Indigestion Loss of Strength And Appetite.

The testimony of Mr. R. Dennis, Adelaide, South Australia, who was cured by Ayer's Sarsaparilla, is like unto that of many thousands of others. He writes:

"It is with very much pleasure that I testify to the great benefit I received from using your wonderful blood-purifier. I was a sufferer for years from indigestion, loss of strength and appetite, and constipation. My whole system seemed to be thoroughly out of order. A friend finally told me to take Ayer's Sarsaparilla. I followed his advice, though feeling discouraged at the fruitless results of other treatment, and I am thankful to state that a few bottles completely cured me."

The medicine that has cured others will cure you.

ALLEGED JAPANESE PLOTS

ATTEMPT TO CONQUER UNITED STATES THROUGH MEXICO.

A Sensational Rumor Concerning an Intention to Seize Hawaii Comes via Mexico City.

El Paso (Texas), June 29.—A sensational story is current here concerning the statements said to be contained in a private letter from the City of Mexico, written by an officer known to be a close confidant of President Diaz. It is to the effect that a Japanese Government Commission recently visited Mexico for the ostensible purpose of securing colonization rights, which, had they been granted, would have resulted in a great influx of Japanese into two of the western States which are regarded as the richest in natural resources in the Republic.

The rights asked for were so startlingly broad and extensive that the scheme was viewed with much suspicion and was believed to have for its ultimate purpose, at a not very distant day, an attempt to conquer the United States on some slight pretext that might arise. The officer says the Mexican Executive and Cabinet are greatly interested in watching the outcome of the Hawaiian controversy between the Japanese and the great republic.

They believe the slightest delay on the part of the United States will result in the Japanese gaining possession of the islands.

They think it will be brought about by an insurrection of the Japanese now on the islands, with the assistance of a strong Japanese naval demonstration, which the United States would be unable to prevent because of its weak naval strength in Pacific waters. The Japanese are regarded as bold, smart and extremely visionary, and afflicted with a dream for empire and greatness.

He believed Japan has already concentrated a fleet for Hawaii in addition to the Naniwa and another war vessel, now at Honolulu. He thought the Japanese would show their hands soon after the departure of the Japanese man-of-war now lying in San Francisco harbor, which is awaiting instructions from the home Government through the Japanese Ambassador at Washington. The Japanese can force the United States to acquiesce in Japanese possession of the island by taking them by force and then proceeding to destroy the United States coast cities and commerce in Pacific waters unless their rights by circumstantial might are quickly recognized.

The belief prevails that the United States is almost totally unable to cope with Japan in Pacific waters, at least for some months to come, in which interval the threatened destruction of American commerce and property would bring a strong public sentiment in the United States against a continuation of hostilities.

California Blackberry Brandy.

The crusade of the San Francisco Board of Health and Inspector Dockery has led to the examination of some of the liquors sold in the barrooms. "California Blackberry Brandy" is found in nearly every saloon and thousands of gallons of the stuff have been shipped out of the State, especially to South America. Inspector Dockery has been looking into its manufacture. An analysis of some of this mixture shows there is no blackberry in it and very little brandy, the taste of the berry being given by flavoring extracts. The Merchants' Association intend to take up this matter at once. The formula of the mixture is as follows: Vina brandy, 1 gallon; raw Nebraska corn whisky, 7 gallons; water, dyes and flavoring extracts, 4 gallons.

YOUNG REYNOLDS CAUGHT.

Thieves Who Broke Into Walker's Store Now in Jail.

Some time on Tuesday night thieves entered the bicycle agency of H. E. Walker through a rear window, ransacking the place and getting away with considerable plunder. Among the articles stolen were a gold watch, two gold rings, \$3.25 in silver, \$5 in nickels, \$10 in Canadian and English money and six gold Japanese coins, the whole amounting to about \$200 in value.

Detective Kaapa was given charge of the case and came to the conclusion that the job was done by more than one man and that the gang worked in the dead of the night. Just what led him to this conclusion is a mystery that he is keeping to himself, but it proved to be correct. Acting on his suspicions Kaapa was loitering about Beretania street at half-past two this morning, waiting for something to turn up, having other officers conveniently near.

Before long a native and three boys came along. Recognizing the native as an old jailbird, the detective stopped the party and questioned them. Not receiving satisfactory answers he had the four taken to the station house and confined separately. This morning they were questioned and soon squealed, confessing that they had robbed Walker's place the night before. From the information obtained Kaapa has since recovered the watch and some of the other property, besides obtaining data which may lead to the clearing up of other robberies.

The names of the thieves are: Kaili, an old jailbird who has served several terms for larceny and kindred offenses; Antone Freitas, aged 16; Manoel Medeiros, aged 15, and August Schaefer, aged 13. The latter is a boot-black who works at a Hotel street stand.

MISINTERPRETED MESSAGE.

It Causes Many Hours of Distress for a Lost Child.

When a BULLETIN reporter was informed at the police station yesterday, in answer to a direct inquiry, that the department had heard a rumor but received no notice of a lost child, it was a case of the police not letting its left hand know what its right hand was doing.

On the previous afternoon application was made at the police station for assistance in recovering a child that had strayed from the temporary residence of Mr. and Mrs. Guild, who are on a visit from one of the other islands to friends in Honolulu. While Mr. Guild was at the station the telephone rang up, and a message was received from J. J. Carden saying that a strange child was at his place. The officer who received the message turned to Mr. Guild with the remark: "John Carden has the same pilikia as you; he has lost a child too."

In consequence of this mistake the parents of the missing child were kept in the greatest distress for the livelong night and the next morning until 11 o'clock. They had come to compare notes with Mr. Carden and thus the child was recovered.

A Correction.

Referring to the report of Mr. Reynolds' trip to the Leper Settlement published yesterday, that gentleman wishes it stated that his remarks concerning the destruction of young trees by the carelessness of campers had reference to the Waianau Valley and not Walleia. His proposal is to put a fence across the mouth of the Waianau Valley and keep it tabu until the young trees grow up. He also thinks this valley the best site for the government nursery of young forest trees.

Mr. Reynolds also says that his remarks on the ravages of the dogs running loose in the Settlement were misunderstood. They were killing off young calves instead of colts.

SECRETARY GEAR REPORTS

ON PIONEER BUILDING AND LOAN ASSOCIATION'S AFF IRE.

Large Increase in Number of Stockholders in the Past Year—Early Series Getting Valuable.

Secretary A. V. Gear of the Pioneer Building & Loan Association has submitted his semi-annual report on the workings of that popular institution, which has been duly passed on by Auditors W. R. Sims and C. B. Gray and approved by the directors.

A statement of the receipts and disbursements, resources and liabilities, outstanding stock and value according to series is extracted from the report and given below.

The total number of shares in force in all series is 2016.

Total real estate loans in force \$2,438 24.

Total stock loans in force \$33.

Reference to the last table shows one of the benefits of the system in the rapid increase in value, both book and cash, of the early series of stock, as well as a large increase in the number of stockholders who have subscribed to the two series of stock issued in the past year.

Judicial Jottings.

Judge Carter has given an order for discontinuance of the Reid divorce case, revoking previous order for alimony. Humphreys & Macdonald for plaintiff; Magoon & Edings for defendant. Eliza Richard vs. G. S. Hough-taling, bill to set aside a deed, is being heard by Judge Carter. Kinney & Ballou for plaintiff; Creighton for defendant.

JUDGE WILCOX ON CHEF.

Lays Down His Rule to Govern in Such Cases.

In the District Court this morning Ah Choy was on trial for the offense of having a chefa ticket in his possession. The testimony was very conflicting.

For the prosecution detective Cordes and a Chinese informer testified in substance that when the arrest was made Ah Choy had a lead pencil and a chefa ticket in his hand. Attorney Macdonald for the defense brought out the fact that the Chinese witness for the prosecution had done no work for which he received payment for two or three years.

For the defense two Chinese testified that they were in the room when the informer and Cordes entered. They had no warrant or paper of any kind but searched the premises and bed thoroughly. Ah Choy, the defendant, came in and was seized by Cordes and showed out of the door. Both witnesses were positive that Ah Choy had nothing in his hand.

The defendant testified that after being shoved out of the door, Cordes picked up a piece of paper from a pile of refuse lying near by, shaking it in his face and shouting, "This is yours!" He had never seen the paper or pencil before.

In deciding the case, which was submitted without argument, Judge Wilcox gave an intimation to the prosecution of what his course would be in similar cases. "In all criminal cases it is the duty of the prosecution to prove its case by testimony admitting of no doubt. In this case the testimony of the prosecution and the defense is directly at variance and the prosecution has not in my mind clearly established its case. Taking into account, also, the character of some of the witnesses, I have no other course open but to order the defendant discharged."

Cordes felt much aggrieved over the decision, as he thought he had a sure conviction.

THE MORNING STAR.

Has a Valuable Cargo and Several Passengers for the South Seas.

Members of the American Board of Foreign Missions were in full control of the missionary barkentine Morning Star yesterday, says a late Call. The vessel is to sail this afternoon or tomorrow for Honolulu and the islands of the Southern seas and the throng was down to bid Captain Isaiah Bray "godspeed." The vessel has a cargo of general merchandise for the various missionary stations valued at \$10,000. A praise service was held which was presided over by Walter Frenar, secretary of the association. The passengers by the Morning Star will be Miss Beulah Logan of Buffalo, daughter of the late Robert W. Logan, after whom the missionary brig now in the South Seas was named. Her mother is engaged in missionary work at Ruk, in the Carolines, and Miss Logan will join her there. Miss Jennie Olin is a school mistress from Worcester, Mass. She resigned her position and is now on her way to Kusak to teach the natives. H. E. Hendricks is a graduate of the Chicago University and is on his way to Honolulu to serve under the Hawaiian Evangelical Board. At Honolulu Mrs. Bray and Miss Jessie R. Hoppin will join the party.

Greatest Jubilee Triumph.

The military and naval displays at the London Jubilee were great, but the highest triumph of the occasion was achieved by that wonderful commercial system which enabled an island that does not produce food enough for its own people to provide amply for millions of visitors in a single city, and that without any strain or worry upon the authorities or any notable disturbance of the food market.—The Call.

CRANK IN THE CAPITOL

DEMENTED CHINAMAN GOES IN QUEST OF THE PRESIDENT.

Armed With a File He Wanders in the Departments—Wants to See Miss Dole.

President Dole has received similar distinction to that of many other rulers, past and present, in being sought at by an armed crank. This forenoon a Chinaman, carrying in his hand a long bayonet-shaped steel file, entered the Attorney General's department in the Executive Building and asked to see President Dole. He was told by one of the clerks that the President's office was across the hall, and then he went out in that direction.

When the visitor reached the small vestibule leading to the Foreign Office, to which there is inside communication with the President's office, he took a key out of his pocket and inserted it in the keyhole, although the door was ajar. The rattling of the key was the first intimation Secretary Potter had of the intrusion. He went to the door and asked the Chinaman what he wanted. "I want see Miss Dole," was the response. His mental condition being but faintly surmised as yet, he was allowed to wait in the secretary's office.

The Chinaman would not keep still, however, but started to explore all the recesses of the department, entering Minister Cooper's office and the small rooms adjoining, a bathroom included, and trying his key in the locks. Secretary Potter and his deputy, Mr. Macintosh, after watching the fellow a little while, ran him out by the "scruff of the neck."

He was soon back again and, entering the sanctum of Foreign Affairs, ensconced himself in the ministerial chair. Minister Cooper came out of the President's room and, being apprised of the strange new diplomat, beckoned with his forefinger to him. The signal was meekly obeyed, but the Chinaman, on coming out to the Secretary's office, pleaded earnestly "to see Miss Dole." He said, "I rather you cut my head off I no see Miss Dole."

Mr. Macintosh after a little tussle—which, however, he modestly omitted to tell the reporter about—again ejected the intruder. In the meantime the station house was rung up for a policeman. The Chinaman went downstairs and entered the Interior Office, where he was arrested. At the station he was identified as Aki-one, who was formerly a cook for J. Nawahi. He is held for investigation as to his sanity.

The episode made a rare flutter of amused excitement at the capitol.

Screen Frames in Favor—Pretty Effects With Japanese Gold Cord—Unique Use For a Lace Dolly—Two Novel and Dainty Little Trifles.

A photograph holder is invariably acceptable to man or woman at every age and in every season. It has also, like other popular articles, fashions of its own. Just now the screen photo holder

LACE DOLLY FRAME.

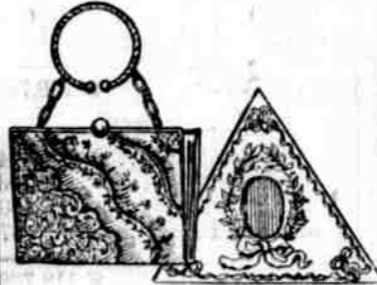

is a prime favorite, probably because it can be folded flat, ready for transportation to mountain and seaside abiding places, to give them a homelike touch during vacation days; perhaps also because it is equally decorative to table, mantel and dresser alike.

Screen frames can be developed in two entirely different ways, according to whether the maker is a good embroiderer or an artist. In the former case the folds which compose the screen may be covered with dark green or blue velvet and the designs put on with Japanese gold and gold beads.

Novel and very pretty is a frame of battenberg lace stretched over blue velvet with a cardboard foundation. The photo is inserted between the velvet and the cardboard and shows in the circular center. A pretty way of making a photo holder in this manner of an imitation lace dolly is to gild the entire lace, afterward stretching it over the velvet.

A taking little triangular frame is covered with linen crash of a light ecru color. The embroidery is done in silver green and white, the wreath being of mistletoe leaves and berries.

A hanging affair shaped like a card case represents quite a novelty. The inner part consists of several leaves of thin cardboard, covered with white silk and slightly wadded with scented cotton.

DAINTY NOVELTIES.

ring serve to suspend the holder, and a silver clasp keeps the backs together at the top.

The foregoing is gleaned from descriptions and sketches of all kinds of photo frames by The Standard Designer.

For more than fifty years has PERRY DAVIS' PAIN KILLER stood the test against all remedies prepared to eradicate pain, and today stands at the head of the list among the medicines that are so essential to keep at hand in the home.

It is not a new fangle remedy nor do the proprietors lay claim to any wonderful revelation of the ingredients that enter into the manufacture of this ever popular remedy.

It is perfectly harmless, you need have no fear of becoming habitually inclined to its use. For Colic, Cramps, Dysentery, Colds, and all painful affections, a few doses will certainly give relief. You cannot afford to be without a bottle in the house.

Your forefathers used it and found it beneficial. Why experiment with some remedy that is new and its effect on the system unknown? It has many rivals but no equal.

The new 35c. size contains over double the quantity of the 25c. size.

SEWALL AND SHIPS.

Talk by a Shipbuilder Who Can't Let Go.

All San Franciscans are familiar with Patti's farewell opera seasons. Each was so profitable, or San Francisco so enjoyable, or so appreciative, or all three, that she came back year after year for another and a final farewell. Captain A. M. Simpson, a leading lumber merchant and shipowner of this city finds, as Patti did, that it is hard to cease from active employment here. In an interview recently, he admitted he was about to build another vessel, says the Commercial News. The world knows the Omega, which was to be the last, but he afterward built the Adedum then the Echo and now the Encore comes in turn. The latter, when completed, will be of the usual type, built of Oregon soft wood and barkentine rigged. The captain admits he had on his mind to stop building when the Omega was named, and named for that reason, but with naive admission that the Encore is "a sort of fare-out to give employment to deserving men." His views on the outside can best be given in his own words:

"The fact is, I did not think such vessels a success as compared with iron and steel even at the greater cost. The Sawalls of Bath, Maine, have adopted steel after carrying wood ship building further in the line of competition than any other concern. The Sawalls have taken the lead in being up with the times, and the Drugg is the best American ship float. Bath owes much to that family. The country owes much to them for heroic efforts to keep up American shipping, and it is quite proper for President McKi ley to appoint one of them to represent us in the Sandwich Islands and it is satisfactory to the entire commercial community.

"Yes, I think I may invest further in shipping in a moderate way but probably in iron or steel the great cost of repairs in wood is against it, and to compete with the lowering rates of freight we shall be obliged to adopt more lasting material.

"No, I do not insure, I find with very cautious men we can afford to carry our own insurance and we try to get that kind for masters.

"Yes, the reciprocity with the islands helps us. I have no doubt Minister Sewall favors it as he is a man of good judgment; he descends from an energetic race noted for good executive ability."

"Section 2. Every such lease shall contain a covenant on the part of the lessee that he shall, during the first four years of the term of the lease, cause to be erected upon the leased premises a fire proof building of Brick, Stone or Metal, in a workmanlike manner, satisfactory to the Minister of the Interior at not less than a stated cost; and keep the same suitably insured at not less than two-thirds of its value for the benefit of the lessor; and shall keep the building in good repair during the remainder of the term of lease, reasonable use and wear thereof only excepted; and in case of damage or destruction of such building by fire, shall make good such loss or damage by the necessary repairs or reconstruction or else surrender the insurance to the lessor.
"Section 4. Every such lease shall also contain a covenant on the part of the lessor, that upon the request in writing by the lessee or his representatives, before the expiration thereof, the premises with the improvements, shall, if all of the conditions to be performed by the lessee have been satisfactorily performed, be put up at auction for a lease for a term of not over twenty years; unless said premises shall be required for public uses, of which the lessee shall receive at least one year's notice. REFORM ON MOLOKAI.

By the report of the first visitation of executive officers of the Board of Health to the Loper Settlement on Molokai under the new system adopted — which, by the way, has been chronicled exclusively in the BULLETIN—abuses are revealed which are to be abolished, and changes in the line of improvement are to be made from the practical observation of the officers. Resident superintendency could scarcely do more for the good of the Settlement than frequent visits of a man of the practical experience of Mr. Reynolds, chief agent of the Board, aided by the business eye of the secretary, Mr. Wilcox, and it is gratifying to find that their findings and recommendations are received by the Board with the utmost confidence. Hereafter, it may be concluded, the unfortunate denizens of the reservation will have all their reasonable complaints attended to, and wants in consonance with humane treatment supplied, with the greatest promptitude. Reference to the report, given verbally but fully summarized in yesterday's issue of this paper, will show quite an extensive line of reform already accomplished and under way. It is very pleasing to the BULLETIN to see its recent suggestion of having the visitors' cottage made "a clean house" carried out. Let the good work in all respects proceed, until the Settlement will compare more favorably than ever, in sanitary and humane features, with other great lazarettos of the world. When the highest degree of perfection in these respects shall have been attained, the next grand step will be to secure the regular services of eminent physicians, versed in special knowledge bearing upon the scourge, with a view to the discovery of an efficacious healing treatment.

PLAY BALL.

From all that has been heard about town, there is an overwhelming opinion in favor of the suggestion, in regard to "the baseball muddle," which was made by a correspondent of this paper on Tuesday. That is, that the decision regarding the match of July 5 should be modified so as to give the St. Louis team its ninth inning. It is not honorable, indeed, in the Star club to take advantage of that most unfair decision as it stands. It is a decision that has absolutely no defenders among the intelligent supporters of the game. Where the St. Louis club has made a great mistake, in the ground of its withdrawal from the League, is in asking for an absurd

decision in its favor, on last Saturday's game, to counterbalance the vile decision previously given against it. Captain Thompson knows too much of law to imagine for one moment that two wrongs can make a right. The St. Louis club's wrong has only to be righted, there is little doubt, to have it again take the field, where in the past it has nobly proved itself composed of ball players rather than kickers. With only three clubs in the League, this season has given the best exposition of baseball, as a regular thing, which Honolulu has known. It is a pity if the series has to go to smash now on miserable book play shystering.

RIGHTEOUS LENIENCY.

It was probably not intended for a dig at Judge Wilcox, but some thoughtless people are likely to take it so, that a contemporary should mention a fine of \$10 imposed on a Chinaman for chefa gambling as "the lowest on record."—The crinating fact was the finding of an old chefa ticket in a basket, which the prisoner admitted to have been his property. It appeared, however, that the detective who made the arrest had kept the warrant for such two or three days unexecuted, and that in the meantime he had made an unlawful search of the Chinaman's premises, he having had no search warrant. Moreover, the culprit was brought into court with marks of violence—to wit, two black eyes—attributable to rough usage at the hands of the preservers of the peace. There was but barely technical evidence of the prisoner's guilt, his own admission being a waiver of the "benefit of the doubt," and the magistrate acted righteously in giving him the smallest penalty. Also, when he gave a severe caution to the detective, against unlawful searches, he only performed his simple duty, but the public is glad to recognize the fulfilment of official duty.

THE GLORIOUS FOURTH.

An article in the San Francisco Chronicle earnestly calls in question some of the old-fashioned methods of celebrating the Fourth of July. Although these are in pursuance of the hope expressed by John Adams—"that," as the Chronicle states, "the Fourth of July would always be celebrated by the ringing of bells and the firing of gunpowder and by every other means of making a racket"—yet "John Adams spoke from the standpoint of a rural squire." The Chronicle says:

But had John Adams foreseen what the Fourth would become in a crowded modern city of a century and more beyond his time, he would have laid out a different and a more civilized program. He would not have accepted the responsibility of the deaths, fires, runaways, injuries and general deviltry and drink which the Fourth annually brings to the throbbing life of a great town. Had his shade visited San Francisco while the late celebration was under way, we feel assured that it would have blushed through its impalpability; for between the noise of the Pit, the killing and maiming of onlookers and participants, the burning up of homes, the waste of money and the flow of rum, it was a day that every decent citizen and every person of nerves and sensibilities was glad to see brought to a close. It was certainly a long remove from the day which the honest old Puritan burgher had in mind when he laid out the plan of his annual jubilee.

In conclusion, the Chronicle looks forward to a rational Fourth, "something like Thanksgiving or Memorial Day or Christmas, with the oratorical and spectacular features of the present Fourth retained." Such a suggestion cannot be called premature. All who

live on this side of the Rockies cannot help comparing some features of the Fourth as celebrated with the barbarous accessories of Chinese new year's. And indeed our own should be Christian festival of the 25th of December and joyous first of January are in Honolulu ushered in with demonic reverberations from exploding villainous saltpetre and sulphur. Our children cry for Oriental fire-crackers instead of candy—which they mostly don't have need enough to cry for—on those days, and being indulged keep us on the rack for fear of fire. Who can estimate the loss by fire from the detestable playthings since the pretty city of Portland in Maine was laid in ashes 31 years ago last Fourth? Let us unite with any movement on the mainland, such as the Chronicle's article may foreshadow, for a civilized and rational keeping of holidays.

Timely Topics

July 7, 1897.

The holidays are over and the community is settling down to business again. The three hottest months of the year are at hand and many people are thinking of discarding the use of coal and wood stoves for the summer. To all such we can recommend the well-known and justly popular BLUE FLAME OIL STOVES, of which we have just received a fresh supply. We can furnish these in three sizes now, the new size being a smaller and cheaper edition of the others.

The Dietz Stove Company—the largest oil stove manufacturers in the United States—are now turning out a beautiful stove for burning kerosene. Complete with oven and pots, etc., with one, two or three burners.

In wood or coal burning stoves we have the celebrated FISHER STEEL RANGES. The PANSY, sizes 6, 7 and 8. The COLUMBUS, sizes 7 and 8. The OLIVE and BONO. For hotels or restaurants we have a specially suitable one—The EMPIRE CITY. In this the oven is very large, the heating surface exceptionally so, and the price very low indeed.

Ex-Queen Liliuokalani Interviews Senators on the Hawaiian Treaty.

Washington, D. C., June 29. — Ex-Queen Liliuokalani and her entire suite called at the Senate chamber this afternoon. Cards were sent in for several Senators, with whom the Queen talked. She was urging, presumably, unfavorable action on the Hawaiian annexation treaty. It is understood that she is also paving the way for a claim for damages against the Government, unless provided for in some treaty if the annexation law is enacted.

During the visit it developed that Senator Davis, chairman of the Committee on Foreign Relations, yesterday received a written request from the ex-Queen for a hearing during the consideration of the Hawaiian treaty. The Senator denied the request, suggesting that the first step in the direction of a recognition of her claims should come from the executive. It is believed that she intends leaving the city to return when the treaty is considered next winter.

PLACE DE LA CONCORDE.

The Most Famous and Beautiful Square in Gay and Vivacious Paris.

The most important public square in Paris and one of the handsomest in the whole world is the Place de la Concorde. In the center rises the obelisk of Luxor, presented by the pasha of Egypt to Louis Philippe. It is flanked on either side by a large fountain. The Place de la Concorde seems somewhat wrongly called, in view of the history of the spot. One hundred and fifty years ago it was an open field, but in 1748 the city accepted the gracious permission of Louis XV to erect a statue to him here. The place then took his name and retained it till the new regime, in 1789, melted down the statue and converted it into 2 cent pieces.

On the 30th of May, 1770, during an exhibition of fireworks here, a panic took place and 1,300 people were trampled to death and 3,000 more were severely injured. The occasion was the attempt of the people to express by a grand celebration their unbounded joy at the recent marriage of the young dauphin with the Austrian princess Marie Antoinette. On the 21st of January, 1793, they gathered here again in immense numbers to see the head of the same dauphin, then Louis XVI, chopped off by the sharp guillotine. During the next two years the spot well earned its title "Place of the Revolution," for the guillotine had not ceased its work until Marie Antoinette, Charlotte Corday, Mme. Elizabeth (the king's sister), Robespierre and more than 2,800 persons had here perished by its deadly stroke.—Chautauquan.

The Ins and Outs of It.

If you get best wear out of a coat, best work must have gone into it. You can't get good bread out of poor flour. Moral: You can't get the best out of anything, unless the best is in it; and the best has to be put in before it can be taken out. Now, we have a rule to test those sarsaparillas with a big "best" on the bottle. "Tell us what's put in you and we'll decide for ourselves about the best." That's fair. But these modest sarsaparillas say: "Oh! we can't tell. It's a secret. Have faith in the label." . . . Stop! There's one exception; one sarsaparilla that has no secret to hide. It's Ayer's. If you want to know what goes into Ayer's Sarsaparilla, ask your doctor to write for the formula. Then you can satisfy yourself that you get the best of the sarsaparilla argument when you get Ayer's.

Any doubt left? Get the "Carebook." It kills doubts but cures doubters. Address: J. C. Ayer Co., Lowell, Mass.

Honolulu, April 21, 1896.
Mr. C. W. MACFARLANE:—It affords me pleasure to recommend, to any one whose hair is falling out, the use of DR. POTTIE'S HAIR OIL. My hair was coming out at such a rate as led me to believe that I would soon become bald. After using the oil for five weeks this ceased entirely; none whatever is now falling out. I consider it the best and only worthy remedy for this trouble.

The ship Ioloni leaves for
Hongkong next Monday.

The steamer Noeau is to be
haunted out for cleaning shortly.

It is likely the tug Eleu will go
on the marine railway in a few
days.

The steamers Noeau for Hono-
kua and Waiialele for Lahaina
left today.

The steamer Kaala came in
empty from windward Oahu last
night and left this afternoon for
Hauula.

Tomorrow, high tide large 3:47

barkentine W H Diamond and
bark Diamond Head.

The bark Albert left yesterday
afternoon with 19,144 packages of

The big ship Roanoke com-
menced loading sugar for New
York at Oceanic wharf this after-
noon. Next Monday evening she

It is conceded by all that the

ery is complete with all the
modern appliances and hereafter
she may be looked to arrive as
prompt as the China, Doric or

out previously notifying the Port
Surveyor so that guards may be
appointed to oversee the same if
the customs surveyor deems it
necessary.

The ship Shenandoah recently
arrived at Baltimore from Liver-
pool, loaded with 1500 tons of
salt. She was but 24 days on the
passage, her speed averaging 12

the steamers engaged on the same
route are capable of accomplish-
ing. She is now loading coal for
this port.—Marine News.

A formal marine protest was
made by the steamer J A Cum-
mins to the Board of Marine
Underwriters this morning owing
to the fact that she sustained a
slight accident while crossing the
bar at Waimanalo yesterday. A
portion of the false keel was torn
away which will necessitate the
steamer going on the railway for
survey and repairs upon her re-
turn from Koolau tomorrow.

By way of showing the decline
of the sailing ship the following
statement has been issued in
England, which shows at some of
the ports in Great Britain: Thirty
years ago there were 102 sail-
ing ships registered as owned at
West Hartlepool and its sister
town. The steamships there owned
were only 8740 tons in the total.
Now the sailing vessels at the
port have fallen to six, and the
steam tonnage has risen year by
year until it is now 364,045 tons
in the aggregate.—Marine News.

NEW STEAMER LINE.

**Connecting Honolulu With Monterey
and the Narrow Gauge Railway.**

The present franchise of the
Monterey-Fresno Railroad Com-
pany for right of way, waterfront
and depot grounds at Monterey
will expire on the 1st of July next,
says the Salinas Index, and it is
said that there will be an entirely
new deal in the management of
the enterprise after that date. A
new company is to be organized,
which will include several Hawai-
ian capitalists. Application will
be made for a new franchise and
as soon as it is granted work will
be commenced on the road and
connection be made with the Pa-
jaro Valley narrow-gauge as soon
as possible. A wharf will be con-
structed at Monterey and, if busi-
ness should warrant, a line of
steamers will be placed on the
route between there and the Ha-
waiian Islands.

More Reasons.

Why people come long distances
to buy at the Palama Grocery.
Reason No. 1—Because one cus-
tomer tells another how much
they saved by dealing at this live
and let live establishment. Reason
No. 2—Because the saving
from their grocery bill helps them
to pay their house rent. If you
don't believe what our customers
say, just give us a call and be con-
vinced.
