ASSAULTED LUNA BURKE

ARTHUR FITZGERALD FAILS TO ESCAPE PRISON.

Is Thrown Into the Dungeon and Denied All Liberties—Has Caused Jailor Low No End of Trouble.

Arthur Fitzgerald, jockey, sport, crook, highwayman, who is doing three years time in Oahu prison for attempting to kill a policeman last year, made an unsuccessful attempt this morning to end Chief Luna Burke's earthly existence.

Burke was too quick for Fitzgerald, and with the assistance of a treacherous looking rifle, quickly subdued his assailant. Fitzgerald is now in the dungeon living on half rations.

For some time Fitzgerald has been causing Jailor Low and the prison officials no end of trouble. He was committed to the reef about eight months ago and from the moment he arrived there, Fitzgerald has been ugly and obstinate.

Fitzgerald's first offense was a deadly assault upon Sam Stone, one of the native prison guards. Fortunately for Stone two other prison guards rushed to his assistance and prevented Fitzgerald from making his escape.

Lately Fitzgerald has refused to work. It was not safe to allow him to go out with a gang of prisoners to work on the roads unless there was an extra guard sent along to watch him.

Jailor Low has now placed his unruly boarder in solitary confinement with half rations. He has also ordered that all small liberties granted the other prisoners be denied Fitzgerald.

Arthur Fitzgerald has had a very checkered career. He came to the Islands several years ago and was employed by the late Charles L. Carter, as a coachman. He was a neat appearing fellow and was rather bright.

His first crime was holding up a Chinaman on the Palu road and beating him nearly to death.

Fitzgerald has an accomplice who "beached" on him. He was next heard of when he carried off the Tramway safe containing over \$500. When the officers attempted to arrest him, Fitzgerald showed fight and shot the officer with a rifle.

THE HALSTEAD RESIDENCE.

Plans Completed for a Beautiful Home in Makiki.

The plans for Robert Halstead's new residence in Makiki have just been completed by Howarth & Traut, the architects, and it is likely that tenders will soon be advertised for. The site chosen for the building is a very fine one, at the corner of Makiki and Hauuli streets. Extensive grounds will surround the residence, and it can be made very beautiful.

The house is to be frame, of handsome design and modern in every particular. Outside effects have been sacrificed to interior comforts. The ground plan is 66x46 feet, exclusive of the kitchen, which is a separate building, connected with the main building by a latticed porch. The characteristics of the exterior are a large lanai, a broad veranda running along two sides of the building and a corner tower with bay windows.

The main entrance, from the lanai, is very fine, opening into a pleasant reception room. From the last named apartment an arched doorway leads into a grand parlor, broad and light and airy, which, again is connected with a beautifully wainscoted dining room. These three rooms with the lanai afford room for the entertainment of a large party of friends. The bed rooms of Mr. and Mrs. Halstead are also on the lower floor, and are models of roominess and comfort. They are fitted out with dressing and bath rooms and every convenience known to the modern house builder.

There are four large bed rooms on the upper floor, each with bath and dressing rooms. The upper hallway opens upon a broad covered balcony, cool and inviting. The interior finish of the house will be the best and the floors of polished wood throughout. A novelty is a big china closet in the dining room. The kitchen is broad and airy, and fitted with all modern conveniences.

The residence when completed will cost something like \$7000. It will be a credit not only to the architects and owner, but to the city as well.

Be it remembered that the newspapers are the merchants' tried and true mediums for advertising. Use them largely if not exclusively. Advertise in The Star.

Fine Repair Work.

When your Bicycle, Gun, Typewriter or any article of fine mechanism needs repairing and you wish a job which is certain to prove satisfactory, bring it to us and we will fix it for you and guarantee it.

We take pride in turning out only the very best of work and will call for and deliver it to any part of the city.

ONCE OWNED BY ROYALTY

CROWN GOODS TO BE DISPOSED OF AT AUCTION.

The Government Issues Instructions Concerning Articles From the Reign of Kamehamehas and Kalakaua.

Relic collectors in this city are anxiously awaiting the time set for the sale of the last of the crown silver, glass and chinaware used in the time of the Kamehamehas and Liliuokalani.

The Hawaiian government has issued instructions to Auctioneer Morgan to dispose of these articles once used by the royalty to the highest bidder at public auction.

The goods have been neatly packed in large dry goods boxes and moved from the government building to Morgan's salesroom. The sale has been fixed for the 18th inst.

Some time ago the government began selling these crown goods, at private sale, but abandoned that method and called for tenders. H. F. Wichman, the jeweler, sent in a tender for a portion of the crockery, and James E. Morgan offered a good price for the entire lot. Nothing was done with these tenders however.

It was not until recently that the Cabinet decided to dispose of the goods at public auction. It was considered by the Executive that this was the best course, inasmuch as annexation seems to be a foregone conclusion. Then again, there have been many requests from different parties who are eager to come into possession of some of the royal articles. The auctioneer anticipates lively bidding and the country's coffers will be much richer.

The glassware is very fine, and consists of decanters, finger bowls, champagne glasses, port glasses, sherry glasses, water glasses and many other pieces. All the glassware are marked with the royal crown, under which is inscribed "K. K. L.", denoting King Kalakaua I.

The choicest selection among the chinaware consists of a wonderfully rich set of dishes with green border. It was known in the royal house as the green set, and consists of over 6000 pieces. The valuable collection was a present to Kalakaua from the Emperor of France.

Aside from this set are several other collections of chinaware, principal among which is the "blue set," because of a blue bordering. All the chinaware, including the green set, has the royal monogram marked in the center of each plate.

The silver pieces to be sold are all very elaborate and consist of beef-steak trays, hot water dishes, vegetable dishes and many other pieces.

There is also a good deal of crockery in the collection.

Many historical articles from the reigns of the Kamehamehas and Kalakaua will be offered.

A pair of crowns and other ornaments from Kalakaua's uniform will be sold.

Altogether this sale of royalty's goods will be the most interesting ever seen in Honolulu.

ENTRIES ARE OUT.

For Saturday's Races at Cyclomere—Match Race for Blood.

The entries for Saturday night's races at Cyclomere are out. The management has made up the finest list of events that have yet been seen at the park.

Allan Jones and George Sharrick, the speedy coast riders, are paired for a match race of one mile, best two in three heats. A purse of \$200 has been put up by these men, 75 per cent to go to the winner and 25 per cent to the loser. This will be a race for blood.

George Martin will ride the exhibition one-third mile for a professional record. Fowler and Whitman will pace him.

Fred Damon will ride the exhibition one-third mile for an amateur record. He will be paced by Lyle and Porter.

The entries in the other events are as follows:
One mile open, novice—Jos. Santos, T. Treadway, J. H. Young, Otto Berndt, Nigel Jackson, Jos. Oreitas, M. V. Sousa, E. Sylvester, J. Machardo, P. Curran, T. Lloyd.

Half mile handicap, professional—George Martin, George Sharrick, Allan Jones, John Sylva, D. E. Whitman, D. G. Sylvester, George Angus.

Mile open, boys—Theo. Fischer, Ned Crabbe, Frank Williams, J. Rodrigues, Joe Decker.

Two-thirds mile handicap, amateur—T. V. King, Nigel Jackson, K. B. Porter, Charles Murray, C. Brede, W. Lyle, W. Chilton, Ed Paris, H. Giles, F. Damon, H. E. Walker, H. Ludloff.

THEY GO TO JAIL.

Circuit Judge Perry has sentenced Ah Koon to three months imprisonment and to pay a fine of \$250 for unlawful possession of opium. Ah Fat and Lo Sin were given forty-five days each for a similar offense.

"The worst cold I ever had in my life was cured by Chamberlain's Cough Remedy," writes W. H. Norton of Sutter Creek, Cal. "This cold left me with a cough and I was expecting all the time. The Remedy cured me, and I want all my friends when troubled with a cough or cold to use it, for it will do them good." Sold by all druggists and dealers. Benson, Smith & Co., wholesale agents for Hawaiian Islands.

Fine Printing, Star Office.

EXECUTIVE AND PLANTERS GET THE BIGGEST SLICE

ARRIVE AT A SATISFACTORY CONCLUSION TODAY.

More Japanese Laborers Will Come, but Only Enough to Carry On the Work for the Present.

The President and his Ministers held their second conference with the sugar planters this morning at the Executive building relative to the labor matter. Before taking an adjournment at noon a resolution was passed by the Executive Council which met with the hearty approval of all the planters.

The Executive Council recommended in its resolution the approval by the Board of Immigration of all applications of the sugar planters for Japanese laborers which will meet with the actual requirements for the present.

The Board of Immigration, consisting of Minister of the Interior King as president, J. B. Atherton, D. B. Smith, J. G. Spencer, J. Carden, Joseph Marsden and Secretary Wray Taylor, will meet this afternoon to take up the labor matter. The Board will in all probability act in harmony with the recommendation made by the Executive Council.

Attorney General Smith stated this noon that the planters in their consultations with the Executive Council evinced a desire to get along with as few laborers as possible for the present, knowing this to be the wish of the government. They volunteered to employ all the free Japanese laborers it was possible for them to get and would only ask for enough men to carry on the work now mapped out.

Mr. Smith said that the existing conditions required some of the plantations to ask for more men than they otherwise would have needed. For instance the extension of the Oahu railway from Waianae to Waialua has taken a great many men from Ewa and Oahu plantations.

The total number of Japanese contract laborers that have been applied for is quite large but considerable below the number that would have been asked for in ordinary times.

LOST IN MOLOKAI CHANNEL.

Fate of the Japanese Cabin Boy of the Alice Cooke.

Captain Penhallow has reported to the resident Japanese Consul the death by drowning of M. Oi, the cabin boy of the schooner Alice Cooke, who was lost overboard early yesterday morning in Molokai channel. No one knows how the boy lost his footing. It was pitch dark at the time and the vessel was driving rapidly through a heavy sea. Captain Penhallow had been on the bridge all night, and had just been served with hot coffee by the lad.

Oei was on his way to the galley when he fell. As he made no outcry, it is presumed that he was stunned by the fall. The captain and quartermaster at the wheel heard a faint outcry far astern, and life buoys were at once thrown overboard. It was impossible to wade ship on account of the heavy sea and narrowness of the channel, and Captain Penhallow deemed it not expedient to lower a boat, for it could scarcely have lived in the heavy sea. Besides, there was not one chance in a thousand of picking up the unfortunate lad, so far was he astern.

Oei was a bright young Japanese. He shipped on the Sound, and it was his first voyage on the Alice Cooke.

ENGAGEMENT ANNOUNCED.

The engagement announced of Miss Myra Sloggett to John H. Humburg. Miss Sloggett is the daughter of Dr. H. C. Sloggett and is popular in society circles. Mr. Humburg holds an important position with Backfield & Company.

THEVES GET NO BOOTY.

Scared Away With Their Hands Almost on the Treasure.

The cabin of S. Kaniyama, a Japanese servant in the employ of Miss Peabody, was entered by thieves between the hours of 6 and 10 o'clock last evening, and a trunk containing drafts and cash to the amount of over \$1000 carried off. The thieves got no booty however for they were frightened away after having carried the trunk a few hundred yards and opened it, leaving the treasure behind them.

Kaniyama and his wife reside on Vineyard street, near the river, and keep their earnings in the aforesaid trunk, which, together with a dozen trunks belonging to their mistress, is kept in a store room. They were celebrating the Emperor's birthday last evening and absent from home.

The thieves evidently knew where the money was kept, for they forced the door and removed both the one trunk, carrying it to the bank of the river and forcing off the lid. Someone must have given them a bad scare, for they took to their heels without touching the heavy bag containing the money, which lay in plain sight. There were in the bag four drafts aggregating \$912.50 and \$70 in gold.

Detective Kaapa was notified of the robbery soon after 10 o'clock last night and was not long in finding the trunk, but has not yet come up with the thieves. He thinks that two men were concerned, probably Japanese, and friends of the Kaniyamas, but rank amateurs at the business.

RAILROADS TO HAUL 50,000 TONS OF HAWAIIAN SUGAR.

Mr. Atherton Tells of the Plans Formed by the Planters—About Ewa and Oomena's Crop.

President J. B. Atherton of Castle & Cooke, said this morning in an interview that 80,000 tons of Hawaiian sugar would be shipped to New York next season.

"Fifty thousand tons must go across the United States to the metropolis for we have entered into a contract with the railroads to ship that amount. The remaining 30,000 tons will be shipped by water via Cape Horn."

"Will the planters all agree as to how their sugar will be shipped?"

"There will be no difficulty on that score. There will be some who will want to ship via the Horn because the rates are cheaper but then there are others who will want to ship direct by steamer and rail to New York for fear of their sugar deteriorating. The whole thing will even up satisfactorily to all in the compact and the railroads will get their 50,000 tons."

"How will Ewa's crop be shipped?"

"In all likelihood by water via the Horn," replied Mr. Atherton. "We are not afraid of Ewa's sugar deteriorating. I had some sugar from Ewa's first crop enclosed in a sealed bottle and kept it constantly in my desk until three weeks ago when I had it opened. The pulverization proved to be higher than the first test. Mr. Lowrie the manager of Ewa placed some of this same sugar in a corked bottle and before leaving for the States had it analyzed. The sugar was found to be slightly better in quality than when it was bottled."

"Oomena crop is equally as fortunate."

Mr. Atherton was asked what was the cause for some sugar deteriorating. He answered that this was a mystery. It is not known whether it is due to climatic conditions, the soil or for what reason.

WILL BE DEDICATED.

Professor Richards of the Kamehameha schools, announces that the new stone chapel at Kamehameha will be formally dedicated on Founder's Day, December 19th. The chapel is now in use.

READ OFF THE NAMES.

Annual Roll Call at Central Union a Pleasant Event.

Five hundred and fifty-two names were read from the Central Union church book last evening, and the number of responses was very gratifying to the pastor. A good many were out of the city while others were unable to be present on account of illness or business.

Among those away from home letters were received announcing regrets and sending greetings. Mr. and Mrs. Charles M. Cooke wrote from Oakland and the Judd boys from Yale College, John D. Paris from Kona and many others.

Rev. Douglas P. Birnie presided. W. W. Hall was clerk and W. A. Bowen read the names. Miss Parke was the pianist.

IN GOOD CONDITION.

Dr. Nichols will return from Hawaii on the next Kinan. The doctor has been looking over his coffee plantation at sixteen miles and writes to his associates that he found everything in fine shape.

WITH THE TREOSOPHISTS.

Hereafter the Aloha branch of the Theosophical Society will meet every Tuesday evening. The work to be taken up will be Mrs. Besant's "Age of Wisdom." A. Marques will be present at these gatherings.

RESISTING TEMPTATION.

Balzac, the great French writer, used to say: "I can resist everything excepting temptation." In these modern times of ours we naturally infer that he was thinking of bicycle riding. New wheels for rent by the hour, day, week or month, Pacific Cycle and Manufacturing Company, Ehlers Building, Telephone 325.

Awarded Highest Honors—World's Fair, Gold Medal—Midwinter Fair.

DR. PRICE'S

CREAM BAKING POWDER

MOST PERFECT MADE.

A pure Grape-Cream of Tartar Flour. Free from Ammonia, Alum or any other adulterant.

In all the great Hotels, the leading Clubs and the homes, Dr. Price's Cream Baking Powder holds its supremacy.

40 Years the Standard.

WHAT SAILOR MEN TALK OF

THE IWA MAKES WAENAI IN A DISABLED CONDITION. Refused a Tow From the Kaena—Alice Cooke's Bad Night in the Channel—Cabin Boy Lost.

The S. S. Belgie is due from San Francisco Saturday morning. There are no arrivals or departures to record on the water front today.

The W. G. Irwin is discharging general merchandise at the Oceanic wharf this morning. The James Makee is on the marine railway receiving a coat of paint and a scraping. She will be off tomorrow probably.

The bark Nuanu is now out 140 days from New York, and is anxiously expected. She is making an unusually long passage.

The sugar carriers from the other Islands are likely to be a bit late this week on account of the rough weather prevailing. Captain Gore of the bark Columbia has decided not to go to sea until the weather is a little bit more settled.

He may go in the morning, as his ballast is all in. The favorable wind of the past two days ought to bring down some of the coast vessels now due. The Andrew Welch and Mohican are making long passages.

The Chandine is expected back from the Coast about the 15th inst. It was planned for her to leave San Francisco on the 6th and she ought to make the run down in nine days.

The Martha Davis has hauled over to Sorrenson's wharf, to discharge bricks. She had expected sugar but the very rough weather detained expected steamers and the sugar has not arrived.

The steamer Kaena returned last night from windward ports, after a hard fight with wind and wave. It was too rough to work sugar, so she returned empty. Captain Parker says he had been lying at anchor at Mokena, but found it so rough that he decided to take his chances on putting to sea. The bar was breaking badly, but the hatches were battered down tight, everything made fast and the crew crept on top of the lower. The little steamer then plunged into the rollers. One big green sea came in over the starboard rail, and swept the decks clean, but did no damage. After the bar was crossed there was no more difficulty.

The little steamer Iwa was disabled off Nanihala gulf yesterday afternoon, but Captain Townsend managed to get her into a safe anchorage at Waianai, under sail, last night. A report of the Iwa's predicament was brought to this city last night by the steamer Kaena. The Kaena was spoken by the Iwa about 3 in the afternoon. The wind was blowing hard off shore at the time, and the sea was very rough. Captain Thompson refused to accept a tow from the Kaena, but asked Captain Parker to report to his owners that his engine was broken down, and that he was under sail. It was very on Townsend's part to stick it out, for the seas were running high, and he had a good cargo. Mr. Wilson learned this morning, however, that the Iwa had made a safe anchorage at Waianai, and that the damaged engine had been repaired.

The schooner Alice Cooke had a rough night of it in the Molokai channel last Tuesday night. Captain Penhallow considers that he got off very easily, with the loss of but one man and a new stay sail. It was so thick that he could not tell the land from the sky. Headed well up into the channel, for what he rightly judged was clear water, he says he did not dare touch a sail, but let the vessel run. In the early morning he felt very much relieved to find himself off the Molokai light. All night the sea was very choppy, and the wind blew great guns. Captain Penhallow says he has been caught in the Molokai channel before in the dark, but never felt quite so shakney. The Japanese cabin boy, M. Ochi, was lost overboard about 5 o'clock in the morning, while going from the cabin to the galley. He made no outcry until far astern. The schooner was making such headway, and the sea was so rough that Captain Penhallow decided not to lower a boat and risk the lives of his men in what he knew would be a fruitless effort to save the unfortunate lad.

THE BICYCLE ABROAD. In France there are more female than male bicyclists. A theater in Milan has a ballet of cycling costumes. Guillaumet, the ex-amateur champion of France, recently started as a professional by winning the Grand Prix de Saintes.

First Lieutenant von Hahnke of Emperor William's yacht Hohenzollern lost his life while cycling. He was carried over a precipitous bank into the water. He sank immediately, and the body could not be found.

The French war minister has reconstituted the company of military cyclists formed as a minimum in deference to public opinion. The French are jealously watching the progress of other nations in the same direction.

The French have an effective way of making their leather saddles comfortable. They soak the leather in water until it is pliable, then ride on it till it is dry. When the process is completed, the leather is exactly fitted to the rider and correspondingly comfortable.

Travelers agree that of the wheelwomen the world over the English woman puts in the worst appearance, says the Pittsburg Dispatch. Not one woman cyclist in 30 in the little isle looks well mounted, and the fault is all her own. Two-thirds of the English women ride with their saddles too low handle bars too high and skirts badly cut.

THE IWA MAKES WAENAI IN A DISABLED CONDITION.

Refused a Tow From the Kaena—Alice Cooke's Bad Night in the Channel—Cabin Boy Lost.

The S. S. Belgie is due from San Francisco Saturday morning. There are no arrivals or departures to record on the water front today.

The W. G. Irwin is discharging general merchandise at the Oceanic wharf this morning. The James Makee is on the marine railway receiving a coat of paint and a scraping. She will be off tomorrow probably.

The bark Nuanu is now out 140 days from New York, and is anxiously expected. She is making an unusually long passage.

The sugar carriers from the other Islands are likely to be a bit late this week on account of the rough weather prevailing. Captain Gore of the bark Columbia has decided not to go to sea until the weather is a little bit more settled.

He may go in the morning, as his ballast is all in. The favorable wind of the past two days ought to bring down some of the coast vessels now due. The Andrew Welch and Mohican are making long passages.

The Chandine is expected back from the Coast about the 15th inst. It was planned for her to leave San Francisco on the 6th and she ought to make the run down in nine days.

The Martha Davis has hauled over to Sorrenson's wharf, to discharge bricks. She had expected sugar but the very rough weather detained expected steamers and the sugar has not arrived.

The steamer Kaena returned last night from windward ports, after a hard fight with wind and wave. It was too rough to work sugar, so she returned empty. Captain Parker says he had been lying at anchor at Mokena, but found it so rough that he decided to take his chances on putting to sea. The bar was breaking badly, but the hatches were battered down tight, everything made fast and the crew crept on top of the lower. The little steamer then plunged into the rollers. One big green sea came in over the starboard rail, and swept the decks clean, but did no damage. After the bar was crossed there was no more difficulty.

The little steamer Iwa was disabled off Nanihala gulf yesterday afternoon, but Captain Townsend managed to get her into a safe anchorage at Waianai, under sail, last night. A report of the Iwa's predicament was brought to this city last night by the steamer Kaena. The Kaena was spoken by the Iwa about 3 in the afternoon. The wind was blowing hard off shore at the time, and the sea was very rough. Captain Thompson refused to accept a tow from the Kaena, but asked Captain Parker to report to his owners that his engine was broken down, and that he was under sail. It was very on Townsend's part to stick it out, for the seas were running high, and he had a good cargo. Mr. Wilson learned this morning, however, that the Iwa had made a safe anchorage at Waianai, and that the damaged engine had been repaired.

The schooner Alice Cooke had a rough night of it in the Molokai channel last Tuesday night. Captain Penhallow considers that he got off very easily, with the loss of but one man and a new stay sail. It was so thick that he could not tell the land from the sky. Headed well up into the channel, for what he rightly judged was clear water, he says he did not dare touch a sail, but let the vessel run. In the early morning he felt very much relieved to find himself off the Molokai light. All night the sea was very choppy, and the wind blew great guns. Captain Penhallow says he has been caught in the Molokai channel before in the dark, but never felt quite so shakney. The Japanese cabin boy, M. Ochi, was lost overboard about 5 o'clock in the morning, while going from the cabin to the galley. He made no outcry until far astern. The schooner was making such headway, and the sea was so rough that Captain Penhallow decided not to lower a boat and risk the lives of his men in what he knew would be a fruitless effort to save the unfortunate lad.

THE BICYCLE ABROAD. In France there are more female than male bicyclists. A theater in Milan has a ballet of cycling costumes. Guillaumet, the ex-amateur champion of France, recently started as a professional by winning the Grand Prix de Saintes.

First Lieutenant von Hahnke of Emperor William's yacht Hohenzollern lost his life while cycling. He was carried over a precipitous bank into the water. He sank immediately, and the body could not be found.

The French war minister has reconstituted the company of military cyclists formed as a minimum in deference to public opinion. The French are jealously watching the progress of other nations in the same direction.

The French have an effective way of making their leather saddles comfortable. They soak the leather in water until it is pliable, then ride on it till it is dry. When the process is completed, the leather is exactly fitted to the rider and correspondingly comfortable.

Travelers agree that of the wheelwomen the world over the English woman puts in the worst appearance, says the Pittsburg Dispatch. Not one woman cyclist in 30 in the little isle looks well mounted, and the fault is all her own. Two-thirds of the English women ride with their saddles too low handle bars too high and skirts badly cut.

THURSDAY, NOVEMBER 4, 1897.

MR. SEWARD AN ANNEXATIONIST.

Frederick W. Seward, son of the great statesman William H. Seward, writes to a New York paper a strong article in behalf of the annexation of Hawaii. It was William H. Seward, who, some forty years ago, predicted that the Pacific Ocean would in time become the theater of the world's greatest enterprises.

Mr. F. W. Seward, in his communication, says that no foreign nation now objects to the annexation of Hawaii, and all of the former objections have been dropped except one, which is being harped upon continually. And this one seems to be the forlorn hope of opponents to annexation—that if Hawaii is annexed America will have "a new state with an alien population of diverse nationalities, sending Senators and Representatives to Washington." Mr. Seward says that this argument might have had some weight if Hawaii were admitted as a State. But, he says, it is not proposed to admit these islands as a State, but as a Territory—the same as Arizona, New Mexico and Alaska, which have been territories for some twenty or thirty years. He continues this is not a valid argument against annexation, "for if it proved anything, it would prove too much. It would prove that no nation should annex outlying territory unless already populated with its own citizens—an absurdity on the face of it. This objection, however, has always been raised when annexation of territory has heretofore been proposed. If it had been accepted as valid, we should still be only thirteen States along the Atlantic coast—for the valley of the Mississippi and the Rocky Mountains contained 'an alien population' of French, Spanish and Indians. It was said of Florida that the Spanish would go away, and then the population would be only 'Seminoles and alligators.' So in like manner California was objected to as being inhabited only by 'wild cattle, Indians and Greasers,' and Alaska was denounced as being only the habitation of 'icebergs and polar bears. Is there no such thing as the spread of the American population and American enterprise? Have they not always followed the flag? Have they not followed it up the Mississippi and the Missouri and over the Rocky Mountains and across the plains and down the Pacific slope? Are they not following it today even over the Chilcot Pass and up the distant Yukon? Why will they not follow it into Hawaii?"

This is a view of the question too often overlooked by those who do not observe and study the condition of the people of the United States. The statement is unanswerable. The negroes, the Indians, the Spanish and the French have all been successfully amalgamated with the original inhabitants of the American Union, and all live together peaceably. There are today in the United States seven millions of negroes, three hundred thousands of Indians, as many Spanish and French, and probably as many Chinese and Japanese. Yet no one ever dreams of any harmful influence from either nationality by itself or from them all combined. So far as these former aliens exercise any influence it is to convert and strengthen the nation. It will be the same with the people of this group, comprising in its population Hawaiian, Chinese, Japanese and Portuguese. In time, they or their descendants, will all have become American citizens, enjoying the same rights and privileges as the native born, and all glorying in the flag and freedom of America. All will be permitted to acquire and possess whatever property they may choose, and more than this cannot be asked. When Hawaii shall hereafter become the fiftieth state of the American Union, all her inhabitants, who can read and write English, will most unquestionably be entitled to become voting citizens of the Great Republic. And what more can be asked by them?

Paris has been making war on its barbers, and a regulation has been put in force relative to what they should use, and how it should be used. Thus they are required "to use only nickel plated combs, to substitute pulverizers for powder puffs, to cover all hair cut off with sawdust and to place all metal instruments such as razors, shears, combs, clippers, etc., in a ster-

ilizer ten minutes before they are used." There is no law upon the subject here, but the barber who advertizes the fact that he takes these precautions is the barber who will get the trade. At present the same comb, the same shears and the same powder puff is used on many heads and jaws without the pretense of sterilizing them. But people accept what they are accustomed to without a murmur.

The Boston papers are very much averse to Necker Island being ceded to Great Britain for cable purposes. The first intimation of this deal appeared in The Star, and afterwards in the San Francisco newspapers. There is very little doubt that idea was considered and it may yet crop up in December.

A recent number of the London Lancet publishes a remedy for diphtheria which is so simple that it should be made public and tested whenever this complaint is known to exist. It is this: "When diphtheria was raging in England, a gentleman accompanied the celebrated Dr. Field on his rounds to witness the so called wonderful cures which he performed, while the patients of others were dropping on all sides. All he took with him was powder of sulphur and a quill, and with these he cured every patient without exception—that is, he put a teaspoonful of flour of brimstone into a wineglass of water, and stirred it with his finger instead of a spoon, as sulphur does not readily amalgamate with water, and on the sulphur becoming well mixed, he gave it as a gargle, and in ten minutes the patient was out of danger, as brimstone killed the fungus. Instead of spitting out the gargle he recommended the swallowing of it, and in extreme cases when the fungus was too nearly closing to allow gargling, he blew the sulphur through the quill into the throat and after the fungus had shrunk to allow of it, then the gargling; or, if the patient cannot gargle, take a live coal, sprinkle a spoonful of brimstone at a time over it, let the sufferer hold his head over it, and inhale."

FOOTBALL NOTES.

The game begins at 3 o'clock. Carriages can drive on three sides of the field, it having been so arranged by the managers.

The umpire for Saturday's game will be chosen from either Ensings Wynship, McCormack or "Briek" Whitehouse.

George R. Carter will not umpire the first two games but has given a half promise that he will officiate in this capacity during the championship game.

It is understood that the Punahou boys will not put forth their best material until the game with the Townies, they considering the game with the Regiments a foregone conclusion. Minister Cooper has promised to notify Manager Cornwell tomorrow as to whether he will allow the Government band to play at Saturday's game of football or not. In case of the Government's refusal, the National Band will be employed for the season.

APPROVE THEIR ACCOUNTS.

Clerk Smith of the Judiciary, as master, has approved the annual accounts of the B. P. Bishop estate trustees. The trustees report the balance from their previous account of \$8,967.58; actual receipts, \$83,837.45; expenditures, \$91,075.51, and a balance to next account of \$1,727.42, thus expending \$7,238.16 in excess of the current receipts.

Timely Topics.

November 3, 1897.

The days are dark and dreary; the nights are dark also. Darkness comes early, too. The moon is a bit unreliable—but our lamps—never. The subject of lamps is a good one at the present time. We can talk about lamps because we carry a stock that cannot be excelled in Honolulu. They come in all sizes, styles, and prices. We have hanging lamps, from moderate cost to elaborate designs; hall lamps; piano lamps; banquet lamps; lamps for the boudoir; nickel-plated lamps for students; bracket lamps; two, three and four-light chandeliers. We have mammoth Rochester lamps which can give electric arc lights cards and spades for brilliancy. Some people go through the house in the middle of the night playing blind man's buff over tables, chairs and other old things, in vain attempts to locate a particular object, when if they had a small night lamp, such as we sell, they might have avoided personal injury and the breaking of a commandment. A piano lamp would add wonderfully to the appearance of your parlor—why not get one now? It will make your home comfortable—and comfort and happiness go hand in hand. Besides, you can get one without spending the last dollar you've got.

HAWAIIAN HARDWARE CO.

HE HAS A BIG SCHEME ON

MUCH MONEY TO BE COLLECTED FOR HAWAII.

A. W. Cornelius En Route for San Francisco Now on This Mission—He Will be Back in January.

Since the departure of A. W. Cornelius, of Alameda, Cal., on the S. G. Wilder for San Francisco, it has leaked out from an authoritative source, that the California gentleman carries with him a scheme to lay before San Francisco and Alameda capitalists, which means considerable in the way of furthering the development of the coffee industry on the Island of Hawaii.

Mr. Cornelius was on Hawaii for several weeks, during which time he saw all the districts. Frow what can be learned of his present scheme he will organize a company with a big capital and go into the never Pun district, which as yet is sparsely settled. One gentleman who is acquainted with Mr. Cornelius' plans, stated today that there would be no difficulty in organizing the company for the gentlemen who compose it have plenty of idle capital on hand and they sent Mr. Cornelius on his mission to the Islands.

Mr. Cornelius in an interview frankly admitted the success of coffee in all the districts on the big Island and announced his intention of returning to these shores shortly after New Year's Day. He said his recommendation to would-be investors concerning coffee cultivation in Hawaii would be favorable.

"Had it not been for the gold boom in the Klondike Hawaiian coffee fields would certainly have received a great deal of attention from Pacific Coast investors and capitalists," said Mr. Cornelius. "The possibilities in coffee in your country are very well advertised in my home at Alameda and in San Francisco and is attracting a great deal of attention. With annexation you may count upon a rush of Pacific Coast capital to the country. Now that the people are beginning to appreciate the hardships endured in the Klondike country I look for a large immigration of Americans to Hawaii in the early part of next year."

WANT ANOTHER TRIAL.
A motion has been filed in the Circuit Court calling for a new trial in the case of William Eassie against the Waialea Sugar Company.

IS WELL RECOMMENDED.
O. G. Trophagen, a highly recommended architect and citizen, accompanied by his wife and family, have arrived in Honolulu from Duluth, to remain. They are occupying Mr. Little's house. Mr. Trophagen will open an office in the old Bulletin building on Merchant street.

AFTERNOON WHIST CLUB.

Sixteen Society Ladies Will Play Every Fortnight.

Tomorrow afternoon the Ladies Afternoon Whist club will hold its initial gathering at the home of Mrs. Widdfield, on Judd street. There are sixteen ladies in the club and the plan is to meet at the home of one of the members every other Friday afternoon. A series of games will be played, at the conclusion of which trophies will be awarded to those having the highest scores.

The hostess has the privilege of inviting an extra table so that there will be five tables playing.

The ladies belonging to the club are: Mrs. Harold M. Sewall, Mrs. William Haywood, Mrs. Wood, Mrs. Day, Mrs. A. Fuller, Mrs. Laura Wight, Mrs. F. M. Swanzy, Mrs. J. A. Gilman, Mrs. S. M. Damon, Mrs. J. G. Spencer, Mrs. R. P. Myers, Mrs. H. Renjes, Mrs. John S. McGrew, Mrs. M. C. Widdfield and Mrs. Russell D. Walbridge.

TO HELP THE TEACHER.

Will be the Work of the Honolulu Teachers' Association.

Secretary H. M. Wells has issued a call for the annual meeting of the Honolulu Teachers' Association in the High School building, this evening.

New officers will be elected, and the plans laid for the working session. The work this year will be such as to help the ordinary teacher in the ordinary every day work.

Miss Edna Kelley will recite at the meeting tonight.

GOLD GALORE.

The London Statist has published an article on the world's gold production since 1850. "With the article a chart is given showing the variations in production in each year from 1851 to 1896, from which the first striking fact to be gathered is that the production of 1896, compared with the average production of the years 1881-90, is practically double the value. Approximately the yield of gold for 1896 may be stated as \$225,000,000, against an average of \$108,500,000 for the period of 1881-90. For 1896 the production by fields was as follows: United States, \$54,000,000; Australia, \$14,910,000; Transvaal, \$13,020,000; India, \$29,555,000; Russia and other countries, \$53,485,000; or a total of \$225,000,000. The grand aggregate of the gold production since 1850, inclusive, is, in round numbers, \$5,815,000,000, or approximately 300,000,000 ounces of gold."

A POINTER.

To housekeepers, those Nottingham curtains for \$1.50 a pair are 2½ yards long; the dotted muslin curtains are 3½ yards long and 54 inches wide, and finished all round with ruffle, for \$4.50 a pair; bargain, hardly expresses it. At N. S. Sachs.

Fine Printing, Star Office.

They All Still Selling

"There are fads in medicine as well as in other things," said a busy druggist, "but the most remarkable thing about Hood's Sarsaparilla is that customers who try other remedies all come back to Hood's, and this is why the enormous sales of this medicine keep up with others."

Come

and in a short time go out of sight entirely, to be heard from no more. "Why is it?" "O, simply because Hood's Sarsaparilla has more real curative merit than any medicine I ever sold."

This is of daily occurrence in almost every drug store. Hood's Sarsaparilla is the standard remedy which has cured more sickness, relieved more distress and made more happiness by bringing people

Back to Dry Goods

health than any other medicine. Its wonderful cures of the worst cases of scrofula, running sores, ulcers, salt rheum, etc.; of dyspepsia and other troubles where a first class tonic and aid to digestion was needed; of catarrh, rheumatism, malaria and other troubles arising from or promoted by impure blood, have made

Hood's Sarsaparilla

The standard—the One True Blood Purifier.
Hood's Pills are the only pills to take with Hood's Sarsaparilla.

Worth It.

Edwin Forrest, the renowned tragedian, was showing a "super" how to do a small part, and at last exclaimed, in despair: "Can't you do it as I do?" "No," said the super, "if I could, do you suppose I would be working for five dollars a week?" This illustrates the trouble with the low prices of many articles of furniture. If they were well made do you think they would be offered at kindling wood prices?

It is our desire to offer you goods at prices that are consistent with the quality, and we take pride in scouring the Eastern markets for the

BEST UP-TO-DATE FURNITURE

made to give service and keep their new look, at prices that meet with popular favor by those who know and appreciate a good article.

It is the intention to carry everything in the Furniture line that the public needs, whether in Plain or Handsomely Ornamented Goods,

At Popular Prices.

GET THEIR INSTRUCTIONS

CUSTOM OFFICERS WILL ENFORCE CERTAIN RULES.

Will be on the Close Lookout for Opium Smugglers—The Coasting License Also Receives Attention.

Port Surveyor Stratemeyer, having secured the approval of Collector General McStocker, today issued instructions to his officers to strictly enforce hereafter the following extracts from the Session Laws:

MAY BOARD THE SHIPS.
Any officer of Customs may go on board any ship or boat, foreign or domestic, within the limits of any port in this kingdom, and search such ship or boat for opium or other prohibited or dutiable goods and articles.

IN SEARCH OF SMUGGLERS.
Any officer of Customs may search any person whom he may have reason to suspect of smuggling, and also any ship or boat, or any warehouse, or any warehouse, or on any wharf or in any warehouse, or on any cart, wagon, railroad car or other conveyance, provided, however, that such search is made within twenty-four hours after the landing of such passengers, baggage or goods, and no officer having probable cause and making such search shall on account thereof be liable to any prosecution or action of law.

THE COASTING LICENSE.
The said license shall not, upon pain of forfeiture, condemnation, and sale, be engaged at any time in carrying or selling any articles, the produce or manufacture of any foreign country, which may have been imported into this, in violation of the duties, etc., upon imports.

NO BARTERING OF BIRDS.
The buying and selling of birds, animals, fowls, tobacco and other merchandise on board of foreign vessels, and the delivery thereof is strictly prohibited, unless regularly manifested and a permit issued for same from Collector's office.

Approved by the Collector General of Customs.

She Wanted to Marry.
An old woman whose husband was in bed sent for the doctor, who came and saw the old lady.

"I will send him some medicine," he said on leaving, "when must be taken in a recumbent posture."

After he had gone the old woman lay down, greatly puzzled.

"The recumbent posture—a recumbent posture," she kept repeating. "I haven't got one." At last she thought, "I will go and see if old Mrs. Smith has got one to lend me."

Accordingly she went and said to her neighbor:

"Have you a recumbent posture to lend me to put some medicine in?"

Mrs. Smith, who was usually as ignorant as her friend, replied:

"I had one, but to tell you the truth I have lost it."—Parson's Weekly.

A Long Memory.
"What's the matter?" asked the penurious landlord.

"The plaster's fallen off the ceiling," said the tenant's son.

"Well, I hope you're satisfied. The first thing you did when you moved in was to complain that the ceilings were too low."—Washington Star.

Padded Leggings For Women.
No longer need the young woman whose leg is painfully lacking in the generous fulness of the calf despair.

One of the most fashionable New York shoe stores now advertises: "Thin legs transformed into rounded beauty while you wait. Price, 50 cents." But on investigation it is found that this good news is exclusively for the bicycle girls.

Slender legged young women who ride the wheel never wear low shoes. They always appear in leggings or high boots, and here is the reason: By paying 50 cents extra any pair of high bicycle boots or leggings may be so padded that there is apparent beauty in the rounded curves of the leg.

The padding consists of a skillfully shaped bag filled with cotton. It is sewed to the lining of the boot or the invisible side of the legging.—New York Journal.

British Laws.
During the existence of the British parliament it has passed about 20,000 statutes, of which about 5,000 are still in force.

Of these 3,300 were passed in Queen Victoria's reign, 151 date from Henry III, the first three Edwards and Richard II, 23 from the house of Lancaster, only 8 from that of York, 170 from the Tudors, 69 from the Stuarts, 92 from William III and Anne and 1,132 from the four Georges and William IV.

HOW TO CURE BILIOUS COLIC.
I suffered for weeks with colic and pains in my stomach caused by biliousness and had to take medicine all the while until I used Chamberlain's Colic, Cholera and Disarrhoea Remedy which cured me. I have since recommended it to a good many people.

Mrs. F. Butler, Fairhaven, Conn. Persons who are subject to bilious colic can ward off the attack by taking this remedy as soon as the first symptoms appear. Sold by all druggists and dealers. Benson, Smith & Co., wholesale agents for Hawaiian Islands.

THE SECOND BEST.
"Benny," said Mr. Bloomer, "if George Washington is the first in the hearts of his countrymen, who comes second?"

"Charlie McCarthy," replied Benny, "because he keeps the Seattle Beer you like so much. Telephone 783.

Harper's Weekly

of October 2, 1897, has an interesting article on "Lessons of the '97 Bicycle," from which we take the following:

"How much of a figure the department emporium will cut in next season's trade cannot be estimated, but it is not likely that the big stores will bother so much with the selling of cycles, which has not been particularly profitable in all instances. The makers of high grade machines have no grievance against the department stores, whose cheap wheels induced thousands of people to become riders, and these same people will buy again next year. They will not buy, however, the average department-store wheel, AND WASTE UPON IT MORE IN REPAIRS THAN ITS ORIGINAL COST."

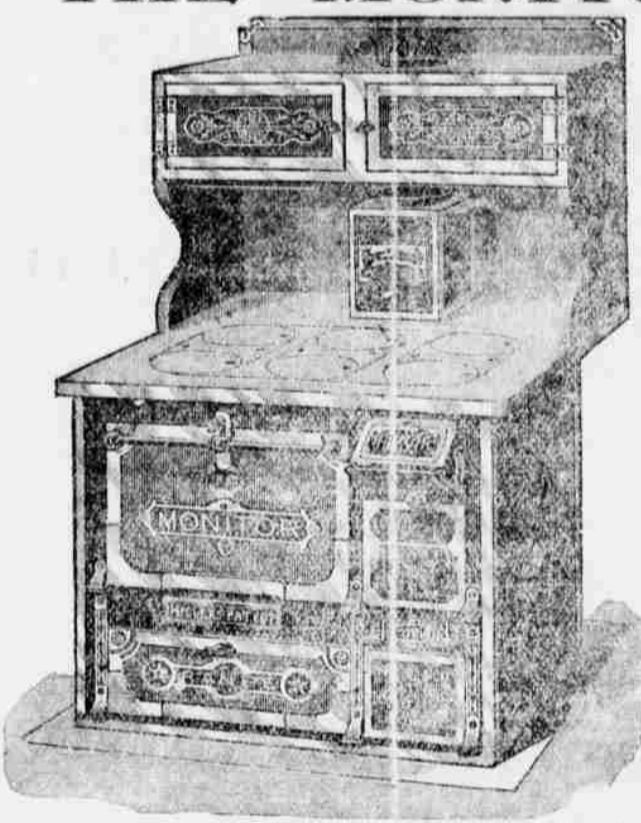

Columbias and Ramblers

have never been known as department-store wheels. They cost too much for such people. Look out for the new wheels with high sounding names. "For department-store trade" should be stamped on most of them.

ARTISTIC.

Few people realize how much of the artistic instinct enters into the creation of a thoroughly stylish though "somewhat different" tailor made suit. A style may be of the latest and yet not precisely like every other one in town. It is the ability to make out "somewhat different" that has earned us our reputation as Leading Tailors.

Our Suit Clubs at \$1 per week are very popular.

Medeiros & Decker,
THE HOTEL STREET TAILORS,
WAVERLY BLOCK

WE BELIEVE

that purchases of groceries are made to fill certain needs, and that quality must actually have the largest share of attention. Price is and should be made subordinate until one's judgment approves the quality. The quality once fixed, then buy as low as it can be bought. This is our theory in buying. We have carefully graded the price on our entire stock, but not a single article is of poor quality. Each steamer from the Coast brings us new fresh goods.

Crazy Competition

is the ruination of all business enterprise. People cut prices to get trade because they can't get it any other way. A good mechanic can command and get a fair price for honest work. My standard of work and prices are the same as they have been for the five years I have been in business here.

I don't claim to know it all and don't want it all, but just take this opportunity to let the public know that the old stand is still open at 231 King street, opposite the Arlington Hotel.

Hawaiian Electric Company.

The cleanest, brightest, safest and really, in the long run, the cheapest and best light for use in the family residence, is the incandescent electric light. Safe; nothing could be safer. A few days ago a prominent gentleman of Honolulu came rushing down to the office of the Electric Company and said: "Give me figures for wiring my house, and I want it done at once; no more lamps for me. Last night a lamp tipped over and it came so near setting fire to the house and burning my children and I take no more risks."

This is the sentiment of quite a number in the past few weeks, who have ordered their houses fitted with the perfect light. Just think it over and make up your mind that you want the best and safest light; send for the Hawaiian Electric Company and tell them what you want.

We have a complete stock of everything in this line and have just received a lot of the very latest designs in chandeliers.

HE MAY VOTE FOR HAWAII

SENATOR McLAURIN WRITES TO AN ISLAND FRIEND.

The Statesman Has Not Made Up his Mind Yet—Congress Will be Kept Busy With Hawaii and Cuba.

Senator McLaurin of South Carolina has written to an island friend in Honolulu, in which he says the coming session of Congress will be kept busy attending to Hawaii, Cuba and the currency question.

The Senator does not think there will be any likelihood of war between the United States and Spain. The outcome of the Cuban trouble would be, in his opinion, the complete independence of Cuba from Spain, and the ultimate annexation of Cuba to the United States through the legislative action of an independent legislature of Cuba. He thought that the recall of Weyler was the first move in a process of "letting go" which Spain is about to inaugurate. So, he said, could not fail to realize that the continued possession of Cuba would be an expensive and very unsatisfactory thing. The expense would drain the very blood from Spain, while the long continued war had destroyed Cuba as a revenue producing province. He thought Cuba would be given the right to vote her own form of government, and that ultimately Cuba would vote to be placed under the protection of the United States.

As to the matter of annexation he was more doubtful about the wisdom of annexing Cuba than he was of annexing Hawaii.

Turning to the Hawaiian question, Senator McLaurin writes that he had not made that careful survey of the subject which he would require to make up his mind definitely before voting. He could not, however, see any force in the argument that Hawaii should not be annexed because the proposition was a new one. The newness of the proposition he regarded as no argument against it. He is in favor of the enforcement of the Monroe doctrine and of such extension of it as the welfare of the country demanded.

The Senator also writes that he believed it quite likely that there would be a hot fight over the question of currency legislation at the coming session. Something along the line of the work of the self-constituted currency commission, he thought, would be as vigorously pressed, and would be as earnestly resisted by the Democrats. He says also that a determined effort would be made to secure the repeal of the ten per cent tax on the State banks.

IS BETTER TODAY.

Mrs. Filler, wife of Station Agent R. W. Filler at Pearl City, who was taken to the Queen's Hospital on Tuesday is much better today. She was resting easy at noon. Mr. and Mrs. Filler have lost three children within a fortnight.

WITH THE YOUNG MEN.

Secretary Coleman gives the following subjects with the leaders for the Y. M. C. A. gospel services to be given in November:

November 7, "What is Worth While?" by Rev. T. D. Garvin; November 14, "What reward are you seeking?" by F. J. Lowrey; "What will you do with Jesus?" by Rev. G. L. Pearson; "Whom ought we to obey?" by William A. Bowen. All men are invited to attend. Good music will be furnished.

MUSIC THIS EVENING.

At Thomas Square this evening the Government band will play:

Waltz—The Sylens Waldteufel

Pilka—A Good Kiss Coote

Hawaii Ponoi.

TORE DOWN A TREE.

The wind last evening broke down a good sized algeroba tree on Dr. Day's premises on Beretania street. Many large branches were torn off of the trees in other parts of the city.

WOULD NOT CUT IT DOWN.

An immense shade tree has been left standing in the center of the new Vineyard street, near Nuuanu avenue. The tree is one of the oldest in the city, and it would have been a shame to cut it down. It is so situated that it will not impede traffic as carriages can pass on either side of it.

The three year old boy of J. A. Johnson of Lynn Center, Ills., is subject to attacks of croup. Mr. Johnson says he is satisfied that the timely use of Chamberlain's Cough Remedy, during a severe attack, saved the little boy's life. He is in the drug business, a member of the firm of Johnson Bros., of that place, and they handle a great many patent medicines for throat and lung diseases. He had all these to choose from, and skilled physicians all ready to respond to his call, but selected this remedy for use in his own family at a time when his child's life was in danger, because he knew it to be superior to any other, and famous the country over for its cures of croup. Mr. Johnson says this is the best selling cough medicine they handle, and that it gives splendid satisfaction in all cases. Sold by all druggists and dealers. Benson, Smith & Co., wholesale agents for Hawaiian Islands.

GROUP 90—CLASS 567.

AUCTION SALE

OF THE PROPERTY OF THE

HAWAIIAN COFFEE & TEA CO.

KONA, HAWAII.

I have received instructions to sell at Public Auction at my Salesroom in Honolulu, on

Saturday, November 20,

AT 12 O'CLOCK NOON

All the Property of the above Company, comprising about 700 Acres of Leased Lands and 482 Acres in Fee Simple. Of the above area, about 200 Acres are Planted in Coffee, the Trees varying from about 1 year to 5 years in age.

There is a large Mill on the place, fully equipped, from which an income can be derived in Cleaning and Marketing Coffee from the adjacent Planters. The place is well equipped with Water Tanks, Tools, and Implements, Wagons, Horses, Mules, Manager's and Laborers' Houses, Piping, Office Furniture, Etc., Etc.

The Coffee Fields are well Fenced and Roads built to the various portions of the Estate.

A large portion of the Coffee Trees are now in bearing and are nearing the age to produce maximum crops.

For further particulars in regard to Leases and all necessary information, apply to

J. F. Morgan,

AUCTIONEER.
