THE PUBLIC SCHOOL DAY

A Statement by Vaughan MacCaughy

I. Publicity

I understand that certain Honolulu teachers have stated that the action of the Board, in adding thirty minutes to the school day, was taken without consultation of those in the employ of the Department.

This charge is not correct. The facts are these:

Several weeks before the Commissioners' meeting, forty sets of proof-sheets of the proposed changes in rules governing examinations, official time schedule, school day, etc., were printed. These proof-sheets were sent, not only to the Commissioners, but were also distributed to the local press and to representative school principals. This marked a new step in the Department's sustained policy of publicity and democracy, as nothing of this sort had ever been done before.

Furthermore, three conferences of principals, teachers and others, were called, both at the Library of Hawaii and at the Department office on May 1, 5 and 6, at which the proposed changes were thoroughly discussed. The principals had opportunity to fully copy of the proof sheets.

Numerous valuable revisions and suggestions were incorporated as a result of these conferences with the principals. The proposed changes were next discussed very fully at the Supervising Principals' conference, who unanimously recommended the lengthening of the school day by thirty minutes. The Supervising Principals, representing the teachers throughout the Territory, not only heartily approved of the proposed change, but also indicated that the change would be favorably received in their respective districts. These conferences were given full newspaper publicity. The teachers of Honolulu had ample opportunity to inform the Department of their views.

As a matter of fact, no communication or protest, official or otherwise, was received by the Department during the period prior to final action by the Commissioners from such local organizations as the Oahu Teachers' Association, the Women Principals of Honolulu, the Oahu Rural Principals' Club, the Honolulu Schoolmasters' Club or any other educational or civic organization.

The matter was presented to the Commissioners with the statement that this recommendation was directly in line with anticipated recommendations of the Federal School Survey Commission, and had the general approval of the Supervising Principals and others. The proposal was discussed fully by the Commissioners and was passed by a unanimous vote.

I have ventured to make a somewhat detailed statement on this point in order to make it perfectly clear that the Department gave newspaper publicity to the proposed change and acted only after mature consideration.

II. Lengthening of School Day

Permit me to present the following items with reference to the Department's decision to lengthen the school day by thirty minutes, beginning September 1, 1920.

The various members of the Federal School Survey Commission were unanimous in declaring that our school day was too short. They commented upon the marked disparity between the public school day and that of the various private schools in Hawaii. Furthermore, our public school day is much shorter than the mainland public school day, although we endeavor to teach the same curriculum.

The standard mainland school day, including Southern California and the Gulf States, begins at 8:30 or 8:45 (sometimes 9 o'clock) and runs to 3:15 or 4 P. M. The school day for upper grades is somewhat longer than that for the lower grades.

The time schedule adopted by the Department calls for 1425 minutes of teaching per week, exclusive of recesses. The teaching period per day, therefore, is 4 hours and 45 minutes; plus a 15 minute morning recess, plus a 30 minute lunch period, or a total of 5 1/2 hours per day. This 5 1/2 hours per day is for only 190 days of the 365 days of the calendar year. In other

(continued on page 2)

Personals

Rev. and Mrs. Carver, of Waimea, returned Friday.

C. H. Wilcox returned this morning from a brief visit to town.

C. A. Rice went to town on Saturday and returned this morning.

Francis Gay arrived this morning on a brief visit to his island home.

W. Spillner, of Lihue, returned this morning from a visit to Honolulu.

Mrs. R. L. Wilcox went to town by the Kinau on Saturday and returned this morning.

Dr. and Mrs. E. N. Young, of Lihue, have returned from their vacation to Honolulu and the Volcano.

Wm. Searby, of American Factors Co. came over this morning in connection with the East Kauai ditch enterprise, and other plantation matters.

Civil Engineer Crow arrived last week to take active charge of the work of the East Kauai ditch enterprise. The preliminary location of the line is now in hand.

Land Commissioner Bailey and Board of Public Works Superintendent Bigelow were expected by the Kinau this morning, but failed to come for some reason.

Dr. Charles Barton, eye specialist, arrived on Kauai last week and is inspecting the eyes of the children of the government schools.

K. C. Bryan, vocational instructor of Oahu public schools, was among the passengers arriving by the Kinau this morning.

Miss Hilda Maser, daughter of Carl Maser of Lihue, was operated on for appendicitis in Honolulu last week, where she was visiting her sister. She is recovering nicely.

W. B. Stoddard, owner of the commercial airplane now on Kauai arrived with his wife and small daughter, by the Kinau last Friday. They are stopping at the Lihue Hotel.

Inter-Island Co. Deck Hands Strike

At ten minutes to five last night, in Honolulu, the deck hands of the Kinau walked out,—that is, those who could walk out,—that is, those who could those who could not jumped overboard. A vain effort was made to secure an emergency crew, and she finally left about seven o'clock woefully short-handed.

Arriving at Nawiliwili about four this morning it was a slow operation landing the passengers, mail and light packages. Being the quick trip there was no freight for Nawiliwili.

When this was finally accomplished she went to Ahukini where her freight will be handled by a shore gang. Henry Holl's road gang, impressed as an emergency stevedore crew, for the occasion. They will do the work without difficulty.

It is supposed to be a general strike, and several steamers sailing today, including the Claudine and the Kilauea will be involved.

BOY SCOUTS EXAMINE PLANE

On Friday afternoon about fifty boy scouts of Lihue journeyed to the aviation field at Waipouli where Messrs. Stoddard and Fern very kindly showed the boys over the machine, explaining the controls, etc. Mr. Fern seemed to be right in his element with the boys gathered around him, and the reason was explained when Mr. Stoddard remarked that before Fern became an aviator he had had charge of the largest playground in Oakland, California—in fact he paid his way through college with this work.

Although Mr. Stoddard is not yet a licensed aviator, he is learning to fly, and very kindly took the machine up about 3000 feet over the field and did stunts for the boys. He also gave two of the boys (Ken Bayless and Herbert Simpson) a free ride, and promised the first scout to be promoted a ride as a reward. It was very evident that Pilot Fern was not the only one there that liked boys.

MAKE EDUCATION POSSIBLE

Two hundred thousands dollars of the centennial fund becomes an endowment for five educational schools in Hawaii. At these schools boys and girls can acquire an education without a large expenditure of money. The endowment system makes education possible for many young people who otherwise would be deprived of mental advancement.

One hundred twenty-five thousand dollars is for the general expansion of the educational, social and religious work carried on by the Hawaiian Board.

Individuals of all nationalities, who today are inheritors of the blessings of the past, are responding vigorously to the Centennial call.

Kauai has always been in the forefront with her generosity and this, the call of a New Century affords another opportunity for every individual to have a share in this great work. Kauai is going to do more than her part. YOU can't find the committee in your community, then just send your check direct to the island treasure, Judge L. A. Dickey.

SUNDAY'S RAIN

The very welcome rain Saturday night and Sunday evidently centered in and about Lihue and shaded off on both sides. It was the more acceptable in that it was a comparatively gentle, though generous, rain.

The rainfall was as follows:

Hanalei	3.15
Lihue	2.55
Kealia	0.73
Kilauea	0.25
Koloa	2.14
McBryde	1.80
Makaweli	0.81

LIHUE BASEBALL CLUB WILL GIVE A DANCE

The Lihue baseball club will give a benefit dance at the armory next Friday evening, May 28th. The Imperial orchestra will furnish the music, and a genuine good time is assured. An admission of \$1.00 will be charged for gentlemen, ladies free.

NEW WIRELESS MAN ARRIVES

A new wireless operator arrived at the Lihue station last Tuesday afternoon. He weighed eight pounds.

American Legion Will Observe Memorial Day

Memorial Day exercises will be conducted by the Kauai Post of the American Legion in the Tip Top Theatre, Lihue, at 2:30 P. M. on Sunday afternoon, May 30th, to which the general public is invited. The exercises will be in memory of all who have made the supreme sacrifice for their country.

The program for the afternoon is as follows:

Opening Prayer.....Father Hubert

Star Spangled Banner.....Sousa's Band

Introductory.....Commander Philip L. Rice

Song.....Hawaiian Quartette

In Flander's Field.....By George S. Raymond

Address.....Col. Z. S. Spalding

Song.....Mrs. W. H. Rice, Jr.

Closing Prayer.....Rev. Ralph Bayless

Taps.....Bugle

Present on the platform will be:

Col. Z. S. Spalding.....Civil War Veteran North

Mr. S. N. Hundley.....Civil War Veteran South

Mr. J. H. Moragne.....Spanish-American Veteran

Commander Philip L. Rice.....Present War

Mrs. C. B. Hofgaard.....Women's Auxiliary, Kauai Post No. 2.

Ensign Kennedy of the Salvation Army

AVIATOR FERN GIVES TALK

Aviator Fern gave a very interesting talk on flying machines and aviation at Lihue social hall last Thursday evening under the auspices of the Y. M. C. A. He explained the construction of the different types of heavier than air machines. He explained why they were able to take the air and why they were able to stay in the air.

He told of his student days at the ground school at the University of California; of the severe tests each student was put through, and of the comparatively few who were able to pass the tests successfully. He spoke of the rigid discipline maintained at the ground school throughout the course, and what a relief it was when the cramming was over and they were sent to the flying school. He took his heaters through all the different stages of flying until the full course was completed and the students were given their commissions and wings.

The talk was decidedly interesting and instructive and deserved a larger audience than was present.

END OF THE TRAIN ROBBERY CASE

This long drawn case came to a finish on Thursday of last week with a verdict of guilty in the second degree with a strong recommendation to clemency.

The judge sentenced the prisoner to imprisonment of not less than three years, and not more than twenty.

NAVY SEAPLANES TO ARRIVE TOMORROW

Two navy seaplanes will visit Kauai tomorrow, arriving early in the morning and landing at Hanalei Bay. It is not known how long they will stay.

REHABILITATION GOES THROUGH

The Hawaiian Rehabilitation Bill passed the House of Representatives on Saturday according to a radio-gram received by Gov. McCarthy from Delegate Kalaniano'le. It is expected to pass the Senate this week without alteration.

FRED KNUDSEN BACK

The many friends of genial Fred Knudsen will be glad to learn that he is back again on Kauai. Fred is to have charge of the tire and accessory department of Nawiliwili Garage. This is right in his line, and he says he is going to make this department a real service to the people of Kauai.

BROOKDALE IN AND OUT

The Brookdale arrived at Port Allen on the 16th and remained there until yesterday, the 24th. She brought a full cargo of assorted merchandise and took away a good load of sugar and pines.

Kapaa Notes

FACULTY AND PUPILS FAVOR HOOVER FOR PRESIDENT

An "election" to determine the popularity of the present aspirants for presidential honors was held at the Kapaa school on Friday. Out of a total 382 "votes" cast, Herbert Hoover, former food administrator, received 188, or more than 50 per cent. Hiram Johnson of California came second with 52, and following him was General Wood with 47. President Wilson received 23 votes, Governor Edwards 19, Former President Taft 11, Wm. McAdoo 9, and General Pershing 3. W. J. Bryan, Governor Cox and Lowden, Charles E. Hughes, Senator Poindexter and Vice-President Marshall each received a solitary vote.

BETTENCOURT FILES LIBEL SUIT

J. F. Bettencourt, Jr., local supervisor, has filed suit for libel against the Advertiser and O'Luso in the Lihue Circuit Court. The plaintiff charges the two Honolulu papers with having printed articles of a libelous nature in connection with his recent arrest for larceny, while he was bookkeeper of the Makee Sugar Co. Supervisor Bettencourt also has made known his intention to bring suit against the Makee Sugar Company for salary due him from November 1919 to the date of his acquittal at the circuit court, his claim for back salary being based upon the action of his employers in failing to notify him of his dismissal when the charges were made against him.

WELFARE OUTING

Some time ago a sort of blanket organization of all the welfare interests and activities of the island was formed, with the idea that occasional meetings for conference, mutual suggestion and inspiration, would be helpful and stimulating. Travelling along the same road, why not travel together as far as possible.

The first of these conference took the form of a most delightful picnic outing at Alexander McBryde's beautiful beach park, Lawai, Friday afternoon. Some two dozen or so well-farers, from various parts of the island,—from Waimea to Kealia,—gathered in and talked over welfare interests and various other things all the way from feeding malnutrition children to finding servants.

It was all delightfully free, informal and restful, and the general feeling found frequent expression. "Why don't we do this sort of thing oftener?"

Not until the shadows of evening began to fall did people gather up their belongings and start for home. Mr. McBryde as always made a most delightful host,—none the less so that it came as a surprise to him.

BAGGOT PILOTS AIRPLANE

"King" Baggot renewed his acquaintance with the air last Friday afternoon when, with W. B. Stoddard as a passenger, he took the plane up and executed numerous twists and turns above the field. Baggot went through the Berkeley ground school in the class behind Fern.

LIHUE UNION CHURCH

The day's universal Memorial theme will be the thought for the Sunday morning hour. Anthems and duet by the choir. Public invited to sacred this day.

Attend American Legion service at the Tip Top, Sunday 2:30 p. m.

SUPERVISORS HOLD SPECIAL SESSION

The county supervisors held a special session at Lihue yesterday for the purpose of clearing up a number of matters before the departure of Mr. Wislath for the coast.

The most important matters which came up were:

The New Lihue School Buildings

Because of the large expenditure involved, very much more than originally contemplated, and very much more than provided for—even with the supplemental appropriation—it was concluded to refer the whole matter back to the legislature for some further action.

Either the plans must be materially altered or a much larger amount of money provided. The present outlook is that it will cost about a quarter of a million dollars to carry out the plans that are now in hand. The presumption is that the legislature will take the matter up at the special session.

The High School Extension

Tentative arrangements are being made with the Kanoa Estate to secure additional room makal of the present school lot—an acre and a half or so—as a much needed extension to the high school grounds. This will give them a delightful outlook over Papehaua, and room for an additional teachers' cottage and additional class rooms for this steadily growing institution. It is expected that there will be three additional teachers next year.

New Buildings for Kalaheo

A vigorous effort will be made this summer, if labor can be secured, to construct and install the new school buildings at the new site for the Kalaheo school. It will probably mean a ten room building in addition to the bungalows already there.

Complete New Installation for Makaweli

The present site at Makaweli is unsuitable, unlighty, and long since overgrown. Being on the railway line it is noisy beyond endurance. A new site, five acres in extent, adjoining the government road, on the makaside and just beyond the Catholic church, to the west, has been secured and is now being improved.

A twelve room building, probably somewhat along the lines of that at Kapaa will be needed there, together with the necessary school cottages. This however can hardly be forthcoming for next year.

At Kilauea an additional extension of five acres has been secured immediately adjoining the present premises, which will greatly improve the conditions there. A new school building of larger capacity will be needed there also.

A new two room school will be built immediately for the new Wailua Homesteads to be ready for occupation next fall.

WELFARE OUTING

Some time ago a sort of blanket organization of all the welfare interests and activities of the island was formed, with the idea that occasional meetings for conference, mutual suggestion and inspiration, would be helpful and stimulating. Travelling along the same road, why not travel together as far as possible.

The first of these conference took the form of a most delightful picnic outing at Alexander McBryde's beautiful beach park, Lawai, Friday afternoon. Some two dozen or so well-farers, from various parts of the island,—from Waimea to Kealia,—gathered in and talked over welfare interests and various other things all the way from feeding malnutrition children to finding servants.

TUESDAY

MAY 25

DIRECT SERVICE

The inauguration of a regular Matson freight and passenger service for Kauai is an important milestone in the progress of Kauai.

It is significant in two directions. As a means of bringing to our shores our fair share of the tourist trade of the Islands it ought to mean a new era for Kauai. Unquestionably the discomforts of the Inter-Island steamers, the menace of the Kanai channel, and the horrors of the midnight landing at Nawiliwili have more than off-set the charms and attractions of Kauai and have kept away many who would otherwise have come. Now at length these drawbacks will be practically eliminated. That ought to mean a great many more tourists for us.

It will also be a convenience and advantage for us to be able to secure passage to the Coast from our own home port without tiresome and expensive delays in Honolulu, waiting, more or less indefinitely, on a chance.

WHAT ARE WE COMING TO?

In the matter of household servants,—it looks as though we were facing a new era. Heretofore this has been the land of cheap and fairly efficient servants, so that no one, of even moderate income, need do much household drudgery.

It looks now however, as though the ordinary housewife, in circumstances anything short of a millionaire, would have to face

the prospect of doing her own work, or at least a good part of it.

We have grown used to ordering almost anything we wanted,—from christening robes to coffins, from Honolulu. And so we have fallen back on Honolulu for cooks and other household servants.

But, bless your heart! Servants don't grow on road-side bushes in Honolulu anymore than they do in the country, and what servants there are there, hold their heads very high—and reply—"Go to the country! What do you take us for?"

So we wait for something to happen, and lead the simple life, and look back with fond regrets on the by-gone days of ease and luxury.

The newly organized Housewives League at first were jauntily confident that they could handle the situation, and convince the hesitant servants by a good heart-to-heart talk. But they found that such tactics cut very little figure with the Orientals.

Now they are confident that the sure remedy is the "Scandinavian maid of all work from the Middle West who can do more work in a day than a whole fleet of Orientals."

Well—may-be; but they are farther away and harder to find than what we have. And would any Scandinavian young lady with blue eyes and blonde hair,—would she condescend to serve in a kitchen where an Oriental had worked?

THE PUBLIC SCHOOL DAY

(Continued from Page 1)

words, teachers have 175 vacation days and 190 working days per year.

One of the reasons why taxpayers and legislators throughout the entire country, in previous years, have been reluctant to advance teachers' salaries is because of the short school day and the long summer vacation. At the session of the Hawaiian Legislature last spring, the Chairman of the Senate and House Finance Committees distinctly and forcibly stated that they were recommending the proposed increase of 33 1/2% in teachers' salaries at that time with the plain understanding that an increase in efficiency would accompany the increase in salary. This instance is given as typical of the attitude of the taxpayer and Legislator.

The additional thirty minutes in the morning is particularly desirable in Hawaii where the morning hours are the best hours of the day for mental work. Up to the present time, the Territory has permitted alien foreign language schools to capture and exploit the very best hours of the day for teaching purposes; namely, the early morning hours. The great majority of principals and teachers are strongly in favor of utilizing this morning period.

A distant disadvantage of Hawaii's abnormally short school day lies in the fact that it creates a high-tension nervous atmosphere. Modern educators are unanimous in declaring that the ideal school day is one in which periods of intensive study and recita-

tion alternate with periods of physical activity, recreation, shop and garden work, hand work, etc. This is so-called "Gary or Platoon" plan; also called the "work-study-play" plan. It was thoroughly presented by Dr. F. F. Bunker of the Federal School Survey Commission, during his visit here, before numerous public and professional audiences. This is the plan which he will recommend in the Survey Report.

The present action of the Department is merely a first step toward the realization of the standard modern public school day, a school day which tends to free the teacher from nervous strain and to make the atmosphere of the school-room normal, wholesome and happy.

The new rules governing marking and promotions reduce the correction of papers etc. by the teacher to a minimum.

If the Department had wished to evade its plain responsibility or to be lazy or indifferent, the entire matter could have been held for another year, awaiting the Survey Report and its specific recommendations. The opinion was general, however, not only among principals and Supervising Principals that this step toward increasing school efficiency and returns to the taxpayer might just as well be taken at this time, to become effective in September.

III Teacher Representation
We feel particularly grieved at the present agitation because of the implied charge that the opinions of the teachers are not desired or considered. The facts are, that during the

THE PUBLIC SCHOOL DAY

(Continued from page 2)

past year, we have made every effort to encourage and foster in every poster in every possible manner the growth and professional status of the teachers' organizations. We have abolished the compulsory teachers' convention, which, for years, was a bugbear, and have cordially encouraged and sought the advice of teachers' associations throughout the Territory.

When the present administration came into office, the various teachers' organizations, in-so-far as we were able to ascertain, were practically defunct and had been so for several years. During the past year, all of the following teachers' organizations either have been established for the first time or have been received from a condition of profound coma:

- Oahu teachers' Association
- Maui Teachers' Association
- District Teachers' Association of Waialuku
- District Teachers' Association of Pala-Makawao
- District Teachers' Association of Lahaina
- Maui Principals' Club
- Kauai Teachers Association
- Mana-Eleele District
- Kalaheo-Wailua District
- Kapaa-Haena District
- Kauai Principals' Club
- Hilo Teachers' Union
- Hamakua Teachers' Association
- Honolulu School Masters' Club
- Physical Education Association of Honolulu
- Women Principals' Club of Honolulu
- Women Principals of Rural Oahu.

Every one who is familiar with any of these organizations knows that, during the past year, numerous resolutions have been sent to the Department, where they have been carefully considered and have formed the basis for official action.

The outstanding feature of the efforts of the present administration has been the insistent endeavor to develop throughout the Department and the public schools the spirit of publicity, democracy, just representation, comradeship and the "square deal." We consider this to be an essential part of genuine Americanism.

Y.M.C.A. Moving

Picture Campaign

The Walworth travelogue of Hawaii was given at Waimea Saturday evening to a well filled house. Three other social functions divided up the Waimeaites considerably, and the loyalty of those who supported the Y. M. C. A. program is much appreciated. All the proceeds go to the campaign fund of the Kauai Y. M. C. A.

Some of the material shown in the movies is Kilauea Volcano in action with beautifully colored night scenes; Centennial Pageant played in Honolulu at the centennial last month; several industries of Hawaii; beautiful scenery throughout the territory. In addition to the movies 100 slides of pretty places and local Kauai scenes are used. This entertainment is very instructive to young and old alike who have not traveled on the other islands. Every school-child should see this illustrated lecture.

This entertainment will be given in Miura moving picture hall in Kapaa Wednesday evening, May 26; Thursday, May 27 in Kekaha and Friday, May 28 in Hanalei. Time 7:45 p. m. Honolulu time. Children 5-12, 10c. Adults 25c. Tickets will be sold in advance during the day of each date in each locality. Kindly remember that this entertainment is a benefit to Kauai Y. M. C. A. and all proceeds go into the campaign fund.

VEGETABLE SEEDS FREE

Hon. J. K. Kalaniana'ole, Delegate to Congress from Hawaii, has sent to the Board of Agriculture and Forestry for distribution 6,000 packages of vegetable seed from the United States Department of Agriculture.

One package contains peas, beet, onion, lettuce and tomato seed and the other, beans, beet, carrot, lettuce and radish seed.

The seed is distributed by mail free of charge to residents of the Territory who can make good use of it. Applications should be sent to Mr. David Haugh, P. O. Box 207, Honolulu.

Centennial Fund

Dr. van Dyke says of the work of the early missionaries, "Beautiful Hawaii was made inheritor of the fourfold treasure—the Christian Home, the Christian School, the Christian Church and the Christian State."

A Notable Heritage Imposes a Mighty Obligation

The Hawaiian Board with its affiliated educational institutions is here to help Hawaii accept the challenge of the next hundred years. To do this an expanded program is necessary. \$400,000 is being raised to meet the demands of the new century and to perpetuate the noble service of the past.

Will You not Help Kauai to do Her Share
in Supporting this Fund?

OPEN AIR MOVIES

A free open-air motion picture entertainment was given last Friday night on the lawn of Lihue Union church by Mr. L. A. Walworth, associate secretary of the Y. M. C. A. The members of the Sunday school were the particular patrons of this pleasant affair and occupied the choice seats on the soft grass themselves. A considerable number of the older folks occupied the semi-circle of chairs and benches behind the children, while a solid line of automobiles was brought into array at the rear forming an improvised amphitheatre at once efficient and comfortable.

The illumination was furnished by the Y portable Ford generator. The films shown were all taken in the Hawaiian Islands covering such subjects as native island life, the sugar industry, rice culture, the centennial party, rice culture, the centennial party, the pictures of surf riding and the night views of Pele's lurid fury were particularly thrilling. Interspersed between the reels a variety of beautifully colored slides, many of them from Mr. Walworth's own negatives taken on Kauai, were shown.

Mr. Walworth is leaving for the mainland soon and will use these pictures to illustrate his lecture on the Hawaiian Islands which he proposes to give in the course of his travels. Such representations will undoubtedly be a valuable contribution to the general publicity these wonderful islands deserve.

JOSEPH WYLLIE RECOVERING FROM BURNS

(Sent in by A. W. Paul, Makaweli)

The many friends through the Islands of Mr. Joseph Wyllie, lately chief engineer at Makaweli, will be glad to hear that he is making satisfactory progress after the serious accident which he met with on March 17th at Baras, Negros, Philippines, when, through the bursting of a valve in the ice-plant, he was burned about the nose, throat and eyes with ammonia. Mrs. Wyllie and their children left Honolulu by the Pacific Mail Steamer Ecuador on May 9th, for Manila, wheret Mr. Wyllie who has been granted six months leave will join them, the family then proceeding via the Suez Canal to England, returning to the Philippines early in December.

THE LURLINE AT PORT ALLEN

The Lurline is due to arrive at Port Allen early tomorrow morning. She will remain until Thursday afternoon. She will take seven first class passengers from Kauai bound for the coast.

Hereafter two cabins will be reserved for Kauai passengers. These rooms are already booked up to August.

LIHUE UNION CHURCH SERVICES

In spite of the inclement weather the services at Lihue Union church were very well attended. The pastor and members of the Hawaiian church joined in this service. Bridagier Waite, Commandant of the Salvation Army in Hawaii preached an earnest sermon from the text "Other Sheep I have which are not of this fold; them also I must bring." The choir alcove was well filled with singers with Mrs. Bayless officiating at the pipe organ. Mrs. E. S. Swan sang "The City Four Square" by Danks with fine expression and sweetness.

The union service that had been planned for Sunday evening was cancelled in the late afternoon by Mr.

Bayless on account of the pouring rain. As many as possible were notified to this effect by telephone. However a considerable number who had not received this word braved the elements and came to the church anyway and the general disappointment caused the pastor to regret his action. Evening services may nevertheless be expected at regular intervals in the near future.

No. 456. REGISTRATION OF TITLE LAND COURT

TERRITORY OF HAWAII to M. J. Carvalho, Heirs of M. J. Pavao, deceased, Hawaiian Board of Missions, Mrs. Louise P. Gay, H. P. Faye, Territory of Hawaii by Harry Irwin, Attorney General; County of Kauai by H. D. Wishard, Chairman of the Board of Supervisors; and to ALL whom it may concern:

WHEREAS, an application for registration of title has been presented to said court by John Joaquim Pavao, Francisca Joaquim Carvalho, Maria Duarte, Maria Conceicao Souza, Manuel Joaquim Pavao, Jr., to register and confirm their title in the following described land:

Being Lot 18, Waimea Valley Remnants, III of Peekauai, Waimea, Kona, Kauai, Territory of Hawaii, more particularly described by metes and bounds as follows:

Beginning at a pipe set in concrete, at the south corner of this lot, the west corner of Land Commission Award 6306, to Kalo, and on the north boundary of Lot 15, the coordinates of said point of beginning, referred to Government Survey Triangulation Station "Transit of Venus," being 678.0 feet north and 1012.6 feet east, as shown on Government Survey Registered Map No. 2596, and running as follows by true azimuths and distances:

- 1. 134° 50' 63.0 feet along Lot 15, Waimea Valley Remnants;
2. 204° 59' 137.8 feet along land deeded by Kamehameha IV to G. B. Rowell by deed dated November 30, 1857, and recorded in Liber 18, page 137, in the Office of the Registrar of Conveyances, Honolulu, T. H.
3. 130° 10' 122.0 feet along same to a pipe;
4. 182° 50' 114.5 feet along Lot 14, Waimea Valley Remnants, to a pipe;
5. 137° 17' 134.5 feet along same;
6. 255° 20' 124.7 feet along L. C. A. 2064:1 to Kawalo-hilo to a stake;
7. 272° 54' 239.3 feet along land deeded by Kamehameha IV to G. B. Rowell by deed dated November 30, 1857, and recorded in Liber 10, page 137, in the office of said Registrar of Conveyances, to a stake;
8. 33° 39' 96.2 feet along L. C. A. 7713:42 to V. Kamamalu, Lele of Kikialoa, to a stake;
9. 312° 23' 87.0 feet along same to a stake;
10. 9° 10' 52.6 feet along same to a stake;
11. 317° 10' 69.8 feet along same to a stake;
12. 59° 05' 192.5 feet along L. C. A. 6306 to Kalo;
13. 26° 37' 162.1 feet along same to point of beginning, and containing an area of 94,130 square feet.

YOU ARE HEREBY cited to appear in the Land Court, Judiciary Building, Honolulu, T. H., on Saturday, the 12th day of June, 1920, at 9 o'clock in the forenoon, to show cause, if any you have, why the prayer of said application should not be granted. And unless you appear in said court at the time and place aforesaid your default will be recorded, and the said application will be taken as confessed, and you will be forever barred from contesting said application or any decree entered thereon.

WITNESS the Honorable J. T. DE BOLT, Judge of said court, this 6th day of May, 1920. Attest with the seal of said Court. (SEAL) ANDREW V. HOGAN, Registrar.

Mott-Smith & Lindsay, Counsel for applicants, Honolulu, T. H. May 18, 25, June 1, 8.

WHEREAS, an application for registration of title has been presented to said court by Agnes Kawehookalani Rogers, of Honolulu, T. H., to register and confirm her title in the following described land:

Being Lot 76, Waimea Valley Remnants, III of Peekauai, Waimea, Kona, Kauai, and more particularly described by metes and bounds as follows:

Beginning at a pipe set in concrete at the south corner of this lot, and the west corner of Land Commission Award 5390:1 to Hila, the coordinates of said point of beginning, referred to Government Survey Triangulation Station "Transit of Venus," being 2335.0 feet north and 2826.6 feet east, as shown on Government Survey Registered Map No. 2597, and running as follows by true azimuths and distances:

- 1. 128° 32' 201.4 feet along Lot 75, Waimea Valley Remnants, to a pipe;
2. 209° 03' 86.0 feet along near east edge of Peekauai Ditch to a pipe;

It Takes a GOOD TUBE to Get Long Mileage Out of Any Tire

NO matter if the car owner does always use Goodyear Cord Tires—he cannot be sure of getting the usual long mileage out of them unless he also *always* uses Goodyear Tourist Tubes in them.

The wear or lasting qualities of a tire depend largely on the inner tube. If the tube does not remain air-tight—day in and day out—if “slow leaks” develop anywhere—through pores in the rubber or through pin-holes around the valve patch—the tire becomes under-inflated. And a tire does not have to be flat to be under-inflated.

When the air pressure gets low in a tire the damage begins. Every bump or rut or car track is a possible “fabric break,” weakening the carcass—the back-bone of the tire.

In three city blocks or a half mile of country driving an under-inflated tire may receive several “stone bruises” or “fabric breaks,” any one of which may ruin the casing. Many a good tire has “blown” 5000 miles before its time—just on account of under-inflation—a leaky tube.

Throw away the questionable tubes. Never buy a cheap one or a weak one. Then your casings will have a chance to deliver the miles that are built into them.

Goodyear Heavy Tourist Tubes are made to hold air—until they wear out.

These thick gray tubes actually cost less than most other tubes. Then, why risk a costly casing with a tube of questionable merit?

A water-proof and oil-proof bag protects every Goodyear Heavy Tourist Tube until it is ready to use.

TERRITORY OF HAWAII

Treasurer's Office, Honolulu, Oahu

In re Dissolution of the WAIMEA WINE COMPANY, LIMITED

Whereas, the Waimea Wine Company, Limited a corporation established and existing under and by the virtue of the laws of the Territory of Hawaii, has pursuant to law in such cases made and provided, duly filed in this office, a petition for the dissolution of the said corporation, together with a certificate thereto annexed as requested by law.

Now, therefore, notice is hereby given to any and all persons that have been or are interested in any manner whatsoever in the said corporation that objections to the granting of the said petition must be filed in this office on or before 12 o'clock noon of July 19, 1920 and that any person or persons desiring to be heard thereon must be in attendance at the office of the undersigned, in the Executive Building, Honolulu at 12 o'clock noon of said day, to show cause, if any, why said petition should not be granted.

DELBERT E. METZGER,
Treasurer Territory of Hawaii.
