PARKER OUTWITS DAVID

CAPTURES MEETING AND MAKES THE PRINCE PAY.

The Cowboy Led Cheering for the Prince After Corroborating Some of Latter's Statements.

Over the Fall from Lala in advance of the return of Prince David comes the story of how Sam Parker captured one of David's meetings and struck the Prince for drinks for the crowd. It was at the Mormon settlement last Monday night that the cowboy outwitted the Prince.

David and his followers had called a meeting and there was a big crowd in attendance. Parker had gone there before hand, not knowing of the impending gathering of the Unwashed, his purpose being to make a quiet little house to house canvass among the people, where he could kiss all the children flatter the women and jolly the men into thinking that much as they all like him he is more necessary to them at Washington than at home.

But they would have none of it and finally Parker found himself on the platform along with the rest. "Now ladies and gentlemen just to show that we are truly called the Great Unwashed," said the chairman, "we will now call on Mr. Samuel Parker the Republican candidate for Congress, to corroborate what Prince David has said about the conditions of affairs at Washington and how necessary it is to have a representative there who is a member of either the Democratic or Republican parties."

Wild cheers greeted this announcement and the Honorable Sam when he stepped forward to speak. He did corroborate what the Prince had said and in addition proved a revelation as a diplomat. He kept well within the bounds of reasonable corroboration and said that this was a Democratic meeting and he did not want to interfere with it. He would like all good Democrats in the place to rise and cheer for Prince David. About three lusty lunged individuals arose. "Oh come on," called Parker, "what's the matter with you. Everybody get up and cheer for David."

And so they did, for led by the stentorian voice of Parker the crowd went cheering like mad. It was a question who they were cheering—the Prince or the Cowboy. "By gracious boys" declared the chairman, "Parker has captured the meeting."

But if he had, the visitor did not prosecute his advantage for he soon retired and let the speakers be heard. After the meeting Parker and David started away together. Just outside the door was a soda water vendor. Here it was that Parker struck the Prince. "Say boys" called Parker "if this was a Republican meeting I would treat you all to soda-pop but as it's a Democratic gathering I guess I'll have to resign in favor of the Prince who is a Democrat," and with a chuckle and Sam passed the buck to David and the latter had to dig down into his jeans and produce a 10 spot to pay the damage.

"Oh that's all right soda tender" said Parker as the vendor handed \$4 change to the Prince "a candidate for Congress never takes change"—and David did it. Those on the inside say it cost the Prince about ten bottles to drown the laugh which Parker turned on him.

COMPANY B'S ELECTION.
Company B, N. G. H., elected officers last evening. First Lieutenant Wyant was elected Captain in place of Captain Cottrell who goes to Kahului. Second Lieutenant Riley was elected First Lieutenant, and J. B. Gorman, Second Lieutenant.

ANNUAL MEETINGS HELD

STOCKHOLDERS OF SUGAR COMPANIES IN SESSION.

Satisfactory Showing by the Years' Reports—Election of Officers for the Next Twelve Months.

Annual meetings of a number of sugar companies were held this morning at the various agencies here. The election of officers for the coming year and receiving reports on the business of the year just ended were most of the business. In general, the reports showed a good year and the showings made were satisfactory to stockholders.

The Waimanalo and Olowalu Companies met at the offices of W. G. Irwin & Company, their agents. Reports from the officers were very satisfactory. The elections of officers resulted in the choice of the following: Olowalu: W. G. Irwin, president; W. M. Giffard, vice-president; H. M. Whitney, Jr., secretary and treasurer; George J. Ross, auditor; directors, W. G. Irwin, W. L. Hopper, A. Hamberg, Waimanalo: W. G. Irwin, president; W. L. Hopper, vice president; W. M. Giffard, secretary; H. M. Whitney, Jr., secretary; George J. Ross, auditor; directors, W. G. Irwin, W. L. Hopper, W. M. Giffard and H. M. Whitney.

The Honouliuli Sugar Company's meeting was held at C. Brewer & Company's offices and resulted in re-election of all the old officers, as follows: Thomas May, president; G. R. Carter, vice-president; G. H. Robertson, treasurer; T. R. Robinson, auditor; directors, W. G. Brash, H. Waterhouse. The Onomea Company meeting, which was also held at C. Brewer's, was postponed, no quorum being present. The Honokaa meeting, at F. A. Schaefer & Company's offices was postponed till November 12.

Annual meetings of Koloa, Kipahulu and Lihue companies were also called for at Hackfeld & Company's this morning. There was no special business on the programme for any of these meetings.

The Pepeekeo Sugar Company met at the offices of Theo. H. Davies and company. The following officers were elected: A. Young, president; W. F. Allen, vice-president; F. M. Swany, treasurer; A. H. Baird, secretary; T. R. Keyworth, auditor.

WILL SUPPORT KAILI.
The Republicans of Kaula, it is said, have decided to support Rev. S. K. Kaili, Democratic and Citizens' candidate for the lower house of the legislature, in place of Robert Waiialeale. Rev. Kaili is pastor of a native church at Hanalei.

HUBBARD RETIRES AGAIN

THE S. N. CASTLE HAS A NEW MASTER.

The Old Captain's Long Service Between Here and San Francisco—Retired Before and Went to Business.

The barkentine S. N. Castle came in last night with a new master, Captain Hubbard having retired from the sea, again—finally. Captain B. O. Nelson, who was in the W. H. Dimond last time is now the master of the Castle.

Captain Hubbard's retirement was announced some months ago, but he wanted some more voyaging and returned to business, making two more trips in the barkentine which he has commanded ever since she was built. On arriving in San Francisco the last time he decided to give up finally and now, unless the desire for more of the sea makes him change his mind again he will spend his time in well earned rest.

Captain Hubbard has been coming to Honolulu for over thirty years and is one of the best known and most respected ship masters who have been constant callers at this port during the past half century. He began to come here in the old days when Honolulu's harbor and wharves were only things talked of as possible improvements and he has been sailing back and forth between here and San Francisco ever since. Everyone who has had anything to do with Honolulu shipping or water front business during many years past knows old Captain Hubbard. He is about 65 years old and is still strong and hearty.

The S. N. Castle, in which Captain Hubbard has made over a hundred trips between here and San Francisco, came down this time in 14 days. Captain Nelson reports a good passage.

THE STREETS TOO MUDDY

ARRESTS FOR WHEEL RIDING ON SIDEWALK.

Judge Wilcox Lets All the Offenders Go With Reprimands and Says Something About Streets.

The police took a tip from Judge Wilcox yesterday and arrested five men for riding bicycles on the sidewalks. One man was in court yesterday and the judge let him go with a reprimand, remarking that he had seen six men doing the same thing himself. Today these five were before the court accused of using their wheels on the sidewalks.

The five men were all allowed to go with reprimands, on the excuse that there was no street for them. It appeared that the streets where the arrests were made were almost impassable, and the judge said that if there was a law prohibiting taking wheels on the sidewalks the streets ought to be kept in condition so that wheels could be ridden on them.

J. Schofield was the first of the offenders. He said that he never rode on the sidewalk where there was a street, but on King street he had encountered a mud puddle and some lakes and so he steered for the walk and landed in jail.

Mak did not know about the law. "I shall not reprimand all the time," said the judge. "Tomorrow I may begin to fine."

George Uemura was on his way to school. He found that his wheel wasn't equal to going on the streets and a policeman saw him just after he had decided to take the sidewalk. A Lubeck, a small boy, said that there was a very good reason for riding on the sidewalk and that was because it was so muddy and he had seen a policeman see him just after he had decided to take the sidewalk.

In allowing the offenders to go with reprimands, the judge suggested that it might be a good idea to leave bicycles at home when the streets were in bad condition, also that the reprimand business was about over.

"It's a great comfort to know from the Superintendent of Public Works," said the judge yesterday, "that the streets are in better condition now than they have ever been before. When we trudge through the mud and water, it is very comfortable to know that we have the one comfort at least. Meanwhile perhaps some of these bicycle offenders had better sell their wheels and buy boats and barges."

QUEEN IS LOSING MONEY

WANTS TO BE PROTECTED BY A LARGER BOND.

Says Wong Kwai is Holding Onto Land By an Injunction. Which She Could Lease with Profit.

Lillokalanani has asked that the bond of Wong Kwai be increased to insure her against loss from the operation of the present injunction which she secured against her in his suit to compel specific performance. According to the claims of Wong Kwai an agent of the Queen entered into a contract with him to have the lease to certain lands in the Lualaba district. The Queen denied the authority of the agent to make any such contract and suit was instituted to compel her to lease the land under the terms to which, as the plaintiff alleged, the agent had agreed.

In her petition this morning the Queen filed an affidavit stating that she had received an offer of \$5,000 yearly rental for the lands in dispute and but for the injunction now against her she could enjoy this income. Notice was given the plaintiff's attorney that a motion filed in the court asking that the bond of the Queen be increased in order to secure the Queen from any possible loss.

SIX MONTHS ON THE REEF

POLICE WIN IN A PROCURER CASE.

How Yokiyama Enticed Two Countrywomen from a Plantation on Maui and Landed Them in Palama.

The police won their first victory this morning in the campaign waged for some time against the Japanese procurer business. Yokiyama was found guilty by Judge Wilcox and sentenced to six months' hard labor for enticing two countrywomen to live at his resort in Palama.

During the past few months there have been many efforts to stop this sort of business among the Japs and Theodore Richards took the lead in a movement which resulted in several meetings of parties interested and many arrests, but the cases fell through for lack of direct evidence. In today's case two of the victims of the defendant took the stand and told of how he brought them to Honolulu and secured all their earnings.

The women were brought to Hawaii as contract laborers and had places on a Maui plantation. The testimony showed that Yokiyama visited the plantation once last spring and engaged the women to come to Honolulu. He told them that women did not do any cooking in this country.

Yokiyama next got the women into his resort, and they testified that he made them give him all they earned. He treated them so badly that they left him, and thus the police secured their evidence.

Yokiyama is a small, thin Jap who looks like a man he is credited with, assuming. He had no defense to make and after the prosecution's evidence was all in his attorney, F. M. Brooks, moved a dismissal on the ground of lack of evidence. Judge Wilcox denied the motion and then sentenced Yokiyama to six months on the reef.

The case will be appealed on legal grounds. It is a test case and if the prosecution wins there will be lively times ahead for some others of the Yokiyama kind. There are many of them in Lihue.

CHICAGO GAS WAR SETTLED.
NEW YORK, Oct. 17.—A Wall street news bureau says: The settlement of the Chicago gas war was effected at 3 o'clock this morning at a conference at the Holland House. The People's Gas Company will withdraw from the territory occupied by the Ogdon Gas Company and the Municipal Gas Company, which has been the agent of the People's Gas Company, obtained its gas from the latter, has raised the price of gas for 1000 feet to one dollar. This means the retirement of the Municipal Gas Company from the scene of action and leaves the field to the Ogdon and the People's Gas Companies alone.

THE HUMANE EDUCATOR.
The Humane Educator for November was issued today. The leading article is an account of the riot of 1852 by "Kinai," who shared in the dangers of it with her father and other members of the family. It is an extremely interesting article, and contains a number of articles on the natural history of birds and animals. A number of articles written especially for the Educator, and considerable well selected miscellany, together with the usual reports, and notes on the work in many countries, goes to make up an exceedingly valuable number of the magazine.

DEMOCRATS RIDE TO PALI

CAVALCADE TO ESCORT PRINCE DAVID HOME.

Meeting to be Held on Route—Independents Plan Rival Torch Light Parade to Republicans.

The Democrats have planned two big meetings for tonight and tomorrow afternoon, at which Prince David will be the central figure. Tonight a cavalcade of his followers will ride to the top of the Pali and receive the Prince from his trip on the other side of the island. The younger element in the party has been at work for the last few days working up enthusiasm for the trip and the result is that a big crowd will make the trip. Paul Isenberg will be in command.

Mr. Isenberg will ride at the head of the column but it will not be upon a horse. Like the heroic General Shafter on the bloody field of Santiago de Cuba, Mr. Isenberg will trust his anatomy to a buckboard and a couple of stout dray horses. The crowd will carry torches and in addition to those on horseback many will ride in carriages. David is expected to reach the top of the Pali at 8 o'clock so the start will be made rather early from here, by 6 o'clock.

The party will stop after reaching town long enough to hold a short meeting at Maemae and from there the crowd will go to Prince David's residence where an informal reception and political gathering will be held.

Tomorrow afternoon there will be another big celebration on the Navy wharf. The steamer Waialeale has been chartered to take David and a big party on a final tour to Maui and Molokai. At 3 p. m. David, J. O. Carter and other members of the party will address the crowd.

Last night the Democrats held a large meeting at Paul Isenberg's place. Mr. Isenberg was chairman. He spoke briefly. The following spoke: S. W. Spencer, John E. Bush, Kenai, A. Fernandez, J. Luahiwa, S. Kalelopu, L. Kaku, Charles J. Creighton and S. Pihimana.

The Republicans will hold their big torchlight procession tomorrow night but they will have a rival in the field. The Independents intend to run in opposition to them and they announce a torchlight procession too, under the leadership of Robert Boyd. The Independent column will start from John Emmelhut's store shortly before 7 o'clock march to Alakea street to Emma Square to Vineyard street to Fort. Hotel, to Richards to Beretania to Emma and then to Emma square where a rally will be held. Several meetings will be held today and this evening by the Independents, one at Waialeale and the other at Kanoihili church at 7 p. m.

PACIFIC HEIGHTS TROLLEY.
The electric trolley line up Pacific Heights will some be ready for operation. Power was turned on to the dynamo last night, and the incandescent lights attached to the trolley poles along the whole length of the line, two miles, were lit up. The effect as seen from the lower part of the town was very striking. The motor trucks for the cars have just arrived and will soon be in place and then the line will commence operations.

THE FALL ART EXHIBIT.
The Kihohama Art League will hold the fall exhibit at the league rooms in the Model block beginning Monday evening November 28. Work will be received Monday November 12th from 9 a. m. to 5 p. m. Varnish day is on Saturday the 24th. The full view reception occurs on the following Monday and the exhibit will be open to the public from then until Saturday, December 22.

AN OPPORTUNE POLICY.
Sam Johannavitz, who was killed by the electric apparatus in the New England bakery yesterday morning, had just taken out an accident policy with C. J. Hutchins of the Pacific Mutual. The policy was taken out two weeks ago for \$2000, which sum will have to be paid to the estate of the deceased.

DIRECTORS ATTACKED.
TRENTON, N. J., October 17.—In the case of Robert J. Trimble against the American Sugar Refining Company in the Court of Chancery before Vice-Chancellor Pitney, Trimble stated that he is a stockholder in the American Sugar Refining Company and he charges that the funds of the company are being dissipated in a fight being made against the Arabuckies, who are in the coffee business.

The Vice-Chancellor has reserved his decision.

Testifies to the Good Qualities of Chamberlain's Cough Remedy.
On the 10th of December, 1897, Rev. S. A. Donahoe, pastor M. E. Church, South Pl. Pleasant, W. Va., contracted a severe cold which was attended from the beginning by violent coughing. He says: "After resorting to a number of so-called 'specifics,' usually kept in the house, to no purpose, I purchased a bottle of Chamberlain's Cough Remedy, which acted like a charm. I most cheerfully recommend it to the public." For sale by all dealers. Benson Smith & Company, general agents for Hawaiian Islands.

MISTAKES MAY BE RIGHTED

VOTING LISTS MAY BE PROPERLY CORRECTED.

Board of Registrars Will Sit All Day Election Day to See that Every Voter Gets His Rights.

The voter whose name gets on the wrong precinct list, need not lose his vote. The mistake can be corrected. The Board of Registrars has power to make all needful corrections to secure to every one entitled to it the elective franchise.

These corrections can be made right up to the time the polls close on election day.

Lorain Andrews, chairman of the Board of Registrars said today: "The board has been sitting six hours every day getting up the official lists of voters and doing other work connected with the election. We expect to finish this tomorrow. After that we do not expect to sit, unless business calls us together, until election day. Then we shall be in session all day.

"If a voter finds his name on the wrong list all he has to do is to notify the clerk where he resides. A meeting will then be called at once and the error corrected. The board will certify to the inspectors that any particular registered voter's name is entitled to be on the list of registered voters for the precinct where he resides. On this certificate the inspectors of election will put the name on the list and the voters can vote. This can be done at any time put the name on the list and the voter need lose his vote simply through a clerical error or mistake in transcribing. The Board has full power to make all needful corrections."

PLUMBING TO START SOON

SEWER SYSTEM PRACTICALLY COMPLETED.

Connections Must be Begun Within a Few Days—Contractors Have Practically Finished their Work.

Vincent and Belser the contractors have about completed the construction of the sewer system and the plan will be about ready to turn over to the government tomorrow. A few small repairs and trifling work remains to be finished also. It will be some time before the outfall will have been completed.

Mr. E. Edwards the engineer in charge of the system says that the work is about finished but it will be some time before the system can be operated. Superintendent of Public Works McCandless notified the board of health about a month ago that the work of connecting the sewers could probably be begun by November 1st. As soon as Mr. Edwards notifies the board that this can be started the housekeepers will have to commence to install the plumbing which will occupy several months.

COURT NOTES.
No business of importance was transacted in the Circuit court this morning. United States Judge Estee adjourned court this morning for one week.

It is expected that fewer opinions will be decided from the Supreme court within the course of the next month or so as that body evidently wanted to clear the docket as far as possible before the departure of Associate Justice Galbraith for the Mainland yesterday.

Samuel E. Woolly, administrator of the estate of the late Makamae has filed an inventory with the circuit court, stating that the estate of deceased amounts to \$13,405.

STORM DRAIN PIPE.
 Kukul District to be Protected from Future Storms.

Profiting by the experience of several weeks ago Road Supervisor Campbell intends to guard, as far as possible, against any damage from floods and heavy rain storms. The government is now having constructed on Kukul street between River and Nuuanu streets, a 400 foot cement storm drain pipe. This pipe taps the district drained by Beretania, Fort, Kukul and Vineyard streets the district which suffers so severely from the recent heavy storm. The street department is busy repairing the damage done to the roads and streets by the flood. In many of the outside places nothing has been done to remedy the damage. Account of more pressing work about the holes are getting in worse condition. The center pier of the Killhi bridge is now completed.

CLAM THAT BEATS ALL RECORDS.
 Professor Bumpus of the University of Henry Church. Its shell measured about 6 by 10 inches, and it weighed 18 ounces, 3 more than the Northup clam.

Shortly after this monster bivalve had been obtained, J. Henry Smith, another diver of clams, came upon the beach and after having the spot indicated where Grandison had dug, remarked, "I am going to try and get one still bigger," and sticking his hoe in the sand about two feet from the spot pointed out by Grandison, he brought to the surface the largest clam ever known to have been dug out in these waters, the bivalve weighing 20 1/2 ounces after being out of the water for some hours. It measured 6 1/2 inches in width, and nearly 11 inches in length. It is 3 1/2 ounces heavier than the Grandison find, and 5 ounces more weighty than the clam dug by Mr. Northup, while its shell is over an inch greater in dimensions.—Providence (R. I.) Journal.

Be a genuine republican. Be a straight ticket republican.

A GOOD THING.
 There's one good thing when they feel dry. That business men cannot pass by. For far and wide it's fame you hear. They are to drink of "Rain" on drought or in bottle at Criterion.

A vote for other than the straight republican ticket is a vote lost.

Feel Your Pulse.

Watch your pulse for about five minutes. Count the beats while sitting and then while standing. A healthy pulse beats from sixty to seventy-five times per minute, a little faster while standing than while sitting or lying down. If your pulse beats too fast or too slow, if it is weak or irregular and sometimes skips a beat, your heart is weak or diseased, and you are in danger of heart failure at any moment. Pains about the heart, palpitation, smothering or fainting spells, shortness of breath, inability to sleep on left side, are further evidence of a dangerous condition which demands immediate attention. You have it in your power to overcome heart weakness if you will profit by the experience of others. Mr. S. T. Orlatt, of Arlington, Iowa, says: "I had heart failure and would have spells when I would gasp for breath and become totally blind for the time, often falling unconscious wherever I happened to be standing. It took ten or twelve bottles of Dr. Miles' Heart Cure to restore my heart to a healthy and normal condition."

LIVES OF THE CANDIDATES

DEMOCRATS HAVE A COWBOY CANDIDATE.

He is J. Hapai Nui Who Actually Hurled the Lasso and Was a Bullock Puncher—His Life.

J. Hapai Nui, Democratic candidate for the House of Representatives from Maui was born at Makawao.

When ten years of age he began attending a school at Makawao which was under the charge of C. S. Andrews. Later he went to the Lualaba boarding school at Lahaina, and then came to the Bishop's school at Honolulu, which he attended three years. Later he went to the Haleakala school.

Upon the completion of his school work, he became a cowboy at Makawao under his father, and a little later drove an ox cart at Haiku when William Goodale was the manager there. He then worked for a year as engineer at Paliuli under R. U. Hind. After that he took a contract to plow and harrow one land at Haiku. Then he worked for ten months hauling cane at Hamakua plantation, and then came to Honolulu, where he was a hack driver for two months. Following that he worked for three years in the post office at Honolulu, and left that position in 1894, on his refusal to take the oath.

Leaving the postal service he returned to his home in Maui where he established himself as a taro planter and rancher, continuing this until August 25, 1898, when he came to Honolulu to become an assistant to W. H. Cummings, road supervisor. Latterly he has resumed his occupation of taro planter and rancher at Makawao.

He is married, but has no children. He helped to organize the Democratic party on Maui and is one of the party's candidates for the legislature.

SOME POINTED QUESTIONS.

Brought Out by Democratic Speeches at Kakaako.

EDITOR STAR: I attended the meeting of the Democrats at Kakaako on October 29, and I must say that I never in all my travels heard more intentional mis-statements of facts.

First of all I asked Mr. Macfarlane a question that he would not answer. I asked him if it was a fact as he claimed that the Queen would have been restored were it not for a Republican Congress and the Republican press on the main land? I asked Mr. McClanahan one question which he could or would not answer to the point, "If the Democrats are the essence of goodness and justice and have nothing to hide from the negro, why do the negro disfranchisement bills by the Democrats in the South?" He says because they can't read or write; Now I want to know why this does not apply to the illiterate whites as well, if this is the true cause of the negro's disfranchisement?

If the negro is illiterate who is to blame? Was or was it not a crime to teach the negroes to read and write before the war? Mr. McClanahan claims the Hawaiian race to be the most literate race on the earth, now will he answer me who was that made it possible for the Hawaiians to be in the first rank of the literate races. Was it not the very element that he throws dirt at and calls the enemy of the Hawaiian? Are the negroes the only ex-slaves of the human race? What race was sold in slavery in the market place at Rome? Does J. E. Bush or any full blooded Hawaiian think for a minute that he would be received in public in the Democratic states of the South any quicker than other dark skinned peoples are? How was the Hawaiian bid received in the Democratic Southern States? Answer John Bush if you know. Did Mr. Bryan condemn anything the Democrats have done or are doing to the negro, "if not why not?" If elected would Mr. Bryan dare to give the Filipinos an entrance into the family of nations as a free and independent people?

SOILS COMPARED.

The soil of the greater portion of the grain region of Russia and Siberia is well known in that country as the "Chernozem" or black earth. It is a broad belt of prairie, 600 to 700 miles in average width, beginning in Hungary and extending northeastward to the Ural mountains, and then eastward into Siberia to unknown boundaries. On the north and the west are the gray forest lands, and on the south and west are salt and alkaline districts and sandy wastes, and finally the Caucasus and the Ural mountains. By both chemical and mechanical analysis the soil is shown to be remarkably similar to that of our own prairies, also commonly known by a similar term of black loam. The depth is, on an average, probably a little greater than that of our prairie soil. From a chemical standpoint the soil of the two regions are similar in characterized (1) by an exceptionally large amount of thoroughly humified organic matter, (2) by the presence of an unusual proportion of phosphoric acid and (3) by a great amount, comparatively, of lime, potash and other alkalis. These soils are therefore alkaline, while many others, specially of forest regions, are acid. It is well known that the substances thus more abundant in these soils than in others, are just those usually needed by the wheat plant.

A NECESSARY EVIL.

A subject which is always being lost sight of, but which is really a very important one and growing in importance as we become more metropolitan is that of pawning. As things are here the matter of pawning is in the most crude and disgraceful condition. Some ten years or so ago the effort was made to put the pawning business upon some kind of basis, but the effort failed in an abortive law which is on the statute book and is as dead as many others which is alongside of it.

It is all very well for people to object to pawn broking, but it is one of the necessary evils of any society. The necessity to borrow money under certain circumstances is indisputable. Starting with the man who is exploiting a plantation running into millions, he has to borrow here, there and everywhere. He gets his advances and starts his enterprise. But run down from this position to the poor devil who has only a pair of boots between himself and starvation and the average man cannot but see that the bootless man it just as much entitled to his chance as the man who is exploiting the sugar plantation. Each is striving to fight the wolf after all.

In this community a man, who is hard up, can, if he has land schemes and so forth, which appeals to the larger investor, get hold of the capitalist and get backing, usually to the advantage of the capitalist on the terms of anywhere from ten to an unlimited amount of percentage. But such a man is dealing with the future, and it is to a certain extent right that he should pay a price for his possible chances in the opportunity of time.

This is a matter which can be left to right itself, but what cannot be left to right itself is the continuous drain upon the property stricken, and hard up, which is being carried on in this city. There must be and there should be a pawn broking law which would come with the strongest power on those who violate its orders.

It may be news to a large number of the snug portion of the community, who draw their dividends and spend a happy and esthetic life, but if ever they came down in the world, as people have come down in the world in Paris, London, New York, San Francisco and other cities, they would find that in Honolulu it is impossible to borrow money in small amounts without ruinous interest.

The rate of interest charged by the class of man who is the pawn broker, perhaps a disreputable but necessary profession, in most communities is regulated by law. On the smallest loans, the worst security, he is allowed fifteen per cent. But what does the Honolulu pawn broker, an unlicensed man, get hold of. He calmly talks of ten per cent—a month. These leeches have been at work upon hundreds and hundreds of our young men. Is it any wonder that some of them go astray?

The time has come when some work has to be done to do away with the present leeches, and put in their places honest pawn brokers. There is no one, no matter how great and good he may be, but finds himself in difficulties some time. These difficulties may be financial. The state should, if the party puts up a proper guarantee, give him the money he needs. This idea dominates the Latin countries, the Anglo-Saxon countries regulate the pawn shop. But whatever it may be, it is a necessity and when you don't have it, you have a system of highway robbery which it must be the duty of the next legislature to hold up.

SOME SNAGS.

As the time for election draws nearer and nearer, the political air becomes denser and thunders and lightnings are being prepared for the last grand struggle. By next Tuesday there will be a considerable quantity of heat developed and then it will go off into the upper air, radiate away, and men will settle down to business and cease bothering about politics. That is the advantage of the American system. Once the election is over, no matter whether it is Republicans or Democrats that get the lead, the country settles down to make the best of it, and is prepared to wait four years for a change. If things go wrong, in four years they can be mended, so why bother about them till the time comes. This is the advantage over a monarchy where you have a fixed policy dependent, not on the will of the people, but on the duration of life of the monarch. The only exception in monarchies being Great Britain, which, after all, is a Republic under the name of a monarchy.

In the coming election day there are some snags which may cause a little trouble. The question of precincts and districts is likely to occasion some heated discussion unless it is straightened out before hand. The discovery has been made that those in charge of the registering have made considerable er-

rors in this direction, and that voters have been erroneously listed as to their districts and precincts. Of course there is time to remedy this difficulty and the party workers should see to it that each of their voters is looked up and have his record corrected. This error is entirely due to those who had charge of the registering, and not due to any lack of care of those registering, for the question about precinct and district was not asked them.

Another source of difficulty is that pointed out in The Star some time ago. In one or two precincts it is physically impossible to cast all the votes during the prescribed hours. With the number of ballots to be marked, it is not possible to get through the mechanical work of putting the crosses after the names in any thing like a minute. A large number of men will take from two to three minutes. There are only 540 minutes in which the law allows the polls to be open, and it is very plain that some voter would thus be shut out. Secretary Cooper, however, has ruled that the polls may be kept open after 5 o'clock, if voters are in line and waiting to vote. This is a solution, but whether it will stand the test of law is quite another thing. A defeated candidate might challenge such a procedure and nullify the election. If you can keep the polls open against the express statement of the law, you might just as well increase the number of voting desks. There is room for much discussion here.

GENERAL BULLER.

General Buller has made a defence of his command during the early days of the Boer war. He cannot, however, get over the criticism of one of the military attaches from a foreign government, who rode down to see the scene of Buller's first attempt to cross the Tugela. "Was there no way round?" said he. Again Buller's contention that unless he had attacked the Boers would have overrun Natal is not quite correct. He could have entrenched his forces over many miles of country, and have kept them from advancing. When we think how Mafeking and Kimberley held out against overwhelming force, Buller could certainly have acted on the defensive south of the Tugela with excellent success and no loss to speak of. Conan Doyle, in the last McClures points out the grave mistakes of the British officers, and the reasons for them.

The report which is given under reserve by one of the London papers, relative to the refusal of Roberts to take the position of commander-in-chief because he could not have a free hand, and the rumored appointment of Buller to that position will have to be taken with a large grain of salt. That Buller is persona grata in aristocratic circles, and Roberts is not, may be true. But the mistakes made in the Boer war are thoroughly appreciated in Great Britain, and Lord Roberts, who remedied those mistakes and pulled the nation out of a hole, is the idol of the nation and of the army, except its hide bound martinet generals.

Army reform is what the British nation will insist upon, and any attempt to prevent it would create a tremendous reaction which would lose the government supporters both in and out of parliament. Roberts is too popular a man not to be put at the head of the army. Buller is two unsuccessful a man to place over Lord Roberts' head, especially as Roberts had to Censure Buller shortly after his arrival at Bloemfontein.

The lighting up of Pacific Heights by electricity afforded a brilliant spectacle from the lower part of the town. Mr. Desky is certainly a progressive man and deserves all the success that comes to him. Pacific Heights will, in time, be a very popular resort.

The Independent orators have gone fairly wild. A greater mass of abuse, balderdash, and untruth could not be got together anywhere else. Jim Quinn would beat Kearny and the sand lot speakers at their own game. It will be over now and the names of the orators will be M-u-d.

The Hospital for Incurables was established by the strenuous efforts of private individuals and by no means through the "strenuous efforts of the Board of Health" as stated in a contemporary. The Board of Health has never asked for funds for such a purpose in the whole course of its history, and though the need of such an institution has been set before it, in season and out of season, it never made one step towards securing it.

The question of decency in the examination of children is one between the doctors and the parents. In the long run the parents are liable to be the winners. To display all blemishes on the skin before the eyes of a room full of school boys is what every parent would resent bitterly. Doctors are autocratic and should be taught a lesson or two. After all, as these columns, and numberless publications have time and again shown, the physician is very fallible.

The spell-binders of the various parties were out in full force last night. McCants Stewart roasted up the leaders of the Democratic party in great shape. He made a strong point when he told his audience that if McClanahan and John E. Bush were to go down South, the former could join the Democratic party, but the latter could not on account of his trace of color. Truly this is an eminently pleasing party for a native Hawaiian or part-Hawaiian to belong to. The Republican party, no matter in what part of the States, opens its arms to all, and treats all alike. It believes in true equality.

OPEN LETTER TO E. P. DOLE

QUESTION OF ELIGIBILITY IS RAISED.

The Attorney-General's Correspondent Advises that Official to Hew to the Line—What He Says.

The Star has received the following open letter to Attorney-General E. P. Dole with the request that it be published.

The Article 4, Section 80 of the Territorial act is presumably the following: "All officers appointed under the provisions of this section shall be citizens of the Territory of Hawaii."

Hana, October 18, 1900.

Hon. E. P. Dole, Attorney-General.
Dear Sir: Some men are holding government positions on account of their having each a commission (this means the whites) throughout the Territory. The question is this, is it lawful for them to hold positions in the Territory according to Article 4, Section 80 of the Territorial Law?

If those commissioned are in any way against it, have them removed immediately from their respective positions, regardless of their being faithful or politically acceptable. "Equality must prevail" is the Republican motto. Please answer to me or have it published so that the public can see your opinion about equal rights according to law.

Yours respectfully,
WM. R. KAHOLOKAHIKI

Be a genuine republican. Be a straight ticket republican.

MUDDY SCHOOL GROUNDS.

Many complaints are made about the conditions existing in the grounds around the primary school above the High School on Emma street. There are large pools of water, and mud is deep around the entrance to the building. After the recent heavy rains the approach to the school was impassable for small children without stepping in deep mud and water. The grounds are badly in need of some filling in, and prevent in the locality are making big kicks.

Vote first for Parker, then for all others on the Republican ticket.

HANRAHAN WASN'T LICKED

JOY IN MANY PLACES OVER HIS DEPARTURE.

Was Promised Many Drubbings if Caught Without a Star But He Departed in Peace.

Officer Hanrahan has gone! The officer stood on the deck of the steamship Queen yesterday and waved a farewell to Honolulu while Berger played Auld Lang Syne—though there was many a man in the crowd that saw him who had excellent reason for wishing that the acquaintance should be at once "forgotten." For Hanrahan held the record for arrests. There was great howl about his ways of doing and he was alleged to make many unjust arrests, but those who watched the course of events noted that when his cases came into court the evidence was generally there to bring convictions. As the steamer put off, "He made good in the police court."

The big policeman whose advent and rapid rise in the Honolulu police department created so much noise goes well recommended by High Sheriff Brown and may become one of San Francisco's finest. A natural born policeman and taker of great joy in gathering in and convicting sinners.

It is whispered that there were various individuals of shady repute who had promised to "lick" Hanrahan before he went. The officer's strictness had made an scores of enemies and the brave ones among them only wanted a chance when Hanrahan had no badge.

"If it wasn't for the fact that he wears a badge," was the refrain, "I should have wiped up the street with him long ago." "Just let me catch Hanrahan when he hasn't the protection of an officer's star," was another chorus, "and you'll see the warmest time yet."

It was half past three when Hanrahan came to the Pacific Mail wharf. Deputy Sheriff Chillingworth was with him, having come to say good-bye. There is no doubt that the deputy is an excellent escort for a man who may meet with pilikia. Chillingworth went on board with "Jim" and came ashore after saying good-bye.

As the lady, the portly policeman meandered down the gangway alone. This was the chance, and people who had heard of meetings at which lots were drawn to see who should lick Hanrahan held their breath.

But there was no trouble. Hanrahan went back unmolested and he sailed away with his witness-stand smile. If they could see him now in the midst of the rolling deep possibly his worst enemies might drop just one small tear of generous sympathy.

IN THE COURTS. Suit has been begun in the Circuit court by the trustees of the estate of the late Herman A. Widemann against Emilie Macfarlane et al. for the purpose of distributing the property getting a legal construction of the will and discharging the trustee. The principal question to be determined is the matter of the bestowal of the legacies left by the late Judge Widemann to his various heirs.

The Supreme Court has ordered the "Koolau" cases placed on the calendar. These are the cases which Circuit Judge Humphreys arbitrarily threw out of court at the beginning of the August term, on account of the failure of the attorneys to appear.

Circuit Judge Humphreys issued an order yesterday setting the hearing of the charge of Frank Archer against John Pae guardian of Kealohakalani a minor, for Friday.

Kinney, Ballou and McClanahan attorneys for the Wilder Steamship Company have given notice that the William Carson case recently decided adversely to the Wilder Company, will be appealed to the Ninth Circuit Court of Appeals in San Francisco on a question of law and fact. The case grew out of the Wilder Company's steamship Claudine running down and sinking the barkentine Carson off Waikiki.

A GOOD RESULT. "Certainly one good result," says the Western Electrician, "grows out of the occupation of the Philippine islands by the American—the extension of electrical means of communication. When Spain turned the islands over to the United States there were about 1,800 miles of telegraph lines in the archipelago, and it is estimated that within a year the total length of wire will be fully 5,000 miles. New lines are building in Luzon and on the islands in the southern part of the archipelago. The latest reports from Manila show that there are being handled by the signal corps in Luzon alone, an average of 4,500 messages daily. It is now necessary to occupy the work correspondingly increases."

A vote for other than the straight republican ticket is a vote lost.

Vote Straight Republican Ticket.

JAMES REED INJURED.
Mr. James Reed, struck his leg against a cake of ice in such a manner as to bruise it severely. It became very much swollen and pained him so badly that he could not walk without the aid of crutches. He was treated by physicians, also used several kinds of liniment and two and a half gallons of whiskey in bathing it, but nothing gave any relief until he began using Chamberlain's Pain Balm. This brought almost a complete cure in a week's time and he believes that had he not used this remedy his leg would have had to be amputated. Mr. Reed is one of the leading merchants of Clay Court House, Va. Pain Balm is unequalled for sprains, bruises and rheumatism. THE FIRE CASES DECIDED

SUPREME COURT SETTLES THREE SUITS.

Yee Wo Chan Company Wins One Case and Loses the Second—Insurance People Win.

The Supreme Court handed down three decisions yesterday in the Chinatown fire insurance suits. One of the decisions sustained the rulings of the Circuit court which awarded the Yee Wo Chan Company damages against the Transatlantic Fire Insurance Company. The other appeals in the case of the Hawaiian Land Company against the Lion Insurance Company and the Yee Wo Chan Company were decided in favor of the defendants.

These cases arose out of the burning of Chinatown on January 20th last. After the Board of Health directed that a portion of Chinatown be destroyed by fire in order to obliterate the plague, the portion named was fired on the 20th. The stores of the plaintiffs were several blocks away from the alleged infected district but the fire got beyond control of the firemen and soon spread to the rest of Chinatown and destroyed the stores of plaintiffs. There was only a usual breeze blowing at the time and no other cause intervened between the firing of the infected buildings by order of the board and the burning of plaintiffs' property.

In a case against the Transatlantic Fire Insurance Company the plaintiffs refused to pay the policy, amounting to \$5,000 on the ground that in its policy it qualified payment for losses in cases of civil commotion. The Supreme Court decided in Honolulu at the time of the fire. The court holds as follows:

"That phrase 'civil commotion' is no doubt of broad meaning, but it cannot be stretched to cover the condition prevailing in this city during the period preceding the fire in question. A civil commotion requires the wild and irregular action of many persons assembled together. It is true that it is the business of the courts and of the community was more or less interrupted, but that is not sufficient to make a civil commotion. There was nothing of a wild, tumultuous, violent, turbulent or seditious nature which the phrase is generally understood to imply and which it was intended to imply in this policy as shown by the words with which it is associated. The interruption to business was orderly, deliberate and for peaceful and laudable purposes.

The plague itself was not a civil commotion. There was, it is true, considerable excitement after the first departure of the Board of Health for several thousand people had to leave their homes in haste to be safely conducted elsewhere and not allowed to scatter in the uninfected portions of the city, but if there was a civil commotion then it did not cause the fire; the fire caused it."

An entirely different condition of affairs presented itself in the other cases and the defense proved sufficient to save the companies the amount of the policies. In these policies there was a clause which exempted the companies from liability for loss caused directly or indirectly by invasion, insurrection, riot, civil war or commotion, or military or usurped power, or by order of any civil authority.

After analyzing the language of the policy the conclusion arrived at is that the words "directly or indirectly" apply to the expression "by order of the civil authority."

Much space is devoted to the question whether the order of the Board was the cause of the loss from a legal standpoint or whether the plague was the cause. A long line of decisions is quoted on this score.

"Where loss by fire," the opinion says, "is insured against and loss caused directly or indirectly by the order of any civil authority is excepted, the order and not the fire should be regarded as the cause within the meaning of the contract. But since loss by plague is neither insured against nor excepted, the plague cannot be regarded as the cause of the loss of property destroyed by fire ordered by civil authority, though in consequence of the plague. We may add also that here as in the Virginia case (mentioned in the opinion) there was not the same pressing necessity for the destruction of the property either in point of time or as to the method of destroying it as there was in the case of the Insurance Company against Boon (cited above). Now was there the same recognized duty to destroy it at all. In cases of that kind there was a well-recognized military necessity and duty to destroy property of that kind under such circumstances, so that in making the contract such losses could fairly be considered as intended to come within the scope of the exception. But there is no well-known necessity or duty or practice of burning buildings in case of plague or other infectious diseases. On the whole we are of the opinion that within the meaning of these policies the loss should be regarded as caused by the order of the Board of Health and not by the bubonic plague. Whether the Board of Health was justified in issuing the order is not before us."

Chief Justice Frear wrote the opinions in the case of the Insurance Company against Justice Galbraith and Perry. The attorneys for the Yee Wo Chan were Paul Neumann and W. A. Whiting. L. A. Thurston and Robertson & Wilder were for the Magdeburg and Transatlantic Companies. J. T. De Bolt for the Hawaiian Company and Clay Court House W. Va. Thurston and Robertson & Wilder for the Lion Insurance Company.

CUTICURA

REMEDIES

THE SET

Consisting of CUTICURA SOAP, to cleanse the skin, CUTICURA Ointment, to heal the skin, and CUTICURA RESOLVENT, to cool the blood, is often sufficient to cure the most torturing, disfiguring skin, scalp, and blood humours, rashes, itchings, and irritations, with loss of hair, when the best physicians, and all other remedies fail.

Millions of Women Use Cuticura Soap

Exclusively for preserving, purifying, and beautifying the skin, for cleansing the scalp of crusts, scales, and dandruff, and the stopping of falling hair, for softening, whitening, and soothing red, rough, and sore hands, in the form of baths for annoying irritations, inflammations, and chafings, or too free or offensive perspiration, in the form of washes for ulcerative weaknesses, and for many sanative antiseptic purposes which readily suggest themselves to women, and especially mothers, and for all the purposes of the toilet, bath, and nursery. No amount of persuasion can induce those who have once used it to use any other, especially for preserving and purifying the skin, scalp, and hair of infants and children. CUTICURA SOAP combines delicate emollient properties derived from CUTICURA, the great skin cure, with the purest of cleansing ingredients and the most refreshing of flower odours. No other medicated soap ever compounded is to be compared with it for preserving, purifying, and beautifying the skin, scalp, hair, and hands. No other foreign or domestic toilet soap, however expensive, is to be compared with it for all the purposes of the toilet, bath and nursery. Thus it combines in ONE SOAP at ONE PRICE, the BEST skin and complexion soap, the BEST toilet and BEST baby soap in the world. Sold throughout the world. "All about the Skin," post free of Aust. Depot: R. TOWNS & CO., Sydney, N. S. W. So. African Depot: LENOX LTD., Cape Town. POTTER DRUG AND CHEM. CO., Sole Props., Boston, U. S. A.

LONGEVITY IN THE TROPICS.

They Are Good for the Abstemious of the Race. In striking contrast to those who maintain that northern races cannot live in tropical countries, Dr. Below, who has practiced medicine for years in Guatemala and Mexico, counsels Europeans who wish for a long life to settle in the tropics. The stories of longevity in those regions contributed by him to the Tagliche Rundschau, go to show that the sun is the best of all doctors. "Northerners go toward the south," says the Humanitarian, summarizing Dr. Below's contributions to the German magazine, "for more light and more warmth—that is to say, for more sunshine. They will find what they want in the tropics, though with two serious drawbacks; one is malaria, the other is alcoholism. He contends, however, that "the first of these evils is only dangerous to those who play with the second." The man who wishes to live long in the tropics ought to be an abstainer from alcohol. The number of tropical nonagenarians is, the doctor further points out, surprising, even after a few years have been deducted from some of the old men and women, who take a pride in exaggerating their age. Out of the 1,390,000 inhabitants in Guatemala, says he, more than a fifth have attained to the age of between forty and one hundred years. Those who are elderly are invariably great drinkers. Men and women who have passed their seventieth year are often remarkable for their mental and bodily vigor. He mentions an old gentleman of ninety-eight who has lately married a fifth time, and is rejoicing in the birth of a son.

A vote for other than the straight republican ticket is a vote lost. Continue prosperity by voting the straight Republican ticket.
