Big Battle Takes Place In South America

(Associated Press Cable to The Star.)

BUENOS AYRES, June 29.—A fierce battle has been fought at Tupambac between troops of the Uruguay Government and rebels. The government lost 600 killed and 800 wounded, the rebel loss being 100 killed and 600 wounded.

RUSSIAN SUBMARINE LOST.

ST. PETERSBURG, June 29.—The new Russian submarine boat *Defin* met with disaster here today during a trial. She sank while her commander was experimenting with her, and twenty-one officers and men were drowned.

RUSSIAN SHIPS COLLIDE.

ST. PETERSBURG, June 29.—It is reported here that the Russian man-of-war *Netromenia* rammed the battleship *Navarin* while they were manoeuvring near Cronstadt. The damage done to the ships is unknown.

JAPS CAPTURE FORTS.

TOKIO, June 29.—An unofficial report has reached here to the effect that the Japanese have captured three forts to the south of Port Arthur.

PROHIBITIONISTS ORGANIZED.

INDIANAPOLIS, Ind., June 29.—The National Prohibition Party met today in convention and organized for the coming campaign.

NINTH CONTEST OF THE OARSMEN

THE HEALANI AND MYRTLE ROWING CREWS AND THE STANDING TO DATE.

The Pearl Harbor races next Monday will be the ninth rowing contest between Healani and Myrtle Senior and Junior crews. In the senior event the crews are tied and there is heavy rivalry, though the Myrtles appear so far in better form. The Healanis will put up a warm contest however. The results of past events have been as follows:

Senior	Junior
1896.....Myrtle	Myrtle
1897.....Myrtle	Myrtle
1898.....Healani	Healani
1899.....Myrtle	Myrtle
1900.....Healani	Myrtle
1901.....Healani	Myrtle
1902.....Myrtle	Myrtle
1903.....Healani	Healani

The best time ever made in the Senior event was 9:48 by the Myrtle in 1897. Last year the time was 10:05 2-5. The Healanis have the record as Juniors. It is 10:14 2-5, established in 1898.

W. W. Harris of the Regatta committee leaves this evening for Pearl Harbor to complete the arrangements for this year's events.

The Regatta Committee met yesterday and chose officers for the day. The judges will be Acting Governor A. L. C. Atkinson, A. A. Wilder and Lieutenant Hamilton. The three judges will select a starter.

The timekeepers will be L. P. Scott, C. L. Crabbe and Chris Willis. The Regatta Committee in general charge is composed of Carl Rhodes, W. W. Harris and W. H. Soper.

WOULD RETURN TO HAWAII

GILBERT ISLANDERS FIND THAT HOME IS NOT ALL THAT THEY EXPECTED IT TO BE.

The Gilbert Islanders who waited twenty years for a chance to get back to their native country from Hawaii, are now anxious to get away. Their native islands in reality are not what they pictured them through the recollection of twenty years. A considerable number of them have already contracted themselves as laborers to other parts of the Pacific some of them being now on Fanning Island. These say that their compatriots are very much dissatisfied and wish they were back in Hawaii.

These Gilbert Islanders are the remnant of a large number who were brought to Hawaii as laborers, a quarter of a century ago. Most of them were returned to their homes at the expiration of their term of contract. Some, in all several hundred, remained behind for one reason or another, forgetting their right to be transported back by their employers. As the years passed by, a homesickness and longing to get back to their islands came over them, and they lived merely in the hope of getting back to the Gilbert Islands.

Some months ago, through the efforts of Rev. Dr. Hiram Bingham, for many years a missionary to the Gilbert Islands.

DR. COOPER WILL REMAIN ON BOARD

HE CABLES ACTING GOVERNOR THAT HE IS WILLING TO SERVE ON BOARD OF HEALTH.

Dr. C. B. Cooper, who went East to attend the National Medical convention as delegate from Hawaii, has cabled to Acting Governor Atkinson his willingness to continue to be a member of the Board of Health, and he will therefore probably be reappointed. Dr. Cooper was President of the Board before President Pinkham. Governor Carter accepted his resignation as President as a result of differences in

DR. CHARLES B. COOPER.

policy, but Dr. Cooper remained a member of the Board, his commission as a member being separate from the commission as president.

Before leaving Dr. Cooper expressed himself as disposed to retire from the Board altogether when his commission expired, which will be next month. The members of the board asked him at the time when he retired as president to remain on the board and he continued to take an active part in the work.

Dr. Cooper was appointed by Surgeon General Wyman of the U. S. Marine Hospital service, to represent Hawaii at the national convention of medical health authorities, and he gave special attention to the matter of leprosy. One of the main propositions which the doctor went to discuss was that of securing federal aid in the scientific study of leprosy at Molokai, and he took with him two thousand copies of a leaflet showing Hawaii's enormous expenditures on leprosy and showing also the large sums which the federal government take away from the islands as compared with the small amounts paid out here by the government.

Dr. Cooper is expected to return about the middle of next month.

PUBLIC WORKS WILL ARBITRATE

DISPUTED VALUATION OF BISHOP ESTATE LAND SUBMITTED TO THREE COMMISSIONERS.

Harry Armitage, J. F. Morgan and A. V. Gear have been chosen as arbitrators to settle the value of the Kailua reservoir site, on which the Bishop Estate and the Public Works Department have failed to agree, after considerable discussion. The contract for the reservoir has been let, but the government has not yet acquired a site, owing to a wide difference of opinion between Superintendent Holloway and the Bishop Estate trustees as to the value of the land.

The site consists of two acres of land in Kailua valley. Superintendent Holloway offered \$125 per acre for it, claiming that this was full value under the circumstances, as there are said to be betterments to be considered. The price asked was \$500 per acre. As it was found impossible to come to terms there was talk of condemnation proceedings, but both parties have agreed to abide by the decision of three impartial commissioners, thus saving the time and expense of litigation.

JAP COMPANY WILL OPERATE

TOYO KISEN KAISHA MAY MAKE PORTLAND INSTEAD OF SAN FRANCISCO A TERMINUS.

The indications are that the Toyo Kisen Kaisha will resume its American service but with a different terminus. According to advices brought today by the S. S. Coptic, the Japanese company is to operate the S. S. America Maru between the Orient and America, but San Francisco is not to be made the terminus of the line. Portland is to be the terminus in future. The America

Maru is to be the first vessel to be operated under the new service.

The vessels of the Toyo Kisen Kaisha were operated under a joint traffic arrangement with the Pacific Mail and O. and O. S. S. Companies. Both of these lines are controlled by the Southern Pacific R. R. Company. When the vessels of the Japanese line had to be withdrawn, owing to the demand for those boats by the Japanese government owing to the war the other companies took the position that the Toyo Kisen Kaisha had violated its agreements with them by disarranging the schedule. When General Agent Avery sought recently, to try and renew the former traffic arrangements after the America Maru was put into merchant marine commission, he did not meet with very cordial support. The result was that it was decided to abandon the San Francisco service temporarily at least.

Since that time Avery and one of the head men of the company have been in New York negotiating with other railroad interests for railroad connections on the mainland. According to the report brought by the Coptic, those negotiations have been satisfactorily settled with the Northern Pacific Railroad and the result is that the Toyo Kisen Company is to operate with Portland as an American terminus, cutting out San Francisco altogether.

The Mongolia and the Manchuria, the new vessels of the Pacific Mail Company, are both to be operated out of San Francisco, and they are supposed to take the place of the Japanese vessels.

Before the Mongolia was put into the Oriental-San Francisco service, however, it was reported that those vessels were to be operated between Portland and the Orient. According to the present outlook, the Pacific Mail vessels are to replace the Japanese boats out of San Francisco and the Jap boats are to collar the Portland traffic. The America Maru will, it is understood, sail from Yokohama next month on route to Portland.

The Jap company will charter other vessels to maintain the service.

CANE FIRE AT MAKAWELI

A cane fire took place at Makaweli on Monday night between 8 and 9 o'clock. News of the occurrence was brought this morning by the steamer Mikahala which arrived from Kaula ports. The fire was discovered at that time but was extinguished before it had spread to any extensive area. Between 7 and 8 acres of cane were destroyed by the fire. The damage is not material.

TO LEASE LISIANSKY

ACTING GOVERNOR ATKINSON HAS A CONFERENCE WITH THE LEADER OF THE JAPANESE BROUGHT BACK HERE BY THE THEFTS—THE ISLANDS MAY BE SOURCE OF REVENUE TO TERRITORIAL GOVERNMENT.

Acting Governor Atkinson had a long interview this afternoon by the aid of an interpreter, with Shugetsu Tsunetato, the headman of the Japanese expedition which went to Lisiansky Island for the purpose of killing birds and which was rescued from starvation by the revenue cutter *Thetis*.

The Japanese gave full particulars of the expedition, the wages paid the men and the probable value of the bird skins. All of the information gained was recorded by a stenographer for future use.

"My object in getting this informa-

tion in shape is to see if the islands cannot be made a source of a large revenue to the territory," said the Acting Governor. "The federal government seems to intend to do nothing in the matter and there is no reason why the territory should not lease the bird killing privileges of these islands to such persons as have the enterprise to go there. The birds would of course be protected from extermination and that at present seems to be the only fate in store for them. Their plumage is very valuable and they may prove a welcome asset for Hawaii."

EXPERIMENT STATION LAND

PLANTERS' ASSOCIATION ACQUIRES MORE LAND ADJOINING ITS STATION IN MAKIKI.

By a deed dated June 24th 1904 and registered this morning, a transfer has been made by Mrs. Margaret Lishman and William Lishman, trustee, of a large block of land in Makiki to the Hawaiian Trust Company, Limited, as trustee for the Hawaiian Sugar Planters' Association. The land immediately adjoins that at present used for experimental purposes by the association on Wilder avenue. It has frontages of 150 feet on both Makiki street and Keeaumoku street with a depth of 500 feet. The price paid for the land was \$11,610.

The S. S. Coptic sailed at noon today for the Orient.

OFFICIALS' TRIP AROUND OAHU

GOVERNOR, LAND COMMISSIONER, SUPERINTENDENT OF PUBLIC WORKS AND HIGH SHERIFF.

Acting Governor Atkinson, Superintendent Holloway, Land Commissioner Pratt and High Sheriff Brown will start on Friday for a tour of this island, for the purpose of investigating matters connected with the various departments. The main object is to expedite loan bill expenditures, and considerable work will probably be decided on as a result of the trip. The party expects to return on Monday.

The care of bridges is one matter which will be taken up. The Waialua bridge is reported to be in danger of rusting and being spoiled like the expensive bridge on Kaula, which Governor Carter found to have been ruined by lack of attention. Frequent coats of paint are said to be necessary, especially near the sea air, in order to preserve the iron frame works, and it is proposed to use available funds for this purpose.

The High Sheriff is to be the military strategist of the expedition. He will look after the transportation and commissary departments, relieving all the rest of anything but their own special troubles. The sheriff has his own pliki in addition, for he proposes to call attention to jails and court houses which need repairs, and have work started on them.

MANY CANDIDATES IN THE SECOND

REPUBLICAN PRECINCT CLUB TO ELECT AN EXECUTIVE COMMITTEE THIS EVENING.

There are about a dozen candidates for the five positions on the executive committee of the Second Republican Precinct Club of the Fourth District, and some lively canvassing for the election this evening is being done. The election begins at 7:30, in the precinct meeting place at the corner of Wilder Avenue and Keeaumoku street.

The following are among the candidates: W. T. Rawlins, Col. J. W. Jones, William Aylett, Frank Kruger, G. B. McClellan, W. Monastret, Manuel Cook, Oliver Swain, Charles Crane, J. Little. One "slate" for which a good deal of hustling has been done consists of Rawlins, Jones, Kruger, Aylett and McClellan.

MONGOLIA WILL HAVE AMPLE ROOM

BIG VESSEL IS EXPECTED HERE JULY 7, WITH 1,700 TONS OF FREIGHT.

H. Hackfeld and Company, Ltd., agents of the Pacific Mail S. S. Company, received a cablegram this morning announcing the departure of the S. S. Mongolia for Honolulu and San Francisco. The vessel sailed either late yesterday or early this morning from Yokohama for this port. She has 1,700 tons of freight for Honolulu. She is expected to arrive here some time July 7. She will be at least 15 hours in port and will probably sail either the evening of that date or the morning following.

The big vessel will be able to accommodate all the passengers booked to depart by her. She will be able to take from 125 to 150 cabin passengers.

Times of the tide are taken from the U. S. Coast and Geodetic Survey tables. The tides at Honolulu and Hilo occur about one hour earlier than at Honolulu. Hawaiian standard time is 10 hours 30 minutes slower than Greenwich time, being that of the meridian of 157 degrees 30 minutes. The time whistle blows at 1:30 p. m., which is the same as Greenwich, 3 hours, 0 minutes. The Sun and moon are for local time for the whole group.

SPOKE THE ASTRAL.

The American bark St. David which arrived at San Francisco June 19 from Newcastle, spoke the American ship Astral in Lat. 4:19 south, Long. 154 degrees west, on May 5. The Astral is bound for Delaware Breakwater with a cargo of sugar from Honolulu.

EXCURSIONISTS ON AORANGI.

The remarkable passenger list of the R. M. S. Aorangi on her present north bound trip is in a measure due to a generous rate given by the Canadian-Australian line for excursionists from Australia who wish to visit Canada. For the round trip from Australia to Canada with some three weeks spent in the Rocky mountains or at any of the Canadian Pacific hotels along the line with all living and travelling expenses paid only sixty pounds or \$300 is charged. So many take advantage of the chance for a holiday trip of such extent that the accommodations of the liners are taxed to the fullest extent.

CONEMAUGH SEARCH STOPPED.

SAN FRANCISCO, July 29.—The orders issued to the cruiser Tacoma to proceed to sea and search for the missing steamer Conemaugh were countermanded. The cruiser sailed from here two days ago merely for a trial spin, and returned today. The Tacoma went up to the navy yard at Mare Island later in the day.

LIGHT HOUSE NOTICES.

The following notices of changes in the buoys at various places on the Pacific Coast, are published by authority of the Light House Board:
"Notice is hereby given that Blunts Reef Whistling Buoy, painted red and marked 'BLUNT,' in white letters, off Cape Mendocino, California, heretofore reported not sounding, was replaced June 16th by a perfect buoy."
"Notices is hereby given that the first-class spar buoy, red and numbered 2, marking the outer end of South Jetty, Humboldt Bar, California, heretofore reported adrift, was replaced June 13th in about the same position, in 21 feet of water."
"Notice is hereby given that on or about June 27, 1904, a second-class spar buoy, painted red and numbered 6 1/2, will be established in Suisun Bay, California, to mark the westerly entrance to New York Slough."

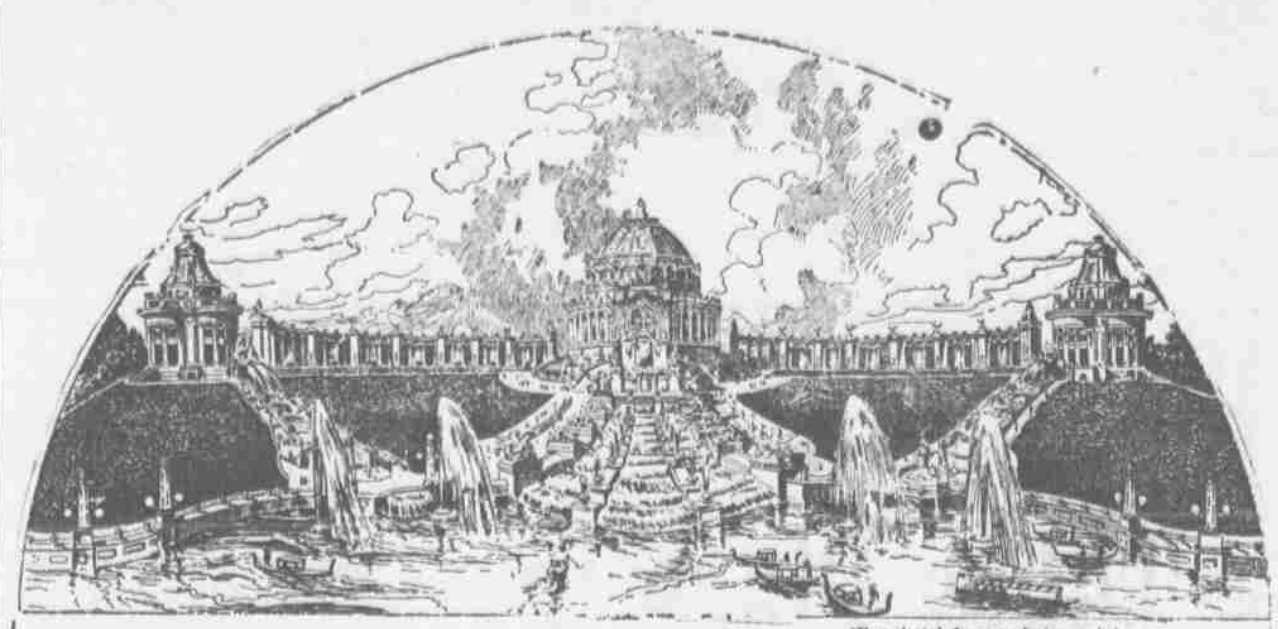

KEKUKA DISAPPEARS.

James Kekuka, a copyist in the Bureau of Conveyances, left his office last Friday and has not been seen since. Co-incident with his disappearance two endorsed receipts for a June salary have appeared in the office of Auditor Fisher.
Kekuka is an expert copyist and has been in the bureau since 1901. Registrar Merriam is at a loss to account for the man's action in going away. An order for his discharge has been entered against him.

SURVIVED HORRORS OF THE DEEP

SUFFERINGS OF AMERICAN BARK HOLLISWOOD TOLD BRIEFLY IN SAN FRANCISCO PAPERS.

Last Friday, there arrived at San Pedro, California, the American bark Holliswood then out 118 days from Newcastle, N. S. W. for San Francisco. The vessel was then overdue and her crew had been starving for days.

In the news files which arrived yesterday by the S. S. Coptic, the following story of the sighting of the vessel before she made land is told by the San Francisco Chronicle:

"Br. schooner Transit, from Columbia River; sighted Am. bark Holliswood, Newcastle for S. F. 25-30 N., 122-50 W.; looking, sails gone; crew have been without food or water for several days; supplied provisions."

"Somewhere out yonder below the summit of the hill of water that rises to the skyline the captain and crew of an American bark are fighting for their lives their ship and the cargo entrusted to their care. They have been fighting their way up that hill of water for nearly a month, at times almost topping the rise to where it was a straight reach for 'home' and shore grub, and each time they have been rolled back by adverse winds. Facing death by starvation, weakened by over-work and exposure, their ship leaking badly and their sails blown away, they are still fighting. At times they have been within 100 or 200 miles of shore, and at any time they might have abandoned their helpless and waterlogged craft, twice they might have been taken off by passing vessels, but the captain refused."

"Give us something to eat and some medicine and we will fight it out," said Captain Knight. It is an American bark and an American captain, and with him is his wife and seven-month-old babe.

"The Holliswood, 1084 net tons, owned by Stephen H. Mills of New York, Knight, master, left Newcastle, Australia, 113 days ago with a cargo of coal for this port and was due nearly a month ago. She was posted yesterday as overdue and 15 per cent asked for reinsurance. In a short time the rate had advanced to 20 per cent and during the day about \$5000 was placed on the overdue. There was a growing belief yesterday afternoon that the bark had foundered."

"Prior to last night the only time the Holliswood had been spoken was on May 26th. On that date the German bark Servia from this port for Puget sound sighted the Holliswood nearly 600 miles northwest of here and in answer to her signals bore down. The Holliswood was then leaking and the men were on short rations. From his own store Captain Balkman of the Servia supplied the Holliswood with four days' provisions and Captain Knight, signifying his determination to fight it out, the Servia stood on her course. That was twenty-three days ago and the crew was then on short rations."

"The schooner Transit, from Puget Sound reached San Pedro last night and Captain Kintholm, master, at once wired the memorandum first above given to the Merchants' Exchange in this city. The date he sighted the bark he failed to give, but, from his report, it is presumed to be on the 14th. From the latitude and longitude given the Holliswood was then a little over 100 miles southwest of this port. Twenty-three days ago the ship was 600 miles northwest of here; now she is over 100 miles southwest, or was three days ago. Where she is now—"

"Brief and laconic is the memorandum of the master of the Transit. 'Crew has been without food or water for several days.' He goes into no details as to the condition of the men; he simply states the fact as all in 'the day's work' of those who follow the sea. He gave them all the provisions he could spare from the slender store of his little schooner. He would have taken the captain and crew on board, but Captain Knight said he would 'fight it out.'"

"For twenty-three days the ship has been drifting and toasting from 100 to 200 miles along shore for a distance of 700 miles. The four days' provisions given the crew by the Servia is distributed on half-ration basis lasted probably eight days. If doled out in one-quarter allowance it lasted sixteen days, and yet there are four days unaccounted for when the Transit sighted the bark on the 14th. They were on short rations when sighted by the Servia for a month that crew of an American bark has been hungry—starving, in fact; but 'stood by the ship,' manning the pumps and trying to rip some ribbons of sails, and on the ship is a woman and a babe. 'When sighted by the Transit the Holliswood had been becalmed for several days, but was then struggling with adverse winds.'"

"The owner having appealed to the Government the revenue cutter Manning was dispatched yesterday on a search for the missing bark. But the Manning sailed northwest and the starving crew of the Holliswood is somewhere to the southwest. However, a strong tug well provisioned will probably be dispatched this morning to bring the bark to port."

A Good Lesson For Protection

Mr. Chamberlain is teaching his countrymen a very great deal. Among other things he has taught them a lesson from the tinplate trade. The tariff twenty years ago left the tinplate trade to Great Britain, and the amount of tin-plate sent to America amounted to millions of pounds in value and gave thousands of workmen employment. If at that time, twenty years ago, the British Government had negotiated commercially with the United States, had virtually asked to retain the trade, and in return had given the United States some advantage upon some of the articles which they produce, the tin-plate trade might have been saved. Instead of this the tin-plate trade has been lost, the millions have disappeared, and the thousands of workmen are idle. Again he points out that a similar course with regard to Germany might have saved hundreds of articles once manufactured in Great Britain, from being manufactured in the former country. The printing of cards in colors, lithographing and artistic work is nearly all done in Germany, and the products sold in England. This is also true of many lines of hardware. And it is not only this, but the United Kingdom has lost her markets all over the world. Germany and the United States supply what used to be supplied by the former. The United Kingdom has not only lost her trade, but it has to buy what it formerly manufactured. This certainly must be very clear in its results. Articles which brought a profit are now manufactured elsewhere. The profit is gone and the workman who used to make good wages is out of a job. The British free trader has now to buy more than he has to sell, or in other words his imports are in excess of his exports. No nation can go on at such a rate for ever. However great the accumulated wealth may be, and the accumulated wealth of the United Kingdom is enormous, it cannot stand such a strain indefinitely. Through our tariff we have profited enormously, if the United Kingdom had worked on similar lines twenty years ago it would have not only profited enormously, but it would have saved hundreds of industries which have now gone out of its hands. It would have "protected" them. That is the illustration of "protection" which is so stringently urged by the Republican party, and which is so bitterly attacked by the Democrats. Would we like to see our industries drifting away from us for lack of protection? A Democratic victory, of which, fortunately, there is no fear, would mean that.

Liberia as a Negroes' Resort

Liberia is one of those out of the way places which is seldom heard of, still it is of great interest to the United States. First because it was established as a free Republic by the United States as a place where freed slaves might find a congenial home, and second because after the abolition of slavery it has been a place to which the negroes have occasionally emigrated to. It must be a somewhat curious spot since there are no beasts of burden, but then the services of men are cheap. The west coast of Africa is said to be hostile to beasts of burden, and especially to the horse. The absence of that animal from the seacoast would indicate the truth of this statement, though the ox and the horse thrive in the interior, and the camel and the elephant breathe their native air anywhere in Africa. Strange, neither the ox, the camel, nor the elephant has been domesticated to serve the purpose of man in the Republic. This neglect is perhaps due to two causes—ignorance of the methods of domestication of these animals on the part of the civilized population and economy on the part of the trader, as it is cheaper to keep a man than a horse. The aborigines are the beasts of burden. They do precisely what the horse and the mule—in fact, the locomotive—does in the United States. Generally the native man is as strong as an ox. His muscles are well developed on a massive frame and stalwart form; he travels hundreds of miles in the interior with heavy sacks of merchandise either on his head or across his shoulders, with only a cotton on his head to modify the weight of the load. He conveys passengers to and from the interior in a hammock suspended from a horizontal piece of timber, the ends of which rest on his bare shoulders. In this way, for days, weeks, and months, he travels across mountains and rocky plains, fording deep creeks and swimming dangerous rivers. He tills the soil, fells the forest, digs the ditches, bridges the rivers, waits at the table, and does the laundering and cooking and, in fact, everything that a man or a beast would be expected to do in the way of toil. For these services he is compensated as follows: As a carrier for the interior he receives 24 cents per day as wages and from 8 to 12 cents for subsistence; as a laborer on the farm he receives from \$2.50 to \$3.50 per month and his rations, which consist of 1 quart of rice and 1 pound of stockfish per day; as a laborer his wages never exceed \$4.80 per month and his rations. This cannot prove a very attractive place for the American negro, who is accustomed to good wages and a much more liberal diet, yet it is urged by some writers and speakers that Liberia is the solution of the negro problem. It is not attractive enough for the mass of the negro population though some of the farming classes have emigrated there and taken up land, of which there is an abundance.

Peonage on The Mainland

It would surprise any one to learn that conditions of peonage exist on the mainland. Yet an inquiry instituted by the Federal grand jury of Alabama has proved that it does. Judge Jones of the Federal court was asked for definition of the term and other points, and reported in an elaborate opinion. He held that state statutes under which a person could be subjected to imprisonment for mere breach of private contract was not only unconstitutional, but created a system of peonage. In the South, in many states, the prisoners, chiefly negroes, are farmed out to contractors, who employ them on various works. Peonage, according to Judge Jones, means a system of compulsory labor or service in discharge of contracts, debts or obligations. Congress first took cognizance of the question in 1867. Conditions of peonage existed in the territory of New Mexico, which had derived the institution through Mexico, and through Mexico from Spain. This illegal sale of a man's labor is held as totally unAmerican, which it certainly is. But it is also certain that it exists in many of the Southern States. The evil of it, on the working citizen is clearly shown. The court put it very clearly. It asked "How can the pain of a farmer or manufacturer of turpentine or lumber, who labors for himself with the assistance of his sons or hired help, hope for fair play in the market when a huge saw mill in the vicinity, or an unscrupulous planter with a stockade full of unpaid hands, can underbid his prices?" But the evil goes further. Through this system of peonage, that is the

GOLD FINDER IS REWARDED

DISCOVERER OF THE CANADIAN ELDERADO IS GIVEN A GOVERNMENT JOB.

VANCOUVER, B. C., June 22.—A despatch received at Dawson announces the appointment of Robert Henderson, the discoverer of gold in the Klondyke, as assistant engineer of Yukon Territory. The appointment is given Henderson as compensation for a claim which he lost in the early days of the Klondyke rush. Henderson discovered gold on Gold Bottom Creek before Carmack found it on Bonanza. Carmack had been his guest and had promised to inform Henderson if any find was made. Instead he rushed to Forty Mile to record. When Henderson reached Forty Mile later he was allowed only one claim instead of two. The second, or discoverer's claim, proved rich. He recently went to Ottawa to secure compensation for the seeming injustice.

MORE HORRORS OF WAR.

KOO-CHEE, June 22.—General Kuropatkin today received the Czar's message demanding a victory, and, after reading it, said angrily, "Fudge!" "I am sorry," said the commissary general, "but I can't fill your order. We're out of sugar." General Kuropatkin has selected the best horsemen he can find in the Cossack division and has organized them into a new regiment, to be commanded by Colonel Ampershomovitch. The new regiment will be known as the Electric Cavalry. Many of the officers have protested against the name, but Kuropatkin says he has made up his mind to use that name, and nothing can change him. "It is a most appropriate name for these horsemen, the pick of the army," he said to me. "I can't see it," said I. "I intend to use them to charge the Japanese," replied the general.

COLLECTOR IS REVERSED.

The Board of General Appraisers has rendered a decision in the matter of the appeal of the California Feed Company from the appraisement of Arabic Cooling Compound, by the local customs authorities. The compound is not dutiable at 20 per cent as the local authorities claimed, but 20 per cent. The protest has been sustained.

OTHER PERILS MORE SERIOUS.

"My dear sir," said the physician, "aren't you aware of the fact that ice water imperils your health?" "Yes," answered the weary looking man, "but when I have the bravery to live among all these germs and trolleys cars and automobiles I'm not going to shy at a glass of ice water."—Washington Star.

TRANSPORTS PAY BIG DIVIDENDS

DIRECTORS OF NIPPON YUSEN KAISHA DECLARE YEARLY ONE OF 12 PER CENT.

TACOMA, Wash., June 19.—The war has not prevented either the Nippon Yusen Kaisha or the Japan Mail Steamship Company from continuing its large profits. This company leased many of its steamships to the Japanese Government for use as transports, receiving a good rate of compensation, although the amount paid has been greatly scaled down since the Japan-China war of nine years ago.

At the semi-annual meeting of shareholders, held at Tokio, it was shown that the gross profits of the company for the half year ending on May 31st amounted to 3,000,000 yen. Half of this amount was added to the funds devoted to the depreciation of the fleet, insurance and structural repairs. This left a balance of nearly 2,500,500 yen, including 1,000,000 yen brought forward from the last account. The directors, through President Kondo, recommended that 73,000 yen be added to the reserve fund, raising it to 2,000,000 yen, and that 72,000 yen be allowed as directors' and auditors' fees. From the remainder, they recommended a dividend at the rate of 10 per cent, together with 2 per cent special dividend, making the yearly dividend 12 per cent, which will absorb 1,320,000 yen. These recommendations were adopted and the balance of 1,000,000 yen was carried forward. The company's lines are subsidized.

SOUTH INSULTS ISLAND KING

DUSKY POTENTATE WEEPS WHEN FORCED TO RIDE IN JIM CROW SECTION OF TRAIN.

LEXINGTON, (Ky), June 17.—King Ronbooy, from the South Sea islands with his private secretary and a retinue of servants, passed through here this afternoon from the St. Louis Fair to Chattanooga and the South. The King refused to be interviewed, and when seen at the depot he was surrounded by his servants and was engaged in wiping tears from his eyes, caused by the humiliation of being forced to ride in the colored or "Jim Crow" compartment of the train. The private secretary to the King could hardly converse in English, but from the tone of his conversation it was learned that the royal party intended spending several weeks in the South, but, owing to the humiliation of being forced to ride in the negro compartment of the Southern trains, it is likely they will return north in a few days.

LOCAL WEDDING CAUSE OF TROUBLE

YOUNG WOMAN IN SAN FRANCISCO ATTEMPTS SUICIDE ON ACCOUNT OF A HONOLULU MARRIAGE.

A Honolulu wedding of June 1 caused an attempt at suicide by a disappointed young woman in San Francisco, according to the Examiner. The following was published in that paper on the 17th:

In the island city of Honolulu wedding bells rang for Dr. H. H. James, but when their echoes were wafted to these shores the knell of the passing of love and of shattered hopes and dreams was sounded in the ears of pretty Miss Bertha Dickey.

Those wedding bells should have clanged for aër. He had said they would. The echoes from far across the seas told of broken promises, of another's joy and of her sorrow. And so she sought to end it all; to die with her blighted love and hopes and dreams. With a razor she attempted to take her life, but the arresting hand of her mother prevented.

And now Miss Dickey in her home at 3723 Folsom street, mourns over the wreck of her love and mildly raises her voice against the man who she says has deceived her. But a mother's wrath awaits the doctor should he ever return to this city, for Mrs. Valentine has nothing but bitterness in her heart for the man who jilted her daughter.

Three weeks ago Dr. James left this city vowing to return to claim Miss Dickey for his bride. The engagement had been announced and when the bride-to-be bade adieu to her betrothed at the steamer she expected his return within a few months. Two days ago a cablegram received in this city announced the marriage of Dr. James in Honolulu to one whose name is at present unknown in this city. The receipts of the news was followed by Miss Dickey's attempt at suicide. The Valentine household is all broken up as a result of the announcement of the marriage of Dr. James.

"I shall take my daughter away from here," said Mrs. Valentine, "if I can keep her alive. She suffers a great deal as a result of the affair. If ever James returns to this city I shall tell him what I think of him without mincing words."

"Dr. James and I have had quarrels," said Miss Dickey, "but it is he that has always asked my forgiveness. We had announced our engagement and when he left here he said he was going to Honolulu to get money enough to buy a home. I never thought that he would deceive me so."

On the 5th of last May he embarked for Honolulu. Miss Dickey was present at the sailing of the steamer with a number of girl friends. Miss Dickey has received one letter from the man since his departure. The news of the marriage of James in Honolulu came in a cablegram to one of his friends in this city. He stated that he was wedded on the 1st of June.

The records here show the wedding of Henry Hakes James and Miss Edythe Ellen Brown on June 1. They were married by the Rev. G. L. Pearson.

WUL HISTORY TO HAWAII (Continued from Page 1)

ands, passage was secured for the 200 or more Gilbert Islanders by the steamship Isleworth bound for Ocean Island. When they arrived at the Gilbert Islands those who had family relations there were allotted lands to live on. But these found that under the British regulations they had to work three days a week improving the land given them. Those who had no land given them had to work for their subsistence. Money is practically unknown, their labor being paid for in kind. The variety of food products in the Gilbert Islands is meager in comparison with those of the Hawaiian Islands. All these circumstances and other similar ones led to great disappointment among the Gilbert Islanders and most of them it is said are very anxious to get back to Hawaii.

AMEND EXTRADITION TREATY As a result of suggestions made by Governor Carter and Secretary Atkinson, negotiations are under way at Washington for a new extradition treaty with Japan. PETITION DENIED

IN CARTER ESTATE

JUDGE ROBINSON TEMPORARILY REAPPOINTS MRS. KAAE, REQUIRING NEW BOND OF \$3,500.

Judge Robinson yesterday gave a decision denying the petition to have H. W. Kinney appointed administrator of the estate of Margaret V. Carter and appointing Mrs. Jessie Kaae, who was removed as administratrix last February and took an appeal from the order of court removing her. Mrs. Kaae is now in the peculiar position of having been removed for alleged cause and as she continued to act pending an appeal, having secured a temporary reappointment from the court which removed her.

The petition to oust Mrs. Kaae was by Edgar Henriques, as guardian of Thomas J. Carter, H. C. Carter, W. L. Carter, Eunice K. Carter, Albert E. Carter, Harriet K. and Richard N. K. Carter, all minor children of the late Mrs. Margaret V. Carter. Henriques made numerous charges against Mrs. Kaae as administratrix, including neglect and misuse of the property of the estate. Judge Robinson removed her on February 9, and recently Henriques made another petition for Kinney's appointment, saying that Mrs. Kaae was continuing to act in spite of her removal and making more charges. Judge Robinson did not think the charges had been established, and instead of appointing Kinney, he gave Mrs. Kaae a double right to act pending the appeal by appointing her over again.

Judge Robinson requires the administratrix to file further accounts and inventories and to file a bond in the sum of \$3,500, by next Tuesday, the bond to be approved by the court. One of the grounds of Henriques' petition was that her \$4,000 bond was by the Fidelity company, which he claimed was insolvent. Judge Robinson did not formally rule on the sufficiency of the bond, but required Mrs. Kaae to file a new bond in the sum of \$3,500.

HIND-LOW FEES. Orders were made by Judge Gear yesterday awarding a fee of \$500 to W. G. Cooner as receiver in the suit of Hind vs. Low and a fee of \$150 to Smith & Lewis as his counsel. The suit was begun last March, between Hind and Low, who were partners in the ranch business and the receiver and counsel for him were appointed by Gear, on petition of Hind. Motions to fix compensation have been pending for some time. The original suit between Hind and Low was settled out of court. Judge Gear finds that Cooner furnished a bond as receiver in the sum of \$150,000, and that his services were worth \$500.

Leut. Edward Davis' leave of absence has been extended one month.
