### VOLAPUK.

This is an age of novelties, inventions, curious schemes and, perhaps it may be added, of colossal humbugs. Volapuk is the latest addition to the technicalities of modern life. It is ingenious enough to be called an invention, original enough to be a novelty, peculiar enough to be an innovation, and apparently impracticable enough to be a humbug. Volapuk is a new language of thirteen thousand words, intended for the use of commercial men the world over. One of the clerical qualifications of future applicants for situations in mercantile houses will be a knowledge of Volapuk. Business men will, on the adoption of Volapuk, be able to understand each other. The Chinese and the Englishman will be in philosophical harmony, and the Hawaiian will be able to order pine and wheat from the forest of British Columbia and the Canadian and American will respond with big orders for sugar, and all through the medium of the to be cosmopolitan and euphonious Volapuk phraseology. An Anglicised definition of the word is beyond our attainments; for we have to confess that we were wicked enough, in our early years, to play truant on the days when Volapuk grammar was on the school room boards. The words of which this new medium of communication is to be composed will be drawn from the English, Latin and Saxon. It is intended to be "spoken on every exchange in the world; the traders of every race will adopt it in buying and selling." The construction of this wonderful language has been seriously undertaken by a Russian philologist. How many generations must arise and pass away before the Hawaiian, English, Chinese, Japanese, Portuguese, German, Italian, French, Latin, Greek, Danish, Norwegian, Spanish, Russian, and other languages in present use on these Islands, will all be absorbed or superseded by Volapuk is a question that we are quite ready to answer, but space being very limited to-day, the answer must be postponed for a future occasion.

### FACTS AND NEWS.

A meeting of one hundred manufacturers of Rhode Island deprecated any revision of the tariff, owing to the manufacturing industries being in a condition of extreme sensitiveness.

A meeting of German Catholics will be held at Munster this month. Dr. Windthorst will take a leading part in it. He proposes a union of the Catholics of the world for the defense of the church. The scheme is approved by the Vatican.

Little girl from Chicago—"Our family is a more aristocratic, family than yours." Little girl from Boston—"No, it isn't. My mother can boast of her forefathers for the past two centuries." — OF —  
**Building Lots at Sea View.**  
By order of B. F. Dillingham, Esq., we will offer at Public Auction,  
**ON SATURDAY, SEPT. 19th,**  
At 12 o'clock noon,

At our Sale-room, (unless previously disposed of at private sale). Those certain VALUABLE LOTS at

**Sea View Estate!**  
As per plan at our office, at upset price from  
**\$100 to \$375.**

An unprecedented chance for people of the most limited means to obtain a homestead of their own. Healthy and cool locality, and commanding a magnificent view of the entire Plains, the Sea, and Diamond Head, and only ten minutes walk from the Punahou Omnibus, with, perhaps, a closer connection, in the near future by Rail to Honolulu.

The property is bounded on the south side by Metcalf street and on the west by Beckwith street, and, in addition to these approaches, there have been laid out two avenues and three roads, each 40 feet wide, so that every lot commands two approaches.

The Woodlawn Dairy is adjacent, so that butter, cream and milk may be had fresh at all times, and all vegetables required for domestic use can be obtained from the Chinese growers.

Water is plentiful, and the property will be supplied from a Reservoir kept constantly supplied from an artesian well situated upon the most elevated portion of the Estate.

There is positively five degrees less temperature upon these lots than in the town of Honolulu, and when the town is hot and dry, there are always cooling and refreshing breezes, accompanied by occasional light showers from the Mauna Valley, which render it exceedingly admirable as a healthy resort.

**TERMS OF SALE.**—One-third Cash. Balance in 1 and 2 years secured by mortgage with interest at 8 percent. Deeds at expense of purchaser.

**VALUABLE**  
**Sugar Property**  
**FOR LEASE.**

The owners of the Princerville Plantation Co. have decided to offer for lease for a term of years a part of their property at Hanalei, Kauai.

There are about 300 acres of rich land suitable for sugar or rice cultivation in Hanalei Valley, which can be delivered up as soon as the present crop of sugar is taken off; with about 350 acres more valley land which can be turned in at the expiration of the present lease in April, 1890.

There are 800 or more acres of good sugar land in the uplands, well irrigated, which can also be delivered up as fast as the present crop of cane is harvested.

There are 180 acres of land in the uplands planted with sugar cane for the crop of 1887, which will be sold upon favorable terms.

All of the lands in this estate have an abundance of water, thus insuring good crops

There are scows, plows, tools, railroad and cars, carts and implements necessary for planting and harvesting crops, which will be sold upon favorable terms; also, 200 head of well-broken working oxen, which will be offered for sale in lots to suit purchasers.

The mill is in good order and capable of manufacturing 70 tons of sugar a week.

All of the above lands will be leased together with the mill for a term of years, or the owners will run the mill at their expense, grinding the sugar cane in shares.

For all particulars apply to Chas. Koelling, Manager at Hanalei, or to

**HAS** on hand and for sale various sized surf boats, constructed on an improved principle of my own invention, each frame being of one piece across the keel. The frames are closer together, and the boats are therefore lighter and less liable to bilge in, than boats of any other build. Each side plank and gunwale is in one piece from stem to stern, and is consequently not liable to strain, there being no midship butts. The material and workmanship are warranted to be of the best quality.

Mr. Robert Lewers, of Lewers & Cooke, will attend to the sale of these boats, and dispose of them at San Francisco prices. 65 1y

The schooner Waioli brought a load of firewood from Puna. The captain reports very rough weather, when he left, and there was every indication of increased roughness.

Schooner Leahi is being hove down. Steamer W G Hall sails to-morrow at 3 p m.

LOCAL & GENERAL NEWS.

Lyons & Levey sell 50,000 sugar bags at noon to-morrow.

Mr. A. Marques is writing urami culture in the Gazette.

The upset price of the sloop Sarah to be sold at auction Saturday is \$300.

A LETTER from Mr. Squires on "The Chinese Question" appears on the fourth page.

The Honolulu Yacht and Boat Club's six-oared racing boat is being doctored by Mr. Johnson.

Mr. Lyeon says the crops on Kaili ranch are looking fine. His imported pineapples are in bloom.

The workmen on the bottom of the Kinau ply their labors at night in the luminous brilliancy of six electric lights.

NUMBER 3 of O Luso Hawaiiiano has been issued. It contains an elucidation of the projected colonization scheme, besides full local and advertising columns.

Now that the last of the Kamehamehas is gone, the white fish moili is said to have taken the place of the small red fish and are being caught by the hundreds.

Mr. Bananaskin Joke, senior, who was seriously injured by a blow from a member of our staff the other day, was so far recovered this morning as to be able to come out for a fresh airing.

The sixteen-oared racing boat with sliding seats being built by Mr. Johnson, boat-builder, for His Majesty, is almost finished. It is one of the finest looking of craft ever seen in Honolulu.

At the auction sale of head stones, etc., at Mr. Nagle, marble cutter's, yesterday, J. Savage bought a large stone for \$17.50; F. Macfarlane, a small cross for \$11, and Mr. A. B. Kerr, two pieces for \$37.

Mr. J. H. Black is trying to organize an expedition to Pearl River to harpoon sharks for their oil. He says that shark's liver oil is the only kind that will burn in a lamp without charring the wick.

A two-horse dray belonging to Huestace & Robertson started from near Ryan's boat-building shop yesterday, and continued at a lively gait to Beretania street, where it was stopped by the driver. No damage was done.

Mr. Geo. Englehardt, formerly with Mr. S. Nott, will open a stove and hardware store about October 1st, in the store formerly occupied by his late employer. Mr. Englehardt expects 100 tons of goods by the Consuelo.

Mr. A. F. Cooke says that the I. I. S. N. Co., when hauling the steamer C. R. Bishop off the rocks at Waialua, not long ago, dragged the Pacific Navigation Co.'s buoy there inshore among the breakers and left it there.

The hum continues at the Iron-works, where is the busiest scene in town. Mr. Young hopes to catch up with the sugar crops, notwithstanding the suddenness of the decision of planters, all at once, to procure maceration mills.

The Australian corned beef in barrels, for sale by Messrs. Hackfeld & Co., is packed without salt. A trial of it justifies the assertion that a finer quality of corned beef has never before been offered here. It does not require soaking to make it palatable.

Those beautifully situated building lots—the Seaview property—at

Punahou, are to be put up at auction on September 19th, if not previously disposed of. It will be seen that terms are offered which place a suburban home within the compass of a very moderately-sized purse.

PRELIMINARY to the grand opening on Saturday, of dry and fancy goods, clothing, boots and shoes, hats and caps, and millinery, at Mr. C. J. Fishel's handsome new building, there will be a grand exhibition and promenade concert by the Royal Hawaiian Band, to-morrow (Friday) evening.

Mr. John Robello, of Palama, bought five good horses last week at Naalehu, Kau. He brought two of them to Honolulu by the W. G. Hall, and will bring the rest another time. Mr. Robello took a strong notion to that locality, and will likely remove there shortly to start a general store.

CAPTAIN Wood returned yesterday from a visit to Koolau. He reports the country looking very green, and "all nature smiles in gladness, man alone being vile." He also says that the wind was so strong at the Pali yesterday that one had to hold his hair on, and that the travel of Chinese over the cliff is increasing every day.

SCENE—Maunakea street; time—this forenoon. The scavenging cart is receiving its load of offal, a cloud of ashes being raised as each receptacle is dumped. Natives in every conceivable attitude are lounging about the doors of Chinese shops. A native woman is tending a child that is lying on a mat in the sun. She is placing leaves about its head as if to ward off fever. A reporter is looking for an item, and here it is.

A GENTLEMAN says that it being against the law to blast fish with giant powder a new device has come into play about these islands. A bottle three fourths filled with lime and the remaining fourth with water, the bottle corked immediately and hermetically sealed, is as good as giant powder. This bottle is thrown into two fathoms of water and in a few minutes there is an explosion which destroys all the fish within a certain radius.

FISHING FOR OPIUM.

On the Mariposa nearing the entrance buoy last Tuesday, a large box was seen to be lowered overboard, a splash was heard, and the box soon disappeared. Information was given to the police. Yesterday, Deputy Marshal Dayton, with police officers and a large staff of native divers, went to the place. After several attempts to fish up the prize, they returned to town disappointed. This would appear to be done as a hoax by employees on board of the Mariposa.

AN ACRE'S WEALTH.

In a case tried before Judge Bickerton this morning, of damages for unlawful ejection, brought by two Chinese against a native landlord, one of the plaintiffs swore an acre of ground yielded them thirty dollars a day in vegetables. The judge failed to perceive the value of such a statement to send abroad for immigration purposes. On the contrary, he considered the testimony of a man who could swear to

such an absurdity as unworthy of credence. The defendant, however, made out the case for the plaintiffs by a frank acknowledgment, in effect, of having taken the law in his own hands, and ten dollars of damages were adjudged against him. Deputy Attorney-General Whiting, on hearing of the Chinaman's appraisal of an acre's value, naively remarked that he would like, at that rate, to go into vegetable-raising himself—if he could get anybody to do the work. So say we all.

MAJOR DANE'S LECTURE.

A treat the like of which a Honolulu audience seldom enjoys is promised on Friday evening. In a notice of Major Dane's lecture, "Up the Rhine and over the Alps with a knapsack," in Sacramento, the Record Union of that city said: "For two hours the lecture held the audience almost breathless, and when it closed the applause was such as is seldom heard within a church building. Arrangements have been made to have Mr. Dane deliver another lecture within a few weeks."

Two cases were continued by consent.

ENGLISH PROGRESS.

"An American," writing some time ago in the Pall Mall Gazette, called attention to the extraordinary increase in recent years in the English-speaking race throughout the world. As to territory alone, he pointed out that while 12,382,686 square miles of territory were occupied or controlled by the two English-speaking nations, the aggregate area divided among twenty-five other nations was only 11,167,620. Comparing populations, instead of areas, he gives the following statistics: English-speaking race, 76,000,000; German (Germany, Austria, Switzerland, etc.), 56,000,000; French, 39,000,000; Italian, 28,000,000; Spanish (with Spanish-American republics), 38,000,000; Portugal (with Brazil), 14,000,000; Scandinavian, 9,000,000. The Russians are omitted, as well as all other members of the Slavonic race. In this computation the half-breeds and mulattos are counted in among those who speak Spanish and Portuguese in South America. In the United States, the negroes, who nevertheless speak English, are left out. As to the Indians, negroes and other non-Caucasian races of which civilized nations have control, he ascribes to the English race 251,000,000, to all other races 72,000,000. He also shows that the English race is swelling its numbers by absorption to an extent with which no other race can compete. In the East the English are occupying ground which other Europeans long looked upon as their exclusive possession, while the English language is becoming practically the language of commerce in Eastern lands. In the United States, the third, often the second, generation of the German, Italian, Spaniard or Frenchman who settles there becomes almost indistinguishably Anglo-Saxon, and knows no tongue but English. In industrial activity and commercial enterprise, "An American" also gives the English (including his own fellow-countrymen) the palm.

THE CHINESE QUESTION.

EDITOR BULLETIN:—An able article in your editorial columns of September 1st, referring to the Paia Plantation troubles and contract system, and one in your issue of the 5th, treating on the Chinese business enterprises, declare undoubtedly the most important questions which are awakening the slumbers of many a Hawaiian citizen at the present time, and also attracting the attention of many of our worthy and even learned writers throughout the Islands. I believe that it will be maintained by able writers hereafter that this contract system has been a perfect failure and the main cause of our political divisions; brought about by flooding our limited shores with large and unnecessary numbers of inferior, unskilled, unprincipled Asiatic coolies; immigrants pouring on our soil by nearly every incoming vessel from the East and from the West: their presence here has caused our citizens to sell off their once valuable property of many years' accumulation and take their departures by every available opportunity for the Coast of America or that of Europe, leaving the country, without even saying aloha! to our statesmen, whom they considered ungrateful and unworthy to rule; leaving all business enterprises on the decline and in a very unsatisfactory and precarious state of depression, with no future prospects of a revival, especially on the part of the Hawaiian or foreign population. It must be clear to an intelligent mind that these Asiatic coolie immigrants are now being imported here for the benefit of the few, and to the detriment and against the will of an overwhelming majority of the people, but more than probable in order to supersede and drive from the Kingdom the first founders of our institutions, the old and once honored puritanical stock of missionaries which has, for some unknown cause, become exceedingly obnoxious to our statesmen, and in order to expel the white laborer whom the Hawaiian rulers consider to be an impediment in the way of holding their independence and their immigrants in serfdom, has shared a like fate, and unwillingly leave a once flourishing kingdom and a beautiful group of islands, which are to pass at no distant day into the hands of Eastern pagans, who at some future day will make an effort to command the commerce of the north Pacific ocean. The Hawaiian officials, by allowing and encouraging a steady and continuous influx of these Eastern hordes, are knowingly crippling our white mercantile pursuits as well as other business enterprises. Their presence is driving from the country the white labor and citizens, their former patrons, leaving the Chinese merchants in nearly absolute control of the retail business and most other branches of trade. Even our internal commerce, except sugar, is fast passing under their control. The Hawaiian Government has been flooding our kingdom with cheap labor immigrants, in order to gratify an insatiable desire of a small number of planters to accumulate wealth and notoriety, and after term of contract expired they, these immigrants, were let loose to do business in our kingdom, and others were sought and brought here, and this process has continued without interruption, until now we are on the point of a national crisis and awake to the danger of our situation to find them firmly established in every branch of trade, invading and seizing Hawaiian rights, encouraging immorality, establishing heathen temples, worshipping heathen doctrines unknown to the Hawaiians since shortly after they came in contact with western civilization. They now own nearly all the stores in the immediate vicinity of plantations, and receive a very large and considerable portion of the money paid by the planters to laborers. To this amount add the native patronage and the whole rice productions which are under their (Chinese) control and it will be plainly seen that there is only a small portion of our circulating medium left to percolate through the hands of white or Hawaiian merchants. It is a noted and indisputable fact that the business of this country is fast passing under Asiatic or pagan control, and that, by the consent of this Government and with the assistance and protection of our leading statesmen, the Chinese have succeeded in driving out, as I said before, many of the white race, and securing to themselves a large portion of the native lands, and by the united help of each other they are gradually becoming masters of the situation and forcing our white merchant into bankruptcy. Now if this process continue for a period of two years longer without interruption, the fate of these Islands will be sealed beyond redemption to the sons of Confucius, and, moreover, if the Asiatic is allowed the same privileges hereafter which he now enjoys under the

fostering care and protection bestowed on him by His Majesty's officials, in the near future every white merchant will be compelled to retire from business at great sacrifice and bid a lasting farewell to this his adopted country. With the equal rights granted them and their combining into societies, it has been allowed them to command a formidable financial position; send our gold from the kingdom and obstruct and prevent our gold law being successfully put in force; real estate either by purchase or lease is being fast converted by them into rice farms, hog, chicken and duck ranches; thereon they erect structures of the most ordinary kind, containing filth and corruption which is allowed by the Government to become the adopted home of many a native until he and his daughter are considered by the ruling authorities fit subjects for the leper settlement or the insane asylum. Such is a very faint picture of our present situation brought about by incompetent and unworthy statesmen, all the time well knowing that the native subject has daily been becoming poorer even to a state of starvation and destitution, and at the same time unable to obtain employment to appease his hunger unless he be willing to bind himself to work under a Hawaiian labor contract. While flooding this kingdom with eastern pagans, the Hawaiian Ministers have been endeavoring to blind the people and justify their policy under a pretense of supplying the wants of a small minority of now silent planters, who undoubtedly have more genuine respect and sympathy for a plantation mule than a Hawaiian official. In the editorial column of the Government journal of August 28th the following appears, evidently written for a political purpose to secure support at the next coming election and prepare the public for the reception of a large number more of Asiatic paupers. I quote: "Chinese labor exists in these Islands as in California, with this difference, that here the Chinamen have got astride the country, while they are not so securely fixed in the Golden States. It will take very judicious management and a patriotic and enlightened policy on the part of the legislature and land owners of the kingdom if this Chinese incubus is to be removed." I certainly quite agree with the learned writer's opinion that it will require a firm and determined stand to be made hereafter by the people, and if I rightly sum up public opinion they will have more use for Winchester rifles in future than they will have for a legislature to check and settle this "Chinese incubus," especially knowing at this present time that Hawaiian agents and brokers in Hongkong are selling return certificates at thirty and forty dollars apiece, allowing Chinese to land here under the protection of Hawaiian laws. Sir, the question now arises, what course are we to pursue in future, and in what manner are we to rectify the existing evil, protect ourselves, unite a disunited people, regain our lost prestige and good-will and support of capitalists here and in foreign nations, and hold our treaty with America, our acknowledged benefactor, and once more raise the Hawaiian from a state of lethargy which now exists and place the Islands in a state of prosperity, and hereafter repopulate the Kingdom with a race of intelligent people who in future will become beneficial to the country, useful as small farmers, useful as plantation laborers, capable of becoming good artisans or statesmen? If I do not mistake the general tone of public opinion an overwhelming majority favor putting an entire check to this inhuman traffic in coolies being landed here by the Government and bound into bondage, or more properly termed Hawaiian slavery, in order to fill the coffers of leading statesmen and gratify the desire of a very small number of planters who are encouraging this traffic in order to enrich themselves so as to leave to their posterity large landed estates and property, they well knowing that this cheap coolie labor has driven from the soil their own countrymen, thereby causing a serious depression in all business enterprises save their own. Now in order to clear away a cloud that threatens to burst and engulf the nation again, the good will and support of capitalists and retain the Hawaiian flag now regarded with no favor, we must put a speedy and final check to this Chinese encroachment. There are two ways of accomplishing this object—one is by force, which should not for one moment be entertained until failure of all legal and fair means; the other is to use our exertions and place representatives in the next Legislature who must pledge themselves to carry another law to prevent in the future any Chinaman from holding or being interested in any wholesale or retail business license to carry on in this Kingdom. As soon as this shall be accomplished the King, His Majesty, will secure the goodwill and support of his native and foreign subjects, and the capital now lying dormant in this Kingdom will be invested in pur-

chasing property now held by Chinese merchants and speculators, who are financially and commercially ruling the Islands. One year from the day that a restriction act shall receive His Majesty's signature, a large portion of the finance of the Islands will be directed and flow into the hands of the Anglo-Saxons and natives of the soil, which now a very large portion goes to enrich and is passing through the hands of Asiatic. When this shall be accomplished hundreds of filthy deadfalls now in existence in all parts of this Kingdom will disappear; no longer to entice the young Hawaiian female to pursue a life of voluptuousness and immorality; the former owners or proprietors of these dens of contagion will "go out" from the country or go to work on a plantation for fair wages as field laborers, in their proper place. This policy, if pursued, would supply all the planters of the Islands with labor under a free working system, the only system which has ever successfully built up a country either monarchial or republican; the value of plantation, sugar and rice lands would rise to a fair level, and the Chinese themselves would in their rice lands share the general prosperity by renting at a reasonable figure and getting a large return for their labor, capital, etc. Under these circumstances I opine that it will be no longer necessary for Hawaiian statesmen or planters, to keep the paid writers in foreign countries, or agents in Washington, to hold a treaty intended by American statesmen to benefit the Hawaiian instead of Eastern paupers, nor the large participators of the benefits of that treaty. When these Chinese are barred the right of holding licenses they will then be compelled to purchase food, clothing, farming utensils, and all necessities of life from the white merchants, who will purchase them from American manufacturers instead of purchasing them in British Hongkong, paying by American gold. When such a policy as I have outlined shall eventuate, the Chinese merchant and coolie will be the servant instead of the master, and the Hawaiian Government will be no longer able to bring here coolies from the Eastern Empire to be bound into bondage under unjust and unfair laws wholly in favor of the master. The existing *de facto* slavery will be swept away. No longer will the Hawaiian official or planter be obliged to lobby in Washington, to hold a treaty which under present circumstances they deserve not to hold; no longer will an unfeeling oppressive master or the Government have the right to imprison these unfortunate laborers for violating overseers' orders or labor contracts; no longer will contract laborers be seen working in a Hawaiian chain-gang in preference to serving out their plantation contract; no more the owner, pseudo master or employer will, if he feel disposed, dare to wield his automatic thunder and hard commands to his fellow-being; no more will be heard of hard times and a disunited people and utterances of condemnation and dissatisfaction which are now heard in the highest and lowest circles in this land; no longer will Hawaiian bonds be placed on a foreign or home market without a taker; no longer will the people refuse the Government means to redeem her currency, which she has been obliged to repudiate; no longer will our islands and people be branded by civilized nations as a slaveholding kingdom; no longer will the people be taxed to build and repair stockades to hold Japanese whom the Hawaiian planter is unable to satisfy or control; no longer will the people be obliged to submit to taxation to feed and maintain foreign coolies unwilling to work for their master whom I understand has awarded them kind treatment, and no more will our rulers be able to run in worthless immigrants and bring them into bondage under laws now in existence, expressly made for their government, then unlawfully and without just authority supersede our statute laws by a ministerial order, done so for the purpose of fulfilling an agreement with the Asiatic potentate, the Mikado, who already has a long eye on these islands, with his High Commissioners here looking out for his interests in the kingdom. Thanking you for space kindly granted, I will close this rather long letter and await public approval or condemnation. Z. Y. SQUARES. Honolulu, Sept. 7th, 1885.
