PRESENTATION AT KALIHI.

Dr. Henry W. Howard, medical superintendent at the Kalihi detention camp, was very pleasantly surprised yesterday night by the presentation to him of a solid silver loving cup bearing the inscription: "Presented to Henry W. Howard, M. D., by the members of the medical department at the detention camp, Island of Oahu, April 31, 1900."

The employees thought of a very original way of making the presentation. The doctor was called suddenly to the hospital by the telephone message that nine, one of the nurses, had a temperature of 105 and that the case seemed looked suspicious. The doctor at once came and hastened to the hospital. Upon arrival there nine was found in bed. When, after a few minutes, the usual questions, the doctor could hold in his laughter no longer, he handed up a box from under the bed covers. Then the employees and others came crowding in through the back door.

A paper bearing the names of the employees, was headed by the following: "We the undersigned, employees of the medical department of the detention camp at Waikamalo, Oahu, offer to you this small token of our appreciation of your efforts on our behalf and the kindness and consideration you have always shown toward us, hoping that with your future days, the happy times of a camp, working toward one end."

Consul to Explain.

delegates formally elected by a committee of the fourteen Chinese societies of Honolulu will call upon the consul at an early day. The object of the call will be to obtain an explanation of the remarks credited to several Chinese members of the Progressive Society with being associates of highlanders.

THEOSOPHY WORK IN INDIA

Prof. Marques Writes of His Travels in the Orient.

What Theosophy is Doing for the Hindus—Professor Now in Ceylon—Coolie Will Soon Come to Hawaii.

[From a Private Letter.] Colombo, Ceylon, Jan. 31, 1900.

Since I last had the pleasure of writing to you from here, I have been over to India, and am back again, previous to leaving for Queensland, via Batavia. I have thus spent quite a little time in Ceylon, and the longer I stay the more I like the country, and the people—I suppose principally on account of the similarity with Hawaii and even with the Hawaiians. The climate, although we are not so far from the equator, is more like Hawaiian climate than anything else I know of. The vegetation is quite similar, from the coco trees, lantanas, breadfruit, bananas, down to the innumerable ferns. And the natives, also some of them more especially because there are here two distinct races, the Singhalese, or original emigrants from North India, and the Danish, or modern conquerors and emigrants from South India) are very much like our beloved and lovable Kanakas.

Temples of Siva and Madura.

I left Colombo for India by what is called the Titicaca line which runs to the southern point of India, and connects with the Southern and Madras Railroad in order to visit on my way the celebrated temples of Siva and Madura—immense buildings covered with elaborate carvings and decorations of the highest Hindu art, one feature of the work being that everything is built up with immense stone blocks which remind one of the gigantic monoliths of Egypt and make one puzzle over the problem of how the ancients were able to handle those masses—quarry them, then transport them hundreds of miles away, and lastly lift them to any required height. The sculptures of these temples are also very interesting to those fond of symbolism, because everything there is in plain symbolical and hieroglyphic in Egypt, and illustrates the beliefs of that particular sect which recognizes as first God, Siva, the third of the Hindu Trinity. I have sent quite a number of interesting photographs to the Aloha Branch at Honolulu, so you may look at them if you feel like it.

Theosophy in India.

I went to Madras in order to be present at the annual general convention of the Theosophical Society, which happened also to be the 24th anniversary of its foundation in New York. I went there not only as representative of the Australian Section, of which I am now General Secretary, but also as delegate of the New Zealand Section, who kindly asked me to represent them; and lastly, I may say, I represented our modest little Honolulu Branch. I found over two hundred delegates from the various Indian Branches (a general group photo has been sent to the Aloha Branch) all full of enthusiasm and well illustrating the vitality of the Indian Section, and the firm hold that Theosophy has taken all over India. But the best proof of the interest taken in the work by the Hindu members, was shown me by the very fact that they know everything that is going on in all the other Sections, and, to my great amazement, I found that every

Curious Certificate.

Fred. L. Leslie, inspector at Kalihi, reported a Japanese boy sick on Friday. On Saturday he had to report him missing. Yesterday he found the boy again, who had on his person a certificate from Dr. Mitamura. This document, written on Saturday stated that the boy's age was 16, that he had been under the certifier's treatment since the previous day, for cold and pharyngitis, and had come over the rail from Hecia plantation on Thursday. The certificate had this conclusion, "This is not a suspicious case of plague."

Rats to Morgue.

A notice on the blackboard in the chief inspector's office reads, "Dead rats for the laboratory should be sent to the morgue." It is said that the laboratory officials do not wish to touch a rat until it has been rid of its pest with the parasites thereon at the morgue.

COUNT IS NOT FINISHED

At 2:30 This Afternoon Simerson Leads by Nearly 2000 Votes—Rush to Ballot Box at Noon—Count Will Be Finished Tonight.

As previously announced the contest for Most Popular Captain closed today at noon. This contest which has been running for the past three months has created a great deal of interest and enthusiasm among the friends of the Captains. The partisans on all sides have been divided among all classes and ages of people; little friends of the jovial pilots of our island fleet have been among the most active in gathering votes for their favorites while staid business men and capitalists thought trying to hide their enthusiasm have but partially succeeded as they subscribed for four or five copies of the paper for various parties and deposited the coupon attached to with a satisfied smile of confidence in their favor.

The contest has been extremely close up to the last day between the two men who have been leading the race almost since the start. First one and then the other would take the lead and when Captain Cameron on Saturday jumped in a first place with a lead of about 300, the excitement ran high. Votes have been pouring in since Saturday morning and the task of those counting the votes this noon has been far from easy.

Messrs. Paris, Craft, White and Cross were kind enough to undertake this, and have been sorting and counting ever since the close of the contest at noon, while an interested crowd has filled the office to watch the progress of the count.

So many votes have been cast that it has been impossible to get the final result before the time for going to press. The result up to 2:30 o'clock is as announced below. The final result will be announced in to-morrow's paper. The votes were sorted before being counted, and none but those of the two leaders have been counted as yet. It will probably take all afternoon to finish the count.

Table with 2 columns: Name and Votes. Includes Captains Cameron, Simerson, Clarke, Bruhn, Pederson, McDonald, Tullett, Freeman, McAlister, J. Dower, Samson, and Parker.

WOOD STILL PRESIDENT

2 p. m.—Several cases of sickness in different parts of the city are being closely watched by the faculty. One is that of Sarah Lee in Ah In lane, Palama. Others are withheld from publication to prevent stampedes of neighbors. None are absolutely suspicious of being plague. In one instance a person gave notice of sickness in a neighbor's house. Reference to the district inspector's book showed the case to be attended by a physician, while three physicians altogether had patients in the same yard.

At this afternoon's meeting Dr. Wood will propose Dr. C. L. Garvin for medical executive officer of the Board of Health. This appointment was forecast in the Bulletin on Saturday. Dr. Wood will retain the presidency of the Board for the present, but states he does not desire the position permanently.

The petition of denizens of the Drilled camp will be presented to the Board. Dr. Wood is not inclined to support it. He says the people have paid nothing for their board and lodging, although it was an understanding that they should do so after their quarantine period expired. Some of them could have lost his employment from detention, because all were allowed freedom throughout working hours.

As to the abandonment of Kalihi camp, the only delay will be from there being some of the inhabitants who have eight or nine days of quarantine to fulfil, besides which they are 30 to 40 patients in the hospital there. The camp is to be abandoned on account of the cost of keeping such a large place. Battery camp is ample for present needs.

MINISTER PROVIDES FUNDS.

Andrew Brown, Superintendent of Water Works, wears a special smile today. Minister Young has advised him that he will himself advance the money for continuing work on the Kalihi pumping station until President McKinley has approved the appropriation of funds. The pay roll for the works amounts to about \$2500 a month.

BRIEF HISTORY.

The majority of fashionable people of Honolulu rather buy their hats in Iwakama's Hat Department than anywhere else. The Evening Bulletin, 25 cents per month.

Expenses for Court of Claims on Requisition

A regulation will be presented by the Executive to the Council of State this afternoon for \$20,000 to pay the expenses of the Court of Claims. Of this amount \$15,000 will be for pay of Commissioners and subordinate officers, and \$5,000 for pay of counsel by the Attorney General's department, all according to this schedule: Five Commissioners, \$10 a day each; three Inspectors, \$5 a day each; one Junior and Messenger, \$10 a month; Counsel for Attorney General, \$500 retaining fee and \$7 for each case adjudicated.

THE SEWERAGE CONTRACT.

The Minister of the Interior was authorized by the Executive Council to award the contract for laying the sewer pipe to Vincent & Baker at their tender of \$151,560.93. This is \$58,800.08 lower than the highest bid, by Victor Hoffman, and \$21,938.93 higher than the lowest bid, by Schmidt & Blake, who asked for ten months to complete the work. It is the matter of time that caused the discrimination. The Council had received a strong letter from the Board of Health, urging the utmost expedition in having the sewerage completed. There are some, however, who assert that the pumping machinery will be far behind the pipe laying in completion.

OTHER BUSINESS.

The Council decided to ask the Council of State for \$2500 for further maintenance of relief camps No. 1 and 2. Henry Zerba's petition for arrears of salary for custom house service was referred to the Legislature. The petition of 800 or 900 Japanese for remission of personal taxes, on account of their reduced circumstances through sanitary fees, was, under an opinion of the Attorney General, decided to be impossible of granting on account of the present law on the subject and the lack of power of the Council of State to amend the law.

Closing Kalihi Camp.

Superintendent J. D. McVeigh has been notified to close Kalihi detention camp forthwith. All people that may hereafter be ordered into quarantine from infected houses or districts will be sent to Battery camp.

Pending action on a petition from thirty white men and twenty Japanese to be allowed to remain at the Drilled camp, Dr. Wood gave an order to Superintendent Boyle this morning to delay the eviction of the inmates of that refuge. The Board of Health is likely to act on the petition this afternoon.

THE COURT OF CLAIMS

Members of Court A: Published in Bulletin of Saturday.

An Executive Order Gives Information Regarding Conduct of Court and Manner of Presenting Claims.

As published exclusively in the Bulletin of Saturday, the membership of the Court of Claims for adjudicating losses by the sanitary fires consists of: J. Alfred Magoon, president, Geo. A. Davis, Lorrin Andrews, A. Noa Kopolikal and Albert F. Judd, Jr.

President Dole has issued an executive order, by virtue of the authority vested in him by President McKinley, setting forth the "limitations and principles" of the tribunal, which is designated as the "Court of Commissioners." In the title of the order and the beginning of the text, and appointing its members as stated, "to take evidence of losses caused by the burning of Chinatown in Honolulu, either by the direct orders of the Board of Health or incidental thereto, and to make awards and payments on such losses." In the last paragraph the title of the Court is changed, thus: "The title of the Court shall be 'Court of Claims for Losses Caused by the Board of Health in the Suppression of Bubonic Plague.'"

The Commissioners are to take an oath to support the Constitution of the United States and of the Republic of Hawaii. The Court shall have a seal with such device as the presiding officer may order.

Establishment of the Court is not admission of Government's liability, which has to be proved in each case. The Court has exclusive jurisdiction on Chinatown losses, and there will be no appeal from its decisions.

Claims for speculative or consequential damages, or loss of rents or profits, etc., will not be considered. A majority of Commissioners forms a quorum, but at least three must concur in a judgment.

A clerk is allowed under \$1,000 bond. The court may also employ one or more stenographers, a law clerk and a janitor. It may make rules for itself. Vacancies, permanent or temporary, shall be filled by the President of the Republic of Hawaii.

Claims may be filed until June 1, 1900. The Court shall hold one session, to begin as soon as practicable and continue as long as necessary for the prompt disposition of its business, but brief adjournments may be made from time to time.

Commissioners and officers of the Court shall receive such pay as the Council of State may provide. No claim is to be considered which is pending in any other court or department or legislative body, either by suit, process, plea of petition. Claimants as well as attorneys may prosecute claims.

Claims shall be filed in duplicate, one copy to be furnished the Attorney General. They are to be heard in the order received, unless for special reasons the Court rules otherwise. Claimants will pay no costs but those for entering their own witnesses. A deposit of \$20 must accompany each claim.

No claim shall be heard within ten days after it is filed except under agreement. The other regulations are largely those applying to cases in the law courts. It is desired by President Dole that the Court shall require clear and detailed evidence, and promote such simplicity in the proceedings and trials as shall favor fair and prompt adjudication of the claims submitted.

The Orpheum.

The Orpheum presents this evening an entire change from last week in the shape of a very unusual program called "The Original Georgia Minstrels," being practically a vaudeville performance in the full display of all the separate and combined talents of the company. The songs will be new, the choruses new, the stories new, while Hogan will dig down in his humor mine for fresh comicallities. The closing act will be one which made an unusually big hit in Australia and is entitled "The Blackville Truel." Hogan is said to be funnier than ever as one of the fire eating principals. In view of the heavy advance call for Uncle Tom's Cabin, the seats for Thursday night will be placed on sale Tuesday morning.

WHARF CONTRACT AWARDED.

The Oahu Railway & Land Company today gave a contract to Cotton Brothers & Co., contractors for United States harbor works now in progress, to construct a wharf on the company's property. The wharf is to be 400 feet long by 50 feet wide.

BARK SEMINOLE LIBEL

Capt Taylor Claims Suit Should Be Against Himself Personally.

Marshall Habas Corpus Case Being Heard—General Probate Cases—Will Cont'd on Trial—Sunday Papers Filed.

C. Kapali, administrator of the estate of Hana Haeo Kapali, w. deceased, has filed an inventory showing property, mostly real estate, valued at \$1205.

Robertson & Wilder for defendants file both a demurrer and a motion to dissolve injunction in the suit of Lum Ah Lee and others against Ah Soong and others for water rights in Manoa valley. They allege that neither the land nor the water in question can be located from the description in the complaint.

Chapman Taylor, master of the bark Seminole, by his attorneys, Humphreys & Andrews, files exceptions to the bill of Sam Purshima against his vessel for false imprisonment. He alleges that no stipulation for costs has ever been filed, that the libel shows on its face that the tort complained of is not a maritime tort; that the proceeding, if cognizable at all, an admiralty should be in personam against the master and not in rem against the bark, and that the matters alleged in the libel are not cognizable by the Circuit Court in the exercise of its admiralty and maritime jurisdiction. Judge Perry will hear the exceptions tomorrow afternoon.

J. A. Magoon, Kinney, Halpern, Clananah and E. M. Hatch for plaintiffs file a notice of motion for day for hearing, addressed to Geo. D. Gear and Geo. A. Davis, attorneys for plaintiff, in the equity suit of Sarah A. Berger vs. Chas. W. Booth and Chas. S. Desky.

J. M. Vivas, attorney for plaintiff in the assumpsit suit of V. Vaanocelos vs. James Dodd, files a motion to substitute Rebecca A. Dodd and R. W. Cathcart, executors of the will of James Dodd, deceased, as defendants.

Acting Judge Billman was hearing the Holoakalihi will contest this morning. Kane for proponent; Kanakua for contestant.

All the evidence has been taken in the suit of Mrs. Gomez for her husband's death benefits against the Portuguese Benefit Society, and Judge Perry will hear argument as soon as he has opportunity.

The Supreme Court was engaged this morning in hearing the W. H. Marshall habas corpus case. Judge Perry was sitting with Justices Foster and Whiting. Deputy Attorney General E. P. Dole represents the Republic, and J. T. De Bolt the petitioner.

Acting Judge Billman admitted the will of Catherine Morgan to probate and appointed Jas. F. Morgan executor under \$200 bond, his co-executor Edward J. Morgan having renounced his appointment.

DISAPPOINTED DEMOCRATS

Failure Follows Their Attempts to
Discredit Republicans.

Porto Rico Matter to Be Promptly Settled—
Nicaragua Canal Treaty Likely to Be
Passed With Proper Amendments.

[Special Correspondence.]

Washington, D. C., March 18, 1900.
—The developments of the week proved
disappointing to Democratic lead-
ers who hoped to gain temporary ad-
vantages from the discussion within
the Republican regarding lines of pol-
icy with reference to the islands which
we have come into closer relationship,
and especially Porto Rico. While the
Porto Rican matter has not been
finally adjusted, it is probable that it
will result in the adoption of a Porto
Rican tariff which will be merely a
tariff in name, and turn over to the
Porto Ricans the trifling sums which
may be collected on a few articles, thus
adopting practically the original propo-
sition of the President and at the
same time preventing the establish-
ment of a precedent by which Democ-
rats can assert or demand that the
Republican policy shall be one of free
trade with all non-contiguous terri-
tory over which we may have control
at any time, and by that process bring
the labor of those islands into compe-
tition with the agricultural and other
producing and laboring classes of the
United States.

Another disappointment to the Democ-
racy has been the recent and quite
unexpected development by which the
United States has been able to tender
its good offices in bringing about peace
between the Boers and the English
Government. That there has been a
desire on the part of all interested to
see this accomplished has been well
understood, but that it would have
been not only inadmissible under
rules of international procedure to
have done this until the recent develop-
ments which made it practicable, is
equally well known and well under-
stood by all who are familiar with the
subject; and those who were clamoring
for it were simply doing so for the
purpose of embarrassing the Adminis-
tration and of making political capital.
The moment, however, that conditions
made such action proper and possible,
the action was taken.

Still another disappointment to
Democrats is the fact that the Nicar-
agua Canal matter is likely to be ad-
justed in a way which will prove en-
tirely satisfactory to all the parties
concerned, and encourage immediate
action on the part of Congress and an
early commencement of the work.
While the treaty is still under con-
sideration in the Senate, it is quite
probable that it will be confirmed with
such trifling amendments as to ob-
viate whatever objection has been of-
fered by any except those who object
merely for political purposes and to
find fault with the Republican party.

A gratifying development of the
week has been the announcement by
the Treasury Department of the de-
tails of the foreign commerce during
the month of February. This shows
that our export trade continues to grow
with amazing rapidity and that the
February exports are not only larger
than those of any preceding February
in our history, but such as to insure
the year's export figures the highest
place in the record of our rapidly in-
creasing and prospering foreign com-
merce, which only began to show a
balance of trade in our favor when the
Republican system of protection be-
came a permanent feature of our na-
tional policy.

The bill providing a form of govern-
ment for Hawaii was under considera-
tion in the Senate for ten days before
its final passage. It is believed the
measure will fill all existing require-
ments of our new territory with satis-
faction to both the islanders and our-
selves. Some changes and modifica-
tions may be found necessary at a sub-
sequent date, after experience has
shown what will be most effective and
just, when put into practice.

A net cash balance of \$301,287,656,
in the United States Treasury at the
close of business last month was in
striking contrast with the gross defi-
ciencies that used to be exhibited un-
der the last Democratic Administration.
Then it was a case of borrow,
borrow, borrow. Now we have a com-
fortable surplus stored up against a
rainy day and are lending money in
Europe instead of seeking it there at
exorbitant rates of interest.

rience, King Bros. claim first

MONDAY.....APRIL 2, 1900.

Notwithstanding the superior advantages of the official organs for obtaining official news, the Bulletin published the appointments to the Court of Claims forty-eight hours before all contemporaries. "Tis ever thus. If you don't read the Bulletin you don't get the news."

When is the Hawaiian Government to make an effort to furnish money for the proper administration of the Customs and Post Office departments? The authority for such action has been given. Are the interests of the business community to be completely set aside in all matters with which the Executive is connected?

In the organization of the Board of Health, the authorities cannot afford to drop the name of J. D. McVeigh from the list of important officers. In the ordinary work of the Board and in time of epidemic Mr. McVeigh's splendid executive ability and untiring energy have placed him as the strong right arm of the Health authorities.

Hilo has set the pace by calling a meeting to consider ways and means for properly celebrating the Fourth of July. Honolulu will do well to begin its preparations early in the day. How many times has the firework committee reported that there is no time to send to the Coast for proper combustibles to uphold the glory of the day. Take a line from Hilo and begin early.

According to the executive order of Mr. Dole, the Court of Claims is "to take evidence of losses caused by the burning of Chinatown in Honolulu, either by direct orders of the Board of Health or incidental thereto, and to make awards and judgments on such losses." Is the public to infer that this Court is to give exclusive attention to Chinatown? What becomes of the losses by fire outside that district? Does the government accept full responsibility for all other losses suffered from Board of Health fires?

On what basis Mr. Dole made his selections for the Court of Claims is a mystery, and the more the public studies the demands of the situation, the more the mystery deepens. Mr. Dole is unquestionably a believer in the adage that the little ones should be given a chance. Taken as a whole the Court is not representative of the tried and proved ability in legal circles or among business men. It represents the local Executive's ability in making appointments. As such it will stand and there has yet to appear evidence to indicate that the people consider the Court with favor. Mr. Dole has passed over the heads of the business men completely and apparently delved in kindergarten politics as usual.

REPUBLICAN ORGANIZATION.

Private notices having been sent out that there will be a meeting of "the Republican party of the Hawaiian Islands" on Tuesday evening in Murray Hall, it appears that some of the citizens of Honolulu believe that the time for political activity has arrived. Active work in the interests of the Republican party in season and out is to be commended. Every effort, however, should have for its first aim the success of the party at the polls, hearty co-operation among all the islands of the group and the elimination of any and all elements of strife, possible at all times and in all parties.

There is now and has been for some months past an honest difference of opinion among the Republicans of the Islands as to the proper time for organization. The prevailing sentiment in Honolulu, backed by the advice of Senator Cullom and Congressman Hitt while here and later by the suggestions of the National Republican committee, is that no movement toward party organization shall be made until the territorial law has passed and Hawaii's standing in the Union is established. On this basis the enthusiasts were voted down at a meeting held some months ago. That meeting was properly called, opportunity given for full discussion and the result is practically binding upon the Republicans of Honolulu until such time as the governmental organization of the Territory shall have been established.

The Bulletin believes in party organization, Republican party organiza-

tion. It also believes that no party movement should be inaugurated which is in practical opposition to the advice of national party leaders. It is also conversant of the fact that although clubs may organize under such names as they please, the only Republican party organization that will receive recognition from the national committee is the organization formed by delegates from all the islands of the group at a territorial convention to be called at such time and in such a manner as may be advised by the national committee. Mr. Hartwell found this to be the fact when he called at the Washington headquarters of the committee.

Any organization formed in Honolulu under the title "the Republican Party of Hawaii" will very promptly have its authority questioned from Hilo, where the first Republican club of the Islands was formed and still exists. If Mr. Shingle, who holds certain authority from the League of Republican Clubs—an organization secondary in political importance as compared with the national organization—were to turn over his authority to any single club in this city or in Hilo such action will be found a source of strife and opposed to every principle of Republican party organization. Such an action would be considered traitorous to the party and the League of Republican clubs. No individual club should request such action.

The Republican party is a party of the people and the organization of Republicans in these Islands will have strength locally and with the national committee according as it possesses authority obtained from delegates from every district from Hawaii to Kaula. No one can question the right of individuals to organize at the present time. The advisability of such action is open to question.

CHEAP AT \$20,000.

It is stated that the contractors who promise to complete the sewer system four months ahead of their competitors place their contract price \$20,000 higher than bids made by other firms. Time is the factor of first importance in the consideration of completion of Honolulu's sewer system, and it stands to reason that the gain in time can only be obtained at an increased expense. In this instance time is gained at an expense of \$5,000 a month.

In view of the fact that upon the early completion of the sewer system depends the success of the authorities in conquering the plague there can be no question as to the advisability of paying the increased price for prompt work. The plague is not only costing the government more than \$5,000 a month, but the direct loss to taxpayers through the continued quarantine is far above that figure. A gain of four months in the completion of the sewer system might well be considered cheap at twice \$20,000. This is no time to hesitate or delay. Business conditions throughout the group which effect every taxpayer of the Islands demand that this work be finished at the earliest possible day. It is merely a question of whether the people are ready to stop a drain on the public treasury of \$50,000 a month by the payment of \$5,000.

The Unfortunate Break.

Scarcely had the eighth day clear of plague been entered when a decided case appeared. This was late Saturday afternoon, when Dr. Camp reported strong suspicions of a patient of his, Catherine Sullivan aged 13, daughter of the late Timothy Sullivan and stepdaughter of T. F. Hope, was the unfortunate person. She died the same night, and an autopsy by Dr. Hoffmann resulted in the cause being declared plague. The home of the girl's parents at School and Liliha streets was promptly put under guard and all the inmates were removed to quarantine.

Plague in Colonies.

At Sydney the sanitary inspection resulted in finding that the Chinese quarters were in good sanitary condition. Merchants protested against a proposal to lighten freight as being more dangerous, on the rat account, than for steamers to come to the wharves. It was suggested that steamers come within four feet of the wharves, with tarred tenders and moorings to prevent the transit of rats either way. There was a proposition made to quarantine a certain wharf where food produce was landed. M. Charbonsan, a member of the local parliament and of the municipal council, was a victim of plague at Noumea, capital of the French colony of New Caledonia.

Leon Riester, who has been the manager of the Mauna and Laupa Coffee plantation since the resignation of P. Peck, last year, will leave for the Coast via Honolulu by the next Kinaw. Mr. Riester goes to Buffalo, N. Y., which is his native town, to assume the position of engineer in charge of the machinery at the Pan-American exposition to be held there.—Hilo Tribune.

MONEY FOR YOU. NEW BOOK BULLETIN

This will interest you if you are a Descendant of any one of thousands of foreign families whose money or estates are in chancery.

WE HAVE

A complete list of persons who have left money or estates to the value of

\$388,468,845.

The heirs of which are now supposed to be in the United States but whose present whereabouts are unknown. You many have money, heirlooms, or estates

WAITING FOR YOU.

It is not surprising that in a population so vast and among a people containing families which can trace back their ancestry for centuries, that even with families of no note the ramifications are extraordinary, the ties of relationship often varying from Peers to Peasants, though all springing from one tree. The announcement that there is nearly \$400,000 in money and estates going a-begging sounds a little extravagant but it will not appear so extraordinary when it is remembered that the amount is based on a registered alphabetical list of persons who have been advertised for all over the world since the beginning of the century, including ancestry heirs, next of kin, and legatees of persons who have died intestate in Great Britain, Europe, America and the British colonies. The main sources of unclaimed monies are: unclaimed dividends on Government stocks; dormant funds in chancery; Army and Navy Prize Money; Estates of persons who have died intestate without known next-of-kin; unclaimed dividends in bankruptcy; general unclaimed dividends and unclaimed bank deposits. We are also prepared to furnish certificates of Births, Deaths and Marriages and official Crest or Coat of Arms of your family

REMEMBER

We are the only firm in America who make a specialty of establishing claims of heirs-at-law and next-of-kin.

WE ASK NO FEE

Until claim has been settled. Enclose five cent American stamps or ten cents in silver for mailing, wrapping, etc., and we will send you a book containing full information FREE. Write and see if you are among the lucky ones. Address

NOVELTIES IN NECKWEAR

ARE AMONG THE TIMELY THINGS of the new year. Never in the history of neckwear has there been so many varieties made of the very choicest silks. Pattern designs are characteristics of these new makes. String Ties, Puffs, Scarfs, Four-in-Hands, English Squares and many other of the latest patterns are to be found in our stock. A fine article of neckwear has become a necessity to him who would be well dressed. No part of his dress is more conspicuous, and when the best can be bought for what inferior goods cost, NO ONE SHOULD PASS BY THE BARGAINS WE ARE NOW OFFERING.

The New Year Begets New Things

FOR THE BOYS. Have you ever stopped to think what a difference there is in the makes of boys' clothing? Many suits are bought because the price is low. It is not the price that governs the purchaser, as I do not the quality or the substantial makes. This theory seems to be based on the idea that any kind of a suit is good enough for a boy, as he will soon wear it out. That is not good economy, for if you could pay a little more, and consider quality and make, you would have a suit for the boy that would always look well and wear two suits of the inferior grades. Buy the best is money in pocket; to buy the poorest is money wasted. We make a specialty to keep the best at popular prices.

HILLO'S NEW BUILDING

Hilo, March 29.—W. C. Peacock & Co., Ltd., have the honor of being the promoters and owners of the first brick building on the Island of Hawaii, Hilo the distinction of the locality, and Contractor A. Richey of building it, from plans drawn by Architect Tra-phagen. And no complaints are heard from anyone for the part taken in it, for the building is a credit to Hilo as it would be to a city many times its size.

The structure has a frontage of 65 feet on Waiuanue street, and 150 feet on Bridge, and is of two stories. There are three stores on Bridge street, each 21.5x40.6; on the corner is a room 57x30 which has been handsomely fitted up by the First Bank of Hilo, Ltd., for its use, and on Waiuanue street is a store 22x57. Under each store is a separate cellar with high ceiling and each store is provided with private lavatory. The second floor is reached by a broad stairway from the tiled entrance on Waiuanue street.

On this floor there are eighteen offices. The design of the building is such that each store and office receives an abundance of light during the day. The rooms and halls are equipped with electric light fixtures of beautiful design. The lavatories are perfect in every way and fitted with modern sanitary appliances in the plumbing. Hardwood finish gives the interior of the building an appearance of solidity which is not deceiving. The prices fixed for rental of the different rooms and stores is placed so low that it is not surprising that so many applications have been made for them.

Aside from the corner occupied by the First Bank of Hilo, Ltd., but one store is so far in use—the end one on Bridge street, to which the Hilo branch store of W. C. Peacock & Co. moved last week.—Herald.

THEOSOPHY WORK IN INDIA
 (Continued from page 1.)
 one knew my name and had read my
 works, which are very kindly received
 and appreciated; so that I am certainly
 much better known and more highly
 considered as a student of Theosophy
 in India than in America. "No one is
 prophet in his own country."

The most amusing part of my popu-
 larity was, however, that numbers of
 Hindus came to consult me and ask my
 help on knotty points of their own re-
 ligion; because from the fact of being
 a Theosophist and a writer on Theoso-
 phical subjects, I am supposed to know
 everything!! Apart from endless
 private interviews, I had to give them
 a lecture on the symbology of the
 Theosophical seal—which took so well
 I was asked to enlarge it and have it
 printed; and also to hold forth at a
 special question meeting, in which I
 was pleased to hold my own quite well
 until the arrival of Mrs. Besant, who
 came to my relief.

Mrs. Besant Lectures.
 Mrs. Besant, in spite of her being
 hardly convalescent from a severe at-
 tack of malarial fever caught in the
 north provinces of India, whence she
 came to Madras, gave the convention
 four splendid lectures on subjects es-
 pecially dear to the Hindus, that of
 "Avatars," or manifestations of the
 Divinity in all religions through some
 special incarnation under human form,
 such as Jesus for the Christians, Bud-
 dha for the Buddhists, etc. When the
 convention was over Mrs. Besant left
 for a lecturing tour through South In-
 dia, after which she returned to Ben-
 ares with the intention of leaving for
 Europe in April. She will be present
 at the great Theosophical Congress
 that has been arranged for the Paris
 World Exhibition, and after lecturing
 in various parts of Europe, she intends
 to return to Benares for the next De-
 cember convention, after which we
 hope to have her make a tour of Aus-
 tralia.

Glott Coming to Honolulu.
 It has been a great privilege to me
 to make the personal acquaintance of
 the great American citizen Colonel
 Glott, to whose initiative we owe the
 foundation of the Theosophical Society,
 and to whose great executive ability as
 president is due the vitality and the
 present prosperous condition of our
 society. He, also is going in February
 for a lecturing tour through Europe,
 after which he will go over to America
 and will return to India by the way of
 Honolulu and China. He will prob-
 ably be in Honolulu some time during
 November next.

Theosophical Headquarters
 The general headquarters of the So-
 ciety are at a place called Adyar, about
 eight miles from Madras. They are
 established in an estate of about 28
 acres, with a palatial residence, in
 which there is room for the various
 officers and helpers for two large li-
 braries (one of Western Theosophical
 literature, the other of rare Eastern
 works.) There is also a hall for meet-
 ings, recently enlarged but which has
 already proved too small (in which a
 life-size and very resembling statue
 of Madame Blavatsky was duly un-
 veiled.) Nearly 2,000 people, this last
 time, were jammed into space fit for
 about 1,200. Even the Governor of Ma-
 dras, with his wife, Lary Havalook,
 and their suite, could hardly reach
 their seats. I was supposed to have
 a reserved seat as an officer of the T. S.,
 but found it more convenient to
 give it up to half a dozen notable Hin-
 du judges and officers and stand on a
 door step. And to show the eagerness
 of the crowd, I must add that although
 the meetings were announced for 8 a.
 m., by 7 o'clock every morning the hall
 was already overflowing; and as Ad-
 yar is so far from Madras, that most
 have meant that many in the audience
 must have started about 4 in the morn-
 ing in order to be among the first to
 get in.

One of the most notable results of
 the T. S. is the realization of the Uni-
 versal Brotherhood in those same
 crowded meetings, in which every re-
 ligious creed, as well as nationality,
 was represented, and in which, stran-
 ger still, the iron fetters of caste, yes,
 so powerful in India, were set aside in
 the common aspiration after truth. It
 is well known how Brahmins, for in-
 stance, never allow close contact be-
 tween themselves and lower castes
 let alone never shake hands, but do
 not allow themselves to pass in the
 shadow of an inferior, for fear of con-
 tamination; and yet, in our meetings,
 they just crowd one into another, leav-
 ing caste distinctions at the door of
 Theosophy.

The Society has been the means of
 starting schools, and even a large col-
 lege, which will soon grow into a
 university; and of helping tens of
 thousands of Hindu boys and girls, too,
 to attain a liberal education.
 In Ceylon I had the pleasure of meet-
 ing Mrs. M. Connavry, who has de-
 voted her life to the help of the Singa-
 lese Buddhists. She has had to con-
 tend against many difficulties and
 jealousies but now she has fairly over-
 come the annoyances and is at the head
 of a school which is getting rapidly
 popular, though not any more than is
 deserved by her abnegation and self-
 sacrifice. She is helped by a number of
 equally sacrificing ladies—Singalese,
 Australian and English.
 For boys nearly every village in Cey-
 lon has a school under the supervision
 of the Society, and altogether over 20,
 000 boys owe their tuition to our So-
 ciety.

SOMETHING NEW!
 We have received from Edison's factory
 an Electric Lamp for bed-room use which
 is going to prove invaluable. By means
 of a regulating screw the light can be
 changed from a dull red glow to full
 candle power. When retiring the lamp
 can be so turned down as to burn all night
 at little cost, and by means of the screw
 can instantly be turned on full power
 it will be found a great convenience in the
 side room or the nursery.

For the Island Trade.

San Francisco, March 23.—The auxiliary schooner Eclipse, which is to sail shortly for Honolulu, has the largest gasoline engine aboard ever built in the United States and probably in the world. It was built by the Hercules Gas Engine Company and is a three-cylinder vertical type of 150 rated and 178 actual horse power. Coming down from Benicia the schooner made six knots against the tide and with the engines running only half power.

The Eclipse is a sister boat to a two-cylinder vertical engine and hoist, with connections to capstan, which will handle cargo, sails and anchor. The Eclipse is a sister boat to the Surprise, which was also fitted with a Hercules engine. Both vessels are for the inter-island trade and will carry sugar from the various plantations to Honolulu.
