## A Naval Battle Now In Progress

(Associated Press Cable to The Star.)

**CHEFOO, July 1.**—A big naval engagement is in progress off Port Arthur. The ships engaged include two battleships and four cruisers on the Japanese side. The Russian force is unknown, but Chinese recently from Port Arthur say that there are only four Russian warships there.

### RUSSIAN LOSSES.

**MUKDEN, July 1.**—The Russian lost over 200 in a fight near Port Arthur the 26th.

### THREATENS RUSSIAN VESSELS.

**NEWCHWANG, July 1.**—A Japanese torpedo boat destroyer is threatening Russian vessels here.

### YALE AGAIN BEATS HARVARD.

**NEW LONDON, Conn., July 1.**—The University boat race between Harvard and Yale today was won by Yale by seven lengths in 21.40 1-2. The four-oared event went to Harvard, the time being 12.12.

## INTERPRETERS LOSE THEIR JOBS

**CHARLES HOPKINS THE ONLY ONE OF THE CIRCUIT COURT FORCE TO REMAIN.**

All of the official interpreters of the circuit courts have been dropped with the exception of C. L. Hopkins, one of the two Hawaiian interpreters. John Bush, Hawaiian interpreter, Li Cheung Chinese, Chester Doyle, Japanese and Joseph Pias, Portuguese, vacated their positions yesterday, by virtue of the taking effect of the new appropriation laws, which provide for only one Hawaiian interpreter and no others.

Li Cheung has taken a position as secretary at the Chinese legation and is better off than he was before. He has been Chinese interpreter for many years and the judges were very anxious to retain him. Li Cheung did not see his way clear to be waiting round without salary, for fees when there happened to be cases, and he therefore secured another place. Chester Doyle will be connected with the Attorney General's department. He is also an interpreter whom the judges wanted to keep, as there has always been considerable difficulty with most other Japanese interpreters employed here. John Bush has had long service as an interpreter in the courts and legislature, and the judges could have had their way if also would have remained.

The change is expected to cause considerable difficulty in the police court and in circuit courts when the September term begins. There will be three judges holding court at the same time and more interpreters will be needed. Two Hawaiian interpreters are often needed at the same time, and constant interruptions for the sake of hunting

## SMALL FINES FOR THE CRIMPS

**UNITED STATES JUDGE DOLE LENIENT WITH FIRST OFFENSES UNDER AMENDED LAW.**

The cases of William McCarthy and Benjamin Edwards, charged with having broken a United States law by going aboard the ship Solano and soliciting a sailor's patronage before the ship had been in port for 24 hours, were before Judge Dole in the District Court this morning. McCarthy had entered a plea of guilty, but after considerable legal fencing the plea of guilty was entered in Edwards' case also.

Judge Dole spoke to the defendants at some length dwelling on the seriousness of the offense, but in view of the fact that these were the first cases under the amended act he imposed the light fine of \$10 and costs as a warning, promising further offenders more punishment.

**WANTED TO BE CITIZENS.**  
A bunch of half a dozen United States sailors from the Wheeling invaded the office of the United States district court this morning in an expedition after naturalization papers. None of them could qualify however as they are still on service and have not been discharged so they went disconsolately away.

Interpreters are likely to be the rule. The judges will have to arrange among themselves as to who shall have the services of Hopkins. For other cases interpreters will have to be found and sworn in as the cases come up, on a fee system. The rate, it is understood, will be \$5 per day.

## STRAUCH TURNS OUT BANKRUPT

**CO-OPERATIVE HOME PURCHASING SCHEME'S MANAGER SAYS HE OWES NEARLY SEVEN THOUSAND DOLLARS AND HAS ASSETS OF ONLY NINETEEN—ATTORNEYS FILE OBJECTIONS TO HIS BANKRUPTCY PETITION.**

Paul E. R. Strauch, who describes himself as a broker, and who is manager of the concern known as the Co-operative Home Purchasing Society which has been doing business for some time on King street, caused a mild sized sensation this morning in the United States District Court by filing a voluntary petition in bankruptcy. He was not represented by counsel but put the papers in himself. They were drawn in proper form and were sworn to before Antone Manuel, notary public.

Strauch figures it out that his liabilities amount to \$6,852 while his assets reach the modest sum of \$19, and even that, he claims is exempt.

His petition recites that he has been for more than six months a resident of Hawaii and is now unable to pay his debts "in full." Therefore he prays to be adjudged a bankrupt. The schedule of debts shows the following:

P. H. Burnette, judgment obtained Sept. 16, 1903.....\$2,944.50  
Emmett May, note and interest, money borrowed on sugar stock since depreciated..... 767.50  
George Paris, note..... 40.00  
Lewers & Cooke, Ltd., for lumber..... 100.00

Hackfeld & Co., responsibility for the debts of C. Baddaky & Co. of Hilo..... 3,000.00  
Total.....\$6,852.00  
Then comes the schedule of assets, as follows:  
Six chairs.....\$ 2.00  
One table..... 4.00  
Bicycle (old model)..... 12.00  
Total.....\$19.00

Added in ink below the typewriting as a sort of an afterthought is the entry:  
"My interest in Inter-state Mercantile Agency, value unknown."

A further clause claims the chairs, table and bicycle as exempt. The document had no sooner been presented than George A. Davis and F. E. Thompson who were in the court rose, the former acting for Burnette and the latter for Hackfeld & Co. Both protested against the petition's being granted, an unusual proceeding in a voluntary application, but their request for a continuance was granted by Judge Dole and the application was laid over until next Wednesday.

**CARTER'S AIR IS PUGNACIOUS**  
**IS LITTLE BUT OH! MY**  
THEY THOUGHT SO IN CHICAGO AND THEY LIKED HIM ALL THE BETTER FOR IT.  
CHICAGO, June 22.—When Cannon finished speaking in the convention, Governor Carter of Hawaii received one of the biggest cheers when he made a speech demanding full representation on Territorial basis.  
Carter has a pugnacious air when speaking and his gingery style caught on. He managed, however, to provoke a contest. His position was subjected to an assault, but Senator Foraker took his part and made a strong plea for the "Paradise of the Pacific." Judge McKinley, chairman of the California delegation, found his opportunity when the debate reached its height. He declared Hawaii should have the regulation six delegates instead of two. McKinley made a very able talk and was several times interrupted by cheers.  
Hawaii lost her fight, however, after the roll call of the convention, but the contest stirred up sufficient interest to make the delegates good humored.

**HONOLULUANS IN SAN FRANCISCO**  
**MANY ISLAND PEOPLE IN THE GOLDEN GATE CITY—BARRY PREPARES TO FIGHT.**  
SAN FRANCISCO, June 25.—Lieutenant Harry W. Newton of the 67th Company of Coast Artillery, who left Camp McKinley for the Presidio here, about six weeks ago, has been ordered to Fortress Monroe, Old Point Comfort, Va. He will leave here within a few days. He goes to take a course of military instruction in Artillery strategy and tactics, and expects very soon after the conclusion of this to be made a captain. This detail is in accordance with the general policy of the War Department lately adopted, to put all first lieutenants in the Artillery branch of the service through a course of instruction in artillery technique just before they are made captains and given command of companies.  
Lieutenant Colonel Edward Davis, artillery corps, who is now in Honolulu with his wife on a visit to his daughter.

**HOW ROOSEVELT GOT THE NEWS**  
THE PRESIDENT WAS AT WASHINGTON SURROUNDED BY HIS FAMILY WHEN THE WORD CAME  
WASHINGTON, June 23.—Surrounded by members of his family, President Roosevelt received the announcement that he had been nominated unanimously by the Republicans at Chicago. The news was received by telephone at the White House by a reporter of the Associated Press in advance of its receipt over the special telegraph wire running from Chicago to the executive offices.  
At 2:13 p. m. the bulletin was given to Secretary Loeb. Some time before the President had left his offices in the executive building and had gone to the White House for luncheon. Secretary Loeb immediately conveyed the news to him there. Seated on the veranda of the White House chatting with Mrs. Roosevelt, his sister-in-law, Miss Carey, and other members of his family, the President received Mr. Loeb's announcement.

## WAS SOON DIVORCED

**LEVI P. MORTON'S DAUGHTER WHO LIVED LESS THAN A YEAR WITH HER NOBLE HUSBAND.**

The Duchess of Valenay has secured a divorce as announced in a cable from Paris this morning. The Duchess is a daughter of Ex-Governor Levi P. Morton of New York. Her marriage to the duke took place only last October and it was whispered very soon after that the match had proved an unhappy one. A few days after the wedding the husband, who was then known by the title of Count Boson de Parigord, purchased the Chateau of Valenay for \$543,673. Paris rumor has it that the conjugal inharmonies arose over the fact that Levi P. Morton, who put up the money for the chateau, insisted that the title be in his daughter's name and not in the name of her noble husband.

## CLAIMS IT WAS ACCIDENTAL

Ulysses Harris the negro prize fighter is lying at the Queen's Hospital in a serious condition from the effects of a pistol wound in the abdomen. He received the wound last night about 9:30 o'clock in the Pantheon Saloon on Hotel street. The shot was fired by E. Geneau a sailor from the gunboat

Wheeling. The latter claims that the shooting was accidental. According to the facts, as learned by the police, Geneau and Harris got into an altercation in the Royal Saloon yesterday afternoon. Harris claimed

## AMERICAN DUCHESS GETS A DIVORCE

DAUGHTER OF EX-GOVERNOR OF NEW YORK SEPARATED FROM HER HUSBAND.

Associated Press, Morning Service. PARIS, July 1.—The Duchess of Valencay has been divorced from her husband. She is a daughter of Levi P. Morton, formerly governor of the State of New York. Miss Helen Morton was married on October 5th last at St. Mary's Catholic Church, Chelsea, England, to Count Boson de Perigord, a son of the Duke of Talland-Perigord. A few days after the wedding was announced that the Count had purchased the splendid old Chateau de Valencay for 2,718,365 francs (\$443,673) and with the acquisition of the domain had assumed the title of Duke de Valencay. Afterward it was intimated that the money for the purchase of the castle had been advanced by Levi P. Morton with the understanding that the title was to be vested in his daughter. This arrangement was combatted by the Duchess of Talland-Perigord and this misunderstanding of the transaction it is said, was the supposed cause of trouble between Count and Countess of Perigord or, as they assumed to call themselves Duke and Duchess of Valencay.

In the beginning of the present year reports reached New York that the Duchess was returning to the United States and that she was returning alone owing to a lack of family harmony. It was even said that the Duchess had found conditions so unpleasant that she would seek for a separation. When the Duchess arrived last March she did come alone, but she denied the reports of any disagreement with the Duke.

## TENNIS TODAY.

The tournament in ladies' doubles will begin this afternoon on the Pacific Club courts. The following is the schedule.

At 4 o'clock—Miss Kathleen Ward and Mrs. T. C. Davies will play Miss Nina Adams and Mrs. Field.

At 5 o'clock—Mrs. S. G. Wilder and Mrs. R. Ivers will play Mrs. Reed and Miss Irmgard Schaefer.

The present holders of the ladies' doubles championship are Miss Lucy Ward and Miss Ethel Horner.

Entries for the mixed doubles will close next Tuesday.

## IMPORTANT TO MARINERS.

The following important notice of buoys and beacons in this district has been issued by Captain A. E. Niblack, the assistant light-house inspector:

"Notice is hereby given that the Mid-Channel Entrance Buoy, Nun, black and white perpendicular stripes, marking the entrance to Pearl Harbor, Island of Oahu, adrift 15 February, 1904, was replaced 22 June, 1904, in 33 feet of water, on the range NNW. 1/4 W. for the 30-foot dredged channel leading into Pearl Harbor, upon the following magnetic bearings:

Ahuia Point, NE, by E. 3/4 E.  
Right Tangent Diamond Head Point, E. 1/2 S.  
Windmill, NW, 1/2 N.  
Right Tangent Queen Emma House, N, by W.

This buoy is on the range at the mouth of the channel through the reef. It should be passed close to on either side as the channel is only 200 feet wide.

"Notice is also given that the range beacons used for passing through the 30-foot dredged channel, through the reef, leading into Pearl Harbor, Island of Oahu, reported missing 6 May, 1904, were replaced 22 June, 1904. The front range mark is a beacon in the form of a diamond 6 feet square and the rear range mark a beacon in the form of a windmill (2-12-foot boards crossed), both beacons being whitewashed. They are on the range NNW. 1/4 W. which is the mid-channel course through the dredged portion of the reef. The apex of the diamond shows just under the cross boards of the rear range mark. Those range marks are erected on the submerged coral reef near the Queen Emma House."

## JAPANESE PENSIONS.

The family of a dead Japanese soldier gets, roughly speaking one-third of the pay of his rank. This would give the widow of a private \$1.25 a month; of a first lieutenant \$6.25; of a captain, \$8.33; and to the widow of a colonel, \$20 a month.

## SPLENDID SERIES OF PHOTOGRAPHS

CHOICE GEMS OF ART OFFERED BY THE STAR—COMPLETE HISTORY OF WORLD'S FAIR.

Every person who visits the Louisiana Purchase Exposition will highly appreciate the magnificent views which we are now offering to our readers, since these views furnish a valuable and abiding souvenir of this great civic event.

Those who, through any reason, are not able to visit the Exposition will welcome the views quite as gladly, since they present a complete pictorial and descriptive history of the memorable festival.

All classes and conditions of men and people of all ages will alike find amusement and instruction in the artistic pages of this great series; while the student and the artist will discover a thousand details worthy of careful thought and study.

An important feature of the distribution is to be found in the fact that the thirty portfolios cost but a trifling amount, which anyone is glad to exchange for so worthy and lasting an acquisition.

All our readers seem to understand thoroughly by this time that the "Forest City" series of views is official; that they are the best obtainable, the original photographs having been taken by the official photographer of the Exposition, and the description having been written by Walter B. Stevens, Secretary of the Exposition.

This makes the work a production of the highest authority, and, on that account particularly valuable both for purposes of education and reference.

It, therefore, becomes almost the duty of every person who desires to be considered progressive to secure the entire series, and the easy manner in which this may be done is fully explained in the "Forest City" announcement, which appear from time to time in our columns.

Briefly speaking, it is only necessary to send or bring a "Forest City" coupon with 19 cents to secure any portfolio which has been issued; the small amount mentioned being merely to cover cost of handling, addressing, mailing etc.

Our original supply of the early numbers was quickly exhausted, but we have now made arrangements so that those who did not begin with Part 1, can secure back numbers now. This fact will be appreciated by those who desire the series from start to finish. Part 1 and 2 now ready. Part 3 ready Saturday.

Frank L. Hoogs, Manager. FRIDAY, JULY 1, 1904

Some great rich man (it is forgotten whether he was good or not) when at the point of death thought of some important engagement he ought to keep and exclaimed: "A million dollars for an inch of time!"

Roosevelt The Whole Thing. The principal Democratic criticism of the Republican national convention so far has been in the form of a taunt that Theodore Roosevelt was "the whole thing."

remark that it didn't seem to be any use having a convention. Why not let Roosevelt be a convention, do the work of a convention, and save trouble? "The fact is dawning upon many men nowadays that Theodore Roosevelt is the master and dictator of the Republican party and the Republican policy."

The gentleman who packed up his "doll rags" of course is a conspicuous exception. Roosevelt's domination is certainly remarkable, but it is legitimate. Instead of a subject of regret, it is a source of gratification to Republicans that they have a leader of such ability and force and that they are so thoroughly united under him.

A Chance For New Warfare. There is a possibility, perhaps not very remote, that the war in the Far East may radically change in character before the end of the present month.

Either Russia or Japan is free to employ balloons loaded with explosives, after July 29. Unless there is a moral obligation to refrain from anything which has been held to be "uncivilized warfare," Japan may send whatever balloons and airships she can secure to drop high explosives into Port Arthur and into the army camps of the foe.

It is only by a peculiarly inconsistent distinction that the obligations of "civilized warfare" are allowed to interfere with such enterprises. They are "uncivilized" because so tremendously effective and irresistible. Yet we are told on the other hand by the great military experts of the world that the most humane method of warfare is that which prosecutes the cause the most vigorously, even at terrible cost of human life, and soonest puts an end to the carnage.

Wherein does dropping explosives on an entrenched or fortified position differ from stealing beneath the ocean waves with a submarine and piercing the bottom of a great battleship, thus sending to immediate death a thousand men as defenseless against submarine attack as an entrenched army against bombs from the heavens?

By the use of balloons the Japanese could reduce Port Arthur without the land assaults which they are preparing to make, it is possible that 50,000 lives might be saved. At this writing no one knows how terrible may be the defense the Russians are prepared to make. The world knows something of the recklessness of the Japanese attack. It knows that the 50,000 Japanese are ready to die, if the Russian defense is such as to make it necessary. Why stop at a method of attack which makes their death unnecessary?

In wars with "the lesser breeds without the law," the Christian nations of the world have not been specially scrupulous about being "civilized." The relative helplessness of blacks confronting long-distance rifles and Maxim guns is as great as that of an army on a plain, menaced by dynamite-carrying balloons above. Yet the white nations have never scrupled to use all the advantages they possess, and to fight battle after battle which have been in reality little different from massacre.

Japan, under the circumstances, would seem hardly likely to take the initiative in adopting a new method of warfare which has been condemned. Her anxiety for the approval of the Great Powers is very evident. Unless assured of their approval she would not take a step that would give support to the statements of those who argue that she does not really represent civilization. Up to this time she has been as thoroughly civilized, humane and chivalrous in her conduct as a nation in warfare has ever been. She will not do anything to spoil her record in the eyes of the Powers.

Disastrous To Unionism. "Whom the gods wish to destroy they first make mad" is an adage which has done yeoman service in its time, but the opportunity to use it in reference to the labor troubles in Colorado is irresistible. The excellent results of a proper application of union principles are to be seen in every branch of labor in the United States today.

The deeds of rapine and violence which have almost placed Colorado beyond the pale of civilized states may be traced directly to the pernicious theory that the mines are owned by the men who work them. That the so-called union leaders have used this as an argument is unquestioned and inflamed with this idea some of the more headstrong of the men have set up a cry of defiance to constituted authority which could lead to but one result. There were shootings and other outrages and a deal of public sympathy was given the men who were represented as fighting for the mere right to live, but the crowning horror came when fifteen non-union men were blown to pieces with dynamite. That was a bad day for the union labor men of Colorado, the gods had made them mad.

What can be the only result of such disclosures as these? The public is long suffering to a fault but this time the people are aroused. There are strong men in Colorado and it is to those strong men the people of the country look to wipe the disgraceful stain from the escutcheon of their state.

It is not likely that France will allow Russia to coal her vessels at her various colonial ports. If the Russian want to save their fleet they had better keep it at home. It will do no good in Oriental waters, and will only decorate the bottom of the Yellow and China Seas.

The desperate activity of the Vladivostok squadron is evidently due to the desire on the part of the Russians, to force Admiral Togo to weaken his blockading squadron at Port Arthur in order to run down the Vladivostok fleet. With the blockading fleet weakened, a sortie could be made by the Russians from Port Arthur harbor with some prospect of success. Togo is not likely to loosen his grip and the fall of Port Arthur is likely to occur very soon.

Texas probably feels insulted. The Prohibitionists went to that state for their nominee for vice-president. If they had selected the head of their

ticket from Kentucky it would have been the height of political sarcasm. HIGH SHERIFF BROWN ILL. High Sheriff Brown is ill at his home at Waikiki with fever. He will not be able to accompany the Acting Governor and party around the island.

**CHINESE AWAIT RUSSIAN DEFEAT**

THOUSANDS OF THEM READY TO RISE ON RECEIVING WORD OF PROPER OPPORTUNITY.

NEWCHWANG, June 9.—Those of the Chinese soldiers that I saw at Ning Yuen Chow, Chen Chow, Lien Shan, Kas-pon-tze and a dozen other villages in the disputed valley, were fine-looking fellows, tall, with black turbans, blue quilted tunics and black sashes and armed, some with modern Mauser rifles, some with an old model, the dates on the barrels of several which I examined being 1887.

At the village of Tonghan, the English inspector of the Chinese Government railway assured me that his road had a week or two previously taken 20,000 Chinese regular infantry northward into the disputed neutral strip. To my inquiry as to their destination, he waved his hand toward the mountain palisades to the northwest and said: "There—scattered through those mountains. They will be heard from by and by, mark my word. The Russians will come to the end of their rope there soon, or I am neither a prophet nor the son of a prophet. The Chinese have been tricked and crowded and kicked and treated like dogs by the Russians for many a year. Let Japan bring them to their knees, and see how soon the Chinese will rush in to complete the job."

Here would then, indeed, be a fit subject for an epic entitled "The Revolt of a Sheep, and yet the Chinese soldiers, properly officered and drilled, are said to be as brave, reliable and effective as any Oriental men-at-arms. Those I saw certainly looked like grim fighters.

Beginning at Chin Chow, I began to see small bodies of Chinese or Manchu foot soldiers of a different type from the Chinese infantry, wearing dull red tunics, and armed with single-shot breechloaders of an old Russian make, dated 1881, with large caliber cartridges slung in belts over their shoulders. I was informed that these were "reformed" Red Beard bandits, hired to guard the railway trains, but my informant, the conductor, an Englishman who had been a telegrapher under Kitchener in the Omdurman-Soudan campaign, chuckled grimly over the term "reformed"—"As 'if you could ever reform a Jackal or a Hung-hu-tze!" he said, with fine sarcasm.

It is believed that when the word is given that the dreaded Russian bear is being torn by the Japanese war dogs, all these Chinese, Manchus and Red Beard soldiers, regular and irregular, horse and foot, without coherence or organized scheme of attacks, will rush in to wreak vengeance on the Slavonic burners of towns and despoilers of womanhood. If the Russians continue to burn Chinese villages and the granaries and crops as they retreat, they will find a swarm of vengeful Chinese harassing their rear, cutting their communications and hacking and killing at every opportunity. As Consul Miller puts it, "Chaos will break loose in Manchuria and horrors unspeakable will result, if the war becomes three-cornered."

Only yesterday General Kondratovitch told us that the Manchus bandits had blown up a culvert and a section of railway track between here and Liaoyang, completely blocking traffic for four days, and it is in giving such assistance to the Japanese that these Red Beards as well as the more reputable bequeathed villagers will cut an important figure in this war. As regards any organized, confederated rising among

**HAWAII TOO INFLUENTIAL**

DEMOCRATS SHOULD HAVE CONTESTED JOHN WISE'S SIXTEEN TO ONE DECISION.

The famous deciding vote of John Wise of Hawaii, which carried the sixteen to one platform in the last Democratic national convention, is still a subject of discussion on the mainland. The Washington Star confuses Wise with Prince David, who was also a delegate and comments as follows:

"Col. Guffey is figuring far too conspicuously in the anti-Parker calculations. He is a deserving man, and a good politician, and in many things one could wish him for an ally. But do the opponents of Judge Parker really rely upon him to turn the scale at St. Louis with his Pennsylvania delegation in their favor? Is it their idea that a Democratic nomination made by delegates from a state where the average Republican majority in a presidential year is a quarter of a million or so would be popular in debatable territory? It is likely that this gossip is circulating without Col. Guffey's approval, that he is not siding up his 'bins for a grand stand play at the national convention, but is going there to take counsel rather than to lay down the law.

"The democracy at Kansas City four years ago permitted Hawaii, which had no vote of any kind in the electoral college, to decide the momentous question of reaffirming the silver plank of the Chicago platform. Prince David, who was a member of the platform committee, cast the deciding vote. The wonder has always been that the minority did not contest the matter with greater vigor, and point out first to the committee and then to the convention the unwisdom of permitting Hawaii to saddle upon states like New York, New Jersey, Indiana and Illinois a money delinquency which in 1896 they had overwhelmingly rejected.

"Pennsylvania is not as small as Hawaii, but it is of quite as little use to the Democracy in a presidential election."

**DOGS FOR FOOD**

CHEFOO, June 17.—Though the Faw has kept close watch on Port Arthur for four days past little news of important has been gathered. Occasional shots have been heard in the direction of the land forts of the main fortress and also in Society bay. The Faw has stopped many Chinese junks coming from Port Arthur and from the statements made by their crews the following picture of conditions within the fortress has been obtained. Food is very scarce. The Russians are seizing everything edible—even dogs. All available stores of rice have been confiscated and the Chinese are leaving to avoid starvation.

Gases, fumes, moisture, coal soot and smoke cannot injure or effect cement roofing. It is better adapted for application over uneven surfaces, such as old shingles or metal roofs, obviating the expense of removing the same. It will not rattle from wind and storm, nor create any noise from rain falling upon it. The materials used in cement roofing are the best non-conductors of heat and cold known, therefore it will keep the building warmer in winter and cooler in summer than a metal roof. Mrs. Fairbanks tells how neglect of warning symptoms will soon prostrate a woman. She thinks woman's safeguard is Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—Ignorance and neglect are the cause of untold female suffering, not only with the laws of health but with the chance of a cure. I did not heed the warnings of headaches, organic pains, and general weariness, until I was well nigh prostrated. I knew I had to do something. Happily I did the right thing. I took Lydia E. Pinkham's Vegetable Compound faithfully, according to directions, and was rewarded in a few weeks to find that my aches and pains disappeared, and I again felt the glow of health through my body. Since I have been well I have been more careful, I have also advised a number of my sick friends to take Lydia E. Pinkham's Vegetable Compound, and they have never had reason to be sorry. Yours very truly, Mrs. MAY FAIRBANKS, 216 South 7th St., Minneapolis, Minn." (Mrs. Fairbanks is one of the most successful and highest salaried travelling saleswomen in the West.)

When women are troubled with irregular, suppressed or painful menstruation, weakness, leucorrhoea, displacement or ulceration of the womb, that bearing-down feeling, inflammation of the ovaries, backache, bloating (or flatulence), general debility, indigestion, and nervous prostration, or are beset with such symptoms as dizziness, faintness, lassitude, excitability, irritability, nervousness, sleeplessness, melancholy, "all-gone" and "want-to-be-left-alone" feelings, blues, and hopelessness, they should remember there is one tried and true remedy. Lydia E. Pinkham's Vegetable Compound at once removes such troubles. Refuse to buy any other medicine, for you need the best.

"DEAR MRS. PINKHAM:—For over two years I suffered more than tongue can express with kidney and bladder trouble. My physician pronounced my trouble catarrh of the bladder, caused by displacement of the womb. I had a frequent desire to urinate, and it was very painful, and lumps of blood would pass with the urine. Also had backache very often. "After writing to you, and receiving your reply to my letter, I followed your advice, and feel that you and Lydia E. Pinkham's Vegetable Compound have cured me. The medicine drew my womb into its proper place, and then I was well. I never feel any pain now, and can do my housework with ease."—Mrs. ALICE LAMON, Kincaid, Miss.

No other medicine for female ills in the world has received such widespread and unqualified endorsement.

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. Address, Lynn, Mass.

## CROSS ATLANTIC IN THREE DAYS

STEAMER WITH SIXTEEN SCREW PROPELLERS OPERATED BY  
ELECTRIC POWER BEING PLANNED BY NEW YORKERS— WILL  
MAKE THOUSAND MILES A DAY AND COMPLETE LIVERPOOL-  
NEW YORK ROUND TRIP IN WEEK.

Lewis Nixon, the Cramps and Richard B. Panton, three expert ship builders and marine inventors, are getting ready to launch an ocean giant which will cross the ocean in three days—will, if necessary, make a round trip to England and back again to New York between Monday morning and Saturday night.

This new transatlantic racer is to be christened the Meteor. When in the water she will look very much like one of the present big ocean steamships, the only particularly noticeable difference being that her smokestacks will be six in number. Four stacks is the largest number on any steamship now in commission.

But inside her hull and down under her water line the machinery will be quite different from that of any of the great liners which are now making their trips from New York to Liverpool or Southampton in about six days.

Sixteen powerful screw propellers, operated by electric motor power, will drive the Meteor through the water at a uniform speed of about forty-five miles an hour. This is equal to over one thousand miles a day. The Oceanic of the White Star Line, which plows across the Atlantic in about six days with the greatest of ease imaginable has only two propellers, situated one on either side of the stern. It is easy to imagine from what the Oceanic does with two propellers, what the Meteor will do with sixteen.

It will be possible for a business man to eat his breakfast in New York on Monday morning, preparatory to going aboard the steamer Meteor, which we will say is to sail at 5 a. m. With favorable seas and the sixteen propellers diving the ship through the water at full speed he should reach Liverpool late Wednesday night. To be sure, he will not have much time to spend ashore if he has to be back in New York by Saturday night, but the Meteor will be capable of getting him back home again in time.

Owing to the enormous speed at which the Meteor will travel it has been necessary to introduce several interesting innovations in ship building plans in the construction of this newest and fastest of all ocean greyhounds. Chief among these is the very tall nose or bow, which has been designed with a view of keeping the ship from dipping too deeply while cutting her way through head-on seas. Passengers on the fastest ocean steamships have frequently noted with no small consternation the habit of their boat to push ahead right through the billows while going at full speed, instead of topping them as a slow-going steamer would. Even such enormous vessels as the Oceanic which stands out of the water

as high as a four or five story building have a habit of plunging straight through mountainous seas right ahead of them, so that the forward deck is completely submerged for a few moments. This will be obviated to a considerable extent in the construction of the Meteor, as stated above by extra tall bow, which rises sufficiently high above the water to clear the tops of the average billows to be encountered in a trip across the Atlantic.

The Meteor will measure 600 feet in length, with a 63-foot beam, and she will have a displacement of 30,000 tons. These figures, reduced to plain English, mean that she will be slightly larger than the biggest Atlantic liners of the present day, with one or two possible exceptions.

Her interior accommodations will be larger than those of any other ship afloat on account of the substitution of electricity for steam. There will be steam engines and batteries of boilers on the Meteor, of course but only those of a new and compact type sufficiently large to drive the generating dynamos which will run the motors for turning the sixteen screw propellers.

Fascinating as such prospects are, from an engineering viewpoint, the average American is more interested in the glowing prospects of this country winning the Atlantic blue ribbon from the German shipbuilders, who, with the Kaiser Wilhelm der Grosse, seven years ago plucked the coveted trophy from England, where it was held for more than fifty years. The main purpose of the Cunard Company in planning their new ocean racers is to restore the prestige of England as a builder of the fastest vessels afloat. Germany renewed her lease on the title last year when the Hamburg-American liner Deutschland crossed from Cherbourg to New York in slightly over five days, breaking all previous records including her own.

To the people of the greatest maritime nation on earth this was a crushing blow.—Examiner.

### JAPANESE LAND MEN.

Associated Press, Morning Service. CHEFOO, July 1.—The Japanese have landed another division of 10,000 men on the Elliot islands to assist the campaign against Port Arthur.

The Elliot group is an irregular chain of islands, fifteen miles in extent off the east coast of the Liaotung peninsula. It was seized by the Japanese at the beginning of the war and made a base of naval operations against Port Arthur.

Chronic Diarrhoea.—For several years during the summer months I have been subject to looseness of the bowels, which quickly ran into a very bad diarrhoea and this trouble was frequently accompanied with severe pain and cramps. I used to call on doctors for my trouble but it became so regular a summer affliction that in my search for relief, I became acquainted with Chamberlain's Colic, Cholera and Diarrhoea Remedy, which proved so effective and so prompt that I came to rely exclusively upon it, and what also happily surprised me was that while it almost instantly relieved the cramps and stopped the diarrhoea, it never caused constipation. I always take a bottle of it with me when traveling.—H. C. Hartman, Anamosa, Iowa, U. S. A. For sale by all dealers, Benson, Smith & Co., agents for Hawaii.

**ALAMEDA ARRIVES  
 FROM THE COAST**

BRINGS THREE DAYS LATER MAIL  
 —SIGHTS THREE SAILING CRAFT  
 —SMALL LIST OF PASSENGERS.

On time as usual from San Francisco  
 the S. S. Alameda poked her nose  
 around Diamond Head this morning  
 shortly before 6 o'clock and was off the  
 harbor at shortly after 6 o'clock. She  
 came into the harbor and was docked by  
 8 o'clock. She brought only a small  
 list of passengers. She had 850 tons of  
 general freight for this port. She came  
 down in 5 days, 17 hours. The vessel  
 brought 154 sacks of mail, of which 34  
 sacks were transferred to the Manuka  
 for Australian ports.

The Alameda sailed from San Fran-  
 cisco June 25. She experienced good  
 weather. During her voyage she sighted  
 three schooners. On June 26 at noon  
 in Lat. 35:09, Long. 129:29, a topmast  
 schooner was sighted steering west. At  
 3:50 a. m. the following day in Lat.  
 32:42, Long 135:10 she sighted a three-  
 masted schooner going in the same di-  
 rection, and at 12:13 p. m. of the same  
 day in Lat. 32:36, Long 136:25 she passed  
 a four-masted schooner, also steering  
 west. The identity of none of these  
 vessels was ascertained.

Among the passengers who arrived on  
 the Alameda was Rev. Dr. W. B. Craig,  
 chancellor of Blake University. He has  
 come to occupy the Central Union pul-  
 pit during the absence of Rev. W. M.  
 Kincaid.

I. Chapman, owner of the Seaham and  
 Abernath coal mines of Australia, is a  
 passenger. He will proceed to Sydney  
 by the next Oceanic steamer.

James L. Cockburn of Bishop & Co.'s  
 bank returned from a vacation on the  
 mainland.

H. T. Hayselden returned from the  
 mainland.

C. V. E. Dove, the surveyor, returned  
 from a trip to the mainland.

Miss Hoffman returned.

A. F. Hunt is the agent of the Santa  
 Fe Railway Company at Williams, Ariz-  
 ona. He is on his bridal trip.

Mrs. S. B. Randall is the wife of the  
 master of the tug Leslie Baldwin at  
 Kahului.

Miss Dorothy Effinger, daughter of  
 John Effinger of The Guide, returned  
 from a visit to the mainland.

James Wakefield is an employe of T.  
 H. Davies & Company.

Captain Smith, formerly master of the  
 bark Mauna Ala, which was wrecked  
 on the western Mexican coast, arrived.

The Alameda will sail for San Fran-  
 cisco at 9 a. m. next Wednesday morn-  
 ing from the Oceanic wharf.

**CALL ON FAIRBANKS**

CHICAGO, June 32.—The delegations  
 from the Pacific Coast states and from  
 Hawaii and the Philippines made a for-  
 mal call on Senator Fairbanks in a  
 body this evening and extended to him  
 in the name of the people of the Coast  
 and the sea their best wishes and as-  
 surances of support.

**TRAMP STEAMER  
 ARRIVES TODAY**

SHE NEEDS COAL AND PUT IN-  
 TO PORT—HAD CLEARED FOR  
 YOKOHAMA AND HONOLULU.

The British S. S. St. Hubert arrived  
 this morning unexpectedly from Iquiqui  
 with a cargo of nitrate. She is en route  
 to Yokohama. She left Iquiqui May  
 31. She experienced pleasant weather  
 with some rough seas. The vessel was  
 short of coal, so she put into this port  
 for 250 tons. As soon as she has this  
 aboard, she will resume her voyage to  
 the Orient.

When the St. Hubert first arrived it  
 was reported that she was in distress.  
 Collector Stackable looked at her pa-  
 pers and saw that she had cleared for  
 Yokohama via Honolulu, evidently in-  
 tending to put into this port. As the  
 result of this information, she will have  
 to pay tonnage, entrance and clearance  
 axes amounting to about \$158. She has  
 4,000 tons of cargo.

**MANUKA MADE  
 A NEW RECORD**

A new record from Victoria and Van-  
 couver to Honolulu was made today by  
 the new S. S. Manuka of the Union S.  
 S. Company. The vessel cut the best  
 record by ten hours, arriving off the  
 port at 5 a. m. today from British Co-  
 lumbia. The best previous record was  
 6 days and 19 hours made by the S. S.  
 Aorangi August 25, 1900. The Manuka  
 made the distance in 6 days, 9 hours.  
 She could have come down in much  
 faster time, but she was slowed down  
 yesterday afternoon as Captain Phil-  
 lips figured that the vessel could not  
 make Honolulu in time to enter the port  
 last night. The vessel sailed at noon  
 today and she will set a new record for  
 the Vancouver-Sydney run by getting  
 into Sydney three days ahead of time.

The vessel is to make one more trip  
 from Sydney to Vancouver after which  
 she will go on the run between Austral-  
 ia and New Zealand. The S. S. Mo-  
 ana will resume her Victoria and Van-  
 couver run after the Manuka retires.  
 Purser B. B. Bendall will go back to the  
 Moana, much to the satisfaction of peo-  
 ple of the through run.

George P. Davies and wife returned  
 from making the round trip on the Ma-  
 nuka.

C. J. McCracken and R. Oberwimmer  
 and family are Honolulu residents who  
 returned from a visit to the mainland.  
 William Burton is the head of a bank  
 at Suva.

The Manuka has not a very large  
 through list, as the travel is all from  
 the Colonies at this time of the year.

The vessel left Vancouver June 24 and  
 Victoria the night of the same day.  
 During the stay of the vessel at Van-  
 couver she was thrown open to inspec-  
 tion. An admission fee of ten cents  
 was charged. Over \$100 was realized.  
 This money was donated to charity.

**FEAR FOR CRUISER.**

SAN FRANCISCO, June 23.—The Aus-  
 trian warship Empress Elizabeth is lost  
 somewhere on the high seas. She is a  
 month overdue and at the Austrian  
 Consulate in this city grave fears for  
 her safety are felt. Yesterday Karl  
 Ruiz d'Roscas, secretary of the Aus-  
 trian Consulate and who in the absence  
 of Francis Korbel is acting as Consul,  
 have run afoul of one of the torpedoes  
 set for instructions regarding an in-  
 vestigation as to her whereabouts.

The Empress Elizabeth was last  
 head of in Asiatic waters near the  
 scene of the naval battles of the Rus-  
 sian-Japanese war, and Secretary Ros-  
 cas thinks it is not improbable that she  
 has run afoul of one of the torpedoes  
 set as a trap for the enemy in the Rus-  
 sian waters. The warship was to have  
 arrived here in the latter part of May  
 and to stay here until the Fourth of  
 July, when she was to complete a trip  
 around the world begun about six  
 months ago.

The Empress Elizabeth is a modern  
 cruiser and carries about 600 men. She  
 has nineteen guns.
