LACK OF WHARF ROOM PILES UP EXPENSE.

Sailing Vessels and Consignees Lose Heavily every Day—Figures for the Central Government.

In his letter to Secretary Gage in regard to the needs of the Territory of Hawaii, Secretary Cooper has emphasized strongly the necessity of a larger harbor at Honolulu. Shippers in the city have received requests from him for information in regard to the loss of time by vessels coming here with cargoes, on account of the contracted docking space, and the answers have been such as to bring out most strongly the point it is desired to present. In all the long list of sailing vessels arriving here in the past year there is not one of them but has had to wait from one to thirty days to discharge. In some cases consignees have had to pay heavy demurrage, and in others, on account of the terms of charter, the expense has fallen on the vessel, taking all the profit out of the shipping business as to them.

One instance, that of the vessels of W. G. Irwin & Company, will illustrate the situation. Many of these vessels ply between here and San Francisco, and every time are delayed at Honolulu because there is not room to dock. There is no extraordinary delay at the other end. It is here the expense falls making the back trip to Honolulu rather slack in a financial way. As will be seen from the list many vessels arrived several times in the year, giving to them a multiplied loss of annoyance, delay and expense. The list of vessels arriving for Irwin & Company with the number of days each one was delayed are here given:

Alden Besse, 24; W. G. Irwin, 23; J. D. Spreckels, 29; W. H. Dimond, 15; Mauna Ala, 31; Santiago, 34; S. N. Castle, 33; J. L. Stanford, 38; W. G. Irwin, 18; Alden Besse, 17; W. H. Dimond, 25; Hale, 23; S. N. Castle, 10; Mauna Ala, 27; Himalaya, 8; I. F. Chapman, 55; W. H. Dimond, 10; Alden Besse, 21; Helene, 18; Solving, 25; Helen Denny, 61; S. S. Charina, 14; S. S. Charina, 1; Highlands, 15; R. E. Wood, 10; Sussex, 26; Inca, 20.

Castle & Cooke paid no demurrage except on one vessel, the Lanning. Just what steps may be taken by the government to enlarge the harbor and improve facilities neither the shipping men nor the Territorial secretary are prepared to venture. It is likely, however, that plans will be entrusted to a naval board, equipped with surveys, to make proper investigations and report.

Mr. Dillingham's project of new wharves on the west side of the harbor, which is now under way, will afford considerable relief, but the central government has not yet officially approved those plans.

MARSHALL SERVING SENTENCE.

William H. Marshall whose appeal to the Supreme court from the decision of the circuit court sentencing him to serve six months for criminal libel of the late Chief Justice Judd, was recently adversely ruled upon, started yesterday to serve his sentence. Marshall conducted a paper called the Volcano and as its editor wrote an article which resulted in his arrest and subsequent conviction.

MINERNY SHOE STORE.

Important.

Almost every one has something of value; such as papers, jewelry, money, keepsakes, etc., which they are very anxious to keep safe. At home, at a hotel or boarding house, there is always danger of loss from fire, burglary or some careless servant.

Why not make sure that your valuables are in perfect safety? FOR A SMALL CHARGE you can rent one of our SAFE DEPOSIT BOXES. You have your money, and no one but yourself (unless you give written instruction to admit some particular person) can open your box. Your box will be in a solid steel vault, the doors being extra heavy steel, and opened by clock work. This makes your box BURGLAR AND FIRE PROOF. It will cost you nothing to call and see our vaults and boxes.

NEGRO SOLDIER STAMPEDE

LEAVE TRANSPORT WITHOUT SHORE LEAVE.

Provost Guard Ordered out to Round up the Offenders—Bodies Exhumed from Nuuanu Cemetery.

There was an exciting hour on the government dock this morning and great confusion prevailed. Finally, with the aid of a provost guard the offenders were soon rounded up and things quieted down considerably. The trouble was caused by about sixty colored troops stampeding from the transport Hancock without having previously received permission to leave the vessel.

Until this morning the gang plank was placed a little forward of midships and the run of those who had the right to go ashore was understood by the guard. This morning the plank was put a little aft and bright and early after breakfast the soldiers did not wait for permission to leave but they made a dash for the gang plank and stampeded down to the wharf.

Such a commotion was raised that the officers were aroused and hurried to learn the cause of the trouble. Soon as the reason for the departure of the men was ascertained squads were dispatched to round up the offenders. The white officers took a hand in the work and placed a number of the offenders under arrest. As the result of the stampede the liberty of many of the men will be curtailed during the balance of their stay here and if they are allowed off the ship at all it will be for only a short time on the wharf.

The work of exhuming the bodies of the dead soldiers in Nuuanu cemetery was finished yesterday and the bodies are being placed on the Hancock preparatory to being taken to Manila and thence to the States for permanent burial. Considerable difficulty was experienced in securing laborers who would perform the work of disinterment for, owing to the disagreeable odors which arose in many instances the Japanese struck. With characteristic cowardice and building tactics however they demanded \$5 a day before they would go back to work. This was refused and a force of natives and white men was secured to finish digging up the bodies. The remains were placed in wooden boxes and the name of each soldier being printed on each box.

INDEPENDENT CONVENTION

HOME RULERS CHOOSING THEIR CANDIDATES.

A Pledge as a Prerequisite—Question of Delegate to Congress Not Yet Reached—Carter and Macfarlane.

It was 10:30 this morning before the Independent Convention had made a start. At the appointed hour of opening, 10 o'clock, a dozen old natives hung about the door of the drill shed. Slowly one at a time, the crowd enlarged until there was finally a fair showing, though not one half of the seats in the hall were filled. Wilcox, Kalaupokalani, Kauiua and other leaders arrived about fifteen minutes late.

Prior to the call for order all sorts of rumors were afloat in the delegations. One was to the effect that Wilcox and his friends had arbitrarily fixed out such delegates as were opposed to their leader's candidacy for Congress. This proved to be true. The coup was effected yesterday. F. J. Testa was one of the men turned down. He was given the option of endorsing Wilcox or having another delegate appointed in his stead. Testa replied that before he would support Wilcox he'd eat his shirt waist, or words to that effect. He was accordingly dropped, and Wilcox had scored a point.

Another rumor, to the effect that J. O. Carter and E. C. Macfarlane would present letters declining nominations for the Senate later turned out to be true. D. Kalaupokalani opened the meeting. Wilcox sat at his left hand and Kauiua at his right. David Kauiua, Mahoe, Kailimala, Meekapu and Nehemiah were appointed a committee on credentials and one hundred and twelve delegates from all the districts were found to be duly qualified. S. K. Mahoe and others started a discussion on the matter of a temporary chairman and Kalaupokalani was elected.

Having after infinite debate settled the preliminaries of the convention, nominations for senator were called for. The following were named, many of them receiving the endorsement of several districts:

R. N. Boyd, S. K. Pua, E. C. Macfarlane, D. Kalaupokalani, James K. Kauiua, George Markham, D. Kanuia, J. O. Carter, J. W. Biplikane, Frank Harvey, William Auld, J. Kanui, Jesse Makimala, John Emmeluth, Joseph Clark.

One of the delegates stated that he had been informed that J. O. Carter had written a letter asking that his name be not considered by the convention, and the delegate asked that the letter be read.

The following is the letter, which was read:
Honolulu, H. T., Oct. 10, 1900.
D. Kalaupokalani, Chairman of Convention of the Independent Home Rule Party.

Sir: Yesterday afternoon, Messrs. Robert Boyd and George Markham, representing themselves as acting under your instructions, handed me a pledge which you as leader of the Independent Home Rule Party required me to sign as a prerequisite to a nomination by the convention of that party. A reading of the pledge, particularly item three convinces me that you have started upon a course that can only be considered mischievous by thoughtful men and as a friend of the Hawaiian people I ask you to reconsider your proposed policy, as one fraught with danger to the native race.

Being forewarned of the course you would pursue I must ask you not to consider me as a candidate for any position on the ticket of your party. My appeal must be from your convention to the Hawaiian people. Very truly yours,
J. O. CARTER.

A letter from E. C. Macfarlane, addressed as J. O. Carter's was, was then read and followed by the following:

Sir: Messrs. Robert Boyd and George Markham called upon me yesterday, giving me to understand that they bore a message from you, the purport of which was that a pledge had been prepared by you and other leaders of your party, which I must sign if I desired a nomination as senator for the third senatorial district, and I understand that you admit that the pledge came from you to me.

My answer to your message as given to them was that I would refuse to sign any pledge, but they requested me to give the matter further consideration, which I have done, and the result of such deliberation leads me to say more emphatically that I will not sign a pledge, particularly such as one as was presented to me for consideration.

I remain, very truly,
E. C. MACFARLANE.

The pledge to which reference was made in these letters was as follows. The only name to it as it was presented to the convention was that of James Quinn.

To whom it may concern:

We do hereby pledge ourselves to support the Independent Home Rule Party.

First, We do hereby declare that we are not members of the Democratic or Republican parties in the territory of Hawaii.

Second, We pledge ourselves to support the platform of the Independent Home Rule Party.

Third, We do hereby pledge ourselves not to confirm any of the appointments of Governor Dole's, in section 80 of the territorial act.

Upon the reading of these letters and this pledge, a delegate in the rear of the hall said that no self-respecting man would sign such a pledge as that. Other delegates, however, took the position that if Carter and Macfarlane did not want to sign it the convention could find plenty of other candidates. It seemed never to have occurred to anyone to inquire by what authority the pledge was prepared and made a prerequisite to nomination by the convention; nor that its provisions were not in the party platform, nor had the convention acted on them. It did not seem to occur to ask if any of the other per-

HARBOR DREDGING IS PAU

OAHU RAILWAY FILLING UP THE HARBOR.

Starting Report of Captain Fuller Causes Government to Act—No Money for Cancelled Stamps.

The Government has notified the Oahu Railway Company that dredging for the new wharves on the west side of the harbor must stop. This afternoon Superintendent George Dennison is consulting with Superintendent McCandless, of the public works bureau, in regard to the matter.

The cause of this action was a letter from Harbor Master Fuller in which it is stated that the dredgings flow back into and are filling up Honolulu harbor. Captain Fuller views the matter with deep concern, and his report was effective, for immediate action was taken.

A letter came from Washington last night, containing a decision that country postmasters will not appreciate very highly. Country postmasters were instructed to forward all stamps, stamped envelopes, etc., to Washington on June 15 to be cancelled. This they all did and the old postoffice system here, however, the postmasters owned their stamps and other property. They expected to be indemnified for their loss and sent them all forward without hesitation. The postoffice department decides that there is no money to indemnify the postmasters for their property. In his letter Edwin C. Madden, third assistant postmaster-general, states that the government expects the Territorial government to pay for the stamps sent from Hawaii and cancelled at Washington. The ruling is very peculiar but the postoffice department has the opinion of Attorney-General Griggs to back it up.

THEY FAILED TO PAY UP

Executor of Will Asks Permission to Sell Beach Premises Again—Other Matters in Court.

R. W. Cathcart, executor of the estate of the late James Dodd, has petitioned the court to order a re-sale of the Dodd premises on the Waikiki beach and on account of the fact that Joseph Hartman and J. H. Collison, who bid in the property for \$8,000 at the first sale, have failed to come up with the money. The man Hartman is the fellow who sold the ridiculous yarn of a shark in the surf at Hawaiian Hotel annex. He was employed by Peacock & Company at the Cosmopolitan saloon and for his bright shark dream was dismissed and has since been an "inspector of buildings and side walks." Collison is his next friend. It is understood that the men planned to open the Dodd house on the beach as a sort of resort.

Mary A. Evans, proprietress of the American House on King street, has again brought suit against her husband for divorce. She alleges extreme cruelty as a cause of action. Ella K. Pua petitions for divorce from her husband, William K. Pua. Hackfeld & Company have filed a bill to foreclose a mortgage and for the appointment of a receiver against C. Akau for Akou and C. K. Al. Temporary injunction has been issued to prevent defendants from disposing of the property covered by the mortgage. The debt was contracted at Kailua, Hawaii, where the first two defendants were doing business.

James A. Thompson, master, has approved the accounts of J. O. Carter, guardian of the Hardee minors. The testimony of Dr. F. R. Day in the divorce libel of Rose Miner vs. Dr. F. L. Minor will be taken before Clerk George Lucas at 2 o'clock Friday afternoon. Dr. Day will shortly leave for Germany which makes the taking of his evidence necessary.

Judge Humphreys has signed a decree legalizing the adoption of George W. Humeuku by J. W. and Lizzie K. Humeuku.

E. P. Aikue was this morning sworn in as district magistrate of Koolauapoko.

HEROES OF TIEN TSI

CAPTAIN LEONARD FACED DEATH TWICE.

He dragged a Wounded Officer Nearly Half Mile over Battle Field—Was in Turn Saved.

Captain Henry Leonard, United States Marine Corps, whose heroic conduct at the battle of Tien Tsin would have won him the Victoria Cross had he been in the English army, is a passenger on the City of Peking en route to his home in Washington, D. C. As the result of his bravery on the terrible day of July 13th, he won a captain's commission but nearly lost his life. He sacrificed his left arm in an attempt to help the Ninth Regiment during the attack which resulted in the death of Colonel Liscum. With Captain Leonard is Sergeant J. M. Adams of the Marine Corps. Adams also comes home a hero for he did for Captain Leonard exactly what the brave officer did for another officer—rescue him when wounded, in the face of a galling fire from the Chinese. Adams was specially detailed by his commander to accompany Leonard home and he is watching the handsome young companion as carefully as if the captain were a child. Between these men, one wearing shoulder straps and the other only non-commissioned chevrons, has sprung up a friendship which will go with them to their graves.

"At the outbreak of the trouble in China," said Captain Leonard "I was first lieutenant and I asked Admiral Remy to be allowed to go in response to Admiral Kemp's dispatch for help. In company with Lieutenant Jolly and 30 marines we started and reached Taku the day following the capture of the forts. On the next day 100 more marines arrived making our force about 130 in all. The fighting became so severe at Tien Tsin and the need so urgent for reinforcements that it was decided that every effort must be made to relieve the foreign settlement. Accordingly our marines with 400 Russians started toward the town. We found that it was an impossible task but we decided that the only proper course was to risk being cut to pieces for the town must be succored. There were hordes of Chinese opposed to us and finally at one of the arsenals near Tien Tsin they repulsed us. We had to retreat hurriedly marching and fighting 35 miles in one day. On this occasion I was recommended for having helped to carry a wounded man along with us. He was a private named Carter. The Russians were constantly attacking us and our men would have to wait until we could catch up with them. Finally we reached Ching Along Lang where we were reinforced and then we marched up and took the town.

"We got there before the return of Admiral Seymour's relief column and went out and relieved him after he had taken the big arsenal. For several days we remained inactive but finally the commanders decided that the only practicable course was to attack the walled city. The Chinese were constantly shelling us in the foreign settlement. Accordingly in the early morning of the 13th we advanced to attack the walled city. The American marines and Ninth Regiment held the flank of the general attack. The Russians were advancing from the northern side.

"The Chinese tried a flank attack on our left but Lieutenant Butler, now captain, took a force and repulsed them inflicting heavy loss. He was badly wounded in the thigh and Colonel Meade the commander of our forces realized that Butler ought to be moved for if the enemy came up and drove his force back he could not be gotten away. The commander would not order any other cover of a hut. I was struck in the left arm by a Mannlicher bullet shattering the bone. The officers saw I would die if I was not taken back immediately, so Sergeant Adams and Corporal Adriance helped me along. We had to go 1300 yards and we again encountered the bullets of the Chinese sharpshooters. After a frightful experience we managed to reach a place of safety behind the mud wall."

Captain Leonard's life was despaired of for weeks but his wonderful vitality which enabled him to retreat from the Chinese sharpshooters pulled him through the operation of amputation and the loss of blood.

KRUEGER OFF FOR EUROPE

TO APPEAL TO INTERNATIONAL ARBITRATORS.

Proposal to Erect a Monument to Him at Flushing—Belgian Dutch will Receive him Enthusiastically.

NEW YORK, September 22.—A cable to the Sun from Lourenco Marques says: Preparations are being made for the departure of President Krueger for Holland on board the Dutch war ship Gelderland. The date of his departure is not known to the public. It is said that the reason why he did not sail on the German steamship Herzog, as originally planned, was because Lloyds, who are underwriters of the gold taken from the train on September 23, are taking legal proceedings against Krueger.

A cable to the Sun from London says: It is reported from Brussels that the Belgian Dutch are making extensive preparations for the reception of President Krueger. The first reception will be held at Flushing on board the Dutch war ship on which he is traveling. It is also proposed to erect a monument to President Krueger at Flushing.

A Sun cable from St. Petersburg says: President Krueger's object in coming to Europe is to appeal to the tribunal of international arbitrators instituted by the Hague Peace Conference, to which Great Britain is a signatory power.

It is stated on trustworthy authority that Russia will not depart from the policy of non-intervention in South African affairs, because the Czar is most anxious to maintain good relations between the powers in order to settle the Chinese difficulty.

LONDON, October 1.—An interesting report comes from Komatiport to the effect that Mr. Krueger, in a letter to his wife announcing that he is going on leave on the 10th inst., has mentioned in substance, that after the capture of Machedorop he knew the struggle was hopeless and counseled moderation, but that Mr. Steyn's "arbitrary behavior overruled his counsels."

MARRIED IN 'FRISCO.

SAN FRANCISCO, Sept. 27.—Captain E. H. Svendsen of the Norwegian steamer Horda was married to Miss Helga S. Myhre of Honolulu last night. The bride came up from the Rio de Janeiro and as soon as possible after her arrival the ceremony took place. The bride is a daughter of Milk Inspector Myhre, of the Hawaiian Board of Health.

J. LESLIE MCCOMB REPARING.

It was stated today that J. Leslie McComb the erstwhile evangelist of the water front whose oratorical assaults upon Turk and Lewis helped those worthies make a living better than their efforts, had decided to shake the dust of Honolulu from his shoes and leave on the Peking for the Coast. An attachment was sworn out against him by J. A. Durant for \$10. Durant claimed McComb had guaranteed a room rent bill for an acquaintance who had failed to pay Durant.

LOS ANGELES GROWS.

WASHINGTON, October 1.—The population of the city of Los Angeles, Cal. as announced officially today, is: 1900, 102,479; 1890, 60,395.

These figures show for the city as a whole an increase in population of 52,084, or 86.35 per cent. for the period. The population in 1880 was 11,182, showing an increase of 39,212, or 350.64 per cent from 1880 to 1900.

THOMAS SUNNY DEAD.

KIHEI, October 6.—Thomas Sunny, a mining engineer, died at Makawao on Sunday evening last. Mr. Sunny came to Maui, some months since from California to take charge of the drifting and tunneling operations at Kihei.

A THREE-FOLD CAUSE.

The highly gratifying progress and prosperity of the Provisional Government can be distinctly traced to a three-fold cause—namely, a wise, skillful and energetic management, an intelligent and enthusiastic force of business producers, and the most desirable and up-to-date policy contracts. Nerves Unstrung.

Weak Stomach; Pain in the Chest; Sleepless, Nervous, Irritable; all run

Down. Cured by

Dr. Miles' Nervine.

Nearly every disease is the sign of poverty, either of the blood or of the nerves. When the brain cells and nervous tissues are used up faster than they are repaired, not only the brain and nerves, but every vital organ of the body cries out for help. Headaches, neuralgia, heart disease, nervous dyspepsia and liver and kidney troubles run rampant in the helpless system, destroying whatever strength remains until at last the break-down comes and then—
Dr. Miles' Restorative Nervine is doing a world of good for such weak, nervous people, whose brain and body are overtaxed, but who may yet be saved from a state of indescribable wretchedness, and restored to lives of happiness and industry. By soothing and strengthening the secretive glands of the digestive organs it facilitates digestion and assimilation,

while the nervous system is rapidly built up again and put to work without confusion, thus bringing all the important organs into harmony and restoring perfect health.

"About seven years ago I was all run down with nervousness and heart trouble and was so bad that I had to give up work. I was nervous, sleepless and irritable all the time and although several doctors treated me I did not improve any under their care. Hearing Dr. Miles' Nervine well spoken of for such troubles I commenced using it and grew better from the start. When I had used three bottles I felt that I was cured; but I still kept a bottle of the Nervine on hand, and when I am unusually tired or nervous I take a dose and am all right again. I took Dr. Miles' Nervine and Liver Pills along with the Nervine and found them the best Liver Pills on the market."

MAIL SHIPS ARRIVE LATE

RIO AND PEKING ENCOUNTER HEAVY STORMS.

Vessel From San Francisco Brought Many Passengers and Heavy Mail—Peking Brought Much Freight.

Two vessels of the Pacific Mail fleet arrived last night, the Rio Janeiro from San Francisco en route to the Orient and the City of Peking from the Orient en route to San Francisco. The Rio brought one of the largest mails ever received here there being no less than 240 sacks for Honolulu and another hundred for Manila. Over 200 tons of freight was also brought, as was a big passenger list. When the Honolulu passengers left the ship the vessel seemed deserted there being scarcely two dozen left to continue to Asiatic ports.

The Rio was sighted about 3 p. m. off Vaimanalo but did not reach the wharf before 5:30 and came up in a drenching rain storm. Ordinarily she would have reached here in the morning but after leaving the Golden Gate a strong north easterly wind and heavy seas were encountered which delayed the vessel nearly a day. The City of Peking was discharged and the extra amount of coal which had to be taken aboard it was some hours after that time before she cleared. The Rio was also shifted from the Mail Dock around to the Waikiki dock of the Wilder Company in order to accommodate the City of Peking which was sighted last night.

The Peking was also nearly a day late having been delayed on account of a heavy typhoon which raged outside of Yokohama. The vessel remained in port for two days until the weather had cleared sufficiently to permit her resuming the trip to San Francisco. She was sighted here a few minutes after 9 o'clock and laid outside until shortly before noon today when she moved up to the Mail dock which was until then occupied by the Rio. The Peking brought some mail and 800 tons of freight for this port, which is the heaviest consignment she has carried here in a long time. She brought but five through cabin passengers one of them being an officer who was wounded in the fighting around Tien Tsin.

Quite a number of passengers booked from here for San Francisco via the Peking and a number of Japanese took steerage passage for the Orient on the other boat.

MANY BOERS COMING.
ST. PAUL, September 28.—The Globe tomorrow will say: Hundreds, and perhaps thousands, of Boers will emigrate from South Africa to the United States and settle in the Northwest. Theodore Van Grecht of Holland, who has of late years made his home in South Africa, is in St. Paul to arrange satisfactory railroad rates over the Western lines. He will bring a large contingent of Boers to this country in the spring if conditions are favorable. There are thousands of Boers, he says, who are anxiously awaiting an opportunity to leave their present environments and embark for another land.

A GOOD THING.
There's one good thing when they feel dry.

IN ABEYANCE.

The Chinese situation has not materially altered according to latest telegrams. The statement that Russia and Germany had reached an agreement is denied, and though it is constantly rumored that the German Emperor has receded from his position, there seems to be no foundation for the report other than an interested wish that he should do so. Indeed everything points the other way, and one of the strongest arguments is to be found in the withdrawal of the American troops from Peking.

The President foresaw the complications that would occur should Germany continue to press her claim. A long continued war must be the inevitable result, and there was no cause for America to go to war. She does not want to disintegrate China. She is not prepared to ignore the China Government. The only thing was to withdraw and get out of the way before the crash came.

The position of the Chinese court is singularly Chinese. The Emperor is now thrust forward, and is made to state that he blames the ministers for the whole trouble. He further holds Tuan responsible for the whole trouble. Whereupon Tuan is degraded. This is all that will happen when dealing directly with the Chinese government. There will be some flowery oriental phrases; a pretence of degradation, the offer of compensation, which may or may not be paid in time, and China will go on as ever, outwitting the Western barbarian, believing that he is her inferior, and looking out for a chance to humiliate him.

The only person who is likely to teach the necessary lesson is the German Emperor. He recognizes the shifty character of his foe, as Clive and Warren Hastings did the characters of the Eastern potentate they fought against and negotiated with. They mislead matters, no more than the Emperor does.

The fact is China really has no government in the Western sense of the word. The main government has no idea of its outlying provinces, and has little or no power over them. It rules by decree which affect those at the head of affairs, but has no effect upon the masses. The palace is one net work of intrigue. But for foreign aid the customs duties would be in hopeless confusion. Corruption is rampant in every portion of official life and this will go on till some power or powers straighten the matter out. This is the kind of power we are now gravely negotiating with, and the results may easily be predicated.

France has come out with a policy for dismantling the Chinese forts and prohibiting the sale of arms and ammunition to the Chinese. This seems a chimerical plan. Even if the fortification were dismantled, it could only be the coast towns and China could have a chain of forts fifty miles inland, which could be erected without anyone knowing anything about them. As for arms and ammunition the Chinese could manufacture for themselves. The Japanese turn out their own rifles and cast their own big guns, and what the Japanese can do the Chinese can do. Moreover, China must have some arms on the coast. She does not keep down her coast and river pirates very ably, but she does keep them down somewhat. If China were unarmed, these scoundrels would increase and multiply until they would be a scourge to commerce in the future as they used to be in the past.

The position of Great Britain on the Chinese question has not been clearly shown. From being the prime factor in all matters concerning China, she has receded to a position where she divides her prestige with many powers. She may, however, throw in her lot with Germany. If she does it will be because the German policy is Anti-Russian.

Lastly there is Japan. This country has borne the brunt of the fighting, has the largest force in the field and has been put to the greatest expense. She will have to be remunerated. The question is, how? The Chinese puzzle is very far from solution even though Russia and the United States have withdrawn from Peking.

UNCERTAINTY OF LAW.

We consider law as an exact science, but its glorious uncertainties are constantly being illustrated. Where cases depend upon a jury they are always more or less of a gamble. Mr. Parker, Pickwick's lawyer in the immortal breach of promise suit remarked "A good, contented, well breakfasted jurymen is a capital thing to get hold of. Discontented or hungry jurymen always find for the plaintiff." A jury often gives a verdict flat against the evidence, at other times a jury is extreme-

ly partial. However in the long run, substantial justice is given in the main by juries.

But even a supreme bench may differ, and the difference of decision depends upon the men sitting on the bench. Two cases exactly similar upon their legal points were adjudicated yesterday. On one case Chief Justice Frear, and Justice Galbraith and Humphreys sat, the latter in place of Justice Perry who was sick. In the other case Chief Justice Frear and Justice Galbraith and Magoon sat, the latter again in place of Justice Perry.

The Chief Justice holds that the constitution does not follow the flag. In the first case the other two justices followed the Democratic doctrine that it does, and that the moment the flag was raised over the Government building, the constitution was in force, although it presented the anomaly of having one president in Washington and another in Hawaii. Therefore the Chief Justice was overruled and a man condemned for an infamous crime upon the finding of nine jurymen, according to Hawaiian law, was set free because the verdict was by two judges regarded as unconstitutional.

The second case however turned out differently. Justice Galbraith was in the minority this time and the verdict of nine out of twelve jurymen was upheld.

Had Magoon sat on the Edwards case he would still be in jail. Had Humphreys sat on the Marshall case, the latter would not have had his sentence confirmed. And now ponder over "Glorious uncertainties."

BETTER OUTLOOK.

The Federal Government is taking an interest in our forests and we can look forward to having an expert upon forest matters in the comparatively near future. We shall have to pay the expenses of the scientist and also give him a salary, but this is a small matter as compared with the gain we shall have in getting our forest lands put upon a proper basis.

It would pay all who are interested in agricultural enterprise to contribute towards the bringing out of this gentleman, and to see that he had a liberal salary which would keep him here for some years. The ravages upon our forests cannot be repaired in a year or so. Some people estimate that it will take twenty-five years to get our forests into anything like proper shape, others put it at a longer period. But be that as it may, every year that we daily now will add fives and tens in the future, until, if neglected there will be no remedy as in St. Helena.

A correspondent writing of Hilo district points out that it is by no means the rainy place which used to be its chief attribute. The rainfall is noticeably less and many of the streams now run dry a thing absolutely unknown before. Unless very great care is taken of the Hilo forests, the plantations are liable to be in straits for water some of these days.

There is a serious and expensive task before the citizens of this Territory. It will be a long uphill fight but the forests must be put in order, at all hazards and at all costs.

The "Ragtime" politician is having a hard time of it. No nominations last night. All day the illustrious Bob has been repeating "To be or not to be."

There are now twelve Presidential tickets in the field—Socialist Labor, Social Democracy, United Christian, People's party, Middle-of-the-Road, De Leon Socialist, Prohibition, Silver Republican, National Party, Union Reform, Republican, Democratic.

The Pennsylvania coal strike continues and though a ten per cent advance of wages has been offered, it has not been accepted. Of course the strike is kept up by those interested in its continuance and who reap a harvest out of the ignorant miners.

Homesteading has not had much of a chance on the Island of Kauai, but there seems to be a chance of opening up some government land upon that island. The water question comes up again in this direction. Some 4000 acres do not appear to be available because the only water supply belongs to the McBryde plantation.

The elections in the United Kingdom can be judged of better by the news received yesterday. The majority for the Government will be a very strong if not an over whelming one. The tide is running strongly conservative and the old liberal party is not in sight. Chamberlain's policy is thus strongly endorsed.

The coinage at the San Francisco Mint for the month of September was as follows: Double eagles, \$480,000; standard dollars, \$1,000,000; half dollars, \$90,000; quarter dollars, \$10,000. Making a total of \$1,580,000, against \$1,505,000 for September, 1899. For the first three months of the fiscal year the coinage amounts to \$13,819,827, against \$14,777,636 for the same period last year.

Galveston is in very serious straits. The immediate pressure of want has been removed, but there are many homeless people who must be provided for, and there are countless homes which will have to be repaired to make them habitable. The city treasury is empty and needed repairs to public works injured or destroyed during the catastrophe cannot be carried out. Those who can get away are now leaving Galveston, and this flourishing city will decrease in size and perhaps not recover for many years to come. However aid may be given by the State, and Congress will probably do something,

Strength

Many people "GO TO PIECES" as soon as hot weather comes. Appetite becomes fickle, sleep is not refreshing, energy disappears and strength all gone.

Malt-Nutrine

For such a condition as this, IS THE BEST medicine to take. It gets at the seat of the matter by correcting conditions in the body which bring about this lassitude. Doctors prescribe it a great deal. There are several kinds—all good—try this.

CLEARING THE FORESTS

The work of clearing forests goes merrily on. An advertisement appears today calling for bids for felling and chopping about 25,000 cords of firewood. The land from which this forest is to be cut was government land four years ago. It lies just beyond Niuli toward Hilo, and about four miles back from the coast at an altitude of from 1,500 to 3,000 feet above sea level. The government built a road to open up the region, and partially built a landing at Honoiki. The land was sold on special agreements and coffee culture was started. It was found that coffee would grow all right, but the cost of getting it prepared and taken to market, left no profit in it to the grower, so it is said. Now it is proposed to clear the land. Just what will be done with the land after it is cleared, has not been determined. It is said the land grows corn and other farm products well. But the principal idea in mind now seems to be to get as much profit out of the land as possible now by clearing the forests and cutting the trees up into cord wood. The agreements under which the land was sold by the government is said to fully permit the owners to do this. There is about a thousand acres in the tract to be cleared.

INDEPENDENT CONVENTION

(Continued from page one.)

sons named had signed the pledge or been asked to sign it. But having brushed aside these matters, the convention took up the matter of selecting six out of the fifteen named for senators. Some wanted the fifteen names printed on ballots and a choice by ballot. Others wanted to take each name up in order and discuss it and decide on it. One delegate proposed that D. Kalaokalani be one of the six any way. This was adopted unanimously. Then someone proposed to treat Kaula in the same way. This brought up the printing and balloting question again. Kaula who was acting chairman at this time said the convention could do as it chose, but it must provide means to pay the expense of printing. After much argument it was finally decided to print the names and ballot for choice, and a recess until 2:30 o'clock was taken for this purpose and R. N. Boyd was appointed a printing committee.

THIN HAIR Lots of people have thin hair. Perhaps their parents had thin hair; perhaps their children have thin hair. But this does not make it necessary for them to have thin hair. One thing you may rely upon— Ayer's Hair Vigor makes the hair healthy and vigorous; makes it grow thick and long. It cures dandruff also. It always restores color to gray hair,—all the dark, rich color of early life. There is no longer need of your looking old before your time.

WILCOX RULES THE ROOST

IRON HAND LAID ON LEADERS WITH VOTES.

Franklin Austin Ejected From Independent Headquarters by Garibaldi—Cause of the Disaffection.

Robert Wilcox, candidate on the Independent ticket for Washington, "fired" Franklin Austin out of Independent headquarters yesterday and now the latter will cease active work for the party. Austin was in the room when Garibaldi entered. At sight of the newspaper man Wilcox flared up and ripped out a couple of undignified oaths. Austin says he caught his arm. Be this as it may Wilcox ordered his late right lower out of the quarters and did it in such a way that Austin lost no time in moving in a foreign direction. The trouble between Austin and Wilcox had been brewing for some time. It appears that the former openly opposed the revolutionist as a Congressional candidate. One night last week Austin unfolded to the leader a plan of withdrawal. In so doing he was to receive a nomination for the Senate and the party was to put up all the money required for an aggressive campaign. Austin understood that the proposal was acceptable to Wilcox. The next morning called on the leader at headquarters with a letter of withdrawal which he wished to have signed. While reading this Garibaldi struck something that displeased him and turned on Austin. The latter did not wait to hear what he broke for the door. The following is the letter the newspaper man wanted signed: Honolulu, October 6, Mr. Franklin Austin, Dear Sir: No one has yet doubted my disinterested devotion to the cause of the Hawaiian people and the Independent Home Rule Party. But I have, nevertheless, not been blind to the fact you make apparent, namely, that the influence of all newspapers and interests of capital many of which are favorable to our cause, are, nevertheless, directed against my candidacy as Territorial Delegate to Washington, to the detriment of the general ticket of the Independent party. I am surprised and chagrined at this state of affairs, but must accept it as a political condition. Therefore, in the interest of party harmony, although I feel as reasonably as I can give you until the day before the meeting of the convention of the Independent party to arrange matters, when, if satisfactory, I shall place my resignation before the central committee.

DEMOCRATS MADE GAINS. Result of Elections Held in Various Connecticut Towns. NEW HAVEN, Conn., Oct. 1.—It was "town meeting" day in Connecticut, 163 of the 168 towns in the State holding elections to choose officials for the coming year the liquor license question. Hartford, New Haven, Bridgeport, Ansonia, Derby and Naugatuck did not vote. Returns at midnight have been received from 138 towns of the 163 voting and the tables show Republican victories in 103 towns and Democratic success in 35. Full returns from all the towns in the elections of 1899 gave the Republicans 125 and the Democrats 37. Comparing the full returns of last year with those received thus far from today's election the Republicans have lost 23 towns and the Democrats 2. Of the 24 towns missing tonight sixteen went Republican last year and 8 Democratic. If the missing towns remain in their respective columns of last year it would be a total of 119 towns Republican and 42 Democratic, a net Republican loss of six Democratic towns.

STORM DEVASTATES NOME. PORT TOWNSEND, (Wash.), September 24.—The storm at Nome on September 1st, which lasted until September 7th, pales into insignificance compared with the storm of September 11. The storm commenced on the evening of September 11th, and gradually increased in violence until the next day. The surf was not extremely heavy until about 3 o'clock, when it began to break over the debris and stranded barges that lined the water front and dash violently against the buildings along the beach. Hundreds of tents along the beach were torn down by the fury of the gale, which also swept over the sand spit on either side of Snake river.

AN INDECENT EXAMINATION

DR. KINYOUN'S OBJECTIONABLE METHODS.

Coptics' Passengers have an unpleasant Experience at Hands of Frisco Quarantine Officials—A Protest.

SAN FRANCISCO, October 2.—Dr. Kinyoun, Federal Quarantine Officer, came in for a deal of indignant criticism at the hands of the passengers who landed from the steamer Coptic yesterday. For some time past, passengers on incoming steamers have accused the quarantine authorities of needless brutality and outrageous indelicacy in the performance of their duties, and it has been openly charged by many that Kinyoun's methods were having the effect, designedly or unintentionally as the case may be, of driving business away from the port of San Francisco.

The experience of the Coptic's passengers was not dissimilar from that of other passengers from foreign ports who have landed from incoming steamers during the past several weeks, and a number of them protested vigorously yesterday against what they declared to be a high-handed proceeding unprecedented and unheard of before in a civilized country.

C. N. Oliver, president of the Peking University, was outspoken in his denunciation of the quarantine regulations as enforced by Kinyoun, and declared that never again would he permit himself to be subjected to the humiliating treatment to which he was forced to submit before leaving the China steamer yesterday.

"Although there was no sickness on board the vessel requiring the detention of the cabin passengers," he said, when seen at the Mail dock during the afternoon, "the quarantine authorities required a lot of the cabin passengers to go into the smoking-room of the steamer while they lay off the quarantine station, strip themselves of all their clothing in public, and submit themselves to a humiliating and indecent examination. I never heard of such an outrageous proceeding."

"Another cause of complaint among the passengers is that they were delayed aboard the ship nearly an entire day to satisfy the whim of the quarantine officer. The Coptic dropped anchor at 8 o'clock last night. The passengers should have been landed at the very latest by 10 o'clock this morning. Instead of that, however, the ship was taken to the quarantine station, although she had a clean bill of health, the passengers were detained aboard until noon, the baggage and mail was then lowered over the side to a tug by a slow process that required an hour and a half, with the passengers aboard, the tug then steamed to the Mail Dock, where another long and annoying delay was experienced in getting the baggage ashore. I am sure that there was absolutely no excuse for detaining the Coptic at the quarantine station, and that she should have proceeded to her berth at the Mail Dock within a reasonable length of time the passengers would have been saved a very annoying delay, the loss of their luncheon, a disagreeable ride across the bay on the deck of a tugboat with no protection from the biting wind that prevailed, and a number of them, including myself, would not have been prompted to take an oath that henceforth they will journey by way of Vancouver."

"I have made the trip across the Pacific by way of Vancouver and was not made to suffer the annoyance and humiliation for which I blame the quarantine authorities here. The authorities board the steamer at Victoria and make their inspection on the run up to Vancouver. When the ship reaches Vancouver the passengers are all ready to go ashore with their baggage. All reasonable quarantine precautions are to be commended and cannot be objected to by the passengers, but I assert that the unreasonable methods of the quarantine authorities here will drive a vast amount of business away from this port if allowed to continue unchecked."

COLLECTOR JACKSON DEAD.
SAN FRANCISCO, September 28.—Col. John P. Jackson, collector of the port is dead. The funeral took place this afternoon from his home on Sutter street. The services were informal in character and with the exception of a few of the officials from the Custom House, the attendance was mainly confined to the private friends of the late Collector of the Port.

OCEAN MYSTERY SOLVED.

SAN FRANCISCO, October 2.—Friday last the John G. North arrived from Honolulu and reported passing a broken mast in an upright position on September 25 in latitude 36 degrees 37 minutes north, longitude 123 degrees west. The captain's opinion was that the wreck was either the mast of a small vessel or the topmast of a square rigger, with yards and hamper below water.

On September 22 the Schooner Daisy Rowe left here for Gray's Harbor. She was caught in the heavy gale that nearly wrecked the Flinshire and was driven south. On Monday, September 24, her mainmast went by the board, and she has been ever since beating her way back to San Francisco. The Mail Company's steamer San Blas spoke her twenty-five miles southeast by south, off Point Sur and proffered assistance, but none was required. The mast seen by the crew of the John G. North was undoubtedly the one blown out of the Daisy Rowe.

SECRETARY ROOT IMPROVING.

WASHINGTON, October 1.—Secretary Root, who has been ill at Southampton, R. I. for several weeks is reported convalescing steadily and is expected to return to this city before the close of the week fully prepared to resume his official duties.

THE REASON FOR IT.

Chicago has the lowest death rate of any large city, perhaps for the reason that it never indulges in race riots, but allows nature to take its course.—Chicago Record.

STOCKHOLDERS' MEETING.

An Adjourned meeting of the stockholders of the Honolulu Stock Yards Company, Ltd., will be called on October 16, 1906 at 9:30 o'clock a. m. at the office of the company, for the purpose of electing directors for the ensuing year. All stockholders are requested to be present or represented by proxy.

What it is

Pure Soap is without grease or alkali.

Soap cleanses; alkali cuts. Soap cleanses the skin and leaves it rosy and smooth and soft like a baby's. Alkali cleanses but cuts, leaves the skin rough and red.

Let soaps which you know nothing about alone. They may look good, have fine perfume, but that isn't the test. You have got to use a soap. Why experiment?

CURATIVE SKIN SOAP

is acknowledged the very best medicinal soap. We know it; we want you to try it. If you don't find it a pure wholesome soap, your money back. We ask you to take no risk.

PACIFIC HEIGHTS

Magnificent View, Refreshing Breezes, Easy of Access, An Unsurpassed Residence Site

These lots are on the Pauoa side of Pacific Heights. They face on Pauoa Road, now being widened and macadamized, and adjoin the Pacific Heights Electric Railway.

A Chance for Investors:

Any one with money to invest looking for something that will bring good returns on sums invested, has here a fine opportunity. Houses built on these lots will find ready rental at strong rates by good tenants.

Attractions Offered in this Site to Homeseekers:

LOCATION. They are located on high ground at an elevation of from 200 to 500 feet, affording unsurpassed scenic and marine views.

ELECTRIC RAILWAY AND LIGHTING. The Electric Railway makes access most easy, and power for lights may be had at most reasonable rates.

WATER. Water will be supplied at the rate of \$15 per year for each lot, from out Pacific Heights Water System. This is less than city rates.

SPECIAL INDUCEMENTS TO BUILDERS. To all who will begin the erection of houses within 60 days, we will make special inducements in the matter of transportation of building material over our railway.

LOW PRICES, GOOD TERMS. Prices of lots range from \$400 to \$750 each, according to size and location. One-fourth cash only is asked. Balance in installments at terms to suit purchasers.

HEALTHFUL AND COOL. The air is always cool and bracing. We can recommend this property as being especially desirable and attractive to persons seeking a choice location for a home at a moderate cost.
