AT SEA WITHOUT WATER

FORTY-TWO DAYS OF HORRIBLE THIRST.

The Tahitian Schooner Tetautua Loses Compass and Bearings and Drifts to Hawaii—Crew Suffer Terribly.

The Tahitian schooner Tetautua has drifted into Hookena, Hawaii, eighty-two days from her home in the South Seas, forty-two of which she was without water, save what could be caught from the sky when the rain fell.

John Charlis Rilg, son of the owner of the cargo, arrived by the Mauna Loa this afternoon, from Hawaii, and brought with him the remarkable story of the schooner's long voyage. She left Tahiti for Penrhyn Island, struck about half way over a storm struck the vessel and in beating about her compass was lost and the steering gear injured. After that she drifted aimlessly.

When about forty days out the last of the water was exhausted. The crew was made up entirely of natives, and fortunately, too, for they were experts in catching rain water at sea. Hawaii was the first land sighted.

The schooner received a compass at Hookena and set sail yesterday afternoon for Honolulu. She should arrive early tomorrow. The Tetautua is under the British flag. Mr. Rilg is stopping at the Sailors' Home.

BRITISH RECEPTION.

Several Hundred People Paid Their Respects at Noon.

The following are some of the several hundred people who called at the British Legation at noon to pay their respects to the anniversary of Her Majesty Queen Victoria:

Henry E. Cooper, Minister of Foreign Affairs, representing the President; Attorney General Smith, Minister Damon, United States Minister Sewall; Senor A. de S. Canavarrro, Portuguese Charge d'Affaires; H. Shimamura, Japanese Minister; Mons. Vossion, French Commissioner; Consul Haywood, F. A. Schaefer, Consul for Italy; H. M. Von Holt, Consul for the Netherlands; H. Renjes, Consul for Spain and Peru; J. F. Hackfeld, Consul for Germany and Austria-Hungary; H. Foeke, Consul for Belgium; F. M. Swanzey, Acting Vice Consul for Great Britain; Goo Kim, Chinese Commercial Agent; H. P. Baldwin, Bishop Willis, J. B. Atherton, B. F. Dillingham, Sir Robert Herron, Chief Justice Judd, Justice Whiting, Justice Stanley, J. M. Out, T. May, J. M. Monsarrat, G. C. Potter, E. D. Tenny, George Greig, R. Cotton, W. C. Woodson, W. R. Castle, C. G. Ballentyne, Dr. N. B. Emerson, J. H. Hassinger, J. H. Soper, G. E. Boardman, Senator A. Hocking, Dr. H. V. Murray, E. B. Thomas, Fred Naylor, T. Black, W. W. Wright, Fred Harrison, Thomas Lindsay, Paul Neumann, Senator H. L. Holstein, Senator F. S. Lyman, Rev. Alex. Mackintosh, Hon. A. S. Cleghorn and many others.

The Hawaiian band played in the rear part of the grounds during the progress of the reception. A light lunch and refreshments were served. Mr. Kenny greeted all with a polite welcome and a hearty handshake.

A COMING CONCERT.

Another concert will be given by the pupils of St. Andrew's Priory in the Sunday school room next Monday evening, beginning promptly at 7:30 o'clock. The affair will be something like the one given a year ago and it promises to be equally entertaining. Tickets will be placed in the hands of pupils for sale and may be had at the door on the evening of the concert.

WHOOPIING COUGH.

I had a little boy who was nearly dead from an attack of whooping cough. My neighbors recommended Chamberlain's Cough Remedy. I did not think that any medicine would help him, but after giving him a few doses of that remedy I noticed an improvement, and one bottle cured him entirely. It is the best cough medicine I ever had in the house.—J. L. Moore, South Burgettstown, Pa. For sale by Benson, Smith & Co., wholesale agents for the Hawaiian Islands. All druggists and dealers.

ADVERTISE THE ISLANDS

E. C. MACFARLANE'S VIEWS ON THE PRESENT OPPORTUNITY.

A Big Chance to Swing Tourist Travel Into the Pacific—Hawaii Should Have Its Fair Share.

A strong pull is being made to advertise the Islands by E. C. Macfarlane, and he should receive the strongest support in his efforts. Mr. Macfarlane called at The Star office and explained his views. The point is that there is a good opportunity at the present time to attract tourist traffic, inasmuch as in consequence of the war with Spain thousands of people who would have gone to Europe, will now go to places in the United States and the bulk of them to Omaha, and therefore at Omaha is the place to advertise.

"Half the people in these Islands do not realize how much money is left in this country by tourists," said Mr. Macfarlane. "You may easily put it down that every passenger that comes through by the various steamers is worth \$20 a day. This money is distributed among the storekeepers, the hotels, the hack drivers, the steamship companies and others, and eventually finds its way to the pockets of every one, though many who benefit are not directly interested in tourist travel.

"We have never had such a chance as we have now. What my brother George has been striving for for years has at last been brought about. All the Pacific Mail steamers will now stop here, and this with the Oceanic Steamship Company and the Canadian line, give us ample steamship communication. We now tap the United States, China and Japan, and the British Colonies, north and south, and are a point from which anyone may reach anywhere, and this means that the person has to stay and spend money at the cross roads.

"By every steamer inquiries for literature on the Islands are received, and are handed to me as the representative of the Volcano House Company. What literature there is is nearly exhausted, and if we want to divert tourist travel in this direction, we must do something for ourselves in this way. Other people do this kind of thing lavishly. Take Southern California and see the amount of material in pamphlets and booklets that has been issued. Look at the amount of stuff that has been sent abroad about the show places of the Canadian route. Now is the time for us to put in our big bids. We must have thoroughly organized effort and not leave the advertising to one or two individuals or firms. The Government has done something in the way of issuing a hand book on coffee. The Paradise of the Pacific has done a good deal in disseminating information, but the people who have done the most in this line have been the Oceanic Steamship Company. They have furnished a large amount of literature which has reached very distant places.

"If we want to succeed now is our time. There will be an enormous number of people at Omaha, for many people will go there who but for the war would have gone to Europe. It is a pity the Cyclorama did not go to the Exposition, because it would have been a big advertisement. What we can do now is by sheer force of effective little pamphlets and illustrations. The distribution of this advertising will be through those in charge of the Hawaiian exhibit and the tourist agencies of Thomas Cook & Son, the Raymond Whitcomb Company and the Oceanic Steamship Company, all of whom will have representatives at the exhibition and will see to it that the literature supplied will have the widest distribution.

"What we propose to do is to ask the Legislature to grant \$1,500 for this purpose and we expect to get \$1,500 from the merchants and other people interested. I have talked on the subject with W. G. Irwin of the O. S. Co., with J. F. Hackfeld of the Pacific Mail Company, with John Ena of the Inter Island, with C. T. Wright of the Wilder Steamship Company and B. F. Dillingham of the Oahu railway. All of these favor the effort to advertise the Islands on the lines proposed, and I find many of the principal merchants have exactly the same views, and are ready to promise their assistance.

"Now is the time. We have our chance and we must take it. Properly advertised our tourist traffic will extend tremendously. Lots of people desire to come here and do not know what the expenses are nor how the Islands can be reached, but if the information were at hand a large percentage of them would come. I hope the community will respond to my views. You can tell your readers this, that whatever funds are given will be expended in the most judicious manner possible, and that every dollar will be made to tell."

And then Mr. Macfarlane walked down stairs to carry on the propaganda as earnestly as he had done in the sanetum of The Star, which paper heartily endorses his views. To advertise the Islands for tourists is one of the best schemes that can be carried out.

HER MAJESTY THE QUEEN

ALL HONOLULU CELEBRATES HER BIRTHDAY.

Reception at the British Commissioner's—Grand Ball Tonight—Some People Who will be There.

At 11 o'clock this morning British Commissioner Kenny received the public at the legation in Palama in honor of the seventy-ninth anniversary of Her Majesty Queen Victoria. Among the large number of callers were officials of the government and members of the diplomatic corps. The home of the British Commissioner was handsomely decorated with flags and bunting.

Tonight the grand ball will take place in the pavilion at Independence park. Dancing will begin at 8 o'clock sharp. A very large mixed orchestra will furnish music. Supper will be served at 11 o'clock sharp. Special cars will be run both ways during the progress of the ball and will wait for the crowd until the dance is over.

George Dall and his assistants have transformed the pavilion into a bowery of flags, bunting and floral specialties. Potted palms and ferns have been stationed thickly around the main dance hall and the walls of the building have been thickly covered with flags and streamers of bunting.

The light effects have been greatly improved over previous years. Over the band stand the letters "V. R." in vari-colored lights again appear. In the rear is the year in another place. In addition to the regular electric display arrangements have been made with Mr. Macfarlane for the use of six gas chandeliers, two large and four small ones.

Among the prominent people who have accepted invitations to attend the ball may be mentioned: President and Mrs. Dole, Minister Cooper and wife, Minister Damon and wife, Attorney General Smith, Chief Justice Judd and wife, Justice Frear and wife, Justice Whiting, Judge Perry, Judge Stanley and wife, Minister Sewall and wife, Consul Haywood, all members of the Consular Corps, Captain Nichols and officers of the Bennington, Colonel Soper, Colonel Fisher, W. C. Wilger and wife, Speaker J. L. Kaulokou, Princess Kaiulani, Hon. A. S. Cleghorn and others.

British Commissioner Kenny has been most active in arranging the affair and will take an important part in the dance program at the park. Thomas E. Krouse of the Arlington will furnish refreshments and provide the supper.

The various committees in charge of the affair are:

Chairman—W. J. Kenny, Esq., H. B. M's Acting Commissioner and Consul General.

Vice Chairman—Hon. A. S. Cleghorn.

Secretary—W. Horace Wright.

Finance Committee—F. M. Swanzey, chairman; William G. Irwin, W. W. Wright, John Phillips and A. S. Cleghorn.

Reception Committee—W. L. Stanley, chairman; Dr. H. V. Murray, T. M. Starkey, Rev. V. H. Kiteat and Rev. Alex. Mackintosh, W. Horace Wright.

Decoration Committee—George L. Dall, chairman; J. Lucas, J. Lightfoot, F. Davey, F. Harrison and W. White.

Floor Committee—J. S. Walker, chairman; A. St. M. Mackintosh, Sir Robert Herron, E. B. Thomas, A. Garvie and T. Black.

Refreshments Committee—Robert Cotton, chairman; W. H. Pain, Dr. J. Weddick, W. W. Wright, W. Lishman and W. C. Spruill.

Printing and Advertising Committee—Daniel Logan, chairman; H. L. Herbert, George Harris, T. Smith and W. Horace Wright.

RINGING ANSWER IN KAHULUI WHARF PROCEEDINGS.

Denies That the Republic Owns Harbors and Wharves—Claims Kahului Pier Site Under a Royal Grant.

A ringing answer in the suit of the Hawaiian Government against the Hawaiian Commercial and Sugar Company, a bill for injunction in the Kahului wharf matter, has been filed by the attorney for the defendant corporation. Some of the principal cross contentions are as follows:

Defendant denies that the Republic of Hawaii is seized in fee simple of all land in the Republic bordering on the sea coast and below high water mark, or is the owner of or entitled to the possession or control of all the harbors and sea ports in the Republic.

Defendant avers further on in the vision of wharf work by the Minister of Interior must in no way restrict, modify or interfere with private rights of property in the premises.

The defendant avers that it holds answer that the Kahului pier as now constructed does not extend into the harbor, but only over a portion of its shallow water, which portion is not available for navigation. Such pier in no way obstructs the harbor or the handling of freight therein.

The defendant avers that it holds the land adjacent to the pier under a lease from Kamehameha III, giving full right and authority to make the pier and wharves upon the water side of said land, and that the lease was made by Kamehameha III not only in the exercise of his private right of ownership in the premises, but as a valid act of suzerainty, and that the lease operates as a Royal Grant or Charter fully authorizing and justifying the construction of the pier.

By way of plea to the jurisdiction the defendant says further:

That it is the owner of the land upon which the landing, or pier referred to, is situate, and denies and has denied the public right to use such landing.

And that the plaintiff has not caused inquiry and investigation to be made into the subject in order to decide whether in his opinion the public is entitled to an easement in such landing, and has not brought the matter before a court of competent jurisdiction to settle the question and that the procedure to be pursued in settling any such question is not in equity, but is that prescribed in Chapter 18 of the Laws of 1890.

THE KAIMILOA IN GLORY

TO BE BOMBARDED, FIRED AND BLOWN UP.

Proposed Grand Marine Spectacle, the Destruction of a Navy, in Honor of the Visiting Troops.

A fire at sea, an explosion of a submarine mine, the destruction of a navy, almost the final cataclysm, and all in one act is the spectacle proposed for the entertainment of the visiting soldiers on the Peking.

The suggestion has been made to the committee on grounds and decorations, and it seems likely to be adopted.

The proposition is to take the old hulk "Kaimiloa," once the Hawaiian navy, fill her with inflammable material, deck her out with sails and and hunting, anchor her outside the reef over a submarine mine, let the Bennington bombard her until she is set on fire, then while she is burning, explode the mine.

The project is said to be entirely feasible and not expensive. The Kaimiloa is owned by the Inter Island company, which would doubtless donate the vessel for this purpose, or at least sell it for a nominal figure. The rest of the program would cost little, and it would make one of the most stirring spectacular features imaginable.

It would be a glorious finale to the Kaimiloa.

"For she used to carry bricks. Upon the coaly Tyne; But now she is a warship. On the stormy brine."

THEY ALL PLEADED GUILTY.

Where Ten Played Twenty were Fined for Gambling.

Twenty natives pleaded guilty in the District Court yesterday to a charge of playing in a single game of straight poker, and were fined \$5 each together with costs.

As five cards are dealt to a hand in this game and there are only fifty-two bits of pasteboard in a deck, it is clear that some of the men were not playing at all. Had all struck out it is equally clear that the prosecution could not have convicted a single man.

The case of twenty men pleading guilty to a charge which could only apply to ten of them is unparalleled in this country.

TEMPERATURE. Some scientists now hold that above the altitude of 12,000 feet from the sea level the temperature decreases about one degree for every rise of 350 feet.

LONDON'S FOG. A recent day's fog in London cost over \$100,000 for gas alone. This was exclusive of the cost of electricity and oil, and the loss to trades people by the stoppage of traffic.

TOBACCO. Less tobacco is consumed in Great Britain, in proportion to its inhabitants, than in any other civilized country. The average is 25 ounces per annum for each person.

JAPANESE STUDENT EXPENSES. The necessary expenses of a Japanese student at the University of Tokio are estimated at from \$7 to \$12 a month.

STILL INCREASING. The patronage of the Criterion barber shop is still on the increase. Many shops derive an increase for a time, but it drops off again, while at the Criterion barber shop the motto still stands good, "Once a patron, always a patron."

KAMEHAMEHA DAY RACES

LIST OF EVENTS PROMISED BY
THE COMMITTEE.

Races Will Not Extend Over Two
Days—Eleven Events—Perhaps Oth-
ers—Horses in Training.

The committee in charge of the
race program for the 11th of June,
practically completed its work yester-
day afternoon. Eleven events were
positively decided upon with a loop-
hole for a few more if found to be
necessary. Number of heats in some
of the events is still a matter for ad-
justment.

Contrary to the hopes of many of
the horsemen he meet will take place
in a single day, a Saturday. The
committee did not feel, with the mat-
erial at hand, that it would likely pay
to carry the events over into two days.
It is remarked that if the horsemen
wish another day of sport they can
arrange it for a day a week or two af-
ter the 11th, just as well.

Entries will not close until the week
of the races. To date thirty-two hor-
ses are in training at the park, and it
is almost certain that all of them will
be in the meet. The complete list of
events is as follows:

2:30 Class—Pacing and trotting to
harness. Best 2 out of 3.
½ Mile Dash—Free for all.
¾ Mile Dash—Free for all.
2:30 Class—Pacing and trotting to
harness. (Number of heats not yet
settled).
1 Mile Dash—Irwin cup. For Hawa-
ian bred horses.
¾ Mile Dash—Walkapu challenge
cup. (To Beat 1:16½, made by Han-
cock).
Free for All—Trotting and pacing
to harness. (Number of heats not
decided).
1 Mile Dash—Free for all. Rosita
challenge cup. (To beat 1:45½, time
of Angie A.).
¾ Mile Dash—Oceanic Steamship
Co.'s cup. Hawaiian bred horses.
2:25 Class—Trotting and pacing to
harness. (Number of heats not yet
decided).
1½ Mile Dash—Free for all. Presi-
dent Widemann's cup.

RECEPTION TO PARENTS.
Mr. Cheek gave a very interesting
exhibition of the work of his junior
class in the gymnasium of the Y. M.
C. A. yesterday afternoon. The regu-
lar program of exercises, handball,
etc., was carried out. Galleries and
the neighboring rooms were filled
with the parents and friends of pu-
pils. Among those present were Chief
Justice Judd and wife, W. R. Castle
and wife, E. W. Jordan and wife,
Miss Judd and many others.
Mr. Cheek will sail for the Moana to-
morrow for his home in California.

LOTS WENT HIGH.

Chief Clerk Hassinger of the In-
terior Department sold lots 620 and 621,
Thurston avenue, in front of the Ex-
ecutive building yesterday. Very sat-
isfactory figures were realized. The
first brought \$720, upset \$400. No.
621 brought \$1,550, upset \$750. Both
of them were purchased for Theo. H.
Davies. The gain over the upset fig-
ures on the two lots was \$1,120. W.
C. Achi was the chief opposing bid-
der.

A BIRTHDAY.

Today wherever there is an Englishman, be it in the burning South or the frozen North, or amid the green lanes and pleasant meadows of the home land, whether it be in the colony that owes allegiance to the mother country, or a small knot among a mass of other nationalities, is celebrated the birthday of Queen Victoria.

In the list of sovereigns that have for over a thousand years graced and disgraced the British throne, there is no name that shines brighter than that of Victoria. It is a curious fact that Great Britain has been exceptionally fortunate in her Queens, and fortunate during the period that they held sway. The reign of Elizabeth gave a woman of commanding character and keen political foresight, it was also a reign to be remembered for the brilliancy of its soldiers, sailors, writers and politicians, and it is odd that Queen Victoria is being advised at the present moment by the direct descendant of Queen Elizabeth's chief adviser. Lord Salisbury traces his descent from Cecil, Lord Burleigh, who played so eminent a part in Elizabethan councils.

The reign of Anne was another brilliant period for the British monarchy. Of Anne herself there is not much to say. In character she could compare neither with her ancestor, Elizabeth, nor with her latest successor, Victoria, but the period of her reign was marked by brilliant military and naval achievements, by political victories and by a remarkable literary activity, which has caused that time to be named the Augustan Era of English literature.

But brilliant as these two reigns were, their glory pales before that of England's present Queen. She has reigned from blooming youth to honored age, and during that unprecedented period has never once lost her popularity, but has ever won to herself and her throne the hearts of her people. And it is not by her own people, those who owe her allegiance, that she is honored, but there is not a country upon the face of the globe where her name has not reached, and where her virtues and goodness are not known and extolled.

It is in this that the greatness of Queen Victoria lies. It is not that during her reign the material welfare of her nation and its dependencies has increased wonderfully, that her generals have been victorious, that her merchants have been prosperous, that writers of the greatest brilliance have put forth their best work, that the secrets of science have been discovered and made to minister to the wants and needs of mankind. These certainly mark the reign as one to be remembered in history, but what makes it the most remarkable is in the character of the woman. It is as the woman far more than as the Queen that she is admired and honored. When one thinks of the characters of Queen Victoria's immediate predecessors, when one reads Thackeray's Four Georges, or the Memoirs of Madame D'Arbly, and sees the pictures of court life and of society that are there portrayed, one fully realizes what Queen Victoria is, and what by the beauty of her character and the purity of her life, she has done for the people who are fortunate enough to have her reign over them.

So thoroughly is Queen Victoria admired and beloved that no matter in what country of this globe they may be, men of British blood find all ready to join heartily in the sentiment when uttered of

GOD SAVE THE QUEEN!

* There can be no doubt that the segregation of items made by the Committee on Health and Education is a wise measure. The voting of lump sums by the Legislature is inadvisable, for the members cannot see for themselves in what manner the money is spent. Certain matters however must be lumped. As, for instance, the vote for salaries of teachers. But then the House has that vote practically segregated in the report of the Board of Education; at the end of the report there is a complete list of the teachers employed, their length of service, their standing, the place of their employment and the amount of salary paid each. From this the members of the Legislature can see what of what sum will be needed. But in

ing what improvements and additions are necessary, can form some notion of what sum will be required. But in the Board of Health, until the committee obtained a list from the secretary of the Board, there was nothing to show in what way the pay of the physicians was apportioned or indeed the pay of many others of the employees of the Board. And not knowing this how could any body of men vote intelligently? The work therefore, of Chairman Gear, is to be highly commended.

THE FORESTS.

The appointment of a committee to consider the forests of the Islands is a very good move. There is nothing more important to a country than the preservation of its forests. For centuries the world did not understand the advantages of its forests and recklessly cut them away. France was one of the first to realize what had been done by denuding the land of its timber, and set to work to remedy, as far as possible, the mischief done. Germany followed suit soon after and in knowledge of the art of forestry has far excelled the world. The best school of forestry is undoubtedly in Germany, and German foresters are employed throughout the globe in the battle to restore what man has foolishly destroyed.

In India the Bureau of Woods and Forests is one of the most important under the government, and employs an army of workers officered by men trained in the subject as men are trained for law, medicine or any other of the professions, and if we are to employ anyone to look after our forests it is to India that we should turn. The difficulty would be to obtain a thoroughly efficient man, because the efficient men would not care to leave a service where there is certainty of promotion and equal certainty of a pension at the end of a number of years, but it might be possible to borrow a forester for a definite time, and have him train up some of our own people.

But a forester will be no use unless we have some legislation upon the matter of forests. We require forest reserves, tracts of forest land to be taken care of and nursed. People point to the Makiki forest and think that a great deal has been done. But the Makiki forest has only been a costly experiment. What the country wants is something far more practical than that. We want new forests it is true, but what we chiefly need is to save and protect those that still remain to us, and the presence of a forester is not going to do much in that direction unless he has the arm of the law to help him in his endeavors.

THE LOCK AND THE KEY.

You can operate a lock only with the key that fits it. Very well. So you can cure a disease only with the medicine that goes down to the cause of it. Now, many so-called diseases are in truth only forms of one disease, branches of one tree, as we may say. For example, if we can nourish the body and enrich the blood, we speedily get rid of many of our troubles, such as Anemia, Fevers, Rheumatism, Scrofula and Blood Disorders, and so on—all proofs that the body lacks vitality and force. Nothing is so effective a body-builder as cod liver oil; but, alas, how many are nauseated at the very thought of it. In

WAMPOLE'S

PREPARATION,

of the nutritive properties of Pure Cod Liver Oil, extracted by us from fresh cod livers, we have the *rose without the thorn; the valuable drug minus its vile taste*. Add to this the Syrup of Hypophosphites Compound for making bone, and the Extracts of Malt and Wild Cherry for equally excellent purposes, and we have a remedy indeed; one as pleasing to the palate and stomach as it is potent and successful in banishing disease in old or young and making life worth having. You cannot be disappointed in it. It is not like the old things; it supersedes them. It is good-as-it-is-famous. Every dose effective. Sold by chemists throughout the world.

Timely Topics.

May 18, 1898.

The excitement over the Spanish-American war keeps up and news from the front is anxiously awaited. We predict that this will soon be over and that peace and quiet will take its place. The comforts of home are the real enjoyments of life, and we are constantly on the look out for articles that will add to those comforts. On the last Zealandia came a shipment of

Hanging Lamps

in Gilt, Black and Bronze. They are very pretty and also cheap. Nothing adds more to the beauty of a room than a hanging lamp.

Piano Lamps

A few nice ones in Black and Gold came. They are very ornamental to the furnishing of your room. Come in and look at them, and at the prices we have placed upon them you will agree with us that you can afford to buy one. Also a few of those

Onyx Tables

that are at all times an ornament to any room. Then, when it comes to cheaper goods, we have on hand a large stock of

Mill Lanterns,

Tubular Lanterns,

Dash Lanterns,

for Buggies and Brakes. They will not blow out in any gale and you take no chances from the mounted patrol.

DEAR SIR: The Secretary Disc Plow I purchased from you is giving us satisfaction. We are using it to plow under a crop of lupins. They are three feet high and very thick. Your plow turns them completely under, at the same time plowing the land fourteen inches deep.

I feel satisfied that with this plow the draft for the same quantity and depth of work is as six to eight. That is, with the old plow, to do the same work, it takes eight good mules; with your plow it takes only six, and they are less tired at night.

Please send me another plow by the first schooner leaving for this.

You are at liberty to use this in any way you may see fit.

Yours truly,

AGREES WITH RESOLUTION

CONSUL HAYWOOD IS AGAINST SERVING LIQUORS TO TROOPS.

Thinks Officers Would Doubt Propriety of Giving Men Liberty in a "Wet" Town.

George C. Sellner, secretary of the executive committee of the One Hundred, has received the following note from Consul General Haywood, in relation to the resolution passed by the committee on Saturday, discountenancing the use of liquors in any part of the entertainment to be given to the United States troops on their way to Manila.

"Dear Sir: I have the honor to acknowledge the receipt of your communication of the 21st instant, informing me of the following resolution which has been adopted by your committee:

"Resolved that no liquors will be paid for by this committee, and that no liquors of any kind will be allowed at the drill shed or at any place where refreshments are served under the control of this committee."

"In reply I beg to inform you that the above resolution has my hearty approval. I feel confident that the commanding officers of the troops could doubt the propriety of allowing them on shore if they thought liquor would be freely given to them. As we all desire that the troops be given shore liberty, I consider it wise on the part of your committee to eliminate every feature of the entertainment which would, in the slightest degree, tend to defeat that privilege.

"I am, very truly yours,

"WM. HAYWOOD,
"Consul General."

HOISTED A SPANISH FLAG.

But After Diplomatic Intervention It Came Down Again.

Dimond's window was the indirect cause of the promise of a big row up town, Sunday afternoon. Everybody has seen the window and knows what is referred to.

There are two Spaniards in town who have had all kinds of indignation since that window was fixed up. One of them grew particularly wild over it Sunday. A little teasing by some Portuguese did not soften him a bit and he started out to show the town a thing or two.

Securing a Spanish flag he hoisted it high over his head and started down Punchbowl street with it. Soon a few dozen men, boys and dogs joined the procession. At times the leader would stop and harangue them in broken English.

It was during one of these pauses that a one-armed G. A. R. veteran, and a visitor from San Diego, came up. The former demanded that the Spanish flag be lowered. The Spaniard was defiant. Just as the G. A. R. man started to clear the road of such debris as stood in the way a policeman came up. Men, boys and dogs cleared out, leaving the Spaniard, the two Americans and the policeman alone on the scene. An armistice was declared. There was diplomatic intervention and the war on Punchbowl was over.

A BIG, NEW VAULT.

I. I. S. N. Co. Provides an Improvement in That Line.

The books, papers, etc., of the Inter Island Steam Navigation Company were moved from their old offices yesterday afternoon to their big vault in the new building on Queen street. This vault, by the way, is an improvement on anything ever built in Honolulu. Besides being of great size and conveniently arranged, it opens on both ends, upon the general office and into the private office of the heads of the company.

The interior work is being finished today. Most of the outside ornaments and finishings are in place, and as soon as the building is scrubbed up a bit the company will move into it.

GAS ENGINE.

In the Diesel gas engine which is now attracting much attention in Germany, the mixture of air and gas which moves the piston is not suddenly exploded when it takes fire, but burns slowly enough to impart a more gradual impulse to the engine. A 1,000 horse power motor of this type is promised for the Paris exposition of 1900.

NOTICE OF MORTGAGEE'S SALE OF HOUSE AND LOT, RICE LAND AND FISH POND.

Attention is called to a Mortgagee's Sale (See Mortgagee's notices in Hawaiian Gazette and Kuokoa) which will take place at the auction rooms of James F. Morgan, on Queen street, in Honolulu, on Monday next, the 30th day of May, A. D. 1898, at 12 o'clock noon of said day, of the following property, viz:

First.—A house and lot on the continuation of King street beyond Mr. Henry Cooper's (old McCully premises). The lot is 51-100 of an acre. Has a new and commodious house upon it, which is insured for \$1,000, to the 20th day of March, 1900. The lot is enclosed with a substantial fence and is a very desirable piece of property.

Second.—Rice land on the continuation of King street, makai side of the street, and just beyond the house and lot. Area 3 12-100 acres. This property is leased for \$120 per annum until the 1st day of September, 1900. Rent payable semi-annually in advance.

Third.—Fish pond on makai side of Waikiki Road, in the II of Pau. Area, 53,804 square feet.

For further particulars apply to J. M. MONSARRAT, Attorney for Joseph Marsden, Mortgagee.

The People Believe

What They Read About Hood's Sarsaparilla

Their Faith in This Medicine is Grounded on Merit

They Know It Absolutely Cures When Other Medicines Fail

Hood's Sarsaparilla is not merely a simple preparation of Sarsaparilla, Dock, Sillings and a little Iodide of Potassium. Besides these excellent alteratives, it also contains those great anti-bilious and liver remedies, Mandrake and Dandelion. It also contains those great kidney remedies, Uva Ursi, Juniper Berries, and Pipsissewa.

Nor are these all. Other very valuable curative agents are harmoniously combined in Hood's Sarsaparilla, and it is carefully prepared under the personal supervision of a regularly educated pharmacist.

Knowing these facts, is the abiding faith the people have in Hood's Sarsaparilla a matter of surprise? You can see why Hood's Sarsaparilla cures, when other medicines totally, absolutely fail.

"My little girl was afflicted with eczema and suffered for seven years. She was attended by physicians and tried many different kinds of medicine without relief. After taking a few bottles of Hood's Sarsaparilla she was cured." Mrs. EMMA FRANKLIN, Homeoye, New York.

This oat meal is one of the best, if not the best, cereals for breakfast that is placed on the market. The fact of its being put up in cans is a great thing in its favor, as the purchaser is certain of getting full value. It is an extremely nutritious article and just the thing for growing children.

Cracked Cocoa

This cocoa is not the kind usually dealt out to you at your grocer's but is something a little out of the ordinary, in that it is CRACKED, not ground, thereby preserving its natural AROMA and STRENGTH. Make a trial purchase, and if you are a lover of cocoa, we will venture to say that you will never again go back to the ordinary ground kind.

An Empty Head! An Empty Heart! or, An Empty Purse!

Which of these three are the worst?

A summary of the whole would prove that all are bad, and without doubt an Empty Purse the worst.

When you discover evil, then it is time to make preparations to offset the damage done.

To buy an article without considering the condition of your purse—the value received for money spent and the best place to make purchases, is an unwise action. Look well to your buying.

Hawaiian Electric Company.

The cleanest, brightest, safest and really the longest run, the cheapest and best light for use in the family residence, is the incandescent electric light. Safe; nothing could be safer. A few days ago a prominent gentleman of Honolulu came rushing down to the office of the Electric Company and said: "Give me figures for wiring my house, and I want it done at once; no more lamps for me. Last night a lamp tipped over and it came so near setting fire to the house and burning my children and I take no more risks."
This is the sentiment of quite a number in the past few weeks, who have ordered their fixtures fitted with the perfect light.
Just think it over and make up your mind that you want the best and safest light; send for the Hawaiian Electric Company and tell them what you want.
We have a complete stock of everything in this line and have just received a lot of the very latest designs in chandeliers

GOOD BLOOD

Your heart beats over one hundred thousand times each day. One hundred thousand supplies of good or bad blood to your brain. Which is it?
If bad, impure blood, then your brain aches. You are troubled with drowsiness yet cannot sleep; you are as tired in the morning as at night; you have no nerve power; your food does not seem to do you much good.
Stimulants, tonics, headache powders, cannot cure you; but

AYER'S Sarsaparilla

will. It makes the liver, kidneys, skin and bowels perform their proper work. It removes all impurities from the blood. And it makes the blood rich in its life-giving properties.

For biliousness take AYER'S PILLS. They promptly relieve and surely cure. Take them with Ayer's Sarsaparilla; one aids the other.

WORLD GROWING SMALLER

WHAT BETTER TRANSPORTATION DOES.

With the Siberian Railway Completed It Will Take Only a Month to Circle the Globe.

Prince Khilkoff, the Russian Minister of Communications, is reported to have stated that when the Siberian railway is opened throughout its entire length, the tour of the world may be made in thirty-three days. The various divisions of the journey are covered as follows: Bremen to St. Petersburg, one and a half days; St. Petersburg to Vladivostok, ten days; Vladivostok to San Francisco, ten days; San Francisco to New York, four and a half days; New York to Bremen, seven days; total, thirty-three days. Another authority goes one better than that. He proposes to reduce the length of the world's journey to twenty-eight days. The figures given by the Russian Minister are evidently based on the actual running speed of the various railway and steamship lines, an estimated average speed of about twenty-five miles an hour from the Russian capital to Vladivostok. But it is suggested that if the traveler had the service of the fastest existing ships on the ocean and the trains were run at the highest rate of speed consistent with the grades, curves and condition of the permanent way of railways in the various districts passed over, five days might be saved. Thus the Kaiser Wilhelm would be available for the Atlantic passage, with her average speed of 22.34 knots per hour, and a 20 knot speed is assumed for the Pacific passage. To maintain the high averages of the special trains, it is further assumed that speeds of from sixty to seventy miles an hour would be maintained on level stretches of country to make up for time lost in crossing mountains. The probable best time that could be made by engaging special trains, assuming the ocean passages to be performed at the speed mentioned, would be as follows: London to Moscow, 36 hours; Moscow to Vladivostok, 149.1 hours; Vladivostok to San Francisco, 270 hours; San Francisco to New York, 73.1 hours; New York to Plymouth, 133.8 hours; Plymouth to London, 32 hours; total, 665.2 hours. This gives a total of 27 days 17 hours for the whole journey.

HARD TUG OF WAR.

Portuguese Win After a Pull of Forty-eight Minutes.

The tug of war uted at Willison's circus last night was the longest on record for this season. It lasted forty-eight minutes. During a half of that time neither side gained much advantage. At the finish the Kinau team had tediously dragged the seven from Kauluwela school over the line. Tonight the Apua team of natives will pull the Iwalani team of Portuguese. Both are considered strong sevens.

The pulls between teams of girls is set for Thursday evening. This event is looked forward to with great interest.

On Thursday night F. L. Y. Martyn, the veteran manager, together with his young lieutenant, Frank Saunders, who seriously injured his shoulder a short time ago will take a well deserved benefit. All the resources of the management will be brought into play and the event promises to be a great success.

In honor of Her Britannic Majesty's birthday the National anthem will be played by the circus band at 9 p. m. tonight, and a regular British program of horsemanship will be presented. Middle Frederica will dance an English hornpipe and appear as a British grenadier in military exercise.

GREAT SPEED.

The torpedo boat destroyer Violet made an average speed of thirty knots an hour during a recent continuous trial of three hours.

OLDEST SAILING CRAFT.

The oldest sailing craft in the world is the so called Gokstad ship, a viking vessel, which was discovered in a sepulchral mound on the shores of Christiania fiord. It is one thousand years old.

THE CZAR'S WAY.

Vladimir Bourtzoff, editor of the "Narodny Evoletz," and the printer, Weirzsch, have been sentenced to terms of imprisonment for publishing Nihilistic and inflammatory articles against the Czar.

Many old soldiers now feel the effects of the hard service they endured during the war. Mr. George S. Anderson, of Rossville, York county, Penn, who saw the hardest kind of service at the front, is now frequently troubled with rheumatism. "I had a severe attack recently," he says, "and procured a bottle of Chamberlain's Pain Balm. It did so much good that I would like to know what you would charge me for a dozen bottles." Mr. Anderson wanted it both for his own use, and to supply it to his friends and neighbors, as every family should have a bottle of it in their home, not only for rheumatism, but lame back, sprains, swellings, cuts, bruises and burns, for which it is unequalled. For sale by Benson, Smith & Co., wholesale agents. All druggists and dealers.

A SHORT SENATE SESSION BRIGHTER VIEW OF COFFEE

ADJOURNS ON ACCOUNT OF THE QUEEN'S BIRTHDAY.

Public Lands Committee Sits Down on House Bill to Amend Land Act of 1895—Other Reports.

Senator Lyman for the Passed Bills Committee reported Bill No. 39, appeals and exceptions, referred to the President for his signature.

The same member for the Public Lands Committee recommended the passage of Senate Bill No. 44, opening streets over private lands. The committee endorsed the principle that all street matters should be under the supervision of the Minister of Interior, thus being in a measure under the eye of the government, as was the intent of this bill. Report was adopted, which carried the bill on second reading. Third reading Thursday.

The same member for same committee recommended the passage of Senate Bill No. 46, certain agreements of sale under the Homestead Act of 1884.

Same committee did not approve of House Bill No. 52, to amend Part V of the Land Act of 1895.

The object of this bill is to revise Section 24 of the Land Act which has run out, and make it perpetual. The committee sees in this an opportunity for abuses which should be avoided. Report received to be considered with the bill.

At 10:10 Senator Holstein offered the following resolution: "Be it Resolved, That this 24th day of May, 1898, being Her Britannic Majesty's natal day, we adjourn in honor and commemoration of said day."

Adjourned. There was no session of the House. Some of the committees met and after discussing a few matters referred to them adjourned for the day.

ENGLISH MILITARY BAND.

For the second time only since the American war of independence an English military band will visit Canada. Lieutenant Dan Godfrey, for forty-one years a leader of the Grenadier Guards band, has gathered about him some of the finest musicians in England's army. He and his band will make a tour of Canada and the United States in May and June of this year. The last occasion on which an English band visited Canadian seas was in 1872, when Dan Godfrey brought out the Grenadier Guards for the Boston Peace Jubilee Commemoration, playing before 72,000 people at one time, and arousing great enthusiasm.

Predict a Brisk Market for the Better Grades of Hawaiian and Recommend Greatest Care in Handling.

Touching the conditions affecting the price of coffee The Star yesterday published the views of W. H. Crossman & Bro., as given in their latest circular. These views were to the effect that Brazilian coffee at least would go down in price.

On the other hand Otis, McAllister & Co. say in their circular dated San Francisco, April 27th:

"Hawaiian Coffee.—Since date of our last circular, March 26th, arrivals have been light and stocks in first hands have decreased to 1,633 bags. "After a considerable period of inactivity in the market for Hawaiian coffee, there has been lately an increased business and sales have been made as reported below. The commencement of action which apparently will lead to actual war with Spain will lead to the market for the better, and based on the assumption that a duty will be placed on the imports of coffee, holders have held stocks at higher prices, some have sold freely believing war will be of short duration, while others having opposite opinions are holding."

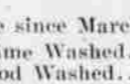

"The market is almost bare of stocks of fine Guatemala and as none can come before the crop due here from December to March next, there will undoubtedly be a brisk market for all the better grades of Hawaiians, and we again recommend greatest care in the curing and preparation of the article."

SNAP SHOTS OF IT.

Clifford Rhodes has taken some fine views of the decorations and feast arrangements in the drill shed. The pictures show plainly the handsome living green motto over the stage, "Remember the Maine," as well as the portrait of President Dole and other features of the arrangement. The tables appear in the foreground, set and ready for the "dinner bell."

Beware of "cheap" baking powders. Alum makes good medicine but bad food. Ask your doctor. 612
