The Fourth of July.

As we predicted in our issue of last week, the celebration of the last Fourth of July was as generally and happily observed as that anniversary has ever been in Honolulu. At 11 o'clock, a large concourse of people, including every nationality, assembled at Kawaiahae Church to witness the ceremonies there and listen to the eloquent address of L. McCully, Esq.

After the services at the Church, Government officials, foreign representatives and citizens generally, paid their respects to the United States Minister Resident at his residence in Nuuanu Valley, where all found a hearty welcome from His Excellency, an excellent lunch, and a refreshing valley breeze. Perhaps the most pleasing feature of the day was the picnic prepared for the children at Grove Place, (Paly Place) the residence of the Minister Resident. The hundreds of happy youngsters who partook of the plentiful supply of nick-nacks exactly suited for the children, departed conclusively that portion of the celebration was a most happy one.

Another most enjoyable feature of the day was the regatta. The events comprising this portion of the day's festivities was one of the best arranged that has ever been witnessed in our harbor. The arrangements throughout were greatly admired by the immense crowd of spectators who were assembled on board the U. S. ships Narragansett and St. Mary's, and other vessels in port, and also at every available point along the city front.

The yacht race was the first on the programme. The first prize being ninety dollars and the second thirty-five, for which the Thistle, Henrietta and Kulamann entered, starting from Brewer's wharf at 11 1/2 p. m. with fresh trades blowing and gradually increasing. The Kulamann had the windward position and collided with the Henrietta at the start, doing considerable damage to the head-gear of the latter and rendering her job almost useless, after which she fouled with the Thistle and finally ran into the bark Aureola at the Esplanade, carrying away her topmast against the fore-yard of that vessel, in addition to receiving other damage which caused her to be withdrawn. The others continued their course, although the Henrietta labored under great disadvantage through not having the benefit of her jib hauling on the wind outside of the harbor.

The race resulted in favor of the Thistle, which passed the flagship C. M. Ward in 1:46:30, beating the Henrietta by 10:30, including time allowed for difference of tonnage. The second race, for shore boats with two oars and coxswain—first prize twenty dollars—was won by Muraloa, entered by Wahamann, only two boats having started although six were entered, consequently the second prize was not allowed to Young America, which came in second. The third race, for whale-boats with five oars and steersman, for a prize of fifty dollars, was an exciting one, for four of the boats were entered but only three started, viz: white boat, light green, and black boat. This race resulted in favor of the former, steered by Dick, although entered by Simon, who declined at the last moment to go in, and was much charged at the result, especially as the owner of the boat gave each of the crew an additional five dollars for winning the race. The green boat came in second, distancing the black boat.

The fourth race, for gentlemen amateurs with two oars and coxswain, was also an interesting one, for which there were four entrances, the first prize being two pair miniature gold oars and one of silver for coxswain, and a smaller pair gold oars for second prize. Considerable interest existed regarding the merits of the various crews, that of Dido having the preference, being the most muscular. The constant practice of Young America's crew, however, won the race in 10:15, while Dido came in second in 10:25. Our foreman and another young Hawaiian born gentleman pulled the second boat—we have seen the gold oars which they received, and microscopically viewed, they prove themselves to be rare specimens of the goldsmith's art; they are genuine, in fact, and truly won the glittered hands and labor of training and pulling through many a hot day. Hard Times came in third and Queen Emma last, greatly behind any kind of time, although she succeeded in passing the flagship in time to allow her crew an opportunity to witness the termination of the regatta. The canoe race came next with four entrances, each pulling five paddles, which resulted in favor of He, the prize being ten dollars. Gigs with six oars followed, for a prize of fifty dollars, for which race Dandy, Liliu and Amelia were entered, the latter belonging to the German ship Georges and pulling only five oars. The Liliu was withdrawn and the race won by the Amelia owing to Dandy failing to comply with the directions as to course. The man-of-war boat's race for a prize of fifty dollars came next, for which the first cutters of the Narragansett and St. Mary's were entered, although four boats started, the others being the second cutter of the former ship and the Governor's boat, the latter pulled by a crew from the same vessel. The course selected—same as whaleboats—was through the passage, around bell buoy and back to flagship by same course. The St. Mary's boat proving the winner owing to the Narragansett's going between second can-buoy and spar-buoy, thus cutting off considerable of the distance. Had the other boats, which merely pulled around the course to give additional interest to the race, been regularly entered, the Governor's boat would have won the prize, coming in first, the Narragansett's second cutter following. Boats with eight oars, for a prize of ten dollars, comprised the eighth race, for which only two entered, and was won by Red, White and Blue coming in last. The ninth and last race, for tubs without keels, four were entered. This race was decidedly amusing, and to Bob was awarded the prize of ten dollars as the most skillful navigator.

The above race terminated at five o'clock, p. m., leaving no time for a scrub race. Everything connected therewith passed off pleasantly, and to the gentleman comprising the regatta committee much credit is due for the admirable manner in which the entire arrangements were conducted.

ACCIDENTS OF THE FOURTH.—A holiday so extensively observed has seldom passed more pleasantly and with fewer accidents than the Fourth. The only serious occurrence which we have heard reported was that of two natives on horseback, coming from opposite directions at a more rapid speed than the law allows, who collided with each other and were injured to an extent as to require the attention of a physician. The owner of the trotting horse Billy Taylor narrowly escaped what might have proved a serious affair, while turning the "zalky" in which he was driving, rather suddenly through a gateway on King St., one of the wheels coming in contact with a post causing the body to separate from the shafts and unconsciously "spilling" the occupant. No damage resulted beyond breaking a spring and loosening one or two bolts. Towards evening, after the regatta, a sharp squall struck the sail-boat King Philip which was being navigated about the harbor by a couple of individuals inexperienced in nautical affairs, causing her to careen over and fill with water, and before the occupants were fully aware of their danger, she sank with colors flying. Assistance reached there from the shore, but too soon, as one of them was nearly exhausted when picked up.

SEE MY COLUMN!

Not THIS, but the Other One!

Queer! Very Queer!

In my ADVERTISING COLUMN, my notices and notices for sale are crowded out and are amongst the notions—(a British Notion). They will be sold cheap, very cheap.

Funny! Very Funny!

In my Advertising Column, my Bird Traps, Bird Houses and Breeding Cages, of which I have a splendid assortment, are crowded out. They will be sold cheap, very cheap.

Queer! Very Queer!

My Pills—Blair's, Whelpton's and Cocks's, are crowded out and are included in the Notions.

The Funnest of All—Brunel's Carpet which I have for sale, a splendid article, and guaranteed of equal quality, at 30 per cent less than the Carpet for the New Hotel out in San Francisco, besides which, freight, insurance and duty must be added to the San Francisco cost. It would take a mathematician to calculate the loss incurred by not purchasing here.

Not Queer or Very Queer!

The Steamer Kilanea is a decided success and materially assists to promote trade and develop the resources of the Kingdom. (Groublers notwithstanding.)

The New Hotel.

There has been a difference of opinion in consequence of Ophthalmia. I am morally certain it will result in a decided success in promoting the interests of these fair islands, and a great benefit to them.

Lodging House keepers need not quake or seek a reduction in rent, for they will have their share from the extra number of visitors to see the wonders of this Kingdom.

This National Hotel, so much needed for the up-building of our Sunny Islands, will, in conjunction with other solid improvements made by our Government, immortalize the reign of KARAKARA Vrn. Long may he live and reign.

THE NON-EXPLOSIVE KEROSENE LAMPS.

PERKINS & HOUSE'S PATENT.

We claim for this Lamp, as follows:

1. Absolute safety under all circumstances, both from breaking and explosion.

2. It gives twice as much light from same sized wick.

3. It uses 15 per cent less oil for an equal amount of light.

4. It gives no odor in burning, turned never so low.

5. The steatins of the flame is wonderful.

6. It is Ornamental and Durable—a life time.

7. It is a successful rival of Gas at a trifling expense.

8. It burns any kind of Coal Oil—good or bad.

There is now need of no shocking Deaths and Terrible Fires from Coal Oil Lamps exploding and poisoning.

To sustain these strong claims, we refer to the Lamp itself, and to critical tests by the most eminent Scientific Men.

All orders will be attended to by Mr. Ed. Everett.
