## FRAUDULENT CONSPIRACY

### SCATHING ANNOUNCEMENT BY JUDGE HUMPHREYS.

#### Says Egan, Hustace and Foster of Kamao Sugar Company Conspired to do Fraud.

Circuit Judge Humphreys announced this morning that within the course of a few days he would hand down a decision in the matter of H. R. Hitchcock et al. vs. Frank Hustace, J. J. Egan and Frank Foster and the Kamao Sugar Company. The court announced that in his opinion he would practically sustain the plaintiffs in every count made in their charges against the promoters of the company. He stated in positive terms that he believed all three of the defendants had been guilty of a fraudulent conspiracy.

The suit was brought some months ago by Hitchcock and several stockholders acting on behalf of other stockholders to compel Egan, Hustace and Foster to pay back \$35,000 which it was alleged they took from the funds of the corporation and remunerated themselves for the promotion of the concern. "In an opinion which I will hand down within the course of a few days," said Judge Humphreys "I will hold that the defendants as trustees are liable for the \$35,000 with interest at 6 per cent from the time that they received the money, the records show, and demonstrated except by a plea of guilty. Frank Hustace doctored the books of the institution and Egan perjured himself continually in his testimony in this court. "I desire to hear further arguments over the disposition of the \$35,000 worth of stock which the defendants converted to themselves. This matter will come under the prayer for general relief. In the matter of the 7000 shares of stock, I am not certain as to whether the defendants can be held responsible for all of this. One thousand shares were paid for the land but I will however hear argument upon this issue also. This suit has been brought by the plaintiffs acting for other stockholders of the Kamao Company and will not be fair for the plaintiffs to bear all of the expense and the others to obtain the full benefit without bearing any of the expense. I will order that the plaintiffs who have incurred expenses in bringing this suit be paid. I will hear the statements of attorneys regarding the value of their services. The arguments on the other issues will be heard Thursday morning at 10 o'clock."

This suit has attracted considerable attention. The Kamao Company was organized by Foster, Egan and Hustace last year and the land was bought on Loloiki. The first assessment was paid promptly but money became tight and the affairs of the company got into a bad state. Finally Hitchcock and the others brought suit for an accounting and made charges against the promoters. It was claimed that they had converted \$120,000 worth of stock, and \$35,000 in cash from the first assessment to themselves, as remuneration for promoting the company. It was also claimed that the land had not even been purchased until after over one hundred thousand dollars had been paid in by the stockholders. W. A. Henshaw, Paul Neuman and George A. Davis appeared for the plaintiffs and Robertson and Wilder for the defendants.

## SHRINERS GO TO WAIALUA

### THE VISITORS ENTERTAINED AT HALEIWA.

#### Some of Them Will Remain Here for a Later Steamer Than the Zealandia.

An excursion over the Oahu Railway company's line to Waialua was the principal thing on the program for the California Nobles of the Mystic Shrine today. The train left the depot at nine o'clock, this morning. The pilgrims were given a chance to see Waialua plantation and lunch was served at Haleiwa.

Many of the Shriners have put up at the Hawaiian hotel and other places, to enjoy a few days' life on shore. Not all of them went to Waialua this morning, though a majority of the party took advantage of the opportunity to see the other side of Oahu.

When the Zealandia leaves on the return trip to San Francisco next Friday, she will leave behind a number of the visitors, who intend to lengthen their stay in Honolulu. Some will stay here a number of weeks, others will take the steamship Mariposa on the 9th of next month.

The program for tomorrow begins with a reception by Governor Dole at the capital building, at 10 a. m. After the reception there will be a drive to Aiea, with visits to Brother A. S. Cleghorn and Brother Prince David. At David's place there will be a luau at 2 p. m. On Wednesday the Shriners will visit the Nuuanu Falls and other points of interest, giving a reception on the steamer in the evening.

The steamer Zealandia, with the Mystic Shriners on board, left Hilo at about nine o'clock on Saturday morning, after spending two days at Hilo. They arrived at Hawaii during a heavy rain storm but about ninety of the party at once made arrangements to go to the volcano.

Onomea Arch, Rainbow Falls and the Kaumana caves shared attention with the volcano. The visitors were enthusiastic in appreciation of the volcano and the wonderful bit of country around it. Rainbow Falls were "shot" by scores of cameras and the remarkable Kaumana caves in the great lava flow of the eighties was declared to be alone worth a trip to Hilo.

The volcano party were back in Hilo by Friday afternoon, in time for the big luau in front of the Hilo hotel. The pavilion and its decorations were a revelation to those who had not seen the richness of Hawaii's tropical growths. In the decorations were bamboo and in the cane, ginger, ferns of many varieties, bananas, papaya, coffee, cocoa-nut, jasmine, and a brilliant lot of flowers. Fish and flags added much to the picturesqueness of the buildings and at night there was a bright illumination.

The luau bill of fare was a mystery to most of the visitors. The many delicacies provided were eaten in luau fashion, without the use of knives or forks. About 400 people sat down at the tables and there was an abundant supply for all.

The grand ball was given in the pavilion in the evening. The ladies and gentlemen from the Zealandia and people in Hilo danced till early morning. On Saturday morning the Hilo reception committee went to the steamer to bid farewell to the Shriners. Grand potentate Hurlburt gave warm thanks to the Hiloites for their hospitality, and cheers for Hilo were many times repeated. The Shriners were loud in their praises of their treatment in the Hawaiian metropolis. The Zealandia party left for the Philippines Sunday morning.

### FROM NOME TO MANILA.

Government Veterinary Williamson's Wide Experience.

Dr. W. L. Williams the veterinary in charge of the horses and mules on board the Leelanaw, is now making his fourth trip in that capacity. He took the first consignment of animals to the Philippines for the United States government, those that were taken on the Tacoma. He holds the record among transport veterinarians for slight losses of animals under his care. He has had charge of consignments numbering 2415 and has only lost five. In addition to four trips to the Philippines, Dr. Williams made one trip as government veterinarian to St. Michaels and Nome early in the season on the Athenian. He went in charge of the horses taken up for the military posts established by Uncle Sam at St. Michaels and Nome.

## LIN SHIN AND LEE YUEN

### THE BRIBERY CHARGE AGAINST THE INTERPRETER.

#### How Travelers from China are Passed at the Custom House—Lin Tells of a Conspiracy.

Lin Shin Chow, the Chinese interpreter in the immigration bureau at the custom house, who was bound over last Saturday to appear before the Grand Jury under a charge of bribery-taking, says that the charge against him which was brought by one Yee Fook, is the result of a conspiracy which had its origin in a row over the tobacco store at the corner of Nuuanu and Merchant streets. Lin says that he can prove that Yee was paid for his testimony by one Lee Yuen, who is the man that had the row over the store.

Lin Shin is accused of having received \$80 from Yee Fook for "passing" two of Yee's friends through the customs bureau. The men were passed, in the usual way, by immigration inspector J. K. Brown, who signed the order allowing them to land.

The system in vogue makes it impossible for one in Lin's position to issue a certificate or make use of any "affidavits" as is alleged, but the interpreter may materially assist a Chinese who wants to get into the country by helping him to answer questions that are put to him before he is allowed to land. The Chinese come here with certificates on which are their photographs. These were examined last August, when the alleged bribery took place, by Brown and by Inspector John W. Short, who had both become experts in detecting differences between the faces of the holders of certificates and the photos thereon. In addition to the photo as a means of identification of the travelers as former residents of Hawaii, there was a lengthy examination, at which Lin Chow acted as interpreter.

Lin says that four Chinese arrived as "friends" of Yee Fook, at the time when the \$80 was paid over. Two of them were rejected and sent back home and the other two were allowed to land. Lin is inclined to think now that the two ought to have landed but he denies the bribery story and points to the return of two of Yee's friends as evidence that Lin acted as a bribe taker.

The tobacco store row began some months ago, when Lin put \$500 into the store on Merchant street. Lee Yuen was one of the first organizers of the store, but Lin was made manager. Collector Stackpole allowed him to give some of his time to the tobacco business, as he was not needed at the custom house except when steamers were coming or going.

The business prospered, while Lee and Lin drifted apart. Lin gave Lee a job and then fired him and it was then that Lee went forth, says Lin, and decided to do him up.

Lin says that the story of hatches and Lee's danger is a dream. He declares that when the case came before the Grand Jury he will be able to show up the whole conspiracy. Meanwhile the Chinese newspapers are, and for some time have been, publishing various articles intended to show that Lin is not what a Chinese should be, and Lin says the articles all originate, like the bribery charge with the man whom he ousted from a fat job behind the counter in his tobacco store.

## PLANTERS ARE MEETING

### TWENTIETH ANNUAL GATHERING TODAY.

#### President Cooke Announces the Prospect of a Satisfactory Supply of Labor from other American districts.

The twentieth annual meeting of the Hawaiian Planters' Association was called to order by President C. M. Cooke at 10 o'clock this morning in the assembly room of the Y. M. C. A. After the calling of the roll and the reading of the minutes of the last annual meeting, President Cooke presented his annual address. In this he called attention to the fact that at the first meeting nineteen years ago the subjects considered besides the question of the Reciprocity treaty, were the labor question, questions of agricultural implements, and methods of cultivation, irrigation and transportation and that these questions are still before the association for consideration.

"The past year has been one of unusual anxiety and importance as your trustees can testify and the reports of their forty-eight meetings held since November 24, 1890 and the one special meeting held by you on June 4 bear witness to the numerous important questions which have been presented and acted upon. It has been a year of changes, not only in the sugar industry, but also in the commercial and political conditions of these islands."

The address gave a resume of the business transacted at these meetings, and the question of Italian immigration received much attention and expenditure. Hon. S. M. Damon's mission to Europe to further this cause did not meet with the success we had hoped for. The matter of negro labor has also been considered and several efforts have been made and are being made in this direction. Much attention has been given to the introducing of new labor into the country from Puerto Rico, it is noted that the island was overpopulated, and being a part of the United States, laborers could be obtained to the mutual benefit of both districts and we are expecting the first installment of such laborers shortly. Alexander D. Baldwin, formerly Federal Inspector of Immigration, in acting as our agent in New York to engage laborers from newly arrived immigrants, and we hope this source of supply may be of great value.

In July E. F. Bishop was commissioned with full authority to make arrangements both as to recruiting and transportation of about fifteen hundred agricultural laborers from the United States, without restrictions or limitations as to terms of wages. He has since resigned, and C. Wolters has taken up the work, and will assist George E. Baldwin, formerly Federal Inspector of Immigration, in acting as our agent in New York to engage laborers from newly arrived immigrants, and we hope this source of supply may be of great value.

The address then spoke of the effects of the contract system, and the adoption of the pass book system for laborers whereby the plantation managers might act in union and prevent the migration of the best part of the laborers in demanding excessive wages. The address announced that Dr. Maxwell's place as Director of the Experiment station would be filled by R. E. Blount, who has had nine years experience under Dr. Stubbs and comes highly recommended by both gentlemen as eminently fitted for our work.

The Association proposes to erect a laboratory building at the Experiment station.

"The question of best labor saving machines for the cutting, loading and planting of cane has been discussed and the matter is now in the hands of a committee to prepare an advertisement offering prizes of the best types, the prizes to be awarded by a committee of practical men."

Dr. Maxwell's report of the work of the Experiment station was presented in printed and bound form for the members of the Association. It treats fully the work of the year and while exhaustive is written in an exceedingly clear and attractive style. Some of the most interesting experiments reported were designed to show the most favorable style of planting cane with reference to the amount of seed cane to be planted in each row.

In response to a suggestion by the president, Dr. Maxwell said he had nothing to add orally to his report except to reiterate more strongly, if possible than he had done, that exceeding care should be exercised in bringing the new varieties of cane into the territory, to avoid the danger of bringing with it pests or cane diseases. He suggested that no new varieties should be brought in except through the experiment station, and that these should be given experiment there throughout the time required by one full crop, before experiments were made with it on plantations. As pointing out the importance of this, Dr. Maxwell spoke of a variety of cane brought in by Prof. Koebel, after it had been most thoroughly examined, but which yet developed indications during its growth of one of the most dangerous cane diseases known to the sugar industry, necessitating the most active and radical measures to stamp it out.

Manager Ahrens of Oahu Plantation made an interesting report on the workings of a system of manufacture in use on the Oahu plantation by which the sugar was crystallized while in motion. This report brought out considerable discussion.

It was suggested that as the practical work of all plantations was not carried on in exactly the same way, reports of the results of the use of processes on different plantations were not always exactly comparable, and therefore were not always a safe guide for other plantations to go by. A resolution was adopted referring the matter to the Director of the Experiment station to formulate, if possible, a system of standards in methods to which all reports should conform, so that reports could be compared with one another in all particulars.

The Association is in session this afternoon and will continue tomorrow. The following trustees were elected: J. B. Atherton, George H. Robertson, H. A. Isenberg, C. Bolte, F. A. Schaefer, W. G. Irwin, William Protenhauer, H. P. Baldwin, and F. M. Swamy.

## WILL NOT HANG QUITE YET

### EXECUTION OF FUGIHARA POSTPONED BY SUPREME COURT.

#### Chief Justice Frear Issues the Writ of Error as Prayed for by the Defendant.

Fugihara will not be hanged next Friday. When the Supreme Court handed down an adverse decision in the application for a writ of habeas corpus in his case last Saturday it was thought by some that the Japanese murderer would expiate his crime. In its decision the court intimated however that while the writ was to be denied, the proper method to take was to sue for a writ of error. This was accordingly done and this morning Chief Justice Frear issued the writ to Daniel Porter clerk of the Fourth District Court at Hilo.

This means that another respite will probably be given the murderer. The grounds are practically the same in the present writ as those upon which the action for habeas corpus was based. The records of the circuit court can now be brought before the Supreme Court for consideration.

The will of Makane was admitted to probate today by Circuit Judge Humphreys. S. E. Wooley was appointed administrator with bonds at \$1,000.

In the case of Kealaka vs. Kahaekamoku the defendant filed answer today in the circuit court. The defendant claims to own in fee simple all of the land set forth in plaintiff's complaint. All other allegations in plaintiff's complaint are denied.

## WILCOX SERVES NOTICE

### AN EPIDEMIC OF ASSAULT AND BATTERY CASES.

#### The Judge Announced That He is Going to Stop It By Heavy Sentences—Today's Cases.

Judge Wilcox says that there is an epidemic of assault and battery cases in Honolulu, and he served notice this morning that he had started out to stop it, beginning with some heavy sentences.

The police court calendar lately has been full of cases of assault and battery. Half of the cases one day last week were assault and battery charges. When this morning's calendar showed the case will be appealed, Judge Wilcox said he was going to give big sentences hereafter, with a view to putting an end to the fashion of scrapping in public.

Frank Murphy was the first prisoner to feel the new rule. He stopped on Fort street last Saturday to smash a native named Sam, because the native wanted him to go and join him in a drink of swipes. Murphy said he didn't want any swipes, but he saw that the native followed him along the street, so he turned on Sam. Judge Wilcox assessed him \$25.

Charles Santos was given ten days on the reef for striking a Japanese woman who was rash enough to ask him to pay for peanuts he got from her store. Santos said one of his companions did the assaulting, but he had been in court before many times, and the judge believed the witnesses for the prosecution in the case will be appealed. A friend came forward when they found that Santos did not get off with a fine.

L. W. Merrill was up for assaulting a native from whom he tried to collect a bill last week. Merrill appeared in court with a big stone in his hand, which he proposed to prove the native had used in an attempt to put him out of business. He wasn't ready for trial and was given a day to prepare, with the judge's ominous remarks about heavy sentences ringing in his ears.

J. Oliver and J. Anderson were up for affray. The arresting officers took the stand and described a lively pugilistic encounter between the two. Anderson said it was fun and Oliver said he "rumped away" when Anderson made passes at him. The judge thought it looked like a fight, and he fined the defendants \$2 each. It was only a small fight, remarked His Honor, and perhaps the charge should have been drunkenness.

### MEDICAL EXAMINATIONS.

Result of the One at Ulupalakua School.

F. P. Rosecrans, teacher of the public school at Ulupalakua, Maui, who some time ago reported to the Board of Education regarding the medical examination at that school writes as follows, under date of October 18:

"My report seems to have been the occasion of censure some of which, from later developments, was unjust. The doctor sent word to me that he would visit the school the week ending September 24th. He did not come and I received no word from him, so I wrote the Superintendent.

"It has transpired that he tried to get me by telephone, but as I have no instrument, he rung up a third party asking him to tell me that he had been ill, but was better and would come the following week.

"The message was not delivered to me, or I should not have written as I did.

"The doctor inspected this school on the 4th of October, making 34 vaccinations and finding one leprosy suspect."

## WAIALUA RENTAL REDUCED

### FAVORABLE ACTION BY COUNCIL THIS MORNING.

#### American Ships can not be Charged When Pilots are not Taken—Right of Way Granted.

After some discussion this morning the Executive agreed to reduce the minimum rental price of the new Waialua Water Company from \$5000 to \$3000. W. O. Smith was present at the meeting of the council and protested against the enforcement of the rate which had been adopted at the meeting last week. By that agreement the water company was to pay 10 per cent with a minimum of \$5,000 to the government for the water concessions. Mr. Smith urged that this rate was too great. He also asked that no money be taken from the company for the ensuing two years as the company had to expend a large sum in improvement and it was doubtful if it would yield any returns during that period.

The matter was discussed at some length and finally the first action was rescinded and the minimum of \$3000 with 10 per cent was fixed as the rental. As a further concession the government agreed not to require the company to pay anything for the ensuing two years provided dividends were not declared.

Land Commissioner Brown brought up the matter of the application of Treasurer Lansing for a right of way over government land at Koolau. Mr. Lansing asked to be allowed to carry a pipe line from the Waialua stream over the government land to a certain kuleana. Inasmuch as he asked to carry only water which belonged to him, the right of way for 30 years at 10 per cent was granted. It was further specified that the pipe shall be so laid as not to interfere with the use of government land nor to interrupt the flow of the stream. The government does not by the terms of this lease convey any rights to government water and no other water rights were conveyed by it.

### PORTUGUESE IN KOHALA.

Recent Arrivals Send Back Good Word to Friends.

HILO, October 19.—The "A Voz Publica" in its last issue has the following to say concerning the Portuguese immigrants who lately arrived by the John G. North at Kohala:

"Having given some time to the study of the question of the recently arrived Portuguese in Kohala, who came from the United States of America on the bark J. G. North. It gives us great pleasure to know that these Portuguese who came to Hawaii have already written to their relatives and friends in America that they are content and satisfied with their new homes, and their labor. Under these circumstances we can entirely absolve and exonerate the Rev. Durao of Kohala of the accusations against him concerning the case, and of which we have already made mention several weeks ago."

### ONE OF THE BEST.

HILO. Departed, October 19, Am. bk. Amy Turner, Warland, for Honolulu; October 13, Am. bk. Roderick Dhu, Johnson, for San Francisco, with general cargo. Arrived, October 17, Am. bk. Martha Davis, McAlim, 18 days from San Francisco, passengers and merchandise; October 17, Am. bk. Santiago, passengers and merchandise.

THE AMY TURNER. HILO, October 18.—The bark Amy Turner left for Honolulu last Thursday but returned in the evening on account of lack of wind. She got a good start for her destination Friday morning. The Santiago brought down four passengers only. The Martha Davis brought two passengers this trip.

THE SANTIAGO. HILO, October 19.—The Santiago arrived October 17 with a full cargo and four passengers, from San Francisco. The Martha Davis arrived the same day.

BROUGHT NO HOSE. Odorless Excavator Gets to Hilo Without Necessary Attachment.

HILO, October 19.—It is evident from the items appearing in the Honolulu papers from time to time, that the Hilo public made a mistake in not throwing bouquets to Sam Johnson, Superintendent of the Odorless Excavator Department of the Government at Honolulu. Mr. Johnson has criticized the Hilo militia, with which he has no connection, and the sanitary condition of Hilo. But Mr. Johnson overlooks two facts. First, that his excavator cart was brought to Hilo without the hose necessary to put it into service; and secondly, that Honolulu was and is in such an unsanitary condition as to breed disease and epidemics while Hilo has so far kept remarkably free from any such unpleasant results.—Hawaii Herald.

VAUDEVILLE ON MAUI. WAILUKU, October 20.—A Vaudeville Company made its appearance in Wailuku, last Saturday, October 13th. Although a Democratic meeting was held on the same night, yet a good house was entertained. The company has been touring Maui the past week.

BUILDING IN WAILUKU. WAILUKU, October 20.—Work has begun on the new drug store building at the corner of Main and High streets. The present buildings there, mostly cheap structures are being torn down. The new building will cost about \$3000.

Heart Disease

weakens the stomach, deranges digestion, pollutes the blood, destroys the nervous forces and saps the vitality of the whole system. It causes pain in the left side, palpitation, shortness of breath, sinking spells, and frequently ends all suffering in sudden death. Dr. Miles' Heart Cure is the only successful remedy for diseased hearts that has ever been offered to the public.

"It was impossible for me to lie down to sleep for smothering sensations. The pulsations of my heart were very irregular, sometimes seeming to stop beating and at other times palpitating so hard it could be heard in the room. One bottle of Dr. Miles' Heart Cure brought relief and after using it for a few months the heart trouble was all gone."

OTHER ISLAND POLITICS

WILLIAM WEMER WITHDRAWS ON KAUALI. Wilcox Said to be Losing Ground on Hawaii—Maul Declared Lost to Him. Campaign Meetings.

WAILUKU, Maui, October 20.—The Democrats of Wailuku held a mass meeting at the skating rink on Saturday last, October 13. Among other speakers were Prince David Kawananakoa, John Wise and T. B. Lyons. A large crowd attended the meeting in spite of the showers that were pouring.

The Republicans on Maui are very confident that their banner-bearer, Samuel Parker, will be elected as Delegate to Congress, and are very enthusiastic over the prospect. The Democrats are no less confident that their leader, Prince David will be elected.

Some of the Republican candidates for the Third Representative District have been stumping the Islands of Maui, Molokai and Lanai. Maui is almost like a bee-hive in regard to politics, everywhere politics is being talked of.

The political situation on Maui is very peculiar. It is almost a certainty that Wilcox will not carry Maui, but that it rests between Samuel Parker and Prince David.

PAIA, Maui, October 20.—Speakers and workers for the Republican party, have been busy at work in every part of the Island this week, and will keep up the good work until election day.

Prince David has spent the week stumping the Island for the 16 to 1 party, and goes on to Honolulu tonight.

HILO, October 19.—The Hawaii Herald says: "Bob Wilcox's chances of election on this Island seem to grow less fat as the election day grows nearer, while Parker is getting to be a prime favorite with the Hawaiians."

HILO, October 19.—Robert Wilcox, independent candidate for Congress from the Territory of Hawaii, arrived in Hilu on Wednesday. He will spend some days here, inculcating the Hawaiians against the views of Republicanism and other false doctrines. He will then leave for Honolulu via Kau.

EXCITING FOOTBALL. The Honolulu and Iolani college football teams played at the Makiki ground Saturday afternoon. The Honolulu eleven won by the score of 3 to 0 but the credit of the game belongs to the other team for in addition to being much lighter than the Honolulu men the Iolani players put up a speedy and creditable game. Another game will be played Saturday.

NAONE WAS DROWNED. The body of Naone, the engineer of the Honolulu Plantation, was found yesterday in the pump pit where the man had been drowned in the flood of Tuesday night. The remains were in a bad state of decomposition. It is thought that he was stunned by the blowing out of two valves and was unable to save himself.

AT OLINDA. PAIA, Maui, October 20.—B. D. Baldwin and family after a couple of weeks sojourn at Olinda, return home today.

MAKAWAO DANCING CLUB. PAIA, Maui, October 20.—The Makawao Dancing club meets on Saturday evening next week at the home of A. McKibbin, Puuomalei, Makawao.

**ALOHA! SHRINERS.**

The arrival of the Mystic Shriners is an event in our island history. The engaging of a fine steamer by an association of people for the purpose of crossing the Pacific and seeing the Islands is in itself a notable matter and one which would attract notice in all parts of the mainland, but when one adds to this the noble order to which these ladies and gentlemen are affiliated, it enhances the importance of the visit ten fold. Though we should have been pleased to see one hundred and ninety tourists of any class, we certainly look upon the Mystic Shriners as our specially honored guests.

Hilo has entertained these ladies and gentlemen with whole souled hospitality and Honolulu must look to her laurels. Every arrangement has been made by the Masonic body to make the stay at the Capital a pleasant and a gay one. The weather is boisterous, but it may lift and give period of sunshine. If the clerk of the weather only knows his business he will see to it that the rains should cease, and the winds calm down.

Personal observation is so much better than all the accounts in the world. There have been volumes upon volumes of description written about the Islands, but no person realizes their beauties or understands the life of the place without an actual visit. The Shriners will see for themselves and will tell dozens upon dozens of friends upon the coast, and all over the mainland.

The Star bids their goodly company welcome and trusts that every hour that is spent here may prove both of profit and pleasure. We may be far out on the bosom of the mightiest ocean that laves the shores of the Eastern and Western continents, but our hearts are with our people on the mainland, and the Shriners will find the ring of true kindness in all, whether Masons or not. The heart beats as kindly and as hospitably here as it does in the golden Western States.

**ON THE VERGE.**

John F. Bass, the celebrated war correspondent, has the same idea of Russia that has been expressed in these columns. Russia's withdrawal from Peking is, in his opinion, but a gallery play, a mere blind. The Russians have obtained what they wanted in Manchuria and intend to hang on to it. They may withdraw troops, but they will leave garrisons at all the strategic points, and will hold the railway line. Everything will probably be quiet during the winter season, but military activity will commence with the return of spring.

Germany, Mr. Bass thinks, is disposed to go in with Russia, and will aim to control some portion of China. Great Britain's effort to control the Yang tse Kiang Valley, Mr. Bass thinks has alienated Japan, and that the latter country is likely to throw in its lot with Russia. The policy of Great Britain in China, has really not yet been displayed. The claim upon the Yang tse Valley, if there were to be sphere's of influence has been tacitly agreed to as much as the claim of France to the region further south. But England's policy has ever been the regeneration of China through the Chinese and in trade the open door. This is the policy of the United States.

The United States in withdrawing from Peking followed the only logical course open. She has avoided complications and has placed herself in a strong position diplomatically. The trade question is all that she is interested in and it is far more probable that Japan will throw in her weight with the United States, than she is with Russia. Russia is the Japanese "bete noir," or her hoodoo. To join her would be only to be giving herself up to the spoiler. Japan desires the integrity of China, and wants to have the leadership of its millions. Japan's aim is to be the foremost Asiatic nation, and her aspiration is to regenerate the inert Eastern mass, through her own influence. She has played a careful part in the late commotion in China, and has come out with flying colors, and she will play just as careful a part next spring.

**COMING SUCCESS.**

The progress made by the Republican party during the last few weeks has been remarkable. Adherents are coming in from all directions, and many an independent has walked out of that party and enrolled himself in the ranks of the party of progress. Voters who were undecided have come to a decision and that is to vote the Republican ticket. People begin to realize that political as well as commercial safety lies in the Republican party.

The so-called Independent party is certainly losing ground. It has attract-

ed to its ranks a few renegade whites who add no strength to it, but some of whom will be fleeced pretty thoroughly for campaign expenses. They are going in not under any idea of patriotism, but are in for what they think they can get. They go in green, but they will come out remarkably brown, they go in with a fair amount of pride, but they will come out with the appearance of a singed cat.

If any good is to be done in Washington, we want some one who can ally himself with the majority in Congress. We do not want any one who will have no influence at all, and leave us without harbor and coast improvements, without necessary federal buildings and the thousand and one things which Congress can give us. We have to look at two things. At our own legislative action within the Territory and at the opportunities in Washington. For both the Republican candidates offer the best opportunity. Sam Parker is head and shoulders above Prince David as a delegate, and this without disparaging the Prince, who is an amiable and worthy young man. As for Wilcox, if that blatant demagogue have a chance to get in, which he hasn't, it would amount to a calamity.

Progressing and pushing forward as it has done, the Republican party has yet no walk over, and it requires all its admirable organization to win. But it will win and help the Territory on to advancement and prosperity, as it has helped the whole United States to advancement and prosperity.

**PARIS AWARDS.**

The United States has received a greater number of awards at the Paris Exhibition, than any other nation outside of France. In these awards the Territory of Hawaii participates. The awards were classified as Grand Prizes, Gold Medals, Silver Medals, Bronze Medals and honorable mention. The United States leads in all but the first classification where Germany heads us. The results are as follows:

Of the grand prizes, Germany secured 236, the United States coming second with 215, Russia being next with 209 and Great Britain following with 183.

The United States led with 547 gold medals, Germany coming next with 519. Great Britain followed with 404 and Russia came next with 345.

Among the nations getting silver medals, the United States led with 593, Germany followed with 573, Great Britain came next with 517 and Russia followed with 411.

In the matter of bronze medals, the United States led its competitors with 510, Great Britain being next with 410 and Germany and Russia being tied with 321 each.

In the number of honorable mentions, the United States was far in advance with 248, while Great Britain had 208, Russia 206 and Germany 184.

The Territory of Hawaii has one of the grand prizes awarded to the United States. This was obtained by the exhibit from the public schools. It has also some gold and one silver medals. When one thinks under what adverse circumstances the Hawaiian exhibit was gathered together, it is really wonderful that there was so much success. This is the third honor that Hawaii has received from France. The department received a finely executed silver medal, bearing the head of the Emperor Napoleon III for its exhibit at the exhibition of 1867. At the exhibition of 1889 the Board of Education received two gold medals for its work, and now it has received the highest honor yet obtained. This shows that our educational methods have been steadily improving, and the aim of the department is to continually improve.

We can't complain of the rainfall as far as Honolulu is concerned. The showers have been more than copious, and the artesian well level is rising in consequence. The natural reservoirs are filling up.

The S. S. China has once again proved her staunchness and the skill of her commander. The China has been in more storm and has weathered them better than any steamer which has been running backwards and forwards across the Pacific for the last decade or more. No wonder she is such a favorite boat.

The remnant of the Boers is carrying on a species of warfare which cuts off isolated parties, derails trains and terrorizes the peaceful inhabitants. This kind of thing the Americans are suffering in the Philippines. Each is the result of party politics in home country. The Boers have looked forward to the defeat of the conservative party, hoping that the liberals would withdraw the troops. In this they have been disappointed, and will probably now give up entirely. The Filipinos are looking for the triumph of Bryan, when they expect that all American troops will be withdrawn, and they can rush in, sack Manila, and have a general good time of slaughter and rapine. They will be disappointed too.

Joseph Chamberlain is becoming a name as hateful to the French as that of Pitt. Over a hundred years ago Pitt was the bug bear of France. People were guillotined because they were supposed to be emissaries of that Sac-r-r-r-c Pitt. Pitt's gold corrupted the army, whenever it was defeated. The average French patriot in his greasy red cap and his odor of cheap wine, figured Pitt as being adorned with horns and a tail. Pitt undoubtedly was the ablest statesman of his day and probably of any day so that if the illustrious foe is regarded as another Pitt, with similar attributes, he can plume himself as being the foremost man in Europe. Ability always excites envy and fear.

# EXPLOSION OF MOLASSES DEMOCRATIC TICKET

THE EXPLANATION OF A SMALL EARTHQUAKE.

A Barrel of Molasses Ferments in the Hollister Store and Causes a Scare on Fort Street.

The mysterious explosion that shook up Fort street and disturbed a Salvation Army meeting last night was explained this morning, when the HUSTACE Grocery store was opened. It was found that barrel of molasses in the rear of the store had fermented and caused the small earthquake.

The explosion took place at about 3:30 last night, and was the occasion of a good deal of excitement. There was a stampede from the Salvationist's meeting and many people who were on the street thought some powder must have gone up. The police made some investigations to ascertain if safe-crackers were at work, but were not able to locate the explosion.

This morning the high sheriff was notified that it was nothing more serious than the bursting of a barrel of molasses. The barrel had been left for some time in the rear of the HUSTACE store and had evidently been slowly fermenting. It reached strength enough last night to break loose and the place where it had been kept was well sprinkled with it.

Molasses generates some strong gases when it is fermented and the explosion was a big enough one to have sounded a first class "Royalist plot" scare, in the old days.

### TREASURER'S OFFICE.

Notice is hereby given that Chapter 100 Penal Laws 1897, provides that whenever any two or more persons shall carry on business in this Territory in Co-partnership, it shall be incumbent for such persons to file in the Office of the Treasurer a statement of

1. The names and residences of each of the members of such co-partnership.
2. The nature of the business of such co-partnership.
3. The firm name of co-partnership, and
4. The place or places of business of the co-partnership.

Whenever any change shall take place in the constitution of any such firm by the death or withdrawal of any member thereof, or by the addition of any member thereto, or by the dissolution thereof, a statement of such change or dissolution shall also be filed in the said office of the Treasurer within one month from such change, death or dissolution, as the case may be.

All such statements shall also be published by the members of each co-partnership at least twice in the Hawaiian and English languages, in two newspapers published in Honolulu.

There shall be paid to the Treasurer a fee of fifty cents for each name so recorded as aforesaid.

The members of every co-partnership who shall neglect or fail to comply with the provisions of this law, shall severally and individually be liable for the debts and liabilities of such co-partnership and may be severally sued therefor, without the necessity of joining the other members of the co-partnership in any action or suit, and shall also severally be liable upon conviction, to a penalty not exceeding five dollars for each and every day while such default shall continue; which penalties may be recovered in any District Court.

## CRISIS IN SOUTH CHINA

TRIADS DEFEAT THE IMPERIAL TROOPS.

Taotai of Shanghai and Viceroy of Nanking Protest Against a Demonstration by Foreign Troops—Situation.

LONDON, October 11.—A special dispatch from Shanghai, dated October 10th, says:

"The Triads have met and repeatedly defeated the imperial troops near Kowloon. They are daily gaining fresh adherents. (Kowloon is the hinterland of the Island of Hong Kong and was ceded to the British Government less than two years ago.)

"Heavy Russian re-enforcements are moving northward from Port Arthur with the object of relieving the pressure upon Mukden. Every place of importance in Manchuria, from Kiakta to the Primorsk boundary, from the Amur to the great wall, is now in Russian hands."

"The Hong Kong special this morning all refer to the gravity of the situation in Southern China, but they give no further details than have already forwarded in press dispatches. In some quarters it is urged that it would be better to employ Indian troops in China."

"The Standard, commenting editorially upon the attitude of the United States, says: 'Every dissent, even on minor points, from the suggestions of the powers is unfortunate, as it leads to fresh correspondence and to further delay. We can only hope that when Lord Salisbury is free to turn his attention to China he will find some middle course that will secure the support of all the powers.'

"The Shanghai correspondent of the Morning Post, writing Tuesday, says: 'The Taotai of Shanghai and the Viceroy of Nanking have protested against a demonstration by foreign troops.'

"HONG KONG, October 10.—It is said that the authorities here have received information that a general rising in the southern provinces has been planned for the month of November. Ten thousand troops from India have been requisitioned for Hong Kong. The Sixteenth Bengal Lancers and the Hong Kong Regiment have been recalled from the north to Hong Kong. The present indications are that there will be a Boxer rising like that which occurred in North China. The whereabouts of the rebels in the hinterland is not known, but is believed to be ten miles north of the British borders."

"A detachment of 1000 Chinese troops took up a position at San Chung yesterday and 1000 more arrived there today."

MARSHALL DECISION TOMORROW.

U. S. Judge Estee Will Give Opinion Then.

William H. Marshall will know his fate tomorrow. U. S. Judge Estee will announce a decision then in the case and the former editor of the Volcano will learn whether the local Federal district court will hear his appeal for a writ of habeas corpus or whether it will be necessary to carry the matter to the Supreme court of the United States.

Last Tuesday the court heard arguments regarding the jurisdiction of that tribunal to hear the case. Today clerk of the court Smith was busy sending out notices to all the various counsel interested in the matter that the court would render its decision on Tuesday morning at 10 o'clock. No court will be held today.

IN MAUI COURTS.

The Grist of the Wailuku District Court Last Week.

WAILUKU, October 20.—The District Court of Wailuku has been crowded with criminal cases this week. Many breakers of the law were arraigned in court to answer the charges against them. The following cases were disposed of:

Territory of Hawaii vs. G. D. Schraeder, selling spirituous liquor without a license. Found guilty and fined \$100 without costs. A. N. Hayselden for prosecution, Hons & Coke for defense.

Territory of Hawaii vs. H. M. Coke, assault with battery, defendant discharged; Hons & Coke for defendant.

Territory of Hawaii vs. Keakuaele, assault and battery, Keakuaele plead guilty and was sentenced to three months at hard labor.

Territory of Hawaii vs. Keakuaele, selling spirituous liquor, found guilty and fined \$100 without costs.

Territory of Hawaii vs. Ah Lin, opium in possession, plead guilty and fined \$50 without costs.

Territory of Hawaii vs. Cyrus F. Green, charged with violating Act 61 of the Session Laws of 1898. Defendant discharged. Hons & Coke for the defense.

Territory of Hawaii vs. Namakaha, assault and battery. Namakaha acted as attorney, had witnesses produced in his favor, and submitted his argument. His argument was very brief. He asked the court to weigh the evidence and that the court should discharge him on the ground that there was no assault committed. The prosecution then submitted the case without argument. The court then discharged the defendant finding that he was simply acting as peace-maker in a scrap on Market street.

CHURCH MEMBERSHIP.

HILO, October 19.—Last Sunday morning seven persons entered into covenant with the Foreign Church. Two others who had been considered for membership could not be present.

HILO MILITARY.

HILO, October 19.—The drill by the militia company last Friday night was the first with guns and accoutrements. The boys are making rapid strides in learning the tactics. The drill room has been fixed up with gun racks, etc., so that it looks very much like an armory. Lieut. Beers will go to Honolulu for examination next Friday week. —Hawaii Herald.

HEALING'S SMOKER.

Jolly Time Passed at Club House Saturday Night.

The smoker of the Healan's Boat Club last Saturday night proved an unqualified success. There was a large crowd present and the best possible spirit was manifested throughout. Captain Jack Atkinson was the master of ceremonies and to his efforts is largely due the success of the affair. The talent was of a very high order and those who entertained the crowd proved to be good in their line. William Sharp, J. Marriner, Sam Peck, Charles Frazier, John Piver, Guy Livinstone, Walter Dillingham, Ike Dillingham, Jed Prouty, Charles Elston, took part in furnishing the entertainment. The hit of the evening was made by Archie Smithies and Eugene Murphy who danced the hula. Herbert Young's

cooking was a revelation in the art of clam chowder cuisine.

In the afternoon there was a race in the shells between crews captained by Lloyd, Rensar and Jarrett. The first crew who were known as the "Four Flushers," caught their fifth man and won by a length. Rensar's men were second.

**SPORTS AND THE LANGUAGE**

HOW THE ONE HAS INFLUENCED THE OTHER.

The Kinship of Worthily Directed Physical Endeavor With Moral and Intellectual Endeavor—October Outing.

The October number of Outing is a specialty interesting number. Under the editorship of Caspar Whitney this magazine while keeping itself strictly within its own province, a magazine devoted to out of door life, to the strenuousness of physical accomplishment, accomplishment directed by sound mind and not unworthy moral purpose, is developing within that province not merely a literature of sports and athletics, but literature itself. It is proving the kinship, so long practically denied, between earnest endeavor in the physical world, and earnest endeavor in the intellectual and moral world. This proof is not submitted in the form of thesis or syllogism, but in the form of accomplished result carrying the conviction of the wholesomeness and likeness of spirit in these heretofore, too bitterly estranged realms.

One of the most interesting articles in this number is an account of the travels of Marco Polo, by Dr. Holden, an article as timely by the events in China, a country where Marco Polo lived many years and where he rose to eminence. His book, at the time it was published, was derided as being a mere traveler's tale. But increasing knowledge has only shown how accurate and just it is.

As this is the beginning of the open season for many kinds of game, much space is devoted to sports afield. An article on shark fishing as a sport, ought to be of special interest to people of this territory just now.

An article on the evolution of the trotting horse in America, ought to be read by everyone who admires the horse, and by everyone who desires to use the English language in its idiom and allusion, accurately and understandingly. For as much as the race track has been under the ban of a large and estimable part of the English speaking people for a century or more, it is wonderful how the competition and characters of the race track have furnished much of the staple and even many of the finer comparisons, allusions and conventional figures of speech, of the language. It is because the spirit of competition and emulation of the race track accords so finely with the spirit of the people who made and speak the language.

The language finds its own spirit incarnate in this emulation and competition, and adopts the concrete expression of it as its own, refined from the grosser associations and the unworthy practices which are and were the real cause of the ban.

Saint Paul found many, if not most, of his best figures of speech and comparisons in the life which was about him, not disdaining the athletics and sports of his day as a source of meaning to point his great moral and spiritual admonitions and messages. He saw the wholesome in it and recognized that the unwholesome was merely extraneous and accidental. As sports and athletics are presented in Outing, the effect on the mind, whether of old or young cannot but be wholesome and invigorating.

**HIS OWN SHIPS.**  
 PITTSBURGH, October 10.—Andrew Carnegie, having built his own steamships and railroad to carry ore from the Great Lakes to the mills, will have his own steamships to carry the finished product from Pittsburgh to the markets of the world. The Carnegie Company will open a new trans-atlantic freight route on November 5th between this city and Liverpool, via the lakes and the Welland Canal. It is a success a dash in freight rates by the great trunk lines may be expected.

**NEW STEAMERS COMING.**  
 PHILADELPHIA, October 10.—Off Delaware Capes there is steaming today a ship that is to be the first to open a regular steamship service between the East, the Pacific Coast and Hawaii. The vessel is the American; built at Roach's shipyard at Chester, Pa., and she is making her official trial trip. When it is completed she will come to Philadelphia, where a cargo is awaiting her. The American is the pioneer ship of the American-Hawaiian Steamship Company, which will establish a regular line of steamers between the United States Coast ports and the Hawaiian Islands.

**AGAINST CITY GOVERNMENT.**  
 Makawao Debating Club at Pala Decides This Matter.

**PAIA'S NEW OFFICES.**  
 PAIA, Maui, October 20.—Paia plantation moved into their new offices on Monday last, and are now most conveniently situated.

**PGLO AT MAKAWAO.**  
 PAIA, Maui, October 20.—The Makawao Polo club on Saturday last played a most exciting game on their field at Singside, Paia. Another game will be had this afternoon.

**HARD ON LIVE STOCK.**  
 WAILUKU, October 20.—Following the great demand for hawks and livery rigs due to the political campaigning last week when both Sam Parker and Prince David were campaigning here, the 140 Stables lost a pair of California horses. The horses died of exhaustion. The loss amounts to three hundred dollars.

**SKIN TORTURES**

And Every Distressing Irritation of the Skin and Scalp Instantly Relieved by a Bath with CUTICURA SOAP

And a single anointing with CUTICURA, the great skin cure and purser of emollients. This is the purest, sweetest, most speedy, permanent, and economical treatment for torturing, disfiguring, itching, burning, bleeding, scaly, crusted, and pimply skin and scalp humours with loss of hair, and has received the endorsement of physicians, chemists, and nurses throughout the world.

**Millions of Women**

Use CUTICURA SOAP, exclusively, for preserving, purifying, and beautifying the skin, for cleansing the scalp of crusts, scales, and dandruff, and the stopping of falling hair, for softening, whitening, and soothing red, rough, and sore hands, in the form of baths for annoying irritations, inflammations, and chafings, or too free or offensive perspiration, in the form of washes for ulcerative weaknesses, and for many sensitive antiseptic purposes which readily suggest themselves to women, and especially mothers, and for all the purposes of the toilet, bath, and nursery. No amount of persuasion can induce those who have once used it to use any other, especially for preserving and purifying the skin, scalp, and hair of infants and children. CUTICURA SOAP combines delicate emollient properties derived from CUTICURA, the great skin cure, with the purest of cleansing ingredients and the most refreshing of flower odours. No other medicated soap ever compounded is to be compared with it for preserving, purifying, and beautifying the skin, scalp, hair, and hands. No other foreign or domestic toilet soap, however expensive, is to be compared with it for all the purposes of the toilet, bath, and nursery. Thus it combines in ONE SOAP at ONE PRICE, the BEST skin and complexion soap, the BEST toilet soap and BEST baby soap in the world.

**Complete External and Internal Treatment for Every Humour.**  
 Consisting of CUTICURA SOAP, to cleanse the skin of crusts and scales and soften the thickened cuticle, CUTICURA Ointment, to instantly allay itching, inflammation, and irritation, and soothe the red, hot, and swollen skin, and to cool and cleanse the blood. A SPECIAL BATH is often essential to cure the most torturing, disfiguring, and humiliating skin, scalp, and blood humours, with loss of hair, when all else fails. Sold throughout the world. Ana. MARIE CORELLI ON KIPLING.

Very outspoken is Marie Corelli on Rudyard Kipling's latest productions. The poem which has caused so much enthusiastic comment from many sources, has not to her the true ring which uplifts or moves. She writes: "A real poem pushed vigorously down the public throat would have made the public voice sweeter and stronger. A real poem would not only have built up a fund, but a fame. Instead of degrading 'Tommy,' it might have improved and dignified the whole position. 'The Absent-Minded Beggar' stanzas will mark Mr. Kipling's name with a fatal persistency as long as he lives, cropping up with an infinite tedium and an exasperating sameness at every fresh thing he writes; let him be wise as Solon, classic as Virgil, and strong as Sampson, he shall never escape it. Like another sort of 'Raven' he shall see it 'sitting, never flitting,' on every 'bust of Pallas,' or new work he offers to the public; he shall demand of it, 'Take thy beak from out my heart and thy form from off my door!' and its reply shall be the one monotonous devil's croak of 'Nevermore!'"

ELECTRICAL TRANSMISSION.

"Electrical power transmission has been developed to a really remarkable extent in this country, if we can trust a report of a lecture by Sir William Preece that appears in the English journals," says the Western Electrician. "The genial and versatile lecturer is credited with this statement: 'The waterfalls of the Highlands may work the tramways of Glasgow; Niagara already works those of Baltimore.' Inasmuch as Baltimore is 325 miles from Niagara Falls as the crow flies, we believe the statement to be incorrect. Very likely Buffalo is the city intended to point out the moral, and the error, probably, and perhaps not unnaturally, arose from the fact that the United States is a large country, and the further coincidence that the names of both the cities begin with the same letter."

A PIONEER.

Lewis B. Brown, the pioneer summer resident of Elberon, N. J., which became famous as the place where President Garfield passed his last week, has died in his 87th year. The name of the place was constructed from his own.
