For Colds, Coughs, Bronchitis, Sore Throat, Influenza, and Incipient Consumption, no remedy approaches Ayer's Cherry Pectoral. WHERE IS BEN. RITCHIE?

HE ESCAPED FROM THE U. S. S. MARION LAST NIGHT.
Went Off Without Waiting to Have His Handcuffs Unlocked—Mystery Surrounding the Case.

As the result of a recent court-martial on the U. S. S. Philadelphia, Benjamin Ritchie, a fireman on the U. S. S. Marion, was sentenced to ten years' imprisonment at San Quentin, California, his crime being an offense against nature. Since the court-martial he has been confined in the Marion's brig in irons and was supposed to have been carefully guarded.

A commotion was caused on the Marion between 4 and 5 o'clock this morning when it was found that Ritchie was gone. At 11 o'clock last night he was last seen by the master-at-arms who examined his handcuffs, and there is not a man on the ship who knows what became of him afterward. Neither the officer of the deck, corporal of the guard nor sentries on duty over the prisoner or at the gangway know what became of him, and all claim to have heard no sound or splash in connection with his escape. That he did escape through the porthole of his floating prison seems to be the theory adopted, as there has scarcely been a suggestion of suicide made. If he escaped through the porthole he must have had assistance near by, as he could not swim far with handcuffs on. The handcuffs disappeared with the man and the chances are he is wearing them yet.

Commander Book has furnished a complete description of the man to the police and has offered \$20 reward for his capture. The escape of Ritchie has caused much talk on the flagship and an investigation will undoubtedly be made.

Ritchie rated as a first class fireman and has been ten years in the service.

TODAY'S COURTMARTIAL.

The single gun fired from the Philadelphia at 10 o'clock this morning called a second court-martial together for the trial of another of the Marion's men and a boy who are accused of the same offense as Ritchie. The trial was not ended at this morning's session.

The same court-martial will also try another man for the heinous offense of drinking a bottle of soda water at the boat landing while on duty. It appears that during one of the recent shore drills the company to which the man belonged backed up against a Japanese soda water stand, but had not been ordered to break ranks. The man reached out behind and grabbed a bottle of soda and was in the act of drinking it when it was knocked out of his hand by a blow from his officer's sword. Either the blow or the breaking glass cut the man's hand and on getting on board he made a complaint to the Admiral that he had been struck by an officer. The Admiral ordered him under arrest for infringing the rules while on duty and at the same time has ordered a Court of Inquiry to examine into the action of the officer in striking the bottle from his hand with his sword, as officers are not allowed to strike the men under their command.

BY POLICE AT CALLAO.

Inquiry here confirms the story coming from Lima to the effect that the State Department has lodged a demand with the United States charge of legation at Lima for the release of the mate of the American bark "Uncle John." He was ashore on December 19 last at Callao, and was arrested because of his constant demand for "Rainier Beer." On tap or in bottles at the Criterion Saloon.

Attorney General Smith has returned from his trip to Maui.

GEN. DIMOND'S ROMANCE

PRETTY MRS. THERESA ABELL CLAIMS \$10,000.

Says She Was Engaged to Harry Him and Loaned Him Money on His Insurance Policy.

Judge Morrow was engaged yesterday in the trial of the case of the Penn Mutual Life Insurance Company and Mrs. Theresa Abell, says a late Call.

Mrs. Abell claims to be the affianced of the late William Henry Dimond, and alleges that \$10,000 alleged to be due on an endowment policy on his life should be paid to her.

The insurance company is in doubt as to whether she or the Union Trust Company, representing the estate of the deceased, is entitled to the money. Hence the suit.

The deceased took out the policy on May 31, 1893, agreeing to pay \$597 per year as premium. On the 8th of June, 1893, he made an assignment of the policy in favor of Mrs. Theresa Abell, and on November 19, 1895, he revoked the assignment. Both the assignment and the revocation were made on blank forms, at the head of each appearing the printed word "absolute."

Mrs. Abell alleged that the assignment to her was therefore absolute, and that he was thereby debarred from revoking it. Counsel for the estate of the deceased contended that the assignment was not absolute, and that the printed word at the head of the blank should not be regarded.

Mrs. Abell was not allowed to testify as to the fact of her being engaged to marry Dimond, he being dead, but George D. Knowles swore that General Dimond told him that Mrs. Theresa Abell and he were engaged to be married.

Mrs. Abell testified that the policy was assigned to her in consideration of love and affection and of \$2100 loaned by her to the deceased.

The case will be taken up again on June 3.

JUDICIARY JOTTINGS.

Several Matters in Probate and Argument on Demurrer.

Judge Carter presides at Circuit Court Chambers this week.

The will of Julia H. Waterhouse is admitted to probate, Henry Waterhouse, widower of decedent, according to its terms being appointed executor without bond. W. O. Smith appeared for petitioner.

Mrs. Sarah Savidge is appointed executrix of the will of her late husband, Samuel Savidge, under \$500 bond. J. Q. Wood for petitioner, who was also present in court.

Accounts of T. R. Walker and Godfrey Brown, trustees of the Wood estate, are approved, the master's report being confirmed. J. M. Dowsett's accounts, as administrator of the estate of H. M. Stillman, are approved.

Argument was heard on demurrer this afternoon, in the case of F. F. Porter vs. Hawaiian Pork Packing Co. G. A. Davis for plaintiff; Magoon & Edings for defendant.

POLICE COURT MATTERS.

Some Heavy Sentences and Fines and a Forgery Case.

In the police court this morning after disposing of ten drunks of various ages and nationalities Judge de la Vergne rendered his decision in the case of four Chinese tried last week for conspiracy to cause the arrest and conviction of another Chinaman on the charge of having chefa tickets in possession. The court found Ah Chew not guilty and ordered his discharge. Lee Yan, Lee Chung Bank and Lee Sung were each found guilty and sentenced to one year's imprisonment at hard labor. The defendants who were convicted appealed from the decision and their bail was fixed at \$500 each.

Kupika pleaded guilty of the larceny of a \$75 bicycle from Kaimimoku, but sentence was withheld.

Ah Fui was fined a dollar and costs for throwing dirty water into the street.

Twelve Chinese were arraigned in one batch for opium in possession. Three pleaded guilty and the rest were nolle prosequit. Ah Chow and Ah Chee were fined \$50 each while Ah On, who is an old offender, was fined \$250. The latter objected to being discriminated against in this manner and has appealed his case to the Circuit Court.

Ah Sam also entered a plea of guilty of the unlawful possession of opium, but got his sentence suspended while he makes an effort to raise the money to pay his fine.

The balance of the morning was taken up with the trial of Lee Kwong Hin, who is accused of forging the name of Wong Chong of Heeia to an application on behalf of one Ah Hoy for a permit to land on these islands and to an affidavit attached to a bond in connection therewith. J. W. Girvin and four Chinese witnesses were examined for the prosecution and one for the defense when the noon hour arrived and the case went over.

COMPANY F WINS.

The Third Semi-Annual Shoot for the Marlin Rifle.

The third semi-annual shoot for the Marlin rifle to be the property of the first National Guard Company winning it three times took place on Saturday afternoon, previous to which Company B with a score of 405 and Company F with 406 had each won a match.

In Saturday's shooting the honors again fell to Company F with a score of 412, Company G being a close second with 408 and C third with 406. Company B made 401 and D with eight men 314.

Luahiwa of F and Morse of G both scored 46 and Rose of G and Johnson of F 45 each.

The shooting was close enough between four out of the five competing companies to be quite interesting to spectators and contestants alike.

PLANTS AND CHLOROFORM.

Extraordinary Effect of the Anesthetic Upon Them.

An interesting discovery of the physiology of plants made by Prof. Johannsen, of the Agricultural High School of Copenhagen, Denmark, is reported. The discovery is that plants are susceptible to the influence of ether or chloroform, but in this case the effect is to awaken them instead of putting them to sleep, as would be the result with human beings. Also the plants are made to grow with great rapidity, in or out of season, a fact of the greatest importance to gardeners and florists.

MANY LIVING PICTURES

THE ILLUSTRATED MAGAZINE AT THE OPERA HOUSE.

Everything Pretty Done—Leaves Had Too Much Margin—Music Rather Loud.

Only a medium house greeted the rise of the curtain on the Ma-noa Noeau, or illustrated magazine exhibition, at the Opera House on Saturday evening. Rev. F. W. Damon delivered an elegant preface before the curtain, and then the cover of the magazine was thrown on the screen. It was in rustic characters and embellished with palms and Diamond Head.

Next came the advertisements, illustrated with the merchandise set forth and living figures. They were excellent and as pretty as any of the classical and humorous tableaux of the magazine proper. Lewis & Co. had tea, the Hobron Drug Co., "Castol;" McInerney, shoes; Castle & Cooke, sewing machines; Hawaiian Cycle & Manufacturing Co., bicycles; the Hollister Drug Co., photographic apparatus; Wall, Nichols Co., musical instruments; J. T. Waterhouse, table ware, and W. W. Dimond, an entire kitchen outfit.

The frontispiece, "Herodias," designed by Mrs. Walbridge, was highly artistic. "Recollections of Switzerland," given with the magic lantern, were excellent in their way, although, on the score of time, surpluses that had better have been eliminated.

"Hawaii" was finely pictured in tableau, Miss Eva Parker gracefully posing as the tutelar nymph, while Mr. Damon recited President Dole's poem, "Mythology for the Children," with explanatory reading by Mr. Damon, comprised several scenes designed by Miss Maude Lovell Millard which were nicely presented by young people.

"Art Studies" made up the rest of the exhibition, the subjects and designers being as follows: "The Water Carrier," three views, Augusta Berger Graham; "A Case for Cupid," Helen Kelley; "Rosemary," comic, Jessie Gerhardt; "Great Expectations," coupled with "Tomorrow Will Be Friday," showing a fisherman and his luck, Bernice Parko Walbridge; "Blind Man's Buff," Minnie M. Atherton; "La Jeunesse," Minnie M. Atherton; "Evolution of the Book," D. Howard Hitchcock and E. Ella Stansbury; "Sunflower Song," with singing, Mary Dillingham Frear, and illustrated by H. Sorenson and C. Gilman.

A great deal of labor must have been incurred in getting up all of the representations, every one of which was beautifully put on the boards. Intervals though tedious were probably not longer than could have been helped, but the editors of the magazine should have done more outting than they did.

An orchestra from the Government band played between the exhibits. The music was not choice for the occasion at all, but a selection from the stock repertoire of public concerts, military parades and theatrical and minstrel performances. Besides being stale it was too loud music, full of clangs and thumps and bangs of the oriental school.

Look Out for Squalls.

The Pilot Chart of the North Pacific for June says that, to the west of the Hawaiian Islands in the vicinity of the 20th parallel, the winds will probably be from the east; while near the American coast, within the trade wind limits, northerly and northwesterly winds may be expected, instead of northeasterly winds. Frequent squalls may be expected in the trade wind region in the vicinity of the Hawaiian Islands.

THE STARS WERE BEATEN

AFTER A CLOSE AND SOMEWHAT EXCITING GAME.

Other Attractions Kept the Attendance Down—The Regiments Win a Long Drawn Out Game.

Frequent showers of rain interfered with the ball game on Saturday between the Regiments and Stars, making the ball wet and the ground slippery. Both teams were out for blood and hence there was no thought of postponing the game. Luahiwa's home run and general hard hitting were the features of the game, which lasted two hours and twenty minutes, the Regiments being victorious by a score of 15 to 14. The details of the game by innings are given below:

For the Stars Harry Wilder went to first on four balls, but was put out at third on Lishman's two-bagger. Cunha and Mahuka were put out at first.

For the Regiments Moore went to first on four balls, Gorman flew out at second, Duncan got to first on Lishman's error, Davis struck out. Luahiwa's home run brought both men in. Kaanohi failed to reach first.

In the second Pahau made first by an error of Scanlon, Ross went out on a foul fly. Pahau stole second. Babbitt made a base hit and got to third while Pahau was trying to steal home and came home on Koki's base hit. Koki was put out trying to steal second.

O'Connor made his first on a fly, stole second and scored on an overthrow to third. Scanlon and Bower struck out. Moore made a base hit and stole second. Gorman got first on Koki's error and Duncan flew out on a foul to Harry Wilder.

In the third Woods took his base on four balls and was put out at second while Harry Wilder made his first safely. Lishman flew out to Luahiwa. Cunha was put out at first.

Davis flew out to Pahau. Luahiwa made a single and stole second. Kaanohi failed to reach first as quick as the ball and O'Connor's foul fly was taken in by Wilder.

In the fourth Mahuka got the first three-bagger of the day. Robert Pahau followed with another big hit to right field but was put out at third while Mahuka scored. Ross flew out to catcher on a foul. Babbitt took his base on balls and stole second on Scanlon's error and third on Gorman's. Koki's three-bagger brought him home. Wilder was put out at first.

Scanlon, Bower and Moore each made singles. Scanlon was put out at third, Bower went to third on a passed ball. Gorman's fly was taken in by Lishman and Moore was put out at second but Bower scored in the meantime.

In the fifth Wilder failed to make first on a drive to second. Lishman made a base hit and stole second and came home on Cunha's hit to center for three bases. Cunha came home on Mahuka's three-bagger. Pahau's fly was taken in at second. Ross' single brought Mahuka home. Babbitt's two-bagger made a run for Ross. Koki was put out at first.

Davis flew out to Pahau. Luahiwa made a single. Kaanohi got his first. O'Connor's three-bagger brought in two runs. Scanlon struck out and Bower flew out to Koki.

The sixth started with an even score. Woods took his base on balls. Wilder was put out at first but Woods got to second. Lishman went out on a foul fly but Woods stole third. Cunha's fly to Kaanohi was gathered in.

Moore made a single and Gorman another. Duncan struck out. Davis was called out by the umpire for getting out of his box. Luahiwa's hit took him to third and brought in two runs. Ka-

The : Perkins : Windmill

Has Proved a Great Success in these Islands as well as in the United States.

We quote from a letter received lately from a gentleman who has had much experience with Windmills. He says:

"I have the Windmill erected and it works like a charm. I have three makes of Windmills on the Ranch, and the PERKINS gives me less trouble, than any of the others. There is 'no doubt' of its being a First-class Mill. Yours very truly, 'HONOLUA RANCH, (Maui), 'R. C. SEARLE.'"

We have Galvanized Steel Mills, 8, 10 and 12 feet. Also, Wood Mills, 10, 12, 16 and 18 feet.

We have just erected a 12 foot Galvanized Steel Perkins Windmill at Moiliili at the foot of the hill, on a wooden tower sixty feet high.

We would like to have anyone, who desires to purchase a Windmill, examine this one, or any other PERKINS MILL, and he will at once be convinced of its superiority. We have also GOULD'S PUMPS of various kinds and sizes. No better pumps than these are made and the prices are very reasonable.

If you want a Windmill or Pump, or Galvanized Pipe of all sizes for conducting water, please give us a call, and we can accommodate you.

For more than fifty years has PERRY DAVIS' PAIN KILLER stood the test against all remedies prepared to eradicate pain, and today stands at the head of the list among the medicines that are so essential to keep at hand in the home.

It is not a new fangle remedy nor do the proprietors lay claim to any wonderful revelation of the ingredients that enter into the manufacture of this ever popular remedy.

It is perfectly harmless, you need have no fear of becoming habitually inclined to its use.

For Colic, Cramps, Dysentery, Colds, and all painful affections, a few doses will certainly give relief. You cannot afford to be without a bottle in the house.

Your forefathers used it and found it beneficial.

Why experiment with some remedy that is new and its effect on the system unknown?

It has many rivals but no equal.

THE HONDURAS REVOLT.

British Captain Gives the Government Twenty Minutes to Release Prisoners.

New Orleans, La., May 26.—Dunberg, one of the Americans engaged in the Honduras revolution, has just returned here. He says the whole affair was concocted in the Louisiana Hotel in this city. A wealthy Honduran supplied the funds.

Five hundred Honduran soldiers were paid to desert the Government, but weakened at the last moment and surrendered. Some Americans and the wealthy Honduran who engineered the revolt escaped in a boat.

On the arrival of the British man-of-war Intrepid at Puerto Cortez, after the suppression of the revolt, the Government refused to release the prisoners on the British captain's demands, saying that only one Britisher was among the prisoners. The British captain gave the Government twenty minutes in which to release the prisoners, including the Americans. At the end of twenty minutes all were released.

MRS. DIMOND'S PLANS.

She Will Remain on the Stage and May Stay in San Francisco.

Mrs. Carrie Dimond is pursuing her stage ambition with unabated interest in spite of the fact that she was not quite pleased with the management of her engagement in San Francisco.

"The stage is the only thing I see ahead," said Mrs. Dimond to a Call reporter, "and I am now compelled to earn my way, so I intend to continue in my chosen profession."

Mrs. Dimond has not yet decided whether she will go on the road or accept a position in San Francisco, but she is inclined to remain here.

"It is far easier to remain here," said she yesterday, "than to count ties afoot from some distant point back here again, so I think I shall remain here. I have had several offers to remain in local theaters and I may remain right here."

Uncertainties and a Certainty.

The attention of the public is now fully occupied and diverted in the consideration and discussion of several important current and prospective happenings. Annexation, as yet unsecured, Reciprocity threatened; the coming of the Naniwa, and her mission after arrival; the outcome of the war between Greece and Turkey and, whether or no, all Europe will eventually become involved; the settlement of the quarantine squabble—are all themes of much conjecture and uncertainty, and while opinions are freely offered, none can accurately foretell the outcome of any of these matters. Nevertheless, it is becoming more apparent, as each day passes, that Buffalo and Hoffbrau are the favorite brews, and it is gratifying that assurance is given that regular shipments of these wholesome and strengthening beverages can be depended upon, and that they will, as heretofore, be dispensed at the Royal, Pacific and Cosmopolitan Saloons, and that the interchangeable check system is an established fact.

Foreign Office Notice.

This day had audience of the President, the Hon. Harold M. Sewall, who presented his credentials from the President of the United States accrediting him Envoy Extraordinary and Minister Plenipotentiary of the United States to the Republic of Hawaii.

In presenting the autograph letter of President McKinley, Mr. Sewall said:

MR. PRESIDENT: In presenting the letter of the President of the United States accrediting me as Envoy Extraordinary and Minister Plenipotentiary to reside near your Government, it is my agreeable duty not only to renew the assurances of friendship customary on such occasions, but also to add felicitations that these assurances are addressed to a sister Republic.

The Government of the United States desires to cultivate to the fullest extent its traditional friendship with Hawaii. It has a natural and deep interest in the welfare of these Islands and sets a high value on the intimacy between their people and its own. To cultivate this friendship, to demonstrate this interest as opportunity offers and to preserve this intimacy is a part of its established policy.

Coming here, not as a stranger, profoundly appreciating the regard entertained by your Government and people for the Government I represent, I confidently hope that during my service here this policy will continue to the mutual benefit of the two countries.

To which the President replied: It is gratifying, Mr. Minister, to receive from one, so long and so favorably known by our people, the renewed assurances of the friendship of the United States of America and of their interest in the welfare of Hawaii.

Permit me to express reciprocal sentiments, and especially in response to your statement that your Government sets a high value on the intimacy of the two peoples, and desires to cultivate the same as a part of its policy, to say that the cultivation of such intimacy is now and has been the policy of this Government from its inception, and that geographical and commercial relations, and racial and political sympathies, have combined to favor such intimacy.

I welcome you, as the accredited diplomatic representative of the United States of America to our Government and I trust that your stay will be beneficial to both countries and very agreeable personally to yourself.

The autograph letter of the President of the United States is as follows:

WILLIAM MCKINLEY,
President of the United States of America,

To His Excellency,
SANFORD B. DOLE,
President of Hawaii.

GREAT AND GOOD FRIEND:—I have made choice of Harold M. Sewall, one of our distinguished citizens, to reside near the Government of Hawaii in the quality of Envoy Extraordinary and Minister Plenipotentiary of the United States of America. He is well informed of the relative interests of the two countries and of our sincere desire to cultivate to the fullest extent the friendship subsisting between the two governments. My knowledge of his high character and ability gives me entire confidence that he will constantly endeavor to advance the interest and prosperity of both Governments and so render himself acceptable to Your Excellency.

I therefore request Your Excellency to receive him favorably and to give full credence to what he shall say on the part of the United States and to the assurances which I have charged him to convey to you of the best wishes of this Government for the prosperity of Hawaii.

May God have Your Excellency in His wise keeping.

Written at Washington, this 8th day of May in the year 1897.

Your good friend,
WILLIAM MCKINLEY.

By the President:
JOHN SHERMAN,
Secretary of State.

FIGURES THAT TELL.

No paper in the United States is doing better work in showing the value of Hawaiian connections than the San Francisco Examiner. Pursuing its argument on the "balance of trade" question in a recent issue, it gives tables of imports from, and domestic exports to Hawaii, also the imports and exports of gold and silver, including bullion, for the years 1877 to 1896, inclusive. In those twenty years the imports of merchandise were of a value of \$170,144,801, and exports of \$62,587,346. This left an apparent "balance of trade" of \$107,557,455 to be settled in coin for the twenty years of the reciprocity treaty. The actual shipments of gold and silver were, from Hawaii, \$1,170,607, and to Hawaii, \$10,758,298. Upon this showing, the Examiner proceeds to say:

This is, we sent \$10,758,298 of gold and silver to Hawaii in the twenty years of the reciprocity treaty and got \$1,170,607 back. The remaining \$9,588,691 is what we sent to settle that "adverse balance of trade" of \$107,557,455 over which the opponents of the treaty raise such a cry.

It is thus evident that under the operations of the Reciprocity treaty we got \$170,144,801 worth of goods in exchange for \$62,587,346 in trade and \$9,588,691 in the precious metals. It will doubtless puzzle the holders of the "balance of trade" theories to understand what has become of the other \$97,968,764 that they have imagined in some way to be "against us." There is no mystery about it. That sum is the profit of the trade to the United States, and for the most part to California. It has gone to the business men who dealt in Hawaiian products; it is in part the return for the investment of American capital in the island; it is the tribute that a debtor nation pays to the creditor nation. It is these millions that have built a fleet to carry commerce, that are laying the rails of the Valley road, that are putting up the Spreckels Building and other great structures in this city, that have built up our commerce in a thousand ways that cannot be traced.

To cut off this trade with Hawaii is to sweep away one-fourth or one-fifth of the external commerce of the port. California cannot afford a bit of folly like that.

There is an end of conflicting jurisdiction between Federal and State quarantine officials at San Francisco. It has been decided at Washington that only the permission of the Federal quarantine officer is necessary to allow a vessel to enter at the Customs, and that the local authorities have not the right of priority of inspection. Passengers arriving at that port have often been subjected to vexatious delays in landing, besides the annoyance of having their health inspected twice. Lately a steamer from Panama was passed by one doctor only to have another doctor order her into quarantine. Such a confused state of affairs is now terminated.

In the Dominion House of Commons a member asked if the attention of the Postmaster General had been called to a scurrilous attack on Queen Victoria in the New York Sun, and whether it was the intention to allow that journal to circulate through the Canadian mails. The Postmaster General replied that he had not seen the article, but on inquiry he learned that it had never been the practise of the Department to suppress any foreign newspaper

HOUSEKEEPERS who are wise will not be persuaded into purchasing the unreliable baking powders which some dealers wish to sell for the sake of the additional profit derived therefrom. Crudely mixed from low-grade, impure ingredients, such powders cost but half as much to make as the highly refined, absolutely pure Royal Baking Powder, although retailed at the same price. They are unwholesome and lacking in leavening strength.

Royal Baking Powder gives the greatest value for its cost, and there is no other baking powder or preparation that will give such satisfaction, or make such pure, wholesome and delicious food, or which in practical use will be found so economical.

ROYAL BAKING POWDER CO., 106 WALL ST., NEW-YORK.

because it might contain an attack on any member of the royal family.

Premier Laurier, answering a question in the Dominion Parliament, said that the Government had informed the Imperial authorities that it would not be bound by the Japanese treaty. The Imperial Government gave the self-governing Colonies the option of coming under the new Japanese treaty or staying out. Canada stays out, thus reserving the right to prohibit, restrict or otherwise deal with Japanese immigration.

A Danish professor is reported to have discovered that anaesthetics given up plants and make them grow fast. It would be apt to cost more than it came to, however, to dose a sugar cane plantation with chloroform, so as to get two crops instead of one in eighteen months. The discovery might be valuable, though, for rushing coffee plants in a nursery.

Regarding the communications of Minister Sewall, in presenting his credentials to President Dole, the text of the document was received too late for any more comment than to say that their spirit is exceedingly favorable to the prospect of closer relations in the future than in the past between the two countries.

What could the secretary of the French Bimetallic League have said if Bryan had been elected, when he finds that McKinley's election "gave great satisfaction to bimetallicists"?

General Weyler's horse was hit three times in a recent scrap between Spanish and Cuban. Lucky for Spain no bullet found its billet in the pacificator's writing arm.

"One thing at a time," as the House of Commons says to the Irish members.

HOUSEHOLD AND DAIRY.

The long continued drouth of this year has necessarily affected dairies, especially on this island, and its continuance bids fair to seriously affect the milk supply. Consequently it behooves dairymen to be more economical than ever in order to make both ends meet before the next rainy season. In no way can economy be practised to better advantage than in using the ALPHA-DE LAVAL CREAM SEPARATORS. Here are a few of the advantages to be gained from their use:

1. Save 10 percent. to 50 percent. in skimming.

PIANOS.

The construction is upon the most advanced principles of the Art of Piano manufacture; and no pains or expense have been spared to not only solidly construct, but to so apply the various parts that, besides their wonderful singing or tone-producing power, they would stand well in tune and in all climates. The qualities of these Pianos are Durability, Sweetness of Tone with great power, Singing or tone-carrying capacity, Evenness throughout the Scale, and Standing in Tune.
The "Eolian" Pedal, or "tone-muller," is intended for the use of beginners and students of the Piano-Forte. By its use, one derives all the benefits of touch, while doing away with the noise or monotonous tone produced in the practise of scales, chords or chromatics, which is so annoying to the listener, and of no advantage to the performer. It also saves the hammers from unnecessary wear, thereby prolonging the life of the instrument for many years.

We are now offering these elegant Pianos on the most favorable terms. Parties contemplating purchasing a Piano will do well to investigate the merits of the "KINGSBURY."

A yarn in the Advertiser this morning about the throwing of bananas aboard the Belgic on Saturday connects Clarence Crabbe with the incident. Mr. Crabbe was not there, at the Belgic's departure, but was up town attending to business.

Rev. Alex. Mackintosh has called a special meeting of the members of the Second Congregation of St. Andrew's Cathedral for 7:30 tomorrow evening in the Sunday School room to consider various matters affecting the welfare of the congregation.

The annual meeting of the Hawaiian Evangelical Association ended yesterday with the sacrament of the Lord's Supper in the afternoon at Kawaiahae church. Nearly all of the native clergy who have been in attendance leave for their respective homes on the island steamers of today and tomorrow.

THE TUG-OF-WAR.

Big Attendance for the First Night's Contests—More Pulling on Tuesday.

There was a big crowd present in the Bristol pavilion on Saturday to witness the opening contests of the tug-of-war tournament. About 8 o'clock the following officials took their positions: judge, Tom Wright; referee and starter, H. E. Walker; time keeper, Charles Crane; marker, W. Nott; and the first contesting teams were called out. The first pull was between teams from the Iron Works and the boat boys. They were very evenly matched and it took the foundrymen 33 minutes to pull their opponents the necessary 5 feet.

Teams from the U. S. S. Philadelphia and Waikiki natives next pulled, but the sailors only lasted 9 minutes.

In the third contest the Scandinavian team did not appear, so a scratch team of boat boys was made up to take their place against the Moanalua native team which won in about 10 minutes.

The tournament will continue tomorrow night, with the following program:

1. U. S. S. Marion vs. Moanalua.
2. Honolulu Iron Works vs. Waikiki.
3. Pakaka vs. U. S. S. Philadelphia.

Saturday's Luau.

Probably a thousand people visited the luau at Maternity Home on Saturday afternoon between the hours of 1 and 6, and the ladies in charge will have several hundred dollars left from the receipts after paying their bills. The native delicacies which go to form a luau proper were spread under the shed, but there were booths scattered about the grounds where ice-cream, candies, flowers, etc., could be obtained for a small consideration. The government band enlivened matters by playing all the old tunes it knew and the familiar strains of some of those old marches were wafted as far as the baseball grounds and made some of the players too tired to hit a ball.

Have You An Account?

This is a serious question, one at which some folks take offense, yet salesmen are under the necessity of asking it. Some folks deal near home, settle infrequently, never investigate to see whether they pay more than they should and too often allow their accounts to go long over due. If you don't care what the family expenses are it's a poor way to do if you want to leave your children in affluent circumstances when you are gone. Now it is quite an advantage to have an open account at a well-known house, who can execute your order promptly. Often persons say they don't want an account and will pay in a few days. But we cannot keep memoranda of charges; it isn't safe or good business. The stock found in ordinary stores is usually stale, uninviting and inferior, while the stock in our store is turned so frequently and so carefully watched that it is at all times fresh. Our stock in trade consists of the luxuries and delicacies from every civilized nation. Send for our catalogue and prices and note the variety offered. Telephone us—240. HE LEFT TOO LATE.

The Seeds of Civilization Had Already Taken Root.

The writer staid all night several years ago with a native of Missouri who had moved himself and his "little family," as he called it, of a wife and 18 children, to the backwoods of Kansas to escape the demoralizing influence of advanced civilization in Missouri.

"But I didn't come soon enough," he said regretfully to me.

"Why not?" I asked.

"Waal, my young uns got a kind of a taint o' worldliness that I ain't able to lick or argy out o' 'em. Now, there's my son Bill. He's full o' the pride o' the airth, Bill is."

Bill, a young man of about 26, long legged and full bearded, was playing with a coon in the yard.

"Now, that Bill o' mine won't go to town for anything until he's stopped an put on his shoes—drat his pride! An what ye reckon my daughter Mandy went an bought one day out o' pure worldly pride?"

"I'm sure that I couldn't guess."

"A toothbrush! Yes, sir; went an spent 10 cents for a toothbrush. Never was sich a thing heard of before in all my fam'ly. It's all pride, pride an the devil."

He groaned aloud before saying: "An my daughter Jinny's gittin so worldly she won't drink coffee out o' her sasser any more. Says she's read somewhere that it ain't the proper way to drink it! I tell ye the devil has his own way with young folks nowadays, no matter how careful they're brought up. I ketcht my son Jake cleanin his finger nails the other day an Bill's went an bought himself a white shirt to w'ar to meetin, an Jinny's gone to crimpin her ha'r. I tell ye, mister, it's kind o' hard for a father to see his younguns givin themselves up to pride an the devil like that. I didn't leave Missouri soon enough!"—Detroit Free Press.

Roast Clams. Wash the clams and drain them in a colander for a few minutes, then lay them in a large dripping pan and put the pan into a very hot oven. As soon as the shells begin to open the clams are cooked. It takes from seven to ten minutes to roast them. Have a covered dish hot, and drop the clams into it as soon as they are taken from the shell. Spread over them a mustard cream sauce and serve at once. To make the sauce: Put one cup of milk over the fire in a double boiler. When boiling, gradually stir into it three tablespoonfuls of butter, one of flour and one teaspoonful of dry mustard that have been beaten to a creamy mass. Season with salt and pepper and return to the fire. Cook three minutes, and it is ready to serve. Thin slices of brown bread, buttered, are served with roast clams.

Rattlesnakes, Butterflies, and ... ?

Washington Irving said, he supposed a certain hill was called "Rattlesnake Hill" because it abounded in—butterflies. The "rule of contrary" governs other names. Some bottles are, supposedly, labeled "Sarsaparilla" because they are full of... well, we don't know what they are full of, but we know it's not sarsaparilla; except, perhaps, enough for a flavor. There's only one make of sarsaparilla that can be relied on to be all it claims. It's Ayer's. It has no secret to keep. Its formula is open to all physicians. This formula was examined by the Medical Committee at the World's Fair with the result that while every other make of sarsaparilla was excluded from the Fair, Ayer's Sarsaparilla was admitted and honored by awards. It was admitted because it was the best sarsaparilla. It received the medal as the best. No other sarsaparilla has been so tested or so honored. Good motto for the family as well as the Fair: Admit the best, exclude the rest.

Any doubt about it? Send for the "Curebook." It kills doubts and cures doubters. Address: J. C. Ayer Co., Lowell, Mass.

The bark Martha Davis is receiving sugar. It will not be many days before she leaves for San Francisco.

The barkentine W H Dimond is loading sugar. Her white wings will be set for the voyage to the Coast in a few days.

A few hundred Chinese were released from Quarantine Island today, and were transported to the plantations in Ewa by the railway.

With the end of the sugar season, quiet days along the docks have begun. Several steamers are laid up, and their crews are taking a vacation.

The next steamer from the Coast is the P. M. S. S. Peru, which is scheduled to arrive here on June 15. The next mail steamer from Yokohama is the O & O liner Gaelic, due June 20.

Complications between France and Germany are likely to arise from the recent fatal explosion on the Russian cruiser Cizol Veliky, German newspapers asserting that the breech block blown out was made by Canet, while French authorities say it was the work of Krupp.—Exchange.

A Scheme Worth Trying.

"Say!" It was evident that the man who stood in the door of the fire engine house was terribly in earnest.

"What is it?" asked the fireman.

"You have an opportunity to prove yourself a true friend to a great many people if you are willing to do it."

"I'll do anything in reason," said the fireman. "What do you want me to do?"

"Why, you see, I live in that big apartment building on the next corner, and there's a woman in the flat above me who plays the piano all the time."

"Well, I thought maybe if I turned in a fire alarm it would give you a chance to rush up there and ruin that piano before any one had time to tell you that it was a false alarm. What? You won't? I might have known you were no true friend to humanity."—Chicago Post.

Expert Opinion.

"Uncle, you have had a good deal to do with chickens in your day, haven't you?"

"Deed I has, sah."

"And in what way, in your opinion, are the best results to be obtained—from keeping them cooped up or from letting them run at large?"

"Dat depen's, sah. Ef I done keep 'em marsef, den I gits de mose' out ole 'em by keepin' 'em in de coop, but ef mer neighbor done keep 'em den I gits de best 'zults 'fom deir runnin' koose, sah."—Boston Courier.

Have You An Account?

This is a serious question, one at which some folks take offense, yet salesmen are under the necessity of asking it. Some folks deal near home, settle infrequently, never investigate to see whether they pay more than they should and too often allow their accounts to go long over due. If you don't care what the family expenses are it's a poor way to do if you want to leave your children in affluent circumstances when you are gone. Now it is quite an advantage to have an open account at a well-known house, who can execute your order promptly. Often persons say they don't want an account and will pay in a few days. But we cannot keep memoranda of charges; it isn't safe or good business. The stock found in ordinary stores is usually stale, uninviting and inferior, while the stock in our store is turned so frequently and so carefully watched that it is at all times fresh. Our stock in trade consists of the luxuries and delicacies from every civilized nation. Send for our catalogue and prices and note the variety offered. Telephone us—240. We supply all nationalities.
