THE
National Brewery!
 KALIHI VALLEY,
 Is now one of the Permanently Established
 Industries of the Hawaiian Kingdom, and the
 Company to whose Enterprise its Existence is
 due have for the first time solved the problem of
 Brewing in this Country a
Pure, Wholesome, Palatable
BEER.
 That it possesses these qualities in a very
 marked degree, and is a beverage admirably
 adapted for consumption in a tropical climate,
 is admitted by all who have tried it. It was pre-
 dicted at the outset that
THE STEAM BEER
 OF THE
National Brewery Co.
 Would soon find favor in the community
 after it had been given a trial.
 In the course of a few short months the pre-
 diction has been amply realized.]
The Reasons Why it Has Achieved
Success Are Not Far to Seek.
 Scientific Experience and Practical Skill began
 the work and have carried it through.
 A Cool and Healthy Site was selected for the
 Works.
 An Absolutely Pure Water Supply has been ob-
 tained from an artesian source 670 feet deep.
 The ingredients used in the manufacture
 are the best which the MARKETS OF THE
 WORLD AFFORD.
 THE MACHINERY is of the most modern and
 improved type.

Tenders.

OFFICE OF ROAD SUPERVISOR, HONOLULU, H. I., July 17, 1888. Tenders for the Shoeing of Government Horses and Mules, for six months from August 1, 1888, will be received at the office of the Road Supervisor till 12 o'clock noon on TUESDAY, July 24, 1888. H. F. HEBBARD, 45-1w Road Supervisor of Honolulu.

Honolulu Tax Assessor's Office.

From and after July 1, 1888, the undersigned, Tax Assessor for the District of Honolulu, Island of Oahu, will be in his office in the new building called Kapuana, in the rear of Aliolani Hale, on Tuesday, Wednesday, Thursday and Friday of each week, during the month of July, between the hours of 9 and 12 a. m. and 1 and 3 p. m., for the purpose of receiving the returns of all persons liable to taxation in this district.

ALL PERSONS LIABLE TO TAXATION are respectfully requested to make their returns as full, explicit and complete as possible, giving number of street and area of land; stating frontage and depth on street, character of structure thereon, cost of same, to whom rented or leased, and length of lease; property sold during the year, to whom and for what sum. State if there is any mortgage on the property; give date of mortgage, name of mortgagee, and for what amount mortgaged. State property on hand in your possession belonging to others; merchandise on hand or consignment July 1, 1888; cash in bank or agents' hands same date, etc., etc.

ALL RETURNS MUST BE MADE TO THE UNDERSIGNED NOT LATER THAN JULY 31, 1888, OR NO APPEALS CAN BY LAW BE GRANTED. SPECIAL ATTENTION is herewith drawn by the undersigned to the fact that no return is valid in law unless sworn to before the Assessor, Notary Public or some other person authorized to administer oaths.

Blank forms on which to make returns can be had daily during the month of July on application at the office of the undersigned. C. A. BROWN, Assessor of Taxes for the District of Honolulu, Island of Oahu.

Approved: W. L. GREEN, Minister of Finance. Honolulu, June 29, 1888. 29-d-Aug 1, 1225-July 2, 16, 30.

THE DAILY Pacific Commercial Advertiser.

Be just and fear not: Let all the ends thou aim'st at be Thy Country's, thy God's, and Truth's.

SATURDAY, : : : JULY 21, 1888.

OUR evening contemporary says that the Legislature is "enough to make a sick monkey squirm." Judging from our neighbor's recent editorials, that end has been accomplished.

AT LAST the House has finished the second reading of the Appropriation Bill, and now comes the melancholy work of making the additions. A great deal of work still remains, however, before the third reading, in the shape of referred and deferred items.

THE Hon. Mr. Kalanokoa is having his revenge for being put in the chair so many times during the discussion of the Appropriation bill. Yesterday he set to work to make up for lost time, and so ferocious a strain of talk did he turn on every item as it came up, that not one could slip by him. He has proved beyond a doubt that he is the person most fit for the chair.

ONE of the important bills before the Legislature is that introduced by Mr. Waterhouse to "Prevent the Issue of Commercial Paper as a Circulating Medium." It was placed in the hands of the Committee on Finance early in the session, and no doubt received careful consideration from them. The report was made on the 17th, and states that conference was had with leading business men. It can hardly be urged that the committee acted hurriedly, for the bill was in their hands several weeks. Among others, they consulted Mr. Irwin of the banking house of Claus Spreckels & Company, and members of the bank of Bishop & Company. Plantation agencies also had a hearing, and the views of the business community were pretty well expressed to and understood by the committee. The opinion editorially expressed by the Bulletin, that "the real intent of the bill, the introducer, and the committee, is aimed at the banking house of Spreckels & Company, and the intent is to stop the circulation of that firm's bank notes," apparently has no foundation in fact. It is an ugly fling, in keeping with that paper's determined fault-finding since the success of the reform movement.

THE whole report of the committee bears the marks of careful consideration and shows no sign of the "ad hominem" argument too much in vogue here. "Measures, not men," should be our motto and our practice. The whole course of legislation of the present Legislature appears to be founded upon that motto, and there is nothing to indicate that this bill will not be considered in the same spirit. It is also just to Mr.

Irwin to say that the fault-finding writer of the Bulletin was probably not inspired by him.

THE report of the committee touches upon an important matter which has perhaps not received sufficient consideration. This is, that the Legislature of 1886, as well as former Assemblies, have declared the intent of the country as against unlimited silver. The silver coinage Act has been repealed; the issue of silver certificates by the Government has been restricted to ten dollar notes; the payment of debts in silver has been restricted to ten dollars, and last, but not least, the proposed celebrated bank charter asked for some years ago by Spreckels and others, was almost unanimously rejected by the Legislature. The issue of bank notes is therefore clearly illegal at the present time, and the issue of certificates of deposit by the banks or others, which are payable to bearer or order, are simply evasions of the law. This is not as it should be, and the intent of the bill is to prevent this, as well as the practical creation and issue of any other circulating medium than that authorized by law. It is doubtful whether the country is materially benefited by the large use of plantation drafts. It would be much better if the country could be supplied with a plenty of gold and silver. But this bill will not, as alleged, prevent the free use of negotiable paper. That stands upon a footing of its own, and is not covered or intended to be covered by the proposed legislation.

CORRESPONDENCE.

We do not hold ourselves responsible for the statements made, or opinions expressed by our correspondents.

Issuance of Paper Money.

MR. EDITOR:—If a person was thoroughly indifferent to the matter of restricting the issuance of certificates of deposits by business or banking houses, heretofore, he must rouse himself when he sees the defenders of the certificates writing as follows: "We have a suspicion that the real 'intent' of the bill, the introducer, and the committee is aimed at the banking house of Spreckels & Co., and the intent is to stop the circulation of that firm's bank notes."

Let me thank the writer for the words "bank notes." These words signify the very pith and marrow of the whole matter. It is an honest admission that we have a bank note circulation without the protection of a Banking Act. The writer for the Bulletin, for reasons best known to himself, has been pleased to give his criticism a personal complexion, whereas it is a matter of public concern, as wide in its range as is the circulation of money.

It is to be hoped that the Legislative Assembly will adopt the report of its Finance Committee. Applause for such action is bound to follow sooner or later. J. O. CARTER.

SUNDAY SERVICES.

ST. ANDREW'S CATHEDRAL.

First Congregation—Holy Communion, at 6:30 a. m. Morning prayer, with sermon, at 9:30 a. m., by Rev. Alex. Mackintosh. Sunday School, at 11 a. m. Hawaiian evensong at 3:30 p. m. Evening prayer, with sermon, at 6 p. m.

Gospel Praise Service at 6:30 p. m. Everybody invited to attend.

War in Twenty Minutes.

"The war of the rebellion," said Gen. Sickles the other evening, "was really a whisky war. Yes, whisky caused the rebellion. I was in Congress preceding the war. It was whisky in the morning—the morning cocktail—a Congress of whisky drinkers. Then whisky all day; whisky and gambling all night. Drinks before Congress opened in morning session; drinks before it adjourned. Scarcely a committee-room without its demijohn of whisky, and the clink of the glasses could be heard in the Capitol corridors. The fights—the angry speeches—were whisky. The atmosphere was redolent with whisky, nervous excitement seeking relief in whisky, and whisky adding to nervous excitement. Yes, the rebellion was launched in whisky. If the French Assembly were to drink some morning one-half the whisky consumed in any one day by that Congress, France would declare war against Germany in twenty minutes."

THE LEGISLATIVE ASSEMBLY.

Forty-fourth Day.

FRIDAY, July 20.

The House met at 10 o'clock, the President, Hon. W. R. Castle, in the chair. Absent: Ministers Green and Thurston, Nobles Wilder, Robinson, Dowsett, Jaeger, Smith, Wall, Baldwin, Campbell, Widemann, Wilcox, Dole, Repts. Hustace, Dowsett, Kalaukoa, Kauihi, Wilcox. Minutes read and confirmed.

REPORTS OF COMMITTEES.

Rep. F. Brown reported two bills printed.

Noble Townsend read a report of the Committee on Education, on the bill introduced by Noble Baldwin, June 8th, relating to attendance at school. Committee submit a new bill. The bill was accepted, ordered translated and printed, and the bill was read a first time.

Rep. C. Brown read a report of the Judiciary Committee on the bankruptcy bill referred to them on its third reading, recommending an amendment. The report was adopted and the bill referred to the enrollment committee.

ANSWER BY MINISTER.

Minister Austin read the following: In reply to questions by Hon. G. P. Kamatoha, member for South Kona, as follows:

1. "Did the Cabinet meet with His Majesty the King for the consideration of the Military Bill before it was brought before the House?"

2. "When the Military Bill was taken to His Majesty the King for his signature, did the Cabinet meet with him for consideration as to whether it was perfect and constitutional, or not?"

I have the honor to state that upon the return of His Majesty from Kona, before the opening of the Legislature, I went, by direction of the Cabinet, to His Majesty and requested him to call a Cabinet Council in order that we might lay before him the Departmental Reports, and the Bills which we had prepared for presentation to this House, the Military Bill, as presented by the Ministry, being one of them. His Majesty informed me that a Council was not necessary. That he did not wish to go through those papers. He was principally interested in only two matters, the address from the Throne at the opening of the Legislature and that portion of the Appropriation Bill relating to the Civil List, and he requested me to ask the Premier to have copies of those matters made and sent to him. They were so made and sent.

2. When the Military Bill was taken to His Majesty for his signature, I stated to him that I was directed to inform him that the Cabinet unanimously advised him to sign it, and that the Ministers were at his service for any consultation desired by him. I further said on my own behalf that I was very desirous that he should sign all bills passed by the Legislature; that I felt that it was for the good of the country that he should do so. The Premier of His Majesty that he should not act in any manner contrary to the expressed wishes of the House, who, I felt sure, represented the feelings of the best citizens of the Kingdom, and that such wishes were directly shown in their renewed expression after a veto.

RESOLUTION.

Rep. Kalaukoa moved that as a gate on a certain right of way at Waikiki had been closed, the Minister of Interior direct the same to be opened. Ruled out of order.

NOTICE OF NEW BILL.

Rep. C. Brown gave notice of a bill to repeal Chapter XXXV. of the Session Laws of 1880.

NEW BILL.

Noble Richardson read a first time, a bill to amend section 1, Chapter XXVI. of the Session Laws of 1879, relating to divorce. The bill provides that desertion for one year shall be a ground on which divorce may be granted.

APPROPRIATION BILL.

The House went into Committee of the whole. Noble Townsend in the chair. continue consideration of the Appropriation bill. The item inserted, 18th inst., for bridges at Waiehe, was on reconsideration thrown out. Noble Richardson moved to insert: \$2,500, which, after discussion, he withdrew. Rep. Helekunihi moved to insert: road Olinda to the summit of Haleakala, \$5,000. Lost.

Road tax unexpended, to be expended in the districts where collected, \$2,852 1/4. Items of unexpended road tax are, Hilo \$1177, Puna \$146, Kau \$8,575 28, North Kona \$1,846, North Kohala \$12,321 13, Hamakua \$1,938 46, Lahaina \$46 67, Waialua \$15,985, Makawao \$4,533 51, Hana \$470, Ewa \$75 80, Lanai \$132, Ewa and Waialeale \$33 44, Waialua \$10 35, Koolauloa \$12 09, Koolapoko \$440 61, Lihue \$4,672 15, Koloa \$228 86, Waimea \$438 10, Niihau \$324 37.

Road damages, burnt Alakea street \$25,000. Total \$93,000. Passed.

Additions to electric light system, Honolulu \$43,000. Minister Thurston said that he advocated this item because he believed that it was one of the things which the Government should control. There are those who are opposed to the Government's doing this and think that it should be left to private enterprise. Those who think so are about fifty years behind the age. I do not know whether the editor of the Bulletin expects to take stock in an electric light company or not, but his corporeity seems to pain him at the idea that the people are going to supply themselves with electric light instead of paying somebody else a profit to do it for them.

The Government is expected to make a profit out of it, and I can only believe that, as a principle, independent of the particular merits of this question, the people should control the supply of all such articles of universal use, as the mail service, water, and gas or electric lighting, especially where the use of the public service is needed, as in this case, for the use of wires. It is not necessary to go to Europe for examples, where Germany owns the railroads and England the telegraphs, but the constant and growing tendency of the world has been for the municipal governments in the United States to take into their own hands the construction of water and gas works, with always the result of a more satisfactory and cheaper service. Considering that the Government should control the telegraph system, as England already does, and I believe that the day is not far distant when the Western Union System will be controlled by the United States Government. When works of this nature are undertaken by private parties, their sole object is to make a profit, and it is a laudable object; but instead of that profit going to one or two or half a dozen people, why should it not go to the whole community? In this instance there will be a profit of between 30 and 40 per cent on the capital invested. If this is given to private individuals the general public will gain nothing thereby; while if the work is done by the Government the receipts will pay the entire cost of lighting the streets, and instead of being an expense to the Government of \$10,000 a year, there will be a small surplus over to pay into the Treasury. Furthermore there are already three sets of wires on our streets, the Government electric light and the two telephone companies, and I do not think a fourth set under the control of other parties should be allowed. It seems

to me a legitimate work for the Government to undertake. Noble Baldwin moved to refer the item to a select committee.

Noble Smith did not agree with the Minister of Interior with regard to the lighting of private dwellings by Government. There was a time, he admitted, when Government had taken hold of inter-island steam communication to the ultimate advantage of the public. The building of the Hotel by Government was a questionable wisdom. The lighting of private houses with electricity is not a public necessity nor an improvement for which the Government ought to borrow money to provide. In what way will the lighting of private houses by electricity tend to develop the resources of the country? It is a policy of questionable wisdom to incur public debt to supply a luxury to private individuals, and especially is this the case when it is known that private parties are willing to take hold of the enterprise. Los Angeles, San Diego and many other cities had lighted their streets with electric lamps on poles similar to those in Honolulu, but their civic corporations would give little attention to proposals to light private residences.

Finance Committee recommending this expansion of the electric light system. He would not resist referring the matter to a committee. Some of the extremely antiquated views of the honorable Noble Smith were worthy of being so referred. The motion to refer was adopted. Committee rose; the House resumed and took the usual noon recess.

Afternoon.

The House met at 1 o'clock and went into Committee of the Whole, on the Appropriation bill, Noble Townsend in the chair.

Encouragement of Immigration, \$30,000. Noble Baldwin moved \$50,000. A smaller vote would cripple the industries of the country, and force the planters to employ Chinese instead of Japanese and Portuguese. Rep. F. Brown moved to strike out the item. The country is full of people out of work. Some are obliged to go out into the bush to live. He did not believe in Government importing labor for the plantations. The item should be named "Encouragement of sugar plantations."

Noble Castle said he had been looking for two men for some time, but could not get them. Rep. Kinney thought the Government should aid every good enterprise. In other countries the control of immigration is one of the functions of government. The trouble is not in the scarcity of labor, but that we have not control of it. When we can get laws to compel men to engage in honest labor or get out, the labor question will be more than half solved. He moved the item be deferred until the constitutional questions submitted, on Tuesday, to the Supreme Court, and referred. Carried.

Road over the Nuuanu Pali, \$45,000. Rep. F. Brown moved the item pass. Minister Thurston moved the item be struck out. He had promised when the bill was up two days ago, in consideration of what were deemed more urgent demands for roads in other districts, to move this be left out for the present. It is certain that we cannot get \$10 of work for \$5 cash. Additions have been inserted in the bill since it was introduced such that we must forego some of the roads or borrow more money. Rep. C. Brown said he represented a district that needs this road as much as any other. If the Minister will keep the present road in repair, he will consent to wait two years for this grant, especially in view of the pressing wants of other districts that have no roads, and the large sums already voted for Oahu. Rep. F. Brown said a change seemed to have come over the spirit of the Minister of Interior. It appears as if he could not hold his place except by the pleasure of the honorable gentleman from Maui. Koolapoko had evidently fallen under the displeasure of this Ministry, in more ways than one. The district had a Government physician in Mr. Gibson's time, now it has none. Large appropriations had formerly been made for his road, although they had not been expended. Several people have been killed during the past eight years by rocks falling down the mountain. The road supervisor with his wife and child had a narrow escape with their lives recently. Accidents of this kind may happen again. If similar casualties occur again, the members who vote against this appropriation ought to be indicted for manslaughter. If any of the members who vote to strike out the item get killed there, they will have very great pleasure in attending their funerals. The hon. Noble Baldwin is willing to strike this out, but he voted for a road to the top of Haleakala. The Pali road is dangerous and therefore he said, pass this \$45,000. Rep. C. Brown said a wagon road could be made there for \$20,000, which sum he moved to insert. Noble Waterhouse said there is no log rolling about this. It is one of the most important items the House has to consider. He asked Noble Baldwin if the Finance Committee had had communication with persons from the districts beyond the Pali. Noble Baldwin said they had interviewed merchants in Honolulu. Rep. Kinney said he would like to see an estimate of exactly how much money is likely to be available for all purposes of the Government. Minister Thurston said he could see that by referring to Ministerial reports. Noble Waterhouse moved this item be referred to a select committee. Noble Baldwin disclaimed. Rep. Brown's statement that he had spelt-bitten the Minister of Interior. He was rather of the opinion that his communications with him had the contrary effect. The Finance Committee had found too much for roads in some places and too little in others. Oahu is well provided with roads. In other islands some roads are merely goat paths. Noble Young said the Pali road is important and ought to have been built long ago. It is easy to do things when we know where we are going to get the money. It is absolute nonsense to speak of making a road better than the one there now, for \$20,000. His only objection is that there is not enough money to build it.

The item was referred to a select committee. Rep. Kamatoha moved to insert, repair of wharf at Napoona, \$200. Minister Thurston said that matter is already provided for. The motion was lost.

Minister Thurston moved to insert, Inter-island cable, \$25,000. Passed. Section 4. The following items are hereinafter appropriated out of any moneys in the Treasury, other than moneys which may be derived from the sources mentioned in Section 5 of this Act, which shall not be used unless by reason of some unforeseen contingency, the appropriations mentioned in Section 1 of this Act shall become exhausted.

Expenses of Supreme and Circuit Courts, \$5,000; expenses steam tugs, \$5,000; support of prisoners, \$15,000; maintenance Insular Asylum, \$5,000; quarantine expenses, \$20,000; leper settlement, \$25,000; pay of police, \$15,000; incidentals, civil and criminal expenses, \$5,000; Coroners' inquiries, \$1,000. Passed. The remaining Sections 5 to 11 passed.

Committee of the Whole rose and the House resumed.

COMMITTEES APPOINTED. Select committees were appointed: On additions to the electric light system, Honolulu, \$43,000—Nobles Baldwin, Jaeger and Dole, Minister Thurston and Rep. Dowsett; on Nuuanu Pali road, \$45,000—Noble Waterhouse, Repts. F. Brown, Kalaukoa, Kauihi and Kinney.

ORDER OF THE DAY. Pounds, estrays, etc.—Second reading of the pounds, estrays, etc., bill. Consideration of Section 12, relating to trespassing

hogs, continued from Tuesday last. Rep. Paris moved an amendment. Minister Thurston moved the section, with this and all previous amendments, be referred to a select committee. It seems to be the knottiest question the House has struck yet. Referred. Sections 13 and 14 passed. Section 15, relating to fences, evoked a lengthy discussion, the main question being whether a fence should be four feet, four and a half feet or five feet high, which was abruptly terminated by adjournment at 4 o'clock to 10 o'clock, Saturday morning.

Woman's Physical Superiority.

True, she cannot sharpen a pencil, and, outside of commercial circles, she cannot tie a package to make it look like anything but a riddled cross-section of chaos; but land of miracles! see what she can do with a pin! I believe there are some women who can pin a glass knob to a door. She can't walk so many miles around a billiard table with nothing to eat, and nothing (to speak of) to drink, but she can walk the floor all night with a fretful baby, without going sound asleep the first half hour. She can ride five hundred miles without going into the smoking-car to rest (and get away from the children). She can go to town and do a wearisome day's shopping, and have a good time with three or four friends without drinking a keg of beer. She can enjoy an evening without smoking half a dozen cigars. She can endure the torturing distraction of a house full of children all day, while her husband cuffs them all a howling to bed before he has been home half an hour. She is the salt of the church, the pepper of the choir, the life of the sewing society, and about all there is of a young ladies' school, or a nursery. A boy with a sister is fortunate, a fellow with a cousin is to be envied, a young man with a sweetheart is happy, and a man with a wife is thrice blessed more than they all.—Burdette.

How Maxwell was Traced.

Maxwell, the St. Louis murderer, who pays the death penalty shortly, passed through Montreal two years ago last Easter, immediately before the commission of the crime. He had just come from England, and, passing through Montreal on his way from Boston to St. Louis, entered into a long conversation with Inspector Ingram at Bonaventure station while waiting for his train. He described his adventures in the Russo-Turkish war, and, pulling out a large military revolver, stated that he had shot many Russians with it. He also exhibited the photo of his sweetheart in London; said that he was anxious to meet his friend Preller (his victim), after which he purposed going to New Zealand by way of San Francisco. The murder, which startled society by the horrible cold-bloodedness of the methods employed, occurred three days later. Mr. Ingram wrote to the St. Lou's authorities, and thus put them on the track, which, closely followed, led to Maxwell's arrest in Australia.—Montreal Witness.

ROYAL BAKING POWDER Absolutely Pure

For quick raising, the Royal Baking Powder is superior to all other leavening agents. It is absolutely pure and wholesome and of the highest strength and quality and never fails to give light, sweet, most palatable and nutritious bread, biscuits, muffins, cake, etc., made with it. Royal Baking Powder may be eaten by the most delicate stomachs without any danger of indigestion or other ailment. It will keep in any climate without deterioration. Prof. H. A. Mott, U. S. Government, after examining officially the principal powders of the country, reported: "The Royal Baking Powder is absolutely pure for I have so found it in many tests made for that company and the United States Government. "Because of the facilities that compare for obtaining perfectly pure cream of tartar for other reasons dependent upon the proportions of the same, and the method of preparation, the Royal Baking Powder is undoubtedly the purest and most reliable powder offered to the public." "DR. HENRY A. MOTT, Ph. D., U. S. Government Chemist."
