## IF BOYD DOES NOT RETURN

### HE WILL PROBABLY LOSE HIS FAT OFFICE

**SPECULATION AS TO WHAT WILL HAPPEN IF SUPERINTENDENT OF PUBLIC WORKS DOES NOT TURN UP TOMORROW.**

Before another day has passed, the clerks and subordinates of departments under the Department of Public Works will know whether they are to return to the old regime under the management of James H. Boyd, or are to have a new "boss." It is generally expected that if Boyd does not show up on the Sierra tomorrow morning, the position of Superintendent will be declared vacant, and a new appointment will be made.

Those in the department express confidence that Boyd will be here tomorrow, and that he will take hold again. His resuming charge is dependent upon more than the mere fact of his returning. There are explanations to be given into, among them being that of the \$3,000 which cannot be traced on the books of the department, and it is not at all impossible that Governor Dole may attempt to exercise the power of removal under ordinary circumstances. Boyd would be in full charge as soon as he reached Honolulu, but Secretary Cooper will not turn the department over at once.

Boyd's children are all here, and this makes it certain in the minds of those who know him that he will return by tomorrow's steamer. It is stated, moreover, that the matter of the \$3,000 is easily explainable. Boyd's last letter to Davies & Company on the subject was dated only six days before he left for San Francisco. His friends expect to hear that he has the money somewhere on special deposit, waiting to use it as provided by the agreement with Davies & Company. It is stated, moreover, that the matter of the \$3,000 is easily explainable. Boyd's last letter to Davies & Company on the subject was dated only six days before he left for San Francisco. His friends expect to hear that he has the money somewhere on special deposit, waiting to use it as provided by the agreement with Davies & Company.

The question of the power of the Governor to remove heads of departments came up several months ago, in a council meeting, as published in The Star at the time. It is reported that the Governor was on the point of calling for some resignations then, and Treasurer Wright was one of the heads of departments to consult legal advice about the power of the Governor to remove a head of a department appointed under the Organic Act. It was advised that the Governor had not such power, and until the present difficulties no effort by the Governor has been made to exercise such a power.

The Organic Act says that the Governor shall appoint the various heads of departments, "by and with the consent of the Senate," and adds the following: "He may, by and with the advice and consent of the Senate of the Territory of Hawaii, remove from office any of such officers. All such officers shall hold office for four years and until their successors are appointed and qualified, unless sooner removed." Under this provision, it is claimed, the Governor cannot remove the head of a department, unless with the advice and consent of the Senate. This applies to all but the auditor, regarding whom there is a special provision, referring to the audit act of Hawaii, which expressly provides for his suspension or removal.

Another view is that the Governor has general powers of removal, under the section of the Organic Act which declares that shall have the powers of the Executive Council of the Republic of Hawaii.

The Department of Public Works includes the Water Works, City Electrician's department, Road Supervisor, City Numberer, Garbage department, Harbor Master, and has general charge of a large number of important enterprises all over the Islands. The department has more employees than any other here.

The appointment of a new treasurer to succeed William H. Wright will probably be made soon after Boyd's return. The Governor stated recently that he was awaiting the return of Boyd before making an appointment, and it is expected that the place will be filled this week.

## The Emperor Was Willing To Meet Boers

BERLIN, October 9.—The Kaiser on September 18 notified the Boer generals that he would be prepared to receive them provided they refrained from all anti-British agitation, and sought an introduction through the British Ambassador. De Wet accepted the conditions on behalf of his comrades, but official intimation from The Hague on October 4 showed that the generals subsequently altered their minds and raised difficulties about asking audience, saying that they wished to be summoned. The matter was therefore settled negatively.

LONDON, October 9.—The Times remarks that the despatch from The Hague to the generals relieved the British Ambassador of the disagreeable necessity of conveying to the generals his government's refusal to allow them to accept an honor which would be construed as encouragement to the Boer Nationalist dream.

## IS HUMPHREYS OFF FOR WASHINGTON?

**REPORTED THAT HE GOES ON BEHALF OF S. M. DAMON TO PRESS THE RECOINAGE BILL.**

It is reported that Ex-Judge Humphreys is going to Washington, when Congress meets, in behalf of S. M. Damon, to urge the passage of the bill to repeal the Hawaiian silver money.

A bill for the same purpose was presented in Congress in 1901, and had apparently good prospect of passage when that prospect was ruined by an erroneous statement by Delegate Wilcox that the banks here discriminated against silver.

A bill for the same purpose was presented in the session of Congress which began last December, and was referred to the committee of the House on Coinage, Weights and Measures, of which Delegate Wilcox was a member. It met with some opposition, and was wrangled over considerably, and finally James H. Hakuole does not speak the dialect used or the accent spoken, used and understood by your affiant.

S. M. Damon has always taken a keen interest in the matter of the recoinage of this silver, and when the Senatorial Commission was here his views on the subject were presented to it.

Ex-Judge Humphreys was asked this afternoon, if the report were true that he was going to Washington in this behalf. He replied that, whether or not he were going was his own business.

In connection with the report that he is going, it was assumed by some that he was going today on the Sonoma. But as Congress does not meet until the first Monday in December effort in congress can not begin until then. Besides it is said, that Judge Humphreys has announced his intention of taking the stump for Wilcox before the end of the campaign.

**CUNNING, THE MAGICIAN.**

Cunning, the Magician, who displayed some remarkable feats of hypnotism and occultism here some months ago, is on his way back to the States, by the Sonoma, after touring drought-stricken Australia and prosperous New Zealand. He says he had great success in New Zealand where he spent six months. He is coming back this way in about nine months. As to Australia, where all skeptics have fared badly of late, he says: "I did pretty badly, but did you see Powell when he came back?"

## HARD WORK TO SECURE JURY

### MURDER CASE ON TRIAL

**Alleged Slayer of Captain Jacobsen In Court. Defendant Objects To Japanese Interpreter**

Dressed in a new suit of clothes purchased for him by the acting Japanese consul, Tanbara Gisaburo appeared in the United States court this morning for trial on the charge of murdering Captain Jacobsen of the schooner Wood.

In addition to the witnesses who have been confined in Oahu jail, Mrs. Jacobsen was present, though she did not enter the court, and there was a court-room crowded with jurors, sea-captains and others interested in the case.

The proceedings began with objections by F. E. Thompson to the Japanese interpreter, James K. Hakuole, Saburo Okabe and K. Ono, representatives of the consulate, swore to lengthy affidavits regarding the Japanese language and dialects, alleging that a man from the province of Okayama could not understand the language of one from Kanagawa and other provinces, while the following affidavit of the defendant himself was filed:

"Tanbara Gisaburo, being first duly sworn, deposes and says, that he is a subject of the Emperor of Japan; that he was born in the province of Okayama, Japan, of Japanese parents, in the year 1870.

"Your affiant further says, that he is wholly uneducated in the Japanese and Chinese classics; that his entire school education consists of two years attendance at the lower schools in said province of Okayama; that he is not familiar with the dialects of the provinces of the Japanese language as spoken and used in the southern provinces of Japan and more particularly the province of Okayama, Japan, as Japanese interpreter in the above entitled case.

"Signed by Japanese Tanbara Gisaburo." The affidavit of Saburo Okabe contains the following:

"And your affiant further says, that the Japanese language is a language of many dialects, accents, idioms, colloquialisms and localisms of the provinces of the Japanese language, and that one ordinarily familiar with the classical language of Japan, cannot understand and interpret the dialects, accents, colloquialisms, provincialisms and localisms of the provinces of the Japanese language as spoken and used in the southern provinces of Japan and more particularly the province of Okayama, Japan, as Japanese interpreter in the above entitled case.

"That the difference in dialects and accents as well as the difference in the application and uses of words and sentences is more pronounced in the southern provinces of Japan than in the northern provinces thereof, that certain words current in the province of Kanagawa, aforesaid, and in northern Japan are wholly unknown and unused in the southern provinces of Okayama and Hiroshima, that certain nouns and verbs, used in said province of Kanagawa, and in the northern provinces of Japan to designate and describe certain objects or actions, have entirely different meanings and applications in the provinces of Okayama and Hiroshima and the other southern provinces aforesaid.

"That your affiant further says, that by gestures and intonation of the voice, certain words and sentences in the Japanese language can be made to convey entirely different meanings; and that the Japanese language cannot be properly understood without wide familiarity with such gestures and intonation of voice.

"That in order to acquire a thorough understanding of the Japanese language such understanding as is necessary for a correct interpretation of spoken words

## CHOKED BY WEEDS AND DEBT

### KONA STOCKHOLDERS GIVE UP HOPE

**WHAT THEY HAVE PUT INTO THE PLANTATION IS GONE FOREVER—PROPOSAL TO MAKE WAY FOR ANYONE WHO CAN SAVE IT.**

A special meeting of the Kona Sugar Company has been called for next Thursday afternoon, at which very radical action is proposed. This action is stated in the call for the meeting to consider the advisability of petitioning the court to order the sale of all the property of the company.

This means, in non-technical language that the proposition is based on the belief that there will never be anything saved out of the plantation for the stockholders, that their hopes are gone forever, and that the only thing left is to sell the property so that some one can get it clear of its incubus of debt, make a plantation out of it, and so reduce the disastrous effects of the failure to a minimum.

It is said that as the plantation is being operated now only a few tons of sugar per day are being taken off. The concern is running behind in operating expense. Growing cane is being neglected so as to jeopardize the prospects for future crops.

Some of the stockholders take the view that if the plantation can be freed from all the debts except those incurred during the receivership, there is opportunity for the creation of a prosperous plantation which will give employment to numbers of a population already settled in the vicinity of the plantation, and will preserve interests that have been created on the faith of the continuation of the plantation. If the plantation can be freed from its debts it may be conducted profitably to its owners, whoever they may be, and thus aid in the general prosperity of the sugar industry and of the Islands.

The proposal therefore is to sell the plantation for whatever can be secured for it, thus wiping out the present indebtedness, leaving the property unincumbered so that money invested in it in the future will go to the development of the plantation and not to an effort to lift a mountain of debt.

If this proposed action of the stockholders is taken it will mean that the stockholders give up all hope of ever realizing anything from the money they have put in it, as most of them are convinced it is; that they will pocket their loss and get out of the way of the bondholders or anyone else who is willing and able to advance the money necessary to save the property from total destruction as a sugar plantation.

This proposed action, if taken, will put it up to the bondholders to say whether they will put up the money to buy the property, or to advance it to carry on the plantation under the receivership.

This meeting has been called after consultations between various interests on reports made by Ex-Judge Humphreys who visited the property recently as the legal adviser of S. M. Damon, the largest bondholder, and of E. E. Conant, who was recently appointed manager of the plantation by the stockholders.

Mr. Conant, who is an experienced plantation manager, reports most favorably on the possibilities of the plantation if it could once get rid of its indebtedness.

# Hot Flashes,

Blurring of the sight, rush of blood to your head, creeping sensations, numbness, dizziness, headache—don't amount to much? Well, yes! They mean that your nerves have been and are being overworked; that your nervous force is nearly exhausted, and that you are on the eve of a general break-down unless you hasten to repair the lost vitality and regain your nervous strength by taking Dr. Miles' Nervine, the great nerve food and tonic.

"I was subject to hot flashes, rush of blood to head, nervous chills, numbness, tender scalp, declining memory, irritable temper and a general run-down condition. After taking Dr. Miles' Nervine for a few months, together with Nerve and Liver Pills and a few bottles of Restorative Tonic, I am able to attend to my home duties with ease and feel well and hearty."

## DIES OF MANDATE OF SECRET SOCIETY

REFUSES REMEDIES AND NOURISHMENT AND PASSES AWAY AMID ORIENTAL DEATH CHANT.

CHICAGO, October 9.—Superstition, the mandate of a Chinese secret society, and Oriental stubbornness and indifference to the terrors of death, combined to end the life of Wong Now, proprietor of a laundry at 317 Thirty-First street, yesterday. The celestial, who had attempted to end his life by eating potash and who, finding this unavailing, slowly starved himself to death, passed away at the Provident hospital, solemnly arrayed in a black robe and cap, and surrounded by forty Chinamen who intoned the death chant of a martyr around his couch. Wong Now is declared to have been a prosperous business man, and was a nephew of Shun Phek, the wealthy proprietor of a Chinese restaurant at 304 Dearborn street. For two months he has been in the hospital, where, when he found himself recovering from the effects of the dose of potash which was self-administered, he slowly starved himself to death.

Two months ago a member of the secret society of which Wong Now was a member, a leading officer, called on him and informed him that the order had determined that it was time for him to die. He was directed to go to the hospital and to be nourished by drinking potash. Uncomplainingly, stolidly, and in mute obedience to the decree which he recognized as binding on him, Now at once obeyed. But the poison would not kill him. After a few days he was compulsorily removed to the hospital. Dr. Hall, assisted by several of the staff physicians, resorted to every known method to force nourishment on the man. That it was time for him to die was his only thought, and he stubbornly resisted every effort made to save him. Then Dr. H. O. Jones, who can speak the Chinese language, was called in, but he, too, failed to move the stubborn determination of the man to meet his end. Learning that the man was near death, over forty Chinamen gathered in the ward where Now was lying. No attendant was allowed to be present, but sounds of Chinese instruments and the monotonous chant of Oriental death songs could be heard. Gradually he grew weaker, and finally his life flickered out. The Celestials who had gathered at his bedside then slowly chanted out the strains of more funeral music and solemnly separated.

It was said that Now was married and leaves a widow and two children in China. His place on Thirty-First street had apparently been prosperous and financial affairs could not have had anything to do with his act. Now refused to disclose particulars of the secret society, only stating that his time had come and he was content to die. The hospital knows nothing of the society and nothing could be learned from the Chinamen who gathered at his bedside.

Shun Phek later told the hospital management that he would attend to the burial of the man after the coroner's office had completed its investigation. It is said that the majority of those at the hospital were members of the band which commanded Now to die. The coroner's office was notified by the management of the hospital, and before all the Celestials had left the bedside of their fellow member Coroner's Physician Springs arrived. He pronounced the death of the man to be due to starvation.

FACING A CRISIS. Education Bill May Cause Overthrow Of The Cabinet.

LONDON, October 9.—Parliament will re-assemble for the autumn session October 16, when Prime Minister Balfour will have a critical situation to face in connection with the education bill. The non-conformists throughout the country are pledging themselves to refuse to pay school taxes if the bill passes in its present shape, as a protest against the grants proposed to be made under it to schools in which sectarian religion is taught. This movement has alarmed the Ministry, and Cabinet conferences are now being held to discover some compromise with which to mollify the non-conformists without antagonizing the churchmen. The problem is a hard one and may upset the Ministry, which would mean a dissolution of Parliament. If Parliament should be dissolved a Liberal victory in the elections is deemed certain. Then King Edward would send for Lord Rosebery to organize a government. If the Earl should even succeed in forming a Ministry with a working majority behind it politicians are very doubtful whether it could last long. With Rosebery's downfall, Chamberlain's opportunity would come again. Between this education bill difficulty and the Irish British politics is becoming exciting.

X-RAY IN DENTISTRY. The X-ray is being used in dentistry with considerable success. It sometimes happens that the permanent or "second" teeth are not properly cut. The mouth is thus disfigured by the loss of the first set of teeth and the non-appearance of the second teeth. With the X-ray the dentist can determine whether the second tooth is in the gum, and if so, why it has not appeared. The obstruction is removed, a passage opened and the tooth works gradually down to its place. An operation of this kind was recently performed on a girl of 29.

SELLS COAT HANGERS. Coat hangers of his own manufacture from the stock-in-trade of Charles Ebert, a Bavarian, who is a familiar figure on Cleveland's main business streets. Evenings and stormy days he stays at home and makes the hangers. He never solicits custom, although naturally anxious enough to sell, taking the position that every one can see what he has to buy and that "chasing" trade would be useless. Ebert is from Nuremberg and has been in this country six years, selling coat-hangers all the time.

STORY OF BULLDOG. George Eliot tells a story of a bulldog and a child. The latter tried to cut the dog's ears with a pair of scissors. Although the dog howled, he made no effort to escape or retaliate. The child's father was enraged, and wished to administer due punishment, but the bulldog interfered, pushing itself between the master and child, and licking the face of the latter.

SOME FACTS.

Prince Kuhio's campaign on Maui is meeting with the same success on that island that it has had on Hawaii.

Until the Prince began his personal campaign the reasons for his leaving the Home Rule party were not understood by many of the voters.

Anyone who reads the resumes of the Prince's speeches can judge for himself how full of good republican doctrine they are.

PSUEDO-DEMOCRATS.

That section of the local Democracy which has joined the ranks of the Home Rulers is in rather a curious position.

What Mr. McCarthy and his section of the Democrats have swallowed and agreed to is their "high appreciation of the good will shown by the President and all the officers of the Executive Department of the United States."

The result of the movement of McCarthy and Co. has been to alienate the true Democrats. They are, themselves, not true Democrats, they are but Home Rulers masquerading as Democrats.

Oil as fuel for steamers is now firmly established and has proved a success both as regards speed and the reduction in the amount of hands required in the engine room.

The continuance in his ministry of the Rev. G. L. Pearson for another year will be very satisfactory not only to his congregation, but to many friends not of his church.

Not only are the lepers denouncing Wilcox in public meetings, but the mail brings screams of letters to public and private parties begging them to use their influence to defeat Wilcox.

The Hilo Dock Company was in bad way a few weeks ago. The various promoters of the scheme gradually backed out, until only one firm was left.

Judge Wilcox does not approve of so many vagrant Porto Ricans in town, and threatens a round up of the loafers who make a living, the men by stealing and the women by immoral courses.

With three courts at work, the legal business of the First Circuit must be getting into shape. The Humphreys-Gear plan was to allow two judges to loaf, while the third worked.

the other day, it is not only the Republican party of Hawaii that we range ourselves with, when we vote the Republican ticket, but we range ourselves with that great majority of thought and ability which forms the Republican party of the United States.

The actions of the last Home Rule legislature are widely known. With a legislature with such a record no capital will flow into the country. No capitalist has the slightest confidence in Home Rule, and his investments will seek other spheres, where confidence is maintained.

We need a loan for public works of various kinds. Shall we get it with a Home Rule Legislature. People will not loan money to extravagant and careless Legislators. They want stability to handle our own affairs.

GENERAL MILES' TRIP.

The earth trembles in Mindanao. General Miles will visit the Philippines.—Philadelphia Ledger.

If General Miles goes to the Philippines "he never will be missed" in this country.—Hinsdale State Journal.

When the polo men get a glimpse of General Miles they will feel ashamed that they ever undertook war.—Buffalo Evening News.

When he reaches the Philippines, General Miles can at least sit on the fence with Aguinaldo and swap army lies.—Anaconda Standard.

This is one occasion on which General Miles is probably obeying both the orders and the wishes of the commander-in-chief.—Cincinnati Enquirer.

In spite of the fact that thirty Filipino bands welcomed Governor Taft to Manila, General Miles is determined not to put off his Philippine visit. There is no doubting the General's bravery.—Denver Republican.

Even the cynical are discovering that Secretary Hay's cheerful willingness to let General Miles inspect things in the Philippines supervened after the reports indicated a general prevalence of cholera there.—Pittsburg Dispatch.

HAY'S NOTE.

Secretary Hay's note to the powers appears to have made a hit with England.—Topeka State Journal.

Maybe Hay's note did stretch the Monroe Doctrine just a little bit, but it seems to have struck a popular chord, just the same.—Philadelphia Inquirer.

Secretary Hay is hinted in Europe that he rarely fails to be vindicated by events.—Kansas City Journal.

Secretary Hay's protest concerning the ill-treatment of Roumania, Jews is not taken kindly by Russia, Austria, and Turkey. It is very evident that we do well to shun on our own side of the Atlantic for awhile yet.—Atlanta Journal.

Foreign powers think that Secretary Hay should let Roumania alone and attend to his own business; but Hay usually knows what he is about, and he rarely fails to be vindicated by events.—Kansas City Journal.

"FOR ALMOST 40 YEARS"

For almost two score of years we have built nothing but Stoves—Good Stoves.

With the largest stove plant in the world, equipped with all modern appliances that money can buy and brains can devise, employing more skilled hands than any concern in our line, steadily employed and contented mechanics, we OUGHT to build the BEST stoves and ranges in the world, and do.

The great skill and artistic temperament of our designers, men who stand highest in their particular lines, are evident in every Jewel Stove and Range.

A Jewel Stove or range is an ornament to any home.

Further than that, it is intelligently designed to meet all requirements, and does meet them successfully.

Quality—the very highest as to materials and workmanship and design is guaranteed by the Crown trade mark, which is cast on every stove and range we make.

It took us almost forty years to build up the reputation which stands back of our trade mark, a reputation which grows wider each succeeding season.

It stands to reason that we, with our immense plant, facilities, and unlimited resources, can build stoves in large numbers cheaper than smaller concerns can in smaller quantities, and with more limited facilities.

We buy raw materials from first hands, at the right time, at lowest prices, thereby enabling us to build highest grade ranges and sell them at lowest prices.

We are always aggressive, ready to meet every requirement, never allow our patterns to become out of date and operate our own pattern shop, assuring exclusive and attractive designs.

All of our ranges are made and sold under the name "Jewel" and the well known trade mark, which guarantees quality.

THE NORTH POLE.

"Hello, Peary," said the great explorer's friend "why didn't you discover the pole this time?" "Oh, I could have done so," said the traveler. "The only reason I held off was that some one would have been sure to ask me what good it did to discover it, and I'll be hanged if I have been able to think up a reason yet."—Buffalo Express.

## HAD NO JURISDICTION.

The case of Edward Campbell vs. H. Hackfeld & Company was thrown out of court this morning by Judge Estee, who rendered a written decision to the effect that the federal court had no jurisdiction. Campbell libeled Hackfeld & Company, claiming damages for injuries received in an accident which occurred while he was engaged as a stevedore unloading the bark Aeolus. The vessel and master and crew were not charged with negligence and there was no claim against the bark. Judge Estee held that the claim was not one for admiralty jurisdiction and sustained a demurrer.

## FANNING ISLAND NOW CONNECTED

CABLE SHIP ANGLIA COMPLETES FIRST PORTION OF THE BRITISH LINE—ON TO SUVA NOW.

Cable communication between Fanning Island and Victoria is now complete. The cable ship Anglia arrived at Fanning Island October 17 from Honolulu and completed the work of laying the cable from where it had been buoyed by the S. S. Colonia within a mile of the shore to Fanning Island proper. News of the completion of this part of the Canadian-Australian cable, which is the longest section of cable in the world, was brought this morning by the S. S. Sonoma which arrived from the Colonies and Fanning Island.

The Sonoma touched at Fanning Island and October 18 from Pago Pago. At the time the steamship arrived the cable ship Anglia was lying in the offing at Fanning Island after having completed the laying of the line. A boat was sent from the cable ship to the Sonoma and supplies received from the Sonoma. Cable Engineer Lucas called on the arrival of the Sonoma.

Although the cable was in communication with the outside world, the officers of the Sonoma state that no news of interest was given them by the cable officials on the Anglia. The Anglia sailed from Fanning Island on October 18 the same day that the Sonoma departed. The Anglia took up the work of laying the 2,100 miles of cable on the final link which is between Fanning Island and Suva.

## TAX APPEAL COURT

The Tax Appeal Court met again this afternoon and took up the case of M. Kawahara, who appeals from a raise of \$3,324 in his income tax. The case has been made by A. Barnes, who made the examination of his books for the Tax Collector. Barnes was called as a witness and testified that he had taken the tax collector's figures and had found that there was an increase of stock amounting to the value of \$3,824.41, and as there was no other way of accounting for it, he had put it in as profits. The tax collector had made a 25 per cent profit on one line of goods, 15 per cent on another and 5 per cent on a third. All the figures submitted, and from which the appeal was taken by Kawahara were his own calculations having been made therefrom, according to Barnes.

## MOONSHINERS ARE FOUND IN KALIHI

Deputy High Sheriff Chillingworth accompanied by a posse consisting of officers San Leslie, Henry Espinosa and Dan Benson made a very successful raid on an okoleha still this morning in a small gulch toward the head of Kalihi valley. The raid was successful in every respect, the largest haul in the history of Chillingworth's service in that line of work being made. Manuel Silva and his son Joaquin Silva, a boy about 16 years of age, were captured and charged with illicit distilling. The still was located in what is known as Kamanakiki, a small gulch running to the right from Kalihi valley. The still was probably the largest the police have ever raided and stood higher than a man. It was located close to the bank of a small stream. The still was in operation when the officers passed down upon the silvers. Nine barrels of moonshine were secured, in addition to the apparatus and some of the distilled stuff. The silvers were manufacturing the pure article, it is said, using the ti root.

The trip was very severe on the officers. They left here last night about 8:30 o'clock and made their way over ridges into gulches and up onto ridges again for hours. They did not return with the spoils until this afternoon.

The police will not turn their prisoners or the evidence over to the Federal authorities but will prosecute the men in the police court. The Hawaiian laws give the police the authority to make such seizures and Deputy Sheriff Chillingworth declares he will prosecute the present case. If the Federal authorities wish to take a hand in the matter after the police are through, they are welcome to do so he says.

## OKOLEHAO STILL CAPTURED THIS MORNING ALONG WITH ITS ALLEGED OWNERS.

## THE CHANGED FEELING IN THE STOCK MARKET

THE WHOLE LIST OF SECURITIES HAS GONE UP, AND THERE IS A STRONGER DISPOSITION TO BUY THAN SELL.

The sales reported on the stock exchange this morning included 40 shares of Waialua at \$52.50, a very decided advance over what it was only a short time ago; 20 Okala at \$4.125, a slight advance over the price of the last reported sale; and 50 each of Oiaa assessable at \$5, and paid-up at \$8. In the case both of the assessable and the paid-up, the price reported was an advance of a dollar a share over the last recorded sale.

Brokers say that the change in the atmosphere of the stock exchange and the attitude of the public since a very few weeks ago is most remarkable. Then there was a very pessimistic feeling, distrust and doubt. While holders would not sell unless compelled to do so, there was no disposition on the part of any one in the market to buy. Now there is a decided disposition to buy. There are plenty of orders for purchase, and though they are at figures much in advance of the quotations of a few weeks ago, there is little doubt among holders to part with their holdings.

There are bids of 23 for Ewa while a little while ago it could scarcely be sold for 20. Waialua which not long ago was quoted at 30 is now being sold for 52.50. Oahu has gone up from 60 at which the last sale was made to 80 bid.

It is said, "Why should people be willing to pay \$22 for Ewa now when they wouldn't pay \$20 a few weeks ago," said one broker today. "Yet there is every reason why. A few weeks ago the conditions that fix prices included a supposed excess of world's supply over world's consumption of 1,000,000 tons in the world's needs. "It is one of the most curious incidents of market conditions that ever came under my observation, this change from a 1,000,000 excess, to 1,000,000 tons shortage. It came without any premonition. It was not discounted in advance by a growing belief in a particular set of conditions. One day the whole world that deals in sugar was basing their calculations on one set of figures. The next day they were all basing them on another set. One day the tendency was all downwards, and weakness. The next day it is all upwards and strength.

"The transition here was not quite so sudden, but it was pretty abrupt, and the difference in the feeling is most marked."

## THE SONOMA MEETS STORM ON THE WAY

STOPPED AT FANNING ISLAND AND MEETS CABLE SHIP ANGLIA PURSER HODSON MARRIED.

The S. S. Sonoma arrived off port this morning from the south at an early hour. Her steaming time from Sydney which was left October 6, was 15 days 2 hours and 5 minutes. Thirty six hours after leaving Sydney, a gale was experienced. The storm lasted over a day but after the heavy weather had subsided the rest of the trip was delightful.

The Sonoma left Auckland October 16 and brought one day's later news from the outside world. In addition to stopping at Pago Pago the Sonoma dropped anchor at Fanning Island October 18, her arrival being immediately cabled to Victoria by Cable Engineer Lucas who was aboard the cable ship Anglia.

Purser G. E. Hodson of the Sonoma was married during the visit of the Sonoma in Sydney this trip. The bride being one of the society girls of Australia. She remained at Sydney, however, Mr. Hodson returning to the Sonoma and making the trip in the boat as usual.

The Sonoma brought a small amount of cargo for this port. She is very light with through freight. She has quite a good sized list of through passengers for San Francisco.

Mrs. W. Berolowitz the wife of one of the travelling salesmen of the Pacific Hardware company, returned from the Colonies this morning.

E. H. S. Von Arnheim is a German capitalist who has been visiting in Australia. He says the effects of the recent drought in that section are terrible.

John Cowan is a tourist who is returning to the United States.

The Sonoma departs at 3 p. m. today for San Francisco. She takes about 35 passengers from this port.

## OPERATOR WANTS MONEY.

Wireless Company Sued by Former Employee of Line.

An appeal has been taken to the Circuit Court in the case of William M. Mahuku vs. John Emmeluth, involving the right to occupy the "Mahuku premises" between Fort and Alakea, King and Merchant streets, Mahuku brought a suit before District Magistrate Dickey claiming that Emmeluth had failed to perform the conditions of a lease, requiring him to pay taxes on the property and erect a building thereon. Judge Dickey sustained a demurrer and an amended bill was filed. He sustained a demurrer again, and the plaintiff now appeals to the higher court. The case of R. G. Hageman vs. The Inter-Island Telegraph Company has also been appealed. Hageman was an operator for the wireless company on Lanai, and he sued for salary amounting to \$149 also charging that the company had appropriated his mosquito netting and other personal effects to the value of \$10. He afterwards withdrew the suit as to the valuable netting and effects, but Judge Dickey ruled against him on the whole proposition, and he asks the circuit court to take it up.

In the case of Mary K. Beck vs. John D. Beck, Judge De Bolt has overruled the demurrer interposed by the defendant. The case of the Dean vs. Charles E. Dean was postponed for one week. An amended bill, with a motion that it be allowed, was filed this morning in the case of Eleanor S. Dole vs. E. P. Dole.

W. S. Withers has been admitted to practice in the courts of the Territory and has filed his oath as an attorney.

who have used it, or are now using it, we have never heard of any one who has been disappointed in it. No claims are made for it except those which are amply justified by experience. In commending it to the afflicted we simply point to its record. It has done great things, and it is certain to continue the excellent work. There is—we may honestly affirm—no medicine which can be used with greater and more reasonable faith and confidence. It nourishes and keeps up the strength during those periods when the appetite fails and food cannot be digested. To avoid imitations and substitutions, this "trade mark" is put on every

bottle of "Wampole's Preparation," and without it none is genuine. It is palatable as honey and contains the nutritive and curative properties of Pure Cod Liver Oil, extracted by us from fresh cod livers, combined with the Compound Syrup of Hypophosphites and the Extracts of Malt and Wild Cherry. Taken before meals it creates an appetite, aids digestion, renews vital power, drives out disease germs, makes the blood rich, red and full of constructive elements and gives back to the pleasures and labours of the world many who had abandoned hope. Dr. S. H. McCoy, of Canada, says: "I testify with pleasure to its unlimited usefulness as a tissue builder." Its curative powers can always be relied upon. It makes a new era in medicine and represents the best medical advice of the twentieth century. Effective from the first dose. "You cannot be disappointed in it." The Claudine sailed today with a good sized list of cabin passengers. Owing to her having to take a large number of Japanese laborers from quarantine island, no deck tickets were sold. The Mauna Loa sailed today on her usual run. She took a fair sized crowd with her. The Maui sails tonight at 5 p. m., as do the W. G. Hall, Nona, Hawaii and Eclipse.

## HELENE BROUGHT FREIGHT.

The steamer Helene arrived this morning from Hawaii ports. She experienced some of the heavy weather last week, having to lay one day in Laupahoehoe on account of the heavy sea. She brought 4465 bags of sugar, 35 bags of coffee, 51 head of cattle, 1 roller shaft and 15 tons of old iron which had been part of the old Haman mill. The Helene began discharging sugar into the schooner Helene alongside the Allen & Robinson wharf.

Impure Blood

Impure blood will always make you sick. You suffer from headache, great depression, indigestion, sleeplessness, a bad skin, extreme exhaustion, and you can hardly drag yourself about.

Read what Mr. H. J. Matthews, of Wellington, New Zealand, says about this. He also sends his photograph. 'I have suffered a great deal from impure blood, especially from boils on my arms and back. I felt weak all over and was greatly depressed. I began to use Ayer's Sarsaparilla. After taking only a little of it I felt better, and soon my troubles disappeared. I believe this medicine is the best blood-purifier and the strongest tonic that any one can buy.'

THE CALIFORNIA NATIVE INDIANS

LAND DEAL BY A BOARD OF COMMISSIONERS OF WHICH BISHOP RESTARICK WAS A MEMBER.

SAN DIEGO, October 8.—Tomorrow morning the deal for the sale of the new location for the Warner Ranch Indians to the Government will be closed. The last of the releases from those having any title to the land arrived this evening and the title will be cleared upon the records of the county and turned over to the United States.

The lands embrace a total tract of 4300 acres and lie between F. More place and the Sicker mill in the Pala valley, and are about four miles west of the Pauma ranch. The Pala mission building and graveyard belonging to the Landmarks club goes with the other land.

The amount paid is, in round figures, \$48,000. The remainder of the appropriation of \$70,000 is to be used at once in buying other watered lands over the county. Of the \$39,000 set aside for moving the Indians to their new location, \$6000 is to be used at once in cementing and repairing present existing ditches which carry 197 inches of water to irrigate land in the valley. Richard Egan of Capistrano is to have charge of this work.

Bishop Restarick was one of the United States Commission who had charge of selecting the lands for the Indians and securing them. He says that the transactions spoken of in the above dispatch are the conclusion of work that has been going on for a number of years. It is an effort on the part of the government to make amends to some of its wards for neglect suffered during the times following the transfer of California from Mexico to the United States, and since.

NAVY MAKING WIRELESS TESTS.

Messages To Be Sent On Shore and At Sea Near Annapolis.

The board appointed to witness the wireless telegraph tests and to decide upon the system to be installed in the navy, of which Commander Arnold is president, met in Washington August 18, and subsequently visited the navy yard, between which point and Annapolis the apparatus of the four systems brought from Europe by Lieutenant Hudgins are to be tested. After the shore tests are made Admiral Bradford, who has been devoting much time to the question of wireless telegraph in the navy, will ask for one, and later for two, ships. The shore tests will be followed by tests from a ship at sea with a shore station, and subsequently between two vessels at sea.

It is pointed out by the naval officer-American navy is far behind European navies in the matter of wireless telegraphy. England has over thirty ships equipped with the Marconi system.

and Germany's ships are generally being fitted with wireless apparatus. Much attention is being devoted to the subject in France, where three separate boards are at work, and in Italy, where sixteen officers are devoting their entire attention to experimentation.

In the United States, on the other hand, but a single officer, Lieutenant Hudgins, so far has been detailed exclusively to this subject. The lack of progress along these lines in the navy, however, is not to be charged to Admiral Bradford, who believes that a number of capable naval officers should be assigned to the work of thoroughly equipping themselves by investigation and experimentation with this important field, and who has already recommended that such assignments could be made.

REDEEMING UNUSED STAMPS.

Will Take the Government a Few Years and Cost Millions.

WASHINGTON, D. C. October 9.—When Congress repealed the Spanish war stamp tax act and provided for the redemption of the unused stamps, it had no idea that it was imposing a task on the internal revenue commissioner that would take five or six years to complete, or that it was furnishing a demand on the treasury for anywhere from \$3,000,000 to \$10,000,000. But before the last of the unused documentary stamps has been redeemed the cost to the government both in labor and treasure will be as indicated above.

The fact that Uncle Sam imposed a tax of 2 cents on bank checks to help pay for the war with Spain will have passed from the memory of most persons long before the weary clerks in the Treasury Department get through their job of counting and recounting the stamps that have been sent in for exchange. The treasury officials have long since given up the idea of determining the number of these stamps, and they now estimate their quantity by tons. E. C. Johnson, chief of the stamp division said today he calculated that 250 tons of stamps and check books had been received to date. But the end is not yet. Every day the expressman drives up to one of the doors of the Treasury building and leaves from fifty to seventy-five boxes and bundles addressed to E. C. Johnson, Stamp Division, Treasury Department, Washington, D. C. The only encouraging thing about the business is that the size of the packages thus delivered is gradually decreasing, indicating that the greatest holdings of stamps and check books have been sent in.

In addition to entailing a heavy expense upon the department in counting, checking off, and paying for these stamps, the redemption process has assumed such proportions as now to figure prominently in the treasury finances. Secretary Shaw must take into consideration prospective drafts amounting to \$3,000,000 or \$10,000,000 from Commissioner Yerkes in estimating probable deficits and surpluses.

### THREE YEARS TO SETTLE QUESTION

#### MANY COMPLICATED TITLES TO BE EXAMINED—THE LANDS OF THE FRIARS IN PHILIPPINES.

Three years is the period of time now fixed in the minds of the officials of the War Department as requisite for a complete settlement of the Philippine friars' lands question, if it is to be adjusted on the present basis. This appears to be an extraordinary waste of time, but it is accounted for by the statement that so many and complicated are the land titles to be examined that all the resources of the Philippine civil government cannot satisfactorily adjust them in a less time. It was with a full realization of the difficulties in the way of adjustment of title by the ordinary, long, tedious and exacting Spanish method which prevails in the Philippines that Governor Taft, by direction of Secretary Root, made a proposition to the Vatican to pay down a lump sum of money for the lands, the Philippine government thereby assuming all risks of defective titles. That proposition, however, having been declined, yet the willingness to sell having been admitted on the part of religious orders, there was no way out of it but to fall back on the established methods of title settlement, and where, as in this case, the titles run back several hundred years and are held under tenures unknown to English common law practice, the settlement is bound to be very difficult.

Mgr. Guidi, who has been named as the representative of the pope, has not yet left Rome, so far as the officials here know; consequently it is not probable that the actual negotiations between himself and Governor Taft can begin at Manila much before the end of the present year, especially as much preliminary must precede the actual negotiations. It is pointed out here that the actual settlement of this protracted settlement of the friars' lands issue are the friars themselves. The Philippine government is now practically in possession of much of their property, and the municipalities from which the friars have been expelled hold most of the remainder, so that the friars' orders are in the position of waiting upon the decision of the administrators for their very sustenance. This fact is regarded here as likely to lead in the near future to a change of the Vatican program, and it would not surprise the officials here if before the negotiations have progressed very far, and the real difficulties of an adjustment were just manifesting themselves, the Vatican would suddenly decide to return to the original proposition of Governor Taft and drop the whole negotiations in favor of a prompt settlement on the basis of a lump sum.

### CONDITION OF CUBA AND ITS PROSPECTS

#### SUGGESTION THAT ANNEXATION TO THE UNITED STATES MAY ULTIMATELY COME ABOUT.

The population of the island is about a million and a half. One-third, roughly speaking, are negroes or mulattoes, and a good many more have in them a strain of colored blood. Educationally they are backward, for certainly more than half—and I have, indeed, heard it said, three-fourths—are unable to read and write, while comparatively few have received what would be called in Europe or the United States a fair secondary education. They have shown no great aptitude for commerce—the largest business firms are generally either Spanish or foreign; and they are not very efficient as laborers, certainly less efficient than either the Spaniards of old Spain or the Americans of the middle states. Except among the planters—well, indeed, they are an exceptional factor what has been said of their depressed condition—there is very little wealth in Cuban hands. Politically, the people are quite untrained; for, during the long rule of Spain there was practically no opportunity of learning how to work free institutions either in local areas or as respects the country as a whole. Spanish government was despotic, just as Spanish administration was bureaucratic.

So, too, they have had hardly any means of learning who are their own best men, and in this respect, it is unfortunate for them that they did not achieve their liberty by their unaided exertions, for, in the process of working it, the men of most natural capacity for politics would probably have been brought to the front. On the other hand, it is their good luck to be not sharply divided into sections, either by ecclesiastical or by racial issues. The Roman Church, though she still holds a good deal of property, does not appear to exert much political power, and religious issues play no conspicuous part. As respects color, though the whites deem themselves much above the negroes, they do not assert their superiority in offensive ways—partly, perhaps, because the Cubans are a polite and courteous people; nor do the negroes show animosity against the whites. Now, and then a little friction occurs—there was a case at Santiago a few months ago which roused some disquiet, but, on the whole, the relations of the races are friendly, as, indeed, is more often the case in Spanish than in Teutonic countries. Moreover, the predominance of the whites, in number as well as in wealth and knowledge, removes any occasion for serious uneasiness on their part.

Such, stated in its simplest outline, is the position in which Cuba finds herself, now that the control of her own destiny is to be restored to her, subject to those conditions which Congress has thought it to impose. And among the questions she has to decide, the most important is that of her relation to the United States, her nearest and most powerful neighbor. The Cubans are all agreed in desiring friendship, and in desiring to have the closest commercial relations. The admission of their products free of duty to the markets of the United States would be to them the greatest possible boon. But if the boon cannot be obtained except at the price of the annexation of their island to the United States, the question arises whether commercial prosperity ought to be purchased at the price of sacrifice of national independence and one hears in the island much debate on the subject.—North American Review.

#### BECKY GETS ALLOWANCE.

Judge De Bolt yesterday afternoon made an order allowing Rebecca Pance Humeke \$25 per week, a lump sum of \$1000 with which to furnish her house and \$1,250 attorney's fee for Colonel Fitch. During the afternoon W. L. Stanley, A. G. M. Robertson, F. M. Hatch and Magoon gave testimony. The city sums are to come from the corpus of the estate, while the allowance is pending a further order of the court, to be made when Magoon's statement of accounts is made.

#### KILOHANA ART LEAGUE.

At the annual meeting of the Kilohana Art League the following officers were elected: Philip H. Dodge, president; Miss A. H. Park, vice president; Mrs. Lillie G. Marshall, secretary and treasurer; William R. Castle Jr., auditor; directors, Mrs. W. M. Graham and E. A. P. Newcomb; trustees, F. A. Schaefer, C. M. Cooke, E. A. Mott-Smith, Rev. Alexander Mackintosh, H. F. Dillingham and W. M. Graham.

The children of the working circles are: Pictorial, D. Howard Hitchcock; music, Miss C. D. Castle, protea, dramatic, Mrs. W. M. Graham; literary Mrs. Healy; city improvement, W. R. Castle Jr. The old office of historian was restored and tendered to Mrs. Mabel Wing Castle. The former custom of showing membership tickets and invitations at the entrance to the Art Homes and entertainments of the League is to be restored at the present time. Members of the Art League have always had the privilege of bringing one friend and further than this there are to be tickets issued which members may purchase for their friends for any special occasion at the rate of half a dollar each.

#### WILLIE CRAWFORD STED.

William Crawford, the interpreter of Chinese, has been sued for divorce by Rebecca Crawford, who charges desertion and adultery. The couple were married in July, 1901, in Waialua.

#### BROWN MAY LEAVE.

A stipulation has been made in the John H. Estate case postponing proceedings for sixty days, in order to allow C. A. Brown to go to San Francisco. J. A. Magoon will manage the estate meanwhile.

C. A. Brown was an outgoing passenger. A dissolution of copartnership appears on page 5 of this issue. Mrs. Paul Neumann leaves by the Sonoma today for a trip to Mexico. The ship Charles E. Moody is on her way to this port from Newcastle, coal laden. Miss Josephine Palecki returns on the S. S. Sonoma today, after a pleasant stay of seven weeks. A fine line of boy's oxfords is advertised on first page by Manufacturers' Shoe Company at 3.00 pair. Clarence W. Ashford, the independent candidate for Senator, publishes his platform in this issue of the Star. The resignations of Lt. Col. Charles J. McCarthy and Major J. M. Camara from the National Guard have been accepted. On Saturday, October 25th, Jas. F. Morgan will sell at public auction some valuable water front property under foreclosure. Ah Tin was charged with leaving a horse unhitched but he forfeited bail in Judge Wilcox's court this morning and was not tried. E. M. Cheatham has been appointed inspector of the Customs service vice C. W. Cyrus resigned. Mr. Cyrus accepts a position as purser on the gasoline schooner Eclipse. Among the through passengers on the Sonoma are Mrs. and Miss Pfeil who are returning home, having made a round trip on the vessel. The annual meeting of the Woman's Christian Temperance Union is in progress this afternoon at the residence of the president, Mrs. J. M. Whitney. Mrs. and Mrs. J. K. Burkett of the department of education leave by the Sonoma today for a six weeks' vacation. Mrs. Burkett will visit relatives in Illinois. The Hobron Drug Company call attention of housekeepers to the great roach and insect destroyer Rough-on-Bugs. They tell about its value in their ad on page 5. James Kennard and Jack Weday signed articles for a ten-round boxing contest yesterday to take place November 15. The contest is for a purse of \$500. It is said. Fred A. Smith, first lieutenant of Company A, N. G. H., has been placed on the retired list at his own request. The leave of absence of Col. J. H. Soper of the National Guard has been extended to December 1. The Honolulu Baseball League has presented to Lorrin Andrews a woven gold fan with a charm representing crossed bats on a chest-protector, with catcher's mask and ball. The charm is inscribed: "To Lorrin Andrews in appreciation of his services to the Honolulu Baseball League of 1922. P. A. C. M. I. C., H. A. C., K. R. B. C., C. H. C."

**VALUABLE WATER FRONT PROPERTY AT AUCTION**

Under foreclosure of a mortgage made by Henry D. Roberts of Honolulu to the Trustee of the Estate of W. C. Lunalla, deceased, I will sell at Public Auction at my salesroom, 65 Queen street,

**ON SATURDAY, OCT. 25, AT 12 O'CLOCK NOON.**

That certain piece of land at Kuuili, Honolulu, being a part of R. P. 1757, L. C. A. 53 E. L. This property is situated in front of Oahu Prison facing the Harbor and is adjacent to the Railroad wharves. It fronts on a proposed Government road, and is now valuable as being close to the harbor and railroad, with unusual shipping facilities. Further particulars apply to W. O. SMITH, Judd Building, Honolulu.

**DELATED ONE DAY.**  
 SYDNEY, October 6.—The departure of the R. M. S. Mowara, of the Canadian-Australian line, for Vancouver, via ports, has been postponed until noon on Wednesday. The delay is due to the fact that today's holiday has interfered with the loading and coaling of the vessel.

**TWO VESSELS TOMORROW.**  
 There will probably be two mail steamers in port tomorrow. They are the S. S. Peru and the S. S. Sierra, both from San Francisco. The local agents of the Peru do not expect that vessel here until tomorrow morning. The Sierra is due then also.

**CHARGED WITH EMBEZZLEMENT**  
 Ching Kim was before Judge Wilcox this morning to answer to a charge of embezzling \$18 worth of cigars from David Lawrence. The defendant proved that he had not ordered the cigars but they had been sent to him by mistake of the dealers. He was discharged.

**PREFER WORKING FOR UNCLE SAM**  
 NATIVES AT PAGO PAGO ARE PAID A DOLLAR A DAY WHILE INDUSTRIES LANGUISH.

Tutuila and Samoa are having their labor problems now to solve. According to news brought from Pago Pago, the United States authorities are responsible for causing the natives to form a labor union and demand higher wages. R. W. Wright returned from a visit in Samoa. He related a very interesting fact connected with the labor conditions in the Samoa group. He states that the United States government has been employing the natives in various work about Tutuila and paying them at the rate of a dollar a day. This is a higher rate than the natives ever enjoyed before and the result is that the United States authorities are besieged with people who wish to work while private industries are finding it difficult to secure labor. Naturally the private concerns find a dollar a day a very high rate of wages in the islands and they have refused to pay that sum. The natives have, in consequence, refused to work unless they receive the same rate established by the American officials. It is a very hard thing now to get anybody to work under a dollar a day and numerous complaints are heard. The Samoan people are discussing the advisability of importing a limited number of Chinese laborers.

will feel well cared for if you use a good, pure soap. We are often asked to recommend some good soap; "something that won't make the hands and face feel sore, hard and dried up" is the usual complaint from those using soaps full of alkali. Alkali cuts dirt and it cuts the tissues of the skin. If you have a cut it will make it worse. Constant use of such impure soaps will ruin any complexion.

Many dollars are turned away annually by The Star in rejecting offensive and improper advertisements offered for insertion in its columns.

This is a cogent reason why The Star's advertising columns are so generally used and so widely read.
