

VOL. IX.

HONOLULU, H. I., THURSDAY, JANUARY 30, 1902.

No. 3080

WANT NO ELECTION FOR A QUARANTINE AGAINST THE SALOONS

NO NEED FOR VOTING IN FOURTH DISTRICT. Members of Both Parties Would Wait. Cupid Will Be Asked Again to Run.

The Home Rulers meet tonight and the Republicans next Monday night, and both parties are talking of the coming election in the Fourth district. Prince Cupid will be asked again to run as the candidate of the Home Rule Republican, though he has stated positively that he will not run. The committee will urge him to change his mind.

In both parties there is a good deal of sentiment opposed to having any election at all. Prince Cupid bases his objection to being a candidate largely on the fact that the man who is elected will in all probability never take his seat.

"I wish that the governor could have seen his way," said Col. Fisher, the probable secretary of the Republican Central committee, "to let us go on without an election. There is nothing to be gained or lost by either party. If the Home Rulers elect another man they will be no better off, for they have enough now. If the Republicans elect a man it will do them no good, for they will not have enough even then to be able to do anything. The election will probably cost \$2,000 or more, and the money would be better used for some improvement."

"As for the secretaryship, I have heard nothing at all since the last meeting. I do not want to be secretary, though I shall not refuse to serve, and I have not done anything to find out what is in prospect. It may be that the committee will rescind the action of the last meeting in deciding to have the secretary a member of the committee. I have understood that the members generally favored Mr. Avery as assistant secretary."

C. A. Long, the Home Rule secretary, expressed much the same opinion. He thought that the chance of an extra session was not very good, though believing that such a session was badly needed by the country for the passage of a loan bill. "If the election was up on some issue," he said, "and would have some practical effect, it would be all right, but as it is, it seems like a waste of money."

"The Home Rulers would like an election to get a verdict of the people on the subject of an extra session, or on municipal government, and they would like the chance of a deciding one. Perhaps we shall have to go through the year with the present financial conditions unchanged, but there will be another legislature next February anyhow."

The matter of appointing the long and short term senators is one that ought to receive attention, and needs an extra session. I do not think Congress will act in the matter. The Organic act says that the legislature of Hawaii shall do it, and Congress would probably say if asked to do anything that Hawaii ought to attend to itself. The same argument may be advanced against the city and county bill introduced by Wilcox, for the Organic act gives the territory the power to establish city and county governments.

THE CALICO BALL.

The committee having in charge the charity calico ball held a meeting at Dr. Sloggett's office yesterday afternoon at which encouraging reports of progress were made. Tickets are now on sale at various places of business, the price of the tickets being \$2 each. The ticket committee is as follows:

Mrs. Phillips, chairman; Miss McIntyre, Mrs. A. Wall, Mrs. Hawes, Mrs. Humburg, Mrs. Tenney, Mrs. Teuberg, Miss Nellie White, Mrs. Charles E. Cooper, Mrs. G. M. V. Foster, Mrs. J. W. Robertson, Mrs. E. A. Murphy, Mrs. George Paris and Mrs. J. Hazen.

CROWELL PROMOTED.

W. E. Crowell, deputy sheriff at Koloa, Kauai, has been promoted to be deputy sheriff at Waimea in place of Walter Wright who resigned. Crowell was formerly clerk in the deputy high sheriff's office here, and will assume the duties of his new office February 1.

A DUMB SPOKESMAN.

It is said that the Spokesman has spoken its last speech and will not be issued this week. Lack of financial success is hinted at.

A GOOD INVESTMENT.

The Oriental Life Insurance Co. is the original and only home company. No letter investment can be made than by purchasing one of their policies.

Furnished House For Rent at Waikiki

This property is situated in a desirable part of Waikiki Beach and consists of a completely furnished seven roomed house, with stable, servant's quarters, bath house and ample grounds.

HAWAIIAN TRUST CO., LTD Geo. R. Carter, Treas. 923 Fort Street P. O. Box 447

IMPROVEMENT OF ISLAND IN THE HARBOR.

Government May Raise Soil Level and Make the Place a Healthful Station. Diamond Head Site.

When the dredging of the harbor begins under the contracts for which bids are to be opened tomorrow at the office of the Superintendent of Public Works, the beginning of another most important enterprise which it is hoped the federal government will some day carry out, may also be recorded. This is the raising of the level of Quarantine Island, so that it shall become a good place for a federal quarantine station.

Quarantine Island will make an ideal quarantine station when it has been raised in, say those who are familiar with it and with the needs of such a station. About 100,000 spent on it would make it a fine bit of land, isolated, large enough for all the purposes for which it would be needed, and conveniently located. Buildings could be erected and trees planted, and Honolulu would soon have one of the best quarantine stations in the world. Quarantine Island has been suggested by some of the property owners who are protesting against the site that has been surveyed at Diamond Head. The survey of this tract has gone to Washington, but at the same time there went a protest from practically all the owners of property who would be affected. Those who have places along the beach are unit in opposing the establishment of a great military and naval hospital near their homes. They have proposed quarantine island, which would be more isolated and can be reached without passing through Honolulu. Soldiers or sailors whom the government wanted to land in the Diamond Head station, should such an one be established, would have to pass through the city.

Quarantine Island is federal property now, but the land is so low that it is unfit for general use, being unhealthy, swampy land. Under the contract to be let for dredging the harbor, some of the material dredged out may be put on the island, thus making a start in the work of making good land out of it.

The Kilpatrick incident of some months ago, was instrumental in causing the federal government to have the matter to provide a quarantine station in Honolulu. The transport lay outside the harbor for many days, during which she was kept in quarantine and the Board of Health refused to allow the men to be landed and kept isolated at Kalbi. There was nothing for it but to keep the men confined outside the harbor on the infected ship. It is said that this case also had a good deal to do with the order sending most of the transport clear of Honolulu.

The protest against the use of the Diamond Head tract of land was sent to Delegate Wilcox as well as to the Marine Hospital service at Washington. Nothing has been heard from it, but as it is signed by many of the leading men here and has the backing of a counter proposition that is believed to be much better, those interested hope that it will be effective.

When there is a naval station at Pearl Harbor and some considerable military camps about the defenses of Honolulu, the need of a large quarantine station will be imperative. Unless Quarantine Island is made habitable, a place on the mainland will be taken, but the island is thought to be the most convenient place of all.

CONCERT ON PROTET.

The concert by the mission band on the French cruiser Protet, which was to have been given this evening, has been postponed, as the vessel is sailing. It will be given on Sunday afternoon, at which time the cruiser will be open to visitors and all who want to see her will be welcome.

DISOLUTE JOINT RAIDED.

Seven men, dressed in disolute creatures as have ever graced the local police station were arrested at Twile last night in a raid by Deputy High Sheriff Chillingworth. They were Porto Rican women and with them were captured two men who gave the names of J. Anderson and E. L. Hardy. The men were charged with adultery but forfeited bail when their cases were called in Judge Wilcox's court this morning. The cases against the women will be prosecuted for vagrancy and some for fornication and adultery. In several instances, were continued until tomorrow morning. The jailers are dreading the incarceration of these Porto Rican women at the police station. The women are filthy in their habits and are shamefully profane and vulgar in their languages.

PERSISTENCY.

Is what we have been using to get you to call at our store for wall papers. No one who has come has found cause for regret. Beal's.

A GOOD APETIZER.

A ride up Pacific Heights is a good appetizer.

Reports Head by Committees From all Nationalities—Chinese Not Addicted To Drink Habit.

The Temperance Conference opened, very encouragingly this morning in the hall of the Young Men's Christian Association, a considerable number of those interested in the movement having assembled when Theodore Richards, president of the Anti-Saloon League and presiding officer of the day, declared the meeting open. The audience was a cosmopolitan one, Americans, Hawaiians, Portuguese, Japanese and Chinese being represented. The exercises for the morning consisted of reports from the field, rendered by Mrs. J. M. Whitney for the W. C. T. U.; K. K. Kuro for the Japanese; Dr. Khai Tai for the Chinese; Rev. A. V. Soares for the Portuguese; and the Rev. G. P. Emerson for the Hawaiian branches of the temperance movement. A talk on the "Principles and Objects of the League" by superintendent Rev. W. H. Rice with another on "Practical Lines of Work" concluded the work laid out for this morning.

The hall still held the decorations placed for the joint social of the Y. M. C. A. and Y. W. C. A. the other evening, while upon the wall hung a large outline map of the island with the saloons marked prominently in a different color. Although the map was made on a liberal scale, seemed to be so plentifully filled with saloons that a preponderance of the dots were perceived placed in the bay with dotted lines to show where they belonged.

The introductory remarks were made by Theodore Richards, who spoke of the increased interest in practical temperance work all over the world, manifested in the reported work of committees of influential thinkers who are studying the various lines of humanitarian reform. "The interests of religious, political and social lines of assistance," said Mr. Richards, "is to be always assumed, but the important fact is that the discussion now is undertaken very broadly from the humanitarian standpoint."

The Russian plan was discussed for a few moments and its success among the Russians as an advance upon anything previously done was emphasized. The "room" for additional temperance laborers in Honolulu was stated by the president. Three open doors stand before us, interested, religious, political and social lines of assistance. Mrs. J. M. Whitney, in her paper, described the good being done all over the globe by the Women's Christian Temperance Union in the prohibition of the various forms of alcoholic liquors and locales for the better carrying out of its evil purpose in the modern saloon.

In describing the initial rise of the W. C. T. U. Mrs. Whitney spoke somewhat sarcastically of the attitude taken by the men of the community who patrolled the women on the back and praised them for their bravery and determination while themselves not openly appearing in the cause for fear of ridding their property.

Theodore Richards commented that the men could hardly hold back after this without discrediting the sex and went on to speak of the rapid broadening of the temperance issue, explaining that the originally narrow question of limiting the crusade to an Anglo-Saxon question had been proven a mistake and that the present program would show how all nationalities were represented. He then introduced K. Kuro, who read his paper in fluent English.

"The greatest evil of the Japanese," said Mr. Komuro in effect "is that incurred from intoxicating drink as these figures that I will now submit to you, extending from July to December 1901 will show for the most part. Since that period 25,761 barrels of sake have been imported from Japan, each barrel containing 3 gallons and worth \$8.50 a barrel, a total of \$225,118.15 on which a custom house duty of \$90,544 has been paid. Besides there must be included 6,241 bottles equal to 228 gallons for which \$2,473.50 was paid with the duty of \$1,564.50 denoting a total outlay by dealers only of \$329,109 for the last six months."

"Sake is known by many names and is imported by many foreign dealers. There are about 5000 Japanese in Honolulu and the average of deaths caused directly or indirectly by sake is one in two days. The drunkenness brings on deaths of wives and children, indifference to the hunger of their children, thus becoming a burden on others. Not only are they destroying their physical strength but also their spiritual power by their excesses and the Japanese who drink sake are, I am sure, indulging in their moral character. Sake is, contrary to what many say, harmful to those who drink it. It is twice as strong as beer, containing from 14 to 20 per cent of alcohol. "The special harm of sake lies in its lengthy control over those who drink it, the effects lasting for one or two days. It is strong to stop work, destroy health, spiritual power, property, to bring misery to families and destroy a nation. "The Ewa plantation stops the laborers from sake drinking because of the inevitable loss of time. I am sure, that is good for both as the men can save their money and not harm themselves. "I wish that all plantations were like Ewa and that not only the plantations but all the people in this country were free from the curse of drink. "Applause followed the report and the president, before introducing the Chinese representative, remarked that

A. M. SMITH RESIGNS AN OVERDUE VESSEL SHE HUGGED MAGOON

WILL LEAVE OAHU COLLEGE IN JUNE. IS OUT EIGHTY-ONE DAYS FROM NEWCASTLE. EVIDENCE THAT A SPENDTHRIFT WAS DRUNK. Becky Bishop's Case Up Again Before Judge Gear—Magoon Inquires About Meaning of Intoxication.

President Arthur Maxson Smith of Oahu College has resigned, his resignation to take effect at the end of the school year. The resignation was tendered at a meeting of the trustees of the college held yesterday. At the same time three of the trustees stepped out of the board, Chief Justice Walter F. Frazar, Justice Antonio Perry and Dr. N. B. Emerson. As to the cause leading to President Smith's resignation none of the trustees will speak freely. All feel that the differences of opinion held among them, and the differences of opinion as to the work accomplished at the college, are such as honest men all having the interests of the institution at heart might entertain and that discussion of them can neither lead to unanimity of opinion or be helpful to the college. The three trustees who have stepped out of the board are understood to have done so with the feeling that unanimity in the board even as to policies which they do not approve, is of more benefit to the institution than continual differences, and that they step out to make room for men in accord with the majority. It is known however that there has been dissatisfaction with President Smith and his administration of the college almost from the beginning of his incumbency. Causes of friction for men in accord with the majority. It is known however that there has been dissatisfaction with President Smith and his administration of the college almost from the beginning of his incumbency. Causes of friction for men in accord with the majority.

Some anxiety exists on the Water Front over the whereabouts of the bark Sonoma, which is on her way from Newcastle with coal for this port. The vessel is now out 31 days. The Prince Louis was out longer so it is very likely that she calms and contrary winds have delayed the Sonoma. The barkentine vessel, due at Kalahele with coal from the same place is out 76 days, and the bark Peter Hedale, from Newcastle for Honolulu is out 62 days. These are very long passages.

The Chilean barkentine Alta sets a New Record for Discharging and Weighing Coal—Other Coal Ships. Some anxiety exists on the Water Front over the whereabouts of the bark Sonoma, which is on her way from Newcastle with coal for this port. The vessel is now out 31 days. The Prince Louis was out longer so it is very likely that she calms and contrary winds have delayed the Sonoma. The barkentine vessel, due at Kalahele with coal from the same place is out 76 days, and the bark Peter Hedale, from Newcastle for Honolulu is out 62 days. These are very long passages.

Another Case in Which He is Wanted. The absence of George A. Davis, who went to Washington to remove Justice Perry and is now supposed to be working on the job, caused more public this morning in the circuit court. Davis was attorney in the case of L. C. Ables against Charles Falk and the Honolulu Stock Exchange. The papers are supposed to be locked up in Davis' desk.

CHINESE BECOMING CHARITABLE. Several Chinese were tried in Judge Gear's court this morning on charges of gambling. The witness for the prosecution claimed that they had been playing a friendly game of dominoes and that the money exhibited was a part of a collection for some needy countrymen. The cases were nolle prossed.

PLEASED WITH NEW WHARF. The Lithue Plantation people are pleased with the new wharf which has just been finished at Aluhua. The James Mahee received sugar there Tuesday at the rate of 1,800 bags an hour. Purser M. P. Lagan of the Mahee says that the discharging and loading is accomplished much easier now than the wharf has been completed and vessel can lie alongside.

DORIC SIGHTED. The steamer Doric was sighted off Barber's Point at 2:22 this afternoon.

FINEST IN THE CITY. The Slenz Barber Shop possesses the finest bath ever publicly opened in this city.

THE SEARCHLIGHT. Look out for the searchlight on the Heights.

ICE HOUSE DELICACIES. Camarinos California Fruit Market is the place for ice house delicacies. Everything the California market affords at this season of the year can be found at Camarinos'.

ROYAL Baking Powder. Made from pure cream of tartar. Safeguards the food against alum.

KERR'S SHOE STORE. All shoes have been marked below cost. This was done to facilitate removal. Come early or you will not be among the lucky ones.

CAN'T HE BEAT. Tremendous bargains are offered in all our shoe lines. Note the prices we quote in our ad on page 4. The entire stock must go at this removal sale. Kerr & Co.

SEMI-WEEKLY STAR. Honolulu people who are going abroad can have the Semi-Weekly Star mailed to any address for the small sum of twenty-five cents a month. The Semi-Weekly Star contains all the local news of importance, besides the daily stock quotations. Advertise your Wants in the Star.

ATTACH SIGNIFICANCE.

Colonel Kitchener Inspected Pearl Harbor Locks Tuesday. Considerable significance is attached to the visit which Colonel K. Kitchener, brother of Lord Herbert Kitchener, paid to the Ewa plantation last Tuesday. The first thing the colonel did after the Gaule arrived here from San Francisco, was to inquire if there were some sugar plantations running. He expressed a desire to visit one. It was suggested that he go to the Ewa plantation, whereupon the officer took the first train to that place.

 Friday, January 31.
 Schr. Kawahiki, for Koolau ports at 5 p. m.
 S. S. Doric, Smith, for San Francisco, may sail about noon.
 Stmr. Mauna Loa, Simerson, for Lahaina, Maunaloa, Kona and Kau ports at noon.

PASSENGERS.
 Arriving.
 For stmr. James Mackay, January 29, from Hanalei—J. C. Wood and 7 deck.
 TO CLOSE MARINE RAILWAY.
 Sorenson and Lyle will close the marine railway down for about a month soon, to have some repairs made to the plant.

NEW VIRUS FOR RATS

UNITED STATES HYGIENIC DIRECTOR ADVOCATES METHOD.
 Bacillus Cultivated From Epidemic of Harvest Mice Proves Successful. Harmless for Man.

Since it became known that the bubonic plague was spread by rats, the question of means of destroying them has assumed greater importance. The discovery of a perfect rat destroyer would be of vast benefit to the public health.
 M. J. Rosenau, director of the Hygienic Laboratory of the United States Marine Hospital Service, has recently investigated a new method of destroying rats by means of cultures of a certain bacillus. This method was developed by J. Danysz, and growth in bouillon to acustom it to an existence without oxygen. This was accomplished by growing the culture in flasks as completely filled as possible. The flasks were placed in an incubator until the culture developed, and then kept at an ordinary temperature until a deposit formed and the bouillon became perfectly clear.

From the flasks the culture was passed into a collodion sack, which was kept for from a day to a day and a half in the abdominal cavity of a rat, then held above in ordinary bouillon and thence again in flasks. This series of operations was repeated several times, and at the fourth or fifth repetition a decided increase in virulence for mice was noted.
 Mice were then replaced in the experiments by young rats a month or six weeks old. Next older rats were used. Proceeding in this way the culture was specialized, and Danysz finally succeeded in rendering it slightly virulent for the gray rats and entirely ineffective for the others.

Dr. Rosenau fed 115 rats with the culture during a course of various experiments with virus. Of these only forty-six died. The results seem to depend largely upon the amount of culture ingested. By starving the rats for a couple of days and then giving them all they would eat a very positive result was obtained. Twenty-seven rats so fed all died within a week. If the rats get only a small amount, however, not only is the effect uncertain, but the survivors become immune and can feed upon the cultures to their hearts' content, and be none the wiser for it.

It would seem that the virus is not unlike the laying out of a chemical poison, depending as it does upon the amount ingested. But, while the chemical poison has the advantage of not producing an immunity, the virus has the very decided advantage of being, so far as is known, harmless for man and domestic animals.—New York Sun.

GERTRUDE IS A WONDER.

Says Has Solved Problem of Trisecting an Angle.
 ST. LOUIS, January 16.—Gertrude Cutchin of Lebanon, Mo., has copyrighted a solution of the trisecting of an angle, a problem that has been vexing mathematicians since the time of Euclid. Though only 18 years old, she has accomplished something which has wrung the brains of mathematicians. While attending the Lebanon High School last year, her teacher, for a joke, assigned her this problem, the trisecting of an angle. To the surprise of her teacher she solved the problem and he proved it. She then applied for a copyright on it with the aid of her grammarian Shackleford of Missouri, obtained it on January 21, 1931.

Miss Cutchin says: "The trisecting of an angle I consider the key of perpetual motion. Since the solution of the problem, which mathematicians of many ages failed to solve, I have received many letters from prominent men, both in this country and abroad, asking me to send them a copy of the solution, but I do not intend to make my solution public until it appears in some text-book."

LOST SOULS.
 Professor George Holmes Howison of the University of California wants no newspaper men in the classes in his hall of philosophy. He is convinced, he says, that they are "lost souls," and he is unwilling to permit the dangerous presence of any with the classroom. Dr. Howison, who besides a master of art and a doctor of laws, bears the title of Mills professor of intellectual and moral philosophy and civil polity, has

character given them notice to stay away from the lecturers. Only reporters, he declares, will restore to them the now denied privilege of listening to his work. The hurried philosopher announced his sentiments and the accompanying warning at the last meeting of the class in the history of philosophy. At the close of his lecture he said: "I cordially invite graduate students and adults not in the University to visit these lectures, providing they are not newspapermen. We want no reporters or correspondents. They are lost souls and we cannot have beings of that description in our classroom unless they have deeply repented of their sins and have promised reform."

FOR RACETRACKS.
 Proceedings designed to bring about the reopening of the Ingleside race track, San Francisco, were commenced when Supervisor J. A. Lynch introduced a resolution at the meeting of the Board of Supervisors to amend the ordinance adopted in May, 1929, that prohibited racing within the limits of the city and permit a racing season not to exceed sixty days in each year. Supervisor Lynch was elected on the Union Labor ticket and the presentation of the resolution was his first move in the way of legislation.

WILCOX DID IT.
 There has been filed with the Clerk of the Board of Supervisors of San Francisco, a report by City Engineer Gwensky on the site offered by the Bay View Land Company for a posthouse or leper hospital. He said it was not probable that water could be found by boring wells on the land, but other land was offered on which a well might be dug.
 The cost of improvements on the land was estimated as follows: Paved 2,300 feet, \$1,200; road from Thirty-third avenue south and I street south, 2,000 feet, \$2,250; six inch sewer to bay \$775; dug well force pump, gasoline engine, pipe, tank and buildings, \$1,700. Total, \$5,625. This does not include the cost of grading land for buildings.

No action was taken on this matter by the Board. It is thought by the Board of Health that Congress may take action in favor of placing the leper colony at Molokai, as well as all lepers in the United States, under the control of the National Government and in that case there will be no need for a local leper colony.

COLD FEET.
 "Twenty days in jail to warm your feet and teach you to treat your wife as a woman should be treated."
 Alderman Donohue passed his sentence on Robert Hilday at Wilkesbarre, Pa., when the man was charged by his wife with putting his cold feet against her back.
 She testified that he had celebrated New Year's away from home and that when he returned late at night and got into bed he placed both his feet against her back. They were ice cold and she was chilled. She asked him to stop, he growled; she protested, he kicked her out of bed.
 She slept on the floor all night, and in the morning had him arrested.

A GOOD THING.
 There's one good thing when they feel dry.
 That business men cannot pass by, For far and wide it's same you hear, They stop to drink of "Rainier" beer On "swaght" or in bottle at Criterion.

"IT IS TO LAUGH" HOW WONGS BENEFIT BY AN ATTACK. Fifty New Members Pay United Societies Admission Fee and Carry the Re-election That Was Ordered.

There is a smile on the face of the average Bow Wong today. The other faction of the Chinese United States Society wanted a new election of officers and directors, and last night they got it. The former election was declared void by Treasurer Wahki, because only forty men had voted according to the by-laws, were allowed to vote. At the election last night all the same persons and some more Bow Wongs voted, but this time it was in accordance with the by-laws.

Several of the trustees and members of the advisory board are affiliated with the new Chinese Relief Society, but they are clamored as reform sympathizers and are quoted as saying that they look part in the organization of that society at the request of friends, and do not intend to oppose the United Societies.

AN ISLAND COLONY. ROMANCE OF ANOTHER UNCHARTERED ISLAND WHERE EVERY PROSPECT PLEASES AND EVEN MAN IS NOT VILE.

The San Francisco Bulletin says: The Island Home Association is the name of an organization just starting into life that has for its purpose, as its promoter declares, the settlement of an hitherto unexplored island in the South Pacific ocean.

How the island happened to be discovered is a matter which the author of the enterprise tells with much interest. It was found, he says, several years ago by a whaling captain while cruising in these waters.

The climate of this beautiful realm is described as being ideal, and therefore perfect, the thermometer ranging from 74 to 82 degrees, making it one of perpetual summer, where life may be spent with both pleasure and profit.

The principles upon which the Island Home Association is being founded are outlined by Mr. Van Wart.

Each male member or head of a family, shall be entitled to a sufficient amount of land free of charge. All such public utilities as water, light and transportation, (including the vessel purchased at first) shall be the common property of the colony, and charges shall only be made sufficient to defray the running expenses of the same.

Mr. Van Wart was asked what form of government he proposed to set up in the island, and, replying he said: "Each male member or head of a family, shall be entitled to a sufficient amount of land free of charge. All such public utilities as water, light and transportation, (including the vessel purchased at first) shall be the common property of the colony, and charges shall only be made sufficient to defray the running expenses of the same."

have the products of our plantations, which will always find a ready market in other countries. There are already two colonies located in the Samoan group, and the communities are not only prosperous but never tire of telling of their delightful surroundings, healthful homes and peaceful minds.

THURSDAY, JANUARY 30, 1902

BRITISH TRAVEL—A SUMMARY.

General Boyle from whose able reports upon the economic conditions in Great Britain The Star has drawn for much valuable information upon a point which interests the whole commercial world, shows that England as a commercial power cannot go on in the manner she has been doing for the last twenty-five years. The faults lie on the side of both masters and employes, and are probably inherent. But there is the greatest of hope, because a people constituted as those of Great Britain are recuperative, they are not effete and worn out. But they at present do not take all the advantages which modern civilization and modern mechanical appliances give them.

The small extent to which up-to-date labor-saving machinery is used in Great Britain, as compared with America, and even Germany, is just now a fruitful topic of discussion in the English press. The rate is for a plant or machine not to be replaced until it is absolutely worn out. The question is "Will it do?" not "Can it be improved?" The fault is, so the workmen say, that of the employers, and the latter retaliate by blaming the workmen. The handicap to which English manufacturers are subjected by reason of their employment of antiquated plant is generally recognized by the newspapers and by speakers at conventions of chambers of commerce and manufacturers, and the agitation has undoubtedly led to great improvements in this regard.

To sum up, there is a general recognition of the fact that England can not go on as she has been doing dating from the time when she was practically the manufacturing and commercial monopolist of the world. There is a widespread movement for the copying of American methods in organization and methods of trade, and within the past year a number of delegations of members of chambers of commerce, railroad men, and mechanics have gone to the United States to make practical observations. One enterprising Liverpool shipping firm has taken over several delegations of trades-unions to the United States and Canada, and will bring them back free of charge. Whether the newly awakened movement to meet outside competition will be able to overcome the traditional conservatism of the British people is difficult to say. The probabilities are that foreign competition will go on its conquering way until hard times overtake the British people; that then, with their habitual thoroughness, they will undertake the task of reforming their educational system, of modernizing their system of manufacture, and of changing the restrictive customs and habits of the work people.

THE BY-ELECTION.

It is an old proverb that you can bring a horse to the water but you cannot make him drink. In the same way you may order an election, that being considered mandatory, but there is no reason why there should be a contest for a worthless seat. If any one wants the empty honor of being called Representative x y z for three or four months and have absolutely nothing to do during that period, why let him take it, if it will only cost him \$25, and to some men it may be cheap at the price.

When Republicans go into a political contest they undertake they work with the intention of gaining sufficient power in the Legislature body to express certain lines of policy. Of course there are venal Republican politicians and always will be. But the vast majority in the party organization is perfectly honest, and is desirous of good government for itself, and not for the leaves and fishes it brings to its party. At this by-election we want to see whether we can do any good by going into the contest. Plainly the Republican party can do no good for itself.

We have a contest coming on in November which is going to be a hard one. It will require the entire unity of the party to carry that election, and it will require every dollar that can be legitimately spent. The present by-election would be only a waste of time and a waste of money. As the House of Representatives is at present constituted the Republicans are in a hopeless minority. Even if there was going to be an extra session, which may now be decided finally in the negative, what would be the advantage of one vote more or one vote less in that Republican minority? It would not add any strength either way. It would simply be wasted strength to make an effort to gain it.

In the Senate it is a very different thing. There a seat would be vital. The Republicans though in minority, can block any plan for overthrowing the Governor's veto, and it might be necessary for a strong fight in case of unforeseen contingencies. But in the composition of the House of Representatives no unforeseen contingencies can have any effect, and it would be absolutely useless to make any fight for the equally absolutely useless seat.

On the other hand the outlook in November, though there is no doubt about a sharp tussle, promises very much more favorably than the election of two years previously. The Home Rule party in spite of noisy meetings in Honolulu, is not the united party it

was, and its rank and file are being swayed. The party promised too much and it did not fulfill its promises. The Governor was to be ousted, and the Government was to be changed, and the Home Rule party still sits at the Government desk. That was an important object lesson, which has sunk into every Hawaiian mind. It is certain that the Home Rule party that it could have the Governor removed at its behest, that it sent a message up to San Francisco to meet the late President, and arrange the details. The telegrams came back a considerably wiser man than he went. The removal of appointments of a Republican president is by no means as easy a thing as it at first sight looked, and it was discovered that the Home Rulers of Hawaii did not run the United States, which in itself was somewhat of a surprise.

Then there was Secretary Cooper. He had insulted the dignity of the Home Rulers, and he must go. There were plenty of men to take his place, in fact there are plenty of men among the Home Rulers to take any place. But Secretary Cooper still occupies the Secretary's room, and he has even been to Washington and talked with the officials of the Washington government, and they did not insist upon any serious at arms removing him. This was another object lesson. It was a lesson which could not be mistaken. The members of the Home Rule party might rave and get of cheap gas, but neither the raving nor the gas had any effect.

There have been very many other object lessons, but the last, has been the failure of the Home Rule daily morning paper. Every Hawaiian knows why that paper failed or thinks he does. He has sized up the fact that if the extra session had been held, the paper would have kept on. As it was not held, the paper went under. Now you can at times, if you are a new comer, and put up a plausible front, fool the Hawaiian, but in the end he will find you out and as like as not call you "haole lapuwahe." And he is not only doing this now, but he is beginning to see through the wiles of those of his own race and characterizing his own countrymen in somewhat similar terms.

The prospect therefore for the election in November, 1902, is very different from what was the prospect was in 1900. During the two years which have elapsed the Republican party has been gaining strength, the Home Rule party has been losing it. If the Republican party will keep true to its traditions and stick together it can tell a very fine tale in November, but it would be very foolish to waste any strength over this useless by-election.

The result of the Kamalo case in the second hearing before the circuit court does not seem to be any different from the first result. It begins to look as if the shareholders had the promoters somewhat on the hip.

There are more boys in the Reformatory School than there have been for some years. Superintendent Olsson reported fifty-nine yesterday. There has been a great cleaning up of the hoodlums in town and country and the boys have been put where they can get into industrious habits.

It is sometime since a foreign war ship gave an entertainment in the harbor. Yesterday's reception on board the French man-of-war Protet was therefore extremely popular and a large number of people availed themselves of calling on board. Years ago entertainments on men-of-war were quite frequent and formed a special feature of Hawaiian social life.

A good shake up of earthquake in Mexico ought to have been announced here by our tide-gauges, but nothing has been mentioned as being out of the ordinary. The island waters felt the effect of the earthquake at Iquiqui, at Krakatoa, and several times at Japan. Here is a little question for our local scientists to consider and unravel.

It may be fairly supposed that nothing will ever be heard of the Condor, unless some of her wreckage comes ashore somewhere. The American man-of-war St. Marys in 1864 was lost between here and San Francisco, and nothing was ever known of her save that one of her masts drifted ashore at Kau many months after. The sea has many mysteries which will remain unknown till there is no more sea.

The Boer war has so often been announced as on the point of being concluded, that any statement in this direction must be taken with a large pinch of salt. There seems to be little reason to doubt that a majority of the people would be perfectly willing to have peace, but there are irreconcilables who will not give in, and Kruger and Dr. Leyds are quite comfortable in Europe and do not care how long the war lasts. Still the peace note is evidently sounding.

POPULAR PRICES.

HIS ONE ARGUMENT.

"That man says he will not allow his vote to be purchased!" exclaimed the man who had just arrived in breathless haste.
"Well," answered Senator Borghum, "offer him some more money. People are getting terribly mercenary nowadays."

LABOR.

"Do you think a member of Congress really earns his salary?" asked the inquisitive person.
"Of course I do," answered the newly elected statesman. "You have no idea what a lot of work it is to convince your constituents that you are working."

The rulers of ancient Egypt were embalmed in many strange spices and medicines. Ex-Mayor Van Wyck, the late unlamented ruler of New York, is embalmed in plain, simple tea. Nevertheless, he is no such of a mummy for practical purposes of modern usefulness as the oldest of the Pharaohs

AGAINST THE SALOONS

(Continued from Page One.)

Even like the Eastern railroad was doing a great deal of good for the cause although they were living themselves open to the charges of being prohibitionists. "Coming from the standpoint of our standpoint of racial characteristics," said Mr. Richards, "and from personal observation only, I think that there seems to be less danger from drinking to the Chinese than any other nation."

This view was endorsed in the oral report of Dr. Khai Tai Li, whose speech was interpreted by CHING YIK LAY. Dr. Li commenced by a reference to the large number present and his regret that he was unable to speak the language and gave the following statistics:
"There are four wholesale liquor dealers among the Chinese who are found to have been losing money owing to the fact that the race seldom drinks except on celebration days. Samsu is drunk on a whiskey, but there are various liquors imported much heavier in alcohol. Pui Lu, for example, has 50 per cent of alcohol and Sam Ching, imported from Northern China 60 per cent. The liquor consumed in Northern China is generally stronger than in the South. It is reported that the emphasis is possibly to climatic differences. There are very few cases of Chinese drunkenness ever brought into the courts."

"Opium is the worst habit of the Chinese and the worst thing ever introduced into China. I hope the foreigners will help to prohibit the importation of opium."
"I hope that the missionaries will go to Western China where the opium habit is the more prevalent in the provinces of Sui Ching, Pei Chow, etcetera. I think that should come first and liquor second for the efforts of the missionaries in China. We are Christians and try to follow the teachings of Jesus Christ and do what we can to help in these matters."

Rev. A. V. Soares stated that he could not give the number of Portuguese saloons keepers because so many unlicensed places sold and had sold liquors for a long time.

"Wine and whiskey and gin seem to be the liquors mostly used among the Portuguese. The people cover up the drunkenness and quarrels so that only a small proportion of the actual troubles get into their eyes. They who are some unmanageable difference do, the neighbors send for the police. A very large per cent of the Portuguese use some form of intoxicants." The speaker expressed the hope that the known saloons might be closed and a greater effort be put forth to search out the illicit sellers and punish them.

Rev. O. P. Emerson stated that for thirteen years he had been back and forth everywhere among the Hawaiians and had close opportunity to observe the effects of the use of intoxicants and had noticed with sorrow the remarkable increase of the drink habit.
"There is no reason for the saloon in the Hawaiian Islands, such as is frequently urged in behalf of saloons in countries of colder climate. A place of shelter, a resort for the sake of comfort, is not a necessity in this land of beauty, and quiet pleasant events."

"The Hawaiians have been trained to drink until they are drunk. The manufacture of wines in the homes of the Hawaiians has had this purpose in mind, drinking until drunk, and then lying down to sleep. This desire is carried into the saloons and as a rule he drinks until stupefied. No matter what may be the nature of the liquor sold, the Hawaiian drinks almost to loss of consciousness."

"The increase of even beer saloons unmanageably leads to increased opportunities for the Hawaiian to cultivate and satisfy this national propensity of drinking to drunkenness. The Hawaiian can be reached by the right use of influence, but those must be without any false hope. The results of this use of intoxicating liquors is great. The Hawaiians have in the past shown themselves very ready to cooperate with efforts checking the sale and use of liquors. They need the wise help and guidance of men who are willing to legislate for all classes of inhabitants without prejudice."

Rev. W. H. Rice, Superintendent of the Anti-Saloon League, stated that, according to its constitution, the League was not a political organization, but its members have perfect freedom to cast ballots for any members of any party who could best help eradicate the evils of the use of intoxicating liquors.

He paid a tribute to the readiness of the territorial officials to furnish the desired information, especially granting access to statistics down to this very day showing the increase of the numbers of liquor saloons in the Territory of Hawaii twenty three in 1896 to one hundred and forty two at this date. This increase does not include the light wine and beer saloons.

Lorrin A. Andrews spoke earnestly on practical lines of work, mentioning the fact that the League had already secured convictions such as that of an illicit dealer, and had defeated several applications for license, by circulating petitions in several districts and thus making known the wishes of the majority of the residents.

Plans were suggested for the more successful prosecution of illicit and light wine and beer saloons which have been selling other liquors not permitted in their licenses.
At the close of the session a spontaneous movement was made toward asking for an expression of opinion on the question, "Shall we ask the Treasurer of the Territory to refuse to issue any more licenses on the ground that, even from the standpoint of the saloon, sufficient licenses have been issued." A motion to this effect was carried unanimously, about seventy-five persons rising.

Owing to the session being carried on till a late hour, a number of the workers had been compelled to retire, or the vote would have been much larger. The full program of the day's work is scheduled as follows:

Business Men's meeting, 4 p. m.; Assembly Hall over Castle & Cooke's office. F. J. Lowrey presiding. "The Saloon Problem." "The Purpose of the Government." Governor Sanford, H. Doie; "The Saloon From a Business Standpoint." W. A. Bowen and E. W. Campbell; "Prison Statistics and Experiences." William Henry, Warden of Oahu Prison.
Evening meetings will be held in five different halls or churches; mass meeting in Y. M. C. A. hall; W. R. Castle makes the leading address on "Saloon and Law."

In the Japanese church, speaker of Nuanun and Kukul streets, Rev. Motokazu Uchiyama, presiding; others taking part are Rev. T. Okumura, Rev. W. D. Westervelt and T. Konuro, late Secretary of the National Temperance League of Japan.

In the Chinese Church, Rev. Wong Shing will preside with Goo Kim, W. Fong, Ho Fan and others as speakers.
In the Portuguese church, Rev. A. V. Soares and Rev. J. F. Durao and others will speak.
In Kawaiahao hall, basement of the

PROTET ENTERTAINS

ENJOYABLE RECEPTION ON THE FRENCH CRUISER.

Sons of the French Republic Entertain Honolulu Friends—Music and Dancing on the Gun Deck.

Captain Bernard and the officers of the French cruiser Protet, assisted by Consul Vizzavona entertained on board the cruiser yesterday afternoon from 2 o'clock to 5. The arrangements for the reception and entertainment of the guests were complete in every particular. The ship's boats towed by the ship's launch made continuous trips between the boat landing and the vessel, the port landing guests were met by officers in full dress uniform, and again at the vessel. On board everything was excellently arranged. The deck was sheltered by awnings formed of the flags of all nations artistically combined. The table were hidden with bunding pleasantly arranged. The vessel was in gala attire. The flags of the French and the American Republics were entwined.

Refreshments were served in the Commandant's dining room, whither guests were escorted on their arrival. By the courtesy of the Territorial officials the Territorial band was in attendance, and gave a pleasing program of music including both vocal numbers and dance music. Dancing was indulged in on the deck throughout the afternoon. During the dancing the ladies were each presented with a ship's ribbon, these being in various colors and not all in the usual black. The whole affair was thoroughly enjoyable. The guests included territorial officers and the consular corps and a large number of others.

AMUSEMENTS.

Indications point to a large house at the Orpheum tonight to see Ernest Hogan and "Billy" McLain in "A Trip to Coontown." The attendance has been steadily improving since the company have been putting on such a good show and proves that Honolulu people are always ready to patronize a first class entertainment.

Hogan as "Weary Willie" with "Billy" McLain as "Bonco Bill" make a team of laugh producing soldiers. The play is a comedy and is very lively and interesting, especially in the singing and dancing. "A Trip to Coontown" will be repeated tonight.

RESIDENTS KICKING

DO NOT WANT JAP THEATER NEAR PUNAHOU.

Address Petition to High Sheriff Brown—Japanese Theater Will be Allowed to Run One Week.

Evidently the residents in the neighborhood of Beretania and Punahou streets, do not take kindly to the erection of the Japanese theater in that locality. They have suffered the presence of Patsy's car barn but they draw the line at a Japanese playhouse.

The following petition has been received by High Sheriff Brown:

"Honolulu, T. H., Jan. 27, 1922.
"Sir:

"The undersigned property holders and lessees of property in the vicinity of the McCully Tract hereby petition you to take such steps as may be necessary to prevent the building of a Japanese theater on Beretania street, between the corner of Punahou street and the McCully Homestead, as the same will be an intolerable nuisance, and will greatly tend to reduce the value of their property and render the same valueless as homes for which they secured the same.

"G. Dietz, C. L. Hopkins, E. H. Douthitt, Frank H. Foster, Charles A. Kibling, J. B. Gilson, E. L. Dietz, E. F. Birmingham, by his attorney in fact W. F. Dillingham, W. L. Easton, H. M. Lull, S. A. Crook, William Thompson, J. C. Evans, Jacob Bearwald, Edmund C. Shorey, Willie B. Marks, O. H. Walker, F. T. Williams, E. E. Keen, Albert Baas, J. W. Callahan, J. W. Watson, C. T. Rodgers, J. J. Dunne."

The matter was investigated by the authorities and it was learned that the license had been issued to the proprietor of the show to run the theater at the locality in question, from February 15 to February 22, 1922. However, the license had been issued in perfectly regular form and could not be revoked, the show will have to be permitted. The police will be on hand to prevent any trouble and see that an orderly performance is given. The license will not be renewed after the expiration so the theater will then be taken to some other locality.

THE MOHICAN LEAVES

The departure of the training ship Mohican, was quite an event. This morning, as she carried no less than eight young men from this place, the crowd have enlisted in the service of the United States navy and will remain with the vessel for months to come as they will be taken on the present cruise of the ship.
Five Hawaiians, one white, one negro and one-half white comprised the crew. A number of boats containing friends and relatives of the departing sailor boys from Honolulu, rowed out to the vessel this morning preparatory to the departure and accompanied the boat as far as the light house.

The Mohican got away at 9:30 a. m. promptly. She will go to Christmas Island, Guam, the Philippines and various Asiatic ports during her cruise, and by the time that the boys from this place return, they will have traveled many thousands of miles and seen many strange and interesting sights.

Captain Cowden, the commander of the vessel states that he could have secured more young men from here had they been vaccinated for them. The career of the natives in the navy will be watched with special interest both in Hawaii and on the mainland as it is something of an experiment for so many to be enrolled on a single war vessel.

The volcano may erupt molten metal in the shape of limotype matter shortly. The first number of the new issue is expected on Saturday week.

TOO MUCH FOR MACHINE.
A year ago Corrado Spina had a wind-storm and when the government wind-recording machine was blown away it had recorded 55 miles an hour.
Advertise your Wants in the Star.

NO CATCHING AT STRAWS.

Drowning men, they say, will catch at straws. Naturally enough, because they see nothing better to catch at. It is the principle of any port in a storm. All the same the straw does not save the drowning man, nor is the tempest-tossed mariner likely to find a safe harbor every time he runs for the shore. The scientifically constructed life preserver is better than a straw, and to know how to ride out a storm is better than to trust to luck in finding a port in time of need. Just so it is in disease and all manner of sickness. A ship takes a pilot on the theory that he knows the right channel and can avoid the dangerous places. And when your life is threatened by disease you naturally desire a mode of treatment founded on absolute knowledge—a treatment that has proved effective in other cases like your own. This is the common-sense of the subject and no one will dispute it. And it is because the well-known effective remedy

WAMPOLE'S PREPARATION

never fails in the complaints for which it is recommended, that it enjoys the confidence of the people and the medical profession everywhere. The doctor who prescribes and the patient who takes it are not catching at straws, for it does what it is said to do on the same principle that water puts out a fire. It is palatable as honey and contains the natural and curative properties of Pure Cod Liver Oil, combined with the Compound Syrup of Hypophosphites, Malt and Wild Cherry. It quickly arrests the loss of flesh in wasting diseases, builds up the body, and expels from the blood those pernicious germs which cause Fevers, La Grippe, Beretania, Head Complaints, Throat and Lung Troubles, etc. Effective from the first dose. "Wampole's Preparation" is sold by all chemists.

DEFENSE OF DOCTORS. INTERESTING REPLY TO AN EDITORIAL.

Public Demands the Imposition of Physicians and Some of Them Heedless to Demand With Protest. EDITOR STAR: In one of the stars that illumined this far off Hawaii...

The writer of the article, being a reader of Max Muller, had evidently learned from that erratic writer that it was the most atrocious and heinous crime to be committed by a man...

The doctor who knows just what he is doing to do the moment he looks at a patient, is, especially in the tropics, a fraud, but the people demand that sort of a physician, and a doctor's bread may depend on his pretending to know more than mortal man is permitted to see in such matters.

Where there is a demand, there is bound to be a supply. There are plenty of doctors to furnish an elaborate opinion at eight, prescribe for a disease of years standing on five minutes consideration, and pretend that they can see to the depths of every organ and unguish of a patient's individuality...

No one regrets more than the true physician, the uncertainty and insufficiency of our knowledge and treatment of certain diseases, but the lack does not arise from any unwillingness on the part of physicians to make the effort to arrive at more exact information, but simply because we have to deal with the most difficult of all subjects. What we are asked to do is to prevent death. At best, we can only be partially successful.

The truths which the doctors have given to the general reader, and made common knowledge, are worth more to the world than all of the exact rules by which the astronomer calculates eclipses or the chemist analyzes compounds...

Whether useful or not, whether "frauds" or not, physicians always have existed among men, and doubtless will continue to exist among them...

CLAIMANT GETS \$100,000. The claim of Mrs. Clara Kluge Suro and her two children, Adolph Newton Suro and Adeline Charlotte Suro, for the estate of their father, Adolph Suro, has been compromised for \$100,000.

KAMALO JUDGMENT

FRONTSIDE MAN, FRY, KIDNEY AT COURT
AND MADE SHIPMENT OF STOCK OF 25,000
IN CASH.

The Kamalo hearing in the circuit court came to an end yesterday afternoon, when Judge Humphreys gave a decision practically the same as before, but added in cash and 6,000 shares of Kamalo stock on \$100,000 against the defendants Frank Hustace, Frank Foster and J. J. Egan and in favor of H. H. Hitchcock, L. H. Dee and many other stockholders of the company. Interest is added since the date of the former decree, April 25, 1901 and \$100 are allowed the three defendants as a promoters' fee.

Most of yesterday afternoon was occupied with hearing testimony about the alteration in the articles of incorporation, J. F. Morgan, Hustace, Egan and Foster and A. C. Lovelock, who were the original signers, testified in turn that they had no knowledge of the alteration. None of them knew when the articles had been signed, but Lovelock thought it was on the day of the acknowledgment. The defense asked for a postponement so that the testimony of Judge Edging, who took the acknowledgment, might be taken. The continuance was refused, the court holding that Edging could give no material testimony. The judge remarked that he was without any theory at all to account for the alteration.

Morgan argued briefly for the plaintiffs, asking the defense to charge fraud. The other side announced itself ready to submit the matter without argument, and Humphreys gave his decision at once. He stated that he would sign a decree similar to the one signed last time, deducting \$100 from the \$5,000 and adding interest at 6 per cent.

The former decree in Kamalo, which was set aside by the Supreme Court on the ground of Humphreys' refusal to hear the evidence that has been submitted at the present hearing, was in substance as follows:

"This Court doth declare and adjudge that the said defendants, Frank Hustace, John J. Egan, Frank H. Foster, did unlawfully combine, conspire and confederate and agree together to cheat and defraud the stockholders of the Kamalo Sugar Company, Limited, and the Kamalo Sugar Company, Limited, an Idaho corporation, out of the sum of Thirty-five Thousand Dollars (\$35,000.00) in cash and Six Thousand (\$6,000) shares of the paid-up stock of the said plaintiffs' bill on file in this suit; and this Court doth hereby adjudge and find that in pursuance thereof they, the said Frank Hustace, John J. Egan and Frank H. Foster, did unlawfully cheat and defraud the said stockholders of the said Kamalo Sugar Company, Limited, and the said Kamalo Sugar Company, Limited, out of the sum of Thirty-five Thousand Dollars (\$35,000.00) and Six Thousand (\$6,000) shares of the paid-up stock of the said Kamalo Sugar Company, Limited, which shares the Court doth find and adjudge were each of the market value of Twenty Dollars, and of the aggregate value of One Hundred and Twenty Thousand Dollars (\$120,000.00) at the date of the conversion thereof by said defendants, and did appropriate and convert the said sum of money and the said paid-up stock to their own use as alleged and charged in the plaintiffs' bill amended on file in this suit; and this Court doth further declare and adjudge that the appropriation and conversion of the said sum of Thirty-five Thousand Dollars (\$35,000.00) and the said Six Thousand (\$6,000) shares of paid-up stock by the said defendants, Frank Hustace, John J. Egan and Frank H. Foster, was fraudulent and void, and that notwithstanding such appropriation and conversion that the said sum of Thirty-five Thousand Dollars (\$35,000.00) and the said Six Thousand (\$6,000) shares of paid-up stock, together with the interest thereon at the rate of 6 per cent per annum, from the date of this decree, to be paid to the Kamalo Sugar Company, Limited, or its collectors of record; and that they, the said Frank Hustace, John J. Egan and Frank H. Foster, transfer to the said Kamalo Sugar Company, Limited, within the ten days aforesaid, and deliver to the said clerk of this Court Six Thousand (\$6,000) shares of the paid-up stock of said corporation, or Twenty Dollars in cash for every share of stock not so delivered, to be delivered or paid over to the Kamalo Sugar Company, Limited, or its collectors of record.

"And this Court doth further order, adjudge and decree that the said defendants, Frank Hustace, John J. Egan and Frank H. Foster, do pay the

costs of this suit to be taxed by the clerk.

"And the Court doth further order, adjudge and decree that the sum of Twenty Thousand Dollars (\$20,000) be allowed and paid to the plaintiffs' counsel in this suit for their services, by the said defendant corporation, the Kamalo Sugar Company, Limited, and that the said Twenty Thousand Dollars (\$20,000.00) be and hereby is declared to be a charge upon the said sum of One Hundred and Fifty-five Thousand Dollars (\$155,000.00) decreed and adjudged to be paid in this suit by the said defendants."

OFFICERS INSTALLED.

Corner Cannon, No. 219, A. O. E. installed the following officers Tuesday evening, M. C. Pacheco, deputy high chief ranger, assisted by Dr. E. C. Waterhouse, as herald, being the installing officers: C. B. J. P. Eckhardt, S. O. R., M. J. Silver, treasurer, M. A. Silva; F. S. J. P. Diaz; R. S. A. H. R. Verra; S. W. J. C. Oliveira; J. W. A. F. Souza; S. B. M. P. Bago; J. B. M. Machado; physician, Dr. E. C. Waterhouse.

ENGAGEMENT ANNOUNCED.

The engagement is announced of Miss Edith M. Wallace, of Vernon Heights, Oakland, Cal., to Col. W. H. Hayes, of the Forty-seventh New York Volunteers. Miss Wallace is a niece of James W. Gresham and cousin of Mrs. C. W. Bishop, Mrs. W. H. Rice and the Misses Turner, of Kukuiahe, Hawaii.

FIDES-TITUBOMBE.

Miss Mary Ann Titcomb and John Hall Fides, both of this city, are to be married at three o'clock this afternoon at Pawaia. The ceremony will be performed by a priest of the Roman Catholic church. The bride is well known in the community having been born in the Islands. J. H. Fides has been in Honolulu for about two years and is now in the employ of the Pacific Hardware Company. He is prominent in Scotch athletic circles.

VERDICT IN SUICIDE CASE.

The coroner's jury returned a verdict yesterday in the case of Oshaka the young Japanese who shot himself in the head to the effect that the deceased had committed suicide by shooting himself with a rifle. Repeated failures in his various enterprises appear to have been the cause for the man's act.

Ads under "Situations Wanted," inserted free of charge in the Star.

**PACHEGO'S
DANDRUFF KILLER**

IS YOUR HAIR FALLING?
The cause is a parasite in the hair-follicle eating away the delicate membrane which holds the hair-root in place. The only way to stop falling hair is to destroy the parasite which causes it.
Pacheco's Dandruff Killer does this, and then rebuilds the wasted tissue.
PACHEGO'S DANDRUFF KILLER, Sold by all druggists and at the Union Barber Shop, Telephone Main 233.
