POWERS BEGAN TO QUARREL AMERICA'S FIRM STAND WISE AND HOIT GAVE TROOPS AND TRANSPORTS REPORT TO WASHINGTON CHINA NEWS IN HONOLULU

CHINA READY TO CONFRONT THEM ALL.

London Papers Take a Very Gloomy View of the Probabilities of Harmonious Co-Operation.

LONDON, July 19, 4 a. m.—While evidence accumulates daily that China has long been preparing a formidable military organization in anticipation of the present conflict and that the area of the rebellion is continuously extending, harmony among the allies, which is necessary to meet such a grave situation, is still deplorably lacking.

Still more alarming news has been conveyed to the Daily Express from Tokio, to the effect that the apparent reluctance of Germany and Russia to consent to a Japanese command for the army corps has led the Japanese Government to delay the forwarding of the division already mobilized.

The Standard, in an editorial says: "It is useless any longer to hide from ourselves the fact that China has declared for war on civilization, and has plunged into the conflict with rabid frenzy. It is equally futile to discuss whether hostilities are being waged by the Chinese Government, inasmuch as it is evident that an administration of some kind exists and is directing the anti-foreign movement. Unless unmistakable evidence exculpating the Peking Government is promptly forthcoming, the powers should treat China as a belligerent state and act accordingly."

A similar line of comment is taken by the other morning papers. All applaud the course of Count von Hulow, the German Foreign Secretary, in stopping cipher telegrams from the Chinese Legation in Berlin, and all urge the other powers to follow Germany's example.

The Russian general staff denies the report that the Chinese have captured Biagovitchensk, capital of the province of Amur, and it is reported from Irkutsk that the Russians have taken Aigun.

The first Boxer proclamation has made its appearance in Shanghai. It declares that K'wan, the war god, desires the blood of foreigners and threatens to plague if the Boxer tenets are not followed and spread. The Governors of the provinces of Hunan, Hupeh and Honan have now openly joined Prince Tuan and are marching overland with their armies to Peking.

The German column sent into the interior of the province of Shantung to endeavor to rescue a party of thirty missionaries, German, American and English, has returned without having obtained any tidings of their whereabouts, and it is feared that all have been slain.

THE RALLY CALLED OFF. Rally called off at 11:30 a.m. The Republican rally set for this evening has been called off.

HOW WONGS EXPRESS SORROW. Say That the Empress Dowager Should be Punished.

The members of the Bow Wong Association expressed the greatest sorrow over the news of the massacre of the foreign representatives in Peking. L. Y. Lamsal, assistant secretary of the Bow Wongs, said: "We sincerely regret that the Boxers and their leaders have been guilty of such an outrage. It demonstrates to what desperate ends the men of the anti-foreign element will go to hurt those whom they do not like. Not only should the perpetrators of the outrage be punished but the leaders and the Dowager Empress especially should be made to suffer for inciting the populace to murder. We do not, of course, approve of any dismemberment of China and do not, moreover, think that the Powers contemplate such a course. This act of the Boxers shows the necessity of the reform element being put into power."

JOINS WITH GREAT BRITAIN AND GERMANY.

Military Operations and Indemnity Claims Must be Kept Separate From Claims for Territory.

CHICAGO, July 18.—The Tribune's Washington correspondent says: The United States has informally notified the other powers that this country must hereafter be reckoned with in all steps taken either for the pacification or partition in China. In furtherance of this policy it is believed the United States, Germany and Great Britain have taken a determined stand and have, in effect, though quite informally, said to the other powers that the action taken to punish the Chinese for the massacre at Peking and all operations of the allied army must be entirely independent of questions of territory. The three nations mentioned are understood to have declared their intention of insisting that the movement of the troops by no nation shall constitute a claim upon territory by the mere fact of occupation.

So far as can be learned the United States, Germany and Great Britain not only declare, but are prepared to insist that all claims for indemnity, both financial and territorial, must be held in abeyance until the joint military operations are concluded. This understanding on the part of three great military powers has been quite sufficient to quiet the situation, and Japan has already landed its army corps on the distinct understanding that it will be fully paid for its extra exertion, but that neither Japan nor Russia, nor any other nation will be permitted to profit by the situation which has been created by a horrible attack upon the diplomatic envoys of all nations. The understanding referred to, while only a tacit one thus far, is believed to be quite strong enough to dominate the situation.

Most of the diplomats now here called at the State Department today, including the German, French and Chinese representatives, and it is believed they were fully informed of the general understanding by the powers to get to Peking as soon as possible, make the future of the future government of that country by a peaceable congress of all the civilized nations, large and small.

OFFICE SUPPLIES ARRIVE

POSTOFFICES WILL NOW BE WELL EQUIPPED.

Big Lot of Stamped Envelopes For All Islands, and Material for Presidential Offices—Mr. Flint.

Postoffice Inspector M. H. Flint this morning received nearly a carload of supplies from the department in Washington for the offices in the Islands. They will be landed as soon as possible and will be distributed as required.

One thing in the lot is an immense supply of stamped envelopes of all denominations. United States Post Office stamps are in abundance. Heretofore only a small quantity of two-cent envelopes were available, so that many people were frequently inconvenienced in the use of stamps. Mr. Flint states that he is gradually getting everything straightened out, and hopes that very soon the postoffice system throughout the Islands will be in perfect running order. There were so many changes to be made to make the system conform to that of the Mainland, that an immense amount of very hard work had to be done.

KANG YU WEI WOUNDED. LONDON, July 15.—The Singapore correspondent of the Express says: A Japanese recently made a determined attempt to murder Kang Yu Wei, the exiled leader of the Chinese reform party, who is here under British protection, and who is always accompanied by four Sikh guards. These followed the attempt and arrested the assailants, but Kang Yu Wei was badly wounded. There have been many attempts made to murder Kang Yu Wei by poison in order to gain the price set upon his head by the Chinese.

ONLY DELEGATES ON THE RIO DE JANEIRO

Republicans Get Up Decorations Provide a Band and Big Reception for the Benefit of Democrats.

John H. Wise and J. Hoyt was the only delegate who returned on the Rio this afternoon. There was a large crowd of Republicans on the wharf to meet them with a band secured by the Republicans and the wharf was brilliantly decorated by members of the Republican committee. Colonel Fisher and a few other impatient members of the committee, went to meet the steamer in a launch, which was bright with yellow leis and other decorations. Outside the harbor they made the discovery that the lonely Democrats were committee-men on board, and they returned to the wharf to tell the disappointing news.

The passengers on the Rio wondered what it was all about, when they saw the bright decorations on the wharf and heard Berger's band greeting them with patriotic airs. There was a banner stretched across the wharf with pictures of McKinley and Roosevelt, which was the only feature of the reception that was not appropriate to the home-coming of Johnny Wise, except the fact that the crowd had a strong Republican flavor. There was a general laugh at the expense of the band and those who had secured and made the decorations, when it became known that Wise and Hoyt only had come.

The disappointed Republicans, who admitted that the laugh was on them, began to take down decorations before the steamer had docked. But Berger was not so easily discouraged. He had come to give a concert and he gave one. When Johnny Comes Marching Home was given while the steamer was being brought round and "John Brown's Body" while the men on board were preparing a gangway for the delegate so signally honored to walk ashore. Mr. Wise took the honors modestly. He admitted that it was a great reception for one single delegate, and the followers of Bryan and Stevenson have not yet done thanking the members of the Republican committee for the preparations.

There was a brightly decorated rig at hand for the delegates to ride up in. Wise and Hoyt were triumphantly escorted to this rig and given a place in it, after which the happy Democrats filled the rear of the seats and rode up town, cheering their returned heroes.

ALLIES DRIVE CHINESE FROM THE CITY.

Americans Lose Heavily in the Attacks—Japanese and Russian Forces Also Suffer—Former Defeat Retrieved.

LONDON, July 18.—Dispatches received during the last twenty-four hours have signalled a doubtful prospect for the ability of the allies to hold their ground at Tientsin. The Chinese were routed on Saturday and the European forces, with the American and Japanese contingents, occupied the native city and its defenses.

LONDON, July 17.—The Daily Mail today gives the Associated Press the following dispatch from its Shanghai correspondent, under date of July 17, telling of the final rout of the enemy: "The allied troops resumed the attack upon the Chinese walled city of Tientsin on the morning of July 14, and succeeded in breaching the walls and captured all the forts. The Chinese were completely routed, and the allies took possession of the native city and its defenses. The total losses of the allies in the engagement of Thursday, Friday and Saturday, were about 800 killed and wounded. The casualties were the greatest among the Russians and Japanese. The Americans lost nearly a third of the total number."

SUMNER SAILS. SAN FRANCISCO, July 17.—The transport Sumner, with the Fifteenth Infantry on board, sailed today for China via Nagasaki.

NO EXTRA SESSION. WASHINGTON, July 17.—The President has determined that the facts now known to us do not require or justify calling an extra session of Congress. Should future developments indicate that he is unable to do what is required with the means now at his command and the action of Congress is necessary to furnish ethical aid, money or authority, he will not hesitate to call it together.

AMERICA QUICKLY MOBILIZING TROOPS.

Gen. Miles Favors Sending Men From the Philippines to China Instantly—All Available Steamers Chartered.

WASHINGTON, July 16.—General Miles had a conference this afternoon with the Secretary of War concerning the dispatch of reinforcements to China. No statement could be secured, but it is understood that Miles strongly urged that the troops be withdrawn immediately from the Philippines to form a large army could be thrown into China within a comparatively few days, instead of awaiting the slow processes of assembling an army in this country and Cuba and getting it to China. The troops in the Philippines could make the trip across to China in about a week, while the dispatch of troops from this country will take more than a month, and the men can hardly be in the field until September.

Notwithstanding General Miles' recommendation, the apparent policy is to forward troops to China from this country and Cuba as fast as they can be assembled. SAN FRANCISCO, July 17.—Most of the American vessels of large size now calling at Honolulu will be chartered by the Government to take troops to China. It is supposed to land 25,000 men direct from the Mainland on Chinese soil within the next sixty days. Negotiations for transports are now going on with the big companies on the coast.

The Pacific Mail has offered the China, 1,250 men; City of Peking, 1,200 men; City of Sydney, 1,100 men; Newport, 900 men; City of Paris, 750 men. The Northern Pacific has offered the Glenage, 900; Tacoma, 800; Victoria, 750; Olympia, 350. The Columbia has been purchased by the Government, and will take 800 men.

It is understood to be the intention of the War Department to handle the troops and freight equally through Puget Sound boats and San Francisco. The expectation is that all will call at Honolulu. MANILA, July 16.—Two battalions of the Fourteenth Infantry and Dugan's battery of the Fifth Artillery have left for China by the transports Indiana, Flintshire and Wyfield. The expedition will join the Ninth Infantry, carries 500 rounds of ammunition to a man and a reserve of 1,000,000 rounds, together with medical, subsistence, stores and clothing for 5,000 men for three months. They also take two seven-inch mortars and two six-inch howitzers, with ammunition. The hospital ship Republic is going to China.

SAN FRANCISCO, July 17.—The transport Hancock has been ordered to return to Nagasaki with all possible haste. The transport arrived here last Friday night and it was expected that she would remain for a month at least. She is ready for sea, save coaling, and it is said she will get out in a few days. She will go direct to Nagasaki and carry 500 marines and four battalions of artillery, the latter being now at the Presidio.

SUMNER GOES DIRECT. The transport Sumner has gone direct from San Francisco to China. She took with her the Fifteenth Infantry, which was hurried away with all possible dispatch. The men were not kept an hour in San Francisco, being placed on the steamer with all possible dispatch when they arrived.

THE EXTRA STAR. The extra Star told the news of the horrors in China to the people of this island from one end of it to the other. With the first Coast papers secured from the transport Californian from the preparation of the extra edition of the Star began, and by a few minutes after 9 o'clock the complete story of the late tragic and awful happenings in China was being read all over town from its columns.

ONE IS REQUIRED OF GOVERNOR DOLE.

Interior Department Wants to Know All About the Islands in Past Two Years—Difficulties in the Way.

Governor Dole will have to make up a most elaborate report for the central government this year. It will combine all of the details of conditions here upon which any inquirer could possibly desire information. The report will have to be submitted as soon as it can be prepared.

The instructions in regard to the report came by the mail this morning from the Secretary of Interior. A letter covering two pages of type written matter explains the instructions. Mr. Dole is asked to report on conditions of business, values, lands, land transfers, railroads, all legislation, population, nationalities and everything else since July 7, 1898. It is not hard to see that the task at this time is an immense one. As the reports from the departments and bureaus will not be filed until January, it will be difficult to get at some of the data required.

United States requires that Governors of Territories make reports annually. The difference with Governor Dole is that his report must be for two years and must be made between times, as it were, or at about the middle of the Hawaiian government year.

To get up the information the Governor will probably have to ask bureau heads for advance reports.

SHOT TO SAVE TORTURE

ADMIRAL SEYMOUR FORCED TO EXTREMEITY.

When No Longer Able to Carry His Wounded They Were Shot to Save Them From Torture.

NEW YORK, July 15.—The Journal's Tientsin cable of July 8, via Shanghai, July 15, says: "We are fighting hordes of Chinese day and night, but are unable to beat them off. It is unfortunately true that the allied forces have suffered repeated defeats. The cordon of Chinese around us is growing closer. Chinese guns are raining a deadly cross fire on us from their entrenched position, commanding the town. We are desperately in need of heavy artillery and ammunition. No quarter is given or asked on either side.

Ineffectual attempts have been made to conceal the horrible fact that Admiral Seymour was compelled to shoot his own wounded during the recent retreat. The bodies of the Chinese who were shot to save them from torture, were found to have been cut into pieces. Then the cheeks, arms and legs cut off, until death ended the sufferings of the poor fellows.

OUTBREAK AT CHE FOO. NEW YORK, July 16.—A dispatch to the Journal and Advertiser from Che Foo says: "The guns of the British cruiser Terrible and the American gunboat Nashville and the other warships in the harbor were trained on the city Saturday in answer to urgent messages sent from shore that an outbreak was about to take place. 'All the foreigners were called out for defensive guard duty, and they responded with alacrity. Sentries were posted and close watch kept on the natives. 'The men on board the ships kept close to their guns and prepared to open fire on a moment's notice, but the occasion did not arise.'

REPUBLICAN COMMITTEE. CLEVELAND, July 15.—At noon Senator Hanna announced that the following named had been chosen as members of the Republican national executive committee: Graeme Stewart, Illinois; Henry C. Payne, Wisconsin; Richard C. Kerens, Missouri; J. H. Amory, Maine; N. B. Scott, West Virginia; Fred S. Gibbs, New York; Franklin Murphy, New Jersey; Harry S. New, Indiana; chairman, M. A. PEKING MURDERS STREET TOPIC TODAY.

Awful Details From the Orient Discussed by All Nationalities—Honolulu May Offer Men for War.

The one street topic today has been the awful news from China. It has been discussed in all groups of busy men, on the Stock Exchange, in the Government offices and to the ends of the city. The faces and opinions of Chinese have formed a peculiar study. While not taking the same degree of interest in it as in the massacre of their own kindred a few weeks ago the reformers unanimously deplore the fate of the Peking legations. At the same time there appears to be among them a feeling of hope that the catastrophe of July 7 in Peking opens the vista to their fondest ambition, that of reform in China and the institution there of a modern government.

The Empress Dowager is endeavoring to make it appear that Prince Tuan, who now seems to be in control, and whose troops caused the death of all the foreigners in Peking, is opposed to the end of the Empress' government. The reformers deny that such is the case, and charge that the Empress and the Boxers are in league. At the same time Minister Wu, at Washington, believes that the ascendancy of Tuan will mean the end of the Empress' government. He states in the Examiner of July 17 that he believes Tuan is in control of the government. If this be so he will likely leave Washington. This will mean that Yang Wei Pin, the local reformer, will shake the dust of Hawaii from his feet as soon as possible.

The general opinion about town is that the United States should send more than 20,000 men to China at once. With those already on the way and now there the total American force would be something like 25,000. Mainland papers are calling loudly for a special session of Congress and a declaration of war. Offers of troops are pouring in from every State. A half million volunteers for the service could be procured without trouble.

Following the offer of Honolulu Germans of 250 men for service in China, Americans are discussing the matter of making an offer to the Washington government, and it is believed that the English will follow suit. A prominent enthusiast on the subject of an American contingent said this morning that an offer of 200 good men would probably be forwarded by the Peking.

If war is declared it will ensure the election of McKinley and Roosevelt, as the conservative people of the country will cross party lines and support the administration in the middle of the trouble.

CHINA RELEAS.

LONDON, July 16.—The Shanghai correspondent of the Express says: "All China is now aglow with the revolt against foreigners. Only in the extreme west is there quiet. Every port, even Shanghai, is menaced. In the provinces of Hupeh and Hunan thousands of native Christians have been mutilated and tortured, the women first being assaulted and then massacred."

AFTER CULLOM'S SEAT. Col. Frank Lowden, Pullman's Son-in-Law, Seeks It.

CHICAGO, July 15.—Col. Frank O. Lowden, son-in-law of late George M. Pullman and manager of his vast estate, has been picked up to make the race for the United States Senate next winter against Senator Shelby M. Cullom. He will be backed by the Lorimer-Jamieson-Haney wing of the Cook county organization, and by that part of the state organization which still follows Governor Tanner.

INSURANCE IS SAFE. Insurance companies like the Provident Savings Life Assurance Society of New York conduct their business on scientific lines and, have, therefore, a basis for estimating their losses that does not exist in any other kind of business. They know exactly what income must receive in the form of premiums to make their policy holders secure. As a business, when conservatively managed, life insurance is the safest of any form of financial enterprise. J. R. Burns is the resident manager of the Provident Office in Old Government Building, Merchant Street.

NEW STEAMER CALIFORNIAN ARRIVES.

Was Chartered Immediately After Her Trial—One of the Largest and Best Tramps Afloat.

The new tramp steamer Californian was chartered by the Government immediately after her trial trip, and she arrived here this morning on her way to the Philippines with army stores, being on her first voyage. The Californian had a trial trip with freight aboard just before she left for Honolulu on the 17th of this month. She behaved splendidly, and has kept up the same record ever since. The run from San Francisco to Honolulu was made without a stop at about ten and a half knots speed, the vessel slowing up at noon yesterday to avoid arriving here during the night. She was sighted from Koko Head shortly after four o'clock. The Californian is in command of Captain Morrison, who came from New York to take charge of her when she was launched at the Union Iron Works, San Francisco. She is one of the largest and best tramp steamers in the world, having cost half a million dollars. She is one of four such vessels being built by the Hawaiian-American line, to run from New York to San Francisco and Honolulu. It was the intention to begin the service at once, but the Government took the Californian when she was ready for sea, and the steamship company will have to postpone its contemplated new service. With the exception of the Alcoa, the Californian is the largest tramp that ever came here. She can carry about 10,000 tons of freight by measurement, and 8,500 tons dead weight. She is 435 feet long, 51 feet beam and 30 feet deep. Her trial speed was 11 knots. Her gross register is 4,597 tons.

Some of the officers of the Californian are well known here, having been to Honolulu on other steamers. Chief Engineer W. Chisholm and First Assistant R. Donaldson were both in the Senator, and Second Assistant Lasswell was in the Australia for some years. Frank Turner fills the berth of chief officer. E. M. Huie is the quartermaster's clerk on board, and A. J. Smith is the necessary clerk. After taking about 300 tons of coal here the Californian will leave for Manila. She has about 4,000 tons of stores on board. The big steamer is at the end of the Pacific Mail wharf.

CORONER'S JURY.

E. Paris, Frank Kruger, D. G. Camarinos, H. Walker, J. McInerney and W. Blaisdell were called as jurors yesterday in the case of the native Enoka, killed while working at the schooner Robert Lewers. They found that death was accidental.

THANKS TENDERED.

Mrs. Martha Colburn wishes to thank the ladies and many good friends who so kindly gave her the invalid chair of which she has just been the recipient.

MR. REYNOLDS' MISSION.

Will Round Up Patients on Hawaii for The Molokai Settlement.

C. B. Reynolds' trip to Hawaii is more important and particular than many suppose. For two or three years there has been complaint that arrest of persons who should go to Molokai was not being properly attended to by deputy sheriffs. The marshal at that time explained that some of the deputy sheriffs were related to patients, and for various reasons were probably intentionally lax in enforcing the law. It was a problem to handle in view of all the circumstances.

Mr. Reynolds' purposes going all around and gathering up all the patients to be heard on the Island. They will be sent to Molokai as fast as possible. Most of them will, of course, have to come to Kailhi for examination. It is not supposed that there are a great number at large on the big island though their exact situation is not positively known.

SPRAINED AN ANKLE.

Robert Carlisle, formerly a hackman and lately a barkeeper at the Anchor saloon, was thrown from his bicycle on King street late yesterday, and sustained a seriously sprained ankle. He was taken to the hospital and will be laid up for some days.

ADMITTED TO BAIL.

The hackman who ran over Horace Crabbe at the corner of King and Bethel streets, has been admitted to bail in the sum of \$500. The case will not be tried in the District Court until the injured man is well enough to tell his story.

AMERICAN SENSITIVENESS.

The sensitiveness of Americans over the naturalization of their nationality in foreign countries must surpass that of any other people. Only on this territory can you account for the attention given to the naturalization as a British subject of the son of the late Marshall O. Roberts of New York. The young man had been reared in England, he intends to live there, and his mother had taken an English colonel for a second husband, so that he had every reason for changing his allegiance. Yet the Chicago papers not only had the cable-telegram from London, but specials from New York giving the Roberts family history.—Springfield Republican.

Aisen Portland Cement

WE HAVE JUST RECEIVED a large shipment of this celebrated Cement, which is the STONGEST AND MOST SERVICEABLE CEMENT MADE, and will permit the admixture of a larger amount of sand or gravel, with less loss of strength, than any other brand; it is therefore the most economical.

AISEN has no equal in color, fineness and sand carrying capacity. It weighs less per bushel, measuring about 10 per cent more cement to a barrel than other brands, which very materially reduces its cost as compared with other cements is therefore an economical cement to use, and specially adapted for fine concrete work.

The following tests, made in actual work by Col. D. C. Houston, Corps of Engineers, U. S. A., at the seawall around Governor's Island, New York Harbor, has never been equaled by any other cement. It is as follows: Tensile strength per square inch—One day, 384 pounds; seven days, 600 pounds; thirty days, 818 pounds.

For sidewalks it gives the best color and the most durable wearing surface. A few of the large contracts in which Aisen Cement was used: Cable R. R., Baltimore, 35,000 barrels; Quebec Harbor Improvement, 20,000 barrels; Northern Pacific R. R. bridges, 20,000 barrels.

ALLIES SEVERELY REPULSED AMERICANS LOSE HEAVILY AT TIENSIN.

Colonel Liscum of Ninth Infantry, Killed at Head of Troops—Chinese Displayed Accurate Marksmanship. TIENSIN, Friday, July 13.—In today's combined attack upon the native city over forty guns bombarded the Chinese positions. The fighting was most determined, and the allied forces lost heavily. Eight Chinese guns were captured and the Chinese were driven out of the west arsenal after a fierce cannonade. A strong mixed force is now close to the walls, and it is expected that an assault will be made tomorrow.

The Americans suffered terribly. As the Associated Press representative left the field the Chief Surgeon of the Ninth Infantry said a conservative estimate was that 25 per cent of the Americans were hit. Col. William H. Liscum was killed when he was walking in front of his troops. Major Regal and Captains Buckmiller, Wilcox and Noyes are among the wounded. The marines' losses included Captain Davis killed, and Butler, Leonard and several others wounded. Officers died because it was hotter than Saratago. When the correspondent left the Americans were lying in the plain between the wall and the river under an enflaming and a direct fire. It was equally difficult for them to advance or retire. The correspondent counted 300 wounded men of all nationalities. NEW YORK, July 16.—A Sun cable from Shanghai, July 17th, says: The Chinese were fully prepared for the advance of the allies, who, on approaching the wall, were received with a tremendous rifle and machine gun fire, the guns being carefully concealed. The foreigners being swept down in lines and though the attack was renewed again and again, it had eventually to be abandoned after a final determined struggle, lasting six hours. The Chinese fought with great skill and courage. They handled their cannon in the ablest fashion, and their rifle marksmanship was most deadly. The brunt of the fighting on the allies' side was born by the Americans, Russians and Japanese, who lost severely. The Russian casualties were over 100. The allies are now awaiting further reinforcements from Admiral Remy. It is believed that at least 120,000 men will be necessary before an advance on Peking is even contemplated, and then it will hardly be possible to set out for two months, owing to the flooded condition of the country. The position of the foreigners in Tientsin, meanwhile, is becoming daily more critical. The native forces are rapidly increasing until now it is believed that they number little short of 100,000. It is with the greatest difficulty that the allied forces can hold their ground.

WASHINGTON, July 16.—The Navy Department this morning received official confirmation from Admiral Remy of the reverse of the allied forces at Tientsin on the morning of the 13th. The dispatch is dated Crefoo, July 15th, and says: "It is reported that the allied forces attacked the walled city on the morning of the 13th, the Russians on the right, with the 9th Infantry and marines on the left. The losses of the allied forces were large; Russians, 100, including an artillery colonel; Americans, over thirty; British, over forty; Japan, fifty-eight, including a colonel; French, twenty-five. "Colonel Liscum, Ninth Infantry, was killed; also Captain Davis of the Marine Corps. "Captains Lealy and Lieutenants Butler and Leonard were wounded. "At 7 in the evening the allied attack on the native city was repulsed with great loss. Returns yet incomplete; details not yet confirmed. REMEY." LONDON, July 17.—The Shanghai correspondent of the Daily Mail sends these details of the reverse of the allied forces at Tientsin, in which the Ninth United States Regiment suffered severely. Colonel Liscum, the commanding officer, being killed while leading his troops. "Sniping and shelling during the last few days has been so persistent that the allied commanders met and decided to attempt storming the walled city on the morning of July 13. "It was hoped that the attack would be somewhat of a surprise, but the Chinese had evidently been forewarned by spies that something more than an artillery duel was impending, for when the troops approached the wall they found the enemy's fortifications manned by thousands of Chinese. The latter were equipped with modern guns, both heavy and machine. These had been cleverly mounted on the walls, and the presence of them was altogether unsuspected. Chinese fire almost mowed down the attacking force. "Col. Liscum was killed at the head of his regiment. Besides the casualties already reported there were over 300 of all nationalities wounded, including among the Americans, Major Regal, Captains Buckmiller, Wilcox and Noyes. It is to be feared that a great many of these who were badly wounded were killed by Chinese, for despite the efforts to carry off all the injured, and the enemy gave no quarter. "Another Shanghai dispatch says the attack was made for the purpose of capturing a Chinese battery. The allies were repulsed with the loss of more than 100 whites killed.

NEW YORK, July 16.—A World special from Washington says: One of the highest officials of the Army, who, for obvious reasons, did not wish his name published, said to the World: "The serious thing about this Tientsin battle is that the allied forces have made the same discovery that the British did in their conflict with the Boers. They find they have underestimated their foe, who is found to be equipped with the latest arms of precision and imbued with fanatical fanaticism that makes him utterly disregardful of death. "This will be the most serious general war since the days of Napoleon, and one into which the United States is bound to be drawn if the news of the atrocious treatment of the American Minister and other Americans be confirmed. Not to avenge their deaths would humiliate us in the sight of the whole world, civilized and barbarous.

THE STATISTICS. The important statistics of the convention are those which show the length of time different men and things were chased. It seems to have been a crowd of awful lung power. Hill got cheered 15 minutes, Bryan 29 1/2 minutes and the imperialistic plank of the platform 22 minutes.—Springfield Republican. Fine Book and Commercial Printing at the Star Office.

A DEATH SHRIEK IN THE AIR.

Never since news of the massacre at Cawnpore has the Western world been so horrified as it has been by the account of the murder of the ambassadors and other foreigners in Peking. Their blood cries aloud for vengeance to the western powers and vengeance must be taken sure and sharp. As one thinks over the accounts the full horror gradually deepens. Consider those dignified gray haired men, the representatives of the mightiest powers upon earth, isolated from their countrymen, surrounded by a howling mob of human demons, and as the only resource to save their wives and daughters from a fate too horrible to contemplate, calmly taking the lives of those who were nearest and dearest to them. They could not protect their lives, but they could give them the protection of death, the last and only act of kindness. It was heroic, it was grand. It is a memory to be treasured among the most noble, though the most harrowing, in the history of the century.

The western world will pour its forces into China, but it will be no child's play this punishing a nation of 400,000,000 people. China is aflame with fanaticism from one end of the empire to the other. Its population may break its bounds and pour into Siberia and Central Asia, and the Western world will be facing what the old world faced in the eruption of Genghis Khan, Tamerlane and Attila with his Huns. We have considered ourselves so strong and now we suddenly find that we are weaker than we had any idea of.

In the general cry of "to arms!" which is now resounding through the world Hawaii can join. We have young men who are acquainted with the use of arms. We have officers who have had experience in leading men. Why should not the Territory of Hawaii raise its quota of men to join the army of the Republic in avenging the death of our brethren in China. A force of rough riders could be raised here fully one thousand strong, and we can feel sure that they would add the first laurel to our military renown. This is a matter in which all can join. We are the outwork of Western civilization, and we should be ready to spring forward at the first alarm cry. That cry rings in our ears. The death shriek of the matron and the maid swells in the air and sweeps across the Pacific demanding vengeance. Who can turn a deaf ear to the cry. Certainly not the loyal and chivalrous youth of this Territory. The blood of our murdered countrymen summons us to arms!

The coming ratification meeting will be a great political event. The organization of the affair has been carefully planned and promises to be very efficiently carried out. The speakers will give short, pithy addresses, and the Republicans will be out in force to hear them.

The German residents on the Islands propose to send a contingent to China if the German Emperor will accept of their services. A few of our boys have smelt powder in the Philippines with the United States' forces, but this will be the first time that a fighting contingent, fully equipped, has left our shores. No doubt the Hawallo-German contingent will give a brilliant account of itself.

NEW STEAMER LINES.

The question of beer seems likely to lead to our having a line of steamers direct to Seattle. The beer trade is a very considerable one, and has been carried on via Victoria. The only way now is via San Francisco, and the capacity of the vessels which can carry the article, are not adequate to the trade.

There is no doubt that the carriers between here and the ports of the Mainland are not able to cope with the amount of traffic which has to be carried on. Mere passenger accommodation is totally inadequate and the vessels are crowded both ways, many people being left behind at both ends. As for freight it is terribly congested, and a great deal has to be left in San Francisco every trip of the steamers.

Demand always brings supply, and we may expect that a number of new vessels will be put on. The Cape Nome trade has monopolized a very large fleet, but by the end of August or the beginning of September that trade will be over for the season, and steamers which have been engaged in it will be available for the Hawaiian trade. This will tide over the time until the new steamers are ready. You cannot build a steamer in a day, and when a revolution in carrying conditions occurs, such as has occurred here, there is bound to be a period when things cannot go on smoothly.

A very important line which is proposed and is in course of construction, is the cold storage steamer which

will engage in the meat trade, bringing beef, mutton and poultry from California, and returning thither with fruit. This will give a stimulus to our small farmers which will prove a surprise. We can raise all the tropical and sub-tropical fruits that the Pacific Coast can consume, but with the exception of bananas, we have been unable to get our products to the Mainland. With cold storage, alligator pears, mangos and pineapples can be put on the San Francisco market in first class condition, and fruit which we now throw away, will be available for profit.

HIS LITTLE GUN.

Consul Yang Wei Pin seems to have been investing in guns according to the newspapers. Why should he invest in these expensive tools. He certainly has no experience of them. If he was ready to protect himself, he need not have applied for the police protection which he now has. With Policeman X patrolling the premises and Consul Yang ready with his revolver it would be a very courageous Bow Wong, who would dare to disturb the consul's sleep, or even to attempt assassination in the most secluded spot.

As a fact the Bow Wongs could have no more serious set back than anything happening to Consul Yang. He is practically their sheet anchor, because they want to show to the world that they are not what they have been represented to be. To hurt Consul Yang would be to hurt their own cause. Of course Consul Yang would be only too pleased to be assaulted, if the assault were not too great.

If Consul Yang has armed himself with a revolver, he may be left to take care of himself. The man who takes his own protection into his own hands needs no protection by the police. Of course Consul Yang could not make his request for police protection upon diplomatic grounds. The Territorial Government has nothing to do with diplomacy. It has only to do with keeping order within its borders. If Consul Yang Wei Pin wants redress he will have to go all the way to Washington. Whatever measure of protection is given to Consul Yang is given to him, not in his official capacity with which we have nothing to do, but as any ordinary citizen. Just now representatives of the Chinese government are not very popular either in Washington or anywhere else. Yang had better get into a hole and pull it in after him.

AN UNPLEASANT SUBJECT.

The crusade which seems to be starting out against hackmen who act as procurers is eminently on the side of social purity. There is no doubt to any one who knows anything of the lower stratum of life in the city, that certain of these men have reaped a festering harvest from one of the most unworthy lines of business which any one can undertake. The prostitute herself is an angel compared to the blackguard who procures, and takes his toll from her poor wages of sin, and fleeces her fellow sinner.

Some of these men have built up considerable sums of money from their dirty work, have invested their ill gotten gains in paying enterprizes and are reaping the advantage in the shape of dividends from good investments. By and bye some of them will become members of a church, and grow into pillars of sanctity. It is often amusing to see the sinner accepted as the saint. It often depends upon the size of his pocket book.

But to return to the main argument. There is no doubt that hackmen are used in this community for immoral purposes. That some of these men make a business of carrying on an immoral trade and that the mere driving for hire is only a cover for their disgraceful trade is, one may say, practically a well known thing.

Of course one must not put too much blame upon the hackman. He is or was in the first instance tempted himself by the bribe of money, and money clouds many consciences far above that of the ordinary hackman. The law only reaches the hackman, what the law should reach is the man who hires the hackman to do his dirty work. But in matters of this kind the law is very uneven. It very seldom reaches the real sinner. Even the old puritans were unable to frame a code which reached him. Perhaps some day a Legislature of Sinners may find a way for getting the true sinner to start on the path of righteousness.

What has become of wireless telegraphy? It is a very long time materializing. It was to have been ready June 15, then July 4, and now, who can tell?

Gratitude seems to be an unknown quantity in some quarters. Indeed, virulent hatred appears to be in inverse ratio to the benefits conferred and the kindnesses shown.

The extension of the streets is a very necessary improvement in our local advancement. There has been considerable progress in this direction during the last few years. The extension of Fort street will, it is to be hoped, be carried out soon, as it will afford an outlet for the traffic from Pauoa, which at the present time has to pass along the Pauoa Valley road.

The old Judiciary building has had a very thorough renovation. The federal officials will find themselves quite comfortably housed. If ever a public building needed being put in order, the Judiciary building was a case in point. The building, itself, is good enough, the rooms are large and airy, but the wood work was in many cases honeycombed by white ants, and the walls and floors required painting and cleaning.

SULU MAKES TROUBLE.
WASHINGTON, July 14.—The Sultan
of Sulu has been giving the military
authorities at Jolo some trouble. The
Sultan objected to the Americans send-
ing armed troops through the provinces
under his jurisdiction. Major O. T.
Sweet, Twenty-third Infantry, who is
in charge of the Jolo garrison, had
planned a series of practice marches to
keep his men in condition, and incident-
ally to exhibit his troops to the savage
inhabitants.

GOULD FOR CONGRESS.
NEW YORK, July 14.—George J.
Gould has political ambitions. He will

THINK OF THESE THINGS.

If we cannot eat we starve. Every-
body who does not die of violence
finally starves to death. "In nearly
all disease," says an eminent physi-
cian, "starvation is the final cause of
death." It is not the food on the
table, but the food you eat and digest,
that nourishes you. In all wasting
complaints the appetite and diges-
tion weaken or fail and the body
fades away. The true remedy must
be one which at the same time in-
vigorates the digestive powers and
acts, in and of itself, as a food. It
must build up the body faster than
it is destroyed and also stop the ten-
dency to wasting by curing the dis-
ease. The researches of modern sci-
ences have placed such a remedy
within our reach; and the wasting
diseases, which have so long been the
terror of the human race, yield at
once to the healing power of

WAMPOLE'S PREPARATION.

It is palatable as honey and contains
the nutritive and curative properties
of Pure Cod Liver Oil, extracted by
us from fresh cod livers, combined
with the Compound Syrup of Hypo-
phosphites, and Extracts of Malt and
Wild Cherry. The palate accepts it as
it does sugar, confectionery or cream.
You don't have to force it down the
children; you don't turn away from
it yourself. The action of this effec-
tive remedy is prompt and its effects
permanent; taken before meals it
goes to the very secret stronghold of
all digestive disorders. Prevents and
cures Fevers, Scrofula, Rheumatism,
Bowel Complaints, Anemia, General
Debility, Throat and Lung Troubles,
and all diseases due to impurity of
the blood. No slow or doubtful ac-
tion. Effective from the first dose.
"You cannot be disappointed in it."
Sold by chemists everywhere.

AMERICANS WIN.

PARIS, July 14.—A band of American
athletes swept all before them in the
international games today, winning
heat after heat and event after event
in such superior style and with such
consummate ease that, with few ex-
ceptions, the best of Europe's men se-
cured hardly a place.

PARIS, July 15.—Although deprived
of the services of some of her best ath-
letes, who declined to contest in today's
events of the world's amateur cham-
pionships in the Bois de Boulogne, ob-
jecting to Sunday competition, America
won eight out of ten of those decided,
gaining five-second positions and four
thirds.

NEED MORE TROOPS.

Calls From All Parts of Philippine for
Garrisons.

MANILA, June 12.—"More soldiers" is
the demand which is coming to General
MacArthur from every department of
the islands. Recent events have worked
to vindicate General Lawton's judg-
ment that 100,000 troops would be need-
ed to establish American sovereignty
over the Philippines. Until they at-
tempted to hold provinces of 200,000 or
300,000 hostile people with a regiment or
two the American commanders hardly
realized the size of the Philippine is-
lands.

Pure, Rich Blood

Gives Appetite, Tones Up the Nerves.

When the blood is bad everything is
bad. There is loss of appetite, great
depression, the nerves are weak, no
energy, the face is pale, and there
is loss in flesh. Mrs. Annie Power,
of Spring Hill, Brisbane, Queensland,
sends us her photograph and says:

"I have suffered greatly from loss of ap-
petite, great weakness of the nerves, thin blood,
and from the trying climate of this part of the
country, especially during the summer. I
have used

AYER'S Sarsaparilla

with perfect satisfaction for these troubles.
Other members of my family have taken it
and many of my friends. I believe it to be
the best family medicine there is in the
world."

If you are constipated, bilious,
tongue coated, or if your food does not
digest well, take Ayer's Pills.

FRENZIED BOXERS MUTILATE
HELPLESS VICTIMS.

Women and Children Suffer Death by
Appalling Tortures—The Legation a
Slaughter Pen After the Capture.

LONDON, July 16.—This dispatch
from its special correspondent is pub-
lished by the Daily Mail.

"Shanghai, Sunday night (urgent)—
I deeply regret to have to confirm ab-
solutely and fully the announcement
which I cabled on Friday to the effect
that the Legations in Peking were de-
stroyed on the night of July 6-7 and
all British and Europeans were mas-
sacred. Further official Chinese mes-
sages, one from the Governor of Shan-
tung, were received here yesterday and
Saturday confirming the dread tidings.

"After June 25 the Boxers and Im-
perial troops, especially increased in
numbers and massed themselves about
the British Legation, camping in the
streets and places laid waste by the
Boxers. Daily sorties were made by
the small body of defenders, who met
the Chinese in the streets, inflicting
severe punishment upon them. These
sorties too often took place at night. So
great was the courage and energy of
the little force that they gradually
compelled the Chinese to retreat from
the immediate vicinity of the British
Legation. Soon there began to be open
signs of disaffection and frequent de-
sertions of the troops of Prince Ching,
who was endeavoring to co-operate
with the besieged.

"Ultimately Prince Tuan decided to
make an organized night attack. Having
secured a plentiful supply of ammu-
nition for heavy guns, a conference
of Chinese leaders was held and a regu-
lar plan of attack was agreed upon.
In three powerful columns, with strong
reserves at 6 p. m. on July 6 fire was
opened with artillery upon the British
Legation, where the allies and all the
Europeans had concentrated. For two
hours walls and buildings were batter-
ed with shot and shell, and huge
tranches were made in them. Then a
general advance was ordered, and the
Chinese infantry, volleying constantly,
moved toward the gaps. The fire of the
defenders, however, was so accurate
and steady that the hordes of Chinese
soldiers broke and fled in
the wildest confusion, leaving a large
number of their dead and wounded
around the legation.

"They were not rallied until out of
rifle range. Then Prince Tuan, making
a desperate appeal, induced them to
stand and return to the attack. The
artillery fire was resumed, and at the
middle watch a second attack was at-
tempted; but before the attackers
could accomplish their object they were
met by Prince Ching and General
Wang Weng Shiao, with their troops,
who were going to the aid of the for-
eigners. A desperate battle ensued be-
tween the two forces of Chinese.

"Unfortunately many of Prince
Ching's troops deserted to Prince Tuan.
Prince Ching fell, it is supposed, and
was killed, but search for his body
next morning was unsuccessful. It is
now believed that he was only wounded
and was carried off and secreted by his
faithful retainers. Wang Weng Shiao,
also a gray haired man of seventy, evi-
dently led the troops in person. He was
killed and his force completely outnum-
bered and routed.

"Throughout the night repeated at-
tacks were made on the legation, but
they were invariably repulsed with
heavy loss. Toward the end of the third
watch (about 5 a. m.) the allies had
practically decided the besiegers, who
were wavering and gradually with-
drawing, when General Tung Puh Sian
arrived from the vicinity of Tientsin
with a large force of Kansu braves. By
this time the walls of the legation had
been battered down and most of the
buildings were in ruins from the Chi-
nese artillery fire. Many of the allies
had fallen at their posts, and the re-
maining small band, who were still alive
took refuge in the wrecked buildings,
which they endeavored hastily to fortify.
Upon them the fire of the Chinese
artillery was then directed.

"Toward sunrise it was evident that
the ammunition of the allies was run-
ning out, and at 7 o'clock, as an ad-
vance of the Chinese in force failed to
draw a response, it was at once clear
that it was at length completely ex-
hausted. A rush was determined upon.
The Chinese rushed as the besiegers, re-
solutely, the remaining band of Europeans
met death stubbornly. There was a
hand-to-hand encounter. The Chinese
lost heavily, but as one man fell others
advanced, and finally, overcome by
overwhelming odds, every one of the
Europeans remaining were put to the
sword in a most atrocious manner."

LONDON, July 16.—The Shanghai
correspondence of the Express, on the
alleged authority of couriers who
brought the story, gives a very sensa-
tional account. He says:
"Maddened after having
been without food for many days, the
members of the legation and the guards
made a sortie on the night of June 30th,
and killed 200 Chinese in an unexpected
attack. General Tung Puh Sian, en-
raged over the loss of so many men,
brought up heavy guns, and Prince
Tuan gave the order that every foreigner
must be destroyed. His words were:
'Destroy every foreign vestige and
make China a sealed book to all west-
ern powers.'"

"Prince Tuan had previously discov-
ered that Prince Ching was supplying
the foreigners with ammunition. He
therefore ordered General Puh Sian to
fire on Prince Ching's troops, and it is
reported that Ching was killed or seri-
ously wounded.

"In the final attempt to cut their way
through, the legation's forces formed a
square, with the women and children
in the center. When the Boxers real-
ized that they were being attacked they
became like wild beasts, and shot each
other with revolvers. Heavy guns
bombaraded all night until the buildings
were roasted in the flames. The Boxers
rushed upon them and hacked and
stabbed both dead and wounded, cut-
ting off their heads and carrying these
through the streets on their rifles.
They then attacked the native Chris-
tian quarters, massacred all who refused
to join them, assaulted the women and
brained the children. Hundred of mis-
sion buildings were burned."

NEW YORK, July 16.—A special dis-
patch to the Journal from Shanghai,
giving details of the massacre of the
foreign ministers in Peking, says:

"After having been repeatedly re-
pulsed by the foreigners, Prince Tuan
made a night attack on July 6 in three
columns with artillery, and finally bat-
tered down the walls. The foreigners,
when defeat seemed certain, killed the
women and children so that they might
not meet a worse fate at the hands of
the fiendish Boxers. They first formed
a hollow square with the women and
children in the center, and tried to fight
their way to the gates. It was impossi-
ble.

"Those of the guard who were not
shot down were roasted to death in the
building, which the Chinese burned.
After finishing the butchery of the for-
eigners the Boxers and Imperial troops
set upon the native Christians, and all

were put to death after the most horri-
ble tortures."

LONDON, July 15.—The Shanghai
correspondent of the Daily Mail says:
"I can positively assert that the Chi-
nese authorities had the dreadful news
from Peking a week ago, and that
Sung knew all the foreigners in Pe-
king were dead when he asked the Am-
erican Consul to cable Washington a
proposal to deliver the foreigners in
safety at Tientsin on condition that the
allies would suspend their operations to
the north of Peking."

SHANGHAI, July 15.—There are no
further details of the awful tragedy in
Peking. The Chinese authorities, hav-
ing given the information, are now
alarmed at the effect it has produced,
and are attempting to deny and mini-
mize with the object of gaining time.
The most serious development of the
situation is from Chinese official
sources, which indicates that the Box-
ers have been advised to come South.
They intend to make Ching-Hang-Po,
at the head of the Grand Canal, the
objective point of their operations, who
have started from that place with the
idea of gathering recruits on the way.
This is likely to be the beginning of a
movement directed against the foreign-
ers in the Central South.

An imperial edict, dated July 3, has
been received by the viceroys and gov-
ernors ordering them to begin war
against the foreigners without delay,
and declaring that officers of all ranks
who refuse to obey will be summarily
executed.

The edict continues:
"We are perfectly aware that the
fighting forces are few in your provin-
ces; therefore we have chosen a picked
body of patriots and imperial troops
which will depart south to your assist-
ance."

WASHINGTON, July 16.—An unoffi-
cial report has come to the attention of
the Chinese officials here to the effect
that 3,000 Chinese officials at Peking
petitioned Prince Tuan to protect the
foreigners, whereupon Prince Tuan or-
dered all those who united in the peti-
tion to be killed.

NEW YORK, July 16.—A Sun cable
from London says: Another Shanghai
dispatch says: The Chinese officials here
American had the greatest proportion
of women, especially after the arrival
of the American missionaries who had
taken refuge there. Hence it is known
that the women's legation was among
the first destroyed. When the women
were domiciled at the British legation,
American sailors (supposedly marines
of the Oregon), missionaries and civil-
ians generally, composed the inner
guard, Germans, Russians and Japane-
se doing the outpost work, at which
the Germans were especially active.

Every adult male bore arms. The
women did nursing and cooking, even
assisting in preparing the troops' mess.
After the final sortie by the legation
troops, the attack by the Chinese was
renewed with doubled fury. The fight-
ing was hand to hand. Foreigners who
had been driven back, barricaded the
windows, but the Boxers were able to
reach a low roof, where a few sailors
met them and hurled many of them off.
Some of the sailors dropped to the
ground and stood with their backs to
the wall, standing off the Chinese.

In the midst of the melee Prince
Tuan's artillery opened their awful fire.
By this time the Boxers had not yet
secured any white prisoners, which so
enraged them that they attacked a
house opposite the legation, where na-
tive Christians had taken refuge. These
were dragged forth and subjected to
every brutality. This and other build-
ings were burned.

The streets that night swarmed with
Boxers, smeared with blood and stained
with powder. They carried torches
and ghastly trophies of the day's work.
At the time of the final massacre the
unfortunates who had escaped death in
bottle, and who had been forced back
into buildings, were driven from room
to room by crowds of yelling, maniac
Boxers. Outrages perpetrated here for
the time on women and children not
killed by their protectors were awful.
Then a heavy bombardment began and
outcries and outraged alike, were
slain.

TO SEIZE LI HUNG CHAN

BRITISH WILL IMPRISON HIM IN INDIA.

Evidence of His Duplicity Secured—English Warships to Search All Vessels for Willy Statesman.

LONDON, July 16.—In the House of Commons tonight it was declared that the Government had issued orders for the seizure of Li Hung Chang and for his imprisonment at Hongkong pending his deportation to some place in India, in the event of his carrying out his project of proceeding northward by sea, in compliance with the summons which he has received from Peking.

English gunboats and cruisers are hovering off the coast of the province of Kwang Tung with orders to intercept any vessel, no matter what flag it flies, having the Viceroy on board and to secure his person.

It is resolved to hold Li Hung Chang as a species of hostage, and, moreover, it appears that Sir Henry Blake, the governor of Hongkong, has obtained strong proof that the old Viceroy of Canton, in spite of his professions of friendship for the foreigners, is in thorough sympathy for the seizure of Li Hung Chang, and for his imprisonment at Hongkong pending his deportation to some place in India, in the event of his carrying out his project of proceeding northward by sea, in compliance with the summons which he has received from Peking.

NEW YORK, July 16.—A Journal cable from London says: In the lobby of the House of Commons tonight it was declared that the Government had issued orders for the seizure of Li Hung Chang, and for his imprisonment at Hongkong pending his deportation to some place in India, in the event of his carrying out his project of proceeding northward by sea, in compliance with the summons which he has received from Peking.

Good Teeth

Are worth more than their weight in gold to anyone. Some of us possess them; other do not. The most perfect white teeth, if neglected become worthless, pain-jumping stumps. You say I have good teeth. How can I keep them so? By taking proper care of them.

Cause of Decay

The cause of decay of the teeth was unknown until a few years ago. It is nothing more or less than lactic acid. The acid is produced by the particles of food lodged around the teeth, which owing to the warm temperature in the mouth ferment and produce this acid. Tartar is a deposit which discolors the teeth. As this increases it pushes the gums down from the enamel of the teeth to the bony structure, and in time, will cause the teeth to become loose.
