## THE LEGISLATURE.

### SLIM ATTENDANCE OF MEMBERS IN THE HOUSE.

The New Land Agent to get Three Thousand Dollars Per Annum - Appropriation Bills Passed.

THIRTIETH DAY, JULY 20TH.

### THE REPRESENTATIVES.

After recess yesterday afternoon the House resumed consideration of the appropriation bill and the item of \$1800 for telephone connection between Pohoiki and Hilo passed.

Rep. Kumauoha moved that an item of \$500 be inserted for the purpose of opening a roadway from Smith's Bridge to Vineyard street.

Rep. Winston was in favor of letting the matter alone, as the government contemplated extending Maunakea street.

Rep. McBryde thought the road was unnecessary, as the Maunakea street extension was sufficient. He would vote against the item.

Rep. Bond said he had made a personal investigation of the proposed road and could not see the necessity for it. He would vote against any appropriation at present.

After further discussion the motion was withdrawn.

The item in favor of Iolani College passed.

The item of \$5000 for the Citizens' Guard was brought up for reconsideration and after some discussion was finally passed.

Act 15 concerning diseases of animals passed the third reading.

Senate Bill 5 appropriating \$8300 for internal improvements was read the first time and referred to the Finance Committee.

Senate Bill 6, appropriating \$54,600 for supplementary expenses of the government, passed the second reading.

The House then adjourned.

### TODAY'S SESSION.

Speaker Naone called the House to order at 10 o'clock this morning, nine members only being present. After prayer and reading of the minutes the reply of the Minister of the Interior to the question propounded by Rep. McBryde was read. It simply states that the building is being erected under the orders of the Minister of the Interior and the supervision of the Superintendent of Public Works as a protection for the pumping plant and that the building is being erected by day labor. No explanation is given as to why the job was not let out by contract.

The Speaker appointed the following special committee to investigate certain expenses of the Police Department: Kaeo, Robertson and Richards.

The bill relating to appeals from the District to the Circuit Court was taken up. After a good deal of useless discussion the bill was referred back to the Judiciary Committee.

Attorney-General Smith called attention to the immense expense entailed in engrossing bills, and advocated the printing of all bills instead, as being much cheaper, convenient and accurate. The Land Act cost nearly \$180 to engross whereas it could have been printed for about \$30 and 100 copies furnished instead of one. He hoped the joint committee would take action on the matter. The Minister further stated that the present practice in the Congress of the United States was to print all bills and send them to the President in that shape for signature.

The bill appropriating \$54,600 for salaries and pay rolls, which passed its second reading yesterday, came up on the order of the day.

Attorney-General Smith moved to insert an item of \$2000 salary of land agent at the rate of \$3000 per annum, stating that the land agent would be practically at the head of a new bureau and as such entitled to the same salary as other heads of bureaus. The item was adopted, after which the Attorney-General and Representative Kycroft indulged in a discussion on roads in Puna, Kona and elsewhere as a sort of sideshow, at the conclusion of which the bill passed by ten votes and the amendments were ordered engrossed and sent to the Senate.

The Senate Act to prevent foot binding was read the first time by title and referred back to the Senate, the certificate not showing the date of its passage.

Rep. Kaeo got in a slap at the Senate by referring to the slack manner in which its engrossing, etc., was being done.

Senate Act 14 to exempt canaille and its products from taxation was read the first time by title and passed. The rules were then suspended and the bill read a second time and passed and made the special order for Monday.

Senate Bill 8 appropriating \$102,780.28 for supplementary expenses of the government was read the third time, together with the amendments adopted by the House yesterday, amounting to \$23,700 was read the third time and referred back to the Engrossing Committee.

At 11:50 the House adjourned to Monday.

### FAREWELL SUPPER.

Hawaiian Lodge Entertains Its Visiting Brethren.

The members of Hawaiian Lodge No. 21, F. and A. M., entertained the visiting Masons at the Arlington hotel last evening. The dining room was tastefully decorated and tables were laid for forty guests. After discussing the many good things provided by Landlord Krouse, Col. Soper called on Congressman S. G. Hilborn of California for a few remarks. Mr. Filkins was also called on and in the course of his speech took occasion to present Hawaiian Lodge with a handsome gavel made of California woods. The usual toasts then followed. Col. Soper acting as toast master. Those present were CW Filkins and wife, FN Heath and wife, F A Conant and wife, Mrs. M A Heath, F F Collins, wife and son; Mrs. M E Field, Hon. S G Hilborn and wife, Miss Hilborn, T C Porter and wife, Andrew Brown and wife, C Williams and wife, Joseph Little, Dr. M E Grossman, J W Jones, Miss Keough, Mrs. Renner, Mrs. Krouse, C L Crabbe and wife, S Louisson, Captain Griffiths, E A Towse, M Phillips, M N Sanders, Col J H Soper, Miss Soper, Representative E E Richards and F L Hoogs. The banquet was the happy idea of Mr. Richards and a few others.

It is reported that Captain John Good of the regular forces is to be made Jailor of Oahu Prison, and James A. Low, the present Jailor, to be made Deputy Marshal.

There is a rumor about town that one Johnson, who used to be employed on the Oahu Railway, is detained on Maui by the authorities to ascertain what he knows about the opium supposed to have been landed by the yacht Norma.

## COLLECTOR UNDER A CLOUD

### CUSTOMS RECEIPTS AT HILO REPORTED SHORT.

Son of a Senator the Official Whose Accounts are Being Experted by Customs Officials.

J. B. Castle, Collector General of Customs, and Thomas E. Wall, bookkeeper of that bureau, are at Hilo on serious business. Upon their departure a contemporary stated that something was wrong with the accounts of the collector of customs at Hilo. That official is Charles Notley, son of one of the Senators from the island of Hawaii. He was employed in the office of the Honolulu Water Works before receiving his commission for the more lucrative office in the rainy town. Mr. Notley was one of the first men of some native blood to come out in favor of the Provisional Government, and his appointment to the collectorship of the second port in the country was easily attributed to that fact.

Some little time ago the police authorities of Hilo took notice of the mode of living of Collector Notley, which was apparently on a scale corresponding to about double his salary. It is true that he occasionally earned some money by a job of surveying, also a trifle by interpreting in the courts, yet this fact did not altogether disarm suspicions that everything was not square in the Hilo customs office. A lawyer was consulted and the sheriff of Hawaii was notified with regard to the suspicions, with the result that the matter was brought to the attention of the Collector General of Customs. Hence comes the present visit of that official to Hilo, accompanied by an expert accountant of his bureau.

Nothing definite is obtainable at present, and perhaps the result of the investigation will not be divulged—unless a member of the Legislature puts a question to the Minister of Finance—but it is common talk in Hilo that the customs revenue there is about four thousand dollars short. It is probably not more than the amount secured by the delinquent official's bonds, yet the case ought to be a warning to the Government against the dealing out of important offices as political rewards.

**Popular Topics of the Day.**

This filibustering business is growing monotonous; the people who are engaged in manufacturing rumors should switch off and do something else or the government will lose confidence in them. Such reports do the country no good and we fail to see where the rumor makers are benefited—Hawaii does not seem to mind it much for things are as quiet and peaceful here as in a well conducted grave-yard.

We believe we have quite the best stock of leather in Honolulu and it comprises besides sole leather the celebrated Speits light and heavy harness leather, and leather for saddles. The best of russett and red calf skins. Leather for carriage makers, colored lining skins and soft dash leather. All kinds of leather is higher today than it was two months ago; in some instances it has advanced as much as ten per cent, but as we were well stocked before the rise we can sell at the same old price and perhaps a little lower. We have a very complete stock of Shoe and Harness findings and tools for all kinds of leather work—the price of which is entirely satisfactory to all of our customers.

We have the goods and the prices will suit you.

**HOW JONAH LOOKED LATER.**

An African Convert Supplies History  
Where the Bible is Silent.

Here is a composition written by a little African girl at Palamas five years after she was caught running wild. It was read at a missionary meeting by Bishop Clark. The spelling is corrected:

**"HISTORY, GEOGRAPHY AND THE EARTH."**

Do you know what history is? History, you know, teaches us what is to happen in the past event. Geography shows where the thing has happened at. History tells us when Adam and Eve were created, and geography shows us where the Garden of Eden is— which continent and which division.

"History tells us that Adam was the first man that was created, and while he was sleeping God took out one of his ribs and made Eve. After a while he went to walk among the trees of the garden. Conversation took place between her and the devil. The devil told her to eat some kind of fruit which God had told her and Adam not to eat. She took it and ate it; also took some for her husband. When Adam saw it he did not take no time to ask where she got it from.

"History, geography and the earth just do go together. One tells us about this and one tells about that, etc. Histories are interesting to read, indeed they are. It tells us about the whale. The whale is the largest animal in the sea. Whale is spoken of by the Bible. When God had sent Jonah to Nineveh to preach to the people about their sins Jonah refused to go. He went into a ship with some people. He first went in there to hide from God, but God caused a storm to take place. The ship went from this way to that way. The people was afraid indeed, and they began to cast lots. The lot fell upon Jonah, so they up and threwed him into the sea.

"While he was going to the very bottom of the sea he went with this animal, so the whale said: 'My friend, where are you going?' Jonah answered and said unto him: 'I have disobeyed my God and am trying to hide from his face.' The whale said: 'You ought to be ashamed of yourself. Don't you know that neither I nor you can hide from his face?' Jonah said: 'Oh, whale! I am afraid. I do not know what I am doing or saying.' The whale said: 'Oh, Jonah, Jonah, hearken unto me, and take heed to yourself, for, indeed, I will swallow you up soon.' Jonah said: 'Have mercy upon me, oh, whale, and if it is God's will, he will carry me safely to the land, so I may obey him.' The whale said: 'Jonah, put your head in my mouth and get ready for your life.' Jonah said: 'Whale, I think you had better swallow me, because I see there is no use talking.' The whale said: 'Jonah, the idea of your running away from God! You will bear the consequences; that is all I got to say.' At the same time he did swallow him up.

"Jonah thought the whale's body was his grave and end. Therefore, Jonah offers up a prayer to God for his sins if he should die before he should get to the shore if it was God's will to carry his soul to heaven. The whale did not rest day after day nor night after night, so after three days the whale went to the shore and vomited up Jonah.

"Jonah was like a drowned rat."

IT IS TO BE "short horse soon hurried" with this session of the Legislature, and it is probable that some important measures will be overlooked. The matter of inducing immigration from the United States is one that should have the attention of the members without much delay. The more people that are here permanently the better will be the business of every store keeper on the islands.

A good farmer is worth something to the store keeper who sells honest goods at low prices, that's us. We are offering ribbons all widths at prices that actually make us ashamed to tell you what they are. The coats of our rivals turn green with envy when they hear of them. We have them in every conceivable shade.

Our stock of underwear has never been equalled, much less excelled in either quality or price. It is absolutely the best at what you pay for a second or third class article. It was only by chance that we secured the stock of a well known dealer in San Francisco, (overstocked was his excuse for disposing of it), and as we got them far below the market value we are enabled to give you the benefit of our good luck. They're going rapidly, these suits, and you must speak quick if you want them.

If you are thinking about getting a riding or bicycle suit you had better look into our ladies, cloth and serges. The quality is right and so is the price. All shades and desirable widths.

## LIBEL LAW.

At the convention of the International League of Press Clubs held lately in Philadelphia a resolution was passed in favor of an amendment to the libel laws. In a long preamble attention was called to the services performed by the newspapers of the nation as the chief weapons of defense against official corruption and vice. It was declared that it was the duty and right of newspapers to expose public scandal, maladministration of office and violations of law, so long as they do not abuse the liberty granted to them. The general libel law recommended by the resolution requires that before any libel suit shall be brought against a newspaper, the aggrieved person shall serve a notice of his intention upon the publisher at least three days before filing or serving the complaint, specifying the statements deemed to be defamatory. Further, that if it shall appear on the trial of the action that the article was published in good faith; that if false its publication was due to a mistake or misapprehension of the facts, or that a full and fair retraction of any statement alleged to be erroneous was made in the next regular issue or, in the case of a daily, within three days after the publisher was notified of the mistake or misapprehension, then the plaintiff shall only recover actual damages. There is a provision added that, in case of an unjustifiable libel against a candidate for a public office, the retraction must be made editorially at least three days before election day in a daily paper, and ten days in a weekly paper. With the exception of the notice of intention to prosecute, the practice in several countries is really in accordance with this proposed law, unless the case is an extreme one. What is most needed in amendment of the libel law, in Hawaii as in some other countries, is a provision requiring the complainant to give security for costs and lawyer's fees in case he fails to prosecute, or prosecuting has the alleged libel fully justified against him by the jury. Publishers and editors are frequently put to great expense to defend libel suits that are allowed to hang over their heads for long periods only to be dropped eventually without having come to trial.

## OBSERVATIONS.

Reports from the United States commission to inspect the Nicaragua Canal have been favorable. At Greytown one of the improvements made by the company was a breakwater 1200 feet long, which has had the effect expected of increasing the depth of water in the bay. The wood of the breakwater, however, had been badly eaten into by the teredo. That part of the canal already built, extending west from Greytown toward the San Juan river, was found in excellent condition, having stood the effects of the weather remarkably well. These reports are gratifying because they dispose of some objections against the canal's practicability.

According to the Planters' Monthly the cable from Honolulu to Monterey would seem to be a fore-ordained fact about a fortnight after the Legislature shall have given the Government its desired seven strings to its bow. If we could do great things so easily, the BULLETIN would come out with a forty-page edition every Saturday.

Those who know what the isolation of many of the residents of the other islands means will not grudge a little public assistance being given here and there to telephone communications. It would not be a bad idea, indeed, for the Government to attach the country telephone business to the postal service, charging certain rates for messages. Some other countries have made the telegraph tributary to the post office with beneficial results.

Without endorsing all its politics, which are as liable to err as that of other papers, The Time may be said to have already demonstrated that it fills a void just about beginning to have been felt in Honolulu journalism. Taking the size of the English-reading constituency here into account, the journal named compares favorably in illustrations and reading matter with Puck and Leslie's of New York, or Grip of Toronto, while being really ahead of the pictured weeklies of Australian cities.

## Timely Topics

Most people make their wills before they die, and some of them are great curiosities in their way. Among the many curious legacies made lately is that of a Christiana man who directs that his whole fortune shall be expended in bicycles. A Norwegian newspaper which does not give itself up to the comic element relates that a Dutch lawyer, named Nikolson, bequeathed the whole of his property to trustees, to be employed in the purchase of bicycles for the use of children attending school, while part of the money is to go towards paying the teacher to train the boys in bicycle riding.

The validity of the will has been disputed by the sons of the testator, who refuse to acknowledge it, so that it is still a question of doubt whether the children will reap the benefit of the strange bequest. That the testator was sincere enough, and that he recognized in the wheel untold blessings which might have escaped the observation of minds of less acumen, the concluding portion of the will should go to prove. It says:—

I have always found a bicycle capital protection against the importunity of those people who persist in stopping you in your walk to spin a long yarn in the hot sun or in the biting east wind. My machine, unlike a horse, never shied once; and in my drives I have had no need to intrust life and limb to the tender mercies of a coachman."

Now that lawyer had good hard, solid sense and plenty of it, in fact, a good deal more of it than most lawyers are credited with, and yet not more than many boys and girls in Honolulu have, for are there not many of the latter who are spending their whole fortunes in purchasing a bicycle and they are wise in spending their money on something that will give them their money's worth every time.

The bicycle of the Khedive of Egypt is a gorgeous machine, almost entirely covered with silver plating but if anyone wants a duplicate of it we can furnish it, or if something "English you know" is wanted we can supply similar machines to those used by the Prince of Wales' boys and girls, all of whom are expert riders.

But for common every day people like those who reside in Paradise, we mean the Hawaiian Paradise, the Monarch is the machine to buy. It gives you better value for the money than any other make, and we can furnish it in any style and price. We have received by the Australia the largest consignment of wheels ever brought to the islands, and also a complete line of extra fittings. If any portion of a Monarch wheel gets broken or out of order we can replace it at a moment's notice at factory prices.

Mr. T. V. King, who arrived by the same steamer, will have charge of the mechanical department of our bicycle business. His large experience in that line enables us to guarantee satisfaction in all work entrusted to him.

**Strange.**

A good example of what is sarcastically called feminine logic is presented by a story told by a French paper.

Mr X., a member of the Chamber of Deputies, is traveling with his wife. They arrive at a seaside station and alight. The train passes on.

Presently madame becomes suddenly excited.

"My umbrellas! my umbrella! Where's my umbrella?"

"Whew!" says the Deputy. "I left it on the train."

"On the train! And to think they intrust the affairs of the nation to a man who isn't capable of taking care of a woman's umbrella!"—Youth's Companion.

MRS. AUG. DARROW.

WELLS, RICHARDSON & Co.,

Gentlemen:—I was very much run down, had no appetite at all, was very nervous, had no sleep night or day; to sum it all up, I was perfectly wretched. But thanks to Paine's Celery Compound I can now eat and sleep and work just as well as I could before I was taken sick. When I commenced taking the Compound I weighed 136 pounds; I now weigh 158 pounds and do all the work for my family of five. I have recommended the Compound to three families already and they are very much pleased with it. I am now taking my fifth bottle, and would recommend it to all who are suffering with stomach trouble or nervous trouble.

Yours respectfully,

### Meat on Both Sides.

General Greeley of Arctic fame is as distinguished in the social circles where he is known as in the field of polar exploration. Brave and gallant, he is a great favorite in society, but it is doubtful if he has anywhere a more ardent admirer than one small maiden to whom he stands as a knight "sans reproche."

She was the host's daughter at an afternoon reception when General Greeley was the lion of the occasion. The belles of the town were directing all their volleys of superlative and bewitching glances at the hero, who, however, ignored these enticements and asked to accompany the 12-year-old miss to the dining-room. Delighted beyond measure at this unexpected attention, the child accepted, and went proudly off, scarcely knowing whether the salad he brought her were chicken or sawdust. The crowning joy came, however, when, talking to her as if she "had been Mrs Cleveland," to quote her own words, her companion asked how many brothers and sisters she had.

She replied: "One brother and one sister, the boy between," and added: "Some persons call us a sandwich, but I think that is rather hard on us girls, because everybody likes meat so much better than bread."

"Ah, my dear," said the general, with a bow, "not when it is so well bred."

Can any sneerer at puns derive from the maid's memory her exclusive pleasure in this one?—N. Y. Times

### The Weight of Rain.

An engineer has pointed out that one inch of rain falling upon an area of one square mile is equivalent to nearly 17,500,000 gallons, weighing 145,200,000 pounds or 72,600 tons. Assuming this water to have fallen from clouds about half a mile, or say 3,000 feet above the earth, we have for the energy represented by it about 22,000 horse power. With pumping machinery working at the low rate of consumption of two pounds of coal per horse power per hour, it would take 200 gross tons of coal to raise the water represented by one inch of rain on a square mile to the assumed distance of 3,000 feet. As a matter of fact rain often falls from clouds which are at much greater height than 3,000 feet above the ground, so that the figures just given are quite conservative ones.—Montreal Witness.

### The Editor's Pass.

A penniless young lawyer boarded a train for Nashville, intending to seek employment as reporter on one of the daily newspapers. When the conductor called for his ticket, he said:

"I am on the staff of the —, of Nashville; I suppose you will pass me?"

The conductor looked at him sharply.

"The editor of that paper is in the smoker; come with me. If he identifies you, all right."

He followed the conductor into the smoker; the situation was explained; Mr. Editor said:

"Oh, yes, I recognize him as one of the staff; it is all right."

Before leaving the train the lawyer again sought the editor.

"Why did you say you recognized me? I'm not on your paper."

"I'm not the editor, either. I'm traveling on his pass, and was scared to death lest you should give me away."

### Elevators in Big Buildings.

The number of people who patronize the elevators in most of the big structures can only be estimated. The Equitable building undoubtedly leads in this line. Records kept a year ago show a traffic of 38,000 passengers a day. The busy record at present is 40,000. There are thirty-two elevators in the Equitable for public use. To these fifteen men are set apart. The elevators are hydraulic. In the basement is a pumping plant large enough to supply water to a city of 100,000 inhabitants. The trip to the top is made in forty seconds, and the lift uses up 500 gallons of water. The Mills building elevators carry about 50,000 persons daily, the traffic being constant.—New York letter.

## Don't Make a Mistake!

The oldest, best and cheapest furniture store in the city was established by the veteran furniture dealer and undertaker, Mr. C. E. Williams, in 1859, and is now conducted by him and his oldest son Ed. A. Williams at 611 King St. We wish to notify our patrons and the public generally that we have no connection whatever with any other furniture and undertaking establishment in Honolulu.

#### Brithers Scots.

There was a large attendance of members of the Scottish Thistle Club at the weekly meeting last night, some coming from places so far apart as Puuloa and Mount Tantalus. Several friends of the club and reporters were also present by invitation. A special call had been issued for this meeting, on account of the contemplated departure from town of A. Garvie, a much valued member, as well as a presentation to be made to Thomas Black, a member who had within a week married a fair and talented daughter of "Auld Scotia." Chief Logan, who presided with the support of Chief Luing, stated to the meeting that Mr. Hutchinson the sculptor, who is an honorary member on account of kind favors to the club, was going to San Francisco by the Australia the next day, and a member introduced a visiting Scotsman, Mr. Edmunds, who was leaving for a visit to the old country by the same steamer. In the course of the evening a pretty German clock was presented to Mr. Black to regulate his matrimonial career, and the members who were leaving were bidden goodbye in speech and song redolent of the heather. Very well written essays upon the old land, and the love borne for it by its children and even their descendants, were read by Brothers Black and A. C. Steele. Other members contributed old Scottish songs, a collation was served, and the whole evening was one of the most pleasant in the history of the club, now in the fourth year of its existence. The club leases the hall over Tracy's store. It has the nucleus of a library and maintains a reading room supplied with the leading American and English papers and magazines.

### REMEDIES.

To SEQUAH, Sir: I feel it my duty to inform you of the benefit I had derived from the use of your Remedies, Sequah's Cure and Oil. I have been troubled with Rheumatism ever since 1862 and since 1887. I have spent all I could earn in trying to cure myself but failed. I came to you in April unable to walk without the aid of sticks. The pains in my legs being fearful; I was treated by you in presence of several witnesses and received great relief. I continued the use of your remedies using only four bottles of Oil and two of the Cure, and now I am cured of the Rheumatism, but my limbs have become stronger, it is now nearly three months since receiving your treatment, and I feel alright. I was unable to work for 1 1/2 year (18 months) before coming to you, and I have now been at work for over five weeks past. I cannot find words to sufficiently thank you for the good your visit here has done me. I am yours gratefully,
