IMPORTANT Real Estate Sale

HONOLULU, Hawaiian Islands.

PARTIES DESIRING A GOOD INVESTMENT in the Hawaiian Islands will have a rare opportunity in the purchase of the Rose Ranch property, lately owned by Captain James Mackee, on the Island of Maui.

This estate comprises over eleven thousand (11,000) acres of land held in fee simple, and about ten thousand (10,000) acres held under lease to run six years longer. The stock on the estate comprises about 3,800 head of wild cattle, including 100 yoke working cattle and 300 milch cows and 90 horses and mules.

The buildings consist of a main dwelling house, guests' cottages, office, billiard room, chapel, dairy and beef houses, store, overcoat's house, servants' quarters, etc., etc.

There are between three and four hundred thousand trees on the estate of eucalyptus, acacia, cypress, Pride of India, cedar and cinchona.

The cisterns for water are 12 in number, the largest capable of holding 15,000 barrels.

Steamers from Honolulu stop at the landing of the estate once a week. The passage from Honolulu to the landing is made in 12 hours by steamer. Hundreds of citizens of California and the Eastern States have experienced the hospitality of the late Captain Mackee, who will bear willing testimony to the natural beauties of the estate and to the salubrity of the climate.

ALSO TO BE SOLD,
 The fine residence in the city of Honolulu belonging to the Mackee estate, together with the furniture belonging to the house.

The sale of the above mentioned properties will be held in the city of Honolulu MARCH 1, 1886.

LIQUID BREAD.
 AN ABSOLUTELY PURE EXTRACT OF MALT. A VALUABLE TONIC AND REMEDIAL AGENT.

INDOUBTED AND RECOMMENDED BY THE ENTIRE MEDICAL FRATERNITY.

Of all medicinal preparations that have been put upon the market in recent years, the extract of malt has proved itself one of the most valuable and useful. It is especially useful in cases of indigestion, nervousness, or physical systems have been impaired by disease or overwork. The house of "DAVID NICHOLSON," of this city, has recently introduced a pure malt extract of high character, made at their request and under their suggestions by Mr. Adolph Busch, and which is popularly known as "NICHOLSON'S LIQUID BREAD." From its life-giving and health-restoring properties. A sample submitted to Dr. F. L. James was made the subject of a chemical analysis by him, and the result of his investigations are given in the appended certificate:

"ST. LOUIS, April 29, 1884.
 "W. F. COULTER, Esq., National Druggist—Dear Sir: Having submitted the Nicholson malt extract to examination, as requested, I take pleasure in reporting that it is, so far as all the properties claimed for it. The results, shown in the following summary, are necessarily only approximate, but are sufficiently accurate for all practical purposes.

"The specimens submitted consisted of an efferevcing fluid, dark brown in color and of a deep ruby color by transmitted light, resembling in general appearance and behavior a very superior article of porter. Its taste was, however, much milder and more pleasant than porter, being somewhat sweeter than beer. The sweetness masked and covered by a very pleasant bitter, derived evidently from hops. The specific gravity of a sample fresh from the bottle is 1.022 plus. Amount of extractive matter in 50 cubic centimeters of the fluid is 3.56 grammes, or about 3 per cent. Amount of alcohol, per cent. is 7.84 plus. The extractive matter is apparently identical with the "extractum malts" of Trommer, or of the German Pharmacopoeia. It consists almost entirely of malt sugar, dextrine, being free from fatty acids, etc. The fluid contains a very large amount of dextrine, as shown by the fact that it readily liquefies an equal bulk of gelatinous starch. This fact, its low percentage of alcohol, its efferevcingness, its delightful taste and odor, all combine to recommend Nicholson's malt extract as being a most nourishing beverage, and the best article of the sort that has ever come under my examination. Respectfully,
 "FRANK L. JAMES, Ph. D., M. D."

CAMPAIGN NOTES.

Mr. Gibson's opposition to the Pearl Harbor session scheme through the "Nuhou" was engaged and paid for by the late Mr. Ward and other gentlemen.

This is entirely untrue. Mr. Gibson never received from Mr. Ward or any one else any pay, bonus or compensation in any shape whatever for his opposition to the Pearl Harbor session scheme.

Mr. J. O. Carter did us the honor to reply to our allusion to his Kaunakapili Church speech in a letter published by the "Bulletin".

Mr. Carter asks why it is that the Government, "if its credit is as sound as the Advertiser believes, with assets worth five times the amount of the present national debt, and other Governments borrowing at 5 per cent, does not sell its 7 per cent bonds and take up the 9 per cent bonds."

Again Mr. J. O. Carter says: "It must seem strange to the readers of the Advertiser that persons would send money out of this Kingdom seeking investment at 5 and 6 per cent interest, because they could not get 12 per cent here, and at the same time the Government has hawked its 7 per cent, free of taxes bonds, about our streets."

vate station where he could not do any possible harm. On August 7, 1874, an Act was approved authorizing the Government to borrow \$1,000,000 at a rate not exceeding 7 3/10 per cent interest.

We have thus demonstrated the entire falsity of Mr. Carter's position, and the misleading nature of his criticism. He should know better, however, and there is no excuse for a gentleman of his experience in Hawaiian affairs committing such a blunder.

Touching the allegation that "a considerable sum of the 9 per cent bonds have been illegally extended" we have a word to say. As already shown the issue of 9 per cent bonds was limited to \$300,000 by the law of September 27, 1874.

With regard to the 6 per cent loan of 1882 no one knows better than Mr. Carter and his friends why it was not all raised, and the intentions of the Legislature carried out.

The Government reissued \$22,100 school bonds as required by law, and this is the "further borrowing" upon which an ill-informed Opposition newspaper commented the other day, in its notice of the quarterly Treasury statement.

And now let us say a word personal to ourselves. Mr. Carter defends his allusion to the private affairs of "the unfortunate Kuniuakea" in the following terms: "As a retort I may be permitted to say that it seems to me, and to some others, to be in bad taste to be so repeatedly taking Colonel Spreckels by the coat collar and posing him before this community as the only public benefactor who benighted Islanders have ever had."

Does it not occur to Mr. Carter that this is very like sneaking out of an unpleasant position. There is only one way of making amends for the offense which he committed, but Mr. Carter has not chosen to take it. On the contrary, he says that his allusion to the private misfortunes of a well-known ally of high rank "was not made with any improper feeling on his part," and then fortifies his bad taste by declaring that it "does not seem to others to have been so altogether out of place as the Advertiser writer deems it to be."

so it does in truth make it appear that he has done infinitely more than any other man, or than all the Opposition party put together, to advance the country and benefit the people, surely this is not a matter of blame to us. If the Opposition would keep its dirty hands off Colonel Spreckels' coat collar we would not say a word about him.

In conclusion let us protest in the name of humanity and decency against the execrable taste, we had almost said the brutality of Mr. J. O. Carter's closing sentence, in which he tears open the grave of an unhappy man, who perished by his own hand, to bark an arrow against the Government.

THE HONOLULU ALMANAC AND DIRECTORY FOR 1886 is on sale at J. M. Oat & Co's book and news store, Merchant street, price 50 cents, or at the P. C. ADVERTISER Publishing Office.

A fine assortment of dress goods has just been received by N. S. Sachs, proprietor of the Popular Millinery House, Fort street. The price per yard is extremely low. There is also an elegant assortment of ladies' and children's hats. Call and inspect these goods.

POLITICS.

Mass Meeting at Maemae. Last evening a mass meeting was held at the meeting-house at Maemae, Nunn Valley.

Mr. Daniel Lyons was the first speaker. He said that he was not there to tell them which way to vote but to reason with them.

W. C. Achi, an Independent candidate poured out his usual torrent of abuse against the King, and denounced the Government for not carrying out the Legislative appropriations for improvements, while Col. Spreckels was paid every month the subsidy for the mail service.

A. K. Kuniuakea said he belonged to the National party and would work hard for it. At four o'clock on Saturday afternoon at the Fish Market he would expose the acts of trickery and bribery carried on by the Independent Opposition during the campaign of 1884.

J. M. Poepepe made one of his usual eloquent speeches. He said religion ought to be left out of politics. He also advocated the repeal of the gold law. He objected to the disqualification of police and district justices, inasmuch as the Constitution did not prohibit them from becoming candidates.

Hon. J. T. Baker, National candidate, referred to a great many points brought forward by the Opposition, and ridiculed the idea of the country being at all embarrassed by the small amount of public debt. If this frightened the Opposition it had no terrors whatever for the National party. The King was at the helm of affairs, and he was no fool. This speech was received with much enthusiasm.

The meeting then adjourned.

Subscribers to the ADVERTISER and the public generally are informed that Mr. Mellis will send around his boys on Saturday (to-morrow), the 16th instant, to solicit subscriptions for the HONOLULU ALMANAC AND DIRECTORY, 1886, which will be profusely illustrated.

The Farmers' Birds.

The farmer and fruit-grower who has cultivated habits of observation, says a western entomologist, will soon come to know those birds of most value as insect destroyers. They devour great numbers of cutworms. The crow blackbird picks up any larvae it may find in the furrows. So would crows if allowed. They will neither of them pull corn if some of the soaked grain is strewed over the planted field.

Of fruit-eaters, robins, thrushes, catbirds, bluejays, cherry-birds, orioles and others of that class are well-known. They never inure the grain farmer, and the horticulturist only during the fruit season.

Barn owls are inveterate mousers, and in summer time feed on night-flying moths and beetles. They are valuable in destroying mature insects, thus preventing the laying of their eggs.

The hawk eats mice, frogs, grasshoppers, snakes, lizards, beetles, small birds and various vermin, according to their species. The crow is an omnivorous eater, but eats less corn than any other food. The proportion of hawks that kill chickens are not more in number, relatively, than of man-eating tigers.

The food of blackbirds consists of cutworms, wire-worms and the larvae of destructive butterflies.

The clippers include woodpeckers and cuckoos. Nearly all are exclusive insect-eaters. The sapsucker alone is destructive to trees. The yellow-billed cuckoo—common in the northwest—is especially destructive to the American tent-caterpillar.

Wrens and bluebirds are exclusive insect-eaters, the bluebird taking canker worms and codling moths. The white-breasted nuthatch and American crow live exclusively on tree insects. The finch, lark and plover tribes eat insect larvae.

The plover eats grasshoppers, beetles, gnats, etc. All the warblers destroy a great variety of small insects. The land game birds, although classed as granivorous, eat more largely of insects than other food.

Birds of doubtful utility—so classed to the horticulturist, but not injurious to the farmer, except the bluejay—which destroys the nests of small birds of great utility—are Robin, catbird, brown thrush, red-headed woodpecker, shrike, or butcher-bird, and the bluejay. There are really but two, the bluejay and the oriole—if we except the hawk and the crow of this class that are injurious to the farmer. A decent man will not kill 'g' birds, and game birds only in their season. Let the boys of the farm be instructed in the same direction.

A Ball in Rhodes.

A ball in a Greek house in Rhodes is a thing forever to be remembered. The dresses of the ladies would provoke a smile from even the most indifferent beholder. Round dances are not much appreciated, but what they really love is a species of romping quadrille, with most complicated figures, through which a master of the ceremonies puts you in villainous French. On one occasion this official insisted on directing us to dance a variety of the lady's chain, which he called "maine de chevaliers," and which my partner naively remarked was excusable in a place which is everywhere haunted by reminiscences of the Knights of Rhodes.

When the romp was over we conducted our partners to the smoking-room, where the chaperones were sitting smoking cigarettes, and where the air was dense with the fumes of tobacco. I noticed that the younger ladies did not venture on the entire control of a cigarette themselves, but pressed their partners to do so, with a view to enjoying an occasional puff. Supper was provided on the most primitive principles—a large dish of timmed lobster salad was put on a table, round which every one crowded; those who were not lucky enough to secure a knife did not hesitate to plunge their fingers into the tempting dish.

The Invention of Chess.

The Hindus say that chess was the invention of an astronomer who flourished several thousand years ago, and who was possessed of supernatural knowledge and acuteness. The Greeks claim that it was the invention of Palamedes to beguile the terms of the siege of Troy. The Arab legend is that it was devised for the instruction of a young despot by his tutor, a learned Brahmin, to teach the youth how a king was dependent upon his subjects for safety.

How tenderly you feel toward the dead you have never known as you stand among them.

BOYS WILL BE BOYS,

And ere they are a dozen years old, cost Parent, Schoolmaster and Clothier no small amount of thought.

For us the perplexing question is, "What will he like? What will his parents like?" Our answer is in a heavy stock of substantial clothing—THE BEST WORK OF THE BEST MAKERS. There are a thousand points about such clothing which are to be seen, not read about.

But in a general way we have sought to express this thought in our clothing—that the boy should not be a caricature of a little old man—that his infant life should not be dwarfed with the garments of maturity, but that there should always linger about his dress something of child-like grace and simplicity. And it is this happy touch, as well as conscientious workmanship and low prices, which gives this part of our business such vigor and life. Call and see our new stock of goods.

THE LATEST AMERICAN INVENTION. THE VICTORY OF ELECTRICITY.

Since Electricity has been applied for lighting purposes, all efforts of inventors have been directed to construct a lamp for general domestic use. The reason why this problem has till now not been solved, is that none of the inventors could rid themselves of the idea of gas lighting, and that all have adhered to the system of producing the electricity in some central place, or by large machinery, instead of first laying down the principle that a lamp which should ever become generally useful and popular, must be portable like an oil lamp, and contain the generator of electricity in itself, i. e., in the foot of the lamp.

The Norman Electric Light Company has at last succeeded in completely realizing this ideal of electric lighting, and there is no doubt that this most important invention will revolutionize all its branches of lighting.

Our Electric Lamp needs neither machinery, conductors, nor any expensive outfit, and is neither complicated or disagreeable in manipulation; all that is necessary is to refill it every four or five days with acid. The cost of lighting will be as cheap as gas (4 cents per hour), and it has before the latter the immense advantage of neither producing heat, smoke nor carbonic acid, owing to which the air is not impured, and remains at the same degree of temperature. It is further, absolutely odorless, and does not need to be kindled by match or otherwise, but simply by turning the key, thus avoiding all danger of fire, explosion or suffocation, as in the case of gas, if the key is left open; and it must be conceded that this advantage alone is invaluable. It is further preferable to any known kind of lighting for the following reasons:

- 1. Its manipulation is so simple that any child can keep it in order. 2. That the lamp is portable, and can be removed like any oil lamp, from one place to another. 3. That it neither requires the disagreeable fixing of the wick, or the cleaning of the cylinder, as in the case of oil lamps. 4. That the light produced is a soft and most steady one; that it never flickers, and the flame, though being equal in power of lighting to gas, can be regulated to any degree. 5. That every danger of fire is absolutely excluded, as the light will extinguish immediately, if by any accident the glass surrounding the burner should be broken. 6. That it will burn, even in the strongest wind, completely unaffected, thus being invaluable for illuminations, lighting of gardens, corridors, etc. This lamp is constructed for the present in three different sizes:

A. Small size. Height of complete lamp, 14 inches; weight, about 5 pounds; for lighting rooms, cellars, storage houses, powder magazines (or similar places where explosive are kept), coaches, illuminations, gardens, mines or any other industrial purpose. Price \$1.

B. Medium size. Serves all domestic purposes for lighting rooms, houses, etc. This lamp is elegantly decorated, and has removable white ground glass globe. Price per lamp (inclusive of bronze foot and globe, richly and elegantly constructed), \$2. — delivered free to any part of the world.

C. Grand size for parlors, halls, saloons, public buildings, etc. The lamp gives a most brilliant and steady light, has large removable white globe, decorated most tastefully, and the workmanship is both first-class and elegant. Price, \$4.10. — delivered free to any part of the world. Any special size or design made to order. Estimates furnished.

All lamps are ready for immediate use, and will be sent, securely packed in strong wooden boxes, with printed directions for use, a quantity of chemicals sufficient for several months' lighting, and one extra burner for size A, and two for sizes B and C. The necessary chemicals can be purchased in any drug store, even in the smallest village. Every lamp is accompanied by a written guarantee for one year, and will be exchanged, or money refunded if the same should not give complete satisfaction. On all orders for six lamps and above, a discount of six per cent will be allowed. No orders from abroad filled, unless accompanied by a remittance to cover the amount, or first-class references on a New York or Philadelphia house. The best method of sending money is by draft on New York, which can be procured of any banker, and everywhere, or enclose the amount in bank notes, gold coins or postage stamps of any country of the world. All orders, the smallest as well as the most important, will receive the same particular attention, and will be forwarded without delay. Our Electric Lamps are protected by law, and all imitations and infringements will be prosecuted. Agents, salesmen on commission, and consignees for our lamps wanted every where. No special knowledge or capital required. A fortune to be made by active persons.

Regulations for Carriages and Hates of Fare.

Under and by virtue of the provisions of an Act entitled "An Act to Regulate the Carrying of Passengers and Freight, and the Letting to Hire of Carriages, Wagons, Carts, Drays and other Vehicles in the District of Honolulu," amended and approved on the 5th day of August, A. D. 1852, I, Chas. T. Gulick, Minister of the Interior of the Hawaiian Kingdom, do hereby make the following Rules and Regulations to be observed by licensed carriers of passengers and freight in the District of Honolulu:

- 1st. Every licensed carriage, dray or vehicle must be numbered, and this number must be placed on a conspicuous part of the carriage, dray or vehicle.
2d. Every licensed carriage running at night must exhibit two lights, and the number of such carriage plainly shown on the glass of each lantern, in figures not less than one and one-half (1 1/2) inches in height.

- 3d. Drivers of licensed vehicles must obey the orders of the police.
4th. No licensed carriage will be allowed to stand on the main side of Queen street near the Fish Market, or on two or more carriages will be allowed to stand abreast on any street.

- 5th. On all stands set apart for licensed carriages the horses must be headed parallel to the street and close to the sidewalk.
6th. No licensed carriage and carriage must be left without a proper attendant, or properly secured.
7th. No licensed carriage will be allowed to be left on the street over night.

- 8th. STANDS SET APART FOR LICENSED CARRIAGES.
No. 1. Main side of Beretania street, east side of Manuka street.
No. 2. Main side of Beretania street, from east corner of Nuuanu street.

- 9th. No more than two carriages will be allowed on any one stand at any one time.
10th. Licensed carriages standing in front of the Hawaiian Opera House shall align on the main side of King street.
11th. Licensed carriages standing upon the Esplanade, near the Mail Steamer Dock, shall align upon the main side of the street to the corner of Kilanea street, and manka along the east side of Kilanea street.

- 12th. Licensed carriages at the Government Building shall enter on the eastern side of the drive, and align on the outer side of the circle awaiting their fare.
13th. To or from any point in Beretania street and the harbor, and between Manuka street and Punchbowl street, for each passenger, 10 cents.
14th. To or from any point between the second bridge, Nuuanu Avenue, and Kunalua Lane on Liliua street and the harbor, and the Reformatory School on the Ewa road and the line of Victoria street, not exceeding one mile from the starting point and not conflicting with Rule 13, for each passenger, 25 cents.

- 15th. Outside these limits, not exceeding two miles from the starting point, for each person, 50 cents; beyond two miles, 25 cents per mile or fraction thereof, for each passenger.
16th. Children three years old or under, no charge; over three years old and not more than ten years old, half price.
17th. For each vehicle attending a funeral, \$1.
18th. When called by the telephone the engagement commences with the receipt of the message. Service in answer to call by telephone may be charged one-half fare for the trip to any point beyond the 50c. limit in addition to the regular charges for subsequent services.

of a licensed carriage, dray or other vehicle, shall be intoxicated, or who shall use insulting or abusive language, who shall demand more than the authorized fare, who shall neglect upon demand to show a card of rates of fare, or who shall contravene any of the within rules, shall upon complaint to any of the police be arrested, and upon conviction be liable to the penalty set forth in Section 14, of the act approved the 4th day of August, A. D. 1852.

27th. No licensed driver shall leave his vehicle at any wharf, public or private hall or entertainment, place of amusement or public assemblage, or liquor saloon.
28th. No licensed vehicle will be permitted to stand on any steamer wharf on the day of arrival or departure of steamers.

29th. Any licensed vehicle, horse or harness found in service at any time in an unsuitable or unsafe condition for performing the duties of common carriers will render the owner or driver, or both, liable to arrest and prosecution.
These rules shall have full force and effect on and after January 1, 1886, and all former rules and regulations for the government of licensed vehicles are abolished.
