Storm At Kahului Damages Breakwater

(Special Bulletin Wireless) WAILUKU, Maui, Nov. 12.—A heavy northerly swell prevailed at Kahului yesterday. It washed away two hundred and fifty feet of the new breakwater. The swell is still running high. The beach road from Kahului to Wailuku is partly damaged. E. E. Paxton of Alexander & Baldwin stated that that firm had received a wireless about the matter, according to which it appeared that Kahului had been visited by an exceedingly heavy northwesterly storm, the strongest experienced there for years. The resulting heavy sea had flattened out the stone projection, which had been built out for a distance of about a hundred feet at the end of the breakwater, to protect it. He did not think the breakwater itself had been damaged and neither he nor H. P. Baldwin, who had also been informed about the matter, thought the damage done would be very serious.

Forestry And Cane Diseases Discussed

The Planters' Association held an unusually interesting session this morning, at which the main topics for report and discussion were the various diseases with which cane is affected, a subject on which several of the old planters contributed valuable information from the reports of the Experiment Station scientists had been read, and that of forestry, on which interesting and scholarly reports were read by L. A. Thurston and Forester Hosmer. The report of the division of Pathology and Physiology of the Experiment Station was read by L. Lewton-Brain. It gave an interesting resume of the work done on the line named and referred briefly to the changes made in the personal by the departure of E. M. Gross and Dr. Cobb. Danger From Importation. After the reading of this report Entomologist Kottinsky spoke, in the absence of Alexander Crow, on the danger of importation of diseases by foreign cane cuttings which were imported, although a warning had been issued against such. He stated that as long as he did inspection work, imported cane cuttings would be condemned, as it was impossible to detect them without destroying them. W. O. Smith called attention to a part of the report which stated that a certain cane disease was found only on Kaval. He asked if it would be necessary to prohibit the importation of cuttings from Kaval to the other islands. Lewton-Brain answered that this would be the only safe course to pursue. Baldwin's Experience. H. P. Baldwin spoke in regard to several of the leaf diseases. He believed that "top rot" might have been imported from Queensland in 1875, but on the other hand these diseases might have existed previously on other vegetation. There were other diseases, which he mentioned, which he thought should be weeded out, especially the root diseases; which were increasing. He had decided to dip seed cane in the future on his plantations. He asked for instructions in regard to this matter. It might be true that many planters were lukewarm in regard to these diseases, since fields containing many of these still yielded from 8 to 12 tons per acre, as was the case at Punene. However, Baldwin thought it would be wise to take steps to stamp them out. He wanted to know if the Experiment Station had made an estimate of how much had been lost in any plantations through disease. Smith said that the Koloa plantation was the oldest plantation here. The old native cane formerly grown there, often developed top-rot. The Lahaina cane was far more hardy. It was important to know which varieties of cane were the most resistant to disease. Baldwin also made some remarks on this line. Terry said that no experiments had been made in the way of dipping cane tops, but such would soon be made. Top-Rot Cause. Lewton-Brain said the cause of top-rot was not known yet, but he suspected that it was due mainly to external conditions acting on susceptible cane. Baldwin said that he had been much (Continued on Page 3)

Pinkham Praise For Hilo

President Pinkham had a tremendous amount of routine matter to present to the Board of Health at its session this afternoon, including reports of various officers of the department. His review of the work on land follows: The meeting today has no business of importance, other than clearing away various reports that have been crowded to one side. It will be necessary to make some provision under Section 1131 R. L. of Hawaii relative to permits for the persons engaged upon or resident on the United States reservation in the County of Kalawao, Moloai, to land at Kalaupapa and pass to and from said reservation. I suggest that the President of the Board be authorized to establish a system of permits as between the United States' officials and the Superintendent of the Moloai settlement. I had you a report of Chief Sanitary Inspector D. S. Bowman relative to an epidemic of plague among the rats in Hilo. The situation has been handled so instantly, effectively and with such intelligence that Mr. Bowman and those who aided him are worthy of mention. No human beings have been attacked and we hope the infection was so effectively suppressed that none will be. The usual reports from different officers are attached. The report of the Insane Asylum shows a decrease of inmates of 13—the total to September 30th being 204 in place of 217 July last. Watch this paper for date of dance and reception to be given by the Royal Hawaiian Hotel to the Bulletin girls on their arrival home.

NO DISSATISFACTION IN NATIONAL GUARD

Only Misunderstanding, Acting Governor States. Acting Governor Mott-Smith, as also Acting Commander in Chief of the National Guard of Hawaii, is doing all he can to promote harmony among the men and officers and to clear away the misunderstandings which he feels have been at the bottom of the recent trouble. Under an Act of Congress, the National Guard, in order to become entitled to its pro rata of the \$2,000,000 Federal appropriation for the organized militia, must conform as closely as possible to the rules and regulations of the United States Army, by January 21 of next year. It is in the effort to reach this conformity, Mr. Mott-Smith thinks, that misunderstandings have arisen. In this relation he made the following statement this morning: "There is, and has been for some time, in the course of preparation, (Continued on Page 2)

Mahuka Site Case Stopped

The Mahuka site condemnation proceedings have come to a sudden halt. Judge Dole is disqualified to sit in the case, as he is a trustee of the Bishop Estate. To move matters further in these condemnation proceedings it will be necessary either to take the case to San Francisco or bring a judge here from the Coast. There is no one in the Territory qualified to handle the matter except Judge Dole resign as a trustee of the Bishop Estate.

CHRISTMAS GOODS DELAY

Merchants of the city have become very much aroused by the latest turn in the American-Hawaiian Telemeter service. It is said that owing to the Alaskan being sent back from San Francisco to return to the isthmus again, some of the consignments ordered for the Christmas season will not reach here until December 20. The subject will be taken up by the Merchants' Association if there proves to be a general complaint.

LEASING LEHUA ISLAND

The Territory is to lease another island. Land Commissioner Pratt is working on the details of the lease of the island of Lehua, near Niihau. The island is of 277 acres area, and will be turned over to Aubrey Robinson. Superintendent Campbell of the Department of Public Works is receiving bids today for a lot of painting and cleaning which it is proposed to have done around the Capitol. The building is getting rather dingy, both inside and out, and would look none the worse for a little brightening up. In addition to the inside work, it is proposed, as was first stated in the Bulletin a day or two ago, to have the exterior of the building cleaned with an acid solution. Experiment is still under way to determine the cleansing powers of the fluid now being used.

JENNIE MAY NOT BE PROSECUTED

Will Not Charge Wife Of Mormon Prisoner With Perjury. The "Mormon case" is still on trial in Judge Dole's court. There is a possibility, which, however, is not a very strong probability, that the end may be reached today. J. J. Dunne, however, will probably put on witnesses in rebuttal, to break down the testimony of the witnesses for the defense. (Continued on Page 5)

Oahu Pays \$900,000 In Taxes

Tax Assessor James L. Holt has collected in taxes from the island of Oahu alone since January 1 the sum of \$768,287.46, and there is more coming. By the end of the year, Mr. Holt says, there will have been paid in for taxes about \$900,000 from this island.

The total amount of taxes collected for the first period, from January 1 to June 30, 1907, was \$521,367.79. For the second period there was paid in for the quarter ending September 30 the sum of \$21,250.27. During the month of October \$88,399.25 came in, and for the month of November up to the night of the 12th, the sum of \$137,270.15 was paid in, bringing the total collections for the second period up to \$246,919.67. There is still about \$100,000 outstanding on this period, which will come in before Friday night. This is all from the outside districts, the former figures for this period representing taxes paid by Honolulu people alone.

The total for the second six months of the year will be considerable less than that for the first period on account of the fact that poll taxes and taxes on automobiles, vehicles of other kinds, etc., are paid during the first half of the year. But the total receipts for the second half are expected to amount to about \$400,000. Poll taxes paid in during the period from January 1 to June 30 amounted to \$82,000; automobile taxes to \$1460; taxes on carriages to \$9480; on brakes and sulkeys to \$704 and dog taxes to \$2093.10.

Friday, Assessor Holt says, will positively be the last day for the payment of taxes before they become delinquent. The office will be kept open until 8 o'clock in the evening for the convenience of late comers.

Millions In Gold For New York Banks

NEW YORK, N. Y., Nov. 13.—Eight millions of gold arrived in New York today for the various banks. The engagements for importation amount to sixty millions of dollars.

EMBEZZLED BANK FUNDS

FOSTER, Ky., Nov. 13.—Cashier of the Foster State Bank Daniel McKnight has been arrested for embezzling \$16,000.

Canada And Japan

TOKIO, Japan, Nov. 13.—Minister Lemieux, head of the Labor Department of the Canadian Government, has arrived here in connection with the Japanese immigration troubles centering at Vancouver.

Japan's Army Practise

TOKIO, Japan, Nov. 13.—The annual manoeuvres of the Japanese army begin on the 15th.

DAUGHTER BORN TO ITALY

ROME, Italy, Nov. 13.—A daughter was born today to Queen Helene of Italy.

CRUISER GOES NORTH

SAN FRANCISCO, Cal., Nov. 13.—The protected cruiser California has gone to the Navy yard at Bremerton.

KAISER ENTERTAINED IN LONDON

LONDON, Eng., Nov. 13.—The Lord Mayor of London gave a luncheon today in honor of the Kaiser and Empress of Germany.

ANNA HELD DANGEROUSLY ILL

PHILADELPHIA, Pa., Nov. 13.—Anna Held, the actress, is critically ill here with pneumonia.

INDRAVELLI GOES ASHORE

VICTORIA, B. C., Nov. 13.—The Indravelli grounded here today. Her stem was badly smashed but the ship will probably be floated.

KLUEGEL IS DUE

The new Engineer of the Department of Public Works, Mr. Kluegel, is due to arrive today from San Francisco on the transport Buford. As soon as he can familiarize himself with the situation, he will be put to work drawing up plans and specifications for the completion of the Nuuanu dam. If none of the bids received come within the amount of the appropriation, the work will probably be done by day labor, and Mr. Kluegel will be put in immediate charge of it.

WASH HOUSES AT AUCTION

The old Iwilei laundry buildings are to be sold at auction on November 20 by direction of the Superintendent of Public Works. This action will be in conformity with the Act passed by the Legislature abolishing the Iwilei Government wash houses. They were to have been discontinued June 30, but the Chinese were allowed to retain possession of and use them pending the completion of the new laundries.

Custom Made Clothes ALFRED BENJAMIN & CO., the famous New York tailors, make clothes to your individual measure and guarantee the fit. Better see to it that your taxes are paid at once. The old laundry building at Iwilei will be sold at auction next Wednesday.

Mr. and Mrs. George Mordon and children came down on the steamer Mikahala from Kaula. There will be a regular meeting of Honolulu Aerie 140, F. O. E. in K. of P. hall at 7:30 this evening. If you wish to quench your thirst in a most satisfactory manner, try the mixtures at the Fashion Saloon. The Curio Den, opposite Convent, has many unique Xmas novelties easy for mailing. First come first choice. Bergstrom Music Co. have several very good bargains in second-hand pianos. Call and hear them played. Take your carriage or automobile to Hawaiian Carriage Manfg. Co. for up-to-date repairs.

Rev. J. M. Lydgate and Dr. Waterhouse were among the arrivals from the garden island in the Mikahala today. The Associated Garage Ltd on Merchant street, will have two experienced automobile mechanics who will arrive on the next Alameda. S. W. Spencer of Allen & Robinson and H. N. Kahalepuna of the police department returned from Kaula this morning on the steamer Mikahala. Try some of the cream puffs, cream rolls, banana shortcake and other French pastries at Alexander Young Cafe. There will be a dedication of the new Buddhist temple at Kakaako next Sunday. A grand procession will form at Adia park and march to the temple.

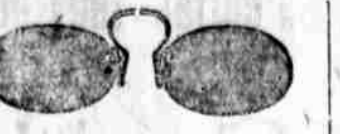

Yesterday was one of the busy days at the tax office. Two firms alone donated slips of paper that represented \$47,000. The total for the day was over \$81,000. Henry May & Co. have a complete assortment of the famous S. & W. canned fruits. This brand is unquestionably the finest in the market and embraces all varieties of fruits and vegetables. Phone 22. Kodaks and Brownie cameras make ideal Christmas gifts. They are just the things for your boys and girls and they furnish enjoyment for the whole family. Big stock at Hawaii Photo & Art Co. L. R. Crook, Prop.

All taxes remaining unpaid and delinquent after the 15th inst. will be advertised and suits for the enforcement of their collection will be immediately instituted. The Mutual Telephone Company began work on its underground system yesterday. The first opening of the street to receive the underground conduits was made in front of the company's headquarters on Alaka street. It is reported that the new Alaska street wharf will be turned over to the Territory next week. After accepting the wharf some slight repairs to the bed blocks will be made by the Board of Public Works.

A second load of coal for the Navy is due here any time now. It is being transported here from Newport News on the Atlantic side. The Dutch S. S. Nederland is bringing the load and has been out 65 days today. Cast of clothing of any description that can be made over for children, is being asked for by Mrs. Staff Captain Bradley of the Salvation Army. Contributions of clothing can be left at 1050 Beretania avenue or notify by phone No. 1478 and a messenger will quickly call for donation. Dr. Goodhue and Superintendent McVeigh gave material aid to the Japanese celebration of the Mikado's birthday at the settlement. A distinctive feature of the day was the building of a Russian battleship, so arranged with fireworks that it blew up after floating while.

The ladies of Central Union Church will hold a social tomorrow afternoon (Thursday) from 2:30 to 5 o'clock at the residence of Mrs. A. Frank Cooke, corner of Waialae road and Center street. A cordial invitation is hereby given to all the members of the church and congregation, together with their friends, also to strangers and newcomers to be present. It will be in order for those who come to bring their fancy work with them, prepared for an afternoon of informal sociability.

The vacancy made in the local Japanese Consulate by the transfer of Secretary Imai to Vancouver has been filled by Secretary K. Ito, who arrived on the Hongkong Maru last Friday. The new secretary comes from Manila and speaks Spanish and English. Mr. Ito states that there are about two thousand Japanese in the Philippines who work at fishing and carpentering. No Japanese are employed on the plantations as there are plenty of Filipinos for that work at about 4 yen a week. He reports that the Chinese hold a very prominent position in the Philippines, intermarrying with the Filipino. HAWAII JAPANESE PROTEST The alleged special messenger to the Emperor of Japan conveying the message to the effect that the Hawaiian Japanese offered themselves in any emergency has brought out a protest from the Hawaiian Japanese in the shape of a message to President Roosevelt reading as follows: "Hawaiian Japanese denounce Hilo sensational message absolutely. "HAWAII SHIMPO." The above message is the consensus of opinions gathered by the Hawaii Shimpo from prominent Japanese on the big Island.

How's Your Luck? Do you wish your friends as good or better? Send them one of the H. C. Good Luck Charms They will surely think it good luck to get such a pretty remembrance from Honolulu. H. Culman - 1064 Fort

MUCH GOLD RELIEVES EASTERN BANKERS

CHICAGO, Ill., Nov. 12.—The gold importations for the local banks, totaling \$9,190,000, has relieved the financial strain here to such an extent that the clearing-house will issue certificates no longer. OAKLAND, Cal., Nov. 12.—The California Bank has closed its doors, finding itself unable to meet its obligations because of the scarcity of currency.

The California Bank of Oakland was established in 1887. Capital, \$175,000. Surplus and undivided profits, \$22,000. Deposits, \$1,000,000. President, D. Edward Collins; Vice President, J. W. Phillips; Cashier, Frank H. Brooks; Assistant Cashier, Geo. S. Lackie.

KING EDWARD DECORATES KAISER WINDSOR, Eng., Nov. 12.—Kaiser Wilhelm and the Empress arrived here today and attended a state banquet in the state dining-hall. The Emperor received the decoration of the Knights of the Garter from King Edward. The Royal party will spend a week at Highlife Castle, the official residence of the Prince of Wales.

INDIANS AND SOLDIERS FIGHT DURANGO, Colo., Nov. 12.—An unverified report has been brought here of a battle between the band of the Indians, which is on the war-path, and the United States regulars sent after them, six Indians being reported killed in the skirmish.

BOYCOTT AGAINST SILK KILLS JAPANESE TRUST YOKOHAMA, Japan, Nov. 12.—The raw silk trust, formed here to advance prices, has succumbed owing to the boycott instituted against it by the American silk importers.

NO DISSATISFACTION (Continued from Page 1) rules and regulations by which it will be attempted to bring the organization, equipment and discipline of the National Guard of Hawaii to that of the Volunteer and Regular Armies of the United States under Section 131 of the Revised Laws of Hawaii, and in accordance with the suggestion of Acting Secretary of War Robert Shaw Oliver. It will be noted from the foregoing letter that in order to entitle the National Guard of Hawaii to its pro rata of the \$2,000,000 Federal appropriation the National Guard must conform by January 21, 1908. Several carefully considered orders have been issued by the Governor of the Territory, among them an order, to-wit: G. O. 26, dated June 8th, 1907, relating to the organization of the National Guard, in compliance with which Col. Jones, the Adjutant General, has since been acting. The form of this order is almost an exact copy of a similar order governing the National Guard of the State of California, and is very nearly in the exact language of the regulations requested by the Acting Secretary of War, Oliver. "The National Guards of the several States and Territories, being volunteer organizations, considerable difficulty is being experienced elsewhere, as well as in Hawaii, in ascertaining how far the rules and regulations of the regular Army of the United States should apply in order to bring such organization into conformity by the time stated. The matter is receiving the attention of the entire National Guard of Hawaii and of the Governor. In the consideration of this subject there is no question of assumption of authority by any one but rather of necessity, on the one hand, to bring about conformity and, on the other hand, of applicability. "With the common object of conformity in view, as well as the local laws and customs of National Guard, it appears that the entire personnel of the National Guard, including the Governor, are working harmoniously along the same lines. Under these conditions, and where the subject is an important one, there is no necessity of any suggestion that one department of the Guard is trying to steal a march on another department, or that there is or has been, dissatisfaction or lack of common understanding since such suggestion would probably tend to provoke misunderstanding and to hamper and interfere with an honest effort by all directly concerned to treat fairly and intelligently the subject matter now before the National Guard. "As to the shooting gallery, that matter is still unsettled. Several alternatives have been under consideration, but no site has as yet been definitely decided upon. This matter is at present under consideration between the Governor and the Federal authorities. No decision has been reached by the Governor, the Adjutant General, or by any of the officers of the National Guard, that the new shooting gallery should be on Beretania avenue. It is desired by all of the above-named that the shooting gallery shall be so located as to be easily available for its purposes, and for use by the National Guard and so as not to interfere with or disturb other persons or organizations."

BUSTING BRONGOS The great wild west show of this year will have one of the most unique features ever seen on the field. It is understood that there will be a contest in bronco-busting among men who have had not more than one experience in the business. Among the entries in this list is Charles H. Frazer, who once proved his ability in bronco-busting on the plains of Hawaii. The cowboys thought they would have a good time with him, but he tamed his horse in short order. An especially wild one will be imported by Eben Low for the event on the baseball grounds.

UP-TO-DATE CLOTHING Why we say "UP-TO-DATE" is because our cutter, Mr. Wong Yun, has just returned with THE NEWEST AND FINEST ASSORTMENT OF SUITINGS that could be found in New York City. We are now ready to show our customers and we are sure we can please them. W. W. AHANA COMPANY, Ltd., 62 S. KING ST. PHONE 525.

TIDES

Table with columns for High Tide, Low Tide, Sun Rise, Sun Set, Moon Rise, Moon Set. Values for Nov 13, 1907.

First quarter of the moon Nov. 12. Hawaiian standard time is 10 hours 30 minutes slower than Greenwich time, being that of the meridian of 157 degrees 30 minutes. The time whistle blows at 1:30 p. m., which is the same as Greenwich, 0 hours 0 minutes. Sun and moon are for local time for the whole group.

SAILING TODAY Stmr. Likelike, Naopala, for Hawaii ports, 5 p. m.

DUE TODAY S. S. Aorangi, from Colonias. U. S. A. Transport Thomas, from Nagasaki. U. S. A. T. Buford, from San Francisco.

PASSENGERS BOOKED Per stmr. Mikahala, Gregory, for Kaula ports, Nov. 14, 5 p. m.—H. Scholtze and wife, Miss M. Banhaw, Miss E. Banhaw, J. M. Lydgate, wife and 2 children, F. Schmidt, A. Lester, Dr. C. B. Wood, Mrs. H. P. Faye, Mrs. Armstrong, A. H. Waterhouse. Return: Mr. Dutton and wife, Mrs. Macfarlane and maid, Mrs. J. A. Akina.

PASSENGERS ARRIVED Per stmr. Mikahala, Gregory, from Kaula ports, Nov. 13.—Mr. and Mrs. George Mordon, family and maid, Mrs. Titeomb and maid, S. W. Spencer, Dr. Waterhouse, Mr. Putzko, B. N. Kahalepuna, Knudsen, Mrs. H. P. Faye, C. E. King, Mrs. J. M. Lydgate and 54 deck.

PASSENGERS DEPARTED Per stmr. W. G. Hall, Nov. 12, for Kaula.—Jas. Wakefield, Mrs. W. C. King, Miss M. McIntyre. Per stmr. Iwaini, Nov. 12, for Molokai ports.—W. R. Brickerhoff, F. S. Gibson, F. W. Pease.

Busy Needles Are Making Fancy Work

OUR ART DEPARTMENT IS RAPIDLY FILLING UP WITH SEASONABLE GOODS TO SUPPLY THE BUSY NEEDLES THAT ARE PLYING EVERYWHERE, WITH PRETTY DESIGNS AND PATTERNS. HERE ARE SOME INTERESTING ITEMS IN STAMPED GOODS:

Corset Covers, Chemises, Shirt Waists, Center Pieces and Doylies

All Marked at Qu'ck-Selling Prices.

Corset Covers, 75c

STAMPED ON FINE QUALITY OF NAINSOOK.

Chemises, 90c

STAMPED ON FINE-QUALITY NAINSOOK.

Shirt Waists, \$1.25

STAMPED ON FINE QUALITY OF INDIA LINON.

Large Centers, 50c

STAMPED ON HEAVY LINEN, IN PRETTY DESIGNS.

Doylies, \$1.00 a Dozen

STAMPED ON FINE LINEN.

FORESTRY AND GAME

(Continued from Page 1)
alarmed at the way trees were dying on the Maui watersheds. It looked as if root disease had spread to them from the cane. He asked what Prof. Lyons had to say about this.

L. A. Thurston read a report on forestry, stating that considerable advances had been made during the past year, especially through the interest of private individuals and concerns, notably plantation managers. The report also called attention to the importance of the lumber shortage in the United States and outlined the famine which was approaching, and its results. Hawaii should profit from the lesson of the mainland and take steps to preserve the forests and begin reforestation. Thurston recommended that all plantations shut out cattle from forest lands and plant hardwood trees wherever it could be done outside of agricultural lands, in order that Hawaii would be able to supply her own fence, railroad, telegraph and telephone post timber and firewood. In this connection attention was called to the fact that legislative appropriations would be needed for the reforestation, and it was recommended that the planters use their influence to secure this. The report also dwelt on the question of lumbering of water-producing and non-water-producing forests; the enterprise of the Hawaiian Mahogany Lumber Co. in exporting millions of railroad ties to the mainland; and the rubber industry.

Forester Hoamer read the following interesting address:

Following the precedent of former years, the chairman of your Committee on Forestry has again asked me to appear before the Association with a statement of the progress of forestry in the Territory during the past year. This I am glad to do, for the Hawaiian Sugar Planters' Association is one of the forces that is always to be counted on for active cooperation and support in the furtherance of forestry in the islands.

Forest work in Hawaii naturally divides itself into that carried on by the Territorial Division of Forestry and that done by private individuals and corporations. It may be treated accordingly.

Forest Reserves.

In the activities of the Division of Forestry the creation of forest reserves continues to hold chief place. Since the last meeting of this Association, three additional forest reserves have been declared, as follows: Luahalei on Oahu, Hana on Maui, and Na Pali-Kona on Kauai. The area in Government land in these reserves is respectively, 3,743, 12,787, and 40,650 acres, or a total of 57,180 acres. Within the boundaries of the Hana Forest reserve are also 1953 acres of privately owned land; within the Na Pali Forest Reserve 19,890 acres are in private ownership.

Other forest reserve projects now awaiting final action are the proposed West Maui Forest Reserve, containing a total area of 44,440 acres; the proposed Makawao Forest Reserve, also on Maui, 1796 acres; and a section of the land of Honolulu, Oahu, which will make with the areas already set apart on that range a good sized forest reserve on the Waialua Hills. Within a short time the boundary of the proposed Kohala Mountain Forest Reserve will be located on the ground, when this project can be acted upon.

Each of the forest reserves set apart during the past year is made with the idea of protecting the forest on the watersheds of streams important for irrigation, power development or other use. They are all essentially "protection forests" and as such it is desirable that the forest within their boundaries be kept strictly intact. The same statement holds true of the projected reserves on Maui and on the Kohala Mountain.

Change in the Forest Reserve Law.

At the last session of the Legislature, during the spring of 1907, a very important step in forest work was taken when the forest reserve law was so amended as to permit the Government to set apart government land within the forest reserve boundaries whether it is under lease or not. It is specifically provided that such action shall be subject to existing leases, but being set apart, at the expiration of the lease, the land automatically comes into the class of land definitely reserved. The advantage of this is that it leaves no uncertainty as to what the Government's policy will be in regard to given forest tracts. It also makes for permanency in the management of the various reserves.

Forest Utilization.

During the last year and especially during the last two months much interest has been awakened in the subject of the utilization of the Hawaiian forests for koa lumber and obia lehua (road iron) ties. This development of what promises to be an additional industry to the Territory deserves special comment for it involves questions of forest policy of vital importance.

Two Classes of Forest.

It is perhaps pertinent at this juncture to consider certain essential differences between the two main classes of forest in Hawaii. As I have pointed out in previous reports the primary importance of the Hawaiian forests lies in their value as a protective cover on the watersheds of the streams of the Territory, of which the water is needed for irrigation, power development, domestic supply and other uses. In practically all of

the forest reserves on the windward side of the islands, or in districts where the reserve projects permanently running streams or springs, the forest cover should be kept intact, in order that the forest as a whole, including both the trees of the main stand and the shrubs and smaller plants of the undergrowth, may exercise to the full their function of retaining the run-off and thus helping to maintain a moderately even flow in the streams. For this reason I reported adversely, last July, on a proposition to lumber the forest on the government land of Pihouua, Hawaii, in the Hilo Forest Reserve, on the ground that the opening up of the forest on that land would be detrimental to the favorable conditions existing on the drainage basin of one of the most valuable streams in the Territory—the Waialuku River.

The Commercial Forest.

On the leeward side of the islands, however, and in districts where because of topography and other factors there is no permanently running water, a quite different condition obtains. Here the commercial value of the forest takes first place in an estimate of its worth. Especially is this true of Hawaii and particularly of the Kona District, although it also holds good of sections of Kau and Puna. It is hardly necessary to remark that in the utilization of the forests in those districts the work ought to be done with due regard to the future. Except in localities where it is obvious that the land can be used to better advantage for other purposes than growing trees, the indication is for methods of conservative lumbering, whereby the mature trees of merchantable value now on the land may be removed in such a way that the forest will be left in good producing condition, which will in time permit the harvesting of other crops. Fortunately for the Territory the owners of the large private estates are alive to the importance of handling their forest properties in accordance with the methods of practical forestry, so that there is every reason to expect that the major part of the lumbering done will be carried on in a systematic and carefully planned manner. This being the case the advent of this new industry in the Territory as a development of much importance to the Territory.

Tree Planting on Waste Lands.

Outside of the work in connection with forest reserves the energies of the Division of Forestry during the past year have been mainly directed (1) toward cooperative assistance to individuals and corporations desiring to plant trees and (2) to the introduction of exotic trees and shrubs of value to the Territory. Under its offer of assistance to private owners the Division of Forestry stands ready at all times to prepare planting plans for persons desiring to establish groves or plantations of forest trees, or who wish to do other forest work. This matter should be of peculiar interest to the members of this Association for there is hardly a sugar plantation on the islands but that has some areas of waste land that might well be devoted to the growing of trees. With the increasing scarcity of fuel that is being felt in many districts and with the steady rise in price of the lumber needed for various uses on the plantation, it needs no argument to show the advantage of a local supply, even though it meets only a part of the demand.

A number of the sugar plantations on each of the islands, have undertaken and are carrying on tree planting work, and there are many areas of waste land that will await to be made productive. The offer of the Division of Forestry to assist in this work is a standing one; the members of the staff are ready at all times to undertake the work.

Plant Introduction.

In the introduction of exotic plants the past year has seen marked progress. Through the exchange of Hawaiian grown seed of native and introduced plants, seed of many valuable trees new to the islands has been received. This seed is being started at the Government Nursery. In due course the trees resulting will be planted out in suitable situations where they can be carefully watched; and there are many areas of waste land that will await to be made productive. The results of this work can but be of value to the Territory.

Another item of considerable interest in this connection is the inauguration of systematic experiments with temperate zone trees—pines, spruces and firs—on the higher slopes of Mauna Kea and Haleakala. This work is done with the cooperation of the Federal Forest Service, from whose appropriation for this fiscal year an allotment of two thousand dollars has been made for this purpose.

Rubber.

The rubber industry of the Territory continues to develop with every sign of promise. It is as yet too soon to regard it as fully established, but everything points to the time when rubber will take its regular place as one of the important "allied industries." Perhaps the most notable event of the year in connection with rubber was the successful convention held at Nahiku in October 1907—"the first rubber convention ever held on American soil" as the papers had it—when was organized the Hawaiian Rubber Growers' Association, with the object of providing an organization which it is hoped will benefit the rubber industry in somewhat the same way that the Hawaiian Sugar Planters' Association has benefited sugar.

To sum up: The past year may well be considered one of progress in forestry in Hawaii, for while the things actually accomplished may not in themselves be striking they nevertheless play an important part as units in the building up of the structure on which we are all at work, the development of the general prosperity of the Territory.

A FORM OF FOOD ALREADY DIGESTED

Duffy's Pure Malt Whiskey

is an absolutely pure distillation of malted grain; great care being used to have every kernel thoroughly malted, thus destroying the germ of the seed and producing a predigested liquid food in the form of a pale malt, which is the most effective tonic stimulant and invigorator known to science; softened by warmth and moisture its palatability and freedom from injurious substances renders it so that it can be retained by the most sensitive stomach.

GIVING SKIN TO SAVE BOY

Keokuk, Ia., Oct. 24.—The biggest case of skin grafting in the history of surgery in the West is being done at St. Joseph's hospital. The operation commenced two weeks ago and was made necessary in order to save the life of little Henry Lange, who on August 2 was fearfully burned about the back and shoulders.

Members of the local camp of the Modern Woodmen of America and young men who belong to the Y. M. C. A. have volunteered to submit to the ordeal of giving up pieces of their skin in order that the life of the victim of the accident might be spared. The parents are too poor to stand the expense of the operation. The physicians are giving their services free. A class from the medical college is watching the progress of the operation.

WEDNESDAY NOVEMBER 13, 1907

The return of Chicago to a coin basis after a season of clearing-house certificates to protect its coin is one of the particular signs of a speedy return to normal conditions.

The Bulletin given the report of Forester Hosmer, read before the Planters' Association, in full in this issue. The value of preserving forests has become well established. It is equally important to know how to use them at the same time.

Soon after the great San Francisco disaster Oakland did not a little speculating at its sister city's expense. It appears now to be paying the penalty while San Francisco is gaining the reward of conservative methods, even if they were forced by period of severe trial.

MR. WOOD TO WASHINGTON.

The selection of H. P. Wood to represent the Chamber of Commerce in the campaign at Washington for a Pearl Harbor appropriation will give Hawaii a first-class working force at the capital this winter.

Mr. Wood is as free from alliances with special interests as any man to be found in Hawaii, and his whole time, during his most recent residence in the Territory, has been devoted to boosting everything that has to do with the advancement of Hawaii.

He knows Hawaii and Pearl Harbor. He knows Washington. He is a good booster, and not of the combative temperament that wastes time arguing over whose the glory, and loses sight of the main object to be gained.

As the Chamber of Commerce has found the wherewithal to send a special representative to help the Pearl Harbor work along, the community is to be congratulated on the ability of the Chamber to obtain the services on such a capable man as Mr. Wood.

BISHOP OF LONDON ON AMERICA.

America's latest guest, the Bishop of London, has been the center of attention in Eastern cities for several weeks, and the general comment of the country from the President down to the men on Wall Street—they represent the limits of good and evil in the country—have voted him a bully good fellow.

The Bishop came to America "for a rest." In five weeks' time he had preached forty-nine sermons by actual count, and dined the President at a game of tennis. One of the forty-nine sermons was preached in the open air of Wall Street with a dry-goods box for a pulpit. During this talk the Bishop asked what Christ would do if he came to Wall Street. He answered his own query by expressing the conviction that "He would work just as you all work but He would spread His gospel besides, and it is that duty that some of you have let yourselves forget."

Having found the Bishop of London such a pleasant, companionable Bishop, Americans have followed the usual desire to know what he thinks of America. He told an assembly in New York a few days ago and did so voluntarily. It was at a banquet given in his honor. He dealt with Americans as follows:

"All creeds have joined in this welcome to me. I have ridden in the private car of a Catholic millionaire. When ten thousand Virginians wanted to shake hands with me at once I escaped in J. Pierpont Morgan's automobile. I have been astounded by the modesty of Americans whom I had been told would overwhelm me with inquiries as to what I thought of their country. I will answer the question, which I have never been asked, tonight.

"I look forward to the day when Canada has grown to be one of the greatest nations on earth, and I want the United States to watch that growth with intelligent and kindly interest. I look upon you as one of the greatest countries on earth.

"I am not thinking of materialistic things alone when I speak thus. I put my finger, first on your receiving millions of people a year from other countries and making them Ameri-

cans in a generation. Love of your country is stamped on persons of every nationality whom I have seen in your slums. I do believe that you here have got a real grip on your sinns, a spiritual, moral, and physical grip.

"It was on last Sunday that I had opportunity to observe the young men of your country. I spent the day at Yale and saw as fine and straight a body of young men as I have ever seen in my life. I noted especially that those among the students who were leaders in the spiritual life in college were the leaders in mainly sports. When religious leaders are found also to be the physical leaders, the country is bound to be a leader in the universe.

"I also observe here that the several creeds are working together for peace in the Church. There has been enough of bickering in the different bodies. The time has come to fight side by side for the common good of countries and cities. That doesn't mean that we have to water down our convictions. It means that we must each honor the convictions of the others. Because Christianity is strong in London, we speak with one voice, which is the voice of the several creeds.

"To you and your great country, God-speed forever."

The steamer Mikahala, Captain Gregory, which arrived from Kaula today, brought 5000 bags of K. S. M. sugar, 12 empty gasoline drums, 160 bags taro, 100 bags rice, 16 empty wine casks, 2 pigs, 133 sundry packages. Purser Miles reports the following sugar awaiting shipment at Kaula: K. S. M., 1750; M. A. K., 2,835; G. & R., 28. The bark Governor Robie left Eleele at 8 a. m. Saturday.

The Weekly Edition of the Evening Bulletin gives a complete summary of the news of the day.

Larger Fees For Juryman

Delegate Kuhio will urge Congress, at the coming session, to double the fees paid Federal jurors of Hawaii and to give the message which they draw. The statement is made by the local representatives of the Department of Justice, all of whom, naturally, are strongly in favor of such a measure.

Double jury fees are paid to jurors of United States courts in most of the Western States and Territories, on account of the fact that they frequently have to travel long distances through a country where travel is not only inconvenient but uncomfortable.

The same conditions to a great extent prevail in Hawaii, and it is believed that those who serve on Federal, grand and petit juries here are as much entitled to extra compensation as those who perform the same service in other States.

A Jurymen may be summoned to come from Hilo to Honolulu to serve during a term of court. He gets five cents a mile for traveling expenses, and his steamer fare amounts to more than this. His compensation for the time he has to remain is three dollars a day, and the chances are that he will spend a good deal more than that. So, as may be seen, few men are very eager to serve on Federal juries.

If the double jury fee system is put into effect in Hawaii, Jurymen will receive six dollars a day compensation and 15 cents a mile for traveling expenses.

The local Federal authorities pointed out conditions to the Inspector, Masterson, who recently left after making his examination here, and urged upon him that he use his efforts to have the double jury fee system put into effect here. The matter will be taken up by the Delegate when he reaches Washington, and he will do all he can to have the change made.

CONCERT TOMORROW EVE FOR AHAHUI IOLANI

The following is a selection from the program to be rendered at the benefit concert of the Ahahui Iolani to be given in the Kiloahana Art League Hall tomorrow evening:

- Mandolin duet—Trummer
- Ernest Kaul and Miss Carol Low
- Song—Toast to the Moon
- Miss Achuck
- Violin Solo—Dr. Ramus
- Song—Mrs. Cooper
- Mr. W. L. M. Gohler and Mrs. Alapai will also play.
- The Na'ane Glee Club will render instrumental selections at the opening and closing.
- There will be dancing after the concert.

ART LEAGUE SUGGESTS MCKINLEY MEMORIAL

Would Make Fishmarket An Open Air Pavilion

The Kiloahana Art League is making strenuous bids for the honor of furnishing a memorial suggestion to the McKinley Memorial Fund Committee for the most appropriate and lasting, and well as city-beautifying, memorial to the martyred President.

The following letter from the Art League has been sent to the McKinley Memorial Committee, in which are set forth the advantages to be derived by an adoption of the suggestions of the Art League.

This matter of a McKinley memorial was treated on at some length in yesterday's Bulletin, wherein it was stated that the Kiloahana Art League proposed the remodeling of the fishmarket into a general assembly pavilion and building at the sea end a memorial gateway or arch.

The Art League people are desirous of designating the structure they suggest as McKinley Pavilion instead of McKinley Memorial.

Honolulu, T. H., Nov. 8, 1907. To the McKinley Memorial Committee, Honolulu, T. H.

Gentlemen:—In reply to a recent article appearing in the morning paper in which you invite suggestions or criticisms respecting the proposed building of a McKinley memorial in Honolulu, the City Improvement Circle of the Kiloahana Art League respectfully submit the following:

We know that no cause, however good, is benefited by undue criticism of another cause, and therefore would rather urge the merits of a new plan for establishing and maintaining a McKinley Memorial, which we believe to be more practical than either the monument or the amphitheater plans which your committee have under consideration. Both plans before you have merit, and if Honolulu had the public buildings that the city requires, it would then be difficult to know which of the two plans you are considering should be first carried out.

But we call your attention to the fact that there is not in our city a single available building where large public or private meetings, exhibitions, fairs or entertainments may be satisfactorily held. We need a large, airy meeting place under cover. A place where our citizens could meet and mingle when occasion requires, and in so doing secure the advantages which surely come from such gatherings.

The Government now has a roof worth more than \$40,000 located on a block of government land, valued at more than \$50,000, which is being held for public use. We have every reason to believe the Territorial Government would be willing to join with the Memorial Fund Committee for the purpose of providing a dignified permanent McKinley Memorial where large public gatherings can be held.

From preliminary estimates, we find that the remodeling of the market, on Alaka street, into a McKinley pavilion completed to the satisfaction of all, can be accomplished for the sum which your committee now has available in the McKinley Memorial Fund.

The advantages we call your attention to in this building are its ample size, central location, permanency, perfect ventilation and not inartistic design.

The remodeling of the market would include enclosing the outer walls with heavy wire netting, suitable to serve as a trellis for climbing vines, which would preserve the present airiness of the building, and at the same time give the seclusion a public entertainment would require.

The architectural feature which would change the building from a market into a memorial pavilion, and to which we invite your especial attention, would be the erection of the McKinley arch at the waterfront end of the pavilion. Thus the Robinson plan for "The Beautifying of Honolulu" would be carried out by a dignified city water entrance, that would also serve as the main entrance to the pavilion. The Art League is prepared to submit a design for this feature of the building which would formally dedicate the whole structure, building and arch as a McKinley Memorial.

The interior of the building could be divided into stage, floor, dress circle, etc., as suggested in the accompanying rough sketch. Those familiar with the building will recall that two rows of pillars divide the entire building into three sections. We recommend that the center section be made shorter by placing a stage in one end and the dress circle of 1000 seating capacity in the other end. By taking off in this way the distance of two pillars at each end, the intervening space will be properly proportioned for a floor. Connecting the

dress circle and the stage, a row on each side between the pillars, of removable boxes, should be made. The remaining two sections of the building we recommend be paved with some inexpensive material, as there is already a good foundation. The interior fittings, stage, floor, boxes, seats, etc., would be so arranged as to give the greatest amount of adaptability to the various public needs of the city.

The building can be made to serve admirably the requirements of such gatherings, as public functions by government officials; for large conventions and political meetings; for festivals of song given by the schools of the city; for the Fourth of July and other celebrations of our own and other countries' national holidays; for large concerts of all kinds; charitable benefits and church fairs; agricultural and horticultural exhibits; a gathering place for contestants in the floral parades and automobile

shows, etc., etc. These are only a few of the many obvious uses to which the pavilion would be put.

We are assured that the disposition of the McKinley fund in accordance with the foregoing plan will meet not only with the approval of the organizations of our city, which have the well-being of the public at heart, but will commend itself to every citizen as a practical, useful disposition of this question of a memorial in a way to serve the best interests of every citizen, combining as it does the satisfactory disposition of the memorial fund; the utilization of valuable public property now idle; the acquiring of a much-needed public pavilion, and at the same time making a large and important step forward in the beautifying of Honolulu.

"Which of your creditors press you the most?" "My two tailors, but in order that they may see that I intend to marry, I have given each of them an order for my wedding suit.—Megendorfer Blatter.

When you become too busy to observe the rules of politeness, you should take stock of yourself and find out if moments gained by impoliteness are worth while.

HAW. REALTY CO. UP AGAINST IT

Assets Consist Largely Of Doubtful Value Notes

The Hawaiian Realty & Maturity Co., a concern which has been doing a great business among the Hawaiians, seems to be facing financial dissolution. It intends to wind up its business as is shown by the following circular letter which has been sent to the members of the concern:

Honolulu, October 23, 1907.

Dear Sir:—The financial condition of the Hawaiian Realty and Maturity Co., Ltd., is such that we have concluded it to be unjust to the holders of the company's certificates to accept any further money from them. In our judgment it would be wise for those interested to combine, secure the appointment of a receiver and have the affairs of the company wound up under the direction of the court.

We will do everything in our power to facilitate the liquidation of the company in such manner as a majority of the parties interested may determine to be best.

Yours very truly,
JNO. D. HOLT, JR.
For President.

Secretary.

Rec'd. Nov. 4, 1907.

L. K. Kentwell, the president, is at present studying at Columbia University, and has left the thing in charge of John D. Holt, the treasurer, who states that since his departure Kentwell has been trying to make him send him money, which, however, Holt has refrained from doing.

The office forces of the company was exceedingly busy this forenoon. John D. Holt was not in evidence, it being stated that he was in consultation with an attorney, but Clerk Henry P. Kahe, who was in charge during his absence, stated that he was working on a statement of the status of the company, which would be made public as soon as it had been finished.

"I am trying to separate the names of the members who are in good standing from those who are in bad standing," he said.

"What is the idea of that?" asked the reporter.

"Why, we will distribute the assets of the company among the members in good standing."

"And those who are in bad standing will get soup?"

"Yes, that's about it," admitted Kahe.

In answer to further questions Kahe stated that the stock of the company was distributed in 2000 shares. The face value of these shares, when they were fully paid up, was \$200, although only \$150 a share had to be paid up.

"How many members are in good standing?" was asked.

"There are about 2000 members," answered Kahe. "And of these about one-third are in good standing, I think. Remember that these figures are only approximate."

"What are the assets of the company?"

"They amount altogether to about \$60,000. Of that about \$29,000 is represented by real estate, and the rest by mortgages and notes, but most of them are dead notes."

"What do you mean by dead notes?"

"Why, I mean notes on

To Curb Harriman

HOLDING COMPANY OF UNION PACIFIC WILL ROB MAGNATE OF POWER

New York, N. Y., Oct. 25.—E. H. Harriman's son is declared to have set as America's independent railroad king.

Harriman will be relegated to his Union Pacific Railway alone next week when the directors of that system meet at 129 Broadway to pass upon a plan for the segregation of the company's securities by a holding company, according to the statements of those usually well informed. The intervention of a holding company takes away Harriman's great prestige as a railroad man. The announced retirement of Harriman sent Union Pacific stock upward.

Harriman could not be reached at his office today, but inquiry at Union Pacific headquarters confirmed the plan to eliminate Harriman, the individual.

Here are the directors expected to be present at the special board meeting Thursday next, William G. Rockefeller, Henry C. Frick, James Stillman, R. W. Goeltz, Charles A. Peabody, David Wilcox, H. H. Rogers, W. D. Cornish, P. A. Valentine, R. S. Lovett, Marvin Hughill and Oliver Ames.

This meeting to decide upon a plan for the segregation of the investment and miscellaneous assets of the Union Pacific from that railroad and its immediate auxiliaries is the most far reaching and important development in Union Pacific in years.

The new investment company, which is to be given to the stockholders of the Union Pacific, will have \$300,000,000 of actual assets with cash earnings of nearly \$15,000,000. Harriman will have very little to do with this holding company. He will confine his energies to a further development of the Union Pacific. The iron hand Harriman has held over the Baltimore & Ohio, New York Central, Illinois Central and other roads through influence acquired by stock owning with Union Pacific funds will be shorn of its power.

Hague Disturbed

REAL CONDITION OF EMPEROR IS KEPT FROM THE PUBLIC WITH QUIETING BULLETINS

The Hague, October 13.—The news concerning the condition of Emperor Francis Joseph is seriously occupying the diplomats gathered here, especially those belonging to the Triple Alliance. A cipher telegram from Vienna received by a leading diplomat here today says that the optimistic reports of the condition of the Emperor are issued purposely, so as not to alarm the people, but that in reality the doctors are anxious, fearing the growing weakness of the patient, which is due chiefly to insufficient nourishment and lack of rest and sleep because of the cough. The fever is keeping above 100. "The gravest danger, the dispatch says, which is not mentioned in the official communication, comes from the heart, which may be too weak to withstand the general depression.

Naturally the conversation of the delegates to the peace conference is almost entirely on the question of what would happen in case of the death of the old monarch, who next year would celebrate the sixtieth anniversary of his accession to the throne, having witnessed during his long reign greater political and family catastrophes than any living ruler, from the battle of Komagrat to the loss of Lombardy and Venetia, and from the incurable infirmity of Empress Elizabeth to her murder by an anarchist, besides the tragedy which led to the death of Archduke Rudolph.

The diplomats, some of whom know the situation in Austria thoroughly, say that just because the danger of the death of the Emperor has so often been predicted, it will not happen, the authorities being prepared for such an event and having long since planned the severest measures to maintain order and to check without mercy any separatist movement, especially in Hungary, Bohemia and Trieste. They admit, however, that the death of the Emperor would have great influence on the internal and foreign policy of the Government, as his successor will not command the same influence over the people or have the prestige and sympathy accorded Francis Joseph.

SUGARED.
"I am angry with you Dick," said the pretty girl, with a myriad of blushes, "and I only gave you that kiss through revenge."
"It reminded me of revenge," laughed the lucky young man.
"In what way?"
"Well, you know 'revenge is sweet'."
WHY IS IT?
Hix—There's one thing strange about these Arctic explorers.
Dix—What's that?
Hix—They are all married men.

THE CHANGE OF LIFE

Sensible Advice to Women from Mrs. Henry Lee, Mrs. Fred Certia and Mrs. Pinkham.

Owing to modern methods of living not one woman in a thousand approaches this perfectly natural change without experiencing a train of very annoying and sometimes painful symptoms.

This is the most critical period of her whole existence and every woman who neglects the care of her health at this time invites disease and pain. When her system is in a deranged condition or she is predisposed to apoplexy or congestion of any organ, the tendency is at this period likely to become active and with a host of nervous irritations make life a burden. At this time also cancers and tumors are more liable to form and begin their destructive work.

Such warning symptoms as sense of suffocation, hot flashes, headaches, backaches, melancholia, dread of impending evil, palpitation of the heart, irregularities, constipation and dizziness are promptly heeded by intelligent women who are approaching the period of life when this great change may be expected.

Mrs. Fred Certia, 1014 So. Lafayette Street, So. Bend, Ind., writes:
Dear Mrs. Pinkham—
"Lydia E. Pinkham's Vegetable Compound is the ideal medicine for women who are passing through Change of Life. For several months I suffered from hot flashes, extreme nervousness, headache and sleeplessness. I had no appetite and could not sleep. I had made up my mind there was no help for me until I began to use Lydia E. Pinkham's Vegetable Compound, my bad symptoms ceased, and it brought me safely through the danger period, built up my system and I am in excellent health. I consider Lydia E. Pinkham's Vegetable Compound unsurpassed for women during this trying period of life."

Mrs. Henry Lee, 60 Winter Street, New Haven, Conn., writes:
Dear Mrs. Pinkham—
"After suffering untold misery for three years during Change of Life I heard of Lydia E. Pinkham's Vegetable Compound. I wrote you of my condition, and began to take Lydia E. Pinkham's Vegetable Compound and followed your advice, and to-day I am well and happy. I can now walk anywhere and work as well as anyone, and for years previous I had tried but could not get around without help. I consider your medicine a sovereign balm for suffering women."

Women passing through this critical period should rely upon Lydia E. Pinkham's Vegetable Compound. If there is anything about your case you don't understand write to Mrs. Pinkham, Lynn, Mass., for advice. It is free and has guided thousands to health.

When a medicine has been successful in restoring to health, actually thousands of women, you cannot well say without trying it, "I do not believe it will help me." It is your duty to yourself and family to try Lydia E. Pinkham's Vegetable Compound.

Ayer's Cherry Pectoral

There's nothing so bad for a cough as coughing. There's nothing so good for a cough as Ayer's Cherry Pectoral. When you have a genuine cold or a hard cough, or when there is inflammation in the throat or lungs, then you need

It is a carefully prepared, accurately compounded medicine for all diseases of the throat and lungs. It contains strong and active ingredients, such as are extensively prescribed by the medical profession. It is the oldest, strongest, and best medicine for coughs and colds you can possibly buy.

Accept no cheap and worthless substitute. Be sure you get Ayer's Cherry Pectoral. It contains no narcotic or poison of any kind.

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass., U.S.A.

JOY AND REUTER WILL BE FIRST BATTERY

When the All-Hawaii team faces Fisher's All-Stars on Saturday, the 23d of this month, "Dick" Reuter will be in the box and Barney Joy will do the catching. Here is a battery that has always been thought well of. Reuter has always pitched good ball when Barney was behind the bat. Reuter has much confidence in Barney and this will aid him much in his pitching, and then Joy knows all of the batters that are coming and he will be able to coach "Dick" and put him wise to the weak spots of the Coast batters. Barney has a good wing and should be able to cut runners off at second.

So far as size goes, these two will make a giant battery. Reuter is going to pitch the greatest ball that he ever has in all his years of pitching. He is in grand shape and training hard.

There was a complete turn-out of the team last evening and some good practice was had. Sonny Cunha worked behind the bat in his old-time form. Sonny was at one time the crack catcher of Honolulu and is the man who brought Barney Joy out.

Joy will pitch the second game against the "Frisco" team and will also be on the mound Thanksgiving Day.

The sale of single tickets for all of the games starts at Gimco-Eakin cigar store on Saturday morning.

NOVEL APPARATUS FOR FOOTBALL PLAYERS

Carlisle, Pa., Oct. 24.—Not since the days when the tackling dummy was first put into use in football practice has there been a gridiron invention to equal the sleds introduced this year at Carlisle. There are now two of them on the field, one weighing half a ton and the other three-quarters. The Indians push them all over the lot.

When the question of teaching the Redskins to charge came up a month ago a huge sled with a padded place for the players' shoulders was sug-

gested and tried. It has been of great help not only in teaching the Indians to forge ahead, but it has greatly developed their back and lung muscles.

At a given signal six or usually seven men, who have crouched two feet from the padded side of the sled, spring forward and buck the enormous weight of timbers so hard that they send it bounding over the grass.

OLD CRACK OUT OF IT

This season will witness the retirement of another player who has been before the public many years. Connie Mack has given Monte Cross his release, and the latter has signed to handle the Kansas City club in the American Association. Cross played short for the Athletics a long time, though he was seen at his post but little this year. His brilliant fielding kept him up in the big league. He was a light hitter. It was singular that Lave Cross should leave the major league the same year. Monte and Lave played alongside of one another in hundreds of games, and many fans have thought that they are brothers or cousins or something like that, but they were not related. Think of the bunch of famous stars that will disappear this year. There are Jake Beckley, Kid Gleason, Lave Cross, Monte Cross and probably Jimmy Collins.

CHAMPION FIGHTERS

Squires, Australian; age, 27; height, 5-9; weight, 172; reach, —; chest, —.

Burns, Canadian; age, 25; height, 5-7 1/4; reach, 74 1/2; chest, 42.

Hart, American; age, 30; height, 5-9; weight, 196; reach, 74; chest, 45.

Schreck, American; age, 26; height, 5-9; weight, 185; reach, 72 1/2; chest, 41 1/2.

Kaufman, American; age, 29; height, 6-1; weight, 192; reach, 75; chest, 49.

Johnson, negro; age, 28; height, 6-2; weight, 195; reach, 76; chest, 44.

JOE GANS

Baltimore, Md., Oct. 28.—Joe Gans, the lightweight ring champion, today received a letter from Jim Coffroth, the manager of the Colma Athletic Club, offering him a match with Battling Nelson, but as Coffroth did not name any guarantee, Gans passed the proposition up.

The negro still sticks to the statement that he will retire from the game. He says he is getting old and does not like the idea of training hard for a mill. He is comfortably fixed and says he has \$35,000, owns several houses, and he expects his new hotel, which opens Tuesday, to be a paying venture.

AMERICAN JOCKEYS

A Vienna dispatch of recent date says:

"The American jockey, Fred. Taral, heads the list of winning riders on the Austro-Hungarian turf, he having up to date ridden sixty-five winners. During the short meeting just over Taral rode two winners, among them being the victor in the Jubilee prize. Second on the list is the Hungarian rider, G. Jenek, with fifty-three wins, while the other Americans to do well are H. Birkenruth and Miles Taral. Birkenruth and Miles have both signed again for next season.

"J. H. (Skeets) Martin, who came to this country to ride for Baron Rothschild under a 2-year contract for a retainer of \$10,000 a year, could not get along with his English trainer, owing to the latter's anti-American feeling. He has been paid off for two years and leaves at once for England."

BIG MONEY FOR DOGS

London, Eng., Oct. 26.—The editor of the Kennel estimates that Americans have spent more than \$100,000 this summer buying English dogs. American purchasers are now the largest in the English market. Owing to American money dog breeding has become a national industry in England. The editor of the Kennel said: "This has been an unusual season. A record number of dogs have been bought by Americans. One buyer shipped \$150,000 worth of dogs last week. The British bulldog is the

American favorite; next to bulldogs in popularity with Americans are Airedales, wire-haired fox terriers, Irish and Scotch terriers and "toy" spaniels. England recently sold colts costing \$2000 each."

WOMEN IN OLYMPIC GAMES

Women are to play a somewhat important part in the Olympic games next month. In archery, skating and lawn tennis particularly they are expected to win many prizes, while it is assumed that many women gymnasts will be the entrants. Women polo teams may also compete, while in other branches of sport in which women have shown proficiency inducements will be offered to swell the number of women contestants.

VANDERBILT A TURF-WINNER

W. K. Vanderbilt is steadily forging to the front among the winning owners of the French turf. He has a number of very useful if not great horses, among them North East, Cornstalk and Omega. They are all winning races with gratifying regularity and enable the American railway magnate at least to pay for his oats.

The late General Shafter weighed 21 stone. This is partially explained by the fact that he had an iron will. —Punch.
