UNITED STATES.

The President's Message.

HAWAIIAN CABLE STRONGLY URGED. President Harrison makes the following reference to Hawaii in his message to Congress:

"Our relations with Hawaii have been such as to attract an increased interest and must continue to do so. I deem it of great importance that the projected submarine cable, a survey for which has been made, should be promoted both for naval and commercial uses. We should have quick communication. We should before this have availed ourselves of the concession made many years ago to this Government for a harbor and naval station at Pearl River. Many evidences of the friendliness of the Hawaiian Government have been given in the past, and it is gratifying to believe that the advantage and necessity of a continuance of very close relations is appreciated."

On the Nicaragua Canal matter the President says: "I repeat with great earnestness the recommendation, which I have made in previous messages, to the inadequate support given the American Company engaged in the construction of the Nicaragua ship canal. It is impossible to overstate the value from every standpoint of this great enterprise, and I hope that there may be time given in this Congress to give to it an impetus that will insure the early completion of the canal and secure to the United States its proper relations to it when completed."

The message strongly maintains that the country has made great advances in prosperity through the protection policy. The President recommends that the whole subject of tariff revision be left to the next Congress, saying "it would be offensive to suggest that the prevailing party will not carry into legislation the principles advocated by it and the pledges given to the people." He deplores the probability of injury to business from uncertainty as to what changes the dominant party are to make in the tariff.

The relations with Canada, the message says, must continue to be intimate and they should be friendly. It regrets that the negotiations with Great Britain for settlement of disputes have continuously been thwarted by unreasonable and unfriendly objections and protests from Canada. Attention is called to the great advantages Canadian railways enjoy, and the large profits they make, by their unrestricted running into United States territory. "It is hardly too much to say," the message remarks, "that the Canadian Pacific and other railways which parallel our northern boundary, are sustained by commerce having either its origin, or its terminators, or both, in the United States." The President recommends consideration of the question whether the United States could not be made independent of Canada's canals by the construction of an American canal around the Falls of Niagara. He also says they should withdraw the support now given to Canadian steamships and railways.

The President describes it as an intolerable and disgraceful condition of things that the nation should continue to maintain foreign steamships, many of them under contract with their governments by which, in time of war, they would become a part of their armed naval establishments. A wholesome change of policy was begun by the law of March 3, 1891, under which contracts have been made for eleven mail routes. "As one of the good results reached sixteen American ships of an aggregate tonnage of 57,400 tons, costing \$7,400,000, have been built or contracted to be built in American shipyards. The estimated tonnage of all steamships required under existing contracts is 165,802, and when the full service required by these contracts is established there will be forty-one mail steamers under the American flag, with the probability of further necessary additions in the Brazilian and Argentine service. The contracts recently let for trans-Atlantic service will result in the construction of five ships of 10,000 tons each, costing \$8,000,000 or \$10,000,000, and will add, with the City of New York and City of Paris, to which the Treasury Department was authorized, by legislation at the last session, to give American registry, seven of the swiftest vessels upon the sea to our naval reserve."

EX-GOVERNOR STONEMAN OF CALIFORNIA MISSING—HIS WIFE INVOLVED IN A DIVORCE SUIT. It is asserted in the San Francisco Examiner that General Stoneman, ex-Governor of California, has not been seen for a year and a half. The wife of Judge Anson Brunson of Los Angeles has begun a suit for divorce in the Superior Court, and Mrs. Stoneman is a co-respondent with the Judge. An intensely fond letter is printed as a sample of many to be put in court as having been written to Judge Brunson by Mrs. Stoneman. There will be a pile of hotel registers put in evidence that will stagger others besides the clerk of the court. Judge Brunson has been respondent in two divorce suits before and is very angry over this one. Detectives are guarding his house night and day. "If I go down a third time," he said, "I will drag you down with me, and we will go down together in blood."

Nearly two years ago General Stoneman left his comfortable home and went to live at the Nadeau House. For a month or more, as neither his wife nor daughters called on him, the report gained currency that he had been turned from

his home. Finally Mrs. Stoneman went to the hotel and after a consultation with her husband returned with him to their home. The General's "disappearance" dates from this time, and nobody in Los Angeles or will tell for a certainty whether he is dead or living. Mrs. Stoneman says her husband is in the East for his health on medical advice. She denies the authorship of the love letters and says that having reached the age of fifty she is not making any conquests.

ALLEGED REPUBLICAN CONSPIRACY TO CAPTURE THE SENATE.

The Democrats of the Senate are very much concerned about certain publications which indicate that there is an organized attempt to reverse the will of the people as expressed at the late election. It was understood by everybody until within the last few days that the Democrats had not only elected the President and Vice President and a large majority of the House of Representatives, but they would have a clear majority in the Senate of the United States, thus enabling measures for which the Democratic party stood in the late campaign to be enacted into laws.

To the astonishment of all it was found that an attempt to change the political complexion of the Legislature in Kansas, Nebraska, Wyoming, Montana, North Dakota, and California was seriously under way. Plans were at once formulated in New York City to prevent the success of this great conspiracy. Senators Arthur P. Gorman, Calvin S. Brice and John G. Carlisle arrived in New York on the 9th inst. to confer with the campaign committee of the Democratic National Committee and to take measures to prevent the consummation of the proposed outrage. In reply to a question as to what the committee could do in a case of that sort, a member replied, "The National Committee can do nothing more than consult with the committeemen from each of the States threatened by these returning boards and the chairman of the State Central Committee, and give them such encouragement and advice as each of the several cases may require."

EUROPE.

THE MONETARY CONFERENCE.

It looks as if the international monetary conference in Brussels was going to be a fizzle. Senator Jones of Nevada was expected to wind up the debate on the 13th inst.

The Examiner's special says bi-metalists are discussing whether or not they shall unite in signing a memorandum on the obstruction offered by Great Britain to the determination of questions before the conference if the conference resumes its sittings after a prolonged adjournment. Such a protest is likely to induce the British Government to present a decided policy through its delegates acting in unison. The present British delegation appears to have been sent purposely to muddle the proceedings. There is no cohesion among the British representatives, either as to principle or as to procedure.

It has been made clear that the British Government has purposely avoided giving any instructions tending to the common action of its delegates upon any point whatever. It is now obvious that the course was designed to foil the conference in coming to any general or special solution of the silver question. Letters from British delegates announce their return to England next week. They will oppose whatever requests American delegates may make in regard to prolonged adjournment. Baron Herschell's Indian Currency Committee, which adjourned without date until the Brussels conference should have ended, has resumed sittings and is taking the evidence of experts. Members of the committee seem strongly in favor of the adoption of gold coinage in India and concurrent cessation of free coinage of silver. What chiefly prevents early determination of this policy is the uncertainty prevailing among members regarding the action of the American Government, as the risk of paralysis of the Anglo-Indian trade would be increased tenfold under repeal or suspension of the Silver Purchase Act.

VARIOUS ITEMS.

Prime Minister Ribot of France promises to act in concert with the Panama Committee and assist in throwing full light on the affair. Prosecutor Beupre, who opposed the Government's action in regard to the Panama Canal Company, has resigned.

The first month of the great cotton lockout in England ends with no nearer prospect of settlement than at the beginning. Perfect order has been maintained. As Amalgamated Association cotton spinners receive regular weekly strike pay there is little suffering among them. But 40,000 non-union mill hands are idle through the same dispute, and their condition is pitiable. Thou-

sands of them—men, women and children—are reduced almost to starvation. The severity of the weather now prevailing adds to the distress. Application was made to a magistrate at Oldham for 300 warrants against operatives in arrears for borough rates. The magistrate refused, and told the bailiff to apply again when the strike had ended.

The annual Conservative caucus known as the Union or Constitutional Association is about to open at Sheffield. Party managers who resisted the clamor of the rank and file for a protectionist platform have been obliged to give way. Though at heart protectionists, the leaders fear the adoption of protection, as a definite party plank would enable the Liberals to sweep the country at the next general election.

Honolulu.

[BY SARAH BERSHARDT.] Honolulu's the gem of the ocean, Mid the tear-jeweled billows she lies; And she smiles on her languorous motion, She dreams with her beautiful eyes.

Her bed is of sea-weed, red roses, The walls of her sky ever creep; And there in the mist she reposes, Lulled to rest by the waves of the deep.

Rocked to rest by the waves that are dying, Soothed asleep by the low lullaby Of pain and of ocean trees sighing, 'Tis the winds from the sea and the sky.

Her odorous winds are a-shiver With the wings of a musical throng, And she reels by the sea-reaches quiver, And are loud with the voices of song.

There is passion, and daring, and lightness In the heart of this Queen of the West, And she smiles on the waves with the brightness Of a siren when charming her best.

—From Sarah Bershardt's French, translated by George Horton in Chicago Inter-Ocean.

KALUA NOT DEAD.

The Story of His Death the Creation of a Disordered Brain.

Hon. John W. Kalua has the rare distinction and privilege of reading his own obituary and that in several papers. The news of his death was given at Lahaia by a crack-brained native who thought he was going to die himself. The Legislature adjourned the other day in honor of his memory. Mr. Kalua is reported now as recovering from his illness.

Oyster cocktails can be had at the Criterion Saloon.

Chandeliers at low prices are still moving; it's the price that takes them away and there's no one bidding against you. It's astonishing how many people wanted good light but held back for fear the price was against them. You have another chance this week if they are not all sold.

Rookwood, the most beautiful of all American pottery is about half the price it was two years ago without any change in quality. Some choice vases are of exquisite tints and artistic decoration equal in effect to Crown Derby or Royal Worcester. Your cabinet will be improved by the addition of one or two pieces.

Two very handsome sets in silver for tea service will catch the eye of the man who wants to impress upon his wife the fact that he is the very best husband in the world. The price is insignificant compared with the beauty it adds to your table and the high appreciation which your good wife will have for you.

The cut glass cream pitchers mentioned in this column last week are really the most beautiful pieces of this ware we have ever had. The shapes are odd and the cutting equal to the most expensive bits manufactured. One piece of cut glass is as much value in table decoration as any thing you can buy. Some of the olive dishes are duplicates of the very handsome ones shown last year; others are of an entirely new pattern, shell shaped and the quint essence of loveliness.

Another invoice of Royal lemonade shakers will enable us to meet the demand for Christmas novelties. If you don't object to planting lemon seeds in your stomach the old style shaker will answer; some stomachs rebel at such food and it's to those people whose "innards" won't stand it that we mention the new style shakers. We have never shown one to a person yet but what a sale was made and the purchaser felt that he had the best of the bargain. That means that they are cheap.

Carving sets are always in demand at this season. Visions of aged turkeys, sold as the genuine variety, appear to the man who has to do the carving and he yearns for a sharp tool to do the work with. If you do not need a set of carvers we can supply you with a "Jointer" made especially for carving fowls. The little knife grinder will help out the people who do not want to incur the expense of buying new carvers.

People who live in Oriental splendor come to us for their lamps. We have some styles suited to that class as well as less expensive ones for the people who class themselves as plain every day people. Everything is in having the goods for the masses. You seldom have to go elsewhere for anything in our lines, they are always full and we sit up nights to see that we are not short on anything. That's how we come to please the Oriental splendor people.

Banquet lamps in old silver are among the handsomest of ornamental and useful things for the parlor. No matter what you may furnish your room with it looks badly if the lamp is not all right. Put a good lamp on a smart table and your furniture may be of Nor'west; it's the lamp that does the business. The Transit, arrived today, brings us new cutlery and Haviland China in time for Christmas and Schultz Cartidges that will help you bring in game enough for the meal. Clothes Wringers for wash day and many other things for private or plantation use.

Ladies' and gentlemen's handkerchiefs suitable for holiday gifts are to be found at the linen store of W. C. Sproull.

L. J. Levey will hold an auction sale of toys and fancy goods at his saleroom this afternoon, commencing at 2 o'clock.

Hon. E. C. Macfarlane did not return from San Francisco by the Monowai, although his name is on the purser's printed list.

W. F. Wilson, of Theo. H. Davies & Co.'s clerical staff, is home again from a visit to his native "Bonnie Scotland." He looks fine.

Rev. Father Boniface Schaefer arrived to-day by the Monowai. The reverend gentleman comes as an attaché to the Catholic Mission.

Albert Bray, tried the other day for embezzlement of a pair of shoes valued at \$10, was sentenced to pay a fine of \$15 in the Police Court this morning.

There will be a special Praise Service at Bethel Hall to-morrow evening commencing at 7:30 o'clock. It will be the last of the special services in that hall.

Attend the auction sale by J. F. Morgan at his saleroom this evening. A variety of suitable holiday goods will be offered, including an assortment of toys.

Maltby the cyclist at the Army this afternoon and evening. Prices of admission, twenty-five and fifty cents. The evening performance begins at 8 o'clock.

Don't forget to attend the Army this evening and witness the graceful cycling of Mdlle. Emilia in conjunction with Mr. Maltby. Ladies are specially invited.

The S. S. Monowai arrived about 6:30 o'clock this morning. She sailed from San Francisco on the 10th inst., and experienced fine weather throughout the passage.

The steamer W. G. Hall reports plenty of rain at Kau, Hawaii, and the volcano very active. Considerable steam was seen issuing from Mokuaweoweo and Maunaloa.

The S. S. Monowai left about 1:30 o'clock this afternoon. The band played lively selections to the extreme delight of the Colonials. The English airs caught on with them.

A meeting of the Trustees of the Queen's Hospital was called for this morning, but, owing to there not being a quorum present, it was postponed until next Wednesday, same time and place.

L. G. Young and three of his assistants on the dredge, who left here after completing their work on the bar, have left San Francisco for Florida on a similar errand to what brought them here.

The Scottish Thistle Club will nominate candidates for office Monday evening, and after business will hold a smoking concert. Every member is requested to be present and bring a friend.

The "jinriksha man" has disappeared. He left to-day on the Monowai for the Colonies. Mr. Leather, for such is his name, is a wealthy English tourist and had a strong notion of settling down here.

A stowaway from San Francisco was put off the S. S. Monowai shortly before that steamer left this afternoon. He meditated revenge and accepted two policemen to help him, but the babies told him that he would have to see the Marshal. His valise was sent ashore after him.

D. L. Kalawala, Second Assistant Engineer of the Department, had charge of the fire on Punchbowl street Friday morning. Engine Co. No. 2 did the wetting down of the flames. There was a pressure of water on that made the nozzle men squeal.

H. H. Williams returned to his island home by the S. S. Monowai to-day. He has been interviewed in dozens of places, and his information about the islands has come before hundreds of thousands of American newspaper readers...

W. C. Blaton, one of the men convicted of manslaughter in the lynching of a Japanese at Honokaa, Hawaii, has escaped from jail. The police have kept watch on outgoing steamers, but he has not yet been caught. The Monowai was searched to-day before departure. This is the second individual implicated in the deed who has escaped, Steele having got away some weeks ago.

THE LEGISLATURE.

150TH DAY.

SATURDAY, Dec. 17, 1892.

Morning Session.

The Assembly, the few members present, came to order at 9 o'clock, for prayer, rendered by Hon. J. K. Josepa. At 9:37 a quorum was obtained and the minutes of the previous meeting were read and approved.

Rep. Smith from the Sanitary Committee presented a report on a petition from physicians relative to the composition of the Board of Health. The committee do not favor the prayer of the petition...

Rep. Kamaoia from a special committee on the licensing of games of paka pio. The committee are opposed to granting such licenses an recommendation that the bill be tabled. Report adopted.

Rep. White offered a resolution to the effect that whereas the House on a previous date heard with sorrow the report of the death of their late associate Hon. J. W. Kalua and had adjourned out of respect to his memory and now, whereas, they had received further reliable information that their friend was not dead, therefore, be it resolved that the Assembly express its joy at the fact that their friend was yet alive, by adjourning at 11 o'clock. (Laughter.)

Noble J. M. Horner would amend by making the hour 12 o'clock.

Rep. Smith considered that as one adjournment had been made on a false report and they time had been lost, he believed that it would be proper to endeavor to make up that time, so he would move to amend by making the hour 4 p. m. (Uprourious dissent.)

Rep. White questioned which would the House rather do, rejoice because Mr. Kalua was dead or because he was alive? We have now the best of reason to rejoice at our friend being alive. He would accept the amendment offered by Noble Horner and moved that the resolution pass.

Rep. Ashford moved that the resolution be laid on the table. Carried. At 10 the Order of the Day being moved the following bills came up on third reading, viz: Bill 201, relating to the increase of duties on high wines, brandies, gins, rum, liquors, etc. On motion the bill was re-referred to the Temperance Committee which was strengthened by the addition of Rep. Ashford and the Attorney-General thereto.

The Opium Bill was the next on the Order but consideration thereof was deferred until next Tuesday.

Bill 219, to regulate and control the production and furnishing of electricity in Honolulu, came up on second reading and on motion was considered section by section.

Considerable argument ensued, but pending action on Sec. 2 the House, at 12 o'clock, adjourned.

The Cook Case.

Judge Bickerton has ruled against the admissibility of the affidavits and warrants filed by the prosecution against Joseph Cook, the alleged defaulter of the San Francisco Police Court. His Honor shows that the case is not parallel to that of J. W. McCarthy, for in that case an indictment had been found by a grand jury. Cook has not been seen in Honolulu since the steamer Alameda sailed for San Francisco on Thursday.

Mr. J. P. Blaize, an extensive real estate dealer in Des Moines, Iowa, narrowly escaped one of the severest attacks of pneumonia while in the northern part of that state during a recent blizzard, says the Saturday Review. Mr. Blaize had occasion to drive several miles during the storm and was so thoroughly chilled that he was unable to get warm, and inside of an hour after his return he was threatened with a severe case of pneumonia or lung fever. Mr. Blaize sent to the nearest drug store and got a bottle of Chamberlain's Cough Remedy, of which he had often heard, and took a number of large doses. He says the effect was wonderful and in a short time he was breathing quite easily. He kept on taking the medicine and the next day was able to come to Des Moines. Mr. Blaize regards his cure as simply wonderful. For sale by all dealers. Benson, Smith & Co., Agents for the Hawaiian Islands.

We have just opened a line of the latest publications in Etchings, Artotypes, Pastels and other sheet pictures. KING BROS.

"German Syrup"

For children a medicine should be absolutely reliable. A mother must be able to pin her faith to it as to her Bible. It must contain nothing violent, uncertain, or dangerous. It must be standard in material and manufacture. It must be plain and simple to administer; easy and pleasant to take. The child must like it. It must be prompt in action, giving immediate relief as children's troubles come quick, grow fast, and end fatally or otherwise in a very short time. It must not only relieve quick, but bring them around quick, as children chafe and fret and spoil their constitutions under long confinement. It must do its work in moderate doses. A large quantity of medicine in a child is not desirable. It must not interfere with the child's spirits, appetite or general health. These things suit old as well as young folks, and make Boschee's German Syrup the favorite family medicine.

THE LEGISLATURE.

148th DAY.

FRIDAY, Dec. 16, 1892.

Afternoon Session.

The Assembly convened at 1:30 p. m. and continued with the consideration of motions on the merits of the Bank Act.

Rep. Josepa said that he was tired of hearing the same thing said over and over again. Those same arguments were presented two years ago and have been used over and over again until they are now worn threadbare. If some new ideas or arguments which had not been previously met were to be presented he would be pleased to hear them. The introducer of the bill has been telling us that the United States and England have been successful in their issues of paper money. True, because those countries have their own gold and silver mines and their mints, and they raise everything they need. But we who raise nothing, would be in comparison with them like the boy who eats all of an orange, then blows the skin up and says this is an orange. He instanced that if he desired to exchange some of the proposed bank's paper for gold the cashier would say we have no gold, all that we have are some lands and native heuaneas. Of what use would those be to the man who wanted gold. Could he take some of that land and send it abroad to pay his debts. If he bagged up some of the earth could he pay his interest with it? It has been stated that the banks are afraid that this bill would ruin their business. Now, that is a mistake; they, the banks, would be the ones which would make more money. It was the poor and not the rich who would be the sufferers by the passage of this measure. He hoped every Hawaiian who had any love for his country would vote for the motion that the committee rise and recommend the tabling of the bill.

Rep. R. W. Wilcox said that he favored consideration of the bill section by section. He did not approve of killing a bill of this importance without examining its features. The bill was the result of the study of a great many years, and he hoped it would be considered section by section.

Rep. Kamaoia was opposed to the bill. Anyone could see that if this bill went into effect gold would be very scarce. If the introducer had made some provision to have taxes and duties of Government paid in gold coin he (the speaker) might vote for it. Again the sugar planters or the rich would not be the sufferers. Neither are there any petitions presented asking that this banking bill be passed.

Minister Jones asked how the notes were to read? They are not to be paid in gold nor in silver, then what? He considered that the proposition as introduced was an absurdity. It was no use further discussing the matter, he hoped that the House would come to a vote.

Noble Horner—Does His Excellency require an answer? Then I will tell him; the Government will pay back just what it got from the depositor. That will not fail. He will get back the value which he gave. In this the Government proposes to loan; it does not come in with the proposition to borrow and perform to pay.

Minister Jones acknowledged that the measure was a financial problem.

Rep. Bipikane favored consideration section by section.

Rep. Kaunamano favored consideration section by section. This was not the first time that paper money was proposed for introduction into this Kingdom. Away back in the times of Kamehameha the fifth such a measure was proposed and defeated. At that time I thought that it might be advisable to prepare a paper currency for the country. This silver currency now in use was at first objected to, but people have used and many have made their fortunes with it. It does not always follow that because a measure meets with opposition that it is radically wrong. A trial is necessary.

Rep. Kanealii said that he had listened attentively to the discussion on the bill and had read it through very attentively, but he had not heard nor did he find that there was any provision whereby any coin can be obtained for this currency. He regarded the whole project simply as a theory; an empty shell, nothing in it.

Rep. White favored the motion to consider the bill section by section, and made one of his characteristic lengthy speeches in favor.

At 3:15 motion was made that the Committee rise and recommend the House to lay the bill on the table. Carried, 25 to 10.

The Committee rose, the recommendation made was reported to the President by Rep. Waipulani, and an aye and nay vote was taken on the motion to adopt the report resulting as follows:

Ayes—Ministers G. N. Wilcox, Robinson, Jones, Brown; Nobles Berger, Ena, Hopkins, Pua, Peterson, Williams, Kahauna, Hind, Hoapili, Marsden, Young, Walbridge, Anderson, Dreier; Reps. Wilder, Kahi, Koahou, Kamaoia, Waipulani, Kapahu, Nahinu, Kanealii, Kaluna, Josepa, Akina, Smith, A. S. Wilcox—31.

Noes—Nobles Cummins, Maille, J. M. Horner, W. Y. Horner; Reps. Bipikane, Ashford, Aki, Pua, R. W. Wilcox, Bush, A. Horner, Kaunamano, White, Edmonds—14.

Absent—Nobles Baldwin, Cornwell, Thurston, Kanoa.

A motion to reconsider was put and lost.

Rep. Smith, under suspension of the rules, presented reports from the Judiciary Committee on (1) A bill relative to amending the election law as relating to ballots. The committee present an amended bill which they recommend to pass. Report tabled for consideration with bill. (2) On Bill 153, to amend elec-

tion law and allow candidates to have an indefinite number of agents at the polls. Committee recommend bill be tabled. Report tabled. (3) On Bill 213, relating to foreign fire insurance companies. Committee recommend that the bill be tabled. Adopted. (4) Bill 218, relating to the preventing of the formation of trusts. Committee favor the bill. Report tabled. (5) Bill 226, to allow attorneys of lower courts to practise in circuit courts. Committee recommend bill be tabled. Adopted.

At 3:45 the Assembly adjourned.

A Picture

is always an acceptable present for Christmas. The Pacific Hardware Company have just opened a line of pictures comprising monochromes, actotypes, photographs, Randall's and Guerin's, photographs, panels, cabinet frames, medallions on glass, pastels, steel engravings, etc. Their lines of Mouldings comprise the latest patterns, and picture framing is made a specialty.

An assortment of Cornice Poles, Brackets and Trimming, always on hand.

A number of pictures were sold the day they were opened, and the continued demand is reducing the assortment.

When on a visit to Iowa, Mr. K. Dalton, of Luray, Russell County, Kansas, called at the laboratory of Chamberlain & Co., Des Moines, to show them his six year old boy, whose life had been saved by Chamberlain's Cough Remedy, it having cured him of a very severe attack of croup. Mr. Dalton is certain that it saved his boy's life and is enthusiastic in his praise of the Remedy. For sale by all dealers. Benson, Smith & Co., Agents for the Hawaiian Islands.

Mr. Oleson's Good Confession.

EDITOR BULLETIN:—

Believing that the Missionary wing of the Reform party are for annexation to Uncle Sam's domains, it was with much pleasure and satisfaction that I read the straightforward article of Rev. W. B. Oleson in the P. C. A. of Dec. 12. The sentiments expressed by the rev. gentleman have the true American ring; and are the sentiments of every true American residing here. The opposite to those sentiments are false American; and have a streak of the Benedict Arnold blood coursing through the veins of any man here who, as an American, would deface the escutcheon of Hawaii against the will of her people. Whenever the subject of annexation is going rampant through the papers, how is it that the descendants of the missionary, who owe almost their very existence to Hawaiians, remain so passively silent? Is it possible that "these too kindly, too friendly, too truthful, too magnanimous Hawaiian people" have not one true friend left among that class? It would appear so. The above beautiful tribute to Hawaiians was once paid to them by the Rev. S. E. Bishop himself, who would now barter away their last earthly possession—their flag—which they love so well.

AN AMERICAN.

A Teacher Needing Tuition.

EDITOR BULLETIN:—

On the late visit of the Inspector-General of Schools to Kau, he made the appointment of an assistant teacher to the Pahala schools. The lady who has been placed in the position is a Norwegian, and however estimable she may be in her own station is not in any way fitted for that of school teacher, being quite destitute of an education in English, having simply picked up a little of the language during her residence in the islands.

How is it such an appointment as this can be made? My informant tells me it was on the recommendation of the principal of the school, and that the lady is a sister-in-law of this latter personage. This perhaps explains the little matter. Be this as it may, however, I beg to call the attention of the Board of Education and Inspector-General of Schools to the matter. I can hardly think the latter was aware of the lack of qualification when he gave the place to the party in question.

Who Is He?

The Minneapolis Journal of Nov. 23 has the following item. We have never heard of the citizen of Honolulu named in it, nor of anybody having been sent hence to obtain space for our planters at the great fair:

Horace G. Melville, of Honolulu, was in Minneapolis this morning, en route to Chicago. He says that a number of individual planters of the islands are anxious to make exhibits at the world's fair, and he is going to interview the managers as to what space is available for such a purpose. Judging from reports of Minnesota world's fair officials, the chances of obtaining space for such exhibits are very poor. It is a matter of the greatest difficulty to get room for general state exhibits.

For a sore throat there is nothing better than a flannel bandage dampened with Chamberlain's Pain Balm. It will nearly always effect a cure in one night's time. This remedy is also a favorite for rheumatism and has cured many very severe cases. 50 cent bottles for sale by all dealers. Benson, Smith & Co., Agents for the Hawaiian Islands.

Notice to the Public.

The Honest People of Honolulu:—

The Shirt Question is still in the minds of the public and I wish to make a standing statement in regard to the Luning-Johnson matter. On or about the 2d day of December a lot of old shirts was left in my office with instructions to repair them by one signed Luning. I did repair the shirts, and a few days later this man Luning, accompanied by his wife, called and brought another shirt to be repaired, and also asking to see the first lot of shirts. I showed them and they were both well pleased and said the job was well done, and told me that the Chinaman would call on Monday and take them to be re-laundried. This was on Saturday previous to Monday mentioned, and when I finished the last shirt I brought the bill to Luning at his office. He got excited but I did not scare, and I simply told him I would like to collect money for my work. He used some very hot words and said I had a cheek to ask for my money then, and he said he would ruin me, but still I did not scare. I told Luning in presence of a witness that he was welcome to call at my place of business, where I have a room enclosed, and he could try on the shirts there, but he would not do it. No doubt Mr. Luning thought he had dead easy game, but he was like the man that fell out of the balloon—he was simply not in it. I will say this, that in any case I make new shirts and if they do not give entire satisfaction I will alter them, make new shirts, or refund the money. Can any person do more? I will also keep in repair all shirts made by me for two years free of charge, for I am as quiet as a lamb.

THE LATEST.

Bill in Congress to Abolish the Sugar Bounty.

Mr. F. W. Macfarlane has news from San Francisco later than the latest papers, to the effect that a bill has been introduced in Congress to repeal the bounty and reciprocity clauses of the McKinley Act, and impose a duty of half a cent a pound on raw sugar, the changes to take effect March 1, 1893.

This measure would give Hawaii about a million and a half dollars a year more for her sugar. The ten dollars a ton benefit our planters would get under the existing reciprocity treaty, that is independent of the McKinley Act, would make all the difference between loss and a living profit to some of the plantations.
