

THE PACIFIC Commercial Advertiser.

THREE DAYS LATER!

ARRIVAL OF THE BARK "SPEEDWELL"

The Speedwell, Com. Paty, arrived on Monday afternoon, 16 days from San Francisco, having sailed from there on the 23d August. She brings the New York mail of July 21st—the same dates as were received by the Flying Eagle, on the 1st inst.

Telegraphic dates from Washington are to August 21st, and from England to August 19.

Below we give the most important items by this arrival:

From Virginia. From McClellan.—The Tribune's letter of the 16th says: Harrison's Landing was evacuated without the loss of a single man, and all agree that the whole affair was admirably executed.

On Thursday night fifty sail vessels left the different wharves, laden with stores. All that remained before the final departure of the land forces acted as pickets, and a strong rear guard of infantry and artillery was placed to protect the baggage trains.

On Thursday night fifty sail vessels left the different wharves, laden with stores. All that remained before the final departure of the land forces acted as pickets, and a strong rear guard of infantry and artillery was placed to protect the baggage trains.

Humphrey to take possession of Big Sandy region and advance nearer the Ohio border.

It is understood that Gen. Wright will throw all the Western troops of the new quota into Kentucky, and forward them to East Tennessee, where the rebels are concentrating a large force.

THE NORTH CAROLINA ELECTION.—The Newbern Progress states that the final results of the election in North Carolina indicates the defeat of Johnson, the Secession candidate for Governor, by a majority of 4,000. The Union Opposition have elected nearly every member of both Houses of the Legislature, by a still stronger majority.

It is alleged that the following plan of operations for the remainder of the Summer campaign was agreed upon:

First—The immediate obstruction of the James river so as to make it impossible for McClellan to use it as a means of communication with the Government, and for their transportation or reinforcements and army supplies.

Second—The occupation of Williamsburg, Yorktown and the entire peninsula.

Third—The recovery of the whole of the territory of Virginia, and the suppression of the Baltimore and Ohio Railroad.

Fourth—The recovery of New Orleans, Memphis and the Mississippi river, and the expulsion of the Federal troops from Tennessee and Kentucky.

Fifth—To make the Potomac and Ohio rivers at once their base of operations and frontier line, and to transfer the seat of war from Virginia to Maryland.

To hurl upon Washington from Richmond, a column of 200,000 troops.

By the capture of that city, the liberation of Baltimore, and the invasion of the North at the three points named above, becoming in turn the invaders, they hope to make it necessary for us to keep at bay, for the defense of our cities, fully 500,000 troops.

Loss of STEAMER CORTES.—By the arrival at San Francisco, dates to the 21st June were received. The steamer Cortes, late of that port, was consumed by fire at Shanghai. She was on the point of sailing for Hongkong, with a full cargo, when only the treasure was saved. The fire originated in her engine room, but the cause is unknown, but is supposed to have caught among the cotton waste. Every endeavor was made to save her by the men of war in the harbor, but she broke from her moorings, and being down a couple of miles, grounded and burnt up.

Foreign Summary.

Eight rebel Governors are now wandering as vagabonds with no visible means of support. They should be sent to the workhouse.

The Roman Catholic Bishop of Virginia has issued a decree against O. H. Brownson's Review, declaring that it is no reliable exponent of Catholic doctrines and principles. The Review will survive.

All the rebel preachers of Nashville were ordered to the penitentiary preparatory to being sent South. It is to be hoped, for the sake of the souls of the other rebel preachers, that they will not be sent there.

If neither Great Britain, France, nor Spain will receive the rebel Confederacy as a colony, perhaps Mexico will—or the Sandwich Islands.—Louisville Journal.

The Philadelphia Press says gold has been discovered in the blue clay that underlies that city; it thinks there is more gold there than in all California. The work of undermining has not yet commenced.

LOCKMAN CURED.—In New York a young lady ran a rusty nail into her foot recently. The injury produced lockjaw of such a malignant character that her physician pronounced her recovery hopeless. An old nurse then took her in hand, and applied several leeches to her foot, removing them as often as they became dry. The result was a most complete and astonishing cure. Such a simple remedy should be borne in mind.

Somebody says that the Southern Confederacy may now be bounded as follows: on the North by McClellan and Halleck; on the East by Burnside and Hunter; on the South by Fort Pickens and the Gulf Squadron; and on the West by General Butler, Commodore Farragut, and Captain Porter.

WRECK OF A FLOATING DOCK.—The Pacific Steam Navigation Company's steamer Cleo, while in the Dock, at Valparaiso, Chile, clearing her bottom on the 7th July, some of the wedges gave way, which caused the steamer to fall against the Dock's side—to free her the Dock was obliged to be sunk, when the steamer was got out, but on attempting to raise her again it was found impracticable owing to so much wreckage that the Steamer Rump belonging to the Dock were not sufficient to free her—she eventually sank to the bottom at about 11 P. M. in 7 or 8 fathoms water.

The State of Maryland has the high honor of being the first State in the Union to pay its proportion of the national direct tax. Secretary Chase has addressed a complimentary letter to the State Treasurer acknowledging the receipt of the money, and expressing his gratification on seeing Maryland, like Maryland in the days of the old line, coming forward with purse and sword, to the defense and support of the American Union.

As an indication of the signs of the times we notice that Tennessee, Kentucky and Maryland are raising new regiments for the Union army, and under the influence of the Stars and Stripes in New Orleans four regiments are forming for the same purpose in that formerly secession ridden city. Maryland, also, is the first State in the Union that has paid in her war tax to the General Government, while Tennessee and the North Carolina are coming rapidly to their senses and fast getting rid of the tyranny of Davis & Co.

SUPPRESSION OF MONASTERIES IN ITALY.—Victor Emmanuel is busy suppressing monasteries in Italy. His proceedings in Piedmont are according to a leading programme; but in the Marches it is more summary. The buildings are to be appropriated to educational or military uses, and the monks are to be supported by their honest labor, assisted perhaps in some cases by the State. The people seem to approve the arrangement.

LOSS OF STEPHEN GIRARD'S BEQUEST.—It is remembered that the heirs of Stephen Girard had received a verdict against the city of Philadelphia for lands in Schuylkill Co., Pa. This verdict has created quite a sensation in Philadelphia, and the opinion is expressed that if the decision is sustained by the Supreme Court, the will of Mr. Girard is broken, the purposes of his life defeated, and his great college and charity swept away. The North American says: The decision was in effect that the testament of Mr. Girard, in some of its features, was an "aggressive trust" against public policy and law, and therefore void; and that in the eye of the law he died intestate, and his estate on the day of death vested in his heirs.

In view of the International Exhibition, the Paris publishers are publishing books to teach the French visitors the English language with lightning speed. Among them is the "Methode Glashin," in which the author introduces a phonetic system, of which this is a sample: "Glaslin methode, sen, Al amon verro ouel, zhanke godhe—Amid you, sen, au au you (note, familiar)—Aiam-verro-chappé to si you ouel." "If you read the above pronunciation to an Englishman," says the directions, with great assurance, "and he understands you, you may rest assured that you possess the veritable English accent, so difficult to acquire!"

NEWSPAPERS BY THE OVERLAND MAIL.—An extract from a private letter, dated Reese River, N. T., 15th July, sent to a gentleman in this city—the writer of which is vouchered to us as being perfectly reliable—says: Do not send any more newspapers, as I have never received any; they are all stolen on the way. The proprietors of the Bulletin often wondered where all their newspapers went to. If any of them were up here, at a certain station between this and Salt Lake they could find four tons of newspapers hid behind a haystack. So much for mail contractors.

European.

In consequence of an application from the Atlantic Telegraph Company, the Admiralty had ordered the paddle steamer Porcupine to be prepared at Plymouth for taking soundings in the Atlantic.

The Common Council of the city of London had voted the freedom of the city to Lord Canning, for his eminent services as Governor General of India.

The Prince of Wales arrived at Malta on the 6th, just, en route for England, having completed his tour in the East.

George Francis Train, on being fined five hundred pounds, in default of imprisonment, on account of the non-removal of his street railways at Kensington and London, protested before a full bench of judges, in the name of all foreigners, against being found guilty without the shadow of a trial.

QUEEN VICTORIA has already reigned over the British Empire twenty five years, that period having been completed on the 20th of June. She is still in the meridian of life, having been crowned at the early age of nineteen. Only ten of her predecessors have reigned so long, the largest of all the reigns having been that of George the Third who was the grandson of George the Second, and was crowned when only twenty three years of age. His reign extended to sixty years, but for the last two of it, he was insane or an imbecile, and the government was administered by the Prince Regent, who became the Fourth.

The Hesse Cassel Elector had accepted the resignation of the Ministry, and the principal ministerial functionaries. The costs of the Northern and Baltic seas are to be defended by forts at the mouths of the principal rivers. It has also been decided to build eight mailed steamers, after the American system armed with 3 guns.

During the debates on the budget various telling attacks were made upon the Finance Minister, Von Piener, and it was announced, and indeed established that the deficit was 74,000,000 florins instead of 60,000,000—as he had originally fixed. The House was disagreeably started by this revelation, and signified the want of confidence in its Finance Minister by declining to take in hand the subject of augmented taxation until it should be satisfactorily settled what the amount really was requisite to meet the deficiency.

A new ministry has been formed: President of the Council and Minister of Interior, General Causel; Minister of War, M. Spirénillo; Minister of Marine, M. Mexis; Minister of Public Worship, M. Hatziakas; Minister of Finance, M. Levadas; Minister of Justice, M. Kilopoulas; Minister of Foreign Affairs, M. Thodoris.

Special Notices.

OFFICIAL. To the Friends of Education.

THE PUBLIC ARE AWARE that the principal building of the Seminary at Lahaina has been destroyed by fire. There were also destroyed at the same time a Philosophical apparatus and books belonging to the Seminary. The scholars were also sufferers. The estimate for erecting suitable buildings is \$8,000. The Legislature has appropriated \$5,000 to be applied for the erection of buildings, and it will require about \$3,000 to complete and furnish them for the purpose of the school, and to furnish a Philosophical apparatus equal to the one destroyed and to replace the books. And the Board of Education regard it a duty to appeal to the whole people of the Islands for contributions to supply the deficiency, so that this College may be put once more on its feet.

There is now an opportunity for the friends of education to render essential aid in a time of great exigency to this institution, which has been, and I trust, will hereafter be of great service to all our people. I would suggest that the Superintendent of the schools in each district, in conjunction with the Treasurer, should take such a course as they may think most expedient, to raise a subscription for the purpose. Whatever amount may be collected can be paid to the Treasurer of each district, to be transmitted by him to the undersigned.

M. KERUANAOA, Office of the Board of Education, Aug. 5, 1862. 325-1m

MECHANIC'S BENEFIT UNION.—The Officers of this Union, in the ensuing year, will take place on FRIDAY EVENING, Sept. 12, at the Rooms of Mechanic Engine Co. No. 2. A full attendance is particularly requested, as the reading of Annual Reports, etc., will be brought before the meeting.

GEO. McLEAN, Secretary. 325-2t

A WORD TO THE AGED.—In the decline of life the loss of the vital force consequent upon physical decay, can only be safely supplied by some vivifying preparation which renews the strength and spirit, without exciting the excitement which is always the first effect of stimulant. We tender to the aged Dr. HOSLETTER'S STOMACH BITTERS as an invigorant and restorative, immediate in its beneficial action and permanent in its effect. It tones the stomach, improves the appetite, acts like a charm upon the spirits. For dyspepsia, oppression after eating, bilious colic, wind cholica, spasms of the stomach, head-ache, chills and fever, tremors, prostration, and all the complaints special to the feeble sex, the Bitters are earnestly recommended by thousands who have witnessed their superior efficacy in such cases.—Sold by all Druggists and dealers everywhere. 325-1m

Shipping.
