A FLOOD OF JAP CLAIMS

CONSUL SAITO HAS TURNED IN 1,100.

May All be Passed on One Sample Case, Contrast Between Japanese System and Chinese Methods.

The court of fire claims will probably accept the inventories of the Japanese Relief Society for the claims of Japs for losses in the Chinatown fire. These are the inventories taken under the direction of the Japanese Consul Miki Saito. He has turned in about 1,100 claims to the court already, all of them being of the same nature and resting upon practically the same evidence.

The court has been taking evidence as to the method of making out the inventories. The evidence shows that the consul and his associates resolved themselves into a sort of court of their own, almost immediately after the fire. They took evidence from all the Japs who claimed to have sustained losses, and the witnesses were carefully examined and cross-examined. The inventories that were made up as a result of such testimony are the bases of the 1,100 claims already in, and several hundred to follow. If the court is satisfied that the inventories were correctly made up, it may decide to accept the work of the Japanese "court," obviating the necessity of taking the same evidence over and over again in several thousand different cases.

There are now 2394 claims before the court, the aggregate of the sums claimed being about a million and three quarters. Unless the court can pass upon a lot of them at once, it has not chance of doing more than a small proportion of its work in six months. The Chinese claims seem likely to cause much more trouble than the Japanese. So far as is known Consul Yang Wai Pin has taken no part in looking after his countrymen's claims. He has not yet shown any interest in the court of claims. Most of the Chinese claims are in the hands of Paul Neumann, who was chosen by a meeting of the Chinese to look after their affairs.

At the time of the fire Yang Wai Pin was, as he is now, persona non grata among many of the local Chinese, and they are working without his help. Their failure to adopt any such careful and systematic methods as were adopted into effect by the Japanese consul may mean a great deal of trouble for the members of the court of claims.

LIVED ON SHARK'S BLOOD
Loss of the French *Psyché* Near Chile.

SAN FRANCISCO, June 4.—Five months ago there were in the nitrate ports of Chile among other vessels the British ship *Belcast* and the French bark *Psyché*. The *Belcast* brought a cargo of nitrate here, while the *Stronsa* came up in ballast. Both vessels arrived last month, having made good passages. The *Psyché* started for England with her cargo, but when a little over a month out she sprung a leak and went down. The crew escaped in the boats and watched the old bark take her final plunge.

There were six men in one boat and eleven in the other. Captain Tomer ordered the boats to keep together, but during the seventh night the one containing the six men disappeared and was never seen again. When the men in the captain's boat had been out fourteen days the provisions were nearly all gone and at the end of three weeks there was nothing left, not even shoe leather. One of the sailors caught a shark and the blood was run into cans and a portion given to each man. This somewhat revived them and for seven days they caught sharks and drank their blood to keep themselves alive. On the thirtieth day the British ship *Andromeda* hove in sight and, picking them up, landed them at Cape Town. They could hardly walk when taken aboard and were still skeletons when put ashore.

CONSIDER SHERIFF'S PAY

HOUSE DOES NOT MAKE MANY REDUCTIONS.

After The Morning Session The House Adjourns Until Next Monday Morning.

It was with reluctance that the lower house called itself together this morning, and it was with alacrity that it voted upon the motion to adjourn, at 12 o'clock. Among the bills considered this morning, the salaries of the sheriffs of the territory composed the larger portion.

The committee who were detailed to investigate the refusal of the Wilder Steamship Company to allow passengers to go to Molokai on Wednesday, asked for an extension of five days in which to file their report, and a carriage to enable them to visit the persons whom they wish to see. The requests were granted.

The department of the Attorney-General was next taken up. The salary of the Assistant Attorney-General was fixed at \$3,600. The salary of the clerk to the same was passed as in the bill. The figures being \$3,600. Considerable discussion arose over the salary of the high sheriff. Some suggested \$4,800, others \$5,000. After more talk, the salary was placed at \$5,400. The governor's estimate calls for \$6,000. The salary of the clerk to the sheriff was \$3,600. Deputy sheriff, \$4,800. The salaries of the different deputy sheriffs throughout the island were left as recommended in the original estimates.

The salary of the Supreme court officer was stricken out. Monsarrat moved that the back inspector be raised from \$2,400 to \$3,000, because the occupant is an Hawaiian. The suggestion was through with a rush. Makekau suggested that the raise should be made because of individual worth and not because of race, color, or previous condition of servitude. A motion to raise the back inspectors' salary to \$3,000, then followed, some more talking, which ended in the motion being lost. The salary remained at \$2,000.

The House adjourned until Monday morning at 10 o'clock.

NEWSBOYS' BASEBALL.

Stars and Bulletins Meet at The Barracks.

The Star and Bulletin newsboys began another series of baseball games this morning, with a warm contest on the grounds at the barracks. There was a hot time while the balls flew, and the neighbors for blocks around knew that there was something doing. The youngsters went at it as hard as the business of selling papers and when quietness finally settled upon the scene of strife victory was perched upon the banner of the Stars.

The score was 30 to 22 and the players were:

Stars—Antone Gomez, John Manuel, C. Lewis, Gabriel, Henry Segmant, W. Hickey, Cunningham, J. Tavares, W. Johnson.

Bulletins—C. Viera, H. Chilton, Chin Chow, Mon Yin, John Keiloa, Mike, John Silva, Joe Correa.

SUES HIGH SHERIFF.

Man Who Tried to Kill Canavaro Now Wants Damages.

L. C. Camacho, the man accused and convicted of exploding a bomb under the house of Portuguese Consul Canavaro something over a year ago, is suing High Sheriff Brown for \$10,000 for damages alleged to have resulted to him from a beating received at the hands of a prison guard.

When Camacho was convicted he noted exceptions. Bail was fixed at \$2,500. He failed to file bail and to perfect appeal. For more than a year, therefore Camacho has been in jail. The assault by the guard is alleged to have taken place in May.

The complaint, although written by the renowned Thomas Fitch, of so much eloquence, is said to be full of errors. The High Sheriff is "T. H. Brown," he has been such high sheriff since complainant was arrested (May, 1900) the bill says, while he was not appointed until the middle of June. Unless considerably amended the bill may not be received by the court.

REV. PERRY TO SPEAK.

Rev. Silas P. Perry, who has spoken so often and acceptably at the Sunday afternoon meetings for men, will be heard at Y. M. C. A. hall at 4 o'clock tomorrow for the last time, as he is soon to leave for the States. All men will be made welcome.

THE NEW CHINESE PUZZLE

ENTITLED TO LAND BUT NOT TO STAY.

Returning Chinese Have Certificates Allowing Them to Come, But They Cannot Register to Remain.

The steamship *China*, and others from the Orient will bring back a lot of Chinese who are in a peculiar position as regards the immigration laws. They have immigration bureau certificates, issued at the custom house, entitling them to land, but on the other hand the date on which they can get certificates entitling them to remain on American soil has passed.

The instructions to collector Chamberlain were to cease issuing certificates of residence on June 12. The collector kept his office open till midnight Tuesday night, to allow any Chinese who were late to come in and register. Now any Chinaman who is without a certificate, is liable to immediate deportation under the law.

It is estimated that there are over a thousand Chinese in China or on the way back who have been granted the certificates allowing them to return to Hawaii within a year. All will arrive here too late to register and their standing is a matter of doubt to all concerned. They left here in the clear right to return, but in ordering the registration of Chinese the national government did not make any provision for those who might be away during the time set for registering. It is expected that some special provision will be made to fit the case.

Every Chinese who leaves the country, if he wishes to return, is provided with a certificate very much like the residence certificates that have been issued by Chamberlain. All certificates are issued in duplicate, bearing photos of the Chinamen. One such certificate is for the immigration bureau and the other for the man in whose behalf it is issued. It is good for one year. The Chinaman must be back here within a year of the issuance of his certificate, or he is not allowed to land.

A large number of such certificates have not expired, and the holders are now in China, expecting to return to Hawaii within the limit allowed by their certificates. As they left in good faith, with certificates issued by the Federal authorities allowing them to come back, it is expected that Washington will make some provision for them to get residence certificates.

The end of the registration of Chinese is supposed to have supplied the authorities with a complete list of all the Chinamen who are entitled to remain in Hawaii. No new Chinese arrivals are allowed under the law, and but for possible exceptions that may be made in behalf of the absentees who are entitled to return, the books are closed. From now on, with the steady return of Chinese to their native country, the population of Chinamen in Hawaii, like that of Japs, is likely to decrease. Since the Japanese government stopped immigration of its citizens here the Japanese population has decreased very considerably, and the same will probably be the case with Chinese, who like to go home as soon as they have enough money to live on.

HIGHER COURT DECISIONS

THREE HANDED DOWN FROM THE SUPREME COURT.

All Affect Property Interests at Hilo and on Hawaii—Gear Orders a Jury.

Injunction in Kahuku Case.

The Supreme Court today filed three decisions of importance to people of Hilo. All of them involve property questions.

The first decision was on the action of Charles M. Le Blond, of Hilo, assignee of one A. A. Pailani, for the case of Kumuhoua, a minor, for five years. The suit was directed against Solomon Konia, the guardian, and was for \$1,000. It appears that Konia was the legal guardian and Pailani supported and cared for the child gratuitously. The court holds that unless there had been notice to guardian that there would be a charge, nothing could be collected.

Isaac Erickson vs. Volcano Stables Company, assumpsit, was decided in favor of defendant to the extent that a new trial is granted. The suit is for recovery of \$375.75, balance due on a contract to erect certain buildings.

The Supreme Court decided in the case of Robert Gillespie vs. Robert McBryde, damages for breach of contract in favor of defendant. All of the exceptions being overruled.

George Gear has issued an order addressed to the High Sheriff or to Bailiff Ellis to at once draw a jury of twenty-four men for the special term of the Circuit Court which will open next Tuesday.

K. K. Kapo has petitioned the court to appoint Chas. B. Dyke his trustee to draw money from the Postal Savings Bank.

Judge Gear has signed an injunction against the Kahuku Plantation Co., forbidding it to remove or dispose of the property involved in the suit of Elizabeth K. Booth vs. Kahuku.

COAL WILL GO UP; PRICES DOWN.

The new export duty on coal may not please the coal exporters, but it certainly will please British consumers generally and the manufacturers particularly. It will tend to bring down the domestic price.—New York World.

SUPREME COURT OPENS

MANY APPEALS TO BE HEARD BY JUSTICES.

Nine Cases from the First Circuit Court for the Supreme Justices—Justice Judd's Portrait.

The Supreme Court will open at 10 o'clock Monday morning in the Volcano end court room. Judge Gear removing to the Ewa side. Thus far twelve cases are on the calendar and there will be a number of others. Few thus far received are of particular importance. The Mott-Smith painting of the late Chief Justice Judd will be unveiled.

The calendar contains the following cases: Volcano Stables & Transportation Co. vs. Hayashi et al. Error to Circuit Court. Plaintiff, Wise & Niekus for defendant in error.

Virginia Gomes vs. Portuguese Mutual Benefit Society of Hawaii. Appeal from Circuit Judge, 1st Circuit. Vias for plaintiff, De Bolt for defendant appellant.

Tong Chong Chan vs. New Zealand Insurance Co. Error to Circuit Court, 1st Circuit. De Bolt for plaintiff in error; Robertson & Wilder for defendant in error.

J. J. Byrne vs. P. J. Voeller. Exceptions from Circuit Court 1st Circuit. Kinney, Ballou & McClanahan for plaintiff; Magoon & Thompson for defendant-appellant.

Waluku Sugar Co. vs. Hawaiian Commercial & Sugar Co. Appeal from Circuit Judge, 1st Circuit. Kinney, Ballou & McClanahan for plaintiff-appellant; Hartwell for defendant.

Manuel Gouveia vs. Nakamura. Appeal from District Court, North Kona. Vias for plaintiff, Andrews, Peters & Andrade for defendant-appellant.

C. D. Pringle vs. Hilo Mercantile Co. Error to Circuit Court 4th Circuit. Hitting for plaintiff in error; Wise & Niekus for defendant-appellant.

H. M. Miles vs. Kapolani Estate. Exceptions from Circuit Court, 1st Circuit. Hatch & Stillman for plaintiff; Kinney, Ballou & McClanahan and De Bolt for defendant-appellant.

Henry Smith vs. Hamakua Mill Co. Exceptions from Circuit Court, 1st Circuit. Dickey, Andrews, Peters & Andrade for plaintiff; Brown and Hankey for defendant-appellant.

Row between Cook and Cabin Boy on the J. C. Pringer—Latter Proved Quite a Scrapper.

The list in Judge Wilcox's court this morning was the lightest that has been known in the district court in a long time. In spite of the two days of holiday and celebration this week only two cases of importance were on that calendar. Only one of these was filed. He paid \$2 and costs. The other received a reprimand and was discharged.

The principal case before the court was that of assault and battery against Charles Soudard, the cabin boy on the J. C. Pringer. He claims that yesterday he and the cook R. Holder got into a dispute. The mate had been informed by Soudard that the cook had failed to prepare the tea. Subsequently the cook came into the galley armed with a potato masher, Soudard thought that his intention was to use the masher as a skull breaker. He says that the cook made a strike at him and he knocked him down and when the cook got up he floored him a second time.

The cook claimed that the assault had not been caused by any such trouble. He said that he was attacked on the deck by the cabin boy who cut his face with a knife. The court took the case under advisement as both men appeared to have been drinking more or less during the day. The case will be decided on Monday.

SENATE INSERTS ITEMS

RESOLUTIONS IN APPROPRIATION BILL.

Loose Items Properly Placed and Bill Made Ready for Second Reading. Joint Committee Next.

The Senate devoted its time this morning to repairing the somewhat disconnected resolutions calling for appropriations have been passed but no provision as to how or where they should be inserted. Mr. Achi mentioned the matter this morning, calling attention to the tangle the Senate was getting itself into. On his motion the appropriation bill was taken up and the balance of the time was devoted to placing these stray items in their proper places.

When the session opened this morning, Dr. Russell, for the health committee, asked for more time on a matter referred to that committee on Thursday. Granted.

Senator Kakuokalani brought in a resolution appropriating \$5,000 for a road in Nuuanu valley, which passed. Dr. Russell followed with a resolution for an appropriation of \$13,000 for a road in Oahu. Adopted.

It is the intention of the Home Rulers to consider the appropriation bill in joint committee after the second reading in place of comparing notes after the final reading. They claim that this can be done. It is supposed to have the committee insert or eliminate everything it chooses after second reading, and the bill is approved by both houses as decided upon there can be no changes in either. The third reading of the bill will be merely a matter of form. This plan will mean an adjournment of several days for the committee to complete its work.

QUET IN POLICE COURT

CHINA WAS KEPT OUTSIDE

HEALTH OF VESSEL NOT BELIEVED GOOD.

Quarantine Officers Were on Her for Two Hours This Morning Examining Crew and Passengers.

The *China* was sighted 20 miles off Barber's Point this morning at 8:50. She steamed up and laid off the harbor by 10 o'clock, when the quarantine officer's launch went out to her. The launch was absent some time and instead of the vessel starting into the harbor the crowd of people on the Pacific Mail dock were surprised to see the launch return and the *China* remain stationary outside.

The launch went after Dr. Cofer the head of the quarantine service here, as the boarding officer found that there was some sort of sickness on board the liner. The nature of the sickness was not stated. Dr. Cofer went out to the vessel and about 11:30 she steamed across the entrance of the harbor and took anchorage near the spar buoy. It was very evident that something out of the ordinary was the matter on board and people began to wonder whether the vessel was infected with plague.

Every attempt was made to discover with the aid of glasses whether there were any signals flying from the vessel which would indicate the nature of the supposed disease which prevented the officers passing her, but none could be seen.

The fact that the plague has been very prevalent and deadly in Hong Kong for the last few weeks was regarded as the probable cause for the quarantine officers keeping the *China* outside. It was rumored that there was a case of plague on board but as there was no communication with her up to noon this could not be corroborated.

When the doctors returned it was learned that the reason for holding the vessel outside was a case of sickness that developed on the *China* between Hongkong and Kobe, the patient being a passenger for the steamer *Kintuck*. After going on board the *Kintuck* he died, and the case was regarded as suspicious.

The *China* will come into the harbor this afternoon and will be thoroughly fumigated throughout, being kept ten feet from the wharf. She will probably not get away for San Francisco till noon or later tomorrow.

TRAINING SHIP HERE.

Mohican Had Target Practice Off Lahaina Yesterday.

The United States training ship *Mohican* arrived off port at an early hour this morning from Hilo. The vessel left San Diego, Cal., May 20 and reached Hilo after 21 days sail. Hilo was left on Thursday and target practice was held off Lahaina yesterday.

LOST CAPTAIN OVERBOARD.

With her flag flying at half mast and her captain lost the American ship J. H. Thomas put into port Thursday in distress. She was 72 days from Port Stephens, Australia, bound for Acapulco, but owing to the mishap which befel her she had to abandon that voyage and make for this port. Captain William Brown was lost by being washed overboard during a terrible storm on the morning of April 23rd and Fred Zube, the boatswain, brought the vessel to port, as First Officer Theodore Lawrence was too ill to take command. The Thomas left Port Stephens April 2nd and experienced good weather until April 22nd, when a storm struck the vessel. She was going under light sail. About 1 p. m. the main upper topsail yard was carried away the port yard breaking the lower topsail yard breaking the gooseneck. The yards fell onto the main yard but were held aloft by the brace.

CAPT. ROBERTSON REMEMBERED.

Testimonial From His Pupils In Navigation.

The employees of the island steamship companies are to present Captain J. Robertson, who has been their instructor in navigation with a beautiful engrossed testimonial of their appreciation of his work among them. The scroll work is in colors and was done by Purser A. J. Clapham of the steamer Hanalei, who is quite an artist. The testimonial reads as follows:

"Honolulu, H. I., June 12, 1901.
"We, the undersigned take this means to show our esteem and gratitude for Captain J. Robertson to whose untiring and zealous schooling we, in a measure, owe our certificates also, to show how highly we admire, and appreciate his conspicuous ability as a teacher of navigation, his efficacious method of instruction, the interest he exhibited during our study and last but not least his affability and urbanity. We unite sincerely in extending our utmost thanks, and wish him a bright and successful future."
There is room left for the signatures of Captain Robertson's pupils. The resolutions will be framed and presented to Captain Robertson before his departure for the Colonies on the 24th inst.

MR. SHUNK WAS SCARED

TWENTY TIMES UP FOR BEING DRUNK.

Judge Wilcox Examined Shunk's Hands Today to See If Defendant Could Handle Pick and Shovel.

It will probably be a long time before Shunk again comes before Judge Wilcox on a charge of drunkenness. The defendant Shunk received such a bad scare in the court room this morning that he left the place vowing to sin no more, or at least never to sin to such an extent that he would be caught by the police.

His appearance today was about the twentieth time, more or less, that he had been before Judge Wilcox to answer to the charge of intoxication. While the court appreciated the value of such an individual to the territory from a financial standpoint, he has begun to tire of levying fines for the same old offense and he seriously considered the advisability of imprisoning the offender.

"Let me look at your hands," commanded the court. "I want to see if they are tough enough to handle a pick and shovel. It would not do to send you over to help build government roads if you were not used to it," continued the court as he scrutinized the digits of the defendant.

The covert threat of imprisonment for drunkenness was not lost on Shunk and his discomfiture was painfully apparent. Shunk felt very bad and his hands actually trembled. They were much more used to guiding the glass of red wine to his face than a pick and shovel into mother earth and he did not relish the prospect of such a change. However, the court decided to let the threat serve as a warning for Judge Wilcox said "Well we will give you another chance. You can pay a fine of \$2 and costs."

"THE ANGLE LAMP"
The Light that Never Fails

It seems almost incredible that any lamp could be good enough to take the place of electricity on even terms, yet such is the case with the ANGLE LAMP. All over the islands people are throwing away their old lamps and replacing them with this lamp, not merely because it costs about one-tenth as much to maintain (cost is no object to some people) but besides being infinitely cheaper it is more brilliant and more reliable in the bargain. It is a revelation to every one who uses it, and simply demonstrates that the old-fashioned lamp was a barbarous contrivance. THE ANGLE LAMP never smokes, smells or gives any trouble, is lighted and extinguished as easily as gas, and is the ideal light from every standpoint. We carry these lamps from \$1.80 up.

ON PERCENTAGES BASIS

HOW REP. EMMELUTH WOULD COLLECT TAXES.

Honest John Makes a Report About the Porto Ricans and How They Come Here.

The House yesterday afternoon devoted a good deal of time to Emmeluth's idea of collecting taxes on the percentage basis.
Makela said that Emmeluth showed a shocking lack of faith in the public servants. In Honolulu, the income from the percentage system would be so great that the appointee would get over \$12,000 or \$15,000 a year. Dickey said that the law specified that the taxes of Honolulu should be collected after a certain fashion and to deviate from this would be illegal. The motion made by Makela was lost.
A sum of \$125,000 was voted upon for the salaries of the tax collector and his deputies. It was carried without a dissenting vote.

The pay of all district magistrates were passed as offered in the governor's estimates. Mossman spoke in favor of this. He said that the legislators had started out to reduce salaries, but were ending their work by raising everything. The policy they had advocated, that of reducing all expenses, was not being followed.
A motion was made to vote a lump sum to the tax collector's office. The man in that department who is getting a salary of \$100 a month today, will get \$125 next year, said Emmeluth. Continuing, the would-be stroke-or of the Home Rulers said he was in favor of doing away with everything that pertained to the old government, getting a new order of things, and having county government.
Just before adjournment, Emmeluth offered the following statement to the House:
"June 14, 1901.
"Hon. J. A. Akina,
"Speaker House of Representatives,
"Sir—The statement having been made on the floor of this House on last Wednesday that the Porto Ricans coming to this country are not assisted to their passage and that they all arrive with fifty dollars in their pockets, the undersigned desires to make the following statement to go on record in this matter. I went to quarantine wharf yesterday morning, and interviewed a member of the Porto Ricans who arrived in the Colon on the 11th instant and everyone declared that he had been assisted to come here. Eleven men interviewed collectively could not show up three dollars.
"Each immigrant interviewed declared his utter dependence on those who assisted him thus far.
"Respectfully submitted,
"JOHN EMMELUTH."
Dickey, who had made the statement referred to on Wednesday, attempted to have the instrument thrown out, but Akina was not so disposed.

EX-QUEEN MAY GO.
Report That She May Visit Buffalo Exposition.
BUFFALO, June 1—The happy, good-natured inhabitants of the Hawaiian village on the Midway last night danced about in great glee when informed by King Tobin that the former queen of the Hawaiian Islands, Liliuokalani, is coming here late this summer. She will be accompanied by Prince David Kawananakoa. Several of the villagers are personally acquainted with the queen and all love her.
The queen and the prince will be the guests of E. W. McConnell, the Hawaiian village concessionaire. The formal announcement of their intended visit was made late yesterday afternoon by the publicist bureau of the Pan-American Exposition. It appears that the queen and the prince were invited to Buffalo by Richard H. Stafford one of a party of Mystic Shrine who escorted Imperial Potentate Lou De Winsor to Honolulu a short time ago to institute a temple of the Mystic Shrine. The queen could not give a definite answer at that time, but yesterday Mr. Stafford received a letter saying she would come with the prince. It is expected the two will be accompanied by a large retinue of friends.

HIS LIFE SAVED.
By Chamberlain's Colic, Cholera and Diarrhoea Remedy.

"I am sure that Chamberlain's Colic Cholera and Diarrhoea Remedy at one time saved my life," says A. E. Laflette of Gregory Landing Clark county, that the doctors said I could not live, that the doctors said I could not live. When I was at the lowest ebb, one of my neighbors brought in a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy and I took it and got instant relief. I soon got up and around. That was nine years ago and I am still in good health. I think that medicine has always been in my house and always will be. It is the best in earth." FISH.

The work which the Fish Commission is doing here will be of great scientific value, for though a considerable amount of work has been done in an amateur way towards classifying our fishes, this is the first really systematic effort in this direction. There is a fine collection of pictures of Hawaiian fish in Paris, but that was the result of individual effort. Besides this there are other small collections elsewhere, but we shall now have a thoroughly scientific classification and exemplification.

Of course to the ordinary citizen the scientific side does not appeal very strongly, any more than President Jordan's theories and discoveries appealed to the old salts who commanded the sealing schooners of the Bohring sea. What the ordinary citizen wants is fish to eat, and even the scientific citizen has like aspirations. Everyone hopes that the present fish commission in Hawaii will take up the question of the conservation of fish, and will give us a practical as well as scientific result to their labors.

The destruction of young fish by Chinese and Japanese in the shallow lagoons of this island is really appalling. Not only, however, is the young fish destroyed, but innumerable small shell fish and minute denizens of the lagoons, which serve for food to the larger fish are wonton destroyed. till there is nothing to attract fish into the shallower waters. If the matter is brought before Congress by the fish commission, an incalculable amount of good will be done. At present our fisheries are threatened with extinction.

UNREASONING FEAR.

The plague in San Francisco occupies quite a space in the latest exchanges. San Francisco adopted a policy of antagonism to the Federal authority and practically hounded out Dr. Kinyoun. The policy was bad and foolish. The Federal authorities have won in the end and the filthy part of San Francisco is now undergoing a cleaning.

But the fears from plague in modern Western cities are very much exaggerated. We have had a very excellent example of that before our own eyes here. Over the appearance of plague in Honolulu, a year or so ago, we fairly lost our wits. Everyone is to blame upon the matter, both doctors and laymen, both officials and private citizens. What was the result of the plague, barely one hundred deaths. As has been pointed out again and again in these columns there are half a dozen diseases which claim more victims than this yearly.

There is an unreasoning fear of plague, and it is based upon historical precedent. There have been frightful visitations of plague in Europe some centuries ago. There are frightful visitations of plague in Asiatic cities at the present time. But there are no frightful visitations of plague in European cities now, and there are no frightful visitations of plague in the Western built portions of Asiatic cities at the present time. People get hold of extracts from Defoe's "Plague of London" or bits of historic detail from Pepys' or Evelyn's diary and shudder at the idea of plague. Small-pox was just as much to be dreaded in those days.

In point of fact plague and all similar filth diseases were rampant in those distant days, because the cities were filthy. People threw their slops and their garbage into the streets. Such is not the case now in Western built cities. It is the case in Asiatic cities. The Western built city need have no more fear of plague than from any other disease, the Asiatic city is ever open to a terrible epidemic.

Plague has been present in many cities of late. Glasgow, Liverpool, Sydney, London, have all had cases of plague, but though in Sydney there was great alarm, there was never an epidemic, any more than there was in San Francisco or for the matter of that in Honolulu a year and a half ago. In time Western cities will think no more of isolated cases of plague than they will think of similar cases of typhoid or small-pox. They are to be guarded against but need cause no fear.

TRUE AMERICANISM.

A few days ago The Star published some comments upon the German colonies in Southern Brazil, and showed that it might affect the Monroe doctrine. By the last mail comes the text of Senator Lodge's speech to the delegates of from the Central and South American Republics, in which he not only refers to the German colonies in Southern Brazil, but also to a rumor that Germany has been negotiating with Venezuela for the lease or purchase of an island in the Caribbean Sea for use as a coaling station. Senator Lodge's words are worth quoting. He said:

"We cannot, we will not, permit any great military power to enter this hemisphere, settle down by our fire-sides, force us to create great standing armies, and from some point of vantage offer an eternal menace to our peace. You have your own countries and your own government. We wish you peace, prosperity, an increasing population, and growing wealth; but we wish you to have it under your own flags and in absolute independ-

ence, without any possibility of interference by Europe. We ask you to be true to the doctrine which we announced seventy-five years ago. If you will put your faith in it and be true to it, we will defend it.

"No American soil shall be given up to any power of Europe. We wish nothing but friendship with Europe; we do not seek to meddle in any way with European affairs, and we do not wish to have Europe meddle with us. No power which now has no foothold in this hemisphere can be permitted to come in here and by purchase, lease, or other arrangement get control of even the smallest island for the purpose of establishing a naval station or a place of arms. When Spain sued for peace we could have demanded from her an island which would have given us a naval station in European waters; but we made no such request. In return we say no European power shall come in here to establish a naval station in the Caribbean Sea.

"A place of arms at this point, owned or controlled by one of the powers of Europe not now owning any territory in America, would be a menace to the canal and to every South American state. Under no conditions, under no stress of circumstances, can the smallest island or the most barren promontory on either continent ever be ceded or sold to one of the great powers of Europe. This danger is real. It can not be warded off by brave words, by Fourth of July orations, or by confident boasting of our strength and resources. It can only be avoided by a thorough agreement among all American states upon the Monroe doctrine, by the increasing watchfulness, complete preparation, and the most absolute readiness on the part of the United States."

This speech has called forth a great deal of hostile criticism from papers like the Springfield Republican, the Hartford Times, the New York Evening Post and others. But to those who have been watching events in South America the Senator's expressions are by no means untimely. It is a wise thing to let the South American republics know that the Monroe doctrine will be enforced with their consent or without their consent. One of our future troubles is going to be with these South American and Central American Republics. At heart they most undoubtedly hate us. They put on a veneer of falsehood and pretend to great admiration for us and our institutions, but they both hate and fear us. Both this religion and their civilization are inimical to us. Every now and again the populace shows its hostility by stoning or knifing some of our men-of-war when ashore, and whenever they safely can their leading men diplomatically throw us down, while during the Spanish war their sympathies were openly with Spain.

Senator Lodge's speech must be read between the lines. He not only calls upon the South American Republics to be true to the Monroe doctrine, but he points out or hints that under any circumstances the Great Republic will enforce it, whether the South American Republics liked it or not. The words "under no conditions, under no stress of circumstances can the smallest island or the most barren promontory in either continent ever be ceded or sold to one of the great powers of Europe" mean that and nothing else. And it is a proper thing that these Republics should understand it. They may accept the Monroe doctrine if they will, we wish them to accept it, but if they do not accept it, the United States is going to enforce it no matter at what cost.

The danger from this direction is at present small. It may not become acute for many years, but it is an ever present danger. South America with all its natural wealth, with all its agricultural possibilities, with all its great mineral riches is practically an undeveloped continent. The Spaniards and their mixed breeds will never develop the countries of the South. It will be sturdy races like the German or the Scandinavian, or our own which will finally perfect the development, the Spaniard going to the wall as he has done in California and New Mexico. It is our business to direct how the political aspect of the development shall go, and it is our business that it should go one way. This Senator Lodge has voiced. His remarks are not jingoism, they are true Americanism.

Professor E. P. Church news of whose death was received by the City of Peking will be remembered by many of our kamaainas and Punahou Alumni of an older generation. Of those who attended Oahu College in Professor Church's day most are now between forty and fifty years of age. Mr. Church had not the educational adjuncts and the fine buildings of the present day, but he imparted a good solid education to those who studied under him.

Should it unhappily prove that Mrs. McKinley succumbs to her illness, it will be a terrible blow to the President. Mr. McKinley, in spite of the large share he has taken in public life has always retained his love of domesticity and has been one of the most devoted and most chivalrous of husbands. The domestic life of the President has been an ideal one and all his political and diplomatic triumphs have been thoroughly shared in by his wife. To lose the partner of a life time would cast a gloom over the second term of the presidency. All will hope for better news by next mail.

The school exhibit at Buffalo is attracting considerable attention, and is the means of spreading a good deal of information relative to the Territory. Miss Davidson, the commissioner, writes that there are constant enquiries not only as to school matters but as to the general condition of the islands, their products, population, civilization, method of life, and so forth. Miss Davidson is admirably suited to give this information being thoroughly familiar with all details concerning the Territory. The school exhibit which was what derided in certain quarters is likely to prove an admirable piece of advertising for our community.

Commissioner's Sale OF Two Valuable Pieces OF Real Estate AT AUCTION!

Situate near Punchbowl street, between
Beretania and King Streets in Hon-
olulu, Island of Oahu. Being Apanas 1
and 4 of Land Commission Award 263
issued to Waleka, or Lots A and B
in the name of A. W. Malohe as in-
dicated on maps in the Government Sur-
vey Department.

By virtue of an Order issued out of
the Circuit Court of the First Circuit,
Hon. A. S. Humphreys, presiding, in a
cause at Chambers entitled Alexander
Malohi versus William Malohi, et al.,
Equity Division Number 1171, the un-
designed will sell at Public Auction to
the highest bidder, subject to con-
firmation by said Court,

ON MONDAY, JUNE 24, 1901,
AT 12 O'CLOCK NOON.

At the mauka entrance to the Judi-
ciary Building in said Honolulu, the
following described lands, to wit:
APANA 1 (OR LOT A, A. W. MALOHO)
Bounded by Printer's Lane 51 feet
on mauka side; by Rose K. Anahu 135
feet on Ewa side; by Hiram K. Anahu
50.5 feet on mauka side; and by a 3-foot
Roadway 145.5 feet on Waikiki side.
Area 620 square feet, more or less.
Less than one-half of this Apana
will be condemned for a 50-foot street
in order to extend Young Street, Ewa-
way or towards Hotel street. BUT
WHAT REMAINS OF THE LOT
MAUKA AND MAKAI will hereafter
become enhanced in value on account
of said proposed extension and also on
account of their fronting on the new
street. A RARE CHANCE FOR
CAPITALISTS.
APANA 4 (OR LOT B, A. W. MALOHO)
Bounded by Rose K. Anahu 55 feet
on mauka side; by said 3-foot Roadway
156 feet on Ewa side; by Government
and Bishop Estate about 80 feet on
mauka side; and by Pahau Estate
about 120 feet on Waikiki side. Area
930 square feet, more or less.
This Apana 4, the outlet to which is
Printer's Lane leading out to Punch-
bowl Street, could be subdivided into
THREE EQUAL SQUARE LOTS, with
an outlet to each facing Ewa-way on
to said 3-foot Roadway; and the fur-
thest mauka lot, when Apana 4 is
subdivided, will still be within 300 feet
of the proposed Young Street Exten-
sion, thus eventually doing away with
the use of Printer's Lane as far as this
Apana 4 is concerned. THIS IS A
GOOD CHANCE FOR INVESTORS.
TERMS OF SALE are cash in United
States Gold Coin, and deeds at expense
of purchasers. For further particulars
enquire of the undersigned at his office
in said Judiciary Building.
Dated Honolulu, May 31, 1901.

McKINLEY'S TARIFF VIEWS.
President is Not an Out-and-Out Pro-
tectionist.

QUEBEC, June 2.—M. Jules Siegfried
says: "I said to the President that I
was aware that he was a pronounced
protectionist."

"There you are not quite correct," re-
plied the President, "for I have within
the last few years greatly modified my
views on this subject. It was formerly
a strong advocate of protection, but
since then we have advanced a great
deal in the United States, and our man-
ufacturers have gone ahead with vic-
torious strides, so that now we are in
a position to trade with foreign countries
on a reciprocal basis with mutual ad-
vantages to both, exchanging our steel
and other products for the goods which
they specially produce."

APPEAL TO ORGANIC ACT

MOVE OF THE WAHIAWA SUGAR
COMPANY.

Claims Atherton is Acting for Wahiawa,
Which Already Has More Land Than
Organic Act Allows.

The Wahiawa Sugar Company's ap-
peal to that section of the Organic Act
which forbids the holding of more than
1,000 acres of land in the Hawaiian
islands by any one corporation in the
Atherton-Kimmeth case, will prob-
ably test in court an important section
of the act. More than 2,000 acres are
contained in the Wahiawa tract which
J. B. Atherton is seeking to acquire.
The Wahiawa Sugar Company contends
that Atherton is acting for the Wahiawa
Agricultural Company, that that com-
pany owns more than 1,000 acres of land
and therefore is proceeding illegally in
its endeavor to obtain more.

Emmett leased the Wahiawa lands
from George Galbraith over a year
ago with the intention of becoming a
sugar planter. He paid the first
annual rent of \$100 but failed to
pay the second and third. Galbraith claim-
ed that by failure to pay Kimmeth had
forfeited his lease, and proceeded to
make a new lease to J. B. Atherton.
The latter took charge of the land and
notified Mr. Emmeth. It seems, how-
ever, that Emmeth, or rather the
Wahiawa Sugar Company to which
Emmett's lease had been transferred
still set up a claim to the land, and
was to clear the lease from this shadow
that Mr. Atherton brought his suit.
Following is that part of defendant
company's answer in the case which re-
fers to the 1,000-acre limit:

"That the said plaintiff herein, Joseph
B. Atherton, is not the real holder of
all or any of the rights he may have
under and by virtue of the assignment
from the said George Galbraith to him-
self, or the aforesaid rights to the land
in question under the leases and agree-
ment with the said John Emmeth, as
set forth in the second paragraph of
the plaintiff's bill of complaint, and
that the said Joseph B. Atherton ac-
quired and still holds all such rights,
as the trustee, either directly or in-
directly, for the Wahiawa Agricultural
Company, an Hawaiian corporation,
which already holds lands in the Haw-
aian Islands in excess of one thou-
sand acres; and that this acquisition by
the said J. B. Atherton was and is in
contravention of Sec. 55 of the Act to
Provide a Government for the Territo-
ry of Hawaii, to the effect that no
corporation shall own and hold real es-
tate in Hawaii in excess of one thou-
sand acres; and that for this and other
reasons the said Joseph B. Atherton is
not entitled to the aid or assistance in
any way of a Court of Equity in fur-
therance of such attempted violation of
law."

The Organic Act's provision is "That
no corporation, domestic or foreign,
shall acquire and hold real estate in
Hawaii in excess of 1,000 acres; and all
real estate acquired or held by such
corporation contrary hereto shall be
forfeited and escheat to the United
States, but existing vested rights in
real estate shall not be impaired."

M. A. Gonsalves has filed bonds in the
sums of \$5,500 as administrator of the
estate of the late A. C. Pestana. His
surety is William Lishman.

W. O. Smith and T. W. Hobson have
applied to the court for letters of guar-
dianship of their respective children.
Each of the children is entitled to \$94
under the will of the late Sarah Kath-
erine Gray.

In the matter of Nellie A. Cook vs.
Hollister Drug Company damages, it
has been stipulated that defendant may
have ten days after filing transcript of
evidence in which to serve and file its
bill of exceptions.

In the matter of Kapiolani Estate vs.
Mary H. Achery, et al., executor, the
complaint has been given thirty
days in which to file its amended an-
swer, and the order of the court sustaining
demurrer.

BUFORD STOPPED FOR COAL

ENCOUNTERED ROUGH WEATHER
FROM MANILA.

Fuel Supply Ran Low So Transport
Was Brought to This Port—General
Ludlow on Board.

Considerable surprise was expressed
yesterday afternoon when the vessel
arriving from the Orient proved to be
a transport instead of the regular mail
steamship China. Transports come so
seldom from that quarter that the
cause of the vessel's arrival was the
subject of considerable conjecture. It
was at first thought by many that she
had small-pox aboard.

The vessel proved to be the transport
Buford and her visit to this port was
not due to any sickness aboard her but
owing to the lack of coal with which
to continue her voyage to San Fran-
cisco. The Buford left Manila, May
18th and Nagasaki, on the 26th. It was
the intention of her master, Captain
Merthens, to go to San Francisco via
the Great Circle route but the third
day out from Nagasaki head seas and
strong winds were encountered.

For ten days the vessel struggled
against them and finally on June 14th
Captain Merthens decided that it would
be unwise to try to continue with the
amount of coal left on board so he
changed her course for this port in or-
der to take on more fuel. The trans-
port Pennsylvania, going to San Fran-
cisco was passed on June 8th, and
Captain Merthens spoke her and asked
that his change of voyage be reported
to the San Francisco officials.

On board the Buford are the Forty-
first Infantry and a number of officers
and physicians and some civilian pas-
sengers. The most notable passenger
is General William Ludlow who passed
through here several months ago with
General Wade. They were ordered out
to Manila to relieve two other general
officers. General Ludlow unfortunately
was taken ill and contracted tubercu-
losis and was unable to continue in
command. He was ordered home and as
soon as it was thought he was able to
stand the journey he and his wife took
the first available transport. He was
met at the dock last evening by Cap-
tain and Mrs. Slaker, the latter being
General Ludlow's sister-in-law and
taken to the Ingleside where he will
remain during the stay of the Buford.

A number of cases of measles among
the soldiers were removed to the shore
hospital. The Buford will take on
about 600 tons of coal and probably
sail for San Francisco within a couple
of days.

POPE LEO FAINTS.
ROME, June 5.—Pope Leo had a
fainting fit this morning. Dr. Laponi,
the Pontiff's physician, states that the
weakness was but a temporary effect

THAT TIRED FEELING.

What constitutes a load de-
pends on the strength of the
man or beast who has to carry it
and the conditions under which
he carries it. We hear people
continually talk of being tired
who have not done a sufficient
amount of work to make them
so. This sensation is popularly
spoken of as "that tired feeling."
People who have it often take
stimulants to drive it away; the
relief, however, is but momen-
tary. A relapse follows and they
feel more weary and depressed
than before. For the trouble is
not in the muscles but in the
blood. Certain humors or poi-
sons, arising from indigestion or
otherwise, deprive the blood of its
sustaining life-giving power, pro-
ducing a result similar to what
would follow from too much ex-
ertion and too little rest. But
whereas in the case of a healthy
person the tired feeling would pass
away under the influence of sleep
and repose, it is not so in this
instance. On the contrary, sleep
itself is broken and imperfect, and
the sufferer rises in the morning
unrefreshed and feeling as heavy
and dull as when he went to
bed. An effective remedy like

WAMPOLE'S PREPARATION
is needed to purge the blood of
the impurities which prostrate
the nerves and sap the sources
of physical vigor. It is palata-
ble as honey and contains the
nutritive and curative properties
of Pure Cod Liver Oil, extracted
by us from fresh cod livers, com-
bined with the Compound Syrup

JUVENILE ARTISTS.
An exhibition of drawings of the chil-
dren of the Punahou Preparatory school
was given yesterday by Miss Helen
Johnson.

Miss Johnson's exhibition not only
reflects much credit upon her pupils
as students, but upon herself as a
teacher. The work on view yesterday
would compare favorably with that of
any similar class of juvenile artists in
the United States. The drawings are
done in charcoal, pencil, ink, pastel
and water colors. The exhibit will be
open to the public again on Monday,
from 2 to 5 p. m.

Impure Blood

Make it Pure, Rich, and Healthy.

Impure blood takes the very life right
out of one. You just drag around at
your work, feeling wretched and dis-
consolate all the time. You are weak,
discouraged, and have lost faith in
medicine. Try just one thing more;
for we are sure we can help you.
Mr. C. Mundon-Cresdee, of Camp-
belltown, South Australia, sends us
this letter, with his photograph:

"I was suffering from a very bad wound
that would not heal. I thought it must be on
account of my blood, so I tried

AYER'S
Sarsaparilla

After taking only two bottles my wound
thoroughly healed and I felt better than ever
before in my life. Whenever I feel out of
sorts, now, I take a few doses and am all right.
Ayer's Sarsaparilla is a wonderful medicine
for impure blood and general debility."

If your liver is sluggish, you have a coated
tongue, constipation, and your food distresses
you. Ayer's Pills cure all liver troubles.

YESTERDAY AT THE PARK

PROGRAM MOST EXCITING YET
PUT ON.

Racing Was Good and Everybody went
Away Satisfied—Program For This
Afternoon is Promising.

The weather at Kapiolani park track
yesterday afternoon was all that could
be desired and the second day's racing
was quite satisfactory in most re-
spects. The crowd was not large, but
was enthusiastic and seemed to enjoy
the sport up to the limit. Betting was
not so lively as on Tuesday and the
amounts staked were not so large,
which, however, was to be expected.

The first race on the program was the
half mile for Hawaiian bred horses.
Amethyst won easily over Gaiety Girl
and Albert H. The time was .51.
Edna G. won both heats in the three
minute class racing to harness. The
time was 2:25 and 2:25 1/2.

Venus won the five furlongs race in
1:02 1/2. There were six horses in the
field.
General Cronje beat Aggravation in the
mile race. Aggravation put up a
hard run but the old General was too
much for her.

Wait-a-Little won the gentlemen's
driving race in 2:24. Wood had a big
lead but broke at a critical moment,
costing him the race.

Weller won the Criterion cup race in a
walk. Time 2:38. Lady Amanda of
Hilo, was never in it from the start.

The races and entries for today be-
ginning at 1:30 p. m. are:

1. One and one-sixteenth miles hur-
dle race, free for all, four hurdles; pur-
se, \$150. Merril's Force, Dixie Land,
Watsona.

2. Six furlongs dash, free for all;
purse \$100. Mollie Connors, Virgie A.
Garterline, Racery.

3. 2:14 class, trotting and pacing, best
three heats in five; purse \$200. Wayboy
Mosquito, Tom Ryder, Los Angeles.

4. One mile dash, Hawaiian bred;
purse \$100. Gaiety Girl, Amaranth,
Albert H. Amaranth.

5. Consolation race, one mile, for non-
winners at this meet; purse \$100. En-
tries close at post.

6. Jockey Club Cup one and one-quar-
ter miles handicap, free for all, to
be announced the previous evening;
purse \$200. Billy McCluskey 115, Gar-
terline 102, Aggravation 102, Weller 70
Defender 80, Lady Amanda 78.

7. Pony race, one-half mile dash,
fourteen hands or under; purse \$15.

RAPID RISE OF A CLERK

NOW RANKED HIGH AUTHORITY
UPON ENGINEERING.

Built a Dredge for the United States
Government Which Has Made His
Fortune—His Work in Other Lands.

Twenty-two years ago Lindon Bates
of Chicago was compelled through lack
of funds to discontinue his course at the
Sheffield Scientific School and enter a
railroad office as a clerk. Then he went
into the building of railroads, and in
1897, having secured the contract to
build two miles of the Chicago drainage
canal he constructed a hydraulic dredge
which attracted the attention of engi-
neers. He built a dredge for the
United States Government, to be used
in the Mississippi river, which cut more
than four times the amount of earth
called for.

Now the Volga river is being dredged
by his machines, and under his super-
vision an outlet is being made thereby
for the commerce of the Caspian sea.
By request of the Russian director of
commerce he has inspected the principal
rivers and harbors, suggesting in
his extended reports improvements that
will double Russian shipping facilities.
He also has dredged to the value of
\$1,600,000 operating in the harbors and
rivers of Queensland, Australia. The
perplexing problem of the unnavigable
Hooghly river was solved upon first in-
vestigation, and the harbor of Calcutta
is being made one of the finest in the
world by one of the Bates dredging
fleets. Another dredge is preparing to
sail for the harbor of Macquarie, Tas-
mania, where another large contract
has been closed, and he has just closed
a contract to dredge the Scheldt river
for the city of Antwerp.
The International Congress of Na-
vigation at Paris this year awarded him a
gold medal for his paper on "The Na-
vigation Interests of Nations in Ports and
Waterways and Modern Means of Their
Improvement," and upon hydraulic en-
gineering as applied to navigation he is
ranked as the highest authority of his
day.—Omaha Bee.

WOULD HAVE TO "SHOW HIM."

mat who lost \$10,000 at poker, is not

JUDD WINS HONORS.
James Robert Judd will be graduated by the College of Physicians and Surgeons of New York City during this month. Out of a class of one hundred and sixty, he holds the fourth place, and stands, therefore, among ten honor men of his class. The "honor men" received, each, a special diploma and \$25 in cash. Mr. Judd has also received an appointment to a position in the New York Hospital, which he will fill on the first of next January. In July he leaves for Europe, and after visiting the principal cities, will return to New York, in time to enter the New York Hospital.

EXAMINERS ALMOST READY

FEDERAL TESTS TO BEGIN ABOUT JULY 1ST.

Civil Service Commissioner Will Hold All Examinations in This City—High School Building Will Be Used.

The civil service examiners will begin their tests about July 1st. Between that time and this, examiners Johnson and Rodenberg will visit Kahului, Maui and Hilo, Hawaii and establish examining boards in each of these places. Examinations will not be conducted in any of these places this year. All applicants who desire to become employees of Uncle Sam must come to Honolulu. The examinations here will be held in the High School building.

The post office employees will not be required to take any sort of test. But in the future all persons employed in the postal department must have their proficiency tested by a written examination.

The customs employees will be required to take examinations. Those who were in the service before June 14, 1900 will not come under this head. All those who pass the quizzes will be placed on a list, according to the percentages they have made.

All the details as to time and place will be ready for announcement on Tuesday next. The following are the different positions that will be open to all American citizens:

Stenographer and typewriters, stenographers, typewriters, customs service, government printing office, Washington, aid in coast and geodetic survey, book typewriter, Chinese inspector (one appointment to be made here) Immigration inspectors, department clerks fish culturist, meat inspector, superintendent of public construction, topographical draughtsman, translator for general departmental work. European languages, Post office positions.

MILITARY FOR APPROPRIATION.

During a very quiet moment in the Senate this morning there was a terrific crash, followed by the sound of breaking glass on the floor. The sergeant-at-arms and others went to investigate and found the gold head of an officer's sword protruding through the painted window of the side door. Two panes of the fine glass were broken by the sword, which was in a locker in the adjoining room and leaning against the door.

"The military is coming after its appropriation," observed Dr. Russel when he had discovered the cause of the noise.

CHINESE TO CUBA.

Land at San Francisco to Go East in Bond.

WASHINGTON, June 1.—Within the last few days over 30 Chinese have landed in San Francisco, destined for Cuba and will pass through the country in bond for Havana. The treasury department looks upon this influx with suspicion and will further urge the war department to extend the Chinese exclusion act to Cuba.

Since the Supreme Court's decision in regard to the status of Porto Rico, treasury officials have come to the conclusion that they must send officers to that island to keep out the Chinese, as once there, there would be nothing to prevent them coming into the United States.

LEFT MANILA.

WASHINGTON, June 1.—Acting Adjutant General Ward received a cable message today from General MacArthur saying that the transport Logan sailed from Manila yesterday for San Francisco by way of Nagasaki with two battalions of the Thirty-eighth Volunteer Infantry.
