### A COMPANY PARTY

H. OF THE NATIONAL GUARD,  
HANDSOMELY ENTERTAINED.

Guests at the Home of a Lieutenant—  
Dancing and a Dinner—Flags and  
Palms—A Pleasant Time.

Mrs. E. H. F. Wolter gave a reception to Company H and about fifty outside friends at the residence in Kuku street Wednesday evening. The arrangements for the affair were made and carried out by Mrs. Wolter, Miss Wolters and Miss Bertha Heinitsch. For the occasion the house was handsomely decorated with Hawaiian, American and German flags and palms. American colors were over the entrance and a large German flag was gracefully draped over the door between the two main parlors. At 8:30 Company H, Lieut. Matthews in charge, arrived in a body. Capt. Murray and Lieut. Wolter came a few minutes later. The company D orchestra was on the lanai and dancing began immediately. This feature of the program kept up until midnight.

Refreshments were served constantly during the evening. Private Fogarty and several ladies were in charge of this part of the proceedings. At 11 o'clock the guests were invited into the banquet hall. A long table extending the entire length of the hall, was loaded down with the finest the market affords, prepared in the most attractive and seasonable styles. Most of the dishes were prepared by the experienced and careful hand of Mrs. Wolters herself, and were all the more toothsome therefor.

Capt. Murray was general master of ceremonies. The feast lasted over an hour. Numerous toasts were offered, among them being "the Commander-in-Chief," "Colonel McLean," "Company H," "Mrs. Wolter," "The Press," etc. All voted the affair one of the most pleasant military receptions ever enjoyed by the volunteers.

#### Steamers Come and Go

And it is a rare occurrence when they do not bring new shipments for L. B. Kerr. Scarcely a month passes but what some new line is added to his already large and varied stock. The latest addition is a corset department, and it goes without saying that the values to be found there eclipse all previous attempts. Ladies should take a look at the celebrated French Wove Corsets now being introduced.

#### ACCEPTANCE.

#### Business Men Appreciate Them.

A business man is quick to appreciate any labor-saving device. The business men who are the most successful, use a typewriter. They find that they can accomplish more and better work. No progressive business man, once acquainted with the usefulness of a typewriter, could be induced to change. The Peerless typewriter is a modern, up-to-date machine. Strong, simple, durable. ## HERE'S A CASE OF MYSTERY IN THE CIRCUIT COURT FOR GRIDIRON PLAY PUNCHBOWL LOVE AFFAIR

### THOS. B. SPRING LEAVES UNDER PECULIAR CIRCUMSTANCES.

Had Property—Deserted It Completely—Paid All His Bills—No Power of Attorney—By the Warrimoo.

Thos. B. Spring and family have set their friends guessing. Mr. Spring came here two years ago and went into business as a contractor. He did well and gained the confidence of such houses as Lewers & Cooke, J. A. Hopper and others. Spring built T. B. Murray's house at Punahou and erected on lots of his own there two fine cottages.

Mr. Spring and family left by the Warrimoo on the 16th inst., without saying one word of farewell to a soul in Honolulu. So far as can be learned he had not the least idea of departure till that steamer arrived from Vancouver. He has never been in Australia and has no friends or acquaintances in the colonies.

The man had paid for his lots in full, had settled with Lewers & Cooke, Hopper and others with whom he did business. It is surmised that he must have received some advices from Vancouver by the Warrimoo that caused him to suddenly make up his mind to try Australia. Or perhaps he is a freaky individual who is taking a vacation with his family as the result of the impulse of a moment.

Spring, having property here valued at several thousand, failed to leave a power of attorney with anyone. Both his cottages at Punahou, were mortgaged. One lot of money was from the funds of the trustees of Oahu college and the other from Mrs. A. F. Cooke. The trustees have taken possession. Mrs. Cooke must wait until six months default of interest has elapsed. Oahu college managers were enabled to lay hands on at once through a small infraction of the agreement by Spring. He had signed to insure for \$2,500, but made the policy for \$500 less.

Everyone who knew Spring is very much astonished at his "freak." As his business here had been good he must have had considerable cash. He formerly received remittances regularly from Vancouver, where he had considerable property. There are those who believe he will return on the next boat and others who think he will keep as far away from both Vancouver and Honolulu as possible.

#### POISON FISH.

Deputy Sheriff Cox of Wai'anae and a party of thirteen young native women and men went over to Mokuieia Wednesday afternoon on a fishing excursion. While there they went to a native house for dinner and ate poi and fish. In a short time twelve of the party, including Mr. Cox, were taken sick. A physician was summoned and pronounced the trouble fish-poisoning. All of those effected are well today.

#### A HEAVY PROGRAM.

Vaudeville Feast at the First Regiment Benefit.

One of the very biggest and best shows ever given in Honolulu will be offered to the public at the military opera house on Saturday evening. It will be the Elsie Adair company's testimonial benefit to the First Regiment. Maj. Jones is arranging the program, with the assistance of Mr. Vanderlip and is the chief hustler at disposing of tickets. Every dollar taken in for the show will go to completion of payment on the stage and fittings and to the regimental fund. The entertainment will open with the very best sketch in the list used by Miss Adair and Mr. Vanderlip. At the end they will present a new dance. Mr. Emmett will give his violin imitations and Miss Adair will show a new gown in the serpentine dance. This mention will afford an idea of the local talent that will be utilized.

Club swinging with colored light effects by Finney.

### CASE AGAINST MORROW IS NOW UNDER TRIAL.

Motion for Dismissal Denied—Charged With Shooting Curtis—Attorneys—Jury Verdict in a Civil Case.

The case of W. P. Morrow, assault with a dangerous weapon, started in the Circuit Court at 10 o'clock this morning. The following jury was sworn: L. H. Dee, H. G. Wooten, C. H. Atherton, C. B. Huston, W. C. Wilder, Jr., C. B. Gray, C. M. V. Forster, G. S. Harris, Jr., E. M. Marshall, S. I. Shaw, W. H. Hopper and George Angus. Attorney General Smith, Deputy Attorney General Dole and A. S. Humphries appeared for the prosecution; Charles Creighton for defendant. Mr. Creighton moved for discharge of defendant on the ground of defective charge. Overruled. Pat Curtis was the first witness. A bench warrant was issued for John Driscoll and he is giving his testimony this afternoon.

The assumption case of H. W. Schmidt & Sons vs. The Royal Insurance Co., was finished in the Circuit Court Wednesday afternoon and resulted in a decision for the plaintiffs. The jury was out ten minutes and returned with a verdict for the plaintiffs in the sum of \$400, full amount of claim. In addition to this interest and costs will be recovered. Mr. Robertson, attorney for the defendants, has given notice of a motion for a new trial.

#### SUIT FOR \$1,000.

Damage Case Against a Doctor About to Depart.

H. Leonard has entered a somewhat novel suit against Dr. D. McLennan. The complaint reads: "The undersigned, H. Leonard, plaintiff herein, claims of D. McLennan, defendant, residing at Honolulu, Island of Oahu, the sum of one thousand dollars for damages resulting to the plaintiff for injury by said defendant to the plaintiff in that said defendant on or about the 20th day of April, 1895, while a duly licensed physician and holding himself out to the world as a physician of ordinary care and skill, being employed by said plaintiff by reason of said representation in his, the said defendant's professional capacity, treated plaintiff negligently and carelessly and with want of ordinary care, skill and diligence, whereby it resulted that the plaintiff was unable to pursue his daily work for a long space of time, to-wit: a month and a half, and was obliged to incur expenses for medical attendance, for board and lodging, and suffered great pain and anguish to the injury of the plaintiff in the sum of \$1,000, etc."

As Dr. McLennan expects to leave by the Monowai, bonds in the sum of \$1,000 was required and today filed. Bishop Willis, T. R. Walker, W. S. Luce and M. G. Silva are sureties. Dr. McLennan and friends complain bitterly of the institution of the suit on the eve of his departure.

#### TENDERS.

Tenders for teachers' cottages were opened at the office of the Minister of Interior at noon today and resulted as follows: Wainiha—Ganzel, \$875; J. A. Butterfield, \$864; N. G. Peterson, \$600; Robt. Howie, \$495. Eva—J. A. Butterfield, \$792; Albert Trask, \$496; Robert Howie, \$449. Papaikou—H. T. Heuss, \$1260; Robert Howie, \$ 795; J. E. Ray, \$600.

#### FITZGERALD.

The case of Arthur Fitzgerald has gone over to Monday on account of the engagement of Attorney Creighton with the Morrow matter in the Circuit Court.

#### MADE FAST TIME.

The steamer Kaala arrived shortly before noon today from Maalaea in the fast time of eleven hours and forty minutes. Although Freight Clerk Christian does not claim the record, still he maintains the Kaala made one of the fastest passages ever made by an inter island boat. The little steamer left Kahuku at 12:30 o'clock yesterday afternoon for Maalaea. She returned empty and will leave again tomorrow for a circuit of the island.

### MOVEMENT TO INAUGURATE A FOOT BALL SEASON.

Organizing a Town Team—President Elected—Conference Committee Appointed—A Tie Contest.

Football enthusiasts met in the gymnasium hall at the Y. M. C. A. Wednesday evening to discuss the matter of putting teams in the field for the coming season. About two dozen were present. Some hoped a team might be organized at once, but difficulties were encountered and the meeting had to be given over to primary steps.

John Waterhouse was made chairman of the meeting and president of any organization that might be formed. Those present were enthusiastic of the subject of football, but were uncertain as to the best plans of organizing. Some wished to combine with H. A. A. C. with the idea of putting in a stronger team. A majority favored the idea of combining with the Y. M. C. A. and leaving the H. A. A. C. to put in a team for itself. This would give three eights and make the season more interesting.

The following committee was appointed to confer with the H. A. A. C. and the Y. M. C. A. on the subject: Jonah Kalaniana'ole, C. F. Schermerhorn and David Koi. They will first meet the H. A. A. C. and find out whether or not that body can put in a team of its own. If so, the second proposal, to the Y. M. C. A. will be submitted.

The First Regiment team is already in the field and ready for business. They have started out on a plan of promiscuous challenging, but prefer a series of games with the town clubs. It is likely that a schedule will be adopted later. Interest is felt in what the Punahou may do. All desire to get them in. Unfortunately they can do nothing until after school opens in September. Waterhouse is a Princeton player and Schermerhorn was formerly with a noted Seattle team. Schermerhorn, Koi, Sam Johnson, Louis Singer, Foster and others were playing a mouth game at Hobron's corner this morning when Ramsey came along with his Two Flags four-in-hand and made the contest a tie.

#### CRICKET CLUB.

The Organization Will Give Another Smoker About Sept. 15.

The postponed meeting of the Honolulu Cricket club was held in the parlor of the Arlington Tuesday evening. Fair turnout. It was decided to continue the organization another year in the hope of finding some club to play against. The cause of the temporary lack of interest is the absence of any opposition and any incentive to practice.

The finances of the club were found to be in good condition. This brought the discussion up to the matter of having another smoker. It was decided to get up one for about the middle of September. The following committee of arrangements was appointed: M. Brasch, F. B. Auerbach, C. H. W. Norton and W. Thompson.

#### CHINESE JOURNALISM.

The new proprietor of the Chinese News, of which Mr. Ho Fon is city editor and business manager, has ordered \$3,000 of material from China. The shipment, which includes movable type, is now on the way from the Orient.

The trouble in which a Chinese journalist of the Times force was hit with a hatchet has been settled out of court. The dispute was over a \$60 block of stock. This was assigned to the injured man for "\$1 and other valuable consideration," and the charges against the assailant withdrawn.

#### FOR MR. BALDWIN.

The Kaala went from Kahuku Wednesday afternoon to Maui for Mr. Baldwin, who comes down to catch the Gaelic tomorrow for the Coast. The little steamer arrived back at noon today.

#### Take Warning

Any lady who neglects to buy some of the printed lawn now offering at Kerr's at the ridiculously low price of 12 and 14 yards for \$1.00 deserves never to have another bargain offered to her. These goods are exceptional, and were cheap at the original price of 15 cents.

### UNUSUAL STORY BROUGHT OUT IN POLICE COURT.

A Girl Cowhided a Messenger—Did Not Care for the Lover—Latter Arrested and Must Explain.

Gloria Madeiros is the name of a pretty, black-eyed Portuguese miss who had lots of trouble in the police court this morning, but will get even with her persecutors. She cowhided a little boy Wednesday morning and was arrested that night on complaint of the boy's father. A good job was made of it, for the boy showed a half dozen red stripes across his shoulders. Judge De la Vergne, before fining the young woman \$12 and \$3 costs, requested her story.

She said that Dominick Ferriera, a young man who is fast making a name for himself, was the cause of her trouble. Dominick was in love with her, but to save her life she could not go Dominick. The young man had been given reasons of late to suspect this and had become aggressive. She refused to hang on the front gate any more with him and would not accept any more violets. This made him all the more determined. He sent boys to her to ask if she would not meet him again. By all she sent was the answer "nay."

But so many boys came that she became offended and ordered them not to return again. Believing, however, that another would be sent she armed herself with a cowhide and waited. So Wednesday morning a little fellow, who had been paid five cents to take the usual message walked in and she collared him. He was flailed to a finish and chased out of the yard. The arrest followed.

Upon hearing this story a warrant was issued for Mr. Ferriera and he was arrested later. He will be given the opportunity tomorrow morning of telling his story.

#### HOSPITAL PATIENTS.

John Effinger has left the Queen's Hospital and is on duty again at the grocery house of Lewis & Co.

Capt. Fitzgerald, of the steamer Hawaii, Wilder line, is improving slowly but surely. This news will please his many friends. He cannot yet receive callers.

John Reilly, the steam roller driver, is convalescing. He has been quite ill.

Mr. A. B. Wood will leave by the Gaelic tomorrow for his old home at Sycamore, Ill., and will be away two months. He will travel alone. Mr. Wood's father died last spring and he is called home on estate matters.

#### Made Her Feel Well

The physician was surprised to find the head of the household at the door with a shotgun.

"Why, what's the matter?" stammered the doctor.

"That there Seattle beer you give my wife, she says is makin' her feel like a new woman, and I want you to understand that no new woman business goes in this house. First thing I know she'll be out makin' speeches."

TURN ON THE X RAYS.

This is an age of light. In utter defiance of the mossy old theories we now photograph the coins inside of a pocketbook and the bones in living bodies. Similarly the light of intelligence shines upon certain antiquated notions in medicine. The intellectual X rays have shown the fallacy of the idea that sick people had no alternative but to choke down mixtures of Cod Liver Oil or die. The wonderful success of Wampole's Preparation disproves all that. Here is a medicine made from Fresh Livers containing to the full all the virtues of Cod Liver Oil—the very essence and potency of it—without a sign to indicate its presence. The most sensitive palates fail to detect the nauseous, yet valuable old drug; yet it is here to nourish, strengthen, build up and cure. In Throat and Lung troubles, Asthma, Bronchitis, Pneumonia and Blood diseases, it acts as sunlight and air do on dying vegetation. Combined in the preparation are the Extracts of Wild Cherry and Malt and other constituents which contribute to the noble result. That both physicians and sufferers should therefore hail this article as worthy of modern science is no more than was to be expected. It got the praise because it does the work. Genuine has trade mark. Sold by all druggists.

Thought She Was Cleaning House. "It is generally supposed that men are much more untidy than women," said a bookkeeper yesterday. "But I can say, as far as my experience in the business goes, that a woman is utterly devoid of the sense of order. Do you see that jumbled pile of books? Well, they were all stacked up in piles, alphabetically arranged, a few minutes ago. There are some 1,500 books that we are selling for 5 cents each, and we place them in piles for the convenience of buyers. A short time ago a man came in and spent five or ten minutes looking over the books, during which time he selected five, for which he paid me. You would not have known that the books had been disturbed, for they were left standing just as they were when the man came in. When he left, that lady you see going out of the door came in. She spent five or ten minutes knocking the piles over and making chaos out of the order in which we try to keep the books. After she had completed her work of thoroughly mixing the books she turned to me and said: "I can't find what I want. I'll come tomorrow when I've got my glasses with me." Woman-like, she had been looking for something she couldn't see. Common occurrence? I should say so. This is no novelty. It is novel, however, when a woman leaves this bargain counter in any sort of order. Excuse me while I arrange these books again."—Pittsburg Dispatch.

One night when Mr. Isaac Reese was stopping with me, says M. F. Hatch, a prominent merchant of Quartermaster, Washington, I heard him groaning. On going to his room I found him suffering from cramp colic. He was in such agony that I feared he would die. I hastily gave him a dose of Chamberlain's Colic, Cholera and Diarrhoea Remedy. He was soon relieved and the first words he uttered were, "what was that stuff you gave me?" I informed him. A few days ago we were talking about his attack and he said he was never without that remedy now. I have used it in my family for several years. I know its worth and do not hesitate to recommend it to my friends and customers. For sale by all druggists and dealers. Benson, Smith & Co., agents for H. I.

**JUST A SHORT SESSION**

BRIEF MEETING OF THE BUREAU OF EDUCATION.

A Number of Matters Considered—  
School Houses at Various Places—  
Water Rights—To Meet Again.

A short let-up being reached in the examinations at the High School, Professor Alexander, Mr. Townsend and Mr. Scott got away long enough Wednesday afternoon to attend a meeting of the commission of Education. As it was not expected that a meeting could be held, there was no important business ready to be acted upon and a second meeting was called for 2:30 Friday afternoon. Among the minor matters disposed of were:

Voted a letter of condolence to the family of member W. A. Bowen in their bereavement.

Mr. Abbott of Lahainaluna addressed the Board on the subject of water right privilege at his place which the plantation wishes to lease for an annual rental of \$800. He did not like to see the matter dropped as the offer was perhaps a fair one.

A petition from residents of Kohala asking that a joint select school be authorized in that district was read. The residents propose to pay a part of the salary of the teacher. This could not under the law be allowed in the case of a public school.

An objection by Mr. J. L. Dumas to using the upper floor of the High School by his class was read. The main reason was that it was too difficult for the children to reach. Deferred.

A letter from the manager of Pepeekeo plantation offering to assist in making repairs to the school house at that place was read. The sum of \$400 was appropriated as the department's pro rata of the expense.

Adjourned.

**OUR BICYCLIST SOLDIER BOYS.**

General Miles Encourages Them and Indorses Their Novel Martial Enterprise.

At the first annual convention of the United States Military wheelmen, an organization established recently for the purpose of uniting wheelmen having a knowledge of military drill into bodies of such size as to test the practicability of moving large bodies of troops mounted on bicycles, General Nelson A. Miles spoke as follows:

"This is certainly a most commendable enterprise, and I think you have started in the right course. Military forces are conservative and are slow to adopt any new appliances.

"The question is, How far can the bicycle be used for war purposes? We have already seen enough to know that it will be useful in war. I have heard some say that large bodies of men cannot be maneuvered on bicycles. The men that made that statement could not maneuver large bodies of men, be they on foot or on horse. There are many places where the bicycle can be used where the horse cannot, and, on the other hand, the horse can be used where the bicycle cannot. You may not be able to swim rivers on bicycles, but then a bicycle cannot drown, or, at least, you can easily fish it up again.

"I think your association is a commendable one, and I do not think it will lessen your interest in the national guard. As far as I know of it, I heartily indorse the enterprise in which you are engaged."

**THINK IT OVER.**

Have you ever heard of a medicine with such a record of cures as Hood's Sarsaparilla? Don't you know that Hood's Sarsaparilla, the One True Blood Purifier, has proved, over and over again, that it has power to cure, even after all other remedies fail? If you have impure blood you may take Hood's Sarsaparilla with the utmost confidence that it will do you good.

Baltimore's Canton Flannel Club.  
The Canton Flannel club of Baltimore has just closed its first season with the fine record of making 94 pieces of canton flannel underwear and the collection and distribution of 170 pieces more. It has a working membership of only 10 young women, and its meetings were weekly. One case of necessity which it relieved was that of a 3-year-old baby found wrapped in newspaper as its only clothing, and the body of another little baby was found to be sore and raw from the coarse, rough dried cloth in which it was wrapped. Much of its work was done for needy children, and one can guess the beneficence which the soft, fleecy fabric of the club has brought to these tender little bodies. This club might be copied in many parts and places another year.—Baltimore Correspondent

"It is the best patent medicine in the world" is what Mr. E. M. Hartman, of Marquam, Oregon, says of Chamberlain's Colic, Cholera and Diarrhoea Remedy. "What leads me to make this assertion is from the fact that dysentery in its worst form was prevalent around here last summer and it never took over two or three doses of that remedy to effect a complete cure." **WATCHES.**

Some Facts Concerning the Styles—The Great Number of Watches Used.

In this country almost everybody carries a watch. Probably nine-tenths of the men and great numbers of women and many young people carry watches. In the best trade of the city many more watches of gold are sold than of silver; of all the watches sold throughout the country about 25 per cent are of gold. The percentage of gold watches is increasing.

The fashionable watch of the day is open faced. The sale of open faced watches is increasing, especially in fine watches, but it is increasing also in watches of other grades. Of fine gold watches sold in the city probably two-thirds are now made open faced. Of all the watches sold in the United States, gold and silver, probably from a quarter to a third are now made open faced.

The modern watch has for one of its characteristics thinness. A man's watch, which is now made more especially to wear with evening dress and is all the time growing in favor, is a plain, thin, open faced gold watch, which takes up but little room in the pocket. Perfect in its simplicity, this watch is at the same time of fine workmanship and great beauty. It sells at \$100. A gold watch not so thin nor so finely finished, but a very handsome modern watch and an excellent timekeeper, by the same makers and bearing their name, can be bought in open face, the case of 18 carat gold, for \$65; in double case for \$70.

But gold watches and good watches, too, can be bought for very much less than these prices—in fact, there never was a time when watches generally were made in such tasteful shapes, or when they were so good for the money or so cheap as now.

Taking all the grades together, the American production of watches is about 4,000 daily. The importation of watches amounts to about the same number. One might at first wonder what becomes of all these watches. A great number are taken up annually by the new buyers coming into the market for the first time out of the constant and large increase in the population. Great as the percentage of watch owners now is in this country, that also is increasing. Many immigrants buy watches as soon as they get the money. Some men own more than one watch. Watches wear out or their owners lay them aside for a better watch or for one of newer style. Watches are lost and destroyed, and when one comes to take all these things into consideration it will be seen that the great production of watches may be in large measure easily accounted for.—New York Sun.

Herrick's Love of Music.

It has been remarked by Mr. Gosse that Herrick "is alive as no poet before or since to the picturesqueness of dress," and the statement, though sweeping, is correct. He takes note of each fold in Julia's gown, he writes lines upon the ribbon round her waist, he describes the rustling of her walk and is in fine as quick to perceive the beauty that lies in dress as to comprehend the splendor of a full blown rose.

Music, too, did not go without appreciation from him. It would have been difficult to imagine Herrick dull to the influence of music, although some of our poets have been credited with inability to distinguish one tune from another. But on the other hand there are many musical poets, Milton, Gray, Browning and a host of others. Speaking of Milton reminds us that Herrick addresses one of his poems to Harry Lawes, who was the subject of one of Milton's sonnets. Lawes wrote the music to "Comus" and received from the poet the praise that he

First taught our English music how to span  
Words with just note and accent, not to scan  
With Midas' ears, committing short and long.

Both Herrick and Milton seem to have been on familiar terms with the musician, as both address him in their verse as Harry. Some of Herrick's songs were set to music by him, and on his death Herrick wrote:

Some have thee called Amphion; some of us  
Named thee Terperador or sweet Orpheus:  
Some this, some that, but all in this agree—  
Music had both her birth and death in thee.

The difference between Milton's praise and Herrick's is very marked. The greater poet's more considered eulogy was well deserved and discriminately bestowed. Herrick's is spoiled by its extravagance.—Gentleman's Magazine.

Drumtochy.

The locale of the district which Ian Maclaren has immortalized is pretty well known, but Mr. Watson himself was until recently ignorant of the existence of a real Drumtochy. "I thought that I had invented the word," he wrote lately, "but for some time I have known that I am not an inventor, but only a poacher." Drumtochy, situated in Kincairdineshire, is a deep, richly wooded valley, about two miles in length. Away to the north opens the valley of Glenbervie, the fatherland of Robert Burns, and a few miles to the south is Passie, where much of Gladstone's early life was passed and to the early associations with which the veteran statesman likes to revert.—New York Times.

A Safe Mule.

"Eustas, you infernal nigger, you told me that mule was perfectly safe, and when I went into the stable he nearly kicked the top of my head off."

"Yes, sah. I s'posed the mule wuz safe, sah. But of yo' kin recollect, I didn't say nuffin about wedder you was safe in his vicinity. Dat mule is able enough to be safe anywhar."—Indianapolis Journal.

Passion's Temple.

Gambling houses are temples where the most sordid and turbulent passions contend. There no spectator can be indifferent. A card or a small square of ivory interests more than the loss of an empire or the ruin of an offending group of infants and their nearest relatives.—Zimmermann.

**"STYLE" IN FURNITURE**  
It is equally as poor taste to buy "out-of-date" Furniture as an "out-of-date" Bonnet or Wrap. We have the advantage of all others in having the only absolutely new and "up-to-date" stock of Furniture exhibited in Honolulu—and yet we ask less than you pay for the old elsewhere.

**Bedroom Suits.**  
In Oak or Birch, are selected by people whose tastes run to the refined or elegant. For room decoration as well as for service, there is a certain elegance and richness about these woods not found in any other, and yet the prices are not what you would imagine them to be. Birch sets, with dressing cases having cheval plate mirrors, are preferred by ladies because the long glass allows them a view of the full figure. The old fashioned large, square glass is quite as fashionable and as much in demand because the bureaus to which they are attached give larger space for clothing.  
We have them in all styles and in modern designs. Price, from \$25 to \$40.

**Chiffoniers.**  
In these days when the ladies require many changes of clothing, there is a demand for space in which to put things away. The bureau drawers are crowded. A Chiffonier is necessary in every house where store room is scarce. These are made nowadays for gentlemen as well as ladies; some have a drop lid which unfolds to the gaze a regular receptacle for pens, ink, paper and other articles of stationery.

**Side Boards.**  
Nothing sets off a dining room to more advantage, or adds to its convenience more than a Side Board. No dining room is complete without one. We have them to suit all tastes and purses.

Nothing sets off a dining room to more advantage, or adds to its convenience more than a Side Board. No dining room is complete without one. We have them to suit all tastes and purses.

**China Closets.**  
There is scarcely a family in Honolulu, or anywhere else on the Islands, who has not a few choice bits of china stowed away in out of the way places. Give them light—let your friends see them.  
China Closets in oak are the proper thing, and a dining room is not complete without one;—the price has been an obstacle in the past, but over-production by a leading furniture maker in the States has helped us to offer them to you at ridiculously low prices. See those with the oval glass. Prices range from \$30 to \$45.

**Secretary Book Cases.**

It will probably be a great many years before the question of what shall be done with ex-presidents becomes appropos in Hawaii. It has bobbed up again in the United States, but too late to be a campaign issue. One suggestion over there is that the retired presidents be made members at large of the senate for life. As this would simply make them American lords, the proposition will in all likelihood be tabled. Most of the White House occupants after leaving Washington seem to be pretty well able to take care of themselves.

CABLE.

There can be little more heard of Pacific cable until about the time the result of the Presidential campaign is received. The next conference will be held in October. It is pretty well settled that a line will be constructed from Australia to British Columbia. Sir Mackenzie Bowell, who is not unknown here has said on the subject: "The feasibility, practicability and desirability of such a system has already been well established and about the only thing the conference will determine is the mode of management. What we want to find out is whether it should be subsidized by the Government of owned by the Government."

Hawaii should be represented at this conference. If this country is to have a cable the most direct and constant effort will have to be made. Theo. H. Davies, Esq., would most likely serve as delegate for the islands if requested.

A SINGLE TAXIST.

(Jas. H. Barry.)

The solution of the poverty problem does not consist in elaborate schemes requiring intricate legislation. The real need is not for the state to give or guarantee people employment, but to remove the artificial obstacles which prevent people from employing themselves by the application of labor to natural resources from which they are now locked out. These obstacles can be removed by the single tax. When they are even partially removed as by the Pingree plan, still more by the Murray River co-operative settlements, South Australia, on land owned and obtained by the Government, it is a matter of positive fact that no difficulty would be experienced in self-support, with full and free access to the land. And these experiments are hampered to an extent that would not exist under the single tax. They prove that what is needed to remove poverty is not coddling regulation, but freedom and equal rights to all, economic as well as political, the abolition of privilege and the enthronement of service as alone entitled to the product of industry.

TWO GREAT DINERS.

Li Hung Chang, when he is entertained at the mahogany, invariably dines without eating. He always takes his own style of meal before starting for the banquet table. After the dinner given to him by Prince Bismarck at Friedrichsruhe, the German statesman expressed astonishment, it is said, at the fact that Li Hung Chang did not taste any of the dishes placed before him, whereupon the traveler is reported to have said: "It is not at my age that one changes his habits. If I dined with you I should be forced to partake of a fare which I did not like. Hence I prefer to abstain from eating rather than be asked to make a face at everything not to my taste." Prince Bismarck is reported to have thereupon remarked: "How do you know that you would not like our good German cuisine since you have never tried it?"

"That is true," the Chinaman is credited with having replied, "but would you eat with pleasure the Chinese dish of rats and dogs if I served it up at my table?" This question seems to have silenced the great German statesman.

KAULANI.

When The Star republished Jas. B.

Castle's San Francisco Chronicle interview it gave that gentleman credit for his steadfast sincerity and for a remarkably clear, fair and discriminating statement of the local political situation. The Star also remarked that Mr. Castle had the distinction of being the first Government official to get into print with a suggestion of the possibility of a return to monarchical rule in this country, with Princess Kaiulani on the throne. Since that interview was given in The Star and Advertiser here there has been a very lively and active Kaulani rumor afloat. Followed up from half a dozen or more points it leads to the disclosure that the basis is Mr. Castle's remark. Those who hope for such a consummation or settlement as he hinted at are buoyed up in their dreams of a desired change by the fact that Mr. Castle besides being the collector general of customs of Hawaii, is supposed to be personally one of the confidants and advisers of the Government. His prominence as a public man and an Annexationist has given many the belief that he was expressing the opinion or conclusion of an influential body of the citizenship of the Republic. His remark is considered in many quarters as a semi-official utterance—a statement colored with authority. The Star did not accept it as such at all and is positive that such construction is incorrect. Mr. Castle is a man of strong individuality and determined thought. It should be well known locally that he has time and again in his newspaper and of his own motion as a citizen espoused courses and policies entirely at variance with governmental lines. Usually the Advertiser has supported the Cabinet willy-nilly, but there has been an occasion or two witnessing the spectacle of the collector general's newspaper out against a plan of the Executive Council, which of course includes the head of the department with which Mr. Castle is associated prominently. The Advertiser has disclaimed any friendliness for the Kaulani proposition. Mr. Castle is in San Francisco and it is not known that he has added anything to his indiscreet intimation. The Star believes that the gentleman thought he was saying something that would make an impression in favor of the prospects of this Government, but it is apparent to all that he effected injury to the cause of the Republic instead of advancing its claims. These remarks may not be very comforting to the Kaulani adherents in Honolulu. Some of them are so confident that no explanation or happening could dampen their ardor. They are to be commended for their political faithfulness, even if their judgment is to be questioned. It will be under their auspices and through their efforts if there is ever a return to monarchy of any sort in Hawaii. The idea that the present Government leaders would retire or compromise on lines other than laid out on the beginning of 1893 is scarcely to be soberly entertained.

SUPPOSED TO BE FUNNY.

(Mavericked.)

Wheeler—Saw a thrilling thing today. Runaway horse went tearing along the sidewalk out in the edge of town, and nearly ran over a half dozen children before he stopped.

Walker—I guess the fool beast thought he was a bicycle.

PREJUDICE.

"Navigator" Adds a Couple to Star Incidents Cited.

Star Newspaper:—Two more cases or instances of prejudice I should like to add to your article "Fairness to the Winds." Now there are no doubt many Democrats who are impelled by honest motive to vote for Maj. McKinley. These are for the most men still loyal to Mr. Cleveland. These are told that Mr. Cleveland has said that Maj. McKinley would enter the White House a mortgaged man. The President probably never said that and if he did it doesn't make it correct. No. 2. Mr. Sewall's ships are said to be "floating hells." This was not discovered until he was nominated for the vice-presidency. It is a base, contemptible. The Dirigo, lately in this port, was one of Mr. Sewall's ships and like the rest of his bottoms has as good a reputation as any afloat and better than hundreds of others. Instead of being assailed in this low manner, Mr. Sewall should be praised for endeavoring to build up American commerce.

A VALUABLE TESTIMONIAL

What is Said About The New Process "Blue Flame" Oil Stove.

Mr. Harry T. Mills of South Kona, Hawaii, More Than Pleased With It's Cooking Qualities.

[Extract From Letter.]

Napooonoo School, South Kona, Hawaii, 29th August, 1896. Hawaiian Hardware Co., Ltd., Gentlemen: The New Process Stove "No. 106," 1896, came duly to hand and works splendidly, seems to attend to its business without smoke, small or dirt. This morning we roasted coffee in the oven and it did the job to perfection. Bakes bread very nicely.

Yours truly HARRY T. MILLS.

Such a recommendation as this will go farther and sell for us more "Blue Flame" stoves than anything else we could do in the way of convincing the public that what we have said in regard to the stoves was cold facts, not fiction. If we did not believe in the merits of these stoves we could not advertise them as we have done.

The "No. 106" spoken of in the above letter is the largest size we handle. All four burners can be used for cooking at the same time and the oven can be pushed back out of the way provided an open flame is needed. The principal inducement to the purchasers of this stove is the economy of fuel. Common coal oil (kerosene) that is constantly being kept for lamps is used, thus making a saving that is quite an item with housekeepers. The price of this stove is \$25. We have a three burner which is identical to the "106" which we can sell for \$22 50.

Let us show you this stove in operation at our salesrooms.

W.W. DIMOND'S

Do you remember when you ate white bait in New York or London what slices of brown bread cut very thin were served with the fish? It was buttered too. When you were eating the delicious bit you wondered how the chef managed to cut the bread so thin, without going through to the other side. It was a secret then; not now. He used a "Christy," an improvement on the "Claus" bread knife in many ways. Finely finished wooden handle, saw edge as keen as a razor and a good thing all round. We sell them for a half.

Pride of the Kitchen is justly named, because the cook who takes pride in keeping his kitchen clean uses it. Better than Sapolio, because it will not scratch—it cleans without defacing.

Escalloped oysters or fish is as dainty a dish as a king would care to sit down to, if properly prepared and served. The correct way to put either fish or oysters, cooked in this way, is in shells. We have the genuine article grown expressly and which we sell at a dollar a dozen.

Walker's self pulling cork screw, draws the cork and cuts the wire at the same time without an effort. We get rid of them at 35 cents each. That's the way we get rid of the best lawn mower on the islands—sell them at \$7.50.

People are fast learning where to buy groceries cheapest; its their bread and butter in many cases to practice economy in table requisites and no where can better results be obtained than with us—our goods are fresh and in some instances cheaper than they can be obtained in San Francisco.

We buy in quantities and for cash, getting all the discounts. Our business is conducted on a plan which gives us a certain percentage of profits no matter what the cost is. If we buy cheap yours is the gain.

Our plan suits the people and our trade is growing, adding new customers to the list every day and to meet the demand we have added fancy groceries to the list. Here's a few of them:

Boned Chicken for luncheon; Boned Turkey; Curried Fowl, a delicious morsel for any time of day; Brawn and Pigs Feet; Oxford Sausages; Vienna Sausages; Ox Tongues; Lunch Tongues; Devilled Ham, Ox Tongue; Oysters; Clams; Salmon or Lobster. With a dressing of Durkee's or Royal Yacht Club Sauce these articles are excellent. Then we have other sauces; John Bull; Reading; Lea & Perrins Worcester; Mushroom Catsup; Beef Steak Sauce; Harvey Sauce; Tomato Catsup; Tamarind Zest or West India Sauce, this is superior to Worcester and cheaper; Mango Chutney; Madras Chutney; Cashmere Tamarind and Delhi Sweet Chutney. Ripans Tabules

Mr. L. A. Rocher is a farmer residing about three miles out of Colon, N. C. His home is somewhat in the back woods. In an interview with Mr. S. T. Godfrey, a correspondent of the Telegram and Sunday Times, Mr. Rocher on the 17th of June, 1895, said: "I am 61 years of age, and until I was nigh onto fifty years old, I was always well and peart, then for a long while and until last February, I suffered with indigestion and could not eat anything hardly at all. My daughter, who lives in the city, sent me some of Ripans Tabules, told me how to take them, and and they have completely cured me. My wife is now troubled with the same complaint, and has written daughter to send some more of Mr. Ripan's medicine. I want you to tell everybody how I got cured, for it is a blessing to humanity. (Signed) L. A. ROCHER.

Ripans Tabules are sold by druggists, or by mail if the price (50 cents a box) is sent to the Ripans Chemical Company, No. 10 Spruce st., New York. Sample vial 10 cents.

# Cures Talk

"Cures talk" in favor of Hood's Sarsaparilla, as for no other medicine. Its great cures recorded in truthful, convincing language of grateful men and women, constitute its most effective advertising. Many of these cures are marvelous. They have won the confidence of the people; have given Hood's Sarsaparilla the largest sales in the world, and have made necessary for its manufacture the greatest laboratory on earth. Hood's Sarsaparilla is known by the cures it has made—cures of scrofula, salt rheum and eczema, cures of rheumatism, neuralgia and weak nerves, cures of dyspepsia, liver and kidney troubles, catarrh and malaria.

**Such Cures as This Prove Merit.**

"My little nephew was a plump and healthy baby until a year and a half old, then sores broke out behind his ears and spread rapidly over his head, hands and body. A physician said the trouble was scrofula humor in the blood. The child became one complete sore. We had to restrain his hands to keep him from scratching the sores. We were induced to try Hood's Sarsaparilla, and in a short time he had more life. He improved rapidly, his skin became entirely clear of sores and he is now a healthy child." Mrs. FLORENCE ANDREWS, Clearfield, Iowa.

The cleanest, brightest safest and really, in the long run, the cheapest and best light for use in the family residence, is the incandescent electric light. Safe; nothing could be safer. A few days ago a prominent gentleman of Honolulu came rushing down to the office of the Electric Company and said: "Give me figures for wiring my house, and I want it done at once; no more lamps for me. Last night a lamp tipped over and it came so near setting fire to the house and burning my children and I take no more risks." This is the sentiment of quite a number in the past few weeks, who have ordered their houses fitted with the perfect light. Just think it over and make up your mind that you want the best and safest light; send for the Hawaiian Electric Company and tell them what you want.

We have a complete stock of everything in this line and have just received a lot of the very latest designs in chandeliers.

# THE BOARD OF HEALTH

DISCUSSION HELD ON A COUPLE OF DITCHES. Board Wary of Open Waterways—Leave of Absence for Dr. Herbert—Vaccination—Reports Received.

The Board of Health met at 3 p. m. Wednesday, President Smith in the chair. Present were Drs. Wood, Day, Emerson, Mr. Lansing, Mr. Kellipio, Health Agent Reynolds, Dr. Monsarrat and Dr. Aiken of Oahu, Maui. Charles Wilcox was present as secretary for the first time in several weeks.

Mr. Kellipio reported 48,784 fish inspected during the week. Dr. Herbert's report of the insane asylum for the quarter ending March 31, was read. It showed a total of 96 patients at the time of report. A second report up to June 30 gave 102 patients.

The committee had not visited the asylum lately for the reason that a member was absent. President Smith urged that visits in future be more frequent.

Mr. Lansing presented some figures by Mr. Cutter on wiring and repairs at the asylum.

Reports from Dr. Howard of the first six months work of the dispensary were read. Among other matters it reported the vaccinations made and also 846 school inspections.

Letters from Mr. Meyers were received.

An application from Dr. S. Brown of Kealia, Kauai, for license to practice medicine was read. The applicant will be notified to present his credentials to the Board and to come before the medical examiners.

A letter from Dr. Eldredge of July 11 to Dr. Wyman of the U. S. Hospital Marine Service was also read. It gave the usual list of ailments in Japan.

A second letter was from Dr. Jordan, Hawaiian medical inspector at Hongkong, bearing date August 1. He reported 26 cases of plague within the twenty days preceding, out of which there had been 20 fatalities. One of the deaths was of a European sister in a hospital. Weather was reported exceedingly bad. Thermometer was up to 109 and 108, and several fatal cases of sunstroke had occurred.

A further report from Amoy was quite favorable, health being normal.

A petition from Henry Waterhouse, W. W. Hall, S. M. Damon, P. C. Jones, E. A. Jones and Mrs. Mist, asking that the famous ditch in Nuuanu valley be declared a nuisance and be closed for two years was presented. Mrs. Foster, it will be remembered, has brought suit to have the ditch reopened. The petitioners represent that if reopened the ditch would be a constant menace to public health. Concensus of opinion was that the ancient ditch was not a nuisance because it was closed; if reopened and it should then become, the duty of the Board would be to close it again. Mr. Lansing thought the ditch open would always be a menace to the public health, and thought Mrs. Foster could get all the water she desired from the city pipes.

President Smith stated that he had offered, on behalf of the Board, to lay a pipe Mrs. Foster might procure to her premises. This proposal had been made to Chief Justice Judd and accepted. The ditch was not a nuisance now. The question was whether it would become a nuisance if reopened. It was decided to notify Mrs. Foster that if the ditch is reopened, and maintained as before it will be considered a nuisance, and the Board will take immediate steps to have the nuisance abated.

Attention was called to another ditch, which runs through the premises of J. O. Carter, Mrs. Afong and others, and crosses School street at Nuuanu. It was the opinion of the Board that this matter should be looked into and if a nuisance, abated.

Dr. Herbert requested a leave of absence for September and October. Granted. Dr. Wayson was appointed to fill the vacancy at the insane asylum.

A letter from Manager Lowrie of Ewa plantation requested that Dr. Weddick be appointed agent of the Board at that place. Postponed.

Father Clement asked to be allowed to hold religious services in the receiving hospital at Kulihi in the same way as at Kapiolani Home for girls. Referred to Dr. Alvarez.

A letter from Dr. Alvarez on the subject of vaccination and how to get people to vaccinate was referred to the physicians for investigation and report.

President Smith announced that Dr. Jennie Hilderbrand had been appointed a physician to examine female children in the schools.

After another lengthy discussion relating to charges for school examinations, etc., the meeting adjourned. There will be a fee for home examinations only.

WITH THE FIRST REGIMENT G DEVOTES AN EVENING TO PRACTICE INDOORS. Manual and Facing for H—Engagements for This Evening—Non-Com. Board Tonight—The Regulars. Company G had a turnout of forty men Wednesday evening for drill. The instruction was held in the armory. There was considerable of the manual and some marching. Capt. Kea was in charge. Company H had out a sixteen-file front. Sergt. Ferry took charge at first and drilled the company in the manual and facing. Afterward the officers marched the command on the square and gave instruction in the movements. At 8:30 the Company adjourned to the reception at the home of Lieut. Walter. All went in uniform. Lieut. Jacobson calls a meeting of the Company B for 7:30 this evening. The men will assemble in the Company room. Drill will take place outside. Capt. Paul Smith will be at the armory this evening and will hold a drill of Company A. As large attendance as possible is urged. The regular meeting will also be held on Saturday evening. Company C will hold a business meeting and drill at the armory this evening, meeting in the company room. Meetings will be held by C, D, G and H companies tomorrow evening. The non-com. board for the examination of candidates for stripes will sit at 7:30 this evening. The meeting will be held in the dining room of the bungalow. The regulars will move back into the barracks beneath the Executive building next Monday morning, if the weather is good. Another meeting and drill of Company H is ordered by Capt. Murray for 7:30 o'clock this evening. A DOMESTIC DRAMA. What the Passengers on a Michigan Road Saw and Heard. Coming over on the Michigan Central a tall, clean appearing man and a handsome dressed, refined looking woman were seated just in front of a plainly dressed, sweet faced old lady about 70 years old. Every little while the man would turn and address a remark to the elder woman, and her eyes would glow with pride, for he was her son, and though his wife did not seem overcordial—perhaps she was not proud of the old lady—yet she would deign to drop a word or two once in a while. Finally the son turned, as the porter informed him of the dining car in the rear, and said: "Well, mother, Emma and I will go now and get our dinner. You know she needs a good warm dinner. You have brought your lunch, I see. I will send you in a good cup of hot tea." And the couple rose and passed into the dining car. After they had left, "mother" sat looking out of the window and appeared to be deep in thought, not overhappy perhaps. Finally she reached under the seat and brought up the little worn-out black basket "son" had noticed and held it on her lap, fingering the ribbon it was tied with in a thoughtful way. Just as she opened it the train stopped at a station. The door was suddenly flung open, and a cheery faced, handsome blond stepped in. He appeared to be looking eagerly for some one. Finally his glance fell on the little old lady. "Mother!" he cried in a delighted voice. "My John; my John!" And the two were clasped in a loving embrace so genuine as to cause tears to rise in the eyes of one of the passengers, and the rest looked on in an interested manner. "Where are Frank and Emma?" he inquired. "They have gone into the dining car. Emma isn't well, you know, and has to have a good, hot dinner." She repeated this in an apologetic way, for she saw a look in John's eyes that she did not fail to read, and Frank—was not her son too? "But you didn't wish any dinner, I suppose." And his eyes fell on the little basket. He saw it all at a glance, but he must not hurt his mother's feelings thus. "And are you not glad to see me? Are you not surprised? I found I could join you here instead of waiting until you got to Chicago. And now tell me, dear heart, isn't this dear little basket the same one that Frank and I took our lunch in to school? I thought so," as a smile rose on the faded sweet face. "Well, I'm awfully hungry. 'Spose we keep this for supper, and you come with me and eat a nice hot dinner. No, no excuses." As they left the car they met the other couple. "Halloo, John! Where did you come from?" "How do you do, Emma?" "I came, Frank, just in time to see our mother had a substantial meal." And they passed on. When the passengers who heard and saw it all arrived at Chicago, they saw a handsome young man with a little black basket hanging on his arm tenderly assisting a sweet faced old lady through the crowd. A carriage was called, and they drove off. No one seemed to see anything of the other couple.—Chicago Tribune. Mr. C. G. Strong, principal of the public schools at Anderson, Cal., says: "I have used Chamberlain's Pain Balm and have found it an excellent remedy for lameness and slight wounds." Lameness usually results from a sprain, or other injury, or from rheumatism, for which Chamberlain's Pain Balm is especially intended and unequalled. It affords almost instant relief and in a short time effects a permanent cure. For sale by all druggists and dealers. Benson, Smith & Co., agents for H. I.

LEARN HOW TO FLOAT. Ability to Rest on the Water is Essential to Good Swimming. To acquire the power of floating well is to possess the key to all kinds of swimming on scientific principles. It is also very useful in cases of that terrible base of the swimmer, the muscular contraction called the cramp, whatever part of the body which is thus attacked being rendered temporarily powerless. All are affected alike, and perhaps more good swimmers have been drowned by cramp than from all other causes. Strong men and good swimmers, when seized with the cramp, have been known to sink instantly, overcome with the sudden pain, and nothing but the very greatest presence of mind can save the victim. The legs and arms are the parts of the body that are most frequently assailed, by which means the difficulty of getting ashore is much increased, but there is no real danger so long as the swimmer preserves his presence of mind. When accompanied by presence of mind, cramp is comparatively harmless, but when accompanied by fear it is almost certain to be followed by drowning. If both legs are disabled, try to paddle ashore with the arms. If, on the other hand, the arms are seized, the sufferer should lie on his back and get to land by the use of his legs. If unable to do either, he should throw himself on his back and endeavor to float until succor reaches him. Under such circumstances the following method has been recommended: Turn on the back at once, kick out the leg in the air without minding the pain and rub the part attacked with one hand smartly, while the other is used in paddling toward the shore. It is very easy to give these directions, but they are most difficult to follow. Cramp appears to deprive the person attacked of all reason for the time and to render him quite powerless from mingled pain and terror. The causes of cramp are usually believed to be two: The first is from indigestion, for those in good health are seldom attacked by it; the second is the overexertion of muscles that have been but little used, and when a very strong stroke with the legs or arms is given it usually comes on. Therefore easy swimming is to be preferred to that with sudden strokes.—Exchange. ALL SORTS OF SPORTS. Tommy Dixon is said to have got on a match with Solly Smith. There seems to be much uncertainty regarding the whereabouts of Kid McCoy. An English professional cricketer's income is said to average \$750 per annum. E. O. HALL & SON, LTD.

Notwithstanding the fact that we are receiving new goods by nearly every steamer and vessel arriving from the States and from England, we do sometimes get out of certain lines of goods that are much needed. We want our inquiring friends to know that we have just received probably the finest assortment of

Dog Collars and Padlocks ever offered here. In one lot we had over SIXTY DOZEN, of all sizes and kinds. We can fit the largest watch dog or the smallest Japanese pug.

Those friends who have asked so many times for Razor Straps will be glad to know that we have just received a new supply of the celebrated

Reppenhagen Razor Straps. We have several other kinds, all good. Our assortment of Razors is full, having just received a new lot.

We receive fresh Ammunition every month, and can supply all kinds needed. Rifles, Shot Guns and Revolvers always on hand.

That new lot of Score Books has just arrived. Also a fresh lot of

Cottage Paints, Enamel Paints, Varnishes, Oils and Brushes of all kinds. We have sold thousands of feet of

Rubber Garden Hose lately and expect soon another large lot running from 1/2 inch to 12 inches. Also steam hose. The demand for

Galvanized Water Pipe is constant and we keep on hand all sizes from 1/2 inch to 2 inches and sell it cheap.

If there is anything in our line that you want, just call for it, if you cannot see it. You will always find us at

LILIES OF THE FIELD

MISS ROUSSEAU SAYS THEY ARE NOT ARRANGED LIKE THE SUMMER GIRL.

Some Outdoor Toilets For Midsummer Wear—Frock For a Girl of Sixteen—New and Handsome Grenadines—Overshirts Coming and Big Sleeves Going.

[Copyright, 1896, by the Author.]

At last the days have come when the delicious summer girl is in her glory and even the lilies of the field are not

GARDEN TOILETS.

arrayed like one of these. The poor little flowers have but the one pure hue while the summer gown has a thousand devices to make it surpass the flowers of the field. It has lace where the flower has but cobwebs; it has diamonds where nothing more costly than a dewdrop glistens on the lily's breast; it has ribbons of every hue, while the flower has but green leaves for its decoration, and it has the arch and dainty face arising from the mist of its filmy folds like the evening star from the sunset clouds.

If any one thinks this is too far fetched let that person look at the new gowns with the new girls in them. There was one gown of the sheerest lawn with sprays of scarlet runner scattered over a neat white ground. The outer skirt was made in with a white taffeta lining that had a faint shade of lemon in it. The waist was made in a sort of blouse front, the fullness being draped in crisp folds up to the bust line. The sleeves were snug, but there were deep and wide epaulets of the lawn edged with lace, and these were draped up in a very effective style. The cuffs were finished with ruffles of lace and tiny bows of ribbon and there was a ribbon belt of pure white to fasten in a point in front over the bodice. The stock was of white silk with a big bow in the back formed of the lawn. The whole thing was so crisp and clean and stylish that it is no wonder men go daft over the girl in it, or the other girls wonder how they can get one just like it.

If that dainty dress was lovely, so was another in the new blue in two distinct shades. The lawn was as sheer and the shape just as neat as the other. The skirt was plain, save for two narrow velvet ribbons in the dark shade of that violet blue, which is the only other blue that will harmonize with the color in the lawn. The waist was gathered down to the points, leaving an open space across the upper part, and this was filled in with two flat rows of lace. The leg o' mutton sleeves were prettily finished at the wrists with lace and bows, and there were plated epaulets of the lawn edged with velvet ribbon. A band of that and a bow at the throat made this as lovely as an Italian sky.

Then there was a delicate cross barred silk mull gown of a pure silvery white, made up over iridescent taffeta, which is pink and green according to the light in which one sees it. This made a most beautiful creation, trimmed as it was with epaulets of cherry velvet bordered with cream lace. There was a peplum to the waist. And, oh, such a parasol! This was of white silk mull, embroidered with dainty little figures in colors all over it, except the founce, which was very full and eight inches deep. This had a border around it in the same design, only in a larger figure. I am not given to envying other women their belongings, but I did think I would like that whole outfit, not to wear, but to look at and know it was mine.

The fancy for making sheer materials over a lining of another color gives many very beautiful effects, quite unobtainable under any other circumstances. There was an instance of this in a fine white etamine. This was made "even in" with a lining of blue, and the effect was exquisite. The blue took on a frosty coolness, like the center of a block of ice, and the gown looked like the coolest ever made. This had around the bottom two folds of the etamine each eight inches wide and cut bias and lined with the blue. The upper part of the skirt was folded under. The corsage was surplice shape, with a fancy flat

LAWN DRESSES.

collar sewed with medallions of maltese lace. A wide belt of dull blue velvet finished the gown. The hat provided for this lovely dress was of dark green and cream straw, with a spray of forget-me-nots on the left side.

For a girl of 16 or 17 there was a very pretty summer frock. The material was thin taffeta, changing from drab to roseada. There were rows of heavy lace set half way up on each side. The French waist was laid in plaits to a

point both back and front, under a long sash ribbon in Persian design. The yoke was simulated by the application of lace, and the same kind of lace was laid down the outside of the sleeves.

These are not all the materials now being made up for midsummer wear. There are many new and very beautiful designs in grenadines. There are striped grenadines with black backgrounds, and the stripes are in the brightest of colors. Others again are very transparent and depend upon the bright linings for color effects, and it is not to be denied that these are really elegant. There are mozambique grenadines and canvas grenadines, iron frauses and brocades and some with Persian designs. The coloring is very daring in its contrasts, and yet it is not too bright for this season. The iron frame grenadines are strong and useful, but they are not quite as popular as the more showy designs, particularly those with brocaded silk figures. There are wool grenadines, silk ones and others again mingling both textiles. Grenadines were put out last spring, but the lawns and batistes were so much better liked that they were for a time neglected, but the natural reaction took place, and now grenadines are the rage. Some of them are exquisite. There are some thin and delicate wool batistes, and they are very beautiful, and so soft—as soft as the down on a duck's breast feathers. There has also arisen a new fancy for dotted and striped black net dresses. These, naturally, are to be worn over silk slips of the same or contrasting color. Some of them have bayadere stripes around the bottom. Some again have overskirts bordered with graduated silk stripes.

Overshirts and peplums are certainly with us. How strong a hold they will take upon public taste no one can yet tell, but many very handsome costumes have well defined overshirts and many more have founces, one, two or three, as is preferred. In fact almost anything is right this season, even the bell sleeve. This kind of a sleeve is seen on jackets and gowns, and most often on the Eton jackets and zouaves. They are also seen on the shapeless empire coat which some women affect. Sleeves are growing smaller by degrees and beautifully less every day. Some dressmakers are sewing a few tucks along the tops of sleeves to give them a wider effect and some of the thin gowns are given full effects in the sleeves, but many more are quite snug. As the size of the sleeves diminishes the trimming on the skirts will grow, so that after all 'tis an ill wind that blows nobody good.

in the somewhat thinned ranks of really good novelists in England, but in this country as well. Her first efforts, as displayed in "Comin' Thro' the Rye" and "Cherry Ripe," were considered somewhat hysterical and just a bit asterical, but her later stories are extremely readable and brilliant. She was born about 40 years ago and was one of 12 children. She spent the greater part of her youthful days in outdoor sports and amusements and was about as proficient in them as her brothers. Ardent and ambitious, she worked so hard at school that her health broke down and she became deaf. This affliction has partly remained to this day, but it drove her more into herself no doubt and helped to concentrate her thoughts upon literature. She wrote incessantly and had attained some degree of success as a poet and general writer at the age of 16. Three years later she produced her first novel, "Comin' Thro' the Rye," which proved a great success. It has been read in many languages, including Sanskrit. She married Mr. Henry Reeves, a distinguished surgeon and author of several works in his profession. Following this she kept on writing with a good deal of industry. In six months she wrote two novels and made \$25,000 out of them. She possesses a keen sense of the ridiculous, an attractive wit and ready tongue and is a most brilliant conversationalist. She is domestic minded, however, and naturally prefers her own fireside to the whirl of society.

Her latest novel, "The Sin of Hagar," is considered one of her best and is having a great run just now in Great Britain. The serial rights of this story for this country have been purchased by the American Press Association, as were also her recent society novel, "The Lovely Malinecourt." D. M.

During the war Mrs. Bailey, now of Cleveland, was a scout for General Sheridan. Disguised as a negro woman, she once obtained the place of cook in a Confederate fort at Atwater, Va. While thus engaged she served the Confederates a real woman's trick. She drugged their coffee and put them to sleep, and before they recovered the northern soldiers had captured the fort.

Have you a leaky gutter? If you have, make it perfectly clean and dry, apply a good coat of No. 3 P. and B. Paint over the leaky spots; then take a piece of stout Manila paper, or a piece of common cotton cloth, paint it well on both sides; lay it over the first coat, giving the whole a final coat, and there will be no more leak there. Or if the whole gutter is bad, make it clean and dry, and apply a paste of P. & B. Paint and Portland Cement.

### PERSONAL.

Dr. Cochran and wife and Rev. S. S. Palmer are booked for the volcano by tomorrow's Kinau.

J. T. Staeker and Hugo Fisher, the artist, will leave by the Kinau tomorrow for a week on Hawaii.

### NEW RETAIL HOUSE.

It Will Be Established on King by McChesney & Sons.

In a few months the town will have another large and first class retail grocery house. It will be the establishment of M. W. McChesney & Sons. The business of this prosperous and well known firm will be moved up from Allen street, almost on the water front, to King street, either at the corner of Fort or the corner of Bethel.

They are negotiating with two landowners for a building and may close any day. Perhaps the favored location is that now occupied by the planing mill at the corner of Bethel and King. If this is taken a splendid stone structure will replace the rickety frame building that now makes the locality so unsightly.

McChesney & Sons have for years confined themselves exclusively to the wholesale business and have an extensive and profitable trade. During the presence here in recent weeks of the senior member of the house, the project of moving up town and putting in a retail branch was talked over and finally decided upon as an excellent plan. J. M. McChesney is now on the coast on business in connection with the new enterprise, while Fred McChesney is alone in charge here. The King street retail store besides being strong in fancy and staple goods, will make Honolulu soap one of their leaders.

### IN FINE HEALTH.

A Kamaaina's Coast Trip—Brought Back Tadpoles and Lillies.

John Hassinger, chief clerk in the Interior office, had been away nearly three months on a health tour of California. For several years he has been a sufferer from rheumatism. During his visit to the Coast he was at Bartlett Springs and all the health resorts of the north. His health began at once to improve and he is now in fine condition. He has not felt the least sign of rheumatism in a month and has hopes that his old enemy has left him for good.

"I feel better than I have in twenty years," said he with a smile, this morning. "I am almost a new man. The trip did me a world of good."

Mr. Hassinger brought with him from California about fifty tadpoles. They were put in a tank and stood the long trip by sailing vessel very well. From the tank they were transferred to the taro patches and will soon be toads. The Interior office believes the only way to successfully import toads is to bring in the tadpoles. They are much easier to procure and are easily transplanted.

Another thing he brought back with him is several species of lillies which, he believes, will thrive here. They are beautiful specimens and will doubtless meet with general favor.

### SUMATRA AND DREDGER.

The dredger is at work near the spot occupied for so long a time by the derelict Sumatra. The old bulk has been moved over near the Railway wharf, where the work of breaking her up will continue.

### AT AALA.

The Elsie Adair Company made another successful appearance at the old Chinese theater Wednesday evening. On account of the success attending these engagements the company has been requested by the management to appear again this evening and tomorrow evening, and have consented to do so.

### Good Thing to Have

In demand first, last and all the time, Rainier beer. Light in color, a malt of perfect brewing, and a delight to the epicure. Recommended for its purity, delicious aroma and health giving properties. Sold at the Criterion saloon.

### LANAI.

The Hayselden Property Made Clear for a Term of Two Years.

Papers for the transfer of the Gibson property around the opera house to W. G. Irwin were signed late Wednesday and the purchase price, \$25,000, paid. Twenty-five of the twenty-seven interested parties signed the transfer. The twenty-sixth is at Kalaupapa and the other on Hawaii. This money goes to unsecured creditors in full settlement of their claims, and releases Lanai for a period of two years. Under the terms of the transfer Mr. Irwin becomes agent for the Gibson estate.

In this settlement there was a payment into Bishop & Co's. bank yesterday of \$70,000. Fred Hayselden will remain in charge on Lanai, and is very much pleased with the result of the long and delicate negotiations.
