## WONDERFUL Blood-Purifying Effect —OF— Ayer's Sarsaparilla

Mr. Charles Stephenson, a well-known  
Railway Employee at Kalapoi, New  
Zealand, writes:

"About ten years ago, while engaged in shunting, my foot caught between the rails, and my leg was fractured below the knee. It healed in time, but I have been troubled ever since with swollen veins, and have been obliged, at times, to wear a bandage. About a year ago it became much worse, and I feared I should be obliged to give up my work. A friend advised me to try Ayer's Sarsaparilla. I did so, and after taking four bottles the swelling disappeared, and I have not been troubled with it since."

## AT THE COURT MARTIAL

### CAPTAIN GOOD'S COUNSEL IS OUT OF TOWN.

A. G. M. Robertson Will Defend the Accused Soldier—The Proceedings Last Evening at the Bungalow.

As announced in these columns yesterday very little was done at the Court Martial last evening. The officers of the court, consisting of Lieut. Col. J. H. Fisher, President, Captain W. A. Kinney, Judge Advocate, and Majors McLeod, Cooper, Iaukea and Potter, met in the large room at headquarters and were sworn in. Captain Good was then brought before the court and at once requested a postponement of the proceedings, owing to the absence of his counsel, A. G. M. Robertson. This was readily acceded to by the Judge Advocate and the court then adjourned until Friday evening at 7:30.

There are no new developments in the case today nor is there likely to be until the charges against Captain Good are made public on Friday evening. The sessions of the Court Martial will likely be held in the legislative chamber owing to the number of people who will probably attend. Colonel McLean told a BULLETIN reporter that the proceedings must be in public but the deliberations of the court on the admissibility of evidence and such matters may be in private, that is the court room is cleared for the time being.

The trial will undoubtedly be a long one and will be most bitterly fought. So far, Captain Good's friends maintain close silence on the affair, preferring to say nothing until the charges are fully known. Some of them intimate that there are two sides to the case and that before it is over the public will be made aware of many discreditable goings on at the barracks of which now they have not even an inkling.

It is whispered about that the upshot of the whole business will be the reduction of the regular force to one company, a consummation devoutly wished for by many.

## WARNING TO MARINERS.

### Dangerous Uncharted Rock Discovered by a Canadian Captain.

TACOMA, WASH., June 25.—Captain J. T. Walbran of the Dominion Government steamer Quadra has examined and fixed the position by sextant angles of an uncharted rock off the south side of Discovery Island. The rock lies between the fifth and tenth fathom line on British admiralty chart 577, outside of all dangers marked on the chart, and bears from Seabird Point S. by W. S. 1/2 W. westerly [magnetic], S. 43 degrees [true], distance 4 1/2 cables. The rock is marked by kelp, and has a depth on it at low water of 1 1/2 fathoms. There is deep water, nine fathoms, close southward of the rock, and on the east and west sides of it eight and nine fathoms respectively, but shoal water to the northward, there being depths in that direction of 4, 2 1/2 and 5 fathoms as far as the fifth fathom line.

## Short Men's Shoot.

A match shoot between the short men of Companies B. and D. has been arranged for next Saturday afternoon. The following teams will participate:  
"Shorties" [Co. B]—Corporal Waity [Captain], Corporals Schmidt and Weedon, Sergeant Atherton, Privates Oleson, Hammond, Bolster, Williams, H. Hapai, and Cooke.  
"Sawed Offs" [Co. D]—Corporal Nott [Captain], Privates Burnette, Vida, Wilder, Maguire, K. Porter, S. Decker, Ramsey, Vierra and Juen.

## AT THE HOUSE OF FIRE

### HALEMAUMAU IN ACTION AS VIEWED AT THE START.

Those Who Were Privileged as Eye-witnesses Saw a Magnificent Scene.

F. Wilburton, of Finney's Directory staff, was one of the fortunate visitors at the Volcano House when Halemaumau lake began to fill up again with molten lava. Writing from there on Sunday morning he says:  
"Last night at 7:15, as we were on the veranda of the hotel, Mr. Lee, who had expressed himself as confident that we should soon hear from Madam Pele, suddenly cried out:  
"There is the fire!"  
"In a moment all was excitement and everybody wanted to go down to the crater. About 8 p. m. the whole house was ready to go down to pay our respects to the returned Fire Queen.

"The party consisted of Mr. and Mrs. Wilmot Grant Peirce of St. Paul, Minn., U. S.; Miss Julia and Miss Flora Perry of Honolulu, Mr. Peter—the only Peter Lee, manager of the Volcano House—Mr. Martin Lee and Peter Lee's son Martin, with two guides and myself; the three ladies on horses, the rest of the party walking.

"When we arrived at the edge of the crater we saw at the bottom, some 500 or 600 feet down, a steady stream of molten lava gradually growing larger, that is, spreading over the floor of the crater, with every now and then a loud hissing noise, not unlike the breaking of waves on a rocky coast. At short intervals a shaft of liquid fire would shoot up in the air twenty-five or thirty feet and burst, sending a shower of fireballs in all directions. It was a wonderful display. We returned to the house fifteen or twenty minutes after midnight, feeling grandly rewarded for the journey forth and back over the precipice and across the vast bed of old lava."

## Come and See.

The minstrels Saturday night will probably be the most finished amateur performance of this kind ever presented to the public in Honolulu. Many changes have been made. Mr. Cuelho will sing a different song, Mr. Ramsey occupying the end will sing a new topical song, the verses of which will be localized. B. L. Finney will attempt to juggle Indian clubs blindfolded. Vierra and Jackson will put on a new Chinese act, and the company will introduce a new afterpiece in which several specialties will be performed. The tickets will be on sale tomorrow at Benson, Smith & Co.'s. Don't miss it if you want to enjoy yourself.

## House Lots at Auction.

Never has a better opportunity been given to acquire a home site in a wholesome suburban locality than that announced by James F. Morgan in this paper. There are one hundred lots, on the Ewa side of Nuuanu valley, to be sold at auction on the 12th of August. The climate of the locality is not surpassed for healthfulness in the environs of Honolulu. Extremely easy terms of payment are offered, as will be seen in the advertisement.

## SMALLPOX BREAKS OUT

### THREE CASES AT THE QUARANTINE STATION THIS MORNING.

Stringent Measures to Prevent Its Spread Adopted by Dr. Day—No Epidemic Anticipated.

Much concern was manifested about town this morning when it became known that smallpox had broken out among the Chinese at the Quarantine Station, and the rumor fiend at once commenced to get in his work. The facts are these:

When the China arrived on Monday morning with 233 Chinese and 79 Japanese on board, her doctor reported to the Port Physician that after leaving Hongkong a case of smallpox had broken out in the Chinese steerage. The man was put ashore at Yokohama and after thorough fumigation the vessel was allowed to proceed to Honolulu. No further signs of the disease having manifested themselves on the arrival of the vessel at this port, she was allowed to proceed. Dr. Day was not satisfied, however, that the infection had been stamped out and ordered that no communication whatever should be held between the steerage portion of the ship and the shore, which resulted in a partial quarantine of the Pacific Mail wharf on Monday. In spite of the absolute denial made in the Advertiser yesterday that there was no smallpox on board the China on the present trip it is certain that the health authorities here were aware of the case put ashore at Yokohama, and took extra precautions in the removal of the Asiatic passengers to the Quarantine station. The Chinese and Japanese were kept separated and Dr. Day gave special orders to Jack McVeigh to report to him immediately the slightest case of sickness, no matter of what nature.

At daylight this morning Mr. McVeigh telephoned that one of the Chinese was feeling badly and Dr. Day at once went over. The patient was examined and showed a plain case of varioloid. The rest of the immigrants were then examined and two more cases found. This is the twelfth day since the Chinaman with smallpox was put ashore at Yokohama and consequently the last day in which the disease should show itself. If no cases broke out today, Dr. Day would have been relieved to find that his fears were not justified. As it is, more cases may develop before night, although the doctor is hopeful to the contrary.

In the three cases discovered this morning the disease is the ordinary varioloid in a mild form. Each of the patients shows the mark of vaccination plainly, the mark being not over three or four years old. The patients were at once segregated and everything possible to prevent further contagion is being done.

It was thought advisable this morning to send over an armed guard to assist Mr. McVeigh in case of trouble among the quarantined Asiatics, and Marshal Brown was communicated with. On learning of this Captain Scott of the police force at once volunteered and was ordered to pick out a force of four or five men to be in readiness to leave for the quarantine station at noon. At that hour the order was countermanded, due, it is said, to objections made by Mr. McVeigh.

There is no possibility of the contract laborers brought by the Doric and shipped to the other islands on Monday distributing the infection, as great care was taken not to allow the slightest communication between them and the fresh arrivals on the China.

## NATIVE BURNED TO DEATH

### AGED WOMAN DIES IN FEARFUL AGONY THIS MORNING.

Her Husband Narrowly Escapes the Same Fate—Distressing Affair Near Paul Isenberg's Place.

In a grass house on a little kuleana adjoining Paul Isenberg's ranch at Waiialae there is a family of natives living, of whom the heads were an old man nearly 100 years of age and his wife. The old man is a little and dried-up specimen of humanity, while his wife was so large as to be perfectly helpless and bedridden. When they retired to rest last night they built a fire of cocoanut husks to make a smudge and drive out the mosquitos, leaving the embers burning.

At about 4:30 this morning the old lady's cries awoke her husband, who found that her clothing was on fire. He tried to extinguish the flames and at the same time to drag her out of the house, but his strength was not equal to the task. His cries alarmed others in the vicinity, but by the time they reached the scene the clothing had all been burned off the woman, while her husband was severely burned about the hands and face. In his efforts to drag his wife from the room the fire was communicated to the grass house and it was totally destroyed. A few of the household effects were saved.

Mrs. Isenberg at once rendered what assistance she could and the old people were cared for under her directions. The woman died at half past 9 this morning in fearful agony in spite of all that could be done for her. The old man is not burned so badly but that he will recover, unless the shock to his system should prove fatal.

Deputy Marshal Hitchcock will make an investigation into the occurrence and will probably conclude not to hold an inquest under the circumstances. The name of the deceased was Nana-ka, but her age is unknown, except that she was very old.

## THE DORIC'S LABORERS.

Sent Off by Island Steamers on Saturday and Monday.

The Asiatic contract laborers who arrived by the Doric last Sunday week were disposed of on Saturday and Monday last. On Saturday the Keauhou took twenty men and four women (Japanese) to Eleele plantation and on Monday morning's train 32 men and 3 women, all Japanese, were sent to Ewa.

On Monday morning the Lehua took 159 Chinese males consigned to Quong Fon at Kahului. She also took the following Japanese: Nineteen men and four women to Dr. J. Wight, Kohala; twenty-five men and four women to the Hilo Sugar Company and twenty-five men and five women to Hakalau plantation.

None of the above laborers have had any communication whatever with the laborers brought on the China last Monday; hence there is no cause for the senseless rumors about the danger of spreading smallpox through them, which have been rife today.

## FURTHER IMPROVEMENTS

### NEW SCHOOLHOUSE ON THE EXTENSION OF VINEYARD STREET.

For Primary Grades Under the High School—Fort-street Schoolhouse for the Chinese.

The Minister of the Interior, James A. King, was asked about the various street extensions and widenings provided for by an Act of the regular session of the Legislature.

He replied that the first street to be extended, owing to a rider added to a section of the Act, must be Vineyard street. The money for the various street improvements was to come from the loan fund, and it would probably not be long before operations would begin.

"The Board of Education is anxious to have Vineyard street opened as soon as possible," Minister King said.

"What special interest has the Board in the matter?" he was asked.

"There is going to be a new schoolhouse built on the extension of Vineyard street, in the lot outside of the stone wall mauka of the High School. It is to take the place of the Fort-street school, which is to be used as a school for Chinese children."

Minister King invited the reporter into his office, where he showed him the plans for the new primary schoolhouse to take the place of old "Fort-street." Kiple & Dickey are the architects, and the drawings exhibit attractive looking front or rear and side elevations. The frontage will be about seventy feet. There will be four main apartments for as many school grades in the building. It will be a single story frame structure.

This projected new building right on the campus of the High School will have the not insignificant merit of bringing the whole group of select public schools together, as they formerly were in the Fort-street cluster before the High School started in its beautiful mansion. Besides being more convenient for official supervision and inspection, it will present the advantage of allowing the elder children of one family to escort the younger ones to and from school.

## A Question.

First Citizen—Are you going to the minstrel show Saturday night?  
Second Citizen—You bet; wouldn't miss it for \$5.00.  
F. C.—Wouldn't miss it for \$5.00! How's that?  
S. C.—Well, you see Ramsey is going to sit on the end and I understand has got a new song and has localized the verses. The boys are going to put on another afterpiece, and Finney is going to juggle clubs blindfolded.  
F. C.—Well, well! I must go up to Benson & Smith's and get a ticket the first thing tomorrow.

## An Attractive Store.

H. W. Schmidt and Sons have a couple of the most handsomely decorated windows in the city. This firm, which has been in existence for many years, in the wholesale line, has recently opened a retail department in their new large store in the Von Holt block. A better and fuller line of dry goods has never been displayed here. The bright and well lighted interior will prove an attractive feature of the store and will doubtless bring this old and stable house much custom.

Sterling, the painter, is prepared to quote prices on roof painting. He uses a composition of coal tar and cement. Cheapest and best roof preparation in Honolulu.

King Bros. have made several excellent sketches in oil and water colors of this subject, which are meeting with ready sale.

**CHANGING CONDITIONS.**

There is a possibility, even a probability, that before a great many years restrictive laws will not be so much needed in other countries to stem the tide of emigration from China and Japan. The Chinese and Japanese will be offered in an increasing degree employment at home which will make their labor less and less cheap abroad than is now the case. Already with the renewed expansion, since the war, of Japan's manufacturing industries a rise in wages is chronicled, and the tendency of the prodigious development in that line, which is exciting the attention of the whole commercial world, will be more and more to draw the surplus of population from the agricultural districts to the manufacturing towns. It should not be surprising, in the near future, to see Japan putting a stop entirely to labor emigration. China bids fair soon to present similar changing conditions to those of Japan. Awakened from the lethargy of ages by the war, her rulers find that the country is really out of the modern world. They are wise enough to see that to bring the empire's position into a parity with that of other nations, for either peace or war, its different parts must be united by railways. Therefore they are vigorously casting about in western lands for the requisite capital and skill to provide this essential desideratum. It is not likely when once begun that the building of railways in China will be upon a small scale either. Great distances have to be traversed even to join the principal cities in bonds of steel. Accordingly, railway construction in China will make an immense draft on the surplus labor of the country. At the same time there is at present reported a rapid expansion of manufacturing industry in China. Foreign capitalists including Japanese are starting cotton factories at different places. Labor is bound to become higher priced in China, and with its advance in value will come improvement in the conditions of living. There might be stranger things happen within a few years than a hegin of Chinese from the Pacific Coast and the Hawaiian Islands for their native "flowery kingdom." At all events, it will not be long before both Chinese and Japanese labor will

come much higher to Hawaiian planters than it does today. And the time is speeding on, doubtless, when western marts will be flushed more with the products of cheap Oriental labor than with the raw personal article.

How now? It was fondly hoped that the lesson of last year should have led to the prevention of receiving contagious disease from the Orient with our eyes open. What about the wonderfully perfect transpacific quarantine precautions that President Smith and Physician Wood took the journey across to effect? The only sure preventive is to absolutely suspend all steerage immigration from the Orient whenever contagious diseases are prevalent in the towns of that quarter.

Manager Peter Lee of the Volcano House would not swap places with President Dole since the firing up of Halemauau.

**HISTORICAL PAINTING.**

The Death of Kaiama from Alexander's Conquest of Oahu.

Those who have flocked to the Pacific Hardware Company's art gallery within the past few days could not fail to have their attention attracted to a large painting crowded with Hawaiian figures in ancient apparel and engaged in fierce battle. It is a canvas of say seven by five feet, and its subject, taken from the "Conquest of Oahu" in Alexander's History of Hawaii, is "The Death of Kaiama, the High Chief, at Nuanuu, 1795." The artist is Mr. Le Breten, who has come to the island in the interest of an illustrated weekly. Below is a synopsis of the painting:

In the middle foreground stands Kamehameha, in yellow feather helmet and cloak, and the four Kona chiefs, in similar articles of scarlet. Kaiama, lying on the grass in the last throes of death, is supported by his wife, who has followed him in battle, while Kahumanu defends Kaiama against Kamehameha's charges of desertion and treachery. Several dead warriors lying about belong to Kalanikapule's forces. The wounded white man is one of the sixteen foreigners in Kamehameha's service. John Young, red-shirted, with cutlass in hand, stands in the middle of an attacking band, urging his comrades to renewed action and victory, while a cannon in front is belching forth death and destruction to the defenders of Oahu's independence. Kamehameha's troops are crossing a mountain stream to capture the Oahu king and chiefs, as they stand trying to rally their fleeing forces.

The drawing of the figures and mountain scenery is excellent, but the execution of the finer details is a trifle coarse, being rather oriental in impression. It is a picture, however, that tells its famous story well.

**New Lawsuits.**

A suit of ejectment has been filed by Nakahili w., G. K. Kepoikai, A. N. Kepoikai, Mrs. Aluli and John T. Aluli against the Hilo Sugar Company, for certain lands occupied by that corporation.

H. H. has brought suit for \$1000 damages against Jonathan Shaw, tax collector, for false imprisonment for personal taxes of 1895.

**REFRIGERATING MACHINES AND CREAM SEPARATORS.**

Now that the Fourth of July celebration is over and people are settling down to business again, we desire to call the attention of the residents of the Hawaiian Islands to a few matters of interest.

We have lately been appointed sole agents for BARBER'S REFRIGERATING MACHINES.

This machine can readily be arranged in creameries, etc., so as to cool cream, milk and water to any desired temperature down to and below freezing, as also to hold a well-insulated butter-room at any temperature desired above 30 degrees, only requiring the running of the machine from four to six hours per day, which is the usual time that the other machinery in a creamery is operated.

In addition to creameries, these machines are also adapted for use in produce houses, meat markets, hotels, club houses, etc. Their perfect work has been demonstrated fully in the past two years in a large number of creameries in different portions of the East, and more particularly in the Elgin, Ill., district, as well as in butter houses in Chicago, New Orleans, and elsewhere.

The cost of operation is nominal, as the charge of ammonia furnished with the plant should last a year or more without recharging, and will cost only about \$15.00.

The DE LAVAL CREAM SEPARATORS are now in almost universal creamery or factory use the world over, and in the past few years the Dairy or "Baby" sizes of these machines have almost as completely revolutionized general dairying as had the larger machines previously the creamery industry.

The De Laval Company now presents to the public a smaller type of its latest and most improved "Alpha" machines intended for household and small dairy use, and designed to confer in its new field the same inestimable benefits of centrifugal separation of cream from milk as have the larger machines in their respective spheres.

No more fitting and descriptive term could well be applied to this little machine than the name which has been so aptly given it,—the "Humming-Bird." It is very small, very compact, extremely simple, easily understood and cared for, safe and durable. It possesses every advantage to be found in any of the larger "Alpha" machines, is so extremely easy of operation by reason of its new method of obtaining motion as to be designed mainly for use by women and children, and is absolutely thorough in its effectiveness. It need simply be said that it fulfills every requirement of its purpose.

**DECEPTION.**

A man who had something to sell and who by honest representation lost the sale, would, according to the deplorable standard of today, lack an essential in the make-up of a salesman.

There is but one sure way to guard against misrepresentation in business: it is to supply an article of such merit that its superior qualities leave nothing to be desired. The truth more adequately describes such an article than a lie could possibly do.

To put inferior goods into the hands of a salesman whose living is contingent on their sale, is to lead that man into temptation. There is but one way to stop the sale of liquor and inferior merchandise, and that is to abolish their manufacture.

Put a ring around the word—opportunity—the occasion makes it. Never in the history of mercantile transactions in Honolulu have the people had such a golden opportunity to select a lamp as to-day. A manufacturer who had more than he knew what to do with, more than he had space to put them, wrote us of his troubles. We had none of our own so we listened to him. Our stock of lamps is the result of his tale of woe and you get the benefit.

A black lamp that will give a bright light is not a fad, but a style that will remain until "New Hawaii" shall become old. Being sombre in color they furnish with any decorations you may have in your room and any color shade that suits your fancy will look well on the lamp.

For a dinner table nothing furnishes the table better than black banquet lamps. We have them, not cumbersome, but of a height that will beautify rather than detract from the other features. We have piano lamps, hall lamps, boudoir lamps and every other character of lamp that ever was made. The prices are so low that it would injure our business to put them in this column.

Serge in All Colors For Boating and Travelling—Openwork Alpaca.

On many of the new fabrics loops and tufts of pure silk are thrown up in ridges on the surface in parallel lines. It is sometimes difficult to decide whether these tufts are really of silk or only of fine wool.

There seems to be little falling off in the popularity of serge. In blue and black it is still the principal wear for yachting, boating, travelling, schoolgirls and children.

All Praise to the Great Medicine That Made Her Well.

PASO ROBLES, CAL., May 1, 1893.

WELLS, RICHARDSON & Co., Gentlemen:—I cannot speak too highly of Paino's Celery Compound. I have just purchased the third bottle, and am sure that the medicine, with God's blessing, has relieved me of a serious affection of kidney and brain trouble and a stubborn case of rheumatism.

I feel very grateful that I was so fortunate as to learn of this medicine that makes people well. I remain, Very respectfully, Mrs. Frances Utter

MASONIC.

Grand Secretary of Pennsylvania—Treasurer—Board Designs.

R. W. Bro. William A. Sinn of Philadelphia, who has been appointed by the grand master of Pennsylvania to fill the vacancy caused by the death of Grand Secretary Michael Nesbit, was made a Mason in Montgomery lodge 29 years ago. During his 29 years of service Mr. Sinn has held many important offices in the order. In 1874 he was made chairman of the grand lodge's charity fund, which position he held until 1881. The following year he was made grand tiler of the grand chapter, a position which he still holds. He has also been secretary to the grand master since 1887. Bro. Sinn's active interest and acquaintance with the work have brought him prominently forward in all the affairs of the grand lodge. Mr. Sinn's familiarity with the work of Masonry has had most to do with his appointment. Bro. Sinn's term of office will expire next December.

The report of the grand council of Royal and Select Masters of Maine show a net gain of 147 for the past year; total membership, 2,189. The Masons of Providence have determined to rebuild the temple, which was destroyed by fire a short time ago, upon the old site. Sir Robert Dingwell is now grand commander of New Jersey Knights Templars and Sir Charles Bechtel grand recorder. The Orion Cycle club, recently organized in Brooklyn, requires every member to be a member of Orion lodge No. 717, F. and A. M., from which it takes its name. This club is believed to be the first and only Masonic cycle club in the United States. Ex-Governor McKinley of Ohio is a Knight Templar.

UNITED WORKMEN.

Gains and Losses During Last Year—From Various Jurisdictions.

Massachusetts gained the victory on increase for the year 1895, making a net gain of 4,016. Kansas came next with 3,633, followed by Minnesota, 2,116; Washington, 1,320; South Dakota, 1,283. The balance making gains were below 1,000. New York sustained the largest loss.

There have been 1,260 members initiated in Michigan during the first four months of 1896, as against 452 for the first four months of 1895.

Brothers, don't imagine that the time will ever come when you can stop working for the A. O. U. W. and let it run itself.

Supreme Master Workman Riggs attended the funeral of Mother Upchurch at St. Louis.

The court of appeals of Kansas recently decided that the beneficiary certificate of a member who died three days after his unpaid assessment became due was forfeited.

Twenty-three jurisdictions show gains in March. Nine show losses, but the losses are all quite small, and from two no reports were received.

Royal Arcanum.

Bro. G. H. Jackson, Iowa's grand regent, is eminent commander of Iveshock commandery, K. T., of Council Bluffs. He is also a noble of the Mystic Shrine and P. G. R., Order Eastern Star.

Of Massachusetts councils in good standing last year 100 made a net increase, 26 a net loss and 19 were stationary.

New Jersey brothers can now look forward with assurance of another, the fourth, representative to the supreme council at its twentieth anniversary in Boston in May, 1897, by the passing of the 15,000 membership necessary.

Pennsylvania council, Philadelphia, presents a gold lapel button to each candidate initiated in the council.

Supreme Guide J. A. Carter of Ohio was recently elected one of the councilmen of Geneva.

Too much cannot be said of the great lack of interest shown by proposers of candidates in getting them to the examiner after having recommended them.

The whole list of supreme council officers and committeemen were re-elected by the supreme council, except Cox of Missouri, chairman of committee on council work, who was defeated by Isaac W. Caulfield of New York city by a vote of 43 to 37. Mr. Caulfield is secretary of New York council, No. 843, which numbers nearly 2,100 members.

Red Men.

Pennsylvania probably leads the procession this great sun with a net gain of 2,100 members. This is a better record than any other society in the state has made.

Jacob N. Delahy, the present great Junior Sagamore of Maryland, won the 25 fathoms prize given by Great Senior Sagamore Charles A. Botan for the greatest number of palefaces for adoption last great sun. He proposed 61 accepted candidates.

It is expected that before the end of hot moon the order will be organized in every state and territory in the Union.

The great council of Maryland adopted a resolution at its last great sun council requesting all its tribes to display the American flag on all public holidays and in all their parades.

The committee on ways and means to build a wigwam for the great council of Pennsylvania report in favor of a building to cost 50,000 fathoms, 10,000 shares of stock to be issued at 5 fathoms each.

Golden Chain.

At the regular biennial session of the supreme lodge Order of the Golden Chain, held at Atlanta, the following officers were elected: Supreme commander, J. A. Bagen; supreme vice commander, J. E. McEahan; supreme assistant vice commander, C. Y. Bargaunin; supreme prelate, Rev. Dr. D. W. Gwin; supreme secretary, A. Stanley Wier; supreme treasurer, W. H. Sadtler; supreme guide, G. S. Prior; supreme guardian, G. L. Currie; supreme sentinel, G. C. Chambers; medical examiner, Thomas Ople. The headquarters of the order are at Baltimore.

PURIFINE

Is the disinfectant that the world is talking about. In the United States its merits are becoming known. The people are using it. Purifine possesses many points in its favor over other preparations. It is odorless, and in employing it as a disinfecting agent, does not create another odor as offensive as that which it subdues. Non-poisonous too. That's an advantage—children will meddle; servants misunderstand; then there's trouble. Some one is poisoned.

Automatic

Distributors

Those who use it speak its praise in convincing language. Here's one from the Department of Medicine in the University of Michigan.

"We use Purifine and find it very good for deodorizing sinks and boxes, etc., and for washing sponges used about subjects for dissection. W. A. CAMPBELL, Demonstrator of Anatomy."

PURIFINE is for sale by the HOLLISTER Drug Co. in 25c., 50c., 75c. and \$1.50 bottles.

The "AUTOMATIC DISTRIBUTORS" are for rental. Our Agents will call upon you and explain the merits of "Purifine" and the "Automatic Distributors."

IN THE POLICE COURT.

Morrow and Underwood on Trial—Other Minor Cases.

In Judge Wilcox's court this morning the old charges against Morrow and Underwood were nolle pros'd and a new complaint charging Morrow with an assault on Paddy Curtis with a weapon obviously dangerous to human life, to wit, a pistol, and Underwood with being an accessory thereto. By consent both cases were tried at once; pleas of not guilty being entered by each defendant. Creighton & Correa appeared for the defense.

Paddy Curtis testified to the assault, swearing that Morrow pointed a pistol at his breast when he demanded possession of the yacht Spray on the morning of July 5th. He was corroborated by John Driscoll who was on board at the time. Other evidence of a corroborative nature was given by Officers James Chamberlain and J. Kalakiela.

For the defense W. P. Morrow said that he had heard Curtis's testimony and that it was about correct. He admitted the assault and claimed that he was justified in making a show of force to protect his rights as owner of the vessel. He had applied for police protection and had been unable to get it although he had been freely promised it. He could not identify the captain who promised it.

Frank Lillis testified that he had heard Paddy Curtis say that for two pins he would throttle Morrow, but admitted that he was on the defendant's bonds. All documentary evidence tending to show the real ownership of the yacht was ruled out by the Court, which announced that a decision would be rendered at the afternoon session.

Since the above was in type Judge Wilcox has announced his decision finding both defendants guilty. Morrow was given three months at hard labor and a \$50 fine. Underwood got off with one month's imprisonment and a \$25 fine.

Three native women were sent to the reef for thirty days each for failing to comply with the regulations adopted for females of their class.

Emale, a wahine accused of selling swipes, had her trial fixed for Saturday morning.

PAEST IS ITS NAME.

Climate of every variety exerts a different influence on the desires of mankind for a stimulant. In colder zones beverages of great alcoholic strength are used to a very much larger degree than in the tropics. Beer is best suited to our climate and none found in the market is better than that bearing the brand of "PAEST, MILWAUKEE." It is brewed from the best of malt and hops and is a great thirst quencher and invigorator and stimulates the nerves and muscles. At the Royal, Cosmopolitan and Pacific saloons it may be found, cold and pure. Interchangeable checks are issued which may be used at any of the three resorts.

There seems to be some blight affecting the bloom of the beautiful Punciana Regia this season, for of all the trees in the city but few have blossoms enough to attract attention. The one on Hotel street next to the Arlington is a notable exception, and in consequence is a source of wonder and delight to visitors who have never before seen this tree in bloom. King Bros. have made several excellent sketches in oil and water colors of this subject, which are meeting with ready sale.

Eat, drink (Seattle Beer) and pay for it, for tomorrow you will want some more.
