

HEARING OF WRIGHT BEGINS

DEFENCE WILL RELY ON TECHNICAL POINTS

PROSECUTION BRINGS UP MATTER OF THE HAWAIIAN ELECTRIC COMPANY CHECK AND WITNESSES EXAMINED.

When the case of B. Haywood Wright, charged with embezzling public funds was called in the police court this morning, C. W. Ashford asked for information as to the presence of J. H. Boyd, and Manuel Cook from the Interior Department stated that he had not returned. Attorney Ashford submitted that the defendant being fully secured, there was no prejudice to the government, and asked for a postponement.

Mr. Douthitt submitted that an oral motion was not the legal method, and suggested that an affidavit should be filed that a material witness was absent, also stating the probable testimony of that witness.

Mr. Ashford rejoined that the custody of the money in the department was in Mr. Boyd's charge and his presence was vital. He declined to file the affidavit.

Judge Wilcox denied the motion for postponement on the ground of failure to file an affidavit. C. W. Ashford submitted subpoenas to the judge for witnesses necessary to the defense. The court then continued the other five cases on the docket until nine-thirty on Monday morning.

The Attorney General called A. Gartley, manager of the Hawaiian Electric Company to the stand. Ashford objected to a question as to the company being a corporation and submitted that the evidence must be in writing. This was sustained and the books and other evidence sent for. The check representing the franchise percentage due the government was brought up and showed to the witness. Mr. Ashford objected until the paper had been submitted to him and then objected to its going in evidence as no proof was shown that the check had been paid.

The Attorney General stated that the proof would be forthcoming later. Mr. Gartley stated that the paper was a check, signed by him and drawn on the Bank of Hawaii for franchise royalty of 2 1/2 per cent on certain monies of the gross income by the Hawaiian Electric Company, Limited, for lighting and power in accordance with a contract entered into by the Department of Public Works. The check was in favor of the Department of Public Works for \$2289.53 and endorsed as paid.

Mr. Ashford wanted the contract forthcoming. Mr. Douthitt submitted that the statute as shown in the civil laws was sufficient evidence. The check was then read and submitted as evidence. B. H. Wright, chief clerk of the Department of Public Works was the endorser.

Mr. Ashford brought out the point that the witness had not personally delivered the check.

Walter S. Binley, bookkeeper for the Hawaiian Electric Company, testified that he had made out the body of the check and delivered the same, after signature by Mr. Gartley, with a voucher, produced by the witness, to B. H. Wright, who signed the voucher in his presence. The witness corroborated Mr. Gartley's testimony as to the purpose for which the check was drawn.

Frank Atherton, assistant cashier of the Bank of Hawaii, Ltd., would not swear to the identity of the check beyond the best of his recollection. Asked whether a check of that amount was paid Attorney Ashford objected and the question was changed to "that particular check." Witness stated that the check bore the official stamp of the bank and had been paid by them. Witness was familiar with the signature of Mr. Wright and knew it as his. Ashford again objected that witness had not proved his ability as an expert on writing. The check was cashed but he could not swear as to whom

Professors, Lantana And Insect Grubs

Professor Perkins of the entomologist's office yesterday received a long letter from Prof. Koebele who is in Mexico, giving a very hopeful view of the lantana enemy situation. Prof. Koebele is making his headquarters in the City of Mexico from where he makes extensive excursions into the country in all directions and to considerable distances. He finds that the lantana in Mexico has a great many enemies which check its spread. It cannot be foretold with precision which of these will be effective in Hawaii, and hence experiments with many of them will be necessary.

The dry season in Mexico has up to the present prevented Koebele from securing these insect enemies of lantana in large quantities. But now the rainy season is beginning and the lantana like all other vegetation is springing up affording lodging and breeding place for more of the pests and enabling them to be secured in larger quantity. In shipment from Mexico here a great many of those sent die. After they arrive here they have to be propagated and transferred from the Mexican lantana in which they come to Hawaiian lantana, and in the process to be freed from the fungus and other enemies which kill a very large proportion of them. In this process not more than five per cent of those sent from Mexico survive. So that the process of securing a sufficient number of the various lantana pests to turn loose and make a start against lantana is a laborious and difficult one. Nevertheless Prof. Perkins has turned loose pests in two places, one near the sea level and the other higher up in the mountains.

Prof. Koebele expects now to be able to send the pests in such quantity that greater headway will be made in the lantana campaign.

JUSTICE DEALT OUT BY WILCOX

JAPANESE WITH CHINESE NAME FINED FOR ASSAULTING A WOMAN—QUARREL OVER A BOARD.

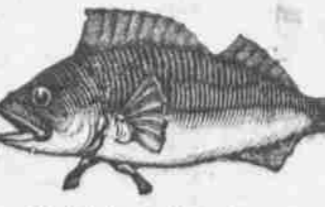

This morning's docket at the police court showed eight cases only for prosecution. These, with the exception of one, presented an average array of misdoings. There was one drunkenness case, a vagrancy case, a "Peeping Thomas" assault and battery, headless driving and violation of carriage regulations.

The exception was the cause celebre of B. H. Wright, late chief clerk of the Public Works Department. His name headed the list, charged with embezzlement, and the expectation of his preliminary hearing being taken up brought many witnesses and spectators to the court room of a class unusual in the general make up of the scene.

J. Keenani was first called for having looked too often and too long in the convivial glass and was promptly dismissed with a fine of \$2 and \$1 costs. Lul Choo, a Japanese with a Chinese name, came up on a continued hearing charged with assault and battery on Mrs. R. McInerney. He had retained the services of D. H. Case as counsel, Frank Andrade appearing for the complaining witness. A diagram of the scene of the affray was produced and shown to various witnesses. The story of the first witness, a Japanese, ran in this wise. The complainant and the defendant were both pulling at a board or post, presently the latter let go and the complainant fell back. There was a dispute as to the ownership of the board. Cross examination endeavored to show that the defendant did not merely let go the board, but jabbed it forcibly at the stomach of the complainant with intent to do her bodily harm.

A fine of \$25 and costs was finally imposed.

JUDGE DE BOLT TAKES HIS SEAT ON THE BENCH

OATH OF OFFICE ADMINISTERED BY CHIEF JUSTICE FREAR. ROBINSON INTRODUCES HIM TO THE BAR—COMMISSION READ.

Judge John Thomas De Bolt formally took his seat on the bench this morning as First Judge of the Circuit Court for the First Circuit, Territory of Hawaii. The ceremony was a simple one. At 9:30 o'clock Mr. De Bolt took the oath of office before Chief Justice Frear in the latter's chambers, the oath being administered by Chief Justice Frear himself. There was no ceremony about this the Chief Justice simply reading the form of the oath and the new circuit judge assuming the obligation of it. The oath was then signed and filed with Clerk George Lucas. Judge De Bolt remained with the Chief Justice in the latter's chambers until 10 o'clock when escorted by Judge Robinson and Judge Gear he took his seat on the bench in Judge Robinson's court room, at the left of Judge Robinson, Judge Gear being seated at the right. As soon as court had been formally opened, Judge Robinson said: "Gentlemen of the Bar, it gives me great pleasure to announce that I hold in my hand the commission and oath of Judge John T. De Bolt as First Judge of the First Circuit court. They will be read by the clerk."

Clerk Simonton then read the commission and oath, whereupon Judge Robinson said: "Gentlemen, it is my pleasure to introduce Judge De Bolt." On this the members of the bar rose and bowed to the new judge. Responding to the introduction of Judge Robinson, Judge De Bolt said, "I have very little to say at this time except to express my appreciation of the kindness and confidence toward me and in me displayed by the members of the bar and the business men of Honolulu in asking me to accept the appointment of Judge. I shall hope with the assistance of the bar and of the community to carry out the promises of the oath I have just taken and to merit the confidence expressed by the President in the commission which you have just heard read."

Judge Robinson and Judge Gear then shook hands with Judge De Bolt tendering him their congratulations and good wishes. Judge Gear then withdrew to his own court room. Judge Robinson proceeded with the cases on the call of his court for the day. Judge De Bolt remaining for some time with him on the bench.

There were quite a large number of members of the bar present among them being W. O. Smith, F. M. Hatch, W. McCants Stewart, Wade Warren Taylor, Robert D. Mead, A. M. Robertson, John L. Kaulikou, Charles Creighton, P. D. Kellett, Judge Stanley, A. Lewis, Mr. Hemenway and a number of others.

Judge De Bolt's commission from President Roosevelt was in the usual form the president states the appointing official confidence in the learning and integrity of John T. De Bolt of Hawaii, he appointed him Judge. The commission like all commissions for recess appointments appoints until the end of the next session of congress, as when congress assembled the appointment is to be submitted to the senate for confirmation, when the appointment will be for the full term.

The oath taken by Judge De Bolt is as follows: "United States of America: Territory of Hawaii, ss. I, John Thomas De Bolt, of Honolulu, Territory of Hawaii, do solemnly swear that I will administer Justice without respect to persons, and do equal right to the poor and to the rich, and that I will faithfully and impartially discharge and perform all the duties incumbent on me as First Judge of the Circuit Court of the First Circuit, of the Territory of Hawaii, according to the best of my abilities and understanding, agreeably to the Constitution and the Laws of the United States; so help me God."

And I do further swear that I will faithfully support and defend the Constitution and Laws of the Territory of Hawaii against all enemies, foreign and domestic; that I will bear true faith and allegiance to the same; that I take this obligation freely, without any mental reservation or purpose of evasion; and that I will conscientiously and impartially discharge the duties of the office of First Judge of the Circuit Court of the First Circuit of the Territory of Hawaii, on which I am about to enter; so help me God. (Signed), John Thomas De Bolt.

SOAP AND TOWELS FROM DEPARTMENT OF JUSTICE

THE WIDE VARIETY OF ARTICLES SUPPLIED TO UNITED STATES MARSHALS—EVERYTHING FROM STATIONARY TO HANDCUFFS.

United States Marshal Hendry received a select assortment of supplies for his office and generally for the work of his branch of the Department of Justice, from the post office, this morning.

Under the rules of the Department of Justice, United States Marshals are not allowed to buy supplies except in cases of emergency, but they are supplied with them on requisition from the Department itself at Washington, those received by Marshal Hendry this morning coming in six mail bags. Of course the mail bags came through the mails on the regular rank, and therefore shipping the supplies cost the department nothing.

It was a varied assortment of goods that came in these six mail bags. There was blotting paper, writing paper pads of paper for memoranda, pens, pencils, ink, stationery, rubber bands, and all kinds of stationery supplies.

Then there were some things that would hardly be thought of by mere association of ideas with the Department of Justice. For instance there were towels and soap. The towels are of an excellent quality and good size, the words "Department of Justice" in large letters being woven into each end. The soap is Colgate & Company's white cream. Then there is toilet paper, handkerchiefs, and all the paraphernalia which marshals need in their business, except that their package contained no halter for hanging United States prisoners convicted of murder on the high seas, scuttling ship or any other of the crimes which by federal law are punishable by hanging and which hanging the United States Marshal, when such sentence is imposed, has to execute.

AUSTIN IS BARRED OUT

Auditor Austin was not permitted in his office today. Early this morning Officers McDuffie and Elvin were sent to the capitol with orders not to allow Austin into his office. They posted themselves in the hallway on the second floor at a point past which Austin must come to reach his office.

Austin arrived about 8:30 o'clock, he was stopped by the officers who informed him of the orders they were under. He asked them if it was their order to use physical force to prevent him from going to his office, they replied that it was, and that if he should attempt to pass them they would prevent him. Upon this he left the building and went down town to consult his attorneys. It was expected that he would return with them to enter formal protest or make some other presentation, but up to a quarter after twelve neither Austin nor his attorneys had returned, nor had the governor nor attorney general received any communication from them.

Deputy Auditor Henry C. Meyers took possession of the auditor's office this morning as acting auditor and is now in possession.

CLERK SUSPENDED

M. C. Amama, a clerk in the Tax office, has been suspended by Tax Assessor Pratt. Two Chinese claim that they paid taxes to Amama, but there is no record of the money being paid in. The Chinese have no receipts to show. To be on the safe side Mr. Pratt suspended the clerk, pending an investigation. Amama has been a trusted clerk in the Tax office for ten years and bears an excellent reputation.

BROUGHT OLD MACHINERY.

The steamer Noeau arrived this morning from her regular Hamakua run. She brought between 80 and 90 tons of old iron which composed the old mill at Kukuiahae. Considerably more of this material remains to be brought back on the next trip of the vessel. Captain Mosher was bothered about handling the material for it was very heavy, several of the pieces weighing three tons each. The vessel brought about 250 bags of sugar for P. A. Schaefer and company.

SENATORS READY TO DEPART

Launching of The New Ship The Arizona

The monster freight carrier Arizona of the American-Hawaiian steamship line, was probably launched at San Francisco last Saturday. Invitations to attend the launching ceremony at the Union Iron Works were received by C. P. Morse, the general freight agent of the company at this place. The new vessel was to be christened by Helen Percy Chesebrough.

With the launching of the Arizona, the present extensive fleet of the American-Hawaiian Company will be greatly enhanced in value and tonnage. She is a sister ship of the big Alaskan which was here some months ago and took the largest and most valuable cargo of sugar ever carried from this port.

The dimensions of the new Arizona are practically the same as those of the Alaskan. The Arizona measures 486 feet 5 inches over all, has a beam of 57 feet, a depth moulded of 25 feet and a hold depth of 22 feet. Her gross tonnage is 8,671.69 and her cargo tonnage, dead weight, 11,000 tons. She is fitted with twin screw quadruple engines.

There is little doubt that the vessel was launched on the date announced and the ceremony was no doubt, made a special occasion by the San Francisco shipping people and she is the largest vessel of the kind ever built by the Union Iron Works.

The owners of the vessel are reported to be considering the advisability of equipping her with oil burning apparatus. She is to be operated on the through route between New York, San Francisco and these islands. Considerable speculation is being indulged in as to whether the S. S. Nevada of the American-Hawaiian line reached San Francisco in advance of the Nippon Maru this week. The Nevada left here September 18 while the Nippon left four days later.

THIS FISH HAS SET OF TEETH

CAPTURE OF STRANGE MARINE FREAK—FULL SET OF MOLARS SAME AS HUMAN BEING.

There is a remarkable fish on the steamer Noeau. The fish was caught at Kukuiahae yesterday. At first glance, the fish would not seem any different from an ordinary good sized sea bass. An examination however discloses a startling condition.

The fish enjoys the unusual distinction of possessing a set of teeth almost identical to those of a human being. Instead of the row of fine teeth usually found in a fish of apparently the same character, this particular fish has incisors and molars that are well defined. On the upper jaw are sixteen teeth and on the lower sixteen. There are four incisors on each jaw. Even the wisdom teeth are there. The four front teeth are sharp, like the fangs of a dog and protrude from the mouth. They are not set close together like the teeth of a human being, but the wisdom and molar teeth are so set. The teeth are surrounded by well defined sets of gums and the fish was also found to possess a tongue very similar to that of a human being.

Otherwise there is nothing unusually about the appearance of the fish. It was caught by the chief engineer of the Noeau. The fish is provided with six fins and measures about two feet in length. It is now on exhibition on the Noeau, and may be turned over to Inspector Berndt of the fish market, to be sent to President David Starr Jordan at Stanford University.

PLEASED WITH TRIP AND THINK WELL OF HAWAII

SENATOR MITCHELL SAYS "ONE THING IS EVIDENT, THE COUNTRY NEEDS LABOR—SENATOR BURTON OFF TO KANSAS."

"The islands are a veritable paradise" said Senator Mitchell yesterday afternoon in an interview to the "Star". "I only hope that some day I can come here and enjoy them when there is not so much work on hand."

"I am, and indeed we are all charmed with Hawaii, its charming climate, waving palms and beautiful scenery. Of course we have really seen but little of the beauties of the group but we have seen enough to become convinced of the value and charm of the latest possession of the United States."

"We seem to have struck an unusually hot spell on our trip, so I understand at least, and then too we have been really very busy, so that we have naturally had several moments when we have been tired and the weather may not be entirely to blame."

"I was struck with the fertility of the land. It was greater than I expected. Some portions of the soil seem to be very productive. Ewa plantation for example with its average of ten tons, seems wonderful and the average of the islands 5 1/2 tons per acre I am told, is far above Cuban production." When told that on Ford's Island, the cane went as high as fourteen tons to the acre one occasion, the Senator was correspondingly surprised.

"The hospitality of the islands has well sustained its fame," continued Senator Mitchell, "and we are all deeply conscious of the courtesies which have been extended us by federal and local officials and the public generally. The witnesses have shown great interest in the proceedings and with their readiness to give information are also in our credit for thanks."

"There has been a great deal of evidence submitted and our work is not by any means completed. Every question raised almost has had its proposition and opposition and we have decided that the proceedings must be open to all to air their views whether suggestions, opinions and grievances, hoping thereby to get at the truth. One thing is evident, that the country needs labor."

"I personally would have liked to have made the trip to Molokai but my colleagues did not seem so disposed and the trip fell through. But, as I said before, I am hoping to come down again to the islands some day when the trip will be really a jaunt."

The chairman of the commission would not discuss the conditions down here, merely saying "You seem to be having some trouble with your officials which is regrettable."

"I expect to stay in San Francisco for a few days," concluded the Senator, "and then make a short trip into Oregon when we shall make arrangements to go on to Washington as soon as possible. We want to be there at least three weeks before Congress opens, of account of this committee business. We have lots to sift through in an endeavor to find what is wanted in Hawaii and another endeavor to give it to you."

Senator Mitchell and Foster made the rounds of the newspaper offices yesterday making calls and Senator Burton has announced his intention of doing so today.

"I am going right back to Kansas," said Senator Burton on the launch of the Hawaiian hotel. "I expect to be there and start the campaign three weeks from today on October 10. I do not know exactly which town I shall open fire as I do not know what arrangements they have made for me yet. I am going through via Denver and shall open upon one of the western Kansas counties."

"I cannot give you an interview right now as there is really nothing that we can say, in the first place, and, in the second, I expect to make my calls tomorrow at the newspaper offices when you will see me again."

BELASCO'S NEW THEATER.

NEW YORK, September 18.—The first of the new building for the theater of the late Belasco Theater formerly the Republic, has been removed, and passers-by were able to see for the first time the details of the new entrance. It is strikingly artistic, the lattice work and high swinging doors of antique iron, and massive awnings of iron and glass, that extend from portico to curb, making an imposing frontage.

BANKRUPT PRINCE.

LONDON, September 18.—At a meeting of the creditors of Prince Victor Dhuleep Singh, who was declared a bankrupt September 14th the chairman said the Prince's debts amounted to \$471,696, of which \$350,000 was secured. The debts were attributed to stock exchange speculation and gambling. Among the assets is a claim for \$3,000,000 against the Italian Government with respect to the estate of the bankrupt's father. The Prince ascribes his bankruptcy to the ridiculous insufficiency of his allowance from the Indian Government. To maintain his position the Prince received \$35,000 yearly and his wife received \$10,000.

KING EDWARD RECOVERED.

LONDON, September 13.—With the arrival of King Edward and Queen Alexandra at Balmoral, His Majesty's convalescence is officially declared complete. The fact that the King is already indulged in deer stalking and is now busy with grouse driving, coupled with the departure of the Queen for Copenhagen next week, indicates the confidence of the attendance upon him that his health is fully restored. Indeed, the King is enjoying better health than for years. The yachting tour of their majesties around the English and Scotch coasts was a lazy, drifting cruise, stopping at many isles hitherto unvisited by them. Their reception everywhere demonstrated their personal popularity.

DAMAGE TO BROOKLYN.

WASHINGTON, September 18.—The report of the board which investigated the injuries to the Brooklyn was received at the Navy Department today. The following statement was made as to the conclusions reached: "The damaged compartment are leaking slightly. Outer bottom plating has not been rent, and it is an easy matter to keep the damaged compartments free from water. It is possible that 50 per cent of the damage to the outer plating may be repaired."

The board also estimated that the repairs would cost \$42,500 and that the ship would have to be laid up in dock for three months.

NEW LIFE BOAT.

NEW YORK, September 17.—A cable to the Sun from Christiania says: The Norwegian Life Saving Society has experimented with Captain Doen's new life boat, which consists of a life-saving globe that can carry sixteen persons, 400 kilograms (about 880 pounds) of provisions and 500 kilograms (about 1100 pounds) of water. It carries an air pump and a water pump and is equipped with sail and rudder. It is eight feet in diameter and is intended to stand on the deck floating off to the ship carrying it goes down. The trials were successful. Captain Doen's twelve seamen and three newspaper men entered the globe, which was then thrown overboard. It disappeared under the water for a time, but came to the surface, when the occupants hoisted a flag to show that they were no worse for their immersion. The sailing powers of the invention were tested successfully for an hour.

YALE'S CHINESE MISSION.

Details of the "Yale Foreign Mission" are given in the Yale Alumni Weekly. The mission is now being built in Peking for the two Yale men who will go there in the autumn for the first year of study of the Chinese language and customs. One of these Yale men is Rev. Lawrence Thurston, '98, who has just completed a theological course at the Hartford Seminary. The other one had not been determined upon at the time the article was written. In the autumn of 1903 these two will be joined by two more Yale men. One of these will be Rev. Harlan P. Beach, '78, and the other is still to be selected. Mr. Beach will be the director in China of the mission. He has already served in that country as a missionary, knows his China very well. These four will then decide upon the actual site of the Yale settlement in the Far East. It seems to be determined that this site shall be in North China—in the region where American trade with China has attained the most considerable proportions.—Philadelphia Public Ledger.

LONDON, September 18.—Lord Curzon, Viceroy of India, telegraphs that the agricultural prospects in that country have been further improved by the general rains of this week, and that the gratuitous relief is less today than at any time since last February.

LIPTON NAMES EARLIER DATE.

GLASGOW, September 13.—Sir Thomas Lipton has yielded to strong representations regarding the advisability of earlier races for the America's cup is usual, and he has decided, after consultation with William Fife, the designer of Shamrock III, to name August, preferring the latter end of that month, when he hopes for steadier winds and less chances for fiascos.

KNOX STARTS FOR HOME.

PARIS, September 13.—Attorney General Knox and Special Assistant Attorney General Russell left here for Chamber today to embark on the steamer St. Paul. Mr. Knox said he had nothing to add to his statement of Wednesday last, and would reserve his opinion of the Panama canal titles for President Roosevelt himself.

THE PASSING OF JUSTICE GRAY

DIED AT HIS SUMMER HOME FROM PARALYSIS—AN ABLE JURIST—HAD RETIRED.

LYNN, Mass., Sept. 15.—Justice Horace Gray, who retired from the United States Supreme Court bench recently, died at his summer home in Nahant; this morning from paralysis. He had been in poor health for some time.

Justice Gray was of a family of jurists, there being before him a Judge and a Chief Justice. His brother, John C. Gray, was a member of the Harvard law faculty.

Justice Gray was born in Boston March 24, 1828. He studied at Harvard College, and was graduated at the early age of 17 years. He afterward spent some time in European travel, and on his return he began the study of law. After his admission to the Suffolk bar, he assisted Mr. Cushing in reporting the cases of the Supreme Court and thus laid the foundation for the wonderful knowledge of cases for which he was famed. He was appointed reporter at the March term of the Supreme Court, in 1854. He was one of the youngest judges who ever sat upon the Massachusetts bench. He was 36 years old when he was appointed Judge of the Supreme Court, his commission from Governor Andrew dating August 23, 1864. On September 5, 1873, Governor Washburn appointed him Chief Justice of the Supreme Court of Massachusetts. In 1881, President Arthur commissioned him as Associate Justice of the Supreme Court of the United States, which position he held until last month, when he retired, and Judge Holmes was named to succeed him.

The minuteness and thoroughness of Justice Gray's work and his knowledge of cases has become proverbial. It was the fruit of a wonderful retentive mind and years of study. Justice Gray's interests extended into many fields. He was fond of society, possessed a cultivated taste in the fine arts and was interested in contemporary literature. In physique he was large and powerfully built.

TO LEGISLATE FOR PURE FOOD

BILLS THAT PROVIDE FOR THE REGULATION OF PRESERVATIVES—TWO DRASTIC MEASURES

SAN FRANCISCO, Sept. 16.—The Supervisors took the first step yesterday in the direction of legislating against the dealers in food preservatives. One ordinance provides that no person shall sell, expose, deliver or give away any article intended for the preservation of foods unless the same shall be properly labeled. Another ordinance contains the following provisions:

"Section 1. No person, firm or corporation shall manufacture, sell, expose for sale, give away or deliver any substance containing boric acid, formalin, wood alcohol, or any other baneful or injurious substance intended to be used in the preservation of any article of food or drink for human consumption.

"Section 2. No person, firm or corporation shall sell, expose for sale, give away or deliver any article of food, any milk or other article used for human consumption in which any baneful or injurious drug, mixture or any substance containing boric acid, formalin or wood alcohol or any other compound has been previously placed for any purpose whatever."

The penalty providing in each ordinance is a fine not exceeding \$100, nor less than \$25, or by imprisonment in the County Jail for a term not exceeding 90 days, nor less than thirty days, or by both fine and imprisonment. Both ordinances were referred to the Committee on Hospital and Health and Judiciary.

GERMAN BARK LOST.

LAS PALMAS, Canary Islands, September 14.—The British steamer Rydall Hall, Captain Curtis, from Liverpool for Port Natal, reports having seen the German bark Euterpe, Captain Kauffman, from Port Talbot, Wales, founder September 7 in latitude 49 35 north, longitude 8 13 west. An explosion had occurred on board the Euterpe, killing seven of her crew and injuring several. The survivors of the Euterpe were landed here.

LORD SALISBURY.

LONDON, September 19.—The Times this morning says: We much regret to learn that Lord Salisbury, who at present is in Switzerland, is ill and confined to his bed. An English and a Swiss doctor have been attending him, and it is understood that his lordship's own attendant in London has been sent for.

Lord Salisbury has been touring the health resorts of Southern Europe for several weeks. Visitors to Switzerland frequently have seen him riding a bicycle. He always kept much to himself and attracted little attention. For some time past his lordship's health has been gradually failing and the announcement of the Times, although carefully worded, causes alarm.

GOLD IN THE TREASURY.

More Than Ever Before in History of the Country. The sum of gold now in the United States treasury exceeds that of any previous time in the history of the country, and with one possible exception, it exceeds that of any country at any time in the history of the world.

The single reported exception is that of Russia about eight years ago, when that country was preparing to resume gold payments. At that time Russia is said to have had in its treasury \$295,000,000 in gold. Last Saturday the value of the United States treasury contained \$373,326,194, which is an increase since July 1, 1901, of \$79,087,897. This stock of gold is now being added to at the rate of from \$200,000 to \$300,000 a day, with no immediate prospect of a cessation in the rate of deposits. This condition of things is eminently satisfactory to the treasury officials, who regard it as the best possible evidence of the financial stability of this country.

VERY SERIOUS.

The charges against Auditor Austin are very serious. If they are not criminal, they at least vitiate his usefulness in his position.

There have been rumors with regard to the Auditor for some time, but the majority of people have been loath to believe them.

A very serious charge is that which may be called "the Chillingworth charge." Here the Auditor is represented as striving to obtain the loan of money from Deputy Sheriff Chillingworth.

This is a very unfortunate condition of affairs, the Star readily grants it, but it is a condition of affairs that the Governor could not allow to go on.

AMERICAN LABOR.

"The importance of the human factor," says the London Statist in summarizing a recent labor report on American labor by English experts.

Martial law has ceased in South Africa, and civil administration is now in complete control throughout the colonies. This marks the real end of the war.

The Boxer or rather the retrograde and anti-foreign Chinese is out on the warpath again. It is very difficult to get any accurate news from China, but evidently there has been some destruction of mission property and the murder of some Christian converts.

NEWS OF THE VOLCANO

**VOLCANO HOUSE, Hawaii, Septem-
ber 25.**—The volcano has remained mod-
erately active all week, with some fire
in the crater all the time. On Wed-
nesday evening a column of smoke was
seen from one of the dead cones of
Mauna Loa, high above the Dewey crater,
which was the scene of the last
large outbreak. The smoke has been
observed before recently, but has dis-
appeared.

The pit of Halemaumau was more
active at the beginning of this week
than when the Senatorial party was
here last week. A cone similar to the
"Little Beggar" on the plain found in
the bottom of the pit and spouted lava
for a day or more. Today it was all
broken up by a general flow of lava
about the floor of the pit, leveling it
all.

There is a floor of fiery streaks in the
crater now, with one blow-hole work-
ing. The floor of the pit is thought to
be slowly rising, by reason of the suc-
cession flows of lava.

Another excursion from Hilo has been
arranged for Saturday to Monday to
view the volcano.

TRIUMPHAL TOUR.

HILO, September 26.—The campaign
tour made on this island the past week
by Prince Kuhio, the Republican nomi-
nee for Delegate to Congress, has been
attended by crowds all along the line.

NOTLEY WILL CASE.

HILO, September 26.—The hearing of
the Notley will contest came on be-
fore Judge Little last Saturday and re-
sulted in the admission of the will to
probate and the appointment of Cecil
Brown and A. Lidgate administrators.
An order of the Court directs the ad-
ministrators to pay the widow \$250 a
month pending the hearing of the case
before a jury next January.

HEARING OF WRIGHT

(Continued from page one.)

had cashed it. It was a routine mat-
ter and unless circumstances drew
special attention to a check he would
not be prepared to swear as to the
man cashing it.

Cross examination, witness stated
that there was a chance of another of-
ficial of the bank paying out the money
and that he relied on the stamp of the
bank for knowledge of the bank's pay-
ment. Attorney Ashford would not al-
low the witness to refer to his book re-
cords. George Fuller, keeper of those
records, was sent for to bring the books
into court.

Manuel Cook, first assistant clerk and
bookkeeper of the Department of Pub-
lic Works, was the next witness called
by the prosecution. Ashford objected to
oral evidence from the witness as to
Wright's position in the department.
He was overruled and the witness tes-
tified that the clerks in the office took
their instructions from the defendant,
among his duties being the receiving of
the cash received during the day. He
could not say if Wright was empow-
ered to collect or receipt for moneys of
the department. Ashford objected to
this question but was overruled. The
witness had seen the defendant write
and fully identified the signature. He
kept the books. Other objections fired
by Ashford were overruled by the
court who stated that the prosecution
had to introduce its evidence in piece-
meal and if evidence was irrelevant it
could be stricken out.

The prosecution brought out the cus-
tom of the office in which amounts re-
ceived by the cashier were entered on
stubs and the stubs balanced at the
close of the day with the cash by B.
Haywood Wright. Mr. Siemsen was
the supposed cashier.

The endeavor was to show that while
the money was receipted for by Wright
there was no entry in any of the books
concerning the \$2,500.

Mr. Cook stated that there was no
entry on the books on August 15 for
subsequent to that date, crediting the
Electric Company or showing that such
an amount had been paid. Counsel for
the defense objected to every question
and was overruled. Cross examined as
to if it was customary for Wright to
make up the stubs, witness could not
remember specifically among the great
number of stubs. Witness sometimes
in the absence of the cashier took
money, gave receipts, and filed stubs.
There were five people in the office who
occasionally received money when the
cashier, Siemsen, was absent. Cash
was kept in the cashier's drawer. Mon-
ey received by others was held until
the cashier's return who alone kept the
key.

Ashford proved that the cashier some-
times only made an accounting every
few days. The witness added that the
cashier always endeavored to hand the
moneys over every day, but that he had
heard Wright say, "Never mind, wait a
day or so." The endeavor was to show
that it was the habit of the cashier not
to turn over the cash daily. In those
cases the money was kept in the cas-
hier's private safe. Wright had charge
of the big safe in which the cashier's
safe was placed. Testimony was asked
by defense to show that the combi-
nation of the big safe had not been
changed when Wright took Boyd's po-
sition as chief clerk, but the witness
could not testify as to this point.

Re-examined by the Attorney General,
witness did not receive the check pro-
duced in evidence or that sum from
anybody.

High Sheriff A. M. Brown testified
that on September 15 the Attorney Gen-
eral had asked the defendant whether
he had received the check in question
as to what he had done with the money.

Attorney General E. P. Dole testified
that on September 9 he had spoken with
the defendant. "On Monday, Septem-
ber 8, I was given information that led
to a meeting of myself with the de-
fendant, his counsel, and other officials.
At this time, about 11 o'clock, no defen-
tation was spoken of. Deputy Auditor
Meyers opened the safe in the presence
of all present and the cash was count-
ed."

"There was a deficit announced by the
Deputy Auditor of \$5250.10. He was
asked if the deficit was correct and he
stated that there was no doubt of it,
and that he would refund the money
within four days. The amount of the
Hawaiian Electric Company's check
came up and I asked defendant if he
had cashed the check, which he admit-
ted. I asked him what he had done
with the money and he answered 'It is
gone.' Further he declined to answer.
I told him that he must be taken in
charge until the facts were more fully
known though I could not guarantee
his not being arrested at any time on a
warrant. He acceded to this procedure."

Attorney General Douthitt drew at-
tention to a section of the civil laws
relating to the payment of franchise
percentage and raised the case for the
prosecution. An adjournment until next
Thursday was then granted.

IMPORTANT MEETING.

The Hawaiian Mission Children's So-
ciety will hold their first meeting for
the new year at the residence of Mrs.
M. J. Forbes on Punahou street at 7:30
o'clock this evening. This meeting will
be a very important one owing not only
to its being the first but also because
of special important business and a
new venture to be laid before the so-
ciety. All members are earnestly re-
quested to be present and it is expected
and desired that there will be a large
attendance.

GEORGE DENNISON RETURNS

HILO, September 26.—G. P. Dennison
who has been in the city the past three
months as acting superintendent of the
Hilo Railway during the absence of
W. H. Lambert, returned to Honolulu
today. He was called back to the Oahu
railway before the arrival of Mr. Lam-
bert, because of the contemplated de-
parture to the Mainland of Mr. Smith.
Mr. Dennison will take with him to
Honolulu plans and data showing the
expediency of running electric passen-
ger cars from Waialua to the city and
over the city extension of the Hilo Rail-
road work on which will soon begin.

CAREER OF NEW CIRCUIT JUDGE

STURDY STOCK FROM WHICH
JUDGE DE BOLT COMES—FIRST
PRACTICED LAW IN SEATTLE.

J. T. De Bolt, the newly appointed
First Judge of the First Circuit Court
of Hawaii, has had that sort of front-
ier experience which has developed so
many of the very best men of the na-
tion. He was born in Texas December
19, 1857. His father who was a farmer
and school teacher, was a native of
Ohio, and through Union man in his
sentiments, he saw the growth of the
secessionist sentiment in Texas as
throughout the south, and before the
war broke out removed to Leavenworth
Kansas, where so much of the history
of the anti-slavery cause was made. It
was in days of stirring and strenuous
events, and in a locality that felt the
full and fierce conflict of opposing sen-
timents on great questions, that John T.
De Bolt passed his childhood.

In 1866, the war having been fought
out peace restored, and slavery aboli-
shed, the family removed to Missouri
where J. T. De Bolt lived on a farm,
working as other farmer boys work
during the growing and harvesting sea-
sons, and attending the neighboring
schools in the winter. As a boy and
youth he was a great reader perusing
any book of value that came in his way
but being particularly attracted by
books of scientific or historical char-
acter.

In 1879 Mr. De Bolt went to California
living in the Sacramento Valley for
several months. With two companions
he started from there to go to Spokane
Falls, then a village of 250 inhabitants.
They traveled in a spring wagon
through northern California and the
State of Oregon and the then territory
of Washington. Their route was a
fugue one most of the way, and not
without danger from Indians by whom
they were menaced several times. Mr.
De Bolt remained in and about Spokane
until 1882 when he removed to Seattle,
and the next year began the study of
law in the office of Ex-Chief Justice
Orange Jacobs of Washington Territory
one of the ablest jurists of the north-
west. He was admitted to the bar in
1887 and at once began practice in Seat-
tle. He continued in practice there
until 1890 when he came to Honolulu,
arriving here June 7. He was admit-
ted to practice in all the courts here ten
days later and has had a continually
growing practice, involving many very
important cases, ever since. His early
acquired taste for reading has been cul-
tivated and is reflected in his extensive
and well selected library.

His appointment as Circuit Judge
came to him without seeking on his
part, but through the unsolicited efforts
of the Honolulu bar.

A FALSE ALARM.

An alarm turned in from 123 at the
corner of Lunalia and Makiki streets
at a few minutes after eight this morn-
ing was, as usual, somewhat incoher-
ently signalled by the whistle with the
result that the Fire Department with
the police patrol and Hesa Bros came
down Fort street under the impression
that the alarm sounded 12. A long run
out to Makiki on discovering the error
resulted in another failure to find any
fire. There was a crowd, attracted by
the engines, but nobody seemed in need
of the latter's service and nobody could
be found who had turned in the alarm.
Some investigation as to the latter
point will likely be made.

DOCK MATERIAL AT HILO.

The material for the Hilo Dock has

sists of 750,000 feet of lumber and 12,000

BABIES AND CHILDREN

should be fairly plump. They
ought to put on fat as fast as
they use it up; for fat is fuel,
and the burning of it makes pow-
er and force. Thin children—
even along to the age of eighteen
or twenty—are in danger from
consumption, and from other
wasting complaints. The chil-
dren who starve, and the young
men and women who are con-
sumed—why, the very idea of it
is frightful. For such as they
there is always what the Bible
calls a "mighty famine" in the
land. Food, though it may be taken
plentifully, does not nourish
them. It makes no fat; it gives
no strength. To prevent this, to
cure this, to save the young ones
at the mother's knees, and the
bright boys and girls who are
just looking at the world with
ambitious eyes, is the purpose of

WAMPOLE'S PREPARATION.

Its success is decided and set-
tled. Thousands owe to it life
and health. It is palatable as
honey and contains the nutritive
and curative properties of Pure
Cod Liver Oil, extracted by us
from fresh cod livers, combined
with the Compound Syrup of
Hypophosphites and the Extracts
of Malt and Wild Cherry. In
building up pale, puny, emacia-
ted children, particularly those
troubled with Anemia, Scrofula,
Rickets, and bone and blood dis-
eases, nothing equals it; its ton-
ic qualities are of the highest or-
der. A Medical Institution says:
"We have used your preparation
in treating children for coughs,
colds and inflammation; its ap-
plication has never failed us in
any case, even the most aggra-
vated bordering on pneumonia.
The children like it, they love
the taste of it, it looks good to
them, and it builds up their
bodies; many little children
owe their lives to it." Effective
from the first dose. "You cannot
be disappointed in it." Sold by
chemists here and everywhere.

The stuff came this week from
Washington ports consigned to the Hilo
Merchants Co., and is now being landed
at the site of the big dock. The copper
sheathing for the piling will probably
arrive by the next Enterprise after
which the work of construction will be-
gin at once. The pile drivers are on the
spot ready to send the sticks into place.

The funeral of the late Fred W. Mc-
Chesney took place yesterday after-
noon. There was a large attendance
of relatives and friends.

SECOND RABBIT ISLAND RACE

CONTEST WILL TAKE PLACE ON 28TH—YACHTSMEN PREPARING—BETTER RACE THIS TIME.

There will be greater interest than ever over the Rabbit Island race, the second start for which takes place at nine o'clock a. m. tomorrow. Arthur L. Merry has entered the Mary L. and thus all of the four crack yachts of the local fleet will be in competition for the fifty mile race.

The Helene has entered the race and with the challenger, the sloop La Paloma, skipper Clarence MacFarlane; the Gladys, skipper Commodore Hobson and the Mary L., skipper Arthur L. Merry, will fight out the battle. The race of a week ago was very uninteresting owing to the prevailing south wind which made the boats finish hours behind the time limit of the hours. The La Paloma came in first. The Mary L. and Gladys are still tied up in a protest from the skipper of the former craft, as to the decision in the Regatta Day race, and competition is kept between the three. The crew of the Gladys will consist of amateur yachtsmen including Oscar White, Ernest Mott-Smith, Allan Dunn and another skippered by Commodore Hobson. The Mary L. has a professional crew from the Iroquois and the La Paloma also will have a hired crew. Yacht club members must however be at the helm of each boat. Skipper Fred Whitney of the Helene will get his crew together today.

With prevailing winds all the yachts expect to finish within the limit which will bring them back to Honolulu harbor at about six o'clock in the evening. The race is essentially yacht racing in deep water as opposed to the "skimming dish" class built for enjoyment in more placid waters. It will be a wet trip for all concerned and oil skins and extra suits of clothes will be provided by all the sailormen. The race is for \$100 and the first boat crossing the line within the time limit gets the race and the trophy.

The Pirate will race this afternoon with the Vi-ke on a challenge from the latter. The Vi-ke has been disqualified in the third class race on regatta day for "touching the mark." The Yacht club committee have also recommended that the Dewey be awarded the prize as there were no printed rules calling for the entry of two boats to make a race and the Dewey had entered and sailed over the course in good faith. The protest of A. L. Merry against the Gladys has been considered by a committee and the evidence reviewed with a resultant determination to hold an open court on the matter. Witnesses as to the placing of the buoy and its position with regard to the entrance of Kaili harbor, will be summoned to a meeting on Tuesday afternoon together with the skippers of the two yachts. Allegations concerning a yacht club member have been practically made with the regatta committee of the yachtsmen have determined to thrash out with a view of discountenancing such practices if the same be proven.

POLO GAME TODAY.
 This afternoon at 3:30 there will be a polo game which will be conducted along the lines of determining the all-Oahu team. Potter will be given his opportunity to play 2 with Dillingham and Dole, who are already sure of a place on the crack team. Onlookers this afternoon should watch the game between Potter and Dillingham on the one side and Judd and Shingle on the corresponding positions of 2 and 3 on the other side. Developments should be interesting.

Last Wednesday, John Parsons, the English player, coached and refereed the local men. Dillingham was placed at No. 2 and S. E. Damon at No. 1. The latter demonstrated that he is indisputably the best No. 1 material in the Oahu club. Judd was out at 3 with Dole at 4, this formidable quartet ranged themselves against the balance of the local players. The men were strange to the positions and did not achieve wonders though they beat the other side pretty badly. Mr. Parsons innovated a style of throwing in which will probably be adopted locally. This afternoon the teams will be as follows: Blues—Harold Castle, 1; George Potter, 2; W. F. Dillingham, 3; C. S. Dole, 4. Whites—George Brown, 1; A. F. Judd, 2; R. W. Shingle, 3; Irvine, 4, with J. P. Erdman as substitute. The Blues should win, but Shingle has been playing in splendid form lately, and he and Judd have some combination plays in consideration that may change all prognostications. S. E. Damon goes to Kauai.

A feature of recent local polo playing has been the excellent showing made by the Juniors of the club, Brown and Castle. The boys have practiced assiduously and are showing the results in surety and direction of stroke.

REMEDY FOR LEPROSY.
 SAN FRANCISCO, Sept. 19.—Dr. Alexander Koch of Brooklyn, N. Y., has offered to supply the Board of Health with a Brazilian plant used as a remedy for leprosy. The offer was read Wednesday at the meeting of the Board and referred to the Hospital Committee.

RETURN OF MACKAY'S BODY.
 NEW YORK, September 15.—A cable to the Journal from London says: General Manager Ward of the Commercial Cable Company said today that the body of the late John W. Mackay would not be removed to New York until November. Mrs. Mackay is now on the Continent.

O'NEILL IS A SUCCESS.
 NEW YORK, September 16.—A cable to the Tribune from London says: Miss Nancy O'Neill appeared with great success at the Adelphi Theater last night as the heroine of Giacometti's tragedy, "Elizabeth, Queen of England." Critics are enthusiastic about her acting, her handsome face and costumes.

HISTORY REWRITTEN.
 Columbus was recounting the perils through which he had passed. "Hurricane!" he cried. "I never saw anything like it. Why, when I was passing around the horn the wind blew my name in the bottle!" At this his friends, remembering that the great man had come home in the steerage dealt kindly with him.—New York Sun.

POPULATION OF CITY OF LONDON

SIX AND ONE-HALF MILLION.—FIGURES FROM ANNUAL REPORT OF COUNTY COUNCIL.

LONDON, September 15.—The report of the London County Council, just published, furnishes some striking figures indicating the immensity of the municipal problem with which London authorities are confronted. According to the census of 1901, the population of the administrative county of London was 4,536,541, while greater London, immediately surrounding the county, showed an additional population of 6,500,000.

The lunacy statistics of the administrative county show an increase of 50 per cent in the last ten years, the total number of lunatics being 21,369, for which drink and business and domestic troubles were accounted to be largely responsible. The problem of housing the working people is dealt with on a large scale, the Council acting as landlord to a population of 12,596 housed in cottages, block dwellings and various other structures. The year's working showed a net surplus of \$11,565 for these dwellings, compared with a deficit of \$5755 for the previous year.

The city's debt statistics show a discouraging increase, the total debt outstanding being \$231,344,355, equivalent to 124.98 per cent of the rateable value against 124.65 per cent when the London County Council came into existence.

VERMONT CIDER.
 Roswell Field, in the Chicago Post, insists that hard cider probably caused Mr. Small's difficulty at Brattleboro. "As a southern man," he says, "Mr. Small was unconscious of the virility of Vermont cider, naturally assuming that it was a mild and pleasant tonic in a prohibition state. Only those who have fallen victims of this delusion can appreciate the terrible agonies he must have suffered." Field formerly lived in Vermont.

ELECTRICAL DEVICE.
 California fruit growers are coming to use an electrical device which warns them of disastrous falls of temperature. It consists of a battery of relay coil, thermometer and alarm bell, and is so adjusted that when the mercury in the thermometer falls below a certain point the electric current is broken and the bell rings. As the instrument can be set for any temperature, it can be used in hothouses for various crops. It is set at a few degrees above the point of danger.

NOTHING LIKE OIL.
 "In dealing with man, remember that a spoonful of oil will go farther than a gallon of vinegar." The same may be said of children. There is nothing so good for children as the old-fashioned castor oil. However much they abhor it, it is their best medicine for disorders of the bowels. In the most severe cases of diarrhoea and dysentery, however, Chamberlain's Colic, Cholera and Diarrhoea Remedy should be given after the oil operates, and a quick cure is sure to follow. For sale by all dealers. Benson Smith and Company general agents.

SAVE MONEY

ON YOUR GROCERIES

By buying canned fruits, vegetables and meats in case lots of one or two dozen, we give you the advantage of a much lower price. Also you can have an assortment of many kinds in one case. For instance in a case of two dozen cans of fruit you can have a half dozen of peaches, half dozen of pears, half dozen of cherries and half dozen of apricots.
 The saving in price by buying in this manner is very considerable and it will pay you to enquire.
 There are many other things about the store—everything in fact—that you can buy much cheaper in quantity lots. This is a new departure and we want every customer to understand it perfectly.

SOCIETY DULL SAYS ACTRESS

MISS MURRAY TELLS HOW SHE FARED AS AN ENTERTAINER AT MRS. P. JONES' DINNER.

TOLEDO, Ohio, September 15.—Miss Elizabeth Murray, one of the entertainers at the dinner given by Mr. and Mrs. Pembroke Jones at their Newport home, where the Duchess of Marlborough and Duke Boris were the guests of honor, is in this city.

Miss Murray and Miss Leach were the ladies who supplied the snap to the dinner of forty covers. When they arrived they were ushered into the ladies' dressing rooms to wait until it was time for them to begin their little acts. The girls got tired of sitting still, and so they tried on all the evening wraps of the women of fashion in America, except that of Mrs. O. H. P. Belmont, who is the mother of the Duchess.

"We did not care to try hers on," said Miss Murray, "as it was just one of those little shawl-like shawls of the vintage of '75. After deciding the question of wraps, we girls sampled the perfumes. 'Goodness,' I cried, 'this smells like Hoyt's at 30 cents an ounce.' 'That, Miss, is the best possible perfume, made especially for Mrs. Jones, in Paris,' said the maid in attendance. 'Well, it smells like 30 cents, anyway,' I insisted.

"Everybody looked bored to death," continued Miss Murray, "and Duke Boris did not hesitate to say he would rather be at the naval bombardment than dining off the gold plate.

"The Duchess of Marlborough is painfully thin and although her gown was of gorgeous cloth of silver and trimmed with priceless lace, she was dowdy. It was funny to watch the toadying of the newly rich to those they thought were of assured position. Mrs. Clark approached Mrs. Burke-Roche and in the most abusive manner said: 'My dear Mrs. Roche, I wanted to ask you about your son.' Mrs. Roche looked at her over superciliously and said, 'He's better,' in an indescribably insolent tone.

"Then with another look she drawled, 'Is a very pretty party; good evening, Mrs. Clark,' and sailed downstairs. 'They don't have any fun,' said Miss Murray. "They don't know how. They can't sing 'Dookey' until I was hoarse and the men would join in the chorus. But the women looked as though they could not say 'Bo bo' any more than mechanical dolls. Mr. Pembroke Jones got on a little jag before the evening was over, and coming up to Mrs. Pembroke Jones, he slapped her on the back and shouted, 'I tell you, mother, you're getting on great with the King,' meaning the Russian Duke."

SENATOR BARD.

LOS ANGELES, September 18.—The outcome of United States Senator Thomas R. Bard's illness is still in doubt. At 12 o'clock tonight a summing up of the patient's progress for the previous twenty-four hours gave cause for considerable encouragement and at the same time revealed two more or less discouraging conditions.

CURE FOR LEPROSY.

HAVANA, September 14.—The medical board reports very favorable progress in the ten cases of leprosy now in the hospital here, which are under the special treatment of Drs. Deque and Morno, who have recently been allotted \$50 a month by the House of Representatives to continue their investigations for a cure of the disease which was begun under the military government. The medicine employed by the Cuban doctors is an extract from red mangrove and is used as a salve and a tonic.

COMING FROM NEW YORK.

SAN FRANCISCO, September 15.—The American-Hawaiian Company's steamer Oregonian, Captain Carter, is now out fifty-one days from New York for this port, and is reported as having sailed from Coronel on September 3. She is therefore due in about eight days. The Nebraska of the same line, built for the trade between here and Hawaii is not far behind the Oregonian, being about due at Coronel. The Alaskan, largest of the fleet, sailed from New York six days ago. Another big steamer soon to arrive from New York is the new Tremont, now out forty-six days. She is a sister ship of the Nevada, lately in port, and is to ply between Puget sound and the Orient for the Boston Steamship Company.

HIS BUSINESS.

"I hold" said the good feeder, "that no man has any business to work on an empty stomach." "I have to do it very frequently," said the stranger. "Then I'll bet you've found it doesn't pay." "Usually it pays as much as \$100. I'm a surgeon."

A NATURAL TOOTER.

"This," we explain to the visitor from abroad as we pilot him across the great Pacific, "is an untutored savage—one of the last remnants of that noble race which—"

"Untutored, do you say?" interrupts the visitor.

"Yes."

"But he doesn't seem to need tutoring," continues the visitor, with a London-funny-paper accent. "It seems to me he is more of a tooter than anything else. See, he is obviously on a toot right now."

So saying, he returns to the train, while we ponder over the inner meaning of his bonnet.—Judge.

LEGAL NOTICES.

IN THE CIRCUIT COURT OF THE First Circuit, Territory of Hawaii. At Chambers—In Probate.

In the matter of the Estate of Harriet Carter late of Honolulu, Oahu. A petition praying for the Probate of the Last Will and Testament of said deceased, having on the 11th day of September A. KELLETT CLERK. Judge De Bolt has appointed P. D. Kellett clerk of his court. HEARING SET FOR MONDAY

AUDITOR AUSTIN WILL ANSWER DOLE'S CHARGES—WILL BE REPRESENTED BY ATTORNEYS.

About 3:30 o'clock yesterday afternoon, after a consultation between the Governor, the Attorney General and the High Sheriff, the High Sheriff served the following notice on Auditor Austin: September 25th, 1902.

Herbert C. Austin. Sir: In pursuance of the charges and specifications of abuse of authority, misbehavior, and mal-administration of office as Auditor of this Territory and of the notice of suspension and suspension served upon you the twenty-fifth day of September, 1902, which said charges, specifications, notice of suspension and suspension are hereto annexed, and by reference made a part hereof and are hereby affirmed and renewed, now therefore you are further notified to appear before me in the Executive Chamber on Monday, the twenty-ninth day of September, 1902, at ten o'clock in the forenoon to show cause, if any you have, why such suspension should not be continued in force until your official conduct as Auditor of the Territory can be submitted to and acted upon by the Senate of the Territory of Hawaii.

SANFORD B. DOLE, Governor of the Territory of Hawaii. Mr. Austin says he will be on hand at the appointed time and hour with his attorneys ready to make a full and complete defence. A hastily summoned meeting of the Executive Committee of the Democratic party held at noon yesterday recommended Prince David Kawananakoa to Governor Dole for appointment as Treasurer to succeed William H. Wright, and appointed S. M. Damon to present the recommendation to Governor Dole. This Mr. Damon did, adding his own recommendation, and urging the further ground for appointment that Prince David is a Hawaiian of independent fortune, and "is prepared to defend the good name and honor of his country."

There are said to be a considerable number of applicants for the positions of Treasurer and Auditor. It is held, however, that there is as yet no vacancy in the office of Auditor, Austin being suspended only and not removed.

The first swell function of the season took place at the Moana hotel last evening in the shape of a cotillon under the direction of Mrs. Mary Gunn. The affair was in honor of Miss Spreckels and nearly a hundred couples took the floor. The affair was thoroughly enjoyable, the cotillon, starting after a preliminary dance, at eleven o'clock, having many pretty figures and favors.
