REPUBLIC RECOGNIZED.

President Cleveland Does the Act in Secrecy.

WASHINGTON, Aug. 8.—While Representative McCrary, of Kentucky, was presiding over the committee of the whole in the House this afternoon, he was notified that Secretary Gresham desired to see him in the Speaker's room. When Mr. McCrary returned to his chair after the interview with the Secretary he declined to say what had occurred, but it was subsequently learned that the Secretary had notified him that the Republic of Hawaii had been officially recognized by the Government. The official announcement of the recognition will probably be made to-morrow.

WASHINGTON, Aug. 9.—The Hawaiian question came to the front again in the House to-day, forming the subject of the most spirited and interesting portion of the proceedings. Mr. Boutelle raised it as a question of privilege. He repudiated the reported imputation that in introducing the resolution recognizing the Hawaiian Republic he had sought to obtain a partisan advantage for the Republican party and said that he was desirous only of maintaining the honor and dignity of the Government and of observing the unbroken traditions of the country and of Congress. He criticized the failure of the Committee on Foreign Affairs to act upon his resolutions and denounced the Hawaiian policy of the administration, especially the last act which he described as the grudging, halting, secret recognition of the Republic of Hawaii by the President. He was called to order by Mr. Outwater and Mr. Coumbs (Dems.) and required by the Speaker to take his seat, after he had evoked rounds of applause from his Republican associates. Before taking his seat, Mr. Boutelle unsuccessfully endeavored to get unanimous consent to move that the Committee on Foreign Affairs be discharged from the further consideration of his resolution and that they be considered by the House.

The file of the Chicago Times has been received by the Arawa. In its Washington letter of the 8th the following appears: "There is the best authority for the statement that at the cabinet meeting Gresham brought up the matter of the Hawaiian Republic, and Cleveland, after a general expression of cabinet views, decided to recognize the island Republic. To-day the Hawaiian question was notified and it is expected to-morrow McCrary will announce it in the House. This will take the wind from Boutelle's sails, as his Hawaiian resolution also comes up."

The next day's dispatch to the Times contains the following: "A letter of congratulation and greeting from President Cleveland in the name of the United States is on the way from Washington to President Dole of the Hawaiian Republic. The recognition of the new Republic was finally decided upon this week and the message was framed and mailed yesterday through the regular channels. There has never been any doubt of President Cleveland's course in the matter and of his recognition of the new government of Hawaii as a de facto government. A few days ago a letter was received from President Dole conveying the formal announcement of the proclamation of the Republic and the inauguration

Lewis J. Levey, AUCTIONEER.

of the new government. The letter was laid before the cabinet and has been under consideration, while the house committee on foreign affairs was debating whether it should resolve on recognition.

With the letter of greeting to President Dole was sent a letter to Minister Willis ratifying his action in provisionally extending the usual recognition to the Republic.

Frank P. Hastings, who, in the absence of Minister Thurston, is charge d'affaires at the Hawaiian Legation in Honolulu, has had an interview with Secretary Gresham, and was told that he had been formally recognized as the representative of the new government.

The proceedings as to the legation here were simple and formal. Minister Thurston on starting for Hawaii had left Secretary Hastings as charge d'affaires ad interim for the provisional government of Hawaii. By the same mail which conveyed to the state department Mr. Willis' notice that he had recognized the new Republic of Hawaii, Mr. Hastings received his credentials as charge d'affaires ad interim for the Republic. These were from Mr. Hatch, the Hawaiian Minister of Foreign Affairs, directed to Secretary Gresham. Mr. Hastings laid his credentials before the state department, and day before yesterday received the usual notice, stating that the department had received his credentials and recognized him as the ad interim representative of the Hawaiian Republic.

COMMISSIONERS COME HOME. WASHINGTON, Aug. 16.—Four members of the Hawaiian commission who came here to secure redress for Queen Liliuokalani or prevent the recognition of the new Republic, left for Honolulu via San Francisco. Their mission was a complete failure. There is every reason to believe also that the envoys failed to see the President before his departure for Buzzard Bay. It is understood the position taken by the State department is that when the United States offered to restore Liliuokalani on granting general amnesty and she refused, the administration considered the relations with the ex-queen terminated.

W. C. Wilder received the usual advice from his son, Chas. T. Wilder, Hawaiian Consul-General at San Francisco, by the S. S. Arawa to-day. Mr. Wilder transmits the following news from F. P. Hastings, Secretary of Legation, Washington: "President Cleveland has recognized the Republic of Hawaii, and his greetings are on the way to President Dole and Minister Hatch."

The Minister of Foreign Affairs has received from W. Q. Gresham, Secretary of State, a reply to a note enclosing an office copy of a letter from President Dole to President Cleveland. He says he had delivered the letter and that President Cleveland's reply would be forwarded through the Legation of the United States at Honolulu.

Minister Willis left a letter for President Dole at the Executive building this morning. Owing to the absence of the President, who is expected back from Molokai to-morrow, the contents of the letter are unknown. It is probably a note to make an appointment for the formal delivery of President Cleveland's letter to President Dole by the United States Minister.

MORTGAGEE'S NOTICE OF SALE. NOTICE IS HEREBY GIVEN THAT pursuant to a power of sale contained in a certain mortgage made by Antonio Rosa and wife of Honolulu, to Cecil Brown of the same place and of record in the Office of the Registrar of Conveyances in Liber 108, on pages 25, 26 and 27, and by said Cecil Brown, as assignee of F. H. Hayden, in and under the last will and testament of J. G. Hayden, deceased, by document of record Liber 147 on page 218, the said mortgagee intends to foreclose said mortgage for breach of condition therein contained. Notice is also given that the property covered by said mortgage will be sold at Public Auction, at 12 o'clock noon, on SATURDAY, the 11th day of August, at the auction rooms of Jas. F. Morgan in Honolulu. The property in said mortgage is described as follows: All that certain parcel of land situate at Kalaheo, in said County of Kauai, containing an area of 39 2/3 acres, and being a portion of the premises described in Royal Patent No. 778, and conveyed to said Antonio Rosa by J. P. Henderson, administrator of the estate of Domingo Lopez Ramos by deed dated the first day of April, 1887, of record in the Hawaiian Registry of Deeds in Book 46, on pages 24 and 25. Dated Honolulu, July 13th, 1894. For further particulars apply to J. G. Hayden, deceased, or to Trustee of the last Will and Testament of J. G. Hayden, deceased, or to Cecil Brown, Attorney.

The sale of the above property under foreclosure is postponed until SATURDAY, September 1, 1894, at the same time and place.

Hawaiian Hardware Co., Ltd.

Thursday, Aug. 23, 1894.

The situation of Hilo gives the people there just reasons for pride. The scenery from almost any point will attract visitors and the delights of a day spent on Cocoanut Island are sufficient to keep them in the vicinity indefinitely. Beside this, the roads through the country have been put in a condition that makes it tempting for people who enjoy a carriage ride to the Volcano. And from correspondence published in the daily papers, as well as reports from foreigners who have spent a day or two in Hilo, the residents there are an hospitable set. Hilo, then, may be said to be a model town for tourists. First because of the way the people receive guests and entertain them and because of the attractions which nature has provided. Kau, the other gateway to the Volcano, is less attractive only for the reason that the conditions are not suitable for town building and there are consequently fewer people to finish what nature left undone. We do not wish to imply that the people of Kau could build mountains, but if the population was larger the government might listen attentively to the request for better roads. The drive from Pahala to the Volcano was a pleasant one in the days when the road was good, but just now it is in a condition that invites the attention of competent road builders more than tourists. We have no doubt the improvement will come in time, for it's a matter that interests every one here indirectly. We have no doubt tourists would derive more pleasure from seeing both sides of Hawaii if the facilities were right than to see only one. The money spent by visitors comes to every one indirectly so it appears in order for the business people to unite in petitioning the government to put the road in order.

We put up a 12 foot Geared Aermotor for the Honolulu Dairy the other day to be used for cutting sorghum. The manager of the dairy had doubts as to the power of the mill to do the work. A three horse power engine would not do it and it was not believed that enough power could be developed in a twelve foot Aermotor, but it does the work perfectly and at no expense for fuel. Now, then, if a twelve foot mill will do this where is the limit of a 16-foot Geared Aermotor. In addition to running a No. 4 triple acting pump that will discharge ten thousand gallons of water per hour, it will run a grindstone, a lathe, a feed cutter and dear knows what else. The Aermotor and a pump of this description will irrigate anything from a lawn to a rice plantation.

We have added to our already large stock of garden rakes an assortment of new styles that are bound to jump into favor with people who like to have clean lawns.

We have a stock of Hanging Lamps, which for elegance of finish, durability and power of the burners commend themselves to everyone, even the people who use electricity for lighting purposes. They range in price from four dollars to twenty and you get just double value for your money. You can find a larger stock in the factory where they are made, but not in a store devoted exclusively to the sale of lamps. We're up to date even to the hinges on our doors, which are open from six to five. The goods will draw and the prices win you.

Whirligig sprinklers that require no attention after they are put in the ground have been added to our stock, so we can say we have a general assortment of these things. You can get anything you want in the sprinkler line from us.

HAWAII LEFT OUT.

According to an official statement issued by the Dominion Government, it has been decided to abandon Hawaii as a port for the landing of the Canadian-Australian cable.

LADIES' COLUMN.

If you can stand a little plain honest talk this week of the kind that makes food for meditation and prayer, we will proceed. We are in business to make money, and do it in this way: We buy direct; we sell direct; we buy the best goods our money can get for the least money they can be obtained; that covers the buying branch of the business.

THE DOCTORS.

The doctors are all of one mind on the UNDERWEAR question; they agree that frequent changes are absolutely necessary. We anticipated this and have an immense and well selected stock. We want to specially call your attention this week to our MUSLIN UNDERWEAR. It's worth while to call and look at the trimmings on them.

THE DOG POISONING CASE.

The dog poisoning case occupied the attention of the District Magistrate all this forenoon, and is still being heard this afternoon. Evidence adduced was to the effect that C. Hammer, the defendant in the case, had been seen about the premises of J. Bergenson, who had care of the dog, the afternoon the animal was found dead.

The dog poisoning case occupied the attention of the District Magistrate all this forenoon, and is still being heard this afternoon. Evidence adduced was to the effect that C. Hammer, the defendant in the case, had been seen about the premises of J. Bergenson, who had care of the dog, the afternoon the animal was found dead. The stomach of the dog, which was a half mastiff half kangaroo, was examined by Prof. Lyons and found to contain strychnine.

LATE FOREIGN NEWS.

VICTORIA, B. C., Aug. 16.

THE ORIENTAL WAR.

(For latest war news see 4th page.)

It is said that the Anglo-Russian efforts to bring peace between China and Japan have failed. China insists upon retaining her suzerain rights over Corea. China was willing to negotiate with reference to the proposed reforms, but became incensed on hearing of the sinking of the Kow-Shing, and a settlement is now considered improbable.

Germany has declared neutrality. The Christian Herald of New York has undertaken to raise a contribution of 1000 barrels of flour for the starving Coreans. As the Corean Minister, in warmly returning thanks for the effort, says his country cannot afford the means of transport, the Christian Herald has asked the United States Government to furnish transportation.

Sir Edward Grey, Under Secretary of the Foreign Office, said in the House of Commons that Great Britain would hold Japan responsible for the loss of British life and property from the sinking of the Kow-Shing.

The Western Union Telegraph Company's central cable office at New York has received a despatch from Shanghai, stating that the Chinese land lines to Corea are totally interrupted. The cable route via Nagasaki, beyond Fusan, is also interrupted. With the single exception of Fusan, Corea is completely cut off from all telegraphic communication.

A large number of Japanese officers studying in Europe are hurrying home for the war.

UNITED STATES.

John W. Flood, ex-cashier of the Donohoe-Kelly Bank, San Francisco, on an indictment charging him with feloniously altering a deposit tag which accompanied a check for \$19,000, in April, 1891, has been committed.

The President left Washington for Buzzard Bay this morning. He went on advice of his physician in the hope of shaking off an attack of malaria. He was accompanied only by his physician. All the way to Philadelphia he was under massage treatment. Nobody was allowed to speak to him. The physician denied that the President was seriously ill.

FREE SUGAR.

The free sugar bill has been referred to the finance committee. The vote on the free sugar bill was 32 yeas and 18 nays. The roll call was proceeded with on the same motion in relation to free iron.

A New Orleans despatch says the passage of the Gorman tariff bill has thrown a damper on commercial dealings in New Orleans. At least two-thirds of the population look to the sugar industry for support and any legislation unfavorable to sugar has a decided bad effect on all other commerce out of sympathy for Louisiana's principal product. The sugar exchange yesterday was in a turmoil, the members declaring that the industry would surely be ruined.

OTHER LANDS.

Reports from Pretoria, South Africa, state that the Kaffirs continue to kill the Boer farmers. Troops were expected to arrive at the scene on the 16th inst.

On Aug. 8 the Nicaraguans occupied Bluefields. They lowered the Mosquito flag, loaded it into a cannon and fired a salute with it to the Nicaraguan flag. The British and American marines were withdrawn at the request of the Nicaraguan general. There was a reign of terror among the native inhabitants when the Nicaraguans occupied the place, as there were rumors that they intended to kill the natives. The natives rushed to the docks and begged to be taken away. Nearly all were taken by the British man-of-war.

war Mohawk to Port Limon. The remainder were taken away by private boats. The Nicaraguan general at once proclaimed martial law. There was much disappointment on the part of the American residents on the withdrawal of the marines. The captain of the cruiser Marblehead refused protection to Americans implicated in political intrigues and they left the country.

A despatch from Port Limon, Costa Rica, of the 12th, to London Times announces the arrival of the Mohawk and adds:

"Bluefields was retaken by two thousand Nicaraguans, who arrived from Rama and Greytown, aboard transports flying the United States flag. The American marines re-embarked on their approach, abandoning the American residents, many of whom removed the national flag from their homes, trampled on it and hoisted the British flag. The Nicaraguan officials on entering the government house hauled down the flag and tore it to shreds, hoisted the Mosquito flag and arrested numerous Americans and Jamaicans suspected of sympathizing with Chief Clarence. Captain Stewart went into prison and rescued all who were willing to claim British protection. The Mohawk remains at Port Limon awaiting orders from Great Britain. Chief Clarence is still aboard the Mohawk."

EUROPE.

Sandow, the strong man, was married at Manchester on the 8th inst. to Miss Blanche Brookes, the daughter of a local photographer.

At 5 o'clock this morning Santo Casario, the assassin of President Casrot, was hanged at a point about 50 meters from the prison. He was in a state of terror. When the attendants seized him to lay him under the knife he struggled fiercely to free himself. At 4:55 o'clock all was ready. Casario shouted: "Courage, comrades! Long live anarchy!" The knife fell at 5 o'clock exactly, and Casario's head fell into the basket.

The Wellman expedition has arrived at Tromsø, Norway, all well and in good spirits.

The London Daily News states there has been great activity in all markets since the passage of the American tariff bill. Metal, copper and tin are especially active in anticipation of a large American demand for tin plates.

In the House of Commons an amendment to the Miners' Eight Hour bill was carried, 112 to 107, making it operative only in districts wherein a majority of the electors decided in favor of it. On the passage of this amendment the bill was immediately withdrawn by its promoter.

The House of Lords has thrown out the Evicted Tenants bill, one of the most important measures of the Government's Irish policy.

G. R. Harrison, practical piano and organ maker and tuner, can furnish best factory references. Orders left at Hawaiian News Co. will receive prompt attention. All work guaranteed to be the same as done in factory.

# National Cane Shredder

PATENTED UNDER THE LAWS OF THE HAWAIIAN ISLANDS

THE UNDERSIGNED HAVE BEEN APPOINTED SOLE AGENTS FOR these SHREDDERS and are now prepared to receive orders. The great advantages to be derived from the use of the NATIONAL CANE SHREDDERS are thoroughly established and acknowledged by Planters generally.

The large number of Planters using them in the United States, Cuba, Argentine Republic, Peru, Australia and elsewhere, bear witness to the above claim.

The use of the SHREDDER very largely augments the quantity of cane the mill can grind (25 to 50%), also the extraction of juice (5 to 12%). It is a great safeguard, making known at once the presence of any pieces of iron, stakes from cars, or anything which would be liable to damage the mill, and allowing ample time to remove same before damaging the SHREDDER; and if anything breaks, it is simply some of the knives or cutters, which can be quickly and economically replaced. The SHREDDER, as its name indicates, tears the cane into shreds of varying lengths, perfectly opening it and allowing the mill to thoroughly press out the juices without requiring the immense extra power necessary to grind or crush the whole cane. The SHREDDER spreads the shredded cane uniformly and evenly to the mill rolls, and does away with the necessity of spreading the bagasse by hand between the mills, where regrinding is in use. No greater amount of boiler capacity is required to operate the SHREDDER than that which was sufficient for the mill, for the above reasons. We furnish full working drawings for the installation of our SHREDDERS, enabling any competent engineer to successfully install and start them.

In ordering SHREDDERS from us, please send small sketch, showing the diameter and width of the mill rolls with which SHREDDER is to be connected, also the side (either right or left hand as you face the delivery side of the mill), upon which the mill engine is located, also the height from floor line to center of front mill roll shaft, and distance center shaft to front end of bed plate. These SHREDDERS are now being used by the Hilo Sugar Co. and Hilo Mill, Kohala, where they are giving great satisfaction. Prices and further particulars may be had by applying to—

## THE ORIENTAL WAR

### Great Powers Reported to Have Taken Sides

SAN FRANCISCO, August 16.—The steamer City of Peking will sail today for China and Japan with another large cargo of flour and canned goods. She will take about 1500 barrels of flour and 2500 cases of canned meats and fruits.

LONDON, Aug. 16.—At the Japanese legation nothing has been heard of the sinking of seven Chinese ships by the Japanese fleet. The report is discredited.

The Shanghai correspondent of the Times says 50,000 Japanese troops are already in Corea and others are constantly landing. The Chinese fleet is passive. The correspondent adds: "The war fever in Japan is intense and universal. The press and popular orators are advocating schemes for the conquest of Manchuria. There is a strict censorship over news. Everything reported concerning the war is extremely partisan."

A Shanghai correspondent says that the Governor of Formosa offers six thousand taels for the destruction of any big Japanese warship, four thousand for small warships, two hundred for the heads of Japanese officers, and one hundred for the head of a private.

The Central News Shanghai correspondent says: A fleet of eight vessels is reported to have passed Chu Foo on August 14, bound westward. Chinese officers are joining Chinese troops in Corea in large numbers.

The steamships Taku and Smith have gone back to the Chinese flag. They left Shanghai yesterday laden with troops and rice. It is reported here that both France and Russia are an understanding favorable to Japan, and England and Germany are favorable to China.

A despatch received in London on the 14th from Yokohama says that in an engagement between the Japanese and Chinese fleets on the 11th the Japanese were victorious.

"Your Life is Not Worth a Straw." Not worth a straw, eh? Then it was worth just nothing—nothing at all. Who has not used that comparison a thousand times to express absolute worthlessness? A straw? The wind blows it away, fire burns it up, cattle tread it in the mud, it rots by the roadside. What of it? Who cares for a straw?

Yet this is exactly what a doctor recently said to one of his patients, "Your life is not worth a straw." How much is a doctor worth who will speak so to one that trusts him, and has no hope but in his skill? For my part, if he were up for sale at auction, I would bid one straw for him—no more. Even if what he said was true, he had no right to say it. Such a doctor is more likely to kill with his tongue than to cure with his drugs.

A woman tells the story, and she tells it well. If it doesn't sound like the truth, then I don't know what ever does. The dates and facts are all there, plain and orderly.

"In the summer of 1878," she says, "I found myself feeling tired, languid, low-spirited and weak. I felt as if some evil was about to happen. My appetite was poor, and after eating I had excruciating pain at my loins and sides. There was a horrible pain at the pit of my stomach, and a rising in the throat, as if I should choke. My head ached, though I had not touched it. Gradually I got worse, and for months could take only liquid food. At night I lay awake for hours together.

"Later on I suffered greatly from nervous prostration. My legs trembled and shook so I feared to fall. If a knock came to the door I trembled from head to foot. I had frequent attacks which began with palpitation of the heart, and sudden stoppage of the breath. At these times I was speechless and helpless. They say I looked like a corpse, cold and bloodless, my fingernails and lips having turned black. After a while this would pass off, leaving me weak and prostrate. I got so emaciated and thin that I was only a bag of bones, and so weak I had to take hold of the furniture to steady myself as I crossed the room. As time went on the nervousness and forebodings of evil so increased that I feared I should go out of my mind. The neighbors said it would be no mercy if the Lord would release me from my sufferings.

"In this condition I continued for over four years, during which time I consulted five doctors, but nothing they gave me did any good. They all said my ailment was heart disease, and one said, 'Your life is not worth a straw.'

"In despair I gave up taking physic, as I felt that nothing would save me. In May, 1882, ten years ago, a lady (Mrs. Richardson) called at my house, told me of Mother Seigel's Curative Syrup, and strongly advised me to try it. I did so, and felt somewhat better after the first bottle; and by the time I had taken three bottles I was completely cured. From that to this I have had no return of the attacks, and am so strong I can do any kind of work. But for Seigel's Syrup I should have been in my grave long ago. I wish others to know this, and will answer any who call or write." (Signed) E. W. WICKENDEN (wife of William Wickenden, 123, M'off Road, Thornton Heath, March 17th, 1892.)

So it turned out that her life was not only worth a straw, but worth a whole golden harvest of health and better days. Yet no thanks to the doctors. Her complicated symptoms puzzled and alarmed them, to be sure, but why? Is it not the doctors' duty to understand such things? Most assuredly. Just as a lawyer should know the law, or a pilot the rocks, tides, and lights of a coast. Had some of these medical men known that Mrs. Wickenden's malady was indigestion and dyspepsia, and not heart disease, they might possibly have relieved her. But, confused by the symptoms, they were blind to the cause. We may

well wonder if there are many such doctors in England.

Cases like this show that the clear sight belonged to Mother Seigel; and to her remedy hosts of people in this country are indebted for physical salvation when, in very truth, their lives seemed as straws. Remember this was ten years ago, and the malady had not returned, showing that the cure was a permanent one.

## LUCOL :-

IS THE

### BEST PAINT OIL!

Save Half the Amount of Your Oil Bill Through Saving in Pigment.

Every painter should use Lucol. Instead of Linseed Oil, because:

1. Lucol is more durable than Linseed Oil.
2. Lucol is more economical than Linseed Oil.

### PROOF THAT LUCOL IS MORE DURABLE.

Six years of actual use in exterior house painting in California (the most trying climate for paints), in the burning heat of the Arizona Desert, the Arctic cold of Alaska, and on the Atlantic coast, have fully and practically shown that Lucol, always outwears Linseed Oil under the same conditions. All the acid works in San Francisco have discarded Linseed Oil for Lucol.

### ILLUSTRATE THIS YOURSELF.

Put strong ammonia on Linseed and Lucol paints. The Linseed paints are destroyed in a few minutes; the Lucol paints are practically unaffected.

### PROOF THAT LUCOL IS MORE ECONOMICAL.

Break up 1 1/2 lbs. paste white lead in one pint of Lucol, and the same quantity in one pint of Linseed Oil. Spread the paints on similar dark surfaces for comparison. The Lucol paint spreads as far as and covers much better than the Linseed paint. To get equally good covering with the Linseed paint you have to use 2 1/2 lbs. of white lead to one pint of Linseed Oil. This means a saving of 1 lb. of paste lead to each pint of Lucol used, or 6 lbs. of every gallon, equivalent to your saving more than half the first cost of the Lucol. Lucol is not in competition with cheap Linseed Oil substitutes.
