## J. P. ALOHIKEA MEETS HIS DEATH

In common with a good many other Hawaiians, J. P. Alohikea, the well known harness maker and upholsterer of Lihue, went down to the shore Thursday evening to fish for ala-lau'a.

An experienced fisherman he went to that point on the rocky coast between the outer and inner lighthouse known as Pukaulua, a famous fishing hole, and was sitting there on the edge of the same when an unusually large swell rolled in and swept him off the narrow ledge of rock and into the boiling cauldron.

Thence the receding surge carried him into the open sea. In the process he was doubtless more or less bruised and mangled so that he was unable to help himself effectively. William Hookano, who was near by, heard his call and tried to reach him with a long fishing rod, but in the fierce surge the bamboo was broken to fragments, and Hookano was warned of the futility of throwing himself into the sea to save his friend.

In the darkness and roar of the surge the unfortunate man was soon lost.

## In Memoriam J. P. Alohikea

By the accident a few days ago death took from our midst a more than usually capable and attractive Hawaiian who will be much missed in the community, in a business as well as a social way.

The deceased was 46 years of age, born at Kaupo, Maui, where he spent his boyhood. He received his higher education at Lahaina, where he received also his bent toward mechanical interests as well as a measure of facility therein. There also his musical gifts were cultivated. He secured his trade training in Honolulu with the Schumann Carriage Co. and later with Philip.

He came to Kauai about 15 years ago, and was for many years in the employ of Mr. Rice as harness maker and upholsterer; for three or four years back he has been conducting an independent business of his own.

More even than most Hawaiians he had a very engaging personality.—dignified, courteous, genial and kindly, he commended himself to every one who knew him. In addition to this he was one of the very few Hawaiians who could conduct a business venture successfully, and make it pay, while giving satisfaction.

Mr. Alohikea was a man universally respected, a man of character, a strong man in the church, ready and helpful in all church matters.

Especially was he an indispensable factor in all song contests, concerts, hoikes etc since he was an excellent musician and a fine choir leader.

He leaves a widow and three daughters to mourn his loss.

## Haena School Removal

It has long been evident that the Haena school shouldn't be in Haena but in Wainiha, where the most of the children are; and it has long been the intention to move it. This has finally been done and now the school buildings and cottage are pleasantly located on the flat just beyond the Wainiha Valley, at the beginning of what it generally called the Haena Flats but which is really Wainiha. It will be much more convenient for the children and also more convenient for the teachers who will not feel quite so far out of the world now.

Man G. Santos, for many years manager of the Portuguese newspaper, the O Luso, made a visit to Kauai last week returning by the Kinau on Saturday. We understand that he is soon to be appointed Post Master for Lihue. He expects to move to Kauai sometime in November. In the mean time he is trying to find a house; he has our sympathy!

## Coming

Comprehensive plans are in hand to conduct a Religious Education Campaign for the district of Lihue during the next month or so, by the forces of the Hawaiian Board assisted by local leaders.

The first factor of the campaign will be a careful census survey of the field with tabulated results that will endeavor to give the racial, linguistic, social and moral status of all the people in the district, so that we may know just what we have in the district in the way of religious problems, and how we may meet them.

This measure will be followed by a week or ten days of evangelistic campaign among such of these people as can be reached in that way by races and in the different languages; with the children and the grown people by methods appropriate to each, and with the best available music and the most effective speaking to be had.

The promising results from these meetings will then be given a course of special instruction designed to fit them for greater usefulness in Church and Sunday School work.

## New Members of the Red Cross

The following names have been sent in during the month of August for membership in the American Red Cross:

Mrs. E. M. Cheatham, Kealia; Miss Leinani Clapper, Lihue; Mrs. R. D. Israel, Kealia; Mrs. P. A. Romane, Koloa; Mrs. Wm. Reichardt, Koloa.

This brings the number of members secured by the Lihue Auxiliary for the American Red Cross to 640. No active solicitation is now being made, but anyone who cares to become a member may send in his name through the Auxiliary for forwarding to Washington.

## Read the Leaflet

The Food Commission are out with another taking little leaflet entitled "Save Food" in which they make timely suggestions along various lines, all very neatly and epigrammatically put. The special emphasis this time is "eat more bananas,—to save them,—they are going to waste!"

We would be glad to eat more bananas if we could get them;—and especially if we could get the right kinds. The common, or Chinese banana, is about the poorest kind that grows, in the opinion of many people, while the choicest kinds, especially for cooking, which are really delicious, are scarcely to be had at all.

These choicer kinds, to be sure, are not as easy to raise as the Chinese, but with an expert County Agent and a growing class of intelligent small farmers, the indigenous Hawaiian banana ought not to be beyond them.

## Improving His Condition

Clementine Gomez who for some years has been in charge of the Hanapepe Garage, is leaving at the end of the month to take up a responsible position in the auto department of the Von Hamm Young Co. in Honolulu. He has just completed the automobile course in the International Correspondence School, which taken with his practical experience makes him a valuable man. He is a promising young man and Kauai is sorry to lose him.

The "old residents" of the Islands who happened to be aboard the steamer with the new arrivals of the teaching force of Kauai, were struck with the fact that a bevy of very attractive and charming-looking young ladies are to be with us this year. The "peachy" complexion of the California girl is always a pleasure to look upon and a novelty to the rest of us who have been here long enough to get tanned like Indians.

Miss Helen Kuhlmann has gone to town hoping to enter school there.

## The Ball Game

The ball game between Lihue and Kealia at Lihue, Sunday afternoon was one of the poorest and most tiresome exhibitions of the National pastime that has been staged on Kauai in a blue moon. In this game Lihue demonstrated very thoroughly that it takes practice to play ball.

The game was called for two o'clock and everybody was on hand at that time but the home team. At three o'clock a few of them strolled casually onto the grounds, and at 3:30, by putting in substitutes, enough men were gathered together to start the game.

At the end of the second inning the score stood 10 to 1 in favor of Lihue. The home fans began to perk up and look hopeful. With three or four more innings like that, Lihue really ought to have a reasonably safe lead.

But no, some mutt must have told them that their little old 10 to 1 was a safe lead, and that they had already done all that could reasonably be expected of any ball team. Had they not annexed ten runs to the opponent's one at the end of the second inning? Surely that was glory enough to last for one day—and if the Kealia bunch took exceptions to that—why, we should worry.

Kealia 14 Lihue 10. Nuff said.

**MAKAWELI vs. KOLOA.**

According to reports the game between Koloa and Makaweli at Koloa, was good ball up to the seventh inning, when Makaweli made a balloon ascension and by the time they reached the earth again Koloa had annexed ten runs. Koloa 10, Makaweli 3.

**NEXT SUNDAY'S GAMES.**

The game next Sunday will be as follows:

Koloa vs. Lihue at Lihue.  
Makee vs. McBryde at Kapaa.

## Coming:—The Mokihana Fair

The executive committee of the Mokihana Fair met on Friday afternoon at the Lihue Hall to discuss ways and means for financing the newly installed district nurse. It was decided to hold a Fair the last Saturday of October, the 27th, making it a Halloween affair. Kauai may look forward to a novel and entertaining evening with many opportunities for surprise, and many original and tempting ways of spending small change, or even more.

## French to the Front

Are you studying French? If not you are not "in it!"

We would call attention to the new departure of Punahou, which now gives French the place of honor on the curriculum formerly held by German. Locally French classes are now much in evidence, and little tots and grown matrons, hug French books to their bosoms and call out cheerily as they pass you, "Comment allez vous?"

To be in the swim you must study French!

## Married

Miss Frances Thompson, principal of Makaweli school and Mr. Henry Lyman of Hilo, were married Wednesday last, September 5th, at the home of Mr. and Mrs. Harold B. Gifford, Nuuanu, Honolulu, Bishop Henry Bond Restarick officiating. Miss Thompson is a cousin of Mr. H. B. Gifford, while Mr. Lyman is a well known Island man. He is a nephew of Mrs. S. W. Wilcox, of Lihue.

## Born

**LOOMIS**—At Elele, Sept. 6th. 1917 to Mr. and Mrs. Chas. F. Loomis, a son, John Forward.

**REDELL**—At Kealia, Sept. 6th. 1917, to Mr and Mrs. M. C. W. Redell, a son.

The Guardian Trust Company has been appointed administrators of the estate of the late Chas. Dillingham.

## Local and Personal Notes

Wm. B. Lymer, the Honolulu attorney, made a business visit to Lihue last week.

Mr. Cropp, manager of Koloa Plantation was a passenger on the Mauna Loa Tuesday last.

Mr. and Mrs. A. G. Kaulukou returned Wednesday morning from a visit to the big island.

C. W. Hammond, salesman of Honolulu, is calling on the business men of Kauai this week.

Judge C. B. Hofgaard returned to his home in Waimea last Wednesday from a tour of the Pacific Coast.

Mr. and Mrs. W. F. Sanborn and family motored over to Lihue from their Hanalei home last Saturday.

Mr. Haight, of the law firm of Smith, Warren and Whitney of Honolulu, arrived Friday morning to attend to legal business.

Mrs. Maud Thompson and little son are home after a vacation spent partly on Hawaii and partly at the "Courtland," Honolulu.

Homer Lydgate, who has been spending a few weeks on Hawaii, returned to Honolulu in time for the opening of school at Punahou.

Frank Broadbent enters the College of Hawaii as a freshman this year. He will live at the Punahou dormitory. He left by the Kinau Saturday.

The many friends of Mr. and Mrs. C. A. Rice welcomed them on their return to Kalapaki last Wednesday after several weeks absence in Honolulu.

Mrs. Morrill and small daughter, who are to be in Lihue, were taken over to Waimea by Mrs. Brandt as guests for a few days before school opened. They are old friends.

**Malford H. Drummond, deputy bank examiner, is on Kauai making his semi-annual call upon the banks and the County auditor. He will return to Honolulu tonight.**

C. M. Haight, of the law firm of Smith, Warren & Whitney, Honolulu, was in Lihue last week attending to matters pertaining to the estate of the late Chas. Dillingham.

There were 16 or 17 teachers in attendance at the Lihue Union Church on Sunday,—out of an attendance of some 45,—over 30%. That speaks well for them.

Among the new teachers at Hanamaulu is Miss Kenway whose forbear was a prominent judge on Hawaii, living in Hilo, as well as an owner of rural estates in Hanakua.

Mrs. Frank Alexander and Mrs. Dick Oliver are back at Elele after having spent some weeks in the Halemanu region. Mr. Alexander is expected home from the Coast this week.

Mrs. Elmer Cheatham, of Kapaa homesteads, accompanied by her two young sons, departed for Honolulu last Tuesday. The boys are to enter the Honolulu Military Academy.

Mrs. Broadbent gave a small picnic at Kukuolono Park last Wednesday—just her family and half a dozen outsiders. They enjoyed anew the charm and restfulness of that beautiful place.

Mrs. Foster returned from Honolulu with her sister, Mrs. Charles A. Rice to spend a few weeks with her. Mrs. Foster is well and favorably known on Kauai, and her friends are glad to see her again.

Fraulein Heuer, who has spent the last two months visiting Miss Elsie Wilcox, returned to Honolulu Tuesday last. Miss Heuer is teacher of German in the College of Hawaii and a great favorite among the students.

Mr. Theo. Richards, treasurer of the Hawaiian Board, and Rev. A. Akana, head of the C. E. work on the Islands, came to Kauai last Friday on Hawaiian Board business. They returned to Honolulu on Saturday.

In the line of congested education, surely the primary department of the Lihue public school breaks the record; between 180 and 190 children in two cramped rooms in the old Japanese school building, very many of whom don't know a word of English. How the patience of those two teachers will be tried; our sympathies go out to them!

## The Congested Water Front

If any evidence were required of the increase of the automobile in the land, it might be found in the great array of cars at Nawiliwili landing on steamer day. Last Saturday it required a good deal of skill to dispose of them and prevent smash-ups. In some places they were parked three tier deep. Over a hundred cars, all told, were there, though not all perhaps at any one time.

It looks very much as though some additional provision would have to be made in the near future for the steadily growing traffic at this point.

We would respectfully suggest that the water front on the makai side should be extended; a strip of the beach should be filled in and then walled up to protect it from the sea. This would give quite an extension of space on this side, and would put the water front in good shape as well.

## Attention: Civic Convention Delegates

Members of the Kauai Chamber of Commerce intending to leave Friday evening for the Civic Convention at Honolulu should communicate at once with the secretary, phone 122 L, in order that credentials may be supplied. It now looks as though the Kauai delegation in the Convention will be small, although the sessions will doubtless be attended by a considerable number of people from this island.

## Children to School

There was a great exodus by the Kinau on Saturday of young people returning to school. Among so many from various parts of the Island some may have escaped recognition, but the following were among the number.

**To Punahou.**

Dora Broadbent, Blanche Wishard, Mortimer Lydgate, Lihue; Howard Lyman, Waimea; Paul and Cedric Baldwin, Makaweli; William Wolters, Kealia, and William Akana, Kalihiwai.

**To Honolulu Military Academy.**

Paul Rice, Alexander Hogg, Lihue; Hugh Brodie, Hanapepe; Sanford and Herbert Deverill, Hanalei; and Howard Danford, Mana. The latter was accompanied by Mrs. Danford.

**To Kamehameha.**

Annie and Mary Kaulili, Lizzie Pimoku, Emma Maihoa, all of Koloa, and Andrew Richmond, Lihue.

**To the Priory.**

Helen Zoller, Lawai; Ruby and Janet Scott, Kilauea; the two Luhr girls of Kola, accompanied by their mother, and Beatrice Gandall of Lihue, accompanied by Mrs. Gandall.

**To the College of Hawaii.**

Frank Broadbent and Matsu Watada of Lihue.

## Sudden Death

Mr. James Kahilikolo Hano, returning from Church Sunday afternoon at Anahola, with his family, driving himself, suddenly turned the car into the ditch, in what seemed a strange manner. The other members of the party, when they came to examine, found that he was already dead, a case of sudden heart failure probably.

His friends and relatives have the hearty sympathy of the Garden Island.

## Notice

Regular Church services will begin at Koloa Sunday afternoon at 3 p. m. and at Elele Sunday evening at 7:30 p. m. Honolulu time. Everybody come and start the year right.

J. M. LYDGATE.

A Haneberg, travelling auditor for H. Haekfeld & Co., Ltd., is making his periodical visit to Kauai this week.

## BACK FROM THEIR VACATIONS

Mrs. Bridgewater, principal of Hanamaulu school, returned on the Kinau last Wednesday. She brought her niece, Miss Haslop with her. She will teach at the Hanamaulu school.

Mrs. Lillian S. Mesiek is at her cottage in Hanamaulu, looking quite rested and well after her visit with her daughter in Honolulu.

While in town she performed the pleasant and patriotic duty of acting as guide for the U. S. soldier boys. A very fine class of young men are coming here in the ranks—young college bred fellows who volunteered since the war began and who have been sent here as part of their training.

Miss Mumford has opened her hospitable heart to the incoming stranger teachers assigned to her school. She will have five new ones. Among them are—Miss Findley, sister to the Miss Nell Findley whom we know so well; Miss L. Fowlds of San Jose, upper grade teacher; Miss Spring and Mrs. M. P. Morrill who, with her little daughter, will live in the vacant Hawaiian minister's cottage on the church grounds.

Miss Mumford gave a very pretty informal tea on the lawn for the new teachers last Thursday afternoon to introduce them to such of the near neighbors as could drop in to greet them.

Miss Byrne, Miss Fitch and Miss Fowlds are three new teachers assigned to Elele that were passengers on the Mauna Loa Friday morning. They landed at Nawiliwili and were met there by Miss L. Fowlds of Lihue.

Mr. Wm. Serrao, the manual training teacher in Lihue school, returned on the last Kinau. Mr. Serrao is looking very well indeed and why shouldn't he? He made a trip to San Francisco and back on the ship Manoa "and had the "time of his life." His brother is first officer on board the Manoa which accounts for his trip. "Laki oe" Serrao!!

Mrs. Katherine Burke motored from Kapaa to Nawiliwili last Friday morning to meet and care for her three new teachers that came on the boat. They are—Misses Cole, Davids and West, of Pasadena, California, and graduates of the Los Angeles Normal. They are friends of Mrs. Waterhouse of Koloa which speaks well for them.

Miss Hubbard of Montana, also assigned to Kapaa, arrived on the Kinau Wednesday.

## The New Community Nurse

Miss Kublig, the community nurse, arrived by the Mauna Loa on Friday and has already begun her duties. She is pleasantly located in the same cottage with Mrs. Morrill on the church grounds,—the Hawaiian Parsonage. Mrs. Isenberg, head of the nursing committee of the Mokihana club, took care of her for a day or two upon her arrival, and saw her properly started.

## Motor Cars

The attention of the public is called to the new law that is being rigidly enforced against the carrying of outboard baggage on motor vehicles. Anything which protrudes beyond the running board is out of order, and is likely to lead to arrest.

The following news item from the officers' training camp at Schofield is of interest to Kauaians:

"Oscar W. Gibson was the first student to qualify in any one department—Gibson, who is a former sergeant in the United States Army, passed a successful examination in the manual of arms. Each student must pass an examination in 12 different departments of work for the Infantry."

### The Maximum Price For Sugar

Congress has recently fixed 7¼ cents as the maximum price for sugar during the continuance of the present war. This a significant bit of legislation for us, since sugar is our main product, and a cent a pound one way or the other may mean prosperity or adversity to us.

It costs upwards of 1½ cents a pound to refine the raw sugar, so that 7¼ cents for refined would mean 5.75 or 6 cents for the raw product. This is looked upon by our plantation interests as a very satisfactory price. The average price for the last year has been about 5.74; and this has been a phenomenally good year,—beyond anything in recent times.

To be sure, this set price is a maximum price, and does not necessarily mean that this will be the actual price; the presumption is, however, that this will pretty well set the standard for the actual price, which presumably will not fall below this figure. That so high a price has been set indicates a desire to stimulate production, and in order to have this effect it must generally prevail. If the price falls below this it will cease to act as a stimulant, and the production of sugar will fall off, with a consequent increasing demand and upward tending prices again.

In addition to this, perhaps the Government has designs on the large dividends which high prices will produce, in the way of excess profits taxes, which will be an effective and simple way of levying a large indirect tax on the consumers.

At any rate if it is a satisfaction to have the matter settled, and settled so favorably.

### Hail To The Teachers.

As the migratory birds come flocking back from the Coast in the Fall, and once again we see the flash of their wings and hear their cheery cries in the landscape, so now the teachers come flocking back and we see the gleam of their pretty dresses and hear the music of their laughter in the land. And both homecomings gladden our hearts.

And now that they are back we begin to realize how dull the Summer has been without them and how much they mean in the life of the community.

People who have been away during the Summer are back again;—because the schools are opening. In the homes throughout the land the methodical life is resumed anew; because the schools have begun again;—and the children must be on hand in time. Things that have gone more or less slack during the Summer are toned up and set in order;—because the schools have begun again. There is home work to be done every day; and that alone saves life from growing tame for both children and parents.

The normal routine of life is taken up afresh in all lines; the Church opens up with renewed vigor; the Mokihana club starts a new year; the Ou club awakes from its temporary hibernation; the social life of the community in general takes on a new activity;—the teachers have come back again.

There are new faces, and new dresses, and new styles, and who knows what possibilities of romance in these new teachers; and so every one is on the qui vive to see them and to speculate on their future.

And then there are the old friends back again, who have left their impress on the community, and who hold a place in the affections of the community that will not be taken from them; we are glad to see them back.

And so, as we look out on our Island life, and note how large a place the teachers fill in the landscape we hold out hands of generous welcome to them and cry, "We are glad to see you back again, for life would be very slow without you."

### An Overcrowded Steamer

The number of passengers leaving by the Kinau Saturday afternoon was, we believe, unprecedented in the history of our Island transportation. The demand far outran all accommodation, and very many could not even secure mattresses on deck and would have to sit up all night or stow themselves away in such uncomfortable corners as they might be able to find on the deck or in the dining saloon.

We presume however that no concession was made in the matter of passage money to correspond with the imperfect accommodation.

With the Mauna Loa on the Island and in slack commission it does seem as though she might have been called in to make the extra trip which she ordinarily makes, to relieve the passenger congestion, as she would undoubtedly to relieve a freight congestion.

We would respectfully inquire whether the Kinau carries sufficient life-boat capacity for such overcrowding; and what would happen in case of serious accident involving the abandonment of the steamer and recourse to the boats in mid channel in the darkness; would it mean a great disaster?

### Better Road to Kekaha Mauka

A TRIP to Paupalepe by automobile reveals the fact that this interesting upland country is readily accessible; but it also reveals the fact that before there is very much traffic into that country the road ought to be very materially improved. The grades are excessive in places; the turns are twist in places; the holes are racking jolts; and everywhere the road is very narrow.

All these defects however, could be easily remedied and at no great expense.

It is perhaps too late in the season now to justify any expenditure at present, but next Spring the road ought to be put into good shape for the Summer travel. That country is a very valuable asset to Kauai, but it must be made accessible, if it is to be much good to us.

### The Chances Of War

Doubtless the common conviction of those who say good bye to dear ones leaving for the seat of war, is that they will never see them back again. But it seems that this gloomy outlook isn't justified.

The Babson Statistical Organization is responsible for the statement that the war mortality is only 60 out of 1000. This isn't so very much higher than in many communities in time of peace. The mortality of this war, in spite of all that we read and hear of wholesale slaughter and disaster, is really much lower than in the wars of bygone times, because the sanitary conditions are infinitely better; ordinarily it is in the camps, and not on the battle field, that men are slaughtered.

### Food Commission Allright

We are glad to be assured by our Local Agent that the reconstructed Food Commission for the Territory is a live and efficient organization in spite of being short several of its members. Mr. Childs, the new executive member, is commended as an alert and efficient business man with the right ideas about system and order, as well as open to suggestion and progressive in every practical way.

### MARRIED

KAPAHEE-CORREA—In Honolulu, September 3, 1917. David K. Kapahee and Mrs. Mary Correa. Rev. Akaiko Akana of the young People's League, officiating; witness—Mrs. James K. Kula and Mrs. Annie P. Callaghan.

We note with satisfaction that preparations are being made to macadamize what is commonly known as the Haiechaka Huleia road. There is a good deal of traffic on this road, and at times it is very bad;—it will be a boon to have it put into good shape.

A SAYIN' to be bright,  
A don't have to be bitin'. It can be like  
VELVET—jes full o'  
flavor without any  
bite.

Velvet Joe

Tobacco does not have to be "strong" to be full of flavor and fragrance. VELVET proves that. VELVET, The Smoothest Smoking Tobacco, has all the pipe smoking qualities that are natural to Kentucky's *Burley de Luxe*, together with an aged-in-the-wood mellowness that is not found in any other pipe tobacco.

## CRISCO

For Frying—For Shortening  
For Cake Making

### Frying

There is no smoke nor odor. Fried foods are free from the taste of grease. They now are tasty and crisp. They are made more digestible, for Crisco is all vegetable. The same Crisco can be used to fry fish, onions, doughnuts, etc., merely by straining out the food particles after each frying.

### Shortening

Crisco gives pastry a new flakiness and digestibility. Crisco always is of the same freshness and consistency. It's uniform quality makes for uniform results.

### Cake Making

Crisco gives richness at smaller cost. It brings cake-making back to popularity. Butter bills are reduced and cakes stay fresh and moist longer.

### "Results are Better"

#### MITCHELL

Mitchell Motor and Service Co., Seattle  
"results are better and cost of operation considerably lower while using Zerolene."

#### BUICK

J. D. Luppe, Sacramento  
"have found Zerolene to be a satisfactory lubricant for Buick automobiles."

#### DODGE

H. O. Harrison Co., San Francisco  
"gives perfect satisfaction."

#### MAXWELL

Clyde Lee, Oakland  
"Zerolene has given us perfect satisfaction."

**ZEROLENE**  
The Standard Oil for Motor Cars

Endorsed by Leading Car Distributors

—because the records of their service departments show that Zerolene, correctly refined from California asphalt-base crude, gives perfect lubrication—less wear, more power, least carbon deposit.

Dealers everywhere and at our service stations.

STANDARD OIL COMPANY

**NOTICE OF SALE OF REAL PROPERTY FOR DELINQUENT TAXES.**

To the HEIRS OF E. M. PUULEI, deceased.

To all to whom it may concern: I, J. K. FARLEY, Tax Assessor Fourth Division, County of Kauai, Territory of Hawaii, hereby give notice that I will, in pursuance of the provisions of Section 1266A of the Revised Laws of Hawaii, upon the 2nd day of October, 1917, at Hanalei Court House, at 10:00 o'clock, A. M., sell all the right, title and interest of THE HEIRS OF E. M. PUULEI, deceased, in and to the property hereinafter described, at public auction to the highest bidder for cash to satisfy the lien for taxes thereon, together with interest, penalties and costs, as follows:

Tax assessed upon the following real property as of  
Jan 1 1916, \$17.85 and Jan 1, 1917, \$17.00  
Interest \$ 2.10 " " " " " " \$ .30

**Michelin Tire Hints**

Kauai Garage Co., who is a great booster locally for Michelin Tires says that: The wheels of a car should always run exactly parallel. Anything which prevents this will cause tire trouble. Too much play in the axle-end bearings, too great a freedom in the steering joints or possibly a bent spindle or axle-end invariably exacts the penalty. Brakes too, when they are out of order, damage tires. For example, if only one of the back wheels locks when applying the brakes, the tire on the slipping wheel will surely be injured.

Another kind of tire-trouble arises from weakened springs. Every time the car jolts badly the upper part of the tire rubs against the mudguard and as a result the casing is damaged.

Then again, oil or grease, from leaky or overfilled tanks, should not be permitted to reach the tires, because oil and other fatty substances are most injurious to rubber.

## Notes of a Summer Trip.

By J. M. Lydgate

### How to Make it.

There are many people perhaps who do not realize how readily a trip may be made to Hawaii, and how much may be seen in a short time.

Leaving here Tuesday evening, immediate connection may be made for Hawaii, next morning, by the Mauna Kea, and the next morning by breakfast time you are in Hilo. Immediately that same day you can make the trip through Puna, if you wish, and see the volcano both by day and night, and be ready to take the steamer back to Honolulu the following day. Arriving in Honolulu on Saturday, you will then have three or four days there, and be back on Kauai early Wednesday morning; all practically within a week.

And many people also, do not realize perhaps how reasonably it can be done. You can get a round trip ticket, covering everything but the Puna trip, from Honolulu and return, for \$28.00 or \$30.00, depending on choice of Hotel. The Puna trip will cost \$6.00 more.

The trip to Hawaii is one which every person on the Islands ought to make every year or so.

### Model Inter-Island Steamer

One occasionally hears critical comment of a disparaging nature concerning the Mauna Kea, as though it were an imposition to have to travel in so small and so uncomfortable a boat. Perhaps this is excusable after travelling in the palatial ocean liners, but to us, who live here, the Mauna Kea is a paragon of comfort and elegance, and we can hardly abide the finicky unreason of anyone who isn't satisfied with our finest Inter-Island steamer.

### Persistent Pahoa.

Somewhat after the manner of a ruined mining camp Pahoa is a place whose glory has departed. The big lumber mill that used to be so noisy and bustling now stands idle and deserted. But the town has not petered out and vanished away by any means, for the lands that were denuded of timber by the ruthless hands of men are now being occupied for sugar, so that the second boom of Pahoa bids fair to be no less prosperous than the first and much more enduring.

Only a plantation camp,— but with schools and churches and stores and restaurants; a saloon, a billiard parlor, a big moving picture theatre, automobile garages, etc. etc.; these are the things that stare one in the face; and so much activity that they can afford to pay 40 cents a gallon for gasoline, "because Hilo is so far away" 20 miles from Hilo, one of the largest ports of direct shipment on the Islands and yet pay 40 cents a gallon for gasoline.

### Awa Growing as a Business.

Along the forest road through Puna one passes several small plantations of that little known Hawaiian product Awa. The Awa belongs to the pepper family, a large leaved fibrous rooted shrub, formerly used by the Hawaiians as a narcotic intoxicant, now used, the root, for medicinal purposes, though many of the old Hawaiian toppers still cling to it with fatal fondness. Heretofore most of the product was shipped to Germany, now much of it goes to Detroit. It is said to be an important element in the production of salvarsan the specific for venereal diseases.

The value of the product varies largely with the quality, ranging as high as 15 to 16 cents a pound.

Coming down from ancient times there have been patches of the plant growing in the mountains, escaped from cultivation, and a few years ago, under the stimulus of high prices, the mountains were ransacked far and wide for it; since then it has been more systematically cultivated. Thus far this cultivation has been mainly confined to the Hawaiians.

We heard of a case in Puna of a Hawaiian who had a patch of 10 or 12 acres who declared that he could get \$10,000 for his crop, but he was going to hold it for \$20,000. It is one of those easy going crops that you can harvest this year or next according to your convenience.

### Growing Interests at the Volcano

In the bygone days of my early acquaintance with the Volcano and its surroundings, the one only interest was the crater itself, with the addition perhaps of the sulphur banks and Kilauea-iki. Some few people who were "kamaaina loa" knew that there was a lesser crater called Keana-ka-koi, and some big cracks down toward Kau. Outside of the crater you couldn't possibly spend more than a few hours seeing things.

But now there is a whole host of things to be seen, most of them well worth while, and growing more and more accessible every year. First

of all there were the Tree Moulds, then the fine Koa Forests up mauka, then the various Pit Craters extending in a long line down into Puna, the Twin Craters, the Devil's Throat, the Thurston Lava Tube, the Shipman caves, etc. etc. And all these, and other things, are fairly accessible, with auto roads in part, and in part fairly good trails; and with the assurance that every year will make them more easily accessible.

There are near things for those who want only short trips, and more distant, and more arduous things for those who are more energetic and more active.

This increase and diversity of interests of course adds very materially to the attraction of the region, and a few days may be spent there very profitably, as well as very comfortably.

In addition to this, there is a growing interest in the guest as distinguished from his pocket book, and an increasing effort to help him to see whatever there is to be seen. In the old days it was a matter of the utmost indifference apparently whether the guest stirred out of the hotel, and saw anything or not, so long as he paid his bill; in fact the management scarcely seemed to be aware that there was anything to see. Now, at least at the Crater Hotel, every facility is given the guest to see things and get his money's worth.

### Seaside and Country Homes.

Hilo is a city by the sea, and the residence sections are reasonably quiet and secluded. There are no noisy street car lines, and the rush of life is not excessive, and yet the well-to-do Hiloans must get away to the sea-side for the Summer, or they must spend a few weeks or months in the neighborhood of the Volcano. So we find that most of them have a place on the shore beyond Waiakea, and another up on the Volcano Road.

Most of these places are simple, inexpensive lodges, a roof and walls, with curtains more or less, for partitions, and cast off conveniences in the way of furniture and fittings; and life is unconventional, easy and comfortable. But not always. There are palatial homes by the sea, and luxurious mansions on the Volcano road which cost a fortune, and mostly lie unoccupied and lonesome in the care of a local guardian.

One of these on the Volcano Road we understand is for sale for \$25,000 and another is about to be built that will cost even more, to have a spacious cement cellar, and furnace heat, and a castellated tower.

And with these expensive homes comes an expensive and extravagant life,—afternoon teas, and bridge parties, and dinner parties and masquerade balls; and people have to be prepared for visitors from early morning till late at night, for you never know who may drop in on you unannounced to spend the day or have lunch. So there is no escape from the conventions of life, from party clothes, and tight raiment, and sitting up on tap the whole time. And when that condition comes to pass, the whole charm and the whole benefit of the Summer vacation is gone, and you might better stay home.

With a view to escaping this condition, there is a growing tendency to avoid the original Volcano Road, and get back onto the rear lots, where the homes are not quite so accessible and not quite so easily found. And farther even than this there is a growing tendency to set the houses in back from the road, with a screen of native verdure in front, and a winding pathway running in to the house.

And then the last refinement is to have a tea house hidden away in the rear, to which one may flee as on the wings of the wind when any one appears.

But there is another point of view. Some people settle in the near neighborhood of the Volcano House with the avowed purpose of unloading their guests onto the hotel when they become burdensome, and thus escaping the weariness of house-keeping and the exactions of hospitality.

One way and another a very considerable summer community has grown up in the neighborhood of the Volcano, which is steadily increasing, with many new houses building this Summer and many more lots taken up for occupation in the near future.

### Papering the Cane Fields.

Olaa is experimenting in papering their fields in lieu of hoeing them; in fact, I understand, that they claim that it has passed the experimental stage and is an assured success.

They use a coarse cheap builder's paper, which they pin down in strips with small wooden pegs, over

## A New Corn

Mr. Case, the County Agent, has samples of a new corn for distribution, for experiment. It is a Cuban developed variety and presumably will be better suited to our conditions than the ordinary American grown varieties. Gardeners and small farmers are requested to try it.

Passengers on the Mauna Loa were very much interested and excited over the weewee fishing as seen from the wharves of Honolulu before the boat pulled out. The docks were lined with people and the air bristling with bamboo fishing poles while long strings of little red fish were being carried away by the happy fishermen. Altogether it was a new and interesting sight that delighted all, especially the strangers from the Coast, who were heard exclaiming over the novelty of it all.

the cane in the row. As the cane grows the shoots push up through the covering, or if need be slits are made to allow its growth. No effort is made to cover the center of the row, in between the furrows, the idea being that when the cane grows, and closes in, the weeds will be effectively choked out.

Now, in theory, this probably works out alright, but in fact, so far as I could see by casual observation, papering is a mighty poor substitute for good hoeing. Other places I understand have tried it on the recommendation of Olaa, and have found it neither effective nor cheap. In the more exposed places, and the more windy regions, it is a problem to hold the paper down. The wind works in under it, and the pegs tear through, and in a short time great stretches of it work loose and are swept away to leeward, clean out of the field, and away over into the next plantation perhaps. Accordingly it is not looked on with much favor; and is regarded as one more fad consigned to the scrap pile.

### Hilo Overdone with Newspapers

Hilo has four daily newspapers. With a population of some 10,000 or 12,000 it has four dailies in English, and I understand, a couple of Japanese weeklies and one Hawaiian and one Portuguese. Honolulu, with five or six times that population, gets along very comfortably with two dailies.

And of course this 10,000 or 12,000 population of Hilo is mostly Orientals or otherwise non English speaking, so that they presumably do not read any one of these dailies. There are, I understand, only about 500 English speaking people in Hilo, men, women and children to read these papers; they must have to sit up nights to do it.

May not Kauai be devoutly thankful for small mercies in that they have only one local paper, once a week.

## Dormitory to Open

The dormitory for High School students will be open for those who wish to enter the High School this fall. The children will be given good care and supervision. Rev. K. Okamoto will be in charge.

On account of the advanced cost of foods it has been found necessary to place the price of board at eight dollars per month.

A board of trustees composed of Hon. Wm. Hyde Rice, pres; Mrs. Hans Isenberg, Miss Elsie H. Wilcox and the principal of Kauai High School, sec; will act in connection with the dormitory supervision.

The High School will have an increase in number of students and teachers this year. A number of competent instructors have been engaged and the standard of the school is excellent.

The commercial department will be especially strong with Mr. Ryhs- kel in charge. He is a man of wide training and experience in High School work.

Mr. Wm. McCluskey, the new principal, is an educator of large experience. He comes to the school from Maui, where he has been supervising principal of the Maui schools.

September tenth is the opening day of the Kauai High School and students wishing to enter the dormitory should get in communication with the superintendent as early as possible.—Advt.

## Larrison is Named Captain Engineers

Notice was received Saturday by G. K. Larrison, Territorial Hydrographer, that he had been commissioned a captain in the engineers. Thus another Territorial official will be called away from his duties in Hawaii and enter the service of the United States.

Captain Larrison is now at the training camp at Schofield, and it was there that news of his appointment reached him. He took his examination about two months ago and has since been awaiting the announcement of the result. Whether he will remain in the training camp for the balance of the training period he does not know, as this will depend on the orders which he receives. It is considered doubtful, however, as the engineering forces are among those most rapidly mobilized, and an earlier call for him is to be expected.—Advertiser.

Miss Cutler is one of the upper grade teachers for the Kauai High and Grammar School. Two more teachers are to come next week, making a total of six besides the principal, Mr. McCluskey.

After having heard a verbal request from Sheriff Rice, Mr. Brandt moved for the continuance of the office of Hack and Auto Inspector and the present incumbent to the end of next December and being seconded by Mr. Bettencourt, Jr. the same was carried.

Mr. McBryde moved that the County Road Engineer be authorized to make up a list of feed required for the use of the County mules and to call in bids for furnishing the same with full power to accept or refuse any bid, and being seconded by Mr. Brandt the motion was carried.

Mr. McBryde also moved that the County Road Engineer be authorized to cause sufficient rock to be broken for the macadamizing work to be taken up by the County on the road running from the junction of the Grove Farm and the main public road to Huleia, and this being seconded by Mr. Brandt, it was carried.

Financial Reports Nos. 205, 205a, 295aa, and 205b, for August last were allowed to take the usual course.

The official bond of John Hano, deputy sheriff of Kawaihau for the two years from July 1st last was received and being found in order the same was approved.

A requisition (P 1468) from Miss Mumford, principal of the Lihue school, and another (P 1468a) from Wm. McCluskey, principal of the

High School, respectively for janitor supplies etc, for the schools named were referred to Mr. Moragne with full power to act on the matters.

Wm. McClusky, principal of the High School, appeared before the Board and asked for a house for the use of himself and his family. The matter was left with the chairman.

The report (P 1469) of the County Road Supervisor for August last was received and ordered file. It is in substance as follows:

Road work: The water for sluicing on the Camp 4 job at Makaweli gave out about the middle of the month and the remainder of the cutting and filling is being done by other methods.

In Koloa District only upkeep work was done, the balance of the oil on hand was applied. Asphalt is being tried out on the Koloa hill; the surface is being washed clean, floated with hot asphalt as thinly as possible and coarse sand applied while asphalt is still hot.

In Lihue District the same method of using asphalt is being tried by the County stables and Kapaia hill. Oiling in Lihue District is suspended, we can't get any more oil from Honolulu. I ordered 300 blbs from California to be used in the various districts.

In Lihue all roads not oiled were sanded. Work of regrading the Halehaka grade was started.

In Kawaihau the macadamizing outfit finished at Moloaa on the 14th, moved to Waipouli set up and started macadamizing on the 3rd inst. The small macadamizing outfit finished work at Apolo's place on Moloaa Hill on Aug. 30, and today will probably finish crushing the surplus rock at the same place. Stone breaking is still going on at Kealia beach where there is now broken more than enough to finish the main road and I would like instructions in regard to breaking stone for other roads at Kapaa and vicinity.

In regard to the Church road at Anahola the Makee Sugar Company gave permission to build through the strip of the cane directly in front of the Church gate; they cut the cane on a space wide enough for the road which is now being graded and it will be macadamized next week.

Not much road work was done in Hanalei.

Schools: The Haena school which was moved to its new location is now finished and ready for use and both school house and cottage look fine. Repairs and some painting were done at Kilauea by the Plantation.

Hanalei repairing was done as requested. In regard to the Japanese school at Hanalei the trustees offer the County the use of it for \$8.00 a month, or five use of the building provided the County will sell the schoolroom overhead, in which respect the building now remains unfinished. It would cost about \$70.00 to do the job.

The new bungalow school at the High School was completed.

A new two room school is now being erected at Lihue school; this building is to be converted into a cottage later on. Work on the new cottage at Kekaha will be started in a week or so.

Only small repairs to some of the schools remain to be done. Fifty new desks were purchased for Waimea. Other additional desks were ordered but so far have not arrived. There may be a small shortage of desks until others are received.

Upon the motion of Mr. Bettencourt Jr. second by Mr. McBryde the County Road Engineer was given full authority to get a sufficient quantity of rock delivered near the smokstack at Ulakui, Kapaa, for completing the macadamizing work on the belt road on East Kauai.

Upon the motion of Mr. Brandt seconded by Mr. McBryde the County Engineer was instructed to install electric lights in the principal's cottage at Eleele for the use of a night school to be held there in the near future.

Upon a verbal request by the County Clerk the Board by a vote appropriated the further sum of seventy five dollars (\$75.00) for the Incidentals of the County Clerk for clerical assistance to aid the official in completing the work of copying the cards of those registered on July 31st last under the Military Registration regulations and which the Clerk is required to do under an Act of Congress.

Upon the motion of Mr. McBryde second by Mr. Brandt the sum of twelve thousand two hundred and sixty six dollars and twenty five cents (\$12,266.25) was appropriated in addition to the sums already appropriated for the uses and purposes named below, same to be paid out of moneys available in the Treasury, as follows:

District Court & Jails:	
Kawaihau	\$ 5.00
Saml Mahelona Mem Hospital	462.10
Tax Collections	6.15
Water Works: Omao	25.00
County Road Machinery	600.00
Niihau: Roads & Bridges	473.00
Koloa: Oiling Roads	200.00
Roads & Bridges	800.00
Lihue: Oiling Roads	725.00
Roads & Bridges	200.00
Kawaihau: Maca, Kealia	5,000.90
Roads & Bridges	2,500.00
Hanalei: Oiling Roads	70.00
Roads & Bridges	1,200.00

Upon the motion of Mr. McBryde duly seconded the County Engineer was asked to look into the matter of securing good and sanitary water for the use of Kalaheo.

At 12 o'clock noon the meeting adjourned subject to the call of the chair.

## THE SALE OF OLD MILLS

Plantations with old mills for sale are finding them quite a considerable source of revenue. With the exorbitant prices of material, the preoccupation of mechanical plants, and the high cost of transportation, it is next to impossible to get a mill built to order in any reasonable time. But the Japanese in Formosa are extending the sugar business greatly under the stimulus of the war prices, so they are casting about for mills, already built and running, and are willing to pay what might seem almost fabulous prices for them. Some time ago they bought the old Kukuihaele mill, which was discarded some years ago, which they dismantled and transported to Formosa, where it is now doing duty on a large estate. And now they have closed a deal for the purchase of the Kukaiahi mill, which is being given up at the close of the present season.

The Formosa firm sent out their own expert engineer, a Japanese who made a very careful and intelligent examination of the whole plant, and rendered a detailed report, which overlooked no single pipe or bolt, and on the strength of this report the deal was closed.

They are so keen to get the mill that they are going to take it as it stands, and where it stands, and do their own dismantling, packing, loading and transportation, in addition to paying what seems an unheard-of price, for old machinery. Doubtless however, being Japanese they know what they are about.

Another mill that is in the market is the Puako mill near Kawaihae on Hawaii. It is in process of transfer to the Philippines.

### Weekly Market Letter

August 31, 1917.

Island eggs are scarce and have advanced five cents a dozen, while most feeds have remained at the same price and a few have dropped two dollars on a ton. A shipment of Maui beans were received and though the price has dropped a little, they are selling slowly.

There are no Island Irish potatoes in the market. Sweet potatoes are plentiful and the price has dropped to \$1.25 a hundred pounds. A shipment of Island onions and dried corn has been received from Maui. The onions are better than the last shipment.

Limes are scarce and in demand. Farmers having any limes on hand should ship them while the market is good.

Bananas are still plentiful and cheap. Large bunches selling for thirty five cents.

Island grapes have advanced another cent a pound and no grapes are coming in from the other islands.

Tomatoes are scarce and have advanced another cent.

O. B. LIGHTFOOT,  
Acting Superintendent.

### LOCAL NOTICE TO MARINES

HAWAIIAN ISLANDS—Maui Island, East coast, Kauiki Head Lightstation, reported extinguished will be relighted as soon as practicable.

C. & G. S. Charts 4116, 4102, 4115. Light List, Pacific Coast, 1917, page 152, No. 814. Buoy List, 19th District, 1917, page 12. By order of the Commissioner of Lighthouses:

A. E. ARLEDGE,  
Inspector, 19th Lighthouse Dist.

M. V. Ferreira, underwriter for the Home Insurance Company, has been spending several days on Kauai as the guest of Mr. L. B. Boreiko.

## A Interesting Experiment In Agriculture

Mr. A. H. Case, the County Agent, is working on what promises to be a commendable and practical plan for helping the small farmer and homesteader.

He proposes to secure from each homesteader or small farmer an experimental tract of a quarter of an acre or so, which will be cultivated under the direct personal supervision of the agent, planting it to whatever crop the owner may select, all expenditure on the same to be charged up strictly at cost, and the benefit of the most intelligent care and attention to be given free; the produce in the end to go to the owner of the land.

The purpose of these manifold experiments is mainly to interest the small farmer in the most intelligent kind of farming, and to give him the benefit of a valuable object lesson under his own eyes. And even though, at the beginning, these model farm plots may be taken up only here and there, each one that shall prove a success will be an inspiration and an example to the surrounding region, so that the whole Island in time will be educated to a more intelligent and more successful agriculture.

We understand that this plan meets with the hearty cooperation of the Food Commission as it surely should.

### Your Flag and My Flag

By Wilbur D. Nesbit.

Your flag and my flag,  
And how it flies today  
In your land and my land  
And half the world away!  
Rose-red and blood-red  
The stripes forever gleam;  
Snow-white and soul-white—  
The good forefathers' dream;  
Sky-blue and true blue, with stars  
to gleam a-rite—  
The gloried guerdon of the day;  
a shelter through the night.

Your flag and my flag!  
To every star and stripe  
The drums beat as hearts beat  
And fifers shrilly pipe!  
Your flag and my flag—  
A blessing in the sky;  
Your hope and my hope—  
It never hid a lie!  
Home land and far land and half  
the world around,  
Old glory hears our glad salute  
and ripples to the sound!

Your flag and my flag!  
And, oh, how much it holds—  
Your land and my land—  
Secure within its folds!  
Your heart and my heart  
Beat quicker at the sight;  
Sun-kissed and wind-tossed—  
Red and blue and white.  
The one flag—the great flag—the  
flag for me and you—  
Glorified all else beside—the red  
and white and blue!

Mr. Nobriga, of the Hanamaulu store, went to town by the Kinau on Saturday taking his niece with him to enter in the Normal School. We understand that she is a very promising girl.

Among returning passengers on the Mauna Loa Friday were:—Mrs. W. H. Rice, Jr., Mr. Frank Crawford, Mr. and Mrs. A. S. Wilcox, Mr. John Cockett of Koloa and Mr. Sam Kellinui, head man in the Crowell Garage, Waimea.

Mr. M. B. Fernandez, the promising young merchant doing business with his father in the Kapaia store, stole away to Maui for a few days last week, and brought back a charming bride with him,—the late Marie Silva, niece of J. I. Silva of Eleele. They will live at Waipouli for the present.

Mr. Theo. Richards, of the Hawaiian Board, and Mr. C. M. Haight, of the law firm of Smith, Warren & Whitney, personally conducted by Percy Lydgate, made the Olokele trip Saturday afternoon, and were delighted with the same.

## NOTICE

### TO WHOM IT MAY CONCERN:

The Territory of Hawaii has been able to sell \$200,000 of the proposed 4 percent loan of \$1,500,000.

It takes upwards of four months to go through the process of preparing for and presenting a loan. These are times when financial and other situations change from day to day so there is no counting on the future.

As per our laws and preparation, the Treasurer of the Territory of Hawaii can, at private sale, dispose of \$1,300,000 of 4 percent per annum bonds at \$98.04 per \$100.00 bonds.

Of this bond balance of \$1,300,000, this sum approximately applies to the various islands as follows:

Hawaii	\$ 405,000.00
Maui	205,000.00
Kauai	38,000.00
Oahu	650,000.00
Total	\$1,298,000.00

It is up to the people of each of these islands to purchase each its quota of bonds receiving a guarantee that the money will be spent on each island, in full or pro rata, to its subscriptions.

It is plainly a case of put up the money, of which there is plenty, or going without the improvements.

The \$200,000 will be principally spent on items that are in the interest of and to the advantage of the whole group.

By direction of the Governor,

HENRY C. HAPAI,

Acting Treasurer of the Territory of Hawaii. —11

### IN THE CIRCUIT COURT OF THE FIFTH JUDICIAL CIRCUIT, TERRITORY OF HAWAII.

At Chambers—In Probate.
