Adachi Writes To Breckons

BALTIMORE WIPED OUT

BALTIMORE, Md., Feb. 8.—The great Baltimore fire has not been extinguished, though this evening the progress of the flames has been partially checked through the united efforts of fire department assistance from near by cities.

The loss from the fire is estimated at fully \$200,000,000.

Engineers and troops of the Government have aided in fighting the fire, guarding property and assisting the city authorities.

A special session of the Legislature will be called tonight and it is expected that \$25,000,000 will be appropriated to aid the city in recovering from the terrific damage suffered.

The business section of the city is completely wiped out and a general holiday has been declared in every line of business to allow employes to assist in fighting the flames.

DE BOLT REFUSES BERREY NEW TRIAL

Judge De Bolt this morning rendered a decision on the motion of defendant's counsel, T. McCants Stewart, for a new trial in the damage case of Theresa Owana Wilcox vs. Q. H. Berrey, denying the motion.

In rendering verdict for plaintiff the jury added: "but we do not think defendant had any malicious intent." Suit was for trespass on the case in relation to a note alleged against Mrs. Wilcox in another action.

Defendant's counsel excepted to the form of the verdict and asked for a

Adachi, Whom Marshal Seeks In Extradition, Communes With Prosecutor

Adachi writes Breckons! "The runaway Japanese whose tongue can tell so much in relation to the doings of the local gang of prostitute protectors and who skipped when the investigations of United States District Attorney R. W. Breckons became too hot for his comfort, to arrest whom U. S. Marshal E. R. Hendry is even now on the ocean en route to Japan, sends a letter to Mr. Breckons, the man of all men he should at present fear the most.

"I have just received a letter from Adachi, the Japanese we want for perjury in connection with these 'ten-dollar' club cases," said Mr. Breckons about 2 o'clock this afternoon.

"Adachi writes from Yokohama under date of January 29th. At the time of his writing he evidently knew nothing of the fact that he was about to be extradited.

"Our much desired Japanese friend seems to be entertaining the idea of returning to Honolulu. Strange, is it not, that he and the United States should entertain the same idea in regard to his presence in this city.

"Adachi even encloses his present address, naming the people with whom he is stopping. He seems to expect a reply. He will probably receive a reply sooner than he expects.

"I have already sent a cable message to Marshal Hendry, notifying him of Adachi's exact whereabouts. The Marshal will have so difficulty in laying hands on his prize if all goes as anticipated.

"By Wednesday I expect to receive a wire from Marshal Hendry to the effect that he has Adachi under arrest.

"Adachi writes to the effect that things are looking very troublesome in Japan. He thinks Russia and Japan will fight and adds that he would rather be in Honolulu than Yokohama.

"Adachi is apparently in ignorance of the fact that he is wanted here, or he was when he wrote."

CARTER EXPECTED HOME IN TWO WEEKS

Land Commissioner J. W. Pratt, who returned from Hilo on Saturday, where he installed G. H. Williams as land sub-agent for Hilo and Hamakua, is of the opinion that Governor Carter and his party are not likely to return to Honolulu until the 20th instant.

Mr. Pratt states as his reason for this opinion the fact that the Governor has still a portion of Puna and the Kau and Kona districts to traverse. His journey is barely half completed. The probabilities are that the Governor will take the steamer for Honolulu at Kawahae on the 19th.

It is said that Secretary Atkinson may return on Saturday next.

Meyer Wants a Three Sided Race

D. L. Meyer, of Walluku, the present owner of Cyclone, has written to his associates in this city authorizing them to make up a three-cornered race for the 11th of June in which shall be included his own horse, Jim Quinn's Sambo and Tom Hollinger's Waldo J. This is done in order that there may be no grounds for objection. Mr. Meyer having understood from his associates here that two horses might not make a satisfactory race. The stipulation is that each side shall put up \$500, making

A SUSPICIOUS CASE

The steamship China was delayed off port this morning for about three quarters of an hour on account of the presence of a suspicious case of bubo. The patient, a Korean steamer passenger, was subjected to careful examination, which developed that the case was not a dangerous or infectious one.

Price of Advice May Now Be Paid

The suit of R. W. Breckons and J. J. Dunne vs. William S. Ellis and five others for counsel fee came up before Judge De Bolt this morning.

Mr. Breckons stated there was a proposition for settlement pending out of court and the matter went over for one week.

Defendants are said to have sought advice from the U. S. District Attorney and the Assistant U. S. District Attorney in regard to a suit (one of the many famous affairs of the Sumner series) against John K. Sumner. Breckons and Dunne advised not bringing suit and sent in a bill for some two hundred dollars or so, covering all services. Defendants failed to pay and suit was instituted by the attorneys.

RICHARD T. LAFFIN AND ELECTRIC CARS

Among the passengers in the steamship Korea, which arrived from San Francisco this morning, is Richard T. Laffin, who goes to Manila to install a rapid transit system in that city. He is to put \$4,000,000 of American capital as a starter into the electric street car service for Manila and the suburbs of the metropolis of the Philippines. The system will begin operations December 1st with 100 trolley cars, forty miles of urban and suburban road and about 300 employees.

"The company," said Laffin today, "is backed entirely by American capital. The principal owners are the J. G. White Company of New York, the Pittsburgh Security and Investment Company, Frank Buhel and Peter L. Kimberley of Sharon, Pa., and some large Detroit interests, attracted through Charles M. Swift, a Detroit man, who is president of the new company. The White concern built the electric property in Porto Rico, and is putting in an electric system in Melbourne, Australia. Buhel and Kimberley formerly owned large steel works at Sharon, Pa. They sold out to the steel trust. Mr. Swift, president of the company, is now en route to Manila by way of the Atlantic and the Suez canal. He will remain in the Philippines only long enough to see the system well started.

"According to the latest census, Manila has 302,000 people. Its car service is limited to eight or nine miles

ADMIT THEIR GUILT

Federal Judge Dole opened the special February term of the United States District Court at 11 o'clock this morning.

U. S. District Attorney R. W. Breckons announced that he had been informed that two defendants under the charge of conspiring to violate Federal moral statutes, fostering prostitution, desired to change their pleas.

Two Japanese stepped forward and stated that they wished to plead guilty.

Breckons asked that the matter of sentence go over a couple of weeks to allow the defendants to wind up their business matters. Attorney John W. Cathcart, appearing for the pair, said the Japanese had changed their pleas without consulting him.

Cathcart believed there was still another Japanese, Ohuki, who contemplated changing his plea and asked that Ohuki be called. Ohuki was called and said, "Yes; he had paid ten dollars," and that he pleaded guilty. His sentence was also reserved.

"Paying ten dollars" is a falling peculiar to members of the Japanese secret society for the prevention of prosecution of crime, the payment to the club constitution membership.

The Old Ready-Made versus The New Ready-To-Wear

Before the advent of **ALFRED BENJAMIN & CO.**

30 years ago there were more old ready made clothes than any other kind. The fabrics were inferior; the designs were commonplace; the pieces were thrown together with cheap cotton thread; the whole garment had a hang-dog look that no amount of pressing could get rid of. What little shape it first had was soon lost. At a glance you could tell this ready-made from custom-made—just as you can now.

When BENJAMIN Clothes were first marketed the other fellows shook their heads and predicted failure. "Where is the profit," they asked "in retailing garments that cost as much to tailor as custom-made?" Thirty years of success have shown the wisdom of producing fine clothes at reasonable prices. Today the highest type of ready-for-service apparel bears this famous trade-mark.

THE BUNION LAST.

Plenty of room for enlarged joints, closely fitting elsewhere. This describes, in a few words, shoes made on the Bunion Last.

The foot with a bunion was very much like other feet before the bunion grew. It needs a shoe having more room in certain points, but in others no extra room is required. It has been impossible to obtain a satisfactory fit in a ready made shoe. The nearest approach to it was obtained by buying a shoe which was two or three sizes too long or two wide in order to give the room. Such a shoe felt easy when first worn, but after a time it began to hurt—why? Because it was much too large in instep and heel and allowed the foot to crowd forward into the shoe, cramping and otherwise hurting the toes and joints already tender and inflamed. The "Bunion Shoe" is the only shoe in world that will fit the foot with a bunion or an enlarged joint.

RAVAGES OF THE STORM

Weather Bureau—To Sunday morning at 9 o'clock, 6.22 inches of rain, this being next to the largest rainfall on record for Honolulu for 24 hours at the weather bureau. This record was 16 inches, the fall occurring on May 11, 1885, causing the postponement of the funeral of Queen Emma.

To this (Monday) morning at 9 o'clock, 1.32 inches, making a total rainfall of 7.54 inches for the forty-eight hours.

The big storm which started on Saturday and seems to be still on, created havoc in and about the city. The streets were damaged in many places making instant repairs necessary and causing a drain on the treasury which it can ill afford at the present time. Rapid Transit cars were tied up by the tracks being completely covered with water. At King and Pihikoi three cars went off the track Saturday night. On the Wilder Avenue line cars went off the track at Hackfeld street, Tenney's corner and near the Makiki corner. There was also trouble at Victoria street and the switches often became locked with gravel washed in by the flowing water. The intersection at Alapai and Beretania streets was particularly bad. The old ditch which runs by Lunalilo Home made some trouble. A fence built in the Allen lot caught the debris and formed a wall. The stream rose, flooded the banks and spread across the lot, making a veritable lake. The water swept on Wilder Avenue, filling it between Pihikoi and Kewalo.

The Nuanu stream overflowed its banks and flooded the Aho'o stables on River street. Both the Beretania and River street bridges were submerged and even the Rapid Transit bridge was under water for a while. Stores on Kukul and River streets were flooded.

Out at the government nursery, the water made a perfect pond and all along on King street between the Waikiki road and Thomas Square, it was a problem for people to get out of their houses.

Park Flooded.
Just before daylight Sunday morning those who happened to be in the neighborhood of Kapiolani Park noticed that the streams running through that beautiful retreat were overflowing their banks. The muddy waters rushed noisily toward the small dam at the park's entrance and pounded heavily on the already opened gates.

Soon the natural waterways could no longer contain the rushing flood and the waters spread over Makee road, over Makee Island upon which the band stand is located and out over the park, inundating the tracks of the Rapid Transit Company at numerous points, laying thick mud over the race track switch and transforming the great natural public resort into a huge pond.

Axes Saved the Dam.
Shortly after 6 o'clock in the morning Kapiolani Park was flooded and the angry stream, struggling to make the sea near the Makee road, threatened to destroy the masonry of the dam. Men with axes, when it was seen that the dam was about to be destroyed, managed, after much difficulty, to cut away the gates of the breakwater, thus relieving the strain on the walls which held the torrent.

For a time it seemed that the band stand might be carried away. A large number of heavy seats were piled on the stand, however, and these helped to hold the structure down. As it was, numerous benches were soon floating promiscuously around among the trees.

Lots Under Water.
On the town side of Makee road several vacant lots were flooded to a depth of several feet, fences being damaged in places.

In one lot, the property belonging to E. S. Cunha, a horse narrowly escaped injury. A. R. Cunha, who was out early, managed to save the animal from too serious a bath before the water had mounted beyond the wading point.

Cars of the Rapid Transit were unable to run to the Waikiki terminus on account of the mud on the tracks.

House on an Island.
The lodge of the park superintendent, a beautiful little stone structure, was entirely surrounded by water and the dwellers therein were forced to wade.

In the lower portion of the park there was no chance of wading. Flat-bottomed boats were utilized to transport folks from the Rapid Transit track near the dam to Camp McKinley.

Soldiers and others, some in bathing suits, manned the boats, using small oars and Hawaiian canoe paddles to get around. During short lulls in the storm men and boys, and a few women, could be seen wading and sometimes swimming. One or two women in bathing suits added a curious touch to the scene of unusual flood.

Race Track a Pond.
Assistant Road Supervisor H. C. Vida was out early with a gang of men. If they had not cut away the wood-work of the flood-gates as above noted the whole structure of the dam would have been destroyed.

A. R. Cunha was particularly active in the work of preventing damage in the park. The Cunha residence at Waikiki is so situated as to command a near view of the park flood.

At the race track stables there was consternation for a time. Feed was drenched and several horses were floundering around in the water. If one case an animal was fed by hay being thrown on the water, it being impossible to reach the beast otherwise.

Furious Kalihī Stream.

In Palama and Kalihī every low bit of ground became a pond. Signs bearing legends: "These Desirable Lots for Sale" were surrounded by water to the depth of from one to, in some cases, five or six feet.

The Kalihī stream, Sunday morning, was on a level with the road, threatening to flood houses on the Ewa bank. A large mass of stuff gathered by the torrent in its mad rush was piled against the stone bridge. In many places fences were broken down, small trees were uprooted, gardens inundated, and in numerous yards the water washed the veranda's edge.

At the junction of King and Liliha streets, in the low-lying lot on the northeast corner, the water was above the verandas of several houses, wood piles were washed away and boys and men went about on rafts.

At Work All Night.
All Saturday night and during the whole of Sunday, taking in the night, Superintendent of Public Works Holloway, Road Supervisor Johnson, his assistant, H. C. Vida, David Crowningburg and others of the Road Department staff, were flying about doing all in their power to repair the damage done and get the streets in some sort of condition for traffic. Gangs of men were kept working day and night.

The Makiki creek, running through the Punahou section, was filled to the brim and many stone walls erected to protect back yards, were undermined. Joe Little had a fernery swept away and his property was damaged fully \$300. Much of the trouble in this creek was due to the accumulation of rubbish in the creek during the dry season. It dammed the flood and property along the route was damaged in consequence.

ENDED IN A TIE

In spite of a soggy field and a high wind which prevailed during the last half, the Association football game played last Saturday afternoon between the Iolani and the Maile Ilimas was of great interest to the spectators. The first half, during which there was no wind, was decidedly the best of the game, the last part of the second lacking interest. The Mailes had the upper hand during the first part of the game, scoring a goal. After that the playing was rather even and slow until the last part of the half, when the Iolani braced up and carried the ball down into Maile territory, where Woo, who played a brilliant game throughout, succeeded in making a goal. There were a couple of spirited scrimmages in front of both goals, which failed of any result. In the second half, the high wind which sprung up suddenly, prevented scoring. The game ended in a tie, the score being one goal for each team.

PRESENT TO MOSHER

Captain F. Mosher, master of Honolulu Harbor, No. 54, of the Masters' and Pilots' Association, was last night presented with a handsome jewel by the members of the Harbor in honor of his second term as master of that organization. The ceremony took place in Harmony Hall, Admiral George Beckley making the presentation. Afterwards, those present adjourned to a banquet at the Union Grill. During the evening speeches were made by Captain Whitney, Captain Lehners, Admiral Beckley, Captain Curtis, Captain Clark and others.

The following were present: Captains Whitney, Lehners, Bolles, Mosher, T. K. Clarke, Olsen, Radway, L. Everett, Kaonuu, Casey, Lane, Cook, Ennings, Gahan, Schultz, Simpson, Parker, Piltz, McAllister, Gregory, Admiral Beckley.

WOODS NOT SEEKING

Hilo, Feb. 5.—Senator Palmer Woods, when shown the dispatches relative to his connection with the Democratic National Committee, said to a Tribune representative:

"This is the first I knew that I had been recommended as National Committee man by any one. Whatever has been done has been done without authorization from me and without my knowledge. Whoever recommended me did me a personal honor, but I must say I am not seeking the office. When I last discussed this matter with my Democratic colleagues in Honolulu, I said I favored A. A. Wilder for the position. This was when it was settled that Sam Damon would not take it. In fact, the matter dropped there and I had not thought of it since.

"In this connection I want to say if the Democrats wish a representative delegation to St. Louis from the different islands, I know of no better Democrat to represent this island than Jack Easton. He is going East anyway this summer and he is a Democrat of Jacksonian lineage and, besides, comes from Missouri."

Speaking of his outspoken support of Governor Carter, Senator Woods said that did not mean that he was leaving the Democratic party. "No; I'm still a Democrat and always will be. I am supporting the Carter Administration because I believe in the Governor's ability, and sincerity. I see in him a staunch supporter of a County law for Hawaii. This is local government and local government is a fundamental principle of democracy.

"The governor's policy regarding roads and schools and the deep interest he shows in the outside districts, I consider entitle him to the backing of every man who is anxious to see our country go ahead. I believe the Governor will carry out his promise and not rest until we have a county law either at the hands of Congress or the legislature."

LAND OFFICE CHANGE

Hilo, Feb. 5.—Land Commissioner Pratt and Auditor J. H. Fisher were busy yesterday making changes in the local land office. Geo. H. Williams is now Land Agent for the first and second districts, his commission superseding those of Charles Williams at Honokaa and Wm. Ragsdale and E. D. Baldwin of this city. The land office will be moved from the Baldwin building to the room on the opposite side of the street, under the telephone office. Wm. Ragsdale has been appointed by Mr. Pratt to the office of Ranger for both districts, a position practically as good as the one he previously held.

Mr. Pratt said that he finds the accounts of Mr. Ragsdale all O. K. "The books show a sum of over \$27,000 due and owing to the Territory as rentals and interest," said Mr. Pratt, "and we propose to inaugurate a little stiffer policy in the matter of collections. We want to get in as much of this money as possible and find out what the reasons are in each case for deferred payments. In the cases where lands have been abandoned we will probably take them over again and offer them for settlement. We will not carry a lot of accounts on our books against settlers who may have abandoned their claims and possibly left the country."

"The land office," continued Mr. Pratt, "had no fault to find with Mr. Ragsdale. The appointment of Mr. Williams was made in the regular manner upon endorsements from the Republican District Committee of your district. I would have appointed Mr. Ragsdale on the same endorsement. I think the land business of these two districts will now run smoothly along and with dispatch and satisfaction to the public under the charge of Mr. Williams and Mr. Ragsdale."

ASA 'FESSED UP

Asa, a Japanese, was caught last Saturday by Detective Renear and identified as the burglar who has robbed several houses of a great variety of articles.

Renear caught the man as he was trying to dispose of some of his spoils on Punchbowl. After some persuasion on the part of the police, Asa took the detectives around to a number of people to whom he had sold stolen goods, the majority of them being Portuguese residents of Punchbowl. They all willingly produced their purchases.

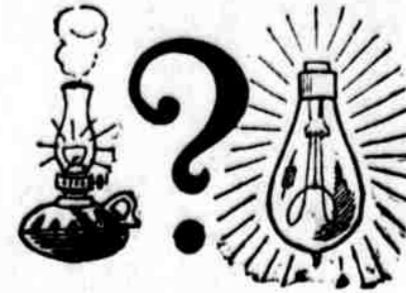

It seems that Asa sold the goods for ridiculously low prices. During the tour Asa made a bolt from the hack in which he was placed, but was speedily recaptured by the hackman.

Among the things recovered were the following: One silver sugar bowl, one silver spoon-holder, one butcher knife, one dozen silver tea spoons, one gold-plated sugar bowl and spoon, one linen table cloth, one dining room chair, one dozen valuable china cups and saucers, one Swiss glass barrel, one hand-painted punchbowl, numerous knives and forks, glass tumblers, one cake dish, three rugs, one koo table, bedding, linen sheets and pillow cases, one camphor trunk, one white silk cape, two Japanese bamboo tables, one chair, one rattan lounge, a gold watch having charm marked "S. P. B. 1898," great variety of women's clothing, two silk umbrellas, one umbrella stand and considerable crockery.

Among the places which Asa is suspected to have robbed are Mrs. Allan Herbert's house and Mrs. Gertz's place, both on Vineyard street.

ON THE VERGE OF WAR.

Japan's action in severing diplomatic relations with Russia and refusal to accept the mediation of the Powers indicates that the declaration of war which promises to follow is only a matter of formality.

It is remarkable with what exactness the course of events in the last few days has followed the predictions made by Colonel Oka, the chief strategist of Japan, in an interview published by the New York Herald the early part of January.

Japan's action in severing diplomatic relations with Russia and refusal to accept the mediation of the Powers indicates that the declaration of war which promises to follow is only a matter of formality.

The result none can forecast with even a reasonable degree of accuracy. Col. Oka, whose opinion is as good as anyone's in this case, like all Japanese, feels confident of success.

He notes the fact that Japan's resources have been underestimated. An army crawls on its stomach and the Japanese think they have a better chance of fighting in an Asiatic country than Europeans.

He also predicts that Japan will strike the first blow by hurrying its troops off to Chemulpo, and at the same time going in search of the Russian navy.

Chemulpo is looked to as the center of the fighting. That being the port at which the army will be landed, the Russian navy is expected to assemble there for its first move for supremacy on the sea.

It appears to be the Japanese idea to bring Russia to a naval battle as soon as possible, for on the success or failure of this contest will the fate of the island nation depend.

HAWAII'S FINANCES.

The present financial condition of the Territory, as set forth by Treasurer Kepoikai, means nothing less than a shrinkage in the circulation of money during the greater part of the current year.

Add to this the existing low value of our staple product, sugar, and it is self-evident that there must be a corresponding curtailment of loans and discounts on the part of bankers and financiers.

Our merchants know that new buyers are not to be found here, while the old ones have been leaving and many of those who remain think twice before making a purchase.

present sugar prices, will need more than the amount of borrowed capital available last year. The financial disbursements are the first to see this and have already begun their preparations to provide money to cover all possible requirements.

To a certain extent relief will be afforded by the circulation of the million dollar loan money. But nearly one-tenth of this has already passed out of sight. The Governor has, it is true, stated that another loan of a million dollars can be negotiated without trouble in New York.

When making this assertion, however, we doubt whether Mr. Carter had taken into consideration the drop in the price of sugar since last Fall, and its dubious outlook. Even if it be possible to borrow more money, the question will arise—is it advisable to do so?

The interest charge on our present recent indebtedness is \$45,000 a year. Double this and we will have another \$90,000 of annual indebtedness to meet since last year's taxes were collected and without any prospect whatever of additional income wherewith to liquidate this increased liability.

Another point for consideration is the extent of the Territory's future income. Hitherto, taxes have been paid on boom prices and, in many cases, inflated values. Every possible avenue for squeezing a dollar out of the overburdened taxpayer has been exploited though, as held by the courts, within legitimate bounds.

But it is doubtful if the Treasury can expect the same relief from this source in the future. It is generally recognized that there has been a shrinkage in all personal and property values. The real estate market is stagnant except at forced sales. Prices paid a few years ago cannot be realized today.

All plantation stock has declined under the influence of the sugar market. A property that was on a dividend paying basis last year may be barely earning interest today and its intrinsic value cannot fairly be based on a former assessment valuation.

Hence it is easy to see that the Territorial Treasury is affected equally with the business community. Governor Carter is expected in Honolulu at the end of this week. It is to be hoped that his first official action will be a careful study of the Territory's ways and means in conjunction with Treasurer Kepoikai.

The time for personal differences has passed. There may have been cause for them and, perhaps, there have been errors on both sides. But now a concert of action is necessary for the public welfare. Having been the first to close the door in the face of the most important official of his administration, the Governor should be broad enough to unlock it.

When this cooperation is accomplished there will be a more confident sentiment in the business community. Saturday night was rainy and perhaps to that circumstance may be laid the non-appearance at the announced Republican Territorial Central Committee meeting last Saturday night of enough members to constitute a quorum.

There are Honolulu members and proxies enough to furnish attendance sufficient to transact business and yet a rain shower prevented this attendance. A wait of a full hour was indulged in by the chairman and the secretary, together with a few others, making nine votes in all out of the sixteen necessary to make a quorum.

Then it was decided to go home and set an adjourned meeting for Saturday night next at 7:30 o'clock. Perhaps the members have not come to a realization of the importance of this month's meeting. First and foremost is the matter of the convention for the selection of delegates, six in all, to the National Republican Convention in Chicago which will name the party's standard-bearer for the presidential campaign.

This alone, it is thought, should insure the appearance on the scene of at least sixteen out of the thirty members of the Central Committee. Then there is the protest of Chas. B. Wilson against the action of the executive of the Central Committee, a matter most vital to the interests of the party.

Besides this, there are several other matters of great importance that individual members have to bring up, which is certain to call forth discussion. Chairman Crabbe makes an appeal to every member who can be present at the adjourned meeting set for Saturday night next.

INVESTIGATION BEGINS

OF DAVIS' CONDUCT WITH FORMAL CHARGE

Hearing in the self-sought investigation of the professional conduct of Attorney George A. Davis in the United States District Court will begin on Monday morning next.

At the opening of the special February term of Federal Court at 11 o'clock this morning, U. S. District Attorney R. W. Breckons, addressing Judge Dole, read by title a motion whereby he asked leave to file an information charging Davis with unprofessional conduct and praying for his disbarment or suspension as an attorney of the court, stating that Davis had requested him as U. S. District Attorney, on December 22, to prefer such charges and pray for such disbarment or suspension.

Breckons, in his motion, also stated that this request "was duly and regularly" laid before the Attorney General of the United States and that the Attorney General has directed "that such proceedings be instituted."

Granting the motion, Judge Dole signed an order to the effect that Breckons be allowed to file the information requested and that the U. S. Marshal be commanded to summon Davis to appear before the court at 10 o'clock on Monday next, and that there be served on Davis, by the Marshal, a certified copy of the order, having attached thereto a certified copy of the information.

Judge Dole made the order for appearance for Monday next upon the statement of Mr. Breckons that he would be ready to proceed in the matter one week from today.

And the said Robert W. Breckons further prays that the said process may issue notwithstanding this information is not verified by the oath of him, the said Robert W. Breckons representing to the Court that such charges are preferred at the request of the said George A. Davis.

Alleged facts in the above information taken from the information brought against Attorney George A. Davis by Attorney General Andrews last summer, which proceedings resulted in the disbarment of respondent from Territorial practice by a majority decision of the Supreme Court, Associate Justice Galbraith dissenting.

Following are some of the witnesses likely to be called in the Federal hearing of the matter: John K. Sumner, Maria S. Davis, R. W. Davis, W. S. Ellis, John S. Ellis, Mrs. W. S. Ellis, Mrs. J. S. Ellis, Eugene Buffandeau, Mrs. Buffandeau (Victoria Ellis Buffandeau), Chief Justice Frear, Associate Justice Perry, Associate Justice Galbraith, Judge T. De Bolt, J. A. Magoon, J. Lightfoot, Emil C. Peters (Deputy Attorney General), B. F. Dillingham.

FRIEDENTHAL IN A PIANO RECITAL Tomorrow evening Honolulu's society will hear the Friedenthal piano recital at Hawaiian Opera House and enjoy a program that has been arranged with a view of pleasing, without losing any of its classical character.

Opportunities to hear so fine an artist are only too few in Honolulu, where musical taste is of the very highest order. Trebell, Gerardy and Friedenthal have been few and far between, yet they are always much appreciated when they come.

Friedenthal is now on his third trip around the world and, after leaving Hawaii will go direct to Australia, where he has engagements which will keep him nearly three months. Thence he goes to China, India, East and South Africa and finally returning to Europe.

Friedenthal's conspicuous talents number him among the first of living pianists and he is everywhere pronounced an artist of extraordinary ability.

The program for Tuesday evening will be as follows: 1. Sonata in B Flat (the so-called "Funeral March-Sonata")... Chopin 2. A Nocturne in D Flat... Chopin 3. A Polonaise in A Flat... Chopin 4. A "Spinning Song"... Wagner-Liszt 5. "Valse from Faust"... Gounod-Liszt

INTERVAL 4. a "Storm Scene and Song of the Helmsman from 'The Flying Dutchman'"... Wagner-Friedenthal b "Nachtstueck"... Schumann 5. a "Riders' March" Schubert-Tausig 5. a "At the Lake of Wundstadt"... Liszt b "Perpetuum Mobile"... Weber 6. a "Gavotte Antique".....

TO REPORT FOR LONDON TIMES

The Pacific Mail steamship Korea arrived off port from San Francisco early this morning. She was docked at Naval Wharf No. 2 at about 9 o'clock.

The docking of the big vessel was attended with some little difficulty. As she closed up to the dock her bow swung in against it twice, smashing the solid stringer which acts as a fender-guard. This damage, however, is nominal.

The Korea experienced a pleasant and uneventful voyage with the exception of the first day or two out of San Francisco, when rather rough weather was encountered. Yesterday the weather was cloudy until the evening when rain set in.

The Korea carries a very large list of passengers, among whom are a large number for Honolulu. While some of these, such as L. L. McCandless, Mr. and Mrs. E. Bonzi, Mr. and Mrs. E. P. Low, Mr. and Mrs. E. B. McClanahan, Miss Sturgeon, L. A. Thurston and others, are well-known island people, the greater proportion of the passengers for this port are strangers.

CABLES IN CIPHER MAY NOW BE SENT

Superintendent Gaines, of the Cable Company, announced to the Bulletin today that the restrictions on cable messages to Japan had been removed and that now cipher or any other form of messages could be sent through.

Just what this means cannot, of course, be figured out, since the cable people have nothing but their orders without whys or wherefores, but certainly the radical change from the prohibitory orders of Saturday last is sufficient ground to give rise to all manner of conclusions.

When the cable people were asked what the change might indicate they stated that it was impossible for them to say. Mrs. Fox, mother of James Fox, and Miss Horner, this morning identified a number of articles which had been stolen from them among the things which Asa, the Japanese burglar, had taken and which are now in the possession of the police.

Mrs. Fox had a large mirror and some large framed pictures stolen. Detective Renear intends to arrest some of the parties who bought articles from Asa, charging them with receiving stolen goods. The Favorite Saloon, owned by W. M. Cunningham, closed its doors this morning.

MILLIONS CARRIED

AS FREIGHT IN STEAMER CHINA

The steamship China arrived off port from the Orient early this morning. She was docked at the Hackfeld wharf at about 11 o'clock. The China experienced good weather throughout the voyage until last night, when heavy rains were encountered.

The China carries a large list of passengers, of whom no less than seventeen will stop over in this city. Most of these are tourists who, after having seen the strange sights of China and Japan, intend to enjoy the beauties of Hawaii next.

Among the through passengers are Captain E. A. Jonas, Lieut. W. A. Edgar, Paymaster F. G. Pyne and Paymaster G. P. Venable are all United States Navy officers returning from duty on Asiatic station. There are also a number of prominent Japanese on board.

Among the steerage passengers are a couple of Hindoos, whose gaudily colored turbans loomed up picturesquely among the crowds of Orientals by whom they were surrounded.

The China brought 481 tons of freight for Honolulu. She carries for San Francisco one of the most valuable cargoes taken across the Pacific by this route. Among the principal items is a shipment of 2,000 bales of silk, valued at about \$600 each and 787 boxes of opium worth several hundred thousand dollars. In addition to this, the China carries over two million Japanese yen in gold coin.

The China is scheduled to sail for San Francisco tonight at 8 o'clock. THEIR TIN WEDDING. Mr. and Mrs. Carl M. Taylor celebrated their tin wedding at their home on Date street, off Sheridan, last night. The house fairly swarmed with the many friends of the secretary of the Trades and Labor Council and his estimable wife, and when the good time was over and all had left for home, Mr. and Mrs. Taylor spent the remainder of the night gathering up the tinware that had been given them. As a matter of fact, there was enough to start up a store and Mr. Taylor is seriously contemplating the step. If the quantity of presents is any criterion by which to judge, the silver and golden wedding anniversaries of Mr. and Mrs. Taylor should read a very rich harvest.

THEIR LAST DANCE The Pacific Social Club gives its last dance for the season in San Antonio hall on the night of Saturday, February 13, at 8 o'clock. This is to be probably the most elaborate dance in the history of the club and, for the relief of the young men, it might be stated that although this is leap year, the ladies will not have charge. The object of the club on this occasion is a worthy one since the proceeds of the dance are to go into the treasury of the Kalih chapel. The tickets have been placed at the moderate sum of fifty cents.

A RAPID TRANSIT EPISODE.

This morning about half past ten, a tall lady with a half-sized husband, boarded a King street car, the lady was wearing her husband on her right hand, when they entered the husband looked up, and said to his wife: "You're tall enough to reach a strap, but what can I hold," she said, "If I was as short as you are, I'd hold my tongue," so he took hold of his tongue, the car started and he fell down, whereupon his dutiful spouse holloed, "What's the matter, can't you stand up?" Said hubby, "They both slipped." "Both what," said the wife. "Both my feet and my tongue," said the little husband, but let's get off the car and go and see Bath the plumber and have a look at that new line of Douglas Patent Closets that have just arrived. His telephone is 61 Main.

LAZARRE

MARY HARTWELL CATHERWOOD

(Based Upon the Mystery Surrounding the Fate of the Dauphin, Son of Louis XVI. and Marie Antoinette)

Copyright, 1901, by the BOWEN-MERRILL COMPANY

"That depends. Sometimes their friends seek them at once. We have kept a body three months in the winter season, though he turned very green."

"Are all in your present collection gathering verdure?"

"No, monsieur. We have a very fresh one, just brought in—a big, stalwart fellow with the look of the country about him."

"Small clothes?"

"Yes, monsieur."

"Buckle shoes?"

"Yes, monsieur."

"Hair light and long?"

"The very man, monsieur the marquis."

"I suppose I shall have to look at him. If he had to make himself unpleasant he should have stayed at the chateau, where his mother could identify him. He is one of my peasants come to Paris to see life. I must hold my nose and do it."

"It is not necessary to hold the nose, monsieur."

"After fourteen years perhaps not."

"I heard the snap of a snuffbox lid as the marquis fortified himself."

"My agony for the woman who was to be looked at turned so sharp that I uttered a click in my throat. But they passed her and merely glanced at my next neighbor."

"The old marquis encountered my fixed stare. Vimbly it shocked through this bill!"

Mr. Hamilton: It is not. Rights of Stockholders.

Mr. Hill of Connecticut: Then the bill is wrong from start to finish. There is not a word in it as to the amount of the capital stock, and the rights of the stockholders are not preserved in any way. They can issue stock for any purpose, either for its own line of business or any other.

It can bond itself and its franchisees to any extent; it can change its name at will; it can practically do as it pleases—just as any general partnership could do—without any restriction whatever. I have asked my question in good faith. As I understand it, there is not a State in the Union that would grant a franchise of this kind.

Mr. Robinson of Indiana: It is a special franchise; that is the reason of a resort to Congress.

Anything on Earth.

Mr. Hill of Connecticut: Certainly it is a special franchise; but no special franchise should be granted anywhere that does not specify a limit of possible capitalization—a limit of the possible privilege. But this bill proposes to give the company the right to do almost anything on earth it sees fit to do. No such franchise should be granted.

Mr. Robinson of Indiana: I will ask to have read a statement on this subject—

The Speaker: The time of the gentleman from Indiana has expired. Is there any gentleman from the Committee on the Territories desiring to be recognized in opposition to the bill?

Mr. Lilley: Mr. Speaker, I want to register my opposition to the bill. I do not know that I could say anything in opposition to it in addition to what has already been said.

The Speaker: Does the gentleman desire recognition?

Mr. Lilley: Yes, sir.

The Speaker: The gentleman is recognized for one hour.

20 Cents a Kilowatt.

Mr. Lilley: Mr. Speaker, I am very much opposed to the provision allowing a charge of 20 cents per kilowatt per hour, and also to the length of the term during which the franchise is to continue. I do not care to make any further remarks, and will yield to the gentleman from Ohio [Mr. Grosvenor].

The Speaker: How much time does the gentleman yield?

Mr. Lilley: As much time as the gentleman from Ohio wants.

Governor's Ideas.

Mr. Grosvenor: Mr. Speaker, I am surprised that this bill should have come to the House of Representatives with the sanction of the distinguished anti-monopoly and anti-corporation Member from the State of Indiana. If ever there was a proposition offered to an intelligent legislative body that undertook to give away a valuable franchise without the slightest protection to the people, this is that proposition.

In addition to what the gentleman from Connecticut [Mr. Hill] has said in regard to the lax description of the

him. He was all gray and curled and powdered instead of being clipped close and smooth in the style of the empire, an exquisite, thin featured man, high of nose and eyebrows, not large, but completely turned out as ample man and bright spirit. The slightest fragrance of scent was in his presence, and a shade of snuff on his upper lip resembled fine supercilious hairs.

I did not look at the servant of the Hotel Dieu. The old noble and I held each other with unflinching gaze.

"Do you recognize him, monsieur?"

"I do," the old noble deliberately answered. "I should know this face anywhere. Have him taken to my carriage directly."

"Your carriage, monsieur! He can be sent!"

"I said take him to my carriage."

"It shall be done. His eyes have opened since he came in. But they sometimes look as if they would speak. Their faces change constantly. This other man who is grinning tonight may be quite serious tomorrow."

"And by the end of the month sorry enough, eh?"

The servant of the Hotel Dieu tittered amiably, and I knew he was giving help to lift me off the slab when he uttered a cry of surprise. The old marquis wheeled sharply and said:

"Eh, bien! Is this another of them promenading himself?"

granted here from year to year for the past twenty years within my personal knowledge—they have always provided that the failure to comply with the conditions named in the charter shall be held to be a forfeiture.

Non constat. Now, it might be held that all this was simply a mere piece of verbiage, with no force or effect behind it. Now, this is an act to grant a great monopoly. The gentleman from Indiana [Mr. Robinson] appreciates that fact, because I find on page 5 of the report of the hearing before the committee that he himself put this question:

Would it not be safer to assume that it is practically an exclusive right that you have there and that your fair dealing is the point now at issue? It amounts practically to a monopoly, you know. These franchises necessarily do in all cities.

And yet my friend, with all his anti-monopoly bitterness and wisdom, is creating that identical monopoly and forcing it upon the people of Hawaii for thirty-five years, an irreparable and irredeemable proposition that they can not get rid of for all that time.

Mr. Robinson of Indiana: In so far as the establishment of a \$500,000 plant in a 42,000 population city forms a monopoly, it is a monopoly, except that the Government has a plant there that lights the government buildings and lights the public streets, except seventy arc lights that they buy current from for this company.

Necessary Restrictions.

Mr. Grosvenor: Oh, well, the gentleman will find that the trouble is that we are attempting to go back to old things that have passed away in the estimation of wise legislators for many years.

Mr. Robinson of Indiana: I have a list—

Mr. Grosvenor: One moment, if you please. The Territorial Legislature of the island has the power to provide by a general law for the incorporation of these companies.

Now, that is my first proposition. They have that power under such restrictions as they may see fit to provide. Surely one of the restrictions ought to be on the amount of capital stock, and the form in which it shall be issued, and the terms upon which it may be affected by subsequent legislation, and all that, and then the people there can organize another and competing corporation.

That is the true principle of corporations today. There is no modern constitution, of all the forty-five States of the Union, that has not long ago got rid of this special-franchise provision. It always leads to trouble, and it is a monopoly that the genius of these times inveighs against. Let there be passed by this Territorial Legislature a general provision for incorporation. Let it come here, approve it if we see fit, and in the long run we shall have gotten rid of this whole subject so forcibly embodied in this measure.

PROPOSE GENERAL FRANCHISE ACT TO COVER DEMANDS OF HAWAII

The fifth section of the Congressional discussion on the Hawaiian Electric franchise, published today, gives Congressman Payne's scheme for settling the franchise question by passing a general franchise act. Mr. Grosvenor also comments on the situation.

Mr. Hamilton: Will the gentleman yield for a question?

Mr. Payne: Yes, sir; I think I am talking in your time.

Mr. Hamilton: I was very glad to yield to the gentleman.

Mr. Grosvenor rose.

Mr. Hamilton: If the gentleman from Ohio will permit me, the gentleman from New York yielded to me for the purpose of asking a question.

Mr. Payne: I think the gentleman from Michigan is entitled to the floor.

Mr. Grosvenor: I am not opposed to that, but I want to get the floor when he is through.

Mr. Robinson of Indiana: I had yielded to the gentleman from Michigan such time as he desired.

Mr. Hamilton: I want to inquire of the gentleman from New York whether in his opinion it is not possible that this bill may be amended as to the length of the franchise?

Payne Wants Substitute.

Mr. Payne: I think this bill, to be candid and frank with the gentleman, ought to be recommended to the Committee on Territories, with authority to bring in a substitute after examining into these questions. I think that would be just to the committee. I can realize how, in the hurry of the holidays and the desire of the people to have this bill introduced, it may have been put in without due examination. It might come from any committee in that way. I think it ought to go back to the committee and be fully considered and let them do the amending and bring in a substitute, and then if there is a desire to amend it—

Mr. Hamilton: There is the further fact that had some influence with the subcommittee that had the bill under consideration, and that was that the whole of the Territorial Legislature of Hawaii, the House and the Senate, Governor Dole, Governor Carter, and various committees that had it under

consideration might possibly be presumed to know something about what they wanted in relation to a franchise relating to the city of Honolulu and the island of Oahu, and might possibly be supposed to know as much about it as some Members of this House, more than 5,000 miles from there. However, this question of the length of the term of the franchise is a question which ought to be considered very carefully by the Members of this House, and there are differences of opinion in relation to it.

So far as I am concerned, as a member of the committee, I would be perfectly willing to have some amendment offered in relation to it. I hope that it may not be found necessary to send the bill back to the committee, and if there can be some understanding as to the length of the franchise which would be satisfactory, perhaps the bill, which is otherwise carefully drawn, may meet with the approval of the House.

General Franchise Act.

Mr. Payne: Let me suggest. The gentleman says that there is some difficulty about this act of the Hawaiian Legislature, and that it may be necessary for Congress to pass an act of its own independently—

Mr. Hamilton: There is that question.

Mr. Payne: That ought to be considered by the committee, and this matter of price ought to be considered by the committee. I was in hopes that the gentleman himself would move to recommend the bill.

Mr. Hamilton: Let me say to the gentleman from New York that I have not the charge of the bill on the floor.

Mr. Hill of Connecticut: I would like to ask the gentleman if this is the only franchise which this company has, or is the company organized under the general law of Hawaii with the additional power given to it under

INT QUALITY

quality of paint is the most important consideration when you're buying. Is the paint good? Will it wear well? Will it hold its gloss? Will it protect the building for the longest term of years and look well while it lasts? These are the questions to ask first in buying paint. If you ask them about The Sherwin-Williams Paint we'll say "YES."
