GENERAL DEBILITY and Indigestion

Made Her Life Miserable, but She is
Cured by

Ayer's Sarsaparilla

Read the testimony of Mrs. E. G.
Monro, Coburg, Victoria, whose por-
trait is also given:

"Some few years ago I suffered
terribly with indigestion and gen-
eral debility. I could not sleep,
and my condition was such as to
make my life miserable. None of
the many remedies I tried did me
any good, and I despaired of ever
getting better. One of my friends
told me of the blood-purifying and
strength-giving properties of Ayer's
Sarsaparilla, and I began taking it.
Before I had finished the first bottle
I felt better, and was thus encour-
aged to give the medicine a thorough
trial. In all I used four bottles,
and then was perfectly cured of the
grievous trouble which had afflicted
me. I now recommend to anyone
suffering as I did.

LEGISLATURE IN SESSION.

HOUSE RESUMES WORK ON THE
APPROPRIATIONS.

Much Business Out with Senate Com-
mittees--Registration Act Not
Reported Back.

TWENTY-SEVENTH DAY, MARCH 23D.

THE SENATE.

President Wilder called the
Senate to order at the usual hour
this morning, but only eight Sen-
ators answered to their names. A
recess was taken for a few minutes
to allow the stragglers to come
in.

After a quorum had been se-
cured the minutes of Saturday
were read and approved.

A communication was received
from the House of Representa-
tives stating that House Bill No.
8 had passed the third reading.
The bill defines the duty of the
Minister of Foreign Affairs in
regard to the military.

Senator Lyman from the Judi-
ciary Committee presented a favor-
able report on the bill of Senator
Holstein to revise the Civil Code.

Senator Brown from the Judi-
ciary Committee reported that the
bill giving Circuit Courts in
chambers concurrent jurisdiction
with District Courts in suits to
determine water rights, etc., had
been translated.

Senator Lyman from the Com-
mission on Public Lands asked for
further time on the report of the
Commission on the Pali road.
Granted.

Senator Holstein gave notice
that he would introduce a bill to
amend Chapter 8 of the Election
Law adding two new sections.

Senate Bill No. 14, relating to
contested elections, was taken up
on the second reading, passed and
made the special order for to-
morrow.

Senate Bill No. 15, appointing
a commission to recodify the Civil
Code, came up on the second
reading and passed after a new
section was inserted making it
effective immediately after pub-
lication. The bill was then re-
ferred back to the Printing Com-
mittee for revision and made the
special order for Wednesday.

Senator Brown from the Com-
mittee on Passed Bills re-
ported that Bill No. 5, re-
lating to the preservation of Dis-
trict Court records, and House
Bill 11, amending the act con-
cerning sales of merchandise, had
been presented to the President
for his signature on Saturday.

Senate Bill No. 16 was read the
first time and referred to the Ju-
diary Committee.

At 10:40 the Senate adjourned.

TWENTY-SIXTH DAY, MARCH 23D.

HOUSE OF REPRESENTATIVES.

At this morning's session of the
House of Representatives a com-
munication was read from the
Senate announcing the passage in
the Senate of House Bill No. 11;
also transmitting a certified copy
of the Senate Bill relating to the
auditing of legislative accounts.

Rep. Richards presented a peti-
tion from ten residents of Lau-
pahoehoe, Hawaii, asking for an
appropriation of \$1500 for open-
ing up a road from that place to
connect with the government road
at Kilau. Referred to the Com-
mittee on Public Lands.

Rep. Kamaoaha presented a
petition from residents of Napoo-
poop asking for a \$1500 appropria-
tion for building a public store-
house and improving the landing
at that place. Referred to the
Committee on Public Lands.

Rep. Rycroft presented a peti-
tion from residents of Puna, praying
for a re-assessment of homestead
lands at that place. Referred to
the Finance Committee.

Rep. Halualani presented a
petition from sixty-nine residents
of Ewa asking for an appropria-
tion of \$2600 for building a new
road from Halawa to Pukaki hill.
Referred to Committee on Public
Lands.

Rep. Kamaoaha presented a
petition from the Leper Settle-
ment asking that the lepers be
supplied with Goto's remedies as
formerly and that the Baldwin
and Bishop Homes be supplied
with medicines necessary for the
bath treatment. Also that baths
be provided at Kalaupapa and
made free to all at the settlement.
Referred to the Sanitary Commit-
tee.

Rep. Bond from the Committee
on Public Health, reported on the
petition to allow fishing to be re-
sumed in the harbor. The com-
mittee say the matter is one that
belongs properly to the Board of
Health, and as that body is op-
posed to the resumption of fish-
ing at present, it is not advisable to
go contrary to their wishes.

The Committee on Public Lands
reported favorably on the appropria-
tions for salaries of Land
Agent \$6000; secretary and sub-
agent 5th Land District \$4800;
Clerk \$2400; pay of sub-agents
\$4420. The committee are of op-
inion that the services of a second
clerk in the Land Commission's
office are unnecessary and recom-
mend the item be stricken from
the bill.

With regard to the appropria-
tion of \$4320 asked for pay of
rangers the committee say: "This
appropriation will not be expend-
ed unless it becomes necessary.
It is somewhat problematical at
present what the result of the
Land Act will be. If it is a
success, as it seems likely
it will be, the work of carrying it
out will rapidly increase and if
the lands are taken up as they are
opened up and become available it
will be necessary to employ ran-
gers to watch the lands and see
that the conditions upon which
they are acquired are carried out.
We therefore recommend that the
item pass."

The committee further recom-
mend that the salaries of the force
employed in the Bureau of Survey
be not interfered with.

Rep. Robertson offered a res-
olution to the effect that no new
petitions be received by the House
after April 1st.

The Attorney General claimed
that the resolution conflicted with
article 4 of the Constitution. The
House might restrict the time in
which bills could be introduced
but he hardly thought that it
could go as far as to stop petitions
from coming in.

Rep. Kamaoaha thought April
30th would be a better time.

Rep. Robertson thought there
might be something in the point
raised by the Attorney-General
and withdrew the resolution.

The Registration Act came up
on the order of the day, but the
Judiciary Committee asked for
further time to report on Section
3. Granted.

The Act relating to the laying
out of streets in the town of Hilo
was taken up, with the report of
the committee on Section 3.

The committee recommended
that the section pass as in the
bill.

Rep. Richards stated that a big
building had been erected on
Waiuanuene street on the under-
standing that the street should be
54 feet wide. He thought that
the width of the street should be
definitely fixed at that width and
moved to so amend the section.

Rep. Kamaoaha wanted to
know why an exception was made
of Waiuanuene street. He thought
the line should be definitely fixed
for all streets. If the govern-
ment has made up its mind to
make Waiuanuene street 54 feet
wide why don't the law say so and
settle it, and not leave the matter
indefinite. The expression "not
less than forty nor more than
sixty feet in width" did not give
anyone a chance to know how
wide the street was to be. He
favored the amendment.

Rep. Robertson said it was a
bad precedent to fix the width of
any street, as no one could tell
what the demands of future traffic

would be. Because the line was once
fixed was no argument that it
should not be changed when nec-
essary.

Rep. Rycroft thought the section
was very well as it was, as there
was no doubt of the present in-
tention of the government to
maintain the width of the street
at 54 feet.

The amendment was lost and
the section passed as in the bill.

The bill then passed the second
reading and was made the special
order for tomorrow.

Senate bill No. 8, appropria-
tions for current accounts, was
taken up under unfinished busi-
ness.

The item of \$9000 for roads and
bridges in Puna passed.

The rest of the morning session
was spent in discussing items for
roads, bridges, etc., but no changes
were made from the amounts vot-
ed by the Senate.

At 12:10 the House took a re-
cess to 1:30 p. m.

NOTES OF BOTH HOUSES.

Rep. Kamaoaha is suffering
from a severe cold but manages to
make himself heard in debate.

The Senate committee on the
Tax Law held a long session this
morning after the adjournment.

Senate committees are busy,
but there is little to do in open
session until some of them report.

The Senate Special Committee
on the New Tax Bill had a confer-
ence with the Minister this morn-
ing.

The Senate Judiciary Committee
is considering the new License
Bill this morning, and the Com-
mittee on Commerce have been
specially invited.

Senator Holstein's bill to amend
the election law, of which he gave
notice today, provides that in
cases where there is only one can-
didate for an office the Minister
of the Interior may declare him
elected by proclamation. The
bill is designed to do away with
the expense of special elections
like those at which A. G. M. Rob-
ertson was elected, and which cost
an unnecessary outlay of about
\$1000.

HUMPHREYS AND HAYNE

ENJOINED FROM SENDING CER-
TAIN MATTER ABROAD.

Mr. Humphreys' Answer Did the Op-
posite of What is Charged in the
Complaint.

Upon the complaint of J. Alfred
Magoon, E. B. McStocker and Ar-
thur Johnstone an injunction was
issued on Saturday, forbidding A.
S. Humphreys and Julien D.
Hayne from sending abroad for
publication certain scurrilous, de-
famatory and libellous matter, al-
leged to have been furnished by
Humphreys to Hayne for publi-
cation in The Hawaiian magazine,
published in San Francisco.
The complaint says that
the objectionable matter in
question is from the answer filed
by Humphreys to the bill in equity
of Emmaline Magoon and others
against Julia C. Afong and others,
the latter including himself.
Lieut. Thurston of the police served
the injunction upon both of
the defendants, within a few min-
utes of each other, shortly before
the departure of the steamer Aus-
tralia on Saturday.

Mr. Humphreys' answer to the
injunction was filed this morning.
He denies that his answer to the
bill in equity contains either
scandalous, defamatory, impertinent
or libellous matter, saying
that if there is anything of the
kind in the proceedings it is in
the complaint itself. He denies
that he had prepared any part of
his answer for publication, ex-
cepting certain parts referring
almost exclusively to himself which
was published in the BULLETIN
several days ago. He avers that
he never spoke to or saw J. D.
Hayne until on or about the 17th
day of March, 1896, when that
gentleman came to his private
office and asked to employ him as
counsel to defend him in a certain
penal action instituted against
him by the Republic of Hawaii.
On that occasion respondent de-
clined to appear for Mr. Hayne,
telling him that he did not en-
dorse the policy, sentiment or
spirit of The Hawaiian.

Mr. Hayne then asked respon-
dent to give him a copy of the
complaint and answer in the equity
suit and already mentioned. This
was refused, although Hayne pro-
mised not to publish anything in
the documents which was person-
ally offensive, and respondent
asked Mr. Hayne to leave his
office. He had not since that in-
terview held any conversation
with Hayne until after the service
of the summons in this case.

Hayne obtained a copy of the
complaint and answer, without this
respondent's knowledge, from W.L.
Peterson, who has desk-room
and does typewriting in this re-
spondent's office. After the service
of summons Hayne told him how
he had procured the documents,
and on his demand surrendered
them to him. Respondent says
that the only copies of the com-
plaint and answer which he had
made were for sending to Com-
mander Wm. H. Whiting, U. S.
N., and C. Afong, who are in-
terested in the case. He admits
that he showed the documents to
one or two personal friends. In
conclusion the respondent expres-
ses his willingness to join the
complainants in obtaining an
order of the Court to expunge and
eliminate from the bill and answer
everything subject to a scandalous
interpretation. He would also, so
far as he might be permitted by
the Court, join the plaintiffs in
praying for a perpetual injunction
against said J. D. Hayne for the
purposes mentioned in their peti-
tion.

An affidavit from Wm. L. Pe-
tersen is attached, saying that he
made the copies for Mr. Hayne,
not knowing it was wrong when
the documents were part of the
records, and apologizing for the
mistake that he made.

CHINESE vs. KANAKAS.

A Lively Scrimmage in which Omcer Cordes Took a Little Part.

Officer Cordes enjoyed a little experience on Saturday which was not down on the bills. Accompanied by his wife, he drove over to Kamoiilli to purchase a pig of some Chinamen. Upon nearing the fish ponds in that region, he noticed three natives sitting beside one of them, while a number of celestials stood off at a little distance arguing about some matter of apparent importance. As Cordes approached the Chinese made a rush at the natives and after a hard battle of a few moments, duration succeeded in corralling one of the kanakas, while the other two got away, one slightly bruised and the other with a goods-sized wound in his side, made with a hoe by one of the Chinamen. Cordes was unarmed and could do nothing although he made a desperate effort to get the third native out of their clutches. The Chinamen took the native to a hut near by and after pummeling him for a time telephoned to Honolulu for a policeman to come out and arrest the man. Meanwhile Cordes returned to town, and procuring assistance went back to investigate. The Chinamen charged the kanakas with fishing unlawfully in their ponds, but as they could not prove that they had fished but were merely waiting for an opportunity to do so, there was no cause for arresting them. The two men who bore the brunt of the onslaught now propose having the Chinamen arrested for assault.

MONDAY, MARCH 23, 1896.

There is little doubt that a preponderance of the thoughtful public sentiment of the country is in favor of giving a general registration law a fair trial. It was passed by the Legislature of 1892 but mysteriously disappeared and was never promulgated. Although it may come high in the price of "Anglo-Saxon" pride, the country seems to want to have it.

The reporting of religious services that has been somewhat extensively done in this paper, it should be made known, is chiefly the work of those aiding in the meetings. This being a strictly secular paper, it cannot take any sectarian responsibility, but it has always been liberal with space for any denomination to exhibit what its leaders deem to be for the good of humanity.

SPRINKLING AND POURING REQUIRE

1. Water. Last Friday night as per announcement Rev. Mr. Romig presented his "review" of the statements published by Rev. Mr. Peck some days previously in regard to the essentialness of the rite of Christian baptism. In his denou-

ment of the subject the evangelist shortened and simplified his address by frequent reference to and comment on the chart of scripture texts bearing on the subject which was displayed, and which is given at the head of this article, special emphasis being placed on the blank portion of the chart.

The speaker stated that he had no part or lot in the proposed discussion or the article in one of the papers which had brought it out, he knew nothing about it until he saw it as published, it was wholly unauthorized by him, the occasion therefore was not sought by him. Nevertheless as a servant of the Most High, and as one consecrated to the christian ministry and to the proclamation of the whole truth of God he must obey the Divine injunction to "contend earnestly for the faith which was once for all delivered unto the saints."

"When I give you the word, God talks to you and it's you and the Bible for it; I am not in line at all. I have my convictions and they are as deep as the sea and I'd die for any one of them. On the subject of baptism I take undisputed ground, it is a position commanded of God, every convert recorded in the New Testament was baptized." Here the speaker read from the article of Mr. Peck where he claimed that the scholars and best men of the world regarded it as a "non-essential." He then produced the Lutheran, Episcopal, Methodist and Presbyterian creeds and read from them and also quoted from the immortal Wesley, they all agreeing as to the scriptural necessity of the ordinance as commanded by Jesus and practiced by the Apostles. You cannot get into any of these leading religious bodies without baptism, so-called. Are they ahead of Heaven? With regard to immersion, he said that by a well-known law of language the correct definition of a word could be substituted for the word itself, then proceeding he referred to Acts 2:38, and substituting, as per the before-mentioned law, the word sprinkle for baptized it read thus:

"And Peter said unto them, Repent ye and be scattered in small drops (definition of sprinkle), every one of you, a terrible thing to do. By substituting the word pour, or its definition (also claimed to be a correct definition of the word baptizo,) the effect was equally ridiculous, neither of those words being used to translate the word baptizo would make any sense at all. Now, if immerse is a correct definition it will fit and make perfect sense, and it does. "In the light of the Judgment Day you are responsible for what you see and for what you hear as well as I for what I preach to you." The speaker made reference only in most courteous terms to those who honestly differ from him, and a good impression was left on those who heard the discourse.

Liwai Meakane was convicted of selling liquor without a license of December 22d of last year and got his sentence suspended. Today on the motion of the prosecution the case was called up in District Court and the defendant sentenced to a fine of \$100 and costs.

Mr. Romig's sermon last night was a strong temperance discourse. The congregation was not small, yet lacked filling the church.

Timely Topics

March 14, 1896.

A church congregation down in Sanders, Ky., was dismissed most summarily under unpleasant circumstances two Sundays since. Right in the middle of the preacher's discourse there bolted into the church through the half-open door what appeared to be a black and white cat, closely followed by a yellow dog. Cat and dog ran swiftly down the middle aisle to the platform. The preacher taken unawares, did the natural thing, kicked at the cat, hit it, and landed it squarely in the middle of the congregation. Then it turned out that the cat was a skunk. The rest of the story is left to the imagination of the reader.

This week we want to call your attention especially to the ALASKA REFRIGERATOR and give you a few items concerning its construction.

To give strength and durability, an inside body, or frame is made of well dried, matched wood, to which hardwood cleats are solidly nailed. Upon these cleats the outer body, or frame, is built.

The inner frame is made from perfectly odorless wood, and is lined with zinc. Polished as bright as a mirror, presenting a very clean and attractive appearance.

All exposed wood, as under the lids and about the doors, is odorless tulip poplar, thoroughly shellaced. This makes the Refrigerator clean and sweet.

Between the outer and inner walls there is an inch and a half space filled with PURE CHARCOAL. There is nothing so good in every way for filling the space between the two walls of a Refrigerator as Pure Charcoal.

The locks are entirely new in principle, and are, without exception, the best ever used on a Refrigerator. They will keep the door closed perfectly tight, even if they were left one-eighth inch loose.

The hinges are very strong, beautiful in design, and made expressly for THE ALASKA REFRIGERATOR.

All the trimmings are solid brass, dipped finish, this being the latest style in fine brass goods.

From the results of tests made during the past three years, we are convinced that the ALASKA is the best Refrigerator in the market, in construction, in power to preserve perishables, in economy of ice, and, in fact, in all the points necessary to make them first-class in every respect.

The Berg Vagrancy Case.

H. M. Berg was tried before Judge de la Vergne this morning on a charge of vagrancy. Officer Cordes testified to the vagrant habits of the defendant and Marshal Brown to the fact that he had been under arrest three times before in the past six months on the same charge.

The defendant called F. A. Schaefer as a witness but Mr. Schaefer testified that he did not know him or anything about him. Berg then wanted President Dole and two or three other prominent witnesses summoned to prove that he had applied for work to them, but the prosecution obviated the necessity of their presence by admitting that such was a fact.

The witness then told a rambling story about the police being down on him. Said he had been a supporter of the monarchy but was now a supporter of the Republic. He had applied to several officials for jobs but they would not give him anything to do. He made his living by doing odd jobs on vessels along the wharves and supposed he had a right to do as he pleased.

The Court found him guilty and gave him quarters with Jailor Low for three months to come.

Order of Arrest Vacated.

In the matter of W. G. Irwin, a witness produced under bench warrant in the case of Rudolph Spreckels vs. Panahau Plantation Company, Judge Perry discharged the respondent from arrest but not from the obligation to appear when called. The hearing is continued until Wednesday.

Jas. Quinn contemplates leaving for Guatemala some time during the month of April.

Results of Honesty.

"My watch is giving me the utmost satisfaction; I actually believe it does not vary a second during the week."

Pleasant remarks these. Just the kind of balm a watchmaker needs occasionally to keep up his spirits. For you know working all day on a high stool, a glass firmly screwed into one eye, looking at objects to distinguish them, is not the pleasantest occupation which could fall to the lot of man.

So it's no wonder a fellow gets all out of sorts occasionally, and then it's the time a few remarks like the above does what all the patent medicine in the world could not accomplish, cheers up, makes things look brighter, the next job goes all the smoother.

Speaking of the above watch: It was an old one. The wearer had used it steadily for forty years. It had run enough; had revolved its wheels so long and steadily, that at last it was tired out. The pivots were so worn, the wheels just wobbled and wobbled, then stopped altogether. What was to be done? Throw it away? Get a new one. Yes, but the wearer valued it for its associations, it was as dear to him as his best friend; so nothing would do but build it all over as it were, renew the parts, put some go into it. That we accomplished it to the entire satisfaction of the owner, his remarks above would surely leave no room for doubt. And we can do the same with yours, sometimes they go a little too far, and the cost for reconstruction is too much, but generally no work is too intricate for us. It is that which we brag about, complicated work is our stronghold. Isn't it reasonable now to suppose that we are better able to do your less intricate work? Wouldn't it be safer to give us the custody of your watch altogether, no matter what the trouble, and have a feeling of certainty as to its treatment?

COFFEE ESTATE AND LANDS For Sale.

I am directed to sell at Public Auction on

Wednesday, May 27, '96,

at 12 o'clock noon of said day at my sales rooms on Queen street, in Honolulu (unless sooner disposed of at private sale) the following described property, namely:

A tract of land of about 2,350 acres in fee simple situated at Kolo and Oloheohehe in the South Kona, Island of Hawaii, about eight miles by a good road from Hokena, one of the largest villages in Kona. There is an excellent landing on the land itself from where the coffee and other produce could be shipped and a good site for a mill near the landing. Fifty acres of land are in coffee. Roughly estimated there is about seven hundred acres of splendid coffee land lying all on one block on both sides of the Government Road. Eight hundred acres lying above and to the East of the seven hundred acres above mentioned is also excellent land and although at a higher altitude is no doubt also well adapted for coffee culture. The lower land below the coffee belt is suitable for pineapples and sisal. There is a drying house, store and work-rooms, a Gordon's Pulper, laborers' quarters and water tanks at the plantation, and the land is partly watered. There has never been any blight on this land, although coffee was planted a great many years ago. Old residents of Kona like the late D. H. Nahulu, J. W. Kaimoku and others have testified to this fact. There is a sea battery appurtenant to Oloheohehe.

Terms cash or part of the purchase price can remain on mortgage at eight per cent per annum. Deeds and stamps at the expense of purchaser.

A map of the property can be seen and further particulars obtained at my sales rooms.

CACAO.

Another Article from Le Nouveau Geographique.

E. de Harne of Kohala favors the BULLETIN with the following article on cacao, supplementary to one on the same subject lately appearing in these columns:

HARVEST AND PREPARATION.

At the age of five years, as we have said, the cacao tree gives its first real crop. It bears the whole year round, but in large quantities at the end of the dry, and the beginning of the rainy season. Consequently, the flowers that sprout, in, and from May, when dry weather prevails, will give fruit in August, September and October, thus 4 months after blossoming. At that time of the year, we have counted as many as 80 good sized fruits on a tree. We never noticed that the flowers were more plentiful at the beginning of the rainy season, but that the fruit seems to form better when the rains have ceased. When altogether yellow, it is taken off by means of a pruning knife, or any other suitable tool, suckers and creepers, if any, being generally cut off at the same time. If the tree be large, it is better to gather the fruit every day. And it is at this time, that the advantages of planting in rows or quincunxes can best be noticed, as in gathering, the workingman can follow the lines, and has not to go from right to left, as happens in the plantations made by the natives of the country, when left to themselves, and so forget and lose fruit.

Mr. de Lanessan says: that, in certain places, the fruit, after the shell has been taken off, is packed in great earthen vases where fermentation destroys the pulp. Afterwards the grains are easily separated and well dried in the sun. This is the not earthed cacao (cacao non terre) that is used in making the cacao butter (beurre de cacao.)

The process of preparing cacao can briefly be summed up thus: The gathering and putting up of the fruit in heaps, the opening of the shells the next day, and the storing of the fresh fruit at the place where it has to ferment, and finally after a few days the drying process. During the fermentation that takes place in barrels or any other container, water and carbonic acid are disengaged, and the thermometer thrust among the fruits reaches 60° (about 187° F). When the weather is moist, care should be taken, not to allow this temperature to be exceeded, as the grains would turn blackish, and not be so valuable.

It is advisable if one wishes to have a fine product, to sprinkle the grains with red clay, to prevent agglutination, and to leave them for a couple of days in the container till the fermentation is finished. After which, they are rubbed by women or children between the hands, so as to take all matter off. The red dirt absorbs the mucilage of the cacao and gives it a fine red color. It is also claimed to keep better, when this has been used. When drying; what lasts for 4 or 5 days, care should be taken to stir the grains often, so that all the parts might dry at the same time. After drying, the cacao has to be stored in warehouses with a single and hermetically closed door, but if, notwithstanding all this care, it be, after a few months, covered with mould, it can, if the inner part be still sound, be taken off by a gentle rubbing.

During necessary repairs to the Wilder steamship wharf that company's vessels are using the Oceanic dock. The mounted patrol gave an exhibition drill on Saturday afternoon at Makiki, at which President Dole and others were present. The band will play at Emma square on Tuesday and Wednesday evenings, on Thursday at Makee Island and on Friday at the Hawaiian hotel. Work is being rushed on the Opera House by contractor Lincoln and the roof will be completed by Saturday. Interior work can then be commenced. The BULLETIN acknowledges receipt of the Constitution and By-laws of the Medical Association of Hawaii, also an address at the opening of that body by Dr. Russell. The Makiki lots advertised for sale on Saturday next by Jas. F. Morgan have a rich alluvial soil from twenty to twenty-two feet in depth and the water supply is abundant. Large numbers of the steamer edition of the EVENING BULLETIN were mailed by the Australia on Saturday by those who wanted to send the news and did not have time to write. There was a bigger crowd than usual to see the Australia off on Saturday afternoon. On the steerage end of the vessel the deck was wet with tears shed over farewell embraces. Detective Kaapa landed a couple of Chinese chefa dealers in the station house about 10 o'clock yesterday morning, together with a complete outfit of tickets and a lot of chicken feed. Mrs. Chas. J. McCarthy has been dangerously ill for the past week. Her condition is slightly improved today and the physicians are more hopeful. Charley has the sympathy of everybody. In the suit of the Afong minors against A. S. Humphreys and others, Julien D. Hayne has been served with a temporary injunction forbidding him from publishing anything concerning the case.

A Portuguese was arrested this morning for furious riding. The usual revival services at the Christian church tonight. This issue of the BULLETIN contains ten pages. See that you get the whole of it. H. W. Schmidt will receive written offers for rent of cottages on Beretania street. A notice of a dividend on Hawaiian Sugar Co. stock appears in another column. Mrs. Rudolph Auerbach presented her husband with a bouncing baby girl yesterday morning. The chefa gamblers, arrested by Detective Kapaa yesterday morning, will be tried tomorrow. H. F. Wichman tells of an old "turnip" made into a trustworthy timepiece, in his column in this paper. The funeral of Kahaawenele w. takes place at 4:30 p. m. today under the direction of E. A. Williams. James F. Morgan's great sale of residence sites at Manoa will be held at his salesroom at noon of April 8. The Kamehameha Glee Club pleased everybody with their singing at the Romig meeting Saturday evening. Some of the converts of the Romig meetings will be baptized after the close of the regular services tonight. Among the arrivals on the Claudine yesterday were Mrs. A. P. Jones, Mrs. H. W. Bowen and W. Pfothenauer. W. W. Dimond calls attention to his bargains in general and a leader in the shape of Dietz lanterns in particular. L. W. Hough, the popular druggist, was elected an honorary member of Company D, N. G. H., at their meeting last week. Souvenir spoons and Hawaiian curios are for sale by H. G. Biart, who does watch repairing and jewelry in a skillful manner. Mystic Lodge No. 2, K. of P., will move from its present quarters on King street to Oahu Lodge hall, Fort street, on April 1st. A Chinese is held at the Police Station for investigation as to his connection with the chefa game raided by David Kapaa yesterday. Company D, N. G. H., will probably build a shooting range of their own, arrangements with Company H having fallen through. N. S. Sachs announces his Easter opening of fine millinery on Monday, Tuesday and Wednesday. Ladies are cordially invited to call and see the latest styles. The sale of dry goods, etc., at H. W. Schmidt & Sons has attracted a great many householders today. So good an opportunity of obtaining necessary articles at a low figure seldom offers. A yachting party went on an excursion to Pearl Harbor yesterday in the Edith L. and Pokii. While there several turtles were shot by one of the parties, but sank before they could be secured. There is nothing in the report of an attempted burglary at Waterhouse's Queen street stores on Saturday evening. The employees of the crockery department had raised the sheathing of a shed to let in more air, and this led to a report that the roof had been cut.

Highest of all in Leavening Power.—Latest U. S. Gov't Report.

WM. JAMES SMITH DEAD.

Was for a Whole Generation in the Public Service. William James Smith passed away, after a lingering illness of several months, at his house on Beretania street at 9:45 o'clock on Sunday morning. He was born of English missionary parentage at Papoia, Tahiti, August 24, 1839, consequently was in his 57th year at death. Mr. Smith's parents moved to Honolulu in 1845, and his mother lived until six or seven years ago. The lamented gentleman received a good education at the Royal school, some of his schoolmates being members of the royal family who later occupied the throne. He entered business life after leaving school, first keeping a store for himself, at the corner of Nuuanu street and Chaplain lane, and afterward taking employment successively with A. S. Cleghorn & Co. and M. S. Grinbaum & Co. Mr. Smith became secretary of the Board of Education in 1865, holding the office until 1894, or a period of nearly thirty years. He was a member of the Privy Council of State, and received decorations from King Kalakaua and the Emperor of Japan. Mr. Smith held the friendship and confidence of Queen Liliuokalani in a high degree, and was frequently consulted by her on matters of state. As he was possessed of rare good sense, besides being of a conservative and discreet turn of mind, it may be believed that his counsels were such as were worthy to be followed. He was one of the prominent members of the British Club, now called the Pacific, and being a very companionable man took a leading part in the informal debates on public affairs at that institution. His affinities were with the survivors of old Honolulu, or the real kamaainas, beyond whose circle and that of the teaching fraternity—from his long incumbency as executive officer of the Board of Education—he seldom wandered. Mr. Smith leaves three sisters—Mrs. J. H. Turton of San Francisco and Mrs. J. A. Hassinger and Mrs. George J. Ross of Honolulu. The funeral takes place at three o'clock this afternoon, Rev. Alex. Mackintosh officiating. Mr. Smith has left, it is believed, a considerable estate.

ROUGH-ON-BUGS

is our new insecticide for roaches, bed-bugs, moths and insect pests of all kinds. It kills them instantly, destroys the eggs. Won't stain; doesn't have an unpleasant odor; easy to use. The great value of Rough-On-Bugs is, you can sprinkle it in the crevices, where their nests are, and thus destroy the eggs and break up their breeding places. Full directions with each bottle. Try it. If it doesn't do what we claim, we refund money. You therefore take no risk. Price 25c. Get it of HOBRON DRUG CO. Sole Proprietors.

W. W. DIMOND'S

There's a lot in the way goods are shown and a lot in the buying of them. Our place is a combination of good buying and good showing. Note result: The largest aggregation of fine goods blending harmoniously with a cheaper variety ever shown in Honolulu. Sometimes when a buyer happens in a factory where the supply is greater than the demand there is a chance for a bargain. Then, too, manufacturers occasionally want to realize on their product between seasons. This also is a bargain chance. It happens in different lines and we managed to get one or two to offer you. Listen to this: A genuine Dietz lantern at 50c. Three different styles, one just as good as the other. You never bought one in Honolulu before for less than a third more, sometimes you've been asked double the price. This is one of our bargains for this week—there are others just as good. You know what bargains mean in some advertisements—ours are facts.

GOOD OPINION OF HILO.

VIEWS OF A HONOLULU MAN WHO WILL MOVE THERE.

It's a Town Without Drones—Climate All Right—Beautiful Scenery on Volcano Road.

Thomas W. Rawlins of this city returned by the Kinau from a visit to the town of Hilo. An interview with him printed in the Hilo Tribune showed that he intended to cast in his lot with that industrious and progressive burg.

"I have made arrangements for starting a soap manufactory in Hilo. All the butchers of Hilo, there are three, have contracted to give me their tallow. The only difficulty has been in getting a site. You can't put a soap works anywhere. I will lease the land. You can't buy any land there, as the people are looking to the future. Hilo is going to be the second Queen of the Pacific.

"Some of the leading people of Hilo were very attentive to me. I would like to mention Messrs. Larkington, Wakefield, Furneaux, Loebenstein, and Wilson, and thank them in your paper for their kindness. They said they like to have a practical man like me to add to the industries of the town. There are no drones in Hilo—you won't see a man going around Hilo with his hands in his pocket. A lot of trades are represented among the coffee men, and when they haven't anything to do on their land they can usually get work at their trades.

"Hilo must have a wharf and nearly everybody wants a new one at Waiaken. It would be like throwing money away to spend any on the old wharf at the mouth of the Wainuia river. All the freighting to and from vessels is now done with old-fashioned punts that have to be pulled back and forth. Building a new wharf at Waiaken would have the advantage of the shelter of Cococanut island, and that is the only place where a durable breakwater could be built at a moderate cost.

"There is enterprise and energy enough in the people of Hilo to build the wharf themselves, if the Government would give them the site, but they think it is better for the Government to own it and thus have it altogether a public work. Mr. Wilson was willing to build a bridge to the island, erect a hotel on it and run a bus line to the place, but there were some objections to his enterprise.

"The people of Hilo are well satisfied with their representatives

Scrofula The Worst Case the Doctors Ever Saw

Hood's Sarsaparilla Perfectly Cured "C. I. Hood & Co., Lowell, Mass. Dear Sirs—I wish to testify to the great value of Hood's Sarsaparilla. For some time I had been troubled with scrofula, which early last winter assumed a very bad form.

Sores Appeared on My Face and hands and gradually increased in number until they reached to my shoulder. The doctors said it was the worst case of scrofula they ever saw and also went so far as to say it was incurable. I tried ointments and other remedies but to no avail. A friend recommended Hood's

Hood's Sarsaparilla Cures Sarsaparilla, and although I was completely discouraged, as a last chance I resolved to give it a trial. After taking one bottle I noticed the sores had commenced to heal. After the sixth bottle

They Were All Healed. I continued to take it, however, until I had used nine bottles, and now I am perfectly well. MISS KATIE ROSENGRANT, Ulster, Penn.

One of the Best Known

Residents of Seattle

Made Well.

Cured of Kidney Disease,

Sleeplessness, Rheuma-

tism, and Nervousness.

CHARLES PROSCH, Secretary of the Washington Pioneer Association.

611 NINTH STREET, SEATTLE, WASH., May 8, 1894.

WELLS, RICHARDSON & Co.,

Gentlemen:—For some years my kidneys have been affected, and a mild form of rheumatism afflicted me.

The worst affliction from which I suffered more or less for ten years past has been insomnia and its natural results, extreme nervousness. This grew so bad that it was often difficult for me to write my name legibly. Paine's Celery Compound has cured me of the insomnia and nervousness, so that I again enjoy refreshing sleep.

For some months last year I suffered acute pains in my chest, which almost nightly compelled me to arise from bed and walk the floor or sit up for hours. A recumbent position brought on the pains day or night; the position assumed in writing also caused them. I have been happily relieved of these various disorders by Paine's Celery Compound, and now enjoy better health than I have experienced at any time in the previous ten years.

I shall advise my friends, one and all, to try Paine's Celery Compound for such ills as I have suffered from.

Yours truly,

Charles Prosch.

Yales' La Freckla

is Mine, Yale's infallible cure of Freckles, Tan and Sunburn. It is the only remedy ever compounded that will remove freckles completely and surely.

It cleanses and more delicate the skin, the more likely it is to receive and the more it will look after it is freckled.

Thousands of women, otherwise beautiful, are disfigured by these disgusting, brown blotches. With it will hide them. They are a source of misery, but they can be cured. La Freckla is the death-warrant to freckles.

The preparation of La Freckla is one of Mrs. Yale's greatest achievements. There are many imitations, some of them very dangerous and harmful to the skin; none of them really effective. For safety and certainty, insist always on getting the genuine and original La Freckla.

Price 25c of druggists, or by mail, MME. M. YALE, Health and Beauty Specialist, 175 St. S. Chicago, Ill. Beauty Guide, names free.

in both houses of the Legislature, and confident that they will get a new wharf.

"I went up to Mountain View through Olaa and never saw prettier scenery. The coffee looks splendid. I was sorry to see that the Japanese were getting home-stands in the coffee lands. The Portuguese in Hilo are doing well. They have their own sugar mill and have all the work they want. They have also a first-rate brass band.

Mr. Goodale, the manager of Papaikou plantation, has just completed and put in operation a cable railroad for shipping the sugar. It is three hundred and odd feet long and carries three tons in a load. The cost was more than \$10,000, but it will save a dollar a ton in handling sugar.

"I shall probably devote some spare time to coffee whenever the Government opens up the lands."

Mr. Rawlins in the course of further conversation said he did not see any sense in jealousy of Hilo by Honolulu, still less in the jealousy of other parts of the island of Hawaii against its principal town. With the development of the country the port of Honolulu would have all the business it could handle without that of Hilo, and, with the railway that is bound to come from Hilo to Hamakua, the whole island would share in the prosperity of Hilo as an important harbor having a large direct traffic with the outside world.

The bark Hooper and schooner Olga sailed from Honolulu, for San Francisco on the 15th, with cargoes of sugar, valued respectively at \$91,934.57 and \$57,065.80. The brig Geneva sailed on the 21st with a cargo valued at \$64,506.70.

Maybelle, Br. schr, left Victoria, B. C., on Jan 18th, to pick up an Indian crew, on the west coast of Vancouver Island, for a sealing cruise, and has not been heard of since; it is feared she has been lost.—S. F. paper, Feb 28.

The Archer loaded sugar from the schooner Ka Meland Wilder's wharf this morning. The Kenilworth received sugar from the Kaula, and the carrier Ives took in the Watahiki's cargo. Sugar from the steamer Claudine is being stored in the Oceanic warehouse.

Statistics of the British Board of Trade show that in the fiscal year 1894-95 the number of lives lost from missing British sailing vessels was 240 from 375 vessels, and from missing British steamers 64 from 406 vessels. This was a decrease from 2128 from 1871 sailing vessels in 1871-82 and 1146 from 572 steamers the same year.

A SHARK STORY.

Lieutenant Coyne and Party Have Good Sport.

Instead of going to church yesterday morning like other good people, Lieutenant Coyne and a number of the boys of Company E went shark fishing outside the harbor in a steam launch and had sport enough to last them a month. Just outside the harbor several big sharks were noticed and a hook and line was soon sent over the side baited with a chunk of salt pork. One of the monsters was soon hooked and pulled alongside, where he was riddled with bullets from rifles and revolvers. A second big fish was hooked soon after the first and met with the same fate.

The third time the bait was thrown over it was taken by a much larger shark than the others and for awhile he had a good time with the launch, towing it about as he pleased. Finally he was hauled near enough to be shot and killed.

The boys thought that was glory enough for one day and towed their victims to the Aloha bathhouse, where the fish were pulled ashore, measured and photographed by W. B. Sutton. The largest one measured 11 feet 8 inches in length and 53 1/2 inches around the thickest part. The second largest was 9 feet 8 inches long.

Those who were in the party with Lieutenant Coyne were Messrs Moore, Carlyle, Conley, Miller, Scott, Scullan, Short, Middleton, Mayne, Powell, Gilles, Bruns and Captain Sheehan.

As the Australia was swinging out into the stream Saturday Otis Harrell played two or three solos on his cornet, the last being the favorite of his colleague Mr. Romig, "In Thy Love, O God," to whom it was a touching farewell.

"How will you have your eggs cooked?" asked the waiter.

"Make any difference in the cost of 'em?" inquired the cautious customer with the brimless hat and faded beard.

"No." "Then cook them on the top of a slice of ham," said the customer, greatly relieved.—Cincinnati Enquirer.
