WHAT IT MEANS TO HONOLULU

PRESIDENT MORGAN OF CHAMBER OF COMMERCE EXPECTS AN EARLY BEGINNING OF WORK AT PEARL HARBOR—PROBABLY EIGHT OR NINE THOUSAND PEOPLE NEEDED TO CARRY ON PROJECTED WORK AT THE BIG NAVY YARD.

President Morgan in speaking this morning about Pearl Harbor remarked that he thought that within a month the actual work of building would be started, and within six months a large force of workmen would be engaged in building what promises to be one of the greatest naval stations in the world.

"I do not think there is any chance of the matter being continued in Congress this year, and I expect to hear any day now that the bill has gone through. We have had any number of people working for us, and I think that President Roosevelt has made up his mind to have it go through, and with his constant requests to everyone interested, I am certain that we are going to get the appropriations, although we have not received them yet.

"The starting of work at Pearl Harbor is going to mean a good deal to Hawaii, and the rest of the United States. I imagine that eight or nine thousand people will be necessary to keep up the work at the yard, and

those additional people here will mean lots of money in circulation. The building up of Pearl Harbor is a thing that had got to be done sooner or later, and I think that the people in Washington realize that it has to be done this year.

"The old saying 'in time of peace prepare for war' is constantly before our government officials in Washington, and although there is no chance of war now, we should be prepared for anything that may come up.

"Every Chamber of Commerce of any note in the United States has endorsed Pearl Harbor, and that means a great deal to the Congressmen and Senators. President Roosevelt has promised his support to the cause, and now the Naval Committee who refused to endorse it a few days ago have changed their minds, and have endorsed it.

"When the cable arrives stating that the matter has passed the House, I think the Chamber of Commerce of Honolulu will have cause to congratulate itself on what they have done towards getting it through."

BEFORE COMMITTEE ON TERRITORIES

The following are extracts from the report of the hearing by the House committee on Territories of the Maui electric franchise bill:

Mr. Candler. What proportion of the population of Hawaii is Japanese at this time?

Mr. Coke. A little more than half of the population. I think there are about 80,000 Japanese on all the islands, and the population is something like 150,000 or 160,000.

Mr. Candler. And what business are they generally engaged in?

Mr. Coke. The great majority of them are plantation laborers, but they have gone very thoroughly into other matters, and are gradually displacing the other residents there.

Mr. Lenahan. Why is that? Is it on account of the lower wages that they work for, or on account of their intelligence or skill?

Mr. Coke. It is not on account of their intelligence or skill. It is on account of the fact that they are willing to work—especially if they work for themselves—for a bare living, and they can live on almost nothing.

Mr. Kimball. I am a new man, and am not supposed to know anything; but it seems to me that where the various Territories let gentlemen come here to represent them as Delegates they are charged more largely with responsibility in these matters than anybody else. If my friend the prince wants his bill put through, and he thinks it is a proper thing, he is responsible to the people out there; they are his people and not ours. I suggest that he make a statement to that effect, and then let the bill go through, and let them have the responsibility about it. They are not spending any of our money. They are not affecting our districts in our country. Let the man who comes up here to look after that district take the responsibility.

The Chairman. That is true, except that the custom has been for the representatives from the Territories to compare views with the members of the committee; because sometimes there occur differences in the views.

The genial Secretary is not communicative on the subject. He didn't show up at his office until later than usual this morning, which caused the attaches of the office to wonder if he had taken to the tall timbers.

Governor Frear raises an interesting point in the Secretary's behalf by inquiring whether or not it can be proved that Mott-Smith bagged anything, and if not whether he could be held to have been hunting. He would ask if a man took a gun and went out on the hills for the purpose of making a noise, could he be held to be hunting in the eyes of the law?

The Governor's knowledge of the intricacies of the law is profound, and if he has undertaken to defend the Secretary, his stand in the matter should have weight. In the meantime, "by advice of counsel" Mott-Smith refuses to make any confession, even so much as having seen a gun while away.

WHERE IS HE "AT?"

SECRETARY MOTT-SMITH HAS A FINE DEFENSE AS A POOR HUNTSMAN.

Secretary Mott-Smith is said to be in for investigation by the grand jury of the Third Circuit Court on charge that during his recent vacation trip to Hawaii he hunted game without having taken out the \$5 license fee from the County Treasurer provided by law. This word has been received from Hilo.

ANNUAL MEETINGS

KOHALA MANAGER REPORTS AGAINST BUYING WATER FROM THE KOHALA DITCH.

At the annual election of officers of the Hilo Railroad Company held this morning at the offices of H. F. Dillingham Co., the following officers were elected for the ensuing year: Lorvin A. Thurston, president; H. M. von Holt, vice-president; W. F. Dillingham, treasurer; A. W. Van Valkenburg, secretary; E. E. Paxton, auditor; directors, Albert Waterhouse and W. A. Kinney.

At the annual meeting of the Honouliuli Sugar Co. held this morning at the offices of F. A. Schaefer & Co., the following officers were elected for the ensuing year: F. A. Schaefer, president; W. H. Baird, vice-president; Edward Politz, second vice-president; W. Lanz, treasurer; J. W. Waldron, secretary; H. Schwartz, assistant secretary; and the Auditor, Company of Hawaii, auditor. Directors, F. A. Schaefer, W. H. Baird, W. Lanz, J. W. Waldron, H. Focke, W. I. Hopper and E. A. McInerney.

The annual meeting of the Kohala Sugar Company at the offices of Castle & Cooke resulted in the re-election of the following officers: President, E. D. Tenney; vice-president, C. H. Cooke; secretary, T. H. Petrie; treasurer, C. H. Atherton; auditor, M. P. Robinson; manager, George C. Watt.

The manager's report showed a crop of 2402 2/3 tons and an estimated crop this year of 4750 tons. The sugar per acre was 1,964 tons. There were no labor difficulties during the year.

As to the water supply Manager Watt reports:

"Owing to an ample rainfall throughout the whole year the Kohala Ditch Company has been able to deliver nearly the full amount of water contracted for. This has enabled us to keep our irrigation well forward and in consequence the young cane looks very promising.

"It is a noticeable fact that whenever the rainfall is light the ditch shows it at once by a marked falling off in its delivery. Such being the case, I would not favor contracting for any more water from the Kohala Ditch Company, as it would simply mean that we must pay for it during rainy times, when we do not require it at all, and yet do not have it during dry times, when we really need it.

"We have built one reservoir during the year with a capacity of nine million gallons of water and have started on another which will have a capacity of fifteen million gallons and which will be finished in time for the coming crop."

At the meeting of Pala Plantation also the old officers were re-elected: H. P. Baldwin, president; S. M. Damon, vice-president; J. I. Cooke, treasurer; E. E. Paxton, secretary; D. B. Murdoch, auditor. Board of Directors, H. P. Baldwin, J. P. Cooke, S. M. Damon, C. H. Atherton, J. Waterhouse.

The same officers were re-elected by Hilo, excepting C. H. Dickey for director instead of J. Waterhouse.

At the annual meeting of the Pacific Sugar Mill Company held this morning at the offices of F. A. Schaefer & Co., the following officers were elected for the ensuing year: F. A. Schaefer, president; E. A. Mott-Smith, vice-president; J. W. Waldron, secretary; W. Lanz, treasurer; Auditor Company of Hawaii, auditor. Directors, F. A. Schaefer, E. A. Mott-Smith, J. W. Waldron, W. Lanz, H. Focke, Cecil Brown, E. H. Wodehouse.

BACK TO LAYSAN.
Max Schlemmer has chartered the schooner Luka from Captain Miller, and on Monday will sail again for Laysan Island, after several months here, for a load of guano. Schlemmer goes as master of the Luka and J. Gerloff as mate. Four Hawaiian sailors will complete the crew. The Luka and Laysan are closely associated in recent history.

RUNAWAY WILDER SENT FOR GETS IT

LAD ABOARD THE EXPECTED SHIP SEWALL WILL BE QUICKLY TAKEN CHARGE OF.

When the big American ship Edward Sewall, Captain Quick, arrives here from Baltimore, and she is due at any time, being out nearly five months, C. J. Schoening, gas engine and automobile expert of this city, will board her and claim the person of Ernest Wilhelm Werninghaus, by power of attorney.

Comes a letter and affidavits and aforesaid power of attorney to Schoening from the father of the lad named Ernest Clemens Werninghaus, declaring that his son, who was born February 10, 1890, left home at Oak Park, County Cook, Illinois, without the consent of his parents on September 23 last and signed aboard the Edward Sewall on October 6 as a sailor.

The boy's father authorizes Schoening, who is a friend of the family, to take hold of the lad and do with him everything which a father might do (which might be taken to mean a spanking) and to transport him back to Chicago where his mother awaits him, broken hearted because her son ran away as he did. The elder Werninghaus sends all money necessary to defray expenses.

Schoening, upon receipt of the power from Werninghaus, reported the matter to United States Shipping Commissioner Henry N. Almy who will in every way in his power assist the commissioned friend to restore to his parents the eighteen-year-old lad who ran away from a comfortable home, good prospects and a comfortable mother's dearest wishes.

For a boy to sign aboard ship, under U. S. Statutes, requires the consent of his parents. After fifteen thousand miles at sea around the Horn from Baltimore young Werninghaus will upon arrival here find four thousand miles more

THE EVENT OF THE YEAR ALONG THE WHARVES—AN IMMENSE GATHERING TO CELEBRATE THE ANNIVERSARY OF THE LONGSHOREMEN'S SOCIETY, OTHERWISE KNOWN AS HUI KOKUA AME MANAWALEA O NA POOLA.

Over a thousand are this afternoon seated at long and gaily decorated tables in the capacious shed on the Madison Navigation wharf at the monster luau is being given by the Longshoremen's Mutual Benefit Society, the Hui Kokua ame Manawalea o na Poola, in celebration of the first anniversary of which the feast is being given.

Flugs of all nations are suspended overhead and the five great tables are covered with leaves and flowers. An immense amount of tasty food was prepared.

Each of the four hundred members is entitled to have his wife and one other person at the board and there are also a large number of invited guests, including County officials, representatives of the shipping firms and friends of the organization which is not a union, but a society for sick benefits and the welfare of widows and orphans.

In full force the society marched from Nottley hall presenting an impressive spectacle. Charles Kaneohe, president, presides at the function. McCabe, Hamilton & Renny, the

stevedoring firm, has for years given an annual luau at Christmas to longshoremen, but last Christmas, the longshoremen having other arrangements for spending the holiday, the firm instead donated \$200 to the society to do with it as it wished. This sum was divided by individual contributions of the members and friends and the monster luau in progress this afternoon is the climax.

A Honolulu boy who has been out of town for six years says it made him lonely to see so many new faces in his walks about town. But when he hit the waterfront he found many old acquaintances. The waterfront retains a goodly number of the old guard, whose places would be difficult to fill.

Flying the Dutch flag, the first that has been seen on a vessel in San Francisco for a long time, the steamer Nederland arrived on February 18 at that port, forty-one days from Newcastle, Australia, and thirty-six days from Sydney, with a cargo of 5,350 tons of coal. The long trip from Australia Captain Reich says, was due to strong northerly winds.

The new steamer George W. Fenwick, built at Newport News, Va., for the Hammond Lumber Company of San Francisco, sailed from Baltimore on February 16 for San Francisco under command of Captain Melvin. The Fenwick has a net tonnage of 1,250, and was launched on October 26th last. She will be one of the largest steam schooners in the Pacific.

The San Francisco bay schooner Mystery has been sold at auction for \$50. The vessel was formerly well known on the bay, Captain Espinoza and his two daughters having operated her between Frisco and Petaluma, their home. Last winter, during a severe storm, the Mystery capsized in San Pablo bay, near Petaluma creek, and the skipper and his two daughters were drowned. Their bodies were subsequently found in the bay.

P. M. S. S. China, sighted coming from the Orient at 1:30 o'clock yesterday afternoon, entered the harbor at 4 o'clock and docked at the quarantine wharf, a case of varioloid having been discovered in the Asiatic steerage. She brought 100 Japanese for Honolulu, 70 men and 30 women, and these are now on quarantine islands. Of cabin passengers there are only two for Honolulu and ten going through. The China brought 600 tons of freight for this port and takes on 600 tons of coal, being booked to sail for San Francisco at 2 o'clock this afternoon.

Thirty-five passengers who would have gone to San Francisco direct from Australia and New Zealand had there been a steamer on the line, arrived at the Hilo City on February on the Emallia by way of Victoria to which point they traveled on one of the liners operating between the colonies and British Columbia.

Women and Men

Here are some famous writers' views of women: All the reasons of men are not worth one sentiment of woman.—Voltaire. Wrinkles disgrace a woman less than ill-nature.—Dunphy. A woman is seldom tenderer to a man than immediately after she has received him.—Anonymous.

REPUBLICANS AND RACE ISSUE.

The race issue will never be downed altogether in our politics, any more than it is lost in Mainland politics, where politicians cater to many different bodies of naturalized citizens, recognizing that the old world associations can always be played upon to some extent. As long as it pursues the fair policy shown by its past record, however, the Republican party here need not fear much from the politicians who try to work on the race issue. Since the party was organized,—it was not organized in the first campaign,—it has suffered no defeats not its own fault and none at all on account of the much overworked race issue. It may confidently expect to elect its ticket next fall if the ticket deserves election.

JAPANESE CONQUEST OF HAWAII.

The statement of Delegate Kalanianiʻamele before the House Naval Affairs Committee during the Pearl Harbor discussion, published yesterday in The Star, contains the following:

By the time that President McKinley reached the White House, it had become apparent that the danger of the occupation of Hawaii by a foreign power had been shifted from European nations to those of the Orient.

There is a very clear recognition in these words of the fact that Japanese ambition to get Hawaii has only been checked by American occupation and insistence upon "Americanization." It is probable that it was not stopped by mere annexation. Its abandonment will date from the present year, when Japan agreed to stop the immigration of her people to the islands. It is entirely likely that Japanese statesmen have cherished hopes of finally acquiring Hawaii even if no war should transpire. Knowing the unsettled foreign policy of the United States, and the not unimportant American agitation against the expansion policy, it must have seemed possible that if Hawaii could be flooded with Japanese so that the islands were essentially a Japanese community, such a commercial conquest would make Americans disposed to let go. Why retain islands where a large population of aliens were enjoying American protection and the benefits of American tariffs? With the stoppage of immigration, involving in the long run a gradual decrease in our oriental population, this dream must be abandoned. It is a good thing for Hawaiians that history has shaped itself as it has. There are no signs of any franchise being given to the people of Korea. Japan doesn't rule in that way.

THE TERRIBLE WORK OF THE RAT.

A World Campaign of Extermination in Which Honolulu As a Shipping port May Be Asked to Participate.

Aroused to a sense of danger by a steady increase in the percentage of rats infected with bubonic plague, San Francisco is beginning what her citizens think is the greatest campaign ever made for the extermination of rats. At the same time, British and American medical societies are urging that the matter is an international one, and that mankind the world over should undertake to destroy rodents. There is plague now in India, in Afghanistan, Persia, China, Strait Settlements, Japan, Formosa, the Philippines, Australia, on the Pacific slope of the United States, in South America, in various districts of Africa, in Turkey, in Asiatic and European Russia, and to a small extent in other parts of Europe. There were two cases last year in Glasgow.

San Francisco has utterly changed her attitude of attempted denial of plague. Says the Journal of the American Medical Association: "The citizens' committee of twenty-five, appointed by the mayor as the result of an urgent request of the committee appointed by the Medical Society of the State of California, is taking an active interest in the entire work of the plague. Employers are calling meetings of their employees, teaching them that the plague is in San Francisco; telling them by what means to avoid it; that they should clean up their premises, trap all rats possible, and keep all food away from rats. Resolutions have been passed requesting the assistance of the press, and now all papers excepting the Chronicle are publishing information about the plague, and advising the citizens to aid in combating it."

In London has been organized a society to exterminate rats. They are held responsible for a million deaths a year in India and it is pointed out that their economic injury to mankind is very great,—the amount of destruction they are responsible for and the amount of food products they consume annually are very large. Owing to her vast amount of shipping England is said to be the greatest rat exporting country in the world,—never a vessel leaves any port without rats aboard. In connection with the British campaign Sir James Crichton-Browne in a speech pointed out a grewsome significance in the history of the introduction of the rat to Europe: "There was a time when there were no rats in England. They came out of Central Asia and sent forth waves of emigration—westward the star of empire made its way. The first great wave, the black rat, reached Europe about the beginning of the sixteenth century; the second wave, the brown rat, did not reach England until the beginning of the eighteenth century. It was about 100 years after the first great wave that the great plague of London broke out, and at that time London was overrun with rats."

The story of the Black death in Europe is one of the most frightful in history. And it appears now, that the great tragedy was all due to a migration of rodents from Asia!

Ella Wheeler Wilcox, as quoted in The Star today, is very warm in praise of the amateur performance of the week in Honolulu, and such commendation from such a source may well give pleasure to those receiving it. It is, moreover, well deserved. The dramatic circle of the Kiloohana Art League has shown that Honolulu has amateur talent of very high order.

Governor Frear, in holding up an appointment to give the Republican executive committee time to act upon it, has clearly recognized that committee's right to some say in such matters, along the lines suggested in these columns. This is a natural course for a Republican executive to pursue. The only danger of the executive flouting or ignoring the committee was created by the minority of its members.

The Man and His Job

By HERBERT J. HAPGOOD.

An original idea backed up by the ability to execute it is worth more to a man than any other earthly asset. If a man has the insight to recognize the best way of doing a thing and the push and progressiveness to see that this is done, he has a sort of reserve for him in the row with those who have lived successful lives.

Watch every detail in the system under which your business is run, and see if you cannot devise a more economical method. Three years ago, a young man came from Louisville, Ky. He didn't travel in a Pullman car, nor even in an ordinary day coach. He earned his transportation, rather, by the honorable, though somewhat disagreeable task of feeding live stock on a cattle train.

When he reached New York, he got a job as bill-poster. Most men would have stayed at that job and worked the rest of their lives in overalls with paste-pot and brush. But this man possessed insight and he conceived an original idea.

At that time it was the custom of each individual advertising company to send out special inspectors to see if their bills were properly posted and that all their bill-boards were covered. Now, this man worked out a plan to have all this inspection done by messenger boys. He had no trouble in interesting one of the big telegraph companies who agreed to pay him a commission on all the business he got.

He left his overalls and paste-pot and began to build up a business.

Today, he finds himself the possessor of a small fortune. But more than that, he has instituted a system which has proved to be a money-saving and labor-saving device.

Tales Worth Telling

"Upped benjamins, mud pipes and kickles cut peg top, half light or to drop down over the trotters; vests hung saucy, made to flash the dicky or tight up round the serag; sneaking togs."
"What kind of talk is that?" the clothing dealer's companion interrupted, and with a laugh the clothing dealer took a booklet from his pocket.
"While I was abroad laying in cloth for the spring trade," he said, "I came upon this booklet, which a tailor in the East End of London had issued. In the East End they are slangy, and this book is interesting because of the slang it contains."
Then he read:
"The champion of England slap-up tog and out-and-out kickles builder nabbed the chance of putting his cutnabbers awake that he has just made his escape from Birmingham, not forgetting to clap his mawleys on a rare dose of stuff, but on his return home was stunned to tumble against one of the tip-top manufacturers of Manchester who had stuck to the gill, cut his lucky from his drum, and was about vamoosing off to the Swan stream leaving behind him a valuable stock, and having the ready in his kikk, the slap-up tog builder grabbed his chance, stepped home with the sweat, and is now safely landed at the crib."
"The booklet then gives prices," said the leader "in this manner:
"Upper benjamins, built down, a monarch to half a fannuff; pleasure togs, turned out slap, one pound; box-cloth vests, cut saucy, a counter; Bedford vests, with the artful dodge, a canary; fancy cords, cut awfully loud nine times; moleskins, built hanky shank, with a double fakement down the sides and artful buttons at the bottom half a monarch."
"I suppose," said the dealer, "you understand most of that slang? Mawleys are eyes; kickles, trousers; serag the throat; a monarch, a pound sterling; half a fannuff, half a crown; stuck to the gill, stole; cut his lucky from his drum, abandoned his business; a double fakement—"
But the listener had put his fingers to his ears.
"Enough, enough," he said. "You forget that I am a Bostonian."—S. P. Bulletin.

KAHN WORK FOR US
WASHINGTON, D. C., February 20.—Representative Kahn appeared today before the Appropriations Committee and urged the fortifications of the Hawaiian Islands to prevent any possible foe from using them as a base. Also the construction of additional torpedo planters for the Coast, to protect the bays and harbors that are without fortifications.
Chairman Smith of the sub-committee says he is heartily in sympathy with Kahn's appeal.

THE FLEET AT VALPARAISO

VALPARAISO, Feb. 14.—The great American fleet of 16 battleships, under the command of Rear Admiral Evans, passed Valparaiso this afternoon and continued on its voyage northward for Callao, Peru, the next stopping place. All Valparaiso and thousands of persons from every city in Chile witnessed the passing of the fleet. President Montt and the other high officials of the republic came out from shore to greet the battleships and almost the entire Chilean navy exchanged salutes with the American ships as they swung round Carauquilla point and into Valparaiso bay in single file, headed by the Chilean cruiser Chacabuco and five Chilean torpedo boat destroyers.

Turning sharp around Carauquilla point at 1:10 o'clock, the Chacabuco and five Chilean destroyers led the Conestoga and her 15 sister ships into the view of the thousands who had awaited their appearance since dawn. The dawn was perfect and the spectacle of the fleet stretched in a great semicircle, as seen from the high hills around the bay, was magnificent.

President Montt and other Chilean officials embarked on the training ship General Baquedano and took a position well out in the harbor. Around the Baquedano the fleet swung at a speed of four knots, firing the presidential salute as they passed in review. It was one hour from the time the head of the fleet entered the bay until the last vessel had passed the president's ship and turned toward the open sea. Then the Baquedano lifted anchor and escorted the fleet out of the bay and well on its way to the north. It was a review such as has never before been seen in Valparaiso bay, and one that will long be remembered by the people of Chile, who came miles to see it.

Shipping in the harbor and the principal buildings in the city were dressed for the occasion, the day being observed as a holiday in honor of the fleet. From the picturesque, sloping hills dotted with houses, a profusion of bunting and the waving of flags were discernible from the bay. Thousands of persons from Santiago and other places in the republic had come into Valparaiso for the occasion and the roofs of the Boies Commercial, with its two huge towers, the customs house and the large warehouse and other buildings along the circular road skirting the bay front were black with spectators.

The enthusiasm of the Chileans was almost boundless and they cheered lustily as the battleship fleet swung around the reviewing ship, their sides lined with jackies in lustrous white and the bands playing patriotic airs. The noise of the cheering was lost, however, in that of the saluting guns from the fort and the fleet. Altogether 1200 shots were fired.

After the fleet had passed to the northward a banquet was served on board the General Baquedano by President Montt in honor of the diplomatic corps and his other guests. Toasts were drunk to President Roosevelt and Admiral Evans and his officers, crews and ships, and the universal wish was expressed that the Americans may have fair weather and a safe passage to their destination.

In the city of Valparaiso tonight celebrations of every kind are in progress and everywhere may be heard words of praise for Admiral Evans for having honored Valparaiso with a visit.

PUERTO MONTE, Chile, Feb. 14.
The United States torpedo destroyer flotilla arrived at his place today after a safe and pleasant voyage through the channels from the strait of Magellan along the coast of Chile. It was piloted through by Lieutenant Rozas of the Chilean army. The arrival of the Americans was greeted with enthusiasm by the people of this town.

CHINA PREPARING TO SWEEP WORLD

RAISING HUGE ARMY TO WHIP ALL BUT AMERICA ASSERTS CLERGYMAN EDITOR.

SAN FRANCISCO, February 17.—Several hundred young men sat up and took notice at a meeting in the Young Men's Christian association headquarters, 1220 Geary street, yesterday afternoon when Rev. Ng Poon Chew, editor of the Chinese World, told them that China was raising an army of 1,000,000 men to drive the European nations from the empire.

"But she will never be a menace to America," said the editor, because, among other things we have referred recently in that the United States is the only nation on earth with a conscience." The journalist talked of "China's Possibility the Church's Responsibility," and he interspersed his address with epigrams and figures of true Chinese terseness.

"China," he continued, "is just awakening from her slumber, and she is getting ready to go to arms. When she does she will send Germany, France, England, Russia and all other robbing and thieving nations home in a hurry. If Russia ever tries again to grab any Chinese territory we will fill her full of gory holes—just as Japan did. China is destined to be the greatest nation on earth."

"Yes, I say that China will yet live to see the funerals of several of the western nations that have been trying to devour her piece meal. The trouble with China has been that she was too much like a cube—and way she were thrown or kicked, whatever side turned up, was just like everything that had gone before. She has also learned from bitter experience that might makes right, and that the mightiest nation is the one that can kill the greatest number of men in the shortest time with the least expense.

"But in all this struggle of hers to uplift herself there is one thing she must receive. She must have Christianity or she will become an atheist nation, for her young men no longer believe in Buddha or Confucius. And when you send us missionaries send us men we can admire as well as respect."

"We want athletes. The Chinese admire athletes. Your people too often have seemed to think that all you had to do at a missionary conference was to take a collection and then send anybody to China who offered himself as a missionary. As a result we haven't admired them all. Give us your college graduates and the athletes. Then there will be no yellow peril."

Honolulu, Feb. 26, 1908.
EDITOR STAR: Dear Sir:—I regret to see that there is danger of the Children's Hospital falling through for lack of funds. And I regret this the more because there are a dozen men here and not a few women, that could give this entire amount, that is needed, and would never feel it. I regret this too, because, there are a dozen other men that could give the half of this amount, and never feel it. I regret this the more because there are hundreds, if not thousands, of others, that could give large sums without feeling it at all. But I regret it more still because it shows that its the muck-raks and not the golden rule, that is predominate here. And I regret it also because it shows a spirit of thanklessness for all the countless blessings that we enjoy. I regret it again because it shows we take no interest in suffering humanity, or care at all for the ill and misfortunes that befall our fellow creatures.

Most of us are bent upon increasing our wealth at all cost, and we don't know, and don't want to know anything about the sufferings of others. And as for the thought of doing good, of visiting or helping the sick, or doing anything whatever of this kind, why it's scarcely even thought of. Why we have scarcely time to give a kind word, or a good morning, or a look of sympathy to those around us, to say nothing of giving our money. In this beautiful city, to say nothing of the other places, I see evidences of wealth and luxury upon every hand, and which shows how easy it would be for those more fortunate ones to give this money if they cared to, or if they could only realize their obligations or the blessing that they enjoy. I see too rich men getting so busy getting richer than they have no time to enjoy their money. They have scarcely time to come out in the open and get a breath of pure air, or to take a look at the blue sky, or the beautiful sunshine.

The most of us know nothing of the blessing of doing good, and of helping others along, and we have no time to learn. Avarice, unfortunately, has got too many of us in his grip, and he is holding us down in the dirt, and giving us no time to think of better things much less of doing them. Oh! if we could only know the joy of throwing off this yoke, this blight, this curse, and come out into the beautiful sunlight and enjoy its blessed and benignant influences, what changed beings we should be. What a beautiful world would open to our astonished gaze. And when our hearts are opened to the beauties of nature, and when we begin to see more beauty in a leaf, a flower or a blade of grass, to say nothing of the birds and fishes and countless other things, we shall then know a little of the joy of living. And when our hearts are opened to a wider sympathy to the suffering of others,

we shall still more busy and get the joy of life. Very truly,
J. W. WALDRON.

ROBBING THE MAIL.
It is reported that the robbing of the registered mail pouch between Kawaunoha and Kamuela some months ago when about \$2,000 was secured, is not the first case of the kind to the credit of that route. Some weeks previously another registered pouch was found to have a 5-inch slit in it. It was supposed to have had a package containing \$750 in it, but through an oversight the money had been placed in another pouch. The Federal Grand Jury is investigating the matter and may return some indictments. Moses Keki, postmaster of Kamuela is being held on charge of embezzlement, his accounts having been found to have been short just prior to the time of the robbery, although the deficit had been made good afterwards, and it is known that the post office authorities are trying to fix the robbery on him or some one connected with his office. Some indictments are likely to be returned in a few days.

Most people who are in love act as though they were delightfully miserable.

STOMACH INDIGESTION.

Peruna Street at the End of the Pacific.

MR. S. J. MASSEY.
Mr. S. J. Massey, formerly a resident of Toronto, and a well-known business man, writes from 247 Guy street, Montreal, Quebec:
"I wish to testify to the good results I have derived from the use of Peruna. I have been troubled for several years with catarrh of the head, I decided to give Peruna a fair trial and I can truly say I have received great benefit from its use."
"It evidently strikes at the very root of the trouble and good results are soon noticeable."
"I have also found Peruna a very valuable remedy for stomach trouble and indigestion."
"I have no hesitancy whatever in recommending Peruna as a reliable catarrh remedy."
"There are several kinds of indigestion. The trouble may be due to sluggishness of the liver, derangements of the bowels, enlargement of the pancreas, or it may be due to the stomach itself. In nearly all cases of stomach indigestion catarrh is the cause. The only permanent cure is to remove the catarrh. Peruna has become well-known the world over as a remedy in such cases."

Ask your druggist for a copy of our booklet, "The Ills of Life," giving instructions covering the most effective use of Peruna. Peruna is for sale by all chemists and druggists. The following wholesale druggists will supply the retail trade in Honolulu, Hawaii: Benson, Smith & Co., Honolulu Drug Co., and Hobron Drug Co.

SPORTS
SPORT NOTES

The soccer football games this afternoon on the Makiki grounds will be the Diamond Heads vs. the Y. M. C. A., and the Punahou vs. the Mailes. The first game will be started at two-thirty.

The opening of the Manoa Valley Tennis Club will be held this afternoon on their new courts on the corner of Manoa road and Kamehameha avenue from four to six.

The following tennis players will play exhibition matches this afternoon:

The officers of the new club are: F. L. Waldron, president; J. A. Johnson, vice-president and treasurer, and B. F. Boardman, secretary.

The basket ball team of Punahou easily defeated the team from the High School yesterday afternoon on the High School grounds by the score of 14-6. The following was the make-up of both teams:

Punahou—Doris Girdler, Gwendolyn Jenkins, Phoebe Heen, Gladys Rycroft, Thelma Harrison, Ruth Richards.

High School—Aimee Apo, Sarah Stone, Nina Nieper, Hazel Williams, Mary Ferreira, Eva Alana.

The dual track meet between the High School and Punahou which was to have been held this afternoon on the Boys' Field has been called off on account of the actions of the Punahou authorities.

Tuesday afternoon Coach Reid of Punahou sent word to the High School that the meet would have to be held at Punahou or not at all. The High School was certain that the Boys' Field had been mentioned when the meet was first spoken of, and they found out that it was the case.

However they were anxious to have the meet, and asked for one week so that they could get used to the new track on the Punahou grounds. This was refused them, and the meet is off, leaving a lot of bad feeling between the two schools.

The annual inter-class track meet at Punahou was held yesterday afternoon on the new track, the Seniors and Post Graduates winning by the score of 71-45.

The following is the list of events and the winners:

1 Mile Run—First, R. Smith; 2nd, Dodge; 3rd, Gibb. Time, 5:30 2-5. 100 Yards—1st, Lyman; 2nd, W. Desha; 3rd, Townsend. Time, 11 sec.

Denver, Colo., had representatives at the Haleiwa Hotel for a visit in Mr. and Mrs. Geo. Ira Adams.

Miss Ella K. Dayton and Miss Iwani K. Dayton spent a few days at Haleiwa passing the holiday at Honolulu's favorite holiday resort.

Bishop and Mrs. Restarick are home again from a trip to the Big Island.

Society in Honolulu is taking an unusually giddy final whirl just before the beginning of Lent. It has taken the form of public affairs largely and started last Saturday, followed the same night by the Cafe Chantant, which everybody expected to be giddy but wasn't. This week has had amateur theatricals as a diversion, and right successfully did it fulfill the part on Thursday night and will probably do so again tonight.

The amateur thespians certainly "made good," and the Kiloahana Art League deserves credit for promoting it. The climax will be reached next week, however, in the Mardi Gras ball also under the auspices of the Kiloahana. Every indication is that this will be one of the memorable events of the year. It will certainly excel anything of the kind ever yet given in Honolulu. The old fishmarket building has been fitted up

SOCIAL EVENTS OF THE WEEK

GEORGIA BEAUTY TO RACE ENGLISHMAN

ONE THOUSAND DOLLARS IS WAGERED ON RESULT, WINNER TO DONATE IT TO CHARITY.

NEW YORK, January 25.—An international motor car race for \$1,000 was arranged quickly at a dinner party at Sherry's a few days ago. Whether the American or English competitor wins, the stake will be given to a worthy charitable organization.

Miss Violet Dudley, daughter of Edward C. Dudley, of Atlanta, Ga., was at the dinner party given to Elgin Braine, an ardent motorist, who is at the Dorlon. He has won many races abroad. He drove his 90 h. p. car 129

sugar refineries in the Hawaiian Islands, and the day following the reception Mr. and Mrs. Hind will sail for the Islands, where they will make their home, and where the groom also has extensive business interests.

Mr. and Mrs. E. A. Gowran arrived at Haleiwa Sunday evening last and spent several days at the hotel. Mrs. Arthur C. Emmons of Portland and Mrs. R. W. Emmond of Seattle were guests for a few days this week at Haleiwa Hotel. Drives were taken to visit the Waialua sugar mill, plants of interest about the plantation and to the pineapple lands of Wahiawa. Regret was expressed that Haleiwa was discovered so late in their visit to Hawaiian islands.

Harold Dillingham and his brother, Walter, will reach San Francisco this morning from Honolulu on the Korea, and will be welcomed at the Mail dock by a score of young people, who are delighted to see the older brother again and very anxious to meet the younger, Harold Dillingham's marriage to Miss Margaret Hyde-Smith is to take place on the 24th, and meantime a number of big dinners are planned in their honor. Their engagement was announced when Miss Hyde-Smith returned from Honolulu last fall, after a long visit with the William Irwin in his Hawaiian home and many of her friends have not as yet met Mr. Dillingham, Walter Dillingham, who will be his brother's best man at the wedding, is an old favorite with the smart set here, and one of the best golf and polo players that has ever visited California.—S. F. Call.

Bishop de Silva, who arrived here from Honolulu Friday, although in deep mourning for his nephew, the King of Portugal, is to be one of the guests at the Hyde-Smith-Dillingham wedding, because of old friendship for both families. The bishop represents the type of courtly, dignified ecclesiastic that figures so constantly in novels of European life, and he has become a great favorite with society here. Before he left for the Hawaiian Islands a great many dinners were planned in honor of his return, but the tragedy in Portugal prevented any formal entertaining for some time.

On the same vessel Friday was Harold Dillingham, who is to wed Miss Margaret Hyde-Smith a week from tomorrow, and his brother, Walter, who will attend him. Ever since the hour the Dillingham boys arrived the younger set has been in a constant whirl of excitement, and the Hyde-Smith house in Fillmore street is the center of a constantly shifting group of young people, relatives, errand boys, florists, caterers, dress makers, milliners and all the other things that go into elaborate wedding preparations.—S. F. Call.

Mr. and Mrs. J. H. Edward of Seattle spent a few days at that charming resort—Haleiwa—taking in the drives around the plantation, mill and Wahiawa pineapple lands.

Washington's social destinies rest in the hands of six women.

The President, members of the Senate, members of the Senate and House, gold-lined diplomats, and army and navy officials, and gravely delude themselves with the idea that they form the hub around which the social wheel revolves.

But as a matter of serious fact, they are only unimportant spokes.

Six women handle all the delicate questions of precedence, determine the proper ranking of those who take part in the great public functions of the nation's capital. In fact, they form a sort of social cabinet, with the positions and duties assigned as follows:

First—Mrs. Roosevelt, wife of the President, first lady of the land, arbiter in all matters in dispute, given authority to speak the last word, just as her husband has it at gatherings of his cabinet.

Second—Baroness Meyer des Planches, wife of the dean of the diplomatic corps. There can be no mistake in according her second place, for the rights of the representatives of foreign nations are very carefully guarded in the official life of the capital, and the privileges they hold there carry over to their wives in society.

Third—Mrs. Elihu Root, who rates as the dominating force among the ladies of the cabinet. Mrs. Root did not earn this distinction because of her admitted dominating powers and understanding of social amenities. Were she much less gifted it would still be hers by virtue of the fact that her husband holds the most important post in the cabinet, the portfolio of Secretary of State, and his title shifts over to his wife in her relation with the wives of cabinet members.

Fourth—Mrs. Charles W. Fairbanks, wife of the Vice President of the United States. By right of her husband's pre-eminence over the upper body of the national legislature, Mrs. Fairbanks ranks all the ladies of the Senate. No matter how potential their husbands may be in shaping legislation, they must give way to the spouse of the man whom the American people picked out to preside over the upper body.

Fifth—Miss Helen Cannon, the only unmarried lady of the sextet, daughter of the Speaker of the House, Joe Can-

Miss Violet Dudley, daughter of Edward C. Dudley, of Atlanta, Ga., was at the dinner party given to Elgin Braine, an ardent motorist, who is at the Dorlon. He has won many races abroad. He drove his 90 h. p. car 129 miles in an hour over the Brooklands motor course, Weybridge, England. It happens that Miss Dudley is a most accomplished chauffeur. When a liqueur was being served at the merry dinner one of Miss Dudley's admirers, knowing that she is going to England in the spring, exclaimed: "I'll bet \$1000 that Miss Violet, driving a 90 horse-power car can beat Braine in a 100-mile run over the Brooklands course."

"Done," cried Braine. "Miss Violet arose, blushing becomingly. "Of course I will not race for money unless—unless the winner gives the stake to charity."

And so the match was arranged.

have been by unlicensed rhyme-smiths She would never have let you out of her imagination!

"Art vs. Cupid" and the little Hawaiian playlet, as yet unnamed, will see fame before the footlights when their author returns to the mainland.

The announcement of the engagement of a former prominent young Honolulu, now of New York, to a lady of the metropolis is expected very shortly.

Mrs. John Effinger, Miss Dorothy Effinger, Louise Effinger and Alice Effinger spent a week at Haleiwa Hotel, Haleiwa is an ideal spot for children who enjoy the grounds and wading to their hearts' content.

Robert M. Wilcox and wife of New York visited Haleiwa Sunday last and spent the day there.

It is understood, according to my friend Dame Rumor, that a number of engagements in the smart set will be announced during Lent, and the weddings will follow after Easter.

Who the parties are my friend the Dame will not tell me, but they are all engagements that have been watched for with interest by their many friends.

Among the visitors to Haleiwa were Mr. Landis, Mrs. Alice Ganz and Dorothy Ganz of Helena, Montana, with Mrs. F. A. Fligman of Great Falls, Montana.

B. F. Dillingham received a cablegram from his son Harold on Tuesday morning, stating that his wedding to Miss Margaret Hyde-Smith took place on Monday night at the bride's residence on Fillmore street, San Francisco.

Mr. and Mrs. Harold Dillingham will arrive on the Siberia due on March 15, and will reside on Beretania street, next door to his father's home.

Mrs. Campbell-Parker entertained at a dinner Thursday night for Mrs. Schmidt and Dr. Fitzgerald. The table was tastefully decorated with red carnations and matie. After dinner bridge was indulged in until quite late.

Alex. McLaren has been spending two weeks at Haleiwa. He intends to make several alterations to the links, in his opinion, being too easy. The weather has been perfect and many guests of the hotel have had the pleasure of playing with Mr. McLaren.

Mrs. Harvey-Murray, who has been quite ill for some time is much better, and is expected to be around very shortly.

Mrs. A. G. Hawes, Jr., who has been dangerously ill, is very much better, and is now considered to be out of danger.

Saturday and Sunday were busy days at Haleiwa, many guests taking advantage of the holiday and the fine weather. Among the visitors were Mr. and Mrs. Allen Bottomley, Mr. and Mrs. N. S. Sachs, Mrs. Mellis, Mr. and Mrs. J. M. Oat, Mr. and Mrs. Thos. R. Lucas.

SUFFRAGETTES NOISY IN LONDON
 LONDON, Jan. 30.—Having failed to reach King Edward yesterday during the ceremonies of the opening of parliament, and, as the House of Commons is effectively barred against them the woman suffragists of England this morning adopted a new method of protesting against the fact that his majesty, in his speech from the throne, made no mention of their demands to be permitted to vote.
 The militant members of the organization formed themselves into several committees, which, at the same hour today, visited the homes of the various members of the cabinet for the purpose of asking them to use their influence to have the question of women's suffrage settled at this session.
 As none of the ministers would see them, the women demonstrated by ringing door bells and delivering addresses from doorsteps. The police were unprepared for this course of action and noisy scenes were witnessed on several of the fashionable thoroughfares of London. The women eventually were dispersed after seven arrests had been made.

FLYING MACHINE TRIALS.
 WASHINGTON, Feb. 6.—Two of the plans proposed of flying machines of the heavier-than-air type were selected as worthy of trial by the board of ordnance and fortification today. Forty-one bids were received, but many of them were eliminated by General Allen, chief signal officer.
 The board recommended to the Secretary of War that he allot funds to defray the expense of the trials. The identity of the bidders is kept secret for the present.

SUBMARINES ON LONG TRIP.
 NEW YORK, Feb. 6.—Three United States submarine boats, conveyed by the converted yacht Hist, started today on the longest trip ever undertaken by submarines in the open sea. The flotilla includes the Viper, Tarantula and Cuttlefish.
 They will call at Delaware Breakwater and Hampton Roads, and then proceed farther south to engage in a practice drill, following out manoeuvres required in war.

LOUISIANA NEGRO LYNCHED.
 DELHI, La., Feb. 6.—Robert Mitchell, a negro, was taken from a deputy sheriff and lynched by a mob at Oak Grove today.
 Mitchell yesterday shot and killed Leon Tresfield, manager of the Pioneer Coopers Company, two miles west of Oak Grove. He escaped, but was later captured and turned over to the parish authorities. A deputy sheriff was on his way to Floyd, La., with Mitchell when he was met by the mob, which hanged the negro.
