## Hana Murderer Nearly Suicide

### Remorse Over Death Of Son Prompts Acts—Uncertain What Cut Down Nearly Third Victim

George Hu, the Hana murderer, a man who attempted to commit suicide by hanging himself from the bars of his cell in the Hana jail, shortly before 6 o'clock last Monday morning, is reported to have been the cause of his own son's death as declared by the police to have been the cause.

His dependency has been such that his wards were watching him through the night, for fear he might attempt to suicide. When he tried to do so at the time the guard was changed and he was left alone for a short time. The prisoner had secured a rope from the blanket in his cell. Although he could have been hanged for but a short time, he was unconscious when discovered, and after artificial respiration had been resorted to.

It is being placed in the Wailuku jail a careful watch is being kept by the police, his possibly attempt to commit suicide.

George Hu, the confessed double murderer of Hana, was brought to Wailuku by the Claxidine on Wednesday and lodged in jail. Sheriff Crowell went to Hana last Saturday and held an inquest over the two victims, did not bring the murderer back, owing to the fact that, with the aid of liquor, he had utterly incapacitated and was in no shape to make the trip in a small sampan.

He made a clean breast of the whole horrible affair. His only excuse is that he was drunk. He got into his house because he believed he had killed Joseph Puhale in the fight earlier in the evening, and he thought to cover up his crime. He did not know that his ten-year-old daughter was asleep in the house, and the death of the boy has completely broken the father, now that his mind is in condition to appreciate the enormity of his crime.

## Hurt And Auto Wrecked In Wailuku

In an effort to avoid striking a five-year-old child of which two small boys were riding, M. Tanaoka, driver of a Ford car in the rent service, ran over a pole, at two o'clock this afternoon, smashed his car, injured his driver, Chas. Larsen, of Kahului, broke the arm of Harry Achong, and the youngest boy who caused the accident.

## Boozy Couple Eject Mrs. Wilbur From Home

Thomas Collins, a malihini workman who claims to have been working on some new buildings in upper Paia, but who has been making a nuisance of himself about Wailuku for the past week or two, in company with Kilaui Silva, of Wailuku, mistook the home of George Wilbur for the Grand Hotel, on Tuesday morning. They objected to Mrs. Wilbur's presence about the place, and having ordered her out and locked the door, they proceeded to amuse themselves at the piano. They were still thus enjoying themselves when Police Officer Wilson arrived on the scene and explained to them their mistake. They were later locked up to serve 30 days in default of \$6 fine for drunkenness.

## NEW TROOP OF BOY SCOUTS BEING ORGANIZED

An additional piece of all-steel playground apparatus is now being added to the equipment at the Alexander B. Settlement. This apparatus consists of six swings. A new troop of Boy Scouts is now being organized at the Gymnasium under the supervision of Mr. Mathews and E. L. ten boys reported last night.

## Maui Livestock Gets Friendly Criticism

### Dr. Norgaard Praises Work Of Island Breeders And Offers Valuable Suggestions—Have Made Great Start

Dr. Victor Norgaard, territorial veterinarian, who acted as one of the judges of livestock at the Maui County Fair, made his formal report last week to the board of agriculture and forestry. The report is generally and commendably complimentary, but it contains many suggestions which Maui breeders will no doubt take to heart.

Dr. Norgaard said: "Though this is the first time the county of Maui has ever attempted to gather its various industries and pursuits together for the purpose of exhibition, education and friendly competition the effort proved a great success and will undoubtedly have far-reaching results. As one of the judges of the live stock exhibits the writer can unreservedly prophesy for Maui a place in the sun in so far as the breeding and development of pure bred animals—whether for sport, utility or meat food purposes—are concerned. That Maui already can lay claim to the leadership throughout the islands the question cannot be disputed, and some of the classes of both imported and Hawaiian bred stallions, mares and colts would have aroused enthusiasm anywhere in the world where a good horse is appreciated. With such a foundation and with the spirit of true sportsmanship which seems to pervade all Maui, the annual exhibitions which now are inaugurated, together with fully developed competitive performances along the lines of speed, skill and daring on the part of man and mount, cannot fail to bring back the horse to the position which it deserves to fill, as the most beautiful animal in creation.

"To improve cattle. The cattle exhibits, whether for best or dairy purposes, fell far behind the horses. Among the beef classes Herefords and Shorthorns were not even represented, Devons had barely a look in, and the day was saved only by two good exhibits, with many classes filled, of Palled Angus, pure bred breeding animals as well as the finished product—the fat steer. The dairy breeds also were poorly represented, only one real good exhibit of Jersey cattle being shown. This weakness in the cattle exhibits does, however, not necessarily denote lack of interest in the dairy business but only a lack of experience when the question is to exhibit. Dairy

### Annual Field Day Sports Interests Crowd—Some Fine Individual Scores—Haiku Company Leads

The second annual field day of the Third Infantry, N. G. H., held at the Wailuku baseball park on Monday afternoon, was a great success from an athletic and military standpoint, and it was highly interesting to a good number of civilian spectators who attended.

Some very good individual scores were made, particularly by Sterling, of Haiku company who was responsible for winning 23 points for his aggregation. A. Robinson, of "I" company, made 24 points—in fact the only scores made by his company, which, however put it among the four first companies.

Silva, of company "D" made a good showing with 16 points to his credit.

**Haiku Scores Highest**  
Of aggregate scores Company "H", Haiku, stood first with 37 points; Machine Gun Company, Paunene, second, with 29 points; Company "D", Wailuku, third, with 28 points; and Company "I", Paunene, fourth, with 24 points.

About \$150 was paid out in cash prizes to the contestants, the prizes amounting to about \$1 per point.

The following officers had charge of the sports: Lt.-Col. D. C. Lindsay, referee; Maj. W. H. Young, H. B. Penhallow, and A. W. Collins, judges; Capt. R. P. Harbold, starter; Capt. P. A. Lufkin and Lt. D. Townsend, asst. starters; Capt. P. Alston, Lt. Kunewa and Cockett, time-keepers; Capt. W. H. Engle, clerk of course; Sgts. McDevitt and King, assistant clerks of course; Capt. J. B. Thompson, Wm. Walsh and Geo. Cummings, inspectors; Lt. H. S. Perry, scorer; Sgts. Hammer and Osmer, asst. scorers.

Following is the results of the different events:

## Shall We Have A Fair This Year?

### Plan Proposed Of Putting It Over Till 1918—Committee Calls General Meeting—Thanks For Assistance

Whether Maui shall undertake to have a county fair again this year, or whether it shall be deferred until 1918; whether a permanent fair grounds shall be secured in the sand hills between Wailuku and Kahului, or whether the old Kahului race track and grounds shall be taken over, are two important matters that may be settled at a meeting of the general fair committee which has been called for Thursday, January 18th.

The executive committee which has been busy closing up the business of the fair, held a meeting on Tuesday of this week, and decided to put the big problems of the future up to the people of Maui.

It has been proposed that no attempt be made to have a fair this year, but that effort be concentrated on 1918, at which time Maui is also to entertain the civic convention. In the meantime, those who favor this idea argue, it will be possible to have secured suitable grounds, erected the necessary permanent buildings, and be in position to make a very highly creditable showing. The executive committee has gone over the points in an informal way, but it will be up to Maui people as a whole to finally decide.

## To Make Financial Report

The executive committee expects to make its report showing the financial results of the first fair. As previously stated, it will probably be found that a net profit of about \$2000 will be on hand after all debts are paid. The fair cost in money some \$5000.

## Boy Scouts Remembered

The executive committee voted to turn over to the Maui Boy Scouts council the sum of \$50, in recognition of the valuable services of the boys during the fair.

Voices of thanks were also given to the Alexander House Settlement for the use of its buildings; to the Honolulu supervisors for the use of "Daily;" and to the Maui Drygoods & Grocery Company for use of store rooms.

## Police To Smoke

County Sheriff Clem Crowell is to have a box of cigars, and another hundred and a letter of thanks are to go to the police force for their good work. F. Palmatier and C. P. Ludin were each voted \$10 and the thanks of the committee for their free-tendered assistance.

## Wedding Anniversary Is Celebrated As Surprise

A very jolly party was that which surprised Mr. and Mrs. W. I. Wells, of Haiku, on last Saturday afternoon on the occasion of their 20th wedding anniversary. The host and hostess did not know that the anniversary date was generally known, and no hint had been allowed to reach them of the impending celebration. Besides a collection of chinaware gifts, the self-invited guests brought along their own refreshments.

As a feature of the congratulations Mrs. A. B. Howell read the following:

**The Wedding Bells Of The Wedded Wells**  
(Arranged by Mrs. A. B. Howell)

These wedded Wells for twenty years Have had alternate joys and fears Till their deepened love endears Their wedding bells

These twenty years, dear friends, have brought Much more of happiness than tears While love has many lessons taught These twenty years.

Love taught you, friends that hearts are won By words and looks, as millstones wear; That burdens shared are easily borne, Love shows that clear

As years go by with ruddier glow Shall love adorn your sunset sky; And closer still your hearts shall grow

As years go by Those who composed the party were—Mrs. Laura Hills, Mrs. Watson, Mrs. H. M. Wells, Mrs. W. I. Wells, Mrs. George Lindsay, Mrs. E. C. Moore, Mrs. A. B. Howell, Mrs. John Venhuizen, Mrs. F. G. Krauss, Mrs. H. L. Sauer, Mrs. Will Cooper, Miss Isa Lindsay, Miss Mary Stender, Miss Irene Wells, Miss Pauline Wells, Miss Dorothy Krauss, Miss Mary Lindsay.

## NEW TEACHERS FOR KEAHUA

Mr. and Mrs. Oscar E. Werner, who arrived from Honolulu last week by the Monoa, have taken the places of Miss Evans and Miss Myhand as principal and assistant of Keahua school. Mr. Werner was formerly an instructor in the Honolulu Military Academy. His wife arrived from the coast recently to join her husband. Both are Californians.

## WILL OUR NAVY BUY BRITISH AMMUNITION?

### English Firm For Underbids American Firms For Big Gun Shells—Senator Works Would Make Rich Work—Teuton Submarines Continues To Take Toll

HONOLULU, January 5—Former Judge A. A. Wilder shot and killed himself at the home of his brother, J. A. Wilder. Despondency was undoubtedly the cause. For some time he had secluded himself, receiving callers cordially, but going out but little.

Social morality organization campaign committee formed last night. Bishop Restarick presiding.

Supervisors agree to give promotion committee \$1500 at end of June, after all bills are paid, provided funds remain in general fund.

Y. W. C. A. will build a branch club house at Waikiki. Only members of association will have club privileges.

WASHINGTON, January 5—Admiral Winter-Halter assigned to general board.

English firm of Hatfield Company underbid all American firms for 16" and 14" projectiles for American navy. \$200 less each with delivery in half the time American firms promise. Secretary Daniels explained that British navy is not fighting much now and is not needing many shells for big guns.

Secretary Gregory has announced institution of probe to determine whether there has been a violation of the Sherman anti-trust law by manufacturers of news print paper.

Senator Works, of California in valedictory, declared that the United States presidency today is practically a dictatorship. Worse than a monarchy, he declared. He would also have a law passed compelling the idle rich to work in order to stop reckless profligacy.

LONDON, January 5—British transport Iverna, 2220 tons submerged. 150 officers and men lost. One French ship and five neutrals also sunk. No location stated.

PHILADELPHIA, January 5—Bernard Lewis, said to be a son of wealthy coal operator of Pittsburg, committed suicide at an Atlantic City hotel, while detectives were mounting stairs to arrest him for the murder of Maizie Colbert, the "Ony Girl."

NEW YORK, January 5—Corporation formed for financing, producing, and marketing of Cuban and South American sugars. Capitalization \$750,000.

OTTAWA, January 5—Railroads have decided to cut passenger traffic to relieve congestion in moment of grain and munitions for shipment to Great Britain.

HONOLULU, January 4—Seventeen local corporations fined \$100 each for failure to file 1915 exhibits as required by law.

LONDON, January 4—Copenhagen reports that Norwegian press is attacking British ministry in connection with coal embargo. Announce no further sale of treasury bills for Bank of England.

MANILA, January 4—Governor Harrison announces impending formation of council of state to act in advisory capacity, to be composed of president of senate, speaker of house. Regarded as equivalent to a cabinet.

THE HAGUE, January 4—Returned Belgians who had been deported have been interviewed by Associated Press. They agree that horrible conditions exist in Soltau, the Prussian camp. Seventy were sent home crowded in a cattle truck. It took freight train three days and nights to make what is usually a six-hour journey. Many are coughing, evidently tuberculosis. Camp food meager. Food made of acorns and midlewed bread. Say average of two went insane a week. All refused to work.

PETROGRAD, January 4—Russians on Rumanian front captured 600 Teutons, three cannons and sixteen machine guns, mine-throwers, bombs and mortars, at heights of Bogochu mountain.

WASHINGTON, January 4—No definite proposition for taxing sugar. Congressmen mostly favor restoring Payne-Aldrich tariff but in lesser degree. Sentiment on consumption tax payable by refineries. All at present is fragmentary and chaotic.

Prohibitionists are badly split in Congress. Constitutional amendment improbable this session. Also dry Hawaii district.

HONOLULU, January 4—Mrs. Forbes denies rumor Forbes will not return.

Eight alleged counterfeiters indicted.

SAN FRANCISCO, January 4—Confidential war-time correspondence read at Bopp trial. Shows Crowley was a spy, but not a dynamiter.

### Probing Hamakuapoko Tragedy Brings Startling Disclosure—Slayer Of Child Held For Manslaughter

Fernandez Plansei, the Porto Rican whose random-fired bullet passed through the walls of a neighboring house and killed little 2-year old Flora Gouveia, will have to answer for his carelessness to a charge of manslaughter. His trial will probably take place at the March term of circuit court. Under the law he may be sentenced to as high as five years imprisonment or fined \$5000.

A coroners' inquest was held in the case on Wednesday of this week, at Hamakuapoko, the scene of the pitiful tragedy. The jury in finding that the baby's death had been caused by Plansei's shot, insisted that a clause demanding his punishment be inserted in the verdict. The wording of this finding is as follows:

"That Flora Gouveia came to her death through a bullet passing through the brain causing meningitis, pistol being fired by one Fernandez Plansei with no intent to murder. Furthermore that he be punished for carrying deadly weapons and gross carelessness in discharging his gun promiscuously." The coroner's jury consisted of H. D. Stoggett, J. J. Correll, P. Kellian, D. K. Morton, Jr., J. K. Uu, and Joe Rocha.

Plansei made a full confession at the inquest, stating that he had fired the revolver from his window as a part of the Christmas noise-making. When the result of his shot became

## In Memory Of A Filipino Patriot

### Dr. Jose Rizal Mercado, born at Colomaba, Pagana, Philippine Islands, June 19, 1861; executed by Spanish authorities in Manila, December 30, 1896. Considered by Filipinos as a martyr to the cause of liberty. "Rizal Day" was celebrated all over the islands with patriotic meetings and speechmaking.

On Maui big meetings were held at Paunene, Wailuku, Waiapu, and other points. They were addressed by American speakers, as well as by Filipino orators.

## SNEAK THIEF BUSY AT PAIA

A sneak thief last week entered the home of Mrs. Sniffin, of Paia, and stole \$80 in cash from a room which Mrs. Sniffin had left but a short time before. The theft was committed in daylight.

A Japanese in the same district claims to have had his trunk looted of \$500 recently, and there have been a number of other petty depredations in the community. The police have as yet failed to place the blame on any one, but are working on the case.

## REVISE THE FIRE-ARM LAW, MR. LEGISLATOR

An innocent baby was killed last week by a bullet from a revolver in the hands of an irresponsible field hand. The man didn't intend to kill the child—in fact didn't have any idea that his bullet had found a living mark—and will consequently not be punished for a serious crime. But by what right did that Porto Rican have that gun? Was his life in danger that he must be armed? Why was the Chinese shopkeeper permitted to sell the weapon to him? These are questions that have no legitimate answer except that the community is not doing its duty when fire-arms can be procured by anyone with the price to buy them. The police department, in unraveling the Hamakuapoko case, made the discovery that some twenty or thirty revolvers and a large quantity of ammunition had been sold by Maui stores during the past month; and for most part to persons who have absolutely no legitimate use for them.

If the coming legislature fails to take some adequate step in this matter it will be seriously derelict. A police permit might be required; or at least a high license might be charged which would prevent small shop-keepers all over the islands from dealing in small fire-arms. The island of Hawaii has had a series of awful tragedies which could not have happened but for fire-arms in improper hands. Maui has been more fortunate but the pitiful case at Hamakuapoko is a warning of what is likely to happen if this mania for arming is permitted to go unchecked.

## FILIPINOS AND CITIZENSHIP

Whether a Filipino may or may not become a naturalized citizen under our constitution is a matter that only the supreme court of the land may decide finally. In the meantime a federal judge in Honolulu has decided that he may and a colleague on the same bench has decided that he may not. Another judge in New York, it is reported, has also held that Filipinos are not of Caucasian or of African blood and therefore may not be naturalized. And when it is settled by the courts it will not be finally settled on a basis of real justice. That can only be done by amending the naturalization laws.

This is not an argument for cheapening American citizenship. On the contrary the naturalization laws might well be made much more rigorous. Any period of probation, or any test that would prevent an unworthy person becoming an American citizen, could scarcely be too severe. But it isn't good sense to admit an unlettered barbarian from the wilds of Africa to the privileges of American citizenship, and refuse a cultured native of some other part of the globe on account of the particular strain of blood that happens to flow in his veins. Probably but a small fraction of the total number of Filipinos who are now being rushed forward to take out their first papers should ever be permitted to qualify, but for a much better reason than in the color of their skins.

## WHY NOT HAY?

Mainland farmers are able to make money growing hay at \$8 to \$10 per ton. Some of them have been doing it year in and year out on land worth from \$100 to \$200 per acre. At the present time wheat and alfalfa hays in Hawaii cost over \$30 per ton, and have probably never sold for less than \$20. Hay is brought into the Islands in large quantities and probably always will be. The army uses an immense amount of it. If Hawaii farmers can grow it there is no doubt that they can sell it. In fact it should be a mighty good money crop.

It must be remembered that the mainland farmer can make use of his land but a part of each year. Here grass will grow every month in the year, and alfalfa, where it is grown, is cut once a month or oftener. This should be a big first hand advantage over the mainland farmer. Moreover the past four years has demonstrated here on Maui that we can raise a variety of excellent forage crops suited to hay making, and we are finding more all the time. There is no longer any question about growing things.

But the problem of making hay in a land subject to frequent heavy showers is something that has not been solved, though it is not impossible of solution. Thanks to the trade winds it has been found that grass will cure perfectly and quickly if it can be kept from the rain and the air given free access to it. The thing that is called for now is some experiments on a field scale, and this few individuals are in position to make. The extension division of the federal experiment station has demonstrated on a small scale, but the government refuses to supply equipment needed for a real demonstration. The matter should not be allowed to drop, however, for it should be of prime importance to the whole territory and to Maui in particular.

Thanks to our peculiar geographical position these islands have a way of profiting when the rest of the country is struggling with some adverse condition. And this bids fair to always be the case in greater or less degree. The possibility that the present session of the Congress will help meet the extraordinary expenses of the government and prevent further deficit by restoring the duty on sugar is entirely logical, but is no less comforting to Hawaii on that account. Moreover if a duty on coffee is imposed, as now seems very probable, it will probably bring the Islands to the fore as a real coffee producing center. Everybody knows that we can grow coffee, and good coffee, too, but with our high priced labor the profits under normal conditions have been too near the vanishing point to make it a popular industry.

The executive committee of the Maui County Fair has been busy this week passing votes of thanks to about everybody who had anything to do with the big show. We move a vote of thanks from everybody in Maui to President Wadsworth, Director Cameron, and other members of the executive committee, for the trifling part they played in the matter.

Dr. Norgaard's report on the live stock exhibit at the Mani County Fair, as published in full in another column, should do more than swell our chests or our heads. There are a lot of suggestions in the Doctor's paper which will bear a lot of study.

### AS THE PAST SEES IT

With prices of blank paper boosted as high as the proverbial cow that took a trip over the moon, the newspaper man who does not collect every subscription in advance, is hitting the high spots for the poor house—and won't be so all-fired long in reaching the home base.—Hawaii Post

Five murderers who should have been hanged long ago, but who were allowed to plead to murder in the second degree and who were sentenced to imprisonment for life, have had their sentences commuted to terms of twenty and twenty-five years imprisonment by the governor. Next Christmas the chief executive will probably still further reduce the sentences and then, in 1918, will probably allow a couple of the slayers to be paroled. Life—that of the innocent victims—is cheap in Hawaii and all the sympathy appears to be on the side of the slayers.—Hawaii Herald.

It would seem to be the very height of absurdity for a nation depending upon its marine business as does Great Britain, to endeavor to put into effect a ruling that her bunker-coal privileges shall be extended only to vessels of her own allies and herself. A more perfect boomerang would be difficult to invent.—The Service.

Hawaii will soon have to go back to grass houses, if the price of lumber keeps on seeking the higher altitudes. Now, when you want a bit of lumber or other building material, you lay down its weight in gold.—Kohala Midget.

### A LITTLE RAINY AT HILO

During the past month Hilo and the greater part of the Hamakua coast averaged almost an inch of rain per day. According to the reports of the weather bureau, that section was by far the wettest in the Territory.

In 1904, out of the total road and bridge expenditures, \$20,000,000 of the \$80,000,000 was paid in labor—that is, worked out on the roads. The so-called guaranty legend on packages of foods and drugs does not mean that the United States Government has passed on the quality of the product.

TELEGRAPH NEWS OF THE WEEK

VALDEZ, Alaska, January 2—Business district burned and docks threatened. Cable saved. Sattle Hotel and Blum's general store destroyed. Loss of Blum \$75,000.

WASHINGTON, January 2—Arredondo said goodbye to Lansing. He departs tonight for Mexico City. Reason not clear. Arredondo recently denied he had been withdrawn. Announced Carranza has requested a conference on relations with America. Expects to return in three weeks.

Withdrawal of Pershing's force expected.

Stone in Senate today said any official who used leak was an unspeakable scoundrel and should be dismissed. Lawson and Chairman Henry conferred after which Henry announced matter would be dropped. Lawson failed to furnish names or definite information.

LONDON, January 2—Curzon and Mrs. Mary Duggan married privately.

Final draft of Ententes reply to Wilson's note forwarded. Important point is differentiation between peace between present belligerents and such future arrangements as may be made for a permanent peace purpose being to show neutrals amicable.

EL PASO, January 2—Carranza sends message that Villistas have been defeated near Guerrero. Carranzistas captured 140 and killed 25. Also recaptured much loot which Villa took at Chihuahua.

WASHINGTON, December 31—New duties to be imposed on a number of commodities, according to official announcement of treasury officials and finance committee. No details out but reported that new duties will go on wool, rubber, and increase on sugar.

Allies reply in part quotes government. Allies are united for defence and liberty of people. Will not lay down arms separately and are resolved to reply collectively. Protest to assertions of note, in which enemies pretend to charge that Allies are responsible for war, and proclaim victory for Central Powers. Can not submit to such affirmation. Allies sustain thirty months of war and attachment is as strong today as in 1914. At second Hague, Russian representative discussed disarmament but German delegate refused to listen to proposals. We have further fact that Austria would have agreed to pacific settlement of national disputes. They addressed unprecedented ultimatum to Serbia and declared war without reference to Hague conditions. Following ultimatum, both rejected all attempts to bring peaceful solution. Germany transgressed all efforts of Allies to avert conflagration in Europe. Instead, long trained troops ruthlessly invaded Belgian neutrality, with which country Germany had a solemn compact to protect. This invading power now asks to discuss peace. They hotly proclaimed that treaties were mere scrap and that necessity knew no laws. At present shame offers are based on war map which Germany imagines permanent, and on which peace must be talked. Map represents nothing than a superficial passing phase of a great situation. Allies are prepared and present military positions do not represent real strength. No peace on such terms, wholly to advantage of agressor who after two years finds himself battered and unable to reach the goal he fancied to be able to reach in two months. Allies forced to assert again and for all time that no peace is possible until they have secured reparation for the violated rights of nations and the free existence of small states. No peace possible so long as Allies have not brought settlement calculated once and for all to end materialistic forces, one that will establish perpetual peace and will afford effectual guarantees of future security.

That Wilson's supplemental circular became known yesterday at first intimation of reply from Spain. Reference to second communication directed to various powers asking for co-operation to secure understanding amongst belligerents to bring war to a conclusion. Unofficial opinions between warring powers, if present negotiations fail. General opinions between warring powers, if present negotiations fail. General opinion is that Allies replied much as expected and in so doing played their strongest card.

Von Bernstorff says that no note will be answered by Germany till after reply of Ententes. Wilson's suggestion to Ententes does not specify what he expects.

# AT THE THEATERS

**"The Soul of Broadway"**  
Valeska Suratt and William E. Shay in the most amazing photo-drama ever produced. Briefly, the story concerns the life of La Valencia, a typical woman of the New York stage, wonderfully beautiful but old in sin.

Her lover (portrayed by William E. Shay), becomes a thief that he may shower luxuries upon her. He is sentenced to prison and for five years eats his heart out in solitude, to emerge at the end of that time a sad-faced, gray-haired man, entirely cured of his mad infatuation.

By accident Valencia sees him. Her old passion for him is revived. It means nothing to her that since his release from prison he has fallen in love, and married a good woman.

She tries to win him back. When her fascinations fail, she threatens to expose his past life. He will not yield and she prepares to carry out her threat. Then Destiny takes a hand and with climactic suddenness and power, the end comes.

**"The Selfish Woman"**  
It is seldom that a bride is cast in a role, either in book, play or film, that calls for her to endeavor to completely wreck the life's work of her young husband. However, such picture is presented at the Maui theaters. It is a Jesse L. Lasky feature entitled "The Selfish Woman," and it stars Cleo Ridgely and Wallace Reid both leading lights in the forces of Lasky.

Lasky frequently sends over the Paramount Picture service a strong drama but it is seldom that there is offered anywhere in Maui a drama of the strength and force boasted by "The Selfish Woman."

The story deals with engineering in the Far West, as the States beyond the Mississippi river are familiarly known throughout the East. The hero is engaged on a gigantic proposition which interferes with certain plans laid down by his father. The father endeavors to call a halt but is unsuccessful. He then turns to the young wife of his son, a woman with a desire for everything that money

can buy. He touches her heart by opening his purse. The woman, at last, realizes her error and proves to be her husband's greatest support but not until she has wrought a vast amount of damage. The plot lends itself admirably to the screen and makes a fascinating picture drama.

**"Under Cover"**  
"Under Cover," the Famous Players' Christmas program at the Liberty theater, brings a cast of exceptional merit to Maui, including Hazel Dawn, Owen Moore, William Courtleigh, Jr., Ethel Fleming, Frank Losee and Ida Darling.

The story deals with Ethel Cartwright, member of the New York smart set, whose sister is accused of a crime. To clear her sister Ethel agrees to become a special agent for the U. S. customs service. She is placed on the track of a man who is visiting her home, who is accused of smuggling a valuable necklace and with whom she is in love. The man, Steven Denby, is in love with Ethel but knows he is under suspicion and that she is on his trail. Circumstances compel him to fight the girl and to act in a manner that arouses her suspicions.

The climax shows Steven to be a high and secret official of the secret service whose emulation of a smuggler has been with the idea of trapping crooked agents. He is successful and both Steve and Ethel are happy.

**"Hesper of the Mountains"**  
Born and bred to every luxury, a sweet, cultured girl of the East is forced to go to the rugged and untamed West.

Bored by the people, their simple ways, their blunt roughness and primitive living, she is most unhappy. But in the turmoil of a labor uprising, when the tests of manhood stand supreme, the realization comes to her that the West breeds men of iron, unpolished perhaps, but who in moments of peril stand like towers of strength.

From this awakening, her hate develops into interest which later melts into wholesome love.

## ANNUAL MEETING

The regular annual meeting of the Stockholders of the Baldwin National Bank will be held at the banking house in Kahului, on Tuesday the 9th day of January, 1917, at 2:00 P. M. (Dec. 22, 29, Jan. 5.)

## Raise Beans This Year, Say Longley

Maui Reds Bring Best Price In History—Outlook Good For Another Year—Eggs Show Upward Tendency

Eggs have advanced slightly during the past week. The sale of island poultry during the past week has been very good. The shortage of island turkeys forced people to buy more chickens and ducks, but still there were a good many cold storage turkeys sold.

There has not been much change in the prices of green vegetables during the past week. Limes have been very plentiful, and the prices range from 50c to 75c a hundred. Hogs and dressed meats remain about the same, and hides continue to bring record prices. The only change in the feed prices for the week was an advance on middlings.

Word has just been received from the coast that the first shipment of Maui red beans brought \$6 a hundred. This is the highest price ever received for island red beans, and will net the shipper on his farm on Maui approximately \$5.25 a bag when shipped from Kahului instead of first shipping to Honolulu by Inter-Island boats. If the present prices prevail the Kula farmer could raise no more profitable crop than beans, and it is recommended that a large crop be planted this coming spring.

The small white beans are also bringing good prices, but it will not pay the Kula farmers to raise large quantities of the calico beans as they are purely a local bean, and cannot be sold on the coast at a profit.

The price of dry peas has also advanced as they are in demand both in Honolulu and on the coast. Any farmer having beans for sale would do well to get in touch with the division at the earliest possible time as the division has orders for all the beans it can get. A. T. LONGLEY, Marketing Superintendent, January 2, 1917.

### A SURPRISE BIRTHDAY PARTY

Mrs. A. B. Howell, of Kulaha was pleasantly surprised by a number of her neighbors, on Tuesday of this week, the occasion being in celebration of her birthday. The guests brought dainty refreshment with them, and the afternoon was a delightful one to all. Those present to tender their congratulations were—Mrs. John Venhuizen, Mrs. George Lindsay, Mrs. Laura Hills, Mrs. Will Cooper, Mrs. F. G. Krauss, Mrs. E. C. Moore, Mrs. W. I. Well, Mrs. Watson, and Miss Isa Lindsay.

### New Year's Concert Very Much Enjoyed

The concert at the Wailuku Town Hall on New Year's evening, under the auspices of the Maui Music Club, was thoroughly enjoyed by an audience of Maui music lovers who filled the hall to its capacity.

Miss Pearl Sutherland, pianist, and Edwin H. Ideler, violinist, both proved themselves masters of their respective instruments. The program was well selected to show the versatility of each artist.

The two musicians are at present on the faculty of Punahou Academy. They have been spending their vacation on Maui and have enjoyed it. During their stay in Wailuku they were the guests of Mr. and Mrs. H. B. Penhallow. Several days this week were spent by the visitors in a trip to Hana.

### Variety Alfalfa Tests To Be Made At Haiku Station

An experiment that should be of much value to the Islands has just been undertaken by the Haiku sub-station of the Hawaii experiment station, under direction of F. G. Krauss, the local director. It is an exhaustive study of alfalfa, ten varieties of which are to be grown under comparative tests. Also tests in artificial inoculation, fertilization, liming and cultural methods will be made with all of the varieties. It is hoped and believed that some extremely practical results may be attained.

### History Of Local Church Told At Christmas Services

On Christmas day of 50 years ago the first church edifice in Wailuku, known as the Church of the Good Shepherd, was opened for public worship. Its rector was the Rev. George B. Whipple, a brother of Bishop Whipple, of Minnesota, famous above the ordinary as a bishop, and most famous for his eminent success as a worker among the Indians.

Rev. George B. Whipple began his work as a parish priest in Wailuku, on Sunday, February 25, 1866, on which date the Church of the Good Shepherd, as an organized congregation, came into existence. On that day it worshipped, as stated in last week's issue, in a school house standing on the site opposite the present Maui Hotel.

On Christmas Day, 1866, the congregation took possession and worshipped in its first church. This church was later enlarged, and when the present very pleasing church was opened, on Easter Day, 1911, this old church became the Parish House and Sunday school.

The services on last Sunday were, of course, of more than usual interest. The sermon preached by the Rev. J. Charles Villiers, the rector, was one in which history was blended with an exposition of "The Church Catholic and Universal."

At the close of the sermon C. D. Lufkin, senior warden of the church, who in his youth was a student at the Shattuck Military Academy, Fairbault, Minnesota, and who while there made the acquaintance of the Rev. George B. Whipple, then dean of St. Mary's Seminary for young women in the same town, spoke of his personal knowledge of Dean Whipple in a way that greatly interested the congregation.

Rev. R. B. Dodge read the scripture lessons. The special music by the choir was splendidly rendered.

### Experiment Station To Give Field Crop Seeds Away

For the purpose of testing out under varying conditions a number of varieties of leguminous plants suitable for forage and green manuring crops, the extension division of the Hawaii experiment station is offering a pound of 16 different kinds of seed to persons who are willing and in position to plant it and care for the crop, and report to the division the results obtained. F. G. Krauss, who is in charge of the division, explains that a pound of these seeds is sufficient to plant about a tenth of an acre on the average.

Following is a list of the varieties offered:

Heavy vetch, spring vetch, field peas (Amraoti), field peas (French June), field peas (Golden Vine), medicazo lupinus, clover, alsike, white clover, Japan clover, mellilotus indica, mellilotus beggar-weed, clover.

### Each Vacancy In Court Work

Twenty three cases under consideration of the territorial court for hearing and argument January, 1917, seasonal. The court work, however, until President appoints a successor to Justice Watson, resigned, and Justice Robertson Justice Quarles will handle the cases before the court.

Ohohia vs. Mahiah, first circuit, second circuit, and a domestic case. W. Kalua, Appeal, Justice of Wailuku, Hawaii vs. Lam Bo, second circuit.

### Maui Livestock Gets Friendly Criticism

Animals are notoriously the most difficult and the most expensive animals to exhibit, as they often require extensive preparations for their care and comfort while away from home. This is especially the case when animals in milk are exhibited, and until more permanent quarters have been secured for the annual show a regular dairy exhibit must wait, and there can be no doubt that next year's fair will see all the cattle classes filled to a far greater extent than was the case this time. It should also be mentioned that the beef cattle would have been fully represented this time, at least in so far as Herefords were concerned, except for the failure of the two largest exhibitors to secure transportation for their animals, which had recently been exhibited on Hawaii.

### "Hogs a Revelation"

"The climax of the farm animal exhibits came with the hogs. Nearly all of the most popular breeds were well represented and the competition for the ribbons and prizes was keen. Berkshires and Duroc Jerseys were the famous favorites and were almost equally strong in numbers as well as quality. That the Berkshires carried away most of the prizes was due principally to the personal preferences of a majority of this breed. A splendid exhibit of Hampshires attracted general and well-deserved attention, while Tamworth was represented by one boer and one sow only. Four pens of butcher hogs, three in each pen, gave the judges a bad hair day, as all were in splendid shape, but the blue and special finally went to the Berkshires, the three other pens being reds.

"All in all, the whole hog exhibit was little short of a revelation and illustrates the great advance the pork industry has made throughout the Territory during the past few years, and complaints are already being voiced about a crowded market and falling prices, and still the local consumer has to pay thirty cents per pound for ham and bacon! Who will establish the first modern pork packing house in the Territory and help conserve one of our most important meat food products in case importation should fail? There ought to be such an establishment on each of the principal islands.

"And in conclusion, during the entire fair, not a single case of sickness was heard of, even though hogs of all ages and classes were brought from all over Maui, which speaks well for the general health of the hogs on Maui, as well as for the sanitary arrangements of the local health committee.

### Some Good Rabbits

"Of the live stocks exhibited, a few sheep became of temporary interest only while serving in sheep shearing competition. Far more attention was given to eleven well filled classes of rabbits and Belgian rabbits and Belgian here, another meat food industry which also may become of considerable importance here in case of isolation. They increase very fast and mature or become ready for the table in one-third to one-half the time required by any kind of poultry. The hare and rabbit is essentially a poor man's pet, and the industry should be encouraged until a buck and few does can be found in every back yard and on every homestead. The conserving of rabbits in tin or glass containers has become a favorite juvenile industry throughout the United States the federal department of agriculture having issued a Farmer's Bulletin containing full instructions for rabbit culture and how to utilize them to best advantage.

### "Dogs Had Their Days"

"Among the dogs exhibited, the pointers were by far predominating. Here again the lack of experience interfered, also the fact that many exhibitors had undertaken to bring too great a variety of animals, poultry and produce to warrant each the care and preparation which the experience of a few years will teach them are requisite for the gaining of an award.

The poultry show contained the usual varieties of chickens, ducks, turkeys and pigeons. The Indian duck seems to be a favorite on Maui, and much interest is also being taken in squab raising. For the latter purpose it is noted that the homer has almost been completely superseded by the Carneau and White Kings. Both are beautiful birds and fast breeders of squabs weighing twelve to sixteen pounds per dozen when one month old.

"In connection with the fair, though not on the grounds this office (Division of Animal Industry) had an exhibit of the lesions commonly found in diseased animals in the Territory. The specimens were mounted in glass jars and provided with descriptive legends. It was, however, difficult to give much time to this exhibit as the judging of all the live stock, that is horses, cattle, sheep, swine, dogs and rabbits had been delegated to the same judges who in spite of strenuous efforts could not finish the lists of awards until the fair was ready to close up on the last day."

### COMEDY COMPANY MAKES HIT

The Ingersoll Comedy Company, which arrived from Honolulu on Wednesday, has made a big hit in the two performances so far given. At Lahaina, on Wednesday night, and at the Wailuku Orpheum last night capacity houses greeted the performers. "So Long, Letty," the last night bill pleased, and some of the feature numbers made big hits.

The company plays at Kahului this evening, and a matinee engagement at Paia tomorrow afternoon. It leaves for Hilo tomorrow night from Lahaina.

### Individuals Pay Income Tax Of \$112,144.95

There is one man in the Islands whose income is between \$250,000 and \$300,000 per year. This fact is brought out in the report of the internal revenue department on the matter of income taxes. The identity of the individual is not given, of course, nor does it tell who the one person is who has paid taxes on an income of between \$150,000 and \$200,000.

Eight persons in the islands get an annual pittance of between \$100,000 and \$150,000; there are 12 whose incomes are between \$75,000 and \$100,000; 13 whose incomes are between \$50,000 and \$75,000; 22 between \$30,000 and \$50,000; 20 between \$20,000 and \$30,000; 22 from \$25,000 to \$30,000; 24 from \$20,000 to \$25,000; 45 from \$15,000 to \$20,000; 72 from \$10,000 to \$15,000; 234 from \$5,000 to \$10,000; 135 from \$4,000 to \$5,000, and 172 from \$3,000 to \$4,000.

This is a total of 781 individuals who paid in \$112,144.95 for the fiscal year of 1916, an average of \$143 each. New York averaged \$410 each.

### Second Military Ball Was Brilliant Affair

The second annual military ball of the officers of the Third Infantry, N. G. H., held on last Saturday evening at the Puunene Club House, was one of the most brilliant social events ever given on Maui. It was attended by between 200 and 300 persons representing all sections of Maui. The decorations were unusually attractive, and the scene, with the white dress uniforms of the officers and the many stunning costumes of the ladies, was extremely pretty.

The occasion was declared by those who attended to have been one of the most enjoyable formal balls ever given in the island.

### NEW MEMBER OF ACCIDENT BOARD NAMED BY GOVERNOR

George Freeland, of Lahaina, has been named by the Governor, a member of the Industrial Accident Board for the county of Maui, to succeed W. L. Decoto, who recently resigned. Notification of the new appointment reached here this week.

### Haiku Farmers To Eat And Discuss Soil Tillage

"Soil and Tillage" will be the subject of an illustrated talk tomorrow evening at the Kulaha school house, to the members of the Haiku Farmers Association. President F. G. Krauss states that this will be the first of a series of discussions on soil culture to be held during the present year. It is expected that the discussions on the topics will be especially helpful.

Just prior to the meeting, beginning at 6:30 o'clock, the ladies of the community will serve a supper to all who attend. The affair promises to be an unusually pleasant one.

### Condemning Land For Maui Lighthouse Site

Two acres of land at Cape Hanamania on the southwest coast of Maui is to be condemned by the federal government for use as a site for the erection of a lighthouse. The property is owned by the Raymond Ranch but, owing to complications in the title, it has been found necessary to bring condemnation proceedings despite the fact that J. H. Raymond, owner of the ranch, offered to turn over the property to the government. Raymond found, however, that a clear title could not be established. Preliminary steps toward condemnation, taken by the local U. S. attorney's office, have been approved by the attorney-general and the case is now ready for filing.—Star-Bulletin.

### Larrison Wants To Make Topographic Map Of Maui

In the letter to Governor Pinkham Saturday George K. Larrison, district manager of the United States geologic survey, recommends an appropriation by the next legislature for the preparation of a topographic map of Maui, similar to that already prepared for Kauai.

Larrison shows that the geologic survey is willing to cooperate with the territory in preparation of the map. He points out the value of such a work from a military standpoint alone.

Recommendation is also made for a topographic survey of a portion of Mauna Loa, and a letter from H. O. Wood, assistant volcanologist, is mentioned as urging this undertaking.—Star-Bulletin.

### Using Bonus Money To Buy Revolver

known he had given the gun to his father-in-law telling him to hide it and had denied all knowledge of the crime at first, because of fear of cot sequences.

Revolver Not Registered  
In his effort to locate the owner of the gun, Sheriff Crowell found the Planel had not registered a weapon as required by law; and it also came out after the Porto Rican confessed that Tam Chong Stea, Paia, from whom he had bought the gun on December 9, had also violated the law by not having recorded and reported the sale. It is possible that the grand jury will proceed against the store for its negligence.

Big Sale Of Weapons  
Sheriff Crowell also found that the sale of revolvers on Maui has increased in marked degree in the past few months, a good deal of bonus money apparently going for that purpose. It is less than a month over two dozen revolvers have been purchased, according to records of local storekeeper. Almost all of these have been purchased by Filipinos, the Sheriff states.

### Hana Murderer Nearly Suicided

(Continued from Page One.)

blaze extinguished, but not before he had been fatally burned.

Crime of a Demon  
The story of Sheriff Crowell learned if from Hu and from others who witnessed phases of the affair is as follows:

Hu, who was a road laborer for the county, had been at work on Wednesday of last week, returning home between four and five o'clock. A bunch of revelers were at his house, and he was persuaded to have a drink or two with them. He then left them and went out to pound some poi. He finished this and had his dinner, and incidentally more booze. During the evening the men in the crowd engaged in the old Hawaiian test of strength by which the two opponents clasp hands and try to force the arm of the other down. In the encounter between Puhiale and Hu neither were able to force the other's hand down, and both grew angry. Friends tried to prevent a conflict, but Hu suddenly jumped up, seized the lamp, and hurled it against Puhiale's head. The latter fell senseless, and the lamp being extinguished, most of the crowd, including Hu's wife and five of his six children, left the place in terror.

Extinguished Blaze First Time  
Sam Kelihelela, a brother-in-law of Hu, alone seems to have remained for a while and tried to calm the infuriated man. Hu struck another light and going to another room got a small target rifle, with the butt of which he struck the unconscious Puhiale on the head. Kelihelela interferred at this juncture, but Hu threatened to shoot him, and so drove him out. He then procured coal oil with which he saturated the house, and then touched a match to it. Kelihelela, who was watching outside, again rushed in and succeeded in smothering the blaze. He argued with Hu, and seems to have believed that he had dissuaded him from his horrible purpose, for he finally left the place. The house was a mass of flames a short time after.

Boat Good Reputation  
Hu, who is forty-eight years of age, has heretofore borne a good reputation. It is but recently that he is reported to have begun to drink. He had not been carousing since Christmas, as at first reported, but had been working of the day of the crime as usual. The crime has caused a profound sensation in Hana.

### CIVIL RIGHTS RESTORED BY PRESIDENT WILSON

Lohe Moemoe, of Kahakuloa, and Kamaka Kaliau, of Waikapu, each convicted some years ago of violation of the Edmunds Act, had their civil rights restored last week through executive clemency extended by President Wilson. The full pardons bear the President's signature.
