the time of waiting for the  
noon hour in talking to members  
of the Cabinet and visitors.  
Promptly at noon President  
Wilder and the other Senators  
filed in and were at once called to  
order. By direction of the presi-  
ding officer the President's pro-  
clamation convening the Senate in  
special session was then read.

President Wilder then said that  
in accordance with the usual  
custom of opening the proceedings  
with prayer he would call on  
Chaplain Edmondson of the U. S.  
S. Philadelphia to officiate in the  
absence of the regular chaplain.

Rev. Mr. Edmondson then  
offered up a short and appropriate  
prayer in which he invoked  
Divine aid on the delibera-  
tions of the Senate on the  
important matters before it.

Senator Brown then moved that  
a special committee be appointed  
to notify the President that the  
Senate was in readiness to hear  
any communications he might  
have to make. Carried.

President Wilder appointed  
Senators Lyman and Wilcox as  
such committee. Whereupon the  
committee retired and shortly  
afterward reported that the Presi-  
dent would immediately transmit  
a message.

Secretary Potter then presented  
the following message to Minister  
Cooper; who in turn handed it to  
the President of the Senate, who  
ordered it read:

### THE MESSAGE.

Under the authority conferred  
upon me by the Constitution, and  
with the approval of the Cabinet,  
I have negotiated a treaty of po-  
litical union between the Republic  
of Hawaii and the United States  
of America which was signed by  
the plenipotentiaries of both gov-  
ernments in the city of Washing-  
ton on the 16th day of June A. D.  
1897.

I herewith transmit the same to  
the Senate for the consideration  
of the question of the ratification  
thereof, under its constitutional  
authority.

In this relation I desire to call  
your attention to certain signifi-  
cant events which bear upon this  
matter.

The Provisional Government  
which succeeded the Hawaiian  
monarchy on the 17th day of  
January A. D. 1893, was organized  
for the administration of public  
affairs until such time as terms of  
union with the United States of  
America should have been agreed  
on. Unexpected delays in the con-  
summation of such union having  
occurred, the Republic of Hawaii  
was organized and proclaimed on  
the 4th day of July A. D. 1894.  
The fundamental law of the new  
republic contained the following  
words: "The President, with the  
approval of the Cabinet, is hereby  
expressly authorized and em-  
powered to make a treaty of po-  
litical or commercial union be-  
tween the Republic of Hawaii and  
the United States of America,  
subject to the ratification of the  
Senate."

The Legislature of the Repub-  
lic at both of its sessions passed  
joint resolutions endorsing the  
annexation policy of the Provi-  
sional Government and Republic  
of Hawaii.

The grounds for the adoption  
of this policy on the 17th day of  
January A. D. 1893 were, first:—  
the existing local conditions un-  
der which the maintenance of

stable government was beset  
with great and increasing difficul-  
ties; and the growing menace to the  
small Hawaiian population involv-  
ed in the impending immigration,  
possibly unlimited, of races whose  
civilization was not in accord with  
the established institutions of the  
country; second:—the rapidly de-  
veloping interests of the great na-  
val powers in the Pacific ocean  
which rendered the permanence of  
the independent government of the  
Hawaiian Islands extremely un-  
certain; third:—the importance of  
securing such permanence of rela-  
tions with the United States as  
would render possible the develop-  
ment of the resources of this coun-  
try; and, fourth:—an abiding con-  
viction that it was for the best in-  
terests of all of the people of these  
Islands.

All of these reasons for annexa-  
tion to the United States of Amer-  
ica still exist, and subsequent  
events have emphasized their im-  
portance.

I would further call your atten-  
tion to the friendly and protecting  
policy of the government of the  
United States of America toward  
this country which has existed  
from the inception of its foreign  
relations, whereby the danger of  
foreign interference has been  
lessened, the stability of the  
Hawaiian Government has been  
promoted and trade relations have  
developed to the great benefit of  
Hawaii.

An important feature of the  
treaty submitted to your consid-  
eration is the provision that all  
Hawaiian laws and customs regu-  
lations not inconsistent with the  
treaty under consideration, nor  
contrary to the constitution or  
treaties of the United States of  
America shall remain in force un-  
til changed by Congress; such  
legislation by Congress to be pre-  
ceded by a report to that body  
from five commissioners, at least  
two of whom shall be residents  
of the Hawaiian Islands, recom-  
mending such legislation concern-  
ing Hawaii as they shall deem  
necessary or proper. Thus is de-  
liberation assured as to the ulti-  
mate form of government for the  
Territory of Hawaii, and the in-  
jury that inevitably follows sud-  
den changes of political conditions  
precluded.

In submitting this most im-  
portant measure to your consid-  
eration, I would remind you that  
you are the representatives of the  
interests of the whole Hawaiian  
community of every class and  
name; and I cannot doubt that in  
reaching your decision you will  
be guided by the conscientious  
and patriotic desire to promote its  
best and most lasting prosperity.

Minister Cooper then presented  
the Hawaiian copy of the treaty  
entered into at Washington on  
June 16, 1897, which has already  
been published in these columns.

President Wilder said the time  
had come when the Senate had  
better decide whether the consid-  
eration of the treaty should be in  
executive session or in public.

Senator Waterhouse moved that  
all discussion on the annexation  
treaty be in public. "Let the peo-  
ple know what we are going to  
do," said the gentleman.

Senator Brown seconded the  
motion and it was carried without  
a dissenting voice.

Secretary Clay then read the  
treaty through.

Senator Holstein in moving to  
refer the treaty to the Committee  
of Foreign Relations, consisting  
of Senators Baldwin, Brown and  
Kauahane, said he was merely car-  
rying out the customary course of  
procedure. His motion was sec-  
onded and carried unanimously.

President Wilder then an-  
nounced a second communication  
from the President, containing  
the names of appointees to office  
requiring confirmation by the  
Senate. On motion of Senator  
Brown the communication was  
laid on the table for action at the  
next sitting.

Minister Cooper then handed to  
the presiding officer a third com-  
munication from President Dole  
as follows:

"I herewith transmit for your  
consideration the following reso-  
lution and petition, adopted at a  
meeting of Hawaiians, and pre-

sent to me yesterday by a com-  
mittee appointed for the purpose."

Accompanying the letter was  
the petition asking that the Senate  
do not consider the annexation  
treaty until after the wishes of the  
Hawaiians have been ascertained  
by a plebiscite.

On motion of Senator Holstein  
the letter and petition were also  
referred to the Committee on  
Foreign Relations.

President Wilder said he had  
found another communication on  
his table which proved to be an  
offer of the Davey Photograph  
Company to photograph the Sen-  
ators singly, individually or col-  
lectively in the Senate chamber or  
at their studio. Referred to the  
committee on Miscellaneous Peti-  
tions.

Senator Waterhouse then said:  
Mr. President and Senators: In  
the death of Hon. Godfrey Rhodes,  
announced this morning, the na-  
tion has met with a great loss. It  
has been my good fortune to have  
been associated with him in many  
Legislatures of Hawaii. He has  
been ever a true and good friend  
to Hawaii and in common with  
many others who mourn his death  
I believe it is fitting that the  
Senate should now adjourn until  
10 o'clock tomorrow morning out  
of respect to his memory and I so  
move.

The motion was carried unani-  
mously and at 12:35 the Senate  
adjourned.

Among those present at the  
opening of the Senate were Mrs.  
H. N. Castle and a party of ladies,  
U. S. Consul-General Haywood,  
Captain Nichols and a number of  
officers of the U. S. S. Benning-  
ton, Professor Alexander, James  
A. Low, Marshal Brown, Major  
Potter and Lanke, Captain  
Coyle, E. C. Bond, Arthur John-  
stone, Captain Pratt, Colonel  
Soper, F. S. Dodge and a number  
of others, including many stran-  
gers. All the members of the  
Cabinet were present during the  
session.

**CHURCH FAREWELL SOCIAL**

MAKING IT PLEASANT FOR REV. J. M. MONROE'S DEPARTURE.

Entertaining Program Followed by Presentations and Speeches at the Christian Church.

It hardly looked like a farewell social, until the speeches carrying the idea began to be spoken, at the Christian church last night. With the elaborate decorations amidst the flooding electric light, the scene more suggested a Christmas festival. Thomas McGuire was the decorator and never has prettier work of the kind been done in Honolulu—symmetric and tasteful, every detail beautiful and nothing tawdry. Besides foliage of palm, banana and ti plant, with a variety of ferns in pots, at the front, there was a distinct feature of golden shower plumes depending from maile vines, these being hung in festoons along the baptistery screens and upon the electric light branches. Aloft behind the desk was a pair of palm fronds in the form of outspread wings, and in midair below a star of white carnations bearing in red the loving salutation "Aloha Oe."

It was a gathering of members and friends of the church and Sunday school to take farewell of Rev. J. M. Monroe, the pastor for more than a year, who intends leaving for the United States next week. The church was filled from platform to door, and among the friends present were Rev. Dr. Bingham, Rev. and Mrs. O. H. Gulick and Rev. A. J. Bell the evangelist. Dr. Burgess of the city and Mr. Vanderveer of the U. S. S. Philadelphia kindly assisted in the preliminary exercises, as will be seen by the program here given, which was called off by Deacon T. P. Harris, presiding. Prof. Cook was piano accompanist:

 Deacon William McCandless, at the close of the program, came forward and in a few words of affection and regard presented Mr. Monroe with a purse of gold.

Mr. Monroe said in reply: "I am sure that I needed no testimonial such as this of the appreciation of my friends. The gold that is in this purse is a symbol of the character of the friends I have met here. I think I have never met people anywhere that are more like pure gold, both in this church and in other churches." Mr. Monroe thanked those who had so beautifully decorated the church, and then spoke of his sensations on arriving in Honolulu. "I found a state of things that I never met anywhere else—nine different nationalities among which to minister. A person coming here will find his abilities tested by working among so many diverse races and mother tongues. In writing home to my friends I told them this was like the apostolic church, where there was neither Jew nor Greek, bond nor free." Mr. Monroe gave figures to show that there had been 51 accessions to the church, or one for each week but one, since he began his pastorate here. He warmly thanked the ministers and members of other churches for the hand of fellowship. There was a peculiarly inviting field for Christian work in these islands, which, situated in the middle of the Pacific, he believed had a great destiny ahead. On this line he should make more extended remarks in his farewell sermon. "I trust I shall meet you all on the other shore," the pastor concluded, "where there are no diverging paths." Walter C. Monroe, son of the pastor, then received a book as a parting token from his class in

Sunday school. He replied thanking his pupils, also all their friends in church and Sunday school. Mrs. Monroe, who is absent in the States, was also remembered with a gift from the church and a painting from Miss Jaouen. The pastor in returning thanks on his wife's behalf, said that in her letters she expressed warm interest in the church and its members.

Dr. Bingham said in part: "I sincerely regret that Mr. Monroe is going away. I have always looked on him as one who had broad views, recognising as brethren members of other communions who were laboring for the same Master. I rejoice that he goes forth with the good wishes of so many people, and hope he will win the confidence of people in other fields. My earnest desire is that this church may be blessed. There is room for all churches here that help in bringing in sheaves for the harvest home."

Mr. Bell expressed the pleasure he had felt—as one whose "parish is the world and whose theme is Christ"—in exchanging pulpits with Mr. Monroe. They were all divisions of one great army. He hoped Mr. Monroe's labors elsewhere would be successful.

Mr. Gulick said in the course of remarks: "We have all learned to love Mr. Monroe, and some of us Mrs. Monroe. We regret to lose such people—or rather to part from them, for the remembrance of such people always remains as a blessing. This city is the richer, this country is the better, for the year that Mr. Monroe has spent among us."

Mr. Harris with much emotion then said farewell to Pastor Monroe on behalf of the church. He paid a tribute to his eloquence of discourse, which had been fruitful of results. "While a loss to us, his departure will be a gain to other places." The speaker before concluding with an impressive apostrophe of farewell to the father, paid a high tribute to the son for his worth as a young man and his work in church and Sunday school.

Ice cream and cake were then served by the ladies and young people, the Kamehameha boys while contributing some of their fine songs. It was after 10 o'clock when the gathering dispersed, but the evening had been made so pleasant that not even the little tots were weary.

**A Georgia Legislator.**

The newly arrived stranger in Atlanta started up Whitehall street in search of information. On the corner of Alabama street he encountered a tall yellow-faced individual in a droopy coat and soiled tie.

"My good sir," said the stranger, "I am in search of information concerning this great State of Georgia and feel sure that you can assist me very materially. What is your population?"

"Dunno."

"What kind of a school system have you here?"

"Dunno."

"How about your tax rate?"

"Dunno."

"Is your government friendly or unfriendly to manufacturing corporations?"

"Dunno."

"Let's see—how does Georgia rank among the other States of the South in its agricultural products?"

"Dunno."

"Ah, you don't live there, then?"

"Yas."

"What do you do?"

"Oh, I'm jest a member of the Legislature."—Calhoun Times.

# KONA ECHOINGS.

Good Coffee Prospects—Industrial and Shipping.

From the latest Kona Echo the following items are derived:  
The Hookena road, known as Kalanipoo road, was very much damaged about noon last Monday by a heavy rain storm. The dressing is all washed off for more than a mile.  
The sale of lumber is very brisk around the island now. Mr. Amalu of Hookena sold 12,000 feet to Japanese and Chinese planters for drying floors during the past month.  
The finishing of the new Government school house at Akaaaina was the occasion for a great luau. Between 300 and 400 persons were present early Friday, last week. Two fat pigs, two bullocks, five barrels of poi, 50 lbs of fresh fish and large quantities of other provisions were eaten. From morning till night they ate, then sang, then sang, then ate. In the evening there was a big hula-hula or ball. The new schoolhouse is rather a fine one 56 by 32 feet, containing 2 rooms, and situated 2 miles from the beach. Geo. Kanikau is the principal.  
Messrs. Coerper & Gomes have secured the services of M. B. Macfarlane of Honolulu for their new store. Mr. Macfarlane has business qualities that are sure to make a new store boom.  
The Kona coffee pickers say that there is rather too much rain, but they prefer rain to drought.  
Kona stores are not paying more than \$14.50 for a bag of dried coffee nowadays.  
The wrecked Hookannui schooner purchased by G. W. McDougall Jr. was successfully floated and towed into Kailua harbor by the steamer Iwa Thursday evening.  
Mr. Bartels is now in charge of the Hawaiian Coffee and Tea Co.'s plantation, Laaloa.  
From present indications the output of coffee for Kona will far exceed that of any previous year and is far above expectations.  
The new 100 ton steamer that is to ply between Kohala, Kona, Kau, Puna and Hilo ports is expected to arrive within a few weeks.  
Mr. Gaspar, of Napoopoo, mountain guide and coffee expert, is building a fine coffee mill. He says he will be able to run through 2 tons daily.

# ONE ENCLARE.

(By ANNE M. PRESCOTT.)

Yours was enough lovely face,

Jenny,

And 'twas sold for a golden penny;

You are but one among the many

Who are bought for the golden penny;

But it's a dreadful mart, my Jenny,

Where bid off for that golden penny.

A heart was broken, Jenny,

Hearts are broken every day;

But the time may come, Jenny,

When someone will hear you say:

"It was bad work on that day

When I was sold for pennies."

Yours was a lovely face, Jenny,

With laughing eyes that matched the sky;

But you broke a true heart, Jenny,

And never more, how much you try,

Can you forget the day, Jenny,

When you wedded, for that penny.

Yours was a lovely face, Jenny,

With its sweet bewitching grace;

But a man's life is wrecked, Jenny,

And we'll not envy you your place,

If, bought for a golden penny?

Your face was your fortune, Jenny.

WEDNESDAY, SEPT. 8, 1897.

Godfrey Rhodes will long be remembered for his faithful and protracted public services to this the land of his adoption. His earnest words of censure upon the conduct of affairs, when he last sat in the Legislature, would read like prophecy today. Although presiding officer he frequently took occasion, when the house was in committee, to express his views fearlessly as he could do forcibly.

President Dole's message to the Senate is a clear statement of the reasons for ratification of the Treaty of Annexation on the part of Hawaii. It ought not to involve any discussion in a body elected to bring about the end designated in the document.

### ADMIRAL BEARDSLEE TALKS.

Does Not Believe Japan Will Make Trouble in Hawaii.

Rear Admiral Beardslee, who has just been relieved of the command of the Pacific squadron of the United States Navy by Rear Admiral Miller, came up from Honolulu on the steamer Australia, which arrived yesterday, says the Chronicle of last Thursday. Admiral Beardslee is on his way to Washington, D. C., to enter upon the duties of his new office, which is that of chairman of the examining board. After spending a few days in the city he will depart for the East. He now has apartments at the Occidental with his wife.

"Admiral Miller was one of the worst - disappointed men I ever saw," said Admiral Beardslee when seen yesterday. "He went to Honolulu to assume command of the Pacific squadron, thoroughly confident that there was trouble ahead. He had been led to believe from the Washington dispatches published in San Francisco just before his departure for the islands that the Japanese had been kicking up a fuss and that the American flag was flying over the country. He was very much mortified to find affairs in the islands stagnated. Admiral Miller has just lost his daughter and would have hesitated about going to Honolulu but for the fact that affairs in Hawaii were represented to be in a very shaky condition."

"Everything is as quiet in Honolulu as could possibly be. In my opinion there is not going to be any trouble in the islands. I will not go so far as to say that the Japanese residents there will never cause the Hawaiian Government any trouble, but I will say that the indications are very much against it. I believe that the first trouble that arises, if any does arise, will be between two other nations. Furthermore, I do not believe that Japan would be guilty of engaging in any difficulty with the United States while she has war vessels building here. There is not likely to be any serious misunderstanding between America and Japan other than what might be easily adjusted by diplomatic measures."

President Faure has received a grand welcome home to France from his visit to the Emperor of Russia. A treaty of alliance was concluded.

At Dunkirk on his return from Russia President Faure congratulated France on resuming her place among the great nations. He said the alliance with Russia was one of the greatest events of the end of the century.

Three minutes after President Faure passed the Madeleine, on his triumphal return to Paris, a bomb was exploded within the church railing. An arrest followed.

There is a report that the Imperial party were prevented from going out to see the illumination at Peterhof, Russia, in honor of President Faure, through fear of the Nihilists.

A Paris mob cried "Down with Emperor William."

## ANOTHER JUNKETING TRIP

STEAMER KAALA TO BE CHARTERED FOR HONOLULU.

To Take Dr. Brooks and a Very Select Party of Four or Five to the Leper Settlement.

At the meeting of the Board of Health yesterday the clerk presented a statement showing the amount of outstanding bills against three of the funds which have become exhausted. It was read over by the Attorney General, commented on by a few of the members and generally agreed to that more economy must be exercised in Board of Health matters. The statement was pocketed by the Attorney General with the remark that he would bring it up in the Executive Council.

Just a few minutes before this the President of the Board had said:

"There is a little matter that I wish to bring up. Dr. S. D. Brooks of the United States hospital service who is now visiting here is particularly anxious to visit the Leper Settlement. It has been thought desirable that a steamer should be specially chartered to make the trip, and for that purpose arrangements have been made to have the steamer Kaala go. She will take Dr. Brooks and a party of four or five. No outsiders will be allowed to go nor will any representatives of the press or [sarcastically] other distinguished gentlemen be invited. Of course if any member of the Board wishes to go it will be permitted. All in favor of a motion to that effect please say aye carried unanimously."

Immediately before making this little statement the Attorney-General had read a polite communication from the German Consul, J. F. Hackfeld, asking that Dr. Thilenius and Dr. Kramer, two distinguished German physicians and travelers now visiting the islands, be allowed permission to visit the Leper Settlement. The request was granted, the Attorney-General saying to the clerk, "These gentlemen have gone to Maui and have requested that the permits be forwarded to them. They will have to make their own arrangements to get to the Settlement."

## Timely Topics

The Russell Staple Puller and Wire Splicer is a drop-forged tool, made of Black Diamond tool steel; and is six useful tools in one, weighs about one pound and can be carried in the hip pocket with ease.

Besides the six tools it can be used for various other purposes, which suggest themselves as necessity demands. The six tools are as follows:

1. A double staple puller, rails, etc.
2. A double wire cutter, and the best made.
3. A double hammer, and no danger of its breaking.
4. A good wire splicer for any kind of wire, barbed wire included.
5. A good pair of pinchers with long leverage.
6. A good monkeywrench for plows, machines, etc.

It is good for tightening slack wire, by grasping the wire in the jaws of splicer and pressing handle to right or left until it bends the wire, moving on from place to place, until you have it tight enough.

The Russell Staple Puller and wire Splicer is admitted to be the handiest tool made for ranchers, farmers, etc., and has an immense sale in the States and wherever it is introduced.

GODFREY RHODES DEPARTS

PASSING OF A VENERABLE FIGURE THIS MORNING.

He Dies of Old Age—His Long and Honorable Career in Hawaii.

This morning at twenty minutes past one o'clock Hon. Godfrey Rhodes closed a long and honorable career, dying at his residence in Nuuanu avenue. Old age carried him off, the fatal symptoms being blood poisoning. It will be remembered that Mr. Rhodes attained his eighty-second birthday on the eighth of March last, when Minister Cooper sent the band, out of regard for his long public services, to serenade him at his residence.

When 20 years of age Mr. Rhodes came out from his home in England on board the Hudson Bay Co.'s packet Columbia, which called at Honolulu on her voyage to the company's station on the Columbia river. He became mate of that vessel and afterward master of the schooner Unity, which in 1839 carried a number of Indians, dropped here by sealing vessels, hence to their native land. Later he went to Monterey, California, thence conveying John Coffin Jones, a former United States Consul at Honolulu, to Acapulco in the Unity.

Returning to Honolulu Mr. Rhodes stayed in the islands and engaged in raising coffee and other products on the island of Kauai. He was elected to the Legislature from that island on successive occasions, but abandoned his planting enterprise there in 1852. In later years Mr. Rhodes was appointed a member of the House of Nobles, that being a life position until the constitution of 1887. He was three times president of the Legislature, last for the session of 1884. Many will remember the ability and dignity with which he conducted that breezy assembly, when the opposition struggled in vain against the Gibson administration with its policy dictated from the palace. Mr. Rhodes was a member of the Privy Council of State also in the later years of the monarchy. He went to California in 1886 on account of failing health, only returning here once on a visit until last year, when with Mrs. Rhodes he came back to spend his last declining days amidst the scenes of his prime.

Mr. Rhodes married Nancy Chapman on January 24, 1882, now leaving her with one child. Other relatives mourning his loss are Mrs. Thomas Brown, a sister and the mother of Mrs. Alex. Mackintosh and Cecil, Godfrey and Frank Brown; Mrs. von Phister, a sister in England; Judge C. W. Hart of Honolulu and Ludovico Hart of Australia, half brothers; Miss Chapman, sister-in-law; Mrs. D. D. Campbell and Miss Pattie Rhodes of Kauai, and Mrs. Richard Janion of Victoria, nieces.

Mrs. Rhodes and A. St. M. Mackintosh, grand nephew, were present at the deathbed of the venerable gentleman. Miss Rhodes, his only child, was absent in the Waianae mountains with H. M. von Holt's family.

The funeral takes place this afternoon at 3:30 from the Roman Catholic cathedral. The following citizens will act as pall-bearers: President Sanford B. Dole, Alatau T. Atkinson, Attorney General W. O. Smith, Hon. John A. Cummins, Col. W. F. Allen, Hon. Jas. I. Dowsett, Senator Henry Waterhouse and J. Kala-kale.

## Our I's and Other Eyes.

Our I's are just as strong as they were fifty years ago, when we have cause to use them. But we have less and less cause to praise ourselves, since others do the praising, and we are more than willing for you to see us through other eyes. This is how we look to S. F. Boyce, wholesale and retail druggist, Duluth, Minn., who after a quarter of a century of observation writes:

"I have sold Ayer's Sarsaparilla for more than 25 years, both at wholesale and retail, and have never heard anything but words of praise from my customers; not a single complaint has ever reached me. I believe Ayer's Sarsaparilla to be the best blood purifier that has been introduced to the general public." This, from a man who has sold thousands of dozens of Ayer's Sarsaparilla, is strong testimony. But it only echoes popular sentiment the world over, which has "Nothing but words of praise for Ayer's Sarsaparilla."

Any doubt about it? Send for the "Carebook." It tells all about it and cures doubt. Address: J. C. Ayer & Co., Lowell, Mass.

### A YEARLY PILGRIMAGE.

The Bascoms and the Spot That Was All Their Own.

It was the day for the annual journey of the Bascoms. At daylight they started from their Harlem flat—father, mother, two sons and three daughters—carrying with them a complete camping outfit. After crossing the river to Long Island City they rode 98 miles in the train. Then they hired a farmer's wagon, which took them 12 miles farther into the interior of the island. The road ended here. So the Bascoms continued their journey over hills and through swamps on foot till night came, when they put up their tents, crept into them and slept. Next morning the journey was continued. At noon the party reached the top of a hill and Bascom uttered a cry of joy.

"I recognize that tree," he cried. "We must be in sight of it."

Lifting his fieldglasses to his eyes, he leveled them at the great stretch of swamp which began at the bottom of the hill.

"Alas!" he exclaimed, dropping the glasses. "We can't see it. Rain has fallen, and it is covered with water. We must wait till tomorrow."

They camped on the hill till next morning. At sunrise Bascom again brought his glasses to bear on the swamp. This time he was rewarded.

"I see it!" he shouted. "The sheet I hung on the pole last year is waving just above the water. Look, wife! Look, children! There is our corner lot. The pole is just in the middle of it."

There were screams of pleasure, and each took a turn at the glasses. Then Bascom turned to his family and said, in a tone that quivered with emotion: "I bought that suburban corner lot for my little ones. I may never enjoy it, but one day you may have your home here—when the water goes away or when a hill grows up. Then think of me."

Silently, with full hearts, the party started back for the Harlem flat.—New York Sunday Journal.

## Epicurean Goods

The finest tinned goods in the United States are those known as "Epicurean" and "Palace" Brands. They are the best, because of the care given the selection and preparation of the articles.

The Epicurean Brands include Jams, Jellies, Red Kidney Beans, Beans and Tomato Catsup, Lunch Oyster, Lunch Lobster, Shrimps and Tomatoes, Bean Soup, Pea Soup, Tomato Soup, Sliced Peaches and Sliced Apricots.

These latter are unquestionably the finest preserved fruits obtainable. Served with cream they compare favorably with the fresh fruit.

For more than fifty years has PERRY DAVIS' PAIN KILLER stood the test against all remedies prepared to eradicate pain, and today stands at the head of the list among the medicines that are so essential to keep at hand in the home.

It is not a new fangle remedy nor do the proprietors lay claim to any wonderful revelation of the ingredients that enter into the manufacture of this ever popular remedy.

It is perfectly harmless, you need have no fear of becoming habitually inclined to its use.

For Colic, Cramps, Dysentery, Colds, and all painful affections, a few doses will certainly give relief. You cannot afford to be without a bottle in the house.

Your forefathers used it and found it beneficial.

Why experiment with some remedy that is new and its effect on the system unknown?

It has many rivals but no equal.

The new 35c. size contains over double the quantity of the 25c. size.

**CHINESE SOLDIERS.****A Remarkable Promotion--How the Officers Rob the Government.**

A young man from my native town entered the army, and by dint of hard fighting and real merit rose to the rank of brigadier general, but with him at every promotion rose his brother, whom I will call X., who had met him for years and who was peacefully occupied as cook in a distant opium den. This is how it was done. The soldier, after each engagement in which he distinguished himself, reported imaginary deeds of valor performed by his brother, and his word was taken. One day the cook in the opium den, who had never even seen a battle, read his name in The Gazette and found to his surprise that he had attained the rank of colonel in the imperial forces.

Military service is in many ways very remunerative to the officers. They enroll any men they like, and they always draw the pay for many more men than are actually in the army. About 70 per cent of the full number of men nominally serving and for whom pay is drawn is the average strength of the forces, even under Li Hung Chang's comparatively honest officers, while elsewhere 100 men on paper usually mean but 40 or 50 in the flesh. On review days the officers engage a sufficient number of soldiers by the day to make the army look all right. But there are other sources of profit besides dealing in dummy soldiers. The live ones have to wear uniforms and to eat, and both food and clothes are supplied at extortionate prices by the officers, so that of the 5 taels per month paid by the government for each soldier, about one-fifth or less reaches the pockets of the men. All this refers to the "braves" who are only engaged during wartime and are disbanded the moment the fighting is over wherever they may happen to be and nearly always without the means of returning to their homes, thus keeping up the supply of armed robbers all over the empire.

As to the soldiers of the standing army in times of peace, they are, with the exception of the Manchoo garrison, so wretchedly paid that its strength exists only on paper. The men enlist and regularly draw their pay--3 shillings per month--and have scarcely any further connection with the military service. The few that go on duty in the city gates live entirely on bribes. The Manchou force under the Tartar general on the other hand, is well paid, but these soldiers do no fighting. They are only engaged in guarding the city against Chinese rebels. They live in a separate quarter to that occupied by the Chinese, on whom they often make unprovoked attacks. Thus fights between the Chinese and the Tartar soldiery are of common occurrence, and as these Tartar soldiers are not under the jurisdiction of the civil law their outrages invariably go unpunished. Naturally there is no love lost between the city guards and the native Chinese. --English Exchange.

Not the Truth.

"Say, Willie, what yer doin wid yer dress suit on at dis time in de mornin?"  
"Well, Freddie, yer see, I wunz at de club all night, and when I reached me chambers dis mornin I found me man had skipped wid all me odder clothes, even me yachtin suit, so I'm jist on me way to me tailor's. See?"--Truth.

## ABOUT THE LAWN.

How to Destroy Ants—Sprinkling and  
Clipping.

The best thing to destroy ants is a  
weak solution of carbon bisulphide.  
Saturate a sponge or a piece of cotton  
with it, bury it in the ground two or  
three inches below the surface where  
the ants are the most numerous. The  
gases from this will spread out in all  
directions, and the odor is not only dis-  
tasteful to the insects, but poisonous.  
The fumes will spread for a distance  
of three or four feet in all directions,  
and in a short while an ant could not  
be hired to inhabit the lawn.

Many people are not successful with  
their lawns because they allow the clip-  
pings to remain on the ground.

This dead grass soon forms a mat and  
chokes off the growing grass—that is,  
it keeps the sun from getting down to  
the roots of the grass plants, and it gets  
so much shade that it weakens the grass  
and eventually thins it out so that in  
awhile it becomes unsightly. The grass  
should be caught in a trailer while  
being cut and carried away.

There is considerable danger in wa-  
tering the lawn too much, but the  
greater danger lies in not giving suffi-  
cient water and that at the right time.  
The lawn should be watered either in  
the morning or evening—evening pre-  
ferred. The water should be sprinkled  
as nearly like a natural rain as possible.  
When applied with a hose without a  
spraying apparatus, it is likely to come  
with so much force as to tear the grass  
out by its roots and stunt its growth.  
Many people do not water their lawns  
till the grass begins to die out. Then it  
is too late for best results. The lawn  
should be watered once every day. Care  
should be taken not to "drown" the  
grass, and yet it should be given suffi-  
cient water. There is no way of telling  
just the right amount, and the person  
will have to use his good common sense  
in determining when there has been  
enough applied.

## How to Make Cream Puffs.

A cupful of water, half cupful of  
butter, a cupful of flour and 3 eggs.  
Boil water and butter together. Stir in  
(while boiling) the flour. Take from  
the fire and allow it to cool. Add the  
eggs (not beaten), mix well together  
and drop on buttered tins for 20 min-  
utes. Avoid opening the oven. Have it  
warm enough for bread and cake.

A cupful of milk, an egg, half a  
cupful of sugar, 3 tablespoonfuls of  
flour. Beat egg and sugar together, add  
flour and stir them in the boiling milk.  
Flavor with vanilla. When cold, open  
them and fill and dust with pulverized  
sugar and serve. This will make one  
dozen large cream puffs.

## Breakfast Bacon.

Breakfast bacon for frying should be  
cut almost as thin as possible and the  
slices cut into a frying pan that has not  
been heated, so that the bacon may heat  
gradually. Then fry crisp and brown  
and serve as a garnish to fried potatoes.

## Household Brevities.

The richer the cake the slower must  
be the oven.

To prevent the roast from becoming  
too brown, place a dish of water in the  
oven.

Brass bedsteads are being made with  
dustproof drawers underneath, the  
width of the bed.

At a recent luncheon the damask nap-  
kins were folded like horns of plenty  
and held American Beauty roses.

A novelty for the table is represented  
in patty cups of Dresden china, set in  
silver standards.

Irregular edges and patterns in relief  
are again revived, not only in silver  
dishes, but in china ones.

It is said that if a lamp wick is soaked  
in vinegar 24 hours before being placed  
in the lamp a clearer flame will be in-  
sured.

## Women as Soldiers.

"I do not see," said a clever woman,  
"why the newspapers should feel called  
upon to poke fun at the new law in Col-  
orado which permits women to serve in  
the state militia. In time of battle  
woman is just as necessary as man.  
Just wearing a uniform and shooting a  
gun are not all that constitute a soldier.  
What about woman's place in the hos-  
pitals during time of war? Does it not  
require a brave heart and a strong nerve  
to wait on the wounded or dying? Is  
not a woman a soldier who can assist  
the surgeon as he amputates a limb or  
binds a fractured bone? Are not the Red  
Cross nurses soldiers? It seems to me  
that a woman will make just as good a  
soldier as a man and always find her  
place in time of war."

One feature of our  
shirt products worth  
knowing is their toughness  
in the wash boiler.  
Of course fit, style, and  
price help make 'em  
popular.  
None more so than  
our one fifty.
