THE MASONIC EXCURSION.

The advent of so many of the ancient brotherhood to this "beautiful garden by the sea," from the Pacific Coast, must naturally have a beneficial result. As His Majesty remarked in his address at the banquet on Thursday last, "it is an epoch in the history of this country." It certainly will tend to cement the brotherhood, and will also bring us into closer relationship with many with whom we do business. The reception given to our visitors was, judging by the remarks made on Thursday last, duly appreciated and the various little social gatherings which have since taken place have all passed off satisfactorily. It is hoped that this excursion, which may be said to be the first of its kind, will prove an incentive to other bodies to do likewise. Visitors of such a class cannot be otherwise than welcome, the residents of these islands feeling on such occasions that it is "more blessed to give than to receive." The reception committee have done all in their power to entertain and please their guests, and they appear to have succeeded. It was a pleasing feature in the excursion to see so many ladies, all of whom, as far as we know, enjoyed the visit. It is to be hoped that the impression of the visit generally will be to induce others from the neighboring coast, to come and do likewise.

INTERESTING FIGURES.

EDITOR BULLETIN:—The last census of the Hawaiian Islands taken in December, 1884, (about 2 1/2 years ago) gave the total population to be 80,578, divided into 51,539 males and 29,039 females. In Thurston's Almanac, the ages of the former are stated as follows:—

Males.	Natives.	For.
Under 5 years	2,470	2,480
Between 5 & 15 years	3,712	2,832
" 15 & 30 "	5,552	11,271
" 30 & 50 "	6,890	11,823
Over 50 years	2,900	1,420
	21,504	20,035

Now, if from the above figures, we exclude the youngsters under 15 and the old men over 50, the number of males between 15 and 50 years of age would be as under:—

Foreigners	Percent.
25,926	62.
16,154	38.

Majority for Foreigners 9,772
Or, in other words there were then about 24 percent more able bodied foreign men on these islands than there were natives. From the total of natives there would also fall to be deducted close on 400 male lepers between the ages of 15 and 50. Since 1884 the proportions have become even more in favor of the foreign residents.

On the supposition that it is absolutely necessary for the welfare of this small group of islands that they should be ruled over by a king surrounded by sham colonels, majors, etc., and a sham army and navy, still I should ask who is "to pay the piper" for all these luxuries. The native population alone, certainly could not keep them going, for as a race they are non-producers, being quite content to vegetate in a *dolce far niente* manner so long as they have their poi and fish. Even the land owned by the natives and leased out in many cases to white men, of what value would it be, were it not for the "unearned increment," the result of foreigners' brains and capital?

Of the total exports from Hawaii in 1886, which amounted in 1886 to \$10,340,375, the native population can only lay claim to having contributed a few bunches of bananas as their share.

Further, were any other proof required, apart from the Custom House tables, to show how much the business and prosperity of the country is bound up with the presence in the land of the despised foreigners, I would beg to draw attention to the Post Office statistics. In 1885, the letters received and despatched through the G. P. O., Honolulu, was as follows:—Foreigners' letters, 382,334; Hawaiians' letters, 154,011. During the same period, the number of letters received and forwarded to foreign ports was 267,679. Of this last number, say 7,679 belonged to Hawaiians, and 260,000 to

foreigners. Combining these two classes of correspondence, the figures would stand at

Foreigners' letters	Percent.	
642,354 or about 80	73	
Hawaiians' " "	161,660	27

I have written, not from any feeling of ill will or antipathy against the native race, but merely to help point out what is now getting admitted, that we foreign residents have a perfect right to demand a larger say in the Government of the country and in the disposal of taxes than has fallen to our share in the past.

Yours, etc.,
PAKEHA.

HONOLULU FIRE DEPARTMENT.

ANNUAL ELECTION.

The annual election of a chief engineer and two assistants of the Fire Department began last evening at 7 o'clock and closed at 9. There were two tickets in the field, viz., C. B. Wilson, Chief; Frank Hustace, 1st Assistant; J. F. Morgan, 2nd Assistant, and M. D. Monsarrat, Chief; Julius Asch, 1st Assistant; Peter Souza, 2nd Assistant.

The supporters of both parties were energetic and enthusiastic in their efforts to secure success, but everything went forward orderly and good-naturedly. The two aspirants to the highest position moved around among the crowds of people, voters and non-voters, together, and were on the most friendly terms.

Mr. Henry Smith, Secretary of the Department, had charge of the ballot box, and acted as returning officer. Mr. A. Mabaulu and Mr. D. L. Apat officiated as tellers. The result of the balloting was declared by Mr. Smith as follows:—

Chief Engineer—	Percent.
M. D. Monsarrat (elected).....	196
C. B. Wilson.....	187

Total votes polled..... 383
First Assistant Engineer—
Frank Hustace (elected)..... 200
Julius Asch..... 181

Second Assistant Engineer—
James F. Morgan (elected)..... 201
Peter Souza..... 180

There were a number of disputed votes, not included in the above figures, as they did not affect the result.

Mr. Hustace and Mr. Morgan rose and stated that they declined the positions to which they had been elected. Mr. Wilson thanked those gentlemen who had voted for him. Mr. Monsarrat, the successful candidate, also thanked his supporters. A protest having been entered, Mr. Smith stated that he would refer the matter to the Board of Delegates.

Mr. Smith expressed his gratification with the quiet and orderly manner in which the election had been conducted, stating that there was a pleasing absence of the "push, push, etc." which had in former years characterized proceedings. It may be here added, that the manner in which the gentleman just named discharged his duty on the occasion was marked by impartiality and ability.

MASONIC BALL.

The closing demonstration of the Masonic festivities in honor of Mr. E. C. Atkinson, Grand Master of Masons of California and the Masonic Excursion, took place last night, at the Hawaiian Hotel, in the form of a Masonic Ball. Invitations were issued to local masons and others to meet the visiting brethren and their families on this occasion, and the number in attendance was large.

The spacious dining hall of the Hotel was cleared of furniture and arranged for dancing. Over the front entrance was placed the inscription, "Welcome Brethren," and at the other end of the hall, the words "Welcome Grand Master." The hall was also draped with Hawaiian and American flags. Dancing, of course, was the main occupation of the occasion; but those who were not so inclined, passed the time very pleasantly in agreeable conversation and listening to the music of the Band, seated around the balcony. Refreshments were served during the evening, and were available in a room near at hand any time when desired. The event was one of the most brilliant and pleasant of the entire round of festivities during the party's stay here. The electric light illuminating the grounds, and the ornamentation of Japanese lanterns all along the front balconies of the Hotel, added greatly to the beauty and picturesque quality of the scene. The more staid portion of the company began to disappear by 11 o'clock, but the younger people continued to dance.

Ashford. The following is the calendar:

PAPER BOTTLES.

The paper bottle is the latest evidence that we live in an age of paper. Car wheels, barrels, pails, washbowls and racing boats are now made from paper, or from a substance that can be only so named, although it is rather a papiermache than a texture that has been produced by the complicated appliances of a paper mill. The paper bottle is a Chicago invention. It has these advantages over the glass bottle. Less likely to break; much lighter weight; impenetrability to frost; lower cost; no packing material needed in cases. It is, like glass, unaffected by acids, if properly prepared. The only advantage possessed by the glass bottle is transparency. A decided preference for the paper bottle is predicted by the *American Grocer*.

France has more schools than any other great European country.

THE DISASTER TO A PEARL FISHING FLEET CONFIRMED.

With regard to the announcement that a pearl fishing fleet had been wrecked by a hurricane off the north-eastern coast of Australia, Mr. Streeter, of New Bond Street, who is the main organizer of the pearl fishing industry in those waters, on Friday week confirmed the news. Haynes, the captain in command, had telegraphed as follows:—"Hurricane dismasted both schooners. Five luggers and forty other craft missing." The fleet was in the Indian Ocean, off the north-west coast of Western Australia, probably about fifty miles from land. The schooners are from 100 to 150 tons burthen, and the luggers would accommodate about 30 men each. Altogether there would be between 300 and 400 men in Mr. Streeter's fleet. About 10 percent of men would be white men, the remainder Malays and other natives. The loss will be considerable, as neither the vessels nor their contents would be insured.—[The Scotsman.

Mr. Smith, of the firm of Benson, Smith & Co., will analyse the bark and buy on his own analysis. Mr. Forsyth will also make a special visit to the property of Messrs. Brewer & Jones, and will furnish those gentlemen with a detailed report on the uplands of their estate. Messrs. Wilder & Co. have given Mr. Forsyth a free pass on their steamers and railroads over the whole of the islands.

THE DEPARTURE OF THE S. S. AUSTRALIA.
Another parting of friends. Nearly all Honolulu flocked to the wharf about noon to-day to witness the steamer's departure, and to bid adieu to their dear friends. The ship's decks were crowded and as twelve o'clock approached the shaking of hands and kissing were profuse. Some one with a lusty voice gave out "three cheers for parting friends," which was heartily joined in by the crowd. It was returned from the steamer by "three cheers for the Honolulu people." At seven minutes past twelve o'clock the lines were cast off and the Australia moved on her voyage to the Coast. Noticeable among those leaving were the Rev. J. A. Cruzan and Mrs. Cruzan who leave behind them a host of friends. Bon Voyage!

ROSIE IS GONE.
Rosie's gone too soon, Rosie's gone too soon. There's heap of trouble on hand and Rosie's gone too soon, Goodbye Rosie old boy, said a impudent chap to the old Hebrew, this morning, just previous to the sailing of the Australia. I'm sorry you are going. Well I go yay if I want to, replied Rosie. Where are you going to? Do you 'spose I was going to Hongkong? 'Are you coming back? I come back if I want to. Well shake hands old man. I vout shake hands, you go yay and mind your own business. I think you are an old fraud. Well dogs may bark but they'll never bite me. And as the old fellow hobbled towards the steamer, one of the minstrel boys tried to decorate him with leis, producing considerable laughter.

CORPUS CHRISTI.
Next Thursday June 9th, is Corpus Christi (Christ Body), a day appointed by the church to celebrate the institution of the Eucharist, and called the feast of the Blessed Sacrament. Holy Thursday (Maundy Thursday) is the very day of the institution, but on that day the church is all about the consideration of Christ's Passion. Hence the setting apart of a special day, (the Thursday following Holy Trinity Sunday), to remind Christians of the infinite love of their Saviour in the institution of the Eucharist. From remote times processions took place in the streets of cities, towns and villages, wherein the Blessed Sacrament was carried with great solemnity, to be exposed to the adoration of the faithful. Nowadays, yet in Vienna, the capital of Austria, the procession of Corpus Christi is made with the most grand and solemn display, the Emperor and the Imperial family accompanying the clergy. Constantinople itself, the proud Mohammedan city, witnesses that grand spectacle of the Corpus Christi procession; the Anti-Christian Turks, and specially their army accompany the Catholic clergy carrying the Blessed Sacrament. In our little capital also it was the custom, several years ago, to have such a procession. But since, years have passed on, without enjoying the grand manifestation of the Christian faith, for want of decency on the part of the spectators, whose belief is not the Catholic belief.

SERVICES.
Next Thursday, June 9th, at the Roman Catholic Cathedral, Corpus Christi, a holy day of obligation. Religious services as follows: 6 and 7 A. M., low masses with Holy communion. 10 A. M., High mass with exposition of the Blessed Sacrament till after Benediction. 3 P. M., Rosary and Solemn Benediction of the most Blessed Sacrament.

The telegraph cable repairing steamer Volta foundered off the island of Myconus, in the Grecian Archipelago, and a portion of her crew were drowned.

A NEW RIFLE ASSOCIATION.
A rifle association has been formed at Makawao, Maui. The present roll of membership contains about 20 names, and there is every indication of an increase. The object of organization is to promote target practice. An enthusiastic meeting of the members was held last Friday at Makawao, and the Hawaiian Rifle Association's rules and regulations were adopted with a few slight changes. The officers elected are E. H. Bailey, President; Turner, manager Hueto plantation, Vice-President; W. P. A. Brewer, Treasurer; and Geo. Ashley, Secretary.

AN AMUSING SALVATION ARMY MARRIAGE.
At the marriage of the Marchese Catherine, General Booth's daughter, to Colonel Clibborn at the Salvation Army barracks in London, there was a curious scene. The young woman, tall and excitable, as well as a comely creature, as soon as the marriage was over sang a song of which one line was very encouraging to the newly-married husband. The line was, "We'll fight and never tire," and to illustrate her meaning in worldly fashion she squared off at her husband in true pugilistic shape, dodging her head and shifting her ground, and with much spirit she battered him about considerably. The immense crowd screamed and shouted. It was too much for the excitable nature of General Booth. He dragged out his venerable spouse, and they sparred right merrily at each other. When that tired them both couples began a frenzied breakdown, hanging on to each other's waists.

PICTURESQUE AND ARTISTIC ITALY.
Italy, its Art and natural Beauties, was the theme of Professor Dickinson's closing lecture last evening. Titian, Tintoretto, Grotto and other great painters were eulogised, and the beauties of the Alps and Italian lakes, Florence, Pisa and Venice were fully shown by a series of matchless views by the stereopticon. The Venetian colored illustrations showing day and moonlight in the romantic city were the finest ever seen in this city. Beginning at 7:30 p. m. the lecture lasted until nearly 9 o'clock, the audience leaving the hall with an unusual feeling of delight.

Why am I so Miserable!

So weak and languid? Why such heart aches and pain in the stomach, such acidity, and such an unpleasant taste in the mouth? Why at times such a gnawing appetite, and then again such frequent irritability, and such an inability to digest? Why does one often feel under the impression of some imaginary danger, and then at any unexpected moment, becoming agitated, and through some calamity was injured? What is the meaning of these dull, sick headaches; the violent palpitations of the heart; his faintness, his nervousness, these night sweats; this disturbed and dreamy sleep which brings no refreshing rest, but only moanings and mutterings, and the horrors of the nightmare?

The answer is: There are the symptoms of Indigestion or Dyspepsia—the beginning and the forerunner of almost every other human disease. Indigestion is a weakness or want of power of the digestive fluids of the stomach to convert the food into healthy matter for the proper nourishment of the body. It is caused most frequently by the irregularity of diet, or improper food, want of healthy exercise and pure outdoor air. It may be induced by mental distress—the shock of some great calamity. It may be, and often is, aggravated and intensified, if not originally brought on, by exhaustion from intense mental application, of physical overwork, domestic troubles, anxiety in business, or financial embarrassments. If the stomach could always be kept in order, death would no longer be a subject of fearful anxiety to the young and middle-aged, but what would be contemplated by all as a visit of an expected friend at the close of a peaceful and happy old age. However, the first hostile invader upon the domain of health and happiness is Indigestion.

Is there any relief, any remedy, any cure? That is the question of the suffering and unhappy sufferer. What is wanted is a medicine that will thoroughly renovate the stomach, bowels, liver, and kidneys, and afford speedy and effectual assistance to the digestive organs, and restore to the nervous and muscular systems their original energy. Such a medicine is happily at hand. Never in the history of medical discoveries, evidenced by a dozen years' thorough test, has there been found a remedy for Indigestion so speedy, so sure, and so surprising in its results as Siegel's Curative Syrup, and today it is a standard remedy for that almost universal affliction in every civilized country in Europe, Asia, Africa and America. It is the result of the combined efforts of military officers, bankers, merchants, ship captains, mechanics, farmers, and their wives and daughters, alike confirm its curative powers.

Nearly Raised him from the Grave.

Swiss Cottage, Walton-on-the-Naze, August 27th, 1886.

A. J. White, Limited. Dear Sirs:—It is a testimonial of any use to you respecting the remarkable cure I have derived by taking your "Siegel's Syrup," you are at liberty to make any use of this your most valuable gift. For upwards of twelve years, I have suffered from extreme Nervous Debility and Gastric Catarrh which reduced me so that I was totally unable to do any business, and caused great prostration and weakness. About three years ago I had the advice of several members of the medical faculty, and under their treatment derived little or no good. Being in town some ten months ago, I was advised to try your Curative Syrup, and purchased a bottle. I had not taken many doses before I began to feel a fresh man. I could walk with ease, while before I had had work to carry one leg before the other. My strength gradually increased and my eyesight got better, which before I frequently lost, owing to the malady arising from a sluggish liver, often in bed for several days with piles, and could hardly move. I am thankful to you and to God for nearly raising me from my grave, for it was nothing but your Siegel's Syrup that has restored me to robust health. Yours faithfully, A. RICHOLD.

Revesby, near Boston, December 21st, 1886.

A. J. White, Limited. Dear Sir:—Your Siegel's Syrup I find has an increasing sale in this neighborhood, and shall always do my best to further the sale of an article that every one that purchases speaks highly in its favor. I also have great satisfaction in saying that I quite believe my wife was permanently cured of Indigestion and Wind on the stomach, from which she had suffered intensely some time previous to taking it. Faithfully yours, A. BURN.

Atanagh, Abbeyville, Queen's County, Ireland, December 21st, 1886.

A. J. White, Limited. Dear Sir:—I hope that your Siegel's Syrup and Pills may get the sale they so well deserve. I had a very delicate child, a boy now over nine years, but being averse to eating any kind of vegetable or food from his birth, I began giving him Mother Siegel's Curative Syrup, and after a few weeks he recovered so as to be able to consume as much food as other boys of his age, and to the great astonishment of his neighbors, he is lively, getting into flesh, and thriving as well as boys of his age do. We give all the credit of his recovery to Siegel's Syrup. Yours faithfully, S. MAXWELL, 1007 1

TUESDAY JUNE 7 1887.

HAWAIIAN GENEALOGY.

A HAZY SUBJECT ILLUSTRATED BY A SPASMODIC STEREOTYPON.

A very slim audience, as to numbers, visited the rooms of the School of Design last evening, when Ferd. Lee Clarke, "Member of the Hawaiian Board of Genealogy," made his third appearance before a San Francisco audience. The previous efforts were unfortunate in regard to location, for they were attempted in the Academy of Sciences, which is too scientifically solemn for the full play of Mr. Clarke's illustrated rhetoric, and comes as near being fatal to anything poetic or spirituelle as would a morgue. The lecturer, however, belongs to such an exalted position on the payroll of Kalakaua, Rex., that he does not mind the surroundings, and his aim seems to be to teach the outside barbarians the bottom facts regarding Hawaiian mythology and the genealogy of his royal patron. "The Member Hawaiian Board of Genealogy" is generally assisted by a stereotyped. Whenever it is nicely oiled, and the donkey pump in good working order, it affords an agreeable variety, but last night the machine was tired of life. The first things to be made clear to the audience were the charts of the Malay-Asian Archipelago and the Hawaiian Islands. The M. A. didn't loom up worth a cent on the white sheet, but the h. i. s. were as nebulous as Orion's worlds through a street binocular. Like Ajax the "Member Hawaiian Board of Genealogy" roared lustily for "light." His stallow attendant placed his ponderosity on the gasbag of the machine, and so long as he straddled the bag the views were O. K., but this makeshift was unsatisfactory, for every time a new scene was put in the gasbag would let up, and thus keep the audience and the "M. H. B. G." on the "ragged edge." The greater part of the evening was devoted to a eulogy of Kamehameha I and his family. There was nothing new furnished, and whatever was stated had been given to the world long years ago by the facile pen of James Jackson Jarvis. There were some fair views of Honolulu and its public buildings, but the descriptive accompaniment was almost worthless. There will be two more attempts to instruct San Francisco people by Ferd. Lee Clarke, M. H. B. G., at the same place, with the same accessories.—[S. F. Bulletin.

MASONIC DEMONSTRATION.

It is now definitely arranged that a grand Masonic demonstration shall be held in London in commemoration of Her Majesty's Jubilee. According to a circular issued to the masters of lodges by the Grand Master, the Earl of Carnarvon, there will be a great representative meeting of English Freemasons in the Albert Hall, South Kensington, when the Grand Master, His Royal Highness the Prince of Wales, will preside, and an address of congratulation to Her Majesty will be agreed to. In consequence of the space of the Albert Hall being inadequate for the accommodation of all the Masons who are desirous of being present to witness the imposing spectacle, the promoters of the gathering have found it necessary to limit the number of tickets to five for each of the 2,000 odd lodges in the United Kingdom, and much regret has been expressed that a larger building, such as Olympia, could not have been secured. Arrangements, however, are in course of being carried out for a great many minor festivities among Freemasons in connection with the Jubilee celebration, which in a measure tend to allay any feeling of disappointment on the part of those who are unable to obtain admission to the Albert Hall demonstration. The Earl of Carnarvon reports that he has received over a thousand letters from various parts of the country in which contributions are promised by Masonic Lodges and others to the fund of the Imperial Institute. The exact date for the monster Masonic gathering, which bids fair to eclipse that which took place in the Albert Hall when the Prince of Wales was installed Most Worshipful Grand Master in 1875, is not yet fixed, but it will be during the week commencing on June 13th next.

Several members of the Bar have recently sent in applications to the Lord Chancellor for the honor of being recommended to the Queen for appointment to the rank of Her Majesty's Counsel, and we understand that it is very probable that a considerable number of barristers will be so appointed this year in honor of Her Majesty's Jubilee.—[Home News.

The municipal authorities of Lyons, Rennis, Montpellier, Lipy and other places have petitioned President Grevy to retain General Boulanger in the Cabinet. An accident happened yesterday on board the new French ironclad, Duguesclin, by which two members of the crew were killed and seventeen badly injured. No information as to the nature of the accident has been received. Heavy gales, accompanied by snow, and hail, and thunder and lightning, continue with unabated violence in England.
