## Ayer's Sarsaparilla.

Cleanse your blood with Ayer's Sarsaparilla—the most thoroughly reliable alternative ever compounded. For scrofula, boils, ulcers, sores, carbuncles, pimples, blotches, and all disorders originating in vitiated blood, this medicine is a specific. Ayer's Sarsaparilla is equally beneficial as a remedy for catarrh, rheumatism, and rheumatic gout. As a Tonic, it assists the process of digestion, stimulates the sluggish liver, strengthens the nerves, and builds up the body when debilitated by excessive fatigue or wasting illness. Physicians everywhere consider Ayer's Sarsaparilla the best. It is a skillfully-prepared combination of the most powerful alteratives and tonics. No other blood-purifier gives equal satisfaction or is so universally in demand.

## REVIEW OF PAST YEAR

### ANNIVERSARY MEETING OF YOUNG MEN'S CHRISTIAN ASSOCIATION.

Reports of Working Committees and the Treasurer—Address by the President.

There was a rather thin attendance at the annual public meeting of the Young Men's Christian Association last night, the assembly hall being not more than a third full when the proceedings opened a little late. The proportion of young people in attendance was goodly. A selection by the Punahou orchestra was the first item in the program, and it gave much delight. Jos. B. Atherton offered the opening prayer.

W. R. Castle read the report of the educational committee in the absence of Henry M. Wells, chairman. The reader introduced the report by saying that the Association was extremely fortunate in having the services of Mr. Wells and those who had been teachers and instructors. While salaries had been small, the work had been excellent, of the first quality. There had been two terms of thirteen weeks each of the evening classes. The work showed a distinct advance over the previous year. In the book-keeping class, conducted by Mr. first term 33 began and 20 completed the course, and second term 18 finished out of 26 enrolled. Five students had persevered in shorthand under Mr. Bluxome's tuition last term, against 10 out of 13 the previous one. The vocal music class taught by Prof. Cook closed in March. At the opening of the fall term 30 pupils were enrolled in the Hawaiian class, and Mr. Poepeo was compelled to divide it, but lately it dwindled away to four. Some want the class started again. The elementary class, for the ordinary common school branches, had 18 pupils in fall term, of whom 12 went through, and 13 in winter term, of whom eight persevered to the end. It was recommended in the report that the school should give diplomas to its pupils who earned them. Mr. Castle, after reading the report, announced that P. C. Jones would give a talk, soon, on "Business Methods," and, later, Prof. W. T. Brigham one on "Physical Culture."

B. F. Beardmore read the report on physical culture. For the greater part of the year the gymnasium had been without an instructor. Since the arrival of Mr. Coleman they had entered on what was hoped to be a successful term. After giving the schedule of practise hours for different classes, the report spoke of improvements that had been made in the gymnasium. Classes are conducted with as much variety as possible. How much better than draining medicine bottles, the report inquired, was physical exercise for toning up the human system? In conclusion, the members were asked to help the instructor in his arduous labors.

C. D. Helm gave a humorous recitation, the burden of which was a trial of bee stings as a cure for rheumatism, and the audience would not stop applauding until the elocutionist rose in his seat and bowed his acknowledgment.

E. Farmer's report of the devotional committee's work was read in his absence by C. B. Ripley. The religious work had been carried on under many disadvantages, nevertheless maintained in all its branches. Dr. Hyde was thanked for conducting a Bible class, the attendance at which ranged from 19 to 22. Services every Sunday at Oahu prison had an average attendance of 80, and were conducted in Hawaiian, Chinese and English. The Sunday evening praise service in the hall was held regularly with an average attendance of 46. Two union meetings

had been held—one in Central Union church and the other, of young people's societies, in the hall. The subjects for evening meetings were chosen with the special object of presenting the life of Jesus Christ as a model. Three special Sunday afternoon meetings were held—one led by Rev. Dr. Dille of San Francisco, with 125 present; one by Rev. Mr. Hill of Hilo, with 90, and one by Mr. J. R. Mott, traveling secretary of the International Y. M. C. A., with 230. The report ended with thanks to all who had assisted the committee.

W. E. Brown, treasurer, read the report of his predecessor, E. A. Jones, absent in the States. It showed receipts of \$2562 from pledges and donations and amounts from other sources making a total of \$3713.55. The expenditures had been 3702.97, leaving a balance of \$10.08 in hand. For salaries \$1819.75 had been paid.

Here the Punahou orchestra gave a beautiful interlude. It is composed of boys, and their execution was surprisingly excellent.

H. E. Coleman, the new general secretary, read his report. He acknowledged the welcome he had received on arrival as "about as good as could be made anywhere." It was a kind providence that permitted him to come to the town in time to meet God's chosen worker, John R. Mott. The benefits of Mr. Mott's labors here might not be apparent for some time. He had established three branch associations, in Oahu College, Kamehameha School and the Pacific Missionary Institute. Their opportunity to keep in touch with these organizations should not be neglected. The value of the reading room to the young men of the city was mentioned, and the need of many books commended to the benevolently disposed members. Letters of introduction to other associations, for young men going away, was a great benefit. Another valuable function of the association was in getting proper lodging and boarding houses for young men. He quoted the opinion of another that the ideal association was one where every active member had some specific duty on a working committee. The executive of this association had made a careful selection of committees for the current year. As the membership list was still under revision the strength of the association in numbers could not be stated. The physical department had undergone several degrees of reaction during the past year, but it was being reorganized with good promise of improvement. The great need of the gymnasium was more consecrated young men to go into it and show a good example. It was felt there was a need of reviving the spiritual life of the association. One hundred copies of Moody's Colporteur's Bible had been ordered, also a supply of addresses by Mr. Mott.

Dr. B. F. Burgess gave a tenor solo in good voice, accompanied on the piano by Miss Love. A. B. Wood, president, re-elected, gave a resume of the work of the year. If they had made any progress it had been through the power of God. The institution was open every day and every evening. There was no gymnasium in the United States of the same size better equipped. It had now an efficient instructor. Games could be played on the gymnasium floor. Many young men were in good positions for which they had been trained in the association's classes. He referred to the report of the devotional committee as showing the religious work of the year. They had enjoyed many social occasions, and he thanked the women of Honolulu for their indispensable aid in that regard. Grateful reference was made to the visit of Mr. Mott, his old personal friend, who had been used by our Heavenly Father in many ways, and Honolulu was in the path of blessing. Mr. Coleman, the gen-

## A QUARTER OF A MILLION

### PAID FOR RARE STAMPS IN ONE COLLECTION.

Old Hawaiian Issues Are Considered First and Foremost in Rarity and Intrinsic Value.

In a recent issue of the Stanley Gibbons Monthly Journal of Philately there is an account of some of the rare stamps in the collection of Mr. F. W. Ayer, well-known as the largest private collector and purchaser of postage stamps in the United States. This gentleman is credited with having the third largest collection of postage stamps in the world, but according to the article in the journal above mentioned he has disposed of the rarer stamps in it to the London firm of Stanley, Gibbons & Co., probably the only firm in existence able to handle it. The price paid was nearly £50,000 or a quarter of a million dollars. This may seem an enormous amount to pay for a few old stamps, but when the value of some single specimens is taken into account it will be found that the firm which bought the collection knew what they were about. It was only a few days ago that the BULLETIN noticed in its columns the sale of a single specimen of the 1851 issue of Hawaii for \$3500, probably as large a sum as was ever paid for a single stamp, and this specimen came from the same collection that Mr. F. W. Ayer has just disposed of.

In describing the rare stamps in the collection, Mr. Charles J. Phillips, the well-known philatelist, says:

"First and foremost in this collection we should be inclined to place the stamps of

### HAWAIIAN ISLES.

Most people know how seldom even a single copy of the first issue is seen, but here we have thirteen specimens, nearly all fine. Of the extremely rare 2c. we have one specimen lightly cancelled; of the 5c., four copies; of the 13c., Type I, we have one unused and three used; of the 13c., Type II, with the dice-box ornament after "13," two unused and two used. The later issues of this country are very strongly represented, Mr. Ayer having made quite a specialty of these stamps. Quite a number are shown of the 5c. and 13c., on thick and thin paper, used and unused, and some of them on letters. Most interesting amongst these is an envelope franked with a Hawaiian Isle 13c., surcharged with pen and ink "5" in black, and used together with a U. S. 12c. stamp; this makes up the postal rate of 17c., which, as is proved by a number of other letters, was the amount used for franking single letters from the Hawaiian Isles to the United States of America. Another interesting series of this country that is strongly represented is that with the large figure in the centre. There are quite a quantity of these on letters, and in the loose specimens there are a good number of the light blue on greyish blue, which are very rare stamps; also the black on greyish blue, unused—another scarce variety; and that very rare stamp used, the 5 blue on blue, with the word "Interisland" on the left-hand side in place of "Hawaiian Postage." This specimen is cancelled exactly the same as the one in the Tapping collection in the British Museum.

Since the destruction of the old issues of Hawaiian stamps last January there has been a marked advance in their price all along the line. Owing to their scarcity the 10c. chocolate, 12c. black, 18c. lake, 50c. and \$1.00 red with the Provisional Government surcharge will be sure to command high prices in the near future. The 2c. vermilion, 12c. manua, 15c. brown and 25c. purple are

already away up in price, and at the present rate of advance complete sets of Provisionals will command fancy prices before long.

Of the older issues the 5 cent blue, Kamehameha head, without the word "Reprint," issue of 1853, are now quoted at \$6.00, with chances of going still higher.

### GREAT MUSICAL EVENT.

To Be Given in the Kiloheua Art League Series.

The year 1897 bids fair to be the banner year for the Kiloheua Art League. The Literary and Dramatic circles have each had their turn and the League has been treated to a reception to Mr. Fred Yates and an exhibition of his portraits. The musical circle now announce that on May 8 they will present a program composed entirely of original compositions by members of the League. This will be followed on May 17 by the opening of the Spring exhibition, with the customary first view and members' reception.

The musicale promises to be a rare treat to the favored few who can be present in the cramped quarters now occupied by the League. Mrs. A. B. Tucker has charge of the program and foremost among the contributors is Miss Clymer of the Kamehameha Girls' school, followed by Prof. Berger and Mr. Wray Taylor. Mrs. W. F. Frear has written the words for one of Miss Clymer's songs. Most of the selections will be rendered by their own authors, but one of Mrs. Tucker's songs will be rendered by Mrs. Annis Montague Turner.

### FRANK LINCOLN.

Press and Personal Comments on the Monologist.

London, Eng., Morning Post, July 23, 1883.—"H. R. H. the Prince of Wales laughed heartily, and repeatedly complimented Mr. Lincoln upon his wonderful humorous powers. No American has ever before gained such a high reputation in critical London as has Mr. Lincoln. His humor is refined, spontaneous, and peculiarly unique."

Bangkok, Siam, Times [Special], Nov. 15, 1890.—"Mr. Lincoln was invited to appear before His Majesty the King of Siam in the large Banquet Hall of the Royal Palace. His Majesty translated to his family as Mr. Lincoln sang and acted, and at the close signified his pleasure and rewarded Mr. Lincoln with many costly presents."

"Your imitations are simply wonderful."—The Prince of Wales.

"Santified humor."—Henry Ward Beecher.

"A mimic of startling fidelity."—The Czar of Russia.

"A whole orchestra."—Sir Arthur Sullivan.

### JUDGE PERRY RECOVERED.

Judge Carter to Sit at Heels Tomorrow Morning.

Judge Carter granted the petition of H. Lose, assignee in bankruptcy of M. S. Levy, for approval of accounts and discharge. Henshall for assignee; Thurston & Stanley for Theo. H. Davies & Co.; Weaver for Mrs. Tregloan.

An appeal has been entered from the District Court of Ewa by Antonio de Souza alias Ramos, convicted of deserting the contract service of Ewa Plantation Company.

Kwong Hin vs. Wong Yin, accounting, is still before Judge Carter, and the Court proposes to adjourn this afternoon to open at Heeia, other side of the island, at 10 a. m. tomorrow.

Judge Perry has recovered enough to hear in his office at chambers Kepoikai and others vs. Hilo Sugar Co. Rosa for plaintiffs; Kinney & Ballou and Kahookano for defendant.

## THE SPORTS COMMITTEE

HOLD A MEETING AT THE HAWAIIAN HOTEL LAST EVENING.

Queen Victoria's Jubilee to be a Great Day for Honolulu Children—Full Program Not Ready.

Fourteen members of the Committee on Sports for the Queen Victoria Jubilee celebration met last night and formulated a program, which has been placed in the hands of their secretary for engrossment and presentation at the general meeting to be held next Monday evening. The report will not be made public until then, but it is learned that the sum of about \$3000 is what the committee would like to spend in carrying out the program agreed on last night.

This includes boat racing of all kinds in the morning from 8 to 10, and prizes aggregating \$450 in value will be offered if the general committee accepts the report of the sports committee.

From 10 a. m. to 1 p. m. there will be children's sports at Kapiolani park. It is hoped to be able to take all the small children in the city to the park and back in free busses and street cars, give them three hours of all kinds of infantile games for prizes and fill them up to their hearts' content with all they can eat and drink. It seems to be the wish of the sports committee to make the day one that the children will remember as long as they live and the committee will spend \$750 in the attempt if finances will allow it.

The main sports will commence at 1 o'clock. There will be about fifteen athletic events of the usual order, such as running, jumping, throwing the hammer, etc., for valuable prizes designed to bring out the best athletic talent in the city. Several hundred dollars is wanted for this purpose.

There will be seven separate bicycle events for prizes of \$20 or more, and the least the committee can get along with on this account is \$150.

The committee also think they can use about \$300 to good advantage in about two horse races. At any event they will try to have one. This is to be for the Victoria Jubilee cup, to be made to order and to cost not less than \$100.

It will be seen from the above that if the people of Honolulu, big and little, irrespective of age and nationality, do not enjoy themselves on the Jubilee day it will not be the fault of the Committee on Sports.

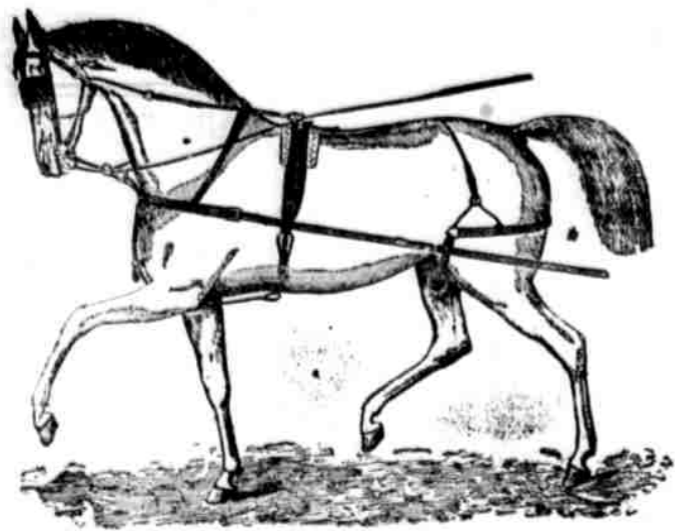

### FUNERAL OF MR. SAVIDGE.

There was a very large attendance at the obsequies of the late Samuel Savidge yesterday afternoon. The services took place at St. Andrew's Cathedral, where the members of Excelsior Lodge No. 1, I. O. O. F., had assembled to await the arrival of the remains from the house. Rev. Alex. Mackintosh conducted the services, hymns being sung by a special choir composed of Mrs. Tenney, Miss Ward, Mrs. Ross, and Messrs. Iaukea, Stanley, Mackintosh and Starkey. The pall bearers were B. F. Dillingham, Tom May, J. J. Lecker, J. O. Carter, E. C. Rowe and L. L. Lapierre. The remains were interred at Nuanuu cemetery, the services at the grave being in accordance with the Odd Fellows' ritual.

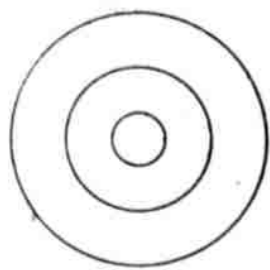

### WHERE IS G. W. ST. CLAIR?

G. W. St. Clair, an ex-member of the Mounted Patrol, is missing from his room in the Queen hotel and has not been seen for some days. By some he is supposed to have gone to the Coast and by others to Maui. He has been eagerly sought for today by a large number of creditors.

THRASHED INTO GRACE.

Experience of R. E. Foss, a Former Teacher on Kauai.

People reading this will remember R. E. Foss, who was dragged away from a school he taught on the island of Kauai, to stand trial in California for embezzlement of some county school funds. In his absence his wife took charge of the school, evidently to the satisfaction of the Board of Education. Foss went to jail but was released before serving the full term of his sentence and, coming to Honolulu, was occupied for a while as a book agent. He said that his conviction in California was purely on a technicality of accounting. With his wife and family he returned to the Coast, where, next that was heard of him, he figured in a street episode.

It appeared that Mrs. Foss had placed their two boys in a Catholic mission school, for proper care as well as protection from the alleged cruelty of the father. One day Foss took the children away from the school. He was pursued and overtaken by Father Crowley, president of the Directory controlling the school. Foss made an attempt to smite the priest, but Father Crowley turned upon him and gave him a sound thrashing. "The occurrence, at the time," says the San Francisco Bulletin, "was exploited in the press, and Father Crowley received the joking compliments of his friends for a while and then forgot the affair."

"But the memory of Foss was more retentive. The beating given him had a curious psychological effect. Instead of plotting schemes of revenge, Foss began to meditate upon the evil of a godless life. He felt that his thrashing was a blessing and a warning in disguise."

"The other day he called on Father Crowley and thanked him for the chastisement delivered. He said that it had been the means of his conversion. As the clergyman's fist had closed his eyes to the light it had opened them to the truth."

"Foss stated that he was going to enter one of the churches, probably the Catholic church. He was pursuing his preparatory studies."

"Foss is an exceedingly good talker, well educated, a teacher of long experience, and physically very large. He makes no secret of the means of his conversion, and his friends are trying to explain to their own satisfaction this curious effect of the violent imposition of hands."

Hawaiian Annexation.

At the present time Hawaii is substantially an American country and is practically in American hands. That is, American ideas and institutions predominate, and a major part of the business and the wealth of the country is in American hands. A very healthy and patriotic American colony of seventy-five years' growth is reaching its fourth generation. It has been nourished by the immense aid of the Treaty of Reciprocity. It has greatly benefited by propinquity to the mother land. Yet, notwithstanding those advantages, a British colony of nearly half its size has grown up with it. With the powerful stimulus of an overwhelming British commerce, it seems certain that the latter class will outgrow the former unless this group is speedily adopted as a part of the great Union. Annexation will result in pouring upon Hawaii an influx of American population which will at once fix its destiny as the great western outpost and fortress of American domination over the commerce of the Pacific.—Lodi, Cal., Sentinel.

For more than fifty years has PERRY DAVIS' PAIN KILLER stood the test against all remedies prepared to eradicate pain, and today stands at the head of the list among the medicines that are so essential to keep at hand in the home.

It is not a new fangle remedy nor do the proprietors lay claim to any wonderful revelation of the ingredients that enter into the manufacture of this ever popular remedy.

It is perfectly harmless, you need have no fear of becoming habitually inclined to its use.

For Colic, Cramps, Dysentery, Colds, and all painful affections, a few doses will certainly give relief. You cannot afford to be without a bottle in the house.

Your forefathers used it and found it beneficial.

Why experiment with some remedy that is new and its effect on the system unknown?

It has many rivals but no equal.

The new 35c. size contains over double the quantity of the 25c. size.

## KITCHEN UTENSILS.

How to Select and Care For Them—Glazed Earthenware the Best.

The woman whose kitchen is a delight is not the being who is content to cook as her grandmother did. She is, on the contrary, an alert person who has theories concerning the receptacles for food which she puts into practice. She has, for instance, a distrust of tin, and she has doubts about copper kettles.

She keeps dry bread ready to serve as croutons in soup or to stuff the Yuletide bird in covered jars where neither air nor moisture can reach it. Any meat which has to be kept she puts in a glazed earthenware jar and keeps in a cold place. Salt also finds its permanent abiding place in glazed stoneware and is kept in a dry place. Sugar is kept in a wooden bucket with a cover. Vinegar is also kept in wood or glass, never in any vessel which is of metal. Tea and coffee are kept in glass or glazed pottery and in a dry place.

All sorts of preserved and potted goods the careful housewife prefers to buy in glass or earthen jars. She knows that there is sometimes danger of poisoning from the fruits or vegetables which are put up in metal, the acid of the goods acting upon the metal in a way disastrous to the person who eats the resulting compound.

If she is so far advanced in favor of the china utensils as some housekeepers, she even prefers to do as much of her cooking as possible in them. She will maintain that coffee which has been cooked in a tin coffee-pot is as inferior to coffee made in porcelain as tea made in metal is to tea made in china. Her pots and skillets are porcelain lined, although porcelain linings mean that the woman owning them lives in constant dread of having them scorched. If she has enough money, she indulges in aluminium, which does not corrode and is superior to porcelain.

The more highly glazed earthenware used for kitchen work or cooking is the better. It lasts longer, does not absorb grease and is not corroded by acids.

## How to Make Worcestershire Sauce.

Pound half an ounce of cayenne pepper, half an ounce of shallot and one-eighth of an ounce of garlic in a marble mortar, incorporating gradually a quart of white wine vinegar, then press it through a hair sieve. Add a quarter of a pint of Indian soy, then bottle and cork it for use. If you find this method too tedious, after pounding the dry ingredients put them into a jar and pour the vinegar boiling on to them. Cover closely and let it stand till the vinegar has well extracted the flavor of the ingredients, and before bottling add the soy. This sauce improves by keeping.

HONOLULU, April 21, 1896.

Mr. C. W. MACFARLANE—It affords me the pleasure to recommend, to any one whose hair is falling out, the use of DR. POTTIE'S HAIR OIL. My hair was coming out at such a rate as led me to believe that I would soon become bald. After using the oil for five weeks this ceased entirely; none whatever is now falling out. I consider it the best and only worthy remedy for this trouble and also recommend it as a stimulant to new growth.

ANDREW BROWN,  
Supt. Honolulu Water Works,  
Approved: J. A. KING, Minister of Interior.  
Honolulu, H. I., April 6, 1897.  
577-4f

52c Evening Bulletin.

DANIEL LOGAN, Editor.

FRIDAY, APRIL 30, 1897.

What our San Francisco namesake—the BULLETIN—advises Hawaiian planters to do, in the matter of labor, it may be assured many of them have been striving for a long time past to find the best means of accomplishing. Different measures to that end are either in operation now or promised of inauguration forthwith upon several of the largest sugar planting estates. While such measures do not involve the expulsion of any class or race wholesale, which would be simply impossible as well as great injustice, yet they do contemplate the abandonment of the contract labor system.

Evidently the Canadian-Australian Line owners mean to provide a transpacific service second to none. According to news previously given in this paper they are negotiating to have a new steamship built, the fastest ever put together at Wallsend, a noted shipbuilding place in England, besides the large steamship made as good as new for the route, now on the way out. All rivals will, it is to be hoped, emulate the example until travel on the Pacific will be as luxurious and pleasurable as travel on the Atlantic.

Country papers in the United States often mirror public sentiment more accurately than the big metropolitan sheets, directed as the latter mostly are from the counting rooms. It is significant that of all the expressions upon Hawaiian annexation in the country press of California, which have thus far been seen here, scarcely any are in opposition to the proposal.

**Uncertainties and a Certainty.**

The attention of the public is now fully occupied and diverted in the consideration and discussion of several important current and prospective happenings. Annexation, as yet unsecured, Reciprocity threatened; the coming of the Naniwa, and her mission after arrival; the outcome of the war between Greece and Turkey and, whether or no, all Europe will eventually become involved; the settlement of the quarantine squabble—are all themes of much conjecture and uncertainty, and while opinions are freely offered, none can accurately foretell the outcome of any of these matters. Nevertheless, it is becoming more apparent, as each day passes, that Buffalo and Hoffbrau are the favorite brews, and it is gratifying that assurance is given that regular shipments of these wholesome and strengthening beverages can be depended upon, and that they will, as heretofore, be dispensed at the Royal, Pacific and Cosmopolitan Saloons, and that the interchangeable check system is an established fact.

**Sugar Dividends.**

Stockholders in sugar companies are wearing smiling faces today. Dividends have been declared by the following companies: Honoum, 3 per cent; Wailuku, 3 per cent; Honokaa, 5 per cent; Ewa, 5 per cent; and Pacific Sugar Mill, 5 per cent. Paia paid a 4 per cent dividend a few days ago and Makaweli is expected to declare one next week.

**CRACK SHOTS IN WAR.**

This is Nuts for the Sharpshooters Company of Honolulu.

Many people assert that crack shots are not of the slightest value in war, because they find men on the move very different to hit compared with targets. This may or may not be (says the "Regiment"), but there are many instances in which a crack shot, by his infallible aim, has been known to save the lives of his fellow-countrymen. A remarkable case occurred during the Indian Mutiny at the siege of Lucknow. The rebels were endeavoring to mount two 18-pounders which they had hauled up on the flat roof of one of the palaces surrounding the Residency. If those guns were mounted they would enable the Sepoys to pour down a heavy fire into the English defenders of the Residency. Sergeant Halliwell was the man for the occasion. He belonged to the 32nd Foot, and was a crack shot. Being given the best rifle that could be found, he was told to prevent the enemy from mounting the guns. With the pluck and steadiness of a brave man, he took up his position behind some battered-down masonry that had been destroyed by the Sepoys' fire, and behind which there was only cover enough for him to lie at full length. He remained in that position for several days, not being able to stand up or kneel, for if he had done so instant death would have been his reward. His only change was to roll over from his back to his stomach. His eyes were ever on the dismounted guns, and when the Sepoys attempted to mount them his unerring rifle played havoc among the men. Food was brought to him at night by men crawling on their hands and knees. After some time a sortie was made, the Sepoys repulsed, and the place blown up. For this piece of heroism, Sergeant Halliwell received the Victoria Cross. Another striking instance was that performed by Hercules Ross, who was at one time the crack shot of India, during the same mutiny. A large body of rebels was expected to cross the River Gongra, at a certain ford, and it was necessary that they should be kept at bay until the women and wounded could be moved from a station close by. Ross had a pit dug on the bank of the river commanding the ford. Here he planted himself, with four attendants to load his dozen rifles for him. The enemy arrived, and prepared to cross the swollen ford in a large boat. Ross, with unerring aim, shot down the rowers as the boat put out. Again and again did a fresh set of rowers man the boat, but at each outset the men suffered the same fate as their comrades. After three hours of this work, some English troops arrived, bringing with them three guns, and the Sepoys, baffled, retired. These are but two instances, but they are enough to illustrate the utility of the crack shot when necessity presses.

**Matter Under Investigation.**

It is rumored that a man convicted of an infamous crime outside the jurisdiction of this Republic has been turned loose in Honolulu. His presence, if the rumor is correct, is in violation of various alien laws of the country. Marshal Brown has the matter in hand, and doubtless will soon arrive at the truth of the matter. Should the case prove as rumored it may become a subject of diplomatic communications.

Junior Department: W A Bowen, chairman, F J Lowrey and W J Forbes.

Employment: Henry Waterhouse, B F Dillingham and J B Atherton.

Finance: F J Lowrey, J B Atherton and E A Jones.

Mr. Wood said the Association Journal had not been published the past year. It would probably be revived this year, with Mr. Coleman as editor and Edwin Farmer and B. F. Beardmore assistants.

After another selection by the Punahou orchestra, ice cream and cake were served. Then, upon invitation, the audience assembled in the several outlooks upon the gymnasium, to see a game of handball between Dr. Burgess and Mr. Scanlon. In places the game was lively and the players were applauded. It resulted in a victory for Mr. Scanlon by a score of 21 to 14.

**A FEW NOVELTIES FOR THE KITCHEN.**

By the Australia we have received some novelties in Kitchen utensils which will be appreciated by all Honolulu housekeepers on sight.

The CHAMPION ROASTER is handy, convenient and cheap. It is a portable oven designed to be placed on top of an ordinary cooking stove. It will bake anything in the shape of fish, flesh or fowl and for cooking cake it is unequalled. It can be moved about while the cooking is going on and the heat regulated to a nicety. They cost just an even \$2.50.

STROUD'S SELF BASTING PAN is another useful novelty. It consists of an enameled dish or cooking pan which sets inside another in which the hot water is held. It can be used inside an oven or on top of the stove. Its price is \$1.50 only.

TELESCOPE COFFEE POTS we have advertised before and their merits are known. They are absolutely the best in use and that is saying a good deal. We have a fresh supply of them on hand in several sizes.

We have also received by this steamer a fresh invoice of the BLUE FLAME OIL STOVES in two sizes, either three or four burners, which we are selling now at \$22 and \$25 each.

PLEADED GUILTY TO A CHARGE OF OPIUM IN POSSESSION.

Judge de la Vergue Sentences Him to Thirty Days in Jail and a Fine of \$250—Appeal Taken.

A large number of the Alameda passengers were present in the courtroom of the District Court yesterday afternoon to witness the proceedings in the trial of J. B. Sutton, the purser of that steamer. The principal witness for the prosecution, detective Cordes, was on the stand when this paper went to press. His testimony was substantially the same as that given in an interview with him published yesterday. The defense had very little use for Cordes evidently, as after two or three questions he was allowed to retire.

In arguing the motion to dismiss Marshal Brown contended that under the evidence of the defendant's proceedings from the time of leaving the wharf until he was arrested he had no possible chance of procuring the opium elsewhere and therefore must have brought it off the ship, and was in consequence guilty as charged.

On the other hand Paul Neumann ably contended that there was absolutely no evidence connecting the opium in court with the steamship Alameda, and consequently there could be no conviction.

Judge de la Vergue said he felt constrained to grant the motion, fully coinciding with the views held by Mr. Neumann as to the testimony. The main point to him was the fact adduced that the defendant had passed close to one customs officer and within a few yards of another in leaving the wharf and that they both stated they saw nothing suspicious in the man's appearance. He hardly thought a jury would convict the defendant under such circumstances and should order him discharged.

The defendant was at once rearrested on the charge of opium in possession, to which he pleaded guilty and was sentenced to a fine of \$250 and thirty days in jail. An appeal for mitigation of sentence was at once noted and the Court fixed the bond at \$750. This was furnished shortly afterward, with Wm. G. Irwin as security, and Sutton made the best of his way to the Alameda, which was detained nearly an hour on his account. The defendant seemed to have the sympathy of the passengers on the vessel, but none is expressed for him on shore.

No appointment of Police Judge has been made and none is expected for some time yet.

John A. Scott, manager of Hilo Sugar Co., is attending the trial of a case in the Circuit Court.

Deputy Marshal D. H. Hitchcock arrived on the Mauna Loa but did not stop at his office long enough to be interviewed.

The liquor selling cases against the men arrested in the Commercial saloon last Sunday night have been continued till May 4.

Captain King is reported as improving rapidly and very much better. He is not nor has he been in a "precarious" condition.

In the police court this morning Joan Sylva, the boy accused of pilfering from Steiner's store, was acquitted by Judge de la Vergue.

Two sailors of the C. D. Bryant were found walking toward the Pali this morning by a policeman who arrested them on suspicion. They are awaiting investigation.

J. W. Girvin went over to the quarantine station this afternoon to release the 537 contract laborers who arrived on the Doric. The bonded men will be released tomorrow.

A jolly lot of soldier boys gathered in Co. B's room last night after battalion drill and spent a few enjoyable hours. Several members, whose terms of enlistment had expired, re-enlisted.

APENTA,

A natural aperient water, bottled at the Uj Hunyadi Spring, Hungary, stands today at the head in popularity as an aperient water in the estimation of the medical profession. The leading hospitals in the United States and England prefer it to all other mineral waters.

Nature's

The Lancet, The British Medical Journal, The Edinburgh Journal, The Medical Press and Circular all commend it with strong and forcible language to people who are suffering from Constipation, Biliousness, Fatty Degeneration, and in all cases where an aperient is needed.

Aperient.

At this season of the year a mild aperient taken before breakfast, will assist nature to throw off the impurities in the system that tend to wreck our health and make life miserable.

APENTA WATER is a true spring water. Agreeable to take. Exceptionally efficacious. Cheaper than most waters. PRICES: 15 and 25 cents per bottle.

The Sunlight is Glistening on Those "Orange Rims,"

but unfortunately for us it is not glistening on them in this country, as our shipment of STEARNS wheels was put on the "W. H. Dimond," so is not due here for a week. Our COLUMBIAS also are still out of wheeling range, as they got to S. F. the day before the steamer sailed, and no more freight would be received, but they will come along soon, and in the meantime we want you to know that we received 97 RAMBLERS by yesterday's steamer, and can fit you out with either a '96 or '97 wheel, and we know we can suit you. The 1896 RAMBLER is the bargain of the year and the chance to buy a well known high grade wheel for \$75 and \$80 will not last long, as we are informed by the makers that this is the last lot of '96 wheels they can furnish, for, as they write, "our sales have been phenomenal, and you took the last '96 wheels we had in stock."

WE RENT BICYCLES by the hour, day, week or month, and we rent high grade new wheels, such as RAMBLERS, STEARNS, and COLUMBIAS, so if you want a short ride or a long ride, want to ride single or want to ride double, drop in and see how nicely we can fit you out. You will get just as good a mount if you telephone us, and we will send your wheel to your door. Your chance to buy a '96 RAMBLER cheap will only last a few days, don't miss it.

THE EVIDENCE NEEDED.

She Knew What It Was and Finally Helped Him Out.

The diffident young New England chap was in love with the Washington girl and had been since last winter, but he stumbled over himself so when he tried to tell her that she really never knew what was the matter with him, though she more than half suspected.

Finally he thought the time had arrived when he must tell her all that was in his throbbing heart and he proceeded to do so.

"Miss Blank," he said, after a lot of preliminaries, "I have something very important to say to you this evening."

"Yes?" she twittered cheerily from the depths of an easy chair she occupied about 40 feet away from him.

"Yes, Miss Blank, something very important, and I hope you will permit me to tell it to you."

"Miss Blank," he said after a pause, "I love you—love you more than I can tell. Don't you know that I do?" he added nervously.

She was as cool as a cucumber.

"I can't say that I do, Mr. X.," she replied, with a chill to his hopes.

"But you ought to know it, Miss Blank," he insisted.

"I don't see why I ought," she argued.

"Because I love you, that's why!" And he got up and began pacing the floor.

"That's no reason why I should know it," she persisted.

"If it isn't, is there anything I can do to show you how much I love you?"

By this time he was so nervous he almost danced.

"Yes, there is, and you ought to know what it is, Mr. X." And now the young woman arose and faced him as he stopped near her chair.

"Name it," he said hoarsely, "and I'll do it if it takes my life."

"Why, it is simply to take me in your arms and kiss me. That's what it is, and you ought to have done it long ago."—Washington Star.

Reasons Why.

There are two reasons why people are now paying car fare all the way from Waikiki to the Palama Grocery and back. Reason 1. It is the only place on the Islands where the celebrated Salvation Army tea is sold. Reason 2. After paying car fare both ways patrons find they are money in pocket by dealing at this "live and let live" establishment. We also deliver goods between Diamond Head and Moanalua free.

The Pasha and the Champagne. The William Penn, an American steamer commanded by Captain John Codman was the first transport flying a foreign flag which was chartered by the French government in the Crimean war. She went aground on Niagara point, and the pasha of the Dardanelles came off to the ship, tendering his assistance. Being under the impression that the orientals were forbidden by the Prophet to partake of wine, that luxury was excluded from the cabin table. "Think of my astonishment," writes Captain Codman, "at a gentle hint from the pasha as to champagne. It was, of course, produced. Upon my remarking that it had not been offered before on account of regard to what I supposed to be his religious scruples, he replied, with an air of perfect sincerity: 'Wine is forbidden by the Prophet, not champagne. Champagne did not exist in his day. How then could he have forbidden it? Marshallah! God is great. Pass the bottle.'"-Argonaut.

Sustaining His Reputation. "Is Stumps as close as he is represented?" "I'm his lawyer, you know. He's fighting a doctor bill of \$40 just now. It's for doctoring Stumps through the numps. He wants the amount cut in two because he was only affected on one side."-Detroit Free Press.

To My Patrons:

It gives me much pleasure to announce that MR. M. R. COUNTER, one of the most skilled watchmakers ever in these Islands, is now managing my repairing department. No watch is so complex in its mechanism but we can give perfect satisfaction in correcting the evils to which watches are heir. Watches are delicate things to handle. We guarantee that they will receive no injury at our hands and will leave our store in perfect repair. Respectfully,

E. A. JACOBSON, 507 Fort Street.

SHIP MACY ARRIVES

VARIOUS ITEMS GATHERED THIS DAY.

American Schooner Transit Makes a Fine Passage—About Other Vessels—On the Waterfront.

Kekaha Sugar Mill quit grinding yesterday.

The steamer Lehua is on the boards to leave at 4 p m tomorrow for Hawaii.

The 4 masted schooner Robert Searles is loading coal at Newcastle for San Francisco.

Tomorrow, high tide large 4:08 p m; high tide small 3:00 a m; low tide large 8:25 a m; low tide small 11:10 p m.

The big ship Kenilworth will sail for New York, via Cape Horn, next week. She is not quite loaded.

The American ship W H Macy, Amesbury master, arrived this morning, in ballast from San Francisco. She will load for New York. Pleasant weather was had during the whole trip.

The four-masted schooner Alice Cooke takes a cargo of 22,114 bags sugar, valued at \$76,424.05, to San Francisco. The sweet stuff is shipped by H Hackfeld & Co and F A Schaefer & Co.

Newcastle, N S W, advices of April 9 report 8415 tons coal for Honolulu forwarded, and five vessels in port to load about 6000 tons. Charters had been concluded at from 11s to 12s, and the former rate was the best then obtainable.

Exports to San Francisco per S S Alameda, which sailed yesterday, were as follows: 7950 bags sugar, 44 boxes bananas, 514 bunches bananas, 2 boxes plants, 7 boxes personal effects. Domestic produce was valued at \$30,625 and foreign at \$200.

The ship Indiana, loading sugar at Hilo, sprung a leak a day or so ago. The report was brought by the steamer Lehua this morning. The Indiana had 1800 tons of sugar aboard. The leak was in a butt under the copper, and it was thought could be easily stopped.

The American four-masted schooner Transit, Jorgensen master, came in this morning, 13 days from San Francisco. The skipper says he arrived off Diamond Head at 10 o'clock last night. For several days the Transit was in company with the ship W H Macy. The S S Alameda was passed last night. Light steady trades were experienced throughout the trip.

As the Mikahala was coming up to the wharf this morning, her propeller got foul of a rope in the water. A native dived down with a sharp knife and cut the line loose. The rope which caused the trouble had been used by the Railroad Co in moving scows loaded with fertilizer from the Railroad wharf to steamers at Inter Island wharf. One end of the line was tied at the Railroad wharf and the other at the steamer's wharf.

Mauna Loa.

The steamer Mauna Loa arrived about one o'clock today, having made a fine run of five hours and twenty-two minutes from Lahaina, including a stay of 15 minutes at Kaunakakai. The stay at Kaunakakai was made to take aboard Deputy Marshal Hitchcock and others. Fair weather is reported along the route. It is said the volcano is smoking—some of the dope landed by the smuggling schooner.

The Largest Steamer in the World.

On January 30, the biggest vessel in the world left Belfast. The Pennsylvania, as she is called, was launched on December 10 last, and since then thousands of men have been engaged on completing her for the trade in which she is to be engaged. All the resources of the eminent firms of shipbuilders who designed and constructed the huge boat were taxed to make the Pennsylvania the finest ship in the world, and anyone who has seen the floating town, for so it is, will readily admit that the endeavor has met with complete success. The dimensions are very striking:—Length, 585 ft; beam, 62 ft; and depth from keel to awning deck 42 ft. Her displacement will be little short of 30,000 tons.

BORN.

WILDER—In this city, April 30, to Mr and Mrs S G Wilder, a daughter.

Original Bock.

The Warrimoo that is expected here April 16 from Victoria will bring a large consignment of Original Bock Beer for the Anchor Saloon. While there has been Bock Beer on the Honolulu market, it does not begin to compare with the consignment that the Anchor will have on tap after the arrival of the Warrimoo. The reason for this is that the Bock that has already arrived is too fresh. The Bock Beer in the States is made at the first of the year and kept till May 1. The consignment to arrive is some of the original beer and is guaranteed to be better than any Bock ever imported. Wait for it. It will be on tap at the Anchor after the arrival of the Warrimoo.

A VOICE FROM THE BLEACHERS.

Local interest in the cricket games as reflected from the "bleachers" is increasing. During Saturday's games the "bleachers" were particularly vociferous and kept the players under a running fire of good natured banter. One small boy brought down the crowd by advising the batsman to "go buy a case of Rainier Beer and get some life in you." The crowd applauded the remark, knowing that Rainier Beer is celebrated for its invigorating and strength-giving propensities. On tap or in bottles at the Criterion.

Have You An Account?

This is a serious question, one at which some folks take offense, yet salesmen are under the necessity of asking it. Some folks deal near home, settle infrequently, never investigate to see whether they pay more than they should and too often allow their accounts to go long over due. If you don't care what the family expenses are it's a poor way to do if you want to leave your children in affluent circumstances when you are gone. Now it is quite an advantage to have an open account at a well-known house, who can execute your order promptly. Often persons say they don't want an account and will pay in a few days. But we cannot keep memoranda of charges; it isn't safe or good business. The stock found in ordinary stores is usually stale, uninviting and inferior, while the stock in our store is turned so frequently and so carefully watched that it is at all times fresh. Our stock in trade consists of the luxuries and delicacies from every civilized nation. Send for our catalogue and prices and note the variety offered. Telephone us—240. We supply all nationalities.
