CONTEST THE LAHAINA WATER RIGHTS

Mrs. Emma M. Nakuina and Assistant Attorney General N. W. Aluli leave this afternoon for Maui to represent the Territory in the matter of the contest with the Pioneer Mill Company, over the water rights of Lahainaluna school. The plantation company claims the rights by prescription, while the Territory claims title and is suing to compel the plantation to pay rental for water used.

The water rights are very valuable, being estimated to be worth about \$30,000. They are for valley streams which, according to the government's claims, having long been used by the plantation

without right, the matter of enforcing collections having been neglected. Recently demands were made for rental of the water rights and the plantation company claimed ownership and refused to make any payments.

Ex-Judge Kalua, District Magistrate D. H. Kahauleilo and Attorney D. H. Case appear for the plantation company. Judge Kauliokou is to hear the case as commissioner of water rights. Mrs. Nakuina is the commissioner for Oahu, and is thoroughly familiar with water rights matters and she will be of valuable assistance to the government.

PEARL HARBOR IS NOT OPEN

ONE CONCLUSION JUDGE DE BOLT IS ASKED TO REACH IN HACKFELD CASE.

The case of Clark and Henery vs. H. Hackfeld and Company has been submitted to Judge De Bolt for decision and briefs have been filed. Kinney, McClanahan and Cooper, for the defendants have filed a statement of findings of fact and law which they ask from the court. Among the findings of fact asked are the following:

"That the evidence fails to show that the defendant H. Hackfeld & Co., Ltd., is satisfied that Pearl Harbor is open to commerce or that they were even satisfied that the work to be done by plaintiffs would open said Pearl Harbor to commerce.

"That Pearl Harbor is not in fact open to commerce."

PROTESTED AGAINST THE OUTRAGE

WITNESS IN THE DAMAGE SUIT TELLS WHAT HE TOLD BALLANTYNE ABOUT IT.

The case of Mrs. Mary A. Rhodes against the Honolulu Rapid Transit and Land Company went on before Judge Gear this morning. Most of the forenoon was taken up with argument on a demurrer interposed by the defendant to an amendment to the complaint. The defendant insisted that the only cause of action against company arose out of the refusal of the conductor of the Hotel street car to give a transfer, and that no cause of action arose at all out of the action of the conductor of the second car in putting Mrs. Rhodes off the car.

Henry E. Highton, for the plaintiff, contended that the plaintiff having been refused a transfer when she was legally entitled to it, and being legally entitled to be carried to the end of the journey for which she had paid, she was entitled to damages for an injury suffered as the direct and natural result of the first wrong of the defendant, provided she acted reasonably under the circumstances.

Judge Gear held that the damages sought to be covered by the amendment were properly alleged; that the company was in no better position whether the plaintiff was injured by being compelled to walk in the rain after being

put off the car, or the same time and distance after being refused a transfer. He therefore over-ruled the demurrer.

Charles L. Rhodes was then recalled to the stand and testified as to his wife's condition of being drenched, and hysterical, and on the verge of collapse when he found her after being put off the car and being obliged to walk a long distance in the rain.

On cross examination the defendant tried to show that the plaintiff might have gone home by way of Punahou and McCully street, but Judge Gear would not allow this line of questioning because it was not cross-examination.

The witness was cross-examined at some length as to his interview with Manager Ballantyne the following day the object being to show that he "was after" the conductor who put his wife off the car, and wanted him fired. The witness stated with some warmth that he did feel outraged and aggrieved that his wife should have been put off the car in the rain, and that he thought it his duty as an individual and a citizen to protest to Ballantyne against the employment of any man in the service of the company who would commit any such outrage.

ENFORCING CUTS

The cuts made in the police department by the legislature were put into force by the High Sheriff on May 1. The cut will mean a considerable reduction in the incomes of officers, as well as a number being dropped from the force. There have been about 12 officers, including various specials, dropped. All officers receiving \$100 or less a month are reduced \$5 while all officers receiving over \$100 are cut \$10 a month.

EMPLOYEES NOTIFIED OF CUTS

SAD NEWS SENT THROUGH THE DEPARTMENTS AS A RESULT OF YESTERDAY'S CONFERENCE—GOVERNMENT EMPLOYEES ARE TOLD THAT THEIR SALARIES FOR THE PRESENT MONTH ARE CUT DOWN.

Employees of the government nearly all received bad news from their superiors in office yesterday afternoon. The notifications went through the departments that salaries had been cut. The employees were told that the cuts were in effect, and that they would receive only the reduced pay for the present month. Few of those who are cut lose less than \$25 per month by the change, and the blow fell hard upon many. The heads of departments are all cut \$75 per month each. The next step will be a lot of discharges, for a good number of employees will have to be dropped altogether, when the new laws of the special session are all put into effect.

ANOTHER AIRSHIP. Associated Press Cable to the Star. SAN FRANCISCO, May 3.—Greth's airship attempted a trip to San Jose today. For five miles the airship did well when an accident to the machinery caused it to stop and descend. The airship invented by Dr. August Greth, of San Francisco, was first tested in October of last year. At that time Greth successfully steered his cigar-shaped balloon over the city of San Francisco, his perilous flight being witnessed by thousands of people. After demonstrating that the vessel could be steered and propelled in any direction, Dr. Greth had an accident with a gas valve which prevented his motor from working and he was precipitated in San Francisco Bay from which he and his vessel were rescued. The Greth airship weighs 1,000 pounds, and has a lifting capacity of over 1,600. The propelling apparatus is operated by a gasoline motor of high power.

INDEPENDENT OF THE PUBLIC. In the trial of the suit of Mrs. Mary A. Rhodes against the Honolulu Rapid Transit and Land Company before Judge Gear yesterday afternoon, Charles L. Rhodes was on the witness stand most of the afternoon. He testified to the circumstances in connection with his wife's being put off the car, and that he had made complaint to Mr. Pratt the company's superintendent the same day and had a conversation with Mr. Ballentyne, the manager the following day, concerning the matter. Replying to a question as to what was said during that conversation, Mr. Rhodes testified that he had asked Mr. Ballentyne if it were not well for him to consider public opinion before sustaining a conductor in putting a woman off a car under the circumstances stated to which Mr. Ballentyne's reply was in substance a reference to the company's charter as showing that the company was independent of the public so far as legislative interference went. In answer to this Mr. Rhodes had told him that he knew of transportation companies elsewhere which were rudely awakened from the dreams of security from public opinion's influence in which they had indulged under their charters.

SMALLEST CROWD IN HER HISTORY

S. S. GAELIC HAS ONLY NINE CABIN PASSENGERS FOR THE ORIENT.

With the smallest crowd of passengers in her history, the S. S. Gaelic arrived this morning from San Francisco. The vessel brought three days later mail as she sailed April 26. She experienced fine weather throughout. The only vessel sighted was the S. S. China on April 29 at 9:30 p. m. in Lat. 30.47 north, Long. 141:15 west. The China arrived at San Francisco yesterday.

Only nine passengers are in the cabin of the Gaelic. The sudden dropping off in travel is probably due to the desire of many people to make the trip on the initial run of the S. S. Mongolia. This is also apt to be a slack season in Oriental travel.

The Gaelic carries the usual variety of war supplies for Japan. She will take 100 Japanese and 60 Chinese from this port as passengers.

Miss E. Franklin represents Leslie's Weekly. She is going to Yokohama. Paul H. King and wife who are going to Hong Kong, are returning to China after an absence of two years in England. He is connected with the Imperial customs service at Hong Kong.

Father Agrada, Miss Freeman and Mrs. M. A. Wilkes are going to Manila. Mr. and Mrs. R. S. Adams are a bride and groom. They were married April 18 and are now going out to Shanghai, as he is to represent the Standard Oil Company at that place.

W. H. Wickham is an electrical engineer who is going out to Hong Kong.

The Gaelic sails for the Orient at 3 p. m. today from the Hackfeld wharf.

DIVORCE CASES.

Judge Gear ordered publication of summons in the divorce suit of Caroline Colton vs. Edward Colton.

Julia Kuakini Meyers denies the allegations of cause of divorce made in the libel of Louis Meyers and expresses her unwillingness that libellant should have custody of the child.

APPEAL TO CONGRESS.

Senator Mitchell introduced during the late session of Congress a bill to appropriate money to pay the losses of fire insurance companies, in payments made for losses sustained in the Honolulu Chinatown fire of 1900. The fire claims court declined to award for such claims, on the ground that the act creating the court did not provide for losses of that character. The Mitchell bill, which was to appropriate about \$50,000, died in committee.

TO SAVE MEMORIALS.

At a meeting of the Hawaiian Mission Children's Society at Punahou Hall Saturday evening, a movement was inaugurated to secure and preserve the "old Cooke home," the first frame building brought here from New England by the missionaries, and the old Chamberlain home, built of coral which stands near it. They stand near the corner of King street and Kawalaha lane. It is hoped to interest the Hawaiian Historical Society and the Hawaiian Board in the project.

A MENACE.

That tall brick chimney at the old mill site on the brow of the hill on Market street is a constant menace to the children who play around its base. Its top is loose and sways in the wind, and if not torn down, it is liable to cause a funeral some of these days.—Maui News.

WANTS A MAUI MAN.

Five candidates for clerk of the Circuit Court are in the field, and the matter of the choice is to be passed up to the republican execution committee. Give us a Maui man.—Maui News.

MAUI'S EXPORTS.

Guava jelly, canned pineapples and bananas are rapidly coming to the front as exports from Maui and these products will one day net us a fortune a year.—Maui News.

CASES CONTINUED.

Hu Yong vs. S. M. Damon et al, was continued yesterday till Monday, May 23, for hearing. Judge Gear denying a motion for continuance till next term. Territory of Hawaii vs. Cotton Bros. & Co., action to recover the value of the Government dredge lost while in the hands of the defendants, was continued till the same date, to follow the preceding case.

OKA NOT PROSECUTED.

W. S. Fleming, Assistant Attorney General, yesterday entered a nolle prosequi for Oka, indicted for selling malt liquor without a license. The case had been moved from the secret file to the calendar on Saturday and a warrant ordered to issue for defendant's arrest.

KAANA'S ESTATE.

Judge De Bolt approved the final account and order the discharge of J. J. Dunne administrator of the estate of Kaana, deceased, allowing the administrator an attorney's fee of \$100 besides commission. W. A. Whiting, F. Andrade and J. A. Mathewman appeared for various claimants. The matter was continued until next Monday for the purpose of fixing a day certain for hearing the various claims against the estate.

ADMINISTRATOR DISCHARGED.

Judge De Bolt approved the final account and granted the discharge of M. A. Gonsalves, administrator of the estate of A. C. Pestana deceased. The administrator's allowances to the widow and children, amounting to \$556.52 were ratified. A. G. Correa, attorney for the administrator and P. L. Weaver for the widow and minors were each allowed a fee of \$25 and the master a fee of the same amount.

DOG CATCHER IS OPERATING

ROUNDED UP LOAD OF DOGS THIS MORNING BY 8 O'CLOCK—WILL CONTINUE OPERATIONS.

This was a bad day for the early dog that was looking for the bone. The dog catcher made his appearance at break of day and the result was that instead of the small army of canines securing their breakfast, they met their probable fate by running afoul of the dog catcher.

The ominous looking wagon with the cage was driven about the city this morning and two officers of whom Policeman Apama was the leading member were kept busy hissing the stray animals.

By 8 a. m. the cage was crowded with dogs. The usual assortment of stray canines composed the crowd. There were no four dogs, they had not gotten up early enough to be caught, nor were they any pet dogs in the assortment. The crowd was composed principally of odds and ends of caninism—the riff-raff of dogdom.

The bunch of nondescript was taken to the dog pound at Iwilei. They will be kept for two days and then executed. It is likely that the people who like the flavor of dog meat will profit by the enforcement of the ordinance against canines. The discarded dogs can be purchased for a few bits at the dog pound and numerous lusus will no doubt be given in honor of the coming of dog days.

That there will be an increased demand on the part of the public for collars and chains with which to tie up their pets and keep them inside of the yards, is certain. The dog catchers are not supposed to invade the private property of people in order to arrest the dogs but can take the animals that are running loose in the streets, and want lots and places of similar character. There is likely to be a rush to the tax collector's office to pay dog taxes.

THETIS ON LONG CRUISE.

SAN FRANCISCO, April 26.—The revenue cutter Thetis, Captain Hamlet, sailed yesterday for Honolulu for a brief sojourn, in the course of which Captain Hamlet will investigate the feasibility of establishing a revenue cutter station in the islands and send his report to Washington. Upon leaving Hawaii the Thetis will go direct to Alaska to visit the missionary stations, returning here late in the summer.

TO TOUR HAWAII.

Hilo April 23.—Commissioner of Public Lands Pratt announces his intention of making a tour of the island of Hawaii some time in June, with a view of securing more definite information regarding land matters.—Hilo Tribune.

BACK TO HILO.

W. A. Ray, formerly of Hilo, but now located at Lakeport, California, returned on a business trip to Hilo by the Roderick Dhu yesterday.—Hilo Tribune.

WANT THE HILL STEAMERS.

The Merchants' Association is taking up the matter of inducing the new Hill steamers to call here, on their way from Seattle to Manila. The matter will be discussed at a meeting of the association to be held tomorrow afternoon. The Chamber of Commerce will also probably take up discussion of means of inducing the steamers to make Honolulu a port of call.

ATTORNEYS AT THE FAIR.

The Bar Association has received an invitation to send representatives to the St. Louis exposition. A. G. M. Robertson and R. W. Breckons are to be in St. Louis and will probably be selected to represent the Hawaiian Bar.

SURVEYS CONDEMNED.

J. S. Emerson, surveyor of the Torrens land court, has made a report on the surveys of lands for which the five new sugar corporations on Maui recently asked for Torrens titles. The surveys are condemned as inaccurate and Emerson refuses to pass them as a basis for titles.

LARGE WHARF PLANNED.

Superintendent Holloway is preparing to advertise for bids for a new wharf, large enough to accommodate such steamers as the Mongolia. It will be paid for out of loan funds.

COHEN'S GUARANTEE.

J. C. Cohen had another conference with the governor on the subject of taking the band to the mainland, yesterday. Cohen agreed to submit in writing a proposition to take the band and guarantee fares and expenses while away.

NEW MAP OF MAUI.

The survey department has issued a new official map of Maui. It is based on surveys made in 1885 by F. S. Dodge and in 1903 by J. M. Donn. The map is an accurate one and the drawing is regarded by surveyors as excellent work.

APPEAL DISCONTINUED.

Philomena Souza vs. Senhorina Castro, assumpt, was discontinued by L. M. Straus for defendant, who had appealed from judgment for plaintiff for \$43.90 by District Magistrate Lyle A. Dickey.

COURT NOTES.

The garnishee in the suit of Eliza Roy vs. Clinton J. Hutchins, defendant, and Henry Waterhouse Trust Co., garnishee has filed a general denial of allegations. Demurrers have been filed by defendants in the foreclosure suit of First American Savings & Trust Co. vs. M. J. Montana et al.

Louis Meyers has discontinued his divorce suit against Julia Kuakini Meyers.

DISASTROUS TORANDO

The same torando that made James McInery homeless in Indiana Harbor, Ill., last week found him a new home in the Indiana penitentiary. Justice, moving almost as fast as the torando itself, has decreed that he serve five years at hard labor for bigamy. Mrs. Olive Anglin McInery of Chicago, who claims that McInery deserted her in Hamilton, Ont., 15 years ago, chanced to see his name published in the list of injured by the storm. The result was the identification and arrest of McInery, who two years ago was married to a girl of Indiana Harbor.

JAPANESE SUCCESS.

The battle fought by the Russians and Japanese over the passage of the Yalu and the subsequent engagement on the Manchurian side is variously reported by the two combatants.

Retreat, or pretended retreat, has it is true often been used as one of the ruses of war, and with success. It was the plan by which William the Conqueror won at Hastings, and has been repeated again and again since.

No sane general would throw away twenty-eight guns, a large quantity of arms and ammunition, lose over 800 men killed and wounded, twenty officers and a large number of men taken prisoners, abandon his positions and allow his foes to entrench themselves, and call it a deliberate plan to draw his enemy into a trap.

The Russians were fairly and squarely beaten, and the Japanese account of their victory is modest and no doubt correct. The Russian account has been framed to make the best of a bad case.

With the Japanese successful on land as well as at sea, the chances of the Muscovite dictating the terms of peace in the city of Tokio are not very great. The terms of peace are much more likely to be dictated by the Japanese.

There is one thing which this decisive engagement has shown, and that is that the Japanese artillery is quite as good, if not better than the Russian. It certainly is better served. Upon this point there had been some doubt, indeed it was stated at the commencement of the war that the weak arm of the Japanese was the artillery.

THE REDUCTIONS.

Retrenchment and economy are the watchwords of the Territory at the present time. We have not yet felt the pinch of it, but it will be felt this month and next, and will be felt still more after July 1.

Though economy in administration is the Governor's aim, it must not be thought that some of these cuts will be permanent. When the next legislature meets it will have to take up the question of increasing the revenue. The efficiency of every department is more or less crippled by the enormous reduction which has been called for.

SIXTY YEARS OF THE TELEGRAPH.

Sunday, May 1, was the sixtieth anniversary of the sending of the first Morse message over a telegraph wire in this country. On that day in 1844 a message was sent over the telegraph line building between Baltimore and Washington, telling of the proceedings of the convention in Baltimore which nominated Henry Clay for president.

There are now 1,764 private and government cables, having a length in nautical miles of 204,527, and there are, taking the whole world into account, more than 1,000,000 telegraph and cable messages transmitted every day of the year.

Table with 2 columns: Country, No. of Messages. Includes United States, Great Britain, France, Germany, Russia, Austria, Hungary, Italy, Belgium, Netherlands, Spain, Norway, Sweden, and a Total.

If, in addition to the telegraphic service, the statistics of telephones are added, the significance of the revolution brought about by the invention of the electric wire is intensified. In the United States taking into account only the lines of the American Bell Telephone, there are 3,281,000 miles of telephone wire and 1,277,000 telephone subscribers.

LOSSES BY THE BALTIMORE FIRE.

The total loss by the great Baltimore fire of February 7 and 8 is placed by experts at between \$45,000,000 and \$50,000,000. Of this the insurance companies will pay a trifle over \$30,000,000 to the losers, \$25,000,000 having been already paid.

AT ST. LOUIS.

The Press and the Territory of Hawaii are to be represented at St. Louis by Frank L. Hoogs.

Mr. Hoogs ranks in newspaper service in Hawaii with those who have served longest. In continuous service very few exceed him. He has given to daily journalism all of the years he has been in the islands.

To Fred W. Macfarlane Commissioner of the Territory of Hawaii to the Louisiana Purchase Exposition, much credit is due for the determination and enthusiasm under very discouraging circumstances with which he has worked to secure representation of the Territory at this great Universal Exposition.

JAPAN'S POSITION.

It has been assumed in some quarters that the Japanese might refuse to advance into Manchuria, contenting themselves with the complete possession of Korea, and thereby leave the Russians in the humiliating position of having yielded to arms and practically without a struggle what it refused to diplomatic negotiations.

Those who read the diplomatic correspondence between Japan and Russia which preceded the war will clearly recognize that Japan demanded more than this. She demanded guarantees for the territorial integrity of China, so far as the occupation of Manchuria by Russia was concerned; and she demanded guarantees for her treaty right in Manchuria.

It is clear therefore that Japan cannot stop where she is. To stop now is to leave Manchuria more firmly within the grasp of Russia than ever; it is to leave herself shut out of her treaty rights in Manchuria, and to leave every other country shut out as well. In

short it would be to abandon in large measure the grounds on which she appealed to arms, as well as to abandon the fruits of victory already won.

No, Japan cannot stop at the Yalu. She must cross over, as she has done and win substantial victories beyond. It does not follow from this that she must allow her armies to be led into Russian traps to be slaughtered from ambush as it were.

A precautionary step has been taken at St. Petersburg in the adoption of a scheme of retrenchment in internal and civil expenditure, so as to leave an augmented free balance in the Russian treasury to be devoted to war purposes. In all, the reductions, which are made professedly upon the basis of disturbing business as little as possible will amount to a little over \$67,000,000.

KUHIO INTRODUCES A BILL TO PROVIDE THAT PORTUGUESE

Delegate to Congress Kuhio has intro-

that the Portuguese on Punchbowl may
purchase their homesteads, being given
the preference, at a price to be fixed by
a United States Commission. The Por-
tuguese are at present occupying the

Kapiolani Estate and expiring in 1912.

Kuhio's bill referred to the Committee

**AMANA IN
CUSTODY**

FORMER EMPLOYE OF THE GREGG COMPANY IS REPORTED TO
HAVE BEEN CAUGHT ACCIDENTALLY AT SAN FRANCISCO
BY THE IMMIGRATION OFFICIALS—WAS EXPECTED BACK ON
THE GAELIC TODAY.

Amana, the young Chinese who is
charged with embezzling between \$1,600
and \$2,000 from the Gregg Company of
Chicago, is reported to be under arrest
in San Francisco. It was through his
ignorance of the American Chinese Ex-
clusion laws that the young man was
apprehended. Cablegrams notifying
the police of the capture of the youth
were received this week from San
Francisco.

It appears that after the alleged
shortage in the accounts of Amana
were discovered by the Gregg Company
managers by whom he was employed as
a clerk, Amana could not be located. He
disappeared completely from sight. The
police were notified of his alleged short-
age and they tried unsuccessfully to
locate him. It was supposed that he
was either in hiding or else had escap-
ed from Honolulu by some vessel. This
week information on the subject was
secured by the authorities.
Amana is said to have effected his
escape on the S. S. Siberia March 26. He
wanted to go to San Francisco. When
he arrived at San Francisco he was held
up by the immigration officials on the
ground that he was a Chinese and had
no authority to enter that port from
Hawaii. He had no papers to prove

FINISHING TOUCHES

Polishing is the only correct term to
be applied to the final work now being
done in the preparation of The Akkud
of Swat, which is to be produced Thurs-
day and Saturday evenings at the Op-
era House. And so just as polishing ev-
erywhere else brings out color and
brightness, so here the true humor of
the book and the full value of the music
becomes apparent.
Some of the costumes have been
shown, the bathing girls especially
getting used to their abbreviated dress
on last night's rehearsal. The com-
edians will add to the natural fun of
their lines too by the quaintness of their
make-up. There will be a whole series
of laughs in Guy Livingston's dress
parade, Cockney and George C. Potter
as Farmer Whiffleton is preparing a
hay-seed get up which will be seconded
only by Beakbane's Constable Clover-
top.
The mask ball will bring out bright
things all along the line and will make
the stage the prettiest picture ever seen
here.
The few seats unsold are sure to be
taken during the next two days, so
that any one as yet unplaced should
lose no time in getting their tickets.

**HAWAII AT
PRESS CONGRESS**

FRANK L. HOOGS, EDITOR AND
MANAGER OF THE STAR TO
REPRESENT THE TERRITORY.

Frank L. Hoogs, editor and manager
of The Star, leaves tomorrow on the
Alameda to attend the World's Press
Parliament, to be held at the St. Louis
Exposition, May 16 to 21. The press
congress is regarded by the fair man-
agement as one of the most important
features, and the managers have sent
numerous letters here urging that
Hawaii make an effort to send a rep-
resentative. Six special invitations
were received here from the president,
secretary and other officials of the fair.
At a meeting of those who had received
invitations the following resolution
was adopted:

"Resolved: That it is the sense of this
meeting, and it is hereby so declared,
that Frank L. Hoogs, Editor and Man-
ager of "The Hawaiian Star," of Hon-
olulu, Hawaii, be named as the repre-
sentative of the Press of Hawaii, to
participate in the World's Press Par-
liament, at the Universal Exposition,
St. Louis, from May 16th to May 21st, in-
clusive, 1904."

The press Congress at St. Louis will
be attended by representatives of the
press of every country in the world
where papers are published. Its delib-
erations will be highly interesting and
are expected to be of mutual benefit.
The representative of Hawaii will prob-
ably leave San Francisco on May 10, in
time to be present at the opening, and
expects to be away about six weeks.

Fred W. Macfarlane commissioner to
the St. Louis Exposition for Hawaii,
is delighted with the prospect of Haw-
aie being represented at the approach-
ing Press Congress which opens at St.
Louis May 16.

"I am more than pleased," said Com-
missioner Macfarlane this morning,
"over the fact that the press of Hon-
olulu have chosen some one as their
representative at the St. Louis Expo-
sition. I regard this gathering as one
which likely to prove notable in every
respect and one to which it is both a
privilege to attend, as well as to be
represented. The Administration and
the St. Louis Exposition management
realize the immense influence that the
press exerts today and they plan to
make this gathering of journalists the
most notable of the kind that has ever
been held. Lending journalists from
all parts of the world will gather at
the Congress and exchange their views
on their own profession as well as in-
ternational affairs. Such a gathering
can not fail to prove of immense ben-
efit to all those who attend it as dele-
gates as well as to the section which
they represent.

"Every previous effort to get some
representation to the Exposition from
Hawaii failed, and I am in consequence
especially delighted that this measure
of sending a delegate from Hawaii to
this Press Congress, has been success-
ful. Our representative will enable us
to have some sort of representative at
the Exposition and that his presence
in meeting people there will, advertise
and aid Hawaii, I am certain.

"The selection of Frank L. Hoogs of
the Star by the local members of the
press to represent them at the Con-
gress, meets with my own as well as
the general favor of all those mer-
chants who are especially interested in
seeing such a representative go to St.
Louis.

"The Congress opens at St. Louis
May 16 and will last for one week. I
do not know the exact nature of the
program but every effort is to be made
to have the congress a success. The
exposition management will simply outdo
themselves to render the stay of the
press enjoyable. There will, no doubt,
be opening exercises with addresses,
and so forth, after which the time of
the delegates to the Congress, will be
fully occupied by the program that has
been prepared for them."

**POLE TOO SHORT
FOR UNGLE SAM**

NEW FLAG STAFF THAT ARRIV-
ED BY THE ROBERT LEWERS
WILL NOT BE ACCEPTED.

The Quarantine Island station will
have to do without a flag pole for an-
other four months. It had been hoped
that the flag pole would be mounted
this month and Old Glory flung to the
breeze, but this hope was shattered
yesterday on the arrival of the schooner
Robert Lewers.

Some months ago bids for a flag pole
one hundred feet tall were advertised
for by Dr. Cofer of the Marine Hospi-
tal Service. Lewers and Cooke se-
cured the contract which required that
the pole should be installed on the
island. A pole 400 feet in length, was
ordered. It was shipped on the schooner
Robert Lewers from Port Gamble
some weeks ago so the arrival of that
vessel was awaited with more than
usual interest. She arrived yesterday
and about the first inquiry that Dr.
Hobby the boarding officer of the quar-
antine service made on climbing up
the vessel, was about the health of the
flag pole. "There the pole was, tall
and straight and apparently as perfect
piece of timber as had ever come out of
the northwest.

Naturally Dr. Hobby felt delighted,
as any one who takes a pride in his pro-
fession would do, but the pride was
short lived. A little tape line shattered
the dream of a patriotic flag pole, for
instead of the pole measuring the re-
quired 100 feet, it fell short about 8
feet of that measurement. The result
was that Dr. Cofer refused to accept
the pole. It was not up to specifi-
cations, so the pole will not be sold
to the government. A new one will

Never give up. No matter how ill you are. Ayer's Sarsaparilla has cured some terrible cases, and it will cure you.

Mr. Thos. H. Cashel, Barred Creek, Dripstone, New South Wales, writes: "I feel it my duty to let suffering people know what a wonderful blood-purifying medicine is Ayer's Sarsaparilla. My illness began with sharp pains in the limbs, while I was handling wet wool. After a day or two I could not walk, and suffered terrible pains. My face turned nearly black, large red blotches came out all over my body, and then I became delirious. I was in two hospitals for some time, and everything was tried, but I grew weaker and weaker, and became convinced that nothing could be done for me. I had heard so much about Ayer's Sarsaparilla that I thought I would give it a trial as the last hope. After taking one bottle I thought I felt a little better, so I procured another bottle, and then another, and still another. I gradually improved, and in due time left my bed for the first time in six months. I am now in good health, and I say to every one that Ayer's Sarsaparilla saved my life."

SEEK LESSONS FROM THE WAR

Senator Hale Thinks It Unwise to Contract for More Costly Battle-Ships For Some Time.

WASHINGTON, April 25.—Whether the President shall order the construction of the battle-ship provided for in the naval appropriation bill or wait until the war in the Far East demonstrates the comparative utility of the big sea fighter and the torpedo-boat or submarine craft, was a question raised today in the Senate by Hale of Maine, on the adoption of the conference report. It was developed that the language of the bill was permissive, and the President and the Secretary of the Navy could delay action if they deem it advisable. Hale declared that if he were Secretary of the Navy he would not dare go on now and commit the Government to the building of an immense battleship, for it would not surprise him if events of the Russian-Japanese war demonstrated that the \$150,000,000 paid for big battle-ships was a bad investment for this Government. Several other Senators counseled delay.

The military academy bill, the last of the general appropriation bills, was taken up. The Senate today passed a bill to provide for an Associate Justice of the Supreme Court of New Mexico.

The conference report on the naval appropriation bill eliminating all differences between the two houses was called up by Hale. He criticized the modern battle-ship. "I must say that if I were Secretary of the Navy, in the present condition, I should not dare to go and commit the Government to the building of another immense battle-ship. The lessons of war between Russia and Japan thus far go to show the vulnerability and the unsafety of these immense and lofty battle-ships, and the undesirability at present of committing ourselves to the further construction of them. The great and salient evils of the war how incompetent as an engine of war is one of these high-turreted battle-ships. If she is struck below the water line and the center of gravity is disturbed, she turns over like a turtle and everybody is drowned.

If an explosion takes place through hurried firing in the turret, it is more than likely to ignite the magazine, and the whole ship is blown into the air and everybody on board killed. Aside from the occurrences in the East, where the Russian battle-ships have been disabled and put out of service, we have had three explosions on our own battle-ships within a year."

Stewart expressed the opinion that the battle-ship will soon be a thing of the past and that submarine craft will take their place.

Continuing, Hale said he thought Congress should legislate on the character of battle-ships for the Navy, and not leave it to the department.

Allison said the discretion given to the President to defer action for a year was a wise one, because of the fact that a test of battle-ships was going on in a pretty lively way in the Far East.

The conference report was agreed to. McCumber called up his resolution for the revision of the pension laws. Gallingier said that a revision was now under way by a commission of competent persons, and another revision would require unnecessary work. The resolution went to the calendar without action.

The general deficiency appropriation bill was sent to conference, with Hale, Allison and Teller as conferees.

The Military Academy appropriation bill was taken up and Hale made a point of order against the amendment for the reorganization of the medical and ordnance departments of the Army.

DONT LIKE THE NAME

Mr. Beckley is not a resident of Hilo, and as far as this paper is aware has no interest here and consequently has no claim upon the people to honor his antecedents to the extent of naming the park after one of them. The name as adopted by the legislature, "Moohiau Park," will never become popular, and it is not likely that the place will ever hear the name cast upon it by the legislature.—Hawaii Herald.

HARBIN IN AN AWFUL STATE

Russians Made No Provision For Health, and Plague Is Among Diseases Expected.

PARIS, April 25.—A dispatch from Harbin gives a striking account of the horrible condition of the streets and the entire absence of sanitary arrangements in that town.

At times the state of the streets is such that the inhabitants are blockaded in their houses for two and three days, as it is impossible even for vehicles to pass through the deep mud.

There is no municipal administration, and the Russian authorities have forgotten to pave the streets, organize a corps of scavengers or make drains. All these requirements have been left to chance, and now the authorities have been overtaken by war.

Thus Harbin, which was visited by cholera two years ago, and which suffers from typhus every summer, will probably be the scene of an outbreak of plague this year. The wounded are brought from the south to be cared for at Harbin, and out of the enormous sums collected in Russia for their benefit 100,000 francs must be set aside for sweeping, cleaning and disinfecting the town in order to render it a tolerable place of residence, as otherwise it cannot, during the summer months, be anything but a center of contagion.

RUSSIA'S BIG TALK

Russia Determined To Prosecute the War With All the Resources of the Empire.

ST. PETERSBURG, April 25.—It is announced authoritatively that the talk of mediation in the Russo-Japanese war was founded upon the personal desires of King Edward and King Christian of Denmark to avoid further bloodshed and end the conflict, but that the steps initiated have utterly failed. The Emperor, with the full concurrence of the imperial family and his advisers, has firmly decided not only to reject all proposals looking to intervention, but to prosecute the war with all the resources of the Empire until victory crowns the Russian arms, and then when the time comes for peace, to make terms directly with the enemy. The interference of outside powers will not be tolerated. There is to be no repetition of the Berlin Congress.

Furthermore, it is stated that Russia will in no wise consider herself bound by the propositions made to Japan prior to the war. The hostilities have wiped out the engagements Russia offered to make with Japan regarding Korea and Manchuria. Russia will consider herself free to impose such terms as she desires.

New Industry Suggested

Governor Carter is correct in his opinion that to increase taxation is not the proper way to take care of the public indebtedness and the running expenses of the Territory. Retrenchment seems his pet scheme, but besides curtailing expenses new sources of revenue should be sought.

Take, for instance, the matter of the manufacture of spirits. There is no doubt but that the next legislature would enact a law providing for it if the governor would signify his intention not to veto it. The great waste of the large sugar mills would be converted into alcohol and rum; the waste bananas, now reaching into thousands of bunches, too small for profitable marketing on account of high freight rates, would be turned into first class brandy, and grapes, already plentiful, and many other products of the soil, would be profitably utilized. The result would be occupation to many unemployed, enhanced valuation

WALTHAM WATCHES.

The American Waltham Watch Company, Waltham, Mass., U. S. A., is the largest watch manufacturing concern in the world. The buildings have a frontage of 769 feet, with numerous wings which, if placed end to end, would extend 2,827 feet, or more than half a mile. The floor space is about six acres. The daily product of this factory is 2,700 finished watch movements, and more than 11,000,000 Waltham Watches are now in use.

All Waltham Watches are guaranteed.

ARRIVING, APRIL 28.—Am. bark Roderick Dhu, English, 14 days from San Francisco.

COMING THIS WAY

SAN FRANCISCO, April 26.—The United States steamship Thetis sailed yesterday for Honolulu, to which station the wives of the officers are looking forward with much enjoyment to a pleasant social outlook. Quite a number are booked to sail Saturday of this week on the Thomas among them Mrs. William Lindsay Maxwell, Mrs. Ernest Meade (nee Noble) and Mrs. Charles Johnson who will take with her her mother and her two young sons. Mrs. Maxwell will continue her travels on to Manila from whence she will journey through China and Japan. An Oriental trip could not fall to the lot of anyone who would appreciate its beauties and wonders more than Mrs. Maxwell, who has a well-developed taste for the artistic and is always an interested and intelligent traveler. She is, moreover, a charming and handsome young woman, with friends in the East, and world to welcome her there. Mrs. Maxwell expects to be gone only a few months, after which she will live in Honolulu during the stay of the Thetis there. Getting in the way of elaborate trouble—so say the ladies who go from cool climates toward the equator for a few weeks—to providing a tropical outfit, the need of which seems, while cool salt breezes are blowing, so utterly superfluous. The owners become so fond of their trunkful of dainty flimsy white stuffs that they immediately use their feminine privilege, grow really inconsistent and return to a cool climate with twice as many thin clothes as are worn "in China—cross the bay."—Chronicle.

NAVAL COLLIER COMING HERE

NERO SAILED FROM SAN FRANCISCO LAST MONTH FOR HONOLULU TO MEET GLASS'S FLEET. The naval collier Nero sailed from San Francisco April 23 for Honolulu. The vessel is coming here to meet Admiral Glass's fleet. The collier will have 4,000 tons of Cardiff coal aboard for the fleet. She was formerly at Panama with the American fleet, but went to San Francisco after the threatened hostilities had subsided. She should arrive here this week. The fleet is not expected until May 10. After stopping at Honolulu, the fleet accompanied by the collier, will probably proceed to Alaska to a new coaling station established at that place.

Naval Carpenter E. D. Pender has been busy the last few days assisting Captain Niblack of the U. S. S. Iroquois take the observations at Pearl Harbor in connection with the light house and buoy service work. Mr. Pender returned to the Naval Station from this work today. He leaves tomorrow on the S. S. Alameda for Mare Island where he will be examined for retirement. Pender has had considerable to do with the development of the local naval station as he was here some years ago when Admiral Merry began the work of improving the place and which had been continued so well by the succeeding commandants.

THE ELKS PROTEST

ASK THAT THEIR GAME OF SATURDAY BE PLAYED OVER AGAIN—CLAIM THAT IT WAS BEGUN LATER IN THE AFTERNOON THAN THE RULES ALLOW AND WAS NO CONTEST. The Elks have protested the baseball game awarded to the Honolulu Athletic Club on Saturday afternoon, on the ground that it was played contrary to the rules. The following letter was sent yesterday afternoon to President Isenberg of the baseball league: "Honorable D. P. R. Isenberg, President of the Board of Trustees, Honolulu Baseball League, Honolulu, T. H. "Dear Sir: In behalf of the Elks' Baseball team, I hereby protest to you, and the Board of Trustees of the Honolulu Baseball League, against the decision of Umpire Cottrell in awarding the game between the Elks' Baseball Team and the Honolulu Athletic Club, on Saturday, April 30, 1904, to the Honolulu Athletic Club, on the ground that the game was played in violation of Rule 22 of the Official Baseball Playing Rules for 1904, and ask that the decision of said Umpire, in so awarding the game, be set aside and the game replayed. Yours truly, "F. E. RICHARDSON, "Manager."

Rule 22 provides that no championship game shall be begun within two hours of sundown. The second game on Saturday was begun at about 4:50 p. m. and approaching darkness ended it at the seventh inning. The H. A. C's were ahead and were awarded the game by the decision of Referee Cottrell. The Elks claim that under the rules the game should have declared no contest.
