## GRIP SACK FULL OF GOLD REPERTOIRE FOR SEASON

### QUEER BURDEN OF A MYSTERIOUS VISITOR.

Arrives on the Moana as A. C. Osgood and Departs by the Peru as A. Howard.

An ordinary looking man with a grip sack full of \$20 gold pieces, cut a wide swath in the lower strata of society last Friday and Saturday. He arrived here on the S. S. Moana, under the name of A. C. Osgood, and departed again, with the sack of gold, by the S. S. Peru, under the name of A. Howard. He was a three days mystery, for during his brief sojourn in the city he spent money with a lavish hand and kept his personal affairs to himself.

The mysterious visitor was about the last passenger to leave the Oceanic dock after the arrival of the Moana. The dock was almost deserted when he approached Port Surveyor Stratemeyer and Inspector Storey at the boarding office, and asked them to inspect the grip which he carried in his hand. He was asked the usual questions about its contents, to which he replied in such a jocular way, that Inspector Storey finally asked him to open the bag. He did so and there was displayed to the astonished gaze of the customs officers a pile of \$20 gold pieces. "Are they genuine?" queried Storey. "You bet," replied the traveler, running his fingers through the golden pile, and lifting a handful for closer inspection. Nothing more was said, and Osgood passed through the gate.

Osgood secured a hack and at once started out for a good time, leaving his grip in the meantime at an office for safe keeping. During his entire stay in the city he had a hack waiting on him, and paid without question whatever was asked. Whenever he drank, his order was for champagne, but he did not drink much even of that. And wherever he went he made a display of plenty of gold, actually throwing it about him at times. He visited the stores and purchased the best and the most costly of everything he wanted, refusing to accept discount for cash. Once or twice he dined at the Hawaiian hotel, but did not have a room there. Where he slept only the backmen who served him know.

From various sources it is learned that Osgood was booked through on the Moana for Australia, but gave his ticket to a steamer passenger and got off here. He told one person that he had received important letters calling him back to San Francisco. Another told that he had taken a fancy to Honolulu, and was going back to get his wife, and then return here to become a permanent resident. He was apparently in his right mind. On his fingers and shirt bosom he displayed some magnificent diamonds.

On Saturday morning Osgood drove down to the Peru and tried to make arrangements for shipping a large sum of money to San Francisco, objecting when told that a charge of 1 per cent would be made. Next he went to the safe deposit vaults and secured a box, into which he dumped his gold. It only remained there for a few hours, for he withdrew it again, placed it in the same grip sack and again drove to the steamer.

In the meantime the stranger had purchased a first class ticket for San Francisco, giving his name as A. Howard. Although no record of anyone by that name can be found at the Custom House among arrivals from abroad, Surveyor Stratemeyer did not demand a passport, because he recognized in A. Howard the erstwhile A. C. Osgood. Up to the time the gang plank was taken in, Osgood or Howard had been standing for half an hour on the dock, talking to a steamer acquaintance. He was the last man to go aboard.

The impression seems to prevail that the mysterious stranger is either a bold defaulter or an eccentric man of wealth, whose mind is temporarily unbalanced. Whoever he is he made a foolish display of his wealth.

The bag of gold contained by actual count about \$8000. To a fellow traveler Osgood showed a large roll of greenbacks, and boasted of having something like \$8000 in his possession, the greater portion of which he kept in his stateroom. He gave it out that he would return here by the Alameda.

### WHAT FRAWLEY'S WILL PLAY IN HONOLULU.

Recent Successes to be Presented for the First Time in Honolulu—Season Sale to Open November 2.

The Frawley company will open their season at the Hawaiian Opera House on Thursday evening, November 18th. Twelve performances will be given. After his Honolulu season Mr. Frawley takes his superb organization to eastern cities for the first time. San Francisco papers all admit that the company is much stronger this year than last and the class of plays presented is much better also. The repertoire embraces a number of recent successes, all new to Honolulu theatergoers. There will be but one repeat; it will be "The Ensign." This play was produced last season and it drew the banner house. The management feel that they are not making a mistake in presenting it again.

The repertoire for the season is as follows: November 18, "Christopher Columbus"; November 20, matinee, "Railroad of Love"; November 25, "Sue"; November 27, matinee, "Three Hats"; November 27, evening, "The Fatal Card"; November 29, "Don't Tell Her Husband"; December 2, "Social Highwayman"; December 4, matinee, "Matrimonial Maze"; December 4, evening, "The Ensign"; December 6, last performance, "Held by the Enemy." The company leaves for San Francisco on December 9th.

The prices for the coming season will be the same as last—orchestra and dress circle, excepting the last two rows, \$1.50; the first row in the dress circle, \$1.00. The first row in the family circle will cost \$1.50; all other rows, \$1.00. Gallery 50 cents.

In reference to many requests the season sale will open at Wall, Nichols & Co. on Tuesday, November 2. The best seats will be sold for \$15.00 each; tickets good for the season of twelve performances. The one dollar seats, both upstairs and on the lower floor, will cost \$10.00 for the season. The season sale will be open but a few days, and then the regular sale will begin.

### DISSENSION AMONG ROYALISTS.

The Foreign Supporters Will Not Cash Up Unless Represented.

There is a disagreement among the Royalists on account of the proposed expedition to Washington.

The white sympathizers of the cause have decided that they will not back the scheme for the reason that they are not represented in the delegation, and so notified President Kaula, and the Hui Aloha Aina this morning.

This means that the Hawaiians must reconsider their action of last week and add a haul to the list, or they will be left to raise the money themselves for the expedition.

Mr. Kaula was seen at 2 o'clock and said that the original program would not be changed. If the haoles would not subscribe, the natives would themselves raise the money, if they had to mortgage their homes to do so. The delegates feel quite sanguine as to the result, believing firmly that their constituents will find a means of getting together the sum required, which is exactly \$4200.

### DR. MAXWELL'S REPORT.

Dr. Maxwell is preparing his annual report, to be presented before the meeting of the Sugar Planters' Association next month. It will deal with the soil and fertilization in relation to the cultivation of cane, and will be prepared in such a way as to be of more interest to the general public than any reports that have preceded it.

### HOTEL IMPROVEMENTS.

Stock Company to be Formed—Rates Well Advanced.

Colonel George Macfarlane sailed by the S. S. Peru on Saturday evening, for San Francisco. He expects to be absent until the middle of December. During his absence he will purchase many things for the equipment of the hotel, and will also make some efforts to stimulate tourist travel, which has become rather slack of late. People seem to have become possessed of the idea that Hawaii is a hotbed for revolutions, and that the prospect of war with Japan is so great as to render the Paradise of the Pacific an unsafe place to live.

In an interview just prior to his departure, Colonel Macfarlane stated that as soon as the hotel is thoroughly renovated, a stock company will be formed to run it. Of course the Macfarlanes will own the majority of the stock. Manager James will come in for a good share, and the remainder will be divided among a few friends, so that there will be no stock for sale. The extent of the contemplated improvements will depend largely upon the prospects of tourist travel. The hotel is to be strictly a hotel in every sense of the word, and not a boarding house. Rates have been advanced very materially, but the service will be improved in more than equal rates.

The beach hotel on the Bishop property will be a private concern, owned by the Macfarlanes, but will be run in connection with the hotel.

### WHAT SENATOR CANNON FOUND IN MIKADO'S LAND.

Says the Immigration "Bogle" was No Annexation Dodge—How the Senator was Entertained Saturday.

"In common with many others in the United States," said Senator F. J. Cannon to several residents of Honolulu last Saturday, "I looked upon the report of Japan's designs against Hawaii last May as a little ruse on the part of the Annexation Club to induce the United States to acquire possession of the Islands at once; but before I had been long in Japan I discovered that the Japanese government had been very much in earnest in its intention to seize Honolulu, with the ultimate result of extending the Japanese sovereignty over the whole group. There is no doubt whatever in my mind on this point, and I can produce proofs."

Concerning the prospects of annexation Senator Cannon said that he felt sure that the treaty would come to a vote in the United States Senate before the end of the coming session. It might be debated before the Christmas holidays, but owing to the fact that many Senators did not go to the national capital until after the holiday recess the debate might not begin before the second week in January. Unless events in Cuba and in Spain should be of such absorbing interest as to occupy the Senate to the exclusion of other business, the annexation treaty would receive active attention immediately after the recess. There would be some long and able speeches on both sides. Senator Morgan's effort would be met by that of some Senator opposed to annexation—possibly by Senator White of California—and every speech in favor of annexation would be followed by one opposing it. Nevertheless Senator Cannon was very certain that a vote would be reached before the session was adjourned next summer. Senator Cannon will probably make a speech strongly advocating the ratification of the treaty.

Senator Cannon sailed for home on the S. S. Peru, Saturday evening. During his stay in the city every possible opportunity was afforded him to gain an insight into the affairs of Hawaii, and the necessity for annexation. In the forenoon he was accompanied by Minister Cooper, United States Minister Sewall and Mr. Stockton of the New York Herald through the Bishop Museum, returning in time for lunch at the American Legation. A special excursion to Ewa mill, with Senator Cannon as the guest of honor took up the entire afternoon.

The Ewa mill trip was gotten up by Theo. F. Lansing, Pearl Harbor was also in the program, but the time was too limited to reach the Peninsula. However, Professor Alexander of the survey department, and Captain Nichols of the Bennington, with charts, gave the guest of the occasion a clear idea of the harbor and its surroundings.

The members of the party were: Senator Cannon, Minister Sewall, Chief Justice Judd, Associate Justice Frear, B. E. Dillingham, Senator Henry Waterhouse, E. D. Tenney, A. V. Gear, Lieutenant Lucien Young, Vice Consul W. Porter Boyd, Minister J. A. King, Professor W. D. Alexander, Colonel J. H. Fisher, Theo. F. Lansing, George R. Carter, James A. Kennedy, Captain Saunders of the Peru, Captain Nichols of the Bennington, Captain Sebree of the Wheeling, Captain Stockton of the Yorktown and J. L. McLean.

On the way down and back each member of the party had a talk with the visitor. He proved an interesting guest, and evinced live concern in any matter tending to throw light on the annexation question. Upon returning to town the whole party accompanied the Senator to the steamer Peru, in which he embarked a half hour later. In the excursion through the mill Senator Cannon remarked upon two things. First, the magnitude of the enterprise in general, and second, the fact that every particle of imported machinery in the mill came from the United States.

Senator Cannon predicted in a conversation Saturday that there may be a change in Senator Pettigrew's annexation attitude. The visit to Japan had had its effect upon the gentleman from South Dakota. He there saw that Japan really intended to seize the Islands this year, and that that country would not hesitate a moment to tread on the corns of Uncle Sam. This realization, the Utah man thinks will work a complete change in Mr. Pettigrew. The fact was emphasized, however, that when he arrives on next Saturday, he should be enlightened as far as possible upon the situation here.

### PORT STEWARD MARRIED.

J. B. Von Hagen, port steward for the Inter Island Steamship Company, and Miss Hatlie Lancaster were married at Kawaiahao Secinary last Friday evening.

### CYCLIST STOPS A RUNAWAY.

"Trilby" Fowler, the trick cyclist who is now in town, made practical use of his skill on the bicycle last Saturday afternoon, by stopping a runaway horse on Port street. The animal belonged to Jim Holt, and was attached to a light surrey. It had been galloping about and smashed the carriage to pieces before Fowler arrived on the scene, but was brought to a dead stop by the skillful rider, who rode alongside the frightened animal and seized hold of its bridle.

## PIONEER OF SUGAR FLEET

### TILLIE E. STARBUCK WILL TAKE FIRST '98 CARGO.

Major Portion of the New Crop to Go Around the Horn—The Starbuck in a Big Hurricane.

The prediction made some time ago that the greater portion, if not all of the new sugar crop, will go around the Horn next year, does not seem at all unlikely to be realized. The American ship Tillie E. Starbuck, which arrived last Saturday from Australia, with a cargo of coal, has already been chartered to carry the new crop, and is under orders to remain in port here until she gets the sugar. She is but the pioneer of the fleet which it is said will be larger next year than the season just closed. Shipping men generally laugh at the idea of rail competition. So long as they can afford to carry freight to New York for \$5 per ton they say that they fail to see just where the railroads can figure on the proposition.

Captain Curtis did not receive his orders until he arrived here on Saturday. He had expected to go to Portland, Or., as usual, to load wheat for Europe, and he is much disappointed to learn that his owners have made different arrangements. The captain's family reside in Portland, and he would have been well pleased to spend a few weeks with them before sailing on another long voyage. The Starbuck is no stranger to this port, having been here several times before, and always with the same skipper. Her last visit here was fourteen months ago.

On her voyage out from New York to Sydney last January the Starbuck was in the worst gale of wind that Captain Curtis says he has ever seen, and came very near going to the bottom. "We were only two days out from New York when the storm struck us," said the captain yesterday, in telling of the experience. "The blow came up with a rush, and we had a night of it I shall never forget. I thought I had seen the wind blow, for I have been in sea for many years in all sorts of places, but previous storms I had witnessed were child's play alongside of this one. It was a regular hurricane, and how the ship lived through it I can never tell you. When it was over our top gallant mast was missing, and the starboard bulwarks had been stove in and carried away. Had it not been for the bulwarks I would have proceeded on the voyage, but as it was I had to put in at the Bermudas, and was towed back to New York by a steamer. We were there two months under repairs, finding it necessary to remove part of the cargo to do the work. When we got under way again, we had a fair passage to Australia. We were delayed rather long at Newcastle, but made the run down here in forty-five days. Now I suppose we shall have to remain here well along into January to get sugar."

### McKAY IS JUDGE.

W. A. McKay, who has been postmaster at Wailuku, has been commissioned judge of that district to succeed the late Judge Halstead. He was installed in office last Saturday by Attorney General W. O. Smith and entered upon his duties at once. Judge McKay is an old resident, is popular and competent, and it is believed he will give eminent satisfaction.

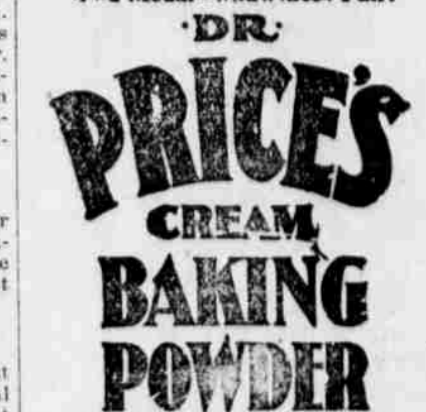

### GOLD ON OAHU.

There is a hushed gold fever in Honolulu which threatens some excitement. In the past month several parties have picked up stones in the mountains which have distinct marks of the yellow metal. A large piece, with marks of what appear to be gold, were found last week near Waianae. It will be assayed. There are those who believe firmly that gold is here, and still hunt for it is going on.

WHAT SAILOR MEN TALK OF

TILLIE E. STARBUCK TO TAKE SUGAR TO NEW YORK.

Sugar at Makawell—W. H. Dimond is Topping Off—United States Vessels in Sydney Harbor—Day's Gossip.

Mlowera tomorrow from Victoria. The little steamer Iwa left this morning for Kaena Point.

The bark Colusa will not get away before tomorrow afternoon. The W. H. Dimond is taking the sugar brought by the Helene from Maui.

The Mokohi will sail at 3 this afternoon for Kahuapupu, Lanai and Lahaina.

The Mauna Loa will return tomorrow afternoon from west Hawaii and Maui ports.

As soon as she can get a berth the Maiveema will pull into the railway wharf to discharge her lumber cargo.

Sugar at Makawell: 1000 bags in the warehouse, 700 at the mill. There are 300 bags in the warehouse at Waimea.

Shipping is again slow at Kapua. The Makee, which arrived Sunday morning, brought only 125 bags of rice as a cargo.

A Sunday arrival was the little steamer Upolu from Kohala. She came down for freight for her owners and will sail again in a few days.

The Ke Au Hou will sail at 4 o'clock this afternoon for Lahaina. She will be followed at 9 a. m. tomorrow by the Noenu, for Honokaa and Kukuihaele.

A deck load of lumber was taken to Waialua by the Kaena which got off at 9 this morning. The Kaena, an hour later, took a general freight cargo to Kahuku and Punahoa.

Cupid Kalamaniolo and his friends are making preparations for an elaborate exhibition of miniature yachts on the bay on the anniversary of the birth of the late king, November 16.

It was expected when the Claudine, sailed from Honolulu for San Francisco, that she would get back in about six weeks. According to that she should put in an appearance about the 15th of November.

A big cargo was brought in from Kauni by the Mikahala Sunday morning. Among her principal imports were 4000 bags of sugar for Schaefer & Co.; 125 bags rice, 100 bolls, hides, 150 head of sheep and 87 packages.

The Helene returned to port early Sunday morning from Maui. She brought a fair passenger list and the following shipments: 1200 bags of sugar, 250 bags potatoes, 78 bags corn, 28 hogs, 60 hides and 60 packages.

The Waialeale is being given a complete overhauling. Nearly every part of her has been renewed in some way. Carpenter Johnson and a big gang of men have been engaged regularly upon her for a month and will not complete their plans in several weeks to come.

After discharging her coal at the railway wharf, the ship Tillie E. Starbuck will go to the stream to await the accumulation of a sugar cargo which she will take around the Horn to New York. This means that the vessel will remain in port until about the last of January.

Captain Curtis of the Tillie E. Starbuck says that when he was at Sydney there were six vessels in that port from New York discharging immense cargoes of general merchandise. The trade of the United States with the Australian colonies has increased a great many fold in the past two years. The government of New South Wales has recently placed an order with an American company for 10,000 tons of steel rails, the first ever purchased by it in the Western world.

ARRIVALS. Sunday, October 24.

Stmr. Upolu, Revelly, from Kohala. Stmr. Helene, Cameron, from Maui. Stmr. Mikahala, Haglund, from Kahuapupu.

Stmr. James Makee, Tullett, from Kapua.

DEPARTURES. Monday, October 25.

## CYCLOMERE IS A SUCCESS

GREAT SPORT AT NEW TRACK ON SATURDAY.

Big Attendance and Exciting Races—  
 Summary of Events—An Odd Deci-  
 sion—New Program.

The popularity of cycling was am-  
 ply demonstrated by the enthusiastic  
 crowd that cheered the racers at Cy-  
 clomere Park last Saturday. The first  
 meeting on the new track was a daz-  
 zling success, not only from the box  
 office point of view but from the  
 sportsmen's standpoint. A raw bit of  
 juggling in the judges' stand during  
 the evening put somewhat of a damp-  
 er on the sport, but a judicious weed-  
 ing out of track officials who are likely  
 to have a personal interest in the  
 game may eliminate such disagree-  
 able features in the future.

Over 2000 people paid admission at  
 the gates during the afternoon and  
 evening. There was ample evidence  
 that they got their money's worth.  
 The track was clean and fast, the at-  
 mospheric conditions perfect and  
 many of the races hard fought  
 enough to be widely exciting. Again  
 and again the grand stand rose to its  
 feet and cheered the flying wheelmen  
 as they swept through the stretch and  
 over the coveted tape. Never before  
 has such enthusiasm been shown over  
 the game here. The varying fortunes  
 of the racers was such that each  
 event was in doubt until the wheels  
 had crossed the finish line.

The visiting riders proved too speedy  
 and knowing for the local cracks.  
 Selva was the only local man who  
 won honors in the professional class,  
 finishing a close second to Jones in  
 the mile event, in the excellent time  
 of 2:28, in a competition with Sharrick,  
 Whitman and Martin. In the final of  
 the half mile professional during the  
 evening Martin had a handicap of 15  
 yards over Jones, Sharrick and Whit-  
 man. He was nicely in the bunch at  
 the finish, but was neatly pocketed by  
 the visitors on the last eighth and had  
 no show to win.

Although the track was fast the  
 time was generally slow, owing to the  
 jockeying tactics of the riders. There  
 was general dissatisfaction shown to  
 set the pace, and the result was that  
 there was very little interest in any  
 race except in the last eighth. It is  
 likely that in the future the referee  
 will set a time limit on finds, and  
 force the men to ride within it. A  
 repetition of some of Saturday's jock-  
 eying races will soon kill the sport so  
 far as the Honolulu public is con-  
 cerned.

The novice races brought out some  
 excellent raw material. Willie Lyle  
 was the new star, clipping off the  
 fastest amateur mile of the day. Lud-  
 loff, Treadway and Porter also made  
 good showings.

Perhaps the greatest interest centered  
 in the two-mile handicap amateur  
 race, during the evening, which  
 simmered down to a contest between  
 Willie Lyle, the scratch man, and Ar-  
 thur Giles, 100 yards, with Damon, al-  
 so a scratch man, as an uncertain fac-  
 tor. Giles was a strong favorite be-  
 cause of his extreme youth, and in-  
 doubtful pluck, and won in the first  
 heat in a very pretty finish. In the  
 final heat the finish was extremely  
 close and exciting, but the grandstand  
 conceded the race to Lyle by a wheel.  
 However the judges created general  
 surprise by declaring it a dead heat.  
 Lyle agreed to race again with Giles,  
 but under protest. The latter, with a  
 very sportsmanlike spirit, refused to  
 take his handicap and started from  
 the scratch with Lyle. The exercise  
 was proving too much for Giles' youthful  
 muscles, when one of the judges  
 interfered by ringing the bell  
 after the fourth lap, indicating that  
 but one more was to be run. Giles had  
 just strength enough to finish first in  
 the five laps, and the referee declared  
 it a race, much to the disgust of the  
 crowd. Following is the summary of  
 events:

A few weeks ago the editor was taken  
 with a very severe cold that had  
 caused him to be in a most miserable  
 condition. It was undoubtedly a bad  
 case of la grippe and recognizing the  
 danger he took immediate steps to  
 bring about a speedy cure. From the  
 advertisement of Chamberlain's Cough  
 Remedy and the many good recom-  
 mendations included therein, we con-  
 cluded to make a first trial of the  
 medicine. To say that it was satis-  
 factory in its results is putting it very  
 mildly indeed. It acted like magic,  
 and the result was a speedy and per-  
 manent cure. We have no hesitancy  
 in recommending this excellent Cough  
 Remedy to anyone afflicted with a  
 cough or cold in any form.—The Ban-

T. J. KING, agent Spaulding-Robbins Disc Plow, Honolulu.

Dear Sir: I have one of your TWO DISC PLOWS at work on my ranch at Waialae, and am pleased to report that it gives me the fullest satisfaction.

In two days, with four Hawaiian mules, I can do as much work with your implement as I can do in seven days when using eight mules or twelve oxen, with a mould board plow, and the pulverization is much better when using the disc.

In the rocky ground, your plow either rolls over the roots or cuts through them, and we find it unnecessary to sharpen the discs, which scour perfectly and were set at such an angle that friction with the earth makes them self-sharpeners. I am, dear sir, yours very truly,

**STOCK IN TRADE.**

When reviewing the census the morning journal took exception to the fact though the number in trade was given, the value of the stock in trade was not. It was pointed out at the time that the law did not provide for obtaining such information. However, through the courtesy of the Tax Office, The Star is enabled to throw some light upon the matter as far as the district of Honolulu is concerned. And as Honolulu is the chief trading center of the Islands, statistics of the stock in trade of this district will tell the story of the whole of the Islands.

From the census tables it will be remembered that under the caption of Merchants and Traders, the Chinese were very much in excess of all other nationalities, and what was true of the whole Islands, is true of Honolulu. Thus there are 281 Chinese trading singly or in firms, each firm counting as one, although there may be several Chinese in the firm, that is there are 281 Chinese trading concerns in the city. There are 106 American trading concerns, 6 British, 5 German, 18 Portuguese, 1 Hawaiian and 55 Japanese. The census gave us the individual number of people engaged as merchants and traders without regard to their combination into firms. The tax figures give us the individuals only when they are trading alone. As few Chinese trade alone, but even in the small stores trade with one or more parties, the actual number of Chinese engaged as merchants and traders in Honolulu must be considerably in excess of 281.

But it is not so much their number that we deal with when looking at the matter from the point of view of the Tax Office, it is the value of the stock in trade that comes under consideration. According to the assessment books of January 1, 1897, the value of the stock in trade owned by the various nationalities was as follows:

106 American trading concerns	\$2,250,907
6 British	383,239
5 German	374,400
18 Portuguese	21,200
1 Hawaiian	2,200
281 Chinese	446,950
55 Japanese	77,700

Total .....\$3,556,596

The first thing that strikes one in the table is the immense preponderance of American interests as compared with all other nationalities put together. The American interests are very nearly double the united interests of the other nationalities. Then the Chinese, as far as value is concerned, seem to exceed British and German interests. But if we look carefully the average to the British concerns is \$63,000 apiece, of the German is very nearly \$75,000 apiece, while the Chinese average a little over \$1500 apiece. The value of the Japanese stock in trade is very small, in the mass, though according to average for single concerns, very nearly equal to the Chinese, the Japanese average being about \$1400. As traders the Portuguese make very little showing, and the Hawaiians are practically nowhere in such a table.

It is somewhat interesting to see where the Japanese stand, in this matter of trading, because we have heard so much of late about the large interests which the Japanese possess and which have to be carefully protected. Well, these mighty interests, as far as the district of Honolulu is concerned, amount to just two per cent of the whole trading stock of the district. They own no sugar plantations and their interest in coffee is very small. The numerical interest of the Japanese may be large, but their investments are, up to the present, not large.

It must be stated that out of 106 American trading concerns 20 are corporations, and that 3 out of the 6 British are corporations. Of course corporations do not necessarily belong to one nationality, that is the stock of an American corporation is not necessarily owned by Americans. Thus the stock of Brewer & Co., which is an American corporation, may be owned partly by Hawaiians, British or Germans, and the stock of the Foundry, which is a British corporation, may be owned in part by Americans or those of other nationality. But this variation in ownership of stock does not really affect the general result. The main point shown by the figures is the immense American

trading interests here. With such figures before them the Senate of the United States will see how great a stake is involved in annexation, and how important it is to hold those American interests to the mother country. Should the Hawaiian Islands be allowed to drift into the power of the Asiatic, the figures which now tell so well for the American would be reversed, and the bulk of the trade which is now in American hands, would go into the hands of the Asiatics. This is a matter to consider and consider well.

**NICARAGUA CANAL.**

A little while ago there was an emphatic denial from Japan that she ever had considered or even dreamed of the Nicaragua canal. If only one waits long enough, things generally come out, and according to the Japan Times, there has been a proposition about the Nicaragua canal but a proposition did not come from the Japanese, but from "the other side," and was rejected by Japan. This proposition came at the time that negotiations were going on between Toru Hoshi, the Japanese representative in Washington, and the representative of the Greater Republic of Central America.

Knowing what we do of the tortuousness of Mr. Hoshi's policy, the mere fact that the offer about the Nicaragua canal came from "the other side" makes no very great figure in the matter, nor does it at all show at whose suggestion the offer was made. Moreover the Japan Mail says, "It is not necessary to describe the exact nature of the proposed provision." If Japan is to clear her skirts of the desire to have anything to do with the Nicaragua canal, it is very necessary that this proposed provision should be known, and that the diplomatic world should learn what it is that Japan rejected.

It is well known that Minister Hoshi did not think that the annexation of these Islands would be considered by the United States, that he considered it was a dead issue, and that in consequence of his advice the Japanese government adopted the aggressive policy which has landed them in a very different position to what they expected, seeing that annexation has turned out to be anything but a dead issue. The Nicaraguan "offer" may well have been part of the scheme Minister Hoshi was revolving in his mind, and when he found that the Hawaiian portion of the plan was turning into dead sea fruit, he very naturally would reject the Nicaraguan offer. More of this tortuous policy will doubtless be revealed as the Japanese press begins to seek for defence against the attacks upon the government.

That doctors differ is very plainly shown in the Luetguert trial in Chicago. Luetguert was accused of murdering his wife and boiling her body down in the vats belonging to his sausage factory. The contents of the vats was examined by scientific gentlemen who have arrived at diametrically opposite opinions. The doctors and scientific men for the prosecution talk of metacarpals, femurs, temporals and other bones of the human frame, while the scientists for the defense laugh at the men on the other side and find no human bones at all. Were the question not so serious it would be as funny as the argument between Bret Harte's Scientific Society on the Stanislaus. But when there are such divergent opinions given by men of such supposed scientific attainment, it makes one doubt very considerably the exactitude of science about which one hears so much.

**Worth It.**

Edwin Forrest, the renowned tragedian, was showing a "super" how to do a small part, and at last exclaimed, in despair: "Can't you do it as I do?" "No," said the super, "if I could, do you suppose I would be working for five dollars a week?" This illustrates the trouble with the low prices of many articles of furniture. If they were well made do you think they would be offered at kindling wood prices?

It is our desire to offer you goods at prices that are consistent with the quality, and we take pride in scouring the Eastern markets for the

October 23, 1897.

As this is the time of the year when all the Rice Planters and Plantations are busy plowing, or getting ready to plow, we feel it to be our bounden duty to speak of our Plantation Implements.

First and foremost is the Avery Advance Double Furrow Plow, which has given great satisfaction wherever introduced, and those on the Islands who have tried these Plows speak highly of them on account of the adaptability to the soil of Hawaii.

We also carry the Perfect Breaker Plows in all sizes; the Double Mould Board; Rice Plows from 6-inch to 13-inch; Harrows and Iron Gage Cultivators.

The Avery Sugar Land Implements, such as Cultivators, Fertilizer Distributors and Stubble Diggers are all standard articles and need no further comment.

That we have the most complete stock of Plantation Implements in these Islands is a conceded fact, and our prices are such that no complaint is ever heard on that score.

**25 cents the dozen.**

Serviceable glass tumblers, suitable for everyday use, the leader for this week. These tumblers have never been sold in Honolulu for less than fifty cents a dozen. We sell them for half that price up to 500 dozen—then we stop. At that price the bargain will not last until Saturday. You cannot afford to wait. Some people who wanted Banner bike lamps waited, and now they will have to pay double the money.

We have other glasses. One style is the non-breakable, so constructed that it defies the attacks of the Orientals. They cost a dollar a dozen, but they last.

Other glasses, thin and light weight, from 2½ ounce to 16 ounce capacity, plain or etched and engraved. All prices, according to size and style—none of them expensive.

Our stock of glassware is the largest and the prices the lowest. Our leaders are an indication of what the prices of other goods are. These twenty-five cent tumblers are perfect in quality and first class in every respect.

### WHERE SOLDIERS ARE HIT.

An Expert Tells of the Vulnerable Parts of the Body.

A great military authority says that when a well built man of six feet is facing the enemy he presents a surface to be shot at of 1000 square inches.

His face has an area of 56 inches, and his neck of 23 inches, but out of every hundred men wounded in battle fourteen will be wounded in these parts. They are the most exposed parts of the body, whether the combatants be in a trench or behind a tree or wall.

The trunk offers nearly four times as large a target, but it is usually protected by some form of defense works, and is therefore hit only nineteen times in a hundred.

As "Scraps" says, it seems extraordinary that the arms have as great an area almost as the body. That is to say, what the anatomist calls arms, which include the shoulders. They measure 225 inches, and receive thirty out of the one hundred hits. The reason they are oftener wounded than the body is that they have to be exposed so much in firing.

The legs, including the hips, have the largest surface of all, measuring 422 square inches, or nearly twice as much as the arms. But they are almost always protected by breast-works, rising ground, trunks of trees, etc., and so they are wounded only thirty-five times out of the hundred. While fighting at close quarters the head and body suffer very severely, and when fighting behind trees the arms, having to be put forward to fire receive an unusual number of the wounds.

A curious fact which every veteran knows to his cost, is that when the ground is hard bullets are deflected upward and wound the legs and lower parts of the body, while, if the ground was soft, the bullets would bury themselves in it.

### THE NEW PREACHER.

### ANTI-ANNEXATION VIEWS

OILY BILL AND P. H. MAKEKAU FALL OUT.

Lahaina Politicians Disagree as to Who Should Represent Them in Washington—Omstead Recovered.

Lahaina, Oct. 23, 1897.

William White and R. H. Makekua addressed the crowd who had assembled as usual when the Kīman arrived, on the necessity of sending a delegate from Maui to Washington to work against annexation. One of the speakers was in favor of sending S. E. Kalne and the other advocated John Richardson. There was quite a waddy war for a while. Mrs. Sharritt and Miss Cockett also addressed the crowd which consisted of about 125 persons, one-fourth of whom were school children. John Richardson was present, but did not take part in the proceedings.

Lahaina was blessed with a beautiful rain last Sunday afternoon. It was local, for it did not extend far beyond the town limits on either side.

Deputy Sheriff Omstead was about again for the first time on Sunday. Lahainaluna ice was for sale on last Monday evening at one cent and a half a pound.

The United States gunboat Wheeling arrived here on Tuesday afternoon a short time before the Mauna Loa. She was under way at target practice all day Wednesday and again on Thursday. She left for good early on Friday morning. Some of the officers were on shore two days ascertaining the deviation of the compass.

Dr. Davison has been ill and confined to his house nearly all the week.

**That Tired Feeling AND GENERAL DEBILITY.**

The cause is poor, thin blood, resulting in deficient vitality. To overcome this, the blood needs to be enriched and vitalized, and for this there is no medicine in the world equal to **Ayer's Sarsaparilla**. The cures it has worked, the men, women and children it has restored to health, are countless in number. One such experience is related by Mr. Robert Goodfellow, Mitcham, South Australia, as follows: "I have used

in my family for years, and would not be without it. I used to suffer with boils and skin eruptions, attended with great lassitude and general debility. In fact, I was so ill that I could not attend to my business. Being advised to try Ayer's Sarsaparilla I did so, and I am happy to say that the medicine restored me to perfect health. I have since used Ayer's Sarsaparilla for my children, in various complaints, and it has always proved effective. I can safely recommend it to sufferers as

**SEA OTTER SCARCE.**

The hunting schooner Rattler secured twenty-six sea otter skins and 193 fur seals. Captain Neilson now declares that otter are becoming very scarce. He got one skin that is entirely white, the first one taken, according to the hunters. The conventional color of the sea otter is black. But skins are found here and there dappled with silver, and they have commanded the highest prices. This pure white skin, it is believed, will bring from \$700 to \$1000, the highest price on record.

Those who believe chronic diarrhoea to be incurable should read what Mr. P. E. Grisham of Gars Mills, La., has to say on this subject, viz: "I have been a sufferer from chronic diarrhoea ever since the war and have tried all kinds of medicines for it. At last I found a remedy that effected a cure and that was Chamberlain's Colic, Cholera and Diarrhoea Remedy. This medicine can always be depended upon for colic, cholera, morbus, dysentery and diarrhoea. It is pleasant to take and never fails to effect a cure. For sale by all druggists and dealers. **OUR REPAIR DEPARTMENT**

Is a business in itself. We have lately secured the services of Mr. J. W. Harvey, a thorough Bicycle mechanic, who for the past fourteen years has been in connection with bicycle manufacturing and repairing. We did not pick him up on the streets here, but sent to headquarters in the States, where bicycles are made. We need not go further to explain his ability, but will end here by saying there is nothing that can happen to your Bike but what he can make as good as new. He is no "Jack of All Trades," but is a Master of the Bicycle.

By the next Australia, we will receive the most complete outfit for Enameling frames ever brought to Honolulu, so if your wheel needs enameling it will pay you to wait a little longer and have a good job done. We guarantee to turn out work as good as that of the factories in the States, for only \$5.

If your tire is cut don't throw it away, bring it to us and we will repair it, so you will never know where it was cut, for only \$1.

If you have a punctured tire bring it to us and it will only cost you 50 cents.

If you should happen to run into a sidewalk or a telephone post and so break a rim, we will put a new one in for \$1.50, and guarantee the best job in the city.

The reason we can do this work better than anyone else is because we keep a man at each branch, and of course he becomes expert at the branch he handles.

For instance we have one man for all frame work, another man for all rim and wheel truing work, another man for enameling.

**WE BELIEVE**

that purchases of groceries are made to fill certain needs, and that quality must actually have the largest share of attention. Price is and should be made subordinate until one's judgment approves the quality. The quality once fixed, then buy as low as it can be bought. This is our theory in buying. We have carefully graded the price on our entire stock, but not a single article is of poor quality. Each steamer from the Coast brings us new fresh goods.

**Hawaiian Electric Company.**

The cleanest, brightest, safest and really, in the long run, the cheapest and best light for use in the family residence, is the incandescent electric light. Safe; nothing could be safer. A few days ago a prominent gentleman of Honolulu came rushing down to the office of the Electric Company and said: "Give me figures for wiring my house, and I want it done at once; no more lamps for me. Last night a lamp tipped over and it came so near setting fire to the house and burning my children and I take no more risks." This is the sentiment of quite a number in the past few weeks, who have ordered their houses fitted with the perfect light. Just think it over and make up your mind that you want the best and safest light; send for the Hawaiian Electric Company and tell them what you want.

SYNDICATE IN WAILUKU WANTS 1400 ACRES.

Tag of War Fever on Maui—Spreckelsville Comes Out Victorious—Buggy Accident—Shooting Match.

Maui, October 23, 1897.

It is reported that an attempt is being made in Wailuku to get up a syndicate to buy up a block of about 1400 acres of Nahiku land, but there is no doubt that it will fail. Many people have the idea that they can wait till the day for the sale of the above land comes, and then bid in the lot they want, but they may be surprised to find their lot gone by that time. And should any lots be applied for under the Right of Purchase Lease system, there is no auction, the first application taking the lot. As there are many Portuguese intending to apply under the above system, it will be well for those interested to be on hand early on November 24th, to file applications. First application received decides under what system the land goes. Interested parties should bear this in mind. Applications under the system of "special agreement," duly filled out and sworn to by the applicant, can be presented by a substitute taking his turn at the sub-agent's office on November 24th. Application blanks can be had at any time at the sub-agent's office, or at the Land Office in Honolulu. Lot 29, the large one close to the Nahiku landing, has been reserved by the Government for the present.

Last Saturday night in the Wailuku skating rink a tug of war occurred between a team of Hawaiians from Spreckelsville and one from Kahului. After fourteen minutes of hard pulling the Spreckelsville boys came out victorious. A small admission fee was charged and about \$31 realized, two-thirds of which went to the winners and one-third to the losers.

Tomorrow at the shooting range in the Wailuku sand hills, a match shoot is to be held between the police of Wailuku and Makawao, and the Wailuku Citizens Guard.

Mr. C. W. Dickey came up per Kaima last night for a week's visit with his folks at Hailu.

Sheriff Baldwin goes to Honolulu tonight on business connected with Ah-mi's suit for damages.

Mr. S. E. Taylor and family are enjoying the bracing climate of Oahu for a few weeks.

Among the recent arrivals on Maui is Mr. Thayer of San Francisco, who comes to take charge of the wholesale business of Alexander & Baldwin at Kahului.

Wednesday afternoon last as Mrs. D. C. Lindsay was returning home from Hanalei, with her baby and Japanese nurse in the phaeton, at the corner near Mr. C. D. Loveland's the horse suddenly started around, turned the vehicle upside down, and threw them all out. Beyond some severe bruises sustained by Mrs. Lindsay no further injury was done, the baby escaping without a scratch. The top of the phaeton was pretty well smashed up.

On Tuesday afternoon the little 5 year old daughter of Mr. and Mrs. William Higby of Kalaupuu, was kicked in the face by a mule, and had her nose broken. It was a wonder that she was not killed.

The weather has been showery and wet for the past week, plantation ditches are full, and everything goes on smoothly here on the Island.

A LITTLE CAKE TALK.

Cake is cake; yes, sir; just as water is water. Some is good; some very good; some past description—bad. Some cakes you buy are made in an indifferent manner, of poor material and flavored with what? You can taste the Asiatic naker and his cigar or cigarette at the first bite. Why not buy a good article from a clean, well conducted shop, where tobacco is never used and where cleanliness is practiced to an extent almost unknown in the average bakery. We will make you a layer cake from 50 cents up, tastefully ornamented, and guaranteed good to eat. Our ginger snaps and ginger bread are selling like hot cakes. Have you tried them yet? Yours,

The society is really in need of funds and those who go this evening will see a good show and aid a good cause at the same time.

RANCH HOUSE BURNED. Pursuer Davis of the steamer Helene reports a serious fire in Kula district, on Maui, last week. The ranch buildings and ranges of a native cattle rancher were totally destroyed by fire last Wednesday night. Fortunately the cattle were driven to a place of safety, and the people all escaped to the hills. The fire entailed quite serious loss, as it destroyed the pasture for some time to come.

EXCESSIVE DAMAGES.

Grounds for New Tidal of Tuck Chew vs. Makee Sugar Co.

Circuit Judge Carter handed down a decision this morning in the case of Tuck Chew vs. Makee Sugar Co., granting a new trial of the case, on the sole ground that the damages awarded the plaintiff by a jury, amounting to \$29,844.20, were excessive. The suit was brought to recover damages for eviction, and has excited a good deal of attention. The Court holds that one of the jurors was biased, prejudiced and incompetent to sit is without foundation, and that there is no merit in the plea of surprise and newly discovered evidence. New trial is granted on the grounds of excessive award alone.
