LENINGRAD IS REPORTED IN ENCIRCLEMENT

1600 PRISONERS REPORTED CAPTURED BY GERMANS IN NORTHERN FRONT

BERLIN, Sept. 2—According to a German report dispatched on Monday, Leningrad is being pressed tightly all around by a Naiz steel ring despite fierce Soviet resistance and heavy rains, which have made the roads bogged down leaving many of them impassable.

One thousand six hundred Soviet prisoners were captured in one sector of the northern front by a German division.

CLOSE TO 92.000 ATTENDS SCHOOL STARTING TODAY

Close to 92,000 public school students throughout the Territory entered the portals of learning this morning with the sounding of the buzzer.

Only last night they were unable to obtain sleep wondering who my new teacher will be, will my new dress or trousers look all right, am I well equipped for tomorrow, etc.

But, today, it's the exchanging of jolly incidents of summer, excitement over courses and teachers and learning A B C.

It means relief to mothers who had to reproach their children all through summer for their rascalness and worry for those who are sending their first child to school.

Renewal of acquaintances are evidenced in the entire campus with outbursts of laughter heard all over. Teachers and students discuss the new baby that arrived, vacation trips abroad, lessons in swimming, camps, etc.

Meanwhile, in primary schools, the first comers seem lost bursting into tears. They probably have resolved to stay home for good. Consolations of sister, brothers or teachers alleviate to some extent their awkward feelings.

With such excitements Hawaii's 92,000 school students are destined for another ten months or so of training.—A.S.T.

NUISANCE GAGE ON MOSQUITOES RECKONS BITES

SCHENECTADY, N. Y. (UP)—When are mosquitoes a nuisance? When they bite every 15 minutes, says a New Jersey state entomologist.

This frequency of the pest determines when the state begins to control the insects in an area, according to Thomas D. Mulhern, one of the men in charge of the New Jersey control program.

"It is very possible that New Jersey's great industries and resorts would never have been developed if scientists had not tackled the mosquito menace."

Instead of polling residents of a section on how many times they are bitten in an evening, the New Jersey entomologists use electric traps and count the number of mosquitoes which are caught in a given time.

The breeding places are deduced from the type mosquito found in the trap and then the state attacks the insects at its source.

TWO CONVICTS REBEL, ATTACK WARDEN AKAU

PRISONERS CLAIM WARDEN DID NOT TREAT INMATES ACCORDINGLY

According to reports, two Waiakea prison camp inmates on Saturday night held up Warden John Akau by striking over the head with stolen 38 calibre pistols knocking him unconscious.

However, these convicts failed to escape claiming that this act was done as t protest to the meanness of Akau towards the prisoners.

Involved in the attack was William Kekahuna, 34, serving a term for burglary, and Henry Peters, imprisoned on a sex charge. They are at present held at the Hilo jail.

James Kahauolopua, a guard, was attacked by the two men about 8:40 p. m. and held at the gun point while the prisoners awaited the return of Akau to the camp.

Kekahuna's and Peters' intention was to lock up Akau in a "sweat cell," give the story of mistreatment to the newspapers and the nsurrender to the garage, it was confessed. Further, they wanted Clarence T. Stevenson, warden of the Oahu prison, to come to Hilo and investigate the camp, they said.

According to the reports, Kahauolopua was the only guard on duty

FEDERAL PRISON IN TEXAS BEST FOOD PRODUCER

LA TUNA, Tex. (UP)– La Tuna's government-operated farm, 18 miles north of El Paso, a unit of the federal correctional institution, led all other federal prisons in the production of food during 1940 according to prison reports.

Warden T. B. White, directing officer of the institution, credited the sunny Southwest climate and the "well-trained employes" of the farm.

La Tuna produced almost all of the root and leaf vegetables the government figures are necessary for the proper diet of inmates, and was the only federal farm to produce a great variety ,the reports showed.

The average per capita production of vegetables, exclusive of potatoes, per day, was 1.06 pounds.

Chief products raised include alfalfa for the farm's dairy, corn for its hogs, carrots, beets, beans, spinach, turnips and s-e-v-e-r-a-l others.

The farm employs only prison labor and uses modern farm equipment and tools.

Warden White points out to visitors that at one time the now fertile, productive farm was desert wasteland of mesquite, cactus and greasewood.

JAPAN PAPER ATTACKS FDR'S LABOR DAY SPEECH AND SAYS U.S. IS PRACTICING AGGRESSION

Also Claims Aggression Can Be Done With Economic Weapons As Well As With The Use of Arms

TOKYO, Sept. 2— Citing President Roosevelt's statement, "We are not war-like people. . . . we are not interested in aggression," The Japan Times and Advertiser in its evening edition says that although the Americans believe this to be true "there are other means of aggression than the use of armies for aggression and invasion. Let the Americans consider this side, too."

The Times said, "The United States government has been on the aggression in the Far East ever since it took the Philippines by force in a war with Spain, which was not of Spain's making. In guise of moderator, it has kept war going in China. By use of political pressure on third powers, the State department has intervened in affairs between the Far-eastern countries. Economic weapons are no less punitive than armies and navies."

U. S. Eastern Political Empire

"The United States has held a vision of political empire in the fareast. To achieve such domination, it has made alliances of instigated mistrust, to build fortifications, applied to boycotts and blockades and supplied war materials to one side and withheld them from another. All these are instances of American aggression . . . George Washington's policy was to keep out foreign entanglements to devote American energies to its own territory. Yet recent governments have abandoned that statesmanship. It's policy has not worked to the advantage of democratic allies," the Times said.

FDR STRESSES LABOR SYSTEM

HYDE PARK, N. Y., Sept. 1—Stressing new United States efforts in "doing everything to crush Hitler and his forces," President oRosevelt made a nationwide Labor Day broadcast today, however, failed to define the word "everything."

The President furthered his statement by pledging American efforts "to conquer the forces of insane violence." Accusing Hitler for his violent attempt to conquer the world, which threatened America's fundamental rights, President Roosevelt stated that the Americans must sacrifice in order to have their fundamental rights retained.

Conquer Violence

He said:

"We are engaged on a grim and perilous task. The forces of insane violence have been let loose by Hitler upon this earth. We must do our full part in conquering them, for these forces may be unleashed on this nation and the task of defeating Hitler may be long and arduous."

Placing emphasis on industrial workers and saying that they are the chief American fighters at present, the President stated that ough and the enemies know that America's production is not enough our American efforts are not enough.

Hustle With Production

He continued:

"Unless we step up our total production and more greatly safeguard it on its journey to the battlefields ,these enemies will take heart in pushing their attack in old fields and new fields."

The executive said that a free labor system is the foundation of a functioning democracy "and there has never been a moment in our history when the Americans are not ready to stand up as free men and fight for their rights."

He then warned that although the Russians have resisted it is somewhat risky to assume that Hitler has been blocked and halted.

GAYDA CLAIMS BRITAIN GOOD AS DRIVEN OUT

SAID SO IN SPEECH GIVEN IN COMMEMORATION OF 2nd ANNIVERSARY

ROME, Sept. 2—Virginio Gayda, editorially commemorating the second anniversary of the European war points out that Britain has been ousted from Europe and has relinquished the control of many possessions to the United States.

He says, "The Italo-German declaration has made clear that the Axis has engaged defeating the powers, which started the war, but will not punish the nations as they have already suffered heavily on war effects. The Axis revisions in Africa and Europe are aiming only to create a real democratic regime in Europe where each nation will find its political unity. The Axis revisions are aiming to reestablish for all nations true proportion between necessities and means and greater balance of forces and national possibilities."

OXYGEN STUDY TO AID PILOTS GOES FORWARD

BELLEVILLE, Ill. (UP) — The effects of anoxia, or shortage of oxygen, on aviators who consistently fly at high altitudes may be cumulative, according to Lieut.-Col. Eugene G. Reinartz, air corps surgeon of Scott Field.

Col. Reinartz said here that recent experiments with animals have shown that "repeated periods of anoxia may produce a picture of considerable damage to the brain."

He said that pilots have observed that sustained flight at high altitudes appears to shorten the periods during which they are able to preserve their faculties without a full supply of oxygen.

Steadily increasing speeds of war planes and the heights at which modern high-speed maneuvering is carried, said Col. Reinartz, places an even greater strain on pilots.

New methods of administring oxygen at great altitudes, plus specialized physical examinations are doing much to eliminate permanent danger to military pilots, he said.

Lady ON A HIGH HORSE

by JOSEPH CHADWICK

Rhea Charters and her grandfather, Major Stephen Charters, who live on their ancestral estate near the little town of Marchester, are in financial difficulties. Rhea's irresponsible brother Dick is merely an additional problem. The family lawyer writes to a man named Carradine who owes the Major a large sum of money. Carradine can't pay his debt, but sends his son Jim to Charters Manor to lend a hand. Rhea, who can't see how this will help, is antagonistic toward Jim, then finds herself unwillingly attracted to him. Then, Philip Lanning, a rich young man whom she loved four years ago but who went away and married another girl, comes to Marchester to take charge of a new aircraft factory. He calls on her grandfather, says the factory needs more land, and offers to buy a piece of the Manor. The Major, who wants to keep the estate intact, turns down the offer. Later, however, he changes his mind when the bank refuses to extend notes held against him. Meanwhile, Rhea has learned from Philip that his marriage ended in divorce, and has made a date to have dinner with him. She realizes she's still in love with him.

CHAPTER XVIII

THAT evening, Rhea dressed with unusual care. In the afternoon, she had gone into town to the hairdresser, whose expert attention had enhanced her natural endowment of loveliness. Her evening dress was more than a year old, but that didn't really matter. Philip had never seen it.

She pirouetted before her mirror, her eyes critical. "I'll do," she whispered to her reflection.

Just then, there was a knock on the door, and Dick entered. He stood surveying her.

"Going on a party, Sis? Or is this for Jim Carradine?"

"A party," she said. "It certainly wouldn't be for Jim Carradine!"

"Why not? He's quite a guy."

Rhea shrugged. "I'm not interested."

"It's Phil Lanning, then?" Dick guessed.

"Any objections?"

"I might have. He jilted you once."

Rhea bit her lip. "He didn't jilt me. We were never engaged."

"There was a lot of hope on your part, Sis."

"All right, there was a lot of hope on my part," Rhea said. "Let's not say any more about it. That was a long time ago. There's something else you and I have to discuss."

Dick's eyes shifted. "Yes?"

"There was some money in my purse," Rhea went on. "It isn't there now. Why did you take it without asking me?"

"I only borrowed it, Rhea."

"Of course—but your borrowing embarrassed me. I needed that money to pay a C.O.D. charge and, because it was gone, our dear friend Mr. Carradine paid the bill for me. It was humiliating."

"Oh, his father owes us plenty!"

"That's beside the point. When do you intend to pay me back?"

Dick grinned, reached into his pocket. "Right now."

He brought out a fat roll of money, counted off ten ten-dollar bills, and tossed them onto the dressing table.

"I took ninety-two dollars," he said. "There's a hundred. That's eight dollars interest. Not a bad rate for a few hours' loan."

Rhea looked at the money he still held in his hand. "Where did you get all that. Dick?"

"I made a little investment. It paid big dividends."

"You've been gambling," Rhea accused. "You had no right to use my money that way."

"Quit kicking — I came out on top," Dick countered.

With that, he sauntered out of the room.

PROMPTLY at seven, Gregg came to tell Rhea that Philip had arrived. She gave herself a final glance in the mirror, then took up her wrap and went downstairs.

Philip was in the living room. He came toward her, took her hands.

"You're lovely, Rhea," he said softly. "But, of course, you always were."

"Thank you," she murmured, her eyes shining.

As they went out into the hall, he paused. "I'd like to say hello to your grandfather before we go."

"He's in the library, I think."

Major Charters was playing chess again with Jim Carradine. When Philip had been introduced to Jim, he turned and engaged the Major in conversation.

Jim strolled over to Rhea. There was a faint smile on his lips as his dark eyes rested on her.

"I was right this morning," he said, in a low voice. "I *have* fallen in love with you."

"How interesting!" Rhea said lifting her brows.

"I thought you'd like to know," he went on smoothly, nodding toward Philip's back, "at this stage of the game."

Rhea tried to think of some adequate retort, but what Philip was saying to her grandfather distracted her attention from Jim.

Philip was saying, "You needn't fear that I'll press you to sell part of the Manor, sir. We've found some available land on the other side of town which will suit our purpose."

The older man stared at him. "You mean that you are no longer interested in my east field?" he asked weakly.

"That's it, sir. I suppose that's quite all right with you, eh?"

"Yes—quite all right."

AS STEPHEN CHARTERS looked toward his granddaughter, she saw the alarm in his eyes. This was a blow, a terrible blow.

She wanted to cry out, "But Philip—you've got to buy that field! You've got to!"

Instead, she forced a smile, and moved to her grandfather's side. As she bent to kiss him goodby, she whispered, "It will be all right. We'll find a way." He didn't seem to hear—seemed dazed.

She stood for a moment, with her hand on his shoulder. Then, she turned and saw Jim's face. He was frowning. Well, he had reason to frown! His father was to blame for this situation. If Mike Carradine had paid his debt, Philip's news wouldn't be a blow.

Rhea walked by Jim, slipped her arm through Philip's, and managed to smile up at him as they left the library. After all, Philip mustn't be let down. He expected her to be a gay companion this evening.

They went out to his car. It was big and shiny and expensive. It made Rhea realize that Philip stood for money. That thought reminded her that he had hinted that his ex-wife had married him for his money.

For his money. . . .

As they drove off, he was saying something about his work, and how glad he was to get away from it tonight. Rhea only half listened.

She thought, "It wouldn't be exactly the same . . . in my case. Money would be secondary, for I really love him."

The idea grew but, with it, was a sense of guilt.

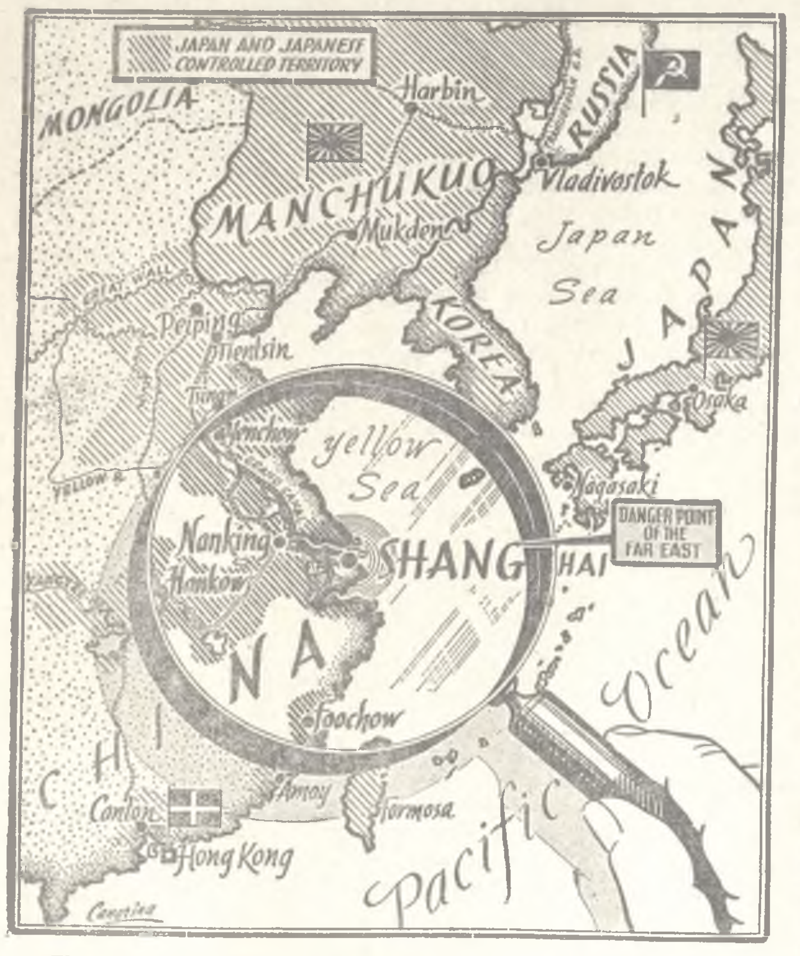
Danger Spot in Far East Sector



The magnifying glass is on Shanghai, great cosmopolitan city of China and a danger point of the Far East for Britain and the United States. Near the world-famous International Zone, where U. S. risks serious involvement in the Far Eastern crisis for most American interests in that section of the world have their headquarters in Shanghai. With the Nipponese accusing Britain and the United States of inciting Russia to action against Japan and with tension mounting over Japan's movements in Thailand and the "drive to the South," news from and about Shanghai becomes of increasing importance.

HERE'S A LESSON IN SPELLING

Homer Croy, the writer, came to my house to dinner and we talked about the old-fashioned spelling schools we had back in Missouri. Although he is a word-worker and an adjective-juggler, he said for many years he had trouble spelling certain everyday words. At last, he worked out a memory jogger for those words, and his method is so simple and useful that I'm going to pass it on to you. I think if you will spend two minutes on them you'll never misspell these words again.

For instance, do you know when it's spelled "Capitol" and when it's spelled "capital?" It's very simple. When you mean the building with the round dome on it, it is spelled with an "o." Just think of the dome on the building being round like an "o" and then spell it that way. The rest of the time "capital" is spelled with an "a."

When you go to a store to buy letterheads and envelopes, how do you spell the kind of store you are patronizing? It is a "stationery" store, or is it a "stationary" store? Well, here's Homer's rule: Remember that the store which has an "e" in the last syllable, sells envelopes. The word with any other meaning is spelled with an "a" in the last syllable. Simple, isn't it?

Here's a word that nearly everybody misspells. ECSTASY. People spell it "esctacy"—ending the word in "cy" instead of "sy." Here's Homer's rule for that: You're crazy if you put a "c" in the last syllable. Crazy is spelled with a "c."

Now to give YOU a test: It is "embarrass?" Or is it "embarass?" That is, does it have one "r" or two "rs?" Here's his rule for conquering that one. He compares it to "harass." One word has only one "r" in it; the other has two. The short word only has one "r"—one reason for it being short!

Is the head of a school a "principal," or a "principle?" Well, the way to remember that is that the principAL of a school should be a "pal."

When I started to country school, I was a poor speller, and one of the words I had trouble with was "geography." Somehow or other, it just never would come out right. My mother had been a school teacher and she gave me a catch sentence which told how to spell my trouble-maker: "George Evans' Old Grandmother Rode a Pig Home Yesterday." Well, George Evans and I never again had any trouble about spelling geography!

Here's a rhyme I learned in country school for dealing with English words:

I before e
Except after c.
Or when sounded as a
As in neighbor and weigh.

There are some exceptions—a privilege taken advantage of by the makers of rules such as "seize." But it's ceiling, conceive, conceit. In the last three "i" follows "e" just as the rule indicates.

Now if you'll run back over these words, and review them, I'm sure you'll never have any trouble with them again as long as you live.

Lessons in HEALTH

by ARTIE McGOVERN

Fat Begins at Forty

Whether you are to be "fat" or "fit" at forty is a matter that rests solely in your own hands. Being forty should be no excuse for the accumulation of excess poundage.

Granted that it is not the result of a glandular disturbance, your fat is due to either of two causes . . . laziness, or a poorly arranged schedule of living undoubtedly brought about by a lack of knowledge of the necessary balance between exercise and diet. People in middle life often allow themselves to get fat because they are suffering under the delusion that they are too old to indulge in any physical exercise. Granting the possibility of this, they still fail to take into consideration the fact that as they cut down on exercise there must be a proportionate reduction in food intake.

Your weight is a result of a balance between the number of calories in your daily diet and the number you burn up through physical activity. Consequently, if it is necessary for you to cut down on the amount of exercise you take, you must regulate your diet accordingly. Substitute fruits and bulky vegetables for foods rich in starch and fats if you would avoid a "bay window." Don't abandon the field of physical activity altogether, but if you find that you are not quite up to some of the more strenuous games, cultivate walking and include a mild daily schedule of passive setting up exercises in your routine.

Gross excess weight, in addition to being unsightly, is a serious handicap. It gives the heart a greater load to carry which is most dangerous, especially should that organ be called upon at any time for additional effort in combatting disease. A sensible program of exercise and diet will help you avoid that danger and keep you "fit at forty."

DON ROBINSON

FASHIONS . . . . nats

Most every man thinks up-to-date fashions are silly.

At least he does until his own wife or daughter puts on a dress or hat which is out of style—and then he is ashamed to walk down the street with her.

I wouldn't want to come right out in print to defend those monkey-hats which women are wearing these days. But I am willing to admit that, although I don't like those hats, I'd prefer to have my wife wear one than to have her wear a hat which I did like a few years ago but which is now out of style.

Women are slaves of fashion to the extent of wanting the newest thing. Men are more slaves of convention—they don't like to see their wives or daughters make themselves too conspicuous and they know a woman is least conspicuous when she dresses like other women. Men resent changes in women's clothes — but when the changes come they resist for a while and then accept them as inevitable. But by the time they do begin to get used to a new style it is already old-fashioned and a new fashion is introduced. Thus men are kept in a continual state of dissatisfaction over women's clothes.

At least those are some of the conclusions I reached as I sat at a window watching the hats stroll by.

MEN . . . . colors

The garment industry, which has so successfully sold women on the idea that they should change styles every season, has never been able to put such a plan over for men.

I remember when there was a lot of ballyhoo about blue shoes for men, but I never saw a man wearing blue shoes. There have been attempts to get men interested in bright colors in suits, as a step toward paving the way for style changes for men, but it never worked.

Men seem to be born conservatives so far as style-changes are concerned. Consequently, changes are made so gradually that men don't see them going on until they suddenly discover that the cuffs on their old trousers are narrower than on their new ones—and from then on they feel a little uncomfortable in those old pants.

Look in the family album at pictures of men taken 30 years ago and it is apparent that men's clothes have changed considerably. But nobody knows when the changes were made, they were done so quietly and unobtrusively.

But it is possible that styles for men may make more rapid changes in the near future. For the garment people have discovered that men will consider changes so far as sport clothes are concerned. First they sold them knickers a few years ago. Then they somehow made knickers passe and sold slacks for sport wear. Then various kinds of changes in shirts were made and bright colored sport coats were put over. They found men were willing to be more radical about their clothes during their play hours. And if they ever are able to get their fingers on that radical streak and get men to carry it into their daily life, you can't tell what will happen.

STABILITY . . . uniforms

The idea of a "freezing" of all styles, for both men and women, is an interesting one to consider.

Suppose it was decreed that 1941 styles would remain indefinitely—that the dresses for sale next year would be exactly the same as those sold this year.

Certainly it would provide a big cash saving for every well-dressed woman. And men, for once, would have an opportunity to get used to a dress before it went out of style. But such a possibility is out of the question.

The only way American women could be unsold on style would be to put all women in uniform. And even if that happened, the uniform would be considered this year's style and they would demand a different set of uniforms for next year.

But it isn't just the women who demand style changes. It's the hundreds of thousands of people who are in the clothes-making and selling industries. Their jobs depend on style changes.

SILK . . . . . slacks

Although the shortage of silk, which probably means no more silk stockings after this summer, seems to worry a lot of women, I doubt if the fashion-creating world is particularly disturbed. I don't doubt that they are already at work thinking up ways to make cotton, woolen or rayon stockings so popular that the women who stock up on silk stockings will be ashamed to wear them during 1942.

It's hard to imagine now—but wait until a few Hollywood gals tell how they love cotton stockings and they'll become a fashion in no time.

In fact, it's a strange thing that silk stockings have been kept in style as long as they have. Undoubtedly, ways would have been thought up to make last year's stockings old-fashioned before this, except for the fact that silk stockings wear out so quickly that there is a big repeat business without the necessity of changing styles.

Pitcain Residents All of Same Religion

SAN FRANCISCO (UP)—Every resident of Pitcain Island, home of the survivors of the "mutiny on the Bounty," is a member of the Seventh Day Adventist Church, it was revealed at the church's conference here.

The conversion of the island's entire population was made 50 years ago by Capt. J. E. Graham of Seattle, who did missionary work there.

RAT'S THINKING LIKENED TO MAN

MILWAUKEE (UP)—A modern Pied Piper has inflicted some 9,000 casualties among the rat population of Shorewood, Milwaukee suburb.

The hero is Daniel Robertson, exterminator, who proceeds on the theory that rats think like human beings and display unbelievable shewdness in their pillaging expeditions.

Robertson's theory worked in Shorewood and soon a neighboring community complained of a rat infestation. He accepted this fact as further proof of his contention that rats reason like people.

"Suppose you had been away on a visit and returned to find bodies strewn about the street," he said. "You'd naturally come to the conclusion that a terrible plague had struck the town. And you would leave as quickly as you could. It's the same way with rats. They decided that Shorewood was an unhealthy place and moved out."

BALANCING FEAT DESCRIBED

Another Robertson story concerns the commission merchant who complained that rats had been stealing eggs from his storeroom although the chamber was protected by a mecame out of the ceiling and ran down a pillar. But how did tal, rat-proof door. A close study revealed that the pillagers they carry the eggs back up the pillar? Ordinarily a rat would cradle the egg in its front paws and hop along on its hind legs. But going up a pillar with the egg was a more complex problem.

So Robertson and an assistant concealed themselves in the storeroom one night to watch. Robertson said the female rat grasped an egg in her front paws and took her mate's tail in her mouth. Then the male scrambled up the pillar, towing the female with the egg in her paws.

WALKS TIGHT WIRE

Robertson tells another story of a rat-infested house. The dwelling apparently was rat proof but one entrance had been overlooked by the owner. Leading from the barn to the house was a double strand of wire, 87 feet long, that entered the house through a small hole. However, reaching the hole should be too much a task for even an ambitious rat. But while Robertson watched one night he saw a whole family of rats trip daintily across the 87 feet of wire from the barn and go into the house without a single slip.

Robertson even suspects that rats have a language and converse with each other. He says he often has placed food near a colony of rats. First three or four would come out to nibble at the offering. Then they would return to their holes, and an hour or two later the whole colony would be out feasting.

NO-SOIL FARMS SEEN SPREADING

PHOENIX, Ariz. (UP)— Experts predict that Phoenix and the "Valley of the Sun" in which it is located soon may be the soil-less farming capital of the nation.

Ernest Brundin, Montebello, Cal., scientist who developed soil-less farming on a mass production basis and planned commercial use of the method, said the Phoenix area offered ideal conditions for the proposed new industry.

The revolutionary new farming method adapts itself easily to culture of vegetables, Brundin explained. He expressed hopes to produce vegetables out of season that would bring good prices on eastern markets.

Roots of the vegetables are immersed in glass tanks filled with water to which chemicals are added in the combinations to produce the best growth.

The scientific balance of elements needed to bring out luxurious foliage, strong roots and better fruit. Appriximately half again as many plants are produced on a given surface of the soil-less nutrient solution as on an equivalent area of soil, Brundin estimated.

In experimenting with tomatoes over a 12-month period, scientists found that the height of the vine and size of the tomato was considerably increased. There was no noticeable difference, however, in vitamin and mineral contents.

Brundin said present methods make it too expensive to produce vegetables on a large scale, and no competition will be offered field crops. When the method is perfected, however, labor costs will be one third lower than those for soil operation and fertilization and water costs will be about 35 per cent lower.

Soil-less farming was discovered in 1859 and perfected in 1864 by German and Dutch scientists. It was not commercialized, however, until 15 years ago by Dr. W.F. Gericke.

HYDE PARK NEAR NEW "BIG HOUSE"

ALBANY, N. Y. (UP)—The state's second largest prison, Green Haven, will be ready for occupancy this fall to take convicts from century-old cells in the "big house" at Sing Sing.

Ironically, the structure is only a few miles from the summer home of New York's District Attorney Thomas E. Dewey. It is even closer to the estate of Secretary of the Treasury Henry Morgenthau, Jr., and only a half hour drive from President Roosevelt's Hyde Park home. Poughkeepsie is the nearest large city.

The buildings cover 50 acres and are on the site of old Camp Whitman, where thousands of infantrymen were trained during the World War.

TO HAVE 2,016 CELLS

"This new prison will do much to relieve congestion in our prison, especially in Sing Sing, where it has been necessary to use a more than century-old cell block," Correction Commissioner John A. Lyons said.

The penitentiary will cost $8,000,000 and will have 2,016 cells. Its high walls and other features make it a "maximum security" institution. All vital facilities are to be outside the walls so that they cannot be seized by an uprising of prisoners.

Twelve towers surmounting the barrier can be reached only from outside the wall. Each tower has 10 powerful searchlights and special gun ports.

ONLY TWO GATES

The enclosed area can be entered through only two openings, one for visitors and the other leading into a huge cage for the inspection of service trucks.

The warden probably will be 74-year-old William Hunt of Attica prison. He is known as a stickler for details and won commendation for his organization of Attica when it was opened.

Lyons explained that the congestion and need for the new prison were not the product of a continued crime wave. Although annual commitments have average about the same in the past 10 years, they have been a smaller and smaller percentage of the state's growing population.

"The resulting congestion in our prisons," he said, "is due mainly to longer sentences for prisoners with more vigorous law enforcement and more effective application of parole."

HILO THEATRE

"Las Vegas Nights," gay story of night life in one of the last frontier towns in the country, begins a two-day engagement at the Hilo theater today.

With Tommy Dorsey and his orchestra, and a group of swell entertainers and comedians "send-in solid", "Las Vegas Nights" is superb entertainment from start to finish.

The story concerns a vaudeville troupe consisting of Bert Wheeler and Misses Constance Moore, Lillian Cornell and Virginia Dale, who arrives in Las Vegas to collect an inheritance.

Miss Moore brings luck to singing rancher Phil Regan, and together they make a clean-up at the slot machines and gaming tables that are as plentiful as cows on the range in Las Vegas at this very moment.

That is the start of their hilarious romance and also the beginning of a series of hilarious, exciting and musical situations.

PALACE THEATRE

"After Mein Kampf?," stirring xpose of Nazi horrors, is showing today at the Palace theater. It is the stark drama of truth, vividly re-enacted from crimson pages of modern history. This is the picture that Hitler fears.

The film, a picturized life of Adolf Hitler, tells of the horror and havoc which have wrecked and wracked Europe since the swastika came to power. It shows the blind obedience of the German people to Nazism, the brutality of the storm troopers and the persecutions of Jews and Catholics.

Re-enacted are scenes of such historic events as the burning of the Reichstag and the tragic trial of Van der Lubbe for the crime; the "suicide" of Hitler's close friend, Roehm; the pitiful end of General von Schleicher and his wife by Storm Troopers' bullets; and the attack on Pastor Niemoller.

Coming tomorrow is "Arise My Love," thrill-packed comedy-romance, starring Claudette Colbert and Ray Milland. Also showing is "Third Dimensional Murder," a metroscopix; and "The Green Hornet Strikes Again," featuring Warren Hull with Keye Luke.

AT THE ROYAL

Hilo Bowling Center Opening Set For Thursday Night

Playing steady ball throughout the whole season, Lt. John Rickard's Company E of the 299th Infantry truly deserves the championship of the Hilo (HRC) Junior baseball league which they won from Dairymen 7-1 in a playoff game last Sunday at the Hoolulu Park.

Behind the almost airtight ball handling by his teammates, Manuel Crivello was easily the most outstanding pitcher of the league as his flossy ball pitching, time and again, was directly responsible for his team's many victories. Crivello has to his name, earlier this season, a no-hit, no-run tussle.

In the championship playoff between Dairymen, first round champions, and the 299th Infantry, second round titlist, Pitcher Crivello allowed but five well scattered hits and one run. His teammates on the other hand banged Mango Hirata and Fred Oliviera for a total of 9 hits and 7 runs.

Last Sunday's game successfully concluded another season for the Junior league which under the sponsorship of the Hilo Recreation Committee is growing in popularity more and more each year.

Dairymen with an array of ball stars from here and there started the season like a house on fire, winning all of their first round games to cop the round title with an undefeated record. Company E played great ball too in the first round, but had to be contented with the runner up position as they bowed to the ice cream men in their first meeting.

The second round title chase, however, was an entirely different story as the first round champions, Dairymen, blew up to pieces losing all of their games. Company E on the other hand kept up their steady ball playing to barely nose out Amateurs for the second round title.

In the championship game between Company E and Dairymen, the latter was only a shadow of the team which copped the first round title as 299th won the championship tussle with ease.

The one team in the Junior league that showed the most improvement during the season was the Amateurs aggregation. The Non-pros barely survived the elimination round as they were tied for the fourth and last place with another team. The league, however, decided not to playoff the tie but allowed the five teams to enter the second round.

Amateurs then went on to play as they never did before, winning all but one game, the defeat by the soldier boys in the second round titular fray. This game was decided by a margin of one run.

It might be added that the Amateurs ball team had the youngest players on the field with all of their baseball squad picked from their championship senior softball league team which is now participating in the BIAU softball tournament.

When the baseball season rolls around next year, Amateurs will, no doubt, make a great bid for the championship of the Junior league which they barely missed this season.

vicinity are under construction.

3,000 To Luke Field

Luke Field, recently completed, soon will hold a contingent of 3,000 officers and men and at least 200 advanced training planes, under command of Col. Ennis C. Whitehead.

Thunderbird Field, new $200,000 privately-owned center organized to train cadets in the rudiments of flying preliminary to entering advanced army courses, recently was dedicated at graduation exercises for a class of 42 cadets.

Major Kenneth McNaughton, Moffett Field, Cal., predicted at the graduation exercises that it soon would be one of the largest cadet training centers in the country. Enrollment was expected to swell rapidly to a peak of 200 cadets in each class.

Major D. M. Schlatter, Moffett Field, disclosed that the army air corps was considering construction of a twin-engined plane base in the Higely district, southwest of Phoenix.

Airport May Be Base

The municipal airport, Sky Harbor, soon may be a base for a squadron of army pursuit planes, stationed here to guard the city and as an auxiliary force to coast-air defenses.

The Luke Field base will train men in the use of low-wing, all-metal monoplanes built.

The air has been divided into sections within which trainees from each field may fly to avoid collisions with cadets from other bases in the vicinity.

The Luke air base will have 178 officers, 1,904 enlisted men and 445 flying cadets in its first quota and 985 cadets in its second quota, Col. Whitehead said.

It has seven runways and is second in size only to Kelly Field, Tex. The field was rushed to completion with WPA labor, four months ahead of schedule. It includes an administration building, barracks, officers quarters, airdromes and munitions dumps.

榮、優勝旗は朝日軍の掌中に

昨日午後ホノルル・スタデアムに於て擧行されたる全布哇野球選手權大會に於て宿敵支那人軍と再度會合した朝日野球團は、支那人軍を九對〇と言ふ大差を以て擊退一九四一年度の全布哇野球界の霸權を掌握した。此の日朝日軍はチヤレス武田投、ユス樋口捕のバツテリーで必勝を期して出陣支那人は豫想にたがはす同軍の至寶投手テツド、ショウに配するにウオング捕を以て對抗したが、支那人軍は武田投手に其の打擊を封じられ散發五安打を出したのみ、これに對し朝日軍はショウの球を打ちまくり合計十二安打をあびせてショウを八回目にノツクアウト、九時〇で朝日軍が快勝したイニングに依る得點の經過を見ると、朝日軍は五回六回に各一点、八回に七點と言ふ大量得點を得て勝敗を完全に決定した、卽ち次の通り

アカウ看守長の「待遇」を破獄、新聞社へ報告の企

自縛の二囚人、犯行經緯を語る

昨報の通り飛行場に就働中の一ワイケア刑務所囚人二名が監守長の待遇に不滿を抱きアカウ監守長を打倒して人事不省に陷らしめた事件に關し其後判明した事件の眞相に關し次の如くヒロ警察署に記錄されてゐる、卽ち監守長を毆打したウイリアム・ケカフナは次の如く語つてゐる

自分の同僚ビターは破獄を計畫した、それは彼が脱走して新聞社に赴きアカウ監守長が如何に我々を待遇してゐるかを説明する積りであつた、ビターは監守カハオロプアの歸所を待ちかまへ、いきなり飛び付き首と耳の後を毆打して倒した其時既に監獄の電線は切斷されて居た、漸く昏倒より起き上つた、監守長は急いで近くの兵營に赴き急をヒロ警察署に報告ヒロ警官隊では時を移さず現場に急行したのであるが『其時は十時十八分過であつた』彼等は脱走も企てず自ら縛についたものである。

銃器保管室に忍込み銃を奪ふ

事件突發前に轉送を願ふ

犯人ビターの談に依れば、自分は早くより破獄を計畫してゐた、と言ふのは監守長の我々に對する待遇がよくないからであつた、卽ち先週八月二十三日の土曜日自分はアカウ監守長に向ひオアア監獄のシイ・テー・スチブンソンに向け此の事件の突發を防ぐため私をホノルル監獄送りとして呉れる樣依賴の手紙を出さして呉れる樣賴んで置いた、然し一週間經過しても何等の返事がないので自分は今回の事件を引起したのだ、それはホノルルに轉送される事を豫期しての事であつた自分等二人は一時間と十五分間脱走すべく試みた、卽ちフエンスを飛び超しアカウの家に赴いた所戸が開いてゐたので鐵砲保管室中より三挺の鐵砲と手錠、懷中電燈を持ち出しアカウのコート、シヤツ、靴等を取つた

今日より一齊に開校された縣下各公私立學校の入學歸校生徒數は昨年度のそれに比較し稍減少してゐる旨ロング敎育局長が發表してゐるが、本朝のヒロ市は曇天ではあつたが名物の雨もなく小は四五才の幼稚園兒から大は六呎近いハイ校生徒に至るまで喜々として三三、五五連れ立つて賑かに登校する樣が見受られた彼等は夏期休暇に入て以來の初顏合せもあり耕地より轉入した新顏も混じつて朝の一時のサイドウオークと校庭は祭日の如き觀を呈した。

喧嘩の見物人

柳太郎の優しい聲を聞き、溫かい手を、その肩先に感じると、猛は急に、肚の底から哀愁がせぐり上げて來て、ものも言はれず、只シク〱と泣き出したのである。

『さあ、人が來るといけないから、早く立ちたまへ』

今度は猛も、素直に立上がつた。

柳太郎は、その着物の泥を拂つてやりながら。

『それほど迄にして、守彦君のために、盡して遣らうといふ、君の氣持には、僕もまつたく感心したよ。君のその熱心に動かされて、これは誰にも言へない僕の秘密なんだが思ひ切つて、それを君に打明けよう。さうすると、僕が不實な人間であるか、どうか。また、初美を離さぬ理由も、自然に分るだらうから――』

こういつて柳太郎は、そこで初めて、保科良平を、敵として憎むに至つた北海道の少年時代からの經緯を、簡單ながら、打明けたのであつた。

話しをしてゐる間に、柳太郎自身も、亡き父を思ひ、淪落せる一家のことに考へ及ぶと、自身も胸が一ぱいになつて來て、ついハラ〱と涙をこぼしてしまつたのである

『僕が惡いんだ。勘辨しておくれ。事情もなにも訊かないで、只一途に誤解をして、喧嘩を賣つたりして、僕はやつぱり狂犬だつた』

といつて猛は、今更面目無けに、あたまを掻くのであつた。

『なあに、分つて臭さへすれば、それで宜いんだ。守彦君だつて、その中には風間の處から、救ひ出す時もきつと來るだらうからね』

『さうだ、その時には、僕だつて、ウンと働くぜ』

解けてしまへば男と男、暴風雨のあとの日本晴のやうな明るい氣持になつて、二人はいま、この寺を去らうとするのであつた。

『あ。陽子さん！』

驚いた柳太郎が、ハタと踏留まつた。

蘇鐵の蔭から現れた女、意外にも、それは陽子であつたのだ。

いつの間に彼女は來たのか二人は、ちつともそれを知らなかつた。

陽子は、ものをも言はず、感激に溢れた表情で、二人の方を、ヂッと視つめてゐる。その眼には、涙さへも光つてゐるのであつた。

『あたし、柳太郎さんのお店へ行つたんですの。でもお店には居らつしやらないし、丁度爰まで來た折に、御門のところに遊んでゐた小兒たちに敎そはつたものだから――』

『あんたは其處で、僕たちのいまの喧嘩を見てゐたんですか』

と、柳太郎が訊く。例に依つて、膠も愛嬌もない、外々しい態度である。

『えゝ』

といつて、陽子はうなづいた。彼女はどこまでも眞顔で莞爾ともしないのであつた。

いまの喧嘩に、思はぬ見物人があつたと知つては、柳太郎も猛も、聊かテレざるを得ない。二人は互に、顔を見合つて苦笑し合つたのである。

『陽子は一體、何をしに來たのであらう？』

彼女の、わざ〱店へ尋ねて來た理由が、柳太郎には解せなかつた。

兎に角、三人は連だつて、門を出て來た。

『少し、お話したい事があるんですの。お暇は無いでせうか』

門前で陽子が訊ねる。

『話つて、何です、爰ではいけないんですか』

柳太郎は、ます〱無愛想である。

『でも爰ではねえ――？』

と、陽子は、いやにモヂモヂする。

凍結される商人に必要なる四手續

ハイト知事代理近く協議

ハイト縣知事代理は近く銀行、信託、商業會議所辯護士の各代表と會合しルーズベルト大統領が發令した凍結法に關し協議する事になつた旨聲明したが、右會議に於いて外國人財産登錄問題が議せられる筈である。

（ホノルル、通信）ホノルル、日本人商業會議所一九四一年度前半期總會は去る廿九日午餐ヤング・ホテル屋上食堂に於て開催されたが百十四名の多數出席者があつた、佐藤太一會頭挨拶して、今年度上半期に於いて行つた對內外の事業を報告し、今後一層會員の協力を希望した、續いて丸本正二書記の庶務報告、松田元市會計の會計報告あつて共に承認された、次に定款第五章の修正を行つて總會を閉ぢ、同商工會議所顧問辯護士丸本正二氏の資産凍結令に付き商人に必要な諸手續きに就いて講演があつた同講演の內容は既に本紙に報道濟みのことであるが、商人關係の凍結令に就いて簡明に取纏めてゐる點一般關係實業家に參考となる故左に之に紹介せん

ゼ・ラ五六による報告書が一種必要

凍結令の適用を受けてる實業家（即ち一九四〇年六月十七日以後入國又は歸布した者）もゼネラル・ライセンス第五六號の發布により縣內のビヂネスは自由に許されてゐるが併し左の二種の手續きを爲さねばならぬ規定となつてゐる

（一）毎月、收支報告書を三通作製して縣知事に提出せねばならぬ――今月は八月中の報告をなす。書式は當局が規定せず本人が作る、收入の部は現金入高、掛金回收高其他支出の部は現金出し高、ヅラフト、營業上のエキスペンス等を書く、收入共に其出所その目的、性質等を說明す。

以上をなるべく詳細に記すこと

（二）營業を說明する口供書を九月廿四日迄に提出せねばならぬ――三通作製して縣知事へ提出。これは非常に詳細を要求されてゐるので相當面倒である。店の名、營業年數、外國との關係、會社ならば役員の氏名、各役員の來布年月日とその入國資格（即ち移民か國際商人か）一九四〇年六月十七日以後、日本より歸布した者の氏名、渡日の目的、他の會社に支配されてゐるか、又は他の會社を支配してるか等）

ゼ・ラ・Bによる報告書が一種必要

布哇縣內で營業する商業家農業家・プロフエショナル家等で總收入一ケ年六千弗以下（一ケ月五百弗以下）の者はゼネラル・ライセンス・ビーの發布によりスペシャル・ライセンスの申請不必要となつてゐるが、昨年の七月一日から一ケ年間の總收入が二千四百弗以上となつてゐる者は『報告書式ビー』に記入して十月廿五日迄に報告書を縣知事に提出せねばならぬ、この報告書式ビーには營業者の氏名、米國市民權の有無、一九四〇年六月十七日以後外國に旅行したか否か、旅行して居たらいつ布哇をたつたか、いつ歸布したか、旅行の說明、昨年七月から今年六月迄の收支ステートメント等を書く樣になつてゐる（主人が目下日本に在り、當地の者が委任されて營業してゐる場合は當局からスペシャル・ライセンスを受けねばならぬ）

外國人登錄法による財産登錄が一種必要

また凍結令の適用を受けてゐる實業家（これは實業家外の個人も同樣）は全外國人財産登錄法により『書式テー・エフ・アル三〇〇號』に記して財産登錄を九月三十日迄にさねばならぬ、千弗以下の財産は免除される事あり、此書式は來る九月二日（火）から銀行に於て貰える、凍結されてゐない者でも被凍結者の財産を管理してゐたら、その管理財産に就いて報告せねばならぬ故に、銀行、會社等は相當面倒になつて來る、此の書式はエーからアイまで次の如く八種に分れてゐる

（エー）ビジネス營業なき者の部

（ビー）ビジネス營業の部

（シー）株式會社の部

（デー）銀行の保管箱に就いての部

（イー）銀行に於ける被凍結の預金者に就ての部

（チー）株式取引人の扱ひに關する部

（エチ）保險會社の部

（アイ）日本人、支那人のみに適用の部

此の財産登錄は非常に複雜面倒であるから被凍結者は九月二日速かに書式を貰ひ受け記入條項に付調る方がよい、以上の如く凍結令の適用を受くる實業家は合計四種の報告手續きをなさねばならぬのである

How British Cook, Bake in Fi

Housewives who wonder how soldiers eat under war conditions can learn something from these pictures of Australians in Syria and besieged Tobruk. Bread is baked in primitive "Aldershot" ovens, made of brick and sealed shut with mud. But they're efficient. Under tree and net, a regimental cook in Syria performs culinary triumphs with bully beef . . . and bully beef . . . and bully beef.

母になる人々を

全國で登錄調査

愈よ九月から實施

【東京二日發】乳兒の死亡原因では何が一番多いかといへば流產、早產による死亡で、流死產の如きは年々卅万の多數に達してゐる、早產は流死產と違つて直死亡はせぬが、しかし將來健康に育つ割合は大變少く、その七、八割までは乳幼兒時代に死亡してゐる結局この原因はどこにあるかそれには遺傳性の疾患等によるものもありますが、いづれかといへば姙娠時における母性生活の不合理に由來するものが大部分で、從つて流早死產の防止には姙婦の生活指導が絕對必要であることの意味で府縣によつてすでに姙娠の登錄制を實施してゐるところがあるが、しかし、かゝる施設は問題が國家的であり、高度國防國家建設の基底としてその中核をなすものであり當然國家が行ふべき問題とされてゐるが、厚生省でもそれ等の關係においていよく全國的にこの姙婦の登錄制九月實施することとなり、目下取急ぎ立案中で、現在樞密院で御諮詢中の厚生省人口局の官制が決定次第、新設される母子課最初の事業として實施される豫定で遲くも本月下旬、早ければこの中旬にその大綱が發表されるものと見られてゐる

實施方法

木綿一反無料配給か

實施の方法は姙娠三ケ月乃至五ケ月に達した婦人全部を登錄し、このため特に囑託した醫師、產婆をして一定時期に檢診し生活指導を行はしめ、殊に第一回の檢診には精密檢査を實施してワッセルマン氏反應による黴毒の有無ツベルクリン反應による結核感染、レントゲンによる發病の有無等について詳しく檢査する、これに要する經費は原則として國の負擔とし、豫算の都合上やむを得ない場合は全姙婦の三分の一にあたる生活にあまり余裕のないものだけが無料とする二案が考へられてる、なほこれと關聯して厚生省では現在配給してゐる出產用のガーゼ、脫脂綿の外に出產届と同時に木綿一反づつを特別無料配給することになつた

米國參戰を口に含み獨逸覆滅に總力傾倒

ルーズベルト大統領の演説

又も日米關係を默殺

【ハイドパーク一日發】ル大統領は一日の勞働祭に當りラヂオを通じて全國民に對し獨逸打倒の決意を表明『米國はヒツトラー並に獨軍打破のためには其の有するあらゆる力を傾倒する』と力説した、今回の演説に於ても大統領は米國は參戰すべきか否かに就ては依然言及しなかつたが、ヒツトラー打倒を從來よりも特に强調した事は其の行衞を暗示するものとして注目される、尚此の日の演説でもルーズベルト大統領は日本並に日米關係に就ては一言も語らなかつた

米大統領の演説要旨

【ハイドパーク一日發】ル大統領の勞働祭放送演説の要旨左の通り

一、米國勞働者は宜しく凡ての個人的利益を米國の國防充實のための最高の努力に捧げ以てヒトラーの世界支配企圖に基づく『氣狂ひじみた暴力行爲』を阻止しなければならぬ、我々はヒトラーとナチスの軍隊を粉碎するために全力を注がねばならない、而して米國の此の大努力と此の努力を喚起した唯一の目的は正に米國人の基本的權利がヒトラー主義によつて脅威されてる事實を認識した事から生じたものである

一、然しながらヒトラーを倒す仕事が長期に亘る至難なるものであらう、余はヒトラーは既に包圍され進撃を阻止されたと考へる人々に對し是こそ最も危險な假想であると嚴重な警告を與へんとするものである

一、米洲諸國を結ぶ緊密な紐帶、即ち米洲諸國間の利益と特權と機械の相互依存並に權利の相互依存は我々が是によつて我々の敵を粉碎し得る有力な要素である

一、敵は我々が愈々强力になりつゝある優勢な海軍を有つてる事を知つてる、彼等は此の海軍即ち、英帝國和蘭、諸威及びソ聯の海軍が現存してるかぎり一致團結して海洋の自由を確保し得ること、而して是等の海軍が若壊滅すれば米國海軍だけでは現在でも將又將來に於ても爾余の世界に對し海洋の自由を維持し得ない事を知つてる

一、今日米國の戰士は工場で働いてる工場主と勞働者であり、米國製品は打倒ヒトラー戰線に日毎に增大する量を以て送られつゝある我々が凡ての生產を增大せしめ又是等を戰線へ輸送する上に一層の安全保障を與へなければ敵は其の攻撃を新舊兩戰場に對して集中して來るであらう、是こそ米國が民主々義の造兵廠と化した所以である然し米國には何等の侵略的野心はない

日米問題回避は意義極めて重大

極東消息筋の見解

【紐育一日發】ルーズベルト大統領の勞働祭演説はチヤーチル首相との洋上會談後最後のものであり又近衞首相の親書傳達直後のことて或はチヤーチル首相との會談內容につき何等か新しい發表をするのではないか又は近衞首相のメッセーヂに基づく日米會談の動向に關し何等かのヒントを與へるのではないか等種々の觀測が行はれ頗る期待されてたが一日の演説は是等の期待を全く裏切り尠く共演説の表面に現れた限りでは寧ろ（一）ナチズム打倒に對する米國の不退轉の決意を是までにない强硬な言辭を以て表明したこと（二）獨逸其の他の樞軸國との妥協を飽迄排擊するとの態度を明白にしたことの二点にのみ集中されてゐる然し一部極東關係消息筋では大統領が目下米國民にとつては對獨關係よりも寧ろ關心の焦点となつてるかに見られる日米問題に直接觸れることを殊更に避けたことを意義重大だと評する向きもある

日本の外交に疑念なし

獨政府言明

【ベルリン一日發】獨外務省のスポークスマンは一日外國記者團との會見で日米關係と三國同盟との關係に言及し左の如く言明した。

日本の外交政策は明瞭で日米に關係照してもこれを疑ふべき何等の問題も起つてゐない、日本の政策は三國同盟に立脚してるので日本の立場に疑念を挾む理由はない、只此方針を如何に遂行するかは基より日本政府獨自の裁量に依るものである

對波斯休戰條約に英調印、ソ聯拒否

赤軍テヘランへ一路猛進

【紐育一日發】エヌ・ビー・シー放送局がアンカラ放送を傍受した處によれば英ソ兩國代表は一日テヘランでイラン政府との間に最後的休戰條約の調印を了した、然し一方テヘラン情報によれば英國側は休戰條約に調印したが、ソ聯側は其の條件に不滿で調印を拒否し是と呼應して侵入赤軍は直に行動を起し既にカズビン（テヘラン西北百五十キロ）を經てテヘランに迫つてゐる、右は英ソ兩國は最初より目的を異にし英國はイランの油田獲得を目的としてテヘラン入城を考慮してゐなかつたがソ聯は當初より領土的野心を抱藏してたためと見られる

英空軍近東よりソ聯へ

【アンカラ一日發】軍事消息筋の情報によればイラン進駐を企圖して近東方面に續々輸送されてる多數の英米兩國製軍用機は近くイラン經由ソ聯に輸送される模樣で引續き英空軍正規兵部隊も赤色空軍と協力のため同しくイラン經由ソ聯に赴く模樣である（記者註）電文中にある近東方面とは恐らくイラク及びシリアの二つを指してゐるものであらうが、是と獨勃聯合軍の土耳其國境集駐説と睨み合せる時、そこに一聯の繫がりがある樣である

進擊停止發令

【モスクワ一日發】ソ聯政府は目下テヘランで進行中の英ソとイラン間の紛爭解決交渉に鑑み一日イラン遠征軍に對し進擊を停止せよとの命令を發した。
