CORRESPONDENCE.

[We do not hold ourselves responsible for the opinions or the utterances of our correspondents.]

EDITOR HONOLULU: Now that the Americans identified with this annexation movement have forfeited their rights of protection and citizenship under the American flag, and have shown to the world that they have never been worthy either from an educational or patriotic standpoint and that they have been led by the nose, by 20 men, who have proved by their own acts, that their love of country has been a secondary consideration with them and now that these self-styled American citizen have lessened the American interests here and have brought themselves on a level with the "kanakas" (who they claim are not able to govern themselves) and now that they realize that they have been duped by 20 designing men, who have all along known that a man can not serve two countries. Now that they have found out that the missionaries have made worse than beathens of them, by causing them to renounce the country of their forefathers and join one where principle and manhood and love of country are a crime; and now that they have demonstrated to the world, that they are not worthy of the name of honest men, but are tools, adventurers, not even worthy of confidence or respect of even themselves, by showing the poor "kanaka" that American patriotism means disloyalty to their own country; and now that they have shown to the world that they are purchasable articles (it must have been expectation of gain that would cause 500 odd Americans to sell their rights), that they are human beings clothed in the garb of civilization, whose carcasses would not bring today one hundredth part of the price of the poorest slave ever owned in the glorious old country, some of these renegade Americans fought in, because they believed then that every man was born equal. And now that they are nobody, in a country controlled by 20—who are serving the devil under the livery of

heaven, I think it is about time they bowed their heads in shame and forever shut their mouths about their being Americans, honest men, or even that they represent the intelligence of these islands. It is about time they stopped talking about rotten monarchies, but confine their arguments about "rotteness" to their own characters. It is about time they ceased to talk about the kanakas not being able to govern themselves, and about time these heroic advocates of a government, whose backbone is the Central Union Church (chamber of conspirators) took off their hats and bowed their head as the loyal men (kanakas) to principle and country, pass them by, and then come out in their true light and call themselves the organized body of America's Disgraced Sons. No one respects you, not even those whose tools you have been. You are now human beings without principle or country, men who have been a party to the worst conspiracy ever carried out, and that too in the name of Christianity, which leaves out of its teachings on these islands, the great principles of truth honor, patriotism, principle, justice and morality. It is time to call a halt, you have done yourselves, families and country a great wrong: if you have any manhood left undo it as far as you can, live again for that great principle of humanity that we are all born equal. Give to those who have proved their superiority to you in loyalty, at least a chance, they are entitled to it, and are better capable today of governing and guarding your interests than you are, and if you have one speck of honesty left you know what I say is so. You now have no more claims on America and you owe it to yourselves and your adopted country to help each other, all you can, to get back the old rights you have forfeited by having this new government you are attempting to establish a "Government of the People for the People and by the People," a government of state not church.

AMERICAN. No wonder then that the Legation is clamoring that they cannot get the ear of influential persons and that other means have to be brought to bear to reach the desired end; the Advertiser suggests on the point of entertainments, luau's etc.—Entertain the Senators—invite them to Champagne-suppers—make them hilariously full, and by this method you will win them over to your side, and make them willing tools to your nefarious schemes. But could such a course be called a fair and honorable one? The American people would look at such actions as bribery, and bribery is classed as a felony—the briber as well as the bribed are felons. Now, would Mr. Hatch still vote for more money to this Legation in order to support and foster bribery? AMERICAN.
