REBELLION IN PROGRESS

AUDITOR H. C. AUSTIN HOLDS THE FORT

GOVERNOR HAS NOT YET PHYSICALLY ENFORCED THE ORDER OF SUSPENSION—ACTING TREASURER RECOGNIZES HIM.

Auditor Austin still held the fort this morning. He was at his desk in the Auditor's office, claiming to be auditor, denying the power of the governor to suspend or remove him until after a hearing, or that the governor's communication declaring his suspended had any effect.

Deputy Auditor Meyers was at his accustomed work as deputy auditor, he having made no effort to take possession of the office as auditor by temporary appointment. As soon as the letter of Governor Dole written yesterday, his position in the matter was that he had not been put in possession of the office, and therefore could not assume the duties or responsibilities of it.

Perhaps the most significant testimony to the fact that Austin held the fort was the attitude of the Treasury department. At the treasury Austin was recognized as the auditor.

"I have received no official notice that Auditor Austin has been superseded," said Acting Treasurer Henry E. Cooper "and therefore I can recognize only the regular incumbent. As soon as I am notified by the governor of a change of course I shall follow the governor's lead. I know of no effort this morning to put Mr. Meyers in possession of the auditor's office."

Governor Dole was down at his office very early this morning but returned home shortly after 9 o'clock. His private secretary said no further action had been taken by him in the Auditor matter.

The question of who is auditor is one of very great concern to every employe of the government and discussion of the question in this manner is one of the importance of it lies this, that it is now near the end of the month. It is the time when salary warrants are being prepared. Any question as to who is the auditor just at this juncture, might delay salary warrants for a few days or perhaps a week, and this is a matter which causes much interest and apprehension.

"I am here, claiming to be auditor, in possession of the office, auditor by appointment, confirmation and commission, the work of the office going on as usual," said Herbert C. Austin. "I have received no official notice from the governor that he has superseded me yesterday in response to mine. I have made no answer yet to his charges in the letter of yesterday because he has set no time for an answer or a hearing on the charges. I have no doubt he will do so, but I am not called on to make any answer. I hold the position that the governor has no power to remove or suspend me until after charges made and a hearing on them. Mr. Meyers is still acting as Deputy Auditor, and has made no effort to take possession of this office as auditor, he has not been put in possession of it, and until he is, I understand will not claim to supersede me."

"I am particularly strenuous on the point that I cannot be suspended until after charges and a hearing on them, because of the state of the public mind, growing out of the scandals already made public in the Treasurer's and the Public Works offices. To submit to suspension without a hearing would be to give rein to all that gossip and malice could invent. That is a great deal more to be feared than anything I am guilty of or that can be proved against me."

Following a number of conversations between Governor Dole and Auditor H. C. Austin, the latter wrote a letter to the Governor in which he quoted the section of the audit act giving the governor power to remove or suspend the auditor. This section is as follows, the Organic Act giving the Governor the power the Executive Council had:

"The Auditor General and Deputy Auditor General may be suspended or removed from office at any time, by the Executive Council for incompetence, misbehavior, abuse of authority, mal-

The Oceanic Stock Is Now Fully Paid

WASHINGTON, September 23.—Some inquiry has been made into the needs of the projected naval stations at Tutuila and Guam. At the former place it is considered that a marine railway would be desirable, one capable of hauling out ships of 1000 tons, together with shops capable of making such repairs as might be necessary. There is a place on the beach easily. It is estimated that the cost of constructing such a station would be \$700,000.

THE VOLCANO IS SMOKING UP

ACTIVITY INCREASED LAST WEDNESDAY NIGHT—LATEST REPORT BROUGHT BY MAUNA LOA.

The Volcano has increased in activity. News of the increase in fire was brought this morning by Purser Willie Simerson of the steamer Mauna Loa which arrived from Hawaii.

While the steamer was at Honouliuli this week, the smoke from the volcano was so great that it was impossible to see the port of Hilea which is only five miles distant. Ordinarily the two ports are within sight of each other, but the smoke so clouded the atmosphere that Captain Simerson the commander of the Mauna Loa states that it was impossible to see the usual distance.

Fire appeared in the volcano Sunday night and on last Wednesday evening the activity suddenly increased. Manager Waldron telephoned to Purser Simerson yesterday morning, while the Mauna Loa was at Kailua. The news of the sudden increase in fire was given the purser. Waldron said nothing of any increase in the lava flow but it is surmised that the lava has increased and is rising in the pit of Halemauau. Further news of the outbreak will be brought tomorrow by the steamer Claudine which is due in the afternoon from Hilea and way ports.

Whether any effort will be made to physically remove Austin no official statement could be procured. There is a feeling around the capitol that such an effort will be made some time this afternoon.

HELD TO THE GRAND JURY. United States Commissioner Gill, this morning held Asahib to the grand jury in bonds of \$2,000. He was arrested by Deputy High Sheriff Chillingworth and Officers Rensar and McDuffie in the mountains near Waimanalo. A part of the still was found and quite a quantity of it was in different stages of preparation for mash, and a very small quantity of okoleha. While there was abundant evidence to indicate that okoleha making had been going on there, the evidence was not overwhelming to connect Asahib with it, though it was sufficient in the mind of the Commissioner to warrant his being held to the grand jury.

Mott-Smith and Matthewman have filed notice of a motion for the entry of judgment and issuance of execution in the suit of W. W. Dimond & Co. vs. The Orpheum company.

EXECUTIVE NOTICE. The Governor directs that notice be given that he has, this day, suspended the Auditor, Mr. Herbert C. Austin, pending investigation of charges against him, and that the powers and duties of the Auditor will be exercised and performed by the Deputy Auditor, Mr. Henry E. Cooper, until further notice.

JAMES BOYD NOW AT THE CALIFORNIA STATE FAIR

LETTERS RECEIVED FROM HIM BY THE CHINA SAYS HE WILL RETURN AT ONCE IF HIS PRESENCE IS NECESSARY.

Manuel Cook, Acting Chief Clerk in the Public Works Department, received a brief and hurried note by the China from Superintendent James H. Boyd. In this Boyd says that he has just heard of the trouble into which B. H. Wright has fallen, but suppose that all necessary steps in the matter have been taken, adding that if the government so advises him he will return at once.

Cook says that it is evident from the letter itself that it was hurriedly written, because while it is dated the place where it was written is not given. Cook says the letter is postmarked, but he did not bring the letter with him to the office this morning, and he does not remember to have noticed from what office it was postmarked.

A letter received by the China from an acquaintance of Boyd's says that he had planned to go to Sacramento several days, to attend the State Fair being held there. There was intense interest manifested all over town yesterday as to whether Mr. Boyd would return by the China or not. As soon as it was known that the China was in port inquiries as to whether he had returned were being made all over town. One shape which the general interest in the question took was in the form of bets. It is said that a great many wagers on the subject were laid and that the odds in some of these were five to one that he would not return by the China, not five to one that he would not return at all, but that he would not return by the China.

Just at present the Public Works Department is without an active head. When Boyd left for the coast he arranged with Treasurer Wright to take charge of the office. Now Wright is gone. Secretary of the Territory Cooper has been commissioned by the Governor Acting Treasurer, but as the arrangement between Boyd and Wright was a personal one, Mr. Cooper does not consider that his commission as Treasurer gives him succession to Wright as Acting Superintendent of Public Works, and he has not assumed that office.

Frank Godfrey, who has been employed late in the Public Works Department by Boyd, went out to the China in the pilot boat and was very anxious in his inquiries when the boat reached the side of the vessel as to whether Boyd was aboard or not. He had a letter which he announced he wanted delivered to Mr. Boyd at once if he was aboard.

AUSTIN TO BE FIRED

Governor Dole has issued a "By Authority" notice of the suspension of Auditor Austin and the appointment of H. C. Meyers, Acting Treasurer Cooper says that upon such notice he will not recognize Austin as auditor. The governor says that after publication of such notice no warrant drawn by Austin will be legal.

Whether any effort will be made to physically remove Austin no official statement could be procured. There is a feeling around the capitol that such an effort will be made some time this afternoon.

EFFORTS OF POLICE TO CAPTURE WRIGHT

HIGH SHERIFF BROWN SATISFIED THAT TREASURER LEFT ON THE ALAMEDA—SOME TALK OF EXTRADITION.

"From the information that has been secured," said High Sheriff Brown, "I am satisfied that Wright escaped on the Alameda Wednesday. He was seen in the steerage of the Alameda in the morning, talking to the steerage steward. Evidently Wright was stowed away aboard the boat by some one. It was no ordinary case of stowing away for the man who aided him was probably well paid to do the work."

"In the morning, I was requested to search for Wright. He had had an appointment to meet Secretary Cooper at 9 o'clock, but when I started at a half past eight without any sign of Wright, the suspicions of people interested became aroused."

"I went aboard the Alameda in company with Captain Flint of the police department. We made a careful search for Wright. The steerage and cabin departments were examined and Captain Flint went through all the other departments aboard the vessel, even going to the coal bunkers. Wright might have been hidden in the coal for all we know. We were not certain at that time that Wright had gone aboard the Alameda. It was simply to guard against the possibility of his trying to escape by that means that we visited the vessel. Had I known what I learned by 3 o'clock in the afternoon, the vessel would have been tied up and the most systematic search possible made for Wright."

"When we were unable to find any trace of him after that search, the boats hanging from the davits being searched also, I left the vessel. Captain Flint accompanied the boat out to the bell buoy, however, and returned with the pilot. This trip was made on the supposition that if Wright were aboard, he might make his appearance, although he evidently was well hidden and kept out of sight long after the vessel had gotten under way."

"I did not send any word to the San Francisco authorities asking them to look for Wright. There was no warrant issued for him and as it was only the barest suspicion that the man might have escaped by that means, no action of that character was taken."

Accounts differ somewhat as to the time that Wright was seen to board the vessel. A number of people have been seen and who recall having noticed Wright on the Oceanic wharf in the morning. The police are inclined to think that Wright boarded the boat as early as 10 o'clock. In fact it is reported that Wright was seen on the deck of the Alameda about that time. It is even thought that Wright was on the Alameda as early as 8:30 a. m.

It is possible that the missing man might have boarded the Alameda early in the morning and then left her again. There is no question but that he was seen to sneak through the after freight port hole about 11:30 a. m.

That the man was not found by the police in their search is not surprising. It is the easiest task in the world for men aboard a steamship to hide a person so that the persons searching the vessel will never discover him. Too many striking instances of this fact occurred during the rainy days of the old opium smuggling ring. Evidently there were a number of people in the scheme to get Wright out of this port, and as they, no doubt, stood in, they were able without much trouble, to frustrate the efforts of the police to discover the hiding place of the missing treasurer."

If Wright went on the Alameda, as seems to be generally accepted by government officials and others that he did, he will arrive in San Francisco September 30, six days before the next vessel from this port, the Peru or the Sierra arrives there. This will give him a big start of the news of his defection. His offense however is an extraditable one, and the proceedings for his extradition will be the first proceedings for extradition ever commenced by the authorities of Hawaii, or at least the first for a very long time. Usually successful escape from Hawaii having proved perpetual immunity to fleeing criminals against Hawaiian laws. The expenses of extradition have usually proved a more potent reason for action than the heinousness or seriousness of the crime."

LATEST STATISTICAL POSITION. Willett & Gray report Sept. 11th, United States four ports in all hands, estimated Sept. 10th, 165,274 tons against 157,232 tons same date last year. Six ports Cuba, estimated Sept. 9th, 176,000 tons against \$2,984 tons corresponding period last year. United Kingdom, estimated Sept. 6th, 162,000 tons against 123,454 tons, same date last year. Total stock in all principal countries by cable, Sept. 11th, at latest uneven dates, 1,902,374 tons against \$23,670 tons; increase over last year \$79,604 tons.

LIVED BUT HALF AN HOUR

Needs Of The Naval Ports In Pacific

SAN FRANCISCO, September 18.—When the last assessment on Oceanic stock, levied yesterday, shall have been paid it will be fully paid up; that is to say, it will have cost the holders or those who just have in succession held it, just \$700 a share.

The final assessment is \$7.75 a share and the stock is poorer than it was on the day the last previous assessment was levied. In the language of the street, the stock has not carried the assessment. On October 15th, when the last assessment becomes delinquent, the stock, if it carry the assessment, should go to \$21.25; but no one imagines it will do so, for the reason that the stock has no vitality and cannot be galvanized into life while there is such a heavy over-draft.

Whether the overdraft be \$500,000 or \$600,000, the fact remains that some new means of raising money must now be found, because no more assessments can be levied. The steamers that cost so much more than it was intended they should are not paying; freight offerings are light, and the operating expenses are heavy.

WILL BE HEAVY SUGAR DEMAND

PRESENT APPEARANCES WARRANT A HOPEFUL VIEW FOR BALANCE OF THE YEAR.

The latest sugar advices from the coast per S. S. China, are as follows, as reported by Williams, Dimond & Co. to F. A. Schaefer & Co. of this city:

SUGAR. No changes have since occurred in the local market or for export, prices established March 5th still being in force. After the lapse of a considerable time, Beet Granulated is once more for sale in this market in either straight or mixed lots (100 lb. bags only), the Western Sugar Refining Co., under date of September 15th, having issued a list supplementary to their list of March 5th, wherein they quote Beet Granulated at 4.15c, for sale in California, Oregon and Washington, and 3.90c for export.

BASIS. No sales since last advices; consequently basis for 96° Centrifugals in New York, established by transaction recorded 3rd inst, remains at 3.475c; San Francisco, 3.0625c.

NEW YORK REFINED. An advance of five points occurred 16th inst., establishing a quotation on that date of 4.55c equivalent to 4.45c net cash.

LONDON BEETS. Sept. 13th to 16th, 6.00, 17th and 18th, 6.1½.

LONDON CABLE. Sept. 13th quotes Java No. 15 D. S., 7.7½, Fair Refining 6.5, same date last year 10.00 and 9.00 respectively. October Beets 6.3 against 5.1½ corresponding period last year.

EASTERN & FOREIGN MARKETS. A quiet, steady market for Hawaii, with a firm undertone, is in evidence according to latest market advices from New York under date of the 18th inst. The demand for Refined is excellent, and notwithstanding large deliveries, refiners are oversold. Present appearances seemingly warrant the expectation of continuance of a heavy demand in this article for a longer period than is customary throughout the closing months of the year, in which event refiners are likely to purchase liberally to the advantage of holders of raw sugars. European Beet crop reports are favorable, and preliminary estimates based on Mr. Licht's figures of a probable deficiency of 15 to 20 per cent per acre in the weights, cannot admit of a decrease in the next European Beet crop of more than 600,000 to 700,000 tons from that of last year. Latest estimates from Cuba reveal a balance of 176,000 tons still remaining, a portion of which may still go to China and Japan.

FRED MCHESNEY WAS CRUSHED TO DEATH

DETAILS OF ACCIDENT WHICH CAUSED DEATH—MAIMED MAN SPOKE BUT ONCE AFTER RECEIVING FATAL INJURIES.

The Mauna Loa arrived this morning with the remains of Fred W. McChesney aboard. The body was brought to Honolulu for burial this afternoon. Purser Willie Simerson of the Mauna Loa brought the details of the death of Mr. McChesney and gives a very interesting account of the sad accident that resulted in Mr. McChesney's almost instantaneous death.

Mr. McChesney had gone from the Kona Sugar Company's mill over to Kaimaliu on the plantation and in the afternoon of last Tuesday, was returning on the plantation train. The train was made up of a cane car in front, then the engine, and then three more cane cars. The engine and tender are so combined that the coal is stored about the engine proper, the tender being a separate vehicle as exists on regular railroads. Mr. McChesney was riding in the engine cab, with only the fireman and engineer.

McChesney complained of the heat inside the cab and stood outside of the cab on the rear of the engine, within a few feet of the cane car that was coupled behind on the rear of the engine. A Japanese who was riding on the car in front of the engine shouted to the engineer to stop as the track was crowded with a herd of cattle. The train was stopped while the Japanese ran ahead and drove all of the cattle from the track. The engineer had been looking out on the mauka side of the track while Mr. McChesney had been leaning forward to the makai side, so when the cattle were all driven to the makai side, Mr. McChesney called to the engineer that the track was clear and to go ahead.

The train soon got under way and went ahead at a good clip. One of the cows in the herd became frightened and suddenly turned and dashed toward the track, evidently intending to run along ahead of the train or else cross the track in front of the train. The first cane car struck her and passed completely over her body. This sudden collision and subsequent check of the speed, caused the first car to jump the track, followed by the engine and the three cars behind.

McChesney was in what proved to be a fatal position. The cane cars which weighed about 60 tons each, caught him at the end of the engine and jammed his body in the region of the waist against the engine. The other men aboard the train escaped. McChesney spoke only once after he was struck and this was when he asked for a drink of water which was given him. He almost immediately became unconscious and died at 2:50 p. m., thirty-five minutes after the accident occurred.

A coroner's inquest was held, the following being on the jury: Thomas White, L. S. August, A. Cockburn, G. Madewell, D. Nahale and W. Yates. A verdict of accidental death was returned, the trainmen and company being exonerated.

The remains of Mr. McChesney were taken in charge by Henry Williams. The funeral will be held at 3 p. m. today from the late residence of deceased, corner of Wilder avenue and Kewalo street. Rev. J. P. Erdman will officiate. The interment will be in Nuanu cemetery.

BROUGHT MUCH FREIGHT.

The steamer Mauna Loa arrived this morning from her run to Kau, Kona, Maialoa and Lahaina. She brought a fair sized list of passengers back and had a very large amount of freight. Her freight list showed 473 sacks of sugar for W. G. Irwin & Co.; 213 sacks coffee, 163 sacks taro, 3 sacks awa, 149 bundles bananas, 29 kegs butter, 19 bbls. poi, 26 pieces koa wood, 17 pligs, 30 head cattle and 229 sundries.

SUGAR LEFT ON HAWAII.

Purser Simerson of the steamer Mauna Loa reports the following sugar left on Hawaii: H. A. Co., none; Diamond H., 500 bags; H. S. Co., 350 bags; P. S. Co., 100 bags; K. S. Co., 100 bags.

WAS HOODOO BOAT.

The missionary schooner Southern Cross was wrecked at Tahiti on September 1 while carrying some missionaries and native children. No lives were lost.

VARIOUS VESSELS SPOKEN.

The ship Dirigo which sailed from this port last June for Delaware Breakwater with sugar, was sighted July 17 in Lat. 21.26 south, Long. 158.8 west.

The schooner Henry K. Hall bound from Newcastle to Honolulu was spoken in Long. 133 west, Lat. 27.49 south. The bark St. James now out 114 days from Savannah for this port with coal was spoken on August 14 in Long. 66 west, Lat. 36 south.

CHINA ARRIVES YESTERDAY.

The S. S. China arrived yesterday afternoon from San Francisco with six days' later mail and news files. She came down in much less time than usual as she was not due until this morning. The China has a large amount of through freight and carries a number of passengers for the Orient. She goes to Manila on her present trip. Among the Honolulu people who returned on her were Rev. and Mrs. Kincaid, Miss Alice Jones, A. Lewis, Jr., and L. S. Dillingham. The China sailed for the Orient at noon today.

KOREA'S SLOW TRIP.

SAN FRANCISCO, Sept. 15.—Much surprise has been expressed over the slow time made to Honolulu by the Pacific Mail's new liner Korea, which, though credited with a speed of twenty knots an hour, was fully six days in reaching the islands. In reality, the Korea was seven days on the trip, having lain hove-to off the lightship a full day after sailing from the harbor on August 30th. When sighted 137 miles from Honolulu by the China, on the morning of September 6th the Korea appeared to be in good shape and was under fair headway and her long passage is, therefore, rather puzzling. If she and the Siberia are to utilize their fast speed it will require a rearrangement of the schedule of the Pacific Mail liners, and usually a proceeding of this kind is based upon the capabilities of the slowest ship of the line. So it is a source of wonder with some people as to what will be done with the big liners in the matter of speed. At Hongkong the Korea is to go into dry dock, in order to obtain British classification, for the purpose of carrying Chinese in her crew.

PROMOTION ALONG THE LINE.

Second Officer Pearson of the China was promoted to the position of first officer, Third Officer Kitchen was advanced to the second place, and Third Officer Arps was taken from the Newport and given third place on the China.

H. E. Morton, former superintendent of wharf for the Panama Railroad Company, was appointed chief officer of the Pacific Mail Steamship Company's steamer Newport to relieve C. Nelson. Morton will assume his position this morning.

OIL BURNERS A SUCCESS.

SAN FRANCISCO, Sept. 16.—The steamer Mariposa arrived on schedule time today from the South Seas. This is the second voyage made by the ves-

sel since being equipped with oil burners. Her officers state that the new fuel was more of a success this trip than on the previous one. The vessel was compelled to stop twice on the voyage because of a loose crankpin and a broken condenser. The Mariposa brought freight amounting to 1,400 tons and including 20,000 coconuts and 14,400 sacks of copra. While at Tahiti the steamer named Collins was sentenced to four months' imprisonment for shooting a native.

WILL CARRY OIL.

SAN FRANCISCO, Sept. 18.—The transport Rosecrans went to the Union Iron Works today to be converted into an oil tank steamer. The Rosecrans was recently purchased from the Government by the Matson Navigation Company. She will carry oil to Honolulu.

Freshly Smoked Ham

We smoke a lot every day and they are positively delicious. They are the best sugar cured hams imported, and being smoked in turn by us gives them a much finer flavor than when smoked in the states and shipped here. Besides they are full weight and not dried out. If you want some thing fine try one.

Feel Your Pulse.

Watch your pulse for about five minutes. Count the beats while sitting and then while standing. A healthy pulse beats from sixty to seventy-five times per minute, a little faster while standing than while sitting or lying down. If your pulse beats too fast or too slow, if it is weak or irregular and sometimes skips a beat, your heart is weak or diseased, and you are in danger of heart failure at any moment. Pains about the heart, palpitation, smothering or fainting spells, shortness of breath, inability to sleep on left side, are further evidence of a dangerous condition which demands immediate attention. You have it in your power to overcome heart weakness if you will profit by the experience of others. Mr. S. T. Oviatt, of Arlington, Iowa, says: "I had heart failure and would have spells when I would gasp for breath and become totally blind for the time, often falling unconscious wherever I happened to be standing. I took ten or twelve bottles of Dr. Miles' Heart Cure to restore my heart to a healthy and normal condition."

Dr. Miles' Heart Cure is sold at all druggists on a positive guarantee. Write for free advice and booklet to Dr. Miles Medical Co., Elkhart, Ind.

THE FINAL DAY OF THE SESSION

SENATORS HAVE COMPLETED THEIR WORK AND WILL NOW SIFT RUBBISH FROM FACTS.

The hearing of the senatorial commission closed yesterday afternoon and the remainder of the time will be devoted to arranging the mass of evidence that has been submitted. Much of this has yet to be transcribed and there is still considerable data being prepared by various officials which is still to come in.

At yesterday's session, Henry Smith, clerk of the Judiciary for twenty years testified in corroboration of Judge Robinson's figures.

He read a comparative statement of trials for 1898 and 1901. The figures in toto were respectively 1028 and 1427. He thought a third judge was absolutely necessary to expedite the work and prevent them being tied up. In 1900, 342 remained unfinished with 20 judges on the bench. In 1902 for the nine months showed 441 with supposedly three judges missing.

A. S. Humphreys made a supplemental statement as to the necessity for a third judge in regard to the many cases of the Circuit Courts he quoted the interregnum of courts for three months during the plague. As a result of the plague also several insurance suits came up. This point Judge Robinson had brought up, placing the number at 60. The witness cited them from memory at 150. There were many other cases continued by consent and for other causes. Courts were not open all the time as elsewhere, or if two judges could act concurrently all the work could be done. Judge Gear and he often looked for work and found none.

The witness cited the resignation of Judge Stillman and the absence of Judge Gear left him to do all the work. He said that 40 cases of probate could be easily handled by a judge in one morning. "With intelligent witnesses ten minutes was sufficient for each case." This would make six an hour and a seven hours' morning session, starting at 5 in the morning. These figures were not followed up or worked out by the witness.

In the afternoon Thomas Fitch continued his testimony, calling attention to the excessive costs of the local legal system to the lack of appeal from the Supreme Court and to loose methods of allowing fresh evidence to be admitted into the territorial Supreme court. He advocated a pension to the queen but denied her claim to crown lands. He insisted on laws for the admission of Chinese labor.

W. D. Alexander read a long paper on the land system and advocated retention of local land laws.

Percy M. Pond presented a young men's petition asking for fire claims relief, restricted Chinese immigration and local expenditure of Custom's receipts.

Delegate Wilcox fathered a number of petitions presented by Hawaiians. David Kalanokalani Jr., presented 988 signatures for city and county settlement, 983 asking for the cutting up of public lands into 40 and 80 acre homestead tracts, 815 protesting against the taking of public lands for the benefit of the Rapid Transit Company.

J. M. Poeppel read a paper which asked the senators to assist delegate Wilcox to have Congress pass a law giving the control of public lands and utilities to cities and counties control.

Charles Nolley presented a petition from the Kalili camp in which the petitioners asked that the camp site be exchanged for public lands which shall then be given to them in homestead lots.

F. W. Beckley had a complaint from natives at Walaue of a sugar plantation taking up a tract of land applied for by natives.

George Markham stated that the governor had refrained from advising the last legislature and had stood arrogantly aloof. He stated that he was in touch with the citizens and that all felt the governor's appointment a mistake. Hawaiians had held aloof from the government and would act the same way towards Americans parties. The people wanted city and county government. The majority was opposed to annexation.

Lepers were at Molekai to make money for the board not to be relieved. Men were sent there to diminish the electorate so that whites could obtain the majority. He was in favor of restricted Chinese immigration.

Attorney General Dole stated that all Board of Health supplies were bought under bids. W. O. Smith said that the store at Kalaupapa was not run at a profit and the attorney general stated that merely five per cent advance, sufficient to cover expenses, was made.

Senator Mitchell declared the committee adjourned to meet again on the deck of the Sierra. "On behalf of the committee," he expressed thanks "to all officials and the people generally for many kindnesses received. The committee felt a deep sense of the cordial hospitality extended and left with sincere regrets."

THE RETIREMENT OF HENDERSON

CHARLES PICKETT WILL RUN IN SPEAKERS PLACE - NOMINEE WILL UNITE ALL FACTIONS.

DES MOINES, (Ia.), September 12.—Through the columns of the Waterloo Courier, Charles E. Pickett of Waterloo, past grand exalted ruler of the Elks today formally announced his candidacy to succeed Speaker Henderson. It is urged that he will unite all factions of the party.

Ex-Governor Horace Boies, the Democratic candidate, returned to Waterloo today from his farm in Grundy county, but persists in his refusal to comment upon Speaker Henderson's withdrawal. He states that his letter of acceptance will be issued in a few days.

Charles E. Pickett was born in Iowa in 1866. He was graduated from the college department of the Iowa University in 1888 and from the law department in 1890. He has been the law partner of Senator C. A. Mullan of Waterloo since that time. His talents as an orator attracted early attention, and he was prominent as a speaker, under the direction of the Republican State Committee, in the Presidential campaigns of 1892 and 1896, and more or less in all the intervening years. As an orator on various occasions such as Memorial day, Fourth of July and

many other occasions, he has been in demand all over Iowa, and has spoken in most of the towns of any size. For six years he was a Regent of the Iowa University. As a member of the Knights of Pythias and the Elks he has been very prominent, having been grand chancellor of the Knights of Pythias in Iowa and chairman of the national committee on the ritual of the Elks. He was made grand exalted ruler of the order last year.

SUSPICIOUS.

The total amount of the defalcations of ex-Treasurer Wright have been discovered. The sum of money that has disappeared is \$18,000. The natural question is what could Wright have done with it.

While we reprobate, and it is our duty to reprobate the ex-Treasurer's conduct, we cannot help feeling sorry that a young man of such bright promise, of such brilliant opportunities, should have succumbed to temptation.

In the course of the investigation which must be instituted, it should certainly be sought to locate in what direction this \$18,000 of public money went. It has been suggested where it might have gone and apparently did not, it must be found out where it did go.

It is certainly a very legitimate inference that the case of B. Haywood Wright, accused of embezzlement in the office of the Superintendent of Public Works, has a bearing upon ex-Treasurer Wright's action.

Of course it is easy to be wise after the event. It is easy to say now that the Territory should have been protected by the Treasurer having a bond. The law never required the Treasurer to give a bond, it never required a Minister of Finance under the monarchy or under the Republic to give a bond.

WORK OVER.

The Senatorial Committee has closed its sittings, and the mass of information, contrary statements, complaints, counter-complaints, petitions, memoranda, examinations, recriminations, truth, half-truth and fiction has now been gathered together and will be sifted.

The result of the investigation will be some changes in the organic act. There will be increase of power in some directions and curtailment in others. There will be a change in the land laws. There will be strong recommendations with regard to public works, and we shall get what our Delegate was unable to get for us, ample appropriations for harbors, lighthouses and Federal buildings.

The rice crop is going to be very short in Japan. There will be a probable shortage of some fifteen or twenty per cent. This shortage is apt to react upon the rice market on these Islands. The situation in Japan is considered as exceedingly grave.

Seeing that at the last election over 9,500 voters cast their ballots, documents signed by eight or nine hundred alleged voters, such as were presented by young Kalanokalani to the Senatorial Committee yesterday do not carry so very much weight. Even if all the signers were really voters, which is doubtful, they represented less than ten per cent of the voters of the total vote of the Territory. The popularity of the petitions is very doubtful.

City and County Government, in the light of the events of the past forty-eight hours does not appeal to some of its most uncompromising advocates with the same cogency that it did a few weeks ago.

**STARTS ON HER
LONG VOYAGE**
**COLONIA LANDS SHORE END OF
BRITISH LINE ON VANCOUVER
AND BEGINS TRIP.**
VICTORIA (B. C.), September 18.—
At noon today the cable steamer Colo-
nia commenced the work of laying the
Pacific cable. The big steamer, 501 feet
long and 11,000 tons capacity, steamed
into Bamfield creek, the Barkley Sound
inlet on the west coast of Vancouver
Island where the long cable will have
its terminus, at 6 a. m., and the land-
ing party got the shore end of the cable
from the forward tank. Then the
boat's crew fastened a big swivel block
to a tree ashore.
The Colonia approached to within
four hundred yards of the shore, and a
long, specially prepared endless rope
covering a center of steel wire, was
run from the tackle ashore to the ship.
The workers began to haul shoreward,
while another boat's crew was engaged
in buoying up the heavy cable.
The shore end is some three inches
in diameter, and the cable was kept
afloat with casks between the shore and
steamer, until after the shore end had
been secured in the cable house.
The casks were then knocked away and
the cable was allowed to sink in the foamy
bed of Barkley Sound, which the cable
engineers say is an ideal place for the
landing.
A representative of "The Examiner"
was on board the cable steamer to wit-
ness the procedure. The day was dark
showery and calm, and not a hitch oc-
curred. Messrs. J. Wilson and W.
Christie of the C. P. R. Telegraph Ser-
vice and T. D. Conway, who built the
connecting land line, superintended the
landing of the cable as far as the shore
connection was concerned, and Messrs.
R. E. Peak of the Pacific Cable Board
and R. C. Lucas, engineer of the Tele-
graph Construction and Maintenance
Company, superintended the work
aboard the Colonia. It was about 2 p.
m., when everything was made snug
ashore and the landing parties went on
board and reported all secure.
The cable was then tested with the
galvanometers invented by Lord Kelvin,
and when everything was satisfactory
the Colonia slipped her flags and started
off for Bamfield Island over the
course surveyed for her by the British
man-of-war Egria. The cable dropped
astern readily as she sailed and mes-
sages were ticked over it from the
operators in the testing room of the
cable steamer to the operators ashore
at Bamfield creek until late at night
when the steamer was standing south
of Cape Flattery.

A RARE FRUIT
In the office of the Commissioner of
Agriculture may be seen the celebrated
Durian fruit of the Indian Archipelago.
It is seven inches in length, oval shape,
and has a thick hard rind entirely cov-
ered with strong sharp prickles. The
fruit is divided into five cells, each of
which contains from one to four seeds
rather larger than pigeons' eggs, and
completely enveloped in a firm, luscious,
juicy, cream-colored pulp, which is the
edible part of the fruit. Mark Twain
Durian was grown by S. W. Wilcox on
Kauai, and brought down by him.
There is rather an offensive odor from
the Durian and one would think this
fruit would never become a favorite,
but once the repugnance has been over-
come the fruit is one to find favor, and
people become fond of it. Mark Twain
says the only way to eat the Durian is
to hold the nose with one hand. An-
other traveler says "to eat the Durian
is a new sensation worth a voyage to
the East to experience."

JOKE ON HIGHWAYMEN
Stopped a Man This Morning Who
Had No Funds.
P. Becker, a driver for the Oahu Ice
and Electric Company, thinks it is a
joke to be held up by masked highway-
men, when he has no money in his
clothes. He says the joke is then on
the highwaymen. He had a chance to
enjoy just such a joke early this morn-
ing on King street opposite the Kame-
hameha school grounds.
Becker was driving along in a cart
about 2:30 a. m. today, going to work.
Suddenly two men rushed from the
shadow of some trees and shouted to
him to halt. One of them held Becker's
horse by the bit while the other ap-
proached Becker and demanded that he
"shell out." Becker saw that they
meant business. Both wore white
masks, and one of them carried what
appeared to be a revolver. But in spite
of this demonstration, Becker com-
menced to laugh.
"What's the matter with you?" asked
the masked man who was going
through Becker's pockets. "I wouldn't
think this was such a laughing matter
for you."
"Oh yes it is," rejoined Becker, "for
I haven't any money in these clothes.
The joke is on you, Ha-ha-ha."
The highwaymen soon found Becker's
statement to be correct, so they per-
mitted him to depart without doing
him any injury. Becker is not certain
about being able to recognize them
again, but says both appeared to be
white men and were about medium
height and rather fleshy than the or-
dinary individual. The police were no-
tified of the affair.

WEATHER ABOUT HAWAII.
Purser Willie Simerson of the steam-
er Mauna Loa reports that heavy
north-easterly winds and strong winds
prevailed along the Hamakua coast,
this week. There had been no rain and
the weather had been very hot. The
steamer Noeau was discharging at Ho-
nolulu.
Lumpy seas and strong north-east
winds prevailed along the Kau coast.
There had been little rain. Lumpy seas
and strong northeast wind were en-
countered crossing the channel home.

AWAITING HANGMAN
Three convicted murderers are now in
the prison waiting the disposition of ap-
peals which have been made in their
behalf. The most are George Ferris the
white murderer, Kihuna a Japanese
who killed a woman at Waiaina some
months ago and Yoshikawa Denjyo
who assassinated his step-father on
Kauai. Sentence of death has been
passed on the trio but governor has not
yet set the time for their execution. He
will probably not take such action un-
til after their various appeals shall
have been settled.
High Sheriff Brown says that the
scaffolds are not being built for the
accommodation of the three defendants.
Material for these implements of death
are always on hand and the scaffolds
can be put together in a very short time.
The murderers are in the moonlight
being carefully guarded at Oahu prison.
SEEDS FREE OF DUTY.
Collector Stackable has been notified
by the Treasury Department to admit
free of duty all seeds, plants and shrubs
which have been imported to this place
from foreign countries for use at the
governmental experimental station in
charge of Jared Smith.
LOADING THE S. N. CASTLE.
The Mauna Loa brought about 4,500
bags of sugar this morning for W. G.
Irwin and Company from various Ha-
waiian plantations. Of this amount, about
1,200 bags will be discharged into the
barkentine S. N. Castle and the rest
will be unloaded at the Oceanic wharf.
FAST LOADING ON CHINA.
Hamilton, McCabe and Renny steve-
doring company loaded 200 tons of coal
aboard the S. S. China last night in 11
hours which is one of the best re-
cord, of the kind for this port. The
China got away for the Orient today,
a few minutes after noon. She took a
large number of cabin passengers from
this port.
ALBERT OFF FOR LAYSAN.
The bark Albert sailed for Laysan Is-
land this morning at 11 o'clock. Captain
Wilber the former master of the old
bark Ceylon, was on hand to say aloha
to the departing vessel.
WHITNEY WILL RACE.
Fred Whitney has announced his de-
cision of entering the Helene in the
Rabbit Island race on Sunday, and the
Helene will be rigged tomorrow. There
is some talk of lengthening the time
limit an hour or so. The four yachts,
constituting the first class fleet will
take the 8 o'clock whistle on the morn-
ing of September 28 as the starting sig-
nal. The course leaves a starting line
between the lighthouse and the Hea-
lani boat house, goes out of the chan-
nel between the spar and bell buoys,
around Makapuu point and Rabbit Is-
land, returning to round the spar buoy
for a finish.

SAILORS WANT MONEY.
The schooners Lady and Ada was
now manned by some very disgruntled
crews. The two outfits, headed by their
respective masters, have been clamor-
ing for the last two days for their back
wages. At the present time, the Leahi
Shipping Company's two vessels are
held up to the old Pihonokai wharf
while Commodore Jack Hare is hustling
around for freight to put into them and
incidentally for the money which which
to pay the demands of the men.
Back wages due Captain Nelson and
his crew of the Ada amount to \$120,
while the captain Moki of the schooner
Lady has a claim for about \$185. The
Lady is operated between Honolulu and
Koolau ports. The Ada is under lease
from Nelson Lansing, and has been
operated to Hanalei and Kalihwai. It
is probable that some agreement will
be affected today so that the boats will
sail this afternoon or Monday on their
usual routes.
BASEBALL AND CRICKET.
The baseball and cricket players are
both clamoring for the Makiki field to-
morrow. The cricketers are rather ex-
pecting some crack players of the game
on the Aorangi which may come in from
Victoria tomorrow. If they come the
baseball sides of the midwinter league
will grant them the right of way.

ALL-ENGLAND ELEVEN.
The cricketers expected on the Aorangi
are the All-England eleven cap-
tained by Lord Hawke. The Aorangi
is expected to be a day late which will
bring the visitors here on Sunday. This
is a great disappointment to the local
whippers of the willow who would oth-
erwise have endeavored to get up some
form of exhibition game while the
crack players were here.
WATER FRONT DISAGREABLE.
The usual complaints over the con-
dition of the water front when a strong
trade is prevailing were heard today.
Although the wind was blowing much
more than usual and the dust was fly-
ing in such vast quantities as to make
walking very disagreeable and at times
almost impossible, there was no evi-
dence of the sprinkling carts having
been at work. The numerous people
who went to see the China depart suf-
fered greatly from the flying dust.
SUMNER SANE.
In the decree entered dismissing the
suit of John K. Sumner vs. The Oahu
Railway Company and Bishop Gulistan
it is alleged as one of the findings of
the court that Sumner at the time of
hearing the motion and now is "fully
sane and possessed of full competency
and capacity to transact and manage
his own business and property, and
does not require a next friend to prose-
cute" the suit.
DE BOLT COMMISSIONED.
Judge J. T. De Bolt received his com-
mission as First Judge of the First Cir-
cuit court today by the mail brought by
the China. It is signed by President
Roosevelt and is handsomely designed.
Judge De Bolt will take the oath of of-
fice tomorrow and at once enter upon
his duties.
WASHINGTON, September 13.—Mr.
Squires, United States Minister at Ha-
waii, telegraphs the State Department
that the Cuban House passed the Sen-
ate tariff bill yesterday.

THE BRIGHT SIDE OF LIFE.
It is a feeling common to the
majority of us that we do not
get quite the amount of happi-
ness we are entitled to. Among
the countless things which tend
to make us more or less mis-
erable ill health takes first place.
Hannah More said that sin was
generally to be attributed to
biliousness. No doubt a crippled
liver with the resulting impure
blood, is the cause of more men-
tal gloom than any other single
thing. A chronic dyspeptic, says
an eminent English physician, is
always on the verge of a mental
upset. And who can reckon up
the fearful aggregate of pain,
loss and fear arising from the
many ailments and diseases
which are familiar to mankind.
Like a vast cloud it hangs over
a multitude no one can number.
You can see these people every-
where. For them life can scarce-
ly be said to have any "bright
side" at all. Hence the eager-
ness with which they search for
relief and cure. Remedies like
WAMPOLE'S PREPARATION
have not attained their high po-
sition in the confidence of the
people by bald assertions and
boasting advertisements. They
are obliged to win it by doing
actually what is claimed for them.
That this remedy deserves its
reputation is conceded. It is
palatable as honey and contains
the nutritive and curative prop-
erties of Pure Cod Liver Oil,
combined with the Compound
Syrup of Hypophosphites, Ex-
tracts of Malt and Wild Cherry.
Nothing has such a record of
success in Anemia, Nervous De-
bility, Scrofula, Throat and Lung
Troubles, and all emaciating
complaints and disorders. It's
use helps to show life's bright-
er side. Dr. W. H. B. Atkins, of
Canada, says: "I am pleased to
state that the results from using
it have been uniformly satisfac-
tory." Every dose effective. "It
cannot disappoint." At chemists.

It's an easy job for the barber to part the hair on a head like this. It's just as easy to prevent baldness if you only do the right thing.

Baldness is almost always a sure sign of neglect; it is the story of neglected dandruff.

Dandruff is untidy, unnecessary, and unhealthy.

Ayer's Hair Vigor cures dandruff and prevents baldness. You save your hair and you are spared the annoyance of untidy clothing.

It also stops falling of the hair, and makes the hair grow thick and long. Do not be deceived by cheap imitations which will only disappoint you. Make sure that you get the genuine Ayer's Hair Vigor.

AUDITOR AUSTIN IS SUSPENDED BY DOLE

CHARGED WITH ISSUING CHECKS WHERE HE HAD NO FUNDS AND GETTING THEM CASHED BY GOVERNMENT EMPLOYEES.

Governor Dole yesterday suspended Auditor H. C. Austin, appointing Deputy Auditor H. C. Meyers in his place. Meyers was prevented from taking the office by Austin's refusal to give way.

An attempt by the High Sheriff to remove Austin was not successful, the High Sheriff not resorting to force and Austin declaring the would yield only to force.

I. That in the latter part of August, 1902, you applied to and requested C. F. Chillingworth, Deputy High Sheriff of said Territory, to loan you for your personal use the sum of two hundred and fifty dollars of the public funds collected as fines and costs by the said Chillingworth in his official capacity aforesaid.

II. That on or about the second day of September, 1902, you applied to and requested the said Chillingworth to loan you for your personal use the sum of two hundred dollars from public funds collected as fines and costs by said Chillingworth in his official capacity aforesaid.

III. That on or about the 6th day of July, 1902, you passed a check for upwards of seventeen hundred dollars, drawn by yourself in favor of Henry H. Hapal, Registrar of Public Accounts of the Territory of Hawaii, said check being drawn on the First Bank of Hilo, you having no funds, and knowing that you had no funds, in said bank to pay said check or any part thereof; and the same being drawn and issued by you to obtain money thereon for your own personal use in your individual capacity.

IV. That on or about the 6th day of July, 1902, you procured from one William Vannatta, a public accountant residing in Hilo, the sum of two hundred and fifty-five dollars, giving therefor your check upon a bank in the city of Honolulu, well knowing at the time that you had no funds in said bank to cover the payment of same; and that the said William Vannatta, as Public Accountant, did return to the Treasurer of the Territory said check for two hundred and fifty-five dollars as a part of the government funds, and upon the presentation of said check for payment it was dishonored.

V. That while holding office as Auditor of said Territory you have procured money from B. H. Wright, Chief Clerk of the Department of Public Works, knowing that said Wright had no means of his own and no money to lend except public money in his official custody, you borrowing at one time from the said Wright as aforesaid the sum of seven hundred and fifty dollars, for your own personal use, knowing that the same was taken from public funds.

VI. That you have from time to time given checks to creditors in payment of your personal debts, knowing that you did not have funds on deposit to honor said checks, and that said checks when presented would be dishonored, and were dishonored.

VII. That you have, to a great extent, neglected to audit the accounts of Territorial officials throughout the Territory, as by law you were required to do; and by reason and in consequence of your transactions and conduct aforesaid you have so compromised yourself as to incapacitate you for the faithful and efficient auditing of public accounts; and by reason and in consequence of your neglect aforesaid to properly audit public accounts and of your non-observance in office aforesaid, a grave delinquency has occurred in the Department of Public Works, and the confidence of the Territorial administration in the correctness of public accounts throughout the Territory has been impaired.

CABLE STEAMER NOW ON OCEAN

VESSEL WAS TO HAVE SAILED ON 20TH INST. ON HER WAY TO SAN FRANCISCO.

LONDON, September 15.—The submarine telegraph cable which is to join the United States and the Philippines, has been completed and is now on board the cable steamer Silverton, lying in the Thames preparatory to sailing September 20th for San Francisco, whence the vessel will immediately begin laying the cable to Honolulu. The Silverton is expected to reach San Francisco early in December. The cable is wound around three enormous spools, each thirty feet in diameter. Its total length is 2433 miles. The strands are one to three inches thick. The total weight of the cable is 10,000 tons.

Vice-President Ward of the Commercial Pacific Cable Company, who sails for New York on the steamer Celtic tomorrow, said today: "The shipment of the cable gives assurance that the United States may look forward to being in telegraphic touch with Honolulu by the end of this year. The manufacture of the three remaining sections to the Philippines is progressing at the rate of fifty miles a day, and I am confident they will be finished by March and laid during next summer. Two cable steamers, the Colonial and the Anglia, will lay the line beyond Hawaii. I would like to see the entire project consummated by next Fourth of July."

"Pending the arrival of the Silverton work will be pushed on the underground cable approaches at San Francisco and Honolulu, each seven miles long. It will take the Silverton two weeks to unwind her spools between San Francisco and Honolulu. The service will begin immediately thereafter."

INVENTORIES FILED. Inventories have been filed in the estates of J. H. G. Wolters and Captain J. H. Harrison. Wolters' estate is inventoried at \$24,631.06. Harrison's estate is inventoried at \$9,666.97. Of this amount there are interests in the S. C.

Allen, the Mary E. Foster and the schooner Heiwa.

NOTHING LIKE OIL. "In dealing with man, remember that a spoonful of oil will go farther than a gallon of vinegar." The same may be said of children. There is nothing so good for children as the old-fashioned castor oil. However much they abhor it, it is their best medicine for disorders of the bowels. In the most severe cases of diarrhoea and dysentery, however, Chamberlain's Colic, Cholera and Diarrhoea Remedy should be given after the oil operates, and a quick cure is sure to follow. For sale by all dealers. Benson Smith and Company general agents.

THE HOME RULERS

At the meeting of the Home Rulers held last evening to ratify the elections, there was trouble in the air. Mossman announced his resignation in writing. The chief objection on his part and that of many others seemed to be to the appointment of Ng Mon War, J. D. Holt, a Democrat, nominated for the Fourth District was vigorously called a "snake" by many present. Mon War complained of Mossman's antipathy. Charles McCarthy expressed his surprise at the nomination and stated that he believed the interests of the Home Rule and Democratic parties to be identical. Many others spoke, all the electives in fact, and Holt stated that he approved the ticket. He supported Mon War and stated that when the Senatorial Commission returned to Washington they would say that there was no Republican party here at all. "All Republicans are liars." A meeting is planned for Saturday evening at Emma Square by torchlight. The Democratic Central Committee last evening endorsed McCarthy and Holt as the Democratic nominees for the Home Rule ticket.

SISAL MACHINERY.

The machinery for preparing sisal for market, ordered by the Hawaiian Fibre Company, arrived by the Alameda on her last trip and was shipped to the plantation in Ewa district yesterday. All buildings are ready for the machinery. The capacity of the machinery is about one ton of fibre a day. The market price of the fibre is about ten and a half cents a pound.

MORE STEAMERS FOR MORGAN.

LONDON, Sept. 15.—A dispatch received by a news agency from Liverpool says J. P. Morgan has purchased from J. R. Ellerman, chairman of the Leyland Steamship line, five steamers engaged into the trade between Antwerp and Montreal. It is understood, the dispatch says, that the vessels acquired by Mr. Morgan will be managed by the Leyland line.

A NEW RECORD.

NEW YORK, Sept. 19.—The North-German Lloyd steamer Kronprinz Wilhelm arrived in port today from Bremen, Southampton and Cherbourg, beating all Western records. The Kronprinz Wilhelm left Cherbourg at 9:10 p. m. on Wednesday, September 10th, and arrived at the Sandy Hook lightship at 4:07 this morning, making the run of 3947 miles in five days eleven hours and fifty-seven minutes, at an average speed of 23.99 knots per hour. The time made is three hours and forty-eight minutes better than the best previous westward record of the Kronprinz Wilhelm and is twenty-six minutes better than the time of the Deutschland. Her days' run were 349, 574, 581, 573 and 398.

INDUSTRIAL SCHOOL BUILDING IS PLANNED

IS COLONIAL IN DESIGN WITH MOSQUITO PROOF DORMITORIES. DESIGNED ON SANITARY PLANS. IT WILL PROVIDE FOR 60 BOYS.

The plans for the building for the new Boys' Industrial school at Waiakua, near Kahuku, have just been completed. This afternoon A. T. Atkinson, Superintendent of Public Instruction; T. H. Gibson, the Superintendent of the Boys' Reformatory school, and H. E. Weston of Assistant Superintendent of Public Works Marston Campbell's office, will leave by the 3:15 train for Waiakua to survey the site for the building on the ground, and make the necessary measurement for drawing the plans for the foundation.

When this is done bids for the work of construction will be advertised for, and it is expected that building will begin some time in November.

The plans for the building are designed to give the maximum of room, appliances and convenience with such architectural excellence as may be given, with the minimum of cost. The building will be a frame structure on a concrete foundation, 84 by 36 feet on the ground, and two stories high. The front of the building is 84 feet. The entrance is through a porch 12 by 27 feet through swinging doors into a hallway. To the left of this is the dining room and to the right the school room. A stairway rises to the second floor from the hallway, and divided from the hallway by the stairs is the hospital.

The upstairs is occupied entirely by two large dormitories, together with a suite of rooms at each end of the building for teachers, water closets, linen rooms and that sort of thing. The upper floor is to be made mosquito proof.

In the rear of the building is the kitchen well ventilated and provided with tile chimney. The building is in colonial style, though very little expense is given to ornamental or to carrying out purely architectural style.

The building is designed to accommodate sixty or more boys.
