OFFICIAL GOODBYE TO COL. JOHNSON

REQUIEM MASS FOR THE LATE PRINCE DAVID

(Associated Press Cable to The Star.)

SAN FRANCISCO, June 5.—A requiem mass for the late Prince David Kawanakoa was celebrated this morning in St. Mary's Cathedral.

FOUR MEN KILLED ON TENNESSEE

SAN PEDRO, June 5.—The cruiser California, Captain Cottman, has reported the explosion of a boiler tube aboard the cruiser Tennessee, the flagship of Rear Admiral Stribble, commanded by Captain Howard. Four men were killed and many injured.

CONSIDERS CONTESTS

CHICAGO, Ill., June 5.—The Republican National Committee is considering the contests which will take place over the seating of delegates in the National Convention. The claim of Hawaii for six delegates will be among the matters taken up.

PANAMA APPOINTMENTS

WASHINGTON, D. C., June 5.—Major Devol has been appointed head of the Department of Labor and Commissary at Panama, and Colonel H. T. Hodges has been named Canal Commissioner.

ROOSEVELT TO AFRICA

WASHINGTON, D. C., June 5.—President Roosevelt will go to Africa in April next to hunt.

REFUSES JAPAN

PEKING, China, June 5.—The Imperial Chinese Government has refused the application of Japan for permission to station men in Chinese territory for the purpose of apprehending insurgents who have escaped from Korea.

IS DOUBLE WINNER

LONDON, England, June 5.—The classic race for the Oaks plate today was won by T. Ginstrell's Signorietta, the same horse which won the Derby on Wednesday.

TOM CUMMINS TEMPORARY ROAD SUPERVISOR

It is generally understood that T.

P. Cummins, the chief clerk in the road department, will take Col. Sam Johnson's place as Road Supervisor for the remainder of the year. The reason given for this is that to break in a new man would take at least four months and then it would be only two months before a new Board of Supervisors would take office and might oust the incumbent. For this reason it is thought better to allow Cummins, who is familiar with the work, to proceed with the position until the first of the coming year.

Transport Smallpox

SHERMAN WILL NOT ENTER HARBOR—TAKES WATER AND SAILS TONIGHT.

Wirelessing the fact this morning that there had been small-pox aboard, the United States Army transport Sherman was off port about daylight and was visited by the Federal doctors at 7 o'clock.

She comes from the Philippines and is carrying the entire First Regiment home, together with a large number of civilian employes, clerks, nurses, members of the Philippine Constabulary, officers and the families of officers, a few prisoners and sick men and discharged soldiers, marines, navy men and casuals.

Yesterday afternoon she reached Honolulu by wireless and announced that she would be off port this morning, but she was not allowed to enter on account of there having been small-pox aboard. There is at present no sickness on the troopship, among the soldiers or others, but the period of incubation is not yet over and the quartermaster in charge of the transport was given the choice of entering and fumigating alongside the quarantine wharf or lying outside and taking a smoking at San Francisco. The transport's choice was to fumigate at Frisco, since no coal was needed here. The Navy water tank was sent out this forenoon and lay alongside the transport to give her fresh water. She will probably get away this evening.

No passengers were allowed ashore from the Sherman and but one passenger will leave here for the coast, Castleberry who deserted the navy at Manila and escaped from the brig at Camp Very here and later delivered himself to the marines.

TO GATHER BOOZE FEES

L. L. Harding and Jeremiah W. Doyle, deputy collectors of Internal Revenue, left for Kauai last night to make a general tour of inspection and collect liquor taxes for the United States Government. The recent success on the island of Hawaii will hardly be duplicated on Kauai, as the number of blind pigs on the Garden Island is not as large as on Hawaii on account of the fine work which has been done by Sheriff Rice.

Doyle, true to the rule which he has made, wore a new pair of shoes. As he invariably buys new footwear each time he leaves on one of the trips to the other islands, it has become a standing joke among his friends and a matter of rejoicing to the shoe dealers of the city.

A CERTAIN CURE FOR BOWEL COMPLAINT.

When attacked with diarrhoea or bowel complaint you want a medicine that acts quickly. The attack is always sudden, generally severe and with increasing pain. Chamberlain's never been known to fail in any case of Colic, Cholera and Diarrhoea Remedy has never been known to fail in any case of colic, diarrhoea or summer complaint in children. For sale by all dealers, Benson, Smith & Co., agents for Hawaii.

THE SOLE AGENCY.

Through his agents in Japan, K. Yamamoto, wholesale merchant, secured the sole agency for Tengu Brand Japanese rice. The sale of this well known brand is daily increasing. Phone 399. Hotel street near Nuuanu.

All cemetery work will have our prompt attention. Hawaiian Iron Fence and Monument Works.

The Honolulu Construction Company, Ltd., make a specialty of supplying Rotted Manure, White and Black Sand, and Soil at reasonable rates. Telephones: Office, 281; Stables, 305.

CUT OUT PROGRAM OF FLEET EVENTS

AN ADVOCATE OF GO-AS-YOU-PLEASE ENTERTAINMENT FOR THE NAVAL VISITORS QUOTES PACIFIC COAST EXAMPLES—GIVES THEM LIBERTY TO ENJOY THEMSELVES—LET THE SAILORS CHOOSE THEIR OWN PARTNERS FOR DANCING.

A prominent business man of the community, in talking this morning about the entertainments that are being planned for the men of the fleet when they arrive in July, remarked: "I do not think that the way plans are being arranged is the right way to entertain the men. A few days ago I received a letter from a relative of mine who is an officer in the fleet, pointing out to me the things that should be avoided in planning the program during the visit of the fleet."

"The men of the fleet do not care for set forms of entertainment, and they object very much when they are detailed to go to any special function. The best way to please the men of the fleet is to let them choose their own fun without any restrictions. When a man has been on board ship for any length of time he gets very tired of the regular routine of the ship, and when the men arrive in port they are anxious to go out and enjoy themselves as they see fit, without any conditions attached. The old saying, 'one man can drive a horse to water, but ten men can't make him drink' is very true in this case."

"In the letter I received from the Coast I was told that the men enjoyed their stay in Los Angeles more than in any other place, for the simple reason that they were given all the liberty they wanted and they were not obliged to adhere to any set program. 'They were allowed to go all over the city on the street cars without paying any fare, and they were able to do as they pleased in every way. Conditions were just reversed in San Francisco, as when they arrived there they found that a set program had been arranged for every day of their stay, and that they were obliged to attend

ATKINSON ON SPORTS

The Executive Committee met this afternoon at the regular time, the meeting adjourning at two o'clock sharp. Those present were Chairman G. R. Carter, J. F. Morgan, J. A. McCallister, G. W. Smith, Col. J. W. Jones, H. P. Wood, F. L. Waldron, L. T. Peck, J. P. Cooke and the press.

After the meeting had been called to order the minutes of yesterday's meeting were read and approved.

Communications were read from Judge Kepoika of Maui, the County clerk, C. H. Dickey, Marston Campbell and Col. Sam Johnson.

The resignation of Sam Johnson as chairman of the Sports Committee was accepted, and a resolution of thanks to him for his services so far in getting matters in shape, and an expression of regret at his being obliged to resign, was passed unanimously.

On motion of Smith, seconded by Waldron, A. L. G. Atkinson was unanimously elected to succeed Col. Johnson as chairman of the Sports committee.

Treasurer Peck reported that \$12,000 was practically assured for the general fund.

An appropriation of \$1200 for labor, \$650 for flags and \$750 for fireworks was carried for the decoration committee. Colonel Jones, chairman of that committee, stated that the actual work of erecting poles and stringing the wires would be started on Monday. As there was no further business, the meeting adjourned until Monday at the regular hour.

HALF-HOLIDAY AT SACHS.
Suchs will close at 1 o'clock tomorrow, but expects his big specials to bring a whole day's business by noon.

many functions that they did not care for. This idea of having the men dance with the wives of the officers is another thing that should be done away with entirely. No one knows how many of the officers' wives will follow the fleet, but if a number do, or if the men are obliged to dance with any of the smart set of this city, they will object very much. They want to be able to go to dance halls or other places where dances are given, and ask whoever they wish to dance.

"Another idea that should be carefully considered is that we are acting as hosts for them, and they are not supposed to entertain us. All the entertainment that they are providing is in the fact that they have brought the ships and when they get here they want to be able to do exactly as they please. 'Have plenty of athletics, base ball, football and other kinds of sport for them, have dances that they can attend if they wish to, and in fact give them the freedom of the city, but do not attempt to let them have everything free, as they want to spend their own money. Let them have all the pleasure that can possibly be given them, but above all things cut out any set program of events they will be obliged to attend, if Honolulu people want them to feel satisfied when they leave."

"If arrangements can be made with the Rapid Transit Co. to give them free transportation over their lines, it will be one of the best things that could be done. Have plenty of good horses for them to ride, as Jack loves to be on board a horse when he is ashore. The fleet will soon be here, and it is up to the citizens of Hawaii to give them a warm welcome and a good time while they are here."

TIMBER FOR COAL RAILWAY

The Inter-Island Steam Navigation received in the schooner Robert Lewers, which arrived from Port Gamble on Wednesday, the heavy timbers for the trestle work for the Inter-Island's elevated coal hauling system to be established at the Waikiki end of the harbor.

The steel for the viaduct, cranes and towers is expected to leave New York tomorrow for Coatzacoalcas and the Tehuantepec railway to Salina Cruz and so to Honolulu per A.H. boat. Some of the steel is already here.

POLLITZ IS COMING

Under date of May 18 E. Pollitz & Co. wrote the Henry Waterhouse Trust Co. that Mr. Pollitz would leave for his "annual junketing trip" to Honolulu within a few weeks. Mr. Pollitz has long been heavily interested in Hawaiian stocks. He comes here periodically to rest, look over the situation and stir the local people up a bit on sugar stocks.

WRIGHTS SUSPEND FLIGHTS.

NORFOLK, May 18.—Wright and Orville Wright, who have just made a series of flights in their aeroplane at Kill Devil Hill, passed through today on their way to their home in Dayton, O. They left their machine packed in boxes in their camp at Kill Devil Hill, only slightly damaged by the mishap last week.

Wright would not discuss the experiments, but said that his brother would probably make a statement in a few days.

Within a few months a test of the Wrights' aeroplane will be made at Fort Myer, when the flights will be witnessed by the officers of the Signal Corps.

MOTT-SMITH PAYS PARTING TRIBUTE

COL. JOHNSON MAKES PUBLIC TENDER OF HIS RESIGNATION AS COMMANDER OF FIRST REGIMENT, NATIONAL GUARD OF HAWAII—SEVERAL OFFICERS SPEAK REGRETFULLY OF HIS DEPARTURE AND APPRECIATIVE LY OF THEIR MUTUAL RELATIONS

The officers of the local National Guard met at the Bungalow this noon and said their official farewells to Col. Sam Johnson, whose resignation and request that he be placed on the retired list was handed to Acting-Governor Mott-Smith at the meeting. The meeting was called to order by Col. Johnson, who handed the resignation to the Acting-Governor who read it aloud. Col. Johnson then said a few words thanking the officers for their support and asking that his successor be accorded the same treatment which had been received by him.

Acting Governor Mott-Smith addressed the officers, touching on the fine organization of the regiment which has been attained while under Col. Johnson's command, and hoping that it would attain the full strength of a regiment in number as well as in name. This was needed, he said, on account of the strategic point which these islands have become. He said that he hoped that the National Guard would always be the same source of credit to the Territory that it is now and has been under Col. Johnson.

Turning to the retiring officer he said:

"Col. Johnson, in your long service, extending even to the beginning of the National Guard in this Territory, I believe that the people of these islands have fully appreciated the services

which you have rendered. It is very much to be regretted that you have been forced, by leaving this island, to relinquish your active command in the organization, and we all hope that you may later on return to Oahu and once more take up your work.

"Your work in the First Regiment can be well described by one word, efficiency. It is very safe to say that no one man in the National Guard has done so much to bring the organization up to its present fine condition." Lieut-Col. Coyne, Captain Neely, Captain Gorman and Lieut-Col. Ziegler all made short addresses telling of the long years in which they had known Col. Johnson and complimenting him on the fine work which he has done for the National Guard of Hawaii. Some of the speakers were so affected that their voices were broken as they paid their parting compliments to their retiring commander.

Among those present were: Acting Governor Mott-Smith, Capt. Gorman, Lieut. O'Sullivan, Adjutant Thompson, Adjutant Whitehead, Lieut. Cooke, Lieut. Kakalia, Capt. Neely, Lieut. Dougherty, Capt. Coster, Lieut. Kallimail, Lieut. Ahia, Lieut-Col. Coyne, Capt. Angus, Lieut. Kane, Lieut. Kumano, Lieut. Evans, Lieut. Clarke, Lieut-Col. Ziegler, Adjutant Cummins, Capt. M. Johnson.

WAIALUA IS DOING WELL

Manager Goodale of the Waialua plantation was among the visitors in the city this morning and appears to be very much pleased over the outlook for the sugar season. Though he refused to raise his estimate for the crop of the present season, it is apparent that he would not be at all surprised to see the amount of sugar run even over the estimate of 30,000 tons, which he has made. When asked for an expression of opinion in regard to a crop which would pass this mark, he said:

"My first estimate was 28,000 tons, which I have raised to 30,000 tons and the crop will certainly not run under this figure. I do not care to say that

it will be higher and will not make any further estimate till August 5. We expect to complete grinding about August 15. Considering the fact that it has been a very dry season we have done very well in the matter of water. We are irrigating freely and have enough for our wants.

"I have paid several visits to Waialua of late and the pineapple crop appears to be very good indeed. It is certainly a great sight and one which the visitors to the Territory should not miss. The new industry is doing very well indeed."

FRENCH DINNER.

A French dinner is served at the Alexander Young Cafe from 5:30 till 8 o'clock every evening. Prices, 50c. and 75c.

Do they pinch?
Why don't you get a decent fit?
We sell shoes—and they don't pinch because we don't fit 'em that way.
3000 pairs of new shoes for men and women just in.
Think of "no pinch" then make a bee-line for our front door.

WEEKLY WEATHER BULLETIN

FOR THE WEEK ENDED MAY 30, 1908.
Honolulu, June 1, 1908.

GENERAL SUMMARY.

The mean temperatures did not, as a rule, vary much from those of the preceding week. On Hawaii they were generally higher, with changes varying from -0.4 deg. to +0.9 deg., excepting +2.2 deg. at Kau. On Maui the changes ranged from +0.4 deg. to +0.8 deg. in the Lahaina, Hamakualoa and southern part of the Koolau districts, and -0.1 deg. to -1.1 deg. in the remaining portions of the island. In the Honolulu and Koolauloa districts of Oahu the changes ranged from -0.8 deg. to -1.4 deg., and 0.0 deg. to +0.5 deg. in the remaining districts. On Kauai the changes varied from 0.0 deg. to +0.3 deg. in the Kona, and 0.0 deg. to -0.3 deg. in the remaining districts. The changes on Molokai varied from +0.5 deg. in the interior to -0.58 deg. on the southeast coast.

At stations having a record of ten or more years the total rainfall for the week was below the average 0.21 to 0.92 inch on Kauai, 0.07 to 0.42 inch on Oahu, excepting an excess of 2.04 inches at Maunawili Ranch. On Hawaii the changes in the Kohala district were +0.66 to +0.70 inch, excepting -0.05 inch at Niuli; Hamakua -0.70 and -0.71 inch, Hilo -0.38 inch to -1.05 inches, and -0.22 to -0.45 inches in the Puna, Kau and Kona districts.

The greatest amounts of rainfall for the week were reported from

FRED. NAYLOR'S SUICIDE STOPPED

MAN-ABOUT-TOWN THOUGHT LIFE NOT WORTH LIVING BUT WAS RUDELY RESCUED.

HILO, June 2.—It was the fact that Fred Naylor forgot last Sunday week was the 24th of May that caused the whole trouble for Fred was once in the British Royal Engineers and "Queen's Birthday" is hallowed in his memory. It was not until Tuesday that he remembered that he had missed celebrating the event and he became sad. He sought solace by a method which though not uncommon, is none the less reprehensible.

It was in a gloomily retrospective mood that he wandered down to the postoffice and asked if there were any letters for him from the O. O. Country. "That settles it," he said. "Nobody remembers poor old Fred."

He went down to the end of the old Waiannu street dock and took off his coat and hat. The tide was out and the water was easily three feet in depth so he sat down, apparently to wait for the tide to come in. Watched by an interested crowd he would occasionally apostrophize the laggard waters. He announced his intention of ending matters as soon as the water was deep enough.

The coming of the tide was awaited patiently but Policeman Louis Haitha arrived first. He tried moral suasion but Naylor made a bolt along the beach and started to wade out to sea. Policeman Iokopa and Yotaro appeared opportunely and to the utter wreck of their neat khaki uniforms they rescued the would-be suicide.

"You are already out on suspended sentence for a former offence," said Acting Magistrate Irwin the next morning to Naylor. "Thirty days."—Hilo Tribune.

THE LOG-BOOK

There has occurred on the water front a sudden change which has started the loungers on the corner of Nuuanu and Queen streets, a favorite meditating place for marines. The Old Red Front seamen's clothing store has been dismantled of its souwesters, oilskins, seaboots, sweaters, plug tobacco, neckerchiefs and other gear. Izzy Rosenberg has sold out to L. B. Kerr and has gone away in the Alameda and there is now no gens' notions emporium on the waterfront save those steered by Chinese and Japanese.

AN AUSTRALIAN COMMERCIAL TRAVELER'S STORY.

It is the commercial traveler who finds the many changes of climate and water trying. Mr. Chas. G. Chapman, who represents a large Brisbane concern, had been troubled for years with chronic diarrhoea. On one of his trips a fellow traveler recommended Chamberlain's Colic, Cholera and Diarrhoea Remedy, and this is what he says of it: "I procured a bottle and experienced great relief after taking a few doses. Before the bottle was finished I was cured and have not been troubled since." This remedy is for sale by all Dealers, Benson, Smith & Co., agents for Hawaii.

TEMPERATURE.

Temperature.	Rainfall.
Hawaii.....70.9 deg.	1.05 inches.
Maui.....73.9 deg.	1.56 inches.
Oahu.....75.5 deg.	0.75 inch.
Kauai.....74.4 deg.	0.34 inch.
Molokai.....72.9 deg.	1.62 inches.
Entire Group.....73.1 deg.	1.05 inches.

PRECIPITATION.

(Rain 21 years, 1877-94, 1905-7.)

Average for the month, 0.92 inches.

Average number of days with .01 of an inch or more, 14.

The greatest monthly precipitation was 2.40 inches in 1885.

The least monthly precipitation was 0.24 inches in 1877.

The greatest amount of precipitation recorded in any 24 consecutive hours was 0.81 inches on the 22nd, 1885.

THE LOG-BOOK

There has occurred on the water front a sudden change which has started the loungers on the corner of Nuuanu and Queen streets, a favorite meditating place for marines. The Old Red Front seamen's clothing store has been dismantled of its souwesters, oilskins, seaboots, sweaters, plug tobacco, neckerchiefs and other gear. Izzy Rosenberg has sold out to L. B. Kerr and has gone away in the Alameda and there is now no gens' notions emporium on the waterfront save those steered by Chinese and Japanese.

AN AUSTRALIAN COMMERCIAL TRAVELER'S STORY.

It is the commercial traveler who finds the many changes of climate and water trying. Mr. Chas. G. Chapman, who represents a large Brisbane concern, had been troubled for years with chronic diarrhoea. On one of his trips a fellow traveler recommended Chamberlain's Colic, Cholera and Diarrhoea Remedy, and this is what he says of it: "I procured a bottle and experienced great relief after taking a few doses. Before the bottle was finished I was cured and have not been troubled since." This remedy is for sale by all Dealers, Benson, Smith & Co., agents for Hawaii.

RESENTS STAND OF PRESIDENT

Teller of Colorado Refers To The Threat to Veto Legislation as Encroachment.

SHELVING THE MAIL SUBSIDY.

Owen of Oklahoma Advocates The Election of Senators by Direct Vote.

WASHINGTON, May 23.—When the senate met today there was a general understanding that nothing would be done to delay the final adjournment of congress and that no legislation would be enacted beyond competing consideration of the great supply bills.

The net result of the day's session was the adoption of the conference agreement on the omnibus public buildings bill and the approval of a partial agreement on the postoffice appropriation bill, the items in the latter measure relating to weighing the mails and ocean mail subsidy being sent back to conference.

Various questions were discussed during the day. Senator Teller reviewed court decisions on the limitations of federal power under the constitution, and referred to a report that the president had stated in a letter that he would veto certain legislation if passed by congress as an evidence of unwarranted encroachment upon the powers of the states.

Teller was followed by Bacon, who declared that the president's statement in his message of March 25, that he would veto any bill not guarding the right of the government to charge for power on navigable streams in connection with legislation respecting water power privileges, was a "gross breach of the privileges of the senate." He said he would have introduced a resolution providing that this matter be considered by the committee on privileges and elections, but being a member of the minority he feared his act would have been regarded as partisan.

Owen of Oklahoma spoke on his joint resolution, providing that an amendment to the constitution for the election of senators by the people be submitted to the states for ratification, and contended that the legislatures of 27 states having voted in favor of that reform the senators from those states should support his resolution. He moved a vote on the passage of the measure, but a motion to send it to the committee on privileges and elections was carried by a vote of 33 to 20.

Ineffectual efforts were made by Beveridge to pass the omnibus territories bill, and by Newlands to secure consideration of his resolution creating an inland waterways commission.

PLATT'S PROPHECY ANNOYS DEPEW

THE NEW YORK SENATOR DECLINES TO DISCUSS POSSIBILITY OF HIS RETIREMENT.

WASHINGTON, May 23.—Senator Chauncey Depew, colleague of Senator Platt, smiled sadly today when his attention was called to the statement by Senator Platt that Depew was about to retire from public life.

"What is your opinion of it, senator?" he was asked. "Senator Platt knows his own business and his own mind," he replied. "Will you retire when your present term expires?"

The senator looked surprised for a few moments and then his face took on an expression of annoyance.

"I positively refuse," he answered sharply, "to go into the business of prognosticating."

"Senator Platt says that Roosevelt will be a candidate to succeed you in the senate."

"I do not know anything of Roosevelt's plans for the future. You will have to go to him for your information."

MODERN MAGICIAN CONJURES WATER

Expert of Geological Survey Predicts Artesian Flow at 3000 Foot Depth.

SUPPLY JUSTIFIES EXPENSE.

Railroad's Deep Bore Strikes a Big Supply Within Twenty Feet of Limit.

WASHINGTON, May 12.—Only the seventh son of a seventh son is supposed to have the gift of hidden water knowledge. With his witch hazel wand—and there is no authentic instance where a true water witch failed—he can locate wells or underground channels to a depth of 40 feet or a little more. He will hold his forked switch in both hands and circle about, and when he crosses above a vein of water the butt of the switch bends downward with irresistible force, thus locating, as by very magic, the spot at which he advises the digging of the well.

The government geologists smile broadly at the claims of the born water finder with the witch hazel wand; nevertheless they do a little well finding themselves once in a while, but their work is based on geologic knowledge of water bearing gravels and rock formations. Nor are they limited to any 40 or even 100 feet depths at which they will promise the discovery of the liquid mineral.

What would have been thought a century ago of a man who would predict that water would be found in a certain spot at a depth of 3000 feet? Either that he was a consummate liar or, if he were so unfortunate as to live to see his prophecy fulfilled, he would have been pronounced a dealer in the black art and a fit subject for burning at the stake. Yet this is exactly what has occurred in an instance just made public by the United States geological survey.

RAILROAD ASKS ADVICE.

The Black hills region of South Dakota is a dry country and the water problem is in many cases a serious one. Several years ago the Burlington railroad, which runs through the southern end of the Black hills, concluded to sink a well and applied to the United States geological survey for advice as to the underground conditions.

N. H. Darton, a survey geologist who had spent some years studying the geology of the Dakotas, made the prediction that the region of the proposed well site was underlain by water bearing sandstones which, at a depth not greater than 3000 feet, would probably furnish a good supply of water, so the well was bored.

Darton stated that some water might be struck in the red sandy limestones of the carboniferous formation and this was the case; but he advised that provision should be made to bore to the lowest sandstones, the base of which would probably be encountered at a depth of about 3000 feet.

PROPHECY IS FULFILLED.

The water was found in these sandstones, known as the Deadwood formation, which began at 2,920 feet and was penetrated to a total depth of 2,980, when the flow of the well amounted to half a million gallons a day under a pressure of 75 pounds, giving an ample supply for the railroad's needs and constituting one of the most noteworthy artesian wells of the country.

The water is of a uniform temperature of 122 degrees F. and of good quality, and the supply fully justifies the great expense of the undertaking. Several times the projectors of the enterprise were on the point of giving up the task, but they were urged to continue, the geologist being confident that the prospects warranted boring to the lowest stratum.

When the great flow was struck after boring more than 2950 feet the water proved bad; it was impregnated with mineral matter and valueless for boiler use. The railroad people were in despair, but again appealed to the government geologist.

Darton expressed his belief that the main flow from the lower sandstone was good and that, as the lower portion of the well was not cased, the mineral matter had come down from the red beds above the water bearing sandstone. Accordingly he advised the sinking of a casing so as to cut off the source of contamination. This was done and with the most satisfactory results. All of which goes to show the immense economic importance of the underground water studies of the federal geological survey and to what extent science may be depended upon to point the way for the practical development of natural resources.

YOU TAKE AN UMBRELLA

if you think it will rain. On the same principle, take a Dr. Miles' Anti-Pain Pill, "the Little Comforters," when you have reason to believe you will have an attack of headache, tooth ache, neuralgia, indigestion—or those terrible bearing-down pains. They will prevent the attack, and keep you immune from pain just as an umbrella will prevent the rain from falling upon you. Money back if first package fails to benefit.

A CONFIRMED OPTIMIST.

His voice, despite enormous demands that have been made upon it, retains an amazing degree of flexibility, and on the platform or in conversation possesses unimpaird this peculiar power which has played no inconspicuous part in winning fame for him. Mr. Bryan's winning smile and gleeful laugh tell of boundless optimism. He is a philosopher of a constructive type and a delightful conversationalist. In

BRYAN IS HALE THOUGH BULKY

The Commoner Unruffled By Clouds That May Darken His Sky.

THE PANIC GIVES HIM HOPE.

"Industrial Depression Elected Cleveland in '84; It Will Help Us Now."

PHILADELPHIA, May 19.—"As soon as we can get the Democratic party organization of this State in sympathy with the masses we shall win even in Pennsylvania."

William Jennings Bryan, ruddy, more rotund than in years past, and obviously unruffled by whatever clouds may darken his sky, made this declaration yesterday shortly after he arrived in this city. He spoke with a flash of the eye and a staccato utterance which evidenced the sincerity of his prediction.

"I must avoid personalities or too minute local comment," he continued, "but the difficulty here and elsewhere is that the Democrats in control of the party organization have not always shown by any outward and visible signs a difference between their principles and methods and those which govern the men who control the Republican organization. But I do not despair. Locally and nationally the lines of demarcation between Republican principles and Republican methods grow more distinct and reveal more truly the sympathy of the men and the measures of true Democracy with the masses. With every such advance the prospect brightens."

DEMOCRATIC IDEAS SPREADING.

While avoiding any direct comment on the Bryan and anti-Bryan warfare in this State, to culminate at Harrisburg tomorrow in the Democratic State convention, Mr. Bryan, when urged to express his personal attitude toward the contestants, made this significant comment:

"My only wish is that the will of the people, as expressed at the polls, shall be carried out by the delegates.

"I believe that the party organization is merely the agent of the voters and the people who are elected as delegates merely the representatives of those who elect them, and a failure to record the wishes of those who do the voting is a betrayal of trust.

"So far as any personal interest I may have in the contest is concerned I would prefer to say nothing. And I cannot with propriety discuss the very interesting situation among our friends the enemy. But so far as the outlook for Democracy in the country at large is concerned I think it is good. Democratic ideas have grown in strength, and the appalling disclosures which have followed investigations of many kinds have shown above everything else how completely the Republican party is controlled by the predatory interests. I believe the lesson has gone deeply into the hearts and minds of the American people, and the result will be evident next November.

WHY CLEVELAND WAS ELECTED.

"Industrial unrest was undoubtedly a powerful factor in the election of Grover Cleveland in 1884. Today we have something of the same situation, and, added to a greater degree of unrest, there is the moral effect of repeated revelations of Republican alliance with the oppressors of the people. There is, therefore, an added reason why Democracy may hope for victory.

"I believe that the American workman is at last convinced that to throw off the yoke of the 'interests' he must throw off the yoke of the Republican party, which has made possible, and still stands sponsor for, their depredations.

"Our strength, on the other hand lies with the masses, and I believe that we are on the eve of a widespread awakening to the fact that, between a party which stands revealed as the agent of predatory interests and a party which stands for the welfare of the masses, there can be but one choice for the thinking American citizen—he should ally himself with the Democracy and vote for the candidates whom it shall please the Denver convention to name."

"Will you be the standard bearer?" "That remains to be seen," replied Mr. Bryan, smiling broadly.

Some of the mass of hair which was a characteristic feature of the Nebraskan when the cartoonists first took his measure has vanished. Wear and tear of travel, however, have left no marks, and in the past 12 years he has added something like 50 pounds to his weight.

"Traveling agrees with me," he said. "I enjoy meeting the people, and, of course, I enjoy talking to them."

A CONFIRMED OPTIMIST.

His voice, despite enormous demands that have been made upon it, retains an amazing degree of flexibility, and on the platform or in conversation possesses unimpaird this peculiar power which has played no inconspicuous part in winning fame for him. Mr. Bryan's winning smile and gleeful laugh tell of boundless optimism. He is a philosopher of a constructive type and a delightful conversationalist. In

private, practical politics is a theme almost entirely ignored by him in favor of any number of intellectual interests which appeal to him. He manifestly has long been an omnivorous reader, but one of the greatest charms of his conversation lies in a broad knowledge of and sympathy with human nature.

"I count it a great privilege to be host to Mr. Bryan," said Mr. Morris. "America has no citizen more intimately aware of her needs, more sincerely a seeker to solve her problems, more unsparring of himself in the interests of the people. I expect to see him nominated once more for the Presidency of Democracy, and this time triumphantly elected."

Why 'VUDOR' PORCH SHADES Are Needed

You need Vudor Porch Shades to get the most out of your porch.

To make it a spot where you can rest or work on the hottest days—outdoors, yet free from the sun's glare and heat.

You can do this with Vudor Porch Shades; you can add to the house another room, cool and shady, where you may enjoy every refreshing breeze, in secluded comfort.

Vudor Porch Shades are very durable, and will last many seasons.

Another good feature about them is the peculiar fact that those sitting on the porch can see out, but passersby cannot see in. In other words, you have complete privacy, and can use the porch or veranda the same as an inside room, with infinitely more comfort on hot days.

Vudor Porch Shades are just the thing for "boxing in" porches or balconies that are to be used as outdoor sleeping or living apartments.

Vudor Porch Shades are made of thin, flat strips of Linden Wood, closely bound by strong Seine Twine, in a lock-stitch weave.

They are artistically stained in soft, pleasing colors. These colors are

"She can look out, but you can't look in" TRADE Vudor MARK PATENTED PORCH SHADES

weather-proof, and will not fade or croak off.

The shades can be instantly raised, or lowered (operating on the principle of a theatre curtain) and are easily and readily put up.

GEORGE F. HENSHALL.....MANAGER
 FRIDAY JUNE 5, 1908

FARMERS AND TRANSPORTATION.

The diversified agricultural industry here is so well understood by those who have investigated, to be bound by transportation difficulties, that it is surprising to find attempts to ignore them. We may take as a sample, dairy and other table supplies which Honolulu imports from the Mainland, these being only one class among many importations shown in the federal reports of things which Hawaii should herself produce. It has been estimated by a leading purveyor of Honolulu that \$75,000 a month is sent to California from Honolulu for products which the Parker ranch alone could supply, were it able to compete with coast prices. The transportation difficulties make this island enterprise at present impracticable, overland roads being the first great difficulty to be overcome.

As far as shipments for the coast are concerned, discussions of possible withdrawals of the Oceanic Company if the coastwise bill passed Congress, also well founded statements that if such a bill had passed the Pacific Mail Steamship Company would have cut out this port are enough to show that transportation is our great problem. As a matter of plain common sense, what else is in the way? The American coast states buy from foreign lands thousands of dollars' worth of stuff Hawaii can produce. Why? Simply because there are safe, certain and cheap transportation facilities for the producer in those lands. Some day Hawaii may have a freight and passenger service such as a great American company gives to the West Indies. Then we shall have no difficulty in marketing produce. Whether the farmer should come first and encourage the steamships, or the steamships should offer their service and wait for profits until the farmers grow the freight, is a question open to considerable discussion. But when a comparison is made with American farmers' development of the great West, it is enough to say that the huge enterprise of building the first transcontinental railroad on the American continent was subsidized to an extent to which it is very unlikely that the American government will ever subsidize anything again.

Give Hawaii a steamship subsidy that will make oceanic service swift, cheap and certain, and one of the greatest difficulties in the way of getting settlers will be disposed of. There is very good reason to think that if the next Congress is Republican, a subsidy will pass.

The significance of a recent Star cablegram, saying that Roosevelt and Bryan had agreed on the principle of publicity for campaign contributions, may be found in the denunciation by Bryan's chief rival for the Democratic nomination, Governor Johnson, of the publicity bill with the Crumpacker amendment limiting representation of states in Congress proportionately to their respective disfranchisement of the negroes. If it were suicidal, as Johnson puts the matter, for the President to sign the bill, it would be much more so for Bryan to favor it, providing his agreement with Roosevelt went to the extent of approving of the measure as a whole. While the President's signature might lose Taft some southern votes in the Republican nominating convention which he might scarcely well spare, Bryan's approval of retaliatory disfranchisement in part of the Southern whites would probably have disastrous results for him at the polls if it failed to kill him in the Democratic convention. Taft would have but the first gauntlet to run, having no hopes to bank on electoral support in the South. Bryan needs the solid South and enough more in the North to elect him if nominated.

The local G. O. P. may change mahouts, but will that avail if the burden remains too heavy?

More gospel and less gab would probably be a moral benefit to Honolulu.

It is likely that the President's adjuration to Ferneciari, amateur lightweight champion, to "lick the tar out of the Britfishers" at the Olympic games in England, will tickle no one more immensely than his great and good friend Edward VII. But think what a roar there would have been in Honolulu last Saturday afternoon if Acting Governor Mott-Smith had given out the word to Jockey Willis to "knock the stuffin' out of the Chink."

A man in San Francisco who stole a newspaper from a doorstep was sentenced to thirty days in jail. Another charge against him of stealing two pint bottles of milk was dismissed. One inference from the judgment is that the natural law justifies stealing to alleviate bodily hunger, while there is no authority from Solomon down to extenuate the swiping of intelligence to cure mental vacuity.

Quite probably some local people may be correct who surmise that the secret of sending four battleships to the Lahaina offing to coal lies in the history of the whaling days. Someone in Washington having read about the large fleet of whalers that used to frequent Lahaina for supplies and "rendering" purposes jumped to the conclusion that Lahaina was a good place to coal a portion of the Atlantic fleet. If this is the correct theory the Navy department should have carried the idea further. Then it might have discovered in the fact that Honolulu and Lahaina each used to supply hundreds of whaling ships at once with provisions of various kinds, the products of these islands, the advisability of finding out just what Hawaii might be able to do at the present day in furnishing meat, vegetables, fruits, sugar and coffee

to the fleet at first hand—fresh and at prices that eliminated the profits of middlemen. Hawaii is mighty glad to welcome the fleet and pay good money to evince its gladness withal, but it might have been given a chance to show what it could do in giving value received for a portion of the necessary expenditure on fleet commissary stores.

There is certainly more chance of delivering the goods in good order and condition when Chinese are smuggled from the southern border in a sealed car than when confined in merchandise boxes. The sixteen Chinese reaching San Francisco in a sealed car yesterday will be worth shipping back to China even for their value as gunpowder food in the event of war, which is more than can be said for the twelve Chinese lately reported to have arrived in New York as corpses in boxes. If the smugglers who are defying the law were less desperate and diabolical in their operations, perhaps the immigration officers charged with enforcing the law might give less cause of reproach in their dealings with Chinese entering under plausible color of conformity with the treaty.

KAILUA COURTHOUSE

Superintendent of Public Works Campbell has received word from Kailua that the new courthouse at that town will be completed in about three weeks. The people of Kailua seem to be greatly pleased with the new structure and will hold a celebration when the building is occupied for the first time. The building will be of wood and two stories in height. Its cost is \$10,000.

PRIZE FIGHT MATTER.

The matter of the alleged prize fight at the Orpheum last Saturday night has been presented to Attorney General Hemenway, so that he may take it to the grand jury.

FINANCIAL STRESS ABROAD.

WASHINGTON, May 18.—Marcus Braun, special inspector of the immigration service, who returned today from a four months' tour abroad, says every country of Europe is suffering from financial depression. This is particularly true of the hotels and resorts patronized by Americans. The tide of American travel to Europe this year has been much lower than in many years, and the people of all continental countries have felt the absence of American travelers.

An incidental purpose of Mr. Braun's trip was to investigate for the immigration service the coming of this country of aliens as seamen or other employes on foreign ships and making their way into the country without passing the immigration officials. His report will be submitted to Secretary Straus.

CONTRACT TO CUT RAILROAD TIES

HILO, June 2.—Quite one of the most important transactions ever completed in Hilo was arranged and settled as to details last week between the Hawaiian Mahogany Lumber Company and Ariole Brothers, the well known contracting firm.
In plain terms the contract calls for the cutting of two million five hundred thousand (2,500,000) railroad ties by Ariole Brothers, and further for the furnishing of ten million (10,000,000) feet, board measure, of ohia lumber to be cut up for switch ties, these being of different lengths from the ordinary ties used by railroads. Roughly, the contract means the expenditure of a sum of about \$400,000 on this island.

All of the ties will be cut from the ohia forests of Hawaii, the required lumber being taken from Puna. The Hawaiian Mahogany Lumber Company now has control of 4800 acres of ohia forest in Puna, a portion of which is Catholic Mission land and which is at present under lease to the Olaa Sugar Company and the Puna Sugar Company. The forest lies between the 650 foot and the 1000 foot lines of altitude.
That negotiations have been pending for some time between the Mahogany Company representatives and Ariole Brothers has been well known and negotiations were brought to a head with Managing Director W. W. Harris, J. B. Castle and Lorrin Thurston of the Mahogany Company, on the one side, and Charles Joseph and Peter Ariole on the other.

The papers having been signed last week, the Ariole brothers went back to Puna at once and work actually started on the contract yesterday, for while the contract calls for the delivery of the required lumber within five years, it is plainly to the advantage of the contractors to complete their job in as quick a time as possible. The contract entered into calls for the pulling down of the trees and sawing them into lengths convenient for cutting into tie lengths. The contractors' work will be finished when the ties are cut, the Mahogany Company taking the finished ties away from the scene of operations. Work commenced above Pahaia at a distance of about a mile.

It is intended to pull down the trees with donkey engines and then saw them by hand, for the present at least. This will give employment to about 350 men. Within a reasonable period, as soon as plans for active operations are concluded, the contractors must furnish 3000 ties a day which the Mahogany Company will take away, the contractors' work being done when the

number is cut and is lying on the ground.
The removal of the ohia forest need cause no apprehension among those who fear a general denudation as the government sees to it that ample forest will be left. With the clearing of the land about 2000 acres of good cane land will be made available, a consideration which the owners of the ohia forests no doubt had in mind when the deal was entered into.
As a natural result of this big deal, interest in shipping circles turns on the point of how the ties are to be shipped. It is no secret that the ties are for the Acheson, Topeka & Sarua Fe railroad and that road will make its own arrangements for shipping from Hilo to such mainland ports as may be most convenient.
from Hilo to such mainland ports as one of the biggest things Hawaii has seen for a long time.—Hilo Tribune.

FORMER WIFE OF COUNT IS INSANE
Mrs. Jean Sawyer, Once Well Known in San Francisco, Attempts Suicide.
PARIS, May 23.—Mrs. Jean Sawyer, a once well known San Francisco woman, who after being divorced from Count de Montignion has lived in seclusion in a spacious mansion in the Avenue de Faise, Paris, is likely to be committed to a state asylum for the insane. She has the mania that she is being persecuted by enemies and recently attempted suicide by jumping from a window of her apartments. She was arrested, examined by a police surgeon and locked up.
Dr. Maryman and Maitre Bertiez, a French lawyer, secured her removal to a private sanitarium at Passy. She will probably be pronounced legally insane and put in a state institution unless some member of her family or close friend intervenes immediately. Her illness, which is that of pronounced melancholia, is possibly curable.
Last year Mrs. Sawyer made a will, leaving her estate to the son of a New York woman who was visiting Paris. She is said to have taken a great fancy both to the boy and his mother, but her lawyers refuse to divulge their names. Besides property in San Francisco Mrs. Sawyer has a yearly income and has stocks and bonds in safe deposit at the Credit Lyonnais.

BILL MIGHT BEAT TAFT'S ELECTION

Governor of Minnesota Objects to House Measure for Campaign Publicity.

TO SIGN WOULD BE SUICIDAL.
Believes President's Signature Would Array Solid South Against War Secretary.

NORFOLK, Va., May 23.—Governor John A. Johnson of Minnesota, while in Norfolk today, denounced the Crumpacker amendment to the campaign publicity bill passed by the house yesterday and declared that if the senate passed it he does not see how the president can conscientiously sign it.

"It is a bad bill," said Johnson. "If it passes the senate and becomes law by the president's signature I believe it will defeat the nomination of Secretary Taft for the presidency. That measure will array the solid south against Mr. Taft's nomination. However, I cannot see how Mr. Roosevelt can approve the measure. The president has taken a stand for pure elections. His position is known countrywide and I do not believe he would sign such a bill were it put up to him. It would be suicidal."

When questioned in regard to his name being presented to the Denver convention if Bryan had pledged or instructed for him two-thirds of the delegates, Johnson intimated that he did not believe Bryan would enter the convention with a nominating majority pledged to him. He was adverse to being interviewed on national political questions. He would not enter into detailed discussion of the presidential nomination fight.

"What the party wants is a winner," he said. "If many democrats think Mr. Bryan is the logical candidate and winner, then nominate him; but if they think I can win, nominate me—I am prepared to put up the fight of my life for election."

"I think it party wisdom to send uncommitted delegates to national conventions. That leaves the delegates free to discuss all available candidates and then nominate the best man."

When asked if Senator John W. Daniel of Virginia had been selected to place his name in nomination in Denver he said the selection had not been made of any man. He also declared he understood that Senator Daniel was friendly toward him.

Johnson said tonight that he would not be a candidate for re-election as governor of Minnesota, whether he received the democratic presidential nomination or not.

IN THE CIRCUIT COURT OF THE First Circuit, Territory of Hawaii.

At Chambers.—In Probate.
In the matter of the Estate of Kalo Kupan (K.), Deceased.
Order of Notice of Hearing Petition for Allowance of Final Accounts, Distribution and Discharge.

On Reading and Filing the Petition and Accounts of Wm. O. Smith, Administrator of the Estate of Kalo Kupan, deceased, wherein he asks to be allowed \$80.25 and charges himself with \$111.05, and asks that the same may be examined and approved, and that a final order may be made of distribution of the property remaining in his hands to the persons thereto entitled, and discharging him in his duties from all further responsibility as such Administrator.

It is Ordered, that Monday, the 12th day of July, A. D. 1908, at nine o'clock a. m., before the Judge of said Court at the Court Room of said Court at Honolulu, Island of Oahu, be and the same hereby is appointed as the time and place for hearing said Petition and Accounts, and that all persons interested may then and there appear and show cause, if any they have, why the same should not be granted, and may present evidence as to who are entitled to the said property. Also that notice of this Order shall be published once a week in the Hawaiian Star, printed and published in Honolulu, for three successive weeks, the last publication to be not less than two weeks previous to the time therein appointed for said hearing.

Dated at Honolulu, this 5th day of June, 1908.
ALEXANDER LINDSAY, JR.,
Second Judge, Circuit Court, First Circuit.

Attest:
JOHN MARCALLINO, Clerk.
Smith & Lewis, Attorneys for Administrator.

4th—June 5, 12, 19, 26.

COMPLETE DETAIL

The author of the Man of the Hour was determined to leave nothing for the other fellows on which to base a play, so he wrote enough to put into four good acts. In order to get home at a respectable hour it is necessary that the curtain rise exactly at 8 o'clock and the audience is requested to be in the seats at that time on Tuesday night. There is so much good in every scene that no one should be late. The threat of the story may be lost at any part of it and that will not do for any one who is interested. Rehearsals are going on smoothly. Mr. Adams says he has never had a company in better shape for play than this at the same stage of the rehearsals.

The committee in charge of the yacht have requested Manager Adams to put the play on with the best effect possible and with that in view he has engaged Conductor Vierra and an orchestra of finished musicians. Mr. Vierra says he has never heard finer music by an orchestra at the Opera House. There is but one light piece in the selections and that one so good that the audience will leave with it jingling in their ears. It is called the "Pooley Klog" and is one of the best strips of rag music ever torn off here. There are scenes in the play which require incidental music and this has all been obtained by the conductor, so the production will be as complete in every detail as when it was produced in New York. The seats are on sale at Wall, Nichols Co., Ltd.

LURED BY PELE'S FLARE

DIG FISH ATTRACTED TO SURFACE BY VOLCANIC LIGHT GETS ITSELF CAUGHT.

Crossing the channel last night, under a sky made crimson by the glow from Kilauea's fires, the steamer Mauna Loa's officers espied a great fish ever and anon coming to the surface, as if attracted by the glare in the heavens.

But a few moments elapsed before a four-hundred foot-sash-cord line with a great hook, baited with pork, was let out astern and those aboard watched with deep interest the effort on the glow-struck monster swimming around in an sentimental mood as ever a fish was seen to exhibit.

Finally the ono, for such it proved to be, took the hook and then there was indeed excitement aboard the Mauna Loa. Captain Simerson led the observation and half a dozen men got hold of the line and started to haul in, but the fish shot like a flash to leeward and in a moment, so those aboard the Mauna Loa declare, they could feel the strain of his terrific fight in the slight list of the steamer. The rest of the crew on deck and a few deck passengers got hold of the line and the big swimmer was gradually pulled in.

Then there was a fight on deck, after one of the crew had nearly been pulled overboard, and the ono fought till her last breath, lashing with her tail and gurgling horribly the while.

She measured thirty-one inches around the middle and six feet and seven inches from snout to tail-tip, weighing an even 150 pounds. She was full of eggs and these, together with the white flesh, were divided among the crew and officers.

PRINCE CIPPI'S FUNERAL.
No arrangements so far have been made for the funeral of the late Prince David when his body arrives in the Manchuria due on the 15th. F. B. Thompson, who has charge of arrangements for the funeral, stated this morning that nothing had been done as yet relative to the plans. Word was received later in the day

Why be bald headed and old looking before your time? Neglect of the hair causes dandruff, and dandruff is the forerunner of falling hair and baldness. The remedy is

Ayer's Hair Vigor

A gentleman residing at Dunedin, N.Z., writes under date Jan. 7, 1907:

"It is with gratitude I write you that I have now a splendid head of hair, both thick and very soft, all owing to my having used your wonderful Hair Vigor. I was almost bald headed before I used the Hair Vigor. I still use it once a day, rubbing it well into the roots of the hair. I used to wear a skull-cap, and I am very grateful to Ayer's Hair Vigor for the improvement it has made in my looks."

Be warned in time. Use Ayer's Hair Vigor and preserve your youth.

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass., U.S.A.

SPORTS BUNTS

Every one who was lucky enough to be invited last night to the smoker that was given at the drill shed by the Diamond Head A. C. remarked after it was all over that the smoker was the greatest success of any ever given in Honolulu. The shed was tastefully decorated with the flags of the international code, as well as the American and Hawaiian flags. At the mauka end of the shed a large stage had been erected which served for the different features on the programme, except the roller skating race which was several times around the hall, the chairs being moved to the center of the floor while the race was in progress.

Chairs and tables had been placed all over the floor, each table having cards, tobacco, matches, etc., and this feature of the programme was one of the most appreciated by every one present, as different kinds of card games were indulged in during the entire evening. A few minutes after eight Professor Pete Barron, wearing a tall ping hat adorned with a flaming green ribbon, mounted the stage and introduced Honest John Hughes to the many present.

Hughes spoke briefly on the history of the club and the other Honolulu clubs in general, predicting a great future for the Diamond Heads. His speech was received with great applause. Mike Patton, who acted as master of ceremonies, introduced the Diamond Head quintet who rendered several enjoyable numbers. Patton then gave some musical imitations which drew forth hearty applause. The attempted forbidden game was the next number on the programme being a next two lightweights of the club, who gave a very good exhibition of the many art.

This was followed by the Diamond Head quartet who received great applause, after which they consented to an encore. The next number was the wrestling match, best two out of three falls, between Sailor Roberts and his partner. Each man got a fall and then Roberts after a few minutes' hard work got his partner's shoulders down for the third time. The applause after this number was tremendous. Eddie Dunne followed with a very pleasing piano selection which was well received. After that Mike Patton told the story of how the Irishman beat his way into heaven which brought down the house.

The next number was the skating race with each entrant in some fancy costume, the race being won by Li Hung Chang No. 2.

A good fast four-round go between two clever boxers then took place and all through the round the most critical got plenty of action, as the boys did not give mere love taps. In the last round Pete Barron tried to pull them apart but he did not succeed until he had been kicked down off the stage by the one that should have received the decision if the round had lasted the limit.

The Diamond Head quartet then rendered the "Rosary" which was received with hearty applause that did not cease until they consented to sing another song. After this number an intermission of fifteen minutes was taken so as to allow the hungry and thirsty guests to be refreshed.

The rest of the evening until nearly midnight was taken up with music instrumental and vocal, stories and other forms of enjoyment, and every one was very sorry to leave after the last number.

At the gymnasium contests held last night in the Y. M. C. A. hall, John Cockburn won the first prize by making a total of 17 points. James Nott was second with 15 and Dr. Chandler third with 13 points. The summary of events follows:

Rope Climb—Won by Cockburn; time, 7 1-4 seconds.
Bar Vault—Won by J. Nott; height 6 feet 3 1-2 inches.
High Kick—Won by J. Cockburn; height, 7 feet 4 inches.
Broad Jump—Won by Frank Warren; distance, 9 feet 8 inches.
High Dive—Won by James Nott; height, 5 feet 4 inches.
Standing High Jump—Won by Dr. Chandler; height, 4 feet 2 inches.
Low Dive—Won by Dr. Chandler; distance, 13 feet 4 inches.

The Chinese Alohas will give a "Hard Times" ball at Lusitana Hall on Saturday evening, June 29. A big crowd is expected to be on hand and a good time is assured everyone who is present.

The teams who will play in the Newspaper League games on Sunday afternoon on the league grounds are all ready for the fray and good fast ball will probably be the order of events. The Advertisers and the Mercantiles line up in the first game, and the Star and Paradise teams in the second. A large crowd is expected to be on hand to root for favorites and as the price of admission is small to every part of the grounds there ought to be no reason why the park should not be taxed to its full capacity. The first game will start promptly at one o'clock.

As reported exclusively in the Star some days ago, Eben Low has been

It is evident from the manner in which Punahou has been working its ball team during the past week, that an effort will be made tomorrow to put a halt to the winning stride lately assumed by the Diamond Heads. That the Jewels are not a strong team is quite noticeable for any and all of their games this season have been won with but a small margin, yet the fans await the day when one of the three fallers who are now struggling in the wake of the many Jewel victories will put a notch in their present gait. Hampton will do the try tomorrow with a likely team behind him, and Manager Steere feels that with first base well located in the care of Marcellino some improvement at least should come of it.

Leslie is benched for a while to get into form for the International series, as the Jewels have already cast their long looks out in hopes of adding several more scaps to their already heavily loaded belt, and with their usual line up supporting Bill Chillingworth, there should be something doing when these two teams meet.

Barney's club has come through with the Pedro that Barney misplayed in his little side talk with Empire Bower last Saturday, and Barney will be as usual in the right garden to receive all that comes his way. Barney plays the game at all times, knows more about it than any other ball player in the islands and no doubt shows it at times, yet without him there would be a sad absence somewhere and the fans are as delighted at the outcome.

The Saints will support Johnny Williams tomorrow with their usual strong aggregation and claim that that winning streak of so many years past is just coming to light again.

Vannatta will put a lively bunch behind Reuter and some classy ball should be distributed from these two teams before the day is over. The line up of the four teams is as follows: Punahou—Desha, rf.; Hampton, p.; Kin, cf.; Bruns lf.; Warren ss.; Marcellino lb.; Hoogs, 2b.; Henderson 3b.; Lyman, c.

Diamond Heads—Olmos lf.; Fernandez lb.; Evers, ss.; Louis rf.; Davis c.; W. Chillingworth, p.; Costello 2b.; S. Chillingworth 3b.; J. Fernandez cf.; St. Louis—En Sue lf.; Bushnell 3b.; J. Williams 2b.; Joy rf.; Aylett cf.; A. Williams ss.; Soares c.; Bruns lb.; John Williams p.

Kamehameha—Mackenzie lf.; Miller ss.; Lemou cf.; Jones c.; Vannatta 2b.; Jonah rf.; Hamauka 3b.; Mahuka lb.; Reuter p.

granted the use of Kapiolani Park for his Wild West show by the Park Commissioner, and the work of erecting a fence and bleachers will be started not later than the 15th of the month.

The contract of building has been given to the lowest bidder, the City Mill Co.

A game of cricket will be played tomorrow afternoon on Makiki field providing that there are enough players on hand to make up two teams. If there are not enough players for a regular game, a net practice will be held.

Barney Joy will have to pay his fine of \$5 before he is allowed to play any more ball. Barney stated yesterday that he did not see why he should have to pay the fine, but the trustees and officers of the league as well as Bert Bower have decided that Barney will not be allowed to appear on the field in uniform until his fine is paid.

The lovers of polo will be given a chance to see some good polo during fleet week, as arrangements have nearly been completed whereby the Kaui, Maui and Oahu teams will play in a triangular tournament for the championship of the Territory, at Kapiolani Park. Eben Low stated yesterday afternoon that a silver cup would probably be the trophy.

Punahou defeated the St. Louis team yesterday afternoon on its own grounds in the third and final game of the series by the score of 8-1. Both teams played good ball, but the Puns were better with the stick, therefore the victory.

The many golfers of the Country Club are looking forward to the four ball foursome tournament which will be held on the club links Sunday, June 14. One of the largest entry lists of the year is expected and some valuable prizes will be offered to the winners.

RUSSIA PREPARING FOR TURKISH WAR

TROOPS BEING SENT TO FRONTIER AND CONFLICT CONSIDERED TO BE INEVITABLE.

BERLIN, May 23.—In Russian military circles here war with Turkey is considered almost inevitable in the near future. Preparations for war are being pushed forward on the frontier, and the general staff has elaborated a complete plan of campaign against the time when war is declared.

Transcaucasia, the Russian province nearest to Turkey, is being overrun with Russian troops, which are being poured into it from other garrisons in Russia. A whole army corps, with headquarters at Kieff, is under orders to march south at any moment. The movements of the military monopolize the railroads, which refuse to accept ordinary merchandise for transport except on condition that it is delivered when convenient. Trade in the country is therefore virtually at a standstill.

It was discovered that St. Chaffray had cornered the whole of the available supply of gasoline to be had at Vladivostok and at Harbin, with the exception of a small quantity of the fuel obtained by the Germans for the Protos car. St. Chaffray, on the withdrawal of the De Dion car, attempted to get a seat on the American car to go to Paris by an offer to transfer this gasoline, but his offer was declined, and the Americans had to delay their departure accordingly.

St. Chaffray requested an interview with George Schuester, the driver of the Thomas car, says the correspondent of the New York Times. "We went to his room at the hotel and there heard his proposal for the first time. He declared that he would prevent the departure of the American car unless Schuester agreed to carry him to Paris. He stated he could get a seat on the German machine, but the Thomas was sure to beat the Protos into Paris and he wished to be on the first car to arrive. He further said that it would not look well for a Frenchman to ride on a German machine.

Schuester refused to permit St. Chaffray on the car under any condition. He declared he would rather remain in Vladivostok than accept any such terms, although the situation appeared a serious one. He was afraid it would be necessary to send to Yokohama for a supply of fuel, which would have enabled the Protos car to obtain a big lead over us in starting across Siberia. However, on appeal to American residents of the city, he found a possible way out of the difficulty.

"There were a number of gasolene launches in the harbor which had small quantities of fuel which St. Chaffray had overlooked in establishing his corner. We began gathering this in, and we hope in a couple of days to have a sufficient supply to enable us to start.

Extra supplies which will be necessary en route will be shipped to meet us by rail from Irkutsk. The French committee at Paris has been notified of the situation and requested to afford relief.

"That the other competitors in the race will refuse to profit by our situation developed at dinner tonight. All the crews dined together in the hotel here with the exception of St. Chaffray.

"We have been the recipients of every courtesy at the hands of the Russian officials here and, everything has been done to facilitate our departure and to extend to us the privileges we requested."

When the steamer Adriatic departed from New York May 20 it carried the special racing car, built by the Thomas company, to compete in the Grand Prix race in France and the four men who will race the machine over the Dieppe circuit. The four men in the party are: Lewis Strang, who was engaged to drive the car after his victory in the Briarelliff race; Montague Roberts, who had previously been slated to drive the car, and two mechanics in the employ of the Harry S. Houpt company; Gus Gulehard and William Knepper. It is undetermined whether Gulehard or Knepper will sit in the mechanic's seat, for Marquise, the regular mechanic who was engaged with Strang, broke with the Thomas company a few days ago. Roberts will have charge of the preparation of the car.

Harry S. Houpt and his wife and Miss Dorothea McCartney, his niece, sailed for France, on the steamer Lucania, at the same time. Mr. Houpt will act as manager of the Thomas entrant, and will have full charge of all matters relating to the race. He will go direct to Paris and complete preliminary arrangements for the car at Dieppe. The machine is said to have made ninety-six miles in time trials at Buffalo.

ROOSEVELT'S TALK TO LIGHTWEIGHT

THE PRESIDENT CHARGES THE AMATEUR CHAMPION TO "LICK THE BRITISHERS."

WASHINGTON, May 23.—The president had as a caller today Lee Ferneclari of Chicago, the amateur lightweight champion boxer of the United States. He is going to the Olympic games, which will be held in London next June.

Ferneclari and the president discussed the benefits to be derived from boxing, and the boxer became so enthusiastic that he squared off to illustrate some of the blows which he thought would prove effective in a boxing match. The young boxer is going to uphold the prestige of the United States at London, and the president wants him to carry back the laurels of all other countries. He admonished the Yankee boy to "lick the tar out of the Britishers."

FUN MAKER JOKES TO DOOR OF DEATH.

Peter F. Dailey, Noted Comedian, Dies of Pneumonia After Brief Illness.

CHICAGO, May 23.—Peter F. Dailey, one of the best known comedians in the United States, died today at the Auditorium hotel. He had been sick for about a week with a combination of a gripe, lumbago and pneumonia.

Dailey for the past two or three years was one of the leading comedians of the Joe Weber company. He came here with the company, which began an engagement in a burlesque on "The Merry Widow," which opened at the Colonial theater last Monday. He was scarcely able to take his part Monday night and had to be assisted to his feet a number of times. The audience, however, knew nothing about his condition. He had a temperature that night of 103 and was unable to leave his bed the next day, but it was not thought that his condition was at all alarming. During the week he showed signs of recovery, and not until this morning was it known that his condition had become critical.

Dr. Francis W. McNamara and Chas. Paddock, old friends of Dailey, were at the bedside of the famous actor at the time of his death.

"Dailey had been suffering from pneumonia for fully a week," said Dr. McNamara. "The death was sudden, it is true, but in no way sensational or mysterious."

Robert Dailey of New York, brother of the comedian, has requested that the body be sent to New York.

Dailey was a cheerful invalid during his several days' illness. He joked and chatted with his nurse and his physician almost up to the time of his death.

VERY MUCH LIKE WAR IN KOREA

Many Arrests Follow Attempt Upon Life of Captain Dreyfus.

RICH NEW YORK MAN DYING. City of Helena Flooded—Ketchell Wins Fight—Dam Gives Way.

SEOUL, June 5.—The Japanese government has begun an aggressive campaign against the Korean insurgents. There have been sixty-nine engagements within nine days, during which 372 insurgents were killed and 55 prisoners taken.

MANY ARRESTS IN PARIS. PARIS, June 5.—Two hundred and thirty arrests have been made in connection with the disturbances at the Pantheon.

BELMONT IS DYING. NEW YORK, June 5.—Oliver P. Belmont the wealthy turfman and Democratic politician, a son of August Belmont, is dying of an operation for appendicitis.

The cable yesterday gave the name Oliver P. Morton to the dying man.

RUSSIAN NAVAL REFORM. ST. PETERSBURG, June 5.—An imperial order has been issued reorganizing the system of command in the navy.

A FRESHET IN HELENA. HELENA, Montana, June 5.—The streets of this city are flooded and traffic delayed by washouts and landslides.

KETCHELL BESTED PAPKE. MILWAUKEE, June 5.—Ketchell got the decision in the fight with Papke. There was fast fighting.

THE CAUSE. To be short of breath when you walk, climb stairs, are frightened, or agitated, is caused by heart weakness, and will develop into serious heart troubles if not speedily remedied. Weak heart is caused by exhausted nerves. The one sure, safe Heart Remedy is Dr. Miles' New Heart Cure, which feeds the nerves of the heart, and gives them new strength and vigor. At druggists. Money back if first bottle fails to benefit.

Robert Dailey of New York, brother of the comedian, has requested that the body be sent to New York.

Dailey was a cheerful invalid during his several days' illness. He joked and chatted with his nurse and his physician almost up to the time of his death.

THREE FALL 1000 FEET IN AIRSHIP

KNABENSHUE MAKES FUTILE ATTEMPT TO FLY ACROSS THE CITY OF TOLEDO.

TOLEDO, O., May 23.—While attempting to make a flight across the city, Roy Knabenshue and his two assistants, Earl Hess and Charles Hamilton, barely escaped serious injury when their airship with its engine disabled fell fully 1000 feet and crashed into the center field bleachers at the Toledo baseball park this afternoon during a ball game.

With apparent control Knabenshue sailed from his Collingwood aerodrome and after going through many maneuvers he started the flight to the city, carrying the passengers suspended in wicker baskets.

Flying high until almost lost in the clouds, then descending to the tops of the houses and trees, the big ship answered the will of the operator while thousands of spectators lined the streets and the windows of the office buildings, cheering every move the ship would make until it reached the ball park.

Suddenly the ship, that was then speeding against the wind 1000 feet high, came to a stop and began to descend, slowly at first, but rapidly increasing its speed, entirely at the mercy of the air currents. Knabenshue heroically crawled from his basket and crept along the delicate frame in a futile effort to start the engine which had stopped.

A strong gust of wind carried the craft across the baseball diamond and it crashed into the center field bleachers. The occupants were hurled from their baskets, but escaped with a few bruises. The ship's frame was totally destroyed, but the bag and engine were unharmed. Knabenshue was unable to account for the sudden stoppage of the engine. He is working on a new frame and will fly again tomorrow, weather permitting.

OFFICERS INSTALLED. At the meeting of Hawaii Chapter No. 1, Order of Kamehameha, held last evening at Fraternity Hall in Odd Fellows' Building, the following officers were installed for the ensuing term: Charles L. Olo, M. A.; John K. Kamanouli, K. A.; John C. Lane L. A.; Thomas J. Gandall, K. O.; N. Fernandez, K.; Charles H. Rose, A.; Moreno K. Hala, K.; Joseph K. Kanepuu, K. P.; W. Chung Hoon Jr., P. N.; R. Kinney, P. L.; Simeon Akaka, K. L.; and John K. Isaac, K. W.

MEXICAN DAM FATALITY. GUANAJUATO, June 5.—A dam burst here yesterday and a score of people are missing.

STAR FLEET EDITION THAT WILL ATTRACT WORLD ATTENTION

The Hawaiian Star's special fleet edition will be issued simultaneously in San Francisco and Honolulu, on the lines of the plan whereby the London Daily Mail issues simultaneous editions in London and Manchester, and the New York Journal and San Francisco Examiner frequently issue at the same hour papers in many respects identical, though the width of a continent apart from one another.

The existence of a cable line between here and San Francisco makes such an enterprise possible. It will be the first time such a journalistic feat was ever attempted in the Pacific. It will give the Hawaiian Islands one of the greatest advertisements they ever had, for the publication will arouse comment all over the United States and Europe.

To Honolulu advertisers this edition offers the best opportunity ever given, without exception. TWENTY THOUSAND officers and men of the fleet will be reading and referring to this paper all the eight or nine days of their trip here.

They will get the paper just when they are looking for information about Hawaii,—when they are leaving San Francisco with Hawaii as their next stopping place. They will look it over every day, for information about Hawaii.

More than three quarters of the officers and men have never been here, and they will be deeply interested in a Honolulu newspaper.

Prominent business men of the Territory in commenting upon the plan above outlined have expressed the opinion that the fleet edition of The Star, issued in this way, will be one of the greatest bits of Promotion work ever done here.

MORTGAGEE'S NOTICE OF INTENTION TO FORECLOSE, AND OF SALE.

Notice is hereby given that pursuant to the power of sale contained in that certain mortgage dated the 7th day of August, 1905, made by John E. Bush, of Honolulu, County of Oahu, Territory of Hawaii, Mortgagee, to William Ahia of said Honolulu, Mortgagee, and recorded in the office of the Registrar of Conveyances in Honolulu in Liber 275, on pages 151-154, the said Mortgagee intends to foreclose said Mortgage for condition broken, to-wit: the nonpayment of principal and interest secured by the said mortgage when due.

VOTES TO REMIT INDEMNITY MONEY

THE HOUSE REDUCES SUM TO BE PAID BY CHINA MORE THAN \$10,000,000.

WASHINGTON, May 23.—The joint resolution providing for the remission of a portion of the Chinese indemnity arising out of the Boxer troubles in 1900 came up in the house today under suspension of the rules. Denby of Michigan briefly rehearsed the incidents in connection with the outbreak, and said that the proposed remission would be an act of supreme justice and generosity. China, he said, already had paid on account of the indemnity of \$24,000,000 the sum of \$6,000,000, of which \$2,000,000 had gone toward the liquidation of private claims. Denby assured the house that even with the remission of the \$10,800,000 there would still remain ample funds with which to pay all claimants.

The action of the committee on foreign affairs in amending the resolution so as to increase by \$2,000,000 the amount of the indemnity to be paid, as well as providing for the review by the court of claims disallowed in whole or in part, was severely condemned by Stafford of Wisconsin.

"The question is," said he, "whether Secretary Root shall be upheld or whether some claimant shall have the opportunity of looting the treasury."

The bill as amended by the committee was supported by Perkins of New York, Howard of Georgia and Williams of Mississippi.

So imbued was Williams with the justice of the measure that he did not insist upon a roll call, and it was passed.

MORTGAGEE'S NOTICE OF INTENTION TO FORECLOSE, AND OF SALE.

Notice is hereby given that pursuant to the power of sale contained in that certain mortgage dated the 7th day of August, 1905, made by John E. Bush, of Honolulu, County of Oahu, Territory of Hawaii, Mortgagee, to William Ahia of said Honolulu, Mortgagee, and recorded in the office of the Registrar of Conveyances in Honolulu in Liber 275, on pages 151-154, the said Mortgagee intends to foreclose said Mortgage for condition broken, to-wit: the nonpayment of principal and interest secured by the said mortgage when due.

Notice is likewise hereby given that the property conveyed by the said mortgage will be sold at Public Auction by James F. Morgan, auctioneer, at his office, 857 Kaahumanu Street, in Honolulu, on Saturday, the 27th day of June, 1908, at the hour of 12 o'clock noon of said day.

The property covered by said mortgage and intended to be sold as aforesaid was inherited by the Mortgagee as heir at law of his deceased daughter, Mary Ann Bush, and consists of the following, to-wit:

An undivided one-fifth interest in all that certain piece or parcel of land situate on the makai side of Hotel street, (formerly Printer's Lane) in Honolulu, Oahu, Territory of Hawaii, more particularly bounded and described as follows:

Commencing at the N. E. corner on Hotel Street and running: S. 53° 30' W. (116 Links) 76.6 feet adjoining Laanui, S. 53° W. 49.3 feet adjoining Laanui, S. 37° 30' E. 86.0 feet adjoining Hana Haalilio, N. 55° 00' E. (180 Links) 118.8 feet adjoining Rogers, N. 32° 30' W. (138 Links) 91.0 feet adjoining Hotel Street to place of commencement, embracing an area of 27-100 acres, being a portion of the premises awarded to Hana Haalilio by award No. 238 and confirmed by Royal Patent No. 5736, and the same land that was conveyed by John Hamauku to Henry P. Bush and others by deed dated December 27, 1881, recorded in the Registry of Conveyances in Book 72 on pages 67, 68 and 69.

Together with all the improvements, rights, easements, privileges and appurtenances thereto belonging.

Terms Cash, United States Gold Coin.

Deed at expense of purchaser. For further particulars apply to E. M. Watson, Attorney for Mortgagee, Kaahumanu street, Honolulu, or James F. Morgan, 857 Kaahumanu Street, Honolulu.

Dated Honolulu, June 4th, 1908. WILLIAM AHIA, Mortgagee.

YOU WANT The News First..

BY AUTHORITY Office of the Board of Health, Honolulu, Hawaii, June 3, 1908.

You Want Your Ads Read

Office of the Board of Health, Honolulu, Hawaii, June 3, 1908.

Here Is Some Advice...

Honolulu more than any other city in the World, is a place where the Evening Paper gets the news first. The clock here is over two hours behind the clock at San Francisco, four hours behind Chicago, five hours behind New York and ten to eleven hours behind the clocks in the European capitals.

This means that when The Star is going to press THE DAY IS CLOSED in Washington, Chicago, New York and Europe and almost over in San Francisco. The news of the day is here for The Star.

Under modern conditions it takes practically no time to prepare and transmit news and THE STAR gets every evening the cable dispatches giving

The News Of All The World For The Day Just Ended--

Here are some of the features that go to make the evening paper the predominating factor in an advertising campaign: It is delivered at the home each night when the whole family has plenty of time to read it. It is carried home by the business man when his day's work is done and it stays there. A morning paper is usually carried down town by the head of the family and hurriedly read. The evening paper is not read hurriedly, but thoroughly, so that all the advertisements receive their share of attention. It presents the store news a little ahead, giving the prospective purchaser time to plan a shopping tour for the next morning. The evening paper presents the news the day it happens. The morning paper the day after. The evening paper presents the news first. The morning paper merely elaborates it. The evening paper prints daylight news. The morning paper takes what is left.

LEE LET TRIAL

ENDEAVOR BY THE DEFENSE TO IMPART A POLITICAL TINGE TO THE CASE.

The cross-examination of Chief of Detectives Taylor was continued in the Lee Let case this morning. The only matters of interest brought out were when Attorney Thompson compelled the witness to modify statements which he had made. A political element in the case was endeavored to be introduced, the defense attempting to show through Taylor's testimony that he was prejudiced and biased, and had been working up the Lee Let matter from the beginning with the assistance of the editor of the Advertiser and W. A. Kinney, the latter at the time the chairman of the Democratic Central Committee.

Taylor took the stand and was questioned in regard to any conversations he had with Ayres or Matheson since the commencement of the trial. He stated that he had only talked to Ayres once, then in the Judiciary building.

Taylor was then questioned by Thompson in regard to the advice given by W. A. Kinney and W. G. Smith. The fact that Smith was editor of a Republican paper which supported Kinney and that Kinney was chairman of the Democratic Central Committee was brought out. To show bias of the witness from his employment as a reporter on the Advertiser, particularly on gambling matters, he was questioned but Judge Robinson ruled out the question.

In answer to questions regarding the evidence that the first information received that Lee Let wanted to open gambling games was brought by H. M. Ayres, the fact that they had been friends for five or six years was elicited. Thompson brought out the fact that Taylor said to Ayres, "I certainly think it is a great chance to make a record." He followed by saying that he wanted to go into the matter and make a record for himself and the police department. The fact that in his statement he mentioned W. G. Smith's name first was remarked on by counsel.

In the original statement made by Taylor he said that Ah Hoon had paid money to Taylor stated that the name of A. M. Brown was suggested by the

Taylor's previous statement that he had received the first information when meeting Ayres in the street was contradicted by his written statement that he met Ayres in the Advertiser office.

In regard to the reports furnished the Advertiser, Taylor stated that he did not expect that they would be used in entirety. His memory failed in several instances.

Taylor, his memory refreshed by notes which the attorney for the defense read, acknowledged that he had gone to the Queen's Hospital to meet Ayres, which he had denied earlier in the morning.

Taylor stated that he authorized the publication of the statements, then changing and saying that he did so after he had found they were going to be published.

In response to a question Taylor stated that he received no compensation, salary or perquisites from the Advertiser, Ed Fowse or the Civic Federation.

Larnach asked several questions which were all objected to by the attorney for the defense and ruled out by Judge Robinson as improper re-direct examination. Taylor was then excused as a witness.

H. M. Ayres was placed on the stand when the afternoon session commenced and on direct examination corroborated the main points in regard to Taylor's testimony. On the cross-examination Thompson brought out Ayres' connection with the Advertiser and his former position as editor of the "Referencee."

Ayres denied having asked Taylor about a date which Taylor had testified to. His explanations were still more mixed. His story and Taylor's were widely at variance. Further questions in regard to conversations between Ayres and Taylor and Matheson were asked which still further flurried the witness. Ayres was then excused and R. O. Matheson of the Advertiser was placed on the stand.
